CUT SPENDING IS PLEA MADE TO PRESIDENT

SENATE DEMOCRAT SEES FINANCIAL CHAOS AHEAD

Washington, March 9 (AP)—A plea for curtailed government spending was laid before President Roosevelt today by Senator Harrison (D-Miss), but the president was reported to have made no commitments.

Harrison told reporters, however, that Mr. Roosevelt was "in thorough sympathy with efforts to reduce government spending if it can be done."

The Mississippi, as chairman of the senate finance committee, took part in a White House conference on financial matters attended also by Rep. Cooper (D-Tenn), ranking Democrat on the house ways and means committee; Secretary Morgenthau, and John W. Hanes, undersecretary of the treasury.

Difficult Problem A leader of the congressional economy bloc, Harrison demanded recently that expenditures be cut 10 per cent, warning that unless deficit spending was ended soon the government faced financial chaos.

"I gave the president my viewpoint very frankly, very candidly and very fully," Harrison said after the conference. "The president and we all realize how difficult it is to cut expenditures, but the president wants to run the government as economically as possible."

Other developments bearing on the recovery program included: 1. Col. F. C. Harrington, WPA administrator, said he had advised President Roosevelt that the \$150,000,000 which congress slashed from the relief bill was needed. Unless the money is forthcoming, WPA must start "serious reductions" in relief rolls April 1.

2. The state and treasury departments and the export-import bank announced credits to enable Brazil to buy large quantities of goods here and to pay debts to United States creditors.

Tax Revision Discussed Harrison also said he doubted that the administration would seek an increase at this session of congress in the statutory limit on federal debt. The limit now is \$45,000,000,000 and the debt, under current budget plans, is expected to be close to that figure by July 1, 1940.

Harrison's report of the conference stirred speculation as to how far, if at all, the chief executive might be willing to accede to congressional demands for a cut in spending as a part of the business recovery program.

Madrid Communists Surrender; Spanish Peace Pact Nearer

Madrid, March 9 (AP)—The surrender of Communist general headquarters just east of Madrid was reported by the government of General Jose Miaja tonight after four days of conflict in the streets and suburbs of the capital.

The announcement said 1,400 rebellious Communist troops, who fought to save off Gen. Miaja's program of peace with the Spanish nationalists, gave up their arms after republican planes had bombed their positions and killed many of their number.

The headquarters was on Alcala road. Earlier the government had reported the surrender of Communist forces at Barajas and Canillejas, east of the capital, where they had cut the road to Valencia.

Madrid was bathed in sunshine today, but streets were deserted, street cars had stopped, parks were empty, all shops, banks and offices closed as republican Spain fought its internal war.

Both sides summoned aid from outside Madrid. Earlier the government had reported the surrender of Communist forces at Barajas and Canillejas, east of the capital, where they had cut the road to Valencia.

ROLLS OF WPA MAY BE SLICED

Administrator Says He Needs 150 Million By April 1

Washington, March 9 (AP)—Colonel F. C. Harrington, WPA administrator said today that unless congress gave WPA an additional \$150,000,000 by April 1, he would be forced to start "serious" reductions in employment rolls.

Harrington declined to say how many persons he might have to drop but declared at a press conference that the 3,000,000-odd now on the rolls may have to be reduced to 2,000,000.

Even if congress gave WPA the \$150,000,000 suggested by President Roosevelt and which Harrington said he told the chief executive was needed when he conferred with him yesterday it still would be necessary to reduce WPA rolls about 150,000 a month.

This reduction, Harrington said, had been contemplated all along by the president and was intended by him when he originally asked congress for \$875,000,000.

Congress granted only \$725,000,000 of the request but said that if an emergency arose the president could come back to congress for more money.

Gas Stoves Spout Water In Detroit

Detroit, March 9 (AP)—Housewives in the neighborhood of Wight Street and Walker Avenue were puzzled by water spouting from the burners of their gas stoves. Gas company investigators today found that in the basement of an untenanted house in the neighborhood someone had attached a water pipe to the gas main with a piece of rubber hose. Police took photographs and fingerprints.

Atlantic Ice Patrol Starting 26th Year

Washington, March 9 (AP)—The coast guard's ice patrol, which watches each spring for icebergs drifting toward North Atlantic ship lanes, will begin its 26th year tomorrow.

The cutter Chelan, sailing from Boston tonight, will inaugurate the patrol and will be joined later by the Champlain, from New York, and the General Greene, from Woods Hole, Mass.

Traffic Toll

Detroit, March 9 (AP)—George McCormick, 43, was injured fatally today when his automobile collided with a truck on Telegraph Road.

Akron, O., March 9 (AP)—Three women and a man were killed tonight at a crossing in suburban Cuyahoga Falls when their auto was struck by the Capitol Limited, streamlined Baltimore and Ohio passenger train.

Three of the victims were identified tentatively as Mrs. and Mrs. Johan O. Lund, and Miss Catherine Tritschler, all of Cleveland.

Treaty Of Nov. 17th With United States Approved In Canada

Ottawa, March 9 (Canadian Press)—The Canadian house of commons tonight adopted a motion of Prime Minister W. L. Mackenzie King approving the Canada-United States trade treaty of Nov. 17 without a record vote.

The vote was not conclusive, however, as all tariff changes embodied in the agreement must be approved item by item by the ways and means committee of the house.

After that a bill giving formal effect to the tariff changes must be passed in three readings.

NEEDY SCHOOLS MAY GET HELP

Fitzgerald Will Ask for Post-Dated Check In Emergency

Lansing, March 9 (AP)—Governor Fitzgerald said tonight he would ask the legislature to give needy schools the state's "post-dated" check for \$2,500,000 to help them solve their financial difficulties.

Fitzgerald said a \$2,500,000 deficiency appropriation for the current fiscal year's school requirements was "impossible—absolutely out of the question." He pointed out that the state at present faces the need to raise \$12,800,000 for schools before July 1, without incurring any additional obligation in that direction.

The way out, the governor said, would be for school districts to borrow upon anticipated revenues. "But the banks won't lend on expectancy alone," he continued, "and they will lend on the strength of a definite appropriation. So the legislature must provide at least a part of that appropriation right now."

Fitzgerald said he would recommend that an installment of the appropriation for schools for the next biennium be voted immediately. The school districts could then borrow in anticipation of receiving the cash from the state, which would not become available until July 1, the beginning of another fiscal year.

Then, he said, the legislature might await a definite picture of the state's financial condition before appropriating additional school aid funds for 1939-41. The governor said he was "committed" to a total appropriation of \$45,000,000 for school aid "if it is possible to raise that amount for the purpose."

Early Ice Breakup Forecast On Lakes

Buffalo, N. Y., March 9 (AP)—Weather authorities and shipping interests scanned a 6-inch ice field in Lake Erie today and forecast an early spring for Great Lakes shipping.

With reasonable luck, Senior meteorologist James H. Spencer said, the ice may disappear by the first week in April. The average date is April 12.

Meanwhile, officers of the Nicholson Universal Steamship Company and the Detroit and Cleveland Navigation company have designated the first week in April for sailing their boats into Buffalo harbor.

The same companies opened the season here last year on April 6, when the William F. Fitch of the D. & C. Line beat the Nicholson freighter Graham C. Woodruff into port by 30 minutes.

WOMAN FATALLY BURNED

Grand Rapids, Mich., March 9 (AP)—Mrs. Jennie Metcalf, 70, died tonight of burns suffered late today in her home. Relatives told police and firemen that when they found Mrs. Metcalf she was able to say only "I struck a match."

Bergen Has Flu

New York, March 9 (AP)—Elgar Bergen arrived with Charlie McCarthy from the west coast today and was treated in his hotel suite for what his doctor described as a slight attack of influenza. A nurse said Bergen probably would be all right tomorrow.

NEW LANSING CIVIL SERVICE RAID STARTED

HOUSE GROUP ASKS REPEAL OF STATE MERIT SYSTEM

Lansing, March 9 (AP)—A dozen Republican members of the house of representatives formed an anti-civil service bloc today, demanding the repeal of the merit system law.

They introduced a bill to supplant the present set-up with a law that would require the auditor general to withhold funds from any department that had a turnover of more than 40 per cent on its annual payroll.

Rep. Charles R. Feenstra, Republican, Grand Rapids, whose name appeared first on the list of sponsors, delivered a 10-minute attack on civil service on the floor of the house as the measure was submitted. He described civil service as "the greatest spoils system this state has ever seen."

The present act, he asserted, isolates "every American principle of government."

"Survival Of Fittest" Feenstra told newsmen he did not intend his measure as an affront to Governor Fitzgerald, who has declared himself a friend of civil service. "This bill would have a merit clause," Feenstra argued, "intimating that the survival of the fittest would be the rule applied in any department limited on the number of dismissals."

Others sponsors of the measure were Reps. Arthur U. Odell, Allegan; C. Dodge Williams, Charlotte; Walter J. James, Flint; George A. Gillespie, Gaines; James I. Post, Hillsdale; Arthur Royce, Mecosta; Stanton Welsh, St. Clair Shores; Charles P. Adams, Howell; Joseph E. Warner, Ypsilanti; Sherman L. Loupe, Dowagiac, and Gail Handy, Eau Claire.

SIGNED BY GOVERNOR

Lansing, March 9 (AP)—The Dykstra bill, giving municipalities control over gas and weight tax funds refunded for special highway improvements, were signed and made law today by Governor Fitzgerald.

Mayor George W. Welsh of Grand Rapids had declared the bills would return to the city control over \$2,500,000 earmarked for special assessment refunds on street improvements.

The bills permit the legislative bodies of villages and cities to determine whether gas and weight tax payments to the municipality should be used for refunding purposes or for maintenance and improvements of other highways.

The supreme court had held under the previous law that such special assessments must be retired first.

LABOR BILL READY

Lansing, March 9 (AP)—The house labor committee voted tonight to release to the floor of the house of representatives tomorrow the administration's industrial relations bill.

The bill bore more than a score of amendments, and offered concessions to labor unions, employers and to laborers unidentified with any union.

Following a conference with Governor Fitzgerald the committee attached an amendment forbidding the use of strike breakers against a legally called strike, and another forbidding the operator of a legally struck plant to submit his work to another producer in an attempt to embarrass the strikers.

On the other hand, the measure would grant recognition to labor unions having minority membership as well as to those polling a majority of members in

BRITAIN BUILDS HUGE AIRFORCE

Millions Spent Daily for Planes; Expect 2,250 By April 1

London, March 9 (AP)—Great Britain, spending more than \$1,000,000 a day for airplanes alone, expects by April 1 to have a first-line air strength of 2,250 planes.

Air Secretary Sir Kingsley Wood disclosed today that by the end of this month the home force of 1,750 fighting craft with an additional 500 ships in the overseas force.

These figures were exclusive of the fleet air arm—naval air force—under supervision of the admiralty which has 600 planes.

The estimates were made by Sir Kingsley in seeking parliament approval of a 1939 air-force expenditure of £220,626,700 (\$1,103,133,500) out of a total of £580,000,000 (\$2,900,000,000) earmarked for defense.

The disclosure of the enormous expenditures for airplanes followed recent reliable estimates which gave Germany between 4,000 and 4,500 first line planes and a production rate of between 500 and 600 a month against Britain's present maximum of 400 a month.

Bathtub Sleeper At Ishpeming Is Ordered To Jail

Ishpeming, Mich., March 9 (AP)—His head upon a folded towel, Eino Hupala, of Rock River township (Alger county) was found sleeping last night in the bathtub in the home of Captain and Mrs. Rollin Clark, of the Salvation Army.

Today Municipal Judge William St. John ordered Hupala to sleep in the county jail in Marquette for the next 60 nights, having decided that Hupala had been intoxicated.

"He must have been pretty drunk," said Captain Clark, "because there was a bed only a few feet from the bathroom door."

President Of Rails Proposes That CIO Members Join AFL

BY RAY BLOSSER

Cleveland, March 9 (AP)—CIO's entire membership would return to the AFL, and leadership would be decided "by bowing to the voice of the delegates" at the next AFL convention, under a peace plan proposed today by white-haired Alexander F. Whitney, president of the unaffiliated Brotherhood of Railroad Trainmen.

Whitney disclosed he made essentially the same proposal a year ago to AFL's William Green and John Lewis, CIO chieftain, at separate conferences in Washington. Senators Walsh (D-Mass), Schwelb, and Capper (D-Kan) attended both conferences, he said.

Whitney incorporated the idea in an address at Minneapolis last April 30 and sent copies to Green and Lewis. He said Lewis replied "no one could take exception" to the address, and Green wrote "when those who left home return, the labor movement in America will again be united."

Next Conference Tonight The brotherhood president urged today that jurisdictional claims be decided by "the rank and file themselves" in elections under the national labor relations act. He said also that AFL has "machinery which, generally speaking, is admirable to work out labor disputes."

"In the course of time overlapping unions would adjust themselves under the course of the law as to their respective units," said Whitney, new deal supporter who accompanied President Roosevelt to the 1936 Inter-American conference at Buenos Aires as one of seven U. S. delegates.

"It is a workable plan—a plan that will not embarrass either group," Whitney's plan was injected into the current labor peace negotiations picture as Dan J. Tobin, president of the AFL Teamsters union, conferred privately with President Roosevelt. Negotiators for both peace factions looked, meanwhile, to their next conference in New York tomorrow night.

MARVIN L. COON GIVEN TRANSFER

Marquette Warden Goes to Jackson; Deputy Is Promoted

Lansing, March 9 (AP)—The state corrections commission today ordered the transfer March 15 of Marvin L. Coon, warden of the Marquette Branch prison, to the wardenship of the state prison of Southern Michigan, and promoted Coon's deputy, William Newcombe, to his place.

Leslie P. Kegen of Bay City, secretary of the commission, said both appointments would be temporary, giving the commission additional time to make a permanent selection.

Coon will replace Warden Joel R. Moore, who resigned effective March 15.

Newcombe, described by Kegen as a "strong deputy" is a former police chief of Negaunee.

Lansing, March 9 (AP)—Harold G. Hudson, deputy state banking commissioner, submitted his resignation today. He said he was leaving the state service to become president of the Alpena Savings Bank.

In the Headlines From Washington

(By The Associated Press) Senator Harrison (D-Miss) said after a White House conference that President Roosevelt is "in thorough sympathy with efforts to reduce government spending if it can be done."

Col. F. C. Harrington, WPA administrator, said that unless congress gave WPA an additional \$150,000,000 by April 1 he would be forced to start "serious" reductions in employment rolls.

Members of the senate neutrality bloc threatened to filibuster, if necessary, to prevent repeal of the neutrality law.

The United States exchanged with Brazil a series of notes providing for a program of economic cooperation—an action directed at Germany's barrier drive in Brazil.

SENATE BLOC AROUSED OVER PEACE ISSUES

PRESIDENT BLOCKS 100 MILLION FOR WAR MATERIALS

Washington, March 9 (AP)—Members of the senate neutrality bloc said today they would go to the extent of a filibuster, if necessary, to prevent the passage of any administration proposal that the neutrality law be repealed.

Thoroughly aroused by the statement of President Roosevelt that the law had made no contribution to the preservation of peace, they made no secret of the fact that they were preparing in advance for a battle to keep mandatory neutrality on the statute books.

Meanwhile, the capitol's daily discussion of national defense and foreign policy continued unabated.

Guam Harbor Opposed The senate naval affairs committee received a statement from Col. Theodore Roosevelt that congress should "demand a statement of our foreign policy" to guide its determination of national defense needs. He strongly objected to proposed harbor improvements at Guam to make possible a naval aviation base there.

For budgetary reasons, President Roosevelt blocked, temporarily at least, action by the house military affairs committee on a bill authorizing an expenditure of \$100,000,000 in four years for the acquisition of vital war materials in which this country is deficient.

The president sent word he would approve an outlay of \$10,000,000 at this time, but no more than that.

Will "Stay All Summer" The house naval affairs committee tentatively approved a \$40,074,000 outlay for construction work at naval shore stations, including some projects which the navy has said were of the highest priority. Among them is a \$18,345,000 authorization for drydock facilities on the Pacific coast.

Filibuster talk was heard whenever the possibility of an effort to repeal the neutrality laws was mentioned to members of the group which has been insistent that the law specify in advance what the attitude of this nation shall be with respect to wars involving other nations.

Word Is Trenchy The word filibuster is a toughy one, and others who share Nye's view of things were hesitant at speaking for quotation on filibuster possibilities, although they made their own positions clear.

Senator Borah (R-Idaho), an opponent of repealing the act, said that he himself had never participated in filibuster in all his long career in the senate, and never would, but that a repealer would undoubtedly stir up enough legitimate discussion to postpone a vote for months.

The neutrality act provides that upon a determination by the president that a state of war exists involving two or more foreign countries the exportation of a prescribed list of war materials to those nations is forbidden. The chief executive may also invoke a provision requiring belligerents to pay cash for non-military materials and furnish ships for their transportation.

Wants More Discretion The view of the administration has been that the act prescribed too rigid a procedure and that greater discretion should be left to the president to choose his course in the light of circumstances of the moment.

Hearings on charges in the law are scheduled to begin in about ten days. What the administration's course will be it has not disclosed. Chairman Pittman (D-Nev), of the senate foreign relations committee, an administration spokesman on the question of neutrality, has said he would not introduce a bill until after the hearings have been in progress for some days.

Col. Roosevelt's statement to the senate naval affairs committee was presented by Oswald Garrison Villard, of the keep America out of war committee. It said that if Guam was necessary to the defense of the United States, the proposed \$5,000,000 outlay for harbor improvements was insufficient. If Guam was unnecessary to defense, he added, that sum was too much.

Escanaba Tax Levy Exemption Upheld

Lansing, March 9 (AP)—The supreme court today upheld a verdict of the Delta county circuit court declaring the Federal Reserve Bank of Minneapolis is exempt from the 50 cents-per-\$100 tax on an \$800,000 mortgage on property of the Escanaba Paper company. The Delta county register of deeds had sought to impose the levy.

Germans Ridicule U.S.; Urge More Nazi Activity In South America

Berlin, March 9 (AP)—General Wilhelm Faupel, German ambassador to Nationalist Spain in 1937, challengingly pitted a German idea of Latin-Americanism today against the United States idea of Pan-Americanism.

Speaking at the bi-weekly luncheon of the German Academy, the general charged: "The United States, by painting dangers of invasion of Latin America by the totalitarian states and by promulgating at the same time the idea of Pan-Americanism, hopes to establish a united front on the Western hemisphere which will be ready in case of need to turn against the totalitarian states."

He urged the leaders of the academy to provide for a whole-sale peaceful invasion of Latin America by German linguists, educators, scientists and engineers and for return visits by South Americans to Germany.

Faupel's speech came on a day marked by sharp attacks on the United States. Diplomatsch-Politische Korrespondenz, mouthpiece of the foreign office, charged democracies with spreading lies about Germany and asserted: "Those innocuous too, which for example America launches again and again concerning aggressive plans by the authoritarian states against the South American states, are sad proof of the fact that appeasement of the world is by no means desired by certain policies."

# BRAZIL GRANTED CREDIT IN U. S.

## Economic Cooperation Challenges German Barter Drive

Washington, March 9 (AP)—In a far-reaching challenge to Germany's barter drive in Brazil, the United States exchanged with the South American country today a series of notes providing for a five-point program of economic cooperation.

The United States extended a \$19,200,000 credit to Brazil to free her foreign exchange, agreed to back a new central reserve bank in Brazil with \$50,000,000 in gold and received from Brazil a promise to resume payments on her \$257,000,000 defaulted dollar bonds beginning July 1.

(The bonds jumped \$25 to \$45 per \$1,000 certificate when the news reached the New York stock exchange.)

The notes, signed by Secretary of State Hull and the Brazilian foreign minister, Oswaldo Aranha, in Hull's office, also called for credits from the export-import bank to facilitate Brazil's purchases of heavy goods here and for the development in Brazil, with the assistance of American experts, of non-competitive raw materials for possible sale here.

Characterized by officials as the most extensive agreement on economic cooperation entered into by the United States since the World War, the arrangements make a frontal assault on the barter trade by which the Reich nosed out the United States last year as Brazil's principal supplier of imports.

# Hook Charges Michigan State Maintains Political Hush Fund

Washington, March 9 (AP)—The house heard Representative Hook (D-Mich.), charge today a "hush fund" was maintained at Michigan State college at East Lansing to be used for college and political purposes.

Hook said the fund could be drawn upon by President Robert S. Shaw to adjust inconvenient accounts and further political aims. He said he was informed it was created by withholding salary increases to the faculty.

Hook asserted a grand jury investigation of college affairs was a "whitewash."

"Eight months ago I wrote a letter to President R. S. Shaw asking him whether or not members of the faculty (Dean of Veterinary Ward Giltner, Dean Emmons, Treasurer Scheepers and others) continued to rent farms that they owned to the college for the purpose of pasturing cattle affected with undulant fever in animal disease research projects," Hook told the house.

"Driving these cattle from college paddocks across the farm lane to these faculty-owned farms, I claimed, caused the herds and flocks of the college to become infected."

Hook said Shaw refused to answer his question regarding the renting of land "nor did he answer my inquiry at the same time in regard to the results of the experiments of the Michigan State college with a proprietary help feed of which Clark L. Brody, member of the board of agriculture (controlling body of the college), has sold thousands of tons to Michigan farms at three times its feed value as sole agent for this feed in Michigan."

Hook charged the "hush fund" was set up when Brody and Melville B. McPherson, board member, "dominated the state board of agriculture and were all-powerful in Michigan politics." He added his investigation disclosed an \$8,600 theft of military goods at the college "was denied" before a grand jury by college officials, but that sum later was paid to the war department by the college.

the chief executive was said to have used recalled Mr. Roosevelt's repeated assertions that federal expenses could not be brought much under \$7,000,000,000 per year—which is about the size of federal operating expenses in the present \$9,000,000,000 budget if emergency relief and public works allotments are excluded.

Also discussed at the White House today was tax revision, toward which the treasury has been openly sympathetic. Harrison said no details of a tax program could be settled until after the treasury measures March 15 income tax collections, except that expiring excise taxes on automobiles, gasoline and similar articles would be renewed.

## Barnard Tractics Can Be Halted Whenever People Are Willing

BY GUY H. JENKINS (Grand Rapids Press)

Lansing—Having failed to defeat him very often for control of the Wayne Republican delegation to state conventions, opponents of Edward N. Barnard, Detroit, now hope to stop him by legislative enactment.

The Eaton bills providing for congressional district conventions to name delegates to state conventions have passed the house of representatives and now are before the senate, where passage appears to be certain.

There has been much yelling and sniping at Barnard over a period of years but apparently the people of Wayne county are less interested than outstate politicians.

Barnard could be put in a corner where he belongs if the people felt so inclined. But apparently they don't take Wayne county conventions very seriously and accordingly Barnard with his taxi drivers and former jitney bus operators remains in control of the situation.

Outstate leadership, if it so desired, could ostracize him but there have been few times that that leadership cared to assert itself.

Four years ago Harry S. Toy, candidate for attorney general, routed Barnard in Wayne county, and the Republican convention which was in Flint broomed Barnard from the hall. There were contesting delegations from Wayne that fall, but the outstate delegates went to Toy's aid and the convention was saved from the Barnard influence. Barnard was bitterly attacked, particularly by Judge Herman Dehnke of Harrisville, who tried to read him out of the party.

## Young Republicans Think They Were Pushed Aside

One Democratic leader insists it is a good bet that Dr. Meyers will carry Washtenaw county, something that has not been done by a Democratic candidate for regent in many years. There is considerable resentment over the Barnard convention manipulation which may even go farther than a protest vote against Kipke.

The Young Republicans are backing the Eaton bills stronger than ever. They don't like the way John Carton of Lansing was taken out of the convention play. According to authoritative information, Carton was asked by Justice Henry M. Butzel to nominate Justice Howard Weist of Lansing and himself.

About the only way Carton could carry out the request was to have the convention organization and order of business committee recommend that nominations be made by counties. Alcona, first on the roll call, was to have yielded to Ingham, which would have given Carton the opportunity he wanted. But someone got to the committee and had the order of business provide for nominations by congressional districts.

Barnard's being from the First district took the play away from Carton as far as Butzel was concerned. Carton, however, did nominate Weist.

After the convention it was reported both justices expressed their complete approval of the fact that Mickey Cochrane is not a lawyer, for some influence might have suggested that Cochrane's nomination as a supreme court justice might be a swell way of showing Walter Briggs, Detroit Tiger owner, resentment against Mickey being fired as manager.

Kipke for the first time saw how a convention operates and he also found out that sometimes the delegates get a little tough.

It is reported Kipke attempted to separate a couple of inebriates and ran into the same difficulty the neighbor had when he went next door to stop a husband beating his wife. Both jumped on the neighbor.

Well, someone popped Kipke as

## Barnard Starts With Third Of Convention Strength

It is easily understood why Barnard with some 400 roped delegates can dominate a state convention. He begins with about one-third of the voting strength and after making a few deals in which Genesee, Kent, Saginaw and Oakland are involved. Barnard and his boys are in complete control.

That is the reason it was such an easy matter for Barnard to put over Harry G. Kipke as one of the nominees for regent of the University of Michigan.

Of course the voters will have the last say on whether they approve Barnard leadership and also whether the regency nominations are to be permanently removed from the level of state supreme court justices.

A good sound beating of Kipke

## Marinette Chicken Farmer Gets Bride In East, No \$35

Newark, N. J., March 9 (AP)—Widower Ray F. Danner, who came all the way from his chicken farm in Marinette, Wis., to tell a small fraud trial jury how he was duped out of \$35, is going back home tomorrow without the \$35 but with a bride.

She's the former Kathleen Woodruff of Baltimore, a widow, and she'll care for Danner's 4-year-old daughter Barbara, whom he brought east "just for the ride."

Danner told about the nuptials after he testified today in U. S. district court against Jefferson E. Frame, Passaic, N. J., commission merchant accused of defrauding chicken farmers in Wisconsin, Iowa and Michigan.

Danner and his bride met in Chicago before either was mar-

any plant, and specifically recognizes the right of the individual workman to bargain for himself. This bargaining committee would be composed of spokesmen not only of the strong union, but the weak ones and unaffiliated workmen, in proportion to strength.

The bill retains stringent provisions forbidding disorderly picketing and prohibiting sit-down strikes, with a new feature that would make it illegal for pickets to display "false and injurious" slogans on placards carried by a picket line.

The measure would extend to 15 days the disputed "cooling off" period before which it would be illegal to call a strike. The governor originally asked for a 10-day notice of intention to strike. Labor unions generally protested against such a provision, contending it would make strikes ineffective.

The governor would have a free hand to appoint anyone he chose to the industrial relations board the bill would create. The committee struck out a provision requiring that two of the members represent labor unions, two employers and the fifth "the public."

## Crack of Thomson

"Original As An Echo" James F. Thomson was re-elected chairman of the Republican state central committee without opposition. Thomson's appeal to the partisans assured him of reelection for he knows that organization politicians want the spoils system. The convention believed Thomson could bring back those good old days.

But corraling the partisans, Thomson used up all his smartness. He tried to explain away his silly arguments against civil service with the statement that capitol newspaper men wrote what the editors told them to.

Such a crack is as original as an echo.

George J. Burke of Ann Arbor terminated his state service when Gov. Fitzgerald accepted his resignation as chairman of the civil service commission. Mr. Burke originally was appointed by Gov. Murphy. The disappointing thing about governmental service is that it attracts so few men the type of George Burke.

# Hook Charges Michigan State Maintains Political Hush Fund

Washington, March 9 (AP)—The house heard Representative Hook (D-Mich.), charge today a "hush fund" was maintained at Michigan State college at East Lansing to be used for college and political purposes.

Hook said the fund could be drawn upon by President Robert S. Shaw to adjust inconvenient accounts and further political aims. He said he was informed it was created by withholding salary increases to the faculty.

Hook asserted a grand jury investigation of college affairs was a "whitewash."

"Eight months ago I wrote a letter to President R. S. Shaw asking him whether or not members of the faculty (Dean of Veterinary Ward Giltner, Dean Emmons, Treasurer Scheepers and others) continued to rent farms that they owned to the college for the purpose of pasturing cattle affected with undulant fever in animal disease research projects," Hook told the house.

"Driving these cattle from college paddocks across the farm lane to these faculty-owned farms, I claimed, caused the herds and flocks of the college to become infected."

Hook said Shaw refused to answer his question regarding the renting of land "nor did he answer my inquiry at the same time in regard to the results of the experiments of the Michigan State college with a proprietary help feed of which Clark L. Brody, member of the board of agriculture (controlling body of the college), has sold thousands of tons to Michigan farms at three times its feed value as sole agent for this feed in Michigan."

Hook charged the "hush fund" was set up when Brody and Melville B. McPherson, board member, "dominated the state board of agriculture and were all-powerful in Michigan politics." He added his investigation disclosed an \$8,600 theft of military goods at the college "was denied" before a grand jury by college officials, but that sum later was paid to the war department by the college.

### PARTY OPENS LOCAL OFFICE

#### Demo Headquarters for Spring Campaign at 712 Ludington

Upper Peninsula headquarters of the Democratic party are being opened for the spring campaign here this week at 712 Ludington street, formerly the A & P store. Robert Dansard of Lansing, employe of the state highway department and former resident of this

city, has arrived to take charge of establishing the office. Dansard has taken a leave of absence from his state duties until April 5 to aid the party during the campaign. Gerald J. Cleary of this city, member of the state central committee of the Democratic party, will be in charge of the local office, which will be headquarters for the Upper Peninsula during the next few weeks. It is expected that the office will be ready for occupancy by Monday. The office staff will consist of about eight persons, including sign painters, stenographers and clerks. It is expected that county offices will be opened in Dickinson, Marquette, Houghton, Iron, Menomine and Alger counties.

### WORK STARTED ON CONVENTION

#### Michigan Legion Rally To Be Held Aug. 19-22 At Escanaba

"On to Escanaba—20,000 strong," was the slogan given to committee chairmen for the 1939 state American Legion convention at Escanaba as they held their first organization meeting at local Legion headquarters last night. The convention will be the twentieth anniversary of the Legion in Michigan, and will be held in Escanaba, August 19 to 22, inclusive. The meeting last night was opened by John Peltier, commander of Cleveland Post No. 82, American Legion, who turned the discussion over to H. P. Lindsay, general chairman of the convention. Others called upon for comment were Councilman Carl Richter, Vice Chairman Emmett Meehan, A. D. Aiguire, Upper Peninsula Legion adjutant, and Tom Beaton.

#### Steamer Under Contract

It was announced that one lakes steamer had already been contracted for in the Detroit area to carry Legionnaires to the Escanaba convention, and that another boat was available if needed. These will be used for housing during the convention, and will arrive at Escanaba on August 19, departing August 23.

Indications are that there will be in the neighborhood of thirty drum and bugle corps units, bands and junior corps musical organizations in Escanaba for the convention. Many Legionnaires are planning their vacation trips to coincide with the convention dates, some intending to occupy cottages with their families for longer stays. General committee meetings will be held at regular intervals by the local convention corporation, and individual committee chairmen were given manuals as guides for their separate meetings as organization work for the convention gets under way. Practically every one of the 18 committees was represented at the first meeting last night.

### Franklin Cub Pack To Meet On Friday

The Cub Pack of the Franklin school will hold its monthly parent-boys meeting Friday evening at 7:30 in the auditorium of the Franklin school. Pack 10 has shown rapid growth and has increased its membership from 19 at registration time to 40 at present. An inspection will be held by Mr. Mater, Cub commissioner of the Red Buck Council, and points will be awarded in competition with all other packs of the district. The project for February has been completed and each den will show what they have made. The flag won in the Tri-County Cub Skating meet will also be on display.

### Robert J. Foster Dies At Wilson

Robert J. Foster, 66, passed away at his farm home at Wilson yesterday afternoon at 2 o'clock following a lingering illness due to heart trouble. He suffered paralytic strokes four years ago and two years ago but had been able to be around until a short time ago.

He was born January 10, 1873 at Rousseau A. L. Eau Chaude, Quebec and came to the United States 45 years ago, locating at Ford River. He moved to Wilson 36 years ago and has lived there ever since. The deceased, who was a member of the Zion Episcopal church of Wilson, is survived by his wife; five daughters, Mrs. Henry Plom of Wilson, Mrs. A. W. Rick of Menominee, Mrs. Herbert Hoes of Perronville and Grace and Rose of Milwaukee; one son, Robert, of Appleton; two brothers, Charles and Joseph in Canada; and eight grandchildren.

The body was taken to the Anderson funeral home in this city to be prepared for burial. Funeral arrangements will be completed today.

### EXAMINER HERE THIS MORNING

#### Citizenship Petitioners Are Interviewed at Courthouse

M. H. Powers, naturalization examiner who has been in the city for the past two days, will leave this noon. During the morning he will interview persons who have questions on naturalization at the Delta county courthouse. About 25 petitioners were interviewed at the courthouse during the past two days, and filed petitions for citizenship. Those filing petitions at this time will receive citizenship at a special session of Delta county circuit court in June.

A rush business was handled at the courthouse during the examiner's visit here. The crowd of applicants was swelled by a number of persons with questions on citizenship. Among them were many women, former citizens, who lost their rights through marriage to unnaturalized aliens.

The program will consist of games, yells, awards, and boxing exhibitions between Jack Thurber and David Welch, and John Jacobs and Mac Danielson. The leaders of the pack include Allen Harwood, cubmaster; Bob Meehan, Fred Thatcher, Francis Casey, den chiefs; Jack Glavin, Jack Meehan and Bob Stack, assistant den chiefs. All registered Cubs, their parents, and anyone interested are invited to attend.

### Pencil Drawing of Late Pope

Munising, March 9—Though it took him two weeks to complete it, C. Ernest Tackman, Jr., of this city has finished a 30 by 34 inch pencil drawing of the late Pope Pius XI. Mr. Tackman is the son of Mr. and Mrs. E. Ernest Tackman of 108 1/2 Walnut street. Mr. Tackman came here in 1938 from Columbus, Ohio, where he had been graduated from the West high school. Art was one of his courses during his entire four years of high school. There he learned to work in pastels, oil

and charcoal, in addition to pencil, under W. D. Campbell, one of the better known art instructors in that area. The picture of Pope Pius XI was made using a five by eight inch photograph of the pope taken from a daily newspaper as a model. Mr. Tackman plans to make a slightly smaller painting of Pope Pius XI in oils soon. In addition to these, for which he hopes to find a ready market, he plans to record many of the scenes in this area through the medium of pencil, pastels, oils and charcoal.

### Munising News

#### Road Commission Roster Increased To Five Members

Munising, Mich., March 9.—The membership of the Alger county road commission was increased from three members to five at the meeting of the Alger county supervisors here this week. F. F. Bartels, Munising Paper company auditor, and Milton Tounzel, Sr., of Grand Marais, were added to the road commission for three year terms. The road commission has obligations of \$41,362.29 outstanding according to a statement compiled December 31, 1938. The commission has only about \$11,000 on hand at the present time.

#### Development Club Lists Up Cottages

Munising, Mich., March 9.—The Munising Development club is seeking information on cottages available for rent to tourists during the coming summer season. Persons in this area who have cottages for rent to tourists are asked to give the information on the location, rates and equipment to Charles Symon, secretary of the club. According to plans a list of available cottages will be included in all replies to inquiries. Already 100 letters have been received this year and most of the requests were for information regarding camps.

Munising, Mich., March 9.—Howard Berkel, Mather high school instructor in history and economics, was the guest speaker at the noon meeting of the Munising Rotary club on Tuesday noon. Mr. Berkel's subject covered the present European situation with reference to the democratic and dictator governments. He reviewed the situation from 1914 to the present time and showed how the World War and subsequent peace treaty developed situations mak-

### MUCH SNOW IN FEBRUARY HERE

#### Fall of More Than Four Inches Recorded On 28th of Month

A snowfall of 22 inches during the month of February, as compared with a normal 12 inches, was recorded at the Escanaba station of the United States Weather Bureau according to a recent report prepared by W. T. Lathrop, meteorologist. The largest single day's snowfall was on the last day of the month, when 4.2 inches were recorded to make the total depth of snow on the ground 17.4 inches. On the first of the month the snow was 9.7 inches in depth, and the 22-inch snowfall during the month would have resulted in a stand of 31.7 inches if it had not been for melting and packing between storms.

The mean temperature for the month was 13.6 degrees; 1.8 degrees below the normal mean of 15.4 degrees. The lowest temperature of the month was 12 degrees below zero on the 11th, and the highest was 26 degrees above zero on February 18.

There were four days upon which sleet fell, February 1, 9, 19 and 23. The mean temperature of 13.6 degrees was the lowest since 1936, when 4 degrees was recorded. The mean precipitation of 2.26 inches has been exceeded only twice in the past fifteen years; in 1937 with 3.88 inches and in 1926 with 2.34 inches.

### GEORGE DAHL PASSES AWAY

#### Resident of Escanaba for 27 Years Dies Here Suddenly

George Dahl, resident of Escanaba for the past 27 years, died suddenly at a local hospital yesterday. Although he had been ailing for some time, his death was unexpected.

The deceased, who was 77 years of age, came to Escanaba 27 years ago and for many years was watchman for the Steel Wallace corporation. He was born November 27, 1861 in Norway and came to the United States as a young man, locating at Muskegon. Later he went to Ford River, where he lived until he moved to this city. For the past several years, he has been making his home with his step-daughter, Mrs. William Anderson, 1214 Stephenson avenue. He is survived by three step-daughters, Mrs. Anderson of this city, Mrs. Emil Jacobson of Floodwood, Minn., and Mrs. R. J. Kruger of Minneapolis.

The body was taken to the Anderson funeral home to be prepared for burial. Funeral arrangements will be completed today.

The first automobile license was issued to Elwood Haynes, of Kokomo, Ind. Carbon is found in Nature in more than 100,000 combinations.

# Escanaba Ski Club Launches Campaign For Winter Sports Park

## 2 FORTIES OF LAND SOUGHT

### \$300 Will Be Raised By Popular Subscription for Project

Officers of the Escanaba Ski club announced yesterday that the organization would launch a campaign at once to solicit the sum of \$300 for the purchase of the Danforth hills winter sports park site. The two forties of land, which is covered by five large hills, will be acquired from S. M. Johnson of Escanaba and turned over to the city of Escanaba for administration by the municipal department of parks and recreation. By placing the site under public ownership, it will be possible to secure WPA funds for the clearing of land and the development of ski slides and trails and a toboggan slide. Assurance also has been given that the Delta county road commission will improve the road to the site.

**Has Possibilities**  
Skiing enthusiasts claim that the area has great possibilities. Three adjoining forties, on which there are some smaller hills, also could be acquired later if there is demand for more space. Best described as a crescent shaped ridge, the southeast portion of the area, rises to an average height of 175 feet, making an angle of 35 degrees on the hills facing south and east. The slopes and bowl-shaped area are comparatively clear, except for a light brush and trees, so little work is needed. Below the steeper hills, however, it is quite heavily wooded and would need clearing for riding at the bottom of the slopes. Timber for a clubhouse could be cut from the site.

**Donations Asked**  
The members of the campaign committee are: Lawrence Schou, Harold Groos, A. J. Gearitts and Wm. J. Schmit. Persons wishing to contribute to the project may make their donations to Mr. Schmit at the Escanaba National Bank, who is serving as treasurer for the fund raising drive.

## Site for Winter Sports Park

Five of the highest hills in Delta county are located on two forties of land, which the Escanaba Ski club proposes to purchase as the site for a winter sports park. A fund raising campaign to secure \$300 for acquiring the tract has been started by the organization. The property would be turned over to the city of Escanaba so that it could be developed under the WPA program.

## SCOUT DRIVE GETS BACKING

### Delta County Industries Freely Supporting Organization

Scouting is receiving a fine response from the people of Escanaba and Gladstone in the finance drive that is now being conducted. Demonstrations of their good will toward the Scout movement is being shown in many of the larger industries by one hundred per cent of the membership contributing as well as the company.

In the last several campaigns, only a small percentage of the employees in Escanaba and Gladstone contributed to Scouting. This year, however, a very fine response has been experienced from all groups. A goal of \$4,800 for Delta, Alger and Schoolcraft counties has been set to continue and promote Scouting during the coming year. Escanaba, Gladstone, Manistique and Munising contributes the amounts they are able to raise which is put into a general fund.

Surveys have been conducted throughout the schools and the results show that over 75 per cent of all boys of Scout and Cub age wish to become members. It will be possible to greatly enrich the program and extend activities to reach rural boys as well as city boys if the finance goal is reached.

The drive is being carried on by members of the service clubs, schools, industries, and other groups interested in promoting a constructive character-building program. Part of the money raised will be used to develop a campsite for use during the summer camping season. The Scout Council owns an abandoned CCC camp which is to be rebuilt and moved to the Scout site.

S. R. Venne is chairman of the Gladstone campaign, and O. V. Thatcher, Jack Hart, John Lemmer and Carl Sawyer are chairmen of the Escanaba campaign.

## Four Sub-Committees Designated To Study Water Plant Project

Fred J. Earle, chairman of the Citizens Advisory committee, has appointed four sub-committees to make studies of particular phases of the proposed waterplant construction project.

The sub-committees are as follows:

Finance: William Warmington, Henry L. Rose and Gust Asp.  
Location: Harry D. Brackett, Mrs. E. J. MacMartin and John Nicholas.  
Need: Gerald J. Cleary, M. R. Deo and Casper Olson.  
Co-ordination: J. J. Bartella, Dr. A. J. Carlton and Fred J. Earle.

The sub-committee on finance has been asked to study the proposed means of financing the project, its soundness, its effect upon taxes during and after completion of the proposed new plant, its effect upon the city's credit, its relation to other necessary activities of city government, its independence or dependence upon continued federal appropriations.

The sub-committee on location

is to study the problem with reference to the proposed site and any other possible locations, and the effect of the various locations upon cost of construction, cost of distribution and upon the value of adjacent commercial, industrial and residential properties.

Study of the proposal with reference to the co-ordination of the new plant with the other city utilities now in existence or contemplated and with reference to a proper city plan for the future will be undertaken by the sub-committee on co-ordination.

The fourth sub-committee is to study the actual need of a new plant, which will include the adequacy of the present pumping, treatment and filtration plants and the possibility of repairing, altering or extending them; the probable life of the present buildings and equipment in their present condition and their life if repaired, altered or extended, together with the estimated costs of any such improvements.

The sub-committees have been instructed by Chairman Earle that they are not to feel themselves limited to a study of the aforementioned questions alone, but are urged to explore all phases of the waterplant problem.

The next meeting of the entire committee will be held at the city hall at 7:30 o'clock Wednesday evening, March 22.

## CITY WPA ROLL IS AT LOW EBB

### Approval of Projects Needed to Employ Men Locally

Because of delay in approval by WPA officials of several projects submitted several months ago, employment of WPA labor within the city of Escanaba is at a low ebb at the present.

Several projects have been submitted by the city several months ago but approval has not yet been received here and, until such time as it is, the city will not be able to extend its projects.

At present, about 70 men are employed on the sewer job and about 40 on the water main project, both of which are in the southwest portion of the city.

About 80 men are employed on the beach improvement project. They have been engaged in putting up cribs at the harbor entrances and filling them with rock in order to form a protective barrier for the entrances.

Approximately 15 persons are employed on the property survey being made throughout the city. Under this project, every piece of property in the city is being charted and a record made in order that the city assessor may be able to consult the information when faced with a request for a review of assessment.

## SNOW REMOVAL COST GREATER

### Frequent Snowfall Makes Continued Use of City Loader

On the basis of records thus far this winter, it is expected that snow removal costs in the city of Escanaba will be higher than average. It was learned yesterday at the office of the city engineer.

Although snowfall has been only slightly above normal, the frequency of storms has made continued use of the city's removal equipment almost a necessity. The loader and plows have been in constant use, just completing one clean-up job when forced to go out again after another storm. During the month of February, the trucks plowed 3,933 miles and removed 7,425 yards of snow as compared with 3,795 miles and 5,750 yards during January. The loader was operated 83 hours during February as against 59 1/2 in January. Eighteen loads of sand were distributed throughout the city streets during the past month. In addition last month, 419 crosswalks were shoveled and 84 catch basins cleaned.

A study of records by City Engineer A. V. Aronson reveals that up to March 5.8 inches of snow had fallen. Added to the average of March and April, this would mean that snowfall for the season would amount to more than 70 inches, greater than all but one in the past six years. Average for the year in the past six has been 66.6 inches. January usually has the heaviest snowfall, averaging 19.1 inches as compared with 16.6 for February. March drops to 6.46 and April to 3.75 inches.

Diamonds are the hardest of all minerals.

## Michigan Mirror

### Doings About Capitol

Lansing—Michigan's state government today is thoroughly "Main Street."

Only one of six recently elected officials (Secretary of State Harry Kelly) comes from a town of more than 7,000 population. And Mr. Kelly is the only novice in state politics, the governor and lieutenant governor and treasurer and auditor general and attorney general all having served in various capacities of responsibility at Lansing.

The legislature, too, reflects the "Main Street" flavor of the Fitzgerald administration, as most of the members of the house and senate come from so-called rural areas—towns under 10,000 population and farming districts.

Therein has developed some interesting trends which merit watching.

**More Home Rule?**

Whereas the legislature two years ago (with the Republicans putting up little resistance) gave in to home pressure groups and went on a spending spree \$17,000,000 in excess of anticipated revenue, the 1939 lawmakers have been talking much about economy and "home rule."

Backed by the State Association of Supervisors, Representative Audley Rawson of Cass City (the governor's own choice for the post of majority leader in the house of representatives) has introduced a bill to restore more local control in administering relief.

In brief, this bill would allocate one-third of a \$1,500,000 welfare appropriation to counties on a basis of population one-third on the basis of relief cases during the past three years, and the remainder on the basis of immediate needs.

While officials in industrial centers suspect that rural supervisors are using "home rule" as an excuse to get their hands on more welfare funds, the administration appears to be sincere in its belief that present handling of relief is top-heavy with salaries and unnecessary expenses. Economy is the key word.

Will home-rule effect this saving?

billities, he has pointed out. In the cause of home rule, therefore, lies the administration's hope of effecting economy in government. The trend for several administrations have been to create more bureaus at Lansing, Fitzgerald is trying to apply the brake.

**Gambling Is Involved**

When it comes to moral issues such as gambling, however, home rule is a horse of another color.

The governor at first took the attitude that gambling was a matter for local law-enforcement by sheriff and of prosecution by the prosecuting attorney. Slot machines and gambling resorts, he said, should be controlled by county authorities and not the state. The reception of this policy was not cordial among rural people in general and among church people in particular.

In Macomb county irate citizens obtained a court injunction when a resort re-opened with brazen publicity. Last week the slot machines began to re-appear. Operators anticipate a busy season in the resort sections of northern Michigan and the Upper Peninsula where home rule in morality has been lax, especially when visiting tourists arrive with pockets well filled with cash.

The latest deviation of the home-rule policy in gambling is that the administration will not tolerate syndicate control—a syndicate being an organization reaping profits from gambling in several counties. The complications are easy to forecast.

**Civil Service**

Eight bills on civil service have been introduced so far at Lansing. Developments to date indicate that the legislature will yield to patronage pressure, repeal the present civil service law and open many jobs to competitive examinations.

Blanketing many Democrats in state jobs was accomplished by the 1937 legislature under the title of "qualifying" examinations for all those hired prior to January 1, 1938. For example, one state elected official discovered recently that the man on whom he was dependent for publicity releases is a Democratic county chairman. This state employee is protected by civil service. What is the Republican official going to do about it?

A check into the number of state employees added during the Murphy administration, however, has revealed the interesting fact that outright repeal of civil service might jeopardize the jobs of approximately 10,000 persons who

were hired prior to January 1, 1937—many of them during the first Fitzgerald administration.

**Senator Brake's Bill**

Among the bills is one sponsored by Senator D. Hale Brake of Stanton which would compel all employees, hired between January 1, 1937, and January 1, 1938, under "qualifying" examinations, to take competitive examinations.

This bill would also eliminate all present eligible lists and would exempt from civil service all divisions heads who were in a position to make policies.

Under Senator Brake's bill the Democratic county chairman, for example, could retain his job only by proving his competence through an open competitive test. The fairness of such an examination would depend, of course, on the civil service commission and its director—as would be the case in any administration, Republican or Democratic.

The Stanton Republican, chairman of the senate judiciary committee, is one of the outstanding influential leaders in that chamber. Hence his views are of significance in the present civil service controversy.

**Spring Election**

With the spring election only a month away, the legislature is proceeding more cautiously on controversial matters that might develop into campaign issues.

The labor mediation board plan is one. This measure, proposing a 10-day "cooling off" period between declaration of strike and the actual walk-out, was originally drawn up with numerous restrictions on both employer and employee. Among other things it outlawed sit-down strikes which

were responsible more than anything else for the downfall of the Murphy administration last fall.

The United States supreme court has taken the sit-down strike problem off Fitzgerald's hands.

And with another campaign in the offing, legislators are inclined today to postpone action on the labor bill until after votes have been counted. Many teeth in the present bill will be removed, it is believed, more dependency being put on public opinion than on legal penalties.

WE' the WOMEN

BY RUTH MILLETT

You can live alone in Germany. But after April 1 you probably won't like it. Cupid works in curious ways in Hitler's country and now he has omitted the aid of the tax collector. Starting in April the live-aloners are going to pay for the privilege—a tax being levied on both bachelors and spinsters. The question the young in America face is, "Can we afford to get married?" In Germany it will soon be, "Can we afford not to?" In a way the scheme will have a democratic effect. It used to be just the wealthy girl who wondered if a man really was marrying her for love. Now even the poorest will have her doubts. Maybe it's not love the man of her heart is after—but tax exemption. It looks as though it is time for the German people to give in to Cupid gracefully. With Hitler lending him a strong arm he seems to have everybody licked. (Everybody, that is, but the Fuehrer himself.) Of course, the German Cupid doesn't offer the brand of romance we American women are used to. A German proposal—summer of 1939—will probably sound something like this: "It's silly for you to pay a spinster tax and for me to pay a bachelor tax, when all we need to do to be exempt is just to get married. On the money we'd save we could afford a family—and that would exempt us from the childless couple tax. We just can't afford not to marry." If that is romance new style—

American women will be glad to stick to the old kind.

The University of Oklahoma has a young "Counselor of Women" (the old-fashioned title is Dean of Women) who thinks a college ought to worry as much about a girl's D.Q. (Dating Quotient) as about her I. Q. (Intelligence Quotient).

She is Margaret B. Stephenson and in her words, "It is more important to any normal person to have friends, to be recognized and respected as a person, and to be part of a social group than to study any subject, no matter how interesting and important that subject may be."

That is one of the things she said the other day in a talk before a group of Oklahoma educators.

She also pointed out that the socially maladjusted girl is likely to be found living in one of the less desirable rooming houses rather than in a dormitory, that often she is a student who either is working her way through and hasn't the time or the clothes to get into the social swing, or she is a very brilliant girl who is over-conscientious and spends all her time studying.

Miss Stephenson was talking to educators, but parents who want their daughters to get the most out of college could get a tip or two from what she had to say.

A girl may have to work her way through, and she may have to live in a rooming house if living in a dormitory is a little more expensive. But parents should face the fact that if she does either, she'll have to have a strong personality not to miss out on much that college has to offer. A shy girl, in either situation, is likely to become a campus misfit. Whereas, if she lived in a dormitory, she would be guided into activities.

Michigan In Washington

BY ESTHER TUFTY

Cherry pie may soon be recognized as the most typical Michigan dish. A certain newspaper writer is compiling a book on American foods, giving a chapter to each state, and featuring the favorite recipe of each Senior Senator. Arthur H. Vandenberg has chosen cherry pie—and is leaving it up to the famous cherry pie bakers and queens of Michigan's cherry-land to furnish the recipe. The Traverse City Chamber of Commerce is to be the judge.

Michigan lumberjacks are sought again for the annual National Folk Festival in Washington on April 27, 28 and 29. These dozen or more oldtimers bring back in lively bunkhouse tunes and dances the full flavor of pioneer days in our forests. Jerry Allen forgets he is pushing 80 years and dances like a streak, while his pals play rollicking songs on fiddle and banjo.

Of course it takes money for transportation, which has, on the recommendation of H. J. Gray of the West Michigan Tourist and Resort Association, been furnished for several years by the four tourist groups. Also, it must have the approval of H. O. Weltch, Publicity Director, of Lansing.

Probably these lumberjacks, who can spin yarns to make Paul Bunyan blush, would never have become nationally prominent but for E. C. Beck, an English teacher at the Central State Teacher's College at Mount Pleasant. Mr. Beck, who is the director, has made a hobby of the revival of our early days with their characteristic songs and dances. Associated with him is H. S. Babcock of Alma and St. Louis, who is the leader.

Both Senators Vandenberg and Brown are urging that the lumberjacks advertise Michigan at the Festival, where 30 states will be represented.

Fiftieth Anniversary Of Their Wedding Observed By John A. Strombergs

Mr. and Mrs. John A. Stromberg, whose Escanaba numbers among its esteemed pioneer residents, observed an important and happy occasion Thursday, the golden anniversary of their wedding.

The observance of the day was necessarily a very simple and quiet one, limited to a family dinner and calls from a number of life-long friends and neighbors.

The dinner for which beautiful appointments were artistically arranged was served at one o'clock, the family group present for it, including Mrs. Foss Elwyn, of Sault Ste. Marie, the former Mildred Stromberg, Austin and Edward Stromberg of Chicago, and Mr. and Mrs. Ivan Stromberg of Iron Mountain.

Beautiful flowers and other remembrances of the anniversary, and messages of congratulation were received by Mr. and Mrs. Stromberg throughout the day.

Married in Pennsylvania Mr. and Mrs. Stromberg were married in Youngsville, Pa., on March 9, 1889, and shortly afterward, Mr. Stromberg, who had settled in Escanaba on June 2, 1886, brought his bride to this city. They have resided here continuously since that time.

Mr. Stromberg, who was one of the early business men of Escanaba, conducting a grocery store in the 1500 block on Ludington street, until his retirement twelve years ago.

There are five children in the family, Mrs. Lillian Stromberg Pope of Chicago, Mrs. Elwyn of Sault Ste. Marie, Edward and Austin Stromberg of Chicago and Ivan Stromberg of Iron Mountain, and two grandchildren, Richard Austin Elwyn, and Helene Stromberg, who is the daughter of the Ivan Strombergs.

The program was as follows: Community sing, directed by Rev. Evans and accompanied by Mrs. A. Mallman.

Bridge League Meeting Tonight

The Delta Bridge League will hold its regular weekly meeting at the Sherman hotel this evening. For those who wish to, there will be a matched team-of-four play of ladies against men. It will not be necessary to arrange a team-of-four to enter this play as the teams can be made up after the pairs arrive.

For those who do not wish to play team-of-four, there will be team-of-two matches.

His message was a stinkbomb.—W. S. Galbreath, blacksmith legislator of Texas, referring to the message of Gov. W. Leo O'Daniel.

Do This If You're NERVOUS

Don't take chances on products you know nothing about or rely on temporary relief when there's need of a good general system tonic like time-proven Lydia E. Pinkham's Vegetable Compound, made especially for women from wholesome herbs and roots. Let Pinkham's Compound help build up more physical resistance and thus aid in calming frayed nerves, lessen distress from female functional disorders and make life worth living. For over 60 years one woman has told another how to get "things straight" with Pinkham's—over 1,000,000 women have written in reporting glorious benefits—IT MUST BE GOOD!

Pantie-Frock Attractive In Spring Prints

BY MARIAN MARTIN

PATTERN 9002

A just-out style that says, "Here's to the very lovely, very little ladies!" Isn't it a pet with its delightful new, front-fulness panel? This may have rows of simple shirring or dainty vertical tucks. At back, the yoke and panel are in one, to speed up Mother's dressmaking. The saucy little puff sleeves may be open, while the cap sleeves flare breezily like wings. You'll like ruffling and ribbon bows, or braid and buttons for cute extra touches. Even the panties may be trimmed with them! Why not send today for Pattern 9002 and stitch up two of the most fetching "little shaver" frocks?

Pattern 9002 may be ordered only in children's sizes 2, 4, 6, 8 and 10. Size 6, puff sleeve dress, requires 2 1/2 yards 25 inch fabric and 2 1/4 yards ruffling, flare sleeve dress, 2 1/4 yards 35 inch fabric and 2 1/4 yards ric-rac. Send FIFTEEN CENTS in coin for this MARIAN MARTIN pattern. Be sure to write plainly your SIZE, NAME, ADDRESS, and STITCH NUMBER. Send today for the very popular MARIAN MARTIN BOOK OF SPRING PATTERNS! You can solve ALL your spring sewing problems as you look it over from cover to cover. Every style is factoring and easy to stitch, whether for children, juniors, misses or matrons. The grand choice stirsome party favorites, bride attire, allocation frocks, sand-and-sea clothes, with Budget Ideas highlighted! BOOK FIFTEEN CENTS. PATTERN FIFTEEN CENTS. BOOK AND PATTERN TOGETHER, TWENTY-FIVE CENTS. Send your order to Daily Free Pattern Department, 525 W. 15th St., New York, N. Y.

Wishing Well puzzle grid with numbers and letters.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

"Last time they didn't serve enough RITZ CRACKERS"

**YOU NEVER MET A CRACKER THAT CAN DO AS MUCH FOR YOU AS RITZ!**

**IT BRIGHTENS UP MEALS—** It's sheer magic the way Ritz puts zip into old familiar meals! Many a hurried housewife has rescued a "left-over" meal from the doldrums by just sparking it up with Ritz.

**IT'S PERFECT FOR PARTIES—** Ritz has banished the "what-to-serve" worry. Guests would rather eat these golden-brown tempters than most anything else! Why? Because Ritz has a nut-like flavor everyone loves. You won't find it in any other cracker!

**IT'S MARVELOUS "MUNCHING"** —For between-meal hunger pangs

there's nothing more satisfying than crunchy Ritz. Remember, too, Ritz is always fresh . . . gloriously browned . . . full of flavor. A special baking secret protects Ritz fresh goodness—down to the last one in the package!

Put in a good supply of helpful Ritz for the week-end.

**SUGGESTION OF THE WEEK!** Having trouble getting the youngsters to drink milk? A few tasty Ritz will make it slide down without a protest. Mothers say it works like magic!

**ALL OUT OF DESSERT IDEAS?** Serve FIO NEWTONS! Rich golden-brown cake and luscious tree-ripened fig filling.

**Nahma News**

**School News**  
Nahma, Mich.—Construction of the F. W. Good school has been progressing during the past month. The assembly room will be in use on Friday. The west-side entrance will also be opened by Friday.  
The plumbing is well under way and within another month it will be completed.  
The lighting fixtures are installed.

**Other News Items**  
Mrs. Marion Burke of Menominee, who is WPA supervisor of women's projects, and Miss Alice Showers, director of the school's hot lunch program, spent Tuesday in Nahma.  
Mrs. Henry La Vigne is now assisting Mrs. Edith Boutiller on the hot lunch program which has been started about six weeks.  
Miss Mildred Johnson was put on assisting Miss Judith Wixner, who is our school librarian.

**Ward-Brady**  
At a wedding ceremony performed at 4:00 o'clock Saturday afternoon in Manistique, Miss Henrietta Ward, daughter of Mr. and Mrs. Charles Ward, became the bride of John Brady, Cedar River, son of Mr. and Mrs. Thomas Brady of Bellaire, Mich.  
Mr. and Mrs. Lloyd Camps, brother-in-law and sister of the bride, attended the couple.  
For her wedding the bride wore an attractive black and white crepe dress with white accessories and wore a shoulder corsage of sweet peas.  
Her sister was also attired in black with white accessories and wore a corsage similar to that of the bride.  
Following the ceremony, a wedding dinner was served at the Eat Shop for the bridal party and immediate family.  
Mr. and Mrs. Brady will leave April 1 on a honeymoon trip to Miami, Florida. Upon their return they will live in Cedar River, where Mr. Brady is employed as head mechanic at Wells CCC camp.

Guests at the wedding included Mr. and Mrs. Al La Plante of Escanaba, Mr. and Mrs. Ellsworth Davenport, Mrs. Walter Davenport, son Earl and daughter Harriet of Manistique and Mr. and Mrs. William Boutiller of Nahma.  
**Joan's Birthday Party**  
Joan Frasher, daughter of Mr. and Mrs. Cliff Frasher, who was seven years old February 28, entertained a number of her little friends at a party arranged in honor of the day and held from 1:00 to 6:00 o'clock at her home.

**News of FOOD Specials**

Following a program of games a birthday supper was served. All white appointments were used and a large lighted birthday cake formed the table centerpiece. Joan received a number of pretty gifts.  
At her party were Mary Ann Davis, Jeannette Boutiller, Janet Warner, Annabelle Robare, Jean Swanson, Peggy Rogers, Peggy Pollack, Frances Berg, Marlene Willette, Carolyn Sofek, Peggy Phalen, Patsy Stratton, Betty Hruska, Maxine Bedard and Patsy Frasher. Mrs. Richard Bjorkman and Mrs. Ray Davis assisted Mrs. Frasher.

**Persons**  
Mr. and Mrs. Dave Cloutier spent the week-end visiting relatives in Manistique. They were accompanied by Mrs. Clifford Cochran who returned to her home in Epoufette after spending a week visiting at their home.  
Mr. and Mrs. Milton Bergman and daughter Carolyn of Marquette visited on Sunday at the Robert Eggert home.  
Miss Grace Olmsted, R. N., returned to Elgin, Illinois, after spending a few weeks here with her parents, Mr. and Mrs. Fred Olmsted.  
Mr. and Mrs. Joe Schafer, Mr. and Mrs. Ivan Schafer, Mr. and Mrs. Ivan Marlowe, sons Max and John visited on Sunday at the home of Mr. and Mrs. Gordon Beauchamp of Escanaba.  
Miss Gertrude Sabourine was a week-end guest at the Homer Gro-leau home in St. Jacques.

**Prune-Almond Bread**  
(Good for sandwiches too)  
1 1/2 cups chopped cooked prunes  
1/2 cup shredded almonds  
1/2 teaspoon salt  
1/2 teaspoon nutmeg  
2-3 cup brown sugar  
1 teaspoon soda  
1 teaspoon baking powder  
1 egg  
1 cup buttermilk  
1 cup Graham flour  
2 cups flour  
3 tablespoons fat, melted  
Mix ingredients and pour into loaf pan which has been lined with waxed paper. Let rise for ten minutes and bake for 50 minutes in a moderate oven (350 degrees).

Eagles are trained to hunt game in Turkestan. Numbered among their kills are foxes, gazelles, goats, hares and wolves.

**Stonington**

Stonington, Mich.—The Luther League of Bethel Lutheran church will be hosts to the Luther League from the Lutheran church in Gladstone Friday evening. The young people from both churches will meet at the local church for a sleighride. Following the sleighride they will assemble at the church for a program and refreshments. All members and friends are urged to attend. E. Walford Granskog will give an address on the Augustana Youth Conference at Omaha, Nebraska.

Oluf Olsen, one of the pioneers of Stonington, celebrated his seventy-seventh birthday on Tuesday, February 28. Among those present were Mr. and Mrs. Albert Leadman, Mr. and Mrs. Richard Olsen and children, Donald, Phyllis and Floyd, Mr. and Mrs. Magnus Jacobsen and daughters Florence and Ann, Mr. and Mrs. Walter Olsen and daughter, Carol Alin and Alda Lyn from Bayview, Mrs. George McClelland and d. Alleen and Eunice Olsen of Escanaba, Hulda and Esther Olsen of Chicago sent their father a birthday cake. It was very large, decorated with boats all over, around the sides, and ships and waves on the top. Mr. Olsen has always been interested in boats and the sea. He has been engaged in fishing for many years. He is at present enjoying good health and still very busy.

Mr. and Mrs. Benjamin Skaug are the parents of a son born in Chicago Saturday, March 4. This is the first child in the family. Mrs. Skaug is the former Laure Lee Purzol of Chicago.

**Escalloped Sweet Potatoes**  
3 cups sliced raw potatoes  
2 tablespoons flour  
1 teaspoon grated orange rind  
1/2 teaspoon salt  
1/2 teaspoon pepper  
3 tablespoons butter  
1/2 cup boiling water  
Carefully mix potatoes with flour and seasonings. Pour into buttered baking dish. Cover and bake forty minutes in moderately slow oven. Uncover and bake ten minutes—until top is browned.

**Chocolate Doughnuts**  
2 tablespoons butter  
1-2 cups granulated sugar  
1 teaspoon salt  
2 squares chocolate, melted  
3 eggs, beaten  
1-2 teaspoon cinnamon  
1 teaspoon vanilla  
1 cup buttermilk  
4-4 cups pastry flour  
1 teaspoon soda  
1 teaspoon baking powder  
Cream butter and sugar. Add salt, chocolate, eggs, cinnamon, vanilla and buttermilk. Beat one minute. Add rest of ingredients and mix lightly. Chill the dough and then roll it out until it is half an inch thick. Cut out doughnuts and fry in deep hot fat until well browned. When ready to serve, dust with confectioner's sugar.  
To prepare especially dainty doughnuts, fashion the dough into one-inch balls. Dust with granulated sugar and cinnamon.

**Fluffy Cheese Pudding**  
(Serves 4 to 6)  
Six slices white bread, 1-2 cups grated American cheese, 2 eggs, 1-2 cups milk, 1-2 teaspoon salt, pepper, paprika.  
Cut crusts from bread and fit three slices in the bottom of a buttered casserole. Sprinkle with half the cheese, then cover with remaining bread. Beat eggs, add milk and seasoning, pour over the bread with remaining cheese and cover with remaining cheese.  
Set Casserole in pan of hot water and bake in moderate oven (375 degrees F.) for 40 minutes until custard is set and the bread is puffed up.

**"MY FIRST CHOICE FOR THE DAY'S FIRST MEAL"**

**Delicious Balanced Nourishment**

In every breakfast spoonful of National Biscuit Shredded Wheat you get all the rich inner flavor of pure whole wheat.

Here's why. In billows of pure steam the flavor-laden inner cells burst open. Then quickly we crush and press the grain into fragrant biscuits and bake just long enough to bring them to a tempting golden crispness.

Behind that fresh, delicious taste lies all the wholesome balanced nourishment of pure whole wheat and milk—eight vital food essentials for the muscles, nerves, blood, teeth and bones.

For more than 40 years, millions of families have enjoyed this toasted goodness of the choicest sun-ripened wheat. It is rushed to your food store by swift delivery trucks. Ask for "National Biscuit Shredded Wheat"—for morning feasts of delicious balanced nourishment.

¼ teaspoon grated lemon rind  
1/8 teaspoon salt

**Baked Apple Rice Pudding**  
3 cups sliced apples  
1 cup water  
½ cup light brown sugar  
2 tablespoons lemon juice  
½ cup milk  
1 cup boiled rice  
1-8 teaspoon salt  
3 tablespoons butter, melted.  
Cook apples and water five minutes, covered, over low heat. Add rest of ingredients. Bake twenty-five minutes in buttered baking dish in moderately slow oven. Serve warm or cold.

**Browned Corned Beef Hash**  
2 cups corned beef hash (canned)  
¼ cup flour  
4 tablespoons bacon fat  
Shape hash into cakes half an inch thick. Roll in flour and brown in fat heated in a frying pan. Cover with lid. Lower heat and cook for ten minutes.

Oysters must not be overcooked in oyster stew. Paprika, celery salt and plenty of butter lend added flavor.

### Harris News

Harris, Mich. — Miss Helen Larson returned Sunday to the Alex Henderson home in Eustis, where she is employed, after spending the past few days at her home because of the death of her uncle.

Helen Grugen last year graduate of Harris High School left for Chicago where she will be employed.

# JUST TASTE THIS FINER COFFEE FLAVOR GUARANTEED IN M·J·B's RICHER ROAST

By George, I'll show Tilda how to make good coffee. I brought home a tin of M·J·B.

Here are the world's finest coffees combined in double-blended M·J·B to give you a full flavored coffee at any strength you like. See how good it is.

Now, isn't that delicious coffee? M·J·B has a Richer Roast that makes good coffee every time. All I did was follow the directions on the tin.

It's easy to make a completely delicious cup of coffee every time with M·J·B. For M·J·B is always the same — a combination of the world's greatest coffees with all flavor factors fully developed.

WHY? Because of M·J·B's Richer Roast. You see M·J·B is double-blended — first blended green, then blended again after months of ageing. Thus the full, rich character of each variety of coffee is blended and aged with every other — so that a perfect fusion of rare coffee flavors is developed in the roasting.

Naturally the result is a richer roast of coffee — a coffee so much more delicious that M·J·B gives you complete satisfaction, whether you make it mild, medium or strong, with either the Drip or Regular grind.

Try M·J·B by your favorite coffee making method. Just taste its finer flavor.

THE COFFEE WITH THE "Flavor Essential"

MAKE THIS PROOF TEST COMPARE ANY OTHER COFFEE WITH M·J·B—LIKE THIS!

LOOK Note the richer, nut-brown color of M·J·B, and the uniform grind. You can see that M·J·B is roasted and ground precisely, to perfection.  
SMELL Just smell the exhilarating aroma of freshly opened M·J·B. You can't fail to note the difference, result of M·J·B's Richer Roast.  
TASTE Final proof is in every cup of M·J·B; an extra richness of flavor that everyone can taste, at any strength that you may prefer.

**NO IDEAS OF MARCH?**  
For months past students of the European situation have been looking forward apprehensively to the month of March in the fear that during the current month some new move would be undertaken by the Axis powers that would threaten the peace of Europe, as it was seriously threatened last fall.

It would be rash to venture any prophecy for this month or for the months to come, but I think there is no question that fear has somewhat abated, and that in Britain, France and here there is far more confidence and optimism than there was in mid-winter.

Now, it is worth while to analyze the reasons for this, for those reasons may be a guide to our future conduct.

Did this relaxation of tension occur because the democratic powers were more conciliatory or because they stiffened? Is this more hopeful outlook, this lessening fear of war, or a coup d'etat, or another threat of war under which huge concessions would have to be made to preserve peace, or is it due to a sterner brow, less menacing words, and an actual increase in democratic strength?

The answer to that question is, it seems to me, the proper comment on our own foreign policy. And I do not think it can be denied that the democratic world has won a breathing space, not by conciliation but by resistance.

In the stiffening of the front against aggression the United States has played an important role. The sudden realization of the dictatorship that the United States cannot positively be ruled out as a factor has given the potential aggressors pause.

For this President Roosevelt deserves, in my belief, the gratitude of the democratic world, and the American people, whose passionate will to peace cannot be doubted, have backed him up with admirable common sense.

For it is extremely unlikely that any power would risk action that might lead to war if there was an even chance that the United States would be involved against it. The economic and industrial resources of this country are so enormous that they would be bound to cast the decisive die in a contest in arms.

The second element in the stiffening of the democracies has been the unequivocal declaration of solidarity between Britain and France and the very firm but polite words addressed to the dictators by the prime ministers and foreign ministers of both countries.

In this respect the words of Lord Halifax a week ago are quite different from British utterances prior to the events of last September:

"I should have thought that everybody everywhere must now realize that there is no party and no statesman in this country that would ever contemplate an aggressive war. . . . But it is also dangerous that some people in other countries occasionally fall into the opposite error and are tempted to interpret our will to peace as proof of our weakness and cowardice.

The material and moral resources of this country are enormous and the spirit of our people is in no way weakened."

This statement followed a remarkable communication from Hitler, who, having in season and out bragged of possessing the largest and most powerful fighting force in Europe, expressed "pained surprise" at the state of British rearmament.

Now this rearmament is really what is worrying the Axis powers. A few months ago, before Munich, they were taunting the democracies with being weak and decadent and incapable of efficient organization for either peace or war. But suddenly they are discovering that when popular governments and free peoples make up their minds to do something 'brought united effort and collaboration amongst themselves they can do it quite as speedily and efficiently as the totalitarian states.

Next month the output of British airplanes will, I am informed, be three and one-half times what it was a year ago, and by July, if the present tempo is not relaxed, it will be as great as the current output of the Germans. Moreover, the British and French peoples are not exhausted by years of being mobilized and perpetually speeded up. And these peoples know perfectly well, despite the propaganda of the dictators, that not one of them is arming for aggression, but only in defense of their lands and their institutions.

And again, in this rearmament the United States has played a major role. Our sales of airplanes to Britain and France have frightened the potential aggressors, and actually the planes sold to France will have enabled her to double her force in 1939. It will still be inferior to Italy and Germany.

In contrast with the stiffening of the democratic action and morale, the economic condition and the popular morale in both

## SERIAL STORY 'MRS. DOC' BY TOM HORNER

COPYRIGHT, 1939, NEA SERVICE, INC.

The characters and situations in this story are wholly fictional. **CAST OF CHARACTERS** ALAN WARREN—Ambitious young country doctor. EMILY WARREN—Alan's wife. DR. FARRELL—Alan's elderly associate.

**CHAPTER I**  
"Dr. Warren left the office more than an hour ago. Mrs. Warren. He was going to stop at Barrett's and at the hospital before coming home. He said something about Mrs. Carroll, too. I hope he doesn't have to go to the country with this storm blowing up. He'll be home soon, I'm sure, Mrs. Warren."

"Thanks, Marjorie."

Emily Warren replaced the phone in its cradle, sighed. "The joy of being a doctor's wife," she said, half aloud. "Even the office girl knows more about my husband than I do. The nurses share his secrets, he pays more attention to a dead-end patient than he does to me. I hardly get to see him. Oh, why—why—?"

She fought to hold back tears that kept welling up into her soft brown eyes. Even white teeth bit her lower lip and a firm chin lost all its firmness in quivering.

She heard a car stop in the driveway, its chained wheels biting sharply into the crisp, hard snow. That would be Alan. Perhaps Mrs. Carroll was all right. Perhaps—

She dabbed a handkerchief at her eyes, smoothed her dark brown curls, as she passed a mirror. She could hear Alan stamping the snow from his shoes in the entry. The hall door swung wide.

"Alan, Alan! Close the door, before you freeze here."

His arms were around her, pressing the snowy wetness of his coat through her dress. He kissed her, again and again.

Emily burrowed through the folds of his overcoat, pressed closer to him.

"It's so good to have you home, darling," she whispered. "I've been so cold and so lonesome. I'm afraid when it gets dark and stormy."

Alan kissed her once more before releasing her.

"There's nothing in the world for my sweet little wife to be afraid of," he said, as he slipped out of his coat, shook the snow from his hat. "We're in for a blizzard, the weatherman says, but it will probably be the last of the winter. Tell Hermia to keep a good fire in the fireplace."

"By the way, have her fix me a bite to eat. I'm too early for dinner, I know, but I'll have to have something. Got to make a trip in to the country. Mrs. Carroll. She

Italy and Germany have worsened. It cannot be too strongly emphasized that the prestige of Hitler and Mussolini in their own countries was both strengthened and shaken by the events of last September. In particular, Hitler's prestige with the German people rests on the fact that he has gotten what he wanted so far without war.

But Hitler discovered after his victories last September that not he but Chamberlain had become the popular idol in Germany. For the German people hate war as much as any other people, and, despite the propaganda of a controlled press and radio, they realize quite fully that they were spared a war not by grace of Hitler or Mussolini but by grace of the democratic powers.

Also the victory has not been as sweet as was hoped. The acquisition of Austria and the Sudetenland has become an enormous burden on German economy. Conquest has meant new taxes, and the taxes already are terrific. And, again despite the propaganda, the German people do not believe that they are being threatened by the democratic powers. They are sullen toward their government, there is more outspoken criticism than there has been in all the years of the Hitler regime, because the people feel that the democracies, driven too far, will take a stand.

Also, in the countries of the Danubian Basin there is a notable stiffening—in Hungary, Poland and Yugo-Slavia.

The peace, therefore, that we at present enjoy is not due to appeasement but is due to resistance. One needs only to read the German and Italian press to be aware of this.

The belligerently confident tone of the Axis powers changed abruptly in January, immediately following President Roosevelt's address to Congress. That the spring may go by without another world-shaking incident is not a triumph for the Chamberlain-Bonnet policy; it is a triumph for the Roosevelt policy. And the greatest thing that we have to fear is that, comforted by the relaxation of tension, the democratic powers will lapse from the stand which has brought about that more fortunate atmosphere.

Mr. Henry L. Stimson, Secretary of State under President Hoover, a former Secretary of War, a political opponent of President Roosevelt and a sharp critic of his domestic policy, has done the country a service by his lucid, reasonable and, to me, unanswerable analysis of the world situation and the support he has given the President in the open letter published in "The New York Times" on Tuesday.

Not only reason but the empirical facts support the President and Mr. Stimson.

would pick a night like this to have a baby. Snow a foot deep on all the roads already, and most of them will be drifted shut before morning. I don't see why people can't have their lams in the spring." He led Emily to the fireplace, stood before it, absorbing the wealth of warmth from the blazing logs.

"Perhaps I should have been a veterinarian instead of a physician—no worries, and you take the patient if they don't pay." Alan's ringing laugh echoed throughout the house.

But Emily did not laugh. Instead, she stared at her tall, handsome husband. She hardly knew this man of medicine; even after a year of marriage. She knew and loved each tiny wrinkle in his forehead, the way his mouth, even after long, sleepless hours, turned up at the corners.

Lights were dancing in Alan's dark blue eyes, like sparks from cold steel, as he laughed. She had seen those eyes, soft and hurt, reflect the pain of an anguished patient; and she had seen them grow black and hard when unthinking men stirred his anger.

How different was this man from the boyish interne she had met and loved five years ago. Earnest even then, but not the serious, prematurely old man of 30 who faced her. Alan had changed so much in the four years they had been apart—long, patient years of waiting while he built his practice in Sumner, until he had earned enough to return to St. Louis for her, to bring her to her new home as his wife.

Those gay laughing days of young love, dancing and cocktails of laughing friends and happy parties were remote now. Alan never drank anything now, a patient might object. And parties—when had that last party been?

But Alan's love for her had not changed. He still adored her with the same devotion, still called her his goddess. Her slightest wish for anything in her home was promptly fulfilled, but it wasn't chairs, and drapes and pictures that Emily longed for. She wanted Alan, and his tweeds, smiling of other and antiseptic and tobacco, beside her in the evenings. She wanted the assurance that if she awoke at night, he would be near.

"Must you go to Carroll's tonight, darling?" she asked.

"Of course, I've got to go. Farrell can't go out in this storm. He's getting too old for this sort of thing. But don't worry your head about me. I'll stay at Carroll's until dawn. If the blizzard holds. Oh Hermia," he added, as the maid passed in the doorway, and some strong coffee. "I'll eat here in front of the fire."

"But Alan," Emily went on, "it's important that you be here tonight. A wire came this afternoon from Dr. Peterson. He's stopping off here for a few hours on his return from Florida. Said he wanted particularly to see you."

"Nice of Peterson to stop. I'm sorry I'll miss him. But he'll understand. After all, he's a physician first and dean of a medical school second. He wouldn't expect me to stay here just to visit with him." He paused to light a pipe, settled comfortably in a big chair, smoking contentedly.

"Maybe he wants to talk to you about a job, Alan," Emily said after a long silence. "You know how much he admires your work in St. Louis. He told Dad that there was no one he'd rather have on the faculty than you, if there was ever an opening."

"But Emily, I don't want to be a professor. I'm a doctor—a country doctor. Besides, I'm not good enough to rate a job from Peterson. He's just being nice, stopping in to say hello. You give him a good dinner, and get all the gossip. You might invite Farrell up, too, in case Peterson wants to talk shop. Thanks, Hermia, but it's right here on the coffee table."

"Can't you send an ambulance to bring Mrs. Carroll in to the hospital?" Emily refused to admit defeat.

"And have them stuck out on a highway, have a baby born out in this blizzard? Emily, you're not thinking."

He bit into a sandwich, gulped his coffee.

"I am thinking. I don't see why you should miss seeing Dr. Peterson, one of the outstanding men of your profession, one of your best friends, and a man who can do you lots of good, just to take care of a farmer's wife!"

Shadows crept into Alan's eyes. His lips narrowed. Disregarding danger signals Emily went on.

"You go out into this storm, when every sensible man is staying at home. You're asking for pneumonia. You practically insult the dean of your own medical school. You place me in an embarrassing position; how can I explain it? Why? Why?"

"Because I'm a doctor."

"There are other doctors, Alan. But they're not fools. You don't see young Dr. White driving all over the country in all sorts of weather. No, he has an office, keeps hours. He's a heart specialist. He's—"

"Yeah, White's a specialist and he's all right in his line, if he likes it—I like mine."

"But you're killing yourself Alan. And now, you throw away what may be an offer to go back to St. Louis, to be a professor, to amount to something. It isn't fair to me!"

If Alan heard her, he did not let on. He put on his coat and galoshes, pulled his muffler higher around his neck, before he spoke.

"You take care of Peterson, Honey; let me worry about the work." He kissed her, lightly, striving to keep his temper.

"And if I don't go to this woman, when she needs me"—his voice was low, vibrant—"it may mean a life!"

The door slammed behind him. "CHAPTER II

"Is the river road still open, Jimmy?" Alan asked as he waited for the filling station attendant to check his gasoline and oil.

"It was at 4 o'clock, Doc, but the men who came down from the dam say she'll be drifted shut by morning. You have to go up there!"

"Yes, Jimmy, I've got to go. I guess we'll make it all right. I won't go all the way up to the dam, just about half way."

"But Doc, that's more than 10 miles, and in this storm it'll take an hour or more. Look out for that new fill, up by Price's place. They haven't got the guard rails up yet—you could easily miss the road there and go into the ditch."

If you have any trouble, or get stuck, just sit tight and flash your lights and keep your horn going. I know all these farmers was along there, I'll phone and tell them to be watching for you."

"Thanks, Jim, but I'll get through—but it's good to know that people will be looking out for me along the route—just in case."

It was a comfortable feeling, Alan thought again as street lights dimmed behind him and the darkness of the open country closed in on him.

"Yes, I know. You and Alan's father drove for weeks without even sleeping in your own beds. That winter was what brought on Dr. Warren's heart attack."

"You're more than right there, Emily. That's why I don't want Alan running out in every sort of weather. He has a life's work ahead of him here in Sumner. An obstetrician with hands stiffened by frostbite, like mine are, can't attain the things Alan will. He should have let me go—I know every inch of that road. Why if he should get stuck in a drift—"

"Dr. Farrell, he'd freeze to death on a night like this." Suddenly he chilled Emily.

"But there's no danger of that," Farrell tried to amend his mis-spoken fear. All those farmers will know about Mrs. Carroll and they'll be watching for Alan. Don't worry about him, child. By the way, what's Dr. Peterson stopping off here for?"

"He's an old friend of my father's, and he always has been terribly interested in Alan." Emily's fear for Alan's safety abated as she returned to the subject that was foremost in her mind.

"I think he's going to offer Alan a place at the university, Dr. Farrell. Father wrote that Dr. Peterson had practically quizzed

Alan," the woman said, with a smile. "Everything will be all right now."

"Is everything ready, Herminia?" Emily asked as she stepped into the kitchen. "Cocktails, soup, steak? And did the dessert turn out all right?"

"Everything is perfect, for once, Mrs. Warren. Shall I leave a place for Doctor Warren?"

"No—Alan won't be back. There'll just be four, Dr. and Mrs. Peterson, Dr. Farrell and myself. You're a jewel, Herminia. I know I could depend on you. When we move to St. Louis, I'll take you along. Oh, there's the bell. I'll answer it."

Radiant in her black dinner dress, Emily hurried to the door. Despite Alan's absence, she could not feel unhappy. She felt sure in her mind, that Dr. Peterson's visit was more than a social call on a former student and the daughter of an old friend.

Deans of medical schools didn't interrupt vacations just to say hello. "Emily, you look perfectly gorgeous. I'd like to steal you away from Alan."

The warmth of Dr. Farrell's greeting and the sincerity of his admiration enveloped her as she opened the door to admit him. She kissed his cool, rough cheek. Emily loved this gentle, understanding man, who had the power to soothe the mental as well as physical hurts.

"If my husband keeps on deserting me, I'll probably take you on that, Doctor!" she said, laughing.

"Has he left you again? I thought he'd be staying close to the fire tonight. What is it? Some inconsiderate woman having a baby?"

Emily nodded. "Mrs. Carroll." "And Alan drove out there in this storm? Why didn't he call me? Driving through blizzards is an old man's job. We know how it's done. Why back in 1905—"

"Yes, I know. You and Alan's father drove for weeks without even sleeping in your own beds. That winter was what brought on Dr. Warren's heart attack."

"You're more than right there, Emily. That's why I don't want Alan running out in every sort of weather. He has a life's work ahead of him here in Sumner. LOCAL PEOPLE BACKING SCOUTS

Gladstone Industries Supporting Drive for Membership

Employees of the Gladstone industries are backing the Scout movement through splendid co-operation in the "Give One Hour's Pay" slogan being used in the Scout finance campaign.

Part of the money raised will be used so that Gladstone boys will have an opportunity to take part in summer camping activities at the Scout Camp at Red Jack Lake. The Scout Council owns the former CCC Camp Kentucky which will be rebuilt this spring into a Scout camp.

Each community in the cities of this county function through a district commissioner who is responsible to the Scout executive. The commissioner in Gladstone is Fred Schram whose duties are to visit and inspect troops, conduct round-table meetings for Scoutmasters, and promote activities.

In councils covering large territories such as Delta, Alger and Schoolcraft with over 35 units, Scout troops and Cub packs, it is impossible for the Scout executive to visit the units regularly. The commissioner plan of Scouting has proven very successful in building a permanent organization within the community.

Scouting has received universal commendation. A. R. Watson, superintendent of Gladstone public schools, has stated, "I am interested in Boy Scouting because it does more for boys between the ages of 10 and 16 than any activity which I know."

# Cage Tourneys Go Into Second Round Tonight

## ST. JOE LOSES BY 35-22 SCORE

### Norway, Hermansville and Harris Win In Openers

Stephenson, Mich., March 9—Things went off pretty much according to Hoyle in the opening round of the Class C district tournament here tonight as a crowd of almost 1,000 persons watched Hermansville, Vulcan, Harris and Norway come through with expected victories.

In the opening game, Parrish and St. Juliana, led Hermansville to an impressive 46-16 victory over the home town Stephenson

### ST. JOE APPLAUDED

Stephenson, Mich., March 9—A crowd of almost 1,000 stood up in body and loudly cheered a fine act of sportsmanship on the part of Coach Leo Brunelle and St. Joe cagers. When Vulcan, which only had seven players, lost its third player and had only four left on the floor, Coach Brunelle and his cagers voluntarily removed one of their own players to compensate for Vulcan's lack of a full team. At the time, Vulcan held a 10 point lead with two and one-half minutes to play.

boys in a game in which there was no doubt of the outcome after the first half. Parrish scored 19 points and was followed by St. Juliana with 15 markers.

Vulcan won its first game of the season in the second of the evening by defeating St. Joseph of Escanaba by a score of 35-22. The first half was closely contested all the way but Vulcan edged ahead in the third period. The Vulcan attack was well balanced with Mrocz leading with 12 points. Freddie Hirn was the only effective parochial cager, the blond sophomore scoring 10 points to lead his mates.

**Vikings Have Trouble**  
After making it a nip and tuck battle all the first half, Rapid River fell by the wayside in the third game by a score of 27-19. Harris being the victors. R. Houle and Mötto led Harris with nine and eight points while Morley Roberts led Rapid River with seven.

In the final game of the evening, Norway met with unexpected trouble at the hands of a pair of midge forwards as Felch pushed the Vikings for three quarters before succumbing, 41-28. Simonsen and Johnson kept Felch in the running while Dapoz, Asp and DiBernardi led Norway's attack.

**Eagle-Eye Officials**  
Officials were "calling 'em close" here tonight, no less than 108 fouls being called in the first three games. Eleven boys were sent to the showers as no team escaped without one banishment.

Four games are scheduled for Friday. In Class D, Powers meets Cooks, and Garden plays Nahma. These four teams emerged as winners in the opening round of the Class D division Wednesday night. In the Class C section, Hermansville will take on Harris while Norway and Vulcan, traditional rivals, will meet in the final game of the evening. Finals will be held Saturday evening in both classes.

## Hutchinson Tiger Rookie Hurler Modest But Feels He'll Make Good

BY CHARLES P. WARD

Out in the Pacific Coast league, where he was a pitching sensation last year, his first season in organized ball, Freddy Hutchinson was known for his steadiness under fire.

"One of the coolest kids I ever looked at," said former Big League Hurler Walter "Dutch" Reuther, who now is scouting for the Cubs.

Although Big Hutch was undaunted by the taunts of Coast league coaches, his aplomb seems to have been pricked by the acidulous comment of scouts for clubs that were outbid by the Tigers for Hutchinson's services.

The other night Hutch was asked to talk about himself and his pitching. He seemed a little tactiturn, probably due more to boyish caution than to anything else. He is only 19 years of age.

"What is my best pitch?" he said with mock sarcasm in reply to a question.

"Hell, I don't know. They tell me I haven't a fast ball and that I haven't a curve. I can't understand how I got the batters out. Maybe I didn't get them out. Maybe I'm dreaming. Maybe I'm not even here. If the record books don't say that I won 25 games and lost only seven, then everything is a dream, and so skip it. But if the books say what I think they say, then maybe I did win that number of games. But if I haven't a fast ball and a curve, as some of these people are saying, then I really don't know how I got those batters out. I don't know how I won."

**Hutch No Dummy**  
Hutch is a big, good-looking kid, with rebellious dark hair and a thin-lipped mouth upon which lurks the whimsical smile of the "con" guy. Despite his years, he is no dummy.

Asked about the Coast league hitters who gave him the most trouble, he said there were many who gave him much trouble. He mentioned Dominick DiMaggio, respected brother of the Yankee's Joe, who plays center field for the San Francisco Seals. Dominick, he said, was a good all-around ball player although not so good as Joe. Hutch was not in the Coast league when Joe was a star there but he saw much of "Dimax" from the stands.

Asked about Jeff Heath, the Cleveland Indian outfielder, who was quoted last winter as saying he could "wear Hutchinson out," he gave Heath full credit for great ability.

"He comes from my home town and we are the best of friends," he said. "Heath is a fine ball player."

Asked if he had modeled his career after that of any big league pitcher, Hutch shook his head in the negative.

"I came up too fast to copy anybody," he said. "This time last year I was a high school boy, trying to break into the Coast league. Now here I am, a year later, trying to win a job in the big show."

**Rowe and Ruffing His Heroes**  
Did Hutch think that he had come up too fast? Did he not think that it was asking a lot of a guy to ask him to make the

## TRENNARY UPSET IN HARD FIGHT

### Michigamme Stops Alger Five; Rock Defeats Republic, 32-18

Ishpeming, Mich., March 9—Tournament play opened with a bang in the first game here this afternoon when Michigamme threw a bombshell into the proceedings by noosing out the heavily favored and hitherto undefeated Trennary high school cagers, 19-17, in a scorching overtime tilt.

Delta county's entry in the class D race, the Little Giants of Rock, displayed power in disposing of Republic, 32-18, to advance to the semi-finals. Rock will meet the strong Michigamme team tomorrow afternoon at 4 o'clock.

In defeating Trennary, a team which had won 15 consecutive games without defeat during the regular season, Michigamme throttled the two scoring aces of the Alger quint, Latvala and Mar-Mak. One field goal was the best either could do, Latvala scoring three free throws. Nurkala and Alexander led the Michigamme offense with the former being the hero of the fray. It was his third field goal of the evening in the all important overtime period which gave Michigamme the sweet victory. During the regular season, Trennary had defeated Michigamme twice in easy fashion.

**Appear Well Matched**  
Rock had little difficulty in defeating Republic, taking an 8-4 lead at quarter time and stretching it to 18-9 at half time. The Little Giant attack was led by Carlson and Suteia, who scored 12 and eight points respectively.

Carlson led Republic with six points while Peltonen, lost Maki and Isaacson by the same route.

On the basis of their play here this afternoon, Michigamme and Rock appear to be on comparatively even terms and a close battle is predicted for tomorrow by observers. Both teams depend largely on speed.

In other class D games played here today, national mine beat Palmer 30-21 and Champion nosed out St. Paul of Negaunee by 24-23.

**MUNISING NOSED OUT**  
Ishpeming, Mich., March 9—Negaunee high school cagers, behind the stellar work of Capt. Neil Roberts, staged off a determined Mather last quarter rally here tonight to nose out Munising, 26-25, in the only class B game of the night.

Negaunee took a 12-9 lead at half time and added another point margin in the third period but Munising came back strong in the final period to challenge the Miners. Their efforts fell short, however, Negaunee gaining sweet revenge for a defeat handed them two weeks ago by the Algers.

Roberts paced his mates with 15 points while Seglund contributed 11 points to Munising's total. Negaunee's accuracy from the free throw line kept the Mather in the battle, the boys scoring 11 points on charity tosses.

Negaunee will meet Coach Al Kircher's quintet tomorrow night and Ishpeming meets Sault Ste. Marie.

### Lews Cop Victory No. 20 Wednesday; Defeat Champion

Munising, March 9—The Munising Lews' Store quintet clicked here Wednesday night when they added victory number 20 to their list by downing the Champion Indians, 60-37.

The Munising quintet scored 28 field goals during the game, Champion dropped in 13 field goals and missed 36 attempts. Gamelin, Lew's Store player, made four field goals in as many tries. Bob Villeneuve, former Northern State player and now Mather high school coach, was high point man, scoring 21 points. Villeneuve scored nine field goals out of 17 attempts.

## Chuck Hoyt Resigns As Michigan Track Coach

### 'STIQUE LOSES TO KINGSFORD

Ann Arbor, Mich., March 9 (AP)—Charles B. Hoyt, University of Michigan track coach since 1931, resigned tonight, announcing that he has accepted the position of head track mentor and head trainer at Yale university.

The resignation was accepted by the university board in control of physical education to be effective at the close of the college year in June. J. Kenneth Doherty, assistant to Hoyt, was elevated to the head coaching job by the board.

During Hoyt's tenure at Michigan, his teams compiled the finest record in the Western conference, winning all but five of 16 indoor and outdoor championships. His present team is defending indoor and outdoor titles.

**Was Prep Sprinter**  
As a high school youth at Greenfield, Ia., Hoyt established a national interscholastic record for the 100-yard dash and at Grinnell College, from which he was graduated in 1917, he set a world's record for the 230-yard dash around a turn. He also was a hurdler.

Following World War service, Hoyt served as an assistant track coach at Grinnell and athletic director and coach in the Sioux City, Ia., high school before going to Michigan in 1923 as football trainer and assistant track coach. He became head track coach upon the retirement in 1930 of the late Steve Farrell.

Hoyt was noted for his emphasis on the Big Ten meets as the climax of the indoor and outdoor seasons and on team balance. He developed such stars as Sam Stroller, sprinter; Willis Ward, hurdler; William Watson, Big Ten shot put, discus, and broad jump champion, and Ralph Schwarzkopf, distance runner. Gedeon, Schwarzkopf and Watson are members of this year's team.

**Doherty Successor**  
J. Kenneth Doherty, former American decathlon champion, was appointed track coach at Michigan tonight to succeed Hoyt. Doherty, a graduate of Detroit City college (now Wayne university), has been assistant varsity coach and freshman coach since 1930.

Doherty, who holds a master's degree and is now studying on his doctorate, taught for a year at Detroit Southeastern high school after completing his college work. He was American decathlon champion in 1928 and 1929 and a member of the 1928 Olympic team. His one-day decathlon mark in the Olympics still stands as a record. Doherty was an assistant track coach at Princeton in 1929-30.

### Winn Has Headache Trying To Add To Derby's Capacity

Louisville, Ky., March 9 (AP)—After all these years of trying to provide more space to pack human beings into Churchill Downs for the Kentucky Derby, the job still is a headache to Colonel J. Winn, boss man of the nation's number 1 horse race.

The Colonel, fresh from his pre-derby visits to New York and Chicago, sat in the Downs' office today and admitted his "bleachery" idea—50 cents a throw for standing room on terraces in "left field"—can take care of 10,000 but far from enough to supply the demand.

The bosses of the Downs say they could stack derby devotees up to 100,000, maybe twice that number, if seats assuring a comprehensive view of the classic for the three-year-olds were available.

Colonel Winn has his dander up about this increasing attendance and looked longingly around the oval to those remaining places on the back side that can be reclaimed. The colonel sees a few feet here and a few feet there which would extend his "left field" terraces virtually around the track to occupy every inch not taken up with the club house and huge grand stand.

### Detroit Marksman Fires Perfect 200

Miami, Fla., March 9 (AP)—Harry Reeves, Detroit marksman, fired a perfect 200 out of a possible 200 to set a new world record during the Flamingo open pistol tournament today.

The former record was 199 of P. M. Chapman of Tacoma, Wash. Both used .38 calibre pistols in the time fire match from 25 yards. Lee Echols of New York, holder of the record Reeves bettered participated in the event.

**INDIANS BEATEN**  
New Orleans, March 9 (AP)—The Cleveland Indians dropped their first exhibition game of the season here today to New Orleans, 4 to 3.

The Tribe used 16 players and the Pelicans 15. Cleveland was able to collect only six hits, two of them singles by Jeff Heath.

## STIQUE LOSES TO KINGSFORD

### Gladstone Five Tripped By Menominee, 31-22; Bates Wins, 22-18

Iron Mountain, Mich., March 9—Kingsford and Menominee advanced to the semi-finals of the class B district tournament here tonight by defeating Manistique and Gladstone, respectively. In class D, Bates defeated Quinnesec, 22-18. The Flivvers won 29-17 while the Maroons triumphed 31-22.

Kingsford will play the strong Escanaba team in the feature game of the evening Friday night while Menominee will play the home town Iron Mountain quintet.

Manistique made a fight of it for the first half of their game, Kingsford leading 11-7 at the half way mark. But the Flivvers, largely through the work of Merzlik and McCorney, stepped out to score 12 points in the third quarter while holding the Emeralds to but three and running up a comfortable margin. With several subs in the lineup, Kingsford was outscored by one point in the final frame. Merzlik scored 11 points to lead the Wojchowski crew. Kirkpatrick and Bergeon went out on fouls.

Gladstone very definitely was in the ball game with Menominee until their defense cracked wide open in the final period, permitting the Maroons to score 12 points. Menominee led 12-9 at half time but Coach Kell's cagers, led by Kee and Zervic, narrowed the gap to 19-18 at the third frame. But Refling and Cadie teamed up to put Menominee definitely on top with their last quarter rush. Both teams lost two players on fouls.

### Montanez Seeking Shot At Armstrong

New York, March 9 (AP)—Pedro Montanez, hard-hitting Puerto Rican welterweight, who has been slowly but surely fighting his way back toward the big time, goes against Jackie (Kid) Berg of England at the Hippodrome tomorrow night in a ten rounder that may bring the winner a shot at Henry Armstrong's 147-pound title.

Montanez invaded this country three years ago but has been in partial eclipse since he lost a title match with Lou Ambers then lightweight champion during the summer of 1933. That is the only decision he has dropped in his 45 fights here.

Since that collapse, Montanez has returned to winning form and has shown so well in recent tests that Promoter Mike Jacobs virtually has made up his mind to pit him against Armstrong in a summer outdoor show if Berg is beaten and Armstrong successfully defends the crown in his forthcoming bout with Davey Day of Chicago.

Montanez is a 1 to 3 favorite in the betting notwithstanding that the ancient Berg has been traveling at a surprisingly fast clip and dropped only one decision in 15 fights last year.

The first message transmitted from England to France by submarine cable through the English Channel was in November, 1851.

COPPER BREAK CRIMPS RALLY

STOCK MARKET AVERAGES table with columns for Net change, High, Low, and Close for various indices.

BY FREDERICK GARDNER New York, March 9 (AP)—A break in copper, attributed to new Chilean export taxes on the metal, unsettled the stock market today after efforts to extend Wednesday's rally had met with some success in early dealings.

Overnight buying orders in virtually all departments put the ticker tape a trifle behind at the opening, with many favorites at new highs for a year or longer. The rush was short-lived, however, and profit taking soon reduced or transformed into losses gains running to a point or so. Closing prices were well mixed.

Such stocks as Anaconda, Kennecott, Cerro De Pasco, American Smelting and Chile Copper yielded fractions to more than three points at the worst following word that the Chilean government had approved an import on foreign shipments of the red metal as a means of financing earthquake relief. Anaconda and Kennecott have important holdings in Chile. Shares of other companies with South American properties tumbled sympathetically on fears the taxing idea might gain ground elsewhere.

At the same time the price of scrap copper was advanced, along with lead, and export copper in New York was lifted to around 10.31 cents a pound as European demand expanded. Phelps Dodge was an exception in the metal group, holding a gain of 1/4 at 43. This company's production is principally in the United States. Most of the copper losers cut their declines before the finish.

There was plenty of optimism still present in Wall Street despite the spotty tendencies which cropped up today. Propping sentiment, brokers said, were further hopes the government's plans to bolster business recovery would soon be translated into concrete results. Trade news, on the whole, was to the liking of the financial district.

Commission houses reported part of the day's stock offerings were for the purpose of raising funds for federal income tax payments which fall due next Wednesday.

Dealings fast in the first hour, included when the reactionary trend appeared, but the day's turnover of 1,357,865 shares compared with 1,048,440 the day before and was the best total since January 26. The Associated Press average of 60 issues was off 2 of a point at 53. The utility composite, though, managed to edge up to a new peak since September 4, 1937.

A more than seasonal upturn in last week's freight loadings aided the carrier shares in restricting set-backs. General strength of bonds, both foreign and domestic, as well as an additional advance in the London stock market, served to keep speculative and investment spirits fairly cheerful. The turnover in the bond department was the largest since December 28.

Commodities steadied with the weak cotton futures of yesterday regaining 55 to 70 cents a bale. Wheat and corn at Chicago were unchanged to up 3/4 of a cent a bushel. Sterling and the French franc were virtually at a standstill in terms of the dollar.

Lively bidding in the curb lifted Consolidated Copper a minor fraction and Associated Gas & Electric "A" about as much. Lockheed fell back nearly a point and a smaller loss was posted by Electric Bond & Share. Turnover of 230,000 shares compared with 190,000 Wednesday.

BONDS CONTINUE UPWARD SWING

BOND MARKET AVERAGES table showing bond market performance.

New York, March 9 (AP)—The bond market continued its forward march today, with many rally, utility and industrial issues closing at the best levels of the year. Gains in the corporate division as a rule were no larger than fractions to around 3, and profit-taking in some rallies brought losses in parts of the carrier list, but the trend generally was forward.

United States governments continued their uptrend, with gains ranging to 12-32 on the treasury. Many federal records of the highest prices ever seen in the U. S. division.

While continued improvement in the domestic business picture was giving climbing power to home issues, Brazilian and Polish dollar bonds put on individual sprints in the foreign dollar department.

Rise in Brazilian loans was attributed to announcement of a credit agreement between Brazil and the United States to facilitate trade and resumption of payments on Brazilian dollar issues. Brazil 6 1/2% ended 3/4 higher at 16, and the 8% of '41 up 3 at 19-18. Sao Paulo State 7% of '40 jumped 3/4 at 26 1/2.

Potatoes 8s were up 1-8 at 35 1/2, the 7s up 1-8 at 43 1/2, and the 6s up 1 at 35 on small sales. Transactions at \$11,430,600, face value, were the fastest since December 28 last, and compared with \$9,289,725 Wednesday.

To 1-8 higher, 7s 1/2 lower and lead 10 cents higher. Crop expert, said a study of the moisture situation in Kansas indicated a slight decline in condition of winter wheat compared with December 1, despite the normal precipitation the past two months. He reported an average condition on March 3 of 87 percent of normal compared with 81 percent on December 1.

### Motor Boating Act Highlights Issued By Customs Service

Anticipating an early opening of navigation on the Great Lakes, the United States customs service at Detroit has recently issued a summary of highlights of the motor boating act which governs licensing and equipment of motor boats.

According to the act, a report of the purchase of a motor boat must be made by filing a notarized bill of sale at a custom house within ten days of the date of purchase. The penalty for failure to report is \$10.

No fee is charged for awarding a number and issued a certificate for a motor-propelled boat. A certificate of award of number must be carried on board at all times.

Report of loss, abandonment or destruction of a numbered boat must be made to a custom house within ten days.

Standard motor boat equipment must be carried, including fire extinguisher, whistle, life preservers, pilot rules, light after sunset, etc. Printed regulations on the subject of equipment are available by writing the United States Customs Service at Detroit.

Sailing vessels without motor power under way after sunset are required to carry colored side-lights, green to starboard and red to port. White bow and stern lights are not permitted. When at anchor, such vessel shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light visible all around the horizon at a distance of at least a mile.

### Carl Senob Honored At Zeeland; Composed Operetta For Festival

Zeeland, Mich., March 9—As a tribute to Carl Senob, teacher of music in the Zeeland schools, a massed band of approximately 1,000 pieces will play one of his compositions at the Tulip Time festival in Holland in May.

The composition, "Tulip Festival March," dedicated a year ago, will be played this year as one of the numbers in the annual band contest in connection with the festival. Playing of the march will mark the first time a Michigan composer will have been honored in the festival.

Senob is a graduate of Northern State Teachers college, Marquette, Escanaba in 1932. He lived in Zeeland and when seven years old began the study of music. His father was a violin maker and musician. Carl has studied under Mischa Mischkoff, Russian concert master, and has studied summers at the University of Michigan and the American Conservatory of Music at Chicago.

The local composer gained prominence two years ago when he wrote a musical comedy for the Escanaba Smelt Jamboree. He is composing a band number to be dedicated to doctors of America. Senob directs the band, orchestra and vocal musical organizations in Zeeland's schools and led the band which won first place in the Tulip Time festival last year.

Senob is aided in his musical work by his wife, the former Jeanette Sundwick, an outstanding soprano singer. She directs local church choirs.

### Prison Inmates Escape; Sought Near Marinette

Menominee, March 9—An all-night 26-man police dragnet spread over lower Marinette county last night failed to capture two Amberg prison reformatory camp inmates who escaped in a prison truck and stole a Marinette automobile at Peshtigo.

Sheriff Arthur Wouff and seven deputies responded to a report from Peshtigo at 8:30 last night that a car owned by George Wagner, Jr., of 2321 White street, Marinette, had been stolen. They recovered the prison truck and sounded an alarm.

Roads were blocked at Oconto, Lena and Marinette, and the dragnet combed the lower section of the county until this morning. Supt Harry Anderson of Amberg camp and 13 guards joined the search along with four men from Oconto and the Marinette group.

The escaped inmates were William Steinberg, 22, of Milwaukee, who was sentenced to five years for statutory rape from Marinette, and who had lived at Peshtigo, and James Walsh, 19, of Oconto. They left the Amberg camp about six o'clock in a camp truck to get water on the prison grounds, but failed to return.

"We were only 15 minutes behind the pair when the Peshtigo report was received," Sheriff body will be taken to the Isabella cemetery following the services where burial will be made.

### U. P. Briefs

**MINING STAFF CHANGES**  
Houghton—The Copper Range company has announced several changes in the personnel of its operating staff at the Champion mine, effective March 1.

Bernard Manderfield has been appointed superintendent of the Champion mine. Mr. Manderfield, who is a graduate of the Michigan College of Mining and Technology, was employed at the Baltic mine for 11 years prior to the closing of that property, at which time he was transferred to the Champion as efficiency mining engineer. He held this post up until two years ago when he was advanced to chief engineer.

Paul Redeker, formerly superintendent of the Baltic, who was transferred to the Champion, where he was mining captain, has left the Copper Range company to accept the superintendency of the Isle Royale mine.

Henry Combellack, who has been with the Copper Range for 21 years, the last 15 of which he has been assistant clerk, has been appointed chief clerk to succeed E. W. Kruka. Mr. Kruka will remain with the company in an advisory capacity.

In the United States, \$18.15 per capita is spent annually for candy, ice cream and sodas, but only \$1.10 is expended for books.

### Suffering Grew Worse Daily Until She Began KruGon

Suffered With Constipation, Improper Digestion; Would Have Severe Nervous Chills In Such A Weakened Condition

"I cannot praise KruGon half enough for what it has done for me," said Mrs. Dora Deisinger, Alexis, Illinois (Northwest of Galesburg). "For over ten years I had been in such poor health.

MRS. DORA DEISINGER

"My stomach simply would not digest my food properly and I was also badly constipated. It seemed I was always taking some strong laxative. Then muscular aches and pains settled all over my body causing me much misery. My suffering had weakened me so I had nervous chills and was worn-out most all of the time, lacking the strength and energy to get about as I should. I tried many remedies recommended for cases like mine . . . but without results . . . until I finally began KruGon."

"Suffering people today are fortunate in being able to get a medicine with such outstanding ability," continued Mrs. Deisinger. "My bowels are again functioning normally and I get proper digestion too. It is such a blessing to be able to eat and sleep good again. I enjoy my meals without any bad after effects, get up in the morning refreshed and ready for the days work ahead of me. Those nervous chills have been relieved, muscular pains improved and I am really feeling like my former self again. KruGon is the first medicine I ever tried that gave me desired results."

KruGon is sold by West End Drug Store, 1221 Ludington St. this city
