### Secret Societies.

The National Christian association is holding a session in Grand Rapids, and its mission seems to be to curb the growing strength and influence of the secret societies. Various church organizations are with the association in believing the secret society to be a menace to the welfare of the nation. The brethren who are engaged in this crusade are unquestionably sincere, and also earnest, but it may well be apprehended they will find it difficult to widen their circle to any great extent. The secret society has become too firmly established to be so easily overturned, and its work is too well known to be checked. Some secret societies may be demoralizing in their influences but the number of such is extremely limited and to denounce all because of the unworthy few is as unjust as to condemn all churches because some sects are corrupt. Instead of being an evil the majority of the fraternities are instruments for doing good, distributors of philanthropy, and serving as guides to the erring, protectors of the helpless and supporters of the weak. The crusade against the fraternities may be satisfying to those engaged in it, but the secret societies with their missions of love and charity, will keep right on doing business. It would be better if the crusaders sought other and more crying evils at which to level their shafts.—Grand Rapids Herald.

### KNIGHTS OF PYTHIAS.

The installation of the Hancock Pythians as a lodge Tuesday night at the Odd Fellows' hall was a great success, the lodge starting out with nearly a hundred members, many of whom have been Pythians for years. Grand lodge officers assisted by the working team of the Calumet lodge and by Webster Dock, chancellor commander of the new Hancock organization, instituted the lodge. The ceremonies started early and lasted a considerable time, and after the work was over a spread was served by Lee Bros. of Hancock at Germania Hall. Many visiting members were present, most of them being from Calumet.

Miles L. Curtis, grand keeper of records and seals of Michigan, called on the lodge officers here Thursday evening rather unexpectedly. He was on his way home from Hancock, where the new lodge was instituted, and went to Escanaba the same evening.

The Knights of Pythias received their new outfit of paraphernalia Tuesday. It is much superior to the old.

### MODERN WOODMEN.

The Marquette camp of the Modern Woodmen of America has accepted the invitation of the local camp to participate in the picnic to be held at Republic on Midsummer day. It is expected that every camp in the county will accept the invitation and send delegations.

C. J. Byrns left Ishpeming last night for Chicago. He will be joined there this evening by Mrs. Byrns and their son Charles, all leaving Sunday for St. Paul to attend the head camp meeting of the Woodmen to take place next week.

### ODD FELLOWS.

To-night a meeting of Pilgrim lodge I. O. O. F. of Houghton will be held for the election of officers in the third degree.

### THEATRE FOR MENOMINEE.

Monday morning Hon. S. M. Stephenson received two sets of plans for the remodeling of L. W. & V. S. block, which he purchased at Menominee, one for an office building, the other for an opera house. Both plans are elaborate.

The plans were inspected by several of the leading citizens. "The opera house plans are the better," said one who saw them and it will be a theatre about the size of the Pabst in Milwaukee." He has not announced, as yet, any choice but those who are closest to him favor the opera house. The cost of rebuilding would be about the same for either. If the opera house plans are accepted Menominee will have a new theatre that will rival the best in the upper peninsula.

# STATE SOLONS' WORK

New Laws Enacted by the Forty-First Legislature of Michigan.

## TAXATION OF RAILROADS, ETC.

Bills Which Have Been Vetoed by Governor Bliss—The Appropriation Bills.

The regular session of the Forty-first legislature of Michigan will end Thursday noon, June 6, although all business was suspended shortly after noon last Wednesday, May 29. The session commenced on the first Wednesday in January as provided in the constitution, and was eighteen days shorter than the regular session of two years ago. This shortening of the session resulted in a saving of \$18,000, as compared with the figures of 1890, the cost of running the legislature under the modern system being about \$1,000 per day.

### The Most Important Law.

In all probability the most important law enacted by the present legislature is the statute providing for the taxation of the property of railroads, express, fast freight, car loading, refrigerator car and union depot and station companies on an ad valorem basis. Inasmuch as laws of two years ago repealing the special charters of certain railroad companies will not become operative until next year, the first assessment of railroad and other property on the new basis cannot be made until 1903. In order that the tax commission may have ample time in which to perform this duty in addition to the other duties devolving upon it in the line of enforcing the tax laws generally, the membership of that body has been increased from three to five. While this act may not include all the corporations that should be covered by it, it is certainly a long step in the direction of equal taxation demanded by the people, and can readily be added to as experience warrants.

### Bills That Have Been Vetoed.

Since the compilation of the appended enumeration of bills, (which by the way, includes measures still in the hands of Governor Bliss, who, under the constitution, has five days after the final adjournment of the legislature to either approve or pocket veto bills passed during the last five days of the session) the executive has vetoed bills providing for the establishment of an additional normal school; providing a new charter for the city of Jackson; the Lowry-Ward act exempting real estate mortgages from taxation; the bill authorizing supervisors to charge the cost of handling contagious diseases to the townships, villages or cities, instead of to counties at large; increasing the salary of state salt inspector to \$2,000 per year; authorizing the state board of education to prescribe the courses of study for the several normal schools, and issue certificates to teach as it may direct. It is not believed that any more bills will be vetoed, unless it is the one legalizing the special assessment for sewers in Highland Park village. Following are new laws enacted by the legislature:

Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the undigested or partially digested food and then of bile. Chamberlain's Stomach and Liver Tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by A. H. Powell.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera, and Diarrhea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I made up my mind at once to recommend it in future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." Sold by A. H. Powell.

Local Items.

Monday evening the city council of Marquette passed an ordinance by the requirements of which every business man whatsoever will have to pay a license fee of \$25 for the first year and \$5 yearly thereafter for the privilege of trading with his fellow citizens, the same fee to be assessed against all outsiders who come to the city to remain for indefinite periods. As provision is made for crediting the license fees of the local merchants on the annual tax assessed against them, the legislation practically amounts to licensing the transient merchants, without affecting the home business men. The trading license will be issued by the recorder on application and all business men, home or foreign, will have to comply with the terms of the ordinance. The ordinance is in addition to those regulating other kinds of trade, such as peddling and hawking, and they all remain operative. Nor does its provisions affect saloon men, or any other class of business men who already pay a license for the privilege of conducting their business.

There resides at Stephenson a young man who, for stature, physical perfection and strength, is a modern Hercules, but unfortunately his strength has been misapplied, and to-day he languishes behind prison bars with the future anything but promising. Friday evening at Stephenson turmoil reigned, and this one man created the disturbance. He committed a murderous assault upon Frank Turner, a saloon proprietor. He resisted arrest. It finally required the best efforts of three men to subdue him, and to climax it all, he tore apart the handcuffs as if they were of tissue paper and made a hole in the stone wall of the prison with a stove poker.

The steamer Faustin brought in a cargo of several hundred tons of salt in bulk to Menominee this week, an experiment in freighting which promises to be successful. The salt was loaded at Marine City, and placed in the steamer's hold. At Menominee a steam shovel was used in unloading the boat, the work requiring less than a day. The salt is to be placed in barrels and bags at Menominee but some of it will be sold in bulk to fishermen by Penberty, Cook & Co. The salt is easily loaded and unloaded, and as freight rates are high the vessel owners realize a good sum from the trip. The boat will probably bring several more cargoes.

The Annual Meetings of the Gladstone Association of Congregational Church will be held in the city next Thursday and Friday. The communion sermon will be preached on Thursday evening by the Rev. H. Tonkers, Sault Ste. Marie. Service at 8 p. m. The Rev. W. H. Warren and William Ewing of Lansing and the Rev. T. Bagmate, Missionary Superintendent for the Upper Peninsula will be present and take part in the meetings. A public meeting will be held on Friday evening commencing at 8 p. m. A cordial invitation is extended to all to attend any of the sessions of the Association.

Mabel, the 14-year-old daughter of James Vaughan, a prominent merchant of the Canadian Soo, mysteriously disappeared on the night of April 30. Monday afternoon her body was found in the river near the International dock. It was thought she had been kidnapped, and Vaughan spent a large sum of money in endeavoring to locate her. He offered a reward of \$500 for her body, dead or alive. The reward is claimed by Isaac Denis, who found the body and brought it to the shore. The coroner's jury returned a verdict of suicide, although no cause can be assigned for the act.

That this is to be a big year for the railroad world and consequently a profitable one for the employes, is shown by the ever increasing orders for equipment that are steadily pouring into the car and engine shops. In addition to the orders noted, one week, that ending Saturday, shows the Mineral Range railway ordering 175 ore cars and ten locomotives; the Erie ordering 1,500 box cars; the St. Paul ordering 2 dining and 4 sleeping cars; the Great Northern ordering fifty large locomotives and the Rock Island ordering twenty-three locomotives.

Notice has been served by the Wisconsin state tax commission on all the assessors of the state that a strict compliance with the new law requiring property to be assessed at its actual value will be insisted and that assessors who fail will be prosecuted. The assessors are also notified that no forced sale nor auction values will be accepted, but the value given must be that at which the owner holds the property. The law, and this notice of its strict enforcement, is causing consternation among owners of real estate.

There were about 1,000 suckers at Flat Rock Sunday afternoon. They assembled from Escanaba and other places to see a log rolling exhibition by one J. E. Gould. Gould couldn't or at any rate didn't, roll logs, confining his exhibition to log riding, while balancing

himself with a pike pole, doing nothing more than hundreds of the throng who were watching him could do. The suckers went home sadder and wiser. The street railway was the only gainer from the exhibition.

John Beaton was taken from Holmes & Son's camp to the Menominee river hospital early this week. He had a very narrow escape from being killed. He was loading a logging car when all the logs started and before he could get out of the way several of them passed over his body. He was picked up for dead, but examination showed that he was not seriously injured. He was badly bruised but none of his bones were broken.

It is customary, when such weather as we have had the past week or month makes us miserable, to say that we never saw the like. But a reference to the files of The Delta for the past few years will show that the "mean temperature" is likely to come down upon us at any time either in January or August. So these rare June days ought to be received with gratitude.

Governor Bliss says he is indignant at the senate for pigeon-holing the bills taxing sleeping-car companies, increasing the taxes of telegraph companies, reducing passenger fares on upper peninsular railroads, amending the inheritance tax law, and prohibiting the manufacture and sale of cigarettes. He admits he is strongly inclined to call a special session of the legislature this fall for the purpose of having these measures acted upon.

The prettiest and most exciting race ever seen on the great lakes, was pulled off in Lake Erie Tuesday. The Tashmoo and City of Erie contested for honors on a hundred mile course and the winner, the City of Erie passed the goal just forty-five seconds ahead of the Tashmoo. The boats covered the course at a 23 mile an hour gait. A race like that on Bay de Noc would be a great treat.

Preparations for the reunion of the French societies of the upper peninsula, at Iron Mountain on the 24th, have been practically completed. Some four or five thousand visitors are expected. Excursion trains will be run from Marquette, Menominee, Marinette, Escanaba and Ironwood and large delegations will also be there from the copper country, Duluth and West Superior.

They are telling a queer story of an occurrence that is said to have taken place at Millerburg, Mich., the other day. A big log was rolled some hundreds of feet to the local sawmill, and while it was being sawed into slabs a big black cat jumped out of the center, and investigation showed that four kittens were also inside. Michigan can still beat the world on timber.

The Manistique Courier says that it looks as though Manistique and Schoolcraft county were in for a protracted siege of the smallpox and that a pest house can not be erected too quickly. The money saved by assembling the victims at one point would soon pay for the building. New cases are breaking out every day and the county board can not act too promptly.

The furniture department of the Bazaar has been opened in the vacant store in the Kratz block, and is fast filling up with new goods. C. H. Scott & Son will be happy to see their old friends and all others who are in need of anything in the line. They cannot have a fire sale, but the best goods at fair prices will be the rule here as in the old stand.

The biggest log raft that has ever been floated on Lake Superior, according to the Duluth News Tribune, was due to arrive at Baraga Monday night from near Two Harbors. The raft contained 6,000,000 feet of logs belonging to the Nester estate and was made up on the north shore near the Gooseberry river.

Central Avenue has an ambition that is not to be curbed. It now proposes to erect a modern opera house building at the corner of Minnesota. Mr. Ely is one of the promoters and will make it a go, if possible. But there is only room for one opera house in Gladstone and the early bird catches the worm.

A balloon ascension is proposed for July 4. As soon as the necessary arrangements can be made, a meeting will be called to settle the matter. A balloon ascension would be the greatest attraction the city could offer to induce outsiders to visit the city on the Fourth, and everybody should help a little.

The Eighth Grade exercises of the public schools will be held in the Presbyterian church Tuesday evening June 18 and an admission fee of fifteen cents will be charged in order to raise funds with which to purchase a flag. The young folks should have a full house.

There are many petty pilferers in the city and they are very annoying to those who have flowers as the thieves carry them off as though they owned them. An example should be made of some of them and they should get the limit for such transgressions.

Two attempts were made Wednesday morning to set fire to the Pacific house, at Delta and Eleventh street. Paper was piled against a wooden dresser and then set on fire. The smoke gave the alarm and the fire was extinguished, little damage being done.

It is reported that one of the men working in the street commissioners' crew was frozen to death this morning;

but up to the hour of going to press The Delta has been unable to verify the statement. All things considered, however, it is very probable.

The Delta publishes this week a summary of the work of the legislature just ended. It covers six columns, but if you are a Michigan man it will pay you to read it. In no other way can you get so much information in the same space.

From the number of small store buildings that are going up in the city, it may be inferred that our dealers expect a good run of business during the last term of McKinley. Four new stores on Central avenue in one month is an abundance.

The fire loss on Charles Mayotte's residence which occurred last week, was settled early this week and Mr. Mayotte received his money at once. He will rebuild in better style. Mr. Mayotte is the father of Mrs. A. P. Burrows.

When your foot is "asleep," don't act as if you thought it was awake. A Kalamazoo young lady—wide-awake girl, too—all but her foot—ordered her "sleeping" pedal into service, and it turned over breaking her ankle.

Mayor Hammond, of Iron Mountain and the editor of the Tribune had a head end collision this week. The mayor is having more kinds of fun with his municipality than Pingree ever had with his legislatures.

Thirty-five Port Huron workmen laid down \$5 each, with applications for admission to the Longshoremen's union, and 33 out of the 35 were given the black ball. The union is a trifle particular.

Henry Hazen, for nearly thirty-five years a resident of Delta county, died at his home at Sac Bay on Monday of last week and was buried Wednesday. Deceased was 67 years of age.

Hon. George P. McCallum will enter into active law practice in Manistique and with the same energy he has displayed in legislative matters will make a shining success.

The Perplexed Juror.

A man was being tried in New South Wales for stealing a watch. The evidence was conflicting, and the jury made up their minds to retire, but before they left the hall the judge remarked that if there were any points on which they required information he would be pleased to assist them. Eleven of the jurymen had left the box, but the twelfth remained standing, with his eyes fixed downward, as if absorbed in thought.

"Well, sir," said the judge, "is there any question you would like to ask me before you retire?" "I would like to know, my lord," came the reply, "if you could tell us whether the prisoner stole the watch."

WIDEAWAKE MERCHANTS Think About the Graphophone.

ADD TO YOUR BUSINESS! The enormous sales of the Graphophone are caused by the fact that it has such matchless power of entertainment that an intense desire for possession is awakened in all who hear it. It supplies an actual want. AN IRRESISTIBLE DEMAND FOR DIVERSION AND RELAXATION, to gratify which many are willing to do without other necessities. It is the universal entertainer of the age; an inexhaustible source of wonder and delight to all.

It is simple in construction and prices are arranged to suit all pocketbooks, while the demand will continue as long as human nature exists. The introduction of a few Graphophones into a community at once creates an increasing demand for Records and Supplies, and a continuous business is thus established. Why not secure the liberal profits which are allowed dealers? Write for catalogues, terms, etc., to
