Neshkoro, WI 54960

Re: Progress Report No. 13
Au Train Hydroelectric Project (P-10856)

Dear Mr. Kreuzscher:

We have completed our review of August 2, 2016 Progress Report (#13) for your proposed improvements to the spillway and south embankment at your Au Train Hydroelectric Project (P-10856). The monthly report reflects that some progress has been made on the designing of improvements to reduce the risk associated with your project. You are reminded that the final design of the proposed improvements is to be submitted by **October 28, 2016**. Your next monthly report should include a detailed summary of the purchase of the railroad property and specific proposed submittal date of the HEC-RAS analysis and soil boring information. I suggest we schedule a teleconference to review the work progress and direction of your proposed improvements.

Please contact me at (312) 596-4430 or Mr. Peter Chapman, P.E. at (312) 596-4446 if you have any questions.

Sincerely,

John A. Zygaj, P.E.
Regional Engineer
