

North Africa
Oct. 18. 1943.

Dear Sis & Bro.

Just received another letter
from you today.

So I thought I would take time and
answer right away.

I am in the best of health hoping this
letter find you all the same.

The weather here is getting much cooler
then what it was in the middle
part of the summer.

How is the small game up there this
year is there lot of it?

The way Raymond wrote me last summer
he said he use to see deer around the
farm just about every day.

Does Ned and Bob get all the shells they
want as it seems to me you had said
last fall that they were hard to get.
Will have to close this time.

Best wishes to all
Clarence.
