NEGAUNEE, MICHIGAN FRIDAY, FEBRUARY 18, 1955

NUMBER 18

Donations To Dimes Drive Total \$3,016

Despite the curtailed work week and a large number of layoffs in the mining industry during the past eight months in this area, Neegaunee contributions to the 1955 March of Dimes are amounted to \$3,016.14, a total topped only by the record donation in 1954, Thomas J. D'Arcy City Chairman, announced on Thursday.

With income of local families reduced to a considerable extent, drive officials had anticipated contributions this year would be down approximately 25 per cent from the record high of \$4,068.79 for the Neegaunee area a year ago.

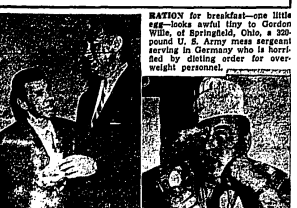

The decline amounts to a shade over the estimated decrease, but campaign officials are still well pleased with results in view of present economic conditions. Main impetus to the drive came from the Mothers' March, which netted \$1,292.62, or \$584 less than the total of \$2,443 donated in the 1954 drive, which includes Richmond and Neegaunee townships last year.

School students, who always set a splendid example for adults to follow, responded as in previous years to the appeal for funds to fight polio, contributing \$467.55. Amounts donated at the four educational institutions were as follows: Leavitt 575; St. Paul, 527.55; Notre Dame, \$111.00; and Central Grade, \$192.20.

In addition, collections at Neegaunee and St. Paul High basketball games resulted in additional donations of \$142.20 and \$31.69. A third special event, "Coffee Day" staged with cooperation of the Main Drive, Insurance and A & P store, realized \$46.62.

Cashier collections and the special gift section of the campaign were both down slightly. Continued On Page Five

Board Members Approve Eight Resolutions at Meeting Monday

Members of the Neegaunee Board of Education approved a resolution, turned down and failed to take action on three others at their regular February meeting Monday evening.

Resolutions brought to the attention of the board were those presented at the recent session of the Michigan Association of School Boards at which conference it was decided to refer proposals to local school boards for action by March 1.

Neegaunee board members approved the following resolutions: 1. Resolved, That an up-to-date study of Michigan school building needs be made and that a three money budget for construction of thousands of additional classrooms required that the plan for making money available to the several states presented in the outstanding U. S. News and World Report is warranted under the caption, "Painless Way to Build Schools" in the Dec. 31 1954, issue.

Legislature consider steps to be taken to form a larger unit of school districts by Sept. 1, 1956, which have been classed three or more.

2. Resolved, Either to reward school districts which reorganize to form a larger unit of school administration, or with hold certain state aids from those which do not reorganize into more efficient units.

3. Resolved, That we encourage, (a) the preparation of an assessing manual for the use of local assessors; and (b) the setting up of regional training schools for assessors and (c) providing more assistance to boards of supervisors in improvement of equalization on the county level.

4. Resolved, That we seek to increase the number of state tax assessment commissions so that (a) more counties be assessed each year, and (b) more assistance can be given to local assessing officers.

5. Whereas, Obviously the need for uniformity in school district purposes as the second held, and

Supreme Court Ruling May Bring Increase In 1955 Tax Payments

Neegaunee property owners, along with others in Marquette County may make higher tax payments in 1955, as a result of a recent state Supreme Court ruling that state equalized valuations are the proper basis for tax levies.

Definite instructions to local units of government have not been received, but it is probable that valuations set by the state as far as they apply to Neegaunee, which would mean the appraisal of mining properties, will be available well in advance of the local board of review sessions, which begin here the second week in March.

Decision of the supreme court, results from a petition brought by the hard-pressed Pittsfield township board of education, which requested that school district taxes, and presumably county and township, be levied on the state equalized value for the current year. Marquette County is affected by the ruling because it contains a fractional school district at Maple Ridge, near Neegaunee.

Neegaunee officials also add to the fact that its mine valuations are set by the state tax commission. Robert Darboch, county controller, when queried about the matter Wednesday by The Herald, stated that developments in the matter are not clear. It is impossible to state at this time whether the law now being worked on by the county, according to the controller, the county will be kept advised on anything which may affect local units.

In the opinion of the controller, the township areas will be more directly affected than the municipalities, for he pointed out that cities are under home rule, and, as a result, have ample authority to make tax payments under their charters.

Last reassessment of the Marquette county mine was made in 1949 by the state tax commission and the valuations arrived at the time of the sale for the county equalized values. However, because of the law now in effect in the interim period valuations of particular areas in the county made have either been increased or decreased by local assessment officials.

It is possible to assume the state equalized values have exceeded by 35 per cent the most recent county valuations.

In the township, Mr. Darboch stated the supreme court ruling will enable governmental units to increase the tax rate on the court held you are not violating the 15 mill limitation until your county mills the state equalized valuations. Since the state valuations are 35 per cent in excess of the local valuations, the county can increase their 15 mill levy by 13.7 per cent to meet the state valuations and still not violate the limitation.

Under home rule, he pointed out, may levy six to 50 mills, according to law. As a result of the court ruling, valuations were increased by the court ruling, the council, acting as a method and invariate action, would increase the tax rate to make up for payments below the lower valuations. Under the present rate, levies under the 50 mill maximum.

Reveal Plans For Opening Bunker Hill, Maas Mines

Announcement was made this week by the Cleveland Cliffs Iron Company that the company is under way for consolidation of the Maas and Bunker Hill mines as soon as necessary arrangements can be completed over from the two mines will be benefits through the shaft at the Bunker Hill, which new haulage program will both the Athens and Bunker Hill are bodies.

With advent of increasing production of high grade pellets, iron ore from foreign sources, underground mining is becoming more and more complex. This result that increased output of each shaft will assist in placing these mines on a more profitable basis, the company announced.

According to plans now being made the Maas shaft and surface plant will continue on a development and reduced production basis while work of consolidation is underway. This function is expected to continue until early in 1956, when it is anticipated normal operations may be resumed.

Policies Will Be Reviewed By Committee

Sup. E. W. Barn presented the concluding chapter of proposed Board of Education policies to members of the Neegaunee School Board at their February meeting Monday night.

Periodically since last September the superintendent has been presenting policies in various educational areas for the board to consider following a listing of board members last summer to compile and re-write regulations in preparation for printing of a policy handbook, which will be available for distribution to employees and the public.

Among the areas covered in the presentation Monday night was the cure of bullfins and grounds, including an outline of the duties of custodian, miscellaneous considerations, ratings in govern requests for various types of building, including school property, executive board meetings, secret societies, district procedure, conditions pertaining to outside employment by school employees, and health care and tuition.

It was suggested in the closing of the presentation that the superintendent should provide the superintendent advice the relevant in working out a method and invariate action, would increase the tax rate to make up for payments below the lower valuations. Under the present rate, levies under the 50 mill maximum.

From where I sit... by Joe Marsh

Swiftly Gets Slow Down

Swiftly Fisher has a short temper and really hit the roof when he got a parking ticket last week. He wasn't near a hydrant or too far from the curb. There was a big sign saying "DANGER HOUR PARKING" and he'd only been gone twenty minutes. Running to Traffic Court, where Hank Miller was on duty, Swiftly yelled how he hadn't done anything wrong... how he is the most law-abiding driver in town. But Hank examined the ticket, and smiled. "Slow down, friend," he said. "You're not guilty—ex-

cept of making a big fuss over nothing. This ticket came from some kid's police car playground." From where I sit, jumping to conclusions can make anyone appear silly. Another way to look foolish is to make a quick decision on a question of personal preference. For instance, I like a glass of beer occasionally. You may be a better drinker man. But neither of us ought to "lay down the law" about the other's choice.

Doc Collins Explains Methods Used to Make Tourney Drawings

Methods used in making drawings for five and seven team district basketball tournaments—the first seeds in March—were explained Wednesday by George (Doc) Collins, Negaunee High School faculty member, who for the fourth consecutive year is in charge of tourney arrangements.

Instructions for conducting drawings and pertaining to other tourney arrangements were received by Mr. Collins in a brochure mailed out by Charles E. Perry, the state director of athletics, to managers of district tourneys throughout the state.

Negaunee will host both the Class D and Class D district meets. Competition is slated to get underway on Wednesday night, March 2, and continue through Saturday night, March 5. Scheduling provides for three games on Wednesday and Thursday night, March 2, and continue through Saturday night, March 5. Scheduling provides for three games on Wednesday and Thursday night, March 2, and continue through Saturday night, March 5. Scheduling provides for three games on Wednesday and Thursday night, March 2, and continue through Saturday night, March 5.

Entered in Class B are Negaunee, Ishpeming, Marquette, Hancock, and Calumet. Teams competing in Class D include St. Paul, Gwinn, Republic, John D. Pierce of Marquette, Champion, Fitch and Eben.

In the five team Class B meet there will be three final round byes, which will go to teams one, two and five, leaving teams three and four to play in a final round game. In the second round team one meets team two, and

team five plays the winner of three and four. The winners of the second round games play out the two types which will be conducted at Memorial Gymnasium.

Under the seeding plan, based on a team's record during the season against competition in its own class, the school which has won the most games is placed in the number one position in the top bracket, and the team with the record highest total of victories is placed in the number five position. In the bottom bracket, thus preventing the schools with the best records from meeting, until the championship round.

The same seeding arrangement is followed for a seven team tournament in which, however only one bye is awarded going to the number one seeded team in the top bracket. Teams two and three, four and five, six and seven, thus meet in final round games with one playing the winner of two and three in the second round of the top bracket; while the victor in the game involving four and five meets the winner of the tilt between six and seven in the second round of the bottom bracket. Winners of top and bottom bracket second round games meet for the district championship.

Mr. Collins stressed again that in line with the policy in effect at 5 per cent of the schools entering district tournaments throughout the state, there will be no reserved seats for either the Negaunee district meets. Only general admission tickets will be sold, and they will be handled on a single session basis. However, reserved seats will

be sold for the Class C regional tournament here on Friday and Saturday nights, March 11 and 12.

Board Members

Continued from Page 1
It lends to borrowing on the part of schools to keep operating, and is insufficient and jeopardizing to the interests of the schools because it gives rise to misrepresentation to the paying public of the schools financial needs. Now, therefore Be it Resolved, That the State Legislature be respectfully petitioned to find a way through legislation of correcting the foregoing discrepancies by providing for a method of distribution for the first half of the school year, consistent with the financial needs of schools.

8. Resolved, That for purpose of special certification of teachers, leniency is urged for superior teachers during the current teacher shortage crisis.

Board members took no action on the following proposals:
1. To consider legislation to provide for county assessment of property.

2. To consider legislation that would permit electors to initiate by petition county assessment of property if approved by a majority of the electors at a special by general election.

3. To study a proposal to require boards of supervisors to assess and collect taxes of school districts on the basis of the state equalized valuations. Turned down by the Negaunee board was a resolution calling for elimination of the annual state self survey report to the Department of Public Instruction. This report made it difficult to determine whether or not a school is qualified to accept non-res-

ident pupils.

Central Association and University of Michigan should give adequate proof of the school's fitness according by the North to receive tuition students.

Improvements which have been in progress at the Breitting Hotel for the past month or more and have just been completed make it unsurpassed in appointments by any motelry in the Upper Peninsula. Not a year ago it was since the Breitting has come under the proprietorship of Lawrence Soren that a remodeling has not been done in the way of permanent improvements. The work has been on a rather more extensive scale than usual. Twenty two of the rooms on the second and third floors received attention, hot and cold water service being extended to each and each and everyone being redecorated. While the plumbing alterations were in progress the steam heat was also extended to some of them as had not been previously equipped. The fixtures are all of the most modern type and new furnishings are also supplied where necessary, and upholstery having been done have arranged two games as with the Hancock Naval Reserve. A team of the best players from Negaunee and Ishpeming has been selected to compete with Hancock thus arranging two rattling good games. The first contest will be played at the Negaunee rink on Sunday afternoon, and the second at the municipal rink, Ishpeming, at 10 o'clock on the morning.

In writing to friends in Negaunee, Mr. and Mrs. Henry Trevarrow, who with their family left here Jan. 5, state they are enjoying their visit in California very much. At present, they are visiting in Los Angeles.

Miss Ina E. Aikin, local visiting nurse for the CCI Co., departed yesterday morning on a visit to relatives at Petoskey.

Negaunee will be represented at the Upper Peninsula Boys' Conference today and tomorrow at Calumet by five delegates who left for that city by the early morning train. The delegates are William Tawie, Jay Smith and Leonard Villberg, of the

Neguaine Uses Bonus Rule To Beat Marquette, 54-46

Neguaine High, which more often than not has been the victim of inability to convert from the foul line, has won the game of the season from Marquette Friday night at Memorial Gym, 54-46, making it the use of the bonus free throw rule. Outscored from the field 17-10, the Miners converted 22 of their 37 free throw attempts, as compared with 12 out of 28 for the Redmen, and won their 10th victory of the year and sixth in a row at the annual Business Conference competition.

List Officials For Basketball Tournaments Here

Officials, who will work the District tournaments in Classes B and D, and the Class C regional meet, scheduled for the first and second weeks in March at Memorial Gymnasium, were announced here Wednesday by George (Doc) Collins, tournament manager.

Due to the size of the district meets, which involve a total of 12 teams, two complete sets of officials have been assigned there for the first time.

One team will consist of Tom Patenoster, Kingsford, and Ben Monna, Trout Creek, who will work the games on Wednesday and Friday nights; while the second team includes Norman Slough, Rapid River, and Jimmie Rouman, Escanaba, who will Thursday night contests Saturday evening, Saturday afternoon and Saturday night.

Working with both units as the fifth man will be Harold Cooper of St. Paul Marie, who has been assigned to Negunee for Wednesday and Thursday nights when three games are scheduled each evening. State Association resolutions prevent an official to work in only two games per night in district play. Head officials are Patenoster and Slough.

Arrangements made by the Upper Peninsula regional committee for the Class C tournament include Rusty Roush as head, Ironwood official; Leon Schram and James Rouman, Escanaba, and Dave Thourne, Trout Mountain, list as alternate in the event an fifth man is needed is Paul Nell, Negunee.

Mrs. Collins revealed that officials will not be assigned in particular areas until after the tournament dates are completed.

FEB. 11—MARCH

PROBATE NOTICE

STATE OF MICHIGAN

The Probate Court for the County of Marquette

At a session of said Court, held at the Probate Office in the City of Marquette in said County, on the 2nd day of February A.D. 1955.

Present, Hon. Carroll C. Rush-ton, Judge of Probate.

In the Matter of the Estate of John Gensheimer, Deceased.

Franklin Harold Gensheimer having filed in said Court his final administration account and his petition for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 11th day of March A.D. 1955 be a day of notice in the forenoon, at the Probate Office, by and is hereby appointed for examining and allowing said account and settling said petition;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order each week for three successive weeks previous to said day of hearing in the NEGUNEE IRON HERALD, a newspaper printed and circulated in said county.

Carroll C. Rush-ton, Judge of Probate.

(Sole) A true copy: Elna M. Ticknell, Register of Probate, Arcan Lowerstein, Atty.

Clashing of Sabers, Epees, Is Heard At Wayne as Fencing Gains Popularity

Wayne University fencing coach Bela de Tuzsac discusses the finer points of epee play with Wayne students (l. to r.) Harold Cunniff, Sam Harty, Sam, and Stewart Green.

Fencing is the sport of nobles and kings, a enjoying rising success all over the United States, but it is more popular than at any time in the past.

Rated highly on the Tartan varsity program, fencing over its rapid rise at Wayne to the coaching job turned in by Bela de Tuzsac, a top authority of the Mid-West.

The raising of the sabers, epees, and foils can be heard every day at the Wayne gym as de Tuzsac puts his newly signed and his many classes through their paces.

During one of the winter odd contact sports, was one the favorite means of settling questions of family honor. Today as a highly skilled sport it has lost none of its glamour or finesse.

Wayne's first man fencing squad annually takes on the nation's best and more than holds its own. In 1954 the Tartans finished fifth in the nation after shipping Michigan State, Illinois, Ohio State, and others in dual competition.

This year Wayne's opponents include Michigan State, Ohio State, Indiana, and Illinois, and Coach de Tuzsac predicts another good season. Modern day fencing, whether epee, sabre, or foil, is a sport that has three weapons. Most notable fact

know about the saber, although it is not as unambitious as Hollywood portrays. The weapon is heavier than either the epee or foil and a touch is allowed only on the body, head and arms above the waist. Foils can be scored by touching with either the edge or point of the blade.

The epee is a stouter four-edged blade, touches can only be scored on the upper part of the body by the point of the blade. Touches on the hands, head, shoulders, or legs are "no" touches. The epee is a self-contained sword and is expected to revolutionize the sport.

The most ardent booster of the new fencing blade, Coach de Tuzsac has particular appeal in the fact that it is a sport which can be continued long after college. Clubs in this country are just beginning to form as enthusiasts as beginners and

8 In Row! Saints Whip Eben, 53-34

St. Paul High School took the top step toward the pre-ferred spot secured post in the district Class D basketball tourney, scheduled for the first week in March at Memorial Gym, when the Emeralds moved past Eben 53-34 here last Thursday night.

It marked the eighth consecutive win for Coach Matt Vanni's crewers and their second triumph of the season over the Alger county club.

Following a slow first quarter which found the Emeralds on the short end of a 9-0 count, the Parochials moved out in front in the second period. Doc Jandron opened the scoring with a charity toss and Bestuppe added a field goal to make the score 11-0, but Wilmore greeted the tally at 11 all when he hit from beyond the free throw circle.

Popin scored on a long, tom for St. Paul Herbibucke made it all even again at 12 points with a beautiful one hand jump shot from the corner. After Dick Jandron put the Emeralds ahead with a left hand push shot, Eben went out in front 17-15 on baskets by Herbibucke and Wilmore. Then the Catholics tallied 12 straight points and Herbibucke netted a bucket for Eben to end the scoring for the first half

with St. Paul on the long end of a 25-19 count.

To all intents and purposes the Parochials put the tilt on ice in the third quarter with a 10 point splurge, while Eben was netting a single field goal and four charity tosses. In this drive Benjure tallied six points, Herbibucke made good on three of four free throw attempts, Jandron scored two field goals, Dick Jandron a lay-up shot and Benjureillard a basket and two gift shots.

With Coach Matt Vanni clearing the bench in the final period, the teams played an action finale, each club scoring nine points.

St. Paul outscored Eben from the field 16 to 11, and made good on 17 free throws in 23 attempts while the Alger county outfit was converting 12 out of 21.

Dick Jandron led the St. Paul offensive with 15 points.

Miners Renew Rivalry With Hematites

The seeded position in the Class B district basketball tournament, scheduled for Memorial Gym the first week in March, will be at stake Friday night, when the Negaunee Miners and the Hematite Irons, both of Northern Michigan's outstanding county rivalries.

Although each club still has one more game to play the last week in February, Negaunee employs plays boat to Munising, while Hematite encounters the Ironwood Red Devils, both of Marquette county teams are expected to take their final tilt, so Friday's game is the big one.

To date, the rivals have identical records, each having won eight and lost six. Both have recorded seven of their wins at the expense of Class B opponents — the victories which count in determining seeded position — and both close the season as Class B opposition.

Although Ishpeming was not considered among the preseason Class B favorites, and the Hematites looked like a dismal underdog in losing to Negaunee here 42-23 in January, Coach C. C. Watson has approached with another of his "miracles" coaching jobs for the team has developed.

Since their defeat at the hands of the Miners, the Miners and White have won five out of eight games, including a 41-20 victory over the Sias last Friday night and a decisive 20 point win one week earlier over Marquette. A team Negaunee was able to shake by only eight points last weekend at Memorial Gym.

Comparative scores, plus the customary home floor advantage, tend to make the Hematites slight favorites. In Friday night's contest, in addition, the Miners will be backing a line of 10 years standing, for they have not whipped the Hematites twice during the regular season since the 1944-45 campaign.

However, all of these "on paper" odds don't appear over-

Sports Powwow from the

Published elsewhere in today's Sports section of The Iron Herald is a story on the methods, which will be used in making drawings for the district tournaments in Classes B and D, scheduled for Memorial Gymnasium the first week in March. The explanation of methods is given by George (Doc) Collins, tournament manager, who has been in charge of meets here since Memorial Gym was first selected as a center upon completion of the new structure. Instructions for managers were contained in a manual issued by Charles E. Forsythe, state athletic director.

Tournaments are conducted in the same manner throughout the state, with one notable exception — in the Upper Peninsula a seeding method is used, while in Lower Michigan this procedure is not followed. North of the Straits a team with the largest number of wins in the class is given the number one seeded position and placed at the top of the upper bracket while the school with the largest number is placed at the bottom of the lower bracket.

Thus, presenting clubs with the wholing to Coach Harry Sortal and his charges, who are well aware that Ishpeming will be a tough nut to crack, but remember that Negaunee was favorites also in the first meeting of the two clubs here in January.

Sortal's starting unit will be pretty much the same club he has used in recent games, with only one question mark the pivot position. If Bill Mitchell starts in the center slot, as he did in the Marquette tilt, the Matze and Blue units will probably move Roger Jennings to a forward post, where he would alternate with either Jim Gervase or Bill White. Such a move gives the Miners additional height against an Ishpeming five that isn't too tall, and also enables usage of a double post offensive in the guard spots completes the starting unit.

Best records from a state-wide

It is in the final round, Lower Michigan, such teams could meet in the first round, and a further stipulation prevents a host school from drawing a bye in the opening round.

On the strength of seasons' records to date, Negaunee and Ishpeming are almost assured of Class B district seeded positions, but there is no particular advantage in gaining either the top or bottom positions for the seeded clubs must play the best Class D opponents, Pierce and Chompton.

Doc also gave officials for both district tournays and the Class C regional meet here, names which are listed in another story. Local case followers will see at least two new faces in the district in Ben Manning, Trout Creek, and Ronald Cooper, South Side Mine. Other officers assigned for regular season have all worked here previously either during the regular season or during tournament play.

Friday night of this week the Ishpeming High gym will be the scene of the 138th renewal of Northern Michigan's outstanding cage rivalry — that involving the Ishpeming Miners and the Negaunee Miners. It dates

Emeralds Drive For Tournament Seeded Spot, Seek 9th Straight

Extension of one of the longest high school basketball winning streaks in the Upper Peninsula to nine games will be the goal of the St. Paul Emeralds Friday night, when they play host to Champion High at Memorial Gym.

And the Parochials are expected to take No. 9 in Stride, as Chompton does not take on a spot with several of the clubs Coach Stan Vanni's unit has brushed aside in victory straits. Normally, a Class E team, Chompton is up on Friday D this year and will be one of the seven high schools taking part in the D tournament here the first

week in March. Vanni has been stressing the necessity of taking games one at a time to his charges in practice this week, as he is afraid they might be looking forward to their clash with John D. "We should win," he said, "but each of these games is pretty important to us right now, not only from the point it would be nice to keep our winning streak but more so, due to the fact that we have the inside spot on the first seeded position in the tournament and don't want to blow it.

"Apparently Chompton doesn't take on a game with Gwinn, Rock Island or Felch, for example, but I've found that just about the time you take an opponent lightly it is when you're ripe to be dumped. I've got my five winning and the boys to think about this one and not be concerned with Pierce and Chompton."

Vanni has hopes that his starting five will be able to establish a margin that will enable him to provide his bench with additional game experience prior to tournament time.

Gordon Ellis has returned to the Emeralds for the fourth year of duty with the U. S. Army.

GOOD FEEDING
by ELMER NEEBLY
SUSS WAREHOUSE
Negaunee, Mich.

A HEALTHY, bright and lively hen will produce the most eggs expected from her. If she gets what she needs from you. For most profitable egg production, your hen should be culled and banded when they begin to lay. If the laying house has been cleaned and disinfected just before banding in the pullets, allow these young birds to have a few days heavily brood. For every 10 hens provide a 4-8 inch bay of straw with the top of the bay about 2-3 inches deep. A plentiful amount of 2-3 inch vermiculite, one capful water and 200 seeds.

EGG PRODUCTION may be increased by using artificial lighting during the winter. The best feeding day for laying hens is usually recommended. Feed intake may also be increased by feeding a small amount of molasses or other sweet feed. Provide the birds with limestone grit or oyster shells and mineral supplements. Keep plenty of fresh water in the birds at all times.

TO KEEP CHICKENS thrifty and their layers produce as nature intended, start feeding Occident Layer Feed before egg production begins. This carefully selected liberal supply of egg-making ingredients will be able to enable them to lay a deeper layer of top production.

FEED IT SO-SO with farm grains, putting in it self-feeders if you have them. Occident Layer Feed is a complete grain to prevent overfeeding. It is a complete feed. With its scratch grains should be fed in plenty of amounts. This assures the birds start looking for it following morning. The remainder of the grain can be fed in the morning. Feed only what the birds clean up. Increase the amount of the grain fed. Birds become too fat. Increase it if birds are thin.

COME IN SOON... get complete details on Occident Layer Feed. "Farmer-Proof" Occident Layer Feed.
