

The Campus IN BRIEF

Tuition fees for all courses taught on campus during the Summer Session are: Michigan resident - \$15.00 per credit hour; non-resident - \$35 per credit hour. Any questions should be directed to the Director of the Summer Session, Longyear 114.

Two members of the Judo Club have recently been promoted to higher ranks, according to Robert Snitzer, spokesman for the group. Debbie Fergus received the title of Go-KYU and Bea Kosla received the title of YON-KYU. Miss Kosla is the first woman in the club's history to achieve the rank of green belt.

Edward Quinnell, Marquette County Prosecuting Attorney, was a guest-speaker during a recent class meeting of Dr. K. L. Sindwani's senior seminar in sociology. The seminar class had been discussing the topic of administration of justice in Michigan and Marquette County prior to Quinnell's appear-

ance. During the time he spent with the class, Quinnell explained the functioning of the court system in the State and county and answered a number of questions raised by the students.

Robert Delongchamp, Ishpeming, has been selected as the recipient of the Gary Ross Memorial Award for the 1970-71 academic year at NMU. Established in 1966 by Lee Ross in memory of his son, Gary, this award is made annually to the senior student at Northern who has shown outstanding performance and potential in subjects relating to the conservation of fish and wildlife. Delongchamp will be presented with his scholarship, in the amount of \$100, in the near future.

Faculty, Student Interaction Result Of New Program

Washington, D.C. (I.P.) - During the fall of 1970, the Division of Student Affairs at The George Washington University began a project known as the "5 for 1 Program."

William P. Smith, Jr., Vice President for Student Affairs, explains that the project consists of randomly selecting groups of five freshmen, each of which is then assigned by the Student Affairs Division to volunteer faculty members, to student affairs staff, and to other administrators of the University, for informal contact and personal interaction.

Each faculty or staff member then initiates contact (personally, not through a secretary) with each assigned freshman, and arranges to meet with him in the college union, in the office, or in the caller's home, to discuss the University, any particular questions or problems, or simply life in general. These contacts are renewed periodically throughout the school year.

The "5 for 1 Program" was begun with the idea of supplementing both the classroom contacts or purely business-type contacts to which the modern large-scale University is increasingly limited with its students, as well as to give staff, faculty, and students an informal opportunity to know each other a little better as individual persons with specific hopes and plans and needs.

To date, 100 faculty and staff members are making this out-of-classroom personal contact with half of the 1170 students in the University's entering Freshman Class of 1970-71. Involvement of all members of the 1971-72 Freshman Class will be sought.

Payne Hall Icers Capture Intramural Hockey Title

by Michael J. Swiderek
NEWS Sports Writer

Payne Hall, undefeated in six games, and VanAntwerp, with just one loss all year, met Wednesday, March 3, for the intramural hockey championship and Payne Hall was victorious, coming from behind to win 6-4.

Bob Fillion opened the scoring in the first period with a shot that beat Payne goalie Rick Avery at 2:18. VanAntwerp scored just two minutes later as Mark Mojicichowski, captain of VA's team, scored on a rink long play to up the lead to 2-0.

Greg Hyde opened the scoring for Payne Hall as he cut in all alone from the red line and beat goalie Mike Derry at 4:17 of the first period. Jerry Brown notted the score at 2-all when he scored with an assist from Hyde.

Brown put Payne Hall into the lead for the first time in the game as he put the red light on at the eight minute mark. Once again, Hyde got the assist. Payne Hall upped its lead to 4-2 as Tim Cashen got his first goal of the season on a shot from just inside the blue line.

VanAntwerp pulled to within one goal as Fillion scored his second goal in the game at 10:27 of the second period.

The third period belonged completely to Payne. Brown put the red light on at the five minute mark. It was a great individual effort on Jerry's part. It was his third goal of the game as he scored the hat trick for the first time this season.

Pete Bechard pulled VA to within one as he slid the puck past goaltender "Munch" Avery.

Greg Hyde, named most valuable player in the game, closed the scoring by beating Derry cleanly. It was

Greg's second goal in the game.

A fine crowd was on hand for the game, including NMU President Dr. John X. Jamrich.

The contest featured hard skating, rough checking, and superb goal tending by Mike Derry of VanAntwerp and Rick "Munch" Avery of Payne.

A lot of credit for Payne Hall's victory must go to John Eschenburg who coached Payne's team. He maneuvered his lines well, giving his players a breather when they needed it and also giving them plenty of ice time.

Jerry Brown was named MVP for the season and Ralph Bedogne was cited as the leading scorer.

Chris Nolan, playing with a fractured kneecap, did an outstanding job defensively as did Tim Cashen and Mike Williams. John Thomas and Greg "Sud the Dud" Sudderth showed a lot of hustle throughout the game as did Bob Chmura, who played his best game of the season.

LAST YEAR in the NEWS

Dean Lowell Kafer issued a statement promising significant changes in dormitory living conditions. Included in the list of six long-term goals were the modification of the residence hall regulations to provide for greater student level of involvement, modification of the requirement of living on campus, and establishment of a rate policy which would provide for a rebate to students housed on a three-man-to-a-room basis.

President John X. Jamrich announced plans for a "management study" of Northern's Auxiliary Enterprises department.

The ASNMU Governing Board approved a revolutionary plan for all-campus governance. The plan would provide the student with a greater voice in the University committee structure.

The ASNMU Housing Committee released a report which said, in part, that two-thirds of Northern's students would seek off-campus housing if the existing policy of mandatory on-campus residence was abolished.

Alpha Phi Omega's "Ugly Man on Campus" contest was in its final weekend.

Northern's skiers returned from Franconia, New Hampshire, where they finished in thirteenth place in the NCAA championships.

Tau Kappa Epsilon won the all-campus hockey championships.

Ford Report Contends Colleges Are Irrelevant

The Ford Foundation has issued a report contending students are right when they say colleges are irrelevant. The Nixon administration has embraced the report.

The Ford group headed by Frank Newman, associate director of university relations at Stanford University, suggests the root problem for all higher education is the university and its credential-laden faculty.

"The modern academic university has, like a magnet, drawn all institutions towards its organizational form until today the same teaching method, the same organization by disciplines, and the same professional academic training for faculty are nearly universal," the report says.

"The shortcomings of the academic university as a model for all

other institutions have been obscured by the dazzling success of the best known examples," it continues.

The study recommends new institutions where students of all ages are educated, with any preference going to older ones; where practical experience and not classroom lectures is the primary teaching tool; where professional practitioners have equal faculty footing with academic Ph.D.s and where instruction is offered by television, off campus and in traditional classes.

It advocated decentralization of state college and university systems; formation of regional examining universities whose sole function would be to test and grant degrees; and complete overhaul of professional accreditation agencies to encourage apprenticeship as an alternative to solely academic preparation.

aration.

Secretary of Health, Education and Welfare Elliot L. Richardson called the report "provocative, controversial and innovative and as significant a statement on higher education as we have seen."

Richardson, whose predecessor, Robert Finch, suggested the report, noted "there is a very substantial core of validity in their anger," referring to students who have been

saying the same thing as the report in reference to problems of isolation, forced conformity and rigidity in higher education.

He added that the system, "with its massive inertia, resists fundamental change, rarely eliminates outmoded programs, ignores the differing needs of students, seldom questions its educational goals, and almost never advocates new and different types of institutions."
