Take Notice!

We do not blow hard about prices on cheap goods. For inferior goods are dear at any price. Neither have we any money to give away as we have to live the same as other people. But we can buy good honest goods as cheap as the next man and our light expenses will enable us to sell them at as close a margin of profit as the largest dealers. We will do so. Call and be convinced.

A TRIUMPH

Free Trade Fallacies Shown Under.

MCKINLEY RE-ELECTED BY 50,000 PLURALITY.

New York Goes Republican by 65,000 Majority.

HOWA IN LINE, 35,000 MAJORITY.

Tuesday last was a Waterloo for Democracy. All the northern states in which elections were held gave unprecedented majorities for the Republicans.

Even the most sanguine Democrats conceded Republican success in Ohio but they were unprepared for the terrible onslaught made all along the line.

The Populists were routed in their strong-hold-Kansas, and the Republican county ticket was elected in 90 out of 105 counties.

Judge Gary was re-elected in Chicago. His election is a rebuke to anarchism as represented by Altheim.

Will McKinley was elected mayor of Detroit by 5000 majority. Although Democracy made a strong fight against him, he won a brilliant victory.

Pennsylvania's Republican majority will reach 110,000. Colorado is Republican by a large majority.

Massachusetts gives a handsome Republican majority. Even New Jersey has stepped out of the Democratic ranks into the Republican fold.

As far as can be learned the only crumb of comfort the Democrats have out of the election, is that Utah shows Democratic gains. It is also believed that they carried Kentucky by a small majority.

The Inter Ocean says: "The action of the constituencies that voted yesterday may be likened to that of a grand jury that has found a true bill of indictment against the poverty and hunger-begging policy of the Democratic party."

The protective system of tariff has won a decided victory. The result plainly speaks the sentiments of the masses.

McKinley, as the champion of protection to home industries, is the logical candidate for the presidency in 1896.

An Enjoyable Occasion.

The Session of the Presbyterian church gave a quarterly Reception at the church parlors Tuesday evening. It was a pleasant social event, and refreshments were served. This above program of the evening, was preceded by a masterly address by Rev. James Todd, D. D. of Escanaba. Mr. Todd is not a stranger to the people of Manistique, and those bearing his effort upon this occasion, hope that he may, more frequently visit us and give us the benefit of his erudition, and eloquence.

The address was rich in gems of thought, wit, and advice, and the church member, hearing it certainly received a deeper conviction of the responsibility such relationship implies and the duties incumbent upon him as a member.

We had intended publishing extracts from the address, but every word of it was pure gold and too valuable to omit, and not having the space to publish it entire, we were compelled to omit all.

It is to be hoped that Dr. Todd may be secured to deliver another address here during the winter. Should he be prevailed upon to come, it goes without saying that all

those that heard him Tuesday evening will be in attendance, and that every one will bring at least five friends to share the evening's feast.

These receptions will hereafter be held quarterly. By this plan the membership will be afforded an opportunity of becoming better acquainted, with each other.

Court News.

Circuit court convened in special session Friday, Judge Steere presiding.

All taxes for 1891 in Gernfask township were rejected.

Inwood's highway labor tax was rejected.

The portion of the county tax relating to Sheriff's salary was rejected.

Maud Ringless-Robbins was granted a decree of divorce from Eugene Robbings.

Lizzie Burns was granted a decree of divorce from Walter Burns.

Will Manistique have union Thanksgiving services this year?

John Loose is receiving 200 cases of mineral water this week.

Rev. Jas. Todd, D. D., of Escanaba, was a pleasant caller yesterday.

Chas McNeil worsted the Minneapolis giant in the glove fight held at Corinne Saturday night.

H. P. Howell purchased a large stock of goods while in Chicago. He is receiving consignments daily.

Judge Miller Rose makes a splendid justice of the peace. Several cases were decided in his court this week.

Dennis Hefron has moved into rooms on Cedar street. The house vacated by him is now occupied by L. Bloom the barber.

"Time will tell" when it comes to making a prediction on the probable duration of winter, or as to how long winter and spring will carry on a flirtation.

Miss Florence Mason entertained a number of her little friends Tuesday, by giving a birthday party. Refreshments were served and all had a big time.

More than a dozen persons have signified their intention of attending the night school. We understand that another meeting will be held Saturday evening to perfect arrangements.

John Hackenbach contemplates purchasing the building now occupied by Mr. Gorman. He will move it on a lot west of its present location, and after fitting it up will use it for a barber shop.

The lady friends of Mrs. A. E. Dickerson of Thompson gave her a surprise birthday party last Saturday. She was the recipient of many tokens of esteem. Refreshments were served and a very enjoyable evening was spent by all.

We received a Canadian paper in which was published a long article written by Dr. Rennick, the veterinary surgeon who was formerly located here. The Doctor purports to explain the financial situation in this section, and a perusal of his article would make a horse laugh. The secret of the whole matter is that the Doctor did not meet with that degree of success commensurate with his ability, and in consequence looks at us with blue goggles.

The Huron Hotel of St. Ignace, was burned Sunday. Loss \$1,500.

Rev. Rogers will conclude his series of sermons on The World's Religions, next Sunday evening.

Under the new law the Michigan Central railroad company will have to pay an increase of \$50,000 in its taxes.

The Michigan Agricultural college gets Michigan's exhibit in the agricultural and forestry exhibits at the world's fair.

The Buell will bring a cargo of apples for the C. L. Store. If you want apples for the winter leave your orders at once.

The C. L. Store is to have a special sale in two lines Saturday. Read their advertisement. It will pay you to attend the sale.

Churches, societies and secret orders have free access to the columns of this paper at any time for the publishing of notices.

Corner grocery stores will have to place an extra cracker box in the local circle of the regular loafers, this winter, for the man who has been to the world's fair.

The extraordinary session of Congress cost the country \$500,000. It would take an expert mathematician to figure out what the dear people got for the outlay of this large sum.

The young people union of the Baptist church will give a library school at the residence of Mrs. M. C. Miller, Wednesday evening, Nov. 15. All are cordially invited.

Capt. E. D. Coffey and Patrick McNamara have reorganized the St. John's Mineral Water Co. of Green Bay and are now prepared to supply the public with this health giving water.

Three hundred persons were lynched in the South during the last ten months. No wonder the colored people are anxious to get a billion dollars from Congress for colonization purposes.

There will be a grand masquerade ball next Friday evening, Nov. 10th, at the Lakeside Hall. Two prizes will be given, one to the nearest lady and one to the most comical gent. Admission only 75 cts.

The Evening Leader is now giving reasons why Menominee did not miss much by not getting the new asylum. This looks very much like a case of sour grapes. The Menominee papers worked hard to secure the prize.

"Billy" Smith head baggage smasher at the dock warehouse, is smoking a meerschaum pipe, presented to him by a tobacco house for his faithfulness and persistence in smoking a particular brand of tobacco with a price attached.

Had Manistique a transient officer it would necessitate the erection of another large school building. Some of the teachers have eighty or more pupils under charge, and three more rooms are absolutely necessary at the present time for the accommodation of the six hundred pupils now in attendance.

Manistique has very few citizens of the male persuasion that would, or in fact could, successfully perform the duties of superintendent of our public schools. The schools are in charge of a lady this year, and that she is doing good and satisfactory work is known to all. Here's a striking argument for equal suffrage.

The exercise of suffrage is denied ladies capable of doing such work while the lowest, most degraded and illiterate man or men in the community are granted the power to decide by their votes the manner in which communities, states and nations should be governed.

A Bestman is making many improvements on the Gasperich property which he recently purchased. When "Abe" gets through with his contemplated improvements, he will have a very handsome residence.

The remains of Miss Nellie Sharkey were removed, Monday, to another lot in the cemetery. Although the body had been buried for nearly a year the features were very lifelike. A handsome monument was also placed over the new resting place this week.

The shipping of lumber from this port has been quite brisk the past week. The Albany and consorts, the A. Weston and consorts, John Spry, L. M. Davis, C. H. Stark, Maggie Duncan and consorts, Rhoda Stewart and consorts, Rising Star, Germanina and consorts, Margaret Dall, and Lotus all cleared with lumber.

The doing out of political spoils, or rather the manner in which it is being done, has disrupted the Democratic party in the upper peninsula. Politicians with headquarters at Detroit or Washington, are taking entirely too much interest in the disposition of appointments and local politicians are continually being ignored.

Phil McKenna of the Escanaba Mirror, questioned the veracity of "the man from Texas" when he predicted McKinley's election by 40,000 majority. We admit that as a predictor we are not a success. His majority was 50,000 instead of 40,000 as we predicted. Will the man from Cork present the "man from Texas" that "cowboy hat"?

Archdeacon Williams of Marquette, will hold Episcopal services at the Central school building next Sabbath morning at 10:30 and at 7:00 o'clock in the evening. During his stay here the Archdeacon will complete arrangements for a continuation of regular services for the mission here. Mr. Williams is a very eloquent speaker and should be heard by all.

The daily papers of yesterday give a detailed account of the sinking of 20 propellers off Point Aux Barques Tuesday. The boats were the Western Transit Co., and the Philadelphia of the Anchor Line. The disaster was the result of a collision during a fog. Twenty-five lives were lost by the capsizing of yawl boats. The cargoes consisted of coal, grain and general merchandise.

If you take a trip or have visitors, don't get "hot under the collar" because your local paper fails to chronicle the fact. New papers are always glad to publish such items. Hereafter hand these facts to the editor and they will be cheerfully published. Intuition is a characteristic abnormally developed in newspaper men, but there are things that must be mentioned to them before they know them.

PERSONAL MENTION.
W. H. Hill returned from Manistique Tuesday.
Frank Clark is expected to return Saturday.
E. A. Proulx of Cheboygan is in the city.

Hon. L. G. Palmer U. S. District Attorney for the western district of Michigan, was in the city on local business last Thursday.

Sam Workman returned from Garden Monday where he had been selling goods for the past two weeks. Sam says business was good.

Mrs. MacPherson, who resides at Topham, Canada, arrived in the city Tuesday evening and is the guest of her mother Mrs. Dr. McQuinn.

Ed Jones left for Cheboygan Saturday morning where he visited friends and relatives until Tuesday. Mrs. Jones and Miss Pearl returned with him.

Philip McCall and sister, of Chicago attended the funeral of their brother at Garden Bay Thursday. It will be remembered that Mr. McCall died in this city Tuesday night of last week.

D. C. Byers, principal of the Thompson schools was a caller Saturday. He reports it scholars in attendance in the schools. Miss Foster took charge of the primary department Monday. The town hall has been utilized for this department.

Frank Peters, the popular, versatile and brainy lawyer from Newberry, was in the city last week on local business. Mr. Peters is a young man comparatively but he is forging to the front politically and otherwise with a rapid rate, and is winning favor and dollars in life's race.

Capt. B. D. Wingard returned from Escanaba yesterday morning. The Captain has been appointed deputy collector of customs for the port of Escanaba. Although the salary is not large, the Captain's many friends here are glad that he was successful in his effort to capture the appointment.

We are in receipt of late copies of the Evening Leader the new venture in Menominee. It is published in the Democrat office and Soula & O'Donnell are to be congratulated upon the metropolitan appearance of the juvenile daily paper.

In the Forestry building at the worlds fair, we noticed a section of a tree in the Kentucky exhibit, labeled "From the birth place of Hon. Jefferson Davis." The word Hon. was underscored, and close to the label was a card offering \$150 for the apprehension and arrest of any one defacing the label.

The Grand Trunk railroad will have a number of damage suits to contest, growing out of the Battle Creek slaughter. The Bradley children have entered suit against the company for \$85,000 for the death of their parents. This wreck alone will cost that road more than \$1,000,000, before all claims are settled.

A Colorado county with 400 voters has eleven district political parties and each party had a ticket out on election day. It was formerly a Populist county. One of the tenets of faith in that party is that the office should seek the man. In order to give the office a show we presume it was a necessity to have eleven factional parties.

At Engatage, a station in the woods on the Soo Line, there is a log depot that is really artistic in its architectural arrangements. Jim Russell of the Marquette Mining Journal, gave it out that the reason Newberry got the new asylum was because it was a celery growing center. As celery is a glory for the nerves and as diseases of the mind originate from diseased nerves, Russell's conclusion must be correct. Russell acknowledges the receipt of a box of celery from Newberry in the Journal of Monday.

The founding of a daily newspaper at the Soo, has been agitated for some time, but none of this agitation has emanated from either the News or the Democrat offices. The papers published outside of that city are endeavoring to force Osborn or Burdard into a scheme that, if followed out will certainly result in a poor weekly and a poorer daily paper.

Daily ventures in towns the size of the Soo or Menominee, usually die of summer complaint after perfecting the complete ruin of the progenitor.

As expected, the assassin of Mayor Harrison will plead the insanity act. It is always so when a conspicuous murder is committed. If the wretch is too dull-witted to frame this as an excuse, there are many, otherwise sensible people, that will advance the theory for him. Learned specialists endeavored to prove that Guticau was mentally irresponsible for the act that robbed a nation of its president. It is not necessary that a man's mind shall be perfect in its operations in order that he shall be responsible. A man sane enough to conceive a plot having an assassination for its central figure, is sane enough to hang for his crime.

Algheld who pardoned the anarchists, and who will be known in history for this act alone, is waging a relentless war upon Judge Gary, who presided over the trial of these government annihilators, and gave them a just sentence. This pardoner who has prostituted the office of governor of one of the greatest states in the union, by countenancing and catering to the desires of a class that threaten the very foundations of this country, has placed himself at the head of a faction in politics, and, by his actions, desires to defeat the political aspirations of every prominent man that has anything to do with the subjection of anarchy in Chicago. Republicans can be very thankful of one thing. Algheld is a Democrat.

The Mid winter exposition to be held at San Francisco this winter, opens, January 1st and closes June 1st. Now since the worlds fair is closed the newspapers will have more to say concerning the rival exposition so shortly to open its gates on the Pacific Coast. Many of the exhibits of the late world's fair will be transferred to San Francisco. The California exhibit at Chicago was wonderfully interesting and hours could have been spent profitably too, in the building of that state. Californians are very enterprising, and are firm in their belief that there is but one state in these United States—their own. The exposition will be worth going to see, and from indications, there will be a great influx of residents from the frozen north and east, to the balmy, summer-like confines of California this winter.

Thursday, November 30th, has been designated as a day of Thanksgiving by the President. Although this has been a year fraught with financial disaster and ruin to us as a nation, yet we as a community and as individuals, have much to be thankful for. Labor has reaped its just reward here during the past year, while in other sections, honest toil has gone begging for bread.

We have been free from pestilential visitation while neighboring cities have felt the blighting breath of disease and death.

Fortune is fickle; some prosper while others meet with adversity. If you have been favored, celebrate the day by furnishing some nicely family with a barrel of flour, clothing and a dinner. The only way to be happy in your thankfulness, is to "make oth'r happy. Make it a day of Thanksgiving in all the terms inplies.

School teachers are generally supposed to have an easy time of it. As a matter of fact they are supposed to labor six hours a day and five days constitutes a week's work. We are safe in saying that the majority of teachers in graded schools devote from ten to fifteen hours every day in their work and in preparation for their work. They are as busy on Saturdays as on any other day of the week, and we know teachers that are compelled to devote a portion of Sunday also in order to keep up with their work.

The teacher in a graded school that does not receive \$75 a month, is underpaid. The laboring man with strong arms, and without previous preparation, can earn as much or more each week as is paid the average school teacher for the same period of time.

To become proficient in the profession of teaching, one must expend time and money in securing a degree of proficiency rarely required in other more lucrative professions. At \$75 per month, the teacher can earn only \$600 a year, as eight months generally constitutes a school year. The majority of teachers are paid less than \$400 a year.

Then, too, teachers have a responsibility much under-estimated. They virtually hold the destiny of the country in their hands. Habits, good or evil, are contracted the period of school life. Youth is plastic in the hands of the teacher; it may assume the form of future greatness, or result in an idle, listless, unproductive life.

The strength of this nation lies in its admirable public school system. Other avenues for earning a livelihood are constantly being developed, and one constantly to successful, by each school can step into good positions where labor and ability receive their just rewards.

The teachers employed in the public schools of this city are paid good salaries when compared to salaries paid elsewhere. But the fact nevertheless remains that the salaries are very meagre when compared to remuneration other professions are offering.

When teachers are paid what they really earn then it will not be necessary for communities to advertise for teachers.

A duke during the middle ages was an independent sovereign. The duke of Austria were dukes. The title lost its luster of independence during the reign of Louis XIII of France.

ACUTE IMAGINATION.

INSTANCES OF TRICKS THE BRAIN HAS PLAYED ON MORTALS.

Experiments Made by Doctors Which Have Produced the Most Astonishing and Fatal Results.

It is said that some 20 years ago a long wooden box, resembling a plain paper's box, might be seen inside the north window of a certain building. One day it was passed without notice by the many people who visited the minister. The box was very small, and the minister, who was standing by the door, saw the box as it came from the door. The minister saw the box as it came from the door, and he saw it as it came from the door. The minister saw the box as it came from the door, and he saw it as it came from the door.

The patient was taken to the operating table, and there, without consulting the man, the doctor proceeded to proceed with the amputation.

"Oh, holy Virgin Mary, the pain is frightful! I am dying," shrieked the patient.

"Now, gentlemen," said the governor, addressing the condemned man, "the superior has decreed that each of you are to be executed in different ways. You, —," he pointed, addressing the first criminal, "is condemned to swallow a quart of poison while you, —," turning to the next, "will be led to death, and you," speaking to the last man, who was trembling violently, "will die from an injection of poison in the arm."

Each criminal was placed in a chair, and the executioner stepped forward, looking at his watch.

"Now, doctor, you may begin."

"Kill me!" he roared. "Murder me in any way but this! Before you could speak upon the fathers' necks him and forced the liquid down his throat."

"He will be dead in two minutes," whispered the doctor to the governor.

"You see how low you have become," said the doctor in the man's hearing.

"He is losing blood rapidly," the physician went on describing the symptoms and at length pronounced the words, "Now he's dying!"

Another remarkable feat was the trick played by the imagination is often noted. Many people conceive an average of the most beautiful flowers, perfumes and colors. One man, noted for his ability, hated green colors. He had a notion—how it originated no one can tell—that green was dangerous to him. Accordingly he was rarely able to go out into the country except at night.

Thanksgiving Proclamation.

The president has issued the following Thanksgiving proclamation: While the American people should every day remember with pride and thanksgiving the Divine goodness and mercy which have followed them since their beginning as a nation, it is fitting that one day in each year should be especially devoted to the contemplation of the blessings we have received from the hand of God and to the grateful acknowledgment of His loving kindness.

Therefore I, Grover Cleveland, President of the United States, do hereby designate and set apart Thursday, the 30th day of the present month of November, as a Day of Thanksgiving and Prayer to be kept and observed by all the people of our land.

On this day let us forego our ordinary work and employments and assemble in our usual places of worship where we may recall all that God has done for us and where from grateful hearts our united tribute of praise and song may reach the throne of grace. Let the reunion of kindred and the social meeting of friends lend cheer and enjoyment to the day and let generous gifts of charity for the relief of the poor and needy prove the sincerity of our Thanksgiving. The Cosmopolitan Magazine

—AND THE—

The Weekly Tribune.

BOTH FOR \$2.50 PER YEAR.

THE GREAT ILLUSTRATED MONTHLIES have in the past sold for \$3.00 a year. It was a wonder to printers how The Cosmopolitan, with its yearly 1500 pages of reading matter by the greatest writers of the world, and its 100 illustrations by clever artists could be furnished for \$3.00 a year. In January last it put in the most perfect magazine printing plant in the world, and now comes what is really a wonder.

We will Cut the Price of the Magazine in Half for You!

Think of it, 108 pages of reading matter, with over 100 illustrations—a volume that would sell for double the price at \$3.00.

For Only 12-1-2 Cents.

We will send you THE COSMOPOLITAN MAGAZINE, which has the strongest stand of regular contributors of any existing periodical, and THE WEEKLY TRIBUNE.

CHEAP CHARITY

Capt. Frank Crawford's Address: Capt. Frank Crawford, the post of the plains, tells a story on himself that will be repeated...

He looked up quickly and his face flushed. "You know?" he asked. "In their eyes?"

"Some few," I answered confidently, "I know by the telltale flush which has lit his face."

"You've guessed it, mister," he confessed. "I know it 'ud begin to show through my own skin."

"How long have you had it?" "Oh, for nigh onto six months, but it only broke out about four days ago."

"And the girl wouldn't leave you?" "You guess slower enough to make me kinder reckon you've had it yourself," he said.

"We all do some time," I told him as an encouragement. "Indeed, mister, I haven't had a bite to eat for twenty-four hours, 'he put in indignantly as he saw the long-haired waiter's head."

"I am here on express, and can't right well spare a quarter, but I am going to get something to eat and if you will come along with me I will give you a square meal."

"The man followed and they entered a cheap restaurant, where the captain ordered two big boiled dinners. Being a well-dressed young man quite loony at the waiter's right."

"I have a lot of money, and I am going to get something to eat and if you will come along with me I will give you a square meal."

SHOULD be used whenever yeast has served heretofore

Yeast acts by fermentation and the destruction of part of the gluten of the flour to produce the leavening gas. Royal Baking Powder, through the action of its ingredients upon each other in the loaf while baking, itself produces the necessary gas and leaves the wholesome properties of the flour unimpaired.

It is not possible with any other leavening agent to make such wholesome and delicious bread, biscuit, rolls, cake, pastry, griddle-cakes, doughnuts, etc.

OFFICIAL PAPER.

LOCAL AND MISCELLANY.

They may talk about the editors And say that they are poor. With very few good editors And little earthly store. But there is one they certain: You cannot keep them down, For when they meet they support themselves They still support the town.—Ez.

What about the race track project?

Go to Turner's Lakeside meat market for fresh and salt fish.

The Chicago Furniture Co. of Escanaba has decided to shut down.

Choice Cranberries, Cabbage and Sauerkraut at Turner's Lakeside market.

Col. of wild west show fame, cleared \$1,000,000 in Chicago this summer.

Go to Turner's Lakeside meat market for choice cuts of meat.

The Hall & Howl mills at South Manistique will shut down for the season today.

Prof. Rogers is giving universal satisfaction in his new field of labor—Escanaba.

N. Wherry secured the insane asylum. This is a genuine surprise to all, as other cities offered superior advantages.

Real Estate Agent Astford has a list of bargains for persons wishing to purchase desirable residence property.

Kimor has it that Frank Clark & Co. will erect a handsome brick block south of Orr Bros. & Co's Block, in the early spring.

Magnanimous E. A. Alger, gave one hundred newspapers a day at the world's fair. He paid for their transportation and news.

Geo. F. Fuller Post, U. S. A. R., meets in regular session Saturday evening of this week. Business importance will be transacted.

There is drift wood along the lake shore to keep every family in the town warm the entire winter, were it utilized for heating purposes.

The McKinney, Helton and Orr blocks are being rushed to completion. The brick layers have completed their tasks and the carpenters are holding full sway.

The River bridge received a severe shock Wednesday night and experts say the abutments are badly damaged. Guy Hinman fell on the bridge that night.

Martin Weisig has on exhibition in his market a mammoth pair of horns, which he gained possession of in Chicago during his recent visit. From tip to tip the horns are seven feet.

Communion services at the Presbyterian church Sunday morning were well attended. The rite of infant baptism was performed and one new member added to the membership.

The county prisoners have been busy these five days cleaning the court yard of stones. The city should arm its prisoners with hammers and complete the job begun by the county's boarders.

Cum gratia silver dollars are in circulation in Virginia. They are made of genuine silver, a little heavier than those made by the government. The stamping is imperfect in minor details.

Miss Rosner, who took charge of one of the departments of our city schools, owing to the illness and consequent resignation of one of the teachers, is being highly complimented by every one for her efficiency and work.

Whenever Attorney General Ellis touches there are certain newspaper men in the state that are thrown into quick consumption. Two things will alleviate Ellis to private life in the future—lack of votes and his fool friends.

In a recent battle between the British and a band of African soldiers, the terrible fatality of modern warfare was demonstrated. The London hall from two Gatling guns moved down more than 500 barbarians in a very few minutes. Weapons of warfare are too deadly in their results.

Capt. Ed. Coffey is an applicant for the deputy collectorship of this port. Citizens generally, irrespective of party, hope he will secure the appointment when the changes are made. The office is not a very lucrative one but as the victor belongs the spoils, a good democratic Capt. Coffey should get all there is in it.

Now the negroes of the country want congress to appropriate them \$1,000,000 for the purpose of colonization. If congress grants the appropriation the colored people will emigrate to South or Central America. There is no likelihood that the men of color will have their wishes granted as there is not sufficient available cash in the United States treasury in these Democratic times to send an orphan by express from Waltham to Manistique.

A slave to King Nicotine made a will sacrifice recently that only he can appreciate. He hawkered off from the use of tobacco for one week and sent his tobacco money for that week which amounted to \$3. to the board of foreign missions of his church.

John Larus purchased a business lot on Cedar street instead of Oak Street as reported in this paper last week. Mr. Larus is doing a very proper thing by investing in business property here. The city is rapidly growing and property will always command a good figure.

Mr. B. D. Wiegner received his commission yesterday to be deputy collector of customs in this city in place of W. N. Van Duser. Other Escanaba gentlemen sought the position, but the result shows that Mr. Wiegner distanced all others. In addition to what local support he had, he was also endorsed by Mr. Russell and Mr. Call, of Marquette, besides having the personal friendship of Collector Russell, in whose office the appointment was. Mr. Wiegner will make a good officer, and the Mirror wishes him good luck, our only regret being that the salary he got is a great deal more than it is.—Escanaba Mirror.

Extracting Virtue From Rufus. The great virtues in the hero of paper comes from the discovery that nearly everything that grows can be turned into cigarette stumps. Cotton stalks, tobacco stalks, the stalks of the sugar cane, corn husks and savard that used to embed the ground are now made into cigarette wrappers. With pulps, car wheels and even buildings for temporary purposes. The once disposed savard can be used in still other ways. From it can be extracted alcohol, acids and dyes. The extraction of dyes from coal tar and the refuse of refined petroleum for direct uses has been one of the wonders of the chemist's art, but they are not the only things that are obtained from coal, and remain in constant violation of the law. The slag of furnaces is now turned into asphalt, cement, pottery and fire brick, and which pulverized becomes a base for porcelain. The refuse from woolen mills, which has contaminated so many streams, has been found to be valuable for the oil and contained in its carcass a will not only profit the inventor, but cleave with a minuscule—Fall & Spring Times.

Valued His Opinion Highly. Lawyers as a class are often belittled by friends and acquaintances who in a purely unavowed manner ask their opinions on legal technicalities. With never an idea of paying for the information.

A person of this class received a well merited rebuke recently from a legal luminary of this city. Meeting a lawyer, he drew from his pocket a \$5 bill and said: "Give me your opinion on this note. Is it good?"

The lawyer took it, examined it carefully and then he read the note. "It is perfectly good," he replied, and in a moment he was holding it up and put it in his pocket.

"And now," said the other, "I'll thank you for the money."
"Oh, no," replied the attorney, "I'll retain it as my fee. To do otherwise is my professional duty, and I cannot afford to render an important opinion without pay."—New York Herald.

The "Ear of Dionaeus." A cemetery constructed in prison, containing a large chamber connected with one of smaller dimensions, situated near Syracuse, Italy, has gone into legendary history with the title of the "Ear of Dionaeus." The smaller chamber was unknown to the prisoners kept in this underground prison, and the legend he whose name it is known had a habit of seeing himself there to listen to the conversation of the convicts, who were merely political offenders. An ingenious device constructed at the small end of the larger chamber transmitted the sounds through the partition, thus enabling the monarch to hear and even the whispered conversations of his "suspects."—St. Louis Republic.

She "Hoped" For Their Happiness. The Newly Wed—Edith did the hateful thing at our reception, and I'll never forgive her for it.
Cousin James—Why, what could it be?
The Newly Wed—She addressed Charles in the most paying manner and said, "I hope you'll be happy." The way she uttered that word "hope" was positively unbearable.—Boston Transcript.

Private Swimming Grounds. An English woman living near Oxford has a large lake in the grounds of her residence, and as she is an expert swimmer she practices every day. At the end of the season she gives a series of competitions lasting a week.
