FRESHMEN THROUG NORTHERN HALLS

Physical Education

VERNA GILBERT

Miss Verna T. Gilbert takes the position vacated by Miss Koglin, who is now recreation supervisor for W.P.A. in Michigan.

Miss Gilbert has an A. B. from Pennsylvania College and an A. M. from Oregon University. She has taught at Oskaloosa, Iowa; Eau Claire, Wis.; Minot, North Dakota; Stevens Point Teachers College, and at Adams Teachers College in Colorado.

Primary Group

Joins a National Child Association

Northern's Kindergarten Primary Club has become affiliated with the National Association for Child Education, according to an announcement in a recent issue of *Childhood Education*, the official organ of the association. This club is one of the most active and valuable of the departmental organizations at Northern.

A meeting, to elect officers for the coming year, will be announced soon. Last year Lillian Knutson was president, Miss Olive Fox, kindergarten critic, is adviser.

Below is shown the "mutual agreement" between this club and the national association.

1. We shall attempt to increase our professional knowledge so that we may become better and more resourceful teachers.
2. We shall attempt to promote a more general understanding of the value of early childhood education so that this necessary training can be made available to a greater number of young children.
3. We shall encourage progressive changes so that our profession may improve and grow.
4. We shall work constantly to improve the standard of professional training for teachers and leaders in this field so that we, and those who follow us, may be more ably equipped to guide young children.
5. We shall actively co-operate with all who work for the betterment of early childhood education so that any movement for the good of our profession may have the support it deserves.

MOST MEMBERS OF SENIOR CLASS HAVE POSITIONS

Placement Office Obtains Good Jobs for Over 100 Class Members

The placement of graduates of the class of 1937 proceeded so rapidly this summer that the News has not been able to keep pace. Nearly every member of the class has been placed in a satisfactory position.

The News herewith publishes the entire list of placements of members of last year's senior class. This is complete up to September 17th. The appointment office wishes to stress the fact that appointments are still being made and that calls for teachers are still coming in. A large share of the work carried on by the appointment office this year has been to secure promotion for alumni who have been teaching. In the next issue of the News a list of such alumni will be printed.

Home Economics

ADAH HESS

Miss Adah Hess, State Superintendent of Home Economics in Illinois, comes to Northern to head the department of home economics. Miss Hess has a B. S. from Columbia, and has done graduate work at Rochester University, at Columbia, and at Chicago.

Her teaching experience has been wide, including positions at Chicago, Columbia, the University of Idaho, Oregon Agricultural College, the State College for women at Denton, Texas, and the Mechanical Institute at Rochester.

Under Miss Hess' direction it is hoped that home economics majors will qualify for positions under the Smith-Hughes act.

LYCEUM NUMBERS CROWD CALENDAR

Best Assembly Programs in Years are Lined Up for Fall Term

Plans for the fall term assembly numbers have been completed and given out at the general office. The program combines entertainment and information, and the student who misses any one of these numbers is cheating himself out of something worth while. The programs appear in the following order:

- September 27, General Assembly Attendance at this assembly is compulsory, because many announcements of great importance will be made. There will also be entertainment.
- October 6 (Wed.), Circus. This is something new in assembly entertainment. A real live circus will be brought on the stage, with acts performed by birds, monkeys, dogs, ponies, a bear, and others. The Bible's Animal Circus is a high grade professional company which brings a complete one-ring animal show.
- October 11 (Mon.), Geo. Blakslee Geo. Blakslee is an astronomer, and gives his lecture, *The Photography of the Heavens*, for the third assembly number. The talk is beautifully illustrated with lantern slides. The lecturer is a staff photographer of Yerkes Observatory and is a gifted and popular speaker. Mr. Blakslee has long been a popular college speaker.

October 18 (Mon.), Cadman and Quartette Charles Wakefield Cadman, the composer, is well-known to Marquette audiences. He is the composer of *From the Land of the Sky-Blue Water*, *At Dawning, I Hear a Thrush at Eve*, and many other well-known songs. The quartette that appears with him consists of Helen Bickerton, soprano; Constance Eberhart, mezzo-soprano; Blair Stewart, tenor, and Raymond Roch, baritone. They are all competent singers who have appeared in leading operatic roles.

October 25 (Mon.), The Classic Guild

The Classic Guild players who appear on this program are well-known to Northern audiences. Stanley Calleigh, Joan Beckwith, and Leslie Adams, Jr., present *Great Scenes from Shakespeare*, which include scenes from *Jullus Caesar*, *As You*

(Continued on Page 3)

ENGLISH COURSE HOURS CHANGED

An important change has been made in the Composition and Rhetoric requirements at Northern. Classes hereafter will meet on a basis of only three term hours instead of four as formerly. This change has been made to bring Northern's English requirements in line with such requirements in most of the other colleges and universities in the United States.

In previous years a student who transferred to Northern from another college, and who had credits for a year's work in English composition, was required to take Comp. and Rhet. 103 to bring up his term hour requirements in English composition. Students who already have completed one or two terms of work in English composition under the old four-term-hour plan will continue on that basis. Freshmen, beginning their work this fall, will meet their composition classes only three times per week.

President Pearce has announced that further curriculum changes may be expected in the future, with the probable addition of other three-term-hour courses, as well as two-term-hour courses.

Cooking and Sewing

LOUISE CARLBERG

Louise H. Carlberg takes the position left vacant when Miss Hunting accepted a position in home economics at the University of Indiana. Miss Carlberg comes from Iowa, and has a B. S. from Iowa State, and an A. M. from Columbia. She has taught for seven years in Iowa.

FRESHMAN DAY BRINGS OUT 200 NEW STUDENTS

Beginners Have Busy Day of Conferences and Amusement

Approximately 200 freshmen entered Northern yesterday to participate in the annual Freshman Day program. The day began with a meeting in the auditorium, where freshmen listened to a speech of welcome by President Pearce. They were given valuable advice concerning their future conduct at Northern, and received an inkling of the work as well as fun that awaited them here.

Following the general meeting, the class was divided into groups and adjourned to various classrooms where the vital statistics sheets were filled out. During the afternoon the new freshmen returned to meet department heads and discuss the matter of required subjects and majors and minors in the various departments. It was here that most of the incoming students selected the course which each one made ready to follow for the ensuing four years. After these meetings many of the newcomers repaired to the athletic field to watch the football team put in some hard licks in preparation for Saturday's game against Oskosh.

In the evening the class returned to school once more, but this time for a social evening. Tours of the building, including hikes down the long, hot tunnels began the fun. Then the class was treated to movies of life at Northern, including the Rush pictures of 1937. By this time refreshments were ready, and the youngsters enjoyed that in the reception room downstairs.

The lunch was followed by a series of games in the Gym. An informal dance ended the evening's program.

ATTENTION MEN! FOR GET-TOGETHER

The annual faculty Men's Get-together takes place a week from tonight, at 8:30, in the main Gym. The old students know that this is an enjoyable occasion, and freshmen should all plan to attend. The faculty men dig into their own pockets to pay for everything—entertainment and supper are free to all men students.

The fireworks begin with a band concert in the gym, and when the faculty cooks yet another "rush" a rush will begin for the cafeteria counters, where a supper of hot pasties, doughnuts, coffee, sippers, pickles, etc. will await the crowd.

The meal is always followed by a program of music, novelty numbers, boxing and wrestling bouts, and a baseball or volleyball game between faculty and students. A good time is guaranteed.

Early Elementary Leads in Unfilled Teaching Positions

Northern's appointment office has assisted a large number of alumni to obtain better positions, and has placed nearly every graduate of the class of '37. An unusual situation developed when 88 positions could not be filled. The appointment office could find no teachers for a large number of good positions that opened up. Some of these jobs called for combinations of subjects that no available teachers had, but many of them were good positions in departments where the demand for teachers was greater than the supply.

There seems to be a real shortage of teachers in the early elementary field, and new students would do well to consider this fact when they are arranging their courses.

- Unfilled positions on file in the appointment office include:
- 33 Early Elementary.
 - 14 Music.
 - 8 Home Economics.
 - 8 Intermediate.
 - 6 Industrial Arts.
 - 4 Commercial.
 - 3 Rural.
- The rest are scattered over many fields, including French, Latin, English, and quite a few unusual subject groupings.

The President's Welcome

Marquette, Michigan, September 17, 1937

TO EACH and every student at Northern:

I wish to extend to each of you personally a most cordial welcome. I shall be glad to make your acquaintance, and invite you to visit me in my office at your convenience. You may bring me your problems, or you may come in for a friendly chat.

Northern State Teachers College is approved by the American Association of Teachers Colleges and by the North Central Association of Colleges. Northern's faculty is of the best, and in attending Northern you have an opportunity second to none of securing a collegiate education of high order.

One's education, however, is a very personal matter. No matter how fine the college, a person's education depends upon his personal efforts and achievements. Inspiration may come from faculty or fellow students, books or external sources, but the real development and educational growth must come through personal effort. Given a chance to attend college, the student is very largely responsible for that education which he seeks and which will make it possible to be a more perfect human living among other humans.

Each of you has a many sided nature, and should make every effort to develop these many sides into a well-rounded educated person. You should grow physically, intellectually, socially esthetically, morally, and religiously. Take careful stock of yourself—your natural gifts and inheritances, your previous education, your weaknesses and your strengths, and then by careful planning see to it that you grow into a fine, well-balanced, poised, well educated individual. A person that only you can become—a significant person, physically, intellectually, socially, esthetically, morally, religiously.

To make the most of college life at Northern you should see to it that your living conditions are agreeable and healthful, that your roommate and other college associates are cooperatively helpful. Be very sure you are properly enrolled and that you have proper study arrangements. Set up your daily program to combine recreation, work, and study in such proportions as to give you a daily consciousness that you are growing into an educated person.

I congratulate you upon your opportunity to attend college. You should be extremely grateful to those who have made it possible.

I extend to you my sincerest wishes for your success. Assuring you that my office door is always open to you I am

Very respectfully yours,

Webster H. Pearce

Northern Students Take Roles In Marquette's Summer Theatre

The Marquette Summer Theatre, whose first season was a successful and even brilliant one, offered many of Northern's summer students actual experience in stagecraft and acting as well as the enjoyment of witnessing excellent professional work.

Director Joe Callaway, who comes from Chicago and is now spending the fall season in New York, directed and presented one show a week, with two or more performances for six weeks. He worked with a group of six professionals, whose enthusiasm and untiring capacity for good hard work on each production marked them as fine showmen.

Their repertoire consisted of Noel

Coward's "Hay Fever;" "Double Door" by Elizabeth McFadden; Shakespeare's "As You Like It;" "There's Always Juliet" by John Van Druten; "The Milky Way" by Lynn Root and Harry Clork and "The Drunkard," by P. T. Barnum.

It is interesting to note that at the end of the season voting for the favorite production placed "As You Like It" in first place. The Dramatic Production class spent many hours of constructive work in the workshop under the direction of technical director, William Fenton. Both the men and women learned something of the intricate

EDITORIALS

To Start Right

ENROLLMENT DAY has again rolled around and a new school year is beginning. Try to make this the most successful school year you have ever experienced. Start right out by starting right! Put your whole self into the work or field you have chosen—"a good beginning invariably means a good end." But do not enter carelessly into one field of study and continue that throughout your entire four years of college without giving one or more other fields a trial. You might find yourself fitted and interested in something entirely different than what you had chosen just off-hand as your life work. We will never know how many great scientists, or musicians, or artists, or teachers, "might have been" had the opportunity been given for their talents to express themselves. These same people have probably reached a mediocre position in the business world, never dreaming that in some other walk of life they might have reached the top. Dip into several fields. Especially if you are undecided as to where your life interest lies, it is well to give the various fields a trial, and thus find the one for which you are best fitted. When you have found wherein your interest lies work with the highest possible goal in mind.

Northern offers you various opportunities to realize your ambition. There is the Art department, the Physical Education department, the Manual Training department, Music, Home Economics, Commercial, Geography, History, and Biology departments, as well as several others. You can even obtain a pre-medical course.

For your entertainment there are Lyceum courses offered, and social evenings given; then there are the numerous clubs and societies which you will enjoy belonging to.

If you are at all athletically inclined be sure to join one or more of the several recreational groups and play in competitive games. Help score more victories for Northern. Do your best and make everyone do his best to keep up with you. If you don't go in for active sports in a big way you can do your bit by cheering for the rest.

Get into the spirit—into the swing! Put forth your best foot. Make a lot of new friends and keep your old ones. You'll be bound to like Northern and Northern will like YOU.

Three Cheers for Northern!

Heads Up

COMING TO NORTHERN is a brand new experience for some of us. It opens a new chapter in our lives. It is up to each of us to do what we will with it.

A large percentage of us have already decided before we come that teaching is to be our ultimate field of endeavor. It is to those people that this editorial is addressed.

We come first of all to work and to work diligently. Courses are provided which will direct our thinking in new channels, as well as enlarge our concepts of old ideas. Book work is important. Contact with specialists in particular fields is valuable. Association with classmates and the student body in general is essential to a well rounded college career.

Right here we sound a warning. We must not allow our studying to become so time-consuming that we forget the human interest side of our existence. We must learn how to study as our first lesson in college. We must become accustomed to making every hour of industry count for something definite.

Here in our college are to be found much more than we can discover in books. There are as many personalities as there are students and faculty. Each has something to offer if we are but willing to receive.

We must try to keep in mind that a teacher has an important place to fill in his community. He must be ready to do it to the best of his ability. He cannot rely upon book-learning to the exclusion of all else. His personality must be pleasing. He must radiate his virtues. He must be prepared to fit himself into any one of a number of different types of communities in which he may teach. He must cultivate tact. It is all-important!

We cannot flaunt a certificate of college graduation in the face of anyone and expect it to suffice. It is something of which to be proud, indeed. It shows that work mapped out for us has been completed satisfactorily. It should give us the power to carry on beyond one who has been less fortunate than we who have had the opportunity of a college education. However, we must prove the worth of that endeavor.

Let us try to plan our years in school with a good deal of precision. Remember that for some of us it will be our last school experience. Let us keep alert for anything we may garner—no matter what the source. We may forget specific facts and statistics, but impressions are helping us mould the kind of personality that we may wish to be.

ADVICE TO THOSE COMING IN FROM THOSE GOING OUT

From four years of accumulated wisdom we generously impart to the new-comers some choice bits of advice:

Please remember that the main library is like the Biblical sheepfold—only one way in. (The other way leads out). After you're in, it pays to remember the watchword: *Silence*.

Be sure to take a nap in each class; the instructors don't mind. Don't let the professor's sarcasm embitter you; take it with a grain of salt.

Speaking of professors, remember that Halverson likes bluffing, while McCollom prefers strict attention. When you're feeling blue, don't let anyone know it. Smile instead, at everybody, and it'll vanish like magic.

You'll find new beauty spots in the most unexpected places. Be sure to explore the College woods, the lake shore, and the cemetery. The most charming view of the lake can be had from the English rooms. In addition, it makes excellent material for themes.

As a rule, it pays to take advice from upper classmen, but if they try to rope you into "pipe" courses, beware!

Don't forget that it actually pays to study. However, don't carry it to the extent of keeping your room-mate awake all night.

Please keep in mind that Miss Gary, Dean of Women, and Mr. Lee, Dean of Men, are your friends, here to assist you. They'll be glad to hear of your triumphs, as well as your troubles.

WELCOME TO INCOMING FRESHMEN

To you who are entering the halls of Northern for the first time, we take this opportunity of extending you a hearty welcome. We welcome you to cheery classrooms and spacious halls, to an attractive foyer in which to gather (between classes), to large gym and recreation rooms in which to enjoy yourself, and to the varied scenery of a broad campus when inclined for a stroll.

We welcome you to join in with the life at Northern, to be one of us. We are eager that you spend four happy years, filled with the joys of achievement, of acquired knowledge, of new and happy friendships.

But more than all this, we welcome you to share in our joys and sorrows. We would earnestly desire that you experience only the former, but from experience we know that every rose must have its thorn. It is only as we surmount difficulties and overcome obstacles that the final conquest becomes a victory and the rose that we pluck a thing of beauty forever.

Yours is the opportunity to sit "at the feet of Gamaliel." As wise students, we know you'll do your best. You will have temptations to fight, battles to win. We cover for you greater victories, for it is your life, your ideals, your accomplishments which will decide the fame of Northern. To you we toss the banner, that you may hold it high.

JEAN WITTLER IS NEW OFFICE CLERK

Mrs. Jean Wittler is a new assistant in the general office. She was employed temporarily during the summer, but her efficiency and valuable services made it imperative to keep her on a regular appointment. Mrs. Wittler was formerly secretary to Mr. Criss, when the latter was county commissioner of schools, and also when he was warden at the prison. Mrs. Wittler is a graduate of Marquette High School and has spent several terms at Northern.

FACULTY FACTS

Many of the faculty spent their summer vacations traveling, although several did research work and further study. All who have reported at the News office to date look very fit and ready for the year's work. What is more important is that they seem cheerful and good-natured, perhaps because of the recent salary increases. A partial list of the faculty summer activities follows:

Mr. Chase and Mr. Copper remained in Marquette and built new homes.

Miss Carey spent part of her vacation at her home in Harbor Springs.

Mr. Bowman is on his way to Florida, where he expects to remain during the fall and winter terms.

Mr. Brown visited his parents near Zanesville, Ohio.

Mr. Halverson toured the West and then headed for the East.

Mr. Ferns completed work on his M.A. at Iowa State University.

Miss Craig received her master's degree this summer in Chicago.

Miss Dunbar remained in Marquette where a brand new grand niece occupied much of her attention.

Mr. Ebersole drove to California. Mr. Clucas visited relatives in Ohio.

Mr. Butler completed work on his M.A. at Michigan State.

Mrs. Wentala and Mrs. Duttmer drove to New York and Washington, D.C.

Miss Denmore also drove to New York, and toured in Pennsylvania.

Miss Olson attended the Library Association meeting at the Waldorf Astoria in New York, and then toured in the East.

Miss Phelps visited at her home in Denver, Colo.

Mr. Meyland raised vegetables on his farm at West Branch and then took a trip along the Mississippi.

Mr. Gant visited relatives in Indiana.

Mr. McClintock went to Canada on a fishing trip, and has some whoppers to tell.

Mr. Lowe did Conservation work during his spare time.

Mr. Pearce addressed a teachers' institute in Illinois.

Mr. Hurst visited relatives in Tennessee.

Mr. Roberts visited relatives in Iowa.

Miss Spalding spent part of her vacation in Chicago.

Miss Ward went to Cleveland, Ohio.

Miss Cooley went to the Smoky Mountain National Park in North Carolina.

Miss Van Antwerp visited in Macomb, Illinois, and also visited her nephew, Dan McNord '28-'29, who has been appointed superintendent of schools at Marcelona.

Mr. Slick toured the country on his annual prospecting trip.

Mr. Thoren visited New York and Washington, D.C.

Miss Loubert toured the Gaspé Peninsula.

Miss Marsh visited in Chicago.

Miss Herald went to her home in Oconto, Wis.

Miss Haven went to Douglas, Mich.

The News is waiting for the rest of the faculty to report.

Miss Priscilla Denmore, secretary to Mr. Lee, is walking to school these days; the reason, her car was stolen last week. Because the car disappeared on the night when a convict escaped from the prison, it was feared that he had made his escape with Miss Denmore's Buick.

The convict has since been recaptured, but the car has not yet turned up.

OSHKOSH GAME OPENS GRID SEASON

VARSITY DRILLS A WEEK BEFORE SCHOOL OPENS

Eleven Letter Men Form Experienced Nucleus for 1937 Team

Twenty-three experienced players last Monday morning, began working on the old college field in preparation for the season's opener here on Saturday, September 25, when the Northern State Teachers football squad will meet Oshkosh, Wis., Teachers.

Eleven lettermen are included in the group going through their early season paces. They are Co-Captains Floyd Carlson, of Stambaugh, and William Koski, of Humboldt; Dick Contardi, of Iron River; Leonard Hunter, of Newberry; Robert Villmure, of Newberry; Robert Gaffney, of Lake Linden; Roy Wehmann, of Marquette; Edwin LaCrosse, of Rapid River, Paul Olson, of Marquette; Francis Vertot, of Stephenson, and Fred Bernhardt, of Rapid River.

Two other 1936 letter winners, Tip pet and Paul Koski, of Marquette, are expected to join the squad within a few days.

Reserves from last year include Erwin Jadin, of Gladstone; Paul Eddy, of Rockland; Ewald Erickson, of Negaunee, and Keith Anner, of Marquette. "Red" Westrich, of Bergland, returning to Northern after an absence of several years, is making a bid for a berth on the grid eleven.

TWO WORKOUTS DAILY

Getting their first taste of varsity football, seven of last year's freshman team are among the 1937 candidates. They are Schrenk, of Lake Linden; Goodney, of Ishpeming; Poisson, of Iron Mountain; Kukk, of Filippula and Oates, of Marquette, and Lindberg, of Negaunee.

Two workouts a day, topped off in the evening with a "skull" session or lecture, are on the grid's menu for this week.

An innovation in the way of practice equipment on the field Sept. 13 was the individual charging machine. Constructed at Northern, it is intended to harden football men's shoulders to the bodily contact that comes later in the season. Like all novelties, it was popular with the squad yesterday, probably to their regret this morning. The tackling dummy also was used yesterday.

About five freshmen are taking part in the workouts with Northern's candidates.

LYCEUM NUMBERS CROWD CALENDAR

(Continued from Page 1)

Like *It*, and *The Taming of the Shrew*.

Nov. 1 (Mon.), The Music Faculty
Mr. Williams, Miss Craig, and Miss Rarick will present their specialties to the Northern audience. It goes without saying that this will be one of the best assembly programs of the term.

Nov. 15 (Mon.), Joseph Schnitzler
Joseph Schnitzler is one of the most inspirational speakers in the world. The story that he tells can't help but inspire every listener.

Nov. 22 (Mon.), Charles Eagle Plume
Eagle Plume is a Blackfoot Indian, and gives a very entertaining and instructive lecture on Indian life. His dances and songs are very worthwhile. His costumes are beautiful, authentic, and very valuable.

Dec. 6 (Mon.), Honors Assembly.
This is the occasion when awards are presented to the varsity football men, and a general pep meeting is held. It is a good and fitting close to the term's assembly activities.

Senob, Vera, Marquette
Snell, Isaac, Ishpeming, Detroit

Two other 1936 letter winners, Tip pet and Paul Koski, of Marquette, are expected to join the squad within a few days.

Reserves from last year include Erwin Jadin, of Gladstone; Paul Eddy, of Rockland; Ewald Erickson, of Negaunee, and Keith Anner, of Marquette. "Red" Westrich, of Bergland, returning to Northern after an absence of several years, is making a bid for a berth on the grid eleven.

TWO WORKOUTS DAILY

Getting their first taste of varsity football, seven of last year's freshman team are among the 1937 candidates. They are Schrenk, of Lake Linden; Goodney, of Ishpeming; Poisson, of Iron Mountain; Kukk, of Filippula and Oates, of Marquette, and Lindberg, of Negaunee.

Two workouts a day, topped off in the evening with a "skull" session or lecture, are on the grid's menu for this week.

An innovation in the way of practice equipment on the field Sept. 13 was the individual charging machine. Constructed at Northern, it is intended to harden football men's shoulders to the bodily contact that comes later in the season. Like all novelties, it was popular with the squad yesterday, probably to their regret this morning. The tackling dummy also was used yesterday.

About five freshmen are taking part in the workouts with Northern's candidates.

LYCEUM NUMBERS CROWD CALENDAR

(Continued from Page 1)

Like *It*, and *The Taming of the Shrew*.

Nov. 1 (Mon.), The Music Faculty
Mr. Williams, Miss Craig, and Miss Rarick will present their specialties to the Northern audience. It goes without saying that this will be one of the best assembly programs of the term.

Nov. 15 (Mon.), Joseph Schnitzler
Joseph Schnitzler is one of the most inspirational speakers in the world. The story that he tells can't help but inspire every listener.

Nov. 22 (Mon.), Charles Eagle Plume
Eagle Plume is a Blackfoot Indian, and gives a very entertaining and instructive lecture on Indian life. His dances and songs are very worthwhile. His costumes are beautiful, authentic, and very valuable.

Dec. 6 (Mon.), Honors Assembly.
This is the occasion when awards are presented to the varsity football men, and a general pep meeting is held. It is a good and fitting close to the term's assembly activities.

VICTOR HURST

Victor Hurst has the job of piloting Northern's Varsity football team through a difficult schedule. He has stated that early practice showed that the team would develop much power this season and will give a good account of themselves.

L. E. GENSIVIER, Prop. "Just a Better Drug Store"

N.Y.A. STUDENTS REDUCED TO 41

Total Aid Money for School Year will be \$615 Per Month.

The N. Y. A. program of student work will again be in force for the year 1937-38, but on a reduced basis. For this school year the total number of students employed by N. Y. A. will amount to eight per cent of the enrollment at Northern during October 1938, which amounts to 41 students. Last year the figures were twelve per cent of the previous October enrollment, which gave help to 61 students.

Last year the school was allotted an additional \$300 per month, which gave a total of \$1215 per month to 61 N. Y. A. workers. This year the total will amount to only \$615 per month for an average of \$15 per month to each N. Y. A. student. This year also, only such students who can show that they could not remain in school without N. Y. A. help will be accepted for such work.

Alumni, Faculty and Student Item:

Ed Hosking, B. S. '24, resigned his teaching position in Kansas City, Mo. He employs seven music teachers at his school. Mr. Hosking won the state championship with his bands for four consecutive years. His bands had won the state championships in Iowa before he went to Kansas City.

Mr. Meyland was the guest speaker at the state convention of pharmacists at Ishpeming last Tuesday. His subject was "The Physical Basis of Personality."

Mr. Chase, B. Hedgcock was one of the speakers to dedicate the new bleachers at the Norway High School football field last Saturday. The Norway field is known to be a remarkably soft and springy one, a field that all players delight to play on.

Norway, for the first time in many years defeated Stambaugh 6-0. The Norway team is coached by Allan Ronberg, B. S. '31, one of Hedgcock's proteges.

Isabel Steele, Mr. Chase's reader, had one rather full day last summer in the afternoon she was engaged in having to bring Henry Ford into the history office. In the evening, on her way home to Negaunee, she was struck by a car.

Athletic Director

C. B. HEDGCOCK

C. B. Hedgcock, Northern's athletic director, handles the destinies of the Frosh squad. He has issued a call for all freshmen interested in football to report to him on Tuesday. Up to the present time one game, with Marquette High School has been scheduled for the freshman.

Elvin Niemi, A. B. '33, and Mr. McCollum paid a visit to the University of Chicago summer camp at Rapid River. The camp is conducted by Dr. Clapp, for the purpose of studying field geography conditions. Dr. Clapp has conducted similar studies in the upper peninsula at Crystal Falls, Iron Mountain, and other places.

Although Mr. Chase spent most of the summer superintending the building of his new home, he also spent considerable time in his office. One day, late in August, he was mildly astonished to learn that Mr. Henry Ford, who manufactures automobiles in Detroit, desired an interview.

The visitor was ushered in and stayed much more than an hour. According to Mr. Chase, the conversation dealt with history and early Americana, and scarcely touched the subject of Fords and Lincolns.

SIX GAMES ON GRID SCHEDULE

Northern's gridmen have a tough schedule this fall, playing six consecutive Saturdays with no "soft spots" anywhere in the lineup. All students should make sure that they receive their season tickets on enrollment day, and should make sure also that such tickets are not lost. The student body will have an opportunity to see the team in action on the first Saturday of the term. The schedule is as given below:

- Sept. 25—Oshkosh, here.
- Oct. 2—Ypsilanti, here.
- Oct. 9—Central, there.
- Oct. 16—Mich. Tech., there.
- Oct. 23—Mich. Tech., here.
- Oct. 30—Ironwood, J. C., there.

Miserez Returns

His many friends will be pleased to learn that Mr. A. L. Miserez will again teach classes in literature during the fall and winter terms. Mr. Miserez was at Northern last winter and summer terms, and will again take over the classes of Mr. Bowman who is spending the fall and winter in Florida.

Elvin Niemi, A. B. '33, and Mr. McCollum paid a visit to the University of Chicago summer camp at Rapid River. The camp is conducted by Dr. Clapp, for the purpose of studying field geography conditions. Dr. Clapp has conducted similar studies in the upper peninsula at Crystal Falls, Iron Mountain, and other places.

KO-ED KORNER

Experienced Grads Leave Words of Wisdom Behind

TO YOU FROM US.
Dear Enrollees and Freshmen:

We the departing—the Seniors—thought we should furnish YOU with a little advice (no charge, thank you—it's free) upon beginning your new college year.

First, we wish you luck in starting. We hope you get in the right room for enrolling. We hope you remember your new telephone number and your new landlady's name. We hope you are not a student that enrolls in a course "on trials" and then changes his card three or more times the first week.

Secondly, we hope there are a lot of cute freshmen again this year—and that the percentage of blondes and brunettes is even; also that the men quote equals that of the women. So much more exciting doncha know?

Thirdly, we want to acquaint you with the custom that is fast becoming a tradition: (If you are already familiar with what's coming just skip it. No hard feelings.) The girls hang over the balcony railing and look down into the foyer, while the boys all collect in the doorway of the main entrance and look up. You know, like the famous balcony scene, but with a hundred Romeo's (and two hundred Julietts).

We have compiled quite a list of things we would like to have you do—we are enumerating just a few, (space would never permit the number in full).

1. Kindly take good care of NORTHERN for us. (We'll want to visit you in a year or so to show you how prosperous we are.)

2. Please take good care of our College NEWS, and hand up each copy meticulously. If you simply must dispose of them do so patriotically, you know, crumple them up carefully and deposit in the waste basket. Don't just toss them over the back fence into the neighbor's yard.

3. Today you will find out the location of the book store. After the first week of school purchase a goodly supply of yellow books. It's well to be prepared (Yellow-books, Freshmen, are to allow you ample opportunity for display of penmanship and for expounding your knowledge. This looked for opportunity can be expected any time after the fourth day.)

4. Boys, Northern's tradition is: "no smoking on the campus," so kindly refrain, and save the administration the embarrassment of putting up signs.

5. Fellow students: Always re-

turn your reference book to the library on time, or you shall find yourself on the "black list," which looks all the blacker by being exposed before the public eye by being tacked on the bulletin board. This has its points though in that it does get your name in print.

6. We who are passing out (of school) pass on to you our immanity (?) to cutting classes. We think the skipping-school hobby is the most abominable, the most contemptuous, the most disrespectful, the most abhorrent, loathsome, odious, repugnant year-round-sport ever invented. We think it's horrid! Why, we have never cut classes (very often).

This letter wouldn't be complete without a list of don'ts, and they are so much easier to write:

1. Don't look for "pipe" courses. There just aren't any.

2. Don't write notes in class—it really is a terrible strain on all your neighbor's eyes.

3. Don't fail to show your college spirit at all college athletic events. Let the team know you are with them.

4. Don't give up because your first college romance went haywire, or even your second or third. After you've reached the 25th its time to worry.

5. Don't do too much apple-polishing. After a certain stage it becomes obvious and loses effectiveness.

6. Don't park your gum:

(a) at the bottom of your chair
(b) underneath the arm of your chair
(c) on the back of the chair you are sitting on
(d) on the back of the back of the chair in front of you.
(e) on the front of the back of the chair in back of you.

Swallow it!
Upper Classmen: If you have already heard these words of wisdom, kindly forgive us. Your turn to expound will gradually arrive. And, Freshmen, we do hope you'll like our college, and after you've absorbed the advice we have so kindly given (a word to the wise is sufficient, you know), we know you will be just ever so grateful.

Now Freshmen, Sophomores, Juniors, Seniors potential and otherwise—all—we wish you a successful year and year.

Most sincerely yours,
The departing.....

Home Ec. Students May Qualify for Smith-Hughes Act

Upon the addition of Miss Hess to Northern's faculty, in the home economics department, President Pearce is hopeful that the graduates of that department will qualify for positions in Smith-Hughes Act schools. A number of high schools in the upper peninsula, and quite a few high schools and colleges in the state come under Smith-Hughes rating.

To qualify for this rating will require some new courses and some extra work on the part of the "Home Ecors," as well as the establishment of a practice house during the summer term.

See and Saw

This see-saw title gained great popularity last year when Jayne Kitzman and Marna Alvord were the heading for their intimate dirt column. The department is sure to be continued, although whether or not the *entrepreneurs* will continue it is impossible to state at this time.

While not universally popular, the column carried out the prime requisite of a good newspaper column; it was read by nearly everyone, and it was talked about. A check-up conducted from the railing of the foyer revealed that 70% of the students turned first to *See and Saw* to learn the news gossip.

During the school year the student body was able to keep track of all budding romances, every case of "two-timing" was carefully checked, attendance at all extra-school affairs was carefully watched, and in general, the two reporters became very efficient snoopers. Efforts to write them proved useless; their integrity was never questioned.

The popularity of the column became so great that home town newspapers began using it for feature write-ups. The reporters became the most feared people at Northern.

All this is mentioned to inform students that a friendly but severely critical eye will be focused upon them at all times, and that the way to avoid mention in *See and Saw* is to follow the letter as well as the spirit of all school rules.

The column again expects to be popular but not well liked.

Northern Students in Summer Theatre (Continued from page 1)

rules of stage design. Don Dush, a member of the class, was appointed stage manager for the season by Mr. Callaway. In one of the outdoor productions, "As You Like It," all the men in the class took an active part in the streamlined version. Those with speaking parts were Louis Jacobs, Paul Siegel, Eino Michelson, Alfred Anderson and Frank Bedner.

From time to time, during the season, Northern students assisted with stage work or properties. Lysle Hutson and Viola Rosevear were assistants in charge of properties for one play. Stanley Susan was chosen for character roles in "Double Door" and "The Drunkard."

Miss Ellen Richards, who is a graduate of Northern and is now teaching dramatics in Menominee, took several leading roles and proved herself capable of outstanding professional work.

Forest Roberts, president of the summer theatre organization, and Mrs. Cune Meyland, secretary of the organization, contributed to the success of the theatre season by their capable work as leaders in making the project a fine one. Mrs. Meyland was in charge of publicity. Mrs. John Laumer assisted with stage arrangements in several productions.
