Califaya or King's Bark was unknown until the middle of the 17th century. Humboldt makes favorable mention of its salutary qualities as an antidote to Fever and Ague. Dyspepsia, Nervous Affection, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diabetes, etc. In 1679 he sold the secret of its engine to Louis XIV, by whom it was divulged. It is now the all important ingredient in Drake's PLANTATION BITTERS, and preserved as it is pure. St. Croix Rum, contains a tincture of bark, and one that should be upon the side-board of every family. Messrs. P. H. Draper & Co., the sole proprietors of the celebrated PLANTATION BITTERS, are the largest importers of Califaya Bark in America. The Bark is gathered and cured under the immediate supervision of an agent sent out to Brazil, expressly for that purpose, and sold from a few thousand pounds up to several hundred thousand pounds.

The reader may naturally ask whether it is more

expensive to buy the bark than to grow it.

The bark is sold at \$100.00 per pound.

**PRINTER WANTED.**

A steady young man can find a good situation at this Office.

By TELEGRAPH.—The Norman left Marquette this morning at 7:30 and will come to Copper Harbor and from thence to Silver Island; it is uncertain whether he will come up further.

Having dispensed with the services of our former, we have had to get out the paper as best we could for this week; until the arrival of our new foreman, we shall be compelled to issue it half sheet.

Several communications, and other matter prepared for this issue, we are compelled to lay over till next week.

Fire.—An alarm of fire was raised last Monday, and was promptly responded to by the Fire Department.

The fire was found to proceed from the roof of the residence of Richard Myrie Engle, and was extinguished with but little damage. The chimney had been on fire during the morning, and it is supposed that a spark lodged under the shingles, and burst through to the boards.

Our citizens and Fire Co. should rejoice; some of Babcock's Fire Extinguishers at once, they might save a large amount of valuable property.

BRIDGE.—We are glad to learn that the bridge across the Ontonagon river, built last fall by the Haring Bros. has withstood all the temptation to surrender to the ice and timber, and have come down the river this spring's breaking up, long may it stand.

CAN. SIX IR.—Several gentlemen have said to us the present week, “that they would give them a good editorial notice, they would buy from us three or four papers. We can't sell it—it will cost you ten cents a line for a local notice, or one dollar for a hump. Come down with your stamps, gentlemen.”

SEVERAL parties of men have left Rockland this week, to bring the timber down which the Contractors have been getting out through the winter, to build the crib for the government pier, they expect to be able to get it all down in about two weeks.

BLAST FURNACES AT DULUTH.—The amount of iron offered by the Duluthians for the erection of a blast furnace at that place, is in city and town lots, nine thousand dollars; cash two hundred dollars.

Pshaw, we can beat that already, we have one cash subscription already of five hundred dollars, and another of three hundred dollars in our city and town lots, don't quite amount to nine thousand dollars yet, look out Duluth or we shall get ahead of you yet.

SURGICAL OPERATIONS.—A tumor was lately removed from the left temporal region of Miss Mary Jane Stephens, residing at the Ridge Mine in this County. The tumor was about the size of a small orange, and about the size of a large walnut, and was what was known as a Cystic tumor of the Abdominal varieties. The wound was closed with Silver Sutures, dressed with Carbolic oil, and has healed up leaving scarcely any scar; the operation was performed by Dr. Overfield of Rockland.

GOOD FOR OXYGENATION CONC.—Our jail has been without an oxychlorine, inhabitant for to many months. This speaks well for Ontonagon county morals. Where one finds a community so free from crime, even of the most inferior degree requiring the incarceration of an offender, a conclusion can be drawn readily that it is a good place to live in. We read in all of our exchanges of broils brewing in the peace, stability, shooting flights, robbery, and the like, and of the whole catalogue of crime, and the report of such is extended in the local press indefinitely, and their readers are regaled by the choice morsels. We have no occasion to set such a dish before our readers. We give them good, wholesome, plain food, and they live and thrive upon it. If the inhabitants of every country in the State would imitate

such a people in this newspaper,

the good example set them by those of Ontonagon, less occasion would be given

The Babcock Extricator.

From the Chicago Evening Mail, March 27, 1871.

At 10 A.M. this morning, an alarm was sounded from box 17, occasioned by a fire in the dwelling of Mr. and Mrs. John Dugan, located on the hill road, and every Saturday evening.
