It is just as well that this is so; for otherwise the burden of passion would accumulate generation after generation until it became too heavy for man to endure. Each age may profit by the heroism and the virtue of its predecessors, but each has its own destiny to work out and its own problems to solve; it can not live again the life of its parent. Constant change is the eternal destiny of man and he is too busy with the future to dwell long upon the past. Let the young people enjoy their holiday.

More oil is said to have been discovered above Rapid River; but the unsuccessful efforts that have been made to develop a well in that vicinity have bred an indisposition to become excited over surface indications. A train of tank cars, loaded with real oil from a Delta county well, would arouse some enthus-

There are sidewalks on Delta avenue that ought to be condemned. They are rotten and loose, and a nuisance to the neighborhood. They are dangerous, as well, and the city should look to it that it has not damages to pay for personal

A big cloud of smoke rolled off the bluff Sunday near the town, betokening the usual spring fire. Both sides of Bay de Noc show the haze above them. The wet months past are being succeeded by the dryest of weather.

If you have trouble with your eyes see G. H. Cook who makes a specialty of difficult cases. He will be at Erickson & Peterson's jewelry store, Central and Delta avenues, on Monday and Tuesday, June 12 and 13.

The record cargo for the great lakes was taken out of Escanaba Tuesday by the Elbert H. Garey. It was 12,003 tons of ore for South Chicago. The boat is a new one, of the U.S. Steel

Now is the time to get your summer's supply of wood. C. W. Davis has birch \$3; 3 cords, \$4.50.

Mrs. H. O. Whitney left Saturday last for Chippewa Falls for a visit, and will return in about three weeks, after a trip to St. Paul, Brainerd, Minn., and Chicago.

The volunteer firemen are preparing for their annual Fourth of July ball, and will have a good time whether there is any parade or not.

The Japs are good at imitation; last Saturday they gave an excellent imitation of Paul Jones. And they "have not begun to fight yet."

A. A. FREEMAN MILLS

Best Patent Flour

Is now on sale by every grocer in Gladstone. We guaran-

tee it superior to any and all other flours.

We have one more process than any other mill. I purify the flour by air in a machine of my own invention. It lifts out some fine, soft, dead flour that is in all flour and the purified flour has a brighter color, the dough more spongy and buoyant, resulting in a larger and lighter loaf from a given weight of dough.

We guarantee absolutely not only a better bread but Otto Nelson is making arrangements at least ten more loaves per barrel (196 fbs) of flour used, such as bakers' 5c loaves, and think it will yield 15 more of such loaves than any other flour.

It is a high cost flour to make but is really the most economical flour to use, as it yields from 50 to 75 cents worth more loaves per barrel than any other

This is due to two facts. First, the inferior flour taken out. Second, the air evaporates moisture and the purified flour will absorb more water. It is somewhat on the prin-Kauffmann, of Escanaba, were in town ciple of a cream separator, taking out the cream from fresh milk leaving skim milk. In our best flour you get the cream.

Ask your grocer for it, take no other until you at least Mrs. H. C. Henke returned from try one sack. One trial is all we ask.

If the above claims are true the local trade should give preference to the local mill over all outside mills.

A. A. FREEMAN MILL GLADSTONE, MICH.

SETTLE M'LAREN CASE

Custody of 10-Year-Old by Given Partly to Each Parent.

F. G. BIGELOW ON THE BONDS | Memorial Day Brings a Lull in the Strike

Searchlight on Life in New York Hotel of Mrs. MacLaren-Is Now at Neenah.

Fond du Lac, Wis., May 29 .- [Special.]-The case of Malcolm N. Mac-Laren versus Dorothy MacLaren, for a modification of a decree in a divorce which gave Mrs. MacLaren the custody of the 10-year-old boy, Malcom Neil Mac-Laren, Jr., during a certain period of the judent Shea. Shea is being supported by year, reached a settlement in the circuit two members of the board." court this morning.

Boy's Custody Is Divided.

Maurice McKenna, the woman's attorney, announced to Judge Fowler that he and Charles F. Fawcett, Mr. Mac-Laren's attorney from Milwaukee, had agreed on four months a year as the time for the father to have the boy and the other eight months he was to remain with the mother. The order was entered. Neither of the parties of the

Mr. and Mrs. MacLaren were divorced last year and since there has been trouble over the boy. In November, Judge Kirwan took up the proceedings but later continued them, placing Mr. MacLaren under \$5000 bonds signed by F. G. Bigelow and Charles Allis of Mil-

Life in New York a Factor.

In the meantime both sides worked In the meantime both sides worked vigorously to secure evidence. The Hotel Netherlands in New York seemed to be the basis of operations. A number of depositions have been filed with the clerk here from persons there telling of alleged relations of Mrs. MacLaren with a prominent and wealthy guest and of costly suppors participated in by the two ostly suppers participated in by the two. Other words from attaches of the hosteiry said that Mrs. MacLaren had always conducted herself above reproach. She lived at this hotel four years.

Mr. MacLaren, who formerly lived in Milwaukee, is now at Elizabeth, N. J., and Mrs. MacLaren is with friends at

BADGER FOR 1906 READY.

State University Publication Delayed by Chicago Strike-Closing Days at Wisconsin Institutions.

Madison, Wis., May 29.-Because of the strike in Chicago the Badger for 1906 will not be placed on sale until Wednesday. The Chicago publishers refused to risk sending a large shipment at one time. It costs about \$3500 to get out the Badger. This expense must be met by advertising, the sale of the book and the assessment on the different organizations for space. The literary section this year takes up over seventy-five pages. The dedication is as follows: To Seniors, to Juniors, to Sophomores, to Freshmen, to Engineers, to Hill-men, to Laws, and to Agrics, to Post-Grads and Faculty, to all men in general, to none in particular, we dedicate this Badger of 1906.

reaculty, to all men in general, to none in particular, we dedicate this Badger of 1906.

The sentiments of every member of The Badger board, and especially of the literary committee, are well expressed in literary committee, are well expressed in the closing words of the book:

The stuff is writ. The ink is dry,
The proof is read, the end is nigh.
And now let's all join in a shout,
Hip! Hip! Hurrah—the d—d book's out.

Beloit, Wis., May 29.-By action of the faculty and with the co-operation of the student body, hereafter one offense of cribbing in examinations will be cause or the expulsion of a student. Racine, Wis., May 29.—Today Racine

LAUGHS AT PRISON BARS.

Albert Ullman, Convicted of Attempt to Kill Daughter, Has Been Taken to Waupun.

Juneau, Wis., May 29.-[Special..]-Albert Ullman of Lebanon, convicted of having attempted to murder his daughter, Ida, in August, 1902, was taken to ment on this subject. the penitentiary at Waupun yesterday by Sheriff Lentz. Since April 25 the old man has been awaiting to be conveyed

He has passed through an ordeal of three years without giving the least evidence of worry. In conversation Ullman said he was taking the matter philosophically and did not intend to worry over it. He said he was 67 years old and was troubled with a bad breech and for that reason he hoped that the prison authorities would assign him some light work. He laughingly referred to the fact that he gained four pounds in weight during the few weeks he was in jail. Just then the baggageman wheeled a large bunch of cane fish poles into the depot and Ullman related how the cane grew in Mississippi where he lived durng the war period. He also spoke of his steamboating on the Mississippi, residence in New Orleans, and the fact that he wanted to enter the service in the Cival war, but was rejected on account of an injured leg.

CREAMERIES IN STRUGGLE

Dairy Industry Soon to See Climax in Contest Between Small Plants and Hand Separators.

Jefferson, Wis., May 29.-[Special.]-According to a well known creamery owner in this county, things are presently coming to a climax in the dairy industry of the county and state-in which dairying is assuming widespread proportions-over the contest between larger and smaller creameries for supremacy.

The state, it is said, has recently been thoroughly covered by hand-ser companies who endeavor to sell farmers contrivances by which they can separate their own milk and sell the cream at

will, saving many trips to creameries operative creameries say that in consequence of this they will have to shut up shop, to the benefit of the large creamer-land, and the big manufacturing establishments \$3750, will be able to control the prices of Bowker will be able to control the prices of Bowker being an easy winner on points cream, which may revert a loss to the Evans received much punishment, but

SUBMIT STRIKE TO REFERENDUM.

CONSERVATIVES OF TEAMSTERS' EXECUTIVE BOARD WANT VOTE OF MEMBERS.

Hostilities in Chi-

Chicago, Ill., May 30.-The Daily News today says: "Conservative members of the executive board of the International Brotherhood of Teamsters want to submit the proposition of calling off the strike to a referendum vote of the teamsters throughout the country. According to information which leaked out today this move is being blocked by Pres-

Lull in the Strike. Chicago, Ill., May 30.—The teamsters' strike is suffering from ennuni. It has reached a stage where both sides declared themselves satisfied with the situation and outside of the court developments excitement awaits either a renewal of settlement schemes or a further

spread in unheralded directions.

All phases and features of the strike experienced a lull today owing to its being a legal holiday. Most of the places of business of the strike to the places of business of the strike to the places. of business affected by the strike were closed and the teaming interests in the main did not attempt any deliveries. The strikers likewise prepared for a day of inaction.

Lockout Is Ordered.

Thirty-five sash, door and blind manufacturers affiliated with the planing mill men's association in the combination of wood industries have decided to lock out drivers. A vote has been taken that the members force deliveries where there are orders, whether the orders came from strike affected houses or not. A lockout will affect 200 teamsters.

Police Battle With Mob.

A crowd of more than 800 persons, armed with clubs and other weapons, surrounded three wagons owned by a lumber company last night. The nonunion drivers and special policemen who were guarding them were attacked. Nine men were arrested charged with assault and disorderly conduct. While the wagons were passing along North Hai-stead street a number of persons ran into the street and seized the bridies of horses. Attempts were made to pulled drivers from the wagons. Theu poclubbed the rioters.

Many of the strike sympathizers were cut and bruised by stones intended for the police and non-union drivers.

HAMBURG IS SECOND.

German Yacht Is Far Behind American Boat Which Won Kaiser's Cup.

London, May 30.—The German schooner yacht Hamburg finished at 7:21 p. m.

London, May 30.-The Hamburg (German representatives in the Kaiser race) was sighted ten miles southwest of Scilly islands at 7:30 o'clock this morn-

son Marshall of Bridgeport, Conn., crossed the finish line off here at 9:15 o'clock last evening, winning the Kaiser's \$5000 cup in the great ocean race and

heating all records across the Atlantic for saxing yachts. Her time from Sandy Hook to the finish was 12 days and 9 hours. The Endymion, which, up to this time has held the record, crossed in 1900 in 13 days 20 hours and 36 minutes. The Endymion finished at Cowes, however, neaking a longer course, and Capt Charles Barr headed the Atlantic for the Isle of Wight after crossing the line without stopping, intent on beating the Endymion's figures to this point as well

BALM FOR RUSSIANS.

Reverses in East Cause Fear at Home and "Liberty" Talk Is Quickly Resorted to.

All of the men were laborers.

MARINE DISASTER AVERTED.

Off Sandy Hook.

New York, May 30 .- News of a marowly averted tragedy at sea was brought here by the Austrian steemer Lucia from Mediterranean ports. She vas in collision yesterday with the big our-masted Fall River (Mass.) schooner Eagle Wing, about sixty miles south-southeast of Sandy Hook lightship, but rious damage.

Western Invention in the Orient.

The introduction of electrical apparatus n China and in other countries of the composed of a number of iron tanks, far east cannot but have some effect upon the lives of the natives. The people there change slowly, but probably nothing could ave a greater effect than the trolley in ringing about this change, unless we ex ept the telephone. Is it not possible that lese two agents will play an important art in bringing about a better under-anding between the Chinese empire and the western nations.—Electrical Review.

Joe Bowker is still champion bantam of the world. At the National Sporting club in London the contest betwee Bowker, the present champion of Eng and, and Pinkey Evans of Yonkers, N for the championship and a purse of 750, went the full twenty rounds I gamely contested every round.

Beet Sugar Making in the West Is

Very Interesting Process. In some of the Western States, especially Wisconsin, Nebraska, Colorado, and the western part of Kansas, the growing of beets for sugar, has become recognized industry. Large factories for the conversion of the beet into ugar have been erected, and here are employed large numbers of men during the fall and winter months.

Colorado leads in the production of beets. This can be accounted for by the same reason that she is noted for her cantaloupes; that is, irrigation and the large numbers of days of sunshine. The sun shines on fully 300 days of the year and the beet is stimulated to a wonderful growth.

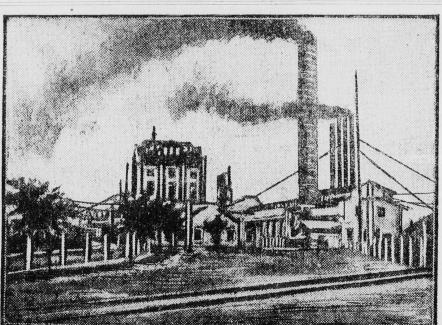

In growing beets the ground is prepared in much the same way as for cantaloupes, a thorough breaking and pulverizing of the ground being necessary for best results. After leveling the ground, which makes irrigation easier, the beet drill is brought into use. This drill is on the order of an ordinary grain drill, with the exception that it only plants four rows 18 inches apart at a time, and has no attachments for drilling in fertilizer. On so that they make two furrows between the two rows on each side. water, which soaks back and moistens the seed.

When through with the seeding, the The water is kept running until the the pan. the cultivator is brought into use.

IRRIGATION PRODUCES SWEETS, | all. The first lot of water turned in | WRIGHT WOULD NOT CONFESS. takes out 50 per cent of the sugar, and the second lot takes 50 per cent of the remainder. This is repeated ten times, and in the end has exhausted all the sugar from the slices to within onetenth of one per cent. The slices remaining after this process are dropped from the tanks and run through large presses, and the partly dried pulp is deposited in cars and wagons to be used for feeding cattle, it being a great milk and flesh producer,

The juice remaining is of a dark brown color, containing much organic matter not sugar. It is run into tall tanks holding a couple thousand gallons, and here the lime solution which takes out the organic matter, is addboilings, filtering and clarifying processes, which leave the fluid a moderately thick syrup, ready to be boiled down to sugar. The syrup is pumped up into large round vacuum pans. Inside these pans are coiled large copper steam pipes, and a large air pump produces a high vacuum and removes the evaporated water so that the syrup boils very rapidly and at a very low temperature. This boiling mass is watched through glass windows in the the drill are two small shovels, placed sides of the pans, and when small grains begin to appear they are fed by adding fresh syrup until they reach the These furrows carry the irrigating required size. When the size is right, and the water evaporated sufficiently, the steam is turned off, the pump save him would be a confession. stopped, and the mass is allowed to water is turned into the furrows made | run into the tanks below, by opening by the drill, between each two rows. a valve at the outlet in the bottom of

He Was Hanged Four Times to Make Him Admit Murder.

A. A. Wright, a federal prisoner charged with murder, brought to prison there from Hobart recently, according to a Guthrie (O. T.) special to the Kansas City Journal, says he has been hanged four times for the crime of which he is accused. His story of the methods used to make him confess and of the narrow escapes he has had since his arrest are interesting.

He was arrested on Nov. 18. The terrible death of Slaterley, the man he is accused of murdering, caused such a feeling in Hobart that a mob gathered that evening and prepared to take him from the county jail and ed. It now goes through a series of lynch him. The officers, in the meantime, had learned of the intended lynching and spirited Wright to Anadarko, where he was kept for three days. He was then taken back to Hobart for his preliminary hearing. fess to the murder by the deputy sher-

Efforts were made to make him coniff and jail officials. The evidence against him was purely circumstantial and Wright declared his innocence. The preliminary hearing lasted three days and one night Wright says he was taken from jail by the officers, a noose placed about his neck, the rope thrown over a telephone pole and he was told he was about to be hanged and that the only thing that would

When he refused to confess he says he was swung into the air and that this was repeated four times. When he was lowered the last time, Wright says he was unconscious and the officers became frightened and took him back into the jail.

Wright had been picking cotton near Hobart, and, according to his state ment, bought a team of horses and a wagon from Slaterley at his farmhouse six miles from Hobart on Nov. 9. On Sunday, Nov. 13, he said, the bill of sale was made out. Slaterley's body was discovered in the mountains Nov. 18. He had been shot, his head was crushed and the body was buried under a pile of stones. Staterley and Wright had been seen driving together toward the Indian reservation about the time Slaterley was killed. Slaterley was a bachelor.

It has been decided the murder must have been committed on the government reservation, and, therefore, the case must be tried in the federal court. Wright is a typical Arkansan. He is tall raw-boned and sandy whiskered. He says he bought the team from Slaterley for \$175, and after the bill of sale was made out never saw him again. He denies all of the circumstances by which the officers are trying to prove his guilt.

No wonder people have so little respect for advice; there is so much that is worthless.

A Free Drink.

Anybody who can get the "laugh on a bartender" is usually pretty sure of a drink "on the house." Half a dozen men were standing in a north end saloon yesterday about noon when an Irishman came in and approached the bar.

"Oi'd loike to have you give me a little rye," he said to the man in the

white apron.
The bottle was passed out, and the Irishman took a good sized drink. Then he turned and moved away. Just as he reached the door the bartender called

after him:
"Hey!" he yelled; "you didn't pay me "Oi know thot," replied the Irishman.
"Oi said Oi'd loike to have ye give mea little rye, an' ye wor good enough to do it. Much obliged."

The men standing near laughed. There

The men standing near laughed. There was nothing for the bartender to do. Plainly the "laugh was on" him, and the Irishman's drink was "on the house."— Kansas City Times.

In Record Time.

Piney Flats, Tenn., May 29 .- (Special.)-Cured in two days of Rheumatism that had made his life a torture for two years, D. S. Hilton of this place naturally wants every other sufferer from rheumatism to know what cured him. It was Dodd's Kidney

Pills. "Dodd's Kidney Pills are the grandest pill on earth," says Mr. Hilton, "F would not take any sum of money for what they did for me. For two years I had what the doctors called rheumatism. I could hardly walk around in the house. It seemed to be in my back and hip and legs. I tried everything, but nothing helped me till I got Dodd's Kidney Pills.

"Two days after I took the first dose all pain left me and it has never come back since. I can't praise Dodd's Kidney Pills too much."

Rheumatism is caused by uric acid in the blood. Healthy kidneys take al! the Uric Acid out of the blood. Dodd's Kidney Pills make healthy kidneys.

bed, according to her exaggerated ideas of neatness. The doctors declared that in her case neatness was a disease. There are many appliances for the sick room, but in the average creasing just the same. It often haphome makeshifts in most cases are made to do duty, so that neatness is difficult to attain. Nevertheless, an additional device of this class helps along the much-needed general introduction of little conveniences of this character. The latest newcomer is a medicine spoon, the essential feature of which is the peculiar handle, which is so designed as to engage the rim of a vessel and so support the spoon within same. This effectually takes care of sticky spoons, placing them where they can do no harm, and yet are not liable to upset the receptacle in which they are placed, an accident which frequently occurs when the handle of the spoon projects above the top of the receptacle in which it is allowed to stand. The peculiar shape of handle gives a convenient grasp for the patient or attendant in administering medicines.

INTERCHANGEABLE BLADE.

manner, but his difficulty may be in keeping the razor in proper condition, and if he is compelled to run to the barber's or cutler's shop with the instrument every few weeks there is no advantage in the possession of the skill sent to the lumber district in order to facilitate deliveries by the lumber concerns involved in the strike, and additional police protection was asked. necessary to amputate the whiskers from his face

The interchangeable razor blade has been devised to meet this emergency. In appearance, it looks like pretty much any other razor, but the blade end of the combination consists of two parts, the blade itself and the German silver holder. When it is desirable to substitute one blade for another the operation is very readily conducted. A spring catch releases the cutter, and it is then pushed from its lodging place.

Besides the advantage of always having a suitable blade in readiness and in good condition, this arrangement presents the addition of permitting the owner to strop his razor by a mechanical device which is used with the safety razors, but which has not heretofore been adapted for use ingly monotonous, so that a teacher with the old type of instrument. It who has just devised a mechanical also permits the reversal of the blade guide for the fingers may in days to so that every portion of the cutting come be entitled to a tablet in the edge may come in for its share of ser-

people attended, coming on a special

TURNS STATE'S EVIDENCE

Lorenz Gives Testimony in Postal Fraud Case and May Escape Punishment.

Washington, D. C., May 31.-George E. Lorenz of Toledo, O., who was convicted with August W. Machen and Samuel and Diller B. Groff, on charges of conspiracy to defraud the government, in connection with contracts for furnishing supplies to the postoffice department, today turned state's evidence in the trial of William G. Crawford, who is charged

with conspiracy.

It is generally credited that Lorenz is testifying for the government under an agreement that he shall not be prosecuted under indictments pending against

MRS. ROGERS REPRIEVED.

Gov. Bell Grants Stay After Writ of Error Is Refused, to Permit Appeal.

Montpelier, Vt., May 31.—Chief Justice Rowell of the state supreme court today refused to grant a writ of error in the case of Mrs. Mary M. Rogers, condemned to death for the murder of her husband. Gov. Bell, however, announced that he would grant the woman another reprise for a short time so that another reprieve for a short time so that her attorneys may bring the matter be-fore one of the justices of the United States supreme court. Justice Rowell declared that no federal question was in-

LATEST MARKET REPORTS.

MILWAUKEE, MAY 31. EGG AND DAIRY MARKETS.

Yet Not Many Years Ago He Walked London Footsore and Hungry. The success achieved by John

Pearce, the prince of London cheap caterers, is truly marvelous. To-day he employs 1,500 persons, while at one time and that not long ago he walked the streets of the metropolis footsore and hun-

> gry. Pearce was born in the slums of Hoxton 58 years ago. When a child

his father died, JOHN PEARCE. leaving the mother to carry on the struggle for a family of hungry children. One room was all she could afford in which to rear them, and their poverty was acute. At the age of 9 years John hired out to a picture maker at 62 cents a week. At the age of 18 he was working for a builder at the princely wage of 75 cents a week. One day he got drunk-the only time he ever touched liquor in his life-and lost his job. Then he worked for a pastry cook for two years.

In his long tramps to and from work Pearce observed how great was the need among casual and other laborers of good and cheap food. It suggested an opportunity for him to become his own master. He hired a costermonger's barrow at 25 cents a week, bought a humble urn and a few crocks and set out to earn his fortune as a cheap and perambulating caterer. He did not even dream then that he was laying the foundation of a colossal business. It developed slowly at

first. At the end of six months he was able to turn his shilling-a-week barrow into what he called "a gutter hotel." With the knowledge of carpentry and painting that he had learned at the builder's and of cooking that he had mastered at the pastry cook's, he made the stall so attractive that his receipts grew until they sometimes reached \$30 a day. For thirteen years he stood by his "gutter hotel," at the end of which time he had saved \$6,500. With that he bought the lease of his first coffee shop. It was a success from the start and his business kept on increasing until to-day he conducts eighty-one restaurants, in not one of which is a drop of liquor sold. Before he branched out into business for himself he "got religion" and regularly devoted one-tenth of his income to charity. The giving away of a tithe of his income he has always since regarded as a sacred obligation.

Some idea of the extent of his business may be gained from these figures: In his eighty-one houses the annual consumption of fresh meat amounts to 2,016,000 pounds; of bacon, 225,000 pounds; of flour, 1,000 tons; of potatoes, 1,300 tons; of milk, 265,000 gallons, and 4,250,000 eggs.

SUBMARINE MINES EFFECTIVE They Have Caused More Damage than Torpedo Boats and Torpedoes.

A remarkable fact, which also appears with regard to the torpedo, is the infrequent hits made when attacking ships at anchor, says the Navy League Journal. In the first attack made by the Japanese fleet upon Port Arthur the Japanese destroyers slowed down and came within a short distance of the enemy, but with every-Ling in their favor of the twentybree torpedoes discharged only three made hits. On June 2 and 4, when the entire Russian fleet was outside the harbor, in a long series of attacks by the Japanese torpedoes not the

CHICAGO, Ill., May 31.—Close—Wheat—

But if the torpedo has been a disappointment the fear of it and the ignorance concerning its efficiency produced a marked change in naval actions, for it forced the fighting between the large ships at extreme long ranges and proved that the 6-inch guns, with which most battleships are largely armed, were almost useless, the heavy guns-the 12, 10 and 8 inch -only being effective.

The greatest destructive agent employed by both antagonists, however, has been the submarine mine. By this means alone one-seventh of the battleships force on either side has been put out of action and its use constitutes one of the mst serious perils of the future unless restrained by international agreement to territorial waters. The mine has done what the torpedoes failed to do and the long list of casualties to its credit proves it to be a most formidable engine of war.

What has been clearly demonstrated and can be accepted for the future guidance is that torpedoes are not to be dreaded as formerly; that in an engagement between battleships the large guns only are effective, and the submarine mines, while the most deadly of all modern instruments of warfare, are inhuman and barbarous and should be restrained by the laws of

THAT DISTANT HILL.

Do Not Attempt to Climb It Until You Come to It.

Never climb a hill until you get to it, advises a writer in Medical Talk For the Home. We remember as children that in riding through the country we had a dread of high hills. How often we saw far ahead of us on the road a formidable looking hill. How high and rough and steep it looked, and how we feared it? How hard it would be for the horse to carry us up such a hill? We were sure he would slip and fall and maybe upset the carriage, and so, with the greatest apprehension, we would approach the dreadful hill. But how surprised we were as we came nearer to find the hill receding, growing flatter and really not a hill at all when we reached the point that seemed so high and craggy and dangerous?

So it is with many of life's perplexities. How darkly they loom up before us! What a black pall they spread around us? But when we get close up to them they have vanished entirely. We spoil so much of life in fear and foreboding. We let slip the beautiful moments that are ours and spoil them by dreading the moments of the future with which we have nothing to do. We ride over the nice, level country, forgetting its beauty, unmindful of its delight, dreading the hill that never

DISRAELI AND GLADSTONE.

Two Mountains, the Two Men and Two Characteristic Letters.

When the English Admiral J. Moresby discovered two mountains in New Guinea he named one Mount Gladstone and the other Mount Disraeli. He wrote to the two statesmen asking permission to use their names, and their replies, which he gives, are characteristic of the humor of one and the want of humor of the other. Gladstone wrote:

Hawarden Castle, Chester,

Aug. 12, 1874. Sir—I have the honor to acknowledge the receipt of your letter of June 24 and to return my best thanks for the compliment you have paid me, little deserved as it is, in naming after me the highest peak of the Finisterre range in New Guinea. Allow me to subscribe myself, sir, your most faithful servant,

W. E. GLADSTONE. Captain Moresby, R. N., H. M. S. Basilisk. Disraeli wrote:

10 Downing Street, Aug. 17, 1874. Dear Sir-Allow me to acknowledge the compliment you have paid me by planting compliment you have paid me by planting my name on the northeast shores of New Guinea and in selecting a godfather so distinguished for the peak which faces Mount Disraeli. I am, dear sir, faithfully yours, BEN. DISRAELI.
Captain Moresby, R. N., H. M. S. Basilisk. Later Disraeli wrote:

I hope we shall agree better in New Guinea than we do in the house of com-

EGGS AS FOOD.

Why They Are Valuable as a Diet For the Sick.

Eggs without doubt stand next to milk in available food material for the sick, as they are easily digested and absorbed if raw or properly prepared. Physiological chemists tell us that 97 per cent of the albumen and 94 per cent of the fat are absorbed into the blood stream. These same chemists tell us that eggs are a complete food for all young mammals, as they contain in correct proportion the tissue building material, in form of albumen (white) and mineral matter, in the form of phosphorus, lime, potassium, iron and sulphur; the heat and energy material in the form of oil (fat) in the yolk, and a large amount of pure wa-

Owing to the lack of starch and sugar an egg cannot be called a complete food for the adult; hence bread, rice or some other starchy food must be served with eggs. To render the food complete the sick must be fed as children are—that is, with foods that are easily and quickly digested and absorbed, for the digestive organs are always weak. Eggs therefore are among the most valuable of foods for this pur-

"Stand Pat" the Watchword.

"Stand pat" is a watchword which, if put to the test, would sweep the country. Perhaps the president said nothing about the tariff because he has not yet ascertained what he ought to say. And perhaps when he has fully ascertained he will also be found among the stand patters. We in Pennsylvania, who gave him more than one quarter of his entire majority, hope so. -Pittsburg Press.

A Lesson For Politicians.

President Roosevelt has made his way in the political world by studying to find out the popular will, helping also to form it on right lines and then in fighting to make that will operative. It is a lesson other aspiring politicians may well take to heart.—Buffalo News.

A Rich Genealogy.

A few months ago in looking up his genealogy a Londoner discovered that a woman whom he did not know was using a crest he had regarded as his own. He found she was a cousin. They became friends, and when she died recently she bequeathed her estate, more than \$500,000, to him. That was certainly rich fruit to find on the branches of the family tree.

and perhaps the oldest living Odd Fellow in Maine is Phineas Batchelder, who became a member of the order in 1844. He is now a member of Oriental lodge and is the oldest living past grand patriarch of Maine.

Kansas has a subordinate lodge membership of 33,000, an encampment membership of 3,500 and 18,500 Rebekahs. Degrees were conferred on a class of

thirty-eight candidates in Germania encampment of Chicago recently. Knox lodge of Rockland is the banner subordinate lodge of Maine. It

has a membership of 500. In New Hampshire and Minnesota the minimum fee for full membership

in the order is \$20. In Indiana there are a number of wealthy lodges. Twenty-one have assets ranging from \$20,000 to \$76,000,

the total for these twenty-one lodges being \$642,585.57. Cook county, Ill., has over 12,000 Odd Fellows in her subordinate lodges. There are fifteen lodges working in the German language, with about 1,800 members, and four lodges composed

Add 50 to a burying place, and the result will be small stones.

Dollies of Long Ago. The first dolls of which we have any knowledge were found among the treasures unearthed from the ruins of Babylon. They are small figures of terra cotta and ivory, beautifully carved, and must have been fascinating playthings for the little Assyrian

The little girls of Syria had mechanical dolls. You are surprised, are you not? But they had, and the arms and legs were moved by pulling strings very much after the fashion of jump-

Arabella's Numerous Legs. Arabella and her baby sister, Rachel, were playing "hospital" one morning and were themselves the chief patients. In the course of events Arabella was heard to exclaim in a resigned little voice: "There! That's the fourth leg I've broken this morning!" -Youth's Companion.

Rag Rugs.

Wash old worn clothes, without starching, and tear into inch wide strips. When cutting new garments cut up scraps and strips in like manner. Mix all colors, sew together crosswise on machine and wind loosely in balls. Have rags woven as for carpets, warp of one or different colors, arranged in lengthwise strips. Make desired length, but have one inch of warp woven at each end of rug to prevent raveling. Leave twelve inches of plain unwoven warp between rugs in loom. This makes a six inch fringe at each end and is to be knotted by hand. These rugs are durable, not easily soiled, easily washed, save carpets and keep kitchen floors clean.

ESCANABA TOWNSHIP

•••••••••••••• Last but not least of the week's entertainments was Miss Josie King's picnic which occurred on Thursday. The weather in the morning was disagreeable and the teacher had almost come to the conclusion to postpone the picnic pound jars. until a more pleasant day but the lunch had been ordered and would be there The people sent him to a friend's that day and it was decided to serve dinner in the school house and if the He got out of the house and ran weather permitted spend the afternoon home. He followed the little boy's in the woods. But in spite of the unfavorable weather conditions the people turned out and over one hundred people sat down to dinner. The festivities of the day ended with a dance at Duranceau's hall in the evening. It was the largest gathering of people ever seen in the township to do honor to a retiring teacher.

Miss Agnes Pelletier of school No. 5 entertained her pupils and their friends Every boy and girl using a comb to with a picnic in Beauchamp's park on Wednesday. The teacher set out to cold morning has heard and wondered make this a red letter day in the lives at the electricity that crackles as the of the little ones, and in this she succeeded admirably. Various forms of amusements were indulged in and after the days entertainment the sixty or next cold day when your hair begins more little folks returned to their homes to snap and stand on end in its effort with pleasant recollections of a day most

Three of our schools closed last week and each teacher celebrated the event stick to each other and the comb as if with a picnic. Miss Francis Robinson fastened with glue. Often a little fig- entertained her scholars and friends Tuesday with a picnic in Tebarge's woods which was largely attended. Refreshments were served after which races, games, and various other amusements were indulged in. The day was pleasant and all report a most enjoyable time.

### GOSSIP FOR THE LADIES.

### When We Two Walked in Arcady.

When we two walked in Arcady
How sweet the summers were!
How thick the branches overhead,
How soft the grass beneath our tread,
And thickets where the sun burned red
Were full of wings astir, my dear.
When we two walked in Arcady
Through paths young hearts prefer.

Since we two walked in Arcady Since we two waired in Arcady
(How long tgo it seems!)
High hopes have died disconsolate;
The calm-eyed angel men call Fate
Stands with drawn sword before the gate
That shut out all our dreams, my dear;
Since we two walked in Arcady
Besides the crystal streams.

Beyond the woods of Arcady The little brooks are dry.
The brown grass rustles in the heat.
The roads are rough beneath our feet,
Above our heads no branches meet. And yet, although we sigh, my dear, Beyond the woods of Arcady We see more of the sky!

-Caroline Duer in Scribner's.

### Some Men's Wives.

"This place is perfect," Charles Kingsley once wrote to his wife from the seaside, "but it seems a dream and imperfect without you. I never before felt the loneliness of being without the beloved being whose every look and word and motion are the keynotes of my life. People talk of love ending at the altar-

Within a few days of his death, having escaped from his sick room, he sat by the bedside of his wife, who was also lying seriously ill. Taking her hand tenderly in his, he said, in a hushed voice: "Don't speak darling. This is

John Bright spoke of his wife as the "sunshine and solace of his days," When she died he said: "It seems to me as though the world was plunged in darkness, and that no ray of light could ever reach me again this side of the tomb."
It was Cobden who shook him at last It was Cobden who shook him at last from the lethargy and despair which were paralyzing his splendid energies. "There are thousands of homes in England at this moment," he said, "where wives, mothers and children are dying of hunger. Now, when the first paroxysm of your grief is past, I would advise you to come with me, and we will never rest until the corn law is repealed."

Dean Stanley said: "If I were to epi-

Dean Stanley said: "If I were to epitomize my wife's qualities. I couldn't do it better than in the words of the cab-man who drove us on our honeymoon. 'Your wife,' he said to me, 'is the best woman in England'—and I quite agree

"Why should you pity me?" Mr. Fawcett, the blind postmaster general, remarked to a friend who had expressed sympathy with him in his affliction. "My wife is all the eyes I want, and no man ever looked out on the world through eyes more sweet or true." No man ever relied more completely

on his wife's guidance and counsel than John Keble, the poet of "Christian Year." She was, as he often declared. "conscience, memory and common

Dr. Pusey declared that the very sight and smell of the verbena affected him to tears, for it was a sprig of verbena he offered to Miss Barber when he asked her to marry him—"the most sacred and blissful moment" of his life. Dr. Wordsworth, late bishop of Lin-

coln, said that his wedded life had been "as near perfection as was possible this side of Eden."—Tit-Bits.

### A Summer Trip.

hills or mountains. Failing in that, you have lost the best that God has in store Leave out the hot Fourth of July picnic and like affairs, that only tire you, body and mind, and take this free breath of heaven sent breezes, if you would be well and happy.

Last year's dresses, with strong leggings and easy shoes, sun-bonnets, or sombreros, soft handkerchiefs—large ones—for the neck, and dark underclothes, are the essentials in wearing apparel. Dark blankets and quilts, with small square pillows, having washable covers, bright ones preferably—the pillows may be filled with excelsior—will be sufficient bedding.

Several hammocks of good duck will washages, backet bittle cost.

make easy beds at little cost. Carry crackers, cheese, bread, cake and all kinds of canned goods, enough to last you through, and save cooking. course, coffee, sugar, salt and lots of

Be good to yourself as well as the rest, run things, but see that each one does a good big share of the work. Go out of the beaten track, find a spot where you can hear God's voice in every whispering breeze, where you can forget the care and grind of the daily life, live for a while "near to nature's heart," and listen for the voices that are ever speaking in the forest glades. You will hear whispers in the tree tops that will call you back to their mystic shade, until mingled with your daily life for months, will be a joy and peace you never dreamed of before. We now have the regular tourists' outfit, covered rig, tent. camp stove and stools, folding table and the like, but we look back with joy on the earlier days when we went in an open wagon, cooked and ate in the open air gypsy style, and slept in a 7x7 bor-rowed tent. Tin or enamel dishes, and cooking utensils are the regular camp outfit, as they take up little room and are light in weight. For long walks and climbing, one needs a bamboo cane, long like those used by the guides on the mountains—one made of a fish pole is as good as any and costs very little.

come to be a part of it, as much as the putting up of fruit or tending garden. You will find it an easy matter to gather the little conveniences that making a complete outfit, many of which than any woman. can be made at little cost.—Hale Cook, Los Gatos, Cal., in Housekeeper.

### Be What You Fail to Find in Others.

No reform was ever worth anything that did not begin with the reformer

If the world is going wrong the best way to set it right is to get right your-self. That will be taking from the sum of evil and adding to the sum of good.

If all men are false, be true yourself. There will be at least one honest person

in the world, then.

When one you have trusted disappoints you the sky may be darkened, but you have no right to cry, as commonly you do. "There is no real good in the life. All is cruel illusion." Never have you greater need to be assured that there is something real and tangible and ing convinced of this than by being yourself all that the one who deceived you

Is he weak? Then be you strong, and so be assured that there is such a thing Is he false? Then be you the more

absolutely true. Is he inconstant? Then prove that there is such a thing as constancy by exemplifying constancy in your own life. Is he dishonorable? Say not, then, that there is no such thing as honor. Rather prove in yourself that there is such a thing and that it is worth hav-

If there seems to be nowhere on earth such a thing as pure affection, disinterested generosity, immeasurable sympathy, divine pity, high morals and pure life, then ten thousand times more urgent the need that you should make these things true in your own life. Both tails of dress, such as shoes, gloves the world and your own fainting heart stocks, and ribbons, with such incidentals need it. Only in your own experience as stationery, toilet articles, etc. It can you prove the truth of these things.

We run all about trying to make other people better. What we ought to do is to better ourselves. "It is my duty to make myself good and other people happy," said someone. Most of use reverse the matter over with her parents, and thousands with said mediatals as stationery, toilet articles, etc. It will, however, cover car fares, gifts, and charactery, toilet articles, etc. It will, however, cover car fares, gifts, and rhoods, with said mediatals as stationery, toilet articles, etc. It will, however, cover car fares, gifts, and rhoods, with said mediatals as stationery, toilet articles, etc. It will, however, cover car fares, gifts, and charactery, toilet articles, etc. It will, however, cover car fares, gifts, and charactery, toilet articles, etc. It will, however, cover car fares, gifts, and charactery, toilet articles, etc. It will, however, cover car fares, gifts, and charactery, toilet articles, etc. It will, however, cover car fares, gifts, and charactery, toilet articles, etc. It will, however, cover car fares, gifts, and rhoods, with said mediations. py," said someone. ### New Idea on Love

letin.

That Upsets an Old Notion. "One of the old fallacies is that love is blind," says Gentle Matron in the Philadelphia Bulletin. "It is a popular belief that affection blinds the eyes to faults in the loved one, and that the woman who loves is incapable of seeing her lover in any other light than as a hero, a Greek god, a Prince Charming, a very king among his fellows.

"This notion might as well be explod-It isn't true. "As a matter of fact, nobody suffers quite so much through the defects of a man as the keen-sighted woman who

cares for him. She does not shout his deficiencies aloud from the housetops. She never concurs when anyone else blames him. Most likely she refutes hotly the idea that he is not a paragon of virtues. Nevertheless she is keenly and painfully conscious of his defects, whether they are of body or of mind. "The truth is, the more we care for person the higher standard we set for them, and the greater the pain when

ever they fall short of this standard. I know a husband and wife who come pretty near my idea of a model couple He is a thoroughly good fellow, and she is about as near perfect as a wife can be. Still, she has some faults, and these shortcomings of hers distress her husband immeasurably. One day I spoke to her about his seeming to expect im possible perfection. She smiled and said: 'It is because he cares so much for me. Other people may do as they please, but me he desires to see absolutely perfect.'

lutely perfect. "Is it not true that warm friendship are possible between persons who would not be satisfied with each other in any closer relationship? Our friend may be queer. He may have faults. Even if re notice them we set them down as is idiosyncrasies, and still are content o be his friend.

"But bring him closer. Look at him through the eyes of love. Ah! now we grow more critical. That temper, those mannerisms, that form, those habits, all these things that mark him as so far short of the perfect standard stand out now in magnified proportion. The keen

worships the seeming perfect. only to be awakened too late to a clear vision of imperfections. It is rather that which loves in spite of imperfections; sees them, is hurt by them—and yet loves. This is the divinest love.-Se

### Are Women Quicker Than Men?

A curious and interesting series of experiments, conducted by Helen Brad-ford Thompson, Ph. D., director of the psychological laboratory, Mount yoke college, for the purpose of determining the extent to which the mental traits of men differ from those of women, have led to many valuable but non-

less astonishing results. The experiments covered practically the entire field embraced by psychology, and the results show, among other things, the qualifications wherein women are generally superior to men, and vice

For the purpose of arriving at these specific conclusions twenty-five young men and twenty-five young women, all students of the Chicago university, were subjected to a series of sympathetic tests in which all the mental faculties the five senses and the ability of each of the fifty subjects to perform tasks requiring speed, precision and accuracy were correctly gauged. There were seven groups of experiments altogether, deal ing respectively with motor ability, skin and muscle senses, taste and smell, hearing, vision, intellectual faculties and af fective processes.

In a color card-sorting test the women showed themselves decidedly more rapid than the men. There were forty cards in the park, ten red, ten blue, ten green and ten yellow. Before each test the pack was so arranged that no two cards of the same color followed one another. The directions given to the subject were to sort the cards as rapidly as possible throwing each card into the division marked with its own color, making no stops for mistakes and no attempts to Make the camping trip a feature of correct them. The signal to start was summer and find how quickly it will the word "Go!" after a count of three. The women's mean rate of sorting the cards was found to be about two seconds faster than that of the men, and there were several men with longer times

As a result of the experiments on the fifty subjects' intellectual faculties, it was satisfactorily established that women have better memories than men. They were able to memorize more quickly and to retain as well. The results of the various experiments on association did not agree as to either quantitative or qualitative differences of sex. The most trustworthy evidence failed to show that the process of association was more rapid in women than in men.

As their chief amusement the women selected the opera, reading, theater, outdoor sports and concerts, in the order named. The men placed their outdoor sports at the head of the list, with the theater, reading, opera, social gatherings and concerts following in the order given.—Detroit Free Press.

Since the days when the first 'funny appeared on earth one of the favorite topics for masculine humor has been the ignorance of women on finan cial matters—at least, when they felt good-natured. If they were cross, the extravagance of the fair sex and their lack of ability to appreciate the value of money formed a congenial subject for tirade! Now, all this is most amusing and it is certainly also unjust. If men keep the mysteries of their business jealously hidden from their womenkind how can the poor women be expected to

inderstand finance? If, also, men never intrust women with money—let them run up bills, perhaps, but give them no ready money to handle—how can women learn the value of the dollars, and the cents which make up the dollars? The best way for a woman to appreciate the value of money is to begin as a young girl to live on an allowance. The beginning of season is a good time to start the new departure. Allowances may be of two kinds. The first, an allowance which shall cover all of a girl's personal expenses—her dress, her amusements, her charities, and her traveling. Or, the

allowance may be only for the minor de

when they have decided on the sum ing other people's righeousness and our which can be allowed her let her plan own happiness! how to make the best use if it. It is We mean that another has crushed our faith in good. No one can do that for us. It is only by letting go of high standards ourselves that we lose the allowance the idea that she is to have It is only by determining to be that so much a year sounds extremely attractures which we fail to find in others tive, and she begins to think of all the that we can keep faith with what is things she has been wanting for a long time. Not so the girl who has had some It is only by being as absolutely good and true ourselves as we know how to be that we can make the world one be that we can make the world one count out the money I shall have to spend and see how much I can depend upon for things I should like to have." Then this prudent damsel takes to herself paper and pencil and puts down: Shoes, so much; gloves, so much; stationery, so much; etc. And then if she is very far-sighted she allows a margin on her figures, for accidents will happen and extra things must be provided for. To girls who have lived a careless, "charge it to father," sort of existence this may all seem to be a great trouble and not at all worth while. If, however, such girls could look ahead and see how much trouble some such training now will save them later on in life they would gladly try the experiment. It is not all "bother," either, this living withcertain limits. To a clever girl there a great deal of satisfaction in contriving to do the best with what she has and proving that women are not extravagant by nature, but only from lack

### of training.—Harper's Bazar Two Old Maids' Paradise.

Winifreda and I didn't approve of the regulation boarding house. The use of the parlor for "gentleman callers," and a small bedroom with the omnipresent bedroom set, hideous wallpaper, table and two chairs did not satisfy our longing for a home nest where, when we came from work, we could sit nder our own vine and figtree and wor ip not the landlady's household goods, out those dear to ourselves.

alled fashionable boarding house dis-

rict, and, in a modest side street, rented two unfurnished front rooms, the windows of which overlooked a big poplar ree where two robins were making their housekeeping experiment. landlord refused to paper or paint, and considering the price we paid, we didn't wonder. So we bought paint and set to work. The woodwork we made a deli-cate ivory-yellow, the floor an obstrusive gray. We had the bedroom papered with a dainty light blue, and furnished it very simply. The floor has a Japanese matting, the one window two sets of curtains, white Swiss with ruffles and blue-and-white cretonne. The bed is of black iron and brass, and has bolster and cover with long ruffle of white over blue. The dresser is white and there is a long skirt box upholstered in blue Summer Trip.

In your plans for the summer, remember the week or more to be spent in the ills or mountains. Failing in that, you be so. The best love is not that as well that it should be so. The best love is not that white that forms a window seat. The two chairs were old-fashioned wooden ones that we painted white. On our closet door we tacked a blue burlap, and upon this background we have dozens of baby and child faces. cloud of seraphim and cherubim.

The larger living room was papered a

right representation of the larger right representation of sunshing yellow. The large rug has green and tan for predominating colors. Our furniture is chiefly in the severe mission variety, and the simple reproductions of it. We bought one piece at a time and we have sacrificed some things for our rooms' sake. Winifreda calls the den buffet, her new party gown, and the library table represents a house party to which I did not go. The bookcase is long and low and contains our hearts' dearest treasures. Upon the top of it are a Venus de Milo, a tiny French clock, and a graceful vase. The writing desk and chair which we gave each other at Christmas, fit in surprisingly well. A cot, covered with a one-time portiere in green and gold, with its multitude of useful pillows does duty as a divan by day, and an extra bed by we have some good pictures, water colors, Copley prints, etchings, sketches, believing with Ruskin that a "beautiful picture is a beautiful thought." Our pretty dishes, bric-a-brac, the new maga-

make the little finishing home The chafing dish suppers, little teas and coffee klatzsches, with which we entertain our friends, are a great success. And the joy of having a home, be it ever so tiny, only girls who have been buffeted about in the cold splendor of furnished apartments can know and appreciate.—Grace A. Lusk in House

zine, the blossoming plant, the little jar of gold fish in lieu of the cat and parrot,

### When Past Fifty.

I met a woman past middle age, frankly in her late fifties, one day in New York. She said, cheerily, with a laugh, and yet with a lip that quivered, "What do you think I am doing? I am studying stenography. Every cent I had was lost when our bank failed up-country, and I've got myself to take care of at this late day. But I'm not discouraged. I find stenography very easy, and type-writing is not hard. I would rather do this than sew.

felt doubtful, remembering the scores of bright young girls crowding nto this profession, about the chances of success for an elderly gentlewoman who had never been obliged to leave the sheiter of her own home. But she was not brave in vain. Finely educated and widely read, she secured a post as private secretary to a man who was revis-ing and compiling books, and retained it to the complete satisfaction of both

Anthony Trollope in his charming autobiography mentions that in the decay of the family fortunes and the invalidsm of his father, his mother, aged 50, began an industrious career as a nov-elist. Mrs. Trollope lived to be 76, and before her busy pen was laid aside she had published 114 novels. They served to keep the wolf from the door and a roof over the household. Some of them were written by dying beds, some in the extreme of want, but they brought their return to the indomitable author. The books were long ago forgotten. We have forgiven Mrs. Trollope for her candid censures on our crude and raw country and the manners that did not please censures once keenly resented by our fathers, and now we may admire the

woman undismayed in her attack on hard fortune at 50 years of age. The truth is that we discount our The truth is that we discount our powers terribly when we permit ourselves to be daunted by Time. Whatever be a woman's age, if she be resourceful and in fair health, she may

find something to do; what it shall be must depend on her capabilities, her equipment and her valor.

Perhaps the great trouble when we are beyond youth and the training school is that we are both visionary and rusty. The tools we once had fit clumsily in The tools we only the forgotten our awkward grasp. We have command we have command the command that the command th We have forgotten ed so long in our accustomed place that we cannot obey in a new one. Very likely we set too high a value on our own accomplishments, and measured by the exacting standards of the period, we are out of date. But we do not realize our limitations, and under disappoint ment we grow bitter.

The word of wisdom to younger women is, Cherish with care whatever fa cility or aptitude you have, and do not too easily slip into habits of idleness Avail yourselves of every new oppor-tunity that may come to hand to learn something that may lie outside the do-

mestic realm.

The chief thing to keep in mind is the happiness of individuals in the home, and their chance for symmetrical growth We must be fair all around.—Woman's Home Companion.

### FISHING LINES.

### The Very Finest Are Those Formed from

Silkworm Gut. Silkworm gut forms the best line for shing purposes, partly on account of its great tenacity and partly because it is so transparent. Every year a suffi-cient number of Spanish silkworm grubs are selected for this purpose. After they have eaten enough mulberry leaves and before they begin to spin they are thrown into vinegar for several hours. Each insect is killed, and the substance which the grub in the natural course would have spun into a cocoon is forcibly drawn from the dead worm into a much thicker and shorter silken thread. The threads are then placed in pure water for about four hours and after wards dipped for ten minutes in a solu tion of soft soap. The fine outer skin is thus loosened, so that the workman ca remove it with his hands. must be dried in a shady place, and are often bleached with sulphur vapor until they acquire the bright appearance of spun glass.—London Telegraph.

### Small Trains on English Railways.

A friend of mine was standing on the owering deck of the Cedric last summer when she came alongside the dock at Liverpool. By his side was a huge Californian, who was making his first European trip and was full of cariosity. He looked far down from the upper deck to the little train of coaches that was waiting to carry the passengers up to London, and asked what they might be. He was told that it was the special train

to London.
"Do people travel in those things here?" the big Californian said. "Why.

when I was a boy, I used to play with trains like that."

The comparison was not inapt. As late as the year 1900 the average freight rain load in England was but fifty tons hat is to say, the average trainload was only equal to the capacity of one of our modern freight cars. There has been some improvement since then, and there s now a marked tendency toward heavier equipment, but it all seems like toy equipment when compared with our own heavy trains.-Scribner's Magazine.

Tombstone Says 949 Years Old. One of Germantown's old graveyards ontains a tombstone on which is a most inusual inscription. It is as follows: "Sacred to the memory of William Ux-ley. Died Dec. 23, 1822, aged 949 years." How any person could have attained such an extraordinary age many have wondered, but the problem has at last been solved. The dead man was 49 years of age, but when the stonecutter did the work he made Mr. Uxley 94 by mistake. Marble was expensive in those days, and although the stone seemed to be ruined by the error, the tradesman did not feel like casting it aside. After the 94 he cut a 9, and then filled in the first 9 with plaster, leaving the age, 49, as re The ravages of time and weathquired. er have laid bare the work as it was originally, and now the tombstone proclaims William Uxley to have been 949 years of age.—Philadelphia Record.

### Rome Without a Stage.

It will be news to most people that Rome, the channel through drama was disseminated through Euope, has today no dramatic tradition of er own, nor even a body of actors of Such strolling companies, operatic and dramatic, as may be travel-ing through Italy, often from Milan, make a brief "season" in the capital as in other cities, and that is all. An organized effort is now being made to remove this reproach. A city orchestra of 100 high-class performers has been formed, and this will be placed gratuitously at the disposal of the Costanzi theater, in return for six months of a varied repertory of opera. In the same vay the Argentine theater will become a national theater of comedy, with suit ventions of about £4000 a year, on condition of giving a six months' course of a varied dramatic programme.—London

### A Raft of Cocoanuts.

A curious picture in the Far Eastern Review, Manila, shows several cocoanut rafts in a still lagoon, apparently ready

to go to market. The cocoanuts are much lighter than water. They are simply thrown in by the thousand and then roped together by long strands of bark fiber into circula groups about twenty feet across, all the cocoanuts lying side by side. A native boat can tow a number of these odd rafts down a sluggish stream where no road could be found for ordinary transit, to a steamer wharf. Cocoanuts thus rafted will bear quite a bit of wind and rough water without being scattered.

Cocoanut trees are best grown in orchards set out in rows thirty feet apart. Four acres of fair trees should yield a million cocoanuts during their lifetime.

### Removing a Tight Ring. If you happen to get a ring on your finger that fits so tight that you cannot

remove it, a very easy way to get it off is as follows: Take a piece of cord or wrapping

Take a piece of cord or wrapping thread and push one end of it under the ring. Then, beginning just above the ring, wind the cord very tightly round and round the finger clear up to the tip of the finger. Now take hold of the end of the cord that was slipped under the ring and unwind the cord under the ring and unwind the cord. As the string unwinds the ring will be arried along with it, and removed with out any difficulty.

This is an old method of removing a

tight ring, and it may prove very use ful knowledge in case of a tight ring or a swollen finger.-Medical Talk. Dies in Poorhouse; Once Rich.

L. H. Dodge, erstwhile lawyer and newspaper man, who was at one time president of the Michigan Press association, made application for admission to the poorhouse at Bay City, Mich. was once a wealthy man and wielded much influence in a political way. His money was lost in mining investments. magnificent courage of her example: A The last five years the colonel had lived with an old woman who eked out an existence by telling fortunes, but when she died, a week ago, he was thrown upon his own resources at the age of 79 years. He has well-to-do children living

Slowly the little white petals close; Wee pointed nightcaps, rows upon rows Nod as the wind goes whispering by. -Margaret Ely Webb in St. Nicholas.

### The Light That Never Failed.

From a fisherman's cot on the bleak seashore a father and son were looking through the small window at a night of tempest. The wind howled dismally round the little structure that ever and anon trembled as in fear. But the hearts of the two were stanch and brave. for they were inured to the weather and had known many a storm. They could hear on the rocks below the hard beating of the surf that thundered and belinight. lowed with fearful sound. It was such a night as might bring to them a wreck at any time, and the old man lighted his pipe and made ready for the call if the lifeboat was to be run out. For with his fishing he combined that of a life-

"Father, I hope you will not have to go out tonight. I hope there will be no poor ship come this way and beat its life out on the rocks."

"Ay, ay, lad, it is a night of terror for the poor souls who live far from the sea. God alone knows how many there be quaking in their rooms this night with the wild seas washing over the decks. Your prayer is mine. I wish that there may never be another wreck.

"Where do all the people live, father, and what do they do in the big world, said the lad.

"It would be a long story, lad: I could not tell you in a week. But the most of them live safe and snug enough when they are at home. Once in a while there is a bad storm on land, and t does great damage. Cyclones they call the winds that sweep funnel-shape and carry all before them. The same wind will make a waterspout at sea. Some-times they destroy whole towns."

"I would rather live by the sea the boy thoughtfully, adding: "And are there no lifesavers on the land?"

The grizzled seaman smiled at the aive question of the lad, and replied,

half in jest: 'Not many, my son, unless it be those who are trying to save their own lives at the expense of others."
"I do not understand that, father!"

"You asked me what the people do in the great inland cities and on the wide plains. They toil hard, my son, for a mess of pottage. They dig the soil, and build houses and trade and sell every conceivable thing in the stores and market places, but not one of them tries to sell something so that another will have more life. He tries to get all he can in the exchange for himself."

for another when the peril of sickness stors the heart. But it is not a vocation. When you grow I am going to quit the sea and take you to one of the big colleges and make a smart man out of you. That is what I am saving all this wreck money for. There is a good pile of it now. And if I never come back," there was a faint catch in his voice, "you will know what you are to do. Take the know what you are to do. Take the gold and get an education. But always remember that your father, though a rough and ignorant man, gave his life for the good of others. It is the best

there was the sound of a rocket bursting in air. The old man started up and listended intently, but he heard it not again, and sank into his seat and renewed his

An or- meditation. The boy looked out of the window inand he never tired of the sight. And through all the darkness he fixed his eye on one spot low down on the hori- love, zon where a star shone. It was a light that never failed him on the blackest night, and he had grown to love it with all his starved little heart, for he knew only the rocks, the sea gulls, the passing steamers by day and the wrecks by mured night, and the fishing boats that nestled ocrat.

in the cove at the foot of the cliff. There were few companions for his life and he made friends with inanimate things.
"The star shines brighter tonight, father." he said.

"It is because you love it so, my son." replied the father. "Have you never noticed that when we are together and we have put our our own little taper and sit here listening to the waves that do so much destruction the star shines more brightly?"

"Indeed, now you tell me, father, it is so. When the storms come it shines there and never leaves the sea. I wonder if it is possible that it knows there may be beings in distress and would light them home."

"Ay, ay, lad, it does that very thing. Some day you will know this better than you do now. But it is because you think of these things that it shines so brightly. There is nothing like kindness in your own heart to make you know the kindness of others. Never forget that, son, wherever you may go in the years to come. I will not always be with you to tell you these things, and you must re-member them and think of the old man who loved you. Don't forget.'

"I never could forget you, father! But the storm is growing harder, is it not? I do hope you will not have to go to-For answer the man took down a

huge torch and placed fresh oil in its wick, and then resumed his pipe. "It is blowing great guns now, lad. Perhaps this is the last of it. I hope I do not want to leave you tonight. We are having such a snug time here

together."
The boy thought of his pale-faced other, who had been so patient with the broken nets, and who had given him any a soft caress when the father was battling with the waves.

"Father, did my mother know the star like I do?" Better than you will ever know it. lad. Your mother was one of the saints of earth, that the world never knows. She knew more of the star than either of us. I think it burned in her heart

more than in ours."
"How could it burn in her heart? Is ne star not in heaven?"
The man's face took on a strange expression, and the box saw it in one of the brief flashes. It awed him into greater silence. It was some time before

greater silence. It v the father replied: "There is sometimes heaven on earth, my son. The star is but an emblem of that. It shines then out of human hearts. If you will but think of this when you worship it in the night it will make your own heart grow tenderer. But there, let us talk no more of it to-

night. Some day you will know."

The storm died out. The low rumbling of the surf continued. Overhead the flying clouds grew lighter, and the star on the horizon shone with added luster. Still the two sat on while the moments fled by, and said no word. The boy put hand out and the father pressed it on his knee and held it with a firm, warm grasn.

"Look, father, the star is gone!" exclaimed the lad, with sudden agitation. rising from his chair.

But ere the worlds left his lips it flamed out as before, and he wondered.

sell something so that another will have more life. He tries to get all he can in the exchange for himself."

"But do they never do anything to bring gladness to another. You do father. I have heard the men and women thank you who came from the wreck with tears in their eyes. And think how much money they have given you."

"Yes, lad: I must not deceive you. There are kind hearts even on land, my son; thousands are willing to do and die for another when the neril of sickness."

son; thousands are willing to do and die him in everytning; what it he should son; thousands are willing to do and die, and the faint trace of a falsehood come upon the boy in after years? Al-ways there had been this thought on his mind. Tonight it became a burden more than he could bear. With a husky cough he cleared his throat. He let his pipe go out. "My son," he began, "let me tell you the story of a star. Once the people I told you about in the great cities grew

pitiful over the wrecks of the poor ships that lose their way in the night and are dashed to pieces on shore. And they erdered that their government, which, you for the good of others. It is the best heritage I shall leave you."

The loud boom of the surf dominated the silence that now fell upon the two, each busy with his own thoughts. Then there were the sample of a resket bursting there were the sample of a resket bursting. And they put this tower by the sea, that when the storms blew it could shine on the ships as if it were a light from heaven, and guide them, while they were sleeping in their homes and knew nothing of the perils of the deep. And this tently. He could see the hurrying clouds with their billowy flashes of lightnings, women, who would be kind to the diswomen, who would be kind to they may tressed, whoever and wherever they may be. And yonder light, my son, is this love, and it is your star. Some day I love, and it is your star. Some day I will take you to it. But you must wor-

ship it none the less."
"And my star, then, is love?" queried the boy, in a whisper.
"The light that never failed!" murmured the father .- St. Louis Globe-Dem

### DEPENDENCE.

Not that there are not "other eyes In Spain" as bright as yours can be, But that no eyes in all the world Can ever seem as bright to me.

Not that there are not lips as sweet Kissed daily by each separate wind, But that no other lips to me Can seem so sweet, can be so kind.

Sweetheart, I own myself your slave Because you own yourself my thrall; I-with so little, dear, to give; You-who so gladly give me all. -Reginald Wright Kauffman in Tom Watson's Magazine.

### Kaiser Has His Joke.

A member of the crew of the imperial yacht Hohenzollern writes home describ-ing the Easter day romp of Emperor William and the Empress. After the sailors had received their Easter eggs and other presents all were sent below while their majesties hid oranges in the cabins and in various places around the deck, for which the sailors hunted. "You have found all but two," said the Emperor (at length, and there was a fresh hunt. Finally one of the sailors saw the Emperor's pocket bulging, reached his head into it and took out an orange. his hand into it and took out an orange. The last missing orange was found in the Empress' parasol.

### Bulldog Saves Child.

An English bulldog which answered the screams of 5-year-old Clara Merion, who was being chased by a big black snake close to her home, near Atlantic City, N. J., killed the snake and probably saved the child's life. The battle between dog and snake was witnessed by a half dozen golfers, who saw the child's danger, but were too far away. by a half dozen goners. child's danger, but were too far away to render assistance. The dog was badly squeezed by the snake, but as far as could be discovered was not bitten in the fight, which lasted for several minutes. The child fainted from fright.

### X-Ray Causes Cancer.

Dr. E. A. Codman of Boston, in a discussion of the X-ray in surgery, has reported to the Johns Hopkins Medical society a case in Boston of cancer in the ring finger of a patient, the result of (Mass.) Cor. in Forest and Stream.

ulceration from an X-ray burn. remarkable experiments with the X-ray have been made at John Hopkins under the direction of Dr. Frederick Baetjer, and his hands show the effect. They are seamed with gashes and he has lost practically every finger and thumb nail. The skin on his hands is dry and looks dead and the tips of the tingers are of a dark yellowish tint.

How He Warded Off Old Age. A famous French general, when asked how it was that he had such an erect carriage, replied that it was because he bent over and touched the floor with

his fingers thirty times every day.

If he had acquired rigidity of the spine so that he could not do that, he would have had with it weak abdominal muscles, which result in portal congestion.
This portal congestion interferes with the stomach digestion and with the action of the liver. The poison destroying power of the liver is lessened, autointoxi-

### Loon's Great Dive.

Selectman E. W. Haines, who is also a dory fisherman, made an unprecedented catch in the bay here yesterday afternoon, pulling from the bottom of the bay, where the water is sixty-six feet by actual measurement, an old loon, hard and fast to a baited hook that had been set for codfish. has always been supposed that loons made their feeding grounds in shallow places until Mr. Haines found the one caught in his codfish trawl yesterday, which would seem to prove that deep water is no hindrance to them when they are in search of food. Mr. Haines says the hook caught the loon through the breast, and it was so firmly imbed-ded that it had to be cut out. Since the finding of the loon on the cod hook some of the fishermen believe that these fowl have been in the habit of robbing the

# PAPERS STIE PEOPLE

THE SELFISHNESS OF MEN IN PUBLIC.

By Clara Kern Bayliss. At operas and theaters it is as often men as women who enter late and depart early, or who converse during the most interesting portions of the productions. It is not men-neither is it women-but it is beings of the masculine persuasion who emit shrill, ear-splitting whistles by way of manifesting their approval during public entertainments.

At the fair in St. Louis two women and their escort were sitting on a bench by the Terrace of States. The gentleman left his place for a moment to procure a program, depositing his overcoat and art catalogue in the vacant space. Immediately a man and two women came up, and all three attempted to crowd into the bench. At the protest of the first women the man passed on to a vacant seat not three feet away, remarking as he did so: "There are hogs everywhere." Evidently. But he seemed to be mistaking the exact entity of the animal in this case. It was a big man who sat sidewise in the car with

his knee on the seat, occupying space for two, while women stood in the aisle beside him all the way to the fair grounds. And it was not a feminine conductor who thought it a

good joke to carry a woman three blocks beyond her destination, because, in her ignorance of metropolitan usages. she was trying to signal the motorman instead of him to stop the car.

A story was recently current to the effect that Rabbi Hirsch one day rose to give his seat in the car to a woman when an agile man slipped in ahead of her. The rabbi's countenance expressed his sentiments, and the intruder sald: "You look as if you'd like to eat me," to which the venerable Jew replied, "I can't, my friend. I am a Jew."

Though the surpassing politeness of American gentlemen may have bred in women a habit of assuming precedence in superficial trifles, it is probable that when it comes to genuine altruism and consideration of others women are no whit inferior to men. How could it be otherwise, "being so fathered and so husbanded?"

### HARDSHIPS OF THE RAILROAD MAN.

By P. E. Conley.

There are few things bigger than \$100 a month at that stage of a young man's career. With this in view it is little wonder that railroads do not have to look far when they wish to hire employes. The railroad microbe inoculates thousands of young Americans annually with a desire to go railroading. Added to the glaring attractions of excitement, travel, and good pay, there is also present the element of danger which is sure to attract the adventurous spirit.

The earliest age at which a young man can enter the service is 21. The principal dangers that beset the brakeman are from trains made up of cars of uneven height and from overhanging viaducts and bridges. It is no hard task to fall when running over the top of such a train in motion, and often trainmen are swept from their cars by overhanging obstacles.

As for promotion, the brakeman can rise to the position of freight conductor, where his pay will be 3 cents per mile. He may become a passenger conductor, where his pay will be about \$150 per month. If he cares to stay at the work long enough it is possible for him to become yardmaster, trainmaster, superintendent, or general manager even, but the many objectionable features of the work are scarcely inviting men capable of such advancement to the calling.

At his acceptance as apprentice he will be required on most roads to make the first three or four trips without probationary period of six months. During this period he curred in the great lottery?

must busy himself studying the signals, system of air bakes, and the other things that he will be required to be proficient in when his final examination is to be held.

The examinee must be absolutely sound as to physical condition, his hearing must be good, and his eyes will be given a closer searching and testing than any other examination in the world will put him through.

The technical examination is even severer in proportion than the physical. The brakeman must be familiar with every kind of signal to be found on the road.

On the air brakes he is questioned as closely. He must know how to trace air through different pipes and valves, must know the effect of different pressures on different speeds and different tonnage. In short, he must know the air brake from end to end and just what it ought to and

The pay of freight brakemen is 2 cents a mile. The monthly pay will run from \$65 to \$115 per month, according to the mileage made. Eighty-five dollars a month will perhaps be a general average for freight brakeman over the country. Passenger brakemen earn less,

### TOILERS OF CITIES SHOULD GO WEST.

By Charles Ulrich.

The lively, go ahead towns along the frontier of the Dakotas, Nebraska, Kansas, Wyoming, Colorado, and New Mexico, offer boundless opportunities for gritty men who are determined to throw off the shackles of slavery "bossism" imposes, and to work for themselves. While capital is a desideratum not to be despised, yet it is worthy of note that nearly every man who rose to wealth and prominence in the Western States started in without a dollar. It is the faculty of seizing opportunities as they present themselves and making capital of them that counts in the race for wealth. In the States mentioned the opportunities are plentiful, and it lies with the first comers to pick them up and profit

Enterprising young men with new ideas concerning the operation of stores, carrying large stocks of first-class goods, well displayed, and who know how to keep trade after they have won it, are bound to succeed. The chances for doing business on the side, as it were, trading for stock, poultry, selling farming implements where the manufacturers have no established agencies, buying and selling of grain, etc., are numerous.

Ordinary labor, while not so well paid in the smaller towns, enoys the advantage of cheaper cost of living. The workman, if he is enterprising, will soon have a cow about his place. Then he will get a cream separator, add three or four more cows to his herd of one, and presently he will be selling his cream for \$35 a month, a sum amply sufficlent to meet family expenses should his regular employment fail him. One thing brings on another in village life, but generally they have a golden living if competently handled by the man who knocks at fortune's door.

### DIVORCE IS DEBT REPUDIATION.

By Jeannette L. Gilder, Novelist and Poet. Divorce is rooted in selfishness and grounded

in dishonesty. A desire to have everything one wants, no matter what the cost, soon brings a refusal to bear anything with or from the one to whom a promise of fidelity in all circumstances has been given. And then comes the dishone An honest man does not repudiate his business responsibilities nor refuse to pay his gambling debts.

Then why should be be considered honest in repudiapay. Then he is placed as a member of a crew during a ting his domestic liabilities or refusing to pay the debt in-

### A FOOTLIGHT FAVORITE.

written.

~~~~~~

707 OW they cheered! Moira Croysdale forgot she had ever left the stage. Her breath came in quick little gasps for a few seconds; this, after all, was life -the old life which brought a new excitement with every movement, set the nerves tingling with the consciousness of youth and beauty and made the world bright with the joy of living.

It was something to be queen of musical comedy and return to such a triumph as this! Her powers of conquest had not waned, and, like a true woman, she felt gratified. Then her heart went out to the thousands who were cheering themselves hoarse, and the tears almost came to her eyes.

Who said the public were fickle? She loved them every one. They never forgot their old favorites.

Moira reflected as she bowed her acknowledgments that she was not old as years ago-neither had she lost her good looks-but they would have cheered her just the same if she had been old, and-yes, ugly. She was sure of it.

After all, she had only been absent from the boards a matter of two or three years. She remembered her friends told her she would soon tire of began to make himself noticeable. married life and wish to return to the

Well, they were partly right. She wasn't really tired of Dick-only just a little bit bored with too much humdrum happiness. It was a fit of the stage fever that had seized her, and she longed to feel the thrill of popularity again.

She wanted to compel the admiration of others as she had done in the old days; to provoke their laughter and suddenly, sent a note to the theater their tears, to win smiles and applause. How could Dick understand Cross. what all this meant to a woman-an

actress? In their quiet country home he had been content to live as a simple, sportloving gentleman since their marriage. He forgot how much the fascination of

the theater entered into her life. But now she was in the midst of it all again, and London was ready to as Moira passed up the drive the trees une. worship at her shrine as it had done which sheltered the house seemed to

"A perfect, a complete triumph," ing a message of welcome to her.

would have made her perfectly happy. noiselessly as she could. At the Savoy, where they made up a theatrical supper party later on, she gazing moodily into the fire. END OF THE WAR IS NEAR

Disaster to Russian Fleet Will. Probably Terminate Conflict.

CZAR'S LAST TRUMP.

Emperor Nicholas Advised to Make the Best Terms Possible With

the Japanese.

Washington, D. C., May 29.-At the close of official day the news of Japan's naval victory had turned the thoughts of the officials toward peace, and prominent diplomats are holding their summer plans in abevance awaiting developments and instructions from their governments. Thus far, it has been impossible to ascertain if any direct steps in the direction of peace have yet been taken.

An European ambassador remarked today that it hardly was expected that the move could be made for the next few days. Activity along this line, however, is looked for as soon as the President returns from New York.

St. Petersburg, May 29.—In diplomatic circles generally the belief is held that if Rojestvensky's defeat is as complete as reported it is sure to be followed by renewed efforts to bring about peace.

Paris, May 29, 5:20 p. m.-The late dispatches of the Associated Press, showing the crushing nature of the Russian naval defeat, have led to the comment that Russia has played her last card and must bring the war to a close

TIME FOR PEACE.

The semi-official Temps this afternoon makes an urgent appeal on the subject, voicing the sentiment of the allied nations that Russia should abandon a struggle which has become hopeless and

make the best peace possible.

The paper says Addiral Rojestvensky was the last hope and his defeat leaves Japan master of the seas without any further chance of the Russian navy or

army achieving a victory.

The dispatch of the Associated Press from Tokio officially announcing the Japanese naval success, unexpectedly produced a general firmness on the bourse here owing to the belief that it foreshadows peace.

AMERICA MAY MEDIATE.

New York, May 29.-Advices received from London and other leading continen-tal financial centers by the local bankers were all of the opinion that Japan's de-cisive victory would hasten peace.

Reports that the government at Washington had signified its willingness to act as mediator in the event of peace pro-posals were current and added to the hopeful feeling in financial circles that the end of the war might be looked for.

DID PART OF FLEET ESCAPE? Berlin, May 29, 1:40 p. m.—Work was almost suspended in the navy depart-

ment this morning when twenty copies of the Tokio official bulletin of the Associated Press were distributed there. The officers and bureau chiefs left their desks to talk over the news with one another. Few generalizations were made, except that part of the Russian fleet engaged in the Straits of Korea seeming-ly got away and possibly will reach

HAD DIVIDED HIS FORCES.

All the Russian fleet it is claimed here, was not engaged in Korean waters. The fleet it is understood at the navy department, had divided, a portion sailing east-ward of Japan.

Definite Japanese statements are accepted here as being generally accurate. Therefore, it is assumed in professional that the Japanese inflicted quarters greater damage than they themselves

HANG ON TO RUSS FUNDS.

Although the tone on the bourse was already affected favorably by peace hopes, following the lead of London and official news of the Associated Press from Tokio of Togo's victory, caused a spontaneous though momentary suspen-sion of trading. Then business became more active and prices general were higher. Russian fours fell 4-10 of a point to 87.60 and then gained 1-10. Russian funds were held with extreme tenacity. mostly by investors, who are determined to hold on to them until they rise, when the war is over. Russian government bankers are always watchful in order to prevent a tumble.

JAPAN IS SUPREME.

Naval critics in the evening papers accept without reserve the Associated Press dispatches from Tokio and build on them the view that the war has entered upon the last phase in which the Japanese command of the sea will continue unthreatened until the end.

GREATEST FIGHT OF CENTURY. The battle of Saturday is called the greatest fleet action for a hundred years since Trafelgar, and is classed being immensely greater than the Adriatic sea fight, in 1866, or the naval battle of Santiago, in 1898.

DESTRUCTION OF FLEET.

While the details are too few to enable the whole picture to be reconstructed, enough is evident from the expert commentators to think it indicates cisive defeat of the Russians and the share my triumph on the opening probability of the final destruction or surrender of the fugitive remnants of Rojestvensky's fleet

HELPS STOCK MARKET.

New York, May 29.-Stocks had buoyant opening today in sympathetic response to the London market. The Russian naval defeat was interpreted there as making for early peace. Three classes of Japanese government issues are dealt in on the New York stock exchange. Bankers' certificates for the 4½ change. per cent. bonds opened 4½ higher than Saturday and then reacted 1¼ on realizing. Certificates for the sixes second series rose 31/8 and the first series 6s 11/4. Leading international stocks and industrials opened 1 to 2 points higher than Saturday. The demand proved dull at these advances and part of the gains were lost during the first hour.

STORM CONFUSES RUSS FLEET. Rojestvensky Forced to Combat Elements as He Enters Straits.

Paris, May 29.—The Tokio correspondent of the Journal states that while the Baltic fleet was entering Tsushima straits a violent storm arose, impeding the handling of the smaller vessels, in volving some slight confusion.

RUSSIA AND MONGOLIA.

Pekin Government Has Not Been Notified of Invasion.

Pekin, May 29.—The Chinese authorities deny that they have received from Russia a positive notice of the intention to march troops into Mongolia. On the other hand, the foreign office is deluged with charges and counter charges relative to alleged breaches of neutrality by both Russians and Languages. both Russians and Japanese.

Such a Mistake!-Physician-Your ailment lies in the larynx, thorax and

epiglottis. Hooligan-Indade! An' me afther thinkin' th' trouble was in me throat.

Long Distance Appreciation .- Mrs. Jordan-Did you ever hear my daughter sing, Mr. Johnson? Mr. Johnson-Oh, yes; I only live five blocks from your house, you know.

Baby, the Biggest.--Mr. Bigger, Mrs. Bigger, and Baby Bigger, which of this interesting family is the biggest, and why the biggest? Answer-Baby Bigger, because he is a little Bigger. Excused.-I say, if you are so aw-

fully smart at problems, tell me how far off thunder is when you hear the first roll. Calculator-I can't do that, sir. Crawfoot-You can't? Calculator-No; I'm the lightning calculator. A Pun?-A man driving in the coun-

try lost a nut off his wagon wheel. Meeting an Italian, he asked if he had a monkey wrench. The indignant Italian wrathfully replied, "Me no keep a monkey ranch; me keep a sheep ranch."

Convincing .- "Certainly, I am sure it's a counterfeit note," said the receiving teller. "It has one very noticeable flaw; it's in the paper." "But, my dear man," protested the depositor, "in these days you can't believe everything you see in the paper."

A Hint .- Mr. Highlive (looking up from the paper)-Well, well! Wonders will never cease! They've got so now that they can photograph in colors. Mrs. Highlive (glancing at his nose)-I think, my dear, you'd better get your picture taken before the old process is abandoned.

Exemplary Punishment.-A mother brought her little son for his first time to school, and said to the teacher: 'This boy o' mine is very delicate, as he is afther a fit of harmonia on the oongs; but if he does anything bould, an' I know he will, bate the wan next to him, an' 'twill frighten him."

He Won Easily .- Mr. Subbubs-You know you're only talking nonsense. What do you want a couple of new gowns for? Mrs. Subbubs-Why, Mrs. Playne has got a dozen gowns, all of them much handsomer than the two or three that I've got. Mr. Subbubs-Yes, I know. But a homely woman like that needs rich attire in order to attract attention.

Seizing the Opportunity .- "Always," advises the pompous person who has accumulated several millions, "always say, 'I will.' Never allow yourself to poor person to whom he addresses this to a dark hue. homily, "should always say, 'I will'?" 'Yes, sir." "And you always say !!?" "I do." "Will you lend me half a million to get my airship in running order?"

Proved His Teacher Wrong.—Little Willie's father found his youthful son holding up one of his rabbits by the ears and saying to him: "How much is seven times seven, now? Bah," the father heard the boy say, "I knew you couldn't. Here's another one: Six times six is how much?" "Why, Willie, what in the world are you doing with your rabbit?" asked the father. Willie threw the rabbit down with disgust. "I knew our teacher was wrong," was all he said. "Why, how?" asked his father. "Why, she told us this morning that rabbits were the greatest multipliers in the world.

Cawdor Castle Still Mocks the Tooth of Devouring Time.

HOME OF MACBETH UNCHANGED

Hamlet's castle at Elsinore, which still remains precisely as in his day, is not the only habitat which still mocks the tooth of cormorant devouring time. The castle of Macbeth, thane of Glamis and of Cawdor-Cawdor castle-built in the year 1446, also still stands just outside of the village still called "Cawdor," at Inverness, in Scotland, says Shakspeareana, and if it does not happen to rain when the tourist approaches it (and it sometimes does not rain in Scotland) he will exclaim as Duncan did, "this castle hath a pleasant seat, the air nimply and sweetly recommends itself to our senses."

During its many centuries of life, Cawdor castle has accumulated many wings, "outer walls" and new interiors, and so the great hall where the deed of dreadful note was first resolved may not be at present located (and, for once, tradition has not selected one of them). But a chamber where the deed may have been done there is in on of the oldest parts of the old pile. For several years this chamber has been tendered by the present thane of Cawdor-on of the Campbell family (the present owners of the property) as a bedroom for a night's lodging to any artist who will as quid pro quo paint upon its walls a picture of some incident of the tragedy according to Shak-

That not many artists have cared for such a night's lodging on any terms we are led to guess from the fact that only four pictures are on that chamber's walls. Lady Macbeth in her nightrobe; Macbeth with the fatal dagger drawn; the brindle cat that mewed thrice, and the owl, the fatal belman! as well as the three secret black and midnight hags over the caldron!

Everything else in the house is more quiet when there is illness, but did you ever notice the impudence of the clock, which ticks all the louder?

ATAXIA IS CURABLI

REPORTED CURE STANDS TEST OF FULL INVESTIGATION.

A Former Victim of Locomotor Ataxia

Now Free from Suffering and Actively at Work. "Yes." said Mr. Watkins to a reporter. "it is true that I have been cured of

ataxia by Dr. Williams' Pink Pills."

"Are you sure you had locomotor ataxia? "The doctors themselves told me so.

Besides I recognized the symptoms." "What were they?"

"Well, the first indications were a stiffness about the knee joints that came on about four years ago. A few months after that appeared, my walk got to be uncertain, shaky-like. I lost confidence in my power to control the movements of my legs. Once, when I was in the cellar, I started to pick up two scuttles of coal, and my legs gave way suddenly, and I tumbled all in a heap in a basket. I couldn't close my eyes and keep my balance to save my life. Then I had fearful pains over my whole body and I lost control over my kidneys and my bowels."

"How about your general health?" "Sometimes I was so weak that I had to keep my bed and my weight fell off twenty pounds. Things looked pretty bad for me until I ran across a young man who had been cured by Dr. Williams' Pink Pills and who advised me to

try them." "Did these pills help you right away?" "I didn't see much improvement until I had used six boxes. The first benefit I noticed was a better circulation and a picking up in strength and weight. I gradually got confidence in my ability to direct the movements of my legs, and in the course of seven or eight months

all the troubles had disappeared." "Do you regard yourself as entirely well now?"

"I do the work of a well man at any rate. I can close my eyes and stand up all right and move about the same as other men. The pains are all gone except an occasional twitch in the calves

of my legs." Mr. James H. Watkins resides at No. 72 Westerlo street, Albany, N.Y. Dr. Williams' Pink Pills can be obtained at any drug store. They should be used as soon as the first signs of locomotor ataxia appear in a peculiar numbness of the feet.

MINE VARICOLORED PAINT.

Enterprising Oregonians Believe They

Have a Bonanza in a Claim. The story of a soap mine in Idaho is outdone by a report from Lane county, in central Oregon, to the effect that paint has been discovered in the earth and is being mined like gold. It is said to be of good quality and the owners think they have a heavy?

they have a bonanza. Details of the methods used in paint mining are not contained in the report, is said that several shafts thirty or forty feet deep were sunk. They penetrated several strata and the paint was found to exist in successive layers, with be dismayed by the outlook! Overcome the outlook! That's the way to succeed." "One, then," comments the succeed." "One, then," comments the The owners of the mine expect to market their paint successfully, and will have an exhibit of it at Lewis and Clark exposition, which he held in Portland from June 1 to Octo-

ber 15. The story of the paint deposit is vouched for by persons who have seen the mine. The same persons vouch for a the mine. tale to the effect that in the Willamette valley, which is one of the most fertile spots in the world, sheep grow so fat that, when they get on their backs, they lie helpless like turtles. It is said that small boys in the Willamette valley make money turning over sheep at so

much a turn. Just Discrimination in Railway

Rates. All railroad men qualified to speak on the subject in a responsible way are likely to agree with President Samuel Spencer of the Southern Railway when he says: "There is no division of opinion as to the desirability of . stopping all secret or unjustly discriminatory devices and practices of whatsoever character."

Mr. Spencer, in speaking of "unjustly discriminatory" rates and devices, makes a distinction which is at once apparent to common sense. There may be discrimination in freight rates which is just, reasonable and imperatively required by the complex commercial and geographical conditions with which expert rate makers have to deal. To abolish such open and honest discrimination might paralyze the industries of cities, States and whole sections of our national terri-

This distinction between just and unjust discrimination is clearly recognized in the conclusions of the International Railway Congress, published yesterday:

"Tariffs should be based on commercia principles, taking into account the special conditions which bear upon the commercial value of the services rendered. With the reservation that rates shall be charged without arbitrary discrimination to all shippers alike under like conditions, the making of rates should as far as possible have all the elasticity necessary to permit the develop-ment of the traffic and to produce the greatest results to the public and to the rail roads themselves."

The present proposal is, as Mr. Walker D. Hines of Louisville showed in his remarkable testimony the other day before the Senate committee at Washington, to crystallize flexible and justly discriminatory rates into fixed government rates which cannot be changed except by the intervention of some government tribunal, and by this very process to increase "the temptation to depart from the published rate and the lawful rate in order to meet some overpowering and urgent com-

mercial condition."-New York Sun. Pigeon Returns After Three Years.

After flying about the country for nearly three years a blue checked pigeon which in June, 1902, was shipped to Gordonville, S. C., to be entered in a 500 mile contest for young birds, returned to the loft of its owner, John Dethoff, this city, today.

The small ring of identification re-

mains intact on its leg.—Reading correspondence Philadelphia Bulletin.

THINK OF IT!

This Pretty Matron Had Headache and Backache, and Her Condition Was Serious.

PE-RU-NA CURED.

99 Eleventh Street. Milwaukee, Wis. "A short time ago I found my condition very serious. I had headaches, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peruna, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored."---Mrs. M.

The reason of so many failures to FEMALE TROUBLE cure cases similar to the above is the fact that diseases peculiar to the female sex AS CATARRH

are not commonly recognized as being caused by catarrh. Catarrh of one organ is exactly the same as catarrh of any other organ.
What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because

it cures the catarrh. If you have catarrh write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

"Yes" Churches **School Houses** and Homes

ought to be decorated and made beautiful and healthful by using

A Rock Gement in white and beautorub or scale. Destroys disease germs and vermin. No washing of walls after once applied. Any one can brush it on—mix with cold water. Plain tinting and whitening, and the most elaborate relief, stencil work and frescoing may be done with it. Other finishes (bearing fanciful names and mixed with hot water) do not have the cementing property of Alabastine. They are stuck on with glue or other animal matter, which rots, feeding disease germs, rubbing, scaling and spoiling walls, elothing, etc. Such finishes must be washed off every year—costly filthy work. Buy Alabastine only in five-pound packages, properly labeled. Tint card, pretty wall and ceiling design, "Hints on Decorating, and our artists' services in making color plans, free.

ALABASTINE COMPANY. Grand Rapids, Mich., or 105 Water St., N. Y.

Dwarf of the Ox Family.

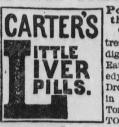

One of the greatest curiosities among the domesticated animals of Ceylon is a breed of cattle known to the zoologist as the "sacred running oxen." They are the dwarfs of the whole ox family, the largest specimens of the species never exceeding 30 inches in height.—

THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS BETTER. ly doctor says it acts gently on she stomach, liver kidneys and is a pleasant laxative. This drink is de from herbs, and is prepared for use as easily as . It is called "Lame's Tea" or

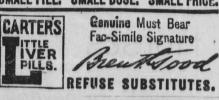

LANE'S FAMILY MEDICINE All druggists or by mail 25 cts. and 50 cts. Buy it to day. Lane's Family Medicine moves the bowels each day. In order to be healthy this is necessary. Address, O. F. Woodward, Le Roy, N. Y.

K HEADAGHE

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nauses. Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

SMALL PILL. SMALL DOSE. SMALL PRICE.

If afflicted with Thompson's Eye Water

WHEN WRITING TO ADVERTISERS please say you saw the Advertisement in this paper.

FOR MEN'S SUMMER WEAR.

Fancy Hat Bands, Golf Handkerchiefs, Popular Belts and Collars.

Fancy hat bands will be more generally worn during the coming summer than ever before. All straw hats are now offered trimmed with plain black or fancy colored bands. Young men or tancy colored bands. Found men will desire to possess a variety of bands, and every retailer should carry a stock. The bands appear in all colors, have tiny hooks for fastening, and can be put on

or taken off in a jiffy.

Golf handkerchiefs, which are on the old style bandanna order, but in madder colors, will be worn about the neck and around the waist this summer. This is an English fad, and is quite attractive, and, where many happen to be playing,

even picturesque.

The "coatless" brace is one which most likely is destined to become popular. It is worn under the overshirt and over the undershirt, and is not seen when a man is divested of coat and waistcoat. Shepherd plaid neckwear seems to ave become quite the thing. The most attractive is a half inch check in two

toned effects.

Brown, a shade which has had quite a run in men's scarfs, suspenders, etc., seems to be going out. Reseda, cadet blue, Quaker gray, soft tan and medium

fancy tints are much worn.

The popular width in belts will be one inch. The proper buckle will be square and made of gold plate, gun metal and oxidized, and the leather black calf, pig-

The turndown collar which is gaining in favor by those who do not wear the standing is much lower than the one that has been worn for several years. It is cut back more in front and has about a half inch space; in fact, it much resembles the style worn ten years ago.

—Clothier and Furnisher.

GIVE UNCLE SAM A CONCERT.

Thirty-four Hungarians Held Up at Ellis Island.

Held up at Ellis island, thirty-four Hungarian lads charmed with music those who would bar their entrance to the United States. They also gave the immigration officials, employes and about 3500 men, women and children from across the sea a band concert, the first at Ellis island for ten years. The boys are from 14 to 18 years old, and under the management of Johann Weber, who trained them and brought them to America. The officials wanted proof that they ware the content laborate and warened warened warened to the content laborate and warened w were not contract laborers and were not liable to become a charge on this country. So the concert was ordered in the office of the board of inquiry presided over by Maj. Charles Semsey, who served on Kossuth's staff and fled with him to America. The boys played with-out notes and with dash and brilliancy several Hungarian marches. When told that they had qualified as musicians and might enter America they cheered and then appropriately played Sousa's "Stars and Stripes Forever."

The question of adjournment was under consideration, and General Butler had stepped over to Mr. Randall's desk for a private consultation. Butler favored a Sunday session. Randall op-

"Bad as I am, I have some respect for God's day," said the Democrat, "and I don't think it proper to hold a session of Congress on that day."

"Oh, pshaw!" responded Butler, "den't the Bible say that it is lawful to pull your ox or your ass out of a pit on the Sabbath day? You have seventy-three asses on your side of this House that I want to get out of this ditch tomorrow, and I think I am engaged in a holy work."—Boston Herald.

"Raise Cain and Holler."

District Attorney Jerome of New York visited Philadelphia not long ago, and delivered a lecture for the benefit of the men who are trying to reform the politics of the Quaker City. At the conclusion of his discourse, which was eminently practical, one of the local reformers went up to him and sald, with the air of a man who was about to put a

poser:

"Your remarks were very iteresting, but what would you do if what is known as the 'organization' was composed of the machines of both political parties?" The pugnacious district attorney from New York did not even pause to think,

but exclaimed,
"Raise hades and holler murder."— Harper's Weekly.

BOOK OF BOOKS.

Over 30,000,000 Published. An Oakland lady who has a taste for good literature tells what a happy time she had on "The Road to Wellville." She says:

"I drank coffee freely for eight years before I began to perceive any evil effects from it. Then I noticed that I was becoming very nervous, and that my stomach was gradually losing the power to properly assimilate my food. In time I got so weak that I dreaded to leave the house-for no reason whatever but because of the miserable condition of my nerves and stomack. I attributed the trouble to anything in the world but coffee, of course. I dosed myself with medicines, which in the end would leave me in a worse condition than at first. I was most wretched and discouraged-not 30 years old and feeling that life was a failure!

"I had given up all hope of ever enjoying myself like other people, till one day I read the little book, "The Road to Wellville." It opened my eyes, and taught me a lesson I shall never forget and cannot value too highly. I immediately quit the use of the old kind of coffee and began to drink Postum Food Coffee. I noticed the beginning of an improvement in the whole tone of my system, after only two days' use of the new drink, and in a very short time realized that I could go about like other people without the least return of the nervous dread that formerly gave me so much trouble. In fact, my nervousness disappeared entirely and has never returned, although it is now a year that I have been drinking Postum Food Coffee. And my stomach is now like iron-

nothing can upset it! 'Last week, during the big Conclave in San Francisco, I was on the go day and night without the slightest fatigue; and as I stood in the immense crowd watching the great parade that lasted for hours, I thought to myself, This strength is what Postum Food D. Fry in Lippincott's. Coffee has given me!" Name given by Postum Co., Battle Creek, Mich.

There's a reason. The little book, "The Road to Wellville," may be found in every pkg.

"And you?"
"Slaying!" shouted back the automobile with a horseless laugh.—Lippincott's Magazine.

Of Course.

"Keeps very cold, doesn't it?" he queried, as he sat down beside an acuaintance. "Very," was the brief reply.

"Can you understand it? "Yes, sir."

"Oh, you can? What is it?"
"The weather!" And then the temporary truce which had been patched up after twenty years of bitter hostility was declared off, and they hated each other again.—Pick-Me-

Little Love Taps.

At one of the recent white house re-ceptions there was a little case of rapier thrusting between two ladies, and it was delightfully entertaining to those who

aw and heard.
There is a famous man in Washington, one who came from the plain people and who continues as one of them. He has a beautiful daughter of aristocratic tendencies, who has dug up a family tree, somewhow or other, and who affects superiority which she does not possess in any sense.

The wife of a congressman from a western state was introduced to the young lady and pleasantly said: I have met your distinguished father,

Miss ——"
"I dare say," replied the young lady languidly. "Papa in his position meets all sorts of people."

The western lady flushed and flashed back instantly: "I should suppose so, Especially when he is at home."—Smith

Babe Imitates Taft; Scalded.

Geraldine, the 4-year-old daughter of Bernie Evans, a farmer of Davies county, Ind., heard her father reading about Secretary of War Taft sitting on the lid tion.

while President Roosevelt was away The child seemed greatly interested in the story and asked a number of questions concerning it, to all of which the parent replied by explaining what was meant. The other morning Mrs. Evans, who was getchering vertable in the story of the control who was gathering veretables in the gar-den, heard her infant child screaming, and when she ran into the kitchen Ger-aldine was holding it on a hot stove. Its limbs were cooked and a physician pronounced its injuries fatal. The parents think the child had the Taft story in mind when she placed her brother on the

SERPENT-EATING SNAKE.

Venomous Reptile That Attacks Man or Beast.

A few days ago a serpent-eating snake king of serpents (Ophiophagus elaps), was found swimming in the water of the Royal lakes at Rangoon and was killed before it could endanger the safety of the people sculling on the lakes.
It is among the most interesting of

his third wife)—Sorry to hear you have lost your wife, John.

our venomous snakes, and the only really aggressive member of the ophidians, readily attacking any man or animal that happens its way. The female is especially irritable during the season of modification, and as the adult snake attains a length of from twelve to fifteen feet, is superlatively swift and active, and possesses a poison fong three interests. and possesses a poison fang three inches in length and charged with a very pow-erful venom, it will be admitted that Ophiophagus elaps, naia bungarus or ser-

opinophagus etaps, han bungarus or serpentivore, as it is also called, is a foe that had better be avoided.

While being neither an arboreal nor a water snake, the Ophiophagus elaps climbs trees with facility and takes to water readily, swimming ask deadly is the and skill. Its poison is as deadly is in and skill. Its poison is as deadly in its effect as that of the lesser nooded snake (the Ophiophagus elaps also carries a hood) the cobra; but it is believed that

hood) the cobra; but it is believed that the action of the venom is not quite so rapid.

The shortest period within which it proved fatal to a fowl was fourteen minutes, while a dog expired in two hours and eighteen minutes. Nicholson relates an account of an elephant which succumbed to a bite in three hours.—Amrita Bazar Patrika.

His Reason.

A favorite story of a relative of the late George De Forest Grant was of a correspondence which took place between him and Mrs. Bradley Martin at a Cali-fornia hotel. Mr. Grant was the first to arrive and had secured satisfactory accommodations on the first sleeping room floor, which were desirable because the house was not supplied with elevator

A few days later Mrs. Martin came and got a room for herself on the first floor, but her daughter had to go to the

floor above. Learning that her neighbor was a New Yorker, Mrs. Martin addressed a note to him thus:

"Mrs. Bradley Martin presents her compliments to George De Forest Grant and heavy that he will evaluate the second sec and begs that he will exchange rooms with her daughter."

Mr. Grant was not disposed to be gal-

lant at the moment and sent this reply:
"Mr. Grant presents his compliments
to Mrs. Bradley Martin and would like His answer was followed by an indignant note assuring Mr. Grant that her naughter's habits were altogether correct. To which Mr. Grant sent his regrets that he could not comply with the request, since her daughter did not drink and he did, and consequently the stairs would be easier for her than for him.—New York Sun.

Found Through Collar Button. A collar button on the sidewalk in Chicago caused the meeting of Fred and John Holbert, brothers, who had not seen each other for twenty years. Fred the elder of the brothers, who is a stock raiser near Dolton, Ill., had taken a load of cattle to the stockyards and was waiting for a car, when he saw the collar button. John, the other brother, who lives in Denver, had just finished a visit at the stockyards, and he went to the same corner to get a car. He, too, saw the collar button, and as the protiners reached for it at the same time, their heads bumped. "It's a wonder you wouldn't look what you're doing!" growled Fred. "The same to you, sir!" said John, rubbing his head. A moment and they recognized one another. Both A collar button on the sidewalk in and they recognized one another. Both landed in New York from Liverpool twenty years ago, but soon parted and lost each other's address.

The Difference.

A white-faced cashier met the astute company promoter at the door of the of-fice when he alighted from his goldplated motor car.
"Oh, sir," he blurted out, "the office has been robbed! Burglars broke in last night!"

"Indeed! What did they take?"
"The whole of the £2000 which I was to send out to the shareholders today."
"Ah, shareholders' money—eh? Clever scamps, these burglars. Did they take anything else?"

"Your gold-mounted umbrella, sir." "Oh, the villainous, cold-blooded thieves! Send for the police at once,"-

New Georgia Industry. "Any rattlesnakes today?" asked the man with the box. "Want any rattle-

"Rattlesnakes!" That was the exclamation of the crowd as several edged further off from

him.
"Finest in the country!" said the man. "Finest in the country!" said the man.
"But I see you don't want 'em."
And as he shuffled down the street
they heard him advertising his goods;
"Here's Georgy rattlesnakes! Three
for a dollar! Every one with ten rattles and a button!"—Atlanta Constitu-

LAST OF HUMAN WRECKAGE.

Mark Twain Writes for an Unfortunate Girl.

Miss Madelaine Sinsheimer, the last of the human wreckage of the grade crossing trolley car disaster in Newark two years ago, has been taken to a private hospital in Philadelphia. Nine of her schoolmates were killed and many others hurt when the car full of high school pupils was struck by the train. She alone has lingered on, bedridden. It was during the markly days of her sickness. alone has ingered on, bedridden. It was during the early days of her sickness Miss Sincheimer took to reading Mark Twain's books. About that time the humorist was in New York and her brother called on him to ask him to write his name for her in one of his books. Mark Twain heard her story and wrote both a "sentiment" and a letter. In the book he inscribed: "One of the most remark able differences between a lie and a cat able differences between a lie and is that a cat has only nine lives." letter he said: "I wish I could take you, sound and whole, out of your bed and break the legs of those officials and put them in it—to stay there."

MERCILESS ITCHING.

Another Speedy Cure of an Itching Humor with Loss of Hair by the Cuti-

"For two years my neck was covered with sores, the humor spreading to my hair, which fell out, leaving an unsightly bald spot, and the soreness, inflammation, and merciless itching made me wild. Friends advised Cuticura Soap and Cuticura Ointment, and after a few applications the torment subsided, to my great joy. The sores soon disappeared, and my hair grew again, as thick and healthy as ever. I shall always recommend the Cuticura Remedies. (Signed) Harry J. Spalding, 104 West 104th street, New York City."

'Sdeath!

The doughty buccaneer has boarded the private yacht. Now, the private yacht carries no great treasure, whereat the doughty bucaneer is wroth. He goes from stem to stern and from hatches to hold in serach of plunder. As he rushes into the cabin he is confronted by a pale young girl, whose patrician lips curl with scorn. Taken aback, he essays a courtly bow, such as was practiced by Capt. Kill and others; but the unfamiliar surface of the heavy carpet proves too much for his feet and he stumbles

ungracefully.
"Ha, ha!" comes in a high treble from between the patrician lips.
"Why do you ha, ha'?" demands the

angry buccaneer.
"You claim to be a freebooter, but you are only a carpet slipper." And she walked the plank like the lady she was.

LIVING TOO HASTILY AMERICAN WOMEN BREAK DOWN

Irregularities and Female Derangements Result - Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the newous haste of every woman to accomplish just so much each day, it is said that there is not

one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret

of so many unhappy homes. No woman can be amiable, lighthearted and happy, a joy to her husband and children, and perform the duties incumbent upon her, when she is suffering with backache. headache. nervousness, sleeplessness, bearing. down pains, displacement of the womb. spinal weakness or ovarian troubles.

Irritability and snappy retorts take the place of pleasantness, and all sun-shine is driven out of the home, and lives are wrecked by woman's great enemy-womb trouble. Read this letter:

Dear Mrs. Pinkham:—
"I was troubled for eight years with irregu-"I was troubled for eight years with irregu-larities which broke down my health and brought on extreme nervousness and despon-dency. Lydia E. Pinkham's Vegetable Com-pound proved to be the only medicine which helped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once were see Lydia and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without an ache or a pain."

—Mrs. Chester Curry, 42 Saratoga Street, East Boston, Mass.

At the first indication of ill health, painful or irregular menstruation, pain in the side, headache, backache, bearing-down pains, nervousness or "the blues," secure at once a bottle of brought before the county courts of England, the so-called "poor man's courts," Lydia E. Pinkham's Vegetable Compound and begin its use. pound and begin its use.
