LOT TOTALS BY CATEGORY

Burials 3 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 3 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: SECOND BURIAL IN GRAVE 5 - INFANT

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 2 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 2 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials	5	Open	1	Lost	0	Res	0	4Sale	0	Lot Total	6
---------	---	------	---	------	---	-----	---	-------	---	-----------	---

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 2 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT CORNER MARKERS 4"X4"

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 5 **Open** 0 **Lost** 1 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT WALL AROUND LOT - NEEDS WORK

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: OVERSIZE LOT AT 26 FEET.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 0 **Lost** 1 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

----------------	---	-------------	---	-------------	---	------------	---	--------------	---	------------------	---

GENERAL COMMENTS: MRS MASON QUICK TRANSFERRED TO SEC 2 LOT 34 N/2

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 7

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SMALL LOT WITH ONLY 5 GRAVES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT BORDER AROUND ENTIRE LOT - NO WORK

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CORNER MARKERS ON NORTH EDGE - 4" X 4"
4 CORNER MARKERS ON SOUTH EDGE - 6" X 6"

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 0 **Open** 0 **Lost** 0 **Res** 6 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: ENTIRE LOT OCCUPIED BY TOOL SHED & GARAGE BUILDING

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT BORDER AROUND NORTH HALF.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: THIS IS A SMALL LOT WITH ONLY 4 GRAVES

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials	6	Open	0	Lost	0	Res	0	4Sale	0	Lot Total	6
----------------	---	-------------	---	-------------	---	------------	---	--------------	---	------------------	---

GENERAL COMMENTS: TWO TIERS OF BURIAL ON THIS LOT; THIS IS EAST TIER.
BURIALS ARE ADULTS SPACED AT NORMAL INTERVALS.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: NO SURFACE INDICATORS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

SOUTH

Burials 4 **Open** 2 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA AND A TWO TIER LOT.
THIS IS THE EAST TIER.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. A 40 FOOT LOT WITH 12 GRAVES IN A ROW. SEE CONTINUATION SHEET.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: SINGLE GRAVE AREA. TWO TIERS OF BURIALS. THIS PAGE IS FOR THE EAST TIER AND THE NORTH HALF OF THE TIER. SEE OTHER PAGES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 7 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 7

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 2 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: STONE WALL AROUND LOT - NO WORK NEEDED

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 2 **Open** 4 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: NORTH PART OF LOT LOST TO A ROAD.

2ND BURIAL GRAVE 3: ARCHAMBEAU-LOIS; 11/26/1931; 0; 14X18X10 HICKEY, DUAL

2ND BURIAL GRAVE 2: ECK-JOHN; 03/15/1938; ---; NO STONE; NO VAULT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 8

GENERAL COMMENTS: CEN MON GRAVE 3: 08X16X42 SLAB, CB

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

2ND BURIAL GRAVE 5 ABOVE: MARIN-BABY; 08/17/1911; 0; NO STONE; NO VAULT

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT BORDER AROUND ENTIRE LOT - NO WORK.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 7

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: 4 CEMENT MARKERS IN PLACE ON S/2 CORNERS OF THE LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2ND BURIAL GRAVE 5; WARD (CR)-MARTHA; 07/21/1963; 65; 08X12X03 HICK,CB;N

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials	2	Open	0	Lost	0	Res	0	4Sale	0	Lot Total	2
----------------	---	-------------	---	-------------	---	------------	---	--------------	---	------------------	---

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 4

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 2 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 2

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY SOUTH

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED. MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 3

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

SOUTH

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

SOUTH

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 7 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 7

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: 4"X4" STONE MARKERS ON CORNERS OF NORTH HALF OF LOT.
ALSO 4"X4" STONE MARKERS ON CORNERS OF SOUTH HALF OF LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 4 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 5

GENERAL COMMENTS: THIS IS A SMALL 16' LOT WITH ONLY 5 GRAVES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 2 **Lost** 1 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT BORDER AROUND ENTIRE LOT. S/2 CRACKED BUT NO REPAIR NEEDED AT PRESENT TIME.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 0 **Open** 0 **Lost** 0 **Res** 6 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: ENTIRE AREA RESERVED FOR ROADWAY.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 7

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 7 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 7

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.

MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 8 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 8

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 5 **Open** 1 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: CEMENT WALL AROUND THE S/2 OF LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 4 **Open** 2 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS:

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

SOUTH

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED. MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 6 **Open** 0 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED. MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 1 **Open** 5 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: 4 CEMENT MARKERS LOCATED IN THE CORNERS OF THIS LOT

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 4 **Open** 2 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 6

GENERAL COMMENTS: 4 CEMENT MARKERS IN THE CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 3 Open 3 Lost 0 Res 0 4Sale 0 Lot Total 6

GENERAL COMMENTS: 4 CEMENT MARKERS ON THE CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 0 **Open** 4 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 4

GENERAL COMMENTS: 2 CORNER MARKERS ON THE LOT.
CEMENT BORDER AROUND ADJACENT LOTS 1 & 2.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Burials 0 **Open** 4 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 4

GENERAL COMMENTS: 2 CORNER MARKERS ON THE LOT.
CEMENT BORDER AROUND ADJACENT LOTS 1 & 2.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: 2 CORNER MARKERS ON THE LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: 2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 0 **Open** 4 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 4

GENERAL COMMENTS: 2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

GENERAL COMMENTS: 2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTALS BY CATEGORY

Burials 1 **Open** 3 **Lost** 0 **Res** 0 **4Sale** 0 **Lot Total** 4

GENERAL COMMENTS: 2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.
