Clear Conscience—15c

WESTERN UNION was pleasantly surprised the other day by receipt of a letter containing 15 cents in stamps. It came from an unknown person who wrote "It is to pay for an insulator that I broke on your lines. I broke it on purpose, and it has bothered me ever since. I want a clear conscience."

AROUND THE PENINSULA (Ironwood Globe)

The business that is being done with Canadians on Sunday seemed to have been the prevailing factor in the decision of Sault Ste. Marie electors to allow taverns to keep open on Sundays.

One of the most public spirited men in the Peninsula is Alfred Henes, whose father gave Menominee the John Henes park. He has offered to contribute \$7,500 toward the sponsor's share of a WPA project...

Chairmen of 18 committees have already held sessions in Escanaba in preparation for the state American Legion convention there August 19 to 22. There is even a committee on facilities and dockage, which means Escanaba anticipates a large number of the visitors to arrive by boat.

Engadine in Mackinac county has a new industry which may develop into one of proportions. It is the Joneer Rustic Furniture Shop, operated by E. L. Clark, a contractor. The firm specializes in rustic furniture and not long ago 30 pieces of special design were shipped to a large winter home at Fort Lauderdale, Florida.

Members of the police and fire departments in Iron Mountain have been voted an increase of \$10 a month in their pay. It was high time that this increase came, for police and firemen of Iron Mountain have been among the lowest paid in the Peninsula.

Hotel men probably aren't particularly pleased over the announcement of Leo J. Konwinski of Iron River, who plans to start a tourist cabin colony alongside highway US-2 eight miles west of Iron River.

The Menominee range got both good and bad news with respect to its iron mining properties in less than a week's time. Several operators informed Crystal Falls residents that there is little likelihood that additional properties will be operated in that territory this summer.

DOES GOVERNOR FORGET? (Grand Rapids Press)

"The law known as the staggered commission act made it possible to banish politics from the conservation department. With the passage of this law and the elimination of politics it was possible to make this state a leader in conservation. I am unalterably opposed to the passage of any law that would give politics a foothold in the conservation department.

World Affairs Reviewed

Belgium's political crisis, which resulted in the dissolving of Parliament and the need for a general election next month, is dividing popular opinion, with Flemish-speaking Belgians mainly lined up in opposition to French-speaking Belgians.

"HALF ARE FLEMISH"—The northern part of the country, dominated by the flat plains and poppy fields of Flanders, is home to the Flemings, whose speech resembles a dialect of Dutch or German.

When Flanders in the 16th century became a subject province, Flemish was banned, and French came into official use. Belgium in 1830 adopted both tongues again.

Belgium's growing recognition of the Flemish language has changed a number of place names in Flanders—names grown grimly familiar in headlines during the World War, names now conned in history by the post-war generation.

The Flemings comprise slightly more than half of Belgium's population of eight million. Their rich old culture has been widely advertised by the paintings of Memling, Hals, and Brueghel, of Van Dyck and Rubens.

Has the governor forgotten the position he took four and a half years ago? Or does he believe that the passage of time lessens the obligation of a state official to keep his pledged word?

Certainly the governor's stand today is in marked contrast with that he took in the 1934 primaries. A bill was introduced in the house Tuesday of this week that would boost Michigan's present seven-man conservation commission to a nine-man body.

Fitzgerald's excuse is particularly naive coming at this time. Within the next thirty days he will be called upon to make three appointments to the conservation commission. The terms of two commissioners expire April 1.

Do the commercial fishing interests and eastern Michigan need more than three representatives on an eleven-man commission? What is to prevent the governor from taking care of them quite adequately under the present law if he feels they have been getting a "raw deal" the last few years?

The real results of a nine-man commission would not be to give any district or group better representation than is possible at present. They would be to give the governor five appointments on a nine-man body, without delay.

Under the nonpolitical staggered commission law Michigan has gained a position of leadership in conservation affairs recognized throughout the country. There is not the slightest genuine reason for any change. More and more this state becomes the envy of those still struggling to protect their natural resources under the handicap of political administration.

At that time he was "unalterably opposed" to any law that would give politics a foothold in the conservation department. The bill he now favors certainly is perfectly designed to that end.

This Is Beginning to Get Embarrassing

The Washington Merry-Go-Round

Washington—The State Department has engaged in a lot of diplomatic equivocation, but hit an all-time record when it informed the Senate that it had "no knowledge" of Japanese fortifications of the Caroline and Marshall Islands adjacent to the controversial American island of Guam.

"Butch" Cardenas—The Mexican Ambassador, Francisco Castillo Najera, has a young son called "Memo", who is no less rowdy than most American youths at age 8. The other evening, when his parents were out, Memo kept listening for the telephone.

UP TO THE HOUSE—The fate of the \$150,000,000 deficiency relief appropriation depends entirely on what happens to it in the House. If the lower chamber approves the bill, the Senate is sure to go along.

WAITING GAME—Behind all the talk on maneuvering over economy between Roosevelt and the conservative Democrats is a colossal game of bluff.

OUTWARDLY, the President takes a very sympathetic attitude toward the anti-spenders, when they confer with him. It is 100 per cent for economy—in principle.

THE PRESIDENT'S party—who used to be a railroad dispatcher and knows the Morse code—told that what went on was as follows: The two fellows were making remarks about the pretty girl, thinking apparently, that no one else knew the Morse code.

SKILLFUL GENII—Keepers of restaurants now have discovered a double source of income. When the dining patrons have gone home, these resourceful bonifaces put epicurean notions out of their heads, hide the fragile chinaware and convert their premises into night clubs.

RELIGION MOVES, vast and potent, in the world today. —Professor James T. Shotwell of Columbia University.

THORSEN MAKES 258 FOOT JUMP

Munising, March 16—Soaring 258 feet, Ralph Thorsen, Class B Michigan open ski champion, Munising, made one of the longest leaps of the day at the Iron Mountain exhibition meet held here last Sunday.

Thorsen had been jumping distances of about 225 feet when he took his last ride of the day. After he had left the take-off a strong cross-wind caught him and forced him over toward the crowd.

From five to ten thousand people saw the meet which was held for the benefit of the Kiwanis Ski club accident fund.

**Fried Apple Pies**  
2 cups flour  
1 teaspoon salt  
1/2 cup shortening  
1/2 cup cold water  
Thick spiced apple sauce  
Mix flour and salt. With two knives or a pastry blender work in shortening. When the mixture is like coarse cornmeal gradually add water to make dough soft enough to roll out. Roll into rounds five inches in diameter. Place a spoon of sweetened apple sauce on each round. Moisten the edges. Cover sauce with half the pastry. Press the edges together with fingers. Fry in deep fat (375 degrees F).

This makes about 6 individual pies.

U. tournament at Denver, listed for WOR-MBS at 10:30.

Ceremonies in Paris at the unveiling of a plaque commemorating the founding of the American Legion 20 years ago, for WABC-CBS at 10 a. m., will include Ambassador Wm. C. Bullitt as speaker.

Big Ben, famed London bell striking the hours in the tower of the Houses of Parliament, London, has been heard a distance of six miles without the aid of radio.

### Fish Around for Egg Recipes to Fill Out the Lenten Menu

Egg and mushroom cutlet with green peas and a savory sauce makes a perfect Lenten dish that is easy to make.

BY MRS. GAYNOR MADDOX  
(NEA Service Staff Writer)

Egg on the Lenten appetite and keep fishing for new recipes. The season of abstinence was never meant to be a span of starvation.

**Egg and Mushroom Cutlets**  
(Serves six)

Nine hard cooked eggs, 1/2 teaspoon grated onion, 1-8 cup butter, 1 1/2 cups cream sauce, 1 1/2 cups sliced mushrooms, salt and pepper to taste.

Cut hard cooked eggs into dice. Sauté mushrooms in butter. Add diced eggs. Then add the other ingredients and mix well. Chill in refrigerator until thickened. Shape into eight cutlets. Fry in deep fat. Serve with peas or broccoli and parsley new potatoes. Cutlets and croquets made of fish, vegetables or fruit suggest many fine Lenten meals. Deep fat frying in lard or any other shortening is wholesome and simple if you follow the rules.

Temperatures for deep-fat frying: The temperature should be hot enough to bring about a quick browning of the surface. This prevents undue fat absorption.

On the other hand, the temperature should not be so high that the fat smokes. Smoking fat indicates that it has broken down, forming fatty acids and acrolein, the latter being a substance irritating to eyes, nose and throat.

A smoking fat, therefore, is always too hot for frying any type of food material and should never be used as a test for telling when the fat is hot enough. The thermometer is the easiest and surest way of telling when a fat is hot enough for frying the particular food. No food product needs a

higher frying temperature than 380 degrees F., and most foods can be fried at lower temperatures. The smoking point of lard is above this temperature.

In general, uncooked foods, such as doughnuts, are fried at the lower temperature, while cooked foods, such as croquettes which only require reheating, may be fried at a somewhat higher temperature.

**Some Do's and Don't's**

Do use a deep-fat thermometer.

For ease in frying, use a frying basket.

Avoid over-heating. The fat should never smoke.

Don't have the fat too near the top of the kettle.

Don't put in too much of the material at a time.

BEHIND THE SCENES

By Bruce Catton

Washington—The man who delivers your special delivery letters feels that he is the victim of a peculiar kind of injustice, and he wants something done about it.

The crux of his complaint is that although he works for the Postoffice Department he is not, technically, a postoffice employe.

There are approximately 3500 special delivery messengers in the various first class postoffices in the country.

They are making their complaint through George W. Wartel, legislative representative of the National Association of Special Delivery Messengers.

In the fall of 1932 a government pay cut was put through, and the comptroller general ruled that the special delivery messengers were postoffice employes and consequently that the cut applied to them.

That was that. The messengers went along under the status of contractors, hoping that some day they would be able to get reclassified.

This winter they tried again, asking a ruling from Attorney General Murphy.

Warfel remarks that the common conception of a special delivery messenger as a youngster just out of high school is way off.

SERIAL STORY

'MRS. DOC'

BY TOM HORNER

COPYRIGHT, 1939, NEA SERVICE, INC.

The characters and situations in this story are wholly fictional.

CAST OF CHARACTERS ALAN WARREN—Ambitious young country doctor. EMILY WARREN—Alan's wife. ERIC KANE—Construction engineer.

Yesterday, Eric takes Emily to a party when Alan is called on an emergency case.

CHAPTER VIII

The letter burned Emily's fingers, seared her heart. Mixed emotions of anger, of disappointment surged through her.

Without a word she turned, placed the letter on the mantel, resting it against Alan's pipe rack so that he would be sure to see it.

"That's all he thinks of the greatest opportunity he'll ever have," she said bitterly. "He doesn't even read it!"

"Don't be too harsh," Eric said. "He's been busy, night and day. He probably stuck it in his pocket hurriedly and forgot all about it."

"I don't try to defend him. There's no excuse for absolutely ignoring an offer of a job that will pay him twice as much as he earns here."

"Now, now, Emily," Eric's tone was soft and soothing. "I'm sure as soon as Alan has a little more time, he'll consider the offer, probably accept it, if it would make you happy."

"Oh, no he won't. He's perfectly content to stay right here in Sumner, being just a country doctor. It doesn't matter to him that I have to go to parties alone, sit here at home alone for days and nights, never seeing anyone."

"Eric, if you insist on giving away tricks, Dr. Farrell and I just have to beat you." Alan's laugh was hearty as he added up the score.

after the Maddox dinner party. "Eric's not keeping his mind on the cards tonight," Dr. Farrell broke in.

"What's wrong with the weather? Forecast says warmer," Dr. Farrell replied. "After this snow, a little warm weather should be welcome."

"It's about the dam. We had a heavy snowfall here, but farther north it was a record breaker for this time of year."

"And what has all this to do with your dam?" Emily asked. "It may make, or break it," Eric said simply.

"But don't let me bother you with my troubles—you have enough of your own. And anyway, we're going to beat this river snow or no snow, thaw or no thaw."

"You had me worried for a minute," Alan said. "I had a life-sized picture of Sumner floating downstream in a flood of debris."

"No doubt about it," Farrell shook with laughter at the mental picture. "Emily, you'd look adorable, even on a floating chicken coop."

He stretched full length on the bed, stared at the ceiling. He could close his eyes and see her face. That funny little grin that started at the corners of her mouth, then spread over her lips.

"How about the movies tonight? It's one of those family pictures."

Eric Kane gazed at his reflection in the mirror and cursed it, softly but fervently.

"You can't even play bridge with her. She bids hearts—yours does a flip flop. She plays a diamond, and you stare at the one on her finger. You fool!"

"How's that trestle holding? Keep those gravel trucks rolling over it. Get men with shovels in there. Don't let that stone pile up on it. It'll never hold it. Pull all the men off the concrete and steel and put them in the concrete. I'll be up first thing in the morning. Okay. Hell, you can sleep tomorrow. G'night."

He addressed slowly, crawled into bed. The dam was enough of a worry without adding Emily. Why should he be worrying about Emily Warren, she was another man's wife!

### WE' the WOMEN

BY RUTH MILLETT

Men don't dislike in women the things they poke the most fun at and do the most yelling about.

If you don't believe that, buy a nice conservative hat and see if it gets any attention from the men of your acquaintance.

Then take your husband's word that painted toenails are ridiculous and stop matching your toes to your fingers. He'll be the first to ask you why you stopped using that red stuff on your toes.

If you really think your escort minks carrying your compact in his pocket, catch that pleased look on his face when he hands it to you at the end of the evening with the air of the protector who has looked after you.

And if you believe what men say for publication, that black is their favorite choice for a woman's clothes and that they like women dressed in quiet good taste, go window shopping with one.

You'll find that he is taken by the most colorful accessories and if he knows there is a black dress in the window he doesn't make an sign.

Also, the man who has a fit about gossiping is just putting on an act. Stake your money on the chance that the next time a man accuses you of gossiping he'll end up by trying to find out what you found out.

There are things that men dislike in women. But they don't talk much about them.

Most men hate for a woman to lie about anything more important than her age or weight. It makes them feel insecure.

They hate to have a woman not care how she looks. A man would rather have his wife keep him in debt and let his house run itself than have her go around with her slip showing.

They dislike any sign of calculating coldness in a woman, preferring to believe that all women are warm-hearted and impulsive.

Whether they are married or single, they don't want a woman to flirt with other men while she is out with them.

If you want to know what men hate—watch their reactions and pay no attention to their talk.

### Salvation Army Plans Prayer Week

The Salvation Army of this district announces that it will participate with units all over the world in a week of prayer and self-denial April 2 to 9, to aid the home and foreign missions of the organization. The funds obtained through this observance will be used to carry on Salvation Army work in hospitals, homes for the aged and orphans, settlements and nurseries and a multitude of other branches.

### Church Events

**Choir Practice Tonight**  
Members of the choir of St. Stephen's Episcopal church will meet for practice this evening at 7:30 o'clock.

**Christian Science Churches**  
"Matter" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, March 19.

The Golden Text (Exodus 20:7) is: "Thou shalt not take the name of the Lord thy God in vain; for the Lord will not hold him guiltless that taketh his name in vain."

Among the Bible citations in this passage (Matthew 9:35): "And Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the kingdom, and healing every sickness and every disease among the people."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 22): "If God had instituted material laws to govern man, disobedience to which would have made man ill, Jesus would not have disregarded those laws by healing in direct opposition to them and in defiance of all material conditions."

The World War cost a total of \$107,000,000 a day.

The guests played bridge and five hundred during the evening. In the former, Mrs. Emil L'Houren had high score and Mrs. Peter Goermac, low; and in the latter, Mrs. Ann Snyder was high and Mrs. Joe Reese, low.

A birthday lunch with the birthday cake centerpiece and other appointments in the St. Patrick Day theme, was served, after which Miss Snyder was presented with a number of lovely gifts.

Card Party Postponed

The third of the series of dessert bridge parties, which R. C. Hatheway Chapter, No. 49, Order of the Eastern Star, is sponsoring, has been postponed from its announced date, this afternoon, until after Easter, because of illness of members of the Chapter, and a conflict in dates of meetings at the Temple. The date of the party will be announced later.

Bake Sale Saturday

A bake sale, sponsored by St. Mary's Guild of St. Stephen's Episcopal church, will be held at Peterson's Flower shop, Saturday, beginning at 10 o'clock. Mrs. H. E. Erickson, telephone 1389-J, is chairman.

### Lutheran Group Meeting Tonight

A meeting of the Lutheran Brotherhood of the Norwegian Danish Lutheran church will be held this evening at 7:30 o'clock in the church parlors. The program will include a talk by Thor Nilsen and vocal and instrumental music by a group of children. Hosts for the evening are Gust Johnson and William Goodell. A cordial invitation is extended to all men of the church and their friends.

### MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will love you to pieces. BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls who are full of pep.

So in case you need a good general system tonic, remember for 3 generations one woman has sold another how to get "smiling" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders.

You'll find Pinkham's Compound WELL WORTH TRYING!

## "HUSKIER SOAP CHIPS GET CLOTHES WHITER!"

POPPYCOCK! ALL SOAP CHIPS ARE THE SAME TO ME

I'LL PROVE FELS-NAPTHA SOAP CHIPS ARE DIFFERENT. THEY'RE HUSKIER. THAT'S WHY THEY WASH QUICKER AND BETTER

"FEEL THE DIFFERENCE"

"SMELL THE DIFFERENCE"

"SEE WHAT A DIFFERENCE IN MY CLOTHES"

"Look at the biggest thrill of all—my clothes! The whitest and brightest you ever saw! No little-tale gray to be ashamed of! What's more, Fels-Naptha Soap Chips are so mild, they're a pal to daintiest things. So ask your grocer for Fels-Naptha Soap Chips and discover for yourself how these huskier flakes can lighten your work!"

"Take a sniff and notice—no sneezy dust in Fels-Naptha Soap Chips. Just a keen, fresh naphtha smell. That's because you get, usually, these huskier flakes in addition to richer, dirt-losing naphtha in every full-bodied flake. Natural soap in every full-bodied flake. Naturally, these huskier chips may take a second longer to dissolve. But, believe me, they speed the job, get out all the dirt faster. And..."

"Sure you're skeptical. So was I! But rub some Fels-Naptha Soap Chips between your fingers and you'll know why these new-type flakes are bound to bring you the easiest, grandest washes of your life. They're not puffed up with air like flimsy chips, beads, or powders. They're huskier—specially made that way to do better work. But don't stop there..."

**Season's Worst Storm  
Is Main Topic of  
Conversation**

Mounds of snow on driveways, walks and along roads were reminders yesterday of the season's worst blizzard which struck Schoolcraft county Tuesday and Wednesday, but a bright sun brought renewed cheer to local residents.

The main topic of conversation wherever folks met yesterday was—as usual—the weather, but this time they had something to talk about. This week's storm was the most severe of the winter, and brought hardship to many persons, particularly to numerous motorists trapped for hours along snow-blocked highways.

Snow plows broke open a trail along US-2, between Cooks and Thompson, about seven o'clock Wednesday evening, releasing a string of cars containing passengers who were marooned without food or water for as much as 20 hours.

A similar experience was encountered by passengers in cars trapped by drifts east of Manistique. Highway crews released the inland bus, stalled near Marblehead, late Wednesday night.

All main roads in Schoolcraft county were opened yesterday, but traffic to Sault Ste. Marie and St. Ignace remained blocked because of drifts near Engadine and Cut River. State highway crews planned to open M-94 to Shingleton Thursday afternoon.

A fire truck from the Manistique fire department which answered a fire call near Cooks on Tuesday was still trapped by drifts in Inwood township Thursday noon, but its driver, Ray McCarney, marooned in a farmhouse a day and a half, was returned to Manistique by county road commission employees.

The blizzard was as unexpected as it was severe. Sunday's weather was the most delightful of the winter. A warm sun caused a brisk thaw and much of the winter's supply of snow was melted, bringing indications of an early spring.

The storm started Tuesday with a heavy snowfall, but conditions did not become serious until Tuesday night when a howling wind added to the misery of the storm. The blizzard continued all night and through most of the day Wednesday.

Hundreds of automobiles remained in their garage stalls yesterday, their driveways blocked by snowdrifts several feet high.

**FARM HOME IS  
RAZED BY FIRE**

**Frank Wilford Residence  
In Inwood Township  
Destroyed**

The farm home of Frank Wilford, two and a quarter miles south of the Cooks Consolidated school, was destroyed by fire during Tuesday's storm, but full details of the fire were not available until late Wednesday night, when roads were opened to Cooks.

The blaze started upstairs in the house Tuesday afternoon, apparently from a defective chimney. Some of the furniture and contents of the home were saved, but the building was destroyed. Fire fighters, however, were able to prevent the flames from burning adjoining buildings.

Mr. and Mrs. Wilford, the only occupants of the home, moved to the home of a neighbor, William Strassler.

The Manistique fire department was called, and a fire truck and fireman, Ray McCarney, responded and aided in battling the flames.

After the fire, however, the fire truck and driver were marooned by snowdrifts which blocked the county road. McCarney remained at the Strassler farmhouse until late Wednesday when the road was opened, and he returned to Manistique with the road truck. The fire truck, however, was deeply buried in the snow, and it was planned to plow and shovel the fire truck out Thursday.

Mrs. Edgar Downs, of Belmont, Mass., will return to her home today following a 2 months stay at the home of her daughter and son-in-law, Mr. and Mrs. Howard Graft.

Mrs. Ell Volsine and Miss Bertha Mary Sheehan visited at the Wm. Peterson home, Gladstone, the earlier part of this week.

**Classes Resumed In  
Manistique Schools**

School classes were resumed in Manistique yesterday following a one-day shut-down because of the storm. Attendance was considered good, with about 80 per cent of the grade students from the third to the sixth grades, inclusive, present. About 70 per cent of the students in the first and second grades reported yesterday morning.

Attendance in the kindergarten classes, of course, was low. High school attendance was low because none of the township buses came in, but of local high school students enrolled, about 80 per cent were registered yesterday.

Low Resistance Often Results In Pneumonia Attack

A review of the symptoms, causes and treatment of pneumonia is suggested by the high incidence to the disease to be expected during the winter season.

While some individuals seem more susceptible than others, it seems probable that lowered general resistance paves the way for an attack.

Prevention may be practiced to a degree, even though no vaccine is yet available. Good food, adequate sleep, moderate exercise and warm clothing are requisite.

Conditions were gradually returning to normal here yesterday after the severe blizzard which swept this section of the Upper Peninsula.

Classes at local schools were resumed but attendance was considerably off, about 100 being absent from high school while about one-third of the grade students were not present.

An appeal was made to local residents to clean their walks if they desire mail delivery.

# Dynamite Henry Armstrong Whips Lew Feldman

## HOLD RETAINED ON TWO TITLES

### Brooklyn's Challenger Lasts Less Than 3 Minutes

St. Louis, March 16 (AP)—Dynamite Henry Armstrong, his lightweight and welterweight crowns at stake, kept both his reputation intact by blasting Brooklyn Lew Feldman in two minutes and 13 seconds of the first round of their title fight here tonight.

The negro whirlwind took less than a minute to size Feldman up, knocked him down for a 9-count in less than two minutes, and a few seconds later dumped him on the canvas for the full count with powerhouse rights and lefts.

Feldman was cautious, trying to carry out his threat to box Henry for the full 15 scheduled rounds. But he took a lot of punishment in two minutes.

Crowd Pays \$17,818

Armstrong weighed in at 135 pounds, Feldman at 134, thus qualifying within lightweight limits and putting both Armstrong's titles on the block.

It was Feldman's second defeat at the hands of the St. Louis-born negro. In his first, almost exactly a year ago on March 31, Feldman lasted nearly five rounds.

The double-title bout brought out 9,816 customers who paid \$17,818 for the privilege of seeing the brief battle.

With the knockout a year ago in mind, Feldman's manager, Eddie Walker, had said the Brooklyn veteran would be "foolish" to trade punches with Armstrong, but he had little chance to do so, even if he had wanted.

Feldman, a "cute" fighter—that is, a fancy boxer—danced out at the bell to meet Armstrong, whose slight arms belie the power that lies in them.

The champion, moving almost stiff-legged, did not bother to wait.

### Smacked On Chin

Driving in, he shot sharp jabs to feel out his opponent and then, at the first opportunity, smashed a powerful right smack against the side of Feldman's chin. The Brooklyn fighter flew back on his haunches.

At the count of nine, Feldman managed to stand up, but that was the signal for a flurry of punches which he found himself helpless to defend. The fight ended with Feldman dazed and in a semi-sitting position against the ropes.

Armstrong, except for a few light taps which Feldman sent out in a sort of tentative way, was untouched. His slicked-down, curly, black hair was mussed slightly in a clinch, and that was just about all there was to show that he had been in a fight.

In the semi-windup, Archie Moore, 155-pound St. Louis negro decisioned Marty Simmons, 166, of Saginaw, Mich., over the 10-round route.

Everett (Young) Rightmire, Sioux City, Iowa, featherweight, easily defeated Leo Rodak of Chicago in a featherweight preliminary.

## Big Ten Lands Two On All American Cage Team; Many Outstanding Stars

### BY JERRY BRONDFIELD NEA Service Sports Writer

We give you, then, gentlemen, the All-America basketball team of 1939—the cream of the nation's collegiate cage talent and their supporting cast, based on recommendations by coaches and sports writers from every section of the country.

Although there's bound to be a dissenting vote here and there, a close perusal of the records indicates it would be pretty hard to name a team that would be any more worthy of All-America mention than the five seniors who make up the honor quintet.

Most difficult task was selecting the center for the mythical five. Any one of three or four candidates might have been placed in the pivot post without undue criticism but the job finally went to Lewis (Pick) Dehner of Illinois.

Dehner, a six-foot, four-inch husky from Lincoln, Ill., wound up second in the Big Ten scoring race with 151 points. He has sparked the Illinois for two years and reached the heights in this campaign.

### SPENT PLENTY OF TIME ON THE FLOOR

Smart and fast for his size, Dehner was master of the floor. He was excellent on rebound play and what marked him most was his aggressiveness. It was said of Dehner that he spent more time on the floor than any man in the Big Ten.

Nor was it clumsiness that put him there. It was sheer drive and fight.

Pressing closely was Dar Hutchins. The slender pivot man of Bradley Tech's Famous Five was the chief reason why the Peorians mopped up on such big-time opponents as Oregon, Pitt, Nebraska, C. C. N. Y., Duquesne and others.

Bob Callahan of Detroit, considered the greatest cager in Titan history, was a standout all year. Rarely was he outscored by his opponent.

### OREGON ACE WAS MASTER OF ONE-HAND SHOT

Paired with Torroff is Laddie Gale, six-foot, four-inch Oregon star. Gale, whose home town is Portland, probably is the best one-hand shooter in the country. Smooth as silk in action he is highly reminiscent of Hank Lutsett, former Stanford star, who had no equal at setting up his own shot. Gale averaged almost 13 points a game.

As it was, however, he barely nosed out Ohio State's brilliant Jimmy Hull, leading scorer in the Big Ten, who was the hardest man to stop in the Midwest.

Ralph Vaughn, Southern California sharpshooter, was another who just fell short of top honors. Vaughn holds the Pacific Coast League scoring title for a single game, as a result of his 36 points against U. C. L. A. early this season.

### Plenty of votes poured in for Baylor's Pete Cressay, and the same was true for lanky Chet Jaworsky, spearhead of Rhode Island's scoring mill which averaged 70 points a game.

### PREPARED TWO GUARDS WHO COULD SHOOT

No one could wait a better brace of guards than Jim Wilcoxson of Colorado and Ernie Andres of Indiana. Wilcoxson, six-foot three, home town Coffeyville, Kan., for two years has been a unanimous All-Rocky Mountain selection. This season he hit his peak. Not only does he control the backboard beautifully on rebounds but averaged 11 points a game—which is terrific for a guard.

Andres was the mainspring of Branch McCracken's otherwise all-sophomore aggregation which wound up second in the Big Ten. From Jeffersonville, this 200-pound six-footer was the stand-out back-courtman of his league. He was a great ball handler, a good feeder, and remarkable scorer himself, with an average just a little under 10 a game.

### Lew's Of Munising Nip Hospital, 51-39

The score by periods:  
Lew's..... 21 12 8 10—51  
Newberry..... 8 4 15 12—39

### Michigan Picks 22 For Butler Relays

Ann Arbor, Mich., March 16 (AP)—Twenty-two members of Michigan's Big Ten championship track team have been named to compete in the Butler relays at Indianapolis Saturday.

Michigan will defend the team title won for the past five years and will have defending champions in its two-mile relay team and with Capt. Bill Watson in the shot put.

### Wayne Sends Track Squad Into Canada

Detroit, March 16 (AP)—A squad of 22 Wayne university trackmen will compete in the Canadian indoor championships at Hamilton, Ont., Saturday. Coach David L. Holmes announced today.

### HITLER WIPES CZECH NATION OFF THE MAP

(Continued from Page One)

Ukrainian Premier Augustin Volosin to annex the former Czechoslovak territory as a protectorate. Volosin, who fled to Rumania, apparently had not received word of Hungary's formal proclamation annexing the territory.

On the other side of the world ominous signs were seen in reports of heavy Japanese troop concentrations on Sakhalin Island and in Manchoukuo, Japan's protectorate bordering Soviet Russia.

The reports caused apprehension because of their coincidence with a bitter dispute between Japan and Russia over Japanese fishing rights.

### MAY RECALL ENVOY

London, March 15 (AP)—Recall of Britain's ambassador to Germany for a report on Chancellor Hitler's latest eastward advance was under study tonight by the British government.

Prime Minister Chamberlain himself made announcement to this effect in the house of commons, where he faced fresh criticism of his policy toward central Europe and reiterated his determination not to intervene in the break-up of Czechoslovakia.

"I do not think any useful purpose would be served by intervention on the part of His Majesty's government," he replied when asked what he proposed to do about Carpatho-Ukraine, annexed today by Hungary.

Foreign Secretary Viscount Halifax held a long conference with his predecessor, Anthony Eden, reviving reports that Eden, moved by events in central Europe, might resign the cabinet which he quit 13 months ago in disagreement with Chamberlain's policy.

The prime minister's disclosure that he might summon home Ambassador Sir Neville Henderson came in response to a Laborite request that Britain withdraw her diplomatic representative from Berlin.

Chamberlain declined to reply when asked further whether he planned to protest to Germany against "the invasion of Czechoslovakia."

Some consolation was offered to an otherwise gloomy session by the statement of Geoffrey Shakespeare, the admiralty's parliamentary secretary, that the British fleet was invincible against "any probable combination of foes" and that air attack alone "cannot terrify a nation into submission."

The statement was made in presenting naval estimates of £153,666,681 (\$763,333,405) for the 1939-40 fiscal year compared with £123,707,000 (\$618,535,000) in the previous year.

Discussing Eden's talks with Halifax, high sources said the present foreign secretary was led by events of the past 48 hours to swing toward Eden's view that a firm stand must be taken against dictators.

His loyalty to Chamberlain made it virtually certain, these sources said, however, that Halifax would not resign and embarrass the prime minister.

## Bigger State Cut On Horse Betting Sought By Senator

Lansing, March 16 (AP)—Michigan would receive a larger "cut" of the profits of pari-mutual betting on horse races under a bill introduced in the senate today by Senator Herman Gignac, Republican, Owosso.

A racing license would be permitted to retain as much as 10 percent of the total daily wagers as the track's commission, but would be required to turn over to the state as a tax 15 percent of the first \$10,000 of his daily commission, 20 percent of the next \$5,000, 25 percent of the next \$5,000 and 33 1-3 percent of all over \$20,000. The state would claim a minimum daily tax of \$2,500 a day, which is the license fee now imposed on mile tracks in the Detroit area.

## STATE LABOR BILL PASSES HOUSE, 58-37

(Continued from Page One)

hearing of the suit unless the court so instructed.

The Republicans ran the bill straight through, surrounding it in committee of the whole in the afternoon with a protective ruling that put a damper on debate, and suspending the rules to bring it to an immediate vote tonight.

They operated under a "call of the house" under which members were forbidden to leave the floor under pain of arrest.

### Features Criticized

Eleven Republicans joined the 26 Democrats present in opposing the measure. The Republicans who opposed it were: Kepp, Braun, Cummins, Eaton, Gilbert, Harris, Kircher, Myles, Neller, Nichols, Stanley and Welsh.

Most of the Republican opponents of the measure said they voted "nay" because they criticized features of the measure, rather than the spirit of it. Eaton inserted an explanation in the record, saying he had "not one word of criticism for the high purposes" behind the bill but that he voted against it because "I do not believe it will serve in any way to create peaceful and friendly relations in our industrial life and because it establishes another elaborate and expensive governmental agency for the taxpayers to support."

The Democrats, stripped of the right to argue, adopted question and answer tactics to develop in committee of the whole the fact that the bill did not outlaw company unions, and to get other objections before the Republicans.

### No Curb On UAW

Rep. Joseph C. Murphy, Detroit, Democratic floor leader, insisted on his right as a member of the labor committee to answer questions about the company union provisions and declared "I want to say that this bill was specifically drafted to permit company unions."

Rep. Audley Rawson of Cass City generally recognized as the Republican floor leader, halted a Democratic attack on the measure with a motion dissolving the committee of the whole and another that brought the measure up for an immediate vote.

### In Camp With Big Leaguers

Clearwater (AP)—Dan Mungo and Wayne Lamaster, two of the Brooklyn Dodgers' all-time pitchers, went to the Detroit Tigers' camp at Lake-Aud and Thursday and had their pitching arms treated by Denny Carroll, Detroit's trainer. Mungo was instructed not to throw for a few days. Larry MacPhail, the Dodgers' executive vice president, and Manager Leo Durocher visited St. Petersburg again to confer with officials of the St. Louis Cardinals.

Orlando (AP)—More pitching gloom hung over the Washington Senators' training camp Thursday because Ken Chase and Joe Krakauskas failed to shine in their first hurling appearances. They beat the Yankees but the rookies knocked them about. Morris Adorheit hit a home run off Krakauskas, and Al Evans cleared the bases with a triple off Chase.

### Power Boating Fans Gather In Detroit

Detroit, March 16 (AP)—The third annual Great Lakes power boating conference will begin here Saturday with marine authorities leading discussions of all phases of boating. Commander J. A. Summerlee, of the Detroit power squadron, said tonight that he expected approximately 500 power boat enthusiasts from the Great Lakes and east coast areas to attend.

## BOUT HELD UP BY EYE TESTS

### John Henry Lewis Set to Box Detroit Boy On March 31

Detroit, March 16 (AP)—The status of the title fight here March 31 between John Henry Lewis, of Pittsburgh, claimant of the light-heavyweight champion, and Dave Clark, lanky Detroit negro, was still in doubt tonight pending an examination tomorrow of Lewis by an eye specialist.

Acting on orders of John J. Hettebe, chairman of the state athletic board of control, Dr. Daniel R. Donovan and Dr. C. L. Tomase today examined both men to determine their fitness. At the conclusion of the examination, Hettebe said his decision as to whether the bout would go on until after Lewis had appeared before Dr. J. Milton Robb, an eye specialist. Apparently believing the examination over, Lewis attended a movie this afternoon.

Lewis reported that he felt in excellent condition for defense of his title and needed to take off only nine pounds to get under the light-heavyweight division limit. He came here from Hot Springs, Ark., where he did preliminary training.

Hettebe insisted that both men undergo thorough examinations before sanctioning the championship fight. Lewis' last start was against heavyweight champion Joe Louis, Clark's stablemate. Louis won by a first round knockout.

**REDLEGS OPEN AGAINST TIGES**  
Dizzy Trout and Benton to Oppose Derringer At Tampa, Fla.

Lakeland, Fla., March 16 (AP)—Actual combat against an enemy starts tomorrow for the Detroit Tigers, the club opening its part of the "grapefruit league" season against the Cincinnati Reds at Tampa, Fla.

Alton Benton, strong-armed right hander who showed a world of promise in winning five and losing three last season, and Paul (Dizzy) Trout, the once noisy flinger from Beaumont, have been nominated by Manager Del Baker to do the pitching for the Tigers. Paul Derringer, veteran of the National League wars, is scheduled to hurl for the Redlegs.

The game is the first of eight between Detroit and Cincinnati, the series being scheduled to end at Cincinnati Sunday, April 16. Starting tomorrow Detroit will be playing almost continuously until camp breaks up on April 6. After that date, the Tigers start the long trip north, playing games along the way.

### Veteran Observers Have Gone So Far as to Call the Present Detroit Club the Best Conditioned Tiger Team in Recent Years.

The usual sore arms and legs have been almost entirely absent and Frank Higgins and George Coffman, the only players not ready to go, are out because of having suffered unavoidable accidents. Higgins, veteran third sacker obtained from the Boston Red Sox, has a spike wound while Coffman has a leg injury suffered when he was struck by a batted ball. Both men are expected to be able to play within a few days.

In addition to Trout, Detroit's opening lineup lists four young men who were not Bengal regulars when the 1938 American League season closed. Frank Croucher, promising recruit, will be at shortstop, replacing the veteran Billy Rogell who will fill third base in the absence of Higgins. Detroit's outfield will consist of Roy Cullenbine, Chester Laabs and Leslie Fleming. Cullenbine and Laabs were Detroit regulars early in 1938 but were sent back to the minors. Fleming, a first baseman who is trying to win an outfield job, has batted .412 in Detroit's intra-squad games.

BY FREDERICK GARDNER

New York, March 16 (AP)—Wall Street pessimism engendered by the march of Hitler's troops through what was Czechoslovakia lightened late today in the face of a determined stand by aviation, motor and rail stocks.

As the market closed, gains were being recorded in leading securities of these three divisions and the downward curve in other stocks was leveling off.

Traders, fearful of what Germany's eastward troop movement might mean, dealt cannily in small blocks and were obviously sensitive to the bourses overseas.

The late-day buoyancy in Paris and London were regarded as cheerful signs.

They also were watching Washington, waiting to see what Congress might do with suggestions of revising business taxes.

Rising aircraft included Boeing, Douglas, United Aircraft and Sperry. General Motors, Packard and Chrysler closed above yesterday's final quotations.

Among the advancing rails were Santa Fe, New York Central, Pennsylvania and Southern Railway.

Coppers, too, showed signs of improving, with advances recorded for Anaconda, Kennecott, and Phelps Dodge.

The downward movement of utilities jarred to a halt as American Telephone held firm, then changed its course upward.

Columbia Gas followed suit and most of the rest of the list ended the day unchanged from yesterday.

American Water Works was one of the few left in the minus column.

The Associated Press average of 60 stocks was unchanged at 51.4. Transfers totalled 669,520 shares against 1,113,100 Wednesday.

The market for bonds followed the stock pattern closely, with prices uneven at the close in contrast to the previous two days' minus signs.

Czechoslovak issues, of course, received another beating, falling as much as 28 points on sales of a few bonds.

In an uneven curb market gains running up to a point were posted by Lockheed, Aviation & Transport and Creole Petroleum. Shanding downward were American Cyanamid "B" and United Light & Power "A."

Turnover of 131,000 shares compared with 202,000 Wednesday.

The Chicago Board of Trade was active. Wheat and corn prices at the end of the day were 1/2 to 7/8 cent a bushel lower.

CHICAGO GRAIN

Chicago, March 16 (AP)—Increased selling in Chicago grain pits today pushed the price of May corn down to 46 1/4, lowest in five years, while May wheat fell to 84 1/4, lowest since December and 1/2 cent above its six-year bottom quotation established last September.

Although quotations on both grains were a bit more than a dollar apart, wheat while July fell 1/4 cent to a new low for the past several years, there was enough buying just before the close to erase some of the day's loss.

Liquidation based on bearish factors affecting the leading grains uncovered softness in wheat prices. Lower Liverpool prices, reduced freight rates on Argentine grain shipments to Europe and favorable crop conditions from the winter wheat belt were factors in the trade.
