LET'S MAKE IT
A GOOD YEAR

'GRASSROOTERS' TO SPONSOR PUBLIC HEARING ON WHITE PINE SHUTDOWN (Iron River, Mi.)

A public meeting will be held on Saturday, March 27, 1976 in the Windsor Auditorium at the West Iron High School on 612 W. Adams Street in Iron River, Michigan, starting at 1:00 p.m. C.S.T. on the White Pine mine shutdown. This meeting will focus on the whys behind the 2/3 shutdown and stopping of the merger between AMAX, INC. and Copper Range; how this shut-down has effected families, businesses, etc. and what can be done to help.

The unique thing about this public meeting is that it is one of the rare times that the people (grassrooters) have requested a public meeting themselves through their representatives in Washington D.C. and Lansing to explore the issues and to see if the people can help a big company survive for everyone's benefit. This idea came about through the West Side Planning Commission in Iron County, Michigan, where the following communities of Iron River, Stambaugh, Caspian, Gaastra, Village of Mineral Hills, Bates Township, Iron River Township, Stambaugh Township and the West Iron School District wrote to Congressman Philip Ruppe, Senator Philip Hart and Senator Robert Griffin at the federal level and Russell Hellman and Dominic Jacobetti, requesting a public meeting to be scheduled including Union membership, all governmental representatives at the state and federal levels, the United States Justice Department, businesses effected, and all interested citizens. The go-ahead was given by the governmental representatives and parties involved for the West Side Planning Commission to host this public meeting.

Since that time, the following organizations have agreed to help co-sponsor this public meeting with the West Side Planning Commission: Western Upper Peninsula Planning & Development Region, Iron County Planning and OEDP Commission and the Iron-Dickinson County Community Action Agency.

The meeting is apparently intended to be a real grassroots effort to get everyone together to discuss the issues and to see how the people through their representatives can help to achieve workable solutions in keeping the White Pine mine productive and operating at full potential.

Those expected to attend or send representatives are: United Steel Workers; Senator Philip Hart; Governor William Milliken; Representative R. Hellman; WUPPDR; Iron County Planning & OEDP Committee; County Boards; United States Justice Department; Senator Robert Griffin; Congressman Philip Ruppe; Senator Joseph Mack; Representative D. Jacobetti; West Side Planning Commission; Iron County Community Action Agency; and the public.

Everyone is urged to attend and to voice their concern, feelings, etc. on the White Pine issue.

SENATOR MACK TO SPEAK AT COUNTY BANQUET

State Senator Joseph Mack will be the guest speaker at the Annual Ontonagon County Tourist Association-Chamber of Commerce banquet set for Saturday, the 10th of April.

Mack informed sponsors of the banquet that he would be available and would speak on the issue of Land Use Legislation, which he is currently opposing in the state legislature.

The banquet will be held at the Kon-teka in White Pine and will begin at 6 p.m. on April 10.

ITEMS FOR VICTORIA RESTORATION STILL NEEDED BY SOCIETY

The Society for the Restoration of Old Victoria is looking for certain articles for the furnishing of the reconstructed Arvola log cabin. The committee hopes to have the cabin ready for visitors this coming summer.

Donald Barcus of the Society stated that an attempt is being made to furnish the cabin authentically with period pieces used at the time of the original occupancy. Donated items will be returned to donors if they wish and all donors will be given credit for items offered for use.

The society is looking for a wood box stove, nine green window shades, (condition not important) table or wall type kerosene lamps.

Anyone wishing to donate may contact Heila Virola or Evelyn Urbis.

COUNTY RED CROSS MEMBERSHIP DRIVE ON

The membership drive for the Ontonagon County American Red Cross will be held this month. The county drive chairman this year is Mrs. Irene Wolfe of Ontonagon. She has appointed the following people as local drive chairmen:

Mrs. June Lipinski, Bergland, Matchwood and Merriweather; Mrs. Lester Newman, Topaz; Mrs. Clarence Linna, Bruce Crossing; Co-chairmen Mrs. Theon Gray and Mrs. Elton Hautamaki, Paulding; Mrs. Roy Besson, Trout Creek; Miss Myrtle Fredrikson, Rockland; Mrs. Bertha Peterson, Woodspur; Mrs. Phyllis Antilla, Ridge Greenland; Jan Pattison, Greenland; Mrs. Ray Smith, Mass; Byron Gougeon, White Pine; Nancy Mattson, Green; Cochairmen Mrs. Gabriel Baratone and Mrs. Norman Audette, Silver City; Mrs. Irene Wolfe, Ontonagon; and Mrs. Henry Smith, Ewen.

PRIMARY ELECTION TO BE HELD MAY 18

Ontonagon County Clerk Irene Wolfe has received official notification from Secretary of State Richard H. Austin that a presidential primary election will be held state-wide on Tuesday, May 18, 1976.

At that time presidential candidates for both Democrat and Republican parties will be voted for as well as Republican Party delegates to county or district conventions. The Democratic Party delegates will be elected at the August 3rd Primary Election.

One countywide proposition will be submitted to voters at the May 18 election and will be worded as follows: "Should Project Seafarer be installed in the Upper Peninsula of Michigan?" This question is being put to the voter by the Ontonagon County Board of Commissioners.

In other localized township votes, McMillan Township will submit a millage proposal to voters to renew two mills for five years for the purpose of improving streets and roads in that township and for general operation. This millage for five years has expired and is being renewed for 1976 through 1980.

The White Pine School District will also hold a special election at the same time to renew the present 20 mill levy for one year for operating purposes.

In the Republican Party delegate election, the county clerk has determined the following number of Republican delegates allowed per precinct in the county for a total of 50 delegates to be elected to the county convention. The clerk has distributed the delegates in the following manner: Ontonagon precincts 1 & 2, each will elect five delegates; Ontonagon precinct 3 will elect four; Each of the following precincts will elect three delegates: Bergland 1, Carp Lake 1 & 3, Greenland 1 & 2, Interior 1 and Stannard 1. The following precincts will elect two delegates each: Carp Lake 2, McMillan 1 & 2; Rockland 1 and Stannard 2. The remaining precincts will each elect one delegate: Bergland 2, Bohemia 1 & 2, Haight 1, Matchwood 1.

All delegates to be elected at the May 18 presidential primary must file nomination papers with the county clerk by 4 p.m. Friday, March 26.

SCHOOL ADVISORY MEETING AT WHITE PINE WELL ATTENDED

Approximately one hundred and forty interested persons attended last Thursday's advisory meeting with the White Pine School Board.

The purpose of the meeting was to outline possible budget cuts and to provide the Board with the input of public sentiment about further cuts. The Board is faced with the unhappy task of eliminating \$100,000 from the next year's school budget as the result of anticipated loss of revenue.

The budget cuts are particularly difficult in view of the existing efficiency of the school system combined with a high overhead...30% as compared with the state average of 20%...of the total budget. Several suggestions were offered with the Board giving each of them serious consideration.

The next regularly scheduled meeting of the White Pine School Board is set for this Thursday, March 25th, at 4 pm at the high school. Further consideration of the budgetary problems will be the main topic of the meeting.

The school board meetings are open to residents of Carp Lake Township.

2022.15.9

OBITUARY

MRS. ALBERT COLE

Mrs. Albert Cole, 83, of 15313 Blackstone, Detroit, former Paulding resident, died Thursday, March 11, in Detroit.

She was born June 9, 1892 at Dagget. The former Lucy Lacrosiere, her father was a fire warden at the Greenland fire tower for several seasons and the family lived there during the summer months. She was married to Albert Cole in 1913 at Winchester, Wisconsin. They lived in the Paulding area for many years before moving to Detroit in 1965.

Survivors include her husband, a daughter, Mrs. Archie Anderson; a foster son, Robert Lacrosiere, and two grandchildren, all of Detroit.

Funeral services and burial were held in Detroit.

WALTER SIRVIO

Walter Sirvio, 62, of Milwaukee, a former resident of Ontonagon, passed away in Milwaukee on March 17, following a long illness.

He was born April 30, 1913 in Calumet, and moved with his family to Ontonagon as a child. He attended the Ontonagon schools and had made his home in Milwaukee for many years.

Surviving are his wife, a son Walter of Minneapolis, four daughters, Susan, Elaine and Jennifer of Milwaukee, and Mrs. Loren Gerdes of Minneapolis; six sisters and five brothers.

Funeral services were held from the Allen Cane Funeral Home in Ontonagon on Saturday, with burial in the Riverside Cemetery.

MRS. PETER MINTENER

Mrs. Peter Mintener, 92, passed away on March 16 in California. She was the former Mildred Holman and was born in Rockland on August 6, 1883. She was a member of one of the first high school graduating classes in Rockland.

She had worked in the First National Bank of Rockland prior to leaving for California in 1918. In 1924 she married Peter Mintener of San Diego; he preceded her in death in 1934.

She was a member of the Methodist Church in Rockland and San Diego and the Order of the Eastern Star.

Funeral services and burial took place in San Diego.

DR. RICHARD KELLER

Dr. Richard Keller, 53, Ontonagon, passed away suddenly on Thursday, March 18, in Ontonagon.

Dr. Keller had practiced dentistry in Ontonagon for the past sixteen years. He was born on August 16, 1922 in Detroit. Prior to coming to Ontonagon he graduated from the University of Detroit Dental School and had served as a captain in the United States Air Force in the Medical Corps.

Surviving are his wife, Patricia; two sons, John and David, at home; a daughter Mary Beth of Dearborn; his parents Mr. & Mrs. C.W. Keller of Detroit; and two brothers, Larry of Atlanta, Ga., and Martin of San Carlos, Calif.

He was preceded in death by a son, Richie in 1969.

Funeral services were held from the Holy Family Catholic Church, Ontonagon on Saturday, March 20, with the Rev. David Harris officiating. The Allen Cane Funeral Home was in charge of arrangements.

The family suggests memorials to Bay Cliff, the Ontonagon Cancer Society or a charity of their choice in lieu of other expressions of sympathy.

LACROIX HOSPITAL ADOPTS SMOKING POLICY

In order to comply with Michigan House Bill No. 4453, which was recently signed into Law, the LaCroix Hospital Board of Trustees recently adopted the following policy:

1. Patients and visitors shall be permitted to smoke only in designated areas.
2. Staff shall be permitted to smoke only in designated areas.
3. Staff shall not be permitted to smoke in patient's room or while performing their duties in the presence of patients.
4. Eating areas shall have sections for smokers and non-smokers.
5. Cigarettes, cigars and pipe tobacco shall not be sold or dispensed within the hospital, except as provided for by the hospital governing board.
6. A sign indicating that smoking is prohibited in the hospital except in designated areas shall be posted at each public entrance to the facility.

The following areas shall be designated as smoking areas: Patient and Visitor smoking areas: 1) Waiting area adjacent to the X-ray Department; 2) Front Lobby.

Other action taken by the Board included a revision in the credit policy of the hospital. In the future all outpatient services provided by the hospital not covered by insurance will be on a cash basis. Also, the hospital will be making a \$2.00 clerical fee for preparing supplemental insurance claim forms which are in excess of the amount of the hospital charges.

LEADERSHIP DEVELOPMENT WORKSHOPS SET FOR AREA IN APRIL

Two Leadership Development Workshops are to be held at the Ontonagon Area High School during April. Each is to be conducted by Donna Sweeny, Resource Development Specialist, Michigan State University and is being sponsored by the Family-Living Education Program of the Cooperative Extension Service. The first in the series will be held Tuesday, April 6, the second on Tuesday, April 27. Both sessions begin at 7 p.m.

The Leadership Development series is in response to a number of requests from area groups, and is designed to help individuals understand people reaction and interaction; to help recognize the various methods of leadership, and to help adapt the more positive methods; as well as to help build self-confidence and positive self-image for potential as well as current leaders.

The learnings and activities of the second session will be based upon the learnings and activities of the first session, so it is preferable that both sessions be attended.

There are no charges for the workshop sessions. They are open to persons currently in leadership positions, but especially for persons hesitant to accept any leadership in groups.

Nonesuch March 24, 1976 Page 2

Aune Nelson, extension home economist for Ontonagon County, requests persons interested in attending the series, contact the Extension Service, 522 River Street, Ontonagon, to let them know of intent to attend, so proper arrangements can be made and sufficient materials will be available.

SENIOR CITIZEN NEWSLETTER: By J. Lipinski, Director ---

Would you believe the time has arrived when conversations at the Center are about gardens, seeds and starting plants again. We hope the warmer weather will soon arrive and the Seniors can get out to visit the Centers more often.

The Lake Gogebic Senior Citizen Center has classes in Ceramics, Arts And Crafts, Sewing And Painting still going on. Our painting class will finish their third picture before class ends on the 24th of March. Blood pressure is being taken every other Friday by our volunteer nurse, Judy Fisher. A Pot Luck supper with games following was held for St. Patrick's Day on March 19th. Educational programs and movies have been given after our nutrition meal on Mondays. A movie with W.C. Fields was especially enjoyed by all. I would encourage all Seniors age 60 and over to come to our nutrition dinner served at 1:30 on Mondays. Call in for reservations before Friday each week.

The Crossroads Senior Center have three classes - Lapidary on Wednesday, 9 to 12; Arts & Crafts on Wednesday afternoon; Oil Painting on Thursday afternoon. The members had a St. Patrick's Day box lunch on Friday, March 19th. Aggravation is played every day. There have been no chess games for awhile, one of the chess players is on vacation in sunny New Zealand. He plans to be back on April 1st. Blood pressures are taken once a month on the second Friday. Robert Lynn, Social Service representative comes to the Center once a month. The Advisory Board of the Crossroads Senior Center meets the first Friday of each month.

The Cane Court Senior Center has nutrition meals on Tuesday and Thursday at 11 a.m. Ceramic class at Sandy's Ceramic Shop on Monday and Tuesday from 1 to 4 p.m. A representative from the Social Security office is at the Center twice a month on Wednesday from 10 a.m. to 4 p.m. For information call Selma Markie, 884-9663. Selma reports that even with all the heavy snows we've been having the Seniors enjoy stopping at the Center to have a cup of coffee and talk to their neighbors for awhile. SPECIAL NOTE - We are planning a County wide Senior Citizen picnic again. You will be hearing more about this in the future. So be ready!

..The State Department of Social Services reports that because of budgetary and other problems, Michigan will run out of funds to pay hospital bills for Medicaid patients between May 20 and June 30. The reason for the pinch is that this year's state appropriation limited spending to 107 percent of last year's budget. This amount was insufficient. Additional funds will be included in the fiscal 1977 budget to cover bills owed but not paid in 1976.

..The bill which would in effect outlaw the manufacture, sale and use in Michigan of the toxic chemicals known as PCBs is near final approval in the state legislature. PCBs are an almost indestructible compound and have already resulted in the death and reproductive failure of many Michigan fish and fish-eating birds and animals. High concentrations of PCBs have been found in nearly all of the fish tested in the Great Lakes say state officials. Additionally, PCBs have been detected in rain and snowfall. They are considered a probable cause of human illness as well as harming animal life. The bill would reduce over a three year period the concentration of PCB which could be contained in any item in Michigan. The ratio allowed would start with 250,000 parts per million and decrease to 100 ppm by January of 1978. The only use permitted for PCBs would be in a closed system, such as a transformer or capacitor. Violation of the new law would constitute a misdemeanor subject to imprisonment or fine. Animals affected by PCBs according to past studies include mink, northern pike, Lake Michigan salmon, the bald eagle and the Lake Ontario herring gull. The Federal government has already banned the commercial sale of any fish containing a PCB level of more than five parts per million while Canada has set a 2 ppm.

..In a study by the State Department of Education it was revealed that 80% of the operating budget for an average Michigan school district is for salaries. 5% is spent on instructional materials while the remaining 15% is divided between administration, transportation and other operating expenses.

..Michigan Congressman Philip Ruppe feels that Reserve Mining of Minnesota should be required to pay filtration costs for asbestos fiber containing Lake Superior water. The Reserve dumping of tailings into Lake Superior has evolved into a classic industrial pollution case, fraught with controversy. Ruppe stated, "It is highly unfortunate that due to Reserve's dumping it has become necessary to install new devices for filtering out asbestos fibers from municipal water supplies. Reserve should not be permitted to walk away from its responsibility to pay for the mess it has caused."

..Michigan Representative D. Jacobetti reports that the first 52 days of 1976 statistics as released by the Michigan Employment Security Commission show a tragic increase in unemployment claims filed when compared to the same period for 1975. Jacobetti said that only two of the 15 M.E.S.C. offices serving the U.P. filed fewer claims for the period than last year. He said that there were 18,510 persons drawing unemployment on Feb. 21 of this year and there are approximately 90,000 family units in the U.P. according to the last census count, this indicates about 20% of the breadwinners or heads of household who are out of work.

..At the same time the Michigan Employment Security Commission reports that the state jobless rate had declined for February, down to 12.9% from the 13.4%

Food Stamps welcome at Red Owl

figure of January. S. Martin Taylor, commission director said the figures represent a substantial improvement from a year ago when Michigan was at the low point in the recession. No breakdowns for the Upper Peninsula or particular counties in the U.P. were included in the statement by Taylor. ..If you haven't already, you better hurry up and take care of it quick. Referring of course to the renewal of license plates for Michigan motor vehicles. The deadline is April 1. The plates must now be purchased from Motor Vehicle Licensing Bureaus as the mail sales are over. The following is necessary: The prepared application mailed to state vehicle owners last fall, proof of no-fault auto insurance and check, money order or cash to pay for the plates. Sales to date at mid-March totaled 3.7 million, leaving an estimated 1.5 million owners to face the last-minute rush for plates. ..Michigan's 15 Upper Peninsula counties have topped the \$6 million mark in total lottery prizes won in the Bureau of State Lottery's most recent tabulation. Since November of 1972 when the Lottery began U.P. residents have won \$6,067,154. The tabulation does not include prizes won in Instant Game #2, which is winding up now. The U.P. has had 10 winners of \$10,000 and 17 winners of \$1,000 in that game. Ontonagon County winners to date total the grand sum of \$79,692.

..Sen. Earl Nelson, a Democratic lawmaker from Lansing, has stated that he will push for a temporary but sizable increase in the personal income tax.. a proposal that would jump by 43% the tax for a period of 18 months. The tax would begin July 1 of this year and increase the current 4.6% to 6.6%. Nelson said the raise would generate an additional \$900 million which he feels would avoid the necessity of cutting state programs to an "unacceptable level." So far key lawmakers have indicated that raising taxes in an election year is practically out of the question. The Governor is also opposed to the tax hike and is not likely to support any move in that direction. The income tax was raised one year ago from 3.9% to 4.6% to replace the loss of revenue from the repeal of the sales tax on food and drugs.

..The proposed 1977 closing of Kincheloe Air Base in Chippewa County is an attempt to 'arm twist' the Upper Peninsula, charges one state senator. Sen. Robert Davis issued a letter to Secretary of Defense Rumsfeld in which he stated, "...I believe the Department of Defense may be using the closing of Kincheloe as a bargaining lever to coerce approval from Michigan for Project Seafarer. Please be advised that regardless of the Defense Department's final decision on Kincheloe, we believe we should continue to withhold judgement on Project Seafarer until environmental impact studies are completed. A Defense Department spokesman in Washington denied the charge and said no relation between Kincheloe and the reluctance of Michigan to accept the Seafarer Project exists. The closing of Kincheloe would cost the area 2,698 military positions and 467 civilian jobs. With its \$36 million annual payroll, the base is the financial backbone of the eastern U.P., which presently is already enduring 21% unemployment status. Defense Department officials have said that a final decision is still months away.

..A special Michigan House committee last week proposed legislation which would prohibit electric utility companies from automatically charging residential customers for higher fuel

expenses. The four-year old fuel adjustment clause which automatically passes on fuel cost increases to the customer would be eliminated in the case of residential users if the legislation were to be passed. Utilities say that elimination of the fuel clause would be financially disastrous. However the committee concluded that 2/3 of the increase in electric rates has been without notice, without hearings, without challenge and without serious regulatory scrutiny. The fuel adjustment clauses have been in effect for commercial and industrial users for over 35 years but only since 1972 has it extended to residential users.

..A hike in pay phone charges has been recommended by a state Public Service Commission law judge. William Austin reported to the three-man commission that the 10¢ charge, in effect for 24 years, should be upped to 20¢. Austin also recommended increases in residential basic monthly rates of from 30¢ to 75¢ for one-party service. The PSC commission will consider these recommendations along with the staff proposal that Bell get no more than \$30 (Austin proposed \$53.7 and Bell requested \$88) million before making a final decision sometime in April.

..UAW President Leonard Woodcock says the Union is prepared to strike if necessary for reduced work schedules to put some 60,000 workers now on lay-off back to work. "The central theme of 1976 bargaining has to be job security. This has to be achieved by reduced work time," said Woodcock at the UAW collective bargaining convention opening recently. During the conference delegates will approve general demands which will be presented to industry bargainers when formal talks begin this summer. 1.4 million members are represented by the UAW.

..A survey conducted by the Michigan Association of School Administrators revealed some drastic teacher reductions in the offing if the recommendations of Gov. William Milliken regarding school aid are adopted. 3,100 teachers would be lay-off candidates or a raise in millages would be necessary to maintain current programs; of the state's 530 districts, 296 or 55% said they would need more money just to maintain current programs; critics of the 3.7% increase in funding recommended by Milliken say that figure won't enable them to meet budget requirements in the face of an 8% inflation rate. ..In a little over a year the state of Michigan has paid more than \$162 million to 34,000 eligible Michigan Vietnam era veterans and their survivors. The director of the bonus section of the Department of Military Affairs said applications are being processed for payment in three to four weeks. Any Michigan veteran who served between Jan. 1, 1961, and Sept. 1, 1973, qualifies as long as he or she was discharged under honorable conditions. Next-of-kin are also entitled to receive the same bonus that a deceased veteran would have received.

E.P.A. HEAD CALLS MAN ENDANGERED SPECIES

Speaking at the Michigan State University commencement exercises recently, Russell Train, head of the U.S. Environmental Protection Agency, stated that "environmental efforts in the years ahead must involve prevention as well as the control of pollution to make a better world for the "endangered species, man."

Train, who has been administrator of the EPA since 1973, said environmental protection must increasingly become the most important ingredient in any national health program.

According to World Health Organization estimates, said Train, 60 to 90 percent

of all cancer is the result of "environmental factors" in the broadest sense of that term.

"An urgent need in this respect," he told the MSU degree candidates, "is the passage by Congress this year of effective toxic substances control legislation." He stated that this legislation would provide for the testing of chemicals before their commercial introduction and for authority to regulate their use to prevent damage to human health and the environment.

Train reminded the MSU graduates that the costs of meeting environmental regulations are not new at all.

He said, "When a power plant spews out uncontrolled sulfur oxides, the costs are very real in terms of damaged vegetation, increased respiratory disease, medical bills, even greater mortality. Our society as a whole bears the costs."

"When we require a power plant to clean up its pollution with costly emission control devices," Train continued, "we are not creating a new cost, but simply shifting the cost from society as a whole to the plant and its customers."

Train reminded the audience that in the six years since the first "Earth Day" we have made definite headway toward making environmental concerns a part of our economic and social life.

"In the long run," said the EPA head, "there is no inherent conflict between our energy, economic and environmental needs. They all require that we make the most of our basic natural capital."

He cautioned, "we must make certain.. with every environmental regulation we issue, with every deadline or standard we set..that the costs are no larger than they need be and that the benefits are worth the cost."

MSU President Clifton P. Wharton, Jr. told the 1,714 candidates that "the responsibility for the quality of life in 2076, or even 1968, does not rest on any one group or generation. Each of us has a piece of the action...and it is the accumulation of those pieces that will determine the future of this nation."

POISON PREVENTION WEEK

MARCH 21-27

THIS WEEK
NATIONAL POISON PREVENTION WEEK!

The week of March 21-27 has been designated as National Poison Prevention Week. Every year during the month of March, Poison Prevention Week is observed throughout the country. The members of the Ontonagon County Pharmaceutical Association are marking this week in some special ways.

First of all, at any of the member pharmacies you may obtain without charge a poison counterdose chart for your home. This chart lists many commonly used poisonous substances and the appropriate steps to be taken before medical help can be obtained. A chart such as this should be a part of every medicine cabinet.

Secondly, the member pharmacies will be providing free of charge a one ounce bottle of Syrup of Ipecac, one of the most effective methods of inducing vomiting. Of course, there are many instances in which vomiting should not be induced, and the county pharmacists remind you to consult your family physician before inducing vomiting.

Lastly, the following suggestions are offered as a guide to minimize the possibility of an accidental poisoning:

- 1) Most prescription medication you receive from the pharmacist will be packaged in child-resistant containers. Aspirin (and eventually other home remedies available in the pharmacy) also is subject to laws requiring safety packaging. Be sure you re-secure the closure after each use so that the safety feature will be there should a youngster manage to get the container.
- 2) Make every effort to lock up medicines and potentially harmful household

products. If you must answer the telephone or the doorbell while you are in the midst of housecleaning, take the cleaning container with you.

3) Do not take medications in the presence of small children.

4) Remember that medicines should always be called medicines, never "candy".

5) Turn on the light when giving or taking medicines.

6) Read the label, paying close attention to the amount of medicine that you should give or take at any one time. On household products, be sure to study any warnings on the label about its use.

7) Keep internal medicines stored separately from household products. This is very important since so many containers look and feel alike, and some even smell alike.

8) Get rid of prescription medicine once the illness for which it was prescribed is over. Not only is this a good preventive measure in terms of removing a potential hazard from youngsters, but it is also important to remember that over a period of time chemicals may change, and this may very well affect the medication and, of course, anyone taking the medication.

9) Dispose of medicines and household products by emptying the residue down the toilet or drain. Then rinse the container before discarding it.

All of these things that we have been saying are important for your child's protection. Use safety packaging AND observe all of the rules that we have just mentioned. A combination of these two can go a long way toward achieving the child protection for which we are all looking.

and Lake Superior until the new snow settles considerably.

About the only outdoor sport enjoying the deep snow is the downhill skiing at the various ski areas in the district. Hills have been groomed, business is excellent, and they expect that their season will be extended by a couple of weeks or so.

It may be only a couple of days away from the first day of spring, but I am sure that "Spring" will come into District I on snowshoes or some other mode of travel more suited to over four feet of snow on the ground. I hope that there will be something more than just snow on which to report next week, but it will take quite a change in weather conditions to do so.

MICHIGAN POWER FILES FOR RATE INCREASE

R. W. Sampson, Executive Vice President of Michigan Power Company, announced recently the filing of an application with the Michigan Public Service Commission, wherein Michigan Power Company is seeking authority from the Commission to increase its gas rates for service in both its Upper Peninsula and Lower Peninsula service areas by amounts which, if approved by the Commission, would increase the annual gas revenue of the Company by approximately \$2 million and 89 thousand. Approval of the application, which was filed on Tuesday, March 16, would result in bills for natural gas service in the Company's Lower Peninsula service area increasing a little over 5.5% during a "normal" year according to Mr. Sampson, and approximately 9.4% in the Company's Upper Peninsula service area.

Michigan Power Company provides natural gas service to about 46,000 customers in the Lower Peninsula of Michigan. In the Upper Peninsula the Company provides service in the cities of Hancock, Houghton, Ishpeming, Manistique, Marquette, Negaunee and St. Ignace.

Sampson said that the present rates charged by Michigan Power Company for its gas service are based upon costs experienced by the Company in 1974, but now do not and will not produce sufficient revenues to permit the company to meet its ever-increasing costs for its operation and maintenance expenses, wages, materials and supplies, taxes and costs of capital.

A recent study of actual results of the Company's operations for the 12 months ending January 31, 1976 indicate the overall rate of return on the net original costs of the Company's property used for its gas operations is only 3.3%. Sampson said the Company's present rates are inadequate, unjust, unreasonable, confiscatory and do not even provide the Company with a return which it is entitled by law. He concluded by saying that unless the Commission approves the rate increase being sought by the Company, its earnings and rate of return will continue to decline.

CHANNEL 6, MARQUETTE,
 WILL NOW BE VIEWED
 ON CHANNEL 9 ON YOUR DIAL

OUTDOOR REPORT: By Jim Magnuson, Dist. I Radio Operator, MDNR, Baraga
 With five counties from which to draw information on outdoor activities about the best I could get for the past week is "SNOW". We had from 12 to 18 inches of snowfall last Thursday and Friday, with Friday the worst of the two. It was also very windy on Friday and again on Sunday and visibility was very poor, roads drifted full again shortly after each pass by plows, and keeping paths

and driveways open by hand was a real problem. Actually, it would not be right to label either of the past two storms as blizzards. Most people were able to get cars back on the road in a matter of a few hours after the weather settled down again. Both storms, however, were rated as severe.
 The heavy, drifting snow put most of the ice fishermen out of business and it is really not too likely that many of them will return to the inland lakes

colleges and universities to become 'accountable' and 'productive' in meeting their 'stepping stone' obligations may come to dominate and obscure any discussions as to the goals of higher education."

Martia says that education has other purposes equally important but less tangible. The purposes are more difficult to present to the public, to legislators and private supporters, to students and even to some faculty, but the purposes are essential to the individual's educational wellbeing and to the health of a democratic society.

Liberal arts furnish students with models and abstractions against which they can measure activities, judge values and ethics, and apply the findings to their lives and society.

LOCAL UNION 5024 UNITED STEELWORKERS OF AMERICA

VOTE

JIM NOBLE

FOR UNION PRESIDENT.

WE MUST HAVE A CHANGE.

JIM NOBLE SUPPORTS THE

FOLLOWING ISSUES:

- 1) More participation by our membership. Our Union must be run by its members, not by one man or a handful.
- 2) I do not believe in the present Union dues system. There is no limit on how much we pay. Every raise we get, including the cost-of-living, is subject to a dues increase. Our present union president voted for this system.
- 3) The lay-off on January 4, 1976, was not done by the contract. The contract clearly states the procedure. No one has the right to change this contract. Yet, our present Union president allowed the Company to do what they wanted.
- 4) I believe the Local Union membership should have the right to accept or reject a new contract, especially on the local issues. We have always had this right; until the last two contracts.
- 5) I believe that the President of our Union should, at least on a part time basis be on the job at the Plant so he never forgets what it is like to be a working man.
- 6) I do not believe the President of our Union should meet with Company officials by himself.
- 7) I believe we must have a monthly newsletter to let our people know what is going on at our membership meetings. It is not easy for many of the members, who have to travel so far, to attend these meetings.
- 8) The Union hall is for its members. They must not be locked out. There was a conference room built for committee meetings. Why isn't this room being used?

LET YOUR VOICE BE HEAR, CAST YOUR VOTE ON APRIL 16, 1976!

(Paid For By The Committee To Elect JIM NOBLE.)

WHITE PINE COMMUNITY SCHOOL NEWS

The Spring Session of Enrichment Classes are about to begin in the White Pine Community Schools.

Beginning on Monday, April 5th two swimming classes will be offered.

AQUA TOTS is a pre-school water conditioning class which will meet for 6 Mondays at 4:00 p.m. for one hour. A parent must accompany the child and the fee will be \$6.00. **BEGINNING SWIMMING** instructions for grades kindergarten, first and second will meet for six Mondays at 5:00 p.m. for one hour. The fee for this will be \$6.00.

COOKING INSTRUCTION for both boys and girls will begin on April 7th and will run for six Tuesdays at the White Pine High School, Home Ec Room, starting at 4:00 p.m. Fee will be \$6.00.

A GIRLS GYMNASTICS CLASS for grades 7 through 12 began this week at the White Pine High School.

A. U.P. BICENTENNIAL SPELLING BEE is being sponsored by the U.P. Community Schools for grades 5 & 6. White Pine students are now competing and 1 fifth and 1 sixth grader will compete at the G.O.I.S.D office in Bergland at 1:00 p.m. on April 6 against students from Ewen-Trout Creek, Bergland, and Ontonagon. Winners from Ontonagon County will compete against

winners from Gogebic County in the middle of April and the U.P. Finals will be held in Marquette in May.

GARDENING, GOLF and TENNIS classes are being planned and will be held for adults only if enough people call the community school office to indicate their interest.

Please call the community school office at 885-5407 to enroll your children or yourself in any of the above classes.

EDUCATION MORE THAN 'JOB TRAINING' STATES EDUCATOR

"It would be myopic to presume that in opening doors to higher income and better jobs, education is performing its total function," a Chicago educator writes in a Michigan State University publication.

Dominic F. Martia, assistant to the president of Roosevelt University, in the MSU University College Quarterly March issue says that universities and colleges must be more than "stepping stones" to careers.

"The tension between utility and humanistic values in American life is perennial, and so is the imbalance in favor of utility," he says.

"The already intensive pressure on

..The WHITE PINE CUB SCOUT PACK MEETING scheduled for March 25 has been postponed until Thursday, April 1st. That meeting, to be held in the White Pine Elementary School at 7 p.m., will feature the Annual Pinewood Derby.

 BROILED LAKE SUPERIOR TROUT

MEMBERSHIP ON COUNTY COMMISSION ON AGING ANNOUNCED

In line with state and area Agency on Aging regulations, the Ontonagon County Commission on Aging was established in December through a resolution of the Ontonagon County Board of Commissioners. There are over 2,000 senior residents in Ontonagon County whose health, nutrition and transportation needs are often inadequately met or completely neglected. The primary function of the new Commission will be to provide leadership in seeking out the priorities, implementing programs and seeking out available avenues of assistance in promoting services to the aging.

Membership in the Commission on Aging is comprised of fourteen persons from among senior citizens, service groups and elected or appointed officials. The following persons have been confirmed by the Board of Commissioners to membership on the Commission on Aging: William Seale, Alma Lorenson, Viola Hendrickson, Ingrid Wolfe, Gordon Thomasini, Daniel Ojala, Robert Mazurek, Raymond Leons, Clarence Maloney, John Strancel, Laval Barna, Toivo Kuivanen and John LaSota. June Lipinski, Ontonagon County Director of Comprehensive Services to the Aging, is an advisory member on the Commission. One vacancy exists on the Commission presently due to a transfer from the area of Thomas Ferguson. Serving as Commission officers are: Daniel Ojala, chairman; John Strancel, vice chairman; Viola Hendrickson, secretary; Alma Lorenson, treasurer. Assistance in organizing and planning has been rendered by Stuart Marquardt of Escanaba, representing the Area Agency on Aging. A constitution and by-laws have been adopted and approved, and necessary operating funds have been received from the county.

A matter of top priority in Ontonagon County for many years has been that of low-income, senior citizen housing and the Commission on Aging is directing its attention to that problem at the present time. Susan Philip of the WUPPDR was present at the February meeting to render information and assistance from that agency. Several committees have been appointed to make contacts with state and federal funding agencies by letter and in person. It is hoped that the many years of planning for adequate housing for the elderly may receive added impetus through the Commission on Aging.

EAGLE PORTRAIT A BICENTENNIAL OFFER

A portrait of the bald eagle, the symbol of the American ideals of freedom, has been offered for sale to the public by the U.S. Fish & Wildlife Service.

It may be obtained by sending \$1.85 to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, and requesting the "Symbol of Our Nation" portrait, stock No. 024-010-00408-8.

It is a full-color, heavy paper reproduction 8½ by 11 inches on a mat 11½ by 15 inches, of an oil painting by Fish & Wildlife Service artist Bob Hines.

The text which accompanies the centerfold portrait describes the historic symbolism of the eagle as well as its present day situation in the wild.

SUBSTANCE ABUSE PLAN FOR YEAR READY

The Western Upper Peninsula Substance Abuse Service Comprehensive Plan for 1976-77 was recently submitted to the Michigan Department of Public Health in Lansing. Any interested person who may wish to study this plan can do so at the COORDINATING AGENCY offices at 1100 Quincy Street in Hancock.

BOYS SCOUTS IN WHITE PINE NEED SCOUTMASTER

The White Pine Boy Scout Troop 221 desperately needs an individual to assume the position of Scoutmaster.

The members of the Boy Scout Committee have been trying to maintain the Scouting program since our former Scoutmaster moved out of the area, but the Troop needs the unified leadership that can only result if a qualified individual will assume the position of Scoutmaster.

If you have any questions about this position or if you know of anyone else who might be interested in becoming the Scoutmaster please contact Leon Brockelsby at 885-5826, or contact any of the other Boy Scout Committee members.

HAPPY BIRTHDAY MOTHER & GRAM, FROM YOUR GANG IN MILWAUKEE, MINNEAPOLIS, OSHKOSH, GREEN BAY & WHITE PINE.

..DISCONTENT usually comes from getting everything you want without much of a struggle.
