## VERBAL JABS TRADED OVER CIVIL SERVICE

### SUPERVISORS CALL FOR HOME RULE OF RELIEF

Lansing, Jan. 26 (P)—Republi-cans and Democratic members of a joint legislative committee investigating the administration of civil service swapped verbal jabs at 1,000. today over the testimony of two hold-over Republican appointees that they had contributed to the Democratic campaign chest to save their jobs.

"It's unfortunate that politics has dragged civil service down so far into the mire," Senator Chester M. Howell, Republican, Saginaw, observed as the witnesses completed their testimony.

"And don't forget that since the first of the year (When a Republican administration took up the reins of state government) it has been dragged down a lot farther." was the ready rejoinder of Senator James D. Dotsch, Garden.

### BY G. MILTON KELLY

Lansing, Jan. 26 (P)—The politically influential Michigan Association of Supervisors demanded home rule in the administration of welfare today, and called upon the new emergency relief commission to restore to county relief commissions authority to fix salaries and appoint administrative employes on a non-civil service

The convention unanimously endorsed an attempt to install Milton Van Geison of Flint as state emergency relief administrator, and praised relief Commissioners C. H. Runciman of Lowell and O. P. Gibbs of Rochester, who attempted last week to oust Acting Administrator George F. Granger to make room for Van rather than prevent strike vio-

Son of President Taft To Be Counsel for Martin's Foes

Detroit, Jan. 26 (A)-Dual organizations each claiming to be 'official" United Automobile International Union I Workers' marshalled an array of nationally known legal talent today for a court fight over control of union funds and records.

R. J. Thomas, named union president by the CIO-recognized UAW executive board, announced retention of Charles P. Taft II, son of the late President William H. Taft, as counsel. Taft, who served as chairman of a mediation board in the 1937 steel strikes, is also counsel for Sidney Hillman, head of the CIO Amalgamated Clothing Workers.

Representing Homer Martin, UAW-elected president who - was "impeached" by the CIO faction, will be Frank P. Walsh, New York labor attorney who has represented a number of labor organizations in celebrated cases. Walsh will be assisted by Frank, Mul-Holland of Toledo, counsel for the railway labor executive association.

Hearing on an injunction obtained by the anti-Martin group to restrain Martin, who controls JAW international headquarters, from disturbing UAW records or using UAW funds, has been set for Saturday in circuit court here before Judge Arthur Webster.

## **FIVE GUARDS** CHEAT DEATH IN OPEN BOA

### LIFESAVERS REACH CHEBOYGAN AFTER NIGHT ON LAKE

Chehoygan, Mich., Jan. 26 (A) -Five coast guardsmen limped into Cheboygan today with a vivid story of how they stood off death in a disabled and ice-crusted life-

boat on Lake Huron. The five set out Tuesday from Bois Blanc Island in a 36-foot open lifeboat to search for three fishermen adrift on an ice floe. They put in at Detour, Mich., where they learned that the fishermen had been rescued, and set out again on the return trip to their station on the island.

The lifeboat became disabled and fast in the ice.. Eventually they made their way ashore over the ice and walked 20 miles in sub-tero weather to Cheboygan.

### "Just a Miracle"

The five gathered about a stove here today while Chief Boatswain's Mate Charles Bentekoe related their experiences.

"It's just a miracle that we're alive," Bentekoe said. "Our lifeboat got wedged in the ice halfway between Detour and Bois Blanc Island at 9 p. m. Tuesday and Proposal Would Settle reserved for union notices excluthat the boat wouldn't rise in the seas any more. Island Tuesday morning we had a the far east. our lunches. That was the last length before the house naval morning.

### Two Freeze Feet "The boys kept up their spirits pretty well. That helped. Wed-

nesday morning we started rowing toward Cheboygan and at 5 p. m we had worked the boat to within a couple of miles from shore. Then we got out and walked across the ice and started to hike to Cheboygan. It was an awful trip. About 1 a. m. today we found a deserted shack and we got in and started a fire. That was all that kept us alive. At daylight we started to hike again, following the beach along Lake Huron. Some of the boys were pretty well done in and wanted to lie down but I kept them moving. I knew

if we didn't we'd be all goners." The members of the party, be sides Bentekoe, were Surfmen Thomas H. Golden, Fred Merritt Fay Jewell and Robert Hartwell. All are attached to the Walker's Point coast guard station at Bois Blane Island.

Hartwell was reported suffering from frozen feet and Golden had one foot frozen, but otherwise the men were none the worse from their experience.

While they were lost a score of men in boats and an airplane searched for them.

### Surrenders Pistol In Hospital

New York, Jan. 26 (A)—The office of District Attorney Thomas E. Dewey announced tonight that Jules Brulatour, 68, wealthy film magnate husband of the actress Hope Hampton, had surrendered a pistol with which he said he shot himself last Sunday night in their Park Avenue apartment. "We still wonder who shot Brulatour," a Dewey spokesman

The gun and the bullet removed from Brulatour's neck in a belatedly reported operation performed early Monday in Lenox Hill hospital have been the objects of a mystifying search. Brulatour variously described his injury as the result of a fall

downstairs and as an accidentally self-inflicted wound suffered while cleaning a revolver. His wife was summoned before a grand jury yesterday, but it had adjourned and she declined to waive her right to immunity. Dewey's office disclosed that

wo assistants and a deputy chief inspector of police went to the Brulatour apartment this afternoon with a search warrant and found an empty revolver case on table beside a bed. While they were searching,

Brulatour telephoned from the hospital that they would not find the weapon in his home but that he would give it up if they called on him. When they arrived he presented a .38-calibre pistol with stains on the handle which will rule policy. be tested to determine whether they were made by blood,

"Grab Bag" Avoided The association agreed to sponsor its own welfare reorganization program in the legislature, and authorized its officers to map a new formula for the distribution of welfare money appropriated by the state.

Melville B. McPherson of Low ell, chairman of the resolutions committee, said a special "policy" committee had decided the organization's tentative formula for distribution of 40 per cent of the proposed \$15,000,000 grant on a basis of population, 40 per cent on a basis of need, the remaining \$3,000,000 to be used as an emergency "cushion."

"Anyone who tries to pass a bill for selfish purposes will not help our cause, but do it harm,' McPherson said. He concurred in a statement by William R. Kennedy, Battle Creek city assessor, that "we can't make a grab bag of this thing.

### 10,000,000 Facts

TF Sidney Hillman is right when he pre-

tive and reliable among union leaders.

Any such total of union membeership means that the economic relationships, the political relationships of the country have definitely changed in this as well as in so many other respects.

It does not matter whether one likes or dislikes, approves or disapproves this vast gain in the trade union movement. It is a condition and not a theory, and the 10, 000,000 facts which Hillman cites must be an element in any calculation of the future of the country,

The import of this change is well shown by the fact that in 1896 there were 450,000 union members, and that the former all-time total in 1920, during the wartime boom, was 5,000,000. If Hillman's prediction is correct, and the 1940 total is 10,000,000, it means another of those permanent changes in the makeup of America yhich have been taking place so relentlessly since 1929.

### World Affairs Reviewed

While Soviet Russia and Poland jealously guard and Nazi Germany enviously covets rich Ukrainian soil, the Ukrainians themselves carry on their centuries-old fight for independence. This is the last of three articles in which Milton Bronner describes this land which may be the focal point of the next great European crisis,

### BY MILTON BRONNER

NEA Service Staff Correspondent London-Ukrainlans turn the pages history to justify their claims for independent statehood.

Ukraine, they say, is the cradie of the Slav race in Europe.

The Ukrainians today dwell on same soil their ancestors did in prehistorie times. The Ukrainian language and literature is distinct from the Russian.

In the early Middle Ages, long before there was a Duchy of Muscovy around the Gulf of Finland, there was a Ukrainian Grand Duchy of Kiev. This Kiev state was alternately known as "Ukraine" and as "Russ." Not until the 18th century did the Muscovite country become known as the Russian empire.

The Grand Dukes of Kiev from the 10th century onward built up a great empire from the Gulf of Finland to North Caucasus. It was in touch with western civilization. Its dynasty gave a Queen to France and Norway, an Empress to Germany and took a Queen from England.

Then the country fell upon evil times, being conquered by Hungary, Lithuania, Poland and Russia. In the 18th century Ukraine was definitely divided between Russia and Austria. In 1863 the Russian Minister of the Interior said that the Ukrainian nationality and language had never existed.

After the 1917 revolution, a Ukrainian republic was proclaimed, but was overthrown by the Bolsheviks and the Poles.

So far as the Ukrainians living in Poland are concerned, they are not only at present demanding autonomy, but they have a positive promise of it, to which the United States is a party.

The treaty of June 28, 1919, allowed Poland to keep East Galicia, but with the promise of autonomy. This was confirmed by a conference of the Allied Ambassadors on March 15, 1923, when it was stipulated that the ethnographical conditions made autonomy vital in East Galicia.

As this promise was never kept, a petition was sent to the League of Nations by a large number of public men of Great Britain, asking that some action be taken. But the League found some evasively worded formula whereby it asserted that the petition did not satisfy the conditions necesslay in such cases. The real truth was, of course, that France backed its ally. Poland, in having the plea rejected.

On December 10, 1938, M. V. City Officials and Dealers Confer on Gas, Electric Ranges

Contractors and dealers in electrical equipment met yesterday with City Manager George Bean in an attempt to reduce the cost of installation of electrical units in order to enable more residents of Escanaba to employ modern electrical conveniences.

Emphasis was placed on installation and use of electrical stoves. Escanaba housewives have shown an inclination for greater use of stoves but many, the city manager said, have not been able to change because of high installation costs, A tentative plan was considered where by contractors, dealers and the city would bear greater costs of expense of installation in order to allow greater use. The plan will be presented at the next meeting of the city council.

There has been a large increase in the use of electric ranges in the city within the past several months. At the start of 1938, there were 29 in use and at present there are 74.

Plans also were discussed for future possibilities of a similar program for gas ranges.

Among those who attended yesterday's meeting were about ten contractors and dealers in addition to the city manager and Hugo Lilliquist, superintendent of the city light department.

### DEER YARDS IN **GOOD CONDITION**

Officers From Dep't of Conservation Make Inspection

Browsing conditions in Delta and Menominee county for deer are in comparatively good shape, it was announced yesterday by Ben F. Jenkins and C. E. Wanser of the game division of the department of conservation after they had completed their inspection tour and left for other points in the Upper Peninsula. They are expected to work in the Marquette district for the next several days.

One of the main factors in the favorable conditions for deer thus far this year is the mild weather. As yet, officers discovered, the hardwods are not snowbound and deer are ranging quite widely rather than being confined to yards. Deer much prefer hardwood browsing and ordinarily rely on cedar when conditions force them to remain within the small confines of regular yards.

Jenkins and Wanser, who covered the district with local officers, reported that deer are in good shape and no dead animals were discovered.

There are 21 charted deer yards in Delta county and 10 in Menominee county, final figures on the latter county, however, being unavailable as yet. Officers inspect the yards frequently during the winter in order to retain a good knowledge of browsing conditions.

# Bloot & Gas Relieved by Formula

According to Mrs. A. G. Robertson, 612 Laurel Street, Brainerd, Minn., she suffered gas pains that would often make her bloat up. Mrs. Robertson states, "I am troubled with poor elimination Many foods digest poorly for me. , I heard about Williams Formula, and started using it, and I want to tell you that it is the finest thing I have ever run across. It helps relieve my gas attacks and has a marvelous stimulant action on my elimination."

What Is Williams Formula? Williams Formula is a medical formula containing Nature's herbs and other ingredients which act on your digestion, irritated kidneys and slugigsh bowels. This pure medicine

helps cleanse out foul decaying waste from your digestive organs by its laxative action and supplies iron for building the hemoglobin content of the

Christian Science Churches "Love" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, January 29. The Golden Text (Psalm 36:7) "How excellent is thy loving

kindness, O God! therefore the children of men put their trust under the shadow of thy wings." Among the Bible citations is this passage (I John 3:18): "My little children, let us not love in

word, neither in tongue; but in deed and in truth." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the follow-ing (p.518): "The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good."

### Yellow Tomato Juice Full Of Golden Vitamins

Like new things? Then serve yellow tomato juice for a change. Three years ago the excess crop of yellow tomatoes in the Carolinas was turned into canned juice. It was sold privately. But now it is on the market.

It tastes a little different in an agreeable way from our usual and increasingly popular red tomato juice, and its golden color adds variety. The Educational and Development Fund of the Farmers' Federation, Asheville, N. C., is backing this co-operative canning venture as one step in solving a few of the severe economic problems of the south.

Yellow Tomato Cream Soup (Serves 4 to 6)

Two tablespoons butter, 2 tablespoons flour, 2 cups rich milk, 1 can yellow tomato juice, 1/2 white onion, 1/2 bay leaf.

Simmer tomato juice, onion, bay leaf for 5 minutes. Strain. Melt butter, blend in flour, until smooth. Slowly add milk. Then add tomato juice. Serve in cups, garnished with sprig of parsley. Yellow Tomato Aspic

One and three-fourth cups yellow tomato juice, bay leaf, 1 onion, celery salt, 1/4 teaspoon grated horseradish, ¼ teaspoon lemon juice, 1 tablespoon plain gelatin, 14 cup cold water.

Heat all ingredients together, except gelatin and water. Dissolve gelatin in the water. Then add to strained juice. Pour into molds and chill until firm. Clam and Red Tomato Juice

Cocktail Try this appetizer for your next dinner party. One and one-half cups red tomato juice, 11/2 cups strained clam juice, salt, dash cayenne pepper,

cracked ice. Combine ingredients, chill and serve in cocktail glasses. Garnish with thin slices of lemon.

# CUDAHY'S PURITAN TENDER HAM

"It's just like discovering a new kind of meat to have Cudahy's Puritan Tender Ham. It has such a nice rich flavor and is never too salty. So whenever I'm stumped for what to have for dinner I fry or broil or bake a piece of this ham. Try a thick slice baked in a casserole with brown sugar and you'll see what I mean. It is economical, too, because there is very little shrinkage."

# Over 70 Years Ago We Said---"GET MORE FOR YOUR MONEY"

**NECTAR** 

TEA

Back in 1867, in an advertisement in Harper's Weekly, we told your forefathers and their families that they were entitled to greater value for the money they spent for tea. In those days, A&P was pioneering a money-saving way of bringing teas from China to your great grandparents' tables. A&P was buying teas in the Orient, shipping them to America and our A&P stores in fast sailing vessels - and selling them at low prices made possible by the elimination of many "in between profits". In those days, A&P sold Teas at 80c a pound that then cost consumers a dollar.

It was this kind of value giving - brought about by strict adherence to efficient, money-saving methods of marketing—that has made A&P the Nation's leading tea merchant. Today, A&P Food Stores are Tea Headquarters, offering three popular quality teas—Mayfair, Nectar, and Our Own—all at thrift prices. Tea is just one example of A&P's leadership in value giving — in bringing you more good food for your money. A&P makes, packs and sells a long list of fine foods -8 O'Clock, Red Circle and Bokar Coffees, AP Bread and Ann Page Foods. Each is priced low because expenses are eliminated whenever possible—and you get the savings. Come to A&P. Get more good food for your money!

In spite of the progress made in infantile paralysis research during the past twenty years, it is still one of the most baffling of all the infections that cripple and murder humanity.

The National Foundation for Infantile Paralysis has undertaken to remove the greatest of all the obstacles in the way of an understanding of this dread disease. This obstacle is not the lack of brainy men to study the sickness. It has been the lack of reness. It has been the lack of research money.

What makes the polio research fight so much more expensive than that against pneumonia, for example? The answer is simple: You study pneumonia by killing mice. You study polio only by killing monkeys. And monkeys mean money-anywhere from six dol-

Thirty Men Will Build Bridges and Cut **Fairways** 

Work on Gladstone's golf course on the Days River will start Monday, it was learned yesterday at the office of City Manager A. F. Raddant. Thirty men will be placed on

the project at the start and as weather moderates in the spring the number of workers will be greatly increased to rush the project to completion. A small allotment of the main fund was released for use several

weeks ago. The work is to be done under WPA and the project was given official approval early in December. At the start, the road leading in to the site selected for parking and the main bridge to cross the

Days River will be constructed. The Nos. 4, 5 and 7 fairways will also be cut out. This work way be done without interfering with skiing activities.

### 200 NETS LOST

Menominee-Commercial fishermen in the vicinity of Arthur Bay, 12 miles north of Menominee, lost several hundred nets in the past few days when strong southwest winds blowing out over. Green Bay forced the ice out, it was learned today. Estimates set the number of nets at approximately 200 and the value at more than \$2,000. Inquiries at four wholesale fish houses brought information that none of the local commercial fishermen had suffered any loss of nets.

He drifted into the apartment one evening as casually as if he had left it only a few hours before, teased Aunt Mary, for a few minutes, and asked Janet if she would like to go for a ride.

> "Don't worry if we're a little ate, Aunt Mary." he said when Janet agreed.

> "Worry!" sniffed Aunt Mary, to whom the word was like a red flag. "Neurotics worry., I shall go to bed with a good book and forget all about you."

But Janet, who knew that Aunt Mary did worry, was conscience-stricken when, miles out along the road, she glanced at the clock in a filling station before which they had stopped, and saw that it was after one.

"We'd better step on it, Barney," she suggested. "It will take us over an hour the best we can do; and that fraud of an aunt of mine won't shut an eye until she hears the front door open and close."

"Nonsense! She knows you're with me," Barney said; but he did step on it.

"And by the way," Janet ob served, "just when and where do you catch up with your own sleep? You never seem to be at home when I call up?"

"You mean you've been trying to telephone me?" For a moment Barney seemed genuinely startled and pleased. Then he went on almost brusquely, "Oh, here and there-when there isn't anything more exciting to do. I couldn't have got off tonight, but the man I was to see is in the hospital with a slug in his left shoulder, and those birds in white coats wouldn't let me talk to him."

"A slug? . . . Barney, it is dangerous then-what you're doing! I wish---"

"Well, it isn't my shoulder the slug's in, if you notice." Barney's tone was impatient. "For Heaven's sake, Jan, don't you turn into a worry wart. You're much more amusing as you are.'

"All right, you crazy Irishman," Janet retorted, "stick your neck out as far as you please; and if you insist on being a Boy Scout. how's this for an epitaph: "Here lies the body of Barney Mc-

"To remove them that night, I suppose," Barney cut in. "Which just goes to show that poets are born, not made . . . And don't try to be hard-holle

Janet felt snubbed, and some how a little frightened. Barney wasn't at all like himself tonight. There was no pleasing him. She relapsed into what she hoped was a dignifted silence.

Presently, however, Barney reached over and patted her arm briefly in the darkness.

"Still pals?" he asked. "Still pals," Janet confirmed,

and laughed. It was as near to a quarrel and an apology as they had ever come.

Copyright, 1938, by William J. Miller Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, substract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message\_the letters under the checked figures give you.

CHICAGO GRAIN

Chicago, Jan. 26 (4)-The wheat market worked upward again today toward its six nonths ceiling but then fell back under the moderate selling by discouraged owners.

Weakness of securities, the improve Weakness of securities, the improved moisture situation in the southwest and statistics showing huge mill and elevator stocks as well as record breaking world surpluses formed a background too bearish to permit an extended upturn. The fact that most of the ling accounts acquired during the last six months could be liquidated advantageously attracted scattered profit taking but this was believed to come mostly from dealers tired of waiting for a material price advance.

mostly from dealers tired of waiting for a material price advance. In early dealings prices worked up ½ cent equal to the best level in three weeks and within fractions of the highest level since early last August. When selling increased, however, the market dropped a full cent and showed only fractional rallies subsequently. September contracts were less susceptible to pressure, with apprenders apparently buying on the basis of normal apparently buying on the basis of norma price relationships between nearby and de

price relationships between nearby and deferred delivery.

Wheat closed unchanged to 5-8 lower compared with yesterday, May and July 69 5-8 to 69 ½; corn unchanged to ½ off, May 51 3-8, july 52 3-8; oats 1-8 to ½ down; rye ½ to ½ off; lard 3 to 13 lower. Strength in Liverpool wheat, due apparently to the unsettled European political situation, helped the Chicago market early in the day. There were reports of some U. S. wheat sold to the continent but this could not be confirmed. Southwest weather remained clear. Some

# Eskymos Entertain Classy Soo Five Here Tonight

Blue Devils Have Lost Only One Game This Season

Escanaba high school cagers

In a preliminary starting at 7:15 o'clock, the reserves will meet the junior high in their annual encounter.

The Eskymos have played three home games this year and have been victorious in all three. Their most significant victory, of course, was a 17-11 win over Ishpeming just before the Christmas holidays. Other home victories were over Menominee and Gladstone. In addition, they also defeated Kingsford on the latter's court. Three defeats mar the locals' record, all three being on ning of the Chippewa Valley Ski foreign courts at Ishpeming, Mar- club at Eau Claire, Wis., rides stitutions, scoring was negligible quette and Iron Mountain.

### Have Good Defense

The Nordmen have one of the stoutest defenses in the peninsula. They have yielded only 16 points per game against some top competition which included Ishpeming twice, Marquette and Iron Mountain, three powerful eams. The Eskymo offense is not exactly high geared, scoring only slightly more than 18 points per game. Consistency is their most mportant virtue, the team scoring 22 points for high and 17 for low, a span of only five points.

Soo brings to Escanaba one of he cleverest well balanced squads of any team on the Eskymo schedile this year. Under Coach Ray Altenhof, former Big Ten confernce guard at Michigan, the Blue Devils have progressed gradually of placing in the Class B divisi until they have become among the top teams of the peninsula the stars Sunday, February 5. Possibility For Indoor Bout

BY SID FEDER

York, Jan. 26 (A)-Although the latest victim of Joe Louis' sleeping potions hadn't yet come out of the "ether.' Promoter Mike Jacobs and the Brown Bomber's brain trust went into a huddle today to decide the next tasty dish to set before the heavyweight king.

They arrived at no definite conclusion about an indoor fight in Madison Square Garden in March, Mike explaining it would take "a couple of days" to straighten out details, but it was learned the only hitch in the negotiations was over the selection of an opponent.

In this respect, now that John Henry Lewis is out of the way as a result of the two minutes, 29 seconds it took jolting Joe to flatten him and send him to the cleaners last night, the only heavyweights rated as warranting a shot at jolting Joe were Madcap Maxie Baer, Lou (Novice) Nova, Tony (Dat Bum) Galento and Bicycle Bob Pastor.

"I felt funny all of a sudden" (indicating he had a hunch John are matched for May 25, and inasmuch as a Galento-Louis bout is a natural for outdoors, Pastor is considered the most likely possibility for the indoor crack in March. And if Mike and Louis' managerial staff can become convinced that such a return match-Pastor went the ten-round route with Joe two years ago-would attract another 100,000 house, you can just about bet the family meal ticket it will be made. Joe wants the match to show he can catch up with the back-pedaling Pastor

the next time out. Loser Gets \$15,000 As usual after a big fight, everyone concerned turned up at Mike's office today for the "hot stove" aftermath. John Henry and Joe both checked in to answer questions for the fight writers, and, of course, to collect for last night's party. Joe's cut of the \$102,-016.43 gate was \$34,413.70, or 40 per cent, or, breaking it down to figures of "one syllable," about \$230.96 for each second he was in there pitching at Lewis. John
