

SAWYER IN REVIEW, Part II

“Eight-and-a half years ago the federal government made the decision to close K.I.Sawyer Air Force Base. The decision meant the loss of more than 4,500 jobs and a military payroll of over \$100 million per year. The anticipated impact to the area and economy was almost beyond comprehension. However, many individuals and agencies did not give up on Sawyer. Rather, they saw the prospect of developing a community and creating new, diverse economic opportunities.It has taken a tremendous financial and personal investment of dedication and hard work, but we are building a community to be proud of, one that will continue to benefit the entire Marquette County area.”

“The Sawyer News”
Sawyer in Review, January 2002

January, 2002 through May, 2005

Sawyer Review, Part II will update the reader on progress through the last three and a half years, as K.I.Sawyer has continued to grow to a thriving community. Some have never given up on this opportunity; some have newly recognized the value of this endeavor; and others are able to see the Sawyer Community in a new, positive light.

Sawyer’s redevelopment has been an interesting and exciting venture, and even after ten years, we have just begun to tap the true potential of this area. Stay with us as the community, jobs and businesses continue to grow.

1993 - 2001

“Even if you are on the right track, you’ll get run over if you just sit there.”

Will Rogers

2002

JANUARY
