Ms. Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street NE
Washington, DC 20426

Dear Secretary Bose:

Bond Falls, Prickett, and Escanaba River Hydroelectric Projects
Annual Report of Deviations Less Than Sixty Minutes

According to the Orders dated August 12, 2011, August 16, 2011, and August 18, 2011; for the Prickett, Escanaba, and Bond Falls Hydroelectric Projects respectively; Upper Peninsula Power Company (UPPCO) is submitting a report containing all deviations, occurred after the Federal Energy Regulatory Commission (FERC) Order date, of less than 60 minutes that do not result in the observation or reporting of any negative environmental effects. UPPCO is to provide the annual report to the Commission by February 28 of each year.

The report, to the extent possible, identifies the cause, severity, and duration of the incidents, and any observed or reported adverse environmental impacts resulting from the incidents.

The report also includes: 1) operational data necessary to determine compliance with the operating range requirement; 2) a description of any corrective measures implemented at the time of the occurrences and the measures implemented or proposed to ensure that similar incidents do not recur; and 3) comments or correspondence, if any, received from the resource agencies or other interested parties regarding the incidents.

A summary for each deviation and the required information for each have been enclosed. All deviations included in this report did not result in the observation or reporting of any negative environmental effects.

UPPCO also consulted with the resource agencies on the annual report. UPPCO received no comments back from the agencies and documentation of the consultation is included in Appendix 1.

Ms. Kimberly Bose
