STUDENTS WAR FOR LOYALISTS

Recruiting in American Colleges Presents Grave Problem

By Esther Van Wagoner Tuffy
Washington.—The recruiting of students of the University of Michigan and other American educational institutions to fight the Loyalist cause in Spain is a danger recognized by the department of state, which is closely investigating every request for passports by undergraduates.

"To study abroad" is the usual reason cited by such passport applicants who are lured by the adventure of war and are financed, it is believed, by propagandists. The state department these days examines such requests carefully, making certain that the parents are both willing and financially responsible.

How many of the estimated 3,000 troops in Spain are from Michigan colleges it is impossible to ascertain but Congressman Earl C. Michener's experiences with two young men's difficulties are said to be neither unusual or uncommon.

Harland Kahle, of Morenci, returned to Ann Arbor at the beginning of the new term but on September 3rd sailed on the Aquatania for Europe. A letter from Southampton mailed to his now frantic parents admitted he was financed by a certain underground organization, "idealistic and intent in its purpose." Also that his venture was not disconnected with the war in Spain. He promised rather wistfully, that if his mission was successful he would return and finish his medical course at the university. All attempts of the Adrian congressman to locate him through the state department have so far failed.

Another university student, Neil Ball, of Saginaw, was prevented from securing a passport by the state department, grown more than cautious. This 21 year old youth, with but \$120 in his possession, said he was intent on a bicycle trip through Europe. It was known he had several interviews with the Spanish consul of Detroit. Also his parents strongly discouraged his venture. Refused by the state department he turned to Congressman Michener, who conferred with the youth's own congressman, Fred L. Crawford of Saginaw, and Senator Arthur H. Vandenberg, who also had been asked to assist in the attempt to secure a passport.

Used Car Exchange Week To Be Observed By Escanaba Dealers

National Used Car Exchange Week will be observed March 5 to 12 with the staging of various sales promotion events under the sponsorship of the Delta County Automobile Dealers association.

Plans for the week were made at a meeting of the Delta and Schoolcraft county automobile dealers at the Delta hotel yesterday noon. About twenty attended the meeting.

Parade on Saturday

A committee, composed of W. J. Clark, H. J. Norton, Elmer Beaudry and Art Norstrom, was appointed to have charge of the parade, which will be held Saturday. The purpose of National Used Car Exchange Week will be explained in brief talks at the meetings of the Rotary, Kiwanis and Lions clubs Monday, and merchants are cooperating by the displaying of posters.

It is estimated there are about a million used cars in the United States to be disposed of. The used car supply in dealers' hands in Delta county is estimated at 350.

Purpose of Week

In sponsoring National Used Car Exchange Week the automobile industry is doing a vital service to the nation.

When the history of the present recession comes to be written, it may surprisingly be recorded that the upturn began in March, coincident with the national effort of the industry to liquidate its used car stocks, improve new car sales and start the factory wheels turning again at full speed.

The automobile industry is a major factor in the national economy. Upon it such industries as steel, rubber, petroleum, glass, textiles and many others depend for an important share of their business. When the motor industry is booming the country booms. When it slows up so does business throughout the nation.

What happened to the automobile industry last fall is common knowledge today. Used cars clogged the market as winter came on. New car sales slowed down because dealers could no longer handle trade-ins in normal volume. Unable to move out new cars, manufacturers were forced to restrict production. Thousands of wage earners were thrown out of work or put on part-time schedules. Business hesitation developed. The average citizen drew his purse strings, waited to see what was going to happen. That is what is the matter with business today. No one is to blame. The law of

Smelt Publicity Plans Announced

Marinette, Wis.—Advertising of the Marinette-Menominee third annual Smelt Week will be more extensive this year than ever before. Newspapers, magazines, radio, posters and stickers will be used to attract attention to these two cities and the celebration over one of nature's gifts to these communities.

More than 2600 newspapers will carry stories on the Smelt Carnival. These stories will be released through state publicity bureaus. News articles will also appear in sport publications.

All of the interstate truck lines headquartered and running thru the twin cities will be solicited to put large signs on the sides of their vans telling the public along their routes of this big event.

The committee in charge of the advertising end of the Smelt Week is also planning to have signs reading "Smelt Served Here" distributed to twin city taverns, hotels and eating places. With smelt to be featured daily on menus there will be no reason for anyone to inquire where prepared smelt may be obtained.

Stickers for pasting on letters and envelopes will be used again.

MARKET TRAIL POINTING DOWN

STOCK MARKET AVERAGES

BY FREDERICK GARDNER (Associated Press Financial Writer)

New York, March 3 (AP)—The stock market trail again pointed downward today although selling pressure was notably lacking over most of the route.

While volume was slightly above that of yesterday's slow-motion session, it was still one of the smallest for a 6-hour session in several months. Transfers totalled 466,880 shares compared with 406,315 Wednesday.

The Associated Press average of 60 issues was off 4 of a point at 44.4. With financial news generally lacking inspiring qualities, trading forces were inclined to stick to the safety zones. The meager offerings that appeared were considered unimportant by brokerage quarters.

Potential buyers were believed to have maintained their standoffish attitude on the theory any definite market trend is thus far lacking. Some were inclined to keep commitments to a minimum on either side of the market pending the interstate commerce commission freight rate decision and action of congress in the final revision of the tax bill.

The list drifted lower at the start, came back a bit around noon, slipped once more in the final hour, and picked up in spots just before the finish.

Approval by the house naval affairs committee of an appropriation of more than \$1,300,000,000 for navy expansion added a few stocks. A lift in the price of export copper enabled the red metal group to put up a show of resistance.

The new recapitalization plan announced by U. S. Rubber was without buying influence for the common shares. They dipped 1/4 points to 32 1/2, although they reer down more at the opening.

Bonds and commodities were uneven. Wheat at Chicago was off 1/4 to 7/8 of a cent a bushel. Corn was unchanged to down 1-8. Cattle advanced 15 to 25 cents a ton.
