RUSH—1943

Rush Day 1943—presents quite a different picture from that of a few years past. It is only natural that this change should take place at Northern, when the whole world is undergoing perhaps the greatest change in all its history.

Rush Day is undoubtedly the oldest tradition still retained at Northern. There is no record of the first rushes which began about forty years ago, but some of the townspeople and faculty remember the unorganized battle-royals that resulted in many unconscious participants. As the students became a little more civilized they organized their respective classes (a two-year school) to collect over a long period of time all the fishheads, axle-grease, engine-oil, and any other type of "slop" they could find.

There was an attempt made in the early 20's to bring more order into the rush by having a flag rush. This, however, proved very unsatisfactory, and consequently in 1925, Mr. Meyland was made chairman of the Rush and began the organization of events. The type of events used has undergone an evolutionary trend so as to provide the best events possible for giving the most enjoyment for the most people.

The Men's Union assisted by the Student Girls' League have taken the initiative each year to provide this activity. Even though the men are outnumbered eight to one this year, they have still retained this leadership. It is obviously impossible to hold the rush between the freshmen and sophomores, and as a result the contests will be held by dividing the entire student body into two groups—the green and the gold.

However, the main feature of the Rush Program is the morning program to be held in memory of the Northern men who have died in service; and in honor of the Northern men, who are now participating in the greatest "Rush" of their lives.

The men of Northern are now being represented in every theater of war in every corner of the globe. There are approximately 377 Northern men in service. These men have participated in bombings over Germany, Italy, Japan. They have fought in every major battle in which the American forces have participated.

The records, which we have available for the Northern men in service are far from complete for there has been no official report sent back from the battle of Tunisia, and the reports of the battles of the Atlantic and Pacific are changing too rapidly to draw any accurate conclusions.

The seven Northern men, who have already given their lives in this service are indeed worthy of such honor. These men will be long-remembered for the part they played in the rushes at Northern and later in the All-American Rush.

Honor should also be paid to Lowell Hebbard, who is now a prisoner of the Japs. Hebbard, a former Northerner, who played a very prominent role in the affairs at Northern a few years back, was working in the government service in the Philippines when the Japs attacked. As a result he is now being held as a prisoner of war.

What You Buy With WAR STAMPS

Yankee soldiers in France during the World War wanted little time in impressing the enemy with their deadly skill as bayonet fighters. The sight of advancing Americans with fixed bayonets caused many a German to throw down his weapons and cry "Kamerad." The bayonet is still a major offensive weapon and is carried by all combat troops. The bayonet costs \$5 and the scabbard \$1.50 each.

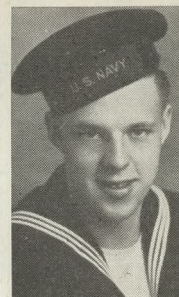

We need millions of bayonets for our rapidly expanding army. You can help pay for them with your purchase of War Stamps. Five dollars' worth of Stamps will put a bayonet on the belt of a Yankee rifleman. Do your bit through the regular purchase of War Stamps, as outlined in your Schools At War program. U. S. Treasury Department

Table listing names and branches of service for the Honor Roll. Includes names like Ira Hanson, Alfred V. Mickelson, George Mikkola, etc., under various letter groupings (A, B, C, etc.).

Table listing names and branches of service, continuing from the previous table. Includes names like Claude Primo, William Tousignant, Charles Trebcock, etc.

Bob Lindstrom is "somewhere on the Atlantic" as chief signalman on a merchant ship. Enlisting in the Navy in 1942, he attended Navy signal schools at the University of Illinois and Norton Heights, Conn., and received a rating of petty officer, third class, after qualifying with high marks.

What You Buy With WAR STAMPS

In the expensive business of fighting a war, a dime's worth of oxygen may seem like an inconsequential item, yet that much oxygen is for 40 minutes in the high altitudes reached by today's war planes.

Your purchase of War Savings Stamps may not add up to the hundreds of thousands of dollars needed to buy one of those high-flying bombers, but every time you invest in a 10-cent Stamp, you are providing money for the oxygen without which our great air fleets would be practically useless.
