Wideawake Merchants Add to Your Business

Think About the Graphophone.

The enormous sales of the Graphophone are caused by the fact that it has such matchless power of entertainment that an intense desire for possession is awakened in all who hear it. It supplies an actual want

An Irresistible Demand for Diversion and Relaxation

To gratify which many are willing to do without other necessities. It is the universal entertainer of the age; an inexhaustible source of wonder and delight to all.

It is simple in construction and prices are arranged to suit all pocket books, while the demand will continue as long as human nature exists. The introduction of a few Graphophones into a community at once creates an increasing demand for Records and Supplies, and a continuous business is thus established. THE CITY IN BRIEF.

The first cargo of iron ore from the new dock of the Chicago, Milwaukee & St. Paul Railroad company at North Escanaba was loaded onto the steamer Harvey H. Brown Wednesday last. The cargo consisted of 4,100 tons of ore from the Chapin mine and was consigned to Cleveland, Ohio. No ceremony attended the formal opening of the shipping season from this new dock, but there was some rivalry among the top workers to see which crew should claim the distinction of unloading the first pocket.

There are some people in every community who think a newspaper is run to report private gossip and as a vehicle for the venting of a private spite. One who is willing to pay for getting things into the paper is a rare bird generally, though some would willingly pay a good price if they could lampoon their neighbors, keep in the dark themselves and have the newspaper assume all the responsibility of the publication.—Exchange.

A. Z. LeBlanc reports that among other surprising events, one of his setting hens came off her nest this week with twelve chickens. He had set her with thirteen eggs, and after the dozen biddies were hatched there were eight whole eggs left in the nest. The chickens were all triplets. Alderman Holm bought the whole brood and LeBlanc says the first ward will be full of chickens next year.

The matter of fire limits is attracting a great deal of attention and some of the Central avenue property owners are of opinion that that thoroughfare should not be included. It seems agreed that Delta, from Central to Sixth ought to be made up-to-date by proper building restrictions.

The Hart line appointments for the season of 1901 are as follows: Steamer Fannie C. Hart, Capt. E. W. Hart; Engineer, J. Schram; Eugene C. Hart, Capt. C. B. Hart; Engineer, Geo. Colter; C. W. Moore, Capt. Gus. La Compte, Engineer, T. Hudson.

The Delta acknowledges with thanks the sympathetic notices given it by the press of the peninsula. Most of the "boys" know how it is themselves, but none of them ever had a cleaner sweep made of their offices.

Dr. Kee on Tuesday bought of S. D. Langley the lot and building of the latter on Delta avenue. The doctor will occupy it as a residence and office. Mr. Langley expects to go to some point in the west.

The Hoyt Grocery Company is doing business at the Gleason stand as though it grew there. Frank Hoyt, with his store clothes on, is the last man you would suspect of being a fire sufferer.

For sale cheap, a good hardwood homestead in Section 26, 41-23. 120 acres cleared. Good house, barn and well. Inquire of Wm. Wayson, Gladstone, Mich.

Martin Weing came home Tuesday evening from Mt. Clemens and looks as fine as a fiddle. He says Mr. Gagner will remain another week.

Hammel's bank is nearly completed as to decoration, and a handsome and elegant interior it shows through the great plate glass front.

John Gleason came down from Florence Saturday to do business and to see how the town looked.

S. Goldstein went to Chicago Tuesday evening to buy stock, and will soon be doing business again.

The new engine for the water works and electric light plant arrived here last Sunday.

C. E. Hamilton is postmaster at Rapid River in place of George E. Merrill, resigned.

Capt. Ross came in Wednesday morning with the Hennepin and left about midnight.

A. T. Kelliher arrived in the city Tuesday and is busy talking timber to the natives.

The Agitator took a good crowd on its excursion Sunday evening.

G. R. Empson represented Gladstone Lodge.

The work of raising the battleship Maine in Havana harbor will be

watched very closely, as the wreck when exposed to view will determine the question whether the explosion was from internal or external causes and not only settle a much mooted and very interesting question, but also the responsibility for the damages.

Two bills of unusual importance were sent to the governor last week, having passed both houses. One provides that school districts may band together on a vote of a majority of the qualified electors of the districts and provide for the establishment of rural high schools. The other applies practically prohibitory conditions to the sale of malt brewed or spirituous liquors by druggists and also makes it unlawful to display liquors in store windows.

The Delta is obliged to those of its friends who came in so promptly to make payments, and assures them that they will be remembered.

HAMMEL'S BANK.

The Detroit Tribune of Tuesday, under date of Gladstone, has the following to say of the bank:

"Bank of D. Hammel & Son on April 4 purchased the lot and building where the bank is now situated, and will remodel it into a first-class banking office. Hammel's bank is one of the solid financial institutions in the upper peninsula, although it was only established in August, 1899. David Hammel, president of the bank, is mayor of Appleton, Wis., having been re-elected to that office last week. He is a man of large means, and is one of the heaviest stock dealers on the west side of Lake Michigan, with fine stock stables at Appleton, Rhineland, Antigo and Sault Ste. Marie.

W. F. Hammel, his son, and cashier of the Gladstone bank, is 27 years of age, but has had much experience in the business and was for 11 years connected with the Commercial National bank of Appleton. Desiring an opportunity to display his ability and believing Gladstone to be a favorable field, he established the bank here a year and a half ago. He has all the qualities which make for success, and the deposits in his bank have increased in that time to over \$90,000, and they grow daily.

The personal responsibility of the bankers is \$100,000 and they have ample capital to meet any demands which their growing business incurs. Some of the largest users of money in the county are now negotiating for the use of their banking facilities. The success of this bank is a good omen for the city, and shows that enterprise and energy will win in Gladstone as well as in larger towns. It is the intention of Messrs Hammel to incorporate as a national bank as soon as circumstances justify, and people here hope that, as they have begun to acquire real estate in the city, a fine bank building may follow the First National bank of Gladstone.

STILL THE SAME.

The upper peninsula as a congressional district is liable to remain intact, as it seems very doubtful if there will be any congressional reapportionment bill passed by the present legislature. No one has asked for a hearing on any one of the bills and Chairman Palmer, of the reapportionment committee, frankly states that he thinks no bill at all will pass. While it is made mandatory in case of representative and senatorial apportionment to pass new bills, it is not necessary in case of congressional districts. Congressional reapportionment is admittedly dead. Osborn and Mead will consequently be left with us, so that congressional contests in the future will be just as lively as they have been in the past. The boys in Delta, Chippewa and the other counties are jolly good fellows and we do not care to part with them.

ALL ABOUT THE PAN-AMERICAN EXPOSITION.

A most valuable publication treating on many of the numerous features which will make the Pan-American Exposition at Buffalo one of the greatest events of recent years has been issued by the Soo Line and copy can be had by applying Agent, or by writing to W. THE CITY IN BRIEF.

The Delta was doing job printing in its new home last Wednesday, just a week from the fire; which is not bad for a town three hundred miles from the type foundry. The outfit was shipped from the American Type Foundry Company, in Chicago, the day after the fire and the Soo Line brought it in on Saturday.

Insurance is in great demand just now in Gladstone and the agencies are all having their hands full looking after the rush of business. It is good business policy to have a policy in a reliable company and there are plenty of them represented in Gladstone. Up to last week the city had been very fortunate in the matter of fires and too many were carrying their own risks.

The frosty nights of the past week have not advanced the gardens very fast, and they are not forward for the season; but the rains have made the lawns as bright as St. Patrick's Day, besides lessening McIntyre's water collections.

For Sale, August Carlson's property in Gladstone, corner of Fifth street and Wisconsin avenue. Inquire of Carl Hampel on the premises. 6 tf

Street Commissioner Barstar put in a new walk at Delta and Central yesterday, and The Delta is more accessible to its customers.

Hon. Chase S. Osborn delivered his lecture on Mexico in the Presbyterian church Friday night of last week, but the change in arrangements caused by the fire prevented the gathering of a large audience. The lecture is highly commended by those who had the pleasure of listening to it.

John Hancock will soon be in receipt of fruits of all kinds. The first lot of Michigan strawberries will be due about June 10. The Michigan berries are the real thing.

There has been a demand for the fire edition of The Delta, and it is all gone.

Stewart's new store looks very attractive in its freshness and order.

The Delta hopes to print upon its own press next week. In the meantime the job press is working full time on orders for small work. A large assortment of new type is now in use.

Services will be held in the New Congregational Chapel next Sabbath. Preaching in the morning by Rev. G. R. Empson. A union service in the evening. Rev. Mr. Mott and Rev. Mr. Jewell will participate. Special music by the choir. A cordial invitation is extended to all to attend these services.

Ice cream in any quantity at Murney's.

The Cleveland Cliffs Iron company has purchased the Ashland mine on the Gogebic range.

Dr. L. C. Kent, late of Kentucky, but who comes here from Kalamazoo, arrived Thursday morning to be Dr. Forsyth's general assistant and will attend to the Cleveland Cliffs practice in particular and respond to other calls. He is an experienced practitioner and will be a great addition to the profession in Gladstone.

PROMPT ADJUSTMENTS.

Among the policies of insurance which The Delta carried on the printing office was one for six hundred dollars in the Svea, of Sweden, which was written by the agency of G. R. Empson. The surveyor, Mr. Chandler, arrived here last Saturday, seventy-two hours after the fire, and the same day handed the proprietor a draft for the amount of the face of his policy, the loss being total. His courteous treatment and prompt settlement has made at least one staunch friend in Gladstone who hopes never to see him again on business. But he will be welcome whenever he comes.

Sam B. Rathfon's new yacht, the Wynema reached Escanaba Tuesday evening after a rough voyage of four days' duration from St. Joseph. The little craft stood the rough weather remarkably well but the crew, consisting of Mr. Rathfon and George Preston of this city and Captain

Lanford, an expert engineer from Marquette, were completely worn out when they finally brought the boat to an anchorage in the slip back of the Northwestern coal dock.

The Wynema is easily the finest yacht in the Escanaba fleet. She is 54 feet over all and is equipped with a commodious cabin with all the modern conveniences. The boat is handsomely finished in hard wood and is rigged with two masts. The party left St. Joseph last Saturday and report having encountered unusually severe weather all the way over.

DREDGES ARE AT WORK.

Starkey Removing 80,000 Yards of Sand at New Coal Dock.

The Starkey Dredge company of Milwaukee has entered into a contract with the Chicago & Northwestern railway company for the handling of 80,000 yards of sand at and near the latter's new coal dock, now in course of construction immediately north of No. 4 ore dock, and the work was commenced this week in earnest. The work was delayed somewhat, having had one of the two dredges engaged at this place in dry dock at Sturgeon Bay for several days last week, but with a combined capacity of over 2,000 yards per day the contract will be speedily executed and coal will be arriving over the immense new dock in July, if not before.

The Starkey company is represented here by Captains George Creighton and H. S. Elliott, who are in charge of the dredges, while Capt. Charles Hammer is in command of the tug L. B. Godfrey. Work is now being prosecuted on the north side of the new dock, the material excavated being used for filling the crib work of the dock preparatory to planking. This work will occupy the larger part of next week, when the channel between No. 4 ore dock and the new coal dock will be deepened from fourteen to twenty feet. The sand therefrom will also be used for filling.—The Iron Port.

BRING SMALL PREMIUMS.

County Jail Bonds Sold to Devet Trimble & Co.

The sale of the \$20,000 of county jail bonds was effected on Wednesday of this week by the finance committee of the county board of supervisors. The bonds brought a small premium, being awarded to Devet Trimble & Co. on their bid of \$20,150 which was the highest of the six made. The other bids made were as follows: W. J. Hayest & Son \$20,139; Mason, Lewis & Co., \$20,117; Rudolph Klaybolt & Co., \$20,103; Trobridge & Never Co., \$20,089; First National Bank Escanaba, \$20,000. The bonds are made payable at four per cent semi-annually and run for five years, being paid in installments of \$4,000 each year.

WILL START NEXT WEEK.

Mason's mill did not get under way this week, the work of overhauling the machinery taking much more time than was expected. It is to start next week, however, and has a full season's work ahead. The mill will cut four million feet for Madden, two million for the Marquette Lumber Company and a considerable quantity for the owners.

ST. PAUL, MINN., AND RETURN.

Via the Northwestern Line. Excursion tickets will be sold May 27, 28, 30, 31; June 2 and 3, limited to return until June 15, inclusive (or until July 15 on special conditions), on account of Meeting of United States Military Surgeons. Apply to agents Chicago & North-Western R'y. 8

The steamer Lotus gave its usual Sunday evening excursion up the bay last Sunday and the Oval Agitator ran a counter attraction by carrying a crowd from this city and Gladstone to the lightship and back. The Gladstone band furnished music on the Agitator.

MARINE.

Owners of tonnage on which the steel trust held options of 80 cents from the head of Lake Superior, 70 cents from Marquette and 60 cents from Escanaba up to November 25, have been notified that vessels are no longer wanted for the full season, but that the trust will pay 70 cents from the head of Lake Superior, 60 cents from Marquette and 50 cents from Escanaba up to October 15. This last proposition finds no takers, even vesselmen who took no contract ore on the first allotment declare they will not accept the reduced rates in view of the delay in opening the season as well as prospects of further labor troubles.

The strike of the marine engineers employed by the steel corporation is at an end, a settlement having been reached Monday last by granting an increase wage and compromising the question of extra help in the engine room. The non-union crews hired by the corporation will be retained as there is room for all. Extra men will be placed on boats of more than 1800 tons. Second and third class boats will be run without extra help. The strike has been on since Feb. 21.

The staterooms of the steamer Duluth have been entirely refitted during the past week.

The steamer Sheboygan of Chicago, and the Fannie C. Hart of Green Bay, were in port Monday night and the Eugene C. Hart touched here Tuesday afternoon.

The steamer City of Louisville of the Green Bay line will commence making trips to Buffalo in June.

Probate Court Notes.

The residue of the estate of Edward Donovan deceased was assigned to the widow, Mary J. Donovan and she was discharged as executrix on Monday last.

Erick E. Wickstrom has presented a petition to determine the lawful heirs of his father, Israel Wickstrom deceased. Set for hearing June 10.

Geo. F. Williams, administrator petitioned for authority to sell real estate of Jeremiah Williams deceased to pay debts. Hearing on June 10.

An examination was held on Monday on Annie Nuther for sanity. It was found that she was an epileptic but not a proper person to send to Newberry and she was taken charge of by a brother.

Josephine Moses, a fifteen-year-old Indian girl, whose parents reside in Bay de Noc township, was sentenced to the State Industrial school for Girls at Adrian by Justice of the Peace Emil Glaser on Thursday. The girl was charged with being a truant and disorderly child and it was shown by the evidence that she frequented immoral resorts and was incorrigible.

Mrs. McKinley is critically ill at San Francisco and her death may result at any hour. As a consequence the president's trip through the Northwest has been declared off and he is now watching at her bedside with the determination to remove her to Washington as soon as possible.

The new Catholic church at Stephenson, of which Rev. Fr. Barth is pastor, will be dedicated on Wednesday, May 22, at 10 a. m. Bishop Eis will have charge of the services being assisted by Father McCarthy of Mapleton, Wis.

President James O'Connell of the International Association of Machinists announces that a general strike of machinists involving at least 150,000 men would take place on May 20 unless some arrangement is effected in the meantime.

Moths do not like printer's ink, and there is no securer way of disposing of winter clothing than to pack it away in newspapers. The articles, whether woolen or fur, should be well beaten in the open air, to make sure that no egg is already deposited; fold carefully and paste closely in newspapers, so there shall be no crack into which the insidious little insect may creep. By packing carefully in this way you will not need camphor, moth-ball, pepper or tobacco, or any of the moth preventives so frequently recommended.

D. C. McINTYRE, City Clerk.

O'CONNELL DIVORCED.

Capt. Jack O'Connell, the expert rifle shot and deaf mute, who formerly hailed from this city but who has been operating shooting galleries all over the upper peninsula in recent years, was the defendant in a divorce suit at Menominee last week, and although he contested the claims of his wife, Judge Stone, granted her a divorce and restored to her her maiden name of Miss Gwynne Hardwick.

In 1897 "Capt. Jack" was conducting a shooting gallery in Menominee. Here he made the acquaintance of 15 year old Gwynne Hardwick and their subsequent marriage by Justice O'Leary created quite a sensation. At that time O'Connell was twenty-eight years of age. For some time their married life was pleasant and then after repeated quarrels Mrs. O'Connell returned to the home of her father, Louis Hardwick.

In her petition she charged cruelty and introduced several very threatening letters from her husband. He denied the charges and claimed that his wife's affections had been alienated by a man named Warren, but the decision of the court was in favor of the plaintiff. "Capt. Jack" has recently moved his shooting gallery from Iron Mountain to Florence.

SCHOOL MONEY.

The regular semi annual distribution of primary school monies is again due and notice has been received at the county clerk's office to the effect that the rate of apportionment in this instance is 40 cents per capita, which would make Delta county's share for her 6,971 pupils just \$2,788 40. The distribution for the various townships and cities of the county in detail is given in the following table:

Baldwin township.....	\$ 86.00
Bark River township.....	148 80
Bay de Noc township.....	47 20
Escanaba township.....	88 40
Escanaba City.....	1144 00
Fairbanks township.....	34 40
Ford River township.....	168 00
Garden township.....	160 80
Gladstone City.....	330 40
Maple Ridge township.....	65 20
Masonville township.....	282 00
Nahma township.....	117 20
Sac Bay township.....	36 40
Wells township.....	79 60
Total.....	\$2788.40

LONG IN HARD LUCK.

Frank E. Long, the actor, well-known throughout the upper peninsula, is having a run of unusual hard luck this spring. Four of the company are at present quarantined at Baraga on account of smallpox. They are: Miss Sullivan, the leading lady, Mr. and Mrs. Jack Lacy and Harry Moore. A week ago Mr. Long's baby was buried at Austin, Minn., and his wife is now dangerously ill at that place. To add to all this Mr. Long himself is so badly crippled with his rheumatism that it is next to impossible for him to walk and he will be compelled to quit the road entirely at the end of this season. Joe Santry, who has managed Mr. Long's attractions for several years, will take the company out next season.

DIED.

Miss Martha B. Fetch, aunt of Mrs. W. I. Ely, died at the latter's residence on Saturday, May 11, at half past eleven in the morning, of melancholia. She was seventy-three years of age and was born in Rutland county, Vermont, but had lived in Detroit and other places in Michigan for sixty years. She had been an invalid for some twelve years and was little known to people in Gladstone. Funeral services were held at the house on Sunday, and Mr. Ely accompanied the remains on Monday to Detroit where they were interred.

TO THE LAND OF THE MID-NIGHT SUN.

Get particulars of the grandest trip ever offered to the residents of the Northwest. A trip via rail and steamers to Pan-American Exposition, Northern Canada, Newfoundland, Nova Scotia and Labrador, a trip of 47 days, personally conducted. Booklet descriptive of this trip will be mailed upon receipt of three cents for postage. W. R. Callaway, General Passenger Agent, Soo Line, Minneapolis, Minn.

THE CITY.

At the grand lodge meeting of the Knights of Pythias it was voted to give a dollar from each Pythian from this grand domain toward establishing a Pythian sanitarium at Hot Springs, Ark., which scheme was first taken up at Detroit last September. This is the 23rd grand domain to take up this idea.

It is a great relief to have the four boats again arriving and departing, and every one busy once more. The long delay in the St. Clair made things very blue in Gladstone, as well as elsewhere. Mr. Kellie now walks with a brisker step and has less time to impart information to newspaper men.

The paving of Delta avenue does not seem so much of a "burning" question as it was a week or two ago. But when all these brick blocks are up the matter will recur again.

If all who are talking of rebuilding of brick succeed in carrying out their plans, the result will be a great gain for the city, and the beginning of a substantial and handsome business street.

Capt. C. D. Mason and R. P. Mason arrived in port Sunday evening after a tedious trip of three weeks from Buffalo. Their tug, the Portia, is busy at harbor work.

B. A. Kindergan leaves, with Mrs. Kindergan and the family, next Thursday for Sioux City, Iowa, where they will spend the summer with relatives.

J. E. Dickey has taken a position with Neil McEwen in the B. & O. offices in Baltimore. Mr. and Mrs. Dickey leave Syracuse, N. Y. for Baltimore this week.

C. H. Scott has the plans about matured for a double two story brick block at Delta and Ninth with stores below and offices and a lodge room on the second floor.

P. & H. B. Laing are figuring on a modern brick building at Delta and Ninth on the site lately occupied by the Hoyt Grocery Co.

The lodges that were rendered homeless by the fire are all skirmishing for a place to stay nights. Several of them were turned out without a shirt to their backs.

E. F. Mertz and G. Heben visited with their relatives here Saturday and Sunday, leaving for Milwaukee Sunday evening.

Mrs. A. P. Smith visited here on Tuesday.

MAY BUILD OPERA HOUSE.

W. H. Patton and others are organizing a stock company, which is being capitalized at \$25,000 to build a three story brick block with stores below, an opera house and offices on the second floor and a lodge room with complete adjuncts on the third floor. The shares are to be small and it is hoped that they may be very generally distributed among the resident property owners. The plan is a good one and will be a dividend producer. See Mr. Patton and find out all about it. The idea is to build on a double corner and fit the building with modern heating and lighting conveniences.

First publication May 11, 1901.—TIMBER LAND ACT, June 3, 1878.—NOTICE FOR PUBLICATION.

United States Land Office, Marquette, Mich., April 30th, 1901.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Frank Sherbenow, of Schaffer, county of Delta, State of Michigan, has this day filed in this office his sworn statement No. 331, for the purchase of the ne 1 of sw 1 of section No. 30 in Township No. 40 n, range No. 24 w, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Marquette, Mich., on Friday, the 16th day of July, 1901.

He names as witnesses; Oscar View, Adalior View, Louis Veachero, Edward Allord all of Perronville, Mich.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 16th day of July 1901.

Other Things

It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing this remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore, and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever.' Sold by A. H. Powell 7

Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the indigested or partially digested food and then of bile. Chamberlain's Stomach and Liver Tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by A. H. Powell. 7

Don't despair because you have a weak constitution. The vitalizing principle of Herbine will assuredly strengthen it. In every drop of Herbine there is life. There is a stimulating, regenerating power, unequalled in the whole range of medicinal preparations. Price 50 cents. By A. H. Powell 7

Try the new remedy for constiveness, Chamberlain's Stomach and Liver Tablets. Every box guaranteed. Price 25 cents. For sale by A. H. Powell. 7

Piles are not only most painful, but very dangerous, as the inflamed nodules are very apt to take on malignant action and cancer of the rectum is produced. They should be cured. Tabler's Buckeye Pile Ointment will cure the most obstinate cases. Price, 50 cents in bottles. Tubes, 75 cts. A. H. Powell. 7

When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine has a direct action on the liver and excretory organs, and a few doses will cure any case of biliousness. Price 50 cents. A. H. Powell. 7

C. W. Davis now has Dry Hardwood slabs for sale. Rheumatism is conceded to have its origin in a poisoned condition of the blood, and to be most successfully treated by Herbine, which acts upon the liver, kidneys and other blood purifying organs, thereby divesting the system of the offending agents. Price 50 cents. A. H. Powell. 7

Smoke Champion's Key West Cigar Union made, 10c. Children who are weak, fretful or troublesome should be given a few doses of White's Cream Vermifuge. They will then become strong healthy and active, have rosy cheeks, bright eyes, will be happy and laughing all the day long. Price, 25 cents. A. H. Powell. 7

E. S. Eaton has a few more choice pieces of Oregon timber which he offers at low figures. There are three thousand acres, in different lots. Better see him about it. Cyclists should always carry a bottle of Ballard's Snow Liment; in case of accident, if applied immediately, it will subdue the pain, prevent swelling and discoloration and quickly heal the wounds. Price, 25 cents. A. H. Powell. 7

BEWARE OF A COUGH. A cough is not a disease but a symptom. Consumption and bronchitis, the most fatal diseases, have for their first indication a persistent cough and if properly treated as soon as this cough appears are easily cured, Chamberlain's

Cough Remedy has proved wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by A. H. Powell. 7

Sensible Conclusion. Two doctors once had a disagreement—as the best of doctors sometimes will have—and lost their tempers. "I hesitate to say just what I think of you," angrily exclaimed one of the two, "for you have not many years to live! Consumption has marked you for a victim."

"Oh, it has, has it? How do you know?" "By the 'clubbing' of your fingers," referring to the wasting away of the fingers near where they join the hands. "Do I need to call your attention to that?"

"Perhaps not," retorted the other. "But do you know you bear the unmistakable indication of an early death yourself?" "Where, sir?" "In those hollows at the back of your neck near the head, where you can't see them. They denote a fatal lack of vitality."

"In that case," rejoined the one who had spoken first, extending his hand, "we are foolish to quarrel. Let us prescribe for each other." "They are still alive and apparently in excellent health.—Youth's Companion.

Awnings in Big Lots. "To supply some of the big modern buildings with awnings," said an awning maker, "costs as much as it would to build a moderate sized house. "Not all of the great buildings require awnings. Some of the very largest have their principal exposure in such a direction that they are not needed, the sun not shining on these windows during the hours the offices are occupied. And then, of course, there are great buildings that do not require awnings on some sides, but need them on others or in courts, and so on.

"Here, for instance, is a building with about 1,000 windows, of which 600 or thereabout are supplied with awnings. "Another building I have in mind has about 1,600 windows. I don't know how many awnings they have there, but if it is supplied in the same proportion as the other that would give it about 1,000 awnings. I dare say that, in fact, you would find in the city single buildings with more than a thousand awnings.

"You see, just the awnings for some of these great modern buildings amount to quite an item."—New York Sun.

Utilizing the Ad. "Now, if you will show me where the burglars got into your shop," said the detective, "I will see if I can find a clew." "In a moment," said the proprietor. "I am working at something a little more important than hunting for a clew just now."

And while the detective waited the merchant wrote as follows at his desk: "The burglar who broke into Katzenhefter's shop on the night of the 15th and carried away a silk hat, a pair of French calfskin boots, a fur trimmed overcoat, a black broadcloth suit and two suits of silk underwear was a black hearted villain and scoundrel, but a man whose judgment cannot be called into question. He knew where to go when he wanted the finest clothing the market affords."

"Jacob," he said to the bookkeeper, "send a copy of this to all the papers and tell 'em I want it printed in big black type, to occupy half a column, tomorrow morning. Now, Mr. Hawkshaw, I am at your service."—London Answers.

Thrift in Children. A savings bank account is a great incentive to thrift in children. If one is begun for the baby, even with a very small sum, and added through childhood and youth with a certain proportion of the money that otherwise would be spent carelessly and thoughtlessly by the child, there will be a very respectable amount on the credit side of the ledger when the depositor is 18 years old. The habit of self denial is not the least of the substantial benefits that follow a wise economy of money.—Exchange.

THE INDIAN AND THE NORTHWEST. A handsomely illustrated book just issued by the Chicago & Northwestern R'y, bound in cloth and containing 115 pages of interesting historical data, relating to the settlement of the great Northwest, with fine half-tone engravings of Black Hawk, Sitting Bull, Red Cloud and other noted chiefs; Custer's battlefield and ten colored maps showing location of the various tribes dating back to 1600. A careful review of the book impresses one that it is a valued contribution to the history of these early pioneers and a copy should be in every library. Price, 50 cents a copy. MONEY TO LOAN. Money to loan on good security. G. R. EMPSON.

FOR LITTLE FOLKS.

She Saved Her Pony. At Wey House, a country place near York, England, servants and family were awakened some time ago by the crackle of flames and a brilliant glare on the walls. Then came the horrible screams of horses in pain, showing that the stables were on fire.

The servants came out first, but the heat and the plunging and kicking of the animals kept them from any attempt at rescue. Suddenly Mary Silver, youngest daughter of the house, appeared with a drenched shawl over her head and a knife in her hand. The heat was almost unendurable, but without a word she made straight for the stable in which her pony Stella was screaming and kicking.

At the sound of her voice the animal ceased to struggle, and the girl ran in, cutting the halter strap. A fierce burst of flame dashed into her face, but in the fierce heat she pulled off the wet shawl, threw it over the pony's head and forced the animal backward into the open air.

The pony was scorched, and Miss Silver was burned about the hands, but she has her pony.

A Ball Game With No Shouting. Boys, what kind of sport would baseball be to you if you couldn't yell and laugh and give vent to your boisterous feelings? It would be tame, wouldn't it? A game in which you could not shout, "Slide, Johnny, slide," or "Come on, come on, Bob," wouldn't be worth seeing, much less playing, but this kind of game is on the diamond up at Delavan, Wis., nearly every day in the week. It is played by the deaf mutes in the Wisconsin School For the Deaf, located at Delavan.

A match game between the mutes and the nine of the Beloit high school was played the other afternoon. The "dummies," as everybody there calls the unfortunates, batted the visitors all over the field and won by a score of 15 to 8. The pitcher of the home team is a full blooded Oneida Indian boy. His name is Archie Williams, and he comes from the Stockbridge reservation at Gresham, Shawano county. The catcher is a big chested fellow named Fred Smith, who from behind his mask seemed to pick the Indian's twisters from off his bat, and another player who came in for much applause was a strapping young man from Argyie named Joe Ryan.

To the on-looker the game of these speechless boys is extremely interesting. The umpire must call the balls and strikes by both voice and motion so that all may know his decisions. In the event of a controversy they gather about the umpire, making all kinds of signals by the use of their fingers and sundry shakes of the head. The whole school gathers to witness the game, and when a fine play or run is made by one of their number 200 hats go up in the air and long arms and rapidly crooking digits are saying all kinds of things. When a fumble or other misplay is made, the unfortunates have unique ways of venting their displeasure and unutterable disgust.

There are now 200 boys and girls in the school at Delavan, which is accredited with being one of the most successful institutions in the northwest.—Chicago Record-Herald.

Found the Canary. Hero is the name of a dog owned by a little girl I know. He is her faithful companion and accompanies her in all her walks. On her birthday her father gave her a canary, but Hero did not seem well pleased at that and for a few days sulked and would not play with his little mistress. After a time, finding he came in for his usual share of attention, he became as lovable as he used to be.

One day while cleaning the canary's cage it flew away, and Nellie was in great trouble about it. Hero seemed to observe this, and he, too, disappeared. Presently Nellie saw him under a tree in the garden with something in his mouth, which he brought carefully to his mistress. It turned out to be the lost canary, and it had hurt its wing and so fallen by the tree where clever Hero found it.

Two Buds. Two buds were in the springtime placed Upon a shrub of fragrant kind, Where footprints seldom would be traced, Though their sweet petals should unbind. One said: "I will not try to thrive Where none one's beauty may desire. What use for one to keep alive? I'll just shrink up and quickly die." The other said, "Oh, I will give My earnest effort to unfold In glint of sheen, will try to live So nature can my being mold!"

The first in withered state was found; The other bloomed and turned to seed; Some persons passing that way bound Of this sweet bush did stop and heed. That healthy seed was close at hand Of plant they had desired so long And wished to sow on garden land, So gathered it, and now among Exotic flowers some blooms exhale Rich perfumes and are much admired, Whose bright existence sprung from vale And that sweet bud by zeal inspired. —Brooklyn Eagle.

The All Important Belt. Ever since Mme. Eve and the serpent hobbled in the garden of Eden has woman adorned herself with the snake's scaly length. A new belt consists of a snake which coils twice around madam's waist, the coils being far apart in the back and close together in front, and which finally catches his tail in his mouth. Buckles made of snakes coiled upon themselves are in evidence. Some smart buckles are of dull silver in the form of medallions or of ragged leaved, artistic chrysanthemums. Other flower shapes are enameled with all the colors of the rainbow.

In some of the more expensive leather belts a hook is set in at the back on the under side, a hook not larger than a medium sized hook used in dressmaking. It fastens up into the skirt binding and effectually prevents the belt from slipping above it.

Very high draped girdles are again in fashion and are much worn with Eton or bolero jackets. Narrow aiglon belts are fastened with cockades made of black velvet and gold braid instead of the dangling gold tipped streamers which were used earlier in the year.

All the imported belts have fobs to match. They are made from the same leather in fancy shape and have as a buckle a small reproduction of the belt buckle.

Some of the scarab belt clasps now shown in the shops are exceedingly tasteful. When small—that is, not more than an inch in length—and simple, set in plain bands of gold or in a delicate little filigree setting, they are among the prettiest things of that kind worn. Some of the scarabs are in light colors, in delicately tinted stones, and these will be particularly effective with summer gowns.—Chicago News.

How Royalties Shop. Undoubtedly Queen Alexandra is one of the most fastidious of customers to please as regards her dress. When she gives an order for a new dress, she likes it to be delivered to her without a sign of it ever having passed through human hands or that needles and cotton had ever been employed in its making. As is well known, her majesty is an expert dressmaker, and woe betide the unlucky firm that has sent a habit which will require alteration, for the queen will have her dresses to fit like a glove, says Woman's Life.

The Duchess of Edinburgh is quite the reverse of the queen and seldom sends a dress back to be altered. Her royal highness is very gracious and pleasant as to her orders and the execution of the same.

One of the most popular of the royal shoppers is the Duchess of York. She gives little or no trouble to her fitters and is very easily pleased with her toilets and the manner in which her orders have been carried out. In this respect she greatly resembles her lamented mother, the Duchess of Teck, who was, as a rule, extremely courteous and easily pleased.

Many of the royals delight to go shopping unrecognized, and one very rich princess is constantly going about by herself. She is particular that neither the assistants nor proprietor shall recognize that she is of royal blood, and thus insures being treated precisely as the more ordinary costumers are.

Miss Ravenhill's Mission. Miss Alice Ravenhill of England, who is making an official tour for educational study in this country and who has been visiting various schools and colleges, holds a unique pedagogic position in England, being inspector of hygiene and domestic economy classes under the technical instruction committee of the county council of the west riding of Yorkshire. Her work is to train teachers who can carry their hygienic and economic discipline into the elementary and other schools of the kingdom. As a result of Miss Ravenhill's work interest in the subject is rapidly increasing.

The board of education for England and Wales and the Sanitary Institute of London united with the committee by which she is regularly employed to send her to this country. While here she will prepare reports on certain aspects of the teaching of domestic science and hygiene in schools and colleges of various types in the United States. Upon her return these will be published for the guidance of educational authorities, teachers and parents.

Knew When Wash Day Came. To teach a child one particular thing often proves to be a most vexatious job. The child is, as a rule, not to say anything, but the particular thing desired.

A young couple sought to impress on their little daughter's mind the names of the days of the week a few days ago. To facilitate their work they repeated over and over again the rhyme beginning, "Solomon Grundy was born on Sunday."

The little tot was finally able to repeat it fairly well. The more difficult part of the lesson then came. "Now," said her father, "what day was yesterday?" "Sunday," came the quick response. "What day is today?" "Monday, I dess," came the more uncertain reply.

"Well, what day is tomorrow?" There was no hesitancy here. "It's wash day," triumphantly replied the little girl.—Cleveland Leader.

Insect Stings. Syringa flower water is used as a preventive lotion. Diluted solution of ammonia will allay irritation caused by such stings. If the irritation is very severe, cover the part with diluted carbolic acid, 1 part; fluid extract of coea, 1 part; glycerin, 1 part; water, 12 parts.
