Went Ashore.

The Schooner Mary Collins, went ashore at Little Harbor last Saturday night about midnight. The wind was blowing a gale and a fog made it well night impossible for the captain to keep on his course. The compass was at fault too. The tug Elmer went to her assistance but was unable to move her as she was out two feet. The wrecking tug Monarch of Escanaba succeeded in releasing her. The schooner was enroute to Manistique for lumber at the time the accident occurred.
