## Gladstone as a Summer Resort.

With her Beautiful Bays, the Pleasant Town, the Forest and Streams at hand, None Excels her in Warm Weather Attractions.

As the winter is closing all thoughts turn toward the pleasures of summer. The ice will soon have left our bay and again the angler and the lover of Nature's charms will be with us once more. It is not impertinent to call to mind the many attractions this region possesses for all who have leisure to enjoy the opportunities it offers.

Bay de Noc is one of the handsomest bits of water in the state, and stretches five or six miles north and south of our city. It is unexcelled for boating or yachting, because it is landlocked and safe. The fishing for perch, pickerel and bass attracts many and the results are satisfactory. There is not only good fishing, but there are also fish.

The picnic grounds at Maywood, just across the Narrows afford a fine day's outing and there are many other pleasant spots around the upper bay delightful for a summer day's saunter.

#### THE HAWARDEN INN

Gladstone is reached from the south by the Chicago & North-Western railway, two daily trains, by the St. Paul and Soo lines and by the Goodrich line of boats as well as others. It is as accessible as any point on the Lakes.

The forest stretches away from the city to Lake Superior and game is plenty. Those who like the solitude of the primeval woods can enjoy an excursion of a day or a week, as suits their temper, for roads lead in every direction, north, east and west.

Comfort and luxury is at the command of the tourist who selects Gladstone for his

The fall of Mukden appears imminent. The Japanese are pushing the Russians hard on the east.

#### Russia Expected Defeat.

St. Petersburg, March S.-8 p. m.-The dispatch of the Associated Press from its correspondent with the army of Gen. Kuroki announcing the withdrawal of the Russians from their positions on the Shakhe river and that the Russians were in full retreat, was the first definite news received here to the effect that the battle was ended and that Gen. Kuropatkin was making the best of his northward. It does not come unexpectedly. The defeat of Gen. Kuropatkin has been expected since Field Marshal Oyama made his brilliant stroke against the Russian right.

#### Is War Office Bluffing?

Late this afternoon the general staff, although declining to give details, insists that the rumors of disaster to Gen. Kuropatkin are false, declaring that the issue is not yet decided. Neither do the officials confirm the report that Gen. Rennenkampff is in imminent danger of being surrounded. On the contrary they profess satisfaction at the situation.

#### Curtain Is Down.

The most intense anxiety exists regarding the progress of the Japanese turning movement on the Russian right. It is significant that Kuropatkin's official dis-patches only cover the report of the western operations up to Monday night, whereas he reports the situation at the Russian center and left until Tuesday night.

No press dispatches from the front filed today have arrived here up to this

It is significant that Gen. Dragomiroff, Russia's greatest strategist, now an old man, whom the Emperor has called upon to act as his military adviser, has open-ly joined the ranks of Kuropatkin's critly joined the ranks of Kuropatkin's crit-ics, going to the extent of defending Gen. In the latter Cannon accuses President Smith of trying to build up his personal power by the sacrifice of the interest of the church. He charges violation of agreements with the United States government and accuses the president of "taking the daughters of his subjects and bestowing them upon his favorites." He also alleges President Smith has "taken property which belonged to the widow and to the orphan and has ab-sorbed it into the possession of the crown," and has oppressed poor members of the church to enrich himself. The first editorial charges President Smith with building up an alien monarchy, hostile to the principles of the American government.

#### Doing Great Work.

Ward, Ark., March 6th .- (Special.) -From all over the West reports come of cures of different forms of Kidney Disease by Dodd's Kidney Pills and this place is not without evidence of the great work the Great American Kidney Remedy is doing.

Among the cured here is Mr. J. V. Waggoner, a well known citizen, who, in an interview, says: "Dodd's Kid-ney Pills have done wonders for me. My kidneys and bladder were badly out of order. I used many medicines but got nothing to cure me till I tried Dodd's Kidney Pills. Two boxes of them fixed me up so that I have been well ever since."

"Tell the poor kidney and bladder diseased people to take Dodd's Kidney Pills and get well."

No case of kidney complaint is too far gone for Dodd's Kidney Pills to cure. They are the only remedy that has ever cured Bright's Disease

#### Communications Not Cut.

St. Petersburg, March 8 .- 2:45 p. m. The Associated Press is now in a position to positively deny the current rumors that Gen. Kuropatkin's lines of communication have been cut. Within an hour a cipher dispatch from Kuro-patkin to Emperor Nicholas, containing a report of the day's operations, has ar-rived and is now being transmitted to Tsarskoe Selo. Its contents are un-known, except that Kuropatkin at night-fall still held Mukden.

high source that the position of the Rus-sian left is critical. Compelled by the failure of Gen. Oku and Nogi to crush the Russian right yesterday, Field Mar-shal Oyama again transferred the weight to his right and Gen. Kuroki succeeded in driving in a wedge between Gen. Linewitch's main army and Gen. Rennen-kampff's corps, which is the extreme left. The latter is declared to be in grave danger of being cut off or surrounded.

#### Linevitch Is Retreating.

Tokio dispatches, announcing that Gen. Kuroki is making progress and had al-ready approached a point fourteen miles south of Fushun yesterday, showing that Lieut.-Gen. Linevitch, commander of the First Manchurian army, is again giving way, is the worst word which reached Petersburg this morning regarding the situation at the front.

#### Battle Probably Decided.

With the fate of the gigantic struggle Gen. Kuropatkin and between Field Marshal Oyama probably already decided, as it is now 7 o'clock at night in Mukden, and St. Petersburg waiting breathlessly for news, ominous si-lence reigns. No private or press dis-patches giving news of today's battie, except a cipher message to the Czar which has been suppressed, have yet arrived and the mere fact that the curtain is run down, taking a leaf out of past experience, is pessimistically interpreted. There are ugly rumors circulating in the Russian army is in full and disorderly retreat, with only the gallant rear guard fighting off the victorious Japanese.

#### Utter Ruin for Kuropatkin.

All the military critics this morning, however, agree that Kuropatkin's posinowever, agree that Kuroparkin's posi-tion is extremely critical and that to-day should decide the issue. Moreover, the majority are of the opinion that Kuropatkin has held his ground as long as possible and that they are unable to see how, if beaten, he can escape utter min at the same time all dwall or kurse ruin, at the same time all dwell on Kuropatkins excessive prudence, his refusal to take the risks of war at an opportune moment, being indeed the cause of much censure, and the fact that he has stuck positions therefore encourages the hope that he is preparing for a great counter stroke, such as he planned at Liao Yang, but abandoned when Gen. Orloff's corps was crushed.

#### Like Liao Yang.

The situation at Liao Yang is now duplicated with the turning movement reversed. Kuropatkin behind strong works is holding the Japanese center and right while concentrating for a blow a the Japanese turning column on the plain west of Mukden. Those who still pin west of Mukden. Those who still pin their faith to Kuropatkin declare he must have concentrated all his reserves on his right flank and that he has been waiting for the moment when the Herculean efforts of the Japanese to crush and envelope that wing will be exhaust-ed, in order to launch a blow which will the vanquished.

Toward evening Gen. Kuropatkin rode Russians in Great Danger. The Associated Press hears from a examined personally the positions of the second army. At the close of the fight-ing this evening the infantry on both sides were short of ammunition and the night was devoted to replenishing sup-

plies of individual soldiers. Southwest of Mukden at the Chantan pivot fight the Japanese succeeded in establishing themselves in the southern part of the village, but later were ex-pelled by the Russians.

#### Russ Hold Important Hills.

Reports received here say the repeated attacks of the Japanese on Poutloff and Novgorod hills have been repulsed with heaviest loss. the A division of Russian cavalry, which

was patrolling the Liao valley and was cut off March 2 by the rapid advance of the Japanese, succeeded today in rejoin-ing the Russian army.

This has been a regular spring day. The ground is becoming damp and in low places the mud is showing itself.

#### Defeat of Entire Army.

With the Japanese Left Armies, Sat-urday, March 4, 10 p. m., Via Tien Tsin, March 8.—The first four days fighting on this flank has ended as successfully as the Japanese could wish. It has re-sulted in the complete turning of the sulted in the complete turning of the Russian right and promises the certain defeat of the entire Russian army. It is hard to see how the Russians can pos-sibly hope for any other result. The left Japanese armies have swung north to a point on the main highway five miles north of the Mukden line. The two left armies which are executing the turning movement are now parallel to and four miles westward of the railroad. The two armies swung around with Chantan as a pivot, until they reached a point at right angles with the original and are now advancing directly east.

#### Russians in Open Revolt.

The Russian soldiers are everywhere disheartened by the fall of Port Arthur, and it is believed they are almost in open revolt. A number of strong positions were given up without a show of resistance and the battlefield shows evi-dence of hasty retreat. The entire Russian right seems altogether disorganized. The Japanese victory was even greater norally than physically. It is estimated that the Russian losses were over 10,000. The prisoners' statements give evidence of even greater loss. The Japanese loss with these left armies during the four days does not exceed 4000.

#### Coffee Plays on Some.

It hardly pays to laugh before you. are certain of facts, for it is sometimes, humiliating to think of afterwards.

"When I was a young girl I was a lover of coffee but was sick so much, the doctor told me to quit and I did, but after my marriage my husband begged me to drink it again, as he did not think it was the coffee caused the troubles.

"So I commenced it again and continued about 6 months until my stom-, ach commenced acting bad and choking as if I had swallowed something the size of an egg. One doctor said it was neuralgia and indigestion.

"One day I took a drive with my, husband three miles in the country and I drank a cup of coffee for dinner. I thought sure I would die before I got back to town to a doctor. I was drawn double in the buggy and when my hus-, band hitched the horse to get me out into the doctor's office, misery came up, in my throat and seemed to shut my breath off entirely, then left all in a flash and went to my heart. The doc-, tor pronounced it nervous heart trouble and when I got home I was so weak I could not sit up.

"My husband brought my supper to my bedside with a nice cup of hot coffee, but I said: 'Take that back, dear, I will never drink another cup of coffee if you gave me everything you are worth, for it is just killing me.' He and the others laughed at me and said:

"'The idea of coffee killing any-New body.'

"'Well,' I said, 'it is nothing else but coffee that is doing it.'

"In the grocery one day my husband was persuaded to buy a box of Postum which he brought home and I made it for dinner and we both thought how good it was, but said nothing to the hired men, and they thought they had drank coffee, until we laughed and told them. Well, we kept on with Postum, and it was not long before the color came back to my cheeks and I got stout and felt as good as I ever did in my life. I have no more stomach trouble and I know I owe it all to Postum in place of coffee.

"My husband has gained good health on Postum, as well as baby and I. and we all think nothing is too good to say about it." Name given by Postum Co., Battle Creek, Mich.

CITY TO SEIZE SUBWAY. Interborough Must Operate Trains on Schedule Time.

QUIET IN NEW YORK.

No Violence Has Occurred During Sec-

ond Day of the Big Strike.

New York, March S .- Seizure of the subway by the city would be the remedy which President Alexander E. Orr declares the rapid transit commissioners will apply if the strike tie up should continue long. The lease by which the Interborough company operates the subway provides that "reasonable time" be given to the company to comshall ply with the terms of its contract with the city. Comptroller Grout and mem-bers of the board confirmed the state-ments made by President Orr.

#### Operating the Railways.

The second day of the strike on the subway and elevated lines showed con-siderable improvement over yesterday's conditions. Trains were run in the sub-Out Brains Before way and the Sixth avenue elevated line was open with a larger number of trains than yesterday. At first people were timid, but between 8:30 and 9 o'clock, when the down town rush was at its height, the public began to realize the hopelessness of using the already overtaxed surface lines and eagerness to get to business overcame timidity. Most of the trains made fairly good time, but the long stops at stations and careful running indicated that the company was daughter, had attended a party at taking no risks. On the whole, the un-neighbor's, returning home about n derground seemed in better condition than at the same hour yesterday. Notwithstanding the improvement in the in-terborough's service, much of the down town traffic was carried by the surface lines.

#### Both Sides Firm.

There are no signs of giving way. The Intereare no signs of giving way. The Interborough officials say they are in a better position than yesterday, that they will run more trains today, and that the situation is growing better for them all the time. The strike leaders, on the other hand, declare that all their men more belong from the the two more had were holding firm, that the company had done its best yesterday and from now on it would be increasingly difficult for the officials to operate the subway and ele-

vated lines. The officials of the Amalgamated Association of Electric and Street Railway Employes and the Brotherhood of Loco-Mayor McClelian in response to his suggestion of yesterday, stating that they are willing to consider any proposition that may bring about an amicable adjustment Interborough company and the striking employes, was that adjustment of the trouble be entrusted to him personally or a disinterested committee of citizens.

The president of the republic is practically a dictator. As often as been the opinion of its impatient credsuits his convenience he submits to an election, and he is careful to have it occur at a time when there is no well organized opposition. The general system of government is copied after that of the United States. Officials are plentiful, and the national revenues are far from sufficient to maintain the annual expenditure. Add to this the fact that a large proportion of the legally collectible revenue never reaches the national treasury, and the cause of Santo Domingo's bankruptcy becomes apparent.

> The annual revenue is \$1,700,000, and the military establishment, including the navy, costs \$4,800,000 a year. All the officials are the personal appointees of the President, and the army is composed of men friendly to his interests. Judging from the past, the chief object of each administration has been to mulct the people of the largest possible amount before a

#### Twenty-nine Hurt in Collision.

There was only one serious disaster in the subway system yesterday—a colli-sion due, it is declared, to the inexperi-ence of the motorman. Twenty-nine persons were injured, fifteen so seriously that they were taken to hospitals.

The accident happened at Twenty-third street and was a rear-end crash. The ends of two cars were smashed, and traf-fic was delayed from 5 until after 7 o'clock-the evening rush hours. The first train had just pulled into the

Twenty-third street station and some of the passengers were about to alight, when there came a crash as a train, which had left the bridge only thirty seconds behind the first, crashed into the latter. The rear steel car on the first train was forced into the rear of the car just ahead. All of the lights of the first train went out and a moment later were heard cries of the injured and panicstricken passengers.

The passengers standing on the platforms of the last two cars of the first train were caught as in a vise. It was here that all of those who were hurt received their injuries.

#### Police Chop the Cars Apart.

Policemen and firemen were summoned to chop the cars apart and rescue the im-prisoned. It was fifteen minutes before the first of the victims was released. Meantime some of the cooler of the pas-sengers in the train had lighted matches in the cars and were assisting the way in the cars and were assisting the wom-en to the doors at the unbroken ends of the two cars. In a few minutes men and women were

being passed through the broken win-dows to the platform. Some of them were carried across the tracks to the downtown station.

The firemen worked for more than an hour before they were able to cut the last of the injured passengers out of the

Pocatello, Ida., March 7 .- A rancher today reported finding the remains of two persons in a fissure of the rocks and lava beds about four miles up Portnouf canyon, south of Pocatello.

#### May Be Murder Victims.

Conorer J. H. Bean and Undertaker Bert Manessa drove immediately to the scene and the bodies were taken from the rocks and brought to Pocatello. The remains proved to be those of a man and a woman. The head of the man is missing and the body of the woman was wrapped in a blanket, and to all appearances the bodies seem to be those of the victims of a murderer. Two old saddles were also found, which had been placed or thrown over each of the bodies with a view to partial

concealment.

#### Death Several Years Ago.

From all appearances the two had been dead several years, but there is much talk in regard to the matter and Coroner Bean and Chief of Police C. S. Smith left early this morning to visit the scene again and to discover if possible any clue that may lead to the identity of the victims or the perpetrators of the crime.

#### Conflict.

Budapest, March 7 .- A conflict between the crown and the Hungarian nation appears possible and even probable. The contending interests cannot agree on the use of the Hungarian tongue in the Hungarian army as the language of command. Hungarians declare that this reform must be instituted. The Emper-or says it is impossible. Neither side today shows signs of weakening, and this question of language

of command is more pregnant of danger

Six out of sixteen Hungarian political should of sixteen fungarian political leaders have already been received by the Emperor. They and others who were received in audience before these sixteen were called to Vienna, say that the Emperor declares that the military de-mands of the united opposition parties are inadmissible, characterizing them as meddling and an intrusion upon his pre-rogatives. In these interviews the Emperor spoke feelingly and with deep con and strong army, always ready for bat-tle.

remarkable impartiality in the selection of her victims, many of them being European-could not be tolerated by the United States. The shade of the late James Monroe would rise in indignant protest at the mere suggestion. If there is any adjusting to be done it is clearly the privilege of the United States to do it. There does not seem to have been the slightest objection to that way out of the diffi-

culty. It is most satisfactory to the foreign creditors, and the Dominicans themselves were so enthusiastic over the proposition that they tried at once to borrow more money on the strength of it.

In the carrying out of its interference it will be necessary as a preliminary first step for the United States to restore the republic to a condition of internal quietude. When this is effected the American readjusters will proceed to take charge of the country's revenues and pay off its obligations, those to American citizens receiving first attention. Reduced to its final terms, the proposition seems to be that the United States shall make the Dominicans behave themselves long enough to pay their debts. When that is accomplished the dusky republicans will be free to resume their spendthrift career if they so elect. It is possible that by that time they may become so enamored of the thrifty

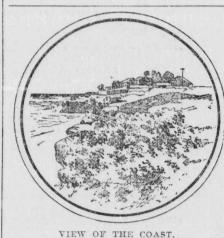

that they will choose to walk in their footsteps ever after. It is certain that the Dominicans are ardent admirers of the greater republic.

SANTO DOMINGO STREET SCENE.

The island on which the republic of Santo Domingo is established is, next to Cuba, the largest of the West Indies. One-third of its area is devoted to the republic of Haiti, and the remainder constitutes Santo Domingo. These contiguous republics are often confused, but they are quite dissimilar in most features. The Dominicans are much more refined and circumspect in their ways than their neighbors and are less addicted to actual serve on a jury.

revolution brings about a new division of the spoils. Under these circumstances politics has become the chief business of the republic, and other and equally important interests have been neglected. Agricultural and commercial pursuits have suffered so greatly from the rapacity of the government and lack of encouragement

that they are practically at a standstill.

Santo Domingo is the garden of the western tropics. Nature has given it a soil adapted to a wider range of products than can be found in any corresponding area in the West Indies. The list is a long one, including cocoa, tobacco, all kinds of tropical fruits, sugar cane, coffee, vanilla, rubber and many other valuable things. In the interior mountainous region forests of mahogany and other timber abound. The whole country is in a state of constant verdure, and thermal fluctuations are almost unknown. General Carlos F. Morales is the present head of the Dominican government.

#### Animal Instinct in Winter.

With many forms of life the readiness for winter is not to secure a place to protect them from cold or even from freezing, but for security against sudden changes of conditions and of temperature. It is a protection in some cases similar to that of the plants on the lawn that were covered with straw by the gardener when he made them ready for winter. In some places of the kind, for instance in the squirrel's nest, there is undoubtedly real animal warmth and coziness. Fish seek the deepest parts of pools, where the temperature of the water is a little above

freezing, and where it remains very near this point until spring .--- St Nicholas.

Love rakes the heart so light, so light, Like thistle-down its upward flight; Earth seems so very far away. And heaven so very near the day Love comes a-knocking at our door, And whispers all his chaning lore— Care cannot hurt, nor sorrow blight The heart that love has made so light.

Love makes the world so bright, so bright, As silvery moonbeams do the night; Though storms may come and winds may

As through this weary world we go, Love sees the sun behind the cloud. Nor cares if north winds bluster loud. So much there is that gives delight In the world love makes so bright.

Love makes the way so clear, so clear; No stumbling in the dark, no fear. The path before me lies so straight, And at the end the shining gate. It is so easy to do right, To toil, to hope, to climb the height. Since I have walked with you, my dear, Along the way love makes so clear. -Irene L. Dearing in Boston Transcript.

#### Lack of Personal Liberty in Married Life.

Married life is dull because there is not enough freedom in it. Every metaphor that we use in regard

to marriage has in it the idea of slavery. We speak of the "yoke of matrimony," of the "bonds of wedlock," of the "marriage tie," of the "fetters of matrimony' and so on.

And it is because these similes foreshadow a great truth, and married peoare no longer free but slaves, that marriage grows irksome.

The thing that makes the yoke of matrimony gall us is the mere fact that it is

It is this sense of there being no yoke that so often makes the irregular relationship that men and women establish have a permanency, a harmony and an undying interest and charm that mar-riage ought to have, and doesn't.

This point is worthy of the serious consideration of every man and woman. The one unquenchable passion of the human heart is for liberty, and the per-

son who deprives us of this does so at his or her peril. Yet the very first thing every man and

woman do after they are married is to try to take away the freedom of the other one.

The man has been in the habit of coming and going as he pleases; of selecting his own friends; and eating what he likes

The road which they followed, although near the sea, ran partly through pine woods and thickets and was bordered, here and there, with a tangle of wild rose and bay with no houses in sight. Suddenly the cart rolled into a clearing and approached a railroad track. Kenneth, who was driving, and had been cautioned about the danger near railroads, listened for a train. Everything was silent, so he a train. Everything was shent, so he chirruped to Rob Roy, the sturdy pony, encouraging him to cross the rails. Just in the middle of the track the pony stopped stock still and refused to budge. "He is balky," said Arthur. "Let's get out and see," cried Alice. #### Tombstone in Evidence.

In a suit brought in the probate court of Ray county recently to compel final settlement of an estate, the question devolved as to whether the heir in question was of age. The father swore that she was born December 22, 1886, which would make her of age December 22, 1904. The old family Bible in which a complete record had been kept was lost in the big flood during the spring of 1903. The witnesses all agreed that the child was born on the 22d day of December, but differed as to the year.

Judge Divelbiss then struck upon the novel idea of letting the tombstone over the mother's grave decide the case, knowing that there could be no intention of wrongdoing when the slab was engraved. All parties agreed to this, and upon investigation the date was found to be November 27, 1889. As all witnesses testified that she lacked from November 27 to December 22 of being three years old when her mother died, then she was of age December 22, 1904.-Richmond (Mo.) Democrat.

### ST. VITUS AND GRIP.

Woman Afflicted for Years by Strange Spells of Numbress and Weakness Recovers Perfect Health.

When she was fourteen years old, Mrs, Ida L. Brown had St. Vitus' dance. She finally got over the most noticeable features of the strange ailment, but was still troubled by very uncomfortable sensations, which she recently described as follows :

"One hand, half of my face, and half of my tongue would get cold and numb. These feelings would come on, last for about ten minutes, and then go away, several times a day. Besides I would have palpitation of the heart, and my strength would get so low that I could hardly breathe. As time went on these spells kept coming oftener and growing worse. The numbress would sometimes extend over half my body."

"How did you get rid of them ?"

"It seemed for a long time as if I never could get rid of them. It was not until about six years ago that I found a remedy that had virtue enough in it to reach my kin's great army, it is thought here, will result in peace. The Japanese are in complete possession of Manchuria as it is not thought possible for the Russians case. That was Dr. Williams' Pink Pills for Pale People, and they have since entirely cured me."

"Did it take long to effect a cure?" "No! I hadn't taken the whole of the first box before I saw a great improvement. So I kept ou using them, growing better all the time, until I had taken eight boxes and then I was perfectly well, and I have remained in good health ever since with one exception."

"What was that?"

"Oh! that was when I had the grip. I was in bed, under the doctor's care, for two weeks. When I got up I had dreadful attacks of dizziness. I had to grasp hold of something or I would fall right down. I was just miserable, and when I saw the doctor was not helping me, I began to take Dr. Williams' Pink me, I began to take Dr. Williams' Pink Pills again. In a short time they cured me of that trouble too, and I have never that Field Marshal Oyama will defeat me of that trouble too, and I have never had any dizzy spells since.'

Mrs. Brown lives at No. 1705 DeWitt street, Mattoon, Illinois. Dr. Williams' Pink Pills are without an equal for the rapid and thorough cure of nervous prostration. They expel the poison left in the system by such diseases as grip and are the best of tonics in all cases of weakness. They are sold by every druggist.

The employes be-lieved up to yesterday that a strike might be averted if they could reach Mr. Belmont, who is also president of the National Civic federation.

#### Trouble Begins.

The first show of open violence against strike breakers was made at the 110th street station of the subway and as a result one of the strike breakers was taken to a hospital with a badly injured arm. A union man had boarded the train well upon the line and continued to harass the non-union guard, until, as the the train was nearing 110th street, the the train was nearing 110th street, the two men came to blows. ### HUNDREDS ARE BURNED.

Chinese New Year Celebration Attended by Thousands, Is Invaded by Flames Among Junks.

Hong Kong, March 8 .- Over 300 peo-

ple perished in a fire among the native craft off Woochow, 180 miles above Canton, where thousands celebrated the new year. Fire that was used for cook ing ignited a boat and the flames spread to the vessels on all sides and the bamboo piers. Thousands fought the fires, but they were helpless. The exact number of persons burned to death drowned may never be known.

Nervous exhaustion invites disease. This statement is the positive truth.

When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves bave given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes:

"I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the headaches with which I had suffered for months before taking the Compound. I feel that if it had not been for this great med-icine for women that I should not have been alive to-day. It is splendid for women, old or young, and will surely cure all female discr-

#### A MORIBUND MAINE TOWN.

Mattamiscontis, Once Thriving, Now with a Population of 28.

The story of the average backwoods town in Maine is very much like the hisand adjoining territories, to represent tory of a star, as each begins its career in a nebulous condition, reaches a stage of heated activity and finally burns itself

> Representative Mullen of Bangor has introduced an act in the Maine Legisla-ture, permitting the town of Mattamiscontis, forty-four miles northeast from Bangor, to surrender its town organization and lapse back into a plantation, so

as to escape the support of its paupers and the payment of county and state

Mattamiscontis was incorporated as a town, being a slice taken from Howland, on March 8, 1839. At that time the valuation of the town was \$60,000 and its population was 82. The residents had every prospect of getting rich rapidly. The town grew and prospered.

On March 4, 1904, the entire population of Mattamiscontis was 28, of whom wife. It is in jest alone that such men say to their wives what I once heard a was either a Sawyer or a Roberts. There was one Sawyer and two Robertses on the board of assessors, two Sawyers and one Roberts were overseers of the poor.

a Sawyer was collector of taxes and treasurer, three Sawyers were serving as electmen, a Roberts was superintendent of schools. Miss Maud Sawyer and Miss Agnes Roberts taught the two schools, a Sawyer was justice of the peace, a Rob-erts was under contract to furnish wood the schoolhouses, and a Sawyer broke out the snowy highways and carried the hildren to and from school.

Everybody was related to everybody lse. The entire community was no more han a family affair. There was no postoffice, no clergyman, no lawyer and no doctor in the whole town. The entire assets of the municipality were of an appraised valuation of \$19,286 and a weed grown cemetery, in which there had been no interment for six years.

Under the laws of Maine when a peron is unable to support himself and bemes a public charge while residing on a plantation the cost of his maintenance falls upon the adjoining town which has een organized for the longest time. Mat-tamiscontis has four paupers who have been supported at a cost of \$750 a year. By becoming a plantation the community can compel Howland to care for them. In addition to getting rid of this bill, the plantation will have to pay no taxes, except for common schools and repairing the highways. The change from a town

to a plantation form of government will be a profitable investment for the Saw-

yers and Robertses who dwell in Matta-miscontis.-New York Sun.

Webster used. In the Senate desks are never changed

for new ones. Repairs are made when necessary but the original framework is retained. Senator Cockrell now uses the desk assigned to Jefferson Davis, and which was bayonetted by a squad of Union soldiers, who broke into the Sen-ate chamber. The holes were plugged up and the varnish hid the work of up and the varnish hid the work of the bayonets. The location of the desks occupied by John C. Calhoun and Henry

A special resolution was passed, giving the widow of Senator Hamlin permission to take his desk. Mrs. Logan made a similar request for the desk used by her husband, but the Senate refused it. The desk formerly used by James G. Blaine is now used by Senator Hale of Maine.

Minnesota Lumberman Declares He Beheld Fall of Port Arthur After Siege.

While sleeping alone in his tent in the wilds 500 miles northwest of Winnipeg, winds 500 miles northwest of Winnipeg, L. Bristol, a Minnesota lumberman, was awakened by an unusual glow in the sky. He beheld in the heavens, he said, "a terrible scene of active warfare." This was on December 31. At that time Gen. Nogi was leading his forces in the last desperate assault upon Port Arthur. Printed is thereurbly remeded for an Bristol is thoroughly vouched for as a reliable man, and he and his friends firmly are convinced he saw the heroic struggle taking place on the other side of the world.

Directly to the southwest, at an angle of 45 degrees from the earth, there appeared a large mirage in the form of two forts adjoining each other cornerwise. They were perfectly outlined, even to the large guns on the parapets. The whole looomed out as clear as day and was illuminated brightly by continues flashes as of huge rockets or bombs, having for their goal the interior of the redoubts. When a week later his mail brought

news of the surrender of the fort it served to verify his belief he had seen the clo ing chapter of the great siege. Bristo arrived here today and told the story.

## A STOVE

W. A. FOSS, Cashier

The holidays are over and there's nothing more to draw on your purse but the fuel and grocery bill. Perhaps you are using a stove that is old and warped and the "economy" is all gone out of it. If so, it will pay you to get one of our new stoves and reduce your fuel bills.
