

SEGGS HOP LEAP YEAR DANCE TOILE

Doings of Cambium Club Reviewed For Past Months Showing Work of Members

President Of Society Announces Plans For Coming Semester

The Cambium Club is one of Northern's really active clubs. Much has been done by the group this semester, and more may be expected in the months to come. Due to the fact that the club has received but scant publicity during recent months we take this opportunity to review the doings of this organization for the fall semester.

At the last meeting of the Cambiumites in June, Wesley Kumpula was chosen president, Stanley Suson, vice-president, Katherine Landry, secretary, and Enick Zychowski, treasurer. This fall the officers took charge to start the new year bustling with activity.

Advisers of the Cambium Club are: Dr. West, Mr. Butler, Rollin Thoren, and Miss Volle. The membership list at the beginning of the semester included: Ewald Erickson, Wilbur Gustafson, Muriel Dahlstrom, Nyla Eines, Margaret McCarthy, and Ruth Anderson, besides the officers.

In October, six new members were initiated into the society, namely: Roland Manty, Evelyn Easley, D. B. Leonardelli, Quentin Peterson, Arthur Benoit, and George Jaaski. An initiation ceremony took place with all the trimmings. At one of the November meetings, the Physical Education Club combined with the biology group to hear Dr. Drury, Marquette City health officer, speak on "Communicable Diseases."

In December, the possibility of admitting associate members was discussed. All students who have completed one year's work in biology or agriculture will soon be eligible for associate membership, provided they meet scholastic requirements and are working on a minor or major in either of the two fields. Such associate members must maintain a scholastic index of one (1) and also complete a minor in biology or agriculture to become a regular member.

The year was brought to a close by a special program just prior to the Christmas vacation.

During the holidays, Dr. West visited in Columbus, Ohio, where he attended the annual meeting of the American Association for the Advancement of Science. A full report of his observations and experiences was given before the Cambium Club at the regular meeting of January 9.

On January 23, Mr. Butler and Quentin Peterson collaborated in presenting a program on "Visual Education." The talks were illustrated by slides and film strips, many of which were Mr. Butler's own work.

During this semester, the following reports have been presented: "Parasitic Roundworms in Dogs," by Dr. West; "Parasitic Diseases in Fish," by Stanley Suson; "Sal-pharyngitis," by Ewald Erickson; "Parasitic Insects of Domestic Animals," by Roland Manty, and "Insect Galls," by Katherine Landry.

The program committee is now at work planning their schedule for next semester. The members of Northern's Cambium Club are enthusiastic workers. They have taken a scientific attitude toward their work, and are solely responsible for the success of their society.

MISS CRAIG

BLACK LIST TO BE LIFTED SOON

Northern State Teachers College, which was placed on the unfair list by alleged violation of rules of the American Federation of Musicians, is once more negotiating with the A. F. M.

Northern was placed on the unfair list last November after engaging the Kyrö Symphony orchestra for an assembly program. It seems that at that time there were some rather serious misunderstandings which have since been straightened out.

At present it appears that the College may soon be placed on the fair list once more. In that case the College will once more be able to hire union musicians for its social activities.

HELP ASKED FOR NEEDEY FINLAND

Second Drive At Northern Started At Urging Of State Committee

Under the sponsorship of Governor Dickinson, the State of Michigan is organizing an extensive drive for Finnish relief. The acuteness of the relief problem in democratic Finland was first presented to Governor Dickinson by Mr. Paatsi, who has a cousin fighting at the Finnish front. Mr. Miller Dunckel, state treasurer, was appointed chairman of the Michigan State Government Finnish drive. Mr. Herbert Hoover, an experienced man in war relief, is the national chairman. Any amount contributed to this cause will be accepted from a penny up.

The money will be cabled to Finland at once. This will fill the gap between the Red Cross activities which emphasize the hospitalization of the needy and the civilian relief. This will aid in giving shelter to the aged, women and children, and provide clothing and other necessities which the Finnish people have been deprived of because of the aggressive attacks by Russia.

This is the second drive at Northern for Finnish relief. The first, a few weeks ago, netted \$87.75 and was sponsored at Marquette. But once again valiant Finland asks our aid. We have not much, as students, but if we would deprive ourselves of a coco cola or other recreational spending money and give a nickel or a dime to those suffering people in Finland perhaps you too will realize that pleasant satisfaction that you are helping someone that needs it.

ANNOUNCEMENT OF NEW COURSE

A new course, Economic and Social Change, 305, will be offered next semester. The course will be an attempted synthesis of the major economic and social concepts around the problem of change and progress. The methodology and assumptions of social science will be briefly examined, and criteria of progress will be evaluated with particular reference to the basic tendencies in contemporary economic and social life. Credit for this course will be given in both economics and sociology. Prerequisites are Sociology 101 and Economics 211.

MISS CRAIG SPEAKS TO WOMEN'S CLUB

The Escanaba Woman's Club had Miss Ruth Craig as its guest on Wednesday afternoon, January 24.

For her program Miss Craig chose "Songs of the Tall Timbers." It consisted of material collected by Miss Craig during the past three years while she has been working on her Master's thesis. Several visits to lumber camps, and contact with lumbermen provided an opportunity for her to hear these colorful ballads and bunk-house ditties first hand. In just one case Miss Craig was able to find the composer of one of the folk songs of life in the lumber camps.

Miss Craig hopes to find a publisher for her collection of songs which vividly picture America in the making. They should be of interest to followers of camp songs and ballads.

NORMAN "BOOTS" KUKUK

"Boots" Kukuk, senior industrial arts major of Northern, and leading scorer for the Marquette Buccaneers in the Northern Michigan hockey league, has been named by hockey experts as one of the best wings in the U. P. "Boots" may play with the Cleveland Barons next fall.

SENIOR BOOKLET BECOMES REALITY

The Senior Booklet is becoming a reality. The various classes have registered one hundred and twenty-five payments of fifty cents which leaves only one hundred more until the minimum of two hundred and twenty-five is reached. The booklet will probably be published sometime in May.

The senior section of the booklet will contain: individual pictures of the students and their extra-curricular activities; history of the senior class; athletic summary; and writings of the various organizations. The senior class president will appoint a committee which will select students who will edit the booklet. An editor-in-chief will be responsible for the writings handled by the sub-editors. They will be chosen to have material written about each field of activity—sports, literary, music, and other organizations.

Freshman, sophomore, and junior classes will have two pages devoted to them. The presidents of the respective classes will appoint students for the summarization of their class activities. Group pictures of the classes will be shown in the booklet. Pictures will probably be taken next semester.

Expenses will be shared by the students and the advertisements of various merchants of the city. All students who have not yet registered for their book and given a down payment of fifty cents are urged to do so immediately, because February 1st has been set as the deadline for all entries.

STORM DISPLAYS WORK OF WINTER

The snowstorm that temporarily crippled communication throughout the Upper Peninsula Monday, January 15th, also was very much in evidence throughout Marquette County.

Although it was the biggest storm of this winter it does not compare with the "big snow" of last winter. Less snow fell, the wind was not as strong, and the thermometer did not drop as low as it did during the storm last year.

Last year's storm necessitated closing all Marquette Schools, including N. S. T. C., for a day. On Monday the 15th few students were seen in the halls of Northern during the morning, but the afternoon brought many commuters and students out.

Chief Engineer Ripley said much less labor was required to remove snow, etc., than was required for last year's blizzard.

NORTHERN MOURNS FRESHMAN DEATH

Ellen Kaleva, freshman, who passed away January 17, was following the pre-professional course in preparation for entrance to nursing school. In 1938 she graduated from the Islipening High School and was a member of the National Honor Society. Not only did she have many friends in high school, but she had also made many new friends here. We all remember her cheerful personality and kind disposition, her fine character, and high ideals. She lived according to her philosophy of life, which was to live now and to make the most of the present.

We like to remember her by the following excerpt from one of her latest essays:

"There is so much joy which life holds; there are so many sorrows which will inevitably overtake us to overshadow many of these small joys. Why should we not allow ourselves more time to enjoy life, so that our realization of the fact that 'Life only avails, not the having lived,' will not come so late that it will not be possible for us truly to live? Let's live now!"

The Student Girls' League sent flowers in expression of their sympathy.

THETAS ORGANIZE FIRST FRAT TEAM

Theta Omicron Rho, falling in with the spirit of the season, announces the organization of a fraternity basketball team. No name has as yet been chosen for the team although several are being considered. A name will very likely be chosen at the next regular meeting of the fraternity.

The fraternity men have shown considerable enthusiasm in basketball this season. So far, fifteen men have registered for practice, including such players as Burt Gustafson, former Michigan State player; Kelly Poole, fast forward from Milwaukee; George Porter; Jack Wiseman; and Marvin Olson.

Captain Gustafson is rather reluctant to give out any information concerning his Theta forces, however he did go as far as to say that, win or lose, his team will not be laying down on the job. From what we have seen of them in practice so far, we would feel safe in saying that the Theta will be playing basketball from start to finish.

Don Young To Play Amid A New Year's Motif For Year's Only Winter Social

LAURIER HUSBAND TO LECTURE MON.

A world traveler and lecturer, Wilfrid Laurier Husband, will lecture at 9:30 Monday, February 5, on "Sweden Where Human Values Count." His lecture will include the showing of natural color motion pictures and slides that he personally took in Sweden.

After two years of intensely studying this country, Mr. Husband is able to give a clear insight into the Swedish people and their economic progress despite the rest of the world. This advanced progress can be illustrated by such facts as—unemployment reduced to 12,000, highest living standard known and no war for 124 years.

This lecture by Mr. Husband will be one well worth hearing and both educational and highly entertaining. At any rate, it may show we Americans how to make democracy best succeed.

RADIO GROUP TO BROADCAST TUES.

State Police Scripts To Be Used In Second Series Later

Dropping casually into a classroom last Thursday evening this report from Northern's radio group is action on a new script. Larry Gay, student announcer, was speaking: "The program you are about to hear comes through the courtesy of the Michigan State Employment Service: A Division of the Michigan Unemployment Compensation Commission, and—" Here followed the complete script, which, by the way, was presented last night (Tuesday, at 6:45) over Marquette's local broadcasting station.

This has been the second time the group has been on the air! On January 16 the cast presented their first drama which gave the promise to Miss Swanson, adviser, that her radio enthusiasts had talent. The total cast now working on scripts is small, but Miss Swanson is sending out an S. O. S. to all students of N. S. T. C. to see her if interested in radio. The members now working include: Mr. Hamel (their newest addition), Ralph Gunnville, Celia Sjyjala, Joe Pray, Ira Griffin, Mary Moore, Herbert Schmetzler, and Larry Gay.

The scripts, contributed by the Michigan State Employment Service, will be broadcast every Tuesday, continuing well into next semester. The group is also working on a series of broadcasts sponsored by the Michigan State Police.

Besides a lot of fun derived from the work, members of the cast are obtaining valuable information and experience. There is a great contrast between stage and radio. In radio work spacing, pauses, and proper modulation are characteristics of the good speaking voice, while on the stage, lighting effects, acting and portrayal of characters are important.

If you, as a student of Northern, wish to hear (by air) what this group is doing, tune in at 6:45 next Tuesday evening, for you may become interested. If so, drop around and interview Miss Swanson. Lots of work and fun is waiting for you, and you won't regret this opportunity!

KAPPA DELTA PI INITIATES SENIORS

After a short business meeting, five seniors were formally initiated into the Delta Zeta Chapter of the Kappa Delta Pi, Tuesday evening, January 16.

Conducted by the president, Paul Hakanen, and assisted by the members, Clarice Brown, Aurele Durocher, Naomi Greifer, Arthur Halonen, and Ruth Walker took the solemn vows of Kappa Delta Pi. Immediately after this ceremony, Dr. Luther West, head of the Biology department, gave an instructive and inspiring talk on "The Problems of Academic and Cultural Growth in the Learning Process." After a general informal discussion, refreshments were served by Margaret Gibson, Elsie McMahon and Helen Tuomela. Mr. Brown, acting counselor, was present.

Refreshments A Surprise To Entice Those Who Dote On Eating

Here's your chance, girls! Leap year is here again, bringing the usual great opportunities. If the shy boy who sits next to you in Contemporary Literature hasn't given you a tumble yet, why, there's no reason on earth why you shouldn't show him that you do appreciate him! What's more at this particular time, it's proper and ethical. Confucius says: "Opportunity knocks but once"—once every four years!

To show you how alert Northern is this special year, the Cegmer Segs have chosen the New Year motif for the only social evening of the long, long winter.

You will swing and sway to the popular music of Don Young's orchestra. And for refreshments, well—something has to be kept a secret until January 26, the date on which the social will be held. Dancing, of course, will be enjoyed from 8:30 to 11:30 P. M. And the usual 15c will be charged for admission.

General chairman—Grace Ervatt. Decorations—Elizabeth Warren. Posters and Publicity—Mildred Mahan.

Tickets—Mildred Paananen. Refreshments—Mary Johnson. Music—Dorothy Lindstrom. Reception—Virginia Frel.

PIANIST THRILLS AUDIENCE HERE

On Monday, January 22, students and townsfolk thrilled to the music of Ruth A. Culbertson, young American pianist. Miss Culbertson played music which showed skill and technique in the art of piano playing. Her mastery of the interpretation of music greatly enhanced the story to the listeners, her ability to show contrasts in the moods of music was ably demonstrated in Chopin's "Nine Preludes" and Debussy's "Masques." As an encore Miss Culbertson played Brahms' "Intermezzo in C major."

EXHIBITION AN ANNUAL EVENT

Many students have been asking questions about and wondering if Northern is to sponsor another physical exhibition again this year. Mr. Hedgcock says there will be another annual presentation, making this the 18th consecutive year that this has been under his supervision here at Northern.

After the basketball season and the regional tournament, practice will begin. There will be ample time between the end of basketball season and the opening of the gym exhibit for men to be thoroughly instructed in the various formations. All sophomore and freshman students enrolled in gym classes will participate, plus any special physical education men and volunteers. Badminton and shuffleboard, two recently introduced physical training games, will be presented.

Winter Sports

MARQUETTE has within recent years become one of the leading winter sports centers in the Upper Peninsula. Before this sudden interest in outdoor activities, the city was like most other communities in upper Michigan, being content to watch progress of other towns in the development of their athletic facilities.

However, once the bug had bitten the rise of interest was rapid and intense, and before long the whole population had become sports conscious. The effect was almost phenomenal, and such progress has been made that everyone is now able to enjoy his favorite winter pastime. Tobogganing, skiing, skating, snowshoeing, and bobsledding are now provided for all.

Throughout all these developments, the Northern State Teachers College has been much in evidence. Last year, when the votes in the city winter queen contest had been tabulated, it was found that Margaret Miller, a student at the college, had been elected queen, and as such she reigned over all events. Later in the season Miss Miller was chosen Queen of the North at the winter carnival at Ishpeming.

Members of the faculty have also taken an important part in the activities. A number of them have been in charge of events and have done much towards putting across this program. Others have found that the winter sports are enjoyable and healthful, and have joined the throngs participating in them.

Not to be outdone, the student body has gone for the amusements in a most convincing manner by taking advantage of the many facilities offered. Recently the Tri Mu fraternity organized an independent hockey team. Norman Kukuk, a senior, is a member of the Marquette Buccaneers and has been named as one sport writer as one of the best players in Northern Michigan hockey league.

Bill Millman, another student, is an excellent ski jumper, having carried off many laurels as a member of the Ishpeming Ski Club.

Winter benefits directly by this interest in winter recreation. Prospective students are drawn here, and those attending the college are provided with a means to enjoy the sports. Boost the winter sports program!

Gossip

IT SEEMS as if some people attend basketball games, not because they are interested in their team or in who wins, but merely to gossip and annoy everyone near them. Only a very few of these persons can completely ruin the game for a large number of fans, who are vitally interested in the file and who wish to enjoy it without having to listen to all this gossip that is making the rounds.

These idle talkers probably do not see any more than about five minutes of the whole game. They are so busy discussing the looks, good or bad, of the players; who is going with who to a certain party and what people are wearing, etc., that they can't take time out to see what is really happening on the floor. The people sitting near them are not in the least interested in such talk, and probably pass ominous looks toward the offenders but to no avail.

Why can't these persons save their silly chitter-chatter until some other time, when they won't have to bother so many others? We feel that everyone would be much happier if they would.

NORTHERN HOST TO BADGER CAGERS

REVAMPED CATS MEET NORTHLAND AND STEVENS PT.

On Feb. 2 And 3 The Fighting Wildcats Will Attempt Victories 4 And 5

C. B. Hedgcock's revamped Wildcats will play host to their Wisconsin rivals, Stevens Point and Northland, in their first engagements this year. They ran roughshod over Northland College and defeated them by a score of 52-33. However, Stevens Point defeated the "Cats" by a score of 48-24.

The Wildcats have been revamped since the fallering days before the new year, and are playing a much improved brand of basketball. The squad has been cut, and "Pony" Villenure, ace forward of the yearling team, has been moved up to a starting position on the varsity quintet. The squad has been reduced to 10 men, the "Cubs" and the regulars. The "Cubs" started the Tech game and it is quite probable that they will get the starting nod against one of the two foes.

The Cubs are composed of Villenure, Hetherington, Anderson, Rytkenon, and Co-captain Goodney.

"SPEED" OLDS

"Speed" Olds Leads Cat Scoring Machine To Date

Below may be found a few statistics on the Wildcats' basketball team in the eight games played this year, including the Tech game. Olds is the leading scorer with 99 points, an average of 12 points a game. The Wildcats have an average of 85 points a game or better than a point a minute. The opponents have sent 355 points through the hoop for roughly 44 points a game.

Key: FG—field goals; F—foul shots made; FM—foul shots missed; PF—personal fouls.

From the Bleachers

By GIL
With winter sports having possession of the limelight it might be of considerable interest to know that Northern can boast of two leaders in Upper Peninsula winter sports. In Bill Millman and Boots Kukuk we have the U. P. leading ski jumper and hockey player respectively. Boots Kukuk, Marquette's pride and joy at the wing position for the Buccaneers, has been named by hockey experts as one of the best hockey players in the Northern Michigan hockey league. However, said to say, the Marquette Buccaneers aren't faring so well. A little tip from us recommended for a sure cure to the Bucs' losing streak would be to solicit Boon's Dad for six more players of booty ability and change the name from Marquette Buccaneers to Marquette Kukuk's.

Taking a big jump from hockey to skiing we take up the trail of "Wild" Bill Millman, who is skiing under the flag of the Ishpeming Ski Club. To date Millman has participated in several meets including meets in Milwaukee and Chicago. He also plans on entering the Munising and, naturally, the Ishpeming meet. Millman points with pride to his longest standing jump of 208 feet. "Wild" Bill comes from a line of ski jumpers in the Millman family—they just hand the ability down from father to son (except for "Slorry" and he is acting in an advisory capacity for football captain Sterky Simons). Bill is an ardent football enthusiast as well as a player. But points to Washington Birthday and suicide hill with the greatest interest.

By the way, when we speak of Northern's winter sports participants we can't overlook "Jumping" Joe Puhek, ex-Buccaneer and present Tri Mu wing. Besides swinging a wicked hockey stick, Joe has a beautiful tenor voice, which he entertains or should we say serenades the boys in the "dorm" with. How about a little "Hurrah for Hollywood," Joe?

Here's a few notes that connect the Rose Bowl game just past with Ypsi. Clifford Luce, former pole vaulter at Michigan Normal, is director of physical education at the University of Tennessee. William Dunn, former Ypsi football, basketball, and baseball star, was head linesman in the Rose Bowl game.

It seems as though the boys from Central never can quite make the transition from football to basketball. Judging, of course, from the performance exhibited here on the 12th of January. It may be of interest to know that Leo Wisneski, guard on the Bearcat quintet, was named to a halfback position on the Associated Press Little All-American football team last fall. Yes, Mr. Wisneski is very versatile; to add to his accomplishments he led the city bowling league in Mount Pleasant last winter. The only way the Wildcats, and now we can add the name of Tech (Central 38, Tech 21) can even things with Central is to present them with a typical U. P. snowstorm. At least that's what has occurred during these last two snows to the Upper Peninsula.

We understand from gleaming through the Ferris Torch that the Bulldogs of Ferris are having a little difficulty in hitting the much sought of win column. Perhaps Bill McElwain, guest columnist of the column "Out of the Dog House," has something there.

SOPH. GUARD

NORMAN SLOUGH

Central Bearcats Tip Teachers In Rough Tilt

Playing before a capacity crowd, the Northern State basketball team met their fifth defeat of the season at the hands of a powerful Central Bearcats basketball team by the close margin of 38 to 42.

The game was much closer than the score indicates, one or two points being the margin until the waning few minutes of the game.

The loss of St. Germaine and Olds, via the foul route, seriously hurt Northern's chances of victory.

Olds and Helakoski were high point men for Northern with 16-10 points respectively. Central's scoring was more closely distributed, Wisneski with 11, Norris 8, and Carlson with 12 points.

On defense, the Wildcats played a great game, sewing up the much taller and heavier lads from downtown. Central's ability to cash in on free throws was a vital factor in their hard earned victory.

Here's the sally hockey nourishment. The newly organized Tri Mu hockey team downed the Pirates in the Marquette Intermediate league by a score of 7 to 3. The Mus displayed unexpected ability, and commanded the play throughout the game.

The game really created some interest—"ziparoo," Kell and Frank Hartman will probably be telling their grandchildren about it some day. By the way, Frank, is it true that you bought a season's ticket to all of the Buccaneers home games, for a certain blonde? I'll admit it is kind of personal, but some of the boys would like to know.

The 25th annual Upper Peninsula Interscholastic Basketball Tournament will be held at the Northern State Teachers College's gym on March 14, 15, and 16.

Your orders will be filled with fresh flowers from our own Greenhouses.

Re-LEE-ses

BY R. LEE GOODNEY

One of the leading scorers in the Northern Michigan Hockey League at the present time is our own Norman "Boots" Kukuk, who plays in the number one front line of the Marquette Buccaneers. Boots is the only consistent major threat possessed by the Bucs, and were it not for him the Marquette boys would undoubtedly be deeper in the cellar of the league than they now are.

Basketball is again in the limelight and all the high school aggregations of Northern Michigan are in the midst of grueling schedules. Because of the recent announcement to the effect that the U. P. Final basketball tournament will be held in the Northern gymnasium, let's take a peek into the records compiled so far this season and see who should play here in March. No one outstanding team is evidenced in Class B, but the once-mighty Hemetites from Ishpeming, the Red Devils of Ironwood, and Menominee's Maroons all seem to have more than an even chance of representing their respective districts in the final classic here. Class C undoubtedly will be dominated by Eddie Chambers' Crystal Falls Ramblers with Baraga Parochial of Marquette and either L'Anse or Baraga of the Copper Country Conference being runners-up. Class D is exceptionally strong this year with the powerful Marenisco five of the west end of the Peninsula in a good position to cop honors, although the Marquette district winner (either National Mine or Champion) will give them plenty of trouble.

Of course, I realize that predictions of this sort naturally form the basis of much discussion and disagreement, but it's fun—and I'll risk my opinions against yours! Forrest Evashevski, captain and quarterback of the University of Michigan's football team, is to have a feminine role in "Four out of Five," an all-male opera presented by the Michigan Union. Such men as the presidential candidate Tom Dewey and Supreme Court Justice Frank Murphy once took part in the annual production. So perhaps E-

Baraga Barrage Tips J. D. Pierce Machine

In the last minutes of a close game Baraga defeated the John D. Pierce five 26-24. Throughout the game however the outcome was uncertain. At the half Pierce had downed Baraga's lead in the first quarter of 10-8 and were holding a slim lead of 16-15. At the end of the third quarter Baraga had again taken a one point lead 21-20. In the last however, Baraga had a hard earned two point margin of victory.

HYAR 'N THAR

Know Your School: President's Office

"Breathes there a student with soul so dead who never to himself hath said, 'This is my own, my very own school'?" And is there a student who has not, at one time or another, wondered what goes on "behind the scenes," and which miracle workers pull what strings that keep Northern running smoothly? If there is such an uncurious, disinterested student around, let him keep his peace, for this article is the first of a series designed to probe the mysteries of administration, and to encourage students to know their school.

It is fitting that we begin, as all writers do, at the beginning—with the president's office.

President Pearce supervises directly or indirectly almost every activity carried on within Northern's walls. First of all, he must be sure that for the opening of school in September, Northern's buildings are in good condition for occupancy, and that they remain so throughout the year. Any unprecedented occurrence, such as the breakage of several hundred panes of window glass by hail last September 3, must be taken care of quickly.

The care and selection of the August faculty is not the least of President Pearce's tasks. He must select qualified faculty members who best fill certain positions. He takes care of faculty meetings, both general and special. At times he supervises actual class work. And he must be ready at short notice to find a substitute in case of the extended absence of a faculty member.

Student welfare in all its aspects is one of the most important parts of President Pearce's work. Student support is a most vexing question. Loans to students, whether or not certain candidates for graduation shall be allowed to graduate, unravelling knotty curriculum problems, permitting changes of courses, granting permission to clubs and organizations for unprecedented "goings-on", supervising festivals and tournaments; all these questions keep President Pearce's date book well filled.

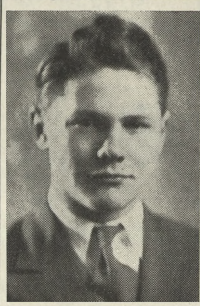

Some other necessary school functions supervised or run directly by the president's office are the selection of yearbook numbers, the assembly programs, based on the ability of the artists to be in this section of the state at a certain time; the supervision of the graduate school courses given at Northern during the summer, and the conferring with authorities at the University of Michigan about the courses; the settling of curriculum problems which arise, and the reconciling in the curricula certain faculty desires and student needs at Northern with the standards set up by the state board.

The president is first, last, and all the time in direct contact with the State Board of Education as regards all matters pertaining to Northern as a State Teachers College.

Miss Jeannette Skinner, a Northern graduate, does her part as the president's secretary in keeping administrative matters running smoothly.

A most important department—the president's office. A most able and important executive—the president!

NORTHERN LITE

An introduction to this issue's Northern Lite would be as uncalled for as another snowstorm and more sub-zero weather—most everyone already knows LAWRENCE DERIDDER—it is high unto impossible to attend Northern and not to have met the former chief of the Kaw-saw-gam "pushers" and present head of the Senior book brigade.

The activities and accomplishments of this native of Norway (Michigan, of course) seems endless. "Larry" has begun his fourth year of playing the trumpet in the band and the French horn in the orchestra. . . lends his tenor voice to both the Mixed Chorus and the Men's Glee Club. . . holds membership in Phi Epsilon and Kappa Delta Pi. . . was president of his junior class and vice-president during his sophomore year. . . is completing majors in music and mathematics. . . belongs to the Newman and Discussion clubs. . . has for two years served on the staff of the College News. . . and, to terminate this lengthy list, also skates, swims, dances, and plays tennis.

Horticulture is his hobby. . . old-fashioned oatmeal cookies his special like. . . the knee-length socks favored by some of our co-eds his pet peeve. . . disarming friendliness his hair that's neither here nor there. . . and playing the piano accordion and planning bicycle tours for the coming summer vacation his favorite pastimes.

In conclusion, should you happen to be one of the very few who is not acquainted with this Lite, if the ever-active youthful student you have judged to be a freshman startlingly turns out to be a senior. . . that's LAWRENCE DERIDDER.

Drama Club

On Wednesday, January 10th, the Drama club held its regular meeting. At this meeting members of the club presented several one-act plays. It was decided at the meeting that the Drama club would present an assembly program. However, the date of this program has not been decided upon as yet, but will be announced at a later date.

The first meeting of the second semester will provide an opportunity for would-be thespians to display their talents. At this meeting new members will be taken in. All members extend an invitation to any student who is interested in dramatics to be on hand for the first meeting of next semester.

Art Club

On Tuesday, January 23, the Art club went to Chaffee's music store to study the many articles of Indian craft work which have been on display there. This collection consists of Indian basketwork, weaving, beads, fur bonnets, ribbon work, etc. Mrs. Meyland explained to the club about these articles on display and told them how the porcupine quill work was done. Mrs. Ferns then showed them how the Indians did their ribbon work.

The revival of interest in Indian craft work has been due chiefly to the efforts of Miss Mabel Morrow, art specialist U. S. Indian Survey, an artist who has traveled to many Indian reservations in an attempt to interest the Indians in doing more of the type of craft work which was done by their ancestors many years ago.

Northern's Fairer Sex Play Intramural Ball

Northern's basketball interest and skill obviously doesn't rest with the men of the institution, as Miss Norma Johnson, women's gym director, recently discovered when all of nine basketball teams were organized among the fairer members of Northern.

The teams will rotate in games—so that all teams will play one another.

To date only three games have been played. The outcomes are: Shooting Stars 14; College Canaries 10.

Delta Darts 26; Rinty's Huskies 2.

Gammas 22; Highlights 18.

The lineups of the teams are: College Canaries—H. Dishaw, D. Lilly, M. Kaariainen, M. Kelly, R. Backlund, O. Winkel, D. Anderson, A. Liberty.

Delta Darts—M. Miller, V. Fader, V. Butler, J. Petersen, M. Bates, M. A. Kepler.

Delta Dashes—D. Walker, N. Greifer, H. Holman, D. Graham, M. Yarril, N. Cleminson, M. E. Hedcock.

Gammas—J. Cairns, I. Lemieux, H. Frayer, A. Senical, D. Beckman, L. Fink, I. Keeper.

Highlights—P. Dagwell, M. Liberty, F. Vinemulder, H. Heikkinen, M. Coon, A. Freeman, L. Rintala.

Hoi Shos—M. Mahan, M. Paananen, C. Johnson, S. Johnson, M. J. Lontro, D. Marks, M. L. Lally, E. Sikarski, K. Landry, L. Vogelheim, A. Johnson.

Rinty's Huskies—Y. Mattela, L. Kaakinen, E. Cruka, R. Kaskela, E. Vivian, V. Peterson, I. Pylvainen, B. Baranen, V. Blanchard.

Shooting Stars—E. Maki, M. Anttila, K. Berglund, L. Gallans, H. Pynnonen, B. Burak, M. Rigoni, G. McKenna.

Tau Pis—M. McCabe, G. Ervasi, K. Possi, E. Vary, S. Blomquist, M. Wertenin.

Contributor

She's a lady, if she can Tolerate the modern man Tolerate his slovenly dress Clothes that deny a tailor's press Hair that's neither here nor there Hats and ties—the king of hoo-bes wouldn't wear She's a lady if she can Tolerate the modern man. N.T. Tolerate him when he shows up late Much too late for that theatre date When he forgets to remove his hat As they stand and speak of this and that She's a lady, if she can Tolerate him when he just wants to sit around While she's simply dying to see the town Tolerate him when he always wants to eat

In fact it seems to be his most remarkable feat Yes, she's a lady if she can Tolerate the modern man Tolerate him when for hour after hour He speaks of himself and his own power But I s'pose if he's dark and smooth and tall She'll be glad to tolerate him after all Cuz you see, she's a lady if she can Tolerate the modern man. Z. B.

ago. In her visits to these reservations, Miss Morrow has procured many beautiful articles which the Indians have made. The Art club thoroughly enjoyed this visit, being both educational and entertaining.

English Club

A discussion of the Modern Essay was the theme for the meeting of the English club on Tuesday, January 9. A group of four members gave interesting reports on different aspects of the subject.

Helén Olds, the chairman of the group, gave a talk on "Criticism of the Teaching of Essay in High Schools." William Trebilcock read an original essay, "Teaching Methods at Northern." "The Humorous Essay" was the topic presented by William Beckerle. Aurele DuRocher spoke on "A Crisis in Crises." Plans have been made for a musical-social hour to be held Friday, January 26, in the recreation rooms.

A NECESSARY PART OF EDUCATION . . . !

Thrift, as a study, is as essential in a well rounded education as any academic subject. Thrift plays an important part in every walk of life — it is the basis for financial success and happiness.

The subject of thrift is best learned by actual practice with a First National bank book as the text book and this bank as your laboratory. And it's a profitable study—regular deposits build a cash balance in a few months time.
