## COACHING SCHOOL CONVENES AUG. 9

### "FRITZ" CRISLER WILL HIGHLIGHT FRIDAY SESSIONS

#### Basketball And Football To Be Principal Topics

The second annual Northern Michigan College Coaching School will be held at Northern during the week beginning August 9th. The coaching school was initiated last year and proved very worthwhile. Greater success is anticipated this year because of an enlarged and improved program. Indications point toward a large attendance for reservations have been received from coaches in Florida, South Dakota, Kentucky, Wisconsin, Ohio and throughout the state of Michigan.

An extensive program of activities has been planned including instruction in various phases of football and basketball by men outstanding in these fields of sport. This list of authorities includes: H. O. "Fritz" Crisler, University of Michigan; Tony Hinkle, Butler University; O. E. Johnson, Michigan Heights; James Barclay, Midland; J. B. Wilson, Mass.; Omer LaJunesse, Iron Mountain; William Anderson, Stambaugh; Jim Soti, Marquette; George Turvich, Escanaba; and Joe Sindelar, Sindelar Athletic Goods Company. Charles E. Forsythe, State Director of Athletics for the High School League will also address the attending body.

A recreational program has also been planned and all attending coaches are urged to participate.

The highlight of the activities will take place Friday, August 13th when H. O. "Fritz" Crisler will conduct a day-long session on football. Mr. Crisler is Director of Athletics at the University of Michigan, and until this spring was head football coach, a position he resigned in order to devote more time toward his duties as Director of Athletics. During his 10 year span as head coach, Mr. Crisler compiled one of the most outstanding records in the nation. He clinched his career last season by directing his 1947 squad to the Big Nine and Rose Bowl championships. Crisler's record, since 1938, at Michigan includes 71 games won, 16 lost and 3 ties. During his tenure, Michigan won the undisputed Western Conference crown once, tied for it once, finished second six times, third once and fourth once. His teams amassed 2,234 points to 732 for all opponents and they netted 26,579 yards to 17,221 for all opposition. On this record, "Fritz" Crisler is regarded as one of the outstanding football authorities in the nation.

Tentative program for the second annual Northern Michigan College Coaching School, Marquette, Michigan:

- Monday, August 9th  
8:00-8:30 a. m.—Breakfast
- 8:30-11:00 a. m.—Registration and Room assignments.
- 11:15-11:45 a. m.—Special Assembly of Coaches
- 12:00-1:30 a. m.—Luncheon—Coaches guests of Service Clubs.
- 1:45-2:45 p. m.—J. B. Wilson, Mass. (Continued on Page 3)

### VA ASKS G I ADDRESS CHANGES

Veteran-students who graduated this year and have moved from the area served by the Veterans Administration Branch Office to which they have been mailing their G. I. insurance premium payments should notify VA immediately of their new permanent addresses.

VA officials in Columbus, O., said that a veteran's government insurance records are kept in the VA branch office supervising the area in which he maintains his permanent address.

The sooner the veteran notifies VA of his changes in residence, the sooner VA can transfer his insurance records to the VA branch office having jurisdiction over the area in which he will reside.

When advising VA of his new address, the veteran should identify himself fully, indicating his government insurance certificate number, former address and new address. Changes in address may be noted on the space provided for such changes on the flap of the regular VA remittance envelopes.

### Fall Catalogue Features New Look

Northern's fiftieth annual catalogue will have something of the new look which is associated with style changes in women's clothing and automobiles. According to Dr. M. P. Allen, Director of instruction, students and faculty have made numerous suggestions which have been incorporated in the prospective issue, the galley proof of which has been returned to Lansing. It is hoped that copies will be available for distribution the latter part of August.

Replacing last year's rustic blue cover the new catalogue will sport colors of green and white. Confirming with general practice it will have a 6" x 9" format instead of 5" x 7 1/2". Since all changes and modifications cannot be presented here, a few of the highlights will be summarized.

- 1. A calendar for the period July 1, 1948, to June 30, 1949.
- 2. List of the advisers of classes, departmental clubs, and other school organizations.
- 3. A brief history of the College (prepared by Professor F. R. Cooper).
- 4. Pertinent data regarding Harry D. Lee Hall and Ethel G. Carey Residence Hall.
- 5. Information for students seeking employment.
- 6. An explanation of the College Counseling Service.
- 7. Curricular changes.

Students doubtless will be interested in advance information regarding the new four-point mention system. This latter work requires some knowledge of the engineering principles.

Each job performed, regardless of its nature, is always well done. Our staff here at Northern is unique, inasmuch as each man is very versatile and co-operative and willingly performs any assignment given him. The best proof of this versatility is that there are seven men capable of taking over the maintenance work involved in maintaining the proper heating and ventilation.

Aside from the actual employees, the person most responsible for the efficiency in plant operation is President Tapp. Through his untiring efforts to obtain funds, it has been possible to enlarge the

### ETHEL G. CAREY RESIDENCE HALL OPENS IN SEPT.

Announcement is made of the opening of the Ethel G. Carey Residence hall of the Northern Michigan College of Education for occupancy Sunday, Sept. 12. This large and attractive fireproof building offers the young women of the Upper Peninsula for the first time the same fine housing facilities that are offered by other state colleges throughout Michigan.

Every effort has been made to provide for the residents of the hall (some 200 young women) healthful and artistic modern living quarters. The girls will live in suites of two rooms, a bedroom and a study accommodating two students.

**Practicable But Attractive**  
In the study a double desk, comfortable chairs and excellent lighting results in a room just right for work and equally satisfactory for "just visiting". The bedrooms are furnished with twin beds, equipped with inner spring mattresses, two wardrobes and well lighted dressers with mirrors only girls could appreciate. Additional storage space is also available. Each dormitory floor has telephone booths, with "company" benches beside them for those who wait for a call from home. A kitchenette and an incinerator for easy disposal of refuse.

Girls in residence at the Ethel G. (Continued on Page Four)

### N. M. C. E. MAINTENANCE STAFF

Front Row: Left to Right: Edward McDonnell, Edward Skog, Frank Schwemin, Phil Viton, Gus Hill.  
Rear Row: Victor Walsanen, Hjalmer Peterson, Thurlie Johnson, Joseph Clement, Edward Anderson.

### PLANT STAFF IS HIGHLY EFFICIENT

Quiet efficient — "unsung heroes" ready for any emergency, that's the maintenance staff at N. M. C. E. Many students are unaware of their existence, and yet they are responsible for the clean and wholesome environment at Northern. Their jobs are many and range from the seemingly trivial task of removing the carelessly strewn cigarette butts near our entrances, to the highly technical job of keeping the heating and ventilating systems in running condition.

To do this latter work requires some knowledge of the engineering principles. Each job performed, regardless of its nature, is always well done. Our staff here at Northern is unique, inasmuch as each man is very versatile and co-operative and willingly performs any assignment given him.

The best proof of this versatility is that there are seven men capable of taking over the maintenance work involved in maintaining the proper heating and ventilation.

Aside from the actual employees, the person most responsible for the efficiency in plant operation is President Tapp. Through his untiring efforts to obtain funds, it has been possible to enlarge the

### Thirty-two Receive Degrees At Close Of Summer Session

Names of twenty-one candidates for the degree of Bachelor of Science and eleven for Bachelor of Arts were released by Mr. L. O. Gant, registrar this week.

Persons released included both the group who will be graduated at the end of the Six Weeks Session and those who will receive their degrees at the end of the Three Week Session in August.

Seven of those who are candidates for graduation in July will receive Secondary Provisional Certificates. Only one, Mrs. Vivian Abercrombie, expects to receive an Elementary Provisional Certificate. Mrs. Abercrombie did previous college work at the Washington State Teachers College in Ellensburg, Washington. When her husband died in 1936, she began teaching in Kingsford, Michigan, where last year she taught eighth grade arithmetic.

Mrs. Abercrombie has two sons, James and William, both of whom are veterans of World War II. Phyllis Lindberg and Clarabelle Schmelzer, who have majored in Home Economics, have attended the summer session to complete requirements for qualification under the Smith-Hughes Act.

Listed below is the complete list of candidates for graduation in July and August.

- SIX-WEEKS SESSION**  
**DEGREE**  
**Bachelor Of Arts**

Anna C. Daley

### Camp Munusong Students Enjoy Varied Activities

Fifteen Upper Peninsula students are enrolled at the six-weeks summer session at the Munusong conservation laboratory, near Sault Ste. Marie, which is being conducted by the Northern Michigan College of Education in cooperation with the Michigan Department of Conservation.

In charge of the school are George S. Butler, professor of Agriculture and Plant Ecology, Northern and Quentin Peterson, educational representative of the conservation department.

Other members of the teaching staff are Paul Barrett, extension specialist in conservation, Michigan State College; H. R. Heathman, district soil conservationist and the following conservation department officials:

John Angulum, fire technician of the field administration; William C. Beckman, assistant fisheries research; Paul Challancin, regional supervisor of the educational division; Glenn Gregg, regional supervisor of parks and recreation; George McIntire, assistant chief of the forestry division; Helen M. Martin, research geologist; Bernard A. Stepanyk, regional supervisor of the field administration division; Max Wakeman, regional supervisor of the game division; and Donald Zettle, regional supervisor of the forestry division.

The class recently heard a talk by W. C. Ryder, coordinator of the Michigan Department of Public Instruction and the Department of Conservation, who spoke on the conservation education movement throughout the United States. An authority on conservation education, he places special emphasis on the out-of-door work being integrated in the grades and subject of Michigan schools.

The fifteen students enrolled in the course are kept busy but all seem to enjoy it. The students comment that many of the things that they read about seem to be different when they are observed in the out-of-door in their natural setting. Much of the time in camp is spent in writing up activities that can be used in the classroom.

The first part of the course was devoted to the study of trees, wildflowers, and birds of the area as well as the habitats. There is a wide variety of plants and animals and especially water-fowl. Now the young are coming from their nests, and the baby ducks, cost geese and terns as well as the song birds add a lot of color to the class material.

On the way given over to a memorable field trip to the Lower and Upper Taconum Falls, and studies were made of soil types, forests, and wildflower ecology and also forest management.

Guest speakers have included Bernard Stephansky; Mr. Peterson, specialist in predator control, who gave a demonstration on the setting of traps for the various kinds of predators; and Helen Martin. Miss Martin presented color slides, charts, and maps, showing the geology of Michigan, with emphasis on the Upper Peninsula. (Continued on Page 4)

### Many Requests For G I Homes In Fall

The 69 family units available under the veteran's housing plan at Northern Michigan College of Education are in greater demand than at any time since they were first set up. Dean of the men, said today, "It's probably because of the influx of June brides and grooms," he added.

Over 60 applications have been received by the college for the already filled G. I. houses. There will be changes at the end of summer school as students transfer or are graduated. However, these shifts in apartment personnel will only accommodate 15 or 20 of those waiting, leaving some veterans and their families still without a place to call home while they pursue higher education at Northern.

Although the majority of applicants for veteran's housing are from Upper Peninsula, Dean Bottom said he has had one application from a Silver City, New Mexico student.

A plea for housing also has been received from a former Marquette man living in France. He would like a family unit for himself, his wife and child and mother-in-law.

### NORTHERN THREE WEEK SESSION TO BEGIN AUGUST 1

Record Number Of  
Students Enroll  
For Five Classes

Mr. Gant, Registrar of Northern Michigan College, has released the following information in regards to the three-weeks summer session which will begin on August 2nd. At the present time 128 have tentatively enrolled for the courses to be offered during this three week session. Five classes have been scheduled, one class, Europe Since 1918, has been scheduled, and at the present time only nine students have enrolled. This course is to be taught by Mr. Edward Gant.

Five classes have been scheduled for the three-weeks session at the present time. Dr. Burrows will teach Corporations 231. At the present time 16 have enrolled for the class. Mr. Pearson will teach State and National Government 200 for which 27 have enrolled. Educational Tests 306 will be taught by Dr. Clucas. Thirty-five have enrolled for this class. Mr. Clucas will also teach, but at the present time the instructor for this class has not been decided upon. Twenty-five have tentatively signed up for this class. Miss Stephenson from Western Michigan College will teach a course in Weaving 405-S, for which 16 have enrolled tentatively and two or three are waiting list. This class has been limited to 16 students.

It is still possible to register for any of these classes to be held during the three-weeks summer session and the administration is of the opinion that there are more who would like to do so. Any students who would desire to change from one of the classes which has already been scheduled, and enroll in the one in which there are not enough to guarantee that the class will be held, can do so. If six or more students do not enroll for the class which Mr. Berthele will teach, the class will not be scheduled. In the interest of the nine students who have tentatively enrolled for the course, Burrows will be hoped that six more students will sign up.

Many New Phases  
Of Remodeling  
Underway At N. M. C. E.

Maintenance department is already tearing up the wooden floor in the Men's Locker room located in the Administration Building, in preparation for Terrazzo floors. The Terrazo floors will be laid by Northern Terrazzo Tile Company, Neauge, Michigan. As soon as summer school is over they will start on the girls' shower room.

It is contemplated to install Terrazzo floors in the Men's shower and drying room. It is also anticipated to the veteran's housing plan at Northern Michigan College of Education are in greater demand than at any time since they were first set up. Dean of the men, said today, "It's probably because of the influx of June brides and grooms," he added.

### Examination Schedule

- Six-Weeks Summer Session, 1948**
- Thursday, July 29 at 1:00-2:45  
All Classes meeting at 1:00 p. m. or 1:55 p. m.
- Thursday, July 29, at 2:50-4:55  
All classes meeting at 8:00 a. m. or 8:55 a. m.
- Friday, July 30, at 8:00-9:45  
All classes meeting at 9:50 a. m. or 10:45 a. m.
- Friday, July 30, at 9:50-11:35  
All classes meeting at 2:50 p. m.

JULY 22, 1948

**Congratulations Northern!**

Northern, always on the alert, is meeting the challenge of gearing its program and facilities to meet postwar conditions. The College has streamlined its educational program and expanded its physical plant to meet the needs of the graduate students, the in-service teachers, and the veterans.

The organization of facilities for graduate work is just one of the evidences of Northern's spirit of alertness in providing opportunities for study. In 1938, in cooperation with the University of Michigan, courses in graduate work were established. The enrollment has varied from 58 students the first year, to a low of 10 in 1942, while our present enrollment numbers 86.

In examining the Summer Bulletin, we find that many new courses for the undergraduate have been added to the curriculum. Northern offers opportunities in the actual fields of operation for the study of child growth and guidance, conservation, and camp counselling. One of these opportunities is being provided through the cooperation of Bay Cliff Health Camp Association, the Division of Special Education of the State Department of Public Instruction, and the College. The courses offered carry college credit.

Another program is in operation at the Munuscong State Camp, where laboratory study of plant and animal conservation, directly from nature, is carried on. The purpose of the course is to give instruction to teachers in the important facts and the principles of the out-of-doors and to help develop suitable plans for teaching conservation through outdoor activities.

Still a third program trains directors of school camps, camp counselors, and teachers of school and community recreation. In this program the College is cooperating with the Iron County Board of Education and the state departments of education and conservation in an outdoor education project for five hundred Iron County school children at Indian Lake.

These are but a few of the innumerable opportunities for a well-rounded education which have been added to the program of study at Northern.

One of the greatest changes we find is in the physical plant, which has been enlarged in order to accommodate the housing demands of the suddenly increased enrollment. In 1945-46, fourteen trailer units were made available to veterans. The next year, 45 additional apartments and housing for 96 single men were added to the facilities. Some of the accommodations for single men have since been remodeled to provide additional ten family apartments. Rental prices have been scaled down to coincide with the income of a veteran. A veteran having an income of \$170 pays \$30 a month, while one with an income of \$105 pays only \$13.75. Rentals of the smaller units range from \$22 for an income of \$140 to \$13.75 for one of \$105.

A popular center on the campus where a most friendly and informal atmosphere prevails is the cafeteria which was opened for the summer session of 1947. It has a seating capacity for 200.

However, the most noticeable physical improvement is the construction of the Girls' Dormitory and Union Building. The dormitory will open for occupancy on September 12.

Thus the College is meeting the changing needs by enlarging the physical plant as well as by curriculum revision. Those of us who have attended Northern for many years can be proud of the accomplishments of the men and women whose vision has brought about these changes.

**Rare Specimen Collected By Dr. Schaefer's Class**

Did you ever see a hen with teeth? If you have, you haven't seen everything yet. There is still a sight, almost as rare, you should behold—a snakeless snake! The oddity is in captivity, healthy and alive, and cared in the biology laboratory at Northern Michigan College of Education. Of special interest is the fact that it is a local animal, captured recently in the vicinity of Marquette.

This animal was collected, together with other snakes, by one of Dr. Schaefer's collectors of local reptiles, for research purposes. The unusual animal is a garter snake bearing the scientific name of *Thamnophis sirtalis*. This most unusual snake, a mature specimen, entirely devoid of scales except for a few on the upper and lower lips, a series of incomplete scales in its lower tail surface, and the ventral scales normally used in locomotion. The entire upper surface of the body as well as its sides are naked and smooth as velvet; the background color is dark green, almost black, overlaid with a pattern of lighter colors. The side stripes, normally present in this species are absent, the chin, always scaled and white in normal species, is pink. It is entirely possible that this almost scaleless snake is the first of its kind ever to be discovered. Dr. Schaefer intends to publish a detailed description in a scientific journal in the near future. His immediate problem is to keep the animal alive and healthy until such time as it may be embalmed

**Dr. Berdie Speaks To Students On Counseling Work**

Dr. Ralph F. Berdie, in conjunction with the education conference on guidance of children, spoke on the second of the three scheduled summer assembly programs. The theme of Dr. Berdie's address was "The Way of Counseling." Counseling work is the primary interest of Dr. Berdie and he has done considerable work in that field. He received his Bachelor's, Master's and Doctor's degrees from the University of Minnesota where, prior to World War II, he served as an assistant professor and counselor. After three years with the United States Navy, he served as associate professor at George Peabody College. Later, he took over the position of Chief Clinical Psychologist in the Veterans' Administration Hospital at Nashville, Tennessee. At present Dr. Berdie is associate professor of Psychology and Director of the Student Counseling Bureau at the University of Minnesota.

Dr. Berdie noted that the conception of counseling no longer means only clinical work, but is concerned with all students. In his message Dr. Berdie gave five principles that and prepared as a specimen for museum display. Dr. Schaefer is investigating the changes which take place in the skin of snakes during the molting process. He has recently received a research grant from the American Association for the Advancement of Science through the Michigan Academy of Science, Arts and Letters for the purpose of studying this problem.

**STUDENT WEDDING BELLS RING OUT**

**DESJARDINS—BOYER**  
Miss Elizabeth Thais Boyer, daughter of the late Dr. and Mrs. R. W. Boyer, of Marquette was married to Calvin E. Desjardins, son of Mrs. William Desjardins, Marquette.

The attendants were Miss Patricia Hebestreit and Clyde Desjardins, brother of the bridegroom, both of Detroit.  
The bride, a graduate of Gravenet High School, attended Northern for a year, and previous to her marriage had been employed in Detroit.

The bridegroom, a graduate of Gravenet, served with the Army in the Pacific theater and is at present employed in Detroit.

**OLSEN—VOGELER**  
Miss Karla Vogelger, daughter of Mr. and Mrs. Wilhelm Vogelger, Calumet was married to David E. Olsen, son of C. L. Olsen of Marquette.

The bride was attended by Annagret Vogelger as maid of honor, and Margaret Vogelger as bridesmaid. David C. Greene, a classmate of the groom of Elyria, Ohio was best man. Also attending the groom was Donald A. Baldwin, of Marquette.

The bride, a graduate of Calumet High School, class of 1943, at the University of Michigan School of Nursing, class of 1947, was employed at St. Luke's Hospital, Marquette. The groom was graduated from Gravenet and spent a semester at Northern. At present he is a student at Oberlin College, Ohio.

**ST. ONGE—SHEMKY**  
Miss Mary Shemky, daughter of Mr. and Mrs. John Shemky became the bride of Ray St. Onge, son of Mr. and Mrs. George St. Onge, of L'Anse.

Mary Penokie, the bride's college roommate was maid-of-honor, and Edward St. Onge, of L'Anse was his brother's best man.

The bride graduated from Crystal Falls High School and will be a senior at Northern next fall. The groom will be a senior at Michigan Tech next fall.

**DAMBERG—FEDREZZI**  
Miss Editrude Fedrezz, daughter of Mr. and Mrs. Frank L. Fedrezz, of Iron River, Michigan was married to Willard Damberg, son of Mr. and Mrs. Rudolph Damberg, also of Iron River.  
Miss Mavis McKay, cousin of the bride was maid-of-honor. Walter Damberg, brother of the groom was best man, and Marvis Fedrezz, brother of the bride was groomsmen.

Both are graduates of Iron River High School, the bride with the class of 1944 and the bridegroom with the class of 1943. In the fall they will reside in Marquette where the bridegroom is a junior at Northern.

**NAULT—GATTEN**  
Miss Blanche Virginia Gatten was married to Kenneth D. Nault, both of Ishpeming.

Miss Carmen Gatten, the bride's sister was maid-of-honor, and Misses Rita Gatten, and Shirley Cudaby were the bridesmaids. The bride's brother, Robert, was best man and the bridegroom's brother, Louis, was the other attendant.

The bridegroom attended Northern for his pre-engineering work. He is now attending Michigan College of Mining and Technology.

**PUCKETT—SERGENT**  
Miss Phyllis L. Sergent was married to Clifford Puckett, both of Newberry.

Donna Amidon, aunt of the bride, was maid-of-honor, and the bridesmaids were Ruth Borsum and Joyce Roberts. The best man was Orville Puckett, Jr., a brother of the bridegroom, and seating guests were Philip Johnson and Walter Williams.

They are both graduates of Newberry high school. The bridegroom will return to Northern next fall to resume his studies.

**SIMONSON—SJOQUIST**  
Miss June Sjoquist, daughter of Mr. and Mrs. J. E. Sjoquist of Homestead became the bride of Arthur Simonson, son of Mr. and Mrs. John Simonson, of Felch.

Mrs. P. Richardson Nelson, of Rockford, Illinois, sister of the bride was matron of honor. Herbert Simonson, of Marquette, counselors and educators should follow if they are to accomplish any guidance.

"Student adjustment is not a matter of intellectual maturity nor of emotional stability, but

(Continued on Page 4)

**Inquiring Reporter**

What are your Plans after the Summer Session?  
John Maloney: Going to Ishpeming to relax and take it easy for six weeks.  
Dean Bottom: "No rest for the wicked. The way of the transgressor is hard"; in other words a great deal of work. Vacation is a state of hope.

Mr. Schwem: Supt. of Buildings and Grounds. We hope to have everything ready when school opens in September.

Dr. Thomas: Going to visit Gettysburg, Pa., Washington, D. C., and Philadelphia. Taking the family to visit historical spots.

Martha Robin: First going to visit Trenary, then Calumet to be hosted for visiting brother and family.

Miss Payne: I will spend two days in Chicago, then to Bridgton, Indiana.

Francis Smith: Spend several weeks fishing in Gogebic and Ontonagon Counties. Must try out my new rod and reel.

Ruth Gustafson: Going home to house clean.

Toivo Hendrickson: Spend several weeks at Pine Lake in Mercer, Wisconsin.

Elma O'Hara: Vacation in the Lower Peninsula.

Dr. Halverson: Teach Conservation of Natural Resources in Escanaba for three weeks.

Emily Mickelson: I have enrolled in the weaving class for three weeks.

Walfred Luoma: Several weeks vacation in Virginia, Minn.

Mr. McCollum: Finish building my new house.

Leah LeMense: Going to Washington, D. C. to visit a sister.

Evelyn Burton: Quit using the telephone so I can have a vacation (Works for the Michigan Bell).

Joe Sullivan: Going to Ripley to rest.

Max Crenna: Back to Bessemer to finish house cleaning and cook some spaghetti.

Ann Kezel: Hope to Houghton to relax. Hope to paint and redecorate my bedroom.

Irene Menghini: Spend a week in Chicago.

Gertrude Overton: Bat around in a second-hand Chevrolet for two weeks.

Miss Lorna Weddle: I am leaving for Savonburg, Kansas to spend a vacation with my folks...

**Students Enjoy Walden Quartet**

Northern students, and visiting townpeople, entertained in a charming fifty minutes of soothing chamber music on the morning of July 14. The occasion was the Walden String Quartet presentation on the last of the series of three summer assembly programs.

In spite of mid-day hunger pangs and a noon-time bustle, the string quartet captured and held the interest of its audience.

Admirers of Hayden were given a treat in the Quartet's smooth and delicate rendition of Quartet in D major, Op. 20, No. 4 in its various parts. The second group of selections were in a lighter mood with Italian Serenade by Hugo Wolf and Dutch sketch for String Quartet by Ernest Bloch. Time did not permit playing the second sketch by Ernest Bloch, The Rustic Dance, as was originally scheduled. The program was given contrast and the hopes of Beethoven lovers were fulfilled by the Quartet's fine and expressive interpretation of Quartet in C major, Op. 59, No. 3.

It is to be regretted that it was not possible to have had the Quartet for a longer and, preferably, an evening concert.

The University of Illinois is envied in having in residence such truly fine artists as the members of the Walden String Quartet—Homer Schmitt, violinist, Bernard Goodman, violinist, Eugene Waigel, violist, and Robert Swenson, cellist.

brother of the bridegroom, was best man, and Harold Johnson, of Lansing and Gen. Skogman, of Felch were ushers.

The bride was graduated from Kingsford High with the class of 1945 and the bridegroom, who graduated from Felch High with the class of 1941, is now attending Northern.

Prizes for the Coaches whose registration numbers are—50, 75, 100, 125 and 150. For further information write: C. V. "Red" Money, Director Coaching School, Northern Michigan College of Education, Marquette, Michigan.

Malariaology Book To Be Translated Into Portuguese

"Practical Malariaology" by Russell, West and Manwell is to be translated into Portuguese. This translation will greatly enhance the value of this work in South American countries.

This volume, first published in 1946 was selected as one of the best textbooks of the year by the American Institute Of Graphic Arts. It was also one of the few books chosen as outstanding in design and format at the Philadelphia book show sponsored by the Philadelphia Book Clinic.

Dr. Paul F. Russell, senior author is on the staff of the International Health Division of the Rockefeller Foundation.

Dr. Luther S. West who prepared the entomological chapters in the head of the Department of Biology at Northern Michigan College of Education.

Dr. Reginald D. Manwell who also collaborated is professor of Zoology at Syracuse University, Syracuse, New York.

I am a World War II veteran and receive disability compensation. If I take a three hour a day job, will my compensation be discontinued?

A. So long as your disability remains compensable, it will be continued. The fact that you are employed does not bar payment of compensation if you are disabled as result of a service-connected condition.

Q. I lost the use of my legs in line of duty during World War I and would like to know if I can get a car from the government?

A. Under existing law, the authority to furnish automobiles to eligible amputees is limited to World War II veterans.

VETS WIVES GIVE FAREWELL PARTY

A special program in honor of departing members of the Wives of Northern Veterans is being planned for the next meeting, at eight o'clock Thursday evening, August 12, at the Federated Women's club building.

Members to be honored include both the wives of Northern students who graduated this June, and those who with their families will move from Marquette before the fall term.

At the August business session details of a concert rated membership drive, planned for this fall, will be completed and a special membership committee named by the president.

Dr. Luther S. West who prepared the entomological chapters in the head of the Department of Biology at Northern Michigan College of Education.

Dr. Paul F. Russell, senior author is on the staff of the International Health Division of the Rockefeller Foundation.

Fall Football Practice To Open After Labor Day

With the six-week session past the half way mark many students look forward to the coming grid season.

As yet no definite date has been set for the Fall Football camp, but it is expected to be on or near the 8th of September, two days after Labor day.

Graduation this year took seven of the mainstays of the squad, and their positions will all have to be filled. The graduates are:

- Bonifas \_\_\_\_\_ Line
Gaviglio \_\_\_\_\_ Line
Kukuk \_\_\_\_\_ Line
Koskimaki \_\_\_\_\_ Backfield
Montcalm \_\_\_\_\_ Backfield
Refling \_\_\_\_\_ Backfield
St. Germain \_\_\_\_\_ Backfield

Call will be issued to 24 Wildcats, and it is expected that from 12 to 15 new students will report for training.

During this camp period, Coach Money expects to get a fairly accurate lineup of his coming grid team.

Physical examinations will be conducted prior to any field work, as has been the custom in past seasons.

ADVICE FOR VETS

QUESTIONS AND ANSWERS Q. Have I any recourse to civil courts if I do not like VA's decision on my claim for disability compensation?

A. No. The law specifically provides that the decision of the Administrator of Veterans Affairs in such matters is final and conclusive.

**Munuscong Camp Busy**  
(Continued from Page 1)

insula. She also conducted a field trip to points of interest around the Camp and Pickford, and explained the geology formations. A number of field trips are scheduled to study deer yards, upland game bird areas, water fowl refuge, and logging operations. A very thorough instruction is given to elementary and secondary school teachers in conservation, wildlife, and outdoor activities. Carl Lindholm, Ishpeming, is the only Marquette county student at the school, others are:

Claude Oulette, Munising; Wilbert Gustafson, Hancock; Mrs. Ina Anderson, Sault Ste. Marie; Miss Mary Boys, Miss Mary Gallagher, Miss Nellie Mulcrone, and Miss Anne Sorrenson, St. Ignace; Miss Donna Thornburg, Barbeau. William Davison, Cooks; Toivo Lauri, Rock; Miss Grace Winsdor, Hessel; Mrs. Clara Aronson, Escanaba; Mrs. Hazel Stenland, Rapid River and Mrs. Ellen Gustafson, Ensign.

Jack Larson is park manager of Munuscong, which is located about 26 miles south of Sault Ste. Marie. The park site of approximately 60 acres is under the jurisdiction of the parks and recreation division, and is located in the Munuscong State Forest. It is amply supplied with all forms of wildlife. A three-week session is scheduled to commence August 2, 1948. Information may be obtained by writing to the Conservation Laboratory, Pickford, Michigan, or by seeing Mr. O. L. Gant, Registrar.

**Custodians Keep Building In Operation**

(Continued from Page One)  
Mr. Anderson is in charge of all carpentry. Joseph Clement

Mr. Clement is the swing shift man in the boiler house on the first three days of the week. The other three days his work is concerned with general maintenance.

**Engineers**

William Lockhart, Thure Johnson, Carl Vickstrom. These men operate the heating and ventilating systems. At night they are watchmen when the other men are off duty.

**Janitorial Staff**

Edward Skoog, Henry Manty, Victor Waisanen, Phil Viton, Hilja Pakkala. Mr. Skoog and Mr. Manty are the two custodians of the College building. Mr. Waisanen is the custodian of the John D. Pierce building. Mr. Viton is responsible for the Kaye Avenue veteran housing unit. Mrs. Pakkala is the janitress for the entire institution. It is she who is responsible for the cleanliness of the women's rooms and the offices of the Deans.

**New Construction**

(Continued from page 1)  
The legislature appropriated \$2,000 to put in new fluorescent lighting in the school where it is needed. This new lighting will go into the general library, office machine room, half of the general office where the employees work, front half of the Dean's office where Mrs. Dutmer has her office, and in the drafting room. These locations are considered to be the ones that are in most need for this type of lighting because of the type of work done in these rooms. With the limited funds no more can be expected to be done at this time. The money was made available

July first. Set-up for work order is now being processed and fixtures will be requested soon.

It is hoped that this project will be completed before school resumes in the fall. Everything from the institutional standpoint is being done so that it will be completed in the fall.

This project is being done through cooperation of Northern Michigan College of Education and Building and Construction Division of the State of Michigan.

**RESIDENCE HALL**

(Continued from Page One)  
Carey Residence Hall will appreciate and enjoy the spacious lounge, and the colorful drapings and furnishings. Then, important in consideration, is the large appealing dining room, cheery in atmosphere and the large recreation room.

**Health Service**  
There is a convenient and well equipped laundry on the ground floor. Parents will be interested in knowing the college Health Service is easily accessible and a residence nurse will be available when ever the college nurse is not on duty. This is the first time Northern has been able to assure such personal protection for the girls.

Of course, the attractive furnishings and facilities for comfortable living can only be a hint of the happy days that lie ahead for the residents of the hall; the making of new friends, the pleasant associations, the talking and laughter, and the fun that are part of the delight of life in a residence hall.

Rooms are now being assigned for the ensuing year, and one application is already on file for 1949. Board and room is fixed at \$120.00 a week, the college reserving the right to modify this change should there be a radical change in prices. Prospective students may write to the Dean of Women, Northern Michigan College of Education, Marquette, for information and application blanks. Any women students now in attendance who desire information should contact the Dean of Women's office.

The State Board of Education has ruled that with the opening of this dormitory to the college women and because of the great shortage of adequate housing for the men students, all college women not domiciled in their own homes should live in the dormitory unless special arrangements are made after consultation with the Dean of Women.

Obviously this residence hall has been so long awaited that many applications will be received and it would be advisable that girls planning to enter Northern this fall contact the college for information and application blanks immediately.

**FAREWELL PARTY**

(Continued from Page 3)  
tend any of the Winovet meetings, held regularly the second Thursday evening of each month at the Federated Women's club building, 104 West Ridge, Marquette. A program of activity for the 1948-49 calendar year will be announced early in the fall by Mrs. Oswald Vecello, vice-president, who is program chairman.

**Students Hear Berdie Speak**

(Continued from Page 2)  
rather, is a function of the student's total behavior."

(2) "The optimal educational environment must offer the student an opportunity to learn information and skills and acquire attitudes directly related to his role as a citizen, a worker, a member of a family, and a social being. The educational program of the student must be planned with a full recognition of the responsibilities the student now has and will later have toward his community and toward society."

(3) "Many of these skills and attitudes can best be acquired by having the student actively participate in experiences similar to those he will later encounter."

(4) "The student must leave school and still possess the drive and the desire to continue his intellectual and emotional development."

(5) "The aim of education must be to best meet the needs of students and society rather than to satisfy the needs of instructors, personnel workers, or administrators, and rather than to conform to educational patterns imposed by tradition and defunct social conditions."

The purpose of counseling, said Dr. Berdie, is "to help the student make optimal adjustment to his environment and help to adjust the environment". The student must be given the attitudes and skills he will need in later years, such as knowledge of himself and his community and recreational, vocational and social skills.

The speech of Dr. Berdie was well received by the participants of the educational guidance conference who seemed to make up the bulk of the audience of about two-hundred and fifty persons.

**WINOVETS ENJOY PICNIC AT ISLAND**

The Student's Veteran's wives at Northern, organized as the Winovets club, are delighted with the success of the first annual family picnic which they sponsored Thursday evening, July 8 at Presque Isle. Seventy-five attenders and they included 20 couples and their children, whose ages ranged from one to six years.

The basket lunch for each family was arranged on the long table on the pavilion side of the island.

Following supper the early evening hours were spent in playing tennis, shuffleboard, or chatting until it was time for the husbands to get back to their studying for the evening.

**ESCANABA OFFERS EXTENSION COURSE**

Dr. Halverson expects to teach an extension course, Conservation of Natural Resources 210, at Escanaba Junior High School for three weeks beginning August 2nd, provided 25 or more people sign up for the course. Anyone desiring three semester hours of extension credit is eligible to enroll for the course. Conservation of Natural Resources 210 can be used for credit toward a major or a minor in Geography or Science and as an elective.
