QUESTIONS THAT ARE ASKED ABOUT BANKING

What is meant by a Bank's capital and surplus?"

The "capital" of a bank is the amount of money the stockholders have invested as owners of the bank. The Federal and State governments have minimum capital, and frequently subscribed surplus requirements that must be met before a bank charter is issued. In addition, the "surplus" of a bank is built up, usually out of carnings set aside to increase the protection of depositors. In addition, there are reserves for meeting known liabilities or guarding against contingencies. The capital, surplus and undivided profits constitute an element of protection to a bank's depositors which supplements its policies of sound, honest management in safeguarding the funds entrusted to its care and applying them in useful loans and investments.

QUESTIONS THAT ARE ASKED ABOUT BANKING

What is meant by a Bank's capital and surplus?"

The "capital" of a bank is the amount of money the stockholders have invested as owners of the bank. The Federal and State

owners of the bank. The Federal and State governments have minimum capital, and frequently subscribed surplus, requirements that must be met before a bank charter is issued. In addition, the "surplus" of a bank is built up, usually out of earnings set aside to built up, usually out of depositors. In addition, there are reserves for meeting known liabilities or guarding against contingencies. The capital, surplus and undivided profits a constitute an element of protection to a

The capital, surplus and undivided profits constitute an element of protection to a bank's depositors which supplements its policies of sound, honest management in sefeguarding the funds entrusted to its care and applying them inuseful loans and investments.

Wealth

The European peasant measures wealth by the dimensions of his farm or by the gold he has stored away.

The true measure of wealth is the "standard of living." This means not only the comfort of our daily lives, but the amount of leisure time which we

The electrical industry is contributing to the wealth of the nation by adding to the comfort and convenience of living and to the amount of leisure time which the average citizen has at his disposal.

We are selling service, not commodities.
