THE PROOF OF THE PUDDING

In comparing the merits of various investments offered the public over a period of several years, we believe you will find the shares of this Company have proved their tested superiority. A record of 47 years of continuous dividends is a record of which we are justly proud.

Certificates are issued in multiples of \$20 and \$25 and pro-vide either for cash semi-annual dividends or for allowing the dividends to accumulate. Detailed information will be gladly furnished.

cheaper even than matches!

A box of safety matches costs but ONE CENT. Each single match lights for some twenty seconds at mostthe sixty matches of the box representing twenty minutes of the faintest light.

A kilowatt of electricity keeps a 25 watt electric lamp burning for 40 hours. ALL THIS lighting service for little more than a nickel, on the average.

Your cent in safety matches wastes away in twenty minutes. Your penny in electricity lights a lamp four or five times longer.

ELECTRICITY IS CHEAP!

we are to be of help to our neight both. The right way is the way not of self-will, but of obedience to of self-will, but of obedience to the right way is the way not though to material sense it may seem clouded and uncertain, thir way is always clear to spiritus seem clouded who have taked the loys of spiritual victory, there can be no turnish pack. To go forward it the only way.—The Ohrie-ton Money Choulter.

QUESTIONS THAT ARE ASKED ABOUT BANKING

What obligations do I have to my Bank?"

Your bank assumes important obligations when it accepts your money for deposit. In return it ask from you:

—Your confidence—for nithout the confidence of depositors no bank can operate successfully.

Four support of its policy of making only sound loans of your money and that of other depositors.

other depositors.

Tour understanding and endorsement of the fundamental boulding principle that in order to give you and the community a sound, well managed bank it must avoid operating losses in conducting its accounts. It does this through moderate service charges where circumstances require.

A bank is primarily a community enterprise. While good management and good service are essential it cannot operate successfully with the confidence and aid of its depositors.

SKILLED LABOR SHORTAGE

SKILLED LABOR SHORTAGE

The department of labor warns of a possible shortage in skilled workers. This is due to the fact that in a depression when labor is at meant comparison cases to train new workers to supply normal issees due to death, disability, etc. When business picks up in often tops its previous speed and more labor of the skilled type is in demand.

This report should be encouraging to those on relief jobs who are seeking better employment, and to those who are not estimate diverse would get in touch with employment agencies they may receive aid in following employment trends and in finding where training can be had to qualify them for skilled jobs.

DON'T KNOCK

It is well to remember that you cannot climb by dragging others down. Your progress doesn't depend on other people's mistakes, your fortune on their misfortune. Success is a positive attainment. It is built on what you do, not on what others don't.

THE BEACON OF LIBERTY

THE BEACON OF LIBERTY

That we cannot let the Supreme Court of these United States become the tool of any one man is best expressed in two paragraphs taken from the book, 'The Constitution of the United States,' by James M. Beck. 'The Supreme Court of the United States compels the living generation, too often swept by selfsh interests and frenzied passions, to respect the immutable principles of liberty and justice. The court is thus the trustee for the mod excess of party strife in living generation. Thus the court must often affront the pride of power of temporary majorities.' And Mr. Beck continues along these lines, which were written in the year 1924, by saying, "The American republic has attempted for over one hundred and thirty years and on a scale unprecedentedly vast to solve the great problem of government by the people. It has been a period of force controversy and bitter party strife. Like the ocean, the political life of the American republic is at times placid, with hardly a ripple upon its surface, and then the furious storms of discontent lash the waters into volon; and angry seas. But always the supreme court stands as a great lighthouse, and even when the wave stands as a great lighthouse, and even when the wave stands as a great lighthouse, and even when the value of the waters with the benignant rays of those immutable principles of liberty and justice, which alone can make a nation free as well as strong."

This has been the history of our Supreme Court. Its power is now being threatened in Washington. We cannot fail in our duty to see that it shall always remain to be the lighthouse that sends forth the benignant rays of liberty. And we can bet, it complish this duty by writing our congressmen today, to exert all possible influence against the president's proposed Federal Judiciary Reform bill.

Great minds have often been inconsistent minds.

Use your sense of humor for consolation purposes

MODERN WOMEN

\$2,000

Fire Loss vs. \$1,000 FIRE INSURANCE

one expects a \$1,000 No one expects a \$1,000 fire insurance policy to cover a \$2,000 fire loss, yet the sad fact remains that every year property towars who carry fire insurance lose millions of dollars... because they are UNDER-INSURED.

One would wonder why a homeowner shrewd enough to protect himself with finistrance would not make the reason as sometimes the reason as sometimes first processing the programming the programming the programming fines for the programming of the programming the programming fines for the programming fines for the programming fines for the programming fines for the programming for the pr

With property values increasing, every homeowner should check this matter immediately. We shall be gaad to help you. Come in, write or telephone.
