

Lake Superior Miner.

ALFRED MEADS, Editor.

SATURDAY, FEBRUARY 24, 1872.

MINING MATTERS.

STILL THEY COME.

The Central Mining Company have declared a dividend of four dollars per share from the earnings of 1871.

Within the next six weeks, most of the annual meetings of the mining companies will be held, at which the question of future workings will be decided. From what we can learn, there is but little doubt that several of them will decide to commence this coming spring.

We call the attention of our mining companies to an act of the Legislature of this State, requiring them to give notice of all annual or special meetings, in a paper published in the county where their property is located. We mention this because there are many companies in this county, who apparently retain their name and organization, but have totally ignored the provisions of this law, which it appears to us would render their organizations null and void. Among those companies which we have noticed are the Indiana, Bolesman, and the Keweenaw, Keweenaw, Norwich, and a score of others.

MINNESOTA MINE.

As will be noticed in another column, the annual meeting of this company will shortly be held, at which we presume some definite course for future action will be decided on. We notice the stock is enhancing in value, sales having been made at \$5. The mine the tributors are mostly working ground that is yielding a fair amount of copper, so that they are carrying on the works.

COPPERS.

Copper stocks will continue active, the Quincy being the favorite in the Boston market, sales having been made at \$5.50, \$5.00, \$4.50, \$4.00, \$3.50, \$3.00, \$2.50, \$2.00, \$1.50, \$1.00,
