We were glad to hear through Steve Paul's parents that the Lieutenant and his new wife of London, England are getting the Northern News. Steve graduated from Northern in 1937, attended the University of Michigan, taught, and worked for the Weather Bureau before joining the Signal Corps about a year ago.

Hundred Enroll For Three Week Session Monday, August 2nd

From Mr. Gant's office we have learned that about 100 students have tentatively enrolled in the three week session. Final enrollment will be at 8 o'clock Monday, August 3. Classes on enrollment day will not be according to the regular schedule.

Registration will be in the gym and forms for rooming places will be filled out in L115 as usual. The regular full-week schedule and need not be bothered with since all classes meet at the same time and each student is limited to one class. Fees of \$6 will be collected in the general office after enrollment has been completed.

After enrollment day, all classes will meet every day from 8 to 9:45 and from 1 to 2:45 except on Friday when the only period will be that from 8 to 9:45. In case of small enrollment in a few classes of the suitable lab type, one instructor will teach two classes at one time.

LAST TEA IN GYM THURSDAY

The Exhibitor's Tea on Thursday of this week will be the last of the session. It will be held in the big gymnasium and will be in charge of the Home Economics Department and Miss Bemis. Thirteen book companies will place exhibits in the gym as the feature attraction of the afternoon. This is an all-college tea and from 8 to 9:45. In case of small enrollment in a few classes of the suitable lab type, one instructor will teach two classes at one time.

Vacationing Professors Find Plenty To Do In Five States

Texas And Massachusetts Are Summer's Dis-tance Winners

Many of the figures we are accustomed to seeing around the halls and in the classrooms of Northern are missing this summer, though a few of them do drop around at the general office to get their mail. We have new and capable variety in the summer substitutes, but who we return in the fall and those who return next summer will be glad to see these old pals.

EX-NORTHERNERS RETURN TO VISIT

Miss Emily Hunting has been spending about two weeks with Miss Ruth Craig and visiting old friends made during her period here as instructor in the Home Economics Department. She left Northern a few years ago to join the faculty of the University of Indiana at Bloomington, Indiana. She is in the Home Economics Department there also.

What Destiny For Truth

"This above all To think own self be true, and it follows as the night the day Thou canst not then be false to any man."

MEN have devoted their lives to the search for the truth, lived for it and sometimes died for it. Truth has stood high among the virtues...

Today the importance of the truth has dwindled in the mind of Mr. Average Man... it exudes a faint odor of moth balls...

The person is a rarity who states the truth as he sees it, despite the consequences. Our thinking is tuned to a slight suspicion that all that disagrees with us is propaganda...

We must admit that today to bring a child up to speak the truth and nothing but the truth, so help him God, would handicap him considerably in the struggle for survival.

To what then have we sunk in our thinking, that even the leaders of the people spread nothing but politic palaver, and will not or can not speak the truth?...

Gift And Gain

WOMEN and the War... dateless for the duration... none of the thrills of battle... certainly a joyless position, that of womanhood in wartime!

Sometimes in the dim beginning of this era of sophistication a long-haired designer, irked with the pudgy dimensions of the human body, dreamt a dream.

Slowly, insidiously, corrupting this new way of life, came the rubber age, heralded by propaganda and movie vampires, until a pre-war woman couldn't call her profile her own.

Designers may rave in the silence of somber studios, but patriotic women, able to breathe again, are donating their all to the rubber drive.

The silk shortage has proved a boon only because of its timely occurrence. In former times the lessening store of the necessary luxury, silk stockings, would have created acute panic.

Today's war with its horrors and gore has produced as a side issue a wave of the future... again a NEW WOMAN, free, breathing, able to move.

Five Fellows Out West Seek New Thrills Amid Forests And Mountains

(Continued from page 1)

On Wednesday afternoon, July 8, Miss Martha Cooley and several faculty assistants gave a tea for workshop students and staff members and their wives in the Cooley garden at 401 East Ridge Street.

Very enjoyable. On Wednesday, July 8th, the college workshop entertained at an all-college tea held in the recreation rooms. Yellow flowers and white candles lent a summery atmosphere to the tables.

The Library Staff entertained at an all-college tea in the recreation rooms, Thursday, July 16. Blue and white flowers were used as the decorative scheme.

Army Signal Corps Gets Former Editor

Howard Anderson (B.S. '38) was commissioned Lieutenant in the Signal Corps of the Army recently and will instruct in a Signal Corps School in Chicago.

Andy was Editor-in-Chief of the Northern News for two or three years and was known by many as a mathematics shark.

CARL SENOB GETS COLLEGE POSITION

From Zealand, Michigan to Pella, Iowa goes Carl Senob (A. B. '32) who will become assistant professor of music at Central College.

Senob's Zealand band has been very successful. It has won first place in the Tulip Festival Band Festival. In 1938 at one of these band festivals, a massed band of 1000 pieces played Carl Senob's new march, Tulip Festival.

Forest Work Takes 2 To Washington And 3 To California

Five of Northern's male students applied for government forest service positions and are now busy working, sight-seeing, getting educated, and having a swell time—and besides—being out of doors and really roughing it!

Two of our boys, Keith Butler and Jack Berryman, are now stationed at Bogard Ranger Station in Susanville, California. They are in the fire-fighting division and their assigned job in case of fire is to check logs in and out of the truck.

Charles "Chuck" Carpenter and Kenneth Summersett, both stationed in Washington, are also in the fire-fighting corps. They live at fire towers and have to pack in a lot of equipment to last for a length of time.

Instead of fighting fire, as our four other friends are doing, Richard West is busy yanking out gooseberry and currant bushes in Berry Creek, California, in Plumas National Forest.

These bushes, I am told, are responsible for nourishing spores which produce the parasite which causes the blister rust on the white pine.
