next genius will be to save the waste.

sport hereafter.

### ITEMS OF LOCAL INTEREST

There are rather too many \$2 revolvers afloat in this town. It is true, however, that they are the best kind for a juvenile desperado to carry: firstly, because if he shoots at anything with them he will miss it; second, because if he hits an innocent bystander the bullet will have little force, and thirdly, it will probably be out of order anyway. When a certain young runaway was overhauled and brought back to the city last week, among his effects was a cast iron gun of the type mentioned. The fire department tested it, and found that it would not drive a bullet into a pine consumed in the charcoal kilns. board at six feet range, so that the ball would stick there. With such weapons a gang of car thieves opened fire on a railroad detective in Detroit last year. At thirty feet they fired forty shots at This means that payment must be made gree and it was conferred by past mas- in a heap an' burned 'em." him-and missed every time.

Richard Mertz, having resigned the office of city treasurer, was succeeded last Tuesday by W. F. Hammel. Mr. Mertz whose resignation was rendered necessary by his failing health and inability to give the duties of the office the requisite personal attention, was first elected city treasurer in 1890 and served until the following spring. He was succeeded by W. A. Foss, H. B. Laing and J. W. Pennock, but was elected again in 1898 and has since continuously filled the office to the satisfaction of his constituents. His resignation is greatly regretted, especially because of the infirmities which made the step necessary. No one is more universally respected and esteemed than Mr. Mertz, nor has anyone filled so large a place in the history of the city. His present ill health may soon grow better.

The car repair tracks between the depot and the roundhouse are always filled with "bad order" cars in process of repair and there is always quite a force working on them under the direction of Messrs. Cassidy and Lancaster. Every day the car repairer finds some new puzzle in restoring the smashed-up rolling stock. The accidents which happen are manifold. The most common is the smashing of the end beam of the car, above the coupler, through the car striking too hard. It is common, also, to see a Fred Lavigne has been on the "extra car with the door torn out. The mys- list" since his return from the woods terv of this is that it was not put far with Dr. Forsyth. rubbed off the door.

Feared Japs Would Capture Torpedo Boat Destroyer.

# WORD FROM STOESSEL.

Commander at Port Arthur Sacrifices Ship in Order to Get Message to the Czar.

St. Petersburg, Nov. 16.-The Associated Press learned from a general who ated Press learned from a general who was with the Emperor this afternoon and who knows the contents of Gen. Stoessel's message, that all the talk about Gen. Stoessel asking for instructions to surrender is absolutely false. He tions to surrender is absolutely false. He said he was not at liberty to disclose the nature of Gen. Stoessel's report, but he remarked:

and the last cartridge fired will the garrison surrender the fortress. This I can

state positively." Considering the authority the general's words may be accepted as a reflection of the views of the Emperor himself. The general further stated that the surrender report was all the more ridiculous as severel vessels had broken

the blockade and reprovisioned the gar-He said: "Gen. Stoessel also knows that the second Pacific squadron is on its way."

Chefoo, Nov. 16 .- This afternoon the Russians blow up the torpedo boat destroyer Rastorophy. All the officers and crew, with the exception of one man, left the destroyer, and this last man lit the fuses. There were three dull explosions which were scarcely discernible a hundred yards from the place where they occurred. Almost simultaneously the Rastorophy sunk and settled on the bottom. A single spar marks her grave.

Feared Japs Would Get Boat. It is impossible tonight to secure an explanation of the action of the Russians, but it is believed they were determine not to allow a repetition of the Rye shitelni incident. Prior to the destruction of the destroyer the taotal had of ficially notified the Japanese consul that disarmament had been completed the breech blocks and ammunition having een removed and the machinery dis

During the afternoon the Russian con sul officially notified the taotal that the destroyer had been driven towards Chefoo by a heavy sea and that it had been decided to disarm her because her ma-chinery had been disabled.

### Real Purpose Veiled.

This is looked on in some quarters here as the throwing of a transparent veil over the purpose of the vessel's visit. Commander Pelem says that the destroyer's object was simply to carry dispatches. The other Russian ships remained at Port Arthur.

### Optimistic Stories Not Believed.

The Russian officers are all reticent but they say the condition of Port Ar-thur is as good as it was two months ago. They also deny the report that the Rus sian armored cruiser Bayan has beer sunk, though they admit that a shell damaged her engines, which are being repaired. Russian cruisers come out of Port Arthur daily, the battleships re-maining in the harbor. The overdrawn optimism of the officers, it was asserted ashore, made it obvious that their story was rehearsed before it was given to the

e correspondents were allowed on board the Rastorophy a quarter of beef was carefully placed where it was impossible to miss seeing it. This, it was claimed, was meant to convey the impression that Port Arthur was snug and comfortable.

## Japs Off Chefoo.

Chefoo, Nov. 16.—(Untimed.)—Two Japanese torpedo boat destroyers were seen at the mouth of the harbor tonight and their presence undoubtedly precipi

tated the action of the Russians in blowing up the Rastoropny.

The correspondent of the Associated Press learned authoritatively tonignt that the Rastoropuy carried sealed or ders providing that, unless there came a highly favorable opportunity to escape, the vessel should be blown up.

## Stoessel Wants Instructions.

St. Petersburg, Nov. 16.-No definite knowledge is obtainable up to half past 5 this afternoon regarding the character of Gen. Stoessel's report to the Emperor, but the fact that it was considered adviser Rastorophy in order to communicate indicates urgency, which naturally has aroused all sorts of alarmist rumors. One is that the Port Arthur squadron is about to make another effort to escape. But the prevailing report is that Gen. Stoesse has asked for instructions whether to sur render, the condition of the garrison be ing represented as desperate. In military circles, however, the firm belief is expressed that Gen. Stoessel will not yield.

"All's Well," Is Report. Dispatches from the Russian consul at Chefoo and from the agent of the finance ministry reporting the arrival of the de-stroyer at Chefoo, although they throw little light on the situation at Port Arthur, do not indicate a crisis. The latter dispatch is brief, simply saying that Rastozopny reports all well at Port

A report published abroad that Gen. Kuropatkin will succeed to the viceroyal-alty of the Far East is not credited in responsibile circles here. Admiral Alexi-eff will go shortly to Yalta, in the Crimea for a rest Crimea, for a rest.

## How Rastoropny Escaped.

Chefoo, Nov. 16.—The commander of e terpedo boat destroyer Rastoropny declares that all the forts at Port Arthur remain in Russian hands and that the garrison is confident and in good spirits. He is very optimistic and thinks Port Arthur will be able to hold out for months. His views are discredited here. The commander in an interview on his adventurous voyage said: "I left Port Arthur at midnight in a blinding snowstorm. The boat was navi-gated through all the dangers of floating mines without a mishap. On reaching

### JUDGE PARKER WILL PRACTICE ALONE.

### Defeated Democratic Candidate Opens a Law Office in New York City.

New York, Nov. 16 .- Ex-Judge Alton B. Parker, recent Democratic candidate for President, opened a law office in the building at 32 Liberty street, in this city, today. At the same time he announced that he had become a resident of this city; that Mrs. Parker would join him here today, and that they would at once secure a home in the city. He said that he had not entered into partnership with anyone and would practice law alone.

RUSSIANS BLOW UP SHIP, the open sea we saw a Japanese cruiser and some torpedo boats in the distance but we were steaming rapidly through the storm with lights extinguished and passed them unnoticed. We reached Che-

The former Russian governor of Port Dainy, M. Sakharoff, died recently at Port Arthur of enteric fever.

Gen. Stoessel Wounded. London, Nov. 16.—According to a dispatch received here from Chefoo by a news agency, Commander Plen of the Russian torpedo boat destroyer Rasto vopny, which reached that port this morning from Port Arthur, confirmed the report that Lieut-Gen. Stoessel is wounded, but says Gen. Fock is quite well. The commander added that there were sufficient appearance of the commander added that there were sufficient appearance of the commander added that there were sufficient supplies of food, ammu-nition and coal at Port Arthur to last a

### Japs Lost a Ship.

surprised by the battleship Retvizan and sunk.

## Stoessel Plans Last Stand.

Tokio, Nov. 16.-The Russians at "Only when the last biscuit is eaten and the last cartridge fired will the garson surrender the fortress. This I can whither they have removed their provisions. This confirms the statements made by Russian prisoners that Gen. Stoessel will make his final stand on Liaotishan.

### And Now the End.

London, Nov. 16.—The arrival of a Russian torpedo boat at Chefoo is taken here to mean that the remnants of Russia's crippled fleet has made the long

expected sortie from Port Arthur.
This, with the categorical announcement from Tokio that the Russians have ommenced a general withdrawal from Port Arthur to the Liaotishan peninsula, whither they have removed all their provisions, indicates that the end of the most spectacular and dramatic siege in he history of war is at hand. When the Russians leave the city of

ort Arthur for Liaotishan, they necessarily leave the harbor at the mercy of the Japanese, hence the belief in the theory that a sortie has been attempted.

Garrison in Desperation. It has been known all along that the eet would not attempt a sortie until the ondition of the garrison at Port Arthur came desperate in the extreme. The mouncement from Tokio indicates that

that moment has arrived.

Latest reports from official Japanese courses before Port Arthur indicate that the end is near. A delayed dispatch from Gen. Nogi's headquarters received at Tokio via Fusan this morning shows that the restriction has began its work and nat starvation has begun its work and hat the Russians are short of ammuni-

ion. It says:
"Spies and Russians who have surrendered report that rations in the fortress have been reduced. The wounded found by the Japanese are emaciated.

### Shells Made of Wood.

"Russian artillery shells are made artly of wood and do not explode. This ows that the Russians are short of aterial for making ammunition. The capture of the eastern fortified dge will mean the surrender of the forress in a couple of weeks unless the son there retires to isolated forts. This weather and the lack of food and am-munition renders desperate resistance un-

### Stoessel in Hospital.

Headquarters of the Third Japanese Army, Before Port Arthur, Nov. 15, via Jusan.—It is reported that a wound rerusan.—It is reported that a wound re-ceived by Gen. Stoessel has necessitated his confinment in a hospital, that he re-fused to relinquish the command of the garrison, and that he has issued orders o the troops to die at their posts rather han surrender. It is said that the spirit of the Rus-

ian troops has been dampened by continuous work, the lack of supplies, and the hopelessness of their ability to make any successful defense of the fortress. It is said further that many of Russian soldiers are ready to surrender. but that they are kept at their posts by officers, who threaten them with revolvers, and that several soldiers who were suspected of a desire to desert have been shot as a warning to others. The Japa-nese now believe that the garrison has lmost reached the limit of human endurance.

## Fighting Is More Serious.

Chansianoutun, Manchuria, Gen. Kuropatkin's Headquarters, Nov. 15.—A Japanese advance is daily expected. Large masse of their troops are moving eastward and the Russians are expecting them to strike at their left flank.

An attack upon the fortified village of Endowuniulu, not far from Sinchinpu, two miles west of the Shakhe railroad station, and fronting the right flank of the Seventeenth corps, was carried out brilliantly during the night of November 10 15 and 1 10 by the second brigade of the Thirtyfifth infantry division.

The village had been captured the same

morning by the Japanese. Subsequently the Russians abandoned the place.

## Attack by a Brigade.

At nightfall the brigade silently marched out and deployed. Four battalions were detached for the attack and several companies of riflemen were ered to move to the right, left and rear of the village.

The men were told not to fire, but to charge with the bayonet. Two battalions were left in reserve with eight guns. A nultaneous advance was begun at 10 clock at night. The assailants hurried rward and encountered a deep ravine, which they crossed. They then rushed on the village. Not a single shot was

## Japs Taken by Surprise.

The Japanese were completely sur-ised, mostly sitting in the streets and huts eating their suppers. They fled beore the bayonets.

As soon as the Russians occupied the village they brought up a battery. The Japanese tried to recapture the place at break of dawn, but were repulsed. The Russians, however, were compelled later to abandon Endowuniulu, as the retirement of the Third division exposed them to a flank attack.

### Begin Work on Double Track. St. Petersburg, Nov. 16.-Three hundred engineers have already been dispatched by Prince Hilkoff, minister of railroads, in connection with the pre-liminary work of double tracking the

Siberian railroad.

### PEACE CONFERENCE. Says That The Hague Meeting Was De-

RUSSIA OPPOSED TO

## layed Until Spanish-American War Was Concluded.

St. Petersburg, Nov. 16.-An official note issued here today controverts the analogy drawn in the proposal for the new peace conference between the present situation and the situation at the time of The Hague conference. out that France had transmitted to Washington Spain's desire for peace before a suggestion of the conference was formulated, and that the Russian circular convoking the conference was issued only after the conclusion of peace.

# THE INQUIRY IS BEGUN

Monsteirs, Has Renounced Examination of North Sea In-Catholicism. cident Is Started.

## NO MYSTERIOUS SHIPS.

### No Evidence of Torpedo Boats.

The correspondent of the Associated Press learned at the outset that the board of trade solicitors who have been preparing the case have found no evidence to suggest the presence of the torpedo boats among the fishing fleet. The inquiry will, therefore, merely be an amplification of the evidence at the inquest and it will be adjourned to London in the course of a few days, the proceedings here being confined to a narrative of the shooting.

Gave Third of Fortune.

"When I was 21, I turned over to them one-third of my fortune for that purpose. But for pears I have been trying to till myself of the subtle, yet overwheiming, influence of a church, which pretends, not only to the privilege of being alone able to open the gates of heaven to a sorrowful, sinful world. At last my knonest Protestant blood has asserted itself and I now forever repudiate and cast off the yoke of Rome."

So saying the marquise politely dismissed me. shooting.

The assessment of damages, which will

mitted to the international commission. not likely that they will be published before the commission commence its sessions, but with the exception of th amount of damages it can scarcely add to what is already known, a careful examination of all witnesses in private having substantiated in all essential details the story of the fishermen, originally

The Russian government was not represented at today's hearing, which created even locally barely any interest.

## No Speeches Allowed.

business-like promptness, briefly announcing the method of procedure and stating that there would be no speeches Various counsel representing the trawler companies and the victims received permission to examine the witnesses and Mr. Pickford, counsel for the board of trade, summarized the facts connected with the "lamentable occurrence," saying there was nothing connected with the trawling t which could possibly account for shooting. He added that in addition fleet which to the witnesses to be called, a careful into the witnesses to be called, a careful inquiry had been made among the entire
fleet and the statements made agreed in
all essential respects. Mr. Pickford highly commended the pluck shown by the
men of the trawler Gull in saving the
wounded from the sax was Mr. Pebrica.

The first witness was Mr. Pebrica. The first witness was Mr. Behring, anaging director of the Gamecock fleet. He testified that for twenty-five to thirty years the fishing fleets had been trawling off Dogger bank.

### Fisherman Tells Story.

sides the Russians, was the regular Brit-ish cruiser stationed off Hull. This was several days prior to the trawling fleet falling in with Vice Admiral Rojestven-sky's squadron. Carr reiterated that the falling is with vice Admiral Rojestvensky's squadron. Carr reiterated that the first Russian division passed close to the trawlers without firing and that the second division, after starboarding and keeping their searchlights steadily on the vestoring their searchlights steadily on the vestoring fired with the result known.

Miss Lina Caldwell married Baron Von Zeedwitz, who was killed on his yacht Isolde, August 18, 1896, while taking part in the races of the Royal Albert regatta at South Sea. England, as the result of a collision with Emperor Wilsels, fired with the result known. sels, fired with the result known.

Carr kept sending up green rockets, which are not only known throughout the world are not only known throughout the struck on the head by a piece of broken

port quarter, Carr was very uncertain. It might have been, he admitted, another trawler, but he at first thought it was one of the Russian warships.

Catholic university in Washington is Catholic university in Washington is Carr maintained that the Russians did not signal to the trawlers to stop and stoutly declared that there could not have been a strange vessel among the fall of Divinity. been a strange vessel among the fishing DIE IN FILIPINO AMBUSH.

# RUSSIANS STICK TO STORY.

### Claim They Saw Torpedo Boats Among the Trawlers.

the question of responsibility. At the foreign office it is said that Russia does not desire to in any way recede from the basis of the agreement, but she proposes a modification of the language submitted in the English text. The admiralty, it is understood, contended all along that the international commission should confine its inquiry to the establishment of the question whether torpedo boats were off the Dogger bank, and whether in any event the Russian ships were justified in

The Associated Press learns that Vice today by the exposition officials. Admiral Rojestvensky's detailed report Admiral Rojestvensky's detailed report shows that some shots from the battle-ships hit the Russian protected cruiser Aurora, one of the shells entering the wardroom and wounding a priest, who afterwards died at Tangier from the injuries which he sustained. The Russian admiralty contends that this is additional proof of the good faith of the vessels which fired on what they believed to be torpedo boats, not having seen either the torpedo boats, not having seen either the fishing vessels or their own ships of the fishing vessels of their own ships of the cruiser division. Lieut. Ott, one of the Russian witnesses, will swear positively that he saw flames rising out of funnels of a low-lying ship. Lieut. Ellis, another Russian witness, who was in a turret of the Russian battleship Alexander III., sighted a gun, but did not fire. He declares that he is positive he saw a torpedo boat destroyer. Capt. Clado, also one of the witnesses, insisted that he saw two torpedo boats and the depositions of the officers of the Russian transport Kamtchatka say they saw four boats re-sembling torpedo boats.

## WAR MINISTER RESIGNS.

Gen. Andre, Who Was Assaulted in the Paris Chamber of Deputies, Gives Up Portfolio.

Paris, Nov. 15 .- The official announcement is made of the resignation of Gen. Andre, the war minister, and the nomination of Henry Maurice Berteaux, member of the Chamber of Deputies from the Versailles division of the Seine et Oise, to succeed him.

## REPUDIATES CHURCH.

Mary Gwendoline Caldwell, Marquise des

New York, Nov. 15 .- The Associated Press has received the following. Before giving it publication, its authenticity has been fully verified by cable from Rome:

Witnesses Examined and Report Being
Made Up for Use Before International Commission.

Hull, England, Nov. 15.—The inquiry which Great Britain conducts on her own behalf, into the North Sea incident opened today. Vice Admiral Bridge and Butler Aspinall, an admiralty court lawyer, who were appointed to conduct the inquiry, and whose report will form the basis of the case before the international commission at Paris, sat at a large table surrounded by maps showing the Dogger bank and the North sea. In front was an array of counsel and government officials.

No Evidence of Torpedo Boats.

Witnesses Examined and Report Being Rome, Oct. 30, 1904.—Editor of the Associated Press: You have my full permission to print the enclosed, and give it as wide a possible. Yours smuly, (Signed) MARQUIS DES MONSTEIRS. Dear Editor: It may interest some of your readers to know that the Marquise des Monsteirs Merinville, formerly Miss M. G. Caldwell, who, it will be remembered, founded the Roman Catholic university at Washington some years ago, has entirely repudiated her former creed. In an interview with me the other day she said:

"Yes, it is true that I have left the Roman Catholic church. Since I have been living in Rome my eyes have been opened to what that church really is and to its anything but sanctity. But the trouble goes much further back than this. Being naturally religious my imagination was early caught by the idea of doing something to lift the church from the lowly point in which it occupied in America, so I thought of a university or higher school where its elegy could be educated, and, if possible, refined. Of course, in this, I was greatly intended by Bishop Spalding of Peotla, who represented it to me as one of the greatest works of the day.

Gave Third of Fortune.

# Gave Third of Fortune.

The assessment of damages, which will be dealt with in London, can not be completed for sometime, as many of the trawlers are still at sea.

Findings Will Be Forwarded.

The findings of the court will be sent to the board of trade and will be sub-It will be remembered that the Marquise In church circles. The younger sister mar-riad, some fifteen years ago, a German nobleman, a Lutheran, and has since then also left the Roman Catholic communion.

### In Very Bad Health.

The older has been in very bad health for some years, from having to occupy a posi-tion before the world as a prominent Roman Catholic which was not a real one, and int which her extreme generosity led her, as a young and inexperienced girl. Now, at last, her own mind has asserted itself and she returns to the creed of her ancestors.

Mary Gwendoline Caldwell is the Admiral Bridge started matters with daughter of William Shakespeare Caldwell, who after being a theatrical man-ager in England, settled in Richmond, Va., and eventually made a large fortun in building gas houses in Chicago, St. Louis, Mobile and other cities. He man ried Miss Breckinnidge, a famous Ken-tucky beauty. Miss Caldwell and her sister, Lina, spent the summers at Newport, where they had a magnificent house, and usually passed part of the winte when they were not abroad, in New York. On the death of her father Miss well, assisted by Father Cooke

### Founded Catholic College.

At the time of her marriage Miss Caldwell was a very handsome woman, about 35 years old, and a devoted Roman Cath-olic. She had previously shown her de-"Vice Admiral" Carr was in charge of the trawler fleet at the time, and said he had been a naval reserve for seventeen Roman Catholic university in Washingyears and was accustomed to men of war ton. Some seven years previous to her and naval signaling. The only warship he had seen on the trip in question, besides the Russians, was the regular Brit- Naples. The engagement was broken be-

world as a sign that they came from a fishing fleet, but as they burst they light.

### WAR ON IN COLORADO. Armed Clash May Be the Result of Contest Over Election of Governor.

Denver, Colo., Nov. 16.-The tangle over the governorship has become so secious that business interests and the friends of peace are beginning to take

Gov. Peabody contends that a fair canvass of the vote will give him a majority. Alva Adams asserts that he has been fairly elected and that he will not yield. He declines, however, to outline his plans

in the event that Gov. Peabody decides Meanwhile all election wagers on governor are held up, and both sides insist their respective candidate has won. The "peace" talk, heard immediately after election, apparently has been forgotten, and ugly rumors are filling the air.

All the mining camps in the state are filling up with members of the Western Federation of Miners, and every one of Adams should ask them to. Gov. Peabody, on the other hand, has Sherman Bell and an excellently organ-

While the people of Colorado do not expect war, they cannot lose sight of its possibility if Peapody decides to hold on. The one strong feature of the situation is the generally recognized fact that Alva

### Adams is an ultra conservative. Waiting on Supreme Court.

In any event, all developments in the situation are delayed by the attitude of the supreme court. Before election the supreme court, which is composed of three judges, two of them friendly to Peabody, issued an order giving the Republicans the right to appoint representa-tives at certain polling places in the city and county of Denver to watch the canvass of the votes. The order enjoined all persons from interfering with the Repub-

Immediately after election the Republicans complained that their watchers had been interfered with, and asked citations Democratic workers for contempt. The supreme court thereupon ordered the arrest of Democrats so complained of. The number of election officials under arrest for contempt of court is nov

twenty-seven. Nine more were arraigned in the supreme court yesterday and released on \$1000 bonds each. Three additional watchers were appointed by the court yesterday to supervise the canvass of the election by the

## election commission.

Democrats Appeal to Court. Confronted by this situation, the Democrats attacked the supreme court's jurisdiction in the case, declaring that the court had no power or right to issue the ante-election order permitting Republican watchers at the polling places.

Senator Henry M. Teller and Attorneys Harvey Riddell and Samuel W. Buford, in the name of the Democratic party, appeared before the supreme court and challenged its jurisdiction to interfere in any way with the canvass of the votes cast at last Tuesday's elec-

Their contention was opposed in behalf of the Republicans by Attorneys J. M. Waldron, H. J. Hersey, and Thomas

The supreme court gave the Democratic attorneys until 10 o'clock this forenoon to prepare briefs sustaining their attack on its jurisdiction and their request, practically asking the supreme court to annul

### its own ante-election order. Await the Supreme Court.

Republicans and Democrats alike admit that should the supreme court decide that it itself had no jurisdiction to issue the ante-election order, all hope of the Peabody men will be gone, for present election laws, although affording means of contest, will scarcely permit the invalidation of the nominal 10,000 majority given to Adams. If, however, the supreme court sustains its ante-election order and declares its own jurisdiction over an investigation of the election returns there will be opportunity, the Republicans assert, to prove every fraud that was committed, and the supreme court itself will be the sole judge concerning whether

or not fraud has been proved.

Pending further orders of the court the canvass of the vote in this city will be

## FIGHTING UNDER GROUND.

Mikado Loses 1500 Men in the Latest Operations-Beleaguered City Holding Out.

Hendquarters Japanese Army Before Port Arthur, Nov. 4, via Fusan Nov. 14. -By a general attack on the eastern fortified ridge on October 30 the Japanese gained the moats of the principal forts assailed. These were wider, deeper and stronger than had been supposed and were defended by eaponieres, or galleries, running north of the Keekwan forts. The galleries were captured after desperate fighting under ground.

The Russians still held parts of the moats, but the Japanese began sapping to dislodge them.

The assault was unsuccessful, however. The powerful east Keekwan fort was gained, but the Eussians were reenforced and drove the Japanese down to the foot of the hill. The Japanese are now sapping toward the crest of the hill. The capture of this fort would give the Japanese the key to the eastern fortified range, as artillery mounted there would dominate the forts in front of the ridge try in a position to sweep the ridge.

The casualties on the Japanese side in this engagement were 1500.

## RUSSIA FEARS ENGLAND.

Thinks British May Try to Prevent Bal-

tic Fleet from Reaching East. St. Petersburg, Nov. 15.-The progress of the Russian second Pacific squadron, in which so much of Russia's hope is centered, is followed with intense interest. The cruiser Orel, the cruiser Jemtchug, seven torpedo boat destroyers and six transports are leaving Libau this week to join the squadron. In the public mind a deep-seated suspicion exists that if the squadron arrives close to its destination in an efficient condition, Great Britain will in some way find a pretext to block its further progress, and some of the newspapers refer to the necessity for mobilizing troops on the Indian frontier, where Russia now has two army corps, as a counter threat to guarantee the safe passage of the squadron. Unfortunately, the utterances of the press of both countries are constantly fanning the feeling of

### REVOLT CRUSHED.

Revolution in Brazil Lasts Only a Short Time as Government Acts Energetically.

Rio Janeiro, Nov. 15.—The students of the military school revolted yesterday evening and deposed the commandant, Con Castellant. This was followed by Gen. Costallent. This was followed by secret meetings, held at the Military club, at which Gens. Olympio, Silveira and Travassos were present. Gen. Travassos was appointed to succeed Gen. Costallent.

The whole school at about S. p. m. The whole school at about 8 p. m., under the command of Gen. Travassos, marched upon the town, but were met by a detachment of soldiers and military po-

horse shot under him. His adjutant was ning out from the abattoirs.

The cadets then fell back and occupied the hills in the neighborhood of the school building. At 2 a. m. the soldiers and police, supported by the war vessel, attacked the cadets position and at 5 a. m. the cadets, being without a leader, surrendered. They were all placed in prison.

An attacked was made by Mai Carpes An attempt was made by Maj. Gomes Castro and others to incite a revolt at the Realtango school of artillery, but this was unsuccessful.

The government is receiving much praise for the energetic measures taken to suppress the revolt.

Revolution Is Crushed.

Rio Janeiro, Nov. 15 .- The revolutionary movement has been crushed and or-der is completely restored. Senator Lauro Sodre and Deputy Barboza Lima, leaders of the movement, have fled. Other leaders have been arrested. Many Many persons have been killed or wounded.

Situation Critical.

Rio Janeiro, Brazil, Nov. 15.-The sitcenter of the city is quiet, the anti-vaccination disturbances continue in the President Alves has left his presidential residence. It is reported that there is a revolutionary movement on foot at the military school and among certain general officers. The government de-clares it is able to restore order.

## AVERTS A REVOLUTION.

Prompt Action by United States Charge d'Affaires in Panama Thwarts Plan to Kidnap Officials.

Panama, Nov. 15 .- [Special.]-Prompt action on the part of the American charge d'affaires, Mr. Lee, averted a rebellion on the part of the Panama army. Mr. Lee heard of a plan to kidnap President Amador and Secretary of War Guardia, and that Commander-in-Chief Huertas

was at the bottom of the plot.
Mr. Lee sent a firm note to Gen. Huertas, telling him that the United States gunboat Bennington would arrive in a few hours. The note had the desired effect and the plot was abandoned. The gunboats Bennington and Marble-head and the cruisers New York and Bos-

ton arrived yesterday. Washington, D. C., Nov. 15.—Advices have reached here concerning the reports from Panama of a conspiracy directed against the present government. While the details are not available, it is understood here that the conspiracy was di-rected against Amador and was conceived by persons who want to control the remainder of the \$10,000,000 paid by the United States to Panama in change for the right of way across the isthmus. It is further learned that the movement was a failure, Amador having been warned in advance, but it is feared that the same element will repeat the efforts.

## FORMING A TURKEY TRUST

Farmers Think They Are Entitled to Higher Prices for Thanksgiving Day Fowls.

Albany, N. Y., Nov. 15 .- Warren county farmers who raise great numbers of turkeys for the eastern markets, are reported to have formed a trust and unanimously decided that the Thanksgiving fowl is worth more money this year than heretofore. The present price is 23 cents, and a rise to 30 cents a pound is expected by next week. is expected by next week.

HOW QUACKS PERFORM "MIRACLES."

By T. P. O'Connor.

uccesses are trumpeted abroad by his grateful patients, while of his failures the world hears nothing, since no one likes to confess the silliness of having had recourse to a charlatan. Few events in history are so well attested as the niracles wrought upon the tombstone of Deacon Francois de Paris in the churchyard of St. Meuard, and yet they were derided by the Jesuits, because they were Jansenist miracles; by the Protestants, because they were Catholic miracles; by the doctors, because they were quackery; and by the scientific, because they were assumed to be supernatural. Yet medical men and men of science, Protestant, Catholic, and Jesuit, would one and all have admitted the evidence for some of the most startling of these miracles to be overwhelming if their creed, or calling, or training had not prejudiced them against all evidence. The tombstone not only cured neurotics but inspired the convulsionaires that stood or lay upon it with supernatural eloquence, or knowledge, or endurance.

Imagination is quite as effective to kill as to cure. Two physicians walking together in the outskirts of Edinburg stopped to experiment upon a laborer. The senior doctor thus addressed him: "My good man, you've no business to be at work, or to be out, or to be anywhere but in bed. Allow me to examine you." Having looked at his tongue, after vigorous treatment.

The accident occurred at a point where an immense pile of rocks threw the water into high surf, and it is possible that she lish Communication Again.

Allow me to examine you." Having looked at his tongue, felt his pulse, and sounded with a stethoscope his lungs, the doctor shook his head ominously and ordered the man to go home and to bed forthwith. The man who was in to go home and to bed forthwith. The man, who was in perfect health, went home and to bed-from which he never rose. He was dead within a week.

The fear of death is more to be dreaded than death itself," is one of the wise maxims of Publius Syrus; or, as become normal. After more than thirty- Isabella puts it, "the sense of death is most in apprehensix hours of steady work the repair crews sion." Only the other day George Meredith said that doesent out by the telegraph and telephone tors and parsons fostered an artificial fear of death; and companies when the serious nature of the storm was first realized had succeeded in Taylor. Here, too, imagination plays a great part, sometimes in hastening, and always in misrepresenting death.

### WHY SHOULD MAN FEAR DEATH.

By Dr. Andrew Wilson.

For the first time in history, we have a nation which combines the oriental disdain of death with chapter is reached.

dent-elect Charles W. Fairbanks arrived women who are still the backbone of every nation? Let quent multiplicity of microbes. any one test it who will in the wards of a great hospital. dalia and was met at Union station by Here least of all do you hear of the fear of death. Fear of from injurious agencies, but it is futile as concerns deep disablement, fear for wife or family left without bread pits and caverns. When decay has once started it is a winner, fear for the berth or the job which may be lost if mistake to neglect it. Decaying teeth, taken in time, may poured out, but fear of death never. The stoicism is mass- to their fellows is removed.

ive, and simple, and profoundly touching. Perhaps there is something bracing and sustaining in the atmosphere Quacks have two advantages over regular of the place, with its constant reminder that death and practitioners. In the first place, all the quack's pain are the common lot, to be borne with fortitude, that each may help the other at the last. It is a place, according to general testimony, of peace and happiness, and, in spite of pain and death, we feel the presence of the Giver of Life.

Many a man or woman who can face death stanchiy for themselves quail and turn coward at the thought of the death of others. The slaughter of affection-that is, or seems to be, the great tragedy, and if faith decays it may operate more powerfully than any fear that the individual entertains for himself. Faith alone can exorcise this terror. To think of death as of "passing from one room to another"-to think thus for oneself and for others, is to have

### WHY TEETH DECAY.

By R. B. Fuller, D. D. S. Nature made teeth perfect in the beginning,

nd no doubt they were intended to serve a full lifetime. Relatively few people have any idea how a tooth is developed. From the germ deep in the jaw a bit of enamel begins to form. If it is to be a grinding tooth from two to five bits begin to form separately, or one for every cone shaped prominence the completed tooth will have. The building up and broadening out of these cones is from the under side, and the completed part pushes towards the surface. Eventually these several parts come together, unite, and fill in the intervening spaces, forming

the top, or grinding, surface of the tooth. Now, the influences that cause decay of teeth are due to micro-organisms, or bacteria, and the mouth, much as we may abhor the idea, is a hotbed for their culture and development. They are there in endless variety; some good, some bad, and possibly some indifferent. The air we breathe is full of them, and some-the good ones, no doubt

-are essential to our health. If we comprehend the microbe we will understand that ne does not attack a tooth, singly or collectively, as a rat gnaws into wood, for they have no designs on the teeth. They, however, feed and thrive and multiply enormously on the films of food that will cling somewhere about the teeth despite our best care. In doing that they give out an acid that has a corrosive action upon tooth structure; and also a glutinous substance that covers and protests them a perfect mastery of the means which the West- to a certain extent against their enemies, or the saliva ern world has contrived for inflicting it on others. that might in the right condition render the acid inert. We see a whole people apaprently without a This glutinous patch, or plague, forms anywhere on a nervous system. A wounded Japanese soldier tooth, and especially in recesses and on surfaces not readily

waiting for an operation will calmly look on kept free by the action of tongue and lips and the use of while the patient who has the first turn is cut the teeth in masticating. If not dislodged by these means and carved. The death roll is received in Japan or by the brush, or if not rendered inert by other conditions with Spartan calm. Hitches, emergencies, reverses find of the mouth, corrosion of the tooth substance begins. officers and officials serenely imperturbable. It is magnifi- Once begun, films of food will attach themselves more cent, and also undeniably most formidable, as other nations readily. The pits and fissures referred to are exceedingly than Russia may possibly discover before the end of the favorable places for food accumulation, and next to them come the places where teeth are in contact with each other. ## YOUTH AND LOVE.

Youth and Love fell out one day, Said Youth to Love: "I'll go my way And leave you broken-hearted. I'll go through life without your aid; I'll gaze on neither man nor maid"-And foolishly they parted.

He hummed a tune in merry tone And never looked behind him; While Love, at home, was sad and sore, And longed for merry Youth once more. Alas! she could not find him!

But Youth had not been walking long Before he hushed his merry song-His heart was full of sorrow. He found it hard to stay away From Love, if only for a day-He came back on the morrow.

For Love and Youth apart would die Like flowers without dew or sky-They'd fade if they would sever! As long as there is tide and time In every land, in every clime, Youth and Love will be together.

-Philadelphia Times.

## \*\*\*\*\*\* Mary and the Hero.

\$\$\$\$\$**\$\$\$\$\$** ~~~~~

annual ball. Maurice Haworth, Washington, D. C., Nov. 15 .- Albert lieutenant in the United States army, to inspect the Huntville military school, looked the part and played it,

> If Lieutenant Haworth were the hero, Mary Morris was at least the been the most popular girl in the town.

She was sympathetic, jolly, intelligent, generous and very sure of herself, whether discussing the cost of the gown she was graduated in, the ten commandments or the conduct of love affairs, she gave definite, assured | quick, indrawn breath, "it wouldn't and unchangeable opinions.

Mary, coming to the ball rather late, was immediately surrounded by a clamoring group of very young cadets and very old bachelors, men who had gathered around generations of Huntville girls. From this masculine ambush, she

eyed the lieutenant making himself agreeable on the other side of the room. His appearance impressed her -in fact, impressed her very deeply, "Haworth wants to meet you," said her stout, unimaginative brother; "shall I bring him over?"

"Is he as good as he looks" ques-

"First rate," returned Jim. "I met him at the school, last night." Then piled;

ideal.' "

Under the influence of a moment's rash conviction, Mary whispered: meet him."

Even as she spoke the words she friends were married. wished them unsaid, for Jim's eyes twinkled wickedly.

However, when the lieutenant stood before her, tall, broad-shouldered, gain her self-ontrol. brown-eyed; when she found his bow, his smile, his voice exactly what they should be, she realized she had met a married man. By Mrs. Haworth I the man of her dreams and promptly meant my stepmother." forgot her rash confidence to her brother.

He begged for all the dances she had left. She hesitated, knowing that every girl in the room would count them and hate her. Then he looked into her eyes and she let him write his name four times.

"How you can dance!" he exclaimed, after their first turn. "It takes two to make poetry of

motion," she replied. "Why don't you and your brother come up to one of our balls? I alstager."

"Singularly well preserved for an antique!" she exclaimed with sparkling eyes. "I wish we could come." HERE was no question as to hero of the Huntville cadets' into the warm, clear night and strolled in silence through the dimly lighted grounds. When they reached the stationed at West Point and detailed | wall overlooking the river they stop- | ly, "what this has to do with me or ped by mutual, unspoken consent. "How beautiful the world is!"

breathed Mary, after a long minute. "Some one in a story I read some where wondered why it was that the would have been disloyalty to her. belle of the ball. She had always people you loved best to talk to, you But, being free, it is my right to say also loved best to be silent with."

true, too, isn't it?" "Why can't all life be like this?" questioned the lieutenant, "beautiful and harmonious."

"Because," replied Mary, with be good for us, I must go back. The boy is young enough to be hurt if I cut his dance."

When their last dance was over they sought a cozy corner in the hall. "It has been a perfect evening to me," he began; then with a curious change in his voice, he went on: "It's a fine little town. Next time I come I mean to bring Mrs. Haworth with me. She visited here once in her childhood."

His wife! Had he struck her she could not have felt more repulsed and humiliated. He had thought her a flirt and trifled with her deliberately. Staggering as the blow was to her self-esteem, she betrayed it only by a slight alteration in her voice as she re-

German acrobats are superseding the English in England. The reason of this is that Germany has a remarkable number of circuses-the best places for the training of acrobats. Only about one in ten of the boys who enter on the training is found physi-

In a case involving the management of an English insane asylum several former inmates were called as witnesses, and the king's counsel who called them remarked that they were as sane as any one in the court. The judge on the bench showed no enthusiasm at the announcement.

Sometimes buried landscapes exist in countries now densely inhabited. Recent investigation has shown that one lies beneath the region in England known as Charnwood forest. The rocky projections seen there are the peaks and aretes of a buried mountain chain belonging to the old red sandstone period.

The other day, just as the tide in the Thames was turning from ebb to flow and the fish were coming up the river again, a very heavy rain, following several days of drought, suddenly flushed the sewers of London, and the rush of foul water killed the fishes by the million, so that the dead bodies covered the banks for miles.

The telegraph line from Vienna to Czernowitz is the longest line in Europe which uses the duplex system. being 630 miles long. The system was adopted a few months ago, as it was found necessary to increase the capacity of the line, which takes all the matter for Roumania, southeastern Russia and a part of Bulgaria.

A dog eleven years old, fat, intelligent and affectionate, was seized for the first time with convulsions, without loss of consciousness, when sharply reprimanded by his master. After this the animal was taken with a simi lar attack whenever his master entered the house, the convulsion taking the place of his customary manifestation of joy.

Cretinism, which is one form of in the end boards as possible and the idiocy, is curable, according to Professor von Wagner of Vienna. He has treated fifty-two cases with thyroid gland and finds improvement in body and mind in all cases, even when the patients had passed the age of growth. All improved in their power of speech, and some of the children were made fit to attend school.

> From Jericho to the Dead sea, the Jordan and back to Jericho carriages pass when the mud is not too deep, although there is no made road. Carriages go from Yafa to Gaza, forty miles; from Yafa to Haifa, at the foot of Mount Carmel, sixty miles, and from Gaza across the desert to Beersheba, although no made roads exist. Beersheba is nearly two days' journey south of Hebron.

> The English promoter is getting ready for events in the land of the lama. In one day in London recently the following new companies were registered: Copper Mines of Tibet, Lassa Gold mines, Lassa Exploration company, Lead Mines of Tibet, Tibet Mining and Finance company, Tibet Mines and Minerals company, Tibet Exploration company, Tibet Corporation and Goldfields of Tibet.

> The projected electric railway between Berlin and Hamburg would cost 70,000,000 marks single track, and 150,000,000 marks double track. The distance is to be covered in an hour and fifty-five minutes. It is estimated that 650,000 passengers a year could be counted on, and a single track road would pay expenses if there were only 520,000. For a double track 850,000

would be required. Since a French engineer named Gamond planned a submarine tunnel in 1857 various projects have been advanced for connecting England with the continent. The latest is the suggestion of Bunau-Varilla, who wants to build a tunnel to within three kilometers of England and thence a bridge, which England, which has not favored a tunnel, could destroy at any time in case of danger of a foreign invasion,

thus rendering the tunnel useless. As to Winter Furs.

Mink is to be more used than ever the coming winter, and ermine will be used for trimming for muffs and evening wraps and for small pieces for the hot water, turn a plate or dish over neck. Fraternalism insures protection from actual destitution and want.

The Bankers' Fraternal Union of Cleveland and the Pathfinders of Akron have been merged under the name of the Pathfinders, with the Bankers' Fraternal Union officers in charge. The covered that the firm could get along joint membership is 20,000.

## HITS A TELLING BLOW

OFFICIAL FACTS AS TO WAGES AND COST OF LIVING.

Labor Commissioner Wright's Reports Show That, While Prices of Necessaries Have Advanced, Wages Have Increased In Greater Propor-

It is the boast of the Republican party that the success of its principles and its policies is registered in the welfare of the people and in the solidity and soundness of the government finances. Evidences of the success of Republican principles as embodied in economic laws placed upon the statute books by the party are everywhere to be agents. Local territory a few counties. found. Protection has brought pros- \$18 salary and expenses paid weekly. perity because it has quickened the Expense money advanced. Commission pulse of industry, given employment to extra. Permanent engagement. Busilabor and brought new life to indus- ness successful. Previous experience trial conditions, which under Demo- not essential. Enclose self addressed encratic policies had reached the lowest velope. Address, Superintendent Tra-Honor will celebrate the twenty-sev- stage of stagnation and decay during the period of failure and ruin which followed Democratic administration and laws from 1893 to 1897.

There were nine members lost in the The convincing proof that the protective policy re-established by the Republican party in the enactment of the Dingley tariff law has brought material betterment to the industries and labor of the country is manifest to every observing man. Increased production in all lines, better prices, more employment for labor at better wages sure attendants upon the prosperity order from Jan. 1 to July 1 show that which protection to the industries of the United States has brought to the country.

> Facts in support of this contention of the friends of the protective policy have been produced by the investigayears. This investigation was conduct- 1904. ed by the Hon. Carroll D. Wright, commissioner of labor in the United States department of commerce and labor. It is perfectly natural also that these nonpartisan scientifically deduced facts regarding wages and prices should be denounced by the free trade element of December, 1904. in the Democratic party and that from | 37 the campaign managers of that party there should at once go up shouts of derision and criticism of Colonel Wright's facts and figures. The free traders wince under the showing made for the cause of protection, and they exhibit the rage they feel and which causes them to rush in blindly with senseless criticism of these government statistics.

In the first place, let us look for a moment at just what the investigation by the labor bureau demonstrates and see if it is not squarely in accord with

the facts known of all men. expenditures in more than three thousand families widely scattered throughout the country for food alone. It is well known that amid the general rise good times and confidence accompanypolicy by the passage of the Dingley rapidly and higher than other prices. The government investigation showed cerned, but that the rise in food prices averaged 15.5 per cent-that is to say, they were approximately so much higher in 1903 compared with 1896. This covers more than twenty different articles of food. During the same time, as is shown by the investigation into the changes in wages, as illustrated by the cases of more than 176,000 wage earners in all protected industries, the rise in wages

they were ten years previously. Thus it is officially recorded that the sound economic principles recognized by all students of industrial conditions. better prices in a good and protected home market, increasing wages, shorter hours, more employment, greater distribution of money wages among the workers of the country-all these have been the features of the improved industrial conditions since 1897, when tection and confidence among the people, became a law and a blessing to

The Wright report hits the cause of ting apart 5 per cent of its receipts free trade a telling blow. It is a demonstration of the practical utility, soundness and efficiency of the protec-

Brains Not Needed.

Sir Conan Doyle once told a story of wounded in South Africa, and the military surgeon had to shave off that portion of his brain, which protruded from his skull. The officer got well, and Rhode Island reports a subordinate later on in London the surgeon asked membership of 6,128 and a Rebekah whether he knew that a portion of his membership of 2,697. The Rebekah brain was in a glass bottle in a laboralodges are agitating the question of tory. ## GOSSIP FOR THE LADIES.

Love's Fulfilling.

Oh, love is weak
Which counts the answers and the gains,
Weighs all the losses and the pains,
And eagerly each fond word drains
A joy to seek.

When love is strong
It never tarries to take heed,
Or know if its return exceed
Its gift; in its sweet haste no greed,
No strifes belong.

It hardly asks
If it be loved at all; to take
So barren seems, when it can make
Such bliss, for the beloved sake
Of bitter tasks.

Its costasy
Could find hard death so beauteous,
It sees through tears how Christ loved us,
And speaks, in saying, "I love thus."
No blasphemy.

If love is weak, so much we gain
If love is strong, God thinks no pain
Too sharp or lasting to ordain
To teach us this. -Helen Hunt Jackson.

For asking pardon when you have done wrong.—Rev. J. W. Neymen.

### What Shall They Do? Many girls, on returning home "for

good" after graduating from school or college, feel very restless and out of place. For years they have been accustomed to a very regular life filled with varied interests and to associating with others whose different views and standards had a broadening effect. To leave all this and return to be one of a house-hold, to take part in the domestic routine and to identify herself entirely with family and social interests, is not easy for any active-minded girl. Such a girl cannot, perhaps, realize what a disappointit may be to her father and mother to have her so out of touch with her home life. The parents have been looking forward to the time when she would be at home to stay and be the companion and helper. To find that she is at home only to be discontented and restractions of the companion of the companion of the companion of the companion and helper. less is a great trial and helps to justify those who decry the higher education of women. This restlessness very often takes the form of deciding the girl to "do Some will attend classes and do post-graduate work at home. Some will take some of the many branches of charitable work. Others again, to whom neither of these lines appeals, will take up some form of paid work—teaching, stenography or clerical work of some kind. It is to this latter class that the writer wishes to talk. She would like to ask them to stop and consider very varefully what they are doing. Do they realize that every girl who lives at home and has all she needs, when she enters the field of paid labor makes thus more difficult the path of the girl who must not only earn her bread and butter, but who perhaps helps others? The girl of well-to-do parents can afford to take low wages, for she works partly for occupation and interest, and partly for extra money for dress and amusements. She thus lowers the scale of wages paid, be-sides taking a place which may be sorely needed by someone else. If girls for-tunately placed feel they must teach, for instance, by all means let them gratify their inclinations, but let them do it as a "labor of love." If they do not care to do volunteer work in any of the great charitable schools or settlement houses, let them look about and see if they can-not find a school in which the teacher much needs an assistant she cannot afford to pay. One girl (a college graduate), looking for employment, took the work during afternoons off of three assistants in a busy public library, thus en abling each girl to have one afternoon a week instead of one in a fortnight, had been the case previously.—Harper's

## Don'ts for Shoppers.

Do stop at home long enough to eat a nutritious breakfast. Chasing bargain sales on an empty stomach is the surest way of landing finally in the sick room of a department store. The physician and the nurse who preside over the emergency room in a department store state that ninety-nine cases out of a hundred which come under their care can be Dispatch. traced directly to shopping on an empty stomach. Sick headaches, nausea and many trifling ailments which make the day of shopping a period of torture can all be traced to the same cause.

Dispatch.

Counting the Cost.

It was a lovely beautiful head and

ment under the combined influence of excitement, exertion and the polluted air incidental to a shopping excursion. All the modern stores are equipped with soda he modern stores are
water fountains or lunch counters, water foundains or lunch counters, water foundains or lunch counters, water for a song, and when a woman begins to feel a sense of "goneness" at the pit of her stomach it will pay her to stop for a hot, nourishing drink. She will go back to her task strengthened and refreshed. It was about as much as she could manage, that suit case. It taxed her frail frame, and her face went white as she set it down and shifted it to the other hand. "Hack, Miss?" "Carriage? Carriage?"

"Carry your bag, lady?"

A dozen voices swarmed around her.

wearing Louis Quinze shoes. The sole of the foot is a nerve center, and nothing

will react more quickly on nerves and temper than pain in the feet.

Don't tell a clerk you will come back after your package and change, and then hurry away in search of another bargain, Unless you are an exceptional woman, you will forget one of these return trips before the day is over.

Don't ask for samples on Saturday or during the busiest hours of the day. If during the busiest hours of the day.
samples you must have, try to collect them before 10 or 10:30 a. m. By so doplain, without any engraving?"

"Three dollars ded opened by the during the busiest hours of the day." ing you will get better attention from the clerks, because they are not missing sales as they will be later in the day. Many of the more exclusive shops confine the giving out of samples to the early morning

Do have a little patience with the If you are a quick-witted, welleducated woman, trained to move and act quickly, just bear in mind that the girl who draws \$6 a week does not possess a \$60 mentality; if she did she would not be standing behind a counter.

Do plan your shopping as systematically as you can. If you are going downtown to match a dress with ribbons, gloves or a hat, attend to these things first, while your energies and perceptions are fresh and keen. A woman can dally around a department store until her head aches, her nerves are stretched to the breaking point, and she is almost color blind from exhauston. She is in

color blind from exhaustion. She is in no shape then to match colors or patterns, and she blames it all on the clerk. Don't take children shopping with you if you can possibly avoid putting this tax upon their young shoulders. Bargain hunting is not a juvenile pastime. But if you cannot leave the child at home, ascertain where there is a nursery leave they can be the children in the store.

or playroom for children in the store.

Don't ask a clerk whether she thinks you should wear this or that color. Nine chances out of ten she has not even lcoked at you, and she will sell you a garment or a fabric which she is most anxious to dispose of. The tenth clerk is conscientious enough to make a study of the harmony of dress, but she does not remain a clerk long, and within a short time she becomes the head of a de-partment.—Kansas City Star.

### Why Do Women Gossip?

The feminine retort to the question, Why do women love to gossip? would probably be: "The men are as bad as the women." This may be true in some instances, but it does not answer the query. It is likely enough that the majority of ladies might readily admit a fondness for gossip, but they might not be quite so ready with a reason for that fondness.

Yet if they took notice and analyzed their feelings a little a variety of reasons might easily be discovered which would our relatives, but we choose the control of the co amply explain a liking for gossip.

Probably women gossip chiefly because of their intense curiosity on domestic, social and kindred topics. A woman's interest is in the home and a good wife never fails to realize this. She does not care a pin for politics, but she will chat about domestic joys and troubles by the about domestic joys and troubles by the hour. Women like to gossip because they like

news. Especially local news. A wom-an's favorite paper is usually the local paper. But there is plenty of news which is never printed and which is only circulated privately—by gossip.

Local dances, engagements, weddings, christenings, funerals and bankruptcies generally receive full discussion. Then there is the approximate cost of Mrs. Brown's new costume, Mrs. Jones' new bonnet and Mrs. Smith's new suite of furniture to be debated and considered.

The secret of the charm which gossip holds for many women lies, of course, in the almost universal craving for social intercourse. Friendship and social intimacy are the chief things which make life worth living. Women, perhaps, do not really grasp this any more than men, but they act as though they did. Men are generally more reserved than

women. The ladies are less cautious than the opposite sex. They like to have plenty of friends, and to converse with them often. They can also, apparently love their enemies with greater ease and skill than mere men.

The liking which some women exhibit for gossip is vague enough. In other instances it is more solid and methodical. Gossip is merely a charming pastime with some folk. With others it is a deliberate, profitable, yet withal pleasant

The wife of a certain successful private detective is said by her husband to be of great assistance to him in his work. The neighborhood in which he lives is almost wholly ignorant of his profession, though it is chiefly practiced in the district. His wife is an inveterate but cute gos-

In conversation she knows how to relate a considerable amount of unimportant matter, while receiving valuable secrets in exchange. These secrets are speedily imparted to her husband, who often finds them handy in his detective work. Those for which he has no imwork. mediate use are recorded in books kent for the purpose in case they may happen to be useful at any future time.

A more worthy kind of gossip is that

indulged in almost daily by the wife of a popular clergyman in a poor city par-ish. This lady, like hundreds more in similar positions of life, finds pleasure for herself in giving joy to her poor parishioners by chatting with them at every

opportunity. She does not preach at them in season and out of season, but has a light conversation about everyday matters, with which they are fully acquainted, and in which they are deeply interested. Her husband declares that it is her cheerful influence which mainly helps him to fill

his church. Of course, there is gossip and gossip.

No one would commend a mere tattler or malicious tale-bearer. Much mischief is sometimes caused by idle prating. But pubuuood of youn seu disson juopud it. In many cases it is healthful and educative. Some girls and matrons know

Thousands of persons have derived the greater part of their education from gos-sip. Silence is not always a sign of wis-It may be profitable to listen to a gossip, and it may be a good practice to do a little gossiping one's self.—Columbus

day of shopping a period of torture can all be traced to the same cause.

Neither should breakfast be swallowed too hastily, because an unmasticated, undigested mass in the stomach will ferment under the combined influence of excitament exertion and the polluted air. tle dark room." He looked at it longing-ly; he fumbled in his ragged pocket and

fished up a 5-cent piece.

### If There Is Love in

It is an old saying that we are given our relatives, but we choose our friends.
"I have found brothers and sisters,
mother and father outside my family," said a dear little woman to me the other

And so it is with many of us.

How often there exists between blood elations an indescribable barrier, a frigid, impassable something which is without name and beyond description, a ine over which you fear to cross. Among riends you may discover one of whom your heart goes out directly in sympathy, who understands your tastes and your particular kind of humor, who sert of peeks into your soul and—understands.

age atmospheric conditions, a larg telescope gives up a view of the moor as it would be without the telescope at a distance of 800 miles from us. Then the relative who never permits on to creep near his or her heart com-

ou will turn. What is the strange chill that keeps you aloof? You cannot say, you do not know; it is something undefinable, beyond the powers of understanding. Sometimes the powers of understanding. Sometimes that suppose that in some a supply of this strangemental and spiritual estrangement exists between parent and child. It things necessary for sustaining life. If weirdly unnatural and scarcely believ-

It may be caused by withholding little

messages, would have brought home such tender answers that the toilsome journey would have been made an excursion of joy and happiness instead of a tortuous plodding under gray clouds and a mist of tears.—Philadelphia Inquirer.

## Putting Away Worry.

We hear much in these days of the need of taking life more restfully, of keeping a quiet spirit and avoiding the wear and strain of worry. Such injunctions are wise and by no means to be put aside as valueless, but it would be well for most of us to consider also how much needless worry we may take from other lives.

Do you ever think of the burden of care and anxiety that wears upon human looks rather worn?" the delays, neglects, and small careless nesses of those who would never be wilfully unkind? In the aggregate it is something awful—the waiting, the heartache, the hours of sickening dread that a gobe, the hours of sickening dread that a might prevent. The out of here."—Cleveland Plain Dealer. hearts every day-this day-because and in the interests of returning health he postpones for a day or two the letter that should relieve those at home. Two such days for anxious love to live through! We have succeeded in the mission undertaken for a friend, and he will glad and thankful when we let him know-on the morrow. One more night he bears a burden of uncertainty and doubt the weight of which we cannot up derstand. The request quickly granted, the prompt reply, the doing at once what the hand finds to do even in matters that may seem trivial to us may mean much at the other end of the line. By all means let us put uscless worry out of our own lives, but let us take care that no neglect of ours puts it into the life of a neighbor.-Forward.

## Too Much Manners.

"Politeness should be tempered with discretion, otherwise it is apt to be a bore," remarked an older woman, com-menting on what was considered good manners among young people. "Too much manners is almost as bad as no manners at all," she continued. "That is manners at all," she continued. "That is to say, it is even more annoying. For instance, if I go into a room where several friends of my daughter are sitting chatting, I think it is but right and proper that they should rise to their feet as I come in, and give me greeting, but that is enough. To have them bob up every time I leave my chair irritates me. I like to move about as I like, with-out feeling that I am stopping the conversation and interfering with their pleasure. Treating a middle aged woman with too much solicitude is also, I consider, untactful. It emphasizes her age. I do not like to have my places found for me in the hymn book, or to be helped carefully into a carriage. Attention to an older woman must be un-obtrusive to be agreeable."

There is a tendency nowadays to over-lo polite observances with girls who

do polite observances with girls who pride themselves upon their good manners, which, if they only could realize it, do not please, for the reason that they are too effusive.

"How about Violet W.?" queried a young woman who, with her mother, was making up a list for a house party.

"Oh, pray, do not ask that girl," exclaimed the latter. "She bores me to death She is always following me about.

The rays come death. She is always following me about to wait upon me, as if I were an old, feeble woman, that had to be tenderly taken care of. I almost prefer that rough, boyish Miss C—, who has no manners at all!"—New York Tribune.

One morning, late in October, Miss

### A Question of Taste.

Up a certain crooked city street, through which I often pass,
There's a narrow little window, set with tiny panes of glass,
Where it seems to me the moments must in sweetness slip away,
For a little candy-maker, stands at work.

in sweetness slip away.

For a little candy-maker stands at work there every day.

He wears a cap and apron which are picturesquely French:
There are snowy flour and sugar scattered all about his bench:
In fact, I almost fancy, seeing things so spick-and-span,
That this little candy-maker is a little candy man?

There are snown flour and sugar scattered will be this curious difference: It will not rise and set, but will remain nearly stationary in the same region of the sky. From the side of the moon which is always turned away from us the earth, of course, can never be seen at all.—St. Nicholas.

Consider what a diet he could easny arrange:
On solid things like taffy-balls, for instance, he could dine:
For luncheon, candied violets—so delicate and fine!
And on leaving in the evening, when the honeyed day had fled,
He could take a box of creams to eat before he went to bed!
I wonder, now, what you and I would like if we were French
And molded candies all the day behind a sugared bench?
—H. A. Crowell in St. Nicholas.

The two ladies who lived in the Brown House used to watch him from the windows, and were never tired of saying how cunning he was, and how glad they were to have him get the butternuts. He must have a snug little nest in some tree near by—he would carry off a nut and be back again so quickly. But, though they watched carefully, they never could discover where the nest was, and by and by they gave up watching and forgot all about him.

### A Trip to the Moon.

How would you like to take a trip to the moon? It would be a long journey, taking more than six months if you went with the speed of an express train; or if you traveled with the swiftness of a ball from a modern cannon, it would take about as long as a trip across the Atlantic in a fast steamer. Under aver-

tance of 800 miles from us.

The necessary outfit for the journey must be much more extensive than for plains that you have greater trust and in-erest in your friends than you have in your own family. There are individuals who keep you at warm clothing and food you must carry warm's length. They would die for you, suffer for you, care for you, fight for you and protect you, but when you want to lay your tired head on somebody's shoulder and sob out your foolish little growneys he are the is not the work of the warm clothing and food you must carry with you all you need to drink, and the problem of keeping it from freezing or thawing it out if frozen will not be an easy one to solve. There is practically no air on the moon, and you must take easy one to solve. There is practically no air on the moon, and you must take sorrows he or she is not the one to whom you will turn. you must take, in addition to fuel, an additional supply of air to keep your fire

But suppose that in some way you are ou are on a part of the moon on which the sun is shining you will marvel, per haps, first of all at the dazzling bril-It may be caused by withholding little evidences of affection, in restraining the sweet, absurd nothings that are so endearing that take up such a tiny bit of time and which keep us all smiling, even on the dullest and dreariest day.

It was not intended that affection should be bottled up like preserves, for how can we tell if it exists unless we are convinced by pressure of the band as a sense of desolation will

how can we tell if it exists unless we are convinced by pressure of the hand, an embrace, a fond look?

Surely there are many in this world who, coming to the last lap of the race, must regret that they buckled up inside their hearts all the sweetness that, given freedom and sent out like birds that bear not quite as level as our western prairies and great numbers of mountains, most of them much steeper than those on the earth; they are not grouped in long ranges, as our terrestrial mountains gen erally are, but are scattered all over the surface, singly and in irregular groups. Most of them are shaped more or less like our terrestrial volcanoes, and they probably were volcances ages ago, before the moon cooled off.

If you happen to land on a part of the

Mrs. Smart-Because Mrs. Jones always returns with a good deal more expensive kind, and Mrs. Brown's coffee isn't any better than ours.-Detroit Free

### CHINESE FOR MEXICO.

### Government Shows a Disposition to Encourage Immigration of Celestials.

The Mexican government has of late years shown a disposition to encourage Chinese immigration to the republic, making a concession, among other things, to a Chinese steamship line to engage in the transportation of Mongolian laborers to its western ports. Now the Chinese minister, at a reception to his countrymen in the City of Mexico, is reported to have given the extraordinary advice to them to cut off their queues, sever their home ties, become citizens of Mexico and thereapply identify themselved. thoroughly identify themselves with their

adopted country.

This is a wide departure from the past policy of the Chinese, for not only has it been the purpose of every Chinese emigrating from the shores of Asia to return to his native land, whether alive or dead, but he has regarded the preservation of his queue as a matter of the first importance. If the Chinese minister to Mexico was sincere in his advice, and it is followed by these of his mediate. is followed by those of his race who are now in that country, they will not only expatriate themselves, but will also part with one of their most distinctive and sacredly cherished adornments.

So far as Mexico is concerned, it will be her misfortune to have the Chinese minister's advice adopted by his countrymen. That part of it relating to marrying Mexican women will probably be eagerly followed, in which event the Mexicans will in later years have good cause to rue the day when they encouraged the velley ment to the probable of the probable One morning, late in October, Miss Anne came to breakfast rather late and cross, saying to her sister. "Sally, I believe this house is full of rats! There was such a racket last night I hardly slept a wink!"

Miss Sally had slept seundly, and she laughed at the idea. Pat? There had never been rats in that house. It was just "Anne's nonsense."

Miss Anne's nonsense." aged the yellow man to settle among them. Whenever the Chinese in other them. countries have intermarried in large numbers with an alien race the halfbreed progeny has invariably developed into an aggressive and dangerous element in the body politic, driving the original inhabitants out of the seaboard's indus-Miss Anne still insisted, and was awakened almost every night by the noise. "The rats in the barn have moved tries and monopolizing the country's trade to the disadvantage of the original inhabitants, as they did in the Philipinto the house for the winter," she said. So the rat trap was brought from the So the rat trap was brought from the barn, baited with cheese, and placed close to a hole in the underpinning, which looked as if it might be a rat hole. There there, like those who have entered this it stayed till the trap grew rusty and the cheese moldy, but no rat was caught. country, have wives and children at home. The Mexican relationship will, One day Miss Sally brought home a bag of peanut candy—"peanut brittle," she called it; and to keep it cool overnight therefore, be merely a form of concubinage, which the Chinese will abandon, and the progeny born of it, whenever it suits his whim or his purpose to return to his own country. Possibly the Mexican govshe put it in the workshop, where were kept the hammers and nails, the woodbox, and garden tools. This shop opened into Miss Anne's studio, and had an outernment may intervene against the formation of these mixed alliances to prede door near the butternut tree. The candy was forgotten until the next vent the evils which they produce and the possible burden which the results may afternoon, when Miss Anne went to get a piece. kees of the past.
"They were represented," he said, "as a thick board over the hole, pounded in enough wire nails to keep out a regiment lean, sallow, stoop-shouldered, hollow-chested fellows, carelessly dressed, with wisps of haycolored whiskers on their chins. In character they were considered nut dropped at their feet, and Miss Sally, in a flash, exclaimed, "Anne, do you think it could be that squirrel?—the nuts in the candy, you know?"

But Miss Anne thought not. "The foreign humorists.

"One—and this of their than the stories of their than the roun foreign humorists." tricky and sly, and innumerable were the stories of their trickiness and slyness that went the rounds of the native and

"One-and this one really had, I benoises in the attic-that could not be a lieve, some truth kee peddler. He was in a western town during a water famine. Water was so scarce that it actually sold for 25 cents a glass. The Yankee, by some means or other, got hold of a lot of sweet cider, Couldn't he? That same afternoon as Miss Anne crossed the yard, she saw the squirrel, with a nut in his mouth, spring from the fence to the low shed roof, then and, putting up a tent, he began to dis-pense the drink at 20 cents a glass—just to the house roof and suddenly vanish under the eaves. And, looking with all her eyes, she spied a small round hole. cents less than the market price of the

"Business went well with him at first. Then it fell off unaccountably. Where his tent had been crowded before, now hardly one patron an hour straggled in. He sat whittling and musing—he could not account for the slump in trade—when a young miner entered and exclaimed, on

hearing the price of cider:
"Twenty cents a glass? Why, I can
get just as good cider as that for a

"'No, you can't,' said the Yankee.
'There isn't a pint of cider in town outside of my stock.'
"'Why. I know better,' the miner insisted. 'I just had a glass of cider for a nickel.'

"Where did you get it?"

"'Where did you get h.
"'Right around here.'
"'Will you show me the place?'
"'Sure. It's only just behind yours.'
"And only just behind, sure enough, another cider emporium was in full blast. A second Yankee had put up an awning similar to the first one; he had tapped the rear end of the first's cider barrel through a board, and all the morning he had been selling the cider at 5 cents a glass to a frantic rush of customers."—Philadelphia Bulletin.

## Arab Butter Making.

Among the Arabs an interesting department of woman's duty is dairy work. This, like all other operations, is carried out on an old-fashioned and patriarchal plan. To make butter, for instance, a small sheepskin is filled with milk and tied to a ring on the wall. The woman then sits flat on the floor and rocks it to and fro till little bails of butter begin to form within. These grow larger and larger and accumulate and are brought out as one big lump. The remaining milk is then boiled on the fire with bits of meat. The male members of the family now come together; a large dish of cooked rice is placed before them and the boiled milk poured over it. Then, making balls of the mixture with their hands, each member quickly swallows his share and rises to wash his hands. This done, the girls and mother sit down and eat what the men pleased to leave.—Waverly Magazine.

STUDYING TOPOGRAPHY. experiment and training. During the years when Japan was preparing for 1888.-Washington Star. the final adjustment of her differences with Russia it was the chief work of her military experts to familiarize the army with every situation which was likely to arise. Both officers and soldiery were put to the diligent study of geography—a single map with all the world save eastern Asia blotted -Paul Dendon, 45 years old, was out. Upon this map were distinctly traced the features of the coming battlefield. No stream was too insignificant to find a place on it, no hamlet too remote to be brought clearly into view. All sorts of natural obstacles were indicated, and fordable streams and navigable waters were marked as such. This was by no means all. A far more ingenious and laborious scheme was devised for the purpose of making Korea and Manchuria as well known to the Japanese soldier as were the charming valleys of his native land. Sections of the Asian continent held by Russia were reproduced in topographical minuteness, and maneuvers were executed upon these supposititious centers of activity. Thus the entire surface of the country which was to be invaded was made

the battle.

year has brought about a radical switch-board, burned out the under transfer of sympathy. All the romance load coil for the I. T. E. circuit-breakand poetry which from time imme- er and relay coll, thereby stopping the morial have been their heritage have running of the elevator until the relay

coil was rewound. On the morning of Wednesday, is best exemplified by the constant dynamo-room in the power-house,

Lightning arresters were at once placed in the motor-room at the monument to protect the switchboard and machinery there, and to protect the machinery in the pit, and on the bottom floor of the shaft a one-half inch copper cable was connected with the bottom of one of the iron columns in the drum pit and grounded to the water pipe in the motor-room. To protect the switchboard of the generating plant in the power-house a No. 6 copper wire was grounded to the water pipe in the lower engine-room, and when the plant is not in operation the wire is connected with the

switchboard. During the year 163,834 persons visited the top of the monument, of which number 133,061 ascended in the wise prevision is not the offspring of elevator and 30,773 by the stairway. sudden imperative need as it arises, making a total of 2,442,806 persons but is the result of long and exhautive who have visited the top since the shaft was opened to the public Oct. 9,

A THREAT AND A PROMISE.

"Sary," said the bashful youth at the corn husking, "if I find a red ear I'm a-going to steal a kiss."

"Hezekiah," responded the candid Sarah, "if you steal a kiss you'll have two red ears."-Chicago Tribune.

Don't handle the very tough men familiar to the men who were to fight with gloves. Some people have found revolvers preferable.

### Doesn't Like New York.

Ď0000000000000000000000

"Washington may not be paradise, but I'll take it for mine, especially after some weeks of existence in New York," remarked that widely liked gentleman, T. becoming covered with crabs, seaweed.

A. Wickersham of the district at the conch spawn, sea biscuit, sea hogs and New Willard.

"I learned while over in Manhattan this trip that the denizens of that island are spending with each recurring year less of their time in the city. They go away earlier in the summer, come back later in the fall. I don't blame them. The wonder to me is that they come back at all; probably they wouldn't except that they need the money. Years ago some actor man thought he was getting off a fine sentence when he sang out, 'When you leave New York you are camping out.' I'd substitute for that piece of alleged wit by saying when you leave New York you are getting back to comfort and civilization.

comfort and civilization.

"When you leave New York you are glad to leave behind a town where they bring you in a bill for a \$10 a day room at your hotel, although the clerk told you it would be only \$4. You leave behind a place where the daily tips to hotel bandits, called waiters for courtesy, about equal living expenses elsewhere; you go without regret, nay, with a feeling of gladness and exultation, back to where there may be less riches and splendor and style, but more of good feeling and happy style, but more of good feeling and happy fellowship among men, and where all the money you make in a year is not confiscated in a day."—Washington Post.

# THE PILLS THAT CURE RHEUMATISM

Mrs. Henry Story, of No. 532 Muskingdum Ave., Zanesville, Ohio, says: "My husband suffered from rheumatism so that he could hardly stand. His back hurt and he had such pain in his left arm that he could not rest night or day. The doctor did him no good and it was not until he tried Dr. Williams' Pink Pills that he was helped. Six boxes cured him completely and he has not had an ache or a pain since. We think the pills are the best medicine in the world."

An' a lookin' very gay.
We's standin' roun' an' waitin'
Till he comes along dis way.
De violet's stopped its bloomin'
An' de rose don't vegetate,
But we isn' gwine to miss 'em
While we's got de candidate.

De quail is in de thicket, De quall is in de thicket,
An' de oysters in de bay,
An' de fruit is gettin' sweeter
On de trees f'um day to day,
De autumn's mighty welcome,
An' right here I wants to state,
Dat of all its many blessin's,
None can beat de candidate.
—Washington Star.

A FLOOD OF CRABS.

Singular Occurrence at the Mouth of the Chesapeake.

"Soft shell crabs are as commonplace to the tide water Virginian as are baked beans to the Bostonian, while the hard shell may be got at any time in Chesapeake bay by means of a string with a piece of meat dropped overboard and a scoop net to land the creature," says Alice R. Corbin in What-to-Eat. "But of the most remarkable is an extravagance of the Alastic that course so the natives." the Atlantic that occurs, so the natives say, about three times a winter down at Cape Henry at the mouth of the Chesapeake. The icy condition of the water outs the crabs into a partially frozen and numbed condition, and if the wind takes a certain direction, there are sure to be miles and miles of beach covered with masses of fat blue bodies and sprawling mbecile pink legs that stretch up helplessly into the air. The first crabs coming in on the crest of a big wave excite little curiosity. Then the number steadily increases, the 100-yard beach at last the giant king crab, with a top like the bowl of a mandolin and a long, thin tail like a rat's sticking out behind. Finally the waves themselves are no longer vaves of water, but literally waves of

"Then the little settlement of government employes and the stray wood hermits and the darkies from 'back in the desert' get to work. They hitch up their broad two-wheeled beach carts and work from morning till night gathering in the crabs, taking them to the station seven niles away (where they are shipped to he markets or to canning factories) and

en coming back for more.
"At nightfall the lighthouse keepers, weather bureau and the signal men the lifesavers have gone home, but he darkies up toward Lynn Haven bay are still at work. Those that have no arts content themselves with burlap ags thrown over the shoulder, and many of them bring pitchforks to help disentangle the great masses of seaweed. You an see their dark, grotesque or pathetic aces plainly in the light of their lanerns, and here, with their carts about hem on a narrow strip of beach between he howling ocean that is flinging its oam about them and the darker land of the woods behind, you have a picture that is worthy of, if not surpassing, the

thand of a Dupre or a Breton. Through t all runs the wild strain of their fantas-tic melodies, mingling in with the roar of he surf and the cry of the night birds in he woods behind.

"Finally, the deluge of crabs, lasting ften for two or three days, millions of

eagulls—gulls that measure three feet rom tip to tip—swarm down upon the oast; the sullen buzzard, with its savage eak, tears through the crabs' breastlate for the tender meat; and the hogs hat run wild about the huts of the inanders make an end to this mammoth appearal of the ocean which feeds so any."-New York Tribune.

### THE JAPANESE FARMER'S WIFE. If the Man's Lot Is Hard, Hers Is Still Harder.

If the lot of a Japanese farmer be ard, that of his wife is infinitely harder. She not only does an equal amount of bor in the field, but the care of the ousehold and the responsibility of the tildren also rest upon her shoulders. From earliest infancy, a Japanese girl staught to be obedient to her parents and when she is about to be married her nother gives her thirteen rules by which o steer her bark on the rugged sea of apanese married life. Among them are the following: "Be always kind to e following: "Be always kind to your other-in-law and sisters-in-law." "Get

and sisters-in-law." "Get on the carry, stay up late at nght and do not take a nap in the day time." "Be a good housekeeper, be economical in everything." It is well for the happiness of the girl who is about to become a farmer's wife that the last two commandments have been so instilled that she is prepared to regulate her life by them.

The first to rise she is given to be the The first to rise, she is sure to be the last to retire, and when the male members of the family may be seen stretched on the floor, taking their siesta, the patient housewife may be seen mending some garment or else laboring in the field. It is scarcely necessary, however, to train her to be economical for that is compulsiony.

Before the farmer has awakened from heavy sleep his little wife creeps from der the mosquito net, and performing hasty toilet, prepares the morning meal. en the other members of the famil-se, the beds, which are heavy quilt aced on the floor, are carefully rolled up the busy housewife and placed in the set, there to remain until again re-

As there is so little furniture used in ; peasant one would naturally think that et domestic duties would be very light.

with the would be very light, with however, is not the case.

When the bedding has been removed, he meal is then served in the same room. If the members of the family squat on he floor. The millet or rice, which is the rineipal and oftentimes only article of iet, is brought in in a wooden bucket and first and oftentimes waits until the and first and oftentimes waits until the hole family has finished before she par-tices of the food herself.

When the husband has gone to the dd, the wife removes the dishes and ashes them, together with any pots that ay have been used, at the neighboring ell or in the stream that flows just outle her cettage door. well or in the stream that flows just outside her cettage door. These canals or streams are a great labor-saving institution in Japan and are used for many and varied purposes. The farmer, tired and dirty after his day's work, refreshes and cleanses himself by a plunge into the running water. As one travels through the country at one point one may see a woman doing the family washing in the stream. Farther down the road the tired, travel-stained pilgrim may be seen refreshing his weary feet by laving them in the same water. At other points travelers slake their thirst, dusky urchins disport themselves and the overworked wife cleanses her dishes in it!—Ada L. A. Murcutt in the Pilgrim.

## Concerning Soups.

Miss Ruth Hollister's lecture on soups and soupmaking, given Saturday afterand soupmaking, given Saturday afternoon, was the most interesting of her
series at the pure food show in Tomlinson hall. "Many people wonder," said
Miss Hollister, "why we begin a heavy
dinner with soup. It is because the
stomach is tired and needs a mild stimulant before being taxed. We find in soup,
especially in clear soup, a tonic rather
than a nutrient. This is the reason clear
soups are served for heavy dinners and

stock and those without. Stock is the extract from meats; beef extract acts as a stimulant, bringing the digestive juices into play. In it we get only the flavor and the coloring of the beef, but no nutrient. A dog fed only on beef extract died of starvation. It is used in sickness as a conserver of energy, to keep up the vital forces until nature can repair the weeklesses. weaknesses. Poullon is the clear soup made from beef extract, delicately seasoned. Brown soup is made from stock which is two-thirds lean beef and one-third fat and bone. In the bone we find the gelatine and mineral matter. The best cut for stock is the midway cut of the shank, in which is found the round bone with the marrow. Brown soups are made of this stock clarified and seasoned with vegetables and herbs. White soups are made from stock of fish or chicken. Consomme is made from two or three meats and is clear. Mutton soup or broth is invaluable for invalids in convales-cence, especially in fever cases, through its sustaining qualities. The soups with-out stocks are the creams, bisque, and purce. The last-named is seasoned with vegetables or fish and pressed brough the puree sieve, with tissues of the vege-tables left in the soup. I isque is made with shellfish or vegetables, with bits of the fish or dice of the vegetable left in."—Indianapolis News.

### PIN PRICK MADE HIM VICTOR.

How Lord Nelson Accidentally Came to Know Whereabouts of the French.

According to "Stray Stories," Nelson gained his great victory of the Nile through a pin prick. It came about in this way: Sir John Acton, then com-mander-in-chief of the land and sea forces of Naples, happened to be in his wife's dressing room at the moment she was preparing for dinner.

Lady Acton's French maid was also the room, and was so startled at receiving a letter from her brother, a sailor in the French navy, whom she believed to be dead, that she ran a pin into her mistress' flesh.

Apologizing for her carelessness, the maid stated the cause of her surprise. With carefully suppressed eagerness Sir John offered to read the letter while the maid continued her duties. The maid ladly consented.

Having read the letter, the command-

raving read the letter, the command-er-in-chief left the house in search of Lord Nelson, who had in vain been seek-ing the French fleet. He found him and imparted to him the contents of the let-It gave all the information the admiral had so long endeavored to obtain.

Setting sail immediately, Nelson came up with the French, and the victory of the Nile was the result.

A well-known Milwaukee merchant has dopted a new and clever method of ridding his store of long-faced friends who come to tell him tales of woe. When dropping mouthed friend starts to unfold a statement of troubles the merchant reaches into his desk and brings out a typewritten paper and presents it to the sour-faced individual. The merchant says he has heard no tales of woe since he adopted the system. His typewritten advice is as follows:

CHEER UP. The world is taking your photograph.
Look pleasant. Of course you have your troubles, troubles you cannot tell the policeman. A whole lots of things bother you. Of course. Business worries or domestic sorrows, it may be, or what not. You find life a rugged road whose stones hurt your feet. Nevertheless—

# CHEER UP. It may be your real disease is selfishnessingrowing selfishness. Your life is too selfcentered. You imagine your tribulations are worse than others bear. You feel sorry for yourself—the meanest sort of pity. It is a pathetic illusion. Rid yourself of that, and

CHEER UP. What right have you to carry a picture about among your fellows who have troubles of their own? If you must whine or sulk or scowl, take a car and go to the woods or to the unfrequented lanes.

CHEER UP. Your ills are largely imaginary. If you were really on the brink of bankruptcy, or if there were no thoroughfare through your sorrows, you would clear your brows, set your teeth and make the best of it.

CHEER UP. You are making a hypothetical case out of your troubles and suffering from your self-inflicted verdict. You are borrowing trouble and paying a high rate of interest.

CHEER UP. Why, man alive! In a ten-minutes' walk you may see a score of people worse off than you. And here you are digging your own grave and playing pallbearer into the bargain. Man alive, you must do your work. Smile, even though it be through your tears—which speedily dry—and

### CHEER UP! "My Grandmother."

A fortnight ago he was after elk in north Germany and, of course, shot an elk. In this great empire loyalty extends also to elks. The elk killed, the next thing was a blast on the horn, the feudal call announcing that the quarry has become meat. The plumed and costumed chief huntsman lifted the slughorn and blew "Hirsch todt" (stag dead).

The Kaiser demurred et over the control of the co The Kaiser demurred at once. "This isn't a stag," he said. "It's an

"Mit Erlaub," the huntsman agreed deferentially, "but there isn't such a call as 'elk dead."

"See to it, then," directed the Kaiser. "that one is composed."

Next year the elk's last moments will be mitigated by appropriate music. But the elk will be less critical than the Kaiser.

There is one tale of him which dates from the time when he was a mere princely Guards subaltern which will do for my last. He was at some military for my last. He was at some military function, wearing, among others, an English order. A fussy general officer who did not know him called him up.

"You appear to be ignorant of the rule against the wearing of foreign orders by officers," he snapped. "Where did you get that star?"

"My grandmother gave it to me," explained Wilhelm.

"Your what?"

"My grandmother, the Oneen of English

"My grandmother, the Queen of England."—London Daily Mail.

Ducks Led by a Pigeon. One of the strangest sights ever seen by sportsmen was witnessed the other day on the duck pass owned by Uri Lam-prey of St. Paul, Minn.

Mr. Lamprey and a friend had been shooting for some time when they observed a flock of ducks coming along from the north. The ducks were blue winged teals and at their head was a white hind. white bird. "That's queer," said Mr. Lamprey

"I'll take the white bird and see what it is."

Both sportsmen fired, both bringing down their bird. Upon examination it was found that the leader of the ducks was a tame white pigeon. If anyone has ever before seen a flock of ducks led by a white pigeon it is time

### for him to rise and say so. How Elephants Sleep.

In captivity elephants always stand up when they sleep, but when in the jungle, in their own land and home, they lie The reason given for the differsoups are served for heavy dinners and purees and cream soups for luncheon. The cream soups and purees with bread and butter make a fairly nutritious meal.

There are two kinds of soups—those with

### AERIAL RAILWAY IN INDIA.

Sensational Religious Ceremony That Takes Place in the Himalayas. One of the most remarkable and sensa-

tional religious ceremonies in the whole of India takes place annually at Kulu,

The rope is of great length, nearly 2500 feet, and when it is stretched taut the upper end will be several hundred feet higher than the lower end.

Down this terrible incline the victim or performer slides, the precaution having been taken to wet the rope to prevent it from catching fire from the fric-

This descent is effected as foilows: The performer sits astride on a kind of rough wooden saddle fitted with holes, through which the rope is threaded, while to his legs are attached bags filled with sand to enable him to maintain an upright position during his descent and also to increase the momentum. The lower end of the rope is wound round with rugs and carpets in order to check the descent at landing and prevent the jheri, as the performer is called, from

jheri, as the performer is called, from dashing his brains out against the pole to which the rope is fastened.

The first few hundred yards of the descent is accomplished with lightning velocity, as is indicated by the stream of smoke which follows in his wake. The incline then diminishing, the pace becomes slower and slower, so that, by the time he reaches the goal he is able to stop himself without danger.

The underlying motive of this curious ceremony is that if the flight is safely accomplished prosperity is assured to the crops for that year. This sentiment naturally minimizes the danger of the feat, as it is to every one's interest that

feat, as it is to every one's interest that it should be safely accomplished. Indeed, a similar motive is at the bottom of cer-tain religious festivals in Roman Cath-

A well known example of this is the fete of the Scoppio at Florence, when a dove, albeit an artificial one, performs an aerial flight of a somewhat similar nature on a wire stretched from the summit of the high altar of the cathedral to an ox wagon filled with fireworks which is stationed in front of the west door. The Himalayan ceremony can be traced back for hundreds of years, and the men who perform the feat form a small distinct caste.—Chambers' Journal.

### An Honest Opinion.

Mineral, Idaho, Nov. 14.—(Special.) -That a sure cure has been discovered for those sciatic pains that make so many lives miserable, is the firm opinion of Mr. D. S. Colson, a well-known resident of this place, and he does not hesitate to say that cure is Dodd's Kidney Pills. The reason Mr. Colson is so and Meadows' Headache Powders. firm in his opinion is that he had those terrible pains and is cured. Speaking

of the matter, he says: "I am only too happy to say Dodd's Kidney Pills have done me lots of dealer for a few shillings, have been good. I had awful pains in my hip so pronounced to be a genuine Rubens I could hardly walk. Dodd's Kidney Pills stopped it entirely. I think they are a grand medicine.'

All Sciatic and Rheumatic pains are caused by Uric Acid in the blood. Dodd's Kidney Pills make healthy kidneys and healthy kidneys strain all the Uric Acid out of the blood. With the cause removed there can be no Rheumatism or Sciatica.

## An Inheritance of Gestures.

A young man, in crossing Chestnut street, stumbled, and immediately put his hand, palm outward, over his eyes. "Why do you cover your eyes like that?" asked his companion.

"The gesture is an inheritance from my father," the young man replied. "My father, in his boyhood, was caught in a fire, and as the flames shot up into his face he put his left hand, palm outward, over his eyes, thus saving his sight. Afterward he would put his hand in that way over his eyes whenever he got any sudden shock or fright. I have done the same thing involuntarily all my life.

"Cases like min are not uncommon," continued the young man. "There is a woman in Washington who never puts her right hand up to her head. Her mother broke her right arm in early life and couldn't raise it thereafter above her shoulder. The daughter can raise her own right arm, but she never does-she never has.

"A biologist had a goat that he kept chained to a pole. The chain galled the goat's left foreleg and she limped on this

leg slightly so as to ease the chain's rubbing. In time she became a mother, and her offspring limped on its left foreleg all its life."—Baltimore Herald.

## ANOTHER LIFE SAVED.

Mrs. G. W. Fooks, of Salisbury, Md. wife of G. W. Fooks, Sheriff of Wicomico County

says: "I suf fered with kidney complaint for eight years. It came on me gradual lv. I felt tired and weak, was short of breath and was troubled with bloating after eating, and my limbs were

badly swollen. One doctor told me it would finally turn to Bright's disease. I was laid up at one time for three weeks. I had not taken Doan's Kidney Pills more than three days when the distressing aching across my back disappeared, and I was soon entirely cured.' For sale by all dealers. Price 50

Foster-Milburn Co., Buffalo, cents.

## Funeral of Matthew Jackson.

The funeral of Matthew Jackson, the veteran employe of the Milwaukee road at the West Milwaukee shops, was held yesterday from the family residence, 120 Seventh street. Among those in attendance was a delegation of Mr. Jackson's former fellow employes. The emson's former tenow employes. The employes at the shops sent a magnificent floral tribute as a token of their regard for one who had been in the employ of the company for about forty years.

### Need Whole Skins.

Skin fruits are generally exposed for sale without thought of causing trouble, and nature really intended that the skin should be a protection to the fruits in more ways than one. A skin fruit in the Himalayas.

From a cliff overhanging a precipitous gorge several hundred feet deep a rope is stretched, and fastened to a strong stake on the opposite side of the ravine.

The rope is great great and the strong stake on the opposite side of the ravine.

Germs of putrefaction and fermentation germs of putrefaction and fermentation get lodged therein, and the wound quick-ly becomes the weak point in the fruit to cause its destruction. Apples with the skin even slightly punctured cannot be kept in cold storage more than a few months, but those which are absolutely perfect in the skin will keep year in a low temperature. fact indicates to us how numerous and dangerous fruit becomes when its skin than been punctured and is exhibited on the stalk for sale. Many children buy these injured apples, bananas, grapes oranges and other fruit, and eat them without regard to their decayed condition. With one mouthful they may consume a few thousand germs, some danger of the state of the same and the same sume a few thousand germs, some dan gerous to the health and others not espe cially injurious, owing to nature's wis precautions in supplying our stomach with fluids capable of destroying them. The ordinary stomach is able to cope with a whole army of deadly germs, and scores of times it saves us from death .-What to East.

A prominent club woman,

Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by Lydia E. Pinkham's Vegetable Compound.

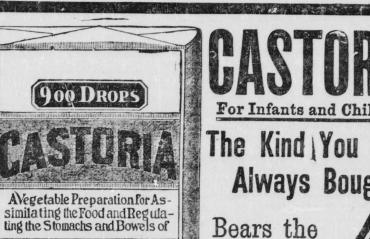

" DEAR MRS. PINKHAM: - Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or falling of the womb. The words sounded like a knell to me, I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily, and each dose added health and strength. I am so thankful for the help I obtained through its use." - MRS. FLORENCE DANFORTH, 1007 Miles Ave., St. Joseph, Mich. --\$5000 forfelt if original of above letter proving genuineness cannot be produced.

"FREE MEDICAL ADVICE
TO WOMEN." Women would save time and much sickness if they would write to Mrs. Pinkham for advice as soon as any distressing symp-toms appear. It is free, and has put thousands of women on the right road to recovery.

It Cures Colds, Coughs, Sore Throat, Croup, Influenza, Whooping Cough, Bronchitis and Asthma. A certain cure for Consumption in first stages, and a sure relief in advanced stages. Use at once.
