

Somewhere in Italy.
Feb. 20. 1844

Dear Sisgalb.

Just recieved your letter tonight so will answer right away.

I also got a letter from Norman a few days ago.

He's something like Raymond in writing he writes awful short letters.

But its a lot better if he writes a few lines then not at all.

That way it dont keep a person a warding about him.

So Med dont smoke or chew what the hell does he do for a past time. Ha. Ha.

Does he just pass away his time with you besides working at the factory?

It must be hard for them home to get the timber out of the swamps

without any snow at all.

I suppose Bob will soon be in the
Army or Navy soon now.

I sure was surprised when I heard
about Mase Christian.

I never thought that man would
do anything like that.

How does Raymond like his oil burner?

He told me once that he had bought
a V-8 but never said how he
liked it.

Can you get any camera films
yet?

Some boys tell me that they write
their folks for films and that
they have a heck of a time to get
them and some of them said that
they can't get any at all.

If you ever get a chance to get
some send me either 620 or 116
camera films.

Hav'nt no more news so will close.

So Long
B. C. Lawrence.
