"'What do you mean?' he demanded, of the rustic and the other in military Store.

"Protection our Proper Permanent Policy," is the title of the recent speech the bar at once and with all the friends of Congressman McCleary, of Minnesota, which has just been published by the American Protective Tariff League. One copy free to every applicant. Send postal card request for free copy of document No. 82. Address W. F. Wake-York, N. Y.

A Detroit publication sends out a halfpage advertisement and offers in payment one hundred and fifty free guesses in a "prize contest." It is not wonderful that country publishers are rich beyoud the dreams of avarice. They get a great many free guesses, rich, juicy and nourishing; in fact they are kept guessing "what the world is coming to."

Congressman McCleary states the protection principle clearly. "We who thoroughly believe in protection are re Duplex grates for coal-wood, | thoroughly believe in processor and local processor and local processor are single day's work for American's done elsewhere than in America. We stand by the proposition that the people of the United States can do their own work, fight their own battles, solve their own problems."

Soren Johnson is putting a new floor throughout the second story of his building on Delta avenue and has doubled and deadened it also. Gormsen has the work in charge and is taking particular pains because the supervisor is much interested and may use the rooms himself.

Sam Bushnell, of the Cleveland-Cliffs Iron Co's machine shop, is taking his first vacation in two years and will spend a week camping with his mother at Little Lake.

Mrs. Stephen Kohler asks that anyone who was indebted to her husband will be kind enough to pay the amount at once, for the money is greatly needed.

Mr. F. C. Williams, who has been spending some days at the home of Hon. T. W. McDonough, returned to Farwell Mich., Monday morning.

Boulanger says that hogs cut their throats when they swim, but the water has been too cold this season to give us any relief.

HAI CHENG IS FVACUATED.

Kuropatkin Ordered His Forces to ing to the stubborn resistance of the Russians, coupled with the tropical heat. Fall Back on Liao Yang.

BOTH SIDES LOSE HEAVILY.

Mikado's Armies Are Advancing Slowly but Surely on All Sides and Battle May Be On.

Tokio, Aug. 3 .- 10 a. m .- The Japanese defeated the Russians at Tomucheng (Diaouchang) and drove them toward Hai Cheng in a sharp fight which began last Saturday and ended on Sunday. The Russians left 1500 dead on the field and lost six guns.

Gen. Kuroki has telegraphed that in the two days' fighting at Yangtsuling and Yushulintzu his losses were 6 offi-

cers killed, 16 officers wounded and 950 men killed and wounded. Hai Cheng, Ang. 2 .- (Delayed in Transmission.)—In consequence of the desperate fighting of the last few days and the Japanese turning movement, the Russians have been compelled to evacuate

Liao Yang. Aug. 2.—(Delayed in Transmission.)—The Russians attempted to push back a numerically superior force of Japanese from Kuchiatzu on July 31, resulting in an admitted Russian loss of

Hai Cheng and fall back on Anshan.

Kutchiatzu (also written Kutsiadzu) is about ten and a half miles east of An-ping, which is about twelve miles east of advance against Gen. Kuropatkin was Liao Yang.

Tokio, Aug. 3.—The Japanese took Simoucheng, Sunday. Six guns were captured. The Japanese casualties were 400. The Russian loss was heavier. Gen. Kuroki's losses in Saturday and Sunday's fighting were 972.

Washington, D. C., Aug. 3.—The Japanese minister today received a cable-gram from the foreign office at Tokio reporting the battle at Simoucheng and the Russians' retreat towards Hai the Russians' retreat towards Hai Cheng. The cablegram says that an of-ficial report has been received at headquarters to the effect that on the 30th of July the Japanese forces attacked the enemy at Simoucheng, about fifteen miles southeast of Hai Cheng. The Russians occupied strongly intrenched heights at Simoucheng and the fighting continued during the 30th and 31st. Finally the Japanese left, driving the enemy before them, threatened the rear of the Russian main body and compelled the latter to retreat during the night toward Hal Cheng. The Russian forces were commanded by Gen. Alexieff and consisted of two divisions of infantry and seven batteries of artillery. The Japanese captured six field guns and a number of prisoners. The Japanese casualties were about 400 killed and wounded, while the Russians left 150 dead on the field.

St. Petersburg, Aug. 3.-4:10 p. m.-Whether a general engagement is progressing around Liao Yang between the forces of Gen. Kuropatkin and the three Japanese armies which have been moved against them from the south and east, the decisive battle of the campaign is regarded as certain if the Japanese energetically follow up their preliminary successes of the last three days. At various points the fighting has been desper-ate and bloody in character, the Russians offering the most stubborn resistance. The losses, therefore, although their extent is not yet established, must be heavy on both sides. Between 6000 and 8000 men is one estimate given of the Russian losses. All the estimates, how-ever, are little better than guesswork as

Hai Cheng Abandoned.

The strong screen drawn around Gen. Kuropatkin's interior positions has been driven in at all points, Hai Cheng being practically abandoned without a blow. The pressure of the Japanese numbers and the failure to hold the northern positions probably rendered it useless to try

to hold out there.

The Russian forces last night constituted a compact chain in the form of a semi-circle around Liao Yang, extending from Anshanshan, half way between Hai Cheng and Liao Yang, to Anping, which is only thirteen miles east of Liao Yang. Unless the bulk of Gen. Kuropatkin's army has already been withdrawn north of Liao Yang it is difficult to see how he could now do so with such great pressure, the Japanese being almost upon his main lines. Inasmuch as portions of four army corps were engaged in the fighting up to last night, and as these corps comprise three-quarters of the whole Russian army, it seems certain that nothing except a portion of the stores and munitions have yet been re-

Think Kuropatkin Will Get Away. Nevertheless well-informed military attaches express the opinions that Gen. Kuropatkin will get away with the bulk of the main army if he finds the chances against him.

From the best information obtainable

as to Gen. Kuropatkin's dispositions, his forces were located this morning as fol-

Gen. Zaroubaieff's and Gen. Stakelberg's corps formed the right wing, at Anshanshan. The first Siberian and the tenth European corps were on the left. The recently arrived seventeenth corps and the portion of Gen. Stoessel's corps is not at Port Arthur were at

Intense anxiety prevails in all circles. All newspaper specials from the front are suspended, which is considered omi-

To Defend Liao Yang.

St. Petersburg, Aug. 3.-Gen. Kuropatkin's armies are now concentrating upon Liao Yang, falling back respectively upon Anshan, Liandiansian and Anping, upon Anshan, Liandiansian and Anping, as predicted in the dispatches of the Associated Press. These three points form a ring of closely-knit defenses around Liao Yang and enable Gen. Kuropatkin to risk a general area of the partial concession to Great Britain, in connection with the Dardanelles question. Replying to British to risk a general area of the Dardanelles to vessels of the volunteer fleet, intended for warlike uses as parkin to risk a general area of the partial concession to Great Britain, in connection with the Dardanelles question.

and Gen. Kuropatkin's words that he hoped the troops would hold that place indicate a misgiving. The Japanese evidently realized the advantage of attacking this point and directed their strongers advance along the Sciential Lie versus and tracking the point and directed their strongers advance along the Sciential Lie versus and tracking the present advance along the Sciential Lie versus and tracking the present advance along the Sciential Lie versus and tracking the present advance along the Sciential Lie versus and tracking the present advance along the Sciential Lie versus and the latest and the lie of the lie of the latest and the latest an

MANY DIE AT PORT ARTHUR.

Desperate Assault on Inner Defenses Re-

sults in Failure for Japs. St. Petersburg, Aug. 3.-The first Russian report of the storming operations at Port! Arthur has just been received from the consul of Russia at Chefoo, dated today. It says a general attack began Saturday, with the Japanese in immense force. There were two days of a bombardment of unprecedented violence. The Japanese at the time of sending this dispatch, the consul adds, had everywhere been repulsed with great loss. The Japanese casualties possibly reached 20,000, but the Russian losses were incipalificant.

Plenty of Ammunition. The consul further reports that the Russians have an abundance of ammunition. The telegram does not mention naval operations, but it is here considered possible that the Russian warships participated in shelling the besiegers

from the sea.

The exact date of the events reported The exact date of the events reported in the telegram is not clear, as the method of transmission is not disclosed. It is possible that it was by a wireless message reporting events which have occurred since last Saturday.

On the other hand the message may have gone by junk to Chefon in which

have gone by junk to Chefoo, in which case it refers to events of a week ago and practically covers the reports men-tioned in the Associated Press dispatches from Chefoo. In either case the reports have been received with considerable exultation after the pessimistic rumors spread abroad from foreign sources last

timed to occur simultaneously with the assault upon Port Arthur.

Tell of Awful Slaughter. Chefoo, Aug. 3.—A desperate three days' assault on the inner defenses on the northern and eastern sides of Port Arthur has failed, according to advices

ought by two junks which arrived here A Russian who escaped from Port Arthur via Pigeon bay on the night of July 29 states that the earth trembled under the terrific cannonading which began at 4 a. m. July 25 and ended during the night of July 28, when the battle ceased. A Chinese who has arrived here on a separate junk confirms the Russian' statement that the Russians killed and wounded during the assault numbered between 5000 and 6000.

Japs Lose 20,000 Men.

The Japanese in their repeated assaults against the eastern forts on the hills through barbed wire entanglements and over mines displayed fanatical bravery They were moved down by the hail of shells and bullets and the explosion of mines under their feet. Their losses are estimated at 20,000.

The Russian declares that the Russians held all the eastern forts leading to Gold-en hill and that the Japanese, shattered and exhausted, retired to the eastward.

Keep Ships Back. As related by the passengers from the two junks, the Japanese advance, which began from Kwokau before daybreak posts were driven back. In the meantime Admiral Togo shelled the forts at long range, but the return fire of the forts kept his ships at a safe distance, rendering the co-operation of the fleet ineffective.

On the morning of July 27 the Russian fleet steamed out, keeping under the protection of the Golden Hill guns.

The Russian vessels did not fire on the Japanese and soon returned to their an-

chorage. Jap Assault Is Repulsed.

The assault on the northern side of the yet and possibly the Russian casualties may be much larger.

city occurred July 27. The Japanese left at Hsikau advanced on the Russians at Shinghi Ving Larger. t Shinshi Ying, but were repulsed.
The junks were within hearing distance firing was heard.

The Russian hospitals at Port Arthur are said to be swamped. Thousands of wounded are lying in houses and shops of the Chinese, the owners having been evicted, with the exception of one who acts as caretaker of each place. Medical attention is adequate.

Japs Lose Armored Cruiser.

Rome, Aug. 3.—The Giornale d'Italia today published in an extra edition a dispatch from Tokio announcing that the Japanese armored cruiser Kasuga, for-merly the Argentine warship Rivadivia, has been sunk. The announcement caused a great sensation here.

Czar Gets Alarming Tidings.

St. Petersburg, Aug. 3.-5:45 p. m. The correspondent of the Associated Press hears that Emperor Nicholas has just received a telegram at Peterhof containing alarming news It is also reported that Viceroy Alex-

ieff, who had gone to Harbin on his way to Vladivostok, returned to Liao Yang yesterday and conferred with Gen. Kuropotkin regarding the situation. Fieet Leaves Red Sea.

St. Petersburg, Aug. 3.-5:40 p. m.-

According to information received here the vessels of the Russian volunteer fleet have left the Red sea and it is believed that they have gone to the Indian ocean or to Jibutil, French Somaliland.

Russia Sends More Men. St. Petersburg, Aug. 3.—The first detachment of the first army corps, recently mobilized in the St. Petersburg district, left for the front today. Two regiments of Cossacks have been added to this corps. The Fourth Don Cossacks

division, raised by voluntary enlistment,

under Gen. Telisheff, leaves for the seat of war next week.

Keep Dardanelles Clear. London, Aug. 3.-In order to avoid complications, which might have the effect of extending the area of war, Russia has made a partial concessio patkin to risk a general engagement.

The only cause for anxiety is Anping, the Russian ambassador to Great Britdowne that his government will not send est advance along the Saisatzi-Liao Yang general principle involved and reserves to herself the right to take such action she deems proper when the war with

ARREST SHIRT WAIST MAN

St. Louis, Mo., Aug. 3.—Because John Y. Mason doffed his coat in the fine arts stormy meeting that lasted two hours to- exhibit he was arrested and taken to the Halsey C. Ives, the director, refused to

ed to test the ruling.

TAGGART'S SUCCESS.

Democratic Chairman Is a Self-Made Man and Popular With the People.

Thomas Taggart was born in County Monaghan, province of Ulster, Ireland, in 1856, and when 5 years old his parents brought him to America and settled in Xenia, O Young Taggart received common school education, and was 1 t to work in the railway hotel and restaurant. He remained there, forging ahead step by step, until 1877, when he celebrated his twenty-first black has a second step twenty-first birthday by announcing his intention of removing to Indianapolis where he had been offered and had a

THOMAS TAGGART.

cepted a position in the depot restaurant here. The family could see no good rea-son for the change, as there was no apthere. parent advancement. But Thomas had made up his mind, and the change was

made. In a few years Mr. Taggart became depot, and he immediately upon becom-"his own boss" began a career politics. His first effort as a candidate was in 1886, when he accepted the Democratic nomination for county auditor, "just to fill out the ticket," but when the votes were counted it transpired that his hustling proclivities had been rewarded and he had been elected by a majority

of over 1700. From that time on Mr. Taggart beame a figure in the political history of state. First he was made a member of the county committee, in the meantime being re-elected county auditor, and then to the state committee, and at the lowing election his party carried the

In 1895 he was nominated by his party for mayor, and succeeded in overcoming a Republican majority of 3500 and being elected to the office by a majority of The national Democratic leaders then began to take some notice of Thomas Taggart, who was the power of the party in his state. He kept right on July 26, was directed against Kikwan, Kinkitun, Kinkishan and Pchtoushan forts, lying near shore. The Russian outwest.-The Successful American.

COAL MINERS TO GO OUT ON STRIKE.

Failure of Operators to Carry Out Their Part of Agreement Will Cause Men to Quit.

Scranton, Pa., Aug. 2 .- At 1 p. m. the following official statement was issued from the executive board of United Mine workers, in session here, today:

"The executive board of district No. 1 taken by the miners' representatives on railroad detective in Chicago. the resolution of the Pittston convention being complied with."

The Pittston convention was held two weeks ago. It instructed the executive boards to declare strikes against all operators who refused to abide by the decision of the conciliation board and the rulings of Umpire Wright on the question of collecting wages for check

weighmen. The executive board took a recess until 2 o'clock, when it was believed the time for calling a strike will be determined on.

I man and porter, othered that into the smoking compartment. They went through the car and ordered all the men out. At first the men seemed to think the affair a joke and did not hasten. One

District No. 1 contains about 80,000 mine workers of all classes and includes the Wyoming and Lackawanna valleys. It is believed here that the order for a strike will be in the nature of an ultimatum to the operators and conditioned on their immediately receding from their position in opposition to the mine work-ers' contention that the check weighmen matter was settled by Carroll D. Wright's letter to President Nicholls.

The board adjourned to meet at the call of the president, which will probably be as quickly as the names of all companies refusing to accede to the check weighman demand have been obtained.

SULTAN CONSIDERS AMERICA'S DEMANDS.

Turkish Ruler Will Give His Answer to United States Minister on Next Tuesday.

Washington, D. C., Aug. 2.-Minister Leishman at Constantinople today cabled the state department that he had been informed by the Sultan that the latter's answer to the demands of this government would be given in a personal audience next Thursday. The demands are that the discrimination against American citizens shall cease and that Americans shall have the same privileges and ex-emptions as citizens of European nations and especially that Turkey shall not embarrass American educational and relig ious institutions there.

Queer Way of Telling Time.

In Malay the natives keep a record of time in the following way. Floating in bucket filled with the water they place a eccoanut shell having a small perfora-tion, through which by slow degrees the water finds its way inside. This opening is so proportioned that it takes just one hour for the sheel to fill and sink. Then a watchman calls out, the shell is emptied, and the process is begun again

A golden eagle which died in Vienns in 1719 was known to have been cap-tured 104 years previously, and a falcon s said to have attained an age of 162

ROBBERS HOLD UP TRAIN. PLEHVE'S ASSASSIN

Passengers on Illinois Central Flyers Are Victims of Bandits.

TAKETHEIR VALUABLES

Four Heavily Armed Highwaymen Go Through the "Diamond Special" and Get \$1000 in Plunder.

St. Louis, Mo., Aug. 2.-It was learned today, after the arrival of the Diamond special, on the Illinois Central railroad from Chicago, that the robbers who held it up obtained probably less than \$1000 and a number of watches from passengers. William Toolan of Lansing, Mich.,

men, all heavily armed and two of them wearing masks, held up the passengers on the Illinois Central's Chicago-St. Louis express train, known as the "Diamond Special," as it neared Matteson, Ill., last night. The robbers secured all the money and valuables carried by the thirty passengers in the two Pullman sleeping cars, stopped the train and escaped in the dark-

The forward sleeper was entered first. occupants were aroused and, with nothing on but their nightclothes, were marched back to the Pullman car behind Two of the passengers who were slow in responding to the commands of the robbers were hit on their heads with hatchet and one was seriously injured. It was impossible to obtain the names the injured passengers.

All Their Clothes in Heap. When the passengers in the two cars had been lined up in the rear Pullman, two of the robbers stood guard, one at each end of the car, with drawn re-volvers. The third, who is supposed to have been the lender, ordered the passengers, who had been compelled to bring along their clothes from the first car, to throw the garments on the floor of the The passengers in the rear car were then commanded to return to their berths and deposit their clothes in the same heap, then the leader, with the utmost coolness, began to search the clothing for

Make Close Examination.

When he had finished this search, he made a close examination of sengers for any money they might have secreted. When the search had been completed, all the booty was placed in a flour sack and the three robbers joined their companion, who had stood guard in the vestibule of the train. Pulling the bell rope, the signal to the engineer to stop was given, and when the speed of the train had slackened sufficiently, the robbers, after having locked the doors of the car, jumped off and fied in the darkness.

Crew Unaware of Robbery.

So systematic was the work of the robbers and with so little confusion, that the train crew was unaware of what was going on. It was not until the engineer, in response to the signal, brought the train to a stop, and, seeing of the remainder of the crew. walked back to the rear of the train to ascertain what was the matter, that he ping meat, but this is admittedly a costly learned of the robbery. No attempt was made to rob the mail

Secure More Than \$1000.

The robbers secured more than \$1000 in money and valuables. for three days after leaving, but no more has decided to approve of the position kakee and notified the Illinois Central the board of conciliation. They insist on notified the central police and detectives were sent out on a train to begin the search for the robbers.

Bandits Fire Into Berth.

Supt. Groce's story, as told at Kankakee, was as follows:
"The men must have boarded the train at Harvey, for we were but a few mile out when they appeared at the door of the last Pullman and cursing the brakeman and porter, ordered them into the of the bandits then fired into a berth whose occupant was slower than the rest. He came scrambling out in a hurry and

the rest responded more readily to the orders after that.

Strikes Youth with Hatchet. "One other passenger, a boy about 18 rears old, was but partly awake and the shot startled him. He, too, was slow and when a bandit told him to get into the aisle the robber struck him with a Rochester, N. Y., Aug. 3.—Twenty-three experienced butchers were sent from this city today to take the places of men on strike at the stock yards in hatchet. He was cut severely.

"They drove all the men to the smok- addition to board and lodging and are

ing compartment and there two of them searched us while the others stood guard

General Strike at the doors. They took \$100 from me and \$300 from a man near me. I guess those were the largest individual amounts they obtained.

Polite to Women.

"They searched the women, who were yet awake, but did not bother those who were in the berths where the curtains were drawn. In the second Pullman there were only five or six passengers, and they had an experience like the rest also out.

The train which left Chicago at 9:27 o'clock carried many passengers for the St. Louis fair, and all remained on the train, despite their experience.

PLEHVE ASSASSINATED WHILE NIHILISTS MET

Russian Terrorists Were Holding a Conference in Switzerland . When Murder Occurred.

Geneva, Switzerland, Aug. 2.-The newspapers here report that a conference of Russian Nihilists and terrorists was held from July 25 to July 29 at the residence of a Russian, near the frontier, in the commune of Chenziny, Polish Russia. Fifty to sixty persons are said to have attended, mostly from abroad.

TROUBLE IN MOROCCO.

Great Uneasiness Among the People Following the Perdicaris Incident.

Washington, D. C., Aug. 2.—Acting Secretary of State Loomis has received a mail report from Mr. Gummere, the American consul-general at Tangier, dated July 15, showing a state of great unrest and uneasiness in Morocco following the Perdicaris incident. Mr. Gummere tells of the attempt to kidnap Mr. Harris, the representative of the London Times, and says the situation grows more serious daily.

MAKES CONFESSION.

MURDERER WAS FORMERLY A SCHOOL TEACHER, BUT RE-FUSES TO TELL NAME.

Third Accomplice in Murder Plot Has Been Discovered-Why Plehve Was Slain.

St. Petersburg, Aug. 3.—The assassin of Minister of the Interior Von Plehve is said to have made a partial confession, in which he declared that at one time he was a school teacher in a rural district and was greatly interested in the zemstvo, for the curtailment of whose power he blamed the dead minister. He still absolutely refuses to disclose

and Leonard Christman, from Ontario, who were beaten on their heads, were able to walk from the train, but Toolan was in a dazed condition.

Chicago, Ill., Aug. 2.—Four highwaymen all heavily armed and two of them

ames of a comrade and sweetheart The police have discovered that a third accomplice was concerned in the murder plot, and that he was stationed on a quay on the Neva, where one of the imperial vachts was moored, on the chance that the minister might go to Peterhof that day by boat.

BREAK MEAT TRUST.

Labor Leaders Claim That They Have Disrupted Giant Combine-Packers Lose Control.

Chicago, Ill., Aug. 3.-Homer D. Call, international secretary of the butchers' organization, said today:

"The greatest feature of the strike is that the meat, trust has been broken. Instead of the packers disrupting the unions, the disintegration of one of the greatest combinations the world has ever seen has already set in. For ten years, from 1890 to 1900, the consolidation the meat companies was carried on, and from 1741 packing plants in this try the number was reduced to 760.

Packers Lose Control.

"Now the tide will set in the other way. The packers know that they have already lost control of a large part of their business and that the livestock dealers will do all that is possible to assist in the defeat. Since the strike the independent plants of Chicago Lovie independent plants of Chicago, Louis-ville, Cincinnati, Indianapolis, Pittsburg and Springfield, Mass., have been work-ing night and day. This trade will never be recovered by the trust. My reports are that the danger has already been realized by the hig peakers. It took the realized by the big packers. It took the packers twenty years to build up their combination and now the fruits of the victory will be snatched from them by the labor unions. The public is supporting the independent plants because of the damaging evidence secured by the government against the meat monopoly."

Icemen Have Joined.

Determined to give all the aid possible to the strikers, the ice handlers and ice wagon drivers have refused to supply frigerator cars of the strike affected packing plants. Without ice, the packers are unable to ship meat except for short hauls and cannot export any. Non-union men are being pressed into the service, but are not sufficient. Armour & Co. have begun using fruit cars for shipexpedient.

Can't Get Ice.

Complications and embarrassments in new fields are now confronting the packers, according to information that strike headquarters. E. H. Groce, superintendent of telegraphs for the Illinois Central, who was the robbed left the train at Kan. encountered by the packers in icing refrigerator cars.

Flooded with Livestock. The yards were flooded with livestock today. Complaint was rife by representatives of country shippers. Before the day's shipments arrived there were 29. 000 hogs in the pens and between 2000 and 3000 cattle. The sheep alone had been all sold. Today's livestock receipts were nearly one-fourth more than yes-The packers expressed the opinion that with supplies so heavy portion of the stock could not be handled by the packing plants until tomorrow. Today's receipts were as follows: Cattle, 6500 head; hogs, 12,000; sheep, 14,-

000. The packers announced today that they attempt to import no more skilled labor. They said they had all the raw men they needed and in the future

would take only a few skilled men. Will Pay \$5 Per Day.

General Strike in St. Louis. St. Louis, Mo., Aug. 3.—President Crouch of the St. Louis Dressed Beef company declares that his plant is being operated successfully, notwithstanding it is short handed. The allied trades have gone out on a sympathetic strike, involv-

ing all the trades of the packing house industry in St. Louis. The drivers of all the branch houses of Chicago packers in the city, numbering several hundred, are Donnelly at Kansas City.

Kansas City, Mo., Aug. 3.—President Donnelly, who arrived in the city at midnight, addressed the striking packing house employes at Sherman park in Kansas City, Kan., today. He reiterated the statement that the strikers would

NO MORE CONCILIATION.

Mine Board Has Lost Its Usefulness-No Meeting Unless Operators Request It.

Scranton, Pa., Ang. 3.-President Connell of the anthracite board of concilia tion, was asked today if there would be another meeting of the board soon. He replied that if the action of the executive board of district No. 1 United Mine workers yesterday was correctly reported, the days of usefulness for conciliation by the board were about ended. He added that no meeting would be called now unless the operators requested it.

AMERICA IS TO ACT WITH POWERS.

Will Demand That Foodstuffs, Not Intended for Belligerent Armies or Navies, Are Not Contraband of War.

Washington, D. C., Aug. 3.-The state department is in telegraphic communication with its agencies abroad respecting the Russian seizures and destruction of American goods, but it is not yet ready to define precisely its position as to the whole subject of seizures. These exchanges are not confined to St. Petersburg and Washington, but are intended to develop the purposes of the govern-ments of other nations and particularly of Great Britain and Germany, whose shipping has suffered more than that of

The loss of a part of a cargo is in point of international law, an issue of far less magnitude than the destruction of a ship and so far the British and Gerhave lost their ships and the cans only the cargo. This fact is Americans only the cargo. This fact is believed to justify the state department in proceeding more leisurely than would otherwise be the case, leaving it to the larger sufferers to establish their own policies respecting seizures.

It is said here that the precedents already established in the Spanish and Boer wars, as well as in the operations in China during the Black flag uprising. have worked so satisfactorily and have received such universal approval that under no circumstances will America now recede from the doctrine that foodstuffs not directly intended for the use of a belligerent army or navy, can not be regarded as contraband. While this contention is directly as variance with the Russian decree on the subject as promulgated at the beginning of the present war, in view of the fact that it is be-lieved to be the German position and is-certainly that of the British, as evidenced by their paying for American food cargoes seized during the Boer war, the state department is sure of sufficient support to oblige the Russian government to abandon its contention and to desist from further seizures of American foodstuffs consigned not only to China, but even to individuals in Japan, unless it can be clearly shown by the Russians that the food is destined for the Japanese army or

There is no disposition to make an issue further of the Ardova case. This British ship was seized by one of the volunteer Russian cruisers in the Red sea and sent to Suez, where she was released and resumed her journey. She had aboard a quantity of supplies for the Philippine government. The American government is willing to concede the right of stoppage and search to a rea-sonable degree and has decided to make no issue on this point. But the mails on the vessel were ransacked and delayed and while all the facts are not at hand, it is possible that some of these were American mails. Without further studying the subject the government here is not willing to admit the right of interference to this degree.

FAIRBANKS TOLD.

He Is Notified of His Nomination for Vice Presidency by the Re-

publicans. Indianapolis, Ind., Aug. 3.-Charles W. Fairbanks, senior United States senator from Indiana, was today formally notified of his nomination for vice president of the United States by the Republican

national convention. The notification address was made by Elihu Root, ex-secretar of war, who was temporary chairman of the conven-The exercises were held on the wide veranda of Senator Fairbank's beautiful home in presence of the members of the notification committee, consisting of one member from each state and territory, the governor and other state officials of Indiana, the Republican candidates for state offices, the Indiana Republican congressional delegation, Indiana delegates and alternates to the national convention, the state central com-

mittee and the Republican Editorial as-

Many in Attendance. All these had been especially invited. On the lawn surrounding three sides of the residence and extending far on all sides beneath the great forest trees were several thousand friends, neighbors and political supporters of the senior senator. The especially invited guests were served with luncheon in large tents on the lawn, the general public was served with light refreshments in the house and photograph of the candidate and committee was taken from the steps of the

Gathered at the residence were 5000 people. Senator Fairbanks and Mrs. Fairbanks received the committee and especially invited guests and Mr. Root and Senator Fairbanks led the way to the veranda, where seats were arranged for eleven. An enthusiastic greeting was ac-corded the two speakers as they appeared on the veranda. The demonstration lasted for several minutes, during which the members of the committee were seated. Enoch Carver represented Wisconsin

on the notification committee. FIGHTS BIG TAX ON THE WHITNEY ESTATE.

Harry Payne Whitney Claims That Assessment of \$222,232 Transfer Tax Is Unconstitutional.

New York, Aug. 3 .- Notice of appeal in the matter of the transfer tax amounting to \$222,232 on the estate of the late William C. Whitney in the state of New York has been filed in the surrogate's office at Mineola, Long Island, by the atterneys for Harry Payne Whitney, executer and trustee of the estate. The appeal is taken on the ground that the appraisal of the real estate and the assessment of the tax on the transfer is illegal and void and without warrant of law for the reason that the act of the Legislature, under which the appraisal was made and the tax on the transfer assessed and determined, is an act purporting to impose or revise a tax or create a charge or debt and is unconstitutional.

GERMANY NOT TOLD.

Has Received No Word from Russia Regarding Sinking a Steamer.

Berlin, Aug. 3.—The foreign office lack of information in regard to the sinking of the German steamer Thea by the Russians off the coast of Japan must be regarded as remarkable. The only inference admissible is that the Russian government had omitted sending the official

report to Germany.

Kiel, Aug. 3.—The Kieler Zeitung says the German steamer Thea had Kiel for a home port and was chartered by an English firm under the express provision that she was not to be sent to blockaded ports and that she was not to carry troops or contraband of war. The Thea was built at Dumbarton in 1893, was of 2000 tons and was sold in 1901 to the Kiel firm of H. Diedrichson.

IS NO PLACE FOR GAMBLERS.

Michigan City, Ind., Gives Hot Reception to Members of the Talent.

Michigan City, Ind., Aug. 4.-An army of professional gamblers, card sharps and confidence men, more than 100 of whom were from Chicago, flocked to the city Tuesday night in the wake of a carnival company, which is here for this week. They had no sooner arrived and prepared for business than the board of police commissioners held a special meeting and, issued a sweeping order that no gambling would be permitted. The police immediately put the order into effect, driving every gambler out of the city.

MAY LOSE HER PROPERTY.

La Crosse Woman Had Deeded House to Stepson Who Committed Suicide.

La Crosse, Wis., Aug. 4.—[Special.]— Trust put in a stepson who afterwards committed suicide, has left Mrs. Anna Holmbo without the home which she purchased with her own money. Unless the courts decide otherwise, the property will go to the sister and brother of the sui-cide as his heirs. Nicholas Holmbo cade as his nears. Micholas Holmbo hanged himself Sunday night. Today his sister appeared with a deed to the property, which Mrs. Holmbo had given to him absolutely. Mrs. Holmbo is penniless except for the property.

TEN UNDER ARREST.

Suspects Taken in Connection with the Robbery of Illinois Central Train.

Chicago, Ill., Aug. 4.—In their efforts to run down the four bandits who on Monday night robbed the passengers of an Illinois Central express train near Harvey, Ill., the Chicago police have ten men under arrest. So far as known none of the prisoners has been identified by any of the victims of the robbers and all are being held pending developments.

KERN NOMINATED BY HOOSIER DEMOCRATS.

Indianapolis Man Is Named to Head the Ticket-Endorse Parker for President.

Indianapolis, Ind., Aug. 3.-The second session of the Democratic state convention met today to adopt a platform and nominate a state ticket. Alonzo Greene Smith of Indianapolis, who presided at the first session, continued as permanent chairman. The same dele-gates were present that composed the first session, May 12, when delegates to the national convention and convention committees were selected. The plat-form adopted by the resolutions commit-tee was adopted unanimously. It heartiapproves and endorses "the wise conservative declaration of principles by the Democratic national convention St. Louis and the sturdy and able statesmen, Alton B. Parker and Henry G. Davis." National Chairman Taggart was heartily endorsed. John W. Kern of Indianapolis was unanimously nomi-

"Deception," said the Major, "plays a strong part in the drama of war. In November and December, 1861, and January, 1862, no town in the West was more talked about than Bowling Green, K. Comparatively few Northerners knew anything of this town on the Big Barren river, and on the Louisville & Nashville Railway, a hundred miles south of Louisville, sixty miles north of Nashville, and ninety miles from Fort Donelson on the Cumberland river, until General Buckner occupied it, and proceeded to fortify it in September, 1861.

"In the next two months great earthworks were constructed and heavy guns put in position, and Bowling Green was described as the Gibraltar of the South, the fortifications there exceeding in strength those at Washington and Richmond. At that time General Albert Sidney Johnston was striving to create the impression that he had eighty or a hundred thousand men at Bowling Green and Nashville ready to march north on Louisville, and that he was not only awaiting orders to strike.

"His bureau of publicity and promotion portrayed Bowling Green as impregnable, and represented his army in Kentucky as growing in strength from day to day. The truth was that Johnston never had more than 25,000 men on the Bowling Green line, and while he was publishing reports to mislead the Unionists he was reporting facts to Richmond and pleading for more men. But he deceived the people of the North and General Halleck and Buell, and the latter, under date of January 3, 1862, reported the strength of the enemy at Bowling Green, Columbus and Nashville at 80,-

"The whole country believed that the great battle of the West would be fought in front of Bowling Green. But when General Grant captured Fort Donelson, ninety miles away, the game of deception was at an end. The Confederates left Bowling Green, Nashville, and all points north of the Cumberland without a fight, and the Union army, contemptuous of the army that had boasted and built forts and run away from them, marched in two great columns to Pittsburg Landing on the Tennessee. Here the retreating army turned on its pursuers, and the latter, caught without defensive works of any kind, were pressed near to defeat at

"After Shiloh there came a great MILWAUKEE LIVE STOCK MARKET. | change. General Halleck concentrated the armies of Grant, Buell and Pope for an attack on Corinth, only thirty miles away. He reorganized all the armies into one, the most formidable ever assembled in the West, and proceeded by slow steps, fortifying at every step, toward Corinth. He would not permit any subordinate commander to make an attack or to resist one in a way to bring on a general engagement. He would take no risks. On the other side Beauregard practiced the game of deception in its fullness. He labored to create the impression that his fortifications could not be taken, that he was receiving re-enforcements every day, and that the issue of war was to be settled in one decisive battle at Corinth. And for weeks the North and South believed him.

> "Meantime the troops under Sherman, Thomas, Buell and Pope were having the time of their lives. There was little or no heavy marching. An army of 120,000 men moved forward twenty miles in the course of six weeks. Gradually our front narrowed to ten miles, and the camps in the rear were close together. There were attacks and sorties, but as days passed noise of musketry and artillery. A sudden outburst of cannonading was only 'Pope on the left,' or 'Sherman shelling the woods,' or 'Thomas feeling the enemy.' The discussion at the camp fires was as to when the enemy closer we crept the harder the enemy fought.

> "General Halleck believed that with his 120,000 men in line he was in danger of being attacked by superior numbers and the rest of us believed it. But Beauregard deceived us. He never for a minute was strong enough to attack us. He built his forts and kept up a show of resistence simply to hold us before Corinth while his army retreated to a new line. On May 28 Halleck issued a warning order to his army. The next day the rebel army left Corinth and our own great army was divided into three. Buell marched east, and in the course of three months was confronted by Bragg. After our experience at Corinth we expected the latter to act on the defensive.

"Bragg pretended to be very much afraid of us, and we thought he was. Again we were deceived. Instead of acting on the defensive Bragg marched round our flank and moved straight on Louisville and Cincinnati. No more erafty game of deception was ever It knows no grammar, but it is the played in the autumn of 1862, and the result was that, like a boy up a tree, we let go all hold and slid back to where we started from a year before, excitement are indicative of a choleric Louisville. By this time we had temperament.

learned that it was not always the army that retreated that was worsted in the game, and we had come to know

the army fighting against us. "We felt sure after the fight at Perrysville and the retreat of Bragg's army from Kentucky that we would find it in our front again. We did at Stone River. After Bragg retreated from Tullahoma and Chattanooga we found him as good as new at Chickamauga, and it was only after Missionary Ridge that things seemed to be going our way. But we found the same regiments in front of us on the march at Atlanta, and at Nashville months later. We learned from experience that an army that yielded ter ritory was not whipped, and that a general who gave up a stronghold like Chattanooga was likely to have something on his mind not to our liking."-Chicago Inter Ocean.

A Woman of the Confederacy. "A brave woman is braver than a brave man," declares Major Stiles in his book, "Four Years Under Marse Robert." He tells this story as an illustration of woman's courage: During the bombardment of Fredericksburg he was sent into the town with a message for General Barksdale. As he was riding down the street that led to the General's headquarters it appeared to be so fearfully swept by artillery fire that he started to ride across it, with a view of finding some safer way of getting to his destination. Just then he happened to glance beyond that point, and saw a lone woman walking quietly and unconcernedly along the same street, and approaching General Barksdale's headquarters from the opposite direction.

She apparently found very interesting the projectiles which were screaming and exploding in the air, and striking and crashing through the houses, and tearing up the streets. She stepped a little aside to inspect a great, gaping hole which a shell had just gouged out of the sidewalk, then turned her head to note a fearful explo-

sion in the air. I felt as if it really would not do to avoid a fire which was merely interesting and not appalling to a woman, so I stiffened my spinal column as well as I could, and rode straight down the street. On reaching the house, I rode round back of it to put my horse where he would at least he safer than, In front. When I returned on foot to the front of the house, I found that the woman had gone up on the porch and was knocking at the door.

One of the staff came, and on seeing a woman, exclaimed in amazement, "What on earth, madam, are you doing here? Do go to some safe place if you can find one.'

She smiled and said, "Young gentleman, will you please say to General Barksdale that a lady at the door wishes to see him?"

The young man assured her General Barksdale could not see her, but she persisted. "General Barksdale is a Southern gentleman, sir, and will not refuse to see a lady who has called

upon him." The General did come to the door. wringing his hands in excitement and annoyance. "For heaven's sake, madam, go and seek some place of safety. I'll send a member of my staff to help you find one.'

She smiled again, and said, "Generil, my cow has just been killed in my stable by a shell. She is very fat, and I don't want the Yankees to get her. If you will send some one down to butcher her, you are welcome to the

meat.' Years afterward I delivered a Confederate memorial address at Fredericksburg, and when I told this incident I noticed increasing interest and something very like amusement among the audience, who had ceased to look at me. All eyes were turned in one direction. As I finished the story my eyes followed theirs, and there before me sat the heroine of the adventure. apparently not a day older, and the entire audience rose and gave her three deafening cheers.

The "Thirteen" Superstition. Colonel John McElroy, an adept in war statistics, contributes figures to show that the "silly superstition" attaching to the number thirteen finds no the boys became indifferent to the justification in the records of the civil war. The war records show, according to Colonel McElroy's curious deductions, that the total loss of the 31 regiments and batteries bearing the designation of 13 was 5,504, that of the same number of regiments and batterwould attack. We crept closer and ies numbered 12 was 6,775, while that closer to the rebel works, and the of those numbered 14 was 7,079. Not a regiment or battery bearing the number 13 had any special ill luck, while most of them escaped with small loss.

-Philadelphia Ledger. Speak Only French. Congressman Broussard of Louisiana

is, as his name indicates, of French descent. He never spoke English until he want to Georgetown University, "It is curious," says Mr. Broussard, "how the French language has remained the dominant tongue in my part of the country.

"Brought there by Arcadians of Nova Scotia in the eighteenth century, it prevails to-day, and I believe always will. Curiosly enough, you will find plenty of men in my district with such unmistakably English names as Jones and Hayes who can't read, speak or write a word of English.

"Still funnier is the talk of the black people. Their negro French would be unintelligible in Paris, and yet it is the softest, sweetest, most musical speech I ever heard from human lips.

very assence of euphony and melody." Gray eyes turning green in anger or

BEAUTY AND LOVE.

Beauty is the child of Love—What he looks upon is fair.
Though it be an empty glove
Or a lock of faded hair.

Where he lights, the sunshine plays; Round about him flowers bloom; Spring, for him, lengthens her days, Scattering all her rich perfume.

Work, if sweetened by his smile, is as light as heart of boy When he, roving mile on mile. When he, roving mile on mile. Takes the world but for his toy.

Love may do whate'er he will. Play his tricks, or sullen grow, Beauty is his shadow still, Following him where he doth go.

Let the fickle god depart— All that's fair in darkness dies,

For of all he is a part, And alone all beautifies. Rt. Rev. John Lancaster Spalding (Bishop of Peoria), in Smart Set.

TEA LEAVES.

She sat listlessly in the drawing room. Tea had been brought in, but she lay back in her chair indifferently, even lacking the energy to pour it out. She was physically tired, for she had been dancing all the previous night, but it was not this that made life seem so dreary to her-which laid that dead weight of despair on her heart.

She reviewed the events of the preceding evening, and tried to look on them dispassionately. He had seemed so cager to secure her dances-he had been so charming, so delightful, during the he spoke, as if his head and heart were full of her, and he could scarcely bear her out of his sight. At one time they had coupled his name with Laura her out of his sight. At one time they had coupled his name with Laura her." she said slowly. "The tea leaves had coupled his name with Laura Forbes', and she remembered what a detestable girl she had thought her. now all was changed. "That detestable girl" was there at the dance last night, and he scarcely seemed to know she was

It had pleased her, too, to see his unreasoning jealosy of Capt. Hilton-Capt. Hilton, with whom she danced several times because his step went so well with hers, and not because she cared two straws about him. He bored her, in fact —he was the most uninteresting man in the world to talk to—so different—so very different from him. He might have

And then came his next dance-such a little way further down the programme. And how she had been looking forward to it! She had stood and waited for him near her chaperon, and—he had never come up. Suddenly she saw him dance ing in the center of the room with Laura -he was talking and laughing with Laura Forbes. He had actually cut

A very passion of anger took posses-on of her, and she turned to welcome Capt. Hilton eagerly when he came up to ask her what she was doing standing

Her partner had not appeared, she explained with a reckless laugh. Of course he might have it—they must begin at once—it was her favorite waltz—too much had been lost already; and, still talking breathlessly, she had been whirled into

the midst of the dancers.

And the rest of the evening had passed in a passion of excitement and anger. All his dances had been given to Capt. Hilton, and how the evening had dragged

dragged! He had come up to her once with some story about a mistake, but she would not listen. She waved him aside. "Please don't apologize," she said airily, "I enjoyed my dance much more as it was. Capt. Hilton dances so beautifully." And she was whisked off before he could say any more and he did not attempt go near her again.

And so she sat in the drawing room desolate and dreary. He had proved faithless, and there was no more happileft her in life.

The door opened suddenly and he was announced. In a moment she had started up out of her huddled position. The

ed up out of her hudded position. The lassitude left her face and a brightness and hardness came into her eyes.

"Ah, how d'you do," formally. "So good of you to come today. Here am I all alone, and consequently indulging in a fit of the 'blues.' One soon gets tired of only own company doy! you find?" of one's own company, don't you find?"

She threw herself down again in a chair, her pretty chin raised a little

higher than usual, while a fever spot burned on each cheek. Her words came rapidly and breathlessly, as if she were

anxious to avoid a pause.

He took a seat opposite her and looked at her curiously. He had never seen her in this mood before. "It depends on one's thoughts," he answered. "If one can build castles in the air one's company is very nice, but if,

instead, there are nothing but plans for dungeons, they are not pleasant to con-She gave a little sigh. "Well." she

said. "I ought to have very happy thoughts today, thinking over the experiences of last night. What a delightful dance it was:" insinuatingly. "Wasn't

"Very" grimly.
"I don't know when I have enjoyed a dance so much," with unnecessary emphasis. "You will have some tea, won't you?"

Thanks," he answered monosylla-He seemed to have no conversation this afternoon. But the fact did not seem to affect her. What a good dancer Capt. Hilton is,

said enthusiastically., "Far and she said enthusiastically. "Far and away the best in the room."

"Is he?" drastically. "I don't know—I have never danced with him."

"I didn't suppose you had," she answered, tossing her head. "But I thought you knew him. He is so amusing, and his tales about South Africa are so interesting."

teresting. "Oh, yes, I know him-well enough

anyhow, to avoid him. As far as I have beard, his tales all center round himself, and have no point at all. In fact, the only person who saved South Africa seems to be Capt, Hilton. I think he is the most consummate bore in Christen She laughed rather artificially. "What

different points of view you and I have for looking at things," she said.
"Yes," he agreed, "for looking at things."

things. She thought it better to change the bject. "And Miss Forbes," she went , "how nice she looked last night." "Did she?" without warmth.

gathering courage. "You can always pick her out in a room. In that red dress yesterday she looked like a pillar box—shape and all." This last with a flash of spite she could not con-

Yes," he answered diplomatically, he is growing very fat."
'But then," pointedly, "she dances so

"No. I think she is very heavy," he replied. "I was quite tired when my dance with her was over,"

She paused for a moment, but she threw him quite a friendly look. This did not sound much as if he were in love with Laura Forbes.

to hunt about in her mind for some-thing to say. She took up her cup and looked wonderingly at it. "Such a lot of ten leaves I have," she said, twist-ing the cup round and round. "Have

you ever had your fortune told by tea

He shook his head. "Never," he said. "Do you know how to tell it?"
"I know a little about it." she answered. "My old nurse taught me long ago. She believed in it thoroughly, and was an extraordinary thing how many her prophecies came true." He drew his chair a little nearer hers

and held out his empty cup. "Tell me my fortune, please," he said. She took it from his hand and twisted it round and round, as she had done her own, and then she drained the last drop of tea from it and began gazing down intently into the inside of the cup. so that he was able to look at her sweet

face undisturbed.
"I can see a shamrock," she said slowly, after a pause of some minutes; "that means happiness, and there is good luck shown several times. "There are letters eoming for you-one, two, three-and one of them has money inside. There is one of them has money inside. There is also a heart—and a ring." She hesi-

tated for a moment. "That means marriage," she said at last.
"Decs it?" he cried eagerly. "Ah! ow you are promising me the best luck Can you tell me what my wife vill be like?

She shook her head. "I am afraid that is not possible with tea leaves."
"Oh, do look again," he entreated.
"Tell me that her hair has imprisoned the sun's rays, that her eyes are like stars, and that her mouth is the sweetest mouth in the world."

She still gazed into the cup, but she vas not looking at the tea leaves. Her heart was beating so loudly afraid he would hear it. What did he mean? Whom did he mean? Her hair first one-it had seemed, from the day was golden; but, then, Laura Forbes was

> are true prophets, and your marriage will be soon. Are you engaged already?" But And she asked the question with studied

"No," he answered with a sigh. "I am too faint hearted to ask her." He looked down at the girl with his soul in his eyes, but she still kept her head bent and

"Then you will meet the fate of all faint hearts," she said, trying to speak lightly, "and some one else will come and steal your 'fair lady." "But she is so proud, and sometimes very cruel," he said. "I am afraid saddes not care for me."

"'Our doubts are traitors, and make us lose the good we oft might win, by fearing an attempt," she quoted. He looked at her and his hopes flew Words rushed to his lips, but with in effort he crushed them down.
"It means so much," he cried. "I have her friendship now—at least, I had it yesterday—if I ask for more, I may lose

But," she said, somewhat haltingly, you might gain everything."
"Who am I, to expect that such a girl

could love me and would be my wife?" he cried, "a girl who has everything wealth, position, and the whole world at her feet, if she desires. Don't you think the mere idea of my asking her to link her fair life with mine would be presumptuous? She was still twirling the cup round

and round in her fingers. "You forgot to mention the one thing that really matters—the one priceless thing you have to offer. Surely she cannot be worth winning if your—love does count for something?"

minute or two.

at him for a second. But her glance wavered, and fell suddenly, for there was that in his eyes which she could not meet.
"I will take your advice," he said quietly. "Dear, will you marry me?"

talking about just now?"
"Of coarse, I do. As if I could love any one else in the world after having once met you. Dear, didn't you know-didn't you understand-that I have loved you from the first moment we met, and

hat it was you I was speaking of all She turned her head again and looked at him. A beautiful flush had dyed her cheeks, her eyes were shining, and her hole face was radiant with happiness. "No," she said, "I-I didn't know, was so afraid-ah! dreadfully afraid-that it wasn't."—The Bystander.

Hadn't Expected It.

"I was very much surprised when you proposed to me."
"You weren't half as surprised as yas when you accepted me.

Had Him Off on Time. An aged Billville citizen engaged the town poet to write an obituary on a late

friend of his, and the following was submitted: "He left this world of sorrow In another world to shine, And reached the heavenly portals Just as the clock struck nine."

"The only trouble about that," said the

JOANA'S ON THE BEACH.

The breeze upsprings to greet the sight-Joanna's on the beach!

The sea-gulls circle in delight

The am'rous billows inward race And for her vainly reach. They know a bonny form and face— Joanna's on the beach!

The women gaze with jealous eyes; The men say: "What a peach"." Across the happy sands she hies— Joanna's on the beach!

Perhaps she'll shrink and screech. So watch and listen, everyone— Joanna's on the beach!

Why does she dawdle, when a score Would willingly her teach? Be calm, O waves, a moment more-Joanna's on the beach! Gadzooks! still there? I must declare She's quite too slow for speech! 'Twould drive a fellow to despair— Joanna's on the beach!

Good reader of these rhymes et cet., Your patience I beseech, muchly fear I cannot get Joanna off the beach. —Town Topics.

New York Every Day.

Charles M. Collins, once prominent ou he American stage, is dead at his home after an illness of four months. Collins appeared, during his professional career, the support of many leading actors.

The twenty-five pasteurized milk stands distributed around New York city are being heavily patronized these days. One cent a glass for pure milk attracts many persons who might otherwise be induced to buy beer at five times that price.

The countess of Minto, wife of the governor-general of Canada, arrived on the steamer Lucania from Liverpool. Other passengers were: Lady Ross, wife of a prominent Canadian official: Lady Eileen Elliott, Lord Meigund and Rt. Rev. W. Cyprian Pinkham.

Eritzi Scheff, the Baroness von Bardeleben, was a passenger on the Kronprinz Wilhelm. She comes here to begin rehearsals for a new comic opera called "The Two Roses," in which will appear next season under the management of C. B. Dillingham.

Henry C. Frick of Pittsburg was one of the passengers who sailed on the Cedric for Liverpool. Before departing Mr. Frick said he expected to spend several weeks abroad in pursuit of pleasure and rest, and that before returning he she visit Andrew Carnegie at Skibo castle,

Eddie Foy's make-up as David B. Hill in "Piff, Paff, Pouf" is one of the most taking features that the comedian has yet introduced in his work at the Casine and his appearance in the side whiskers and mustache of the great politician never fails to elicit a big round of applause.

Newport, apparently, is not to be outone by the fashionable summering places whence comes the report that men are wearing frock coats with duck pants. This weird combination is fully met by the Newporters, who are said now to be wearing red ties with evening clothes.

Capt. Frederick Sharp, one of the oldt count for something?"
He looked down at her fair head, with the world, died in the United States mathe looked down at her ran har rine hospital at Clifton, Staten island, a minute of two.

'Do you advise me, then," he said at by gas in the hold of the sunken steamas the result of having been overcome last, "to speak to her-to ask her to be er Boston City in the lower bay.

The latter's hat had blown off and he fell into the river trying to reand he fell into the river trying to re-cover it. The Japanese, who saw the accident, did not wait to inquire into his hationality before plunging in after him. Fox is to star in a new comic opera. He would have drowned but for the Marie Jansen will appear as leading

Melvin B. Howard, known as the "slide for life" specialist at Dreamland, with recitations and songs. She is said to be the only singer of reputation who can at that place suffering from a fracture of the right leg, several broken ribs, and internal injuries received while andertaking his act of clinging by his teeth to a strap fastened to a pulley which runs along a wire cable. Howard has been doing the act twice daily. On the day of the mishap he started on his slide, but the wind, which was blowing strong, whirled him around several times. He lost his hold and fell into the water of the chutes.

George Farrier of Jersey City has been George Farrier of Jersey City has been arrested by postoffice inspectors on a charge of conducting a lottery by use of the United States mails. The authorities assert Farrier is the head and front of the "San Domingo lottery," and has been sending out tickets and alleged drawings to all parts of the country. The inspect-ors captured a quantity of lottery tickets and sheets bearing the inscription of drawings and containing a long list of supposed winning numbers.

William A. Brady was a visitor to New York recently. He ran in from his summer home at Asbury Park. It has now been decided that the next play Grace George (Mrs. Brady) will do will be a spectacular production of very great has his importance, based on an historical character. It is a play that for years William A. Brady has been very desirous of ex-ploiting on the stage on a big scale. Now he will try it out in Philadelphia, next March. The cast numbers thirty-one speaking parts, and there will be about

It is reported in Broadway that the firm of Ward & Vokes is to be dissolved after the season of 1904-1905. Ward, it is said, is to retire. He has been a thrifty actor and a good business man. Also a lucky one in his investments. His friend, George Stair, has put him in on some of his successful ventures, such as the Great Northern theater. Chicago, and the Majestic, Boston. Now he is about ready to retire. It is said Will West will take Ward's place in the show and the business will be continued in 1905-1906 under the old name.

Mrs. Mabel Frenyear Dunn, an actress in the "Wizard of Oz" company, has been granted a divorce from Edward F. Dunn of New York. The divorce comes Dunn of New York. The divorce comes after three years' separation from the husband the young woman married in haste after a meeting at the Waldorf-Astoria hotel in New York. In the eight weeks the Dunns lived together, the young woman said, Dunn pawned, piece by piece, \$15,000 worth of jewelry. The money thus obtained, she asserted, was lost at cards and in New York gambling houses. Then, her little fortune dissipated, Mrs. Dunn says her husband desipated, Mrs. Dunn says her husband de-serted her, saying she was too much of a burden on him.

His companion was more fortunate, and these contracts have been fulfilled it is and it is called the chimney swallow by His companion was more fortunate, and these contracts have been fulfilled it is was not posted, which allowed him to the purpose of Klaw & Erlanger to orpick up small sums from some of the ganize a permanent stock company to passengers. Owen himself won over play the entire year round, whose time \$3000 in pools on the ship's runs, and also picked up a few dollars on other bets. They left the Kronprinz at Cher-bourg, returning at once on the Kaiser York city. Miss Fay Templeton will, of

After two years' controversy an agreement has been reached between the city and the Manhattan Beach Hotel and Land company regarding the title to the land between Sheepshead bay and the ocean, where the Manhattan Beach and Oriental hotels are situated. It is Mr. Corbin's intention to make a second Seagate park of the district, and by the arrangement the city will secure upward of \$500,000 in improvements for no exsouth shore of Sheepshead bay, and to that the days of solid furniture from any York city. Through the police and build a macadam road and parkway 12, street cleaning departments the peddlers, 000 feet long. It will lay out and debuild a macadam road and parkway 12,- kind of wood are numbered. ing. Corbin park then must be finished in another five years.

A dozen automobiles, valued at from \$2000 to \$10,000 each, were destroyed by fire in a storage building owned by the management of the Dreamland at Coney Island. The building was a one-story frame structure, 100 by 120 feet, located opposite the Coney Island fire headquar opposite the Coney Island are accused by ters. The flames, which were caused by an explosion of gasoline, spread so rap-idly that the firemen were powerless to check them. There were eighteen automobiles in the place, six of which were saved. Several other buildings caught fire, and for a time the entire block was menaced. The loss is estimated at \$50, clined to support her.

Thomas Wensensakye, a Japanese, who has been in the United States for The loss is estimated at \$50, and for a time the entire block was menaced. The loss is estimated at \$50, 600. The fire caused grief in Dreamland's "midget city." The pony used by the dwarfs in their performances—one of the systems.

Known as macadam roads. A more costly stone road running from \$4000 to \$6000 days these patches reached the shore, when the red color was found to be due to the presence of countless myriads of animalcules.

Four popular favorites of the past, who were thought to have ended their woman in a musical comedy and Miss Manola, it is understood, will take one more swing around the vandeville circuit really "get away" with legitimate dra-matic work. Marie Dressler, the great-est of all the slapstick comediennes, who a year ago said that she would hereafter devote herself to business, will again be lured to the footlights by a Broadway manager who knows that the public still demands her.

Miss Bertha Galland, who is now at Siasconset, Nantucket, will soon make a flying trip abroad. Several important changes will be made in the cast of "Dorothy Vernon of Haddon Hall" when Miss Galland resumes her tour of that play. The engagement of Orrin John-son for the role of Sir John Manners is the most notable. Miss Helen Tracy has been engaged to play Queen Elizabeth, and Miss Helen Bell has been engaged for the role of Mary Queen of Scots. Others in Miss Galland's company will be Carl Anthony, Fred W. Peters, Frank Losee, Kate Denin Wilson, Emma Millard and Virginia Fairfax. Miss Galland supposed winning numbers. Farrier's will give a few performances of "Macfather is a weil-known citizen of Jersey beth" in New York in the spring, in conjunction with her spring performances of Juliet, after the close of her regular sea-

> Five days a week Edward B. Wesley goes to Wall street. For a man who has lived 93 years he is wonderfully sturdy. He is a millionaire many times but, although he is the oldest specu lator in Wall street, if not in the world he never has been a member of the stock exchange. The whirl, the rush and the roar of the "board" bother him. He loves to play his part in the great strife from outside the lines. With the tape in his hand he sits in his favorite chair in a commission house and there feels the pulse of the market and gives his orders to buy or sell. The old man is proud of the fact that he has been a speculator all his life, and he confidently predicts he will live to be 100 and that he will be in the speculative harness then. He has as no thought of retiring. Old and feeble as is Russell Sage Mr. Wesley is older is and has been in Wall street twenty-five

An action in admiralty was commenced in the United States district court by the Knickerbocker Steamboat company, which asks the court to limit its liability for the losses, damages and injuries claimed by a score or more plaintiffs in actions brought against the company as a result of the Gen. Slocum disaster. The contingent liability of vessel owners in such cases is limited by the United States revised statutes to the value of the vessel after the wreck, provided she was in a seaworthy condition when she started on the voyage. The company claims that the value of the Slocum after the disaster did not exceed \$5000 that they should not be held liable beyond that amount. The claimants against company, however, contend that the Gen. Slocum was in anything but a seaworthy condition at the time she put out on her ill-fated trip. Suits have already been The Panama republic has completed filed against the Knickerbocker company, he first of a series of gigantic loans on as owners, for damages aggregating more than \$230,000

United States with J. P. Morgan & Co. to be invested in this country. It was stipulated that part of the money should go into New York city real estate mortgages.

later to appear in a new play by Paul Potter. Her early engagements have been cancelled, however, and it probably will be late in the winter before she is again seen on the stage, if at all the coming season. Mr. and Mrs. Hackett start, when the complex control of the potter is a potter. They say the French actresses first trip in search of big game in the westneard from them since Mr. Hackett telegraphed their safe arrival at Fort Ead. They have taken a cottage in Cornish, N. H., for August, Mr. Hackett and Miss Mannering were quietly married May 2, 1897, in New York during Miss Mainering's first appearance in this country in "The Courtship of Leonie." at the Lyceum theater. Mr. Hackett had been out at the head of his own company, but was brought to New York to be leading For William Faversham and John Drew, Charles Frohman has obtained most important item.

trick depends on them, and of the whole toilet of the coquette of 45 they are the man for Miss Mannering. They kept their marriage a secret until January, 1898, when it was announced at a dinner at which Mr. Hackett, Miss Mannering and several other stars were guests.

> New York is to have a several rogue's galleries and wears a a permanent New York institution. At scar received while a prisoner in Trenton, the end of the present summer season "A Little of Everything" will make hort tour to fulfill the contracts which course, be the principal woman member of the organization, and there will be a half dozen comedians. The Rogers Brothers will dedicate the new Liberty theater the first week in October and after "The Rogers Brothers in Paris" completes its run the comedy company vill follow.

J. H. Williams, president of one of the largest veneer mills in the world, which penditure of cash. The hotel corporation turns out large quantities of the thin wood to build a bulkhead along the now used in almost all fine furniture, said

Mahogany is not made solid, because it will crack and the great detriment of their health.

In Nanles gesture often takes large pieces as most furniture requires, it is well known, but there are others who can hardly be seasoned to the point where either through deprayed taste or psychic leave fissures exposed to view that are unsightly, no matter how fine the piece of furniture may be. Mr. Williams says that the best makes of pianos are constructed with all the beauty level of the piece of words, not only with lazzaroni, but even with princes. King Ferdinand, on his return to Naples gesture often takes the place of words, not only with lazzaroni, but even with princes. King Ferdinand, on his return to Naples gesture often takes the that the best makes of pianos are constructed with all the heavy lumber in layers, as many as a dozen of which are often used in making one piece of the required thickness. In recent years oak required thickness. In recent years oak has become so scarce that it is being made into veneering almost as largely as mahogany, and Mr. Williams is buying all the oak he can secure, though on vacation.—Louisville Courier-Journal.

-A satisfactory highway can be built 18 feet wide, exclusively of stone, usually for \$3000 to \$3500 a mile. These are known as macadam roads. A more costly acres in extent. In the course of a few

BACK FROM THE WEST.

Oh, long ago
Twas Westward Ho;
When prairie schooners traced
The trackless way
To Santa Fe
And unknown dangers faced,
Then we could read
A serawline accord A scrawling screed On canvas dark with dust, ly letters dim
This legend grim:
'We'll see Pike's Peak or bust.'

But now today Another way
The tide of travel turns,
And one who stays
At home these days A newer lesson learns; Returning hosts Forget their hoasts, But strangely still alike From weary souls This burden rolls; Busted but saw the Pike."

A Man's Woman.

She is not sweet, the woman that I lov Nor is she fair, Nor wise in any lore that books can tell, And yet she knows the secret of a spell From feet to hair. Ah, no, not wise, the woman that I love. woman that I love,

She is not fair, the woman that I love, Nor is sile wise, Nor sweet, and yet she speaks from feet to hair. With turn of waist, or throat, and i hair. With turn of waist, or throat, and am there, Held in her eyes.
All, no, not fair, the woman that I love.

She is not wise, the woman that I love, Nor is she sweet, r. The spell she weaves, is it of 'Tis undefined and subtle, yet in-

Flame, without heat. Ah, no, not sweet, the woman that I love.

Nor fair, nor sweet, nor wise is she I love, Nor fair, nor sweet,
Beyond a name,
Incarnate mystery of negatives
Unsolved, unsolvable; a spell that lives;
Elusive flame.

That while she is, the woman that I love.
—Old English Poem.

Women as Travelers.

One very popular and interesting girl was greatly hurt this summer by not being invited to join a party with which she had traveled for two previous sea-sons. "We can't have her," the organ-izers explained. "We are ever so sorry. for she is delightful, but so unpunctual! We always were just on the point osing trains and steamers owing to her delays, and for those of us who were responsible for the success of the expedition the strain was too wearing.' other girl, very pretty and a belle, also to receive an invitation, and the reason in her case was, "She wanted to monopolize all the attention of everybody!" Besides these two types men-tioned there is another to be avoided, and that is the unduly sensitive girl-the girl whose feelings are always being hurt. The writer knew a girl of his kind who left a party without a word of explana-tion. Long afterward it transpired that the cause for the offense was that on one occasion she had a seat on the sunny Repose of mann their annoyance if the exigencies of travel place them less comfortably than their companions.—Harper's Bazar.

The Husbands of the Future.

It is a trite saying that the education of a child properly begins with his grandfather. Couple this with the homely adage, "It is hard to teach an old dog new tricks," and the futility of the attempt to effect any radical change in present day matrimonial conditions is apparent. But with the mother of today rests the responsibility for the husband of the future. It is well to bear con-stantly in mind when training our boys that the future happiness or misery of a wife depends upon the habits each one is forming today. Do you wait on your boy or expect him to wait on you? Do you allow him to tyrannize over his wife. The boy who is disrespectful to mother and sisters will never be courteous to a wife. If you allow him to be disorderly in his childhood home he will take the same habits of disorder into his own home, to the great discomfort of the woman who shares it with him.

I know a boy who often sees nothing When he makes the fact known. table. When he makes the fact known, as he is sure to do in no very amiable manner, his mother shows great concern, and often leaves the table to prepare a lately published in The Liberator, seem so can of cooperage as some other distribution. cup of cocoa or some other dainty which or cocoa or some other dainty which practical and to the point that we orders, instead of saying, as she them for the benefit of our readers:

everever courtesy and consideration you have received at your own husband's hands, it should be your duty and pleasure to secure to your daughter-in-law in full measure. Then will she rise up and call you blessed.—Mrs. E. B. Gittings in New York Tribune Farmer.

When Closing the House for the Summer.

When you close up the house, cover everything possible with dust catchers. Pile up mattresses and anoint the bedsteads and spring edges with a mixture of corrosive sublimate, turpentine and kerosene. A board paint brush and a little round one are useful in this con-nection; also a large oil can, to squirt the mixture into impenetrable cracks.

This is not suggested as a cure for a rouble, but as a prevention while you are away and insidious troubles might

Roll up rugs, large and small, in newspaper, with rags saturated with turpentine rolled with them. Thus will you spoil many an otherwise toothsome meal for M. and Mme. Moth and their family.

Take down all hangings and fold them
up; also table covers and scarfs. Thus
they will not be found stringy and limp

the house every week or so to remove the dead, it is a good thing to set a dozen or so mouse traps, if you are troubled with these creatures; or set them some fatal luncheons, as you did the flies. For even one mouse may do lots of damage in a month if allowed to run rampant and ravage at his own sweet will all over the house.—Philadelphia

Evening Telegraph. Save the Hair by Massage.

We will suppose the scalp to be free from dirt-dandruff a plain way of expressing it, to be sure, but observation and experience show that women are woefully careless regarding the cleanliness of the scalp; therefore we do not hesitate to state that in all ordinary cases the hair should be washed thoroughly every three weeks and more frequently if exposed to dust and dirt, or there be any

inclination to dandruff.

The lack of vitality in hair arises from many causes, mental strain, dyspepsia, uncleanliness, neglect of exercise and often the use of so-called restoratives. The gray hairs appearing on the sides of The gray hairs appearing on the sides of the temples when age does not warrant their arrival very often come from a de-

be at once sought, and later on resort to

hair fonies. Massage at such a time is invaluable, restoring, as it does, normal circulation, ventilation and nourishing the hair and actually giving it new life. Anyone with deft, steady hands can, without trouble, learn scalp massage, which differs so radically from the ordinary shampoo. First, carefully comb the hair, not using the brush too freely, as when the circula tion is poor the bair is just like a plant dying for lack of nourishment and the brushing will only draw out hundreds of

hairs that might otherwise be saved. After combing give the entire scalp the first movement of massage, which consists of a gentle but firm kneeding with the cushions of the four fingers of the A Sweet Loving Spirit. two hands, the thumb remaining sta-tionary. The second movement is a rolling one, and is almost a sure cure for headache, resulting from overwork or lack of sleep. The tips of the fingers are pressed firmly but gently on the scalp in a rotary motion while the head is kept perfectly quiet. Then comes the vibratory movement, where you hold the scalp firmly by the fingers of both hands and shake it with a rapid motion.

These three movements will give to

eny normal scalp new life and vitality.

Perseverance is, of course, absolutely necessary. Twice a week at least the necessary. Twice a week at least the head should be gone over thoroughly, and then you will be surprised to find quickly the hair and scalp respond. We know a woman who every night she is alone lets down her hair, and, giving it a good air bath, deftly massages the scalp by pinching, rubbing and squeezing until the friction makes her hair stand out like an aureole, causing her to look like one of Burne-Jones' blessed damozels. It is always well to use a good tonic with the massage, as if hastens results. If it be possible, go to a specialist or good hair dresser wh derstands how to give a treatment. Take

How the Summer Girl Should Dress Herself for the Half-Holiday.

The Saturday half-holiday has become a recognized feature from the Atlantic to the Pacific, and with the coming of warm weather, pretty girls all over the land are a-flutter at thought of the weekend frolie.

The girl who is in town for the summer knows that on Saturday afternoons there will be a plentitude of young men, free from business ties, to take her to some nearby resort for the afternoon and evening, while the girl who is employed in the business section finds her haif-

holidays spoken for long in advance. Next to the question of the invitation from the right person—the average girl is absorbed in the problem of "What shall I wear?"

Oddly enough, the man who is taking her out on the jaunt takes the question almost as seriously as she does. The American man is keenly observant, and he is apt to gauge a girl's good sense, tact and adaptability by her dress. This does not mean that he likes to see her overdressed. The average man has a proper sense of the fitness of things. In his business dealing he comes in contact with women who do know how to dress,

within her means.

Here are some of the things a man

Wear white shoes on a dirty river boat.

girl would be guilty of such offenses, but she sometimes is, thereby trying the soul of the man who entertains here. The semi-tailored effects in summer gowns are so pretty this year that, with ingenuity and good taste, the half-holiday girl can transform herself for

hours into a real summer girl and yet keep within the narrow pathway of com-For a beach trip there is nothing more economical and in better taste than all-

sewing materials is of cretonne, built after the style of a "bousewife," which, when rolled up, looks like a shawl done up in a strap. These come in three sizes. with pockets in proportion, and hold many sewing utensils. For the woman who embroiders there are pretty floss bags covered with cretonne and large enough to hold almost all the color-needed for a summer sewing campaign. An ingenious little woman who lives much on the porch in summer made her a sewing table from an old-fashioned, discarded heirloom with a drawer and a shelf below. The wood work was enam-eled in white, and the top of the table was covered with cretonne, edged with a pretty cotton braid held down with brass-headed tacks. Around the shelf she bound a double strip of the cretonne about three inches high, which was fas-tened around the bottom of the shelf and and down each leg with the same aid and brass tacks. This served as a slight protection for articles laid on the little shelf.

To each corner of the table, just below the drawer, she attached a bag or pouch, finished at the top with rubber. One was for buttons, one for cotton thread and one for silk and the fourth for tape and other notions. A waste basket, covered with the same cretonne, served to hold large pieces of sewing, and in cases of and he wants the girl of his choice to live storm table and basket can be picked up up to his standards of good dressing, and carried on to the porch without scattering things in every direction.

NEW LANCET

Containing Crystals of Potash Will Cure Bite of Most Deadly Snakes.

The prevention of death from snake bite has been the object of a number of From the games and sports that were his investigations recently undertaken, and two methods of treatment have been de- For veloped with a fair amount of success. One is the injection of a specially pre-pared anti-venim, which acts as an antitoxin, and which has proved useful in many cases. The other is treating the afflicted part with permanganate of pe ish, which has the advantage that this substance can readily be kept at hand, and does not require to be specially pre-pared and stored like the antivenim. The use of permanganate of potash for bites was first suggested in India in 1869 by Sir Joseph Fayrer, and sub sequent experiments have demonstrated care of her person in order to preserve her beauty. She is young, in the very morning of life, and nature gave her rupted by the English anti-vivisection laws, but recently they have been carried further by means of a device lately invented whereby chloroform can be administered continuously to an animal for space of time, in some cases exceeding enty-four hours.

In experiments thus undertaken on a umber of animals, such as rabbits and cats, it was found that when the ouncture caused by the snake's bite or for the introduction of the venom was enlarged by a lancet into a small wound, which was then rubbed with a crystal of permanganate of potash, the latter acted as a complete antidote to the poison. Five out of six animals injected with obra poison, one of the deadliest of all reptile venoms, survived after receiving this treatment, and a which had been given Dabola poison. A special form of lancet adapted for this purpose was exhibited recently at Royal society, London, and is intended for general use. It consists of a sharp steel-pointed blade inserted in a wooden handle which is hollow and contains several crystals of permanganate of potash

Horse Flesh and Beef.

American meat inspectors, when it is their ambition to know their business thoroughly, often take a course in Paris. "In Paris," said a meat inspector, "you the blood flowing in the semi-transparent countries." can learn all about horse flesh. That is an important matter, for horse flesh, you know, is now used to some extent in

'Here are some means of distinguishg between horse flesh and beef:
"Raw horse flesh is a brownish red in color, whereas in raw beef there is no brown. Raw horse flesh is soft and tenacious; touch it, and the finger sinks in, while as you withdraw the finger the tissues rise with it and cling to it, as though intermixed with glue. But raw heef is not soft or tenacious in this way. Raw horse flesh, furthermore, has an an anovement on the surface of large reach.—Correspondence in Chicago Post. color, whereas in raw beef there is no brown. Raw horse flesh is soft and Raw horse flesh, furthermore, has an odd metallic smell.

"Cooked horse flesh is denser than beef. It is as dense as a lump of cheese. In taste it is sweet—a sickening sweetness, to my mind. The best test for horse flesh is to take

a piece of the fat and melt it. Horse fat will melt to a clear oil at so low a temperature as 70 degrees Fahrenheit, but beef fat won't melt to a clear oil under a temperature of 112 degrees." Buffalo Times.

How Sea Birds Get a Drink.

"When I was a cabin boy," said an elderly sailor. "I often used to wonder. seein' birds thousands of miles out to sea, philosophy class also?" what they done for fresh water when they got thirsty.

"One day a squall answered that question for me. It was a hot and glitterin' day in the tropics, and in the clear sky overhead a black rain cloud appeared all of a sudden. Then out of the empty space over a hundred sea birds came dartin' from every direction. They got under the rain cloud and they waited there for about ten minutes, circlin' round and round, and when the rain began to fall, they drank their fill.

"In the tropics, where the great sea birds sail thousands of miles away from shore, they get their drinkin' water in that way. They smell out a storm a long that way. way off; they travel a hundred miles, may be, to get under it, and they swaller enough raindrops to keep them goin."— Portland Oregonian.

the water, and making you wonder what would happen if you should break through and slide into the ooze only a few inches beneath you. But this same mud, which would mean death to the man who should be so unfortunate as to get into it, is a paradise for a thousand creeping and crawling things inhabiting this sheet of water, which is known by suggestive name of Doleful pond. Great eels live here, among the roots of the water lilies, and among the stems of the pickerel weed which line the banks we may see the squirming forms of many colored, well fed water snakes. Often while walking along the shore we may startle a six-foot black snake, too, and if pursue him he will surely glide to safety in the treacherous waters of Doleful. Decaying logs, lying half sub-merged near the bank, mark the spots where once grew trees, which, unable to keep their footing in the unstable mud. 'ell forward into the water to make landing places for the beautiful painted turtles which come out to bask in the sun, and which scramble back again with many wiggles if we chance to cross the But among the inhabitants of Doleful ond the one which interests me more

than any other is a huge female snapping which long ago I named Medusa. A mighty creature this, tipping the scales at fifty pounds, and with a mass-covered shell which fits snugly into a medium-sized washtub. Powerful scaly egs she has, and her broad, webbed feet are armed with claws which would not disgrace a bear. But perhaps it is her head which is of greatest interest to me—that big, snaky head at the end of a telescopic neck which enables her to snap at an object a foot or more in front of her shell. The merciless, coldly blinking eyes are set together near the top, and as you look at them you know exactly fills the heart of every possessor of a good microscope. Man would not be worth much as an intelligent creature if he did not strive to enlarge the powers of his eyes and his ears and of all of his organs of sense, in order to perceive and comprehend more fully the secrets and beauties of nature.

The secret secret is not early possessor of a good microscopy of them. Would be unforced by the secrets and beauties of nature. The two great allies of the eye that with smooth seales beneath, but with a

as she was lurching through the tall power, and price, costing from five, or ten, up to a hundred, or several hundred dollars. If you get a microscope whose made by the pruning shears she snipped off pieces of the twig an inch at a time. Then I turned her over on her back and watched a fine exhibition of muscular strength, as, with her long neck for a lever, she turned her huge bulk clean

over on the grass.

The next time I met her I was walking along a little stream which runs into the pond. I could see some large object moving down the stream just below the surface, but it was a minute or more be-fore I was sure it was a snapping turtle. As soon as I saw the tail trailing behind, I leaned over and took hold of it. Such a scramble that tartle made for its liberty, digging its claws into the bed of the brook and kicking with all its might. But out it came at last, and I was inter-ested to find by my private mark that it at first, the assistance of a more experienced observer, it is not difficult to see the blood flowing in the semi-transparent foot of a living frog, without injuring the animal.—Garrett P. Serivss in Success.

A Snapping Turtle.

Every man who took part in the third attack on Nanshan Hill fell before the Russian fire; and in the Iuli which preceded the advance of the next Japanese line, the Russians could be seen peering over their earthworks at the scene of awful stillness.—London Illustrated News.

THE SORROWING MOTHER.

Last night I dreamed he came to me; I held him close and wept and said: 'My little child, where have you been? I was afraid that you were dead."

Then I awoke; it almost seemed As though my arms could feel him yet, I had been sobbing in my sleep;

My tears had made the pillows wet. I cannot think of him at all As the bright angel he must be, But only as my little child

Who may be needing me. Do not make him grow too wise, Angels-ye who know; I am dull and slow to learn,

Toiling here below. Do not fill his heart too full With your heavenly joy. Lest the mother's place be lost

With her little boy. Those may dare to doubt who have Their loved ones here below;

For me, I do not now believe, I do not hope—I know. -Katharine Pyle in Harper's Bazar.

A Little Palmistry:

HAT is your particular line of robbery?" he asked as he approached her small, canopied table at the charity bazaar.

"Palmistry," she returned smilingly. "Shall I read your hand? It costs half a crown."

"I'm afraid you might discover my true inwardness. Let me read yours. I'll pay you just the same."

"Very well," she said readily. He sat down opposite her at the little table and she placed her hand on the small velvet cushion. "A dark gentleman loves you," he

began promptly. "Which one?" she inquired demure-

"Several. They are all villains.

Avoid them. "Thanks. That is very important.

What else?' "A blonde gentleman also loves you.

He is about my height and color.' "I shouldn't call you a blonde, ex-

"Well, then, I shouldn't call him a blonde, exactly." "Is he a villain, too?"

"Not at all. You will be very happy

if you marry bim." "He hasn't asked me," she said.

"No; but he's going to." She studied her own hand.

"I see him," she cried. "How wise you are! He is now far from here." "He isn't!"-indignantly. "He is

very near.' "Oh, then it can't be the same one." "The one I mean is the one you should marry," he said.

"Oh, yes, now I see the one you mean," she said. "There, on that cross line. But he is very attentive to a short, blue-eyed lady.'

"Not at all. She's only a-"Sister to him?"

"No; not even that. Just a calling acquaintance."

"But he calls her by her first name." "That's what I meant by a calling acquaintance. But how do you know he does?"

"I've heard him," she said with positiveness. "I thought this was palmistry?"

"Oh, so it is. Well, I find it in the line under this finger.'

"Well, they're old friends, you see." "But you said she was only a calling acquaintance."

"I was looking at the wrong line," he said hastily. "Let's go on. This not exactly blonde gentleman is going to be very wealthy. He will give you every luxury."

"How about all the dark gentlemen?" she inquired. "Some of them are wealthy already." "They will lose it all-last winter

RIVER MONSTER IN AFRICA.

Amphibious Animal Is Between an Elephant and Hippopotamus in Size. If Sir Harry Johnston had not recently returned from Uganda with the first skins of the okapi there would be more reason for receiving with incredulity the story of a French traveler, says M. Trilles, writing from Njole, that while exploring the northern Congo three years ago he heard from the natives of "an enormous amphibious animal something between the elephant and the hippopotamus in size, and in nature very feroclous toward man.' 'Unbelieving, he paid little attention to what had been told him.

"However, later, when in the neighborhood of Djali, near the Great falls, the accounts were given with more detail. The animal in question, or at least one of its species, lived near the source of the Mourk; it lay in wait for the canoes, upset them, and in preference attacked the women and children. Twice the natives fetched me to see it as it slept on the sandbank. But on each occasion it had disappeared

when I got there. "On returning com my travels I asked many questions about this animal, but it was unknown. On the coast I never heard it spoken of. But since my arrival here I have had repeated descriptions of it. The people of the upper Ogue give it the name of the nzemedzin (the water tiger). Sergeant Sans of the Njole tirailleurs shot one recently at less than twenty meters, but, unfortunately, the wounded

animal escaped him. "The people here make out that the nzemedzin is smaller than the description given by those of the interior. Its color is a light tawny gray, dotted with black spots; the hair rough, instead of smooth, as in the otter; the tail long and powerful, the paws short and webbed and fitted with very sharp nails six or eight centimeters in length. The nail is horny, as in the tiger. The animal only lives near waterfalls and is carniverous. It snatches women and children as they bathe and defles even the crocodile.'

ATHLETIC GAMES IN SYRIA.

Customs of the Orientals Undergoing

Gradual Transformation. Oriental peoples are very averse to physical exercise of any kind, says the World To-Day. Their idea of enjoyment is to sit under an awning and play backgammon. That a man should go out and run around a track in shameless nakedness and this with a hope of gain, only confirms them in the belief that all Americans are mad. But they are imitative people, and years

Attacks Supply Train.

The Official Messenger publishes the notice of the release of the steamer Malacca, which was seized in the Red sea by the Russian volunteer fleet steamer St. Petersburg, and reviews the case. The article concludes thus concludes thus:

'The arrangements for her inspection

and release now is taken in abrogation of Russia's rights, which she still maintains,

Shan Hai Kwan, Aug. 2.-Simucheng has fallen and the beginning of the end

For two days Kuropatkin's forces have been fighting fiercely, despairingly, stub bornly contesting inch by inch the resist less onslaught of the three separate Japanese armies which are closing in ipon them. But once again the stalwart Russian

soldiers have been compelled to retire before their little opponents. Brings Armies Together.

The capture of Simucheng brings the wo southern divisions of the Japanese frmy into communication and enables hem to move together on Kuropatkin

Trap Too Strong to Shatter.

Sinyon roads, had been lost, Gen. Stakelberg's outposts having fallen back to Hai Cheng.

No word was received enabling the staff to either confirm or deny the reuntenable with the approach of a new Japanese army near Tolupu, to the north, threatening the Russian communication. Kuroki is threatening Liao Yang and has managed to get a strong force between the city and Mukden. That Kuropatkin will be forced to strike for Liao Yang and make a last desperate stand there is the expectation of the Japanese generals, and they are devoting all their energies to one mighty attempt to finally crush him at Hai Cheng.

Will Be Deciding Struggle. It will be the decisive struggle of the war, the final contest toward which every movement of the Japanese army has been directed—a piece of strategy which, if successful, will be a triumph for the Japanese unexcelled in the his

tory of warfare.

If Kuropatkin's armies be crushed by his piece of strategy the entire Russian ended without waiting for the re the terrific bombardment of Port Arthur.

Eluding the Japanese. Vladivostok, Aug. 2.—The Vladivostok cruiser division returned to port at 4 clock yesterday afternoon. The cruisers were in perfect condition. They capured, during their cruise, the steamer Arabia and destroyed some schooners, a small Japanese steamer, one German steamer and one British steamer. The last mentioned two were carrying con-traband material and had nearly reached eir destination-Yokohama-but were almost without coal and it was therefore impossible to send them to Vladivostok. The cruisers steamed up and down in ront of the Japanese capital, but saw othing of the enemy's warships.
Although the Russian vessels had only ee doors through which to get home the straits of Korea. La Perouse strait Tsugaru strait-which apparently could easily have been barred by Vice Admiral Kamimura's vessels, bad luck pursued the Japanese admiral, Russian cruisers had no difficulty in

Prinz Heinrich Incident Closed. St. Petersburg, Aug. 2.—The officials

information concerning the report from Vladiyostok that a German ship was

BAYLEY HEATING COMPANY Modern Steam and Hot Water Heating CAT SAVED WITH A LARIAT.

After Two Years' Imprisonment, Feline Is Rescued from Narrow Prison.

After nearly two years' imprisonment between brick walls four stories high and only a little more than three inches apart, a cat has been rescued by means of a lariat. The feline dropped into the crevice when it was only a few weeks old and has ben there ever since—fed and card for by families residing in the build-

The prison which it occupied so long is between two buildings in East Fourth street, New York city. The crevice is closed front and back, and even closed partly on the top by tin roofing. Efforts which the kitten made again and again during the early days of its imprisonment to climb up the slippery walls only to fall back, were watched with sympathy by the neighbors and they became divided into two factions—those who thought that the kitten ought to be killed and relieved of its misery and those who held that while there was life there was hope. The latter fed the cat and gave it water by means of a long string. Discontented neighbors many times threw in chunks of poisoned liver, but the animal never touched it. Meanwhile the cat grew and every effort was made to release it, but without success. A few days ago the story became generally known and came to the notice of an ex-cowboy, who, with an old lariat, soon dragged the cat from its prison, thus removing a source of much worry to the society for pre-

vention of cruelty to animals.

Kushequa, Pa., Aug. 1.—(Special.)— In this section of Pennsylvania there is a growing belief that for such Kidney Diseases as Rheumatism and Lame Back there is only one sure cure and that is Dodd's Kidney Pills. This belief grows from such cases as that of Mrs. M. L. Davison of this place. She tells the story herself as follows:

"I have suffered from Rheumatism for thirty years and find that Dodd's Kidney Pills have done me more good than any medicine I have ever taken. I was also bothered with Lame Back and I can only say that my back hasn't bothered me since I took Dodd's Kid-

Considering that Mrs. Davison only took two boxes of Dodd's Kidney Pills, the result would be considered wonderful if it were not that others are reporting similar results daily. Kushequa is fast arriving at a verdict that Dodd's Kidney Pills are the one sure cure for Rheumatism."

Moscow's Magic Grove.

The cyclone which raged around Mos-ow on June 29, causing great loss of life and tremendous damage to property, was a storm such as is seldom seen in Russia. At intervals hail of unusual size fell—some stones as large as a hen's egg—and the wind blew with terriffic

Next morning on going to her window she beheld a grove. The Duke of Biron had given orders that in the night all the trees in the neighborhood should be

Newberry, S. C .- W. H. Harris, Chief of Police, of Newberry, says: "I suffered for a number of years with kidney complaint. There was a dull aching across the small of my back that was worse at night and made me feel miserable all the time. The kidney secretions were dark and full of sediment, and lack of control compelled me to rise a number of times during the night. Between this annoyance and the backache it was impossible for me to get much sleep and my health was being undermined. I tried a number of remedies, but nothing helped me until I got Doan's Kidney Pills. The use of this remedy according to directions promptly brought about a change for the better. After using two boxes the backache all left me, the kidney secretions cleared up and the action of

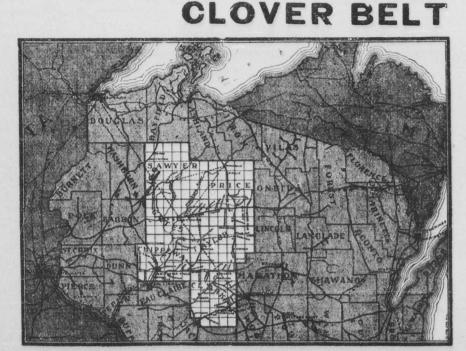

the kidneys became normal." A FREE TRIAL of this great kidney medicine which cured Chief Harris will be mailed to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price fifty cents per box.

THE MULE AND THE MAN.

man there was once who was badly ad-To language not bad, but far worse, His verbai perversions were quite stricted—

To put it quite plainly he'd curse With richness of diction and great animation any old place and on slight provocation.

One day something happened, annoying ex-

blank gazing. His silence was eloquent, also amazing.

Some moments he stood there and no word he uttered.
Expectancy stood on tiptoe,
And one to another the people they muttered,
"Just wait; it's a-comin', I know."

Another short pause and the silence was

Another short pause and the shence was broken
And these were the words by that reprobate spoken:
"I can't do it justice," he said with a sigh, Then added, alas! "But—it, I'll try."
And he made a fairly good attempt.
—Kennett Harris in Leslie's Monthly Magazine.

crept up the reddish sand. In an hour the tide would turn.

his eyes on the beautiful scene before nim. an aged philosopher lay dying.

He had been a man of great sanctity and an ascetic life. All had been given to the service of his gods and of his fellows. He had passed from a youth without pleasure to an old age without regret. For all the years that he had Jaggles—How is it you see so many men in black suits at the ball games?

Waggles—Those are rellows who get off by saying they had to go to futhe sea's unending elegy visions had nerals come to him that are not given to the youths or to the aged that belong wholly to the world. These visions he had recorded, and on them he had based his my teaching; and his repute was so great that young men came long journeys to see him and to learn from him.

He beckoned with one hand, and his disciples came forward.

Seat yourselves near to my bed," he said. "My voice already grows weak. and I think that I speak to you for the last time. And, firstly, do you," he said, turning to the youngest there, "tell me how men speak of me up in the town where all my long life I have been known.'

"They say," said the youth in a clear voice, "that you have never been as others, but aiways above them, and that with you the body has ever been the slave of the spirit—that you have never known the love of women, that you press Anna. One day from her balcony she remarked, "What a beautiful spot—if only there was a grove here!"

known the love of women, that you fast often. They say that in the night watches you have say that in the night watches you have say that in the night watches you have madam, to receive twice as much ali that your wisdom is more than mortal, and that your teaching is as pure gold.

So, too, say we all." Transplanted there.

So, in a single night the Annenhoffsky Grove was planted. Last week it was destroyed in a second.—London Mail.

"For the most part, said the old mail.

dreamily, "it is true. But of the wisdom and of the sanctity of my life I now doubt, for I pass from it, and I know doubt, for I pass from it, and I know doubt, for I pass from it, and I feel as nineteen and a half times.—Woman's one who has left a banquet-tasted and may not return to it again. Everywhere there is beauty-in the young tendrils of the vine and in the wrenched and twisted trunks of the olive trees; wherever there is sunlight and wherever there is water; in the scent of the violets and in the Philadelphia Ledger. seent of the newly turned earth; and in starry nights; and in women that are meet to be loved. Of my own will I have put the love of women from me, hoping band of drinking if I dropped it in ms put the love of women from me, hoping for other and higher rewards. And now t the end of my life these rewards grow pale and faint, and there is no savor in adelphia Record. them. And that which I have missed is vivid and warm and near."

He paused and closed his eyes so that dealer. for a moment his disciples thought that | want he had fallen asleep, and then he went on in a weak and drowsy voice, "I wonder where she is now. Such eyes. They Philadelphia Press. burned one; they would not let one sleep. And it might have been. That sleep. And it might have been. That one evening when we two together brought back the stray sheep from the

wonder, for it was not after this manner that he had been accustomed to teach

"For me," he went on, "the vines have been laden in vain and women have been fair in vain; and now must I come before the gods as a surly fellow, a very churl, switched off to October; that's my marone that refuses their gifts. Be warned rying month now.—Yankers Statesman. by me," ne said, opening his eyes and fixing them on his disciples. "Let the words that I speak dying blot out from your memory the teaching of my lifetime. Who am I that I should say what is lightly to the major that I should say what will show that it is lightly that it is lightly to the major that I should say what was to show, will show that it is lightly that it is li is high and what is lowly? Have not the same hands that gave the one given the other? I repent most bitterly. were to be done again it should be done

differently. Be warned by me." And now he closed his eyes and lay quite still, and as the disciples gazed at | yard one another the eldest of them, a singularly austere young man, tapped his forehead significantly. Undoubtedly their reverend teacher no ionger knew what he was saying. It was inexpressibly sad. but it should be forgotten. Other dis ciples nodded assent, but not the youngest. He made no sign whatever, but stepping gently to the bedside saw that the old man was now dead. And everywhere there was great lamentation.

Up in the town they said that there was none to come after him except i might be the eldest of his diciples. And they buried him with great honor in a boy! marble tomb on the cliff's above his cavern home.

And one stary night the youngest of his disciples went out on to the mountains to find stray sheep. And there went with him a brown-skinned maiden. -Barry Pain in the Sphere.

How Lenses Are Made.

When a popular camera was first under onsideration it became necessary to se cure a good lens at a popular price. This was possible only by the devising and making of special machinery and tools, and by buying the raw glass and manufacturing in large quantities. Lens glass, as all the world knows, or will after this story is published, is made principally in Germany, France and England. Brought to the manufacturer in small slabs, it is cut by revolving saws into the cure a good lens at a popular price. This Brought to the manufacturer in small slabs, it is cut by revolving saws into the different sizes and then subjected to a series of grindings and polishings that must eventually enable the tester to fit the lens over an absolute form of the stage."

Worced."

"Yes; Mrs. Gauderly brought sunt three weeks ago and it was granted two days after her petition was filed."

"What was the trouble?"

"Oh, there wasn't any trouble. Mrs. Gauderly wished to return to the stage."

"I hear the Gauderlys have been divorced."

Women who work, whether in the house, store, office or factory, very rarely have the ability to stand the strain. The case of Miss Frankie Orser, of Boston, Mass., is interesting to all women, and adds further proof that woman's great friend in need is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - I suffered misery for several years. My back ached and I had bearing down pains, and frequent headaches. I would often wake from a restful sleep in such pain and misery that it would be hours before I could close my eyes again. I dreaded the long nights and weary days. I could do no work. I consulted different physicians hoping to get relief, but, finding that their medicines did not cure me, I tried Lydia E. Pinkham's Vegetable Compound, as it was highly recomended to me. I am glad that I did so, for I soon found that it was the medicine for my case. Very soon I was rid of every ache and pain and restored to perfect health. I feel splendid, have a fine appetite, and have gained in weight a lot." - MISS FRANKIE ORSER, 14 Warrenton St., Boston, Mass.

Surely you cannot wish to remain weak, sick and discouraged, and exhausted with each day's work. Some derangement of the feminine organs is reponsible for this exhaustion, following any kind of work or effort. Lydia E. Pinkham's Vegetable Compound will help you just as it has thousands of other women.

The case of Mrs. Lennox, which follows, proves this.

"DEAR MRS. PINKHAM: - Last winter I broke down suddenly and had to seek the advice of a doctor. I felt sore all over, with a pounding in my head, and a dizziness which I had never experienced before. I had a miserable appetite, nothing tasted good, and adually my health broke down completely. The doctor said I had female weakness, but, although I took his medicine faithfully, I found no relief.

"After two months I decided to try what a change would do for me, and as Lydia E. Pinkham's Vegetable Compound was strongly recommended to me I decided to try it. Within three days I felt better, my appetite returned, and I could sleep. another week I was able to sit up part of the day, and in ten days more I was well. My strength had returned, I gained fourteen pounds, and felt better and stronger than I had for years. I gratefully acknowledge its merits. Very sincerely yours,

MRS. BERT E. LENNOX, 120 East 4th St., Dixon, Ill." FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

MORTGAGE SALE.

Default having been made in the conditions of a certain mortgage dated the twenty-second day of May, A. D. 1903, made and executed by Julius Dietel and Marie Dietel, his wife, of Maple Ridge Township, Delta county, Michigan, to Samuel Hammel, of Appleton, Wisconsin, which mortgage was recorded in the office of the register of deeds in and for the county of Delta, State of Michigan, on the 26th day of May, A. D. 1903, in Liber W of Mortgages on page 406, upon which mortgage there is claimed to be due at this date for principal and interest the sum of one hundred, seven dollars and fifty cents (\$107.50) and the further sum of fifteen dollars as an attorney fee, as provided by said mortgage, making a total amount of one hundred twenty-two dollars and fifty cents, and no suit or proceeding at law having been taken or instituted to recover the debt now remaining unpaid, secured by said mortgage, or any part thereof, whereby the power of sale in said mortgage contained has become operative, now, therefore, notice is hereby given that by virtue of the power of sale in said mortgage contained and of the statute of the State of Michigan, the said mortgage will be foreclosed by the sale of the premises therein described or so much thereof as may be necessary to satisfy the amount due as above set forth together with the costs and expenses of sale and moneys to be paid for taxes, if any, to protect the interest of said mortgagee, at public auction to the highest bidder at the front door of the court house in the city of Escanaba, county of Delta and State of Michigan, (that being the place wherein the circuit court for the county of Delta and state of Michigan, and described as follows, to-wit: The south-west quarter of the south-east quarter and the south-west quarter of the north-east quarter of section four (4) in township forty-two north of range twenty-three west.

Dated Gladstone, Mich., June 17, 1904.
