W. F. HAMMEL.

THE VALUE OF OPALS.

Shown In the Stones.

Veins of opals are usually met with in soft formations where nothing above ground indicates their presence. The search for them, therefore, often requires considerable time. But it is not extremely difficult, for opals are generare as follows: First ward-Alderman, ally found near the surface. Indeed, it was thought for a long time that they were not to be found as deep as twelve feet below the surface. This opinion has, however, given way in the light of evidence, because opals of great value have been discovered at a depth of fifty feet.

The value of opals depends upon several considerations, of which the principal one is the color. It is important that they should be bright and not present streaks or spots alternating with uncolored substance. The most valuable are those which have red fires or had no reporter in the council room and mixtures of red and yellow, blue and green. Opals of a single tint are of little value unless the tint is particularly striking and the figure beautiful. In-

deed one of the essential qualities of When the figure is quite regular and

distinct it is the more valuable, much less so when the grain is quite small and irregular. Sometimes the color appears as a single blaze or with figures regularly spaced. It may then be of a It is a commentary on the charges of fine ruby red and is much sought after, but oftenest the uniform tint is only

green or reddish and has but little brilliancy The cutting is very important for the

opal. Thus a thick stone will be much less beautiful than a thin stone, which, on losing part of its volume, loses also the figure. The foundation tint contrib-Sixteen inch summer wood, full cord, utes much to the beauty. It ought to be transparent, slightly milky and harmonize fully with the different reflections of the opal, which, when it is really beautiful, presents a variety of hues infinitely pleasing to the eye.-Jewelers' Circular-Weekly.

year he was arrested for taking snap shots of the fortifications at Simonose-Mrs. Robert McKerlie and family left ki, but was subsequently released. Among his best known books are "The God of His Fathers" and "The Call of the Wild."

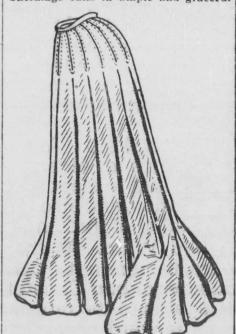

> Man or Mountain. Clifford B. Hildreth is the proprietor of a hotel at York Beach, Me., a few miles from a promontory known as Baldhead cliff. The place is wild and picturesque and is the Mecca of many summer visitors.

Hildreth is called Cliff by all who know him. His head has pushed through his hair, and he has little use for a comb. A few weeks ago a party of tourists stopped in front of his hotel, and, seeing Mrs. Hildreth on the veranda, one of the men called out: "Can you tell me where Baldhead eliff is?

"He must be around the house somewhere," said Mrs. Hildreth. "I saw him just a few minutes ago." She was not disconcerted by the slangy title that she believed the tourist had bestowed on her husband.-Chicago Record-Herald.

## SURE WINNER.

The republican city ticket is a sure winner for the charter election one week from next Monday. There were some differences of opinion at the beginning of the campaign; but these have all been reconciled and the party presents a united front to the hordes of office seekers who hoped to profit by the unusual situation this spring.

As a matter of cold mathematical calculation the republican administrations have ever been the best and most economical for the city. The Delta has already published some figures showing that during the past year there has been no waste of the city's monies.

Briefly alluding to the fact that Treasurer Hammel has made an unequalled record during his short term of office, having done all that any man could do in the matters of collections, it may be further remarked that for plain, impartial performance of his official duty he deserves the vote of every honest citi-

In the clerk's office, Mr. Narracong has made an equally commendable change from the practice of former years. His office and his books assert plainly the care he has given to the city's interests. Few there are who would wish to see the clerk's office given to a politician of untried ability, hungry only for the salary and careless of the people's interests. Scarcely any citizen but has had occasion to do business at the city hall and among them Mr. Narracong has made none but friends.

As to the mayor no complaints have reached The Delta. A man with the ability and personal popularity of Charles D. Mason needs no enlogy in a community where all are his friends who esteem sincerity and rectitude.

The Republican ticket is a sure win-

## HEAVIEST LOSSES OF ANY WAR ON RECORD.

Tokio, March 21 .- Revised figures of the Japanese losses at the battle of Mukden place the number at 50,-000 and revised estimates of the Russian losses from the commencement of the battle of Mukden and ending with the fighting of Tie pass, place the total of 175,000 killed, wounded or captured.

Gunshu Pass, March 21 .- The Russians estimate the Japanese loss at the battle of Mukden at 100,000.

St. Petersburg, March 21.-A council of the ministers has been summoned to consider the question of peace.

Berlin, March 21 .- The new Japanese loan will be divided among three nations, the United States, Great Britain and Germany participating. The amount will depend on how much the bankers here and elsewhere will guarantee to dispose of, but probably it will not be less than \$50,000,000, of which amount Germany is likely to take \$15,000,000, although this is still undetermined.

St. Petersburg, March 21.-A couple of brief telegrams from Gen. Linevitch, dated March 20, were given out today They merely say that the troops con-tinued to retreat northwards March 19; that he had allowed the men to rest March 20, and that he had inspected ew arrivals from Russia and had found the troops in excellent spirits.

Gunshu Pass (108 Miles North of Tie Pass, Manchuria,), March 21.-The Jap-anese losses are estimated at the Russian headquarters to be 100,000.

Some of the troops employed to cover the retreat from Mukden were badly de-moralized, losing their way in the hills eastward and only now rejoining their ore divisions own divisions.

So certain was Gen. Kuropatkin of be-ing able to hold Mukden that maps of the country northward were not even dis tributed. Kuropatkin, however, resolved

## War Has Nearly Ruined Eusiness in Russia.

St. Petersburg, March 21.—The Trade World, in an article reviewing the sus-pension of industry in Russia directly or indirectly produced by the war, the immense losses suffered as a result of the 350,000 tons of grain left rotting in the Volga districts owing to lack of transportation, and the hardships im-posed on the peasants by the sending vancing along the grand trade route, but the war office says it is hardly large enough to constitute a menace with the dispositions Gen. Linevitch is able to make of fresh troops. Nevertheless St. Petersburg is in the dark as to the exact situation and considering the resourcefulness of the Japanese there is constant fear that they may manage to get astride of the railroad and bar the Russian re

unable to secure the release from impris-onment in Venezuela of five Dutch sailors All the last day at Tie the Cossacks who have been illegally kept in prison for lcoted the booths of traders, sold cham-pagne at a rouble a bottle, and smashed seven months. and burned everything unsalable. They caught a Japanese spy, who, upon re-sisting, was killed. The guilty Cossacks says the French minister at Caracas has were shot a quarter of an hour later. Lieut.-Gen. Mistchenko, with 6000 Ural Cossacks, some European cavalry and two batteries of artillery, is now operating on the Russian extreme left. effect results from the publication in Maj.-Gen. Fukushima has visited Sinmintin and perfected arrangements for installation of a Japanese garrison there, and it is probable that in the fu-ture that fown will be considered within the war zone, and all persons arriving there will be required to have a pass.

## Official Jap Report.

Tokio, March 20.-(11 a. m.)-The folwing official announcement has been ade: Our detachment entered and oc-ipied Keiyuan Sunday morning at 4 clock. On the same day at 10:30 clock the enemy's cavalry, about sixty ong, with three companies of infantry, attempted a counter attack, but was completely repulsed. Toward the north-east the bridges on the main road south Kaiyuan have been burned by the The railway bridges have been enemy. The rail partly destroyed.

The number of guns captured near Mukden is increasing, owing to discov-eries of those buried by the enemy before retreating.

## To Raise Russian Warships.

Antwerp, March 21 .- Three salvage steamers with all modern machinery for raising sunken wrecks will sail for Port Arthur this week, it is reported. They have been chartered by Japan to raise They the battleships and other warships that once composed Russia's fleet.

## British Ship Captured.

Tokio, March 20.--(11 a. m.)--The British steamer Harbarton, carrying coal to Yladivostok was seized Saturday by the Japanese.

## Japs Meet with Difficulties.

Tokio, March 21, 3 p. m.—No reports of the Russian retreat or Japanese pur-suit were received today, which is strengthening the belief that the Rus-sians plan to hold the line from Chang-chun to Kirin. The Japanese continue-to closely following Gen. Linevitch's rear guard, but the damaged bridges impede their progress and will create sufficient their progress and will create sufficient delay to permit the Russians to concen-

ing. Seven persons were injured in the wreck, three of them fatally. Robbers Removed Spikes.

An examination of the track developed the fact that the spikes for nearly the length of a rail had been removed. The wreck occurred on a high embank announced from Caracas, has received a ment, the road being soft from the thaws and rains. The two Denver & Colorado sleepers landed in the ditch, on end, the embankment at that point being about thirty-five feet wide. The engine, mail car and composite car also went down fusal the United States will feel free to the embankment.

## Official Report of Wreck.

The following message giving the cause of the disaster was telegraphed from Homestead to Assistant General Mana-ager W. M. Hobbs, in Chicago, by the division road master: 'The wreck was caused by an un-

known party removing spikes, bars and anglebars and misplacing the rail. Spikes were removed from two rails, on the south side of the track. The engine and first four cars were thrown down a forty-five foot embankment. The engine was completely stripped, the mail car de-stroyed, the buffet car on its side and sleepers badly damaged. The in-

jured: A. C. Hotchkiss, engineer, of Rock Island, hands and feet scalded. William Smith, Rock Island, fireman, head

## Rob Bank Messenger of \$10,000.

Berkeley, Cal., March 21.-J. E. Daly, an Oakland liveryman who was acting as a messenger for the Central bank of Onkland, was held up and robbed of \$10,000 while on his way to the Standard Oil refinery at Point Richmond yesterday. There were two highwaymen, one whom was tall and the other short and stout. Both carried revolvers, but only the taller of the men wore a mask. The short man had a heavy, black beard. The robbery took place at a point on the roadway between Stege and Point Richmond,

Deputy Sheriff Al Roach, who was rid-ing with him. At the point of revolvers Daly and Roach were compelled to jump from the buggy and give up the sack of

Then the robbers tied them to a fence and placed gags in their mouths. Daly and Roach freed themselves after much difficulty and proceeded to Stege station, on the Southern Pacific, about half a mile away

It has been the custom of the Central bank to send out \$10,000 to the Standard Oil plant for the pay of the employes once a month and the robbers were un-London newspapers of dispatches saying the presentation of an ultimatum had been followed by the dispatch of two warships. The officials here are surdoubtedly acquainted with the fact. and displeased at the reports

NOT PLEASED AT GERMAN EM-PEROR'S PROPOSED STOP AT MOROCCO.

Moors Are Stirred Up Against French Authority in That Country-Hope for German Aid.

Paris, March 22 .- Emperor William's proposed visit to Morocco at the moment when France is establishing her paramount influence there attracts marked attention and comment.

Concerning the visit itself reports to the effect that France had taken umbrage are distinctly denied, as it is pointed out that there is nothing incorrect in such a visit. which is altogether natural during a cruise in the Mediterranean. However, the authorities recognize that the visit the authorities recognize that the visit is being used in unfriendly quarters as a pretext to stir up animosity and excite the Moors to believe that they should resist the acceptance of the French plan for administering the country. The officials here say they do not record the Germans as being a do not regard the Germans as being a party to this maneuver which is attribut ed mainly to the Morocco correspondent of a leading London newspaper. Owing to the Anglo-French agreement

the authorities here expected the British official and press opinion would assist in official and press opinion would assist in the execution of the French policy. This policy has now reached a crisis, as the French mission at Fez is awaiting the Sultan's final answer. Therefore the Deticity may accurate that Frence with British press reports that Emperor William's visit may interrupt the French are strongly disapproved.

Relative to the suggestion that Ger-many seek equality of trade rights in Morocco it is said that the Anglo-French agreement distinctly provides for in open door policy whereby the United States and Germany and other countries have the same commercial rights in Morocco as France.

## BOMB THROWERS NOT CAPTURED.

## After Hurling Explosives at Warsaw Police Assailants Make Their Escape.

Warsaw, March 22.-1:30 p. m.-Three of the soldiers wounded last night by the explosion of a bomb thrown from a window in Volsk street into the midst of a patrol are reported to be dying. Their injuries are horrible. Clothing and buttons were forced into their bodies. No arrests have yet been made. The bomb thrower escaped. Six soldiers and two policemen were wounded.

## Polish Stocks Falling.

Despite the very large orders on hand the shares of local industrial companies 56 and 39; 23d, 48 and 40; 24th, 48 have fallen heavily on the bourse, owing and 26. to reports that the war in the far east will continue

## Agrarian Troubles Increase.

St. Petersburg, March 22. - Recurrences and extensions of agrarian troubles are noted, and near Libau workmen and peasants are making common cause. The Caucasus is already the scene of armed resistance to the forces of the civil authority, and in the region around Kieff, where the peasants are increas-ingly bold, there have been many cases of violence. The labor leaders of the so-cial revolutionistic persuasion in the

## SEEDING IN PROGRESS IN WEST-ERN CANADA.

Mild Weather Is Bringing Thousands of Settlers.

The splendid yields of wheat, oats and barley produced by the farmers of Western Canada and the excellent prices received for the same, have been the means of giving an increased interest throughout the United States. As a result the inquiries made of the agents of the Canadian Government have nearly doubled over those of the same period last year. Railroad companies are putting on increased carrying capacity to meet the demand. made upon them for carrying passengers and freight. Everything points toa most prosperous year. There is room for hundreds of thousands additional settlers, much new land having been opened up for settlement this year.

It is quite interesting to look through the letters received from the Americans who have settled in Western Canada during the past few years, and considering the large number, it is surprising how few there are whohave not succeeded. An extract from a letter written by Mr. Geo. W. Griswold, of Red Deer, Alta., formerly of Greber, Mont., written on the 2d of January, is as follows:

"I am located one and one-half milesfrom a beautiful lake ten miles long. where there is church, school, three stores, creamery and two postoffices. The fine stock, both cattle (cows and steers), horses, hogs and sheep are rolling fat, grazing in pastures to-day, just a little snow, hardly enough for good sleighing, as we just had a chinook which has melted the roads and laid bare the fields and pasture. Thereare fine wheat, oats, barley and flax raised here, also winter wheat and timothy hay for export to British Columbia. This is a mixed farming and dairy country. This is the right time to get a foothold in the Canadian West, as it was some years ago in the United States. We are free from wind gumbo and alkali here and have fine, clear, soft well and spring water at a depth of from five to twenty-five feet, and lots of open overflowing springs."

Telegraphic advices from Medicine Hat say that seeding has commenced at Medicine Hat, Lethbridge, and other points. At the former place the temperature moderated gradually until on the 19th the maximum was 45 and the minimum 26. Thermometer readings since then have been as follows: 20th, 47 and 38; 21st, 54 and 34; 22d,

During the last few days in February considerable ploughing was done near Lethbridge. P. A. Pulley, a recent arrival from Montana, ploughed and harrowed fifteen acres and E. Laliborty about the same amount. Rev. Coulter White has also been harrowing his farm. All report the ground frost free and in excellent condition. Bricklaying has also begun in town At Hartney, further east, on the 25th of February, the sun was warm and bright; wheeled carriages were in use and the plowed fields look as if they are ready for the press drills. There is every appearance that spring has arrived, but farmers do not wish to be deceived by appearances and consequently have not commenced to use their bluestone and seed wheat.

Gag and Tie Victims. The highwaymen jumped out of a clump of brush at the side of the road and at once covered Daly and former

oung and able bodied men to makes an earnest appeal for peace, saying: "Do you still think, gentlemen chauvinists, of doubtful victories? Conclude peace and allow agriculture and indus-try to revive and set to work and re-generate the people. That is the victory Russia needs. Glory be to him who leads." 

to accept battle against his better judgment, owing to the impatience of St. Petersburg for victory and he was confirmed in this decision by false calcula-tions of Field Marshal Oyama's strength. One of the main factors in the success of the Japanese was their violation of Chinese neutrality in the use of the Sinmintin road.

St. Petersburg, March 21.-Imperial fours today touched 87 on the St. Pe-tersburg bourse ,the lowest point since the war broke out.

St. Petersburg, March 21.-1:15 p. m. --Gen. Linevitch's headquarters has been established for the present at Chenchiawatzuk, situated at the crossing of the Sungari river, whence he is directing the Sungari river, whence he is directing the retreat of the three armies and disposing of the fresh troops of the Fourth corps just arriving from European Russia. The protection of the Sungari bridge is vital to the salvation of the army, as the river is not fordable below Kirin, and once the line of the river is passed and the bridge blown up the Japanese pursuit will be effectually checked.

## Destroying the Roads.

At the same time the second army is falling back of the line of the railroad, while the first and third, with the transport, are retreating along the Mandarin road to Kirin, both destroying bridges

## Tolstoi Predicts More Wars for His Country.

St. Petersburg, March 21.-Count Tolstoi in an interview reiterates at length his views on the inefficiency of the proposed governmental reforms. He says:

He says: "This striving for a renewal of the state is impossible until the people have within themselves the image of the liv-ing God. Civilization has become sav-age. When the war with Japan is fin-ished there will be war with India for Tibet.

"Human happiness is only attainable "Human happiness is only attainable when each individual will do his utmost —one in the workshop, another in the field, and another to compose sonatas; it only matters that each fulfills his duty, creates something. Positive rest will come of itself. Reform is of little value when humanity is savage."

and roads and denuding the country behind them and making it impossible for the Japanese to live in the immediate wake of the retreat without their own commissariat.

## Japs Have Plenty to Eat.

The Japanese are advancing over the grand trade route, twenty miles west of the railroad. However, they could probably live on the country, the road just before the opening of the navigation of the Liao river being crowded with Chi-nese provisions on the way to market southward.

Apparently it is a question as to which army will outmarch the other, although the general staff seriously doubts the ability of Field Marshal Oyama's fa-tigued soldiers, with the difficulties of

trate, reinforce, partially reorganize and construct works at Changehun and Kirin.

## Weaken Vladivostok.

It is reported that a portion of the Vladivostok garrison has been withdrawn and hurried to Harbin, but no confirma-tion of the rumor is obtainable. The discrepancy between the Japanese and Russian reports of the number of guns captured at Mukden remains un-cleared. The Japanese are recovering gun parts from wells in the vicinity of Mukden and it continues to be suggested that the Russians buried guns or threw them into the rivers. The Japanese are them into the rivers. The Japanese are continuing their search.

The first Mukden prisoners are arriving in Japan. The government has char-tered and fitted out forty steamers to assist the transports in carrying prisoners and wounded.

## TYRANT SHOT

## BY YOUNG BOY.

Boy Attempts to Assassinate the Governor of Viborg, Finland-Work

of Terrorists.

Viborg, Finland, March 21 .- Gen. Miasoredoff of the province of Viborg was shot and seriously wounded yesterday by Matti Hjalmar Reinikke, a one-armed, 15-year-old boy, who confesses that he belongs to the revolutionary society. The governor's condition is critical.

Gov. Miasoredoff has been most energetic in the Russification of Finland, and memorials have been sent to the estates petitioning for his removal on account of his alleged illegal methods and the general conditions in his province, which were pronounced to be intolerable. Reinikke halls from Kurikke, in the northwestern part of Finland, but re-cently has been living in Stockholm to It is reported that President Castro re-

avoid arrest on account of his known revolutionary ideas. He returned four days ago to Finland by way of Tornea, and spent three days in Viborg. great industrial centers are plainly planning to synchronize a general re-newal of the strike with the climax of the peasant disorders, and, with the action of the troops in mind, have been serving notice by anonymous letters and other warnings on guard officers here and officials in other cities that if an-other "Red Sunday" comes and they or-der the troops to fire they will be held responsible therefor and their lives be made the forfeit made the forfeit.

## Zemstvos Grow Bold.

The Moscow assembly of zemstvos is forcing the hand of Interior Minister Bouligan in the matter of reform ukase of March 3, and has taken the bold step of requesting and practically demanding that the minister accept the services of zemstvo delegates throughout the empire in drawing up the plan of the new gov-ernmental organism, to be created under the rescript. A strong hint is given that the present is no time for delay.

Minister Bouligan is even told the number of delegates he should summon from various urban centers. The action of the Muscovites, which will be comnunicated to other zemstvos, indicates a strong determination not to permit the Former Chief of Union Pacific Said to movement to slumber or come to naught.

Police Official Shot.

Lodz, March 22.-The workmen in a number of factories again struck today. A police official was shot and severely wounded. His assailants escaped.

## CABINET MINISTER

## DIES FOR DANCER. Antonin Proust, Member of French Gov-

ernment, Commits Suicide After Quarrel.

Paris, March 22, 2:30 p. m.-Antonin Proust, minister of fine arts in the Gambetta cabinet, died today, as the result of two shots in the head, self inflicted. He had long been a victim of melancholy, which is believed to have been intensified recently by differences with Rosita Mauri, the cerebrated dancer of the opera, with whom he was closely associated. She dined at his apartment Monday evening, the tragedy following shortly after her departure.

## IRVING DEFERS TOUR.

Great English Actor Will Not Come to the United States Next Season.

London, March 22 .- Sir Henry Irving's United States and Canadian tour been postponed for a year by the advice of his doctors that he should not undertake so great a strain. The health of Sir Henry is improving and all prepara-tions are making for his appearance at Drury Lane theater April 29.

## HYDE SECURES A DELAY.

#### Won't Mutualize the Equitable for Four Years.

New York, March 22.-James H. Hyde carried through his plan of delaying for four years the mutualization o the Equitable Life Assurance society. I In doing this he gained a victory over Presi-dent James W. Alexander, who a week ago compelled the Hyde forces to agree to allow the 600,000 policy holders of the society to elect twenty-eight of the directors to twenty-four elected by the stockholders. Whether Mr. Hyde's triumph will prove to be permanent or only temporary, will depend upon the courts and the Legislature.

## Not Lonesome.

Seated on the grass in front of a sod cabin in Oklahoma was a man cleaning a double-barreled shotgun, and after we had conversed for a few minutes I asked him how far it was to the nearest neighbors

'A trifle over two miles," he replied. "As far as that? You must find it rather lonesome here."

"No, I can't say as I do." "Perhaps you are not one of the lone-some kind." "No, I'm not. But, you see, I mort-gaged this claim for \$400."

Yes And I couldn't pay and they fore-

closed on me.

"I see." "That was two years ago, and the sheriff has been trying to get possession ever since. He comes twice a week and we have a shot at each other, and at least twice a week some durned fool comes along and wants to know if I ain't nesome, and when you add the claim jumpers, the rattle snakes and the skunks, this life is about the excitingest thing I know of. There comes the sheriff now, and you had better get down behind that log and keep clear of his buckshot."-Topeka (Kan.) Journal.

# SURPRISED AT

UNITED STATES.

## German and English Holders of Venezuela Bonds Don't Understand Interference.

London, March 22 .- At the office of the counsel of foreign bondholders the Associated Press was informed today that an agreement between the Venezuelan government and the British and German bondholders adjusting and consolidating the exterior debt, \$28,600,000, will be signed tomorrow, the details having been concluded to the satisfaction of both par-It was added that the guarantees ties. comprise considerably more than 50 per cent, of the customs duties of all ports, except La Guayra and Puerto Cabello, but the officials declined to give the exact figures.

#### Surprised at America.

Surprise was expressed at the dis-patches from Washington intimating that the American minister at Caracas, Mr. Bowen was socking to propose the arti-Bowen, was seeking to prevent the ratification of the agreement which the coun-cil of foreign bondholders contends is entirely in accord with the Washington protocol. The British and German foreign offices have been consulted and agree that the bondholders are entirely within their rights in the provisions of the pro-

#### New Issue of Bonds.

The council of foreign bondholders has been working for a guaranteed payment since the promulgation of the protocol, first on a scheme which provided for a settlement of the Venezuelan indebted-ness to all countries, but this plan was killed by the withdrawal of the French last October. Thereafter the British and Corman hondbolders united and secured German bondholders united and secured President Castro's agreement to allocate a portion of the revenues of La Guayra and Puerto Cabello, to which Minister Bowen objected. Since this frustration in January, the bondholders have been at work on the present agreement, which provides for the issue of new 3 per cent. bonds to cover the debt of the Anglo German bondholders amounting, including arrears, to about \$28,600,000.

## No Ultimatum Sent.

Paris, March 22.—The Matin says Ambassador Jusserand will confer with President Roosevelt today relative to Venezuela and adds: "An ultimatum has not been sent. President Castro having taken the case of the French Cable com-taken the case of the French the case of the case of the French the case pany to the courts, France intends to leave it there until a decision is given, when she will be prepared to adopt all After Many Years of Separation They the measures necessary to secure respect for the rights of the French citizens."

## Postponed Sine Die.

The French Cable company has re-ceived a further dispatch from M. Brun, its representative at Caracas, confirming the postponement of the decision of the court relative to the company's concessions. He says the postponement was sine die. The company's officials here sine die. The company's ometals here say the postponement resulted from the representations of the French minister, C. Wiener. It is understood that the representatives point out that the com-pany is a government concern and that an unfriendly attitude toward it would amount to an unfriendly attitude toward amount to an unfriendly attitude toward the French government.

The company is reticent as to its future attitude, is still unadvised of any cutting of cables and expresses a desire amicable adjustment with Presifor an dent Castro.

## THE COES ARE REMARRIED

Conclude to Join Their Fortunes Again-Bride a Milwaukeean.

Cincinnati, O., March 22.-[Special.] -After a separation of more than twen-

ty-five years during which time each thought the other dead, Mrs. Eva S. Coe, for twelve years an attendant in the Milwaukee Public library, and A. B. Coe, her former husband, of Ravena, O., were remarried last night. The Coe's were married in Ohio, but separated after less than two years, Mrs. Coe returning to her home in Wiscon-

oe returning to her home in Wisconwith her infant son and later seured a divorce. Both thought each other dead until

recently when a correspondence sprung up between them, through a newspape article and the old love was renewed. Coe had married a second wife in the meantime, but she has been dead ten years.

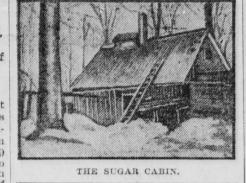

## LATEST MARKET REPORTS.

MILWAUKEE, MARCH 22 EGG AND DAIRY MARKETS.

Much of the Genuine Product Is Made in the Green Mountain State-Teams the Sap-Picturesque Sugar Camp.

The little brown loaves of maple suare made up in largest quantity in the woods of Vermont. The making of sled, and chained down. When the alone, for wherever maple trees are found in sufficient numbers to make the tapping of them profitable, the sap is drawn therefrom and boiled into sugar. Then, there is the "maple" sugar manufactured from corncobs and

ordinary broom sugar, but that is another story.

However, much of the genuine maple sugar used in this country is made in the Green Mountain State.

still frequently employed and they add something to the picturesqueness of INDUSTRY WHICH FLOURISHES the work. Roads are broken out in every direction through the woods, and along these the horses or oxen draw a stout sled made with wooden shoes so as to go with almost equal ease over bare ground or snow. Upon this sled Sometimes Employed in Gathering is fastened a big tub called the "drawtub." Into this the sap is gathered, being poured from the buckets at the trees and brought to the sled in pails. gar which find their way into market The draw-tub is made largest at the bottom, so as to sit firmly upon the the sugar is not confined to that region gathering team reaches the sugar house the contents of the draw-tub are pumped or dipped out and carefully strained into huge tubs called holders. Thence the sap is put into the boiling

pans and after several hours boiling the contents become a syrup-a thick brown liquid half way between sap and molasses. The syrup is then taken out, carefully strained and put away in clean wooden tubs to cool and settle. If the product is to be marketed as maple syrup, it is simply boiled until of the required thickness, and then put into the gallon tin cans in which it is to be shipped. If sugar is to be made, the boiling is continued for a length of time which varies according to the

form into which it is to be finished. There are various ways of telling when the sugar is boiled enough. An experienced maker can tell by the thickness as it drips from the edge of a wooden paddle which he has dipped into it. When it has reached a certain consistency a snowball held firmly and

dipped into it comes out capped with a thin brown coating, delicious to be The industry is no longer as pic- eaten. This is called "waxing it," and turesque as it once was, because many is the favorite form for eating. When of the least practical features have the cry goes up from some watcher been eliminated, and there is not so who has been experimenting, "It's much of sport connected therewith as ready to wax," the visitors leave their formerly, but from a description given various occupations of whittling,

GATHERING THE MAPLE SIRUP IN THE FOREST

by a writer in the Cosmopolitan, one story telling, et cetera, and crowd into may safely say that if there is a rea the sugar nouse, bringing with them sonable amount of help to do the work, buckets which they have filled with life in a maple sugar camp is some- clean snow from some belated drift. The hot brown syrup soon cools upon thing of a picnic. In Northern Vermont the season be- the snow where it is poured, and it is gins about March 1 and lasts from then eaten with a small wooden padfour to six weeks. The most favor- dle. He who has once eaten it under able weather for the flow of sap is such conditions and surroundings will a succession of cold, frosty nights fol- ever taste anything quite so delicious lowed by warm, sunny days. After elsewhere. several days of good running weather, Going from the fire-lighted interior during which the sap has flowed freeof the sugar house to the outside is ly, the yield grows less and less until like going into another world, a fresh, a storm, either of snow or rain, seems pure world, of which most of us know to give the trees renewed life. With nothing. The air is crisp, and clear, the swelling of the first buds the flow and cold. All about stand huge trees ceases entirely. A good tree, under fa- of the original forest, no one knows vorable circumstances, will yield from how many years old, their gray-white four to five gallons of sap in twenty- trunks rising in the dim like pillars in four hours, delivered drop by drop into some vast cathedral. Far above, the the buckets hung against the rough stars shine through the interlacing branches. Or perhaps the moon is The "sugar place" selected, the work clear out, flooding all the place with a begins early in March, the sugar house clear light which dissipates the lurking illusions of the starlight, but replaces them with a bewildering tangle of light and shadow which is no less beautiful. Unless there is a murmuring brook near by, the silence is intense, until, far back on the mountain side, an owl sounds forth his deep. reverberating call.

#### Burns Like Tinder.

The Grover factory was situated at Main and Calmar streets, in the Camp-bell district, about a mile south of the city proper. The district is within the indication of the district is within the city of Breekten A source of the greater bar of the greater bar for an out during the early hours of the norming and as far as can be learned, no damage resulted from it. Flood Is Prevented. city proper. The district is within the city limits of Brockton. A series of alarms summoned all the fire apparatus in the city to the scene and aid also was sent from near by places. The firemen experienced the greatest difficulty in battling with the flames as the Grover fac-tory was of an extremely inflammable

The heat of the fire was so intense that the work of the firemen and police was chiefly given to the Grover building, especially that part of it which was nearest the boiler house and in the early stages of the fire a number of employes were extricated from the ruins. The flames, however, soon stopped the work. Tons of water was poured on the ell, but the fire became so hot the men had to with draw.

Meanwhile news of the accident had reached the homes of the operatives and through the crowds already near the burning factory, men and wonen were struggling wildly toward the center to get news of relatives. When the flames reached Dalborg's block, even the fire men were obliged to retreat temporarily and it was feared that a large section of the district would be obliterated.

## Many Narrow Escapes.

The occupants of all these buildings had little time to save their effects. Some barely escaped themselves. Reinforced by the arrival of other apparatus, however, the department made a fresh at-tack and after a hard struggle succeeded in stopping the spread of the flames, al-though the Dahlborg block and one or

The Dahlborg block and one or two smaller buildings had been ruined. The Dahlborg block was occupied on the ground floor by the owner as a hard-ware store. The upper stories were giv-en over to offices and to a large hall. The block with its contents was valued at about \$50,000.

## Loss Is \$200,000.

The financial loss of R. B. Grover & Co., estimated at about \$150,000, is near-ly offset by insurance. After the explosion many employes

went to their homes as soon as they left the building. This added to the difficulty of the police and of factory foremen in compiling a reliable list of missing. The Brooton hospital was notified at once of the disaster and hurried preparations were made to receive the injured.

### Can't Identify Bodies.

the collapse of the floor of the boiler room. Nearly all the victims had been literally precipitated into a fiery furnace and had seemingly met death instantly. The friends and relatives of persons re-ported missing attempted to identify the

## THE TERM "IDIOT."

#### In the Original Greek It Simple Meant a Private Person.

The word idiot is itself of interesting history. Its primary Greek significance was that of a private as distinguished from a public person. Our words Idiom, idiosyncrasy, etc., are from the same root. The idiot in Greek was simply one not engaged in public affairs. The beginnings of the degradation of the word are shown in its application soon to the common people as distinguished from the upper classes. It was then applied to unprofessional and lay people and soon became the slurring title of the unskillful and awkward. By slow degrees it became applicable to the stupid and at last to the imbecile and idiot. As late as the sixteenth and seventeenth centuries the word was still used in its earlier senses. This long sad history speaks indirectly of the pathetic history of the imbecile. If he was not killed or starved to death by neglect, etc., he was usually reduced to the condition of a beast either about the house or fields or was actually driven into the woods and forced to live in caves, among wild animals, etc. In 1799 Itard took a "wild boy" found in the forests of Aveyron and tried to teach him. The ability of the wild boys and wolf children to live and the number that did so shows that idiocy, as we have later learned, is of all degrees and that a mind may be variously defective in some ways, even idiotic, but in others with capabilities well preserved. Blind Tom, the pianist, and the large number of mathematic idiots are examples that show how far we are from understanding the real nature of idiocy, and they more than suggest stituted the bit of pork. At length the partial retention of sound mentality of the defective, the possibility of seizing upon the one or few normal or even the bearskin flap of his saddlebags, highly developed faculties and per- drew out the brown paper package, haps bringing others into co-ordination carefully untied the string, unfolded with them and to normality. The court the paper with decorous gravity and fools and jesters of the olden times then, without looking at what he held were often such partial idiots and de- in his hand, exclaimed triumphantly, the upper class makes laws to prevent fectives, and they truly lived upon their "wifs," which were often better What wonder that the fiery young than those of their masters .- American lawyer blazed with anger, while the Medicine.

## THE LIGHT BRIGADE. How the Six Hundred Rode Into the

Jaws of Death. Sergeant Macauley, who died on Jan. 6, gave this account of Balaklava:

On the morning of Balaklava I was in a tent with eight comrades, and only one, the outside man being called Herbert. We had not gone far before Her-

bert was killed by a cannon ball. A moment or two after my right hand man had his head taken clean off by a round shot. His trunk kept upright on

began to fall very fast, and we galloped his name entered in the register. as hard as ever we could. We got among the guns at last, and

if it was a proud moment for us the feeling was short lived. We fully expected to be supported, but when the smoke cleared we discovered that what we took for British troops were in reality Russian cavalry. They came for us in a perfect cloud, and we faced about and rushed right into them. There was an awful clash of swords, and almost before we could realize it we had cut right through them. This opened a passage for the remainder of the brigade and was the only real bit of fighting we had. The other was only slaughter.

# HE CONSULTED BACON.

#### Why Andrew Jackson Fought His Duel With Colonel Avery.

It was Andrew Jackson's habit to carry in his saddlebags when he attended court a copy of "Bacon's Abridgment" and to make frequent appeals to it in his cases. This precious book was always carefully done up in coarse brown paper, and the unwrapping of the volume was a very solemn function as performed by Jackson, who was then only twenty-one years old. Colonel Avery during the trial which preceded the duel between himself and Jackson procured a piece of bacon the size of the book, and while Jackson was addressing the court he slipped out the volume from its wrapping and sub-Jackson had occasion to appeal to Lord Bacon. While still talking he raised "We will now see what Bacon says!" courtroom rang with laughter at his expense and that he afterward chal-

lenged Colonel Avery.-Harper's.

## The Best Career for Women.

On every hand, the American woman s conceded to be remarkable. Her quickness, her keen intelligence, her wonderful adaptability, her unusual charm, are undeniable. If ever a wom-an needed and deserved a career, she does—a career open to her talents. There is a career, too, in America, that especially needs the best gifts of the American woman, her wisest thought her highest executive ability, her finest endowments. Yet it is so neglected a

career that most women never think of should be the smit as a career at all. As an opportunity after dinner cups.

nervously deranged except in a new at-

titude toward life." The Quakers understand all this. Liv ing in the same climate and under the same pressure as we, they are yet the most unnervous of people, because they have mastered the art of right thinking. "I have seen people," she continued, "whose nerves were on edge and whose brain cells appeared all to be revolving

mon experience. "Until we go to the mind for the cure riage. Our single women need feel no shame in frankly facing the fact that marriage is more desired than celibacy. Every one knows that it is—other things Every one knows that it is—other things being equal. If marriage laws are wrong, mend them. If other people's marriages do not please, improve on them. But marriage itself remains a good thing—one of the best things in the world mind as walking, weeping, smiling. There is no case of nervous prostration the single woman who "naturally and ra-tionally wishes to marry, and who lives where there are not enough men to go round? Something like this: "Here am I, free, white and 21 (or Linter of the the single server that the mind, if used persist-ently and intelligently, cannot cure it." Nervousness and selfishness are prin-cipally synonymous in Mrs. Cheney's mind. "If selfishness did not exist, nerv-ousness would be unknown where there are not enough men to go round? Something like this: "Here am I, free, white and 21 (or over!) I intend to marry if I'm suited— hereabouts no one suits me—and of such as I do see there aren't enough to go around. I also intend to earn my liv-ing, and in that, as in marrying, I am immoded by the number of my sisters.

brother has gone to Oregon, to do lum-bering. My cousin Jim has gone to Alaska, to dig gold. Neither of these purposes is so noble or important as mine. I will arise and go hence, to the place that suits me best, where there are enough men to choose from.' "Then she should consider the map of her country, choose the state that suits the quality of the messages we have sent

Under the Roof-Tree. Domestic training for girls seems to be engaging the intelligent attention in all civilized countries, says the Newark News. Never were the people of this country so intent upon teaching all branches of domestic science as they are today, and they are willing to spend time today, and they are willing to spend time today, and they are willing to spend time today. the table and drawing room so those who come perfunctorily remain to chat over the teacups and forget the time of day. A bright open fire is one of the things to have a bor broken. A bright open fire is one of the things to have a store the perfunctorily remain to chat over the teacups and forget the time of day. A bright open fire is one of the things to have, if possible, and cozily near it success in business, to as good a living good sized and perfectly capable of prac-tical service. In the center should be a tical service. In the center should be bowl of flowers, and about it two can-delabra or several individual candlesticks raries that this subject has been greatly agitated of late in Switzerland, and no expense is spared in the equipment of their schools. They teach everything, in-cluding the proper way to lay a cioth and set a table and way be a large punch set a table and way be an large punch.

Tea made with a kettle of boiling water and a tea ball is convenient for

three or four persons, but the urn is best thing to use for a number. Have the tea made in the kitchen and carefully strained; then put it in the urn and light the lamp, and it will keep fresh for ours

Have cream, sugar and sliced lemons on the table, and, if you fancy a novelty, try putting two cloves in each cup pouring the hot tea upon them, removing them before passing the cup. Coffee and bouillon should be served from an urn, and the cups used for either of these, and for the tea as well, should be the small flaring teacups, not

#### Jealous Parisian Lover Slays a Supposed Interloper.

concern in her voice: "I am in charge of the workers' de-A romantic and tragic story was told at the police station of the Vilette quar-ter, Paris. A young girl, Pauline Grand-jean, employed in a dressmaking establish-ment wade the partment of the store and I wanted to inquire for Mrs. Beaumont." "Alas! madam, my mother is very ill." " Iam truly sorry to hear it. Mr. Gray, the owner of the store, desirous ment, made the acquaintance of a young man named Drouant, to whom she became engaged. She told her fiance, how-ever, that the name she went under was not her real name, and that there were secret reasons for this fact, which she of bestowing a well-deserved compensa-tion for her work, asked me to bring it to her, but now, now-"" "Oh! madam, my mother has asked refused to divulge. Drouant apparently accepted this, but

seemed suspicious. Calling unexpectedly upon the girl he found in her flat a postcard bearing these words: "I shall come and see you this morning. You have my love in spite of all that has hap-pened, and we will try and forget the

"My diploma," she repeated, in a voice that was scarcely audible. "I should never have shown it—because of Mary Mark Mad with jealousy Drouant determined to be avenged on what he regarded as the treachery of his fiancee. He hid himself in the flat and waited for the arrival of the author of the postcard. An hour or two afterward the girl re-turned and was soon followed by a man. -but I should have been so glad-to Fortunately the visitor did not understand the meaning of her words, but Mary blushed scarlet. A moment later, as the young girl turned and was soon followed by a man, who immediately upon seeing her fell into her arms. Drouant sprang from his hiding place, and, tearing the man from the girl's embrace, plunged a knife into his back. The man fell in a dying andition.

Murderer!" screamed the girl, "you ave killed my brother!" The mystery to which the girl had referred was this: Her brother had been condemned to two years' imprisonment and had been re-leased the day that he wrote the post-card. The two had changed their name in order to start life afresh, and the man had come to see his sister for an hour before going out into the world to search for work. The injured man was taken to the hospital in a dying condition, though he still lingers on. He refused to formally charge his aggressor.

## Beef Tea Not a Success.

This story was told by an old physician slow steps Mrs. Beaumont who had practiced for nearly fifty years in a small country town. One day he was summoned to a farmhouse where he found a woman in a high fever and evi-dently exceedingly ill. He said to her husband, who was the only other person in the house: "Your wife is very sick and must

have nothing to eat except milk and beef tea, but I want you to give her a cup of one or the other every two hours." When he came the next morning and asked about his patient her husband said:

"That beef tea don't agree with her, doctor. It certainly don't. She began to feel bad as soon as she took it." "That's odd," said the doctor. "You

didn't give her any little bits of the meat in it, did you?" "No, sir. I strained it first on account

of the grounds." "Grounds." roared the doctor. "What

did you make that beef tea out of?" "Corn beef and the best green tea. I

turned once more to her mother's bed-side, it seemed to her sorrowful fancy that the diploma lay like an epitaph on he white bed. Three weeks later Mrs. Beaumont, very feeble, very pale, left her room for the first time. The doctor had at last given his consent. She had been near, very near, to the gates of death, but, thanks to her daughter's devoted care she would still live many years.

Mary, too, was no longer the same girl he was before her mother's illness. In er turn now she had watched the long

night change to day, each hour more thankful that she could thus repay some part of her childhood's debt. A new expression shone in her white face as sho elped her mother to dress and presently drew the thin arm under her own. "Come, mamma, I have a surprise for With

band died: "What would have become of us then, chieved the long journey from her roon

"Mother," interrupted Mary, interested

"Certainly, dear A diploma is a thing to be very proud of. I shall have one, liploma hung, this one much more beau ifully framed than the other.

our store. "Oh! Mary—

with amazement her protests that she isu't hungry, that she never eats at irregular hours, and such other excuses as she can make to protect herself from eating when she really doesn't want to eat. That she is not in a constant state of starvation appears to strike him as unbelievable.

When he takes her out to lunch he thinks it funny if she won't have a full dinner. from oysters and soup clean through the multitudinous courses. If he has had her on an afternoon jaunt he al-ways finishes it with, 'Now, let's go get something to eat.' And if they've been to the theater he considers it an unpardonable sin if they don't go somewhere and eat at midnight things that wouldn't

be good for them at any time of day. "They say a way to a man's heart lies through his stomach, and young wives are always advised to 'feed the brute' if they wish to retain his affections forever. And it may be true. Men may be nine-tenths stomach and one-tenth heart, for all I know.

'But women are less material-at least, the women I know best. With them it's nine-tenths heart and one-tenth stomach. They like a man to recognize this ethe-real fact, and the nicest of them experience just a little shade of resentment it he doesn't

Yet a woman likes a generous man. Oh, yes. And dislikes a mean one with equal fervor. And she likes to feel that man wants to be nice to her. But in her heart she has to smile a little bit at the importance he attaches to her appetite, as if eating were the main business

in life. "When, really," she finished, dreamily, "there are other things ten thousand times more important—at least to a wom-an."—Philadelphia Evening Bulletin.

## Go West, Young Woman, to Marry!

Mrs. Charlotte Perkins Gilman, whose trenchant pen is constantly busy emancipating women from the traditions of the past, promulgates in a recent num of The Independent a novel solution

of the "old maid" problem. Mrs. Gilman admits that it is a problem. The census proves that there are nearly 2,000,000 more males than fe-males in these United States, so that there ought to be a fair show for every woman to get a husband leaving over a million extras to serve as a "second help-ing" for widows. Why, then, do spin-sters exist? The difficulty is that they are not distributed around in the right places. In Massachusetts, for example, there are 70,398 more women than men.

Now, says Mrs. Gilman, why don't all these surplus ladies pack up and emigrate to the sections where men abound? do they sit "waiting and waiting for an arithmetical impossibility? Perhaps they think their charms and virtues are such the men of Alaska and California seek them out. \* \* \* Perhaps will seek they think it is a woman's place to wait -that it would be 'unwomanly' to move hand or foot to meet him.

Yet they go to considerable length to meet the possible mate when he is in sight. So do their parents. And why "is it less 'womanly' to go to Colorado be-cause he may be there than to go to a ball because he may be there?"

for vitality and really influencing the "It's funny," she mused, "that a man's world, they refuse to consider it. idea of entertaining a woman is always to get her something to eat. He seems to educated woman," says one college wom-an famous for her ability and experifeel that he hasn't done the thing proper an, famous for her ability and experi-at all if he hasn't fed her. He regards ence, "is the elevation of the home into ence, "is the elevation of the home into its place in American life. The home and the school are the two pillars upon which American institutions stand. The proper correlation of these is the work of the coming year. The school can do much, but it cannot undo all the mis-chief in the home"

The home-maker who does not know how to provide nourishing food, of the best variety and quality, for her household, the woman who cannot manage servants and cannot do without them, the woman who does not train her chil-dren in the line of their best possible de-velopment, the housekeeper who is nelther economical nor efficient, is so com-America that we have almost mon in ceased to expect her to learn. The

American woman who makes a career of a home, who brings brains to house-cleaning and to bills of fare, who knows how to manage her subordinates because she knows their work thoroughly herself, who has definite aims as to her children's manners and ideals, is the exception, not the rule. The woman who complains of ome conditions, instead of creating

them, and who wants a career without seeing the one at hand, is increasingly heard in the land. It is all very well to smile at the German savant's ideal wife, "who had seventeen children and no opinions," but the American variety with seventeen clubs and no children certain-ly shows up badly by comparison. The oman who can make and keep an ideal home—clean, comfortable, simple, rest-ful, cultivated, hospitable—has achieved the best career, after all. No woman an make such a home without being intelligent and ambitious of excellence. "There is no stupid work; there are only stupid workers," says the French philstupid workers," says the French phil-osopher. Nowadays, when so many women find home-making stupid, is the trouble in home itself, or in the stupidi-tr that faile a more itself.

ty that fails to recognize the most beautiful opportunities of life?-Harper Bazar.

## Nervousness Silly.

Nerves and nervousness furnished the text for Mrs. Vance Cheney's lecture in New York a few days ago. As "nerves" are said to be the great modern disease,

and nearly every woman present owned up to a more or less intimate acquaintance with them. Mrs. Cheney's words fell on fertile soil. "If we would only devote the same amount of time to it that we give to ac-

adult with a complete mental equipment rado, just by way of instance, have a magnificent surplus of the sterner sex. Now, says Mrs. Gilman, why don't all nervousness-and the only one-is self-

Why revelation. "As the nation has accumulated health and increased in culture it has deteriorated nervously, following the physic logical law that as a race of animals or men develops and progresses it tends to take on disorders of a more refined and complicated type. "Today among our highest classes

nervous derangements are common. They lead to manifestations which have been treated as diseases in themselves, al-though in reality they are but the reflex action of the nerves. "Intelligent physicians no longer at-

It isn't one bit unwomanly, avers Mrs. Gilman. The trouble is that women don't frankly recognize their right to be married. "There is no large, bold facing of the problem; no frank recognition of "There is no permanent cure for the "Large the polarities."

A Russian samovar makes the best te of all. With it tall slender glasses take 'The greatest field now offered to the the place of cups and are passed on small plates, with a slice of lemon in each

When chocolate is served at a tea whipped cream is put on it when served. For lemonades, bananas, pineapples and shredded oranges may be used. exhibit it served cherries are added. A small ladle is used for filling the

glass cups which accompany a punch bowl. Tea punch is made by using hot tea in

stead of water for lemonade, adding the fruits as before, but putting it when ice cold into a glass pitcher instead of a bowl and placing a large bunch of sugared mint in the mouth.

Cafe frappe is strong coffee, well sweetened, and with a good deal of cream, which is frozen to the consistency of wet snow. It is served from the bowl in glasses. Sandwiches for afternoon teas are sometimes filled with a salad mixture, sometimes with a sweet, and often with

some sort of nuts with cream or fruit. They are cut in circles, or triangles, or hearts or else rolled. Sweet sandwiches are filled with or-

ange marmalade, or peach or apricot jam, or peas conserve. Boston brown bread or whole wheat

bread two days old, sliced thin, spread with a little butter and then with cream cheese mixed with chopped peanuts, is one of the best of sandwiches. Raisins and chopped English walnuts,

or a mixture of chopped dates and al-monds are good fillings. Whipped cream may be used with either to bind the parts. For salad sandwiches chicken or tur-

key is pounded to a paste and mixed with mayonnaise, or crisp lettuce leaves are spread with mayonnaise, or olives are chopped and used with or without a dressing.

The thinnest possible shavings of lemon are a delicious sandwich filling, also cucumbers with French dressing. Cake at afternoon tea is always of the

Cake at afternoon tea is always of the lightest variety and never layer or fruit. Strips of puff paste may be covered with chopped almonds mixed with the slightly beaten white of one egg, and just browned in the oven. Lady fingers may be rolled in boiled frosting and allowed to dry. Saltines may be covered with sweet melted chocolate, with a little butter mixed in.

Ice cream sandwiches are made by slicing on a marble slab firmly packed white brick ice cream. With a round biscuit cutter circles are cut from the slices and put between macaroons or sugar wafers. Serve on small plates sugar wafers. with forks .- Philadelphia Inquirer.

## Bird Hatched in Polar Winter.

Dr. E. F. Wilson's lecture at the Royal institution on the emperor penguin was illustrated by skins, eggs and a num-

was industrated by skins, eggs and a num-ber of lantern pictures of the birds and their rookeries. This fine species, larger than the king penguin which has been exhibited in the zoological gardens, was discovered during Capt. Cook's second expedition, but until the return recently of the Autoritic consolition until an expedition, but until the return recently of the Antartic expedition, nothing was known of its life history or habits. The curious thing is that the birds are hatch-ed in the depth of the Polar winter. A single egg is laid, which is brooded be-tween the bird's feet and the soft plum-age of the body. The chick is clothed in grayish white down, which is moulted after five months, and when about a after five months, and when about a year and a half old the immature plum-

store.

of that.

o do.

"It would not stand for any intellec-tual superiority. It would be merely

sign of good conduct. Anyway, mothe hope you'll have the good sense not to Mrs. Beaumont's hands trembled as Mrs. Beaumont s names trembed as she bent over the work in her lap. She understood now that her daughter was ashamed of her. Mary's words came back to her, the young girl's invariable reply to the questions of her schoolmates, "My mother?" Oh, she doesn't do any-thing" "Pacause" as the later appleind

hing." "Because," as she later explained to her mother, "there is no use in telling the whole world of our private affairs."

"What is the matter, mamma?" asked Mary, astonished at her sudden silence. 'Nothing. I just pricked myself; that is all.

"Have you not some friend or relative who can come and stay with you?" asked the doctor as he wrote out several pre-

riptions. "No, sir, but I am able to take care of my mother myself."

'You are very young, Miss Mary, to alone at such a time."

"Oh, sir, you-you do not mean that that mother is worse?"

--that mother is worse?' "Her condition is very grave," replied the doctor, with a kind smile. "Serious, but not desperate. People recover from moreo things than congestion of the

ungs." "Oh! doctor, when I think that it has been for me that she has made herself ill; I begged her to rest, but she would ork late, late into the night, that my clothes might be in perfect order before I went away to take my position as

school teacher—the position that I hoped would make her life so much easier. For she is tired out, is she not?" "It is certain that your mother has

reached the end of her strength, that she has even deprived herself of necessary rest and relaxation for too many years, and this will, of course, render it nore difficult for her to get well

"Oh! my mother," moaned Mary, hid-ing her scarlet cheeks in her hands. "It was for me that she deprived herself For me

Day and night the young girl watched irelessly at her mother's bedside trying to read some sign of encouragement in the doctor's sober face. Mrs. Beau-mout's weak voice rang in her ears: "Mary-I must get up-there is work that I must finish!"

"Rest quietly, little mother, it is all done, I assure you."

But the weak, delirious voice would continue: "You must take it to the store. Ask for the lady in charge of the work-ing department. You can pretend that you are doing it for a sick neighbor. I know it is hard for you, a teacher with a dinlome to have a methor like me only liploma, to have a mother like me-only poor working woman. I never though

of it before, but I saw it the day you trought your diploma home. I think my heart broke that day!" "Mother, mother," implored Mary, "be

merciful, do not speak so—" The sick woman smiled gently, her

The sick woman smiled gently, her thoughts turning now to the diploma of her thirty years' work. "Thirty years," she whispered. "I was young then. I am an old woman now! she asked me what my diploma would stand for; it isn't much, only my whole life. Oh! I should have liked to have had it-three months more-but now, I cannot do it!"

Once more she would beg for her work. and it was with difficulty that Mary kept her in the bed.

saukee Believes Milwaukee and Chicago Doomed. SHOES AND DUST LEFT BEHIND.

> After Telling in Foghorn Voice of Future, Recluse Leaves His Strange Haunts for Long Tramp.

Wausaukee, Wis., March 20 .- [Special. ]-Predicting in a foghorn voice that Chicago will shortly have an awful loss of life and property, and that there are terrible things in store for Milwaukce and Wausaukee, the details of which he refuses to tell, "Hermit Jim" Anton, has left the dust of this village and neighborhood on his old shoes, purchased gayety and sports dear to young peoa pair of new ones of cowhide, and has gone to parts unknown. Anton says he will hoof it from this village to Seattle, Wash.

## Refuses to Follow Precedents.

Anton is a most peculiar personage. Anton is a most peculiar personage. He came here about a year and a half ago from the upper peninsula of Mich-igan and "struck" M. G. Ledvina for a job. The latter sent him out to cut cordwood on his land southeast of the village. Instead of living like other men Anton erected a crude cabin in the woods and has been living the lonely life of a hermit ever since he put in an ap-pearance here, the mysteriousness of which was only equalled by his disap-pearance last Saturday night. His cabin was made of logs and poles, the roof being covered with brush. It

was by no means water-tight and the wind whistled through the openings of the walls.

No bed, or bunk, made up a part of the furnishings of Jim's lonely hutnot even a floor did he provide for his comfort. He slept on the bare ground, without any bedding whatever to cover his shivering body. And in this condtion the man occupied his "home" and apparently enjoyed life, in his own way It was not that he could not afford a bed or better furnishings; for it is said that the fellow had over \$100 in cash coming to him when he settled with Mr Ledvina on the eve of his departure. He seldom came to town, unless in need of provisions. He had no stove, but did his cooking in an oven made of clay. Anton is a Bohemian, about 50 years

Rescue Aged Woman Recluse.

Oconto, Wis., March 20.-[Special.]-Mary Priest, an aged recluse, was found nearly dead in her home here after being Ill and without food for several days. Neighbors noticed that the usual sign that she was about, a smoking chimney, was not apparent. An investigation re-sulted in finding her in a critical condi-

suited in inding her in a critical condi-tion, but in time to save her life. Mary Priest is an unusual character. It is believed that her real name is Mary Spearing. She came here years ago as a housekeeper for a Catholic priest, who died, leaving her sufficient money to support her during her life. She is about 70 years old and very feeble.

## DEAN OF ODD FELLOWS.

## JUDGE JOHN H. REAGAN. Last Survivor of Cabinet of Confed-

eracy Passes Away. In the death of Judge John Henninger Reagan, which occurred at his

home in Palestine, Texas, there passed from earth the last surviving member

JUDGE REAGAN. son Davis, and for many months he was confined in Fort Warren. He was born in Sevier Counyouths who have grown to famous men, as a boy he worked very hard and had little time to indulge in the ple. Among his occupations were plowing, chopping wood, running a flatboat and bookkeeping. As a mill owner he earned money, which he devoted to his education. He went to Texas when a young man. He became a lawyer, colonel of militia, probate judge, legislator and district judge, in which latter position he was a terror to the desperate evil-doers of the frontier.

In 1856 Judge Reagan was sent to Congress, and in 1861 was elected to the State Convention, where he voted for secession and where he was elected to the Provisional Congress. He was appointed Postmaster General of the Confederacy, was reappointed to that place and was acting secretary of the treasury for a short time near the close of the war.

Judge Reagan took an active part in the reconstruction, counseling protection and rights for the negro. He was returned to the Federal Congress, serving there for ten years, and took his seat in the United States Senate in 1887. After leaving the Senate he became chairman of the State Railroad Commission of Texas, from which position he retired two years ago. At the time of his death Judge Reagan was engaged in writing his autobiography

## FOR IDENTIFYING ROPE.

### Means Used in British Naval Service and in This Country Commercially.

"Every rope used in the British naval service, from heaving line to hawser, and wherever it may be used, on shipboard or in dockyard," said a cordage manufacturer, "has woven into one of its strands for purposes of identification a red thread. The presumption is that any thread. The presumption is that any rope with the red thread found outside of such uses is in improper hands. This custom in the British navy has prevailed since the days of Nelson, or since long before that for ought I know. "A like means of identifying rope is

employed in this country to some extent commercially. Some railroads have their rope marked in this way, and this meth-od is sometimes employed for marking rope used for the transmission of power in operating machinery and on lighters, where it might be exposed to depredation

"Ropes have been marked with a sin-Warren. He was born in Sevier Coun-ty, Tenn., and, like so many American or with single threads of some other color as a distinctive mark of ownership; we have marked ropes with a single tarred thread. We would mark ropes in any manner which might be desired on large orders."-New York Sun.

## An Ex-Sheriff Talks.

Scott City, Kan., March 20th .- (Special.)-Almost every newspaper tells of cures of the most deadly of kidney diseases by Dodd's Kidney Pills. Bright's Disease, Diabetes, Rheumatism and Bladder troubles, in fact any disease that is of the kidneys or caused by disordered kidneys is readily cured by this great American remedy.

But it is in curing the earlier stages of kidney complaint that Dodd's Kidney Pills are doing their greatest work. They are preventing thousands of cases of Bright's disease and other deadly ailments by curing Kidney Disease when it first shows its presence in the body.

Speaking of this work ex-Sheriff James Scott of Scott County, says:

"I have used eight boxes of Dodd's Kidney Pills and must say that they are just the thing for Kidney Disease. We have tried many kidney medicines, but Dodd's Kidney Pills are the best of all.

## EAT BUTTER AND BACON.

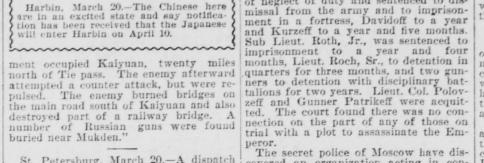

Thus You May Escape Death from the Great White Plague.

A. N. Bell of Brooklyn, N. Y., in The Popular Science Monthly, prints a paper which he read at the international congress on tuberculosis at St. Louis last October, in which he says:

"Consumption is most prevalent among those who are stinted or who stint them-selves of bacon and butter." He then goes on to say that, in the whole course of his professional observation, now covering a period of more than sixty years, he has never known a family or an indi-vidual that was brought up on a liberal supply of bacon and butter who became tuberculous. Whether Dr. Bell's remark is true or not, there can be no doubt of the fact that those who know most of tuberculosis recognize the importance of diet and sanitary conditions in dealing with the great "white plague."

#### Death from Electricity.

While death is produced almost instantly by the passage through the hu-man body of alternating currents of high voltage, such as are encountered in ordinary practice, yet in the currents of enormous voltages produced by Mr. Tesla it is possible for them to pass through the body without the slightest injury. It has, of course, been known that the Tesla cur-rents are of extremely high frequency as compared with the ordinary current, as well as of high voltage, but it was well as of high voltage, but it was thought that they passed over the surface of the body rather than through it, and bit to damage. Lately Prof. Nernst thus did no damage. Lately Prof. Nernst has shown the Bunsen society of Berlin that this effect is due to the high frequency of the current, which actually does pass through the body, but so rapid are its alterations that it does not have time to effect any change in the tissue before there is a reversal of the electrical stress. This he has shown conclusively in a series of experiments where he passed a high-frequency current through his hand and then through the legs of

Her First Railroad Ride.

An old lady from Beaver county took her first railroad trip last week. She no-ticed the bell cord overheard, and turning to a boy, she said: "Sonny, what's that for?" "That, marm," he said, with a mischievous twinkle in his eye, "is to ring the bell when you want something to eat." Shortly afterward the old lady reached her umbrella up to the cord and gave it a vigorous pull. The whistle sounded, the brakes were pulled on, the train began to slacken its speed, windows were thrown up, questions asked, and confusion reigned among the passengers. The old lady sat calmly through it all, little dreaming that she was the cause of the excitement. Presently the conductor came running through the train and asked: "Who pulled the bell?" "I did," replied the old lady, meekly. "What do you want?" asked the conductor, impa-"Well," said the old lady, medi tatively, "you may bring me some ham sandwiches and a cup of tea, if you will."—Kansas City Journal.

in the different lodges to which he has by the Salvation Army, with the view of applying the system, if it is found satisfactory, to South Africa. The trustees of the estate of the late Cecil Rhodes are defraying the expenses of the inquiry.

## Her Ruse Was Successful.

Miss Oakley was serving tea in her studio one afternoon when the word 'ruse" came up, says the Philadelphia Record. Every one had some episode neighbors, simple pleasures, habits, about an odd and successful ruse to narrate. Miss Oakley said:

"I, too, recall a ruse that succeded wonderfully, an unexpected and original ruse that a friend of mine employed.

"My friend, a Philadelphia woman, had recently for a visitor an elderly uncle from the country. He was a good old man, an intelligent and sensitive old man, but his table manners were not-ahem-up to the mark.

"My friend could not think of taking her uncle to task about his table manners; if she had it would have broken the poor old gentleman's heart. Instead of taking him to task she employed a ruse upon him. Her ruse, which was quite successful, culminated like this:

"'Mary,' says the uncle at dinner, this here knife of mine tastes soapy. "'Very well, uncle. You shall have another.'

## "The second knife came.

"The second knife came. The uncle, with a grimace, again remarks: "'Soapy, too, Mary, just like the first knife was.'

"My friend frowned.

"'It's too bad, uncle,' she said. 'But city servants are so careless. Try eating with your fork. Maybe that's clean.' "

## In Water Ten Hours.

A Belgian swimmer made a wager recently that he could stay in the water ten hours, swimming the whole time. He won the bet, performing the feat at the Antwerp baths.

A man may have enough money to keep him out of heaven and still not have enough to get him into society.

-The fall of Port Arthur caused a sudden and great rush for all Japanese goods in the shops of London.

-Moscow asylum authorities, are experimenting on a hypnotic culre for alcoholism.

## THE SIMPLE LIFE

Ways that Are Pleasant and Paths that Are Peace.

It is the simple life that gives length of days, serenity of mind and body and tranquillity of soul.

Simple hopes and ambitions, bounded by the desire to do good to one's food and drink.

★ 点 1 隆 自

Men die long before their time because they try to crowd too much into their experiences-they climb too high and fall too hard. A wise woman writes of the good that a simple diet has done her:

"I have been using Grape-Nuts for about six months. I began rather sparingly, until I acquired such a liking for it that for the last three months I have depended upon it almost entirely for my diet, eating nothing else whatever, but Grape-Nuts for breakfast and supper, and I believe I could eat it for dinner with fruit and be satisfied without other food, and feel much better and have more strength to do my housework.

"When I began the use of Grape-Nuts I was thin and weak, my muscles were so soft that I was not able to do any work. I weighed only 108 pounds. Nothing that I ate did me any good. I was going down hill rapidly, was nervous and miserable, with no ambition for anything. My condition improved rapidly after I began to eat Grape-Nuts food. It made me feel like a new woman; my muscles got solid, my figure rounded out, my weight increased to 126 pounds in a few weeks, my nerves grew steady and my mind better and clearer. My friends tell me they haven't seen me look so well for years.

"I consider Grape-Nuts the best food on the market, and shall never go back to meats and white bread again." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Look in each pkg. for the little book, "The Road to Wellville."

place in Ireland. Depere Pioneer Merchant Dead. Because of the failure to secure men who are, in the opinion of Judge Humphrey, sufficiently removed in these af-fairs from the packing industry the swearing of the jury was delayed until tomorrow. Only fifteen out of the twen-

## SICK WOMEN SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effected Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

Mrs. Pinkham has for many years made a study of the ills of her sex; she has consulted with and advised to-day owe not only their health but even life to her helpful advice.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

Dear Mrs. Pinkham :-"I suffered for a long time with womb rouble, and finally was told by my physician that I had a tumor on the womb. I did not want to submit to an operation, so wrote you for advice. I received your letter and dtd as you told me, and to-day I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Com-pound is the best medicine in the world for

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.

DO YOU

DON'T

DELAY

New York physicians are now warning their patients against too much water drinking-not because the Croton water is bad, but because a reaction has set in is ond, but because a reaction has set in among medical men on the whole sub-ject of water drinking. According to Dr. Morris Manges, Dr. Simon Baruch, Dr. Alfred Meyer, Dr. Beverly Robinson and other physicians, water drinking has become too much of a fad among per-sens with weak heart, kidneys or liver. The old idea that water could be taken without limit to flush the system, has been exploded according to recent in vestigators.

## SALT RHEUM ON HANDS.

Suffered Agony and Had to Wear Bandages All the Time-Another Cure by Cuticura.

Another cure by Cuticura is told of by Mrs. Caroline Cable, of Waupaca, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we could get, but nothing helped him until he used Cuticura. One set of Cuticura Soap, Ointment, and Pills cured him entirely, and his hands have been as smooth as possible ever since. I do hope this letter will be the means of helping some other sufferer."

### The Average Man.

"Aunt Louisa" Eldridge was asked at a meeting of the Professional Woman's league if she could tell just what was the meaning of the expression, "An average man."

"Of course I can," she promptly re thousands of suffering women, who plied. "I think an average man is one to day owe not only their health but who smiles and looks pleasant all day at the office, but when he comes home acts as cross as a bear with a sore head, just so he can make up the average.". New York World.

## Macaroni Wheat.

Salzer's strain of this Wheat is the kind which laughs at droughts and the elements and positively mocks Black Rust, that terrible scorch! It's sure of yielding 80 bushels of finest Wheat the sun shines on per acre on good Ill., Ia., Mich., Wis., O., Pa., Mo., Neb. lands and 40 to 60 bushels on arid lands! No rust, no insects, no failure. Catalog tells all about it.

JUST SEND 10C AND THIS NOTICE to the John A. Salzer Seed Co., La Crosse, Wis, and they will send you free a sample of this Wheat and other farm seeds, to-gether with their great catalog, worth \$100.00 to any wide awakefarmer. [C. N. U.] Wis., and they will send you free a sample of this Wheat and other farm seeds, to-

A bank which receives in the ordinary course of business a check drawn upon it, presented by a bona fide holder, who is without notice of the fact that payment thereof has been stopped, and which pays the amount thereof to such holder, is held, in National Bank of New Jersey vs. Berrall (N. J. Err. & App.) 66 L. R. A. 599, not to be able afterwards to recover back the money as paid by mistake, on the ground that payment of the check had been countermanded by the drawer.

A milling in transit agreement between manufacturer and carrier, by which the former is to be credited on its freight bills for manufactured goods shipped the freight paid on raw material shipped to the mill, is held, in Laurel Cotton Mills vs. Gulf & S. I. R. Co. (Miss.) 66 L. R. A. 453, not 'o be prohibited by statutes forbidding the granting of any rebate to shippers.

A carrier which issues, in exchange for bills of lading surrendered to it, orders directing the delivery of grain en route to ertain purchasers or the consignee or his order on presentation of the orders, and order on presentation of the orders, and stamps across the face of them a state-ment, signed by its agent, that cars will be delivered on them the same as on the bills of lading taken up, is held, in Na-tional Newark Banking Co. vs. Dela-ware, L. & W. R. Co. (N. J. Err. & App.) 66 L. R. A. 595, to be thereby charged with notice of the rights of a bank to which the orders are transferred upon the indersement of the cousiquee. upon the indorsement of the consignee, and to be liable to it in an action for the conversion of the grain by delivering it to the purchasers from the consignee upon the latter's written instructions without presentation of the orders.

Ate Ring in Cake.

Mr. and Mrs. William Graves of South Orange, N. J., gave a birthday party for their 7-year-old son, Lee Graves. There was a magnificent birth-Graves. There was a magnificent birth-day cake, with seven candles on top, and inside of it a pretty ring. Some peo-ple think it was an opal ring. The cake was cut and the youngsters present at-tacked it with enthusiasm. When it was all disposed of--the wait was not long--the hostess asked: "Well, now, which of you children has the ring?" There was no answer. There were hasty inquiries, but none of the children could remember swallowing anything hard. "Well, I cer-tainly put the ring in the cake," exclaimtainly put the ring in the cake," exclaim-ed the compounder of the confection. This increased the consternation. The children went home. Their mothers were worried. Physicians were bidden to be on instent call and options were secured on X-ray apparatus. None of the chil-dren has developed appendicitis yet.

## Water to Christen Ship.

Water from Minnehaha falls will be used to christen the battleship Minne-sota. Gov. Johnson so annonnes. Miss Rose Marie Schaller, the university stu-dent who is to christen the battleship. called on the governor and discussed the subject. Both had received numerous let-ters from temperance advector university ters from temperance advocates, urging that water instead of wine be used. They decided that unless there is too strenuous objection from the shipbuilders, who will be in charge of the ceremony, a bottle will be broken containing water from the historic Minnehaha. The water probably will be carbonated, so as to give the proper "fizz" when the bottle is broken.

Of 6000 samples of food products of sixty-one different kinds examined during the last year at the Connecticut agricul tural experiment station, more than one tural experiment station, more than one-third were found to be adulterated, ac-cording to a report just issued. Borax and formaldehyde, it was discovered, are used largely with milk "as a substitute for cleanliness in the dairy." Of the sam-ples of tomato catsup and chili sauce ex-amined seventy-one were colored red with dyes and seventy-seven were pre-served with salicylic or henoic acid served with salicylic or benzoic acid.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be in-curable. For a great many years doctors pro-nounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional dis-ease, and therefore requires constitutional dis-ease, and therefore requires constitutional treat-ment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only con-stitutional eure on the market. It is taken in-ternally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous sur-faces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address. F. J. CHENEY & CO., Toledo, O. Soid by Druggists. 75c. Hail's Family rills are the best. There is more Catarra in this section of the
