

PHONE SYSTEM TO BE CHANGED

Rapid River Residents Will Receive Dial Service

Rapid River, Mich.—Dial telephone service will be provided Rapid River residents this fall. O. Sundquist of Escanaba, manager for the Michigan Bell Telephone company for this area, yesterday announced that the change to the dial system will involve an expenditure approximating \$5,000 in addition to a building which the company plans to construct to house the apparatus. The new building will be erected at the rear of the present central office on State street property that is owned by the company. The present central office quarters are leased from Mrs. Hortense Rabideau. Installation of the new equipment by the Western Electric company, manufacturing and supply division of the Bell System, is expected to get under way early in the fall and to be completed a few weeks thereafter. Customers of the Michigan Bell company will be advised by letter that company representatives will call at their homes and offices to install the new dial telephones. After the new service has been placed in operation, the old telephones will be removed. Customers of the company will be instructed in the use of the new dial service as the telephones are installed. The numbers of all of the 50 telephones in use at Rapid River will be changed when the dial system is placed in operation, making necessary issuance of a new directory. "Installation of dial service here, such as that in use in many large communities, is in line with the company's extensive program for improving its rural and small community telephone plant and service throughout the state," Mr. Sundquist said.

County Committee Has Get-Together In Bark River Hall

The second annual county committee's ball was held at the Bark River community building on Wednesday evening with about 125 participants in the federal farm program from Delta and neighboring counties in attendance. The affair was under the sponsorship of members of the Delta county committee in charge of the farm program. Preceding the ball members of the county committees of Delta, Dickinson, Schoolcraft and Menominee counties held a dinner meeting at the Delta hotel to meet Roy Edill, Lansing, state performance supervisor, with about 25 men and women in attendance. John Gasman, of the Delta county committee served as chairman. Speaking briefly on the topic, "Why do we need a farm program?" Edill reviewed the agricultural history of the nation. "From the time of the first white man's settlement," he said, "there has been a movement westward from 'worn out' land in the east toward west, until today we have reached a point where there are no more new lands to move to." "Isn't it time to start conserving what we now have?" he asked. Among the main points of the farm program he touched upon were conserving the soil, increase of fertility and holding of fertility until it is needed. He said that the program was not one of scarcity but aimed to produce all the nation can consume and to take care of the full export market available while at the same time providing a sufficient surplus to take care of such conditions as drought which may affect crops and make for poor yields. The government interest in the program he said is a result of farmer demand as expressed through congress. It is not new he said and mentioned among the

fore-runners of the present program such organizations as the Farmer's Institute, the Gleaners, the Grango and the Farm Bureau. The experience of the old Farm Board showed that control of production was necessary to any program with the result that the agricultural adjustment act and the soil conservation act were brought into being. While the wheat and corn programs do not directly affect farmers in this region, he said that indirectly they serve to protect the farmers in this area by keeping those who do raise the grains from entering fields that would bring them into competition with the dairy and other farmers here. E. A. Wenner and Art Lonsdorf, county agricultural agents, of Delta and Dickinson counties also spoke briefly.

Referendum Vote Sought On Public Carrier Regulation

Fred B. Stone, supervisor of claims of the City of Detroit department of street railways was in Escanaba yesterday distributing petitions to obtain a referendum vote on the regulation of publicly owned carriers. September 23 will be the deadline for the filing of the petitions with the secretary of state, and it is necessary to secure a total of 93,000 signatures in order that a referendum vote may be taken in 1940. The act objected to is listed as Act No. 361 of the Public Acts of 1939 of Michigan. Section three

of this act provides that no person, firm, association or private or municipal corporation or any agency or instrumentality thereof shall operate as a common or contract motor carrier for hire without first obtaining from the commission a certificate or permit under the provisions of this act authorizing such operation, regardless of the provisions of any other statute. Regarding the act, Stone said, "The amendment adding to the existing law was lobbied through the legislature by private transportation interests aimed directly at publicly owned utilities by placing all transportation of this character under state control. The privately owned utilities charge much higher fares and pay much lower wages than the

Circus Performers To Practice Today

All those expecting to perform in the third annual circus to be held Thursday, Aug. 19th are asked to report at Ludington Park playground this morning for practice. More older boys are needed for

clowns. Any interested are asked to report to Mrs. Bernice Anderson. WPA playground director who is directing the circus for the third consecutive year. Boys interested in performing in an acrobatic display are asked to report at the North Escanaba playground this morning at 10:00

for work with Bevier Butts, city recreation director who will train a group for the circus. Mr. Butts has made a specialty of spectacular programs with relatively inexperienced boys and invites all real ho-men boys to come and try out, even though they have never as much as turned a somersault.

CITY WILL CONTRIBUTE

Iron Mountain, Mich.—Iron Mountain will do its share towards the support and maintenance of the Dickinson county WPA band, and perhaps a little more." It was pledged by Mayor Joseph Giacobini and members of the city council last night. Alderman Trethewey, of the fifth ward, chairman of a council committee named to attend a recent conference of county and WPA officials on the future of the band, reported that a cash contribution of \$500 would be required, payable over the period of a year. In addition to about \$7,000 in rent, light, heat, etc., as the county's share of the project.

WHO KNOWS A GOOD WHISKEY THAT'S ALWAYS THE SAME? I DO! AND WHAT'S MORE I WILL GIVE YOU ITS NAME! IT'S G&W. Taste good? You bet! Made by unique flavor-control method. G&W is good...and always good! G&W is so mild it's actually easy on your breath. You can tell the difference in lots of ways! Here's smooth authority for you...a real flavor-thrill in G&W Five Star blended whiskey.

PRICE 95¢ PINT No. 469. Gooderham & Worts, Ltd., Detroit, Michigan. Established 1832. 77% grain neutral spirits 90 proof. BETTER TO BEGIN WITH! AND BETTER IN YOUR GLASS. THE Milder BLEND WITH THAT \$13,000,000 FLAVOR.

Communication

OLD STREETS RECALLED Many, many years ago when Escanaba was a small village the streets were very soft sand, so much so that it was very difficult to draw a common tired wagon through the streets with any load. John Stonehouse and Martin Dunn each bought two wheeled, six inch tired, one horse drays which did quite well. The Escanaba village board in order to remedy matters secured from some mill, chips, bark and sawdust to put on the street, which helped matters considerably. Some wag wrote a verse and it was published in the Iron Port, our weekly paper (Tom Simons editor).

Woodsman spare that tree; Or the Escanaba village board Touch not a single bough; Will get the chips some how. That was about 1875. J. T. Appleton Seattle, Wash. 4-21-39

Polar explorers are able to obtain fresh water by melting ice that has been formed of salty sea water. This has been an important factor in saving lives of numerous explorers stranded on ice floes.

"KruGon Was A Wise Decision"

Declared Mr. Monroe; Could Hardly Stand the Awful Gas Pains, Bloating; Now Feeling Best In Twenty Years. "KruGon has meant so much to me," said Mr. W. E. Monroe, 1014 4th Ave., Hibbing, Minnesota. "Constipation had allowed those clogged impurities to have their effect in general. My meals

MR. W. E. MONROE were becoming something to fear rather than enjoy for I could see nothing ahead of me but continued suffering with poor digestion. In spite of my caution, gas pains and severe bloating followed each meal until I could hardly stand it at times. I spent many restless nights unable to sleep as I should and was continually growing worse instead of better in spite of what I tried. But that was before I was aware of KruGon...it has done so much for me. "This laxative- tonic formula proved to be just what I had been wanting for so long," continued Mr. Monroe. "Those intestinal accumulations were easily eliminated and I soon showed rapid improvement in many different ways. I am able to enjoy my meals without any distress afterwards. All that gas and bloating of years past has left me. I sleep good and cannot help but publicly praise this KruGon since it has enabled me to truthfully say I am feeling the best I have in twenty years." KruGon is sold by West End Drug Store, 1232 Ludington St., this city.

The addition of the new stations will not be an increase in tax load or cost to citizens.

Survey Shows Drivers Like License Testing

Some of you men may say the fact is a result of long years of "back seat" driving, but no matter what the reason, Mrs. Moring Escanaba seems to be coming into her own, even with the new system of testing drivers orally... The written test, which consists of twenty questions taken from the rules in the booklet, "What Every Driver Must Know," which is published through the department of state, must be passed with no more than five of the points missed before the license can be granted.

Hospital

Miss Bernadette Buckley of 2016 Laurel avenue, St. Paul, was admitted to St. Francis hospital for an operation for relief from appendicitis. Albert Grau, 905 South 19th street, and Gordon and Reynold Vanlerbergh, 630 South 16th street, had operations for removal of tonsils.
