

GET OUT OF AUSTRIA, JEWS TOLD

BOTH FRANCE AND ENGLAND WATCH SPAIN

INSURGENT VICTORY MENACES SEA SECURITY

(By The Associated Press) London, March 26—British and French security in the Mediterranean became a more vital issue tonight as sweeping insurgent advances put the Spanish government in perhaps the most dangerous position of the 20-month civil war.

How much longer the defending Spaniards could hold out unless the tide turned unexpectedly in their favor or outside aid came was a matter of wide speculation.

No Change in Policy But despite fears held by many British and French that a victory by the insurgents with Italian and German help would seriously endanger the security of both democratic nations, neither government indicated any change from the policy of nonintervention.

The British government, seemingly less concerned than France over Spain's future, pressed on toward an attempted settlement with Italy, seeking thereby to preclude possible Italian domination in Spain.

Informed quarters in Rome however said completion of an Italo-British accord was being delayed by the necessity of obtaining agreement of France and Soviet Russia, from whom aid has gone to the Spanish government, to the proposal for withdrawing foreign combatants from Spain.

Labor Party Disappointed At the same time, the British government was giving priority to its quickened rearmament drive and France wrestled with spreading strikes and the problem of exactly how to pay for her rearmament.

Authoritative sources in Paris said they would not be surprised if France faced another cabinet crisis next week in view of the senate's opposition to continuance of the people's front government, now headed by Socialist Leon Blum.

Organized labor's millions of workers in Britain apparently were ready to negotiate on a non-political basis with the government on their part in the greater rearmament effort.

The labor party, disappointed at Chamberlain's Spanish policy and skeptical of Italo-British negotiations, promised to keep up its attacks on the government.

On the continent, Reichsfuehrer Adolf Hitler and his right-hand man, Field Marshal Hermann Wilhelm Goering, kept central European issues alive.

Czechs in Turmoil Goering, speaking in Vienna in the campaign preceding the April 10 plebiscite on Austro-German union, inveighed against former Chancellor Kurt Schuschnigg and outlined a sweeping program to combat unemployment in Austria and built up the Greater Germany.

Czechoslovakia's internal politics continued to ferment as a result of Hitler's annexation of Austria.

The man of the hour for the 3,500,000 Germans among the 15,000,000 people in the war-ravaged republic was Konrad Henlein, nationalist leader, who has demanded new elections so his followers might regain their "rights."

Poland and Lithuania, whose dispute over issues of 18 years standing threatened to result in war just a week ago, make pro-

Streams Overflow; Alanson, Fisherman Village, Is Flooded

Petoskey, Mich., March 26 (AP)—Alanson, a fishing village, was still inundated today by Crooked creek, which overflowed Tuesday.

Heavy rains and melting snow have sent all lakes and streams in this region to flood stage and thousands of acres of land are under water.

Besides Alanson, the principal points affected are Oden and Conway, on Crooked Lake, and resorts on Burt Lake and Indian river. Ice is going out of Little Traverse Bay two weeks earlier than usual.

BUSINESS LOANS TO BE PROVIDED

Long-Term Credit Will Be Made Available Through RFC

BY JOHN W. HENDERSON Washington, March 26 (AP)—The administration asked Congress today to authorize a virtually unlimited program of government loans to business and a resumption of self-liquidating loans to public bodies.

The administration's proposal would enable the Reconstruction Finance Corporation to make business loans on a long-term basis, meeting directly the complaint of many business men that such credits were not available.

The RFC would be given power also to buy securities of private corporations, opening the way for capital loans for expansion and new construction. Small business men have complained to the government that capital for those purposes was difficult to obtain except in large quantities.

Making public a letter from Jesse Jones, RFC chairman, requesting that the new authority be granted, Senator Glass (D-Va.) said he already had introduced legislation designed to carry out the administration's recommendations.

Marijuana Valued At \$25,000 Taken In Detroit Raids

Detroit, March 26 (AP)—Ten Mexicans were under arrest and marijuana valued at \$25,000 was confiscated today after a series of raids by federal narcotic agents and Michigan state police.

Six Mexicans were jailed when the huge drug cache was found in a shack near Unionville. At Lansing, state police arrested three others, while the tenth arrest was made at Caro.

Sergeant Leon Hopkins predicted further arrests over the weekend. Federal officers said investigations have been under way since early in February. They said the arrests brought to light the source of the state's marijuana supply. The drug confiscated was in various stages of preparation.

The 10 men will be turned over to authorities at Bay City.

Menghsien Retaken By Chinese Troops In Crucial Battle

Shanghai, March 27 (Sunday) (AP)—Chinese today reported recapture of Menghsien on the north bank of the Yellow River, a vital position for defense of the Lung-hai railroad.

The town, they said, was taken through a strategy of jabbing at Japanese positions left exposed by withdrawals to the east to bolster the still deadlocked offensive against Suchow.

Menghsien is in Honan province inland from Chengchow, where the east-west Lung-hai and north-south Peiping-Suchow railroads intersect.

On the same front, in the northwest corner of the Lung-hai corridor, Chinese reported capture also of Taokow, eastern terminus of a spur railroad from the Peiping-Hankow line. Both are important links in Japan's communications network.

Chicago Loop Hotel Manager Stricken Chicago, March 26 (AP)—John C. O'Neill, 56, who was manager of loop hotels for 20 years, died last night at his home following a long illness.

O'Neill was manager of the Brevoort hotel from 1910 to 1917 and the Great Northern hotel from 1917 until 1930 when he resigned because of illness. He previously had been active in hotel business in Detroit.

Survivors include his widow, Amelia. Burial will be at Shullsburg, Wis., Monday.

Bridges Threatened As Rapid River Breaks Up

Ice jams yesterday threatened two bridges on Rapid River as the swiftly-moving current heaped up ice about their abutments. The Soo Line railroad bridge (left) was endangered when ice backed up just below it and water piled up nine feet deep in the river channel. Water flowing under the bridge is ordinarily seven feet below the span, and is shown here as it rose to within two feet of the bridge. The home of Levi M. Barboe (right) was surrounded by water when ice jammed at the bridge where US-41 crosses Rapid River. Levi Barboe Sr. is shown digging a trench to carry the water away after the jam at the bridge was broken.

DAMAGE SUITS INVOLVE CAFES

Serving Motorist Liquor Blamed for Fatal Traffic Accident Detroit, March 26 (AP)—Four damage suits were filed in circuit court here Saturday against the proprietors of two cafes accused of serving liquor to a 17-year-old motorist whose automobile figured in a fatal traffic accident.

As administrator of her husband's estate, Mrs. Elizabeth Nisbet asks \$20,000 each from the Bell's Cafe and the Ramona Cafe. Her husband, John, was killed in the accident. She also asks \$10,000 from each cafe in her own right.

Alex Crossen and his wife, who rode with the Nisbets, ask \$1,000 and \$5,000 each, respectively, from each proprietor. Named as a joint defendant is Surety company that bonded the cafes. The driver of the other car in the accident, which occurred October 23, was Orville J. Law.

Anti-Trust Oil Suit to Keopen Madison, Wis., March 26 (AP)—Sixteen major oil companies and 30 of their executives open another fight Monday against the government's charge they conspired to raise and peg gasoline prices in violation of the Sherman Anti-Trust Act.

The defendants filed motions to vacate the verdict and for a retrial when convicted by a federal court jury Jan. 22 after a four-months trial which constituted the largest trust-busting case of the Roosevelt administration.

Judge Patrick T. Stone will hear arguments on the motions Monday (2 p. m., CST). Sentence was deferred at the time of the verdict pending the hearing.

Grand Rapids Boy, 4 Killed by Blowtorch

Grand Rapids (AP)—Burns suffered in the explosion of a blow torch Friday proved fatal Saturday to Francis Stabings, four-year-old son of Mr. and Mrs. Matthew Stabings. Also burned in the explosion were a brother, Donald, 5, and two other persons.

ELECTION NEAR; TAXES EASE UP

Congress Woos Support of "Little Fellow" in New Levies Washington, March 26 (AP)—There were increasing indications today that Congress would not stand for any higher tax levies on the "little fellow" this year, when house members and many senators are up for re-election.

The senate finance committee, now studying the house-approved tax revision bill, soon will vote on a proposal by Senator La Follette (Prog.-Wis.) to reduce personal income tax exemptions.

The proposal would reduce the \$2,500 exemption for married persons to \$2,000 and the \$1,000 exemption for single individuals to \$800. It would bring thousands of new taxpayers under the income levy.

Several members predicted privately the finance committee would kill the La Follette proposal.

In a statement to the press, Senator Walsh (D-Mass.) asserted "it is unlikely that Congress will be disposed to accept such a proposal this year."

He added, however, that a broadening of the income tax base was only a matter of time.

Schoolboy Admits Shooting of Store Owner in Robbery

Grand Rapids, Mich., March 26 (AP)—Police Inspector Alfred Scheiern said tonight that Albert Powell, 15-year-old schoolboy, had confessed the killing of Marius Lindhout, candy store proprietor.

Lindhout was shot to death here February 11, the first slaying in Grand Rapids in two years. Scheiern said the youth was arrested today when he was found asleep in a stolen car. In the automobile, the officer declared, were three pistols, jewelry and clocks, some of which were taken from the home of Dr. B. W. Wells Friday night.

Detroit Schoolgirl Has Rare Disease

Detroit (AP)—The condition of Jean Cavanaugh, 15, who is suffering from lymphatic leukemia, remained critical Saturday. High school classmates of the girl were blood donors for five transfusions. The disease, which rarely afflicts young persons, causes a marked increase of white corpuscles in the blood.

BODY OF LOST SHACKER FOUND

Receding Snow Gives Up Mark Hall, Last Seen on February 2 The body of Mark Hall, Fox shacker who disappeared on February 2, was found yesterday by Earl Peterson, a neighbor, who came across it lying about 30 feet from the path that led to Hall's shack. Recent rains had washed away the snow that had hid the body, which showed no signs of an attack nor molestation by woods animals.

Hall was last seen on February 2, when a woman gave him a ride from Fox to the place on highway M-35 where a path led into the woods and to his shack. He disappeared into the woods, and was not seen again. That night the peninsula was hit by a heavy snowstorm, which obliterated any sign of tracks, and it was not for several days that the neighbors began to wonder what had become of Old Mark.

Among the things Old Mark's friends remember about him are his cats and his phonograph records. He had a collection of recordings of all the famous operas, which he played over and over on a huge victrola, and there were always about a dozen cats on the floor of his shack.

Coroner Kevill Murphy was called to inspect the body, which was then taken to the Murphy funeral home in Escanaba. No funeral arrangements have been made.

Vandenberg Asks Curb On Foreign Sales of Helium

Washington, March 26 (AP)—Senator Vandenberg (R-Mich.) urged today that Congress prohibit sales of helium for airships traveling to foreign countries.

Mentioning the pending billion-dollar naval expansion bill, Vandenberg declared: "In view of the fact that we are being asked to tremendously expand our defenses against an unidentified enemy, it seems only fair not to give away anything that might become a vital defense factor."

Secretary Ickes at present is delaying, on the grounds of disturbed conditions abroad, a contract for American helium to fill a German dirigible in trans-Atlantic service.

Claims in Detroit Bank Payoff Filed

Detroit (AP)—Claims against 30 estates, holders of more than 24,000 shares in the defunct Guardian Detroit Union Bank group, were filed Saturday by Alex J. Groesbeck, receiver for the group. Claims were also filed against trust estates holding more than 14,000 shares. Groesbeck said the filing of claims was an effort to increase the payoff to depositors.

Sentence Is Given In Fatal Robbery

Marshall (AP)—Circuit Judge Blaine W. Hatch sentenced Harry Dempsey, 31, convicted of robbery unarmed in connection with a theft in which Miss Catherine Sheriff, 76, suffered fatal injuries, to 22 to 22 1/2 years in the state prison of Southern Michigan Saturday. Before being sentenced, Dempsey pleaded guilty to a charge of committing a second felony. The robbery occurred on December 26.

Local Bus Line To Carry Passengers North Of Escanaba

The Escanaba-Gladstone bus line has received a permit to carry passengers between Ishpeming and Escanaba, Dr. C. M. Cuthbert announced last night, and will start daily passenger service within a few days. The bus company will provide transportation to replace that formerly given by Chicago and North Western trains 215 and 218, which were taken off effective March 21.

Stops will be made at Negaunee, Palmer, Princeton, Gwinn, Little Lake, McFarland, Lathrop, Rock, Beaver, Perkins and Brampton. A tentative schedule gives the time of departure at Ishpeming as 7:35 a. m., and arrival in Escanaba will be in time to make connections with train No. 216. The northbound trip will leave the city at about 2 o'clock and arrive at Ishpeming at about five. A time table and schedule will be published later.

The bus line will be operated under a permit issued by the Michigan Public Utilities commission.

Glee Club Presents 'Saucy Hollandaise'

Newberry, March 26. — The Newberry High School Glee Club presented the "Saucy Hollandaise" a two act operetta written by Paul Bliss and directed by C. J. Bander, supervisor of music, to a large and appreciative audience in the high school auditorium on Friday evening. The high school orchestra furnished the music with Mrs. C. L. Bystrom at the piano.

In rehearsal for the past six weeks the students gave a creditable performance. The cast was carefully selected and the action well worked out. The story is one of fancy and comedy in which a state secret is all mixed up with a love affair, a state secret, and the crew of an American sailing vessel. The musical numbers were:

Overture by the orchestra.
Opening chorus.
No Sailor Ever Told a Story, Phillip Villemure as Joe, and chorus.
A Little Dutch Tinker — Fred Randolph as Hans, and chorus.
My Little Cheeses—Anna Marie Quinlan and Meena.
We're After You—Aune North as Queen and Ladies.
When the Women Are After Me—James Gunton as King, and chorus.
Pray You Tell—Daryl Gill as Prince and Ardith Frasier as Princess.
English Dance with orchestra.
Dutch Dance with orchestra.
Finale—Ensemble.
Part Two
Entr' Acte—Orchestra.
It is Quite Customary — Tom Gormely as Doctor Quick, and chorus.
We're Sorry We Must Be Deceiving—Chorus of Women.
Song of Gladness—Princess.
Secrets—Prince and Princess.
They Promised to Meet Us Here—Chorus of Women.
To Learn to Love Me—Queen and chorus.
Finale—Ensemble.
The chorus of sailors was comprised of Howard Pilon, John Nelson, John T. Bouchard, Dick Bystrom, Bob Rahilly, Bob Peters and Jerome Quinlan. Dancers were Betty Nichols, Nadema Shimmens, Phyllis Villemure, Alice Fretz, Margaret Gibson, Berniece Ketrivits, Mary Richey, Elizabeth McMahon, Carmel Stewart, Frances Johnson, Rae Nell Kerr, Marion Leonard, Margaret Rosevoid, Helen Mar Sherman, Nadine Foley and Marcelle Scott.
Ladies of the Court: Inez Neff, Helen Lou Ludlow, Helen Nichols, Eleanor Sherman, Catherine Selbert, Ethel Fendrich. The orchestra: Jean Carr, Erland Paunonen, Elton Carlson, Bob Oliverius, Bob Lone, Barbara James.

SEALS WILL BE STARTED SOON

Campaign Is Worthy of Consideration By General Public

Distribution of Easter seals for the annual drive sponsored by the Michigan Society for Crippled Children, Inc., will begin here within a few days under the direction of a Rotary club committee headed by Supt. John A. Lemmer.

Today thousands of crippled children in Michigan have stronger bodies and brighter minds because 17 years ago the Rotary clubs of the state recognized that something should be done to help physically handicapped persons.

The outcome was the founding of the Michigan Society for Crippled Children, Inc.

The society, now sponsoring the fifth annual sale of crippled children seals, was started to develop and carry out an adequate program for crippled children.

Starts April 1

The state society in connection with the International Society for Crippled Children will undertake the annual Easter seal campaign on April 1st and will continue until April 17. Seals sell for a penny each—one dollar for a sheet of 100. The annual sale of seals is the only dependable source of revenue of the society.

In the early days of the organization, between 1921 and 1927 its members conducted house-to-house surveys to locate children in need; it organized 61 diagnostic clinics serving over 5,000 children, paid for necessary hospitalization expenses, bought clothing, appliances, transported children to hospitals and provided many other things of necessity.

In 1925, after an exhaustive study of the educational facilities for crippled children throughout the United States the society created and promoted the first progressive enactment which provided for special orthopedic classes in the public schools. Today over 2,000 youngsters attend these classes.

Marquette High school, and King Carl Steffen, Jordan college student.

es and are given their chance for an education. There are still over 2,000 more residing in small towns and rural areas who are in need of special education. The Society is making this one of its major efforts for the coming year.

Commission Organized
It became apparent as the years passed by that members of the society and other friends of crippled children could not finance a medical program extensive enough to include all children in need. Recognizing this, the society in 1927 drafted a bill successfully passed by the state legislature, creating the Michigan Crippled Children Commission, a governmental agency to provide medical care for needy children at the expense of the state. In 1937 this law was revised and brought up-to-date at the request of the society.

During the first five years of

the commission 16,729 children were reported, and through June, 1938 almost 27,000 crippled youngsters were referred for medical attention.

The state society through its many county and city affiliated committees promotes a program which includes locating every case, securing medical care, special education, vocational guidance and training, and placing the adult in satisfactory employment and the prevention of crippled conditions.

The sale of Easter seals not only served as a means of financing the work but also stimulates and develops a public consciousness of the problem which is so necessary.

The payrolls of U. S. railroads are currently around \$1,849,000,000, an increase of 12 percent since 1935.

Driver Waits For First Locomotive; Is Hit By Second

Ray Rogers of Manistique stopped at a crossing between Nahma and Indiantown Friday night and started again when a locomotive had backed past him, only to be struck by a second locomotive which was following close behind the first. With him in the automobile were Harold Jewett of Manistique, Lizzie Moses and her son Bennett, 5. The boy was the only one injured when the car was carried 40 feet by the engine. The two locomotives were backing into the Bay de Noquet yards at Nahma.

TO ESCANABA VOTERS

Are You Too Old To Work For The City Of Escanaba?

Persons over 35 years of age are denied the right of competitive examination for employment with the city under the so called civil service set up for Escanaba.

WE BELIEVE the above law to be unjust.

1. It sets a bad example for employers (What if all industry adopted such a rule?)
2. It discourages persons to put forth their best efforts. (Why should men after 35 be considered human salvage?)

If elected to the City Council we will change this part of Escanaba's civil service law and base retirement pay upon the number of years of service.

ECONOMY is a FORD word

IF THERE is one word in the dictionary which the Ford Motor Company might rightfully reserve to its own use, that word is ECONOMY.

Thirty years ago, when the automobile was commonly called "a rich man's toy," Henry Ford set out alone to put the world on wheels.

THE FIRST FORD POLICY

It was then he said: "I will build a motor car for the multitude. It will be constructed of the best materials, by the best men to be hired, after the simplest designs that modern engineering can devise. But it will be so low in price that any man making ordinarily good wages can own one." That fundamental Ford policy has never changed.

In the early years, when it was necessary to build small 4-cylinder cars in order to assure economy, Henry Ford built and sold small 4-cylinder cars—in large quantities.

But when the fast-growing facilities of the Ford Motor Company reached a point where it was possible to build larger, finer V-type 8-cylinder cars and keep small-car economy—Henry Ford did that—again alone. It is one reason why more 1937 Ford V-8 cars were bought than any other make.

TWO NEW FORD CARS

For 1938, two Ford cars are offered you. One is the De Luxe Ford with the 85-horsepower V-8 engine—still an economical car to own and operate.

It has richer appointments, and the advantages born of 30 years of building good automobiles. Closed sedans have longer bodies, with more room.

The other is the Standard Ford, with a choice of 85-horsepower or 60-horsepower V-8 engine. It has the basic Ford advantages of the De Luxe, and it is built on the same 112-inch wheel-base chassis, to the same high standard of mechanical excellence. But it is lower priced, and with the thrifty "60" engine, it provides the lowest operating cost in all Ford history.

You are invited to see and drive the De Luxe and Standard Ford cars now on display at your local Ford dealership—to prove to your own satisfaction that **ECONOMY is a FORD word.**

Marquette Prison Cow Good Producer

Marquette Cornucopia Fame, a registered Holstein-Friesian cow owned by the state house of correction and branch prison at Marquette, produced 104.1 pounds of milk, testing 3.4% in one day's milking, making a total of 3227 pounds of milk and 109.7 pounds of butter fat per month on three daily milkings.

This record, made on March 24, and announced by Warden Marlon L. Coon, was made in the Herd Improvement Registry Test, under the supervision of Rollin Lovegrove, tester for the Michigan State college extension service. Mr. Lovegrove, who has been testing since 1925, states that this is the highest production in milk and butter fat that he has ever recorded in a monthly test.

The cow was milked and fed by inmates of the Marquette prison, under the supervision of Milton J. Francis, farm superintendent. Mr.

Five Million Thank-Yous

POLITICAL opponents of President Roosevelt found at his continued arrogance and cockiness in the face of the Roosevelt Ravine, which is outstripping in some ways the proportions of the never-to-be-forgotten Hoover Hollow.

They have marveled at his latest bitter attack on business at Gainsville, and have tried to fathom what he is getting at. Neither big nor little business is fond of cutting off its nose to spite its face. Such a line of action simply isn't business, as anyone with even a little common sense realizes.

Just why is the President taking this attitude, and what does it mean to his party and to the country? A scape-grace has got to be found for the appalling come-down in business conditions for the past six months, but he who thinks that a continuance of the present recession must spell defeat to the Democratic party in 1940 should read the political history of the country and consider how times have changed.

Herbert Hoover and Grover Cleveland were forced by conditions beyond their control—panic, bankruptcy, unemployment, starvation—to walk out of office discredited and abused. The political philosophy of the day doomed them to defeat, for they failed to preserve economic security for the masses.

That philosophy is out. We now have 5,000,000 thank-you folks who live wholly or, partially by grace of the governmental dole—either outright or in the guise of jobs. They represent possibly 15,000,000 voters with their friends and relatives, —votes which Mr. Roosevelt or his candidate in 1940 have safely tucked away in their pockets.

The South is more surely Democratic than ever and it will cast a ballot for almost any kind of a Democrat. Here we have an approximate majority of the electorate, in or out of depression or recession.

Suppose an even stronger candidate for the Republican nomination develops than is now in sight, or that one of the candidates now looms pursues a course of action in the next two years which makes him still more formidable and dangerous to the Administration. What is to prevent the latter's giving the public spigot another turn or two and placing a few additional millions under obligation to the powers that be? In granting them practically unlimited leeway we have given them the best possible means of retaining their grip.

Does anyone think he can beat the United States Treasury, clothed as it now is with the enormous power to tax which is the power to destroy? The President is arrogant because he is so sure he holds the winning cards—cards that Cleveland and Hoover never dreamed of. The New Deal has fathered a new deck, and the cards are plainly stacked against all who presume to oppose the present Administration. It is plain that Mr. Roosevelt feels that he or his candidate can win without the help of business, and perhaps he is right.

The outcome two years hence will tell the tale,—whether we shall cast off a near-dictatorship or manage to survive under it somehow, or finally land under some worse-than-czarist regime that is infinitely removed from the ideals of Washington, Jefferson and Lincoln.

Tune In! THE fourth annual Escanaba Smelt Jam-boree will receive national-wide publicity on Monday and Tuesday when Queen Jeanne Mickelson and her good will tour party will go on the air from the studios of 10 radio stations in Chicago and Milwaukee.

Some of the stations are among the largest in the country, with coast-to-coast audiences. Several million persons in the United States, Mexico and Canada will be listening and hearing about the smelt runs in the Escanaba region.

To most residents of Escanaba and vicinity the smelt runs are an old story. Really, more enthusiasm is displayed by outsiders than is shown by the natives. New angles to the smelt story, however, will be told in the series of radio broadcasts on Monday and Tuesday, and local citizens would do well to refresh their memories by tuning in for some of the programs. There are still a considerable of Escanaba citizens who are not able to answer all the questions that are asked by strangers. They might be better able to do so after listening to the good will tour broadcasts.

World Affairs Reviewed

Sent into Austria to augment NEA Service and Acme Newspictures' photographic coverage of the dramatic German invasion, Paris Staff Photographer Ray Rousseau — an American citizen—was arrested as a "spy" and imprisoned for five days in Linz until his release was obtained by the U. S. State Department. Here is the cabled story of his experience.

BY RAY ROUSSEAU

By Cable to NEA Service and Daily Press Paris—Mysteriously put under arrest, Tossed into a tiny ill-ventilated cell with four other prisoners. Held there for five miserable days without any knowledge of the charge against me. And denied an opportunity to communicate my plight to the outside world.

That was my introduction to Nazi Austria. Though a working American newspaper photographer with a passport in perfectly good order, I was branded as a spy because I flashed a camera on marching troops in Linz in the hours just before Adolf Hitler's triumphant entrance into that city.

There were about six shots on my film when an Austrian policeman suddenly shouted, in German, "That is forbidden!"

ARRESTED FOR TAKING PICTURES— I put down my camera and pulled out my press-cards. He smilingly agreed that it was all right for me to take pictures but nevertheless he grabbed my arm and led me to a police station.

There Austrian and German police, had me searched, turned out all my pockets and did a lot of typewriting on some kind of form.

They seemed especially interested in my camera, and asked a lot of questions about it. It was pretty hard for me to explain the camera to them as we didn't talk each other's language. But I told them I was a representative of the American press.

That didn't seem to satisfy them because I was taken to another bureau, where I was put through the same kind of thing.

I was getting impatient by this time, so I pulled out my telegraphed instructions and showed them to the police.

"How long must I wait?" I asked them. "I'm pretty anxious to get out to make pictures of the arrival of Hitler."

They smiled.

ORIGINS QUESTIONED— They began questioning me again. But this time they asked me whether I was a Jew. Was the firm I worked for Jewish? What papers would print my photographs? They even wanted to know my mother's name.

Finally somebody said: "Go along with this man. He will fix you up with permission to take pictures."

So I thanked them and followed the man they had pointed out to me. I was led to a door where there stood a prison van with three Austrian suspects inside. I walked. But they made me get in. The four of us were driven off to prison.

First they put me in a cell by myself. Later, they changed me twice to other cells and finally I landed in a cell with four Austrians who were being held on various charges of suspicion.

FIVE IN ONE CELL— There were five of us in a cell six feet long by ten wide, with one small window for air. There were no cots to sleep on, just plain, broad, wooden platforms. At night the police tossed in a filthy mattress and a blanket full of holes. I slept under my overcoat which they allowed me to keep, although they took away my necktie and suspenders so I wouldn't hang myself, I suppose.

I nearly starved. The three "meals" served daily consisted of a slice of black bread and a cup of some soup, nothing more.

ISCOMMUNICADO— I begged for permission to telegraph or telephone my office in Paris or London to tell them of my plight, but it was in vain. No jail official would even reply. During all the time I was held there, nobody so much as told me what I was charged with.

On Thursday, March 17, they led me out and put me in a car with a German who seemed to be some kind of high secret police office. We picked up a policeman who spoke good English.

ANOTHER CROSS EXAMINATION— They now took me to another bureau and read me a lot of questions from a long typewritten list, including, once more, questions about how many papers my employers served and all about my own family and my ancestors.

Finally, they said I could go. The English-speaking policeman led me to the Linz railway station and watched me while I bought my ticket. When that was done he finally permitted me to send a message to my Paris office.

But he saw to it that I got aboard the train for Switzerland. His parting words were never to return unless I wanted to serve three years in jail.

During all this, nobody ever intimated by any word or sign that my office has enlisted powerful support from the American Department of State to get me out.

My release is due to the plain talk the American Minister gave those Linz police.

traffic lanes waiting for a chance to cross, are a few of the misdeeds of the thoughtless Milwaukee pedestrian.

It is a testimony to the care and skill of motorists that so few pedestrians are run down and killed. But the drivers are generally blamed for any mishap.

The pedestrian has only to obey the rules of common sense and common prudence to insure safety. Insistence on what some consider the rights of the foot passenger against vehicular traffic may be noble and legally justified. But is it good sense. The pedestrians should cooperate, not only for the sake of the city's safety record, but for the sake of their own lives.

Other Editors' Comments

EDUCATING THE PEDESTRIAN (Milwaukee Sentinel)

"The pedestrian has as great a responsibility as the motorist in helping to maintain Milwaukee's record as the safest large city in the country."—Dr. B. L. Borbett, secretary of the City Safety Commission.

Careless, reckless and ignorant pedestrians have caused many unnecessary traffic accidents in Milwaukee. And often, their carelessness and inattention to common sense precaution has resulted in fatalities. Dr. Corbett's statement is timely.

Any driver, or any person who stands at street corners or observes traffic from a mid-block curb can testify as to the foolishness of Milwaukee pedestrians.

Safety education is principally aimed at the drivers of motor cars. But the records show that the pedestrian is in need of education and perhaps of even more restraint than is now imposed on him.

A reader can get the answer to any question of fact by writing The Escanaba Daily Press Information Bureau, Frederic J. Haskin, Director, Washington, D. C. Please enclose three (3) cents for reply.

Q. How many people in the United States play golf? M. M. A. Approximately 3,000,000 golfers are active in the United States. About 55,000,000 rounds of golf are played annually.

Q. What is a Lloyd's insurance company? D. McP. A Lloyd's insurance company may be either of the type known as Lloyd's of London or the American Lloyd's Association, which is somewhat similar. The American company is a voluntary partnership in which each member usually agrees to hold himself individually liable for the payment of losses on a given line of insurance, up to a specified amount only, though in some instances the individual's liability is unlimited.

Q. What was the first book on first aid published? H. M. A. Stephen Bradwell's "Helps in sudden accidents," published in 1833, is the first book on first aid.

Q. Has a government the right to buy property that a person does not want to sell? L. M. A. Under the right of eminent domain, a sovereign power can appropriate property for a necessary public use, reasonable compensation being made.

Q. How is carbonated water made? J. E. L. A. Carbonated water is ordinary water to which carbon dioxide gas has been added under pressure. It is used extensively in soft drinks and similar beverages and its use in this manner is not harmful.

Q. When did Hitler send troops into the demilitarized Rhineland? T. C. A. German troops entered the Rhineland on March 7, 1936.

Q. What kind of an aviation instrument is a tachometer? I. W. A. tachometer is a instrument that measures in revolutions per minute the rate at which the crankshaft of an engine turns.

Q. On which bank of the Tigris is Bagdad built? W. McP. A. The city was originally built on the western bank, but for over 1000 years, most of the city has been on the eastern bank. There is a large and growing suburb, including a large railroad station on the western bank, the two banks being connected by a bridge of boats. The city now has a population of about 261,000. It is the metropolis, as well as the seat of government, of the modern Kingdom of Iraq.

Q. Does a check issued by the United States Federal Government more than a year old ever get out of date? If so, what is the procedure to have a new one issued? M. M. P. A. The Treasury Department says that if a check drawn on the Treasury is not presented within three years after the date of issue, it is counted as an outstanding liability, and it is then necessary for the individual to send a claim to the Comptroller General of the United States, General Accounting Office, Washington, D. C. who issued the check. This information does not apply to interest checks.

Q. Has Canada ever had a larger population than it has at present? F. A. P. A. The present population of Canada is 10,377,000 which is higher than at any previous period.

Q. What does G. R. mean on the back of the souvenir plates of King George and Queen Elizabeth? S. F. F. A. The initials G. R. stands for the Latin, Georgius Rex, meaning King George.

Q. For whom is Hickam Air Field in Hawaii named? J. G. F. A. Hickam Field near Pearl Harbor, Hawaii, was named for Colonel Horace M. Hickam, an Army Air Corps officer, who was killed in an airplane accident in 1935 at San Antonio, Texas.

Q. Do Indian languages have a basic sameness? G. M. S. A. Although the languages constitute so many independent families of speech, the vocabularies of which are entirely divergent one from another, nearly all of them possess certain general grammatical characteristics which are similar.

Q. Why are some calves born without horns? M. M. W. A. Hornless cattle, known as "polled" breeds, are produced by selection.

The first Boulevardier was a popular brochure of cafe society's activities and the Park Avenue damsels kept it financially alive by generously subscribing to it. Its columns were devoted to gossip, personal and otherwise (and as intimate as discretion would permit) about the smart young things who ran around to the more expensive night clubs. And advertisers were not backward about promoting their product in between the editorial matter.

But the first Boulevardier then silted on a down swing and died. Six months ago, Gwynne, a play-boy-pamphleteer who is at home in Mayfair as on Sutton Place, tried it again. This time The Boulevardier's fate was briefly settled. Insolvency in three months—the magazine folded.

Washington, March 27.—A "human resources board," to do the same planning work for the human capital of the nation as the National Resources Board does for its physical capital, is being seriously contemplated by the administration.

The suggestion for the board, oddly enough, comes from the fiscal officials of the government, who are now half-frantic under the strain of supplying ever-increasing sums for unemployment relief. As one rather hard-boiled treasury bigwig put it, "We've got to find some way of absorbing these 12,000,000 people into our economy. We can't go on indefinitely finding another quarter billion of dollars for relief at a minute's notice every time business gets a little worse."

The fact is that the treasury was bitterly affronted by the suddenness of the WPA's demand for \$250,000,000 in deficiency appropriations. They fear renewed demands, and with reason, since the sums now available for relief are quite inadequate.

Thus the new interest in a "human resources board." The notions for the glorified statistical and planning agencies which the new Deal has spawned have generally emanated from the administration left wing. But now, aware at last of the need for having some positive and reliable information on unemployment, the men who have to scrounge up the relief dollars are sponsoring a fact-finding agency of their own.

The board would have a double function. It would forecast immediate trends in employment, work habits and such regional economic developments as may be produced in the southern cotton empire by the mechanical cotton picker. More important, it would also be empowered to prepare long term, ten-year plans for dealing with the unemployment problem.

If the board is indeed established, and succeeds in this second objective, it will have achieved something that no economist in the troubled western world, with its endemic disease of joblessness, has yet managed to do. But, although the board has a faintly gassy flavor about it, there should be some thanksgiving for the establishment of an agency with the ostensible purpose, at least, of discovering the basic facts in a problem on which the federal government has been blindly spending \$2,000,000,000 to \$3,000,000,000 a year.

There has been something very funny about the "assurances" given by the White House in the wild effort to get the President's beloved reorganization bill through congress. So many senators have been promised that so many different agencies would be left untouched that the President will have some trouble doing any reorganizing at all if he lives up to the promises. James Roosevelt, White House secretary Marvin H. McIntyre and other agents were the lavish "assurance" givers.

One receiver of assurances, from the ineffable McIntyre, was Senator James P. Pope, the other senator from Idaho. He confessed on the senate floor that he had been "assured" that the Forestry Service would be left in the agriculture department, instead of being handed over to the always grasping Secretary of the Interior Harold L. Ickes.

Senator Pope has also received another sort of assurance, of a large phosphate project in his state. At Conda, Idaho, there are important deposits of the fertilizing mineral, now worked only by the Anaconda Copper Company. The Anaconda company sells its product for considerably more than the still stronger "meta-phosphates" produced by the TVA for Tennessee Valley farmers. Senator Pope wanted the special TVA phosphate-producing process to be applied in Idaho.

He was granted the use of TVA engineers and experts, and "assured" that his Idaho phosphates would be developed. Since it will be difficult to sell the phosphates direct to the public, they will probably be used as agricultural benefits payments in kind for the farmers in the region. So definite were the assurances that Senator Pope that he was allowed to make a rough draft of the executive order in his office, for subsequent promulgation from the White House.

Although the tragic failure of Richard Whitney has dealt a death blow to the old guard of the New York Stock Exchange, they remain men who may expire but will never give up.

One of the great points of controversy between the exchange and the Securities and Exchange Commission has been the stock exchange tradition that its rules are never enforced and its members never questioned in such fashion as to assist the public authorities in prosecuting a member. Under the reorganization plan now accepted by the exchange, this tradition has been ostensibly abandoned.

Yet, when Ganson Purcell, young SEC official who is handling the Whitney case, went to the exchange's business conduct committee for permission to be present when Mr. Whitney was cross-examined before expulsion, he was told not to press his request.

THOMAS GIVES LIQUOR PLANS

Reduction of Inventory Seen in New Distribution System

Jerome G. Thomas, director of merchandising for the Michigan liquor control commission, stated today that a perfected distribution system, he believes, will make possible a reduction in store and warehouse inventories to approximately \$3,250,000 by July 1. Such reduction is in line with the wishes of Governor Frank Murphy. It will release to the state more than \$2,000,000 in cash. It also will be an inventory total lower by more than a million dollars than ever before attained by the liquor control commission, Thomas said.

Since September, 1935, when Michigan liquor inventories were first figured on a cost basis, the

average monthly inventory has been \$5,545,701, Thomas stated.

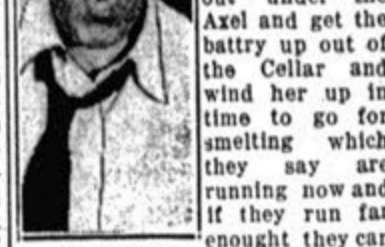

"During only five months in the thirty months since that date have the total figures been less than \$5,000,000," the statement points out. "On four of these months the inventory was approximately \$4,800,000, and during the other month, last October, it reached the record low total of \$4,242,186.30. This figure was caused by an unprecedented increase of over one and one-half million dollars in sales, caused by a buyers' rush designed to avoid the ten per cent increase in markup put into effect Nov. 1. Inventory during that month consequently decreased approximately \$1,750,000 but during the next month, November, it again increased to \$5,961,000.

"I believe that the extremely low total set up as possible by July 1 can be accomplished because the distribution system is for the first time in such condition that substantially all stores are stocked with an adequate supply of merchandise. Store inventories are now at the lowest total since 1935, but general comment is to the effect that distribution of merchandise is in better shape than at any time previously. Further improvement in the efficiency of the distribution system should make it possible through reduction of warehouse inventories to release \$500,000 additional cash each month during March, April, May and June without in any way decreasing the present service offered the public in the sale of liquor."

Paul J. Goodreau Called By Death

Paul James Goodreau, five months old son of Mr. and Mrs. Philip Goodreau of 1011 Washington avenue, died at 11:20 o'clock Friday night at the family home. The body was taken to the Aho funeral home to be prepared for burial and returned to the family residence Saturday afternoon.

Services will be held this afternoon at 3:30 o'clock at St. Joseph's church, Rev. Fr. Edward Leary, O. F. M. officiating, and burial will be in St. Joseph's cemetery.

Surviving the child are his parents, two sisters and one brother, Phyllis, Marie and Phillip.

There are 40,609 passenger cars on the U. S. railroads. In 1926, there were 54,773.

CITY CONSUMES MUCH GASOLINE

Only About One Fourth As Much Milk Is Sold Here

Washington, D. C.—Escanaba consumes between three and four times as much gasoline, on a per capita basis, as it does milk, according to best available estimates from the public health service and the census bureau, respectively.

Every time an Escanaba baby finishes off a half pint of milk, some Escanaba filling station attendant pumps about a quart of gasoline into the tank of an automobile.

With approximately 15 filling stations, Escanaba consumes weekly between 27,000 and 36,000 gallons of gasoline, it is estimated.

Milk consumption in Escanaba is approximately 9,000 gallons per week, estimated on the basis of Public Health Service average

consumption for East North-Central cities. This is slightly over a pint per day per person, but the per capita consumption figure does not include allowance for the large quantities of milk used by bakeries, or put to other uses besides drinking.

The gasoline, however, has only one main use—to run the motors of automobiles and trucks.

Milk costs roughly twice as much as gasoline, but even so Escanaba's expenditure for motor fuel is more than half again as much as for milk.

The uniform state narcotic law has been adopted by 38 states.

JUDGES NAMED FOR CONTEST

Entries Must Be Turned In Not Later Than Thursday

Judges were named yesterday for the Kiwanis club-bird house building contest.

They are Leslie Doty of the Forest Service, Miss Lois Galt, art instructor of public schools, and E. J. Nicholas of the manual training department.

All contestants in the contest are asked to bring their entry to 611 Ludington street between 4 and 6 p. m. beginning Monday, March 28, and continuing to Thursday.

Each entry should have the name, age, and address of the builder attached to it. On the reverse side either the parent or person who supervised the house must sign his name pledging that all the actual construction work was done by the boy.

Final entry blanks must be sent to Thaxter Show, chairman, 611 Ludington street, on or before March 31.

Prizes are being awarded the winners in each division.

WALSH DENIED STATE LICENSE

Athletic Board Chairman Not Satisfied With Promoter's Work

Detroit, March 26 (AP)—Tommy Walsh, veteran boxing figure who has been associated with Promoter Jack Kearns in staging bouts here, will not be granted a license to serve as a promoter or matchmaker in Michigan, Chairman Frank MacDonell of the state athletic board of control said today.

MacDonell said he was "dissatisfied" with recent developments in bouts Walsh had arranged.

The commissioner's action came after two advertised matches scheduled for Olympia Friday night failed to materialize. In one battle Isidore Gastanaga, Cuban heavyweight, was to have met Ed Shelby of Cleveland. Commission physicians refused to permit Shelby to fight because of high blood pressure. Paul Favors, Detroit heavyweight who was obtained as a substitute for Shelby, also was unable to pass the physical examination.

Maurice Strickland, Paterson, N. J., heavyweight, was billed to meet Eddie (Unknown) Winston of Hartford, Conn., but the latter withdrew from the card. Charley Belanger, veteran Canadian, was substituted and went down for the count in the third round.

MacDonell was irked because Walsh had not turned Winston's contract over to the commission in accordance with a rule.

Kearns has been arranging main events for his programs here while Walsh has been lining up the preliminaries. Walsh had also served as a matchmaker for Kearns for shows at Saginaw and Mt. Pleasant.

Local Woman Has Purse Snatched Saturday Evening

While on her way from Ludington street to her home at 909 Third avenue south last evening, Miss Adrienne Tounsgnant was the victim of a purse snatcher who made off with her hand bag and its contents which included a pair of glasses and a number of keys.

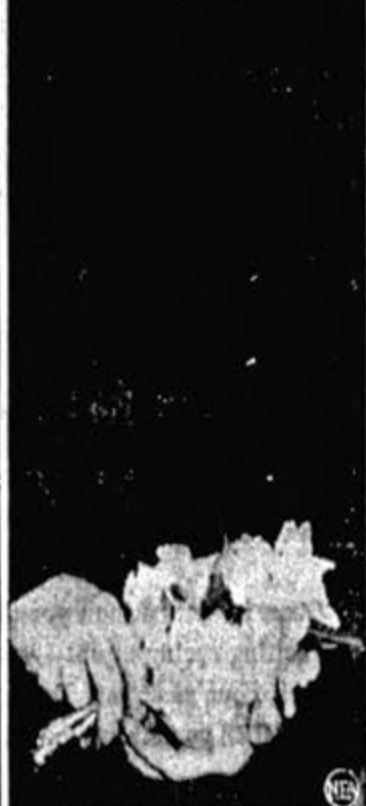

The incident occurred near the alley on the 200 block of South Ninth street at about 9:15 o'clock. The thief approached Miss Tounsgnant from behind and ran up the alley with his loot. She gave chase but, outdistanced pursuit, and disappeared between buildings and got away. Miss Tounsgnant called police officers who also were unsuccessful in locating the thief.

Particularly distressing to Miss Tounsgnant is the loss of the glasses and the keys and she expressed a fear that the thief might discard the glasses where they would be become broken or would not be found and returned. Other articles in the stolen purse included a Rosary which was marked with her name, cards, letters and a cosmetic kit as well as money.

FORESTS HELD VITAL
Norway — The importance of forest conservation work in the development of northern Michigan's tourist business was stressed by George Bishop, of Marquette, secretary-manager of the Upper Peninsula Development bureau, in a talk before members of the Norway township Parent-Teachers' association last evening. The meeting, held in the Vulcan high school auditorium, was well attended.

Conservation of the forests, Bishop said, is of vital importance in a tourist development program as wooded areas, cold streams well stocked with fish, wild game and flowers are the appeals which bring city visitors to the upper peninsula. Bishop estimated that approximately 930,000 persons either visited in or passed through the upper peninsula on vacation trips last year and spent in the neighborhood of 25 millions of dollars.

London will stop growing in seven years, according to one expert's calculations.

Magnus Swanson of Foster City Found Dead Lying in Bed

Iron Mountain, March 26.—The body of Magnus Swanson, aged 81, resident of Foster City for the last 54 years, was found by neighbors at about 2 o'clock yesterday afternoon lying in bed in the home in which the aged man had lived alone for several years. Heart trouble, from which he had suffered for the last years, was given as the cause of death. Swanson was born May 5, 1857, in Sweden. He arrived in New York in 1878 and resided there for several years before moving to Foster City.

Tommy Bridges Out Because of Injury

Lakeland, Fla., March 26 (AP)—Detroit Tiger officials said tonight an aggravation of an old injury to his right arm will prevent Tommy Bridges from pitching before about May 15.

Walter O. Briggs, jr., club secretary, said X-ray pictures of the injury would be sent to the Ford hospital at Detroit for examination.

Bridges chipped a bone in the elbow of his right arm eight years ago and it was believed he re-injured it by swinging a bat in practice.

TRUCKERS ARE WARNED AGAIN

Overloading of Vehicles During Breakup Is Prohibited

Operators of logging trucks are warned to keep within the load weight restrictions on state and county highways during the present spring breakup in a joint announcement made yesterday by Ben Sparks, division engineer of the state highway department, and John T. Sharpsteen, Delta county road engineer.

An earnest appeal is also issued to the truckers to postpone, if possible, their hauling over the roads for several days until the current breakup period is passed.

Farmers have issued complaints that the hauling of pulpwood, posts, ties and logs in trucks has caused much damage to their roads.

Weight checkers have been assigned to the highways and are stopping all trucks that appear to be overloaded. Strict prosecution will be taken if violators of the weight restriction order is promulgated.

It is expected that the frost will be out of the ground within ten days or two weeks. If truck operations could be minimized during this period, the roads could be kept in fairly good condition, it was said.

Charming Tea Program, Mark Circle Meeting

A tea of attractive appointments featured the meeting of the Near East Circle of the First M. E. church, held Friday afternoon in the church parlors, with a large attendance of members and their guests.

Jonquils, sweetpeas and other spring flowers graced the tables. Mrs. F. F. Davis presided.

The program of the afternoon included a highly entertaining travel talk on her recent trip west, by Mrs. Edward Erickson, Jr., and a group of musical selections.

Hostesses for the afternoon were Mrs. William Brown, Mrs. F. F. Davis, Mrs. Earl Ness, Mrs. Laura Brown and Mrs. B. B. Loveland.

Was a Rheumatic Cripple for Years; KruGon Unfailing

Has Full Use of His Right Arm First Time in 17 Years; "Never Before a Medicine Its Equal," He Declares

"KruGon was the first medicine to do as it claimed," said Mr. Ernest Lewis, 106 South Mansfield St., Ironwood, Mich. "For seventeen years I could not raise my right arm above my shoulder it was so stiff and sore and crippled with rheumatism. My right hip was badly affected too. My kidneys and liver were disordered and added to my distress. I would be up at all hours of the night, unable to get a good night's rest or sleep. I lost my appetite, my system was in general run-down condition, my bowels were irregular and try as I did I could not find a single medicine to help me. I was finally persuaded to give this new KruGon a trial."

"There can be no doubt as to the merit of this new KruGon today," continued Mr. Lewis. "It is almost too good to be true—but it is a fact that I have regained the full use of my right arm. That crippling rheumatism has been driven from my body. My kidneys and bowels have been regulated, enjoy a good night's restful sleep without the least disturbance. My appetite has even been restored, have no distress after eating and am enjoying the best health I have had in years. I did not realize a medicine as remarkable as KruGon had been discovered until I gave it a trial myself."

KruGon is sold by West End Drug Store, 1221 Ludington St., this city.

WE, the WOMEN

BY RUTH MILLETT

A second wife is usually jealous of the woman who went before her—and then went to Reno. She finds it isn't enough to have the present of the man she loves and an option on his future. She wants his past as well.

And having missed it, she is resentful of the woman who had her husband first.

Few second wives are sensible enough to realize the truth of their positions, that they are probably indebted to the woman who went before them. The woman from whom a man learned that woman aren't perfect, that marriage has its drawbacks—but that the disadvantages work both ways.

If the first wife led her husband a dog's life, so much the better for the second. For then every one of her good qualities will be recognized and doubly appreciated.

Men gain something in the art of getting along with women from every woman they know. And nowhere do they learn more than from a wife, whether the right or the wrong one.

So a second wife is foolish when she resents the first.

It is entirely possible that the thoughtfulness that made her fall in love with her husband is a result of his first wife's demands.

Or that his appreciation of her is heightened by the knowledge that here is what he missed the first time.

Whether she was for better or worse, the first wife is bound to have done a lot toward getting a man used to domesticity.

And for that the second wife should give hearty, though silent, thanks.

EAST JORDAN'S KING CROWNED

Tawas City Smelt Run Begins in Earnest; Water High

East Jordan, Mich., March 26 (AP)—Several hundred persons watched the crowning of George Stevenson of South Bend, Ind., as King George I of Smeltium today as the main feature of East Jordan's annual Smelt Jamboree.

Clyde Snellenberger of Cheboygan read the king's proclamation and delivered the oath to the new ruler as his predecessor, Jack VanCovering, Detroit outdoor news writer, stood by.

Maurice Guy of Saginaw was toastmaster at a banquet tonight.

Another feature of the afternoon was "Newaygo News" spitting contest, which was won by Walter Evans of Ft. Wayne, Ind.

At Tawas City the smelt run in the Tawas river was described as "beginning in earnest" tonight as a crowd thronged the river bank, enjoying the lack of restrictions on dipping. Good catches were reported, but a heavy run of perch began and gained the interest of some of the fishermen.

High water prevented the smelt run from reaching maximum proportions, but old-timers predicted it for Sunday.

The average U. S. railroad employee worked 2,511 hours for an average hourly pay of 69.1 cents in 1936, the highest figures for any one year since 1930.

TAX SALE COST CALLED WASTE

Former Auditor O'Hara Says Gundry Fired Efficient Help

Menominee, Mich., March 26 (AP)—Former State Auditor General John J. O'Hara said today an admitted waste of \$50,000 in preparation for the state's tax sale was brought about by the discharge of efficient office help merely because they were Republicans.

Auditor General George T. Gundry had said the waste was caused by the failure of O'Hara and his staff to post delinquent tax receipts to such an extent that they were 18 months behind when Gundry took office.

"One of the first official acts of Gundry was to discharge George Nichols, who grew up in the department, and other efficient help merely because they were Republicans," O'Hara asserted. Gundry surrendered to the pressure of the political job seeker. The cost was the loss of capable administration.

O'Hara, a Republican, said his records were "nearly complete" when he left office.

TREATY RIDICULED

Leipzig, Germany, March 26 (AP)—Reichsfuehrer Adolf Hitler again took up the cudgels against the tattered treaty of Versailles today, sarcastically scolding German frontiers set up by the pact.

"Who imagined the great German Reich would stop at the ridiculous frontiers drawn at Versailles?" he shouted.

A crowd of 25,000 Saxons cheered the Fuehrer in the second appearance of his electioneering swing around the Reich to convince the masses that his union of Austria and Germany was the "fulfillment of a thousand year old dream."

"Does anyone believe the League of Nations was founded to help small and big nations?" he thundered.

"Does anyone believe there is any such thing as international conscience?"

Trip Is Triumphant

To the "hells" of the wildly cheering crowd, Hitler explained the reasons for Austro-German union along lines expounded yesterday in his first speech of the campaign at Koenigsberg.

He scorned both the Versailles and Saint Germain treaties, which he said forbade the plebiscite on self-determination in Austria because the powers of Europe did not regard it expedient that Germans should unite.

On the other hand, he said, they insisted on the Saar plebiscite because 150,000 Frenchmen lived there. (The rich Saar region, taken from Germany after the World War and set up under League of Nations control, was returned to Germany in the 1935 plebiscite.)

Hitler's train journey from Koenigsberg, in the Far Eastern corner of greater Germany, to Saxon Leipzig was a triumphal one. At all stations along the line the population turned out and lined the tracks.

Detroit Patrolmen Killed In Hold-Up At Grocery Store

Detroit, March 26 (AP)—Two Detroit patrolmen were killed and a negro died of bullet wounds an hour after a grocery store at Hamilton and Forest avenues had been held up.

The officers, Seymour H. Lawler, 35, and Hiram Reno, 33, were

seated in their cruiser, which they had driven to the store, when the negro ran from the store and, upon seeing the policemen, shot them.

They apparently died instantly, never moving from their seats.

The negro, unidentified and about 35 years old, died in receiving hospital after he had been shot by one of the other policemen dispatched to the scene.

George Rashid, the store proprietor, said the negro had taken \$95 from the cash register before fleeing, and he believed that one or two other men were with him.

Cherry Blossoms Put On Show in Capital

Washington, March 26 (AP)—The capital presents tomorrow its biggest annual non-political show—the Japanese cherry blossom display.

Experts said the blossoms would be at their best.

The weather bureau forecast a fair, windless and warm Sunday. Tens of thousands of visitors were expected.

Commission Can't Legally Move From Lansing to Detroit

Lansing, March 26 (AP)—John H. Brennan, deputy attorney general, held today in a formal opinion that the state corporation and securities commission could not legally move its headquarters from Lansing to Detroit.

The opinion had been requested by Carl A. Olson, chairman of the commission, who said other state officials who wanted the space his department occupies here raised the question.

Brennan's opinion pointed out that a 1932 statute specifically provided that the former securities commission should establish its headquarters in Lansing "and that all records should be kept there."

Brennan said a 1935 statute which abolished the first commission and created the present one authorized the board of state auditors to establish the commission's offices "in Lansing and other places designated."

Accidents at grade crossings and to trespassers on railroad property accounted for 81 percent of all fatalities from all causes on railroads in 1936.

Delegates of the two countries meeting at Augustow, Poland, reached an agreement on postal, highway and aerial communications and turned to discussion of railway communications.

The move by United States Secretary of State Cordell Hull on behalf of political refugees met a sympathetic response in a number of European countries.

The Netherlands cabinet will meet Monday to take a decision on the proposal for cooperation in affording refugees a haven.

The British government promised to give its immediate attention to the American proposal and a favorable French reply was expected soon.

In Berlin, Propaganda Minister Paul Joseph Goebbels' newspaper, Der Angriff, however phoned that the United States would experience serious domestic disturbances by allowing refugees to enter.

"In America," it said, "there still will be serious inner disturbances until the healthy strength of Anglo-Saxon folk has destroyed or absorbed immigrant injections."

MORE MAN-POWER NEEDED

Barcelona, March 26 (AP)—Thousands of civilians were rushed to the western border of Catalonia today to build government rearward fortifications against the wave of advancing insurgents.

At the same time government leaders stressed the necessity for two new divisions totaling 60,000 men to form shock troops. This was in accordance with Defense Minister Indalecio Prieto's new slogan:

"They might crush us, but not force us to surrender."

HEIRS CONTEST FARMER'S WILL

Cousins Claim Gift to State of Michigan Is Illegal

Detroit, March 26 (AP)—Two cousins of John P. Barlow, 76-year-old retired farmer who died March 18 and left his entire estate of \$45,000 to the State of Michigan to be applied on part of its debt, moved today to break the will.

Col. Walter Barlow, 33, chief assistant corporation counsel for Detroit, and his brother, Edwin E. Barlow, 38, cousins of the former farmer, said they would seek to have the will set aside on grounds it was illegal.

"I cannot understand our cousin's sudden interest in public welfare. He never held public office and never seemed interested in affairs of state."

Gasoline Ignited; Burns Prove Fatal

Detroit (AP)—George Freeman, 42, died here Saturday of burns suffered Friday when his cigar ignited gasoline with which he was attempting to clean an automobile cylinder block. Harry Zielsnik, also burned in the blast, was discharged from a hospital Saturday.

PHILS GET EDGE

Biloxi, Miss., March 26 (AP)—Southpaw Wayne LaMaster pitched and batted the Phillies to a 5 to 3 victory over the Athletics today to give the Phils a 2 to 1 edge in their series.

LaMaster replaced Hugh Mulcahy on the mound in the sixth inning and shut out the A's without a hit the last four innings. In the eighth with the bases full he doubled down the third base line to score Browne and Arnovich with the winning runs.

Not a Pullman passenger or employe has been killed in the last three years, although Pullmans in that period carried approximately 50 million passengers.

VIENNA GIVES BIG WELCOME TO NO. 2 NAZI

Leipzig, Germany, March 26 (AP)—Reichsfuehrer Adolf Hitler again took up the cudgels against the tattered treaty of Versailles today, sarcastically scolding German frontiers set up by the pact.

"Who imagined the great German Reich would stop at the ridiculous frontiers drawn at Versailles?" he shouted.

A crowd of 25,000 Saxons cheered the Fuehrer in the second appearance of his electioneering swing around the Reich to convince the masses that his union of Austria and Germany was the "fulfillment of a thousand year old dream."

"Does anyone believe the League of Nations was founded to help small and big nations?" he thundered.

"Does anyone believe there is any such thing as international conscience?"

Miriam Lund on Tour East With Augustana Choir

The Augustana college a cappella choir of Rock Island, Ill., of which Miriam Lund, of this city, daughter of Rev. and Mrs. C. Albert Lund, is a member, has left on its eastern tour, during which it will participate in the tercentenary celebration of the landing of Swedish colonists in America.

The tour which opened in Warren, Pa., and Pittsburgh, includes Washington, D. C., where the choir is singing tonight where Miss Lund will be the guest of her brother and sister-in-law, Mr. and Mrs. Wendell Lund, and where the members will be received at the Swedish legation by Minister Wollmar F. Bostrom and Mrs. Bostrom; Philadelphia, Annapolis, Baltimore, Md., and the historic shrine of Swedish colonial immigration, Wilmington, Del.; New York City; Hartford, Conn.; Boston, West Point and Chicago.

While in New York on March 29, the choir will broadcast from 1:30 to 2 p. m. from Radio City, over NBC, on a program on which Consul General M. Kastenengren will speak. The evening concert will be in Carnegie hall. The engagement in Orchestra Hall, Chicago, which a number of Escanaba plan to attend will be April 25.

Social-Club

Tea, March 30
The Ladies' Aid of the Swedish Mission church will entertain at a tea Wednesday, March 30, from three to five o'clock, in the church parlors. A musical program will be presented. The public is cordially invited to attend.

Nancy's Birthday Party
Nancy Jean Duchaine, daughter of Mr. and Mrs. William J. Duchaine, entertained a group of her little playmates Saturday afternoon at her home, 1115 Tenth avenue south, on the occasion of her fourth birthday anniversary. The youngsters played games and later were served a birthday supper, featured by attractive Easter appointments.

Presbyterian Aid
The Ladies' Aid of the First Presbyterian church will meet Tuesday afternoon at the usual hour in the church parlors. Hostesses are Mesdames Clarence Zerbel, Gust Peterson, Stanley Ostman and P. A. Aronson.

Voice Group
The voice group of the fine arts department of the Escanaba Woman's club will meet on Tuesday afternoon at 2:15 o'clock at the home of Mrs. Henry Wylie, 915 Lake Shore Drive.

Eastern Star Card Party
R. C. Hatheway Chapter, No. 149, Order of the Eastern Star, is entertaining at a card party Tuesday evening at the Masonic Temple-Contract, auction, five hundred and crossword lexicon will be played, games starting promptly at eight o'clock. Mrs. C. R. Henderson and Mrs. William Mather are in charge of reservations.

Delta Bridge League
Two Howell sections were held at the regular meeting of the Delta Bridge League held Friday evening at the Ludington hotel, the hands in both sections being very interesting. Pairs scoring fifty per cent or better were:

- Section I—
1. Mrs. C. B. Farrell and Mrs. L. W. Olson, 5952 per cent.
2. Mrs. S. J. Shank and Mrs. Derlin Romington, 5784.
3. Mrs. Ed Murphy and Mrs. W. V. Leppia, 5685.
4. Helen Fillion and Mrs. Matt Sullivan, 5508.
- Section II—
1. Harry Needham and Mr. Coagan, 5777 per cent.
2. S. J. Shank and A. J. Groop, 5727.
3. Mrs. Kibby Treiber and Mrs. Budin, 5688.
4. Mr. and Mrs. W. J. Clark, 5638.
5. Derlin Romington and Matt Sullivan, 5499.
6. B. Howe and H. L. Tolderman, 5045.
- The usual Friday night meeting will be held this week, play beginning promptly at 8 o'clock.

Today's Recipe

Two recipes for canning smelt, requested yesterday, are:
Smelt in Oil
After cleaning smelt wash well and let soak over night in salt water. In the morning drain and wipe dry. Place fish in pint jars. Add enough cooking oil to cover. Process three hours in hot water bath and seal.

Mustard Smelt
Salt as for oil fish over night. Drain and wipe dry. Pack in jars. Add two tablespoons prepared mustard, one tablespoon vinegar to each jar. Process as for oil fish and seal.

Mineral Oil Dressing
One egg
Two tablespoons vinegar
One teaspoon sugar
Pinch of salt and one-half teaspoon dry mustard
Two cups mineral oil
Beat eggs, and add vinegar and sugar. Add mineral oil in small amounts, about four or five, beating well each time. All ingredients should be cold.

A special request received Saturday is for a recipe for old fashioned German potato salad. Will you call 693 if you have this, or if you wish, write it out and send it to the recipe department of the Press.

Another excellent recipe for mineral oil salad dressing, received through the courtesy of Mrs. B. J. Larson of 224 Lake Shore Drive, is as follows:

Mineral Oil Salad Dressing
One cup mineral oil
One-half cup catsup
One-fourth cup vinegar
One-half cup sugar
One teaspoon salt
One teaspoon paprika
Juice of one-half lemon
Dash of garlic
Put ingredients in a bottle and mix by shaking. Be sure to shake well before using dressing.

Wells P-T Will Present Play

The Wells Parent-Teacher association is sponsoring a play which will be presented at the Community House Tuesday evening, March 29, at 8 o'clock. Proceeds will be used to purchase playground equipment. The public is cordially invited.

SIXTEEN NO TRUMP!
Phenomenal Hand Illustrates the Importance of Open-Faced Card in Five-Suit Contract

(This is the third and last of a series of articles by Mr. McKenney giving the outlines of the new game of royal or five-suit contract, which has gained considerable popularity in London and Vienna.)

Royal contract, according to those who have played it more than once, tends to make for a greater number of freak distributions, and slams

are bid on a much greater proportion of the hands. On the other hand, it is said that a rubber of royal contract usually requires a longer time to play than one of contract. This seems reasonable enough, in view of the greater number of tricks in each hand, and the greater accuracy required when the declarer faces questions of strips, squeezes, or other so-called expert plays. No doubt within a few months, if New York follows the fashion set in London, there will be a great deal more data on which to base general principles. If they are found to differ from those accepted as standard in American contract bridge today.

The hand discussed today also came from England, and is the prized possession of a New Yorker, who had the pleasure of bidding and making a super slam against two English experts.

The bidding is phenomenal, and the American, who sat North, had the distinction of taking all 16 tricks at a no trump contract. The key card to this no trump slam was, of course, the exposed ace of royals. So freakish were the East and West hands that, with the aid of this ace, West would have lost but one trick.

In explanation of his slam bid, the American explained that he could not resist the temptation to bid for the slam in no trump himself, rather than leave it to his English partner.

The opening bid of ten spades is our forcing bid of two, translated into a somewhat unusual setting. Of course, such hands as this are unusual in royal contract; however, not quite so rare, I understand, as in our game, but I chose the slam to disclose how important any faced card may be in slam bidding.

Contract Problem (Solution in next issue)
West is playing the contract at three-no trump. He refuses to win the spade until the third round. What defensive play can North make that will defeat the contract?

John A. Fisher, Veteran of C. & N. W., Is Celebrating 80th Anniversary Today

A family reunion, the first in many years, and a birthday party for which elaborate preparations have been made, will mark the celebration today of the eightieth anniversary of John A. Fisher, Sr., widely known resident of Escanaba, and retired Chicago and North Western locomotive engineer.

Mr. Fisher will be eighty years old on Monday, March 28, but the observance of his anniversary is being held today to permit all members of the family to participate in it.

The program of the day will include a banquet for members of the family group at 4:30 o'clock at the Chicken Shack on US-2, and open house at the home of Mr. Fisher's son, John A. Fisher, Jr., at 809 Fourth avenue south, in the late afternoon and evening, during which Mr. Fisher will receive old neighbors and friends, who will take pleasure in calling to extend their congratulations and best wishes.

Decorations for the banquet will be featured by a large birthday cake and spring flowers in an effective arrangement.

Born in Marquette
Mr. Fisher was born in Marquette on March 28, 1858, and attended the schools in that city during his early youth. He began his railroad service in 1875, when he started firing on the Marquette, Houghton and Ontonagon, and entered the service of the Peninsula Division of the Chicago and North Western as a fireman on January 28, 1880, in which year he moved to Escanaba.

He advanced to locomotive engineer, and for over forty years, until he retired with pension on April 1, 1928, held the job of pulling Trains 216 and 217, which were recently discontinued.

He was married in 1879 to Nellie Hamilton, of Marquette, who died July 29, 1917. The head of a family of four generations, Mr. Fisher has six children, Mrs. A. R. Erickson, of Clinton, Iowa; James Fisher, Ishpeming; Mrs. George Wilder-spin, Munising; Mrs. Edward Murphy, John Fisher, Jr., and Claude W. Fisher, Escanaba; seventeen grandchildren and four great grandchildren.

Past State President
He is one of the most prominent members of the Ancient Order of Hibernians in Michigan, is a past state president, which office he held for eight years, and also served as state vice president, in addition to holding office in the local organization for many years. He is one of the oldest members of Escanaba Council, Knights of Columbus.

Members of his family, residents of Escanaba, and those from other cities, who will be with him today, at his birthday banquet, include Mrs. A. R. Erickson, who arrives this morning from Clinton, Iowa; Mr. and Mrs. James Fisher, Ishpeming; Mr. and Mrs. George Wilder-spin; and Mrs. Lida Sharkey and Jack Sharkey, of Munising; Mrs. Edward Murphy and daughter, Janet; Mr. and Mrs. John Fisher, Jr., daughter, Marlon, and son, Jack, and Mr. and Mrs. C. W. Fisher, Escanaba.

Rev. Gustafson Speaker Tonight

Rev. J. Gustafson, pastor of the Swedish Mission church, Norway, Mich., will be in charge of the service this evening at the local Mission church. The service will be conducted in the English language and will begin at 7:30. Rev. Gustafson is well known in Escanaba. The public is invited.

Demonstration Week in Schools Opens on Monday

Demonstration Week, in which pupils of the Escanaba public grade schools will be presented in their regular class work, in physical education, under the direction of Miss Ruby Blizel, supervisor, will open Monday and continue through Friday, April 1.

The Demonstration Week is replacing the former physical education demonstration at the Junior high school gym, and it is believed that it will prove a better plan, in that every pupil of the various schools will be participating, and also because of the fact that parents and friends interested will see the class work as it is conducted regularly throughout the year.

Everyone interested in visiting the schools this week is cordially invited to do so. Miss Blizel's schedule follows: Monday, Washington school; Tuesday, Barr; Wednesday, Franklin; Thursday, Webster; and Friday, Jefferson.

The regular schedule of classes will be followed in each school. The Demonstration Week classes will present new material and a review of work of the past months, including rhythm, dances, games and relays.

COLOR LOWERS CEILING HEIGHT

Ceiling Should Be Darker Than Walls

In modernizing some of the older types of houses the problem of too high ceiling is frequently encountered and the question arises as to the best way to treat the decoration of the room.

The usual decorative plan of making the ceiling lighter than the walls may at times be disregarded.

The reason is simple. Where a light ceiling occurs in a high room the color of the ceiling can actually seem to fade farther into the distance and the height seems greater.

To correct this condition decorate the ceiling with a darker shade than the walls, and this treatment will have the effect of bringing the ceiling down closer to the rest of the room and to the proportions you desire.

Also, the ceiling color, darker than the sides, can be brought down on the walls for a short distance.

Bear in mind that when a darker color than is found in the side walls is brought into use for the ceiling the general balance should be kept by the use of dark carpeting or dark finish on the floors.

CLOSED PORCHES HANDY
 Glazed for winter protection the enclosed porch makes your home more comfortable.

Modernize the Kitchen

Coat Of Paint Renews Shades

To renew window shades, lay them on a flat surface and paint with flat wall paint.

In many cases, while the exterior sides of the shades should match, it is desirable to change the interior colors to harmonize with the decorative schemes in various rooms.

Before painting the shades, figure out appropriate color schemes for the entire house.

Some types of shades can be washed and renewed in this way. Check to see if your shades are washable.

Maple And Pine Floors

Maple and pine floors are close grained woods and do not require a paste filler when finishing. To wet a good job the first requirement is to be sure that the floor is absolutely clean and free from all stains. If the floors are to be stained use an oil stain of the color desired and then when dry wax or varnish as desired.

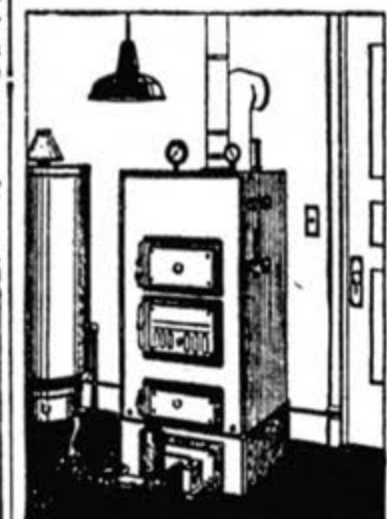

Lady Jane Grey was queen of England for nine days in 1553.

HEATING PLANT NEEDS OUTLETS

Boiler Room Should Have Electric Facilities

Electricity has a prominent place in any modern heating system regardless of the fuel used. Oil burners, automatic coal stokers require electrical connections. Thermostatic control devices and warm air circulating fans for hot air heating systems also require outlets.

The boiler room should be particularly well lighted and a pendant from the ceiling as shown in the illustration over the boiler is a most convenient arrangement.

Colored Walks Now In Vogue

Colored concrete flagstones are being used more and more for new driveways, with many striking yet harmonious effects.

A new front walk and terrace of colored concrete adds hundreds of dollars to the value of your home.

PLYWOOD USED FOR FINISHING

New Material Meets All Needs for Paneling

Plywood panels are becoming increasingly popular in homes, stores and other types of buildings. They make inexpensive paneling where utility or insulation are requisites.

Modern machinery, large scale production and the development of water-resistant glues and gluing technique, have made it possible to produce panels of practically any size, kind of wood, degree of beauty or utility and price.

The popularity of plywood panels has been increased because they are not likely to shrink and warp. Their ability to stay in place and hold their shape results from plywood being made of three or more layers, always an odd number, with the grain of each layer running at right angles to the grain of the adjoining layers or plies. Each layer in the plywood is of correct thickness so that shrinking and warping is counteracted. As a result there is little danger of the wood checking and ruining highly glossed or enamel finishes.

Plywood panels are highly resistant to the transmission of heat and cold which cuts down the fuel bill in winter and reduces interior temperatures in summer. They are easy to cut to any shape or size desired, take nails and screws easily and in large sizes can be installed quickly and cheaply. They may be painted, covered with wallpaper, or given a natural or stained finish, individual patterns made by the

Water Heated By Gas Plant

The most modern gas heating equipment for domestic purposes includes the new automatic hot water heaters. By using these heaters, hot water is always available, and with the turn of a faucet the hot water heater automatically ignites the gas and keeps the water at a constant temperature.

You need not worry about the water getting too hot in the boiler, yet at the same time you are sure of your hot water. Dish washing becomes easier and goes more quickly and pleasantly. Of course this hot water must be piped to the kitchen sink, as well as the bathroom.

Humidity Fixed By New Device

Humidifiers are now available which can be attached to any steam or hot water heating apparatus and provide just the right amount of humidity—automatically controlled—no matter what the temperature may be out of doors.

Modern mechanical equipment for the home insures genuine living comfort, cleanliness and lower fuel bills.

Foreign Policy Lacks Logic

We Americans have little il-

lness to criticize the cautious

policy of Prime Minister Chamberlain.

Facing much danger of entanglement, our caution goes much further than Britain's in excluding commitments.

On the same day on which Britain's Cabinet announces that it is not prepared to help save Czechoslovakia from Nazi Germany, Secretary Hull and the House Foreign Affairs Committee announce that, despite the Spanish Embargo Resolution and the Neutrality Act will continue to represent American non-intervention policy.

True, there is complete inconsistency in the application of this policy. We refuse to sell anything to either side of the war in Spain because the President has found that "strife of a magnitude, or is being conducted under such conditions, that the export of arms, munitions or implements of war from the United States to such foreign state would threaten or endanger the peace of the United States."

Yet, in the case of Japan's war against China, which is certainly of greater "magnitude" and has already endangered our peace, the United States continues to export arms, munitions and implements of war to both sides. In the Far East the Neutrality Act, which was so promptly extended to the civil war in Spain, is completely ignored.

Parallels British Foreign Policy This illogical difference of policy in Asia and in Europe finds an interesting parallel in the difference between Britain's policy in Eastern and Western Europe. What the Germans may do in Czechoslovakia, Hungary and Yugoslavia leaves Britain cold. But an attack on France, Belgium or Holland would be a call to arms.

For a German drive toward the Channel presents an immediate menace to the British Isles, while Germany's historic "Drang nach Osten" provides a convenient area for Nazi expansion which offers no immediate menace to British interests.

LOVE LAUGHS AT THE DOCTOR

BY ELINORE COWAN STONE Copyright, 1938, NEA Service, Inc.

CAST OF CHARACTERS: CONSTANCE MAIDWELL—heroine; the stand-in; DEREK MANTHON—an artist who loved my first; DEREK painted her portrait; DR. ROGERS—he met his most difficult case.

Yesterday, So Connie starts on her strange stand-in assignment and meets Derek through the nurse who introduces them, ironically. The nurse forgets Connie's name!

CHAPTER XV After a pause that seemed like a timeless void in which all sound and motion were suspended, Constance said, smiling with bright, unblinking eyes into Derek's white, blank face, "Greetings! How are you, Derek?" and Derek wet his lips and stammered with feverish cordiality, "Why, I'm—well, this is a surprise! Where did you drop from?"

Miss Wilcox's black eyes darted swiftly from one to the other of them; and Dr. Rogers' voice sounded unnaturally loud when he said, "Well—we'd better get down to business, hadn't we? I understand you're going to re-decorate our leading lady, Mr. Manthon."

Constance knew that Derek's hands were shaking as he worked, frowning, glancing from her to the pictured image of Camilla Wynne and back again—Dr. Rogers suggesting from time to time, "A little more of that black stuff on her lashes, don't you think, Manthon?"

"I wonder if the mouth's full enough?" And Miss Wilcox, "Of course her eyebrows should be plucked, but we haven't got all day."

So that was the way Derek had looked when he saw her. . . . That was what she had said to Derek. . . . And that was what Derek had said to her.

Finally Dr. Rogers exclaimed, "Well, I guess that just about rings the bell. . . . Go grab yourself some sleep, Miss Wilcox. You may have a difficult day ahead of you. . . . Now, Miss Maidwell, if you're ready—"

With a swift, veiled glance at Derek's fair head, bent over the cosmetics he was replacing in the box, Constance followed the doctor into the corridor.

Just outside the sick room door he paused to say with a very little smile, "By the way, you'd better call him 'Jo-jo' if you can bring yourself to it. It was Miss Wynne's playful little name for him. I understand. . . . Aside from that, you'll have to be guided by what ever it is people mean when they talk about intuition."

Then they went into a large, cool, shadowy room. The second nurse was hovering over a bed on which lay a slight figure. George Thorvald, Constance's sister, was hardly taller than his sister, and not at all like her. Where Hitler's nose was generally, if existentially made—all golden tints, with blood coursing warmly, close under the skin—her brother was dark and slight, with crisp black hair, a pale olive skin, and sensitive, delicately chiseled features. . . . Ernest Thorvald's wife, Derek had written, had been a Spanish lady.

As the boy stirred restlessly, Mark Rogers said in a swift undertone, "Sit here, please," and Constance dropped into a chair by the side of the bed.

The boy moaned, cried out sharply, "Camilla—Cam, dear? . . . No—no, not! . . . Oh, no—no, not!" and seemed about to open his eyes.

Dr. Rogers murmured, "Closely. He's had an opiate, and can't see very clearly."

Constance leaned forward, clasped her hands together on the edge of the bed, and breathed, "Yes, I'm here, Jo-jo."

The boy turned dark pain-bazed eyes toward the sound of her voice, shut them, shook his head slightly, and said incredulously, "They told me you'd be here, but I didn't believe them."

Constance reached out a warm hand and placed it over the restless fingers near her on the spread. Mark Rogers motioned the nurse away, and stepped back into the shadow.

The boy looked from the hand on his fingers to Constance's face and back again, peering as if through a fog.

"But I killed you," he protested in a bewildered whisper. "You were—dead. . . . I saw you lying there—in the light of the car. . . . I called you, but you didn't move or speak. . . . Then someone—came—and took you away."

see for yourself that I'm all right, darling. . . . But now you must rest. We'll talk some other time. I'll just sit here, very quietly now, while you go to sleep."

He seemed to think that over, frowning with the effort of concentration. His hand fumbled for her fingers.

"Yes," he said slowly. "I guess it's you all right—this time. Your hand is warm—and you smell sweet. . . . You never touched me any of those other times you came."

"That's because I never did come before—not really," Constance told him softly. "You dreamed all that, you know. But this time you're not going to dream—not about me, nor anything else—just sleep."

He sighed, a quivering little sigh, like a child who has cried himself out.

"You were nice to come," he said drowsily, "after—the other night. But you were—always a lot—sweeter to me than I—deserved. . . . That's what I was—trying to tell you when we—met the truck—that I didn't deserve it, I mean—because I—don't seem to love you any more—not the way I used to. . . . I—ho frowned faintly—"I didn't put it very well, I guess. . . . Men shouldn't have to—say things like that—to women. . . . Women ought to—see it coming, and—make it easy."

"But I did understand," Constance said swiftly. "And you mustn't worry about that any more. . . . What, in heaven's name was she saying, she thought, in the voice of that woman the boy thought her to be?"

She went on, "I'd have told you that night if we hadn't gone over the bank. . . . I don't blame you. No one can help—not loving some one any longer. It's—she bro' off, startled by the ironic truth of her own childish phrase."

Suppose it had been she, in her own person, who had had to speak those words—to Derek? The boy made a drowsy motion as if to pat the hand that rested so close to his own.

"That's swell," he said. "Because I really—can't help it. . . . But it was—nasty—thinking I'd—killed you. . . . Now I think, if you don't mind, I won't—talk any more—just now."

Mark Rogers opened the door, and as the nurse came quietly forward, Constance slipped outside the room. In the corridor he overtook her.

"That's more like it," he said with a relief that lifted the words from the prosaic. "He may really sleep now."

Then when he saw that her lashes were wet, his eyes danced wickedly for a moment.

"You're not spilling perfectly good tears over being jilted by proxy, are you? Don't you take your play-acting too seriously?"

Constance wondered what he would say if she told him that for a moment she had almost forgotten that it was play-acting. . . . Look at her probably, in that twinkling, quizzical way of hers, as if she were something new and interesting, wriggling on a slide, as if he were wondering just why it did, and just what combination of circumstances might make it wriggle differently. . . . He was doing it now.

She was casting around for something scathing to say to him when he anticipated her.

PAPER MILL ON FULL SCHEDULE

Capacity Operation to Continue for High Water Period

The Manistique Pulp and Paper company plant has returned to maximum operation and will maintain capacity production at least during the month of April, it has been announced by company officials.

After operating for approximately a month on part time basis, the paper mill has resumed full operations in order to take advantage of high water period.

A stiffening of weather conditions retarded the flow of water from the Manistique and Indian river watersheds yesterday, and it was necessary to close the

dam gates to maintain the normal head. It is expected that the spring high water period will be continued for a period of about four weeks.

R. G. Hentschell, business manager of the firm, declared yesterday that a survey of paper consumption indicates the paper market will continue dull longer than originally estimated.

Newspaper producers in general stocked up heavily with newsprint before the first of the year, when newsprint prices rose \$7.50 per ton. A general reduction in advertising lineage and newspaper circulation has resulted in a sharp decrease in newsprint consumption. This condition is reflected in the newsprint industry's inability to find adequate market for paper.

RILEY ADMITS GIRL ASSAULT

Examination Scheduled for Tuesday Is Waived

Following his arraignment in justice court Friday afternoon on a statutory charge, involving an assault on a minor girl, William Riley, of Hawatha township, confessed to the charge. It was announced by Prosecuting Attorney W. J. Sheahan, and a preliminary examination which had been set for next Tuesday was waived.

Riley indicated he would plead guilty in circuit court to the offense, Riley was unable to furnish \$10,000 bond, which was set at the arraignment Friday morning, and he is lodged in the county jail.

The offense charged against Riley is of a serious nature and a plea of guilty, or a conviction in circuit court, may result in a drastic sentence of imprisonment.

Riley is alleged to have committed the assault upon the minor girl August 16, 1937 in Hawatha township.

89 Men Employed On Big WPA Job

A total of 89 men are now employed on the city's largest WPA job, connecting all dead ends of water services, in the city, City Manager P. H. Beauvais said yesterday.

The men are divided into crews working at several locations. One crew is working at Steuben, between Washington and Park. Another crew is working on the east end of Park, between Steuben and Cattaraugus and a third crew is working on Potter between Manistique and Oak streets.

All dead ends of water mains in the city will be connected in this WPA project, which will provide work for a large number of men for a period of about five months.

THEATRES

Singing, dancing and dimpling her way once more into millions of hearts, Shirley Temple's new triumph, "Dimples," opens at the Rialto Theatre.

Hailed as Shirley's wonder show, and featuring swiny new song hits and brand new dance steps, "Dimples" is heralded as the outstanding hit in the little star's parade of brilliant triumphs.

An exceptional cast, headed by the irrepressible and imitable Frank Morgan, supports Shirley in the film, with Helen Westley, Robert Kent, Astrid Allwyn, Delma Byron, the Hall John Choir and Stepin Fetchit prominently featured.

Replete with laughter, romance and drama, "Dimples" tells the story of a lovable little street minstrel, Shirley, and her incorrigible but irresistibly funny guardian, Frank Morgan.

SECOND FEATURE
Loretta Young, Warner Baxter, and Virginia Bruce are starred in the gay romantic drama, "Wife, Doctor and Nurse," which opens as the second feature. Featured in the supporting cast are Jane Darwell, Sidney Blackmer, Maurice Cass, Minna Gombell, and Margaret Irving.

Mrs. F. S. Patton and daughter Helen left Friday night for Thief River Falls where they will spend the week visiting at the Roy Oen home. Mrs. Oen is a daughter of Mrs. Patton.

SOCIAL

Coterie
Members of the Coterie will meet Tuesday afternoon at the home of Mrs. G. R. Empson, Lake Shore Drive. Included on the program will be a current selection presented by Mrs. J. F. Card and a reading "Heads and Tales" by Malvina Hoffman, presented by Mrs. L. C. Brownell.

Fellowship Club
The Young People's Fellowship club will meet Monday evening at the home of Mr. and Mrs. Ole Olson, 1503 Wisconsin Ave., at 8 o'clock. Rev. A. Glen, Escanaba will be the guest speaker for the evening. A cordial invitation has been extended to members and friends.

Gladstone Bethel Job's Daughters Being Organized

Organization of a Bethel of Job's Daughters, an international organization for girls, is being carried out in Gladstone under the auspices of Minnawasca Chapter No. 96, Order of the Eastern Star.

The organization is for girls, 13 to 20 years of age, who are related to members of the Masonic fraternity, and is similar in character and purpose to the DeMolay, the boys' organization.

The Gladstone Bethel will be the second in the Upper Peninsula, Iron Mountain having sponsored the first group last year.

Chapter members enrolled so far include Marjorie Ann Wyatt, Suzanne Brink, Su Murker, Genevieve Murker, Ellen Marble, Hilda Aepelgren, Marian Wilhelm, Junilia Gramberg, Ruth Danielson, Dorothy Jean Johnson, Ruth Johnson, Mary Brynolf, Louis Peterson, Beverly Cowen, Nancy Alguire, Helen Lee Alguire, Kathryn Nebel, Laverne Kinne, Naomi Staple, Priscilla Nebel, Alice Casey and Doris Cowen.

Arrangements are being made to have the Iron Mountain Bethel install officers and initiate members of the local Bethel. Until that time charter members are to be accepted.

Officers will be elected in the near future and a party for charter members is being planned. It is announced.

STOCKS TOPPLE FOR NEW LOWS

BY FREDERICK GARDNER (Associated Press Financial Writer) New York, March 26 (AP)—An early rally failed to hold in today's stock market and a last-minute burst of selling swept leaders into new low ground for the past three years and longer.

Losses, on the whole, ranged from fractions to 2 points, but there were a few releases of 5 or 10.

With today's short session the sharp break last fall, the ticker tape was behind at the beginning and end of the 2-hour proceedings and transfers totaled 1,383,370 shares, the largest volume for a Saturday since October 23. It compared with 442,070 a week ago.

The Associated Press average of 60 stocks was off 7 of a point at 36, a new bottom since March 26, 1935. On the week the composite was down 4.9 points net, the fourth consecutive week's setback.

The breadth of today's session was indicated by the fact 889 individual issues changed hands, several hundred more than in usual at the week-end. Of the aggregate there were 618 declines, 87 advances and 104 were unchanged. New lows for 1933 were registered by 559 stocks.

Few Make Gains The list slipped at the start, with overnight dumping of impaired margin accounts and additional liquidation from discouraged holders depressing virtually all groups.

Steels led the day's recovery attempt, but they retreated with the rest although they were only down minor fractions at the end. U. S. Steel, for instance, was off 3-8 at 44 3-8 and Bethlehem 1/4 at 46 1/4. Allied Chemical was a conspicuous spot, dropping 5-8 to 135 1/2. Losers of lesser amounts included Chrysler at 41, Westinghouse 70, N. Y. Central 10 5-8, Consolidated Edison 18, U. S. Rubber 25 1/4, Kennecott 23 3-8, General Electric 22 1-8, Montgomery Ward 23 7-8, Standard Oil of N. J. 42, Du Pont 10 3/4, and Corn Products 56 1-8.

Among the handful of gainers were Paramount at 6 5-8, International Harvester 56, Air reduction 45 1/4, National Steel 47, Schenley 18 and Public Service of N. J. 25 1/4.

Stocks lacked balance throughout the week, but suffered the worst slump since November 22 on Friday when virtually every group hit the toboggan.

Pessimism Blamed

Blamed for the slide was no particular development, but rather an accumulation of forebodings regarding business, industry and the foreign outlook.

The market tipped over on Wednesday just before President Roosevelt in his speech at Gainesville stressed his intention of not deviating from his original reform program. There was nothing new in this, though, and analysts were inclined to attribute the downturn mainly to trade pessimism. While the recession seemed to be flattening out, there was disappointment that at least seasonal improvement was not more pronounced.

The markets generally ignored improvement in steel production, and forecasts of further expansion soon. Easter buying appeared in retail stores, but it was considerably off from the year before.

MORE DECLINES FELT IN BONDS

New York, March 26 (AP)—The bond market rounded out a depressed week with another general decline today.

Most traders appeared to take their cue from the action of the stock list which suffered another wide break. Its influence was chiefly felt in secondary rails in which losses ran from fractions to around 2 points. Some speculative issues in other divisions wound up with greater declines.

In the late dealings the atmosphere of pessimism affected even the previously resistant low yield issues, including U. S. government bonds. The latter finished with losses running from 2-32 to 8-32 of a point. A few setback were recorded in the foreign sector.

Down at the close were Southern Pacific 4 1/2, 1965, at 34 1/2, off 1/4; Southern Railway 4 1/2 at 25 1/2, off 1/4; Santa Fe General 4 1/2 at 191, off 1/4; New York Central refunding 4 1/2 at 49, off 1/4; International Telephone 4 1/2 at 75 1/2, off 1/4; Warner Brothers convertible 6 1/2 at 64, off 1/4; International Paper 6 1/2 at 65 1-8, off 3-8; American & Foreign Power 6 1/2 at 39, off 1/4.

Austrian 7 1/2 dipped to 32, off 1/4; Japanese 6 1/2 to 76, off 1/4 and Cuban 5 1/2 to 69 1/4, off 1/4. Czechoslovak 8 1/2 of 1951 extended a recent sweeping recovery with a jump of 12 points to 75.

Transactions totaled \$4,730,000, a volume since early December. Last week's total was \$3,999,075.

Curb Moves Lower In Active Trading

New York, March 26 (AP)—Industrial shares led the curb market to lower ground today. In the most active Saturday trading since last October, leaders worked down fractions to several points, following a fresh selling drive on the big board.

Aluminum, Ltd., closed at 74, off 1/4; Pittsburgh Plate Glass 60 1/2, off 1/4; Carrier Corp. 20, off 1/4; American Gas & Electric 20, off 3-8; Electric Bond & Share 5 1/4, off 1/4.

A few issues moved against the trend for small gains.

Jim, The Ripper, Keeps On Swinging For Cubs

Chicago, March 26 (AP)—Rip Collins isn't playing first base regularly for the Chicago Cubs these days, but if you ask him he'll be there shortly after it not before the season opens. They can take him off the bag, but they'll never break the indomitable spirit of the one-time member of the St. Louis Gas House Gang.

Jim, the Ripper, was schooled in the gas house. Before that he dug coal in the Pennsylvania mines and later climbed to major league baseball. Today he faces his most serious task—the displacement of Phil Cavarretta as the Cubs' top first baseman.

Munising Bowlers Go to Gladstone; Enter Six Teams

Munising, March 26.—Six five-man bowling teams will represent Munising in the Upper Peninsula bowling tournament conducted at Gladstone. The teams and their personnel are as follows:

Spartans—Roual LaFave, Lenhart Miron, Bernard Norberg, Martin Clevon, Mervin Bowerman.
Blue Ribbons—Clarence Beauieu, Howard Gatis, Louis Peltier, Peter Arsenault, Nick Doll.
Do-Boys—Walter Meyland, Henry Jacobson, Vernon Florja, A. J. Robare, Ed Cole.
Press—Clarence Schroeder, Joseph Schroeder, Jack Rousseau, Edgar Gamelin, Arthur Davis.
Pests—William Belfry, Vern Johnson, Dolphus Revord, Fern Beattie, Ralph Gunville.
Red Crowns—Ted Tunteri, Charles Isaacson, H. Fisher, Jay Dorenbecker, Jack Siltala, Charles Everett.

Girls and Women: Frances Jerow vs. Ellen Leppa 7; Mrs. B. Butts vs. Jesslyn Jackson 8; winner Frances Jerow-Ellen Leppa match vs. Geraldine Hira 8:20; winner Mrs. Jesslyn Jackson match vs. Ethel Dufour 8:40.

All mixed doubles teams should be there by 7:30 and matches will be scheduled for open times. Men's doubles matches will also be scheduled and played during the evening.

All players must furnish their own paddles but balls will be available for those who do not have them.

In Camp With Big Leaguers

A broken ankle near the end of the 1937 season was the misfortune which caused the Ripper's present dilemma. Until then, he was having his worst season in the majors, but nevertheless winning games for the Cubs. Then he slid into second base one day and snapped a bone in his ankle.

That was Cavarretta's chance. And he took it. The young Italian stepped into the vacancy and played the best ball of his short career.

During the winter, Manager Charlie Grimm announced that Cavarretta would be the regular first baseman unless Collins could beat him out of the job. And Grimm kept his word. Cavarretta is the regular first baseman.

The other day Collins broke into the lineup when Cavarretta was given a rest. The first time up he missed a home run by inches in right field and the second time up he banged one against the left field wall again inches from a four-bagger.

That's the way Collins has been all through his career. He keeps swishing. When with the Cardinals he roomed with Pepper Martin and between them they were responsible for the Gas House tendencies which the Cards still have as a ball club.

Cavarretta is a different type. The youth seldom smiles, works hard on the field and has the same type of determination you read on the face of his fellow countryman—Tony Lazzeri.

During three full seasons with the Cubs, Cavarretta never has hit .300, but he welds a timely bat and has developed gradually. He is 20 years old. Collins is 32. During the 1936 season, Phil failed to live up to expectations born of his work the previous year. That was why the Cubs brought in Collins.

Since Grimm threw up his glove, the Cubs have had no outstanding first baseman. If the battle between Cavarretta and Collins doesn't give them one, they'll have to look to other fields. It isn't likely they'll have to.

MASTER MILER WINNER AGAIN

Fenske, Wisconsin Star, Gives Cunningham Tough Race

Chicago, March 26 (AP)—Glen Cunningham, the old master of the milers, proved it again tonight before a roaring crowd of 10,000 spectators by conquering his newest rival, sturdy Chuck Fenske of Wisconsin, by about a foot after a steaming battle in the famous Bankers' Mile, in 4 minutes, 9.9 seconds.

The race, forecast as an opportunity for the great Cunningham to better his own spectacular 4:04.4 made at Dartmouth college a month ago, failed to produce any such thing, but it did pull the spectators right out of their seats. Cunningham, cagy and track-wise, remained off the pace through ten of the eleven laps, and had to turn on every ounce of pressure in the final circuit to outshine the brilliant Badger youngster.

Fenske took the lead for a lap, then Jimmy Smith, slender Indiana university negro star, set the pace—not particularly fast—for the next four times around, with Gene Venzke, former Pennsylvania star, last. Fenske was in control, with Cunningham pegging along in second and third places and close up from there until the gun lap.

As the gun sounded, the powerful Kansas shot out in front. Fenske responded with a spurt of his own that regained him the lead for about a quarter of a lap. Once more Cunningham made a move and this time stayed there with Fenske trying desperately to sum-up on that extra ounce of power that might give him victory.

Venzke staged a brisk finish to take third place from the fading Smith. It was Cunningham's fifteenth triumph of his greatest indoor season, and his eleventh mile in better than 4:10.

Upper Peninsula Meet Is Opened on Upbay Alleys

Gladstone, Mich.—Members of the Soo Arcadians, enroute home from the ABC matches in Chicago, stopped over here yesterday and rolled the first games in the 31st annual Upper Peninsula Bowling tournament which opened yesterday on the alleys of the Rialto Recreation.

Formal opening of the tourney was held at 8 o'clock last night with Mayor J. A. Bredahl rolling the first ball. Short ceremonies during which the Mayor spoke a word of welcome were held and local teams, including Johnsson Oils No. 2 and Wabowiahs Save Your Soles took the alleys.

Top places the opening day were set by the Soo quintet. In the five man event they rolled a total of 2608; W. Harland and R. Marineau were high in the doubles with 1987; Pete Gentry chalked up \$11 for high in the singles and R. Marineau holds high in the all-events with 1665.

Sammy Snead And McSpaden In Lead; Revolta Cards 68

Greensboro, N. C., March 26 (AP)—Harold (Jug) McSpaden of Winchester, Mass., and Sammy Snead, of White Sulphur Springs, W. Va., shot sub-par rounds of 66 today to hop into the lead in the first round of the \$5,000 Greater Greensboro Golf tournament.

The record for the Starmount course, over which the first two rounds of the meet are being played, was cracked twice today. Monday's 36-hole final will be fought out over the Valley Brook course at the Sedgewick Country club.

Before McSpaden, runner-up in the 1937 P. G. A. tournament, and the long-hitting Snead posted their sizzling rounds, Johnny Revolta had come in with a 68 to better by one stroke the record set in 1932 by Henry Picard.

The day's disappointment was Victor Ghezzi, of Deal, N. J., winner of the North and South open at Pinehurst yesterday and a red-hot favorite. The best he could do was a 75 which left him far back in the field.

Two strokes behind Revolta came Bill Heinlein of Indianapolis, Leo Mallory of Ween Burn, Conn., and Johnny Bulla of Chicago.

SPILLING the DOPE

One of the biggest headaches of this sports writing racket is trying to pacify our numerous Cuban friends . . . as most of you know, there is none so ardent as a Cub fan . . . and none so obstinate as a non-Cub fan . . . breathe it softly, folks, but we often have been accused of being obstinate . . . well anyway, there seldom passes a day in which some loyal Cub fan does not jump us about not carrying enough about his heroes from the northside . . . now, we're just got to do something about it . . . we can't let them accumulate.

Speaking of the Cubs, did you know that the definition of

MANY REPORT FOR PRACTICE

Crisler Expects To Put Brakes on Michigan Grid Fortunes

Ann Arbor, Mich., March 26 (AP)—If numbers mean anything, the University of Michigan ought to have a banner year on the football field next fall.

A record number, 115 candidates, have registered for spring practice which begins Monday and lasts, with time out for a spring vacation, until early in May.

Of these the seasoned materal letters men, a score of others who won junior varsity citations or reserve awards, and a promising group of freshmen.

Interest in the spring drills, however, will center in Coach Herbert O. (Fritz) Crisler's efforts to apply the brakes to Michigan's skidding football fortunes.

While Crisler has made no promises for a winning season there are many who believe the door-mat days are over.

An acknowledged "trouble-shooter," Crisler plans to overhaul the doctle Wolverines "from the ground up" and use a wide-open style of play "without the razzle-dazzle."

Most of the drills will be devoted to conditioning the squad and the teaching of fundamentals, but here and there the Michigan coach plans a few experiments.

One he has in mind is the shifting of Capt. Fred Janke from tackle to fullback where his power could be used to pick up yardage. Michigan's hasn't had a hard-driving fullback in years.

The same experiment was tried last season and failed apparently, because Janke, who seems to have all the qualifications for the job, did not have enough time to become accustomed to the change.

That coaches bugaboo—inefficiency—may step in and ruin Crisler's hopes for a good season even before it starts, however.

Five of his most promising freshmen—Tom Harmon, Ralph Fritz, Paul Kromer, Howard Meahaff and Jack Meyer—are ineligible but with a chance to regain their academic status by the time September rolls around.

Harmon, a 195-pound halfback from Gary, Ind., and Fritz, a chunky guard from New Kensington, Pa., are rated by coaches as first-string material. Meyer is a quarterback. Kromer, a halfback, and Meahaff a fullback.

PITCHER ROWE STRIKES SNAG

Cincinnati Reds Hand Tigers 8-3 Beating at Lakeland

Lakeland, Fla., March 26 (AP)—Lynwood (Schoolboy) Rowe's attempted pitching comeback with the Detroit Tigers struck a snag for the first time today and as a result the Cincinnati Reds handed the Bengals a neat 8 to 3 lacing in an exhibition game here.

Rowe tolled the first three innings against the Redlegs and was touched for five hits and four runs. One of the blows was an inside the park home run by Harry Craft, Cincinnati center fielder.

The Schoolboy appeared to have his old time speed and good control but apparently lacked the "stuff" after the first inning when he got the side out in order.

Fox Hiss Homer
Rowe was followed by Rodie Lawson and George Gill, who worked three innings each, the former giving two blows and the latter four.

While the Tiger pitchers were being pummeled, Gene Schott, veteran righthander of the Reds, was stopping the Detroit attack almost cold. He gave only seven hits, three of which came in the eighth and ninth innings when Detroit tallied all its runs. One of the blows was a homer by Pete Fox, the ball clearing the left field wall to open the ninth.

The Reds wasted little time climbing on Rowe's offerings. Craft opened the second inning with his homer to right. Frank McCormick and Linus Frey hit singles. McCormick came home from third when Billy Myers fled to Jo-Jo White. Frey scored on Ernie Lombardi's infield out.

In the third Iral Goodman singled, went to third on a wild toss by Rudy York and came home on a single by Craft.

Lawson Wild
Lawson, who was wild, gave the Reds a run in the fourth, hitting Frey with a pitched ball and sending him to third with a bad throw to first. He came home on an outfield fly. The Reds continued their joyous way around the paths in the fifth when a base on balls, a triple by Dusty Cooke and an infield out produced two more runs.

A single by Schott and another triple by Cooke produced the final run in the ninth.

Schott eased up in the eighth and permitted Detroit to score twice on a pass to Gill, a double by White, a fly by Roy Cullenbine and a single by Tony Piet. Fox's homer was the only other Detroit tally.

Rowe's performance today was in marked contrast to his earlier pitching appearances this season, and left the question of whether he can stage a successful recovery from his arm ailment more up in the air than ever.

White and Frank Croucher led the Detroit attack, getting two hits apiece.

NAHMA CAGERS ARE HONORED

Players and Coach Are Feted at Banquet; Awards Given

Nahma, Mich., March 26.—The Nahma high school basketball team, coach Bernard Tobin, were honored this week at a banquet given at the Mat McDonald home, by the mothers of the local players.

Covers were laid for twenty-one at a table beautifully decorated, with the school colors, maroon and white predominating. The banquet was attended by Donald Douville, Raymond James, William Ritter, George LaBrasseur, Clayton LaBrasseur, Jack Tobin, Jack Hruska, Keith Beauchamp, Donald Rauls, and Robert McDonald. The boys were presented with their award for the year's work in basketball.

The following mothers served as hostesses: Mrs. Emil LaBrasseur, Mrs. Thomas Tobin, Mrs. Frank Hruska, Mrs. Ed. Douville, Mrs. Frank James, Mrs. Amos Ritter, Mrs. Homer Beauchamp, Mrs. William Rauls and Mrs. Matt McDonald.

Following the dinner the boys enjoyed an evening of music and cards.

FROSH OUTFIT SHOWS POWER

Michigan Tracksters To Get Aid From Strong Freshman Team

Ann Arbor, Mich., March 26 (AP)—Two shattered records and some creditable performances in other events marked the indoor season this year of the University of Michigan's freshman track squad.

Certain to find a warm welcome next year on Coach Charles B. Hoyt's championship team are no less than a half-dozen yearlings who paced their team to two victories in three telegraphic dual meets.

Among them are Jack Leutrutz of Saginaw, Mich., and Paul Kromer of Lorean, Ohio, football halfback, ineligible now but with a chance to regain their academic status by next fall.

Leutrutz hung up a new freshman record in the quarter-mile with a time of 51.5 seconds, clipped a tenth of a second off the old mark made by Stanley Birlinson. Kromer tied Sam Stoller's yearling record of 6.3 seconds for the 60-yard dash.

Lost to Indiana
The other record to fall was the mark of 8:12.8 in the two-mile relay in which Leutrutz, Arthur Cline of Indianapolis, Ind.; Philip Balyeat of Sparta, Mich., and Joseph Daniels of Saginaw negotiated in 8:02. Daniels also is ineligible.

In other events, Robert Hook of East Grand Rapids, a brother of Wally Hook of the football team, hung up a mark of 45 feet 5 inches in the shot put while Don Canham of Chicago cleared the bar in the high jump at 6 feet 2 1/2 inches and Geoffrey Hall of Sioux Falls, S. D., had a 65-yard high hurdles time of 8.5 seconds.

The yearlings defeated Wisconsin and Ohio State in telegraphic meets and lost to Indiana.

Coach Ken Doherty this week awarded numerals to 29 freshmen. The wards included Hook, Balyeat, Robert S. Buritz, Henry

Cooper and William Gensel of Detroit; John S. Dobson and William Dobson, Ann Arbor; David D. Donaldson and Ansel Hodson, Jr., Dearborn; Edward F. McDonald, Pentwater, and Richard Northway, Royal Oak.

UNION RALLY IS WELL ATTENDED

Success of Escanaba's Plan Is Related By Speakers

The election rally sponsored by the Women's Union Auxiliary at the court house on Friday March 25, to which the general public had been invited was well attended, and much valuable information was brought out on behalf of Labor candidates in city administration. Mrs. Frank Dahms, Sr. president of the Auxiliary Local, presided.

John Nicholas, president of the Escanaba Trades and Labor Council, speaking on objectives and aims of Union Labor's part in the forms of government, said that labor is often criticized for taking an active part in selecting candidates for various offices and getting results which were never gotten previously.

"We endorse candidates which we feel are favorable to us," he said, "and we are criticized. Other groups have always done the same, and no doubt they always will. Men are nominated by pressure groups, he said, and regardless, we have to take it, and we have in the past."

Ray LaPorte, secretary of the Escanaba Retail Clerks Union, explained the benefits derived by the tax payers of Escanaba, since the Escanaba plan went into effect with the election of labor men to the City Council. Taxes have been reduced by careful management and wise spending of public funds. Bonds, long overdue have been paid off to approximately \$200,000.00; a substantial reduction in the Health Department costs with better sanitation and preventative methods and care.

Mr. LaPorte also stated that the city administration saw fit to take advantage of all WPA projects they could get, and as a result 37 blocks were paved with concrete during the past season. The labor minded councilmen realizing the differences in small WPA wages and higher costs of living, received the cooperation of the Escanaba Coal Dealers whereby reductions in coal prices were allowed the WPA workmen of \$1.25 per

NSTC BAND TO GIVE CONCERT

Collegians' Program To Be Part of Series of Musicales

The Northern State Teachers college band of 30 pieces and the men's glee club will give a concert at the William W. Oliver Memorial auditorium in the junior high school on Monday night, May 4, it was announced by R. P. Bowers, Escanaba high school musical director yesterday.

The band, which is under the direction of Dr. Roy Williams, is being sponsored here by the senior high school music department.

The college concert is one of a series of four musical events to be presented by the music department of the senior high school within the next several weeks.

The high school orchestra will present the first concert on Friday, April 1, the band concert will be on April 20, and the cappella choir concert will be May 18. The latter event, originally was scheduled for May 2, but was postponed to accommodate the Northern State band appearance here.

A season's ticket, covering the four concerts at a reduced price, are available now at the senior or junior high schools. Single admission tickets for any one of the concerts also will be available but there will be no reserve seats.

Theatres

AT THE DELFT

A crucial but little-known chapter of American history is brought to life by Cecil B. DeMille in "The Buccaneer," opening today at the Delft theatre. It is the story of a famous pirate king who was so notorious that the government put a price on his head, but who became one of the nation's outstanding heroes when he came to America's rescue in her darkest hour and helped Jackson turn the British away from the gates of New Orleans.

Frederick March is seen in the role of the pirate chief, Jean Lafitte, one of the most colorful characters who ever walked across the pages of American history. Lafitte was born in Bordeaux, France, at some unknown date before the French Revolution. His birthday has never been established, although the late Huey Long of Louisiana declared one for him and made it a state holiday.

After serving for a time in Napoleon's armies, Lafitte moved to the New World to try his fortune. Gathering about him a band of ferocious outlaws from every corner of the world, he set up a pirate kingdom on the shores of the Gulf of Mexico not far from the thriving city of New Orleans. From his port of "Barataria" he carried on piracy in a gentlemanly manner, preying mostly upon Spanish vessels and establishing a set rule that American ships go unmolested at all times.

AT THE MICHIGAN

Warner Baxter and Joan Bennett will be seen for the first time in technicolor in "Walter Wanger's Vogues of 1938," the spectacular musical comedy which begins a three-day engagement at the Michigan theatre today.

Offering a filmpiece of new fashions in girls, gags, gowns, love, songs and dances, this merry story of Manhattan centers around the romance of New York's leading couturier, played by Baxter, and a charming debutante, played by Joan, who jilts a millionaire (Alan Mowbray) on her wedding day to become a mannequin.

Also featured in the cast are Helen Vinson, as Baxter's selfish, stage-struck wife; Mischa Auer, as a penniless Russian prince; Jerome Cowan as the shady theatrical producer who stars Helen in a flop show that it takes Baxter's last cent to back; and those gorgeous Walter Wanger models, "the most photographed girls in the world."

A New Collection of Favorite Hymns

There is a trend toward religion. The peoples of the various countries are having such barren lives under their hard rulers that they are turning to God. The faith of the Christian is the bridge over earthly despair to heavenly promise. The old-fashioned hymns are a great solace to millions of devout persons. In response to many requests our Washington Bureau has compiled a collection of the favorite hymns of all denominations. There are 151 well known sacred songs, complete with words and music, bound in a serviceable colored cover. As long as they last a copy will be sent to any subscriber for 20 cents to cover cost and handling.
