ELOF HANSON.

The Card that Maude wrote to Erin.

Slowtown, May 16, 1907.

DEAR ERIN: Have been out shopping and the things I expected to buy here for our party are so much more expen-

sive that we had better buy them at home. The GLADSTONE GROCERY Co. have the paper napkins, olives, waf-

ers, canned meats, pickles, and everything else we need for the party, and their prices are more reasonable. P. S.—Regards Very truly,

to all.

Buying at Home Saves Time and Money.

JOHN HANCOCK Agent, Manistique, Mich,

In the camp is stimulated the interest which must be the backbone of the order. Have something doing that will make every single member desire to attend each meeting. Keep it moving. Be active. Don't let the thing lag. Let everybody help and so arrange the work that as many as possible may be depended upon for some certain feature of the work.

The largest Modern Woodman camp in Nebraska is No. 120 of Omaha. It has 1,068 members.

Up to Jan. 1 last the total number of death claims paid by the society numbered 30,569, the disbursements on this account aggregating \$56,509,734.35. In the case of vacancy in the office of clerk the consul should appoint a

clerk pro tem. to serve until the election of a successor by the camp. Camp 47 at Sycamore, Ill., recently initiated its five hundredth member.

MASONIC.

A Philippine Past Master's Jewel. Chips From the Temple.

Manila lodge, preceding the installation of officers, presented a most beautiful jewel to its past master, Eugene Stafford, who has done so much for American Masonry in the Philippines,

A PHILIPPINE JEWEL.

and his untiring efforts are greatly appreciated by the brethren for whom he has wrought. He is inspector of the fiftieth Masonic district of California, which includes the Philippines, and to serve in this capacity had to sacrifice his membership in his home lodge in New York and also give up his profession so that all his time would be at the demand of Masonry, says the Tyler-Keystone. The jewel is of rare beauty and unique design, intended primarily to be typical of the islands and their scenery. Mayon volcano, the largest of its kind in the Philippines, is represented in the distance, while in the nearer landscape are two stately palms whose color is represented by appropriate gems. The whole is surmounted by the letter G, with square and compasses and the name of the recipient.

The Masons of Sheboygan, Wis., are planning the erection of a new temple to cost \$50,000.

The late Samuel A. Johnston had served thirty years as grand chancellor of the Scottish Rite for Indiana.

relief and truth.

the island of Jamaica lost their lodge paraphernalia. The lodges are under the Scottish constitution.

The new Masonic temple to be erected in Connellsville, Pa., will be four stories high and cost \$70,000.

In Illinois Masonic circles there is talk of celebrating the one hundredth anniversary of Masonry in the state. The first lodge was formed at Kaskaskia and was chartered by the grand lodge of Pennsylvania in 1807. STEAMER NAOMI BURNED. Rhoades was a lumber expert for the Detroit branch of the Diamond Match company.

CROSBY PASSENGER LINER DE-STROYED WHILE COMING TO MILWAUKEE.

FIVE LIVES ARE LOST.

Three Steamers Near at Hand When Fire Broke Out and Rescued Passengers and Crew.

GRAND HAVEN, Mich., May 21. [Special.]-Five lives were lost and about seventy-five people had a perilously close escape from death and a property loss of \$250,000 was caused when the passenger and freight steamer Naomi of the Crosby Transportation company

Four of the victims were coal passers penned down in the forecastle by the flames where many of the rescued pas-sengers from the decks of the freighter Kerr and the steamer Kansas saw them at the port holes vainly imploring for help. J. M. Rhoades of Detroit, a passenger was the fifth victim. He was terribly burned in his berth and died soon after reaching a hospital at Grand Rapids, Mich. The steamer was burned t the water's edge, and has been towed into this harbor where she lies at her dock, a smoldering hulk.

Fire Starts at 1:30 A. M.

between decks in the forward end of the steamer. It spread with tremendous rapidity and it was apparent almost from the first that it was vain for the crew to fight the flames. They immediately turned their attention to arrousing the passengers and getting them on deck. Headed by Steward Phillip Rossbach and Purser William Hanrahan the members of the crew worked like heroes to save the sleeping men, women and children.

Steamers to the Rescue.

with people and a number of passengers were still huddled on the stern of the burning ship.

Men Are Brave.

All of them were loud in their praise of the Naomi's crew and their bravery and coolness. Steward Rossbach and 'urser Hanrahan, who rescued Rhoades from his berth when the cabin was filled with fiames, were especially commended. The captain of the Kerr ran his big steel ship up under the Naomi's stern so

close that the imperined people leaped to her deck. Then the screams of the imprisoned coal passers were heard from the bow portholes. Vainly they begged for help. The port holes were too small for them to pass through and they were compelled to fall back into the smoke and fire

where they burned to death. The Kansas took on board the half clad and terribly shocked and frightened passengers and brought them to this

On Way to Milwaukee.

The Naomi left here last night on her usual run to Milwaukee. There were about fifty passengers on the boat. She had reached midlake and had passed her sister boat, the Kansas, on her way from Milwaukee to Grand Haven when the

The lookout on the Kansas noticed a bright light on the Naomi and a moment later saw that the ship was on fire. He gave the alarm and the Kansas turned course toward the Naomi, the crew of which seemed unconscious of the dan-

The fire started in the vicinity of the kitchen, between decks, and spread so rapidly that the whole ship was a seething furnace before the crew could get the fire apparatus working. Fire swept the whole length of the ship and the upper by some of the worst crop reports that works burned like tinder.

Passengers Awakened.

As soon as the Naomi crew discovered fire, the passengers were awakened and warned to remain calm. There was little time to be lost and the frightened passengers rushed for the boats and life The fire raged furiously and ad-

vanced toward them.

When the alarm of fire was sounded, the officers and crew succeeded in pre-venting a serious panic. The passengers were marshalled to the side of the burning vessel, and were loaded into the life Several members of the crew were badly burned.

The steamer Stratford was near and came up to the burning Naomi to help in rescuing those in distress. The Kansas and Stratford both lowered boats and all the passengers were taken off. Many Lose Everything.

Many escaped clad only in their night clothes, and the majority lost all their belongings. Some were slightly burned, but as far as can be ascertained, only one passenger received fatal burns.

It was found impossible for four coal passers or the doomed steamer to escape from their quarters below, because of the flames. The screams of the men could be heard, but it was impossible to reach them One of the officers yelled to them down a manhole to crawl into the ballast tanks.

Late today when the hulk was boarded the bodies of the dead coalpassers were found. The men had been roasted to death. They had been unable to reach the ballast tank.

Names of the Dead.

The men's names are as follows: Gordon, Miner, Stanton and one unknown. There is a possibility that a fifth body may be found in the hold. The bodies will be buried in Grand Haven this after-

There was no sea fortunately, and the lake lay like a mirror reflecting the flames. The life boats were quickly rowed to the side of the Kansas, and relieved of their loads. A roll call was made and it was found that none save

the coal passers were missing. Captain's Clothes Burned Off.

Capt. Thomas Traill was the last man to leave the steamer alive and his clothing was almost burned off. He showed great presence of mind and his calmness prevented a panic which would have cost many lives.

The barge Kerr was attracted to the

scene and undertook to tow the Naomi to Grand Haven, arriving this afternoon.

One Passenger Dead. M. Rhoades of Detroi?, the only one of the passengers who was seriously injured, was hurried to a hospital at Grand Haven as soon as the rescued people arrived here early today. He died there a few hours later.

Deserve Carnegie Medals.

The rescued passengers are loud in their praise of the conduct of the ship's purser. William Hanrahan, and the stewpurser. William Hanrahan, and the steward, Philip Rosbach. These men proved themselves to be heroes. When the first report of fire came to them, they went about the ship awaking the passengers and allaying their fears. Their coclness alone prevented a panic. They helped put out the lifeboats, cared for the children, and even assisted in lowering the boats. Passengers to a man declare that purser boats. Passengers to a man declare that without these men the loss of life would have been great. Some of the passengers have already started a movement to se-cure for these officers the coveted Carnegie medals.

How Fassengers Were Saved. Shortly after the Naomi was found to be on fire, the lights of three steamers were discerned on the lake. They all came to the burning boat's assistance. They were the steel freighters Saxona and Kerr, and the passenger boat Kansas. The Kansas, being a wooden boat, burned early today in the middle of Lake
Michigan while on her regular night trip
from this port to Milwaukee.

Dying Men Begged for Help.

Four of the victims were coal passers

The Kansas, being a wooden boat,
did not dare come very near to the burning boat, but the captain of the Kerr
put the prow of his big steamer into the
stern of the burning ship, and took off
those who had not been able to get into
the life boats. But for the timely arthe life boats. But for the timely arrival of the Kerr, the death list would have been large, for four of the Naomi's life boats had been burned before the

crew could reach them.

Nearly Overcome by Smoke. When the discovery of fire was made smoke was pouring through the deck into the main cabin. Many of the passengers became so stifled with smoke that it was with difficulty that they could be awak-ened. John Regan of Bemedji, Minn., ened. says that he was awakened at 1:15 this morning. Flames were then shooting up through the promenade deck. J. W. Fire Starts at 1:30 A. M. through the promenade deck. J. The fire broke out about 1:30 o'clock Rhodes, a passenger from Detroit, terribly burned about the arms and body. Rhodes first request upon recovering conthat the Diamond Match sciousness was ompany be notified.

When the passengers were safely aboard the Kansas, they held a prayer meeting and offered prayers for their

Everything possible was done for the comfort of the rescued passengers.

The Passenger List. The full passenger list of the Naomi

Capt. Traill sent up signals for help as soon as he discovered that his ship was afire and in a few moments three steamers whose lights could be seen a few miles away came to the rescue. They were the steel freighter Kerr, the Kansas, a Crosby liner and the Saxonia. Several of the life rafts and boats on the Naomi were destroyed before the crew could get them lowered. By the time the three steamers had reached the scene the Naomi's boats were in the water filled with people and a number of passengers were still huddled on the stern of the Grand Rapids; James Darling, 661 Twentyninth street, Milwaukee; Gus Behm, 353

Mayor Busse Transfers Tenderloin District Policemen to Other Parts of Chicago

CHICAGO, Ill., May 21.-Mayor Busse, in an attempt to "renovate" the "tenderloin district" of Chicago made he most sweeping change ever made in the local police department. He transferred the entire police force, in the district from captain down, embracing 240 men, to other parts of the city and appointed other men. It had been charged that the police in the district had countenanced violation of the law in the district. The move was hailed by acclaim among the reformers, but the mayor nonplussed other reformers by a flat-footed statement that, considering Chicago's large foreign population, he would not attempt to enforce the Sunday law un less forced to do so by the courts.

JESSE JAMES MAN DEAD

Zara Randall, Colored, Was Member of Famous Gang of Bandits-Convert to Dowie's Teachings.

WAUKEGAN, Ill., May 21 .- [Special.]-Zara Randall, colored, who fought with Jesse James years ago, acting as runner for the famous bandit in his raids, died at Zion City last week and was buried there yesterday.

He had in recent years been a Dowie

vivors of the James gang and loved to tell of his adventures of former years. He bore scars of numberous fights he had taken part in and constantly kept in communication with Frank James.

KILLS SHEBOYGAN MAN,

Lewis P. Eythinge Convicted of Murdering John Leich at Phoenix, Ariz .-To Get Life Sentence.

PHOENIX, Ariz., May 21 .- [Special.] -Lewis P. Eythinge was today found guilty of the murder of John Leich of Sheboygan, Wis. He will be given life Mr. in prison.

TRAIN GOES OFF TRESTLE,

SOUTHERN PACIFIC'S COAST FLYER LEAPS FROM BRIDGE INTO DEEP GULLY.

ONE KILLED: SCORE HURT.

Cars Thrown from Rails by Wire Jerked by Some Person Behind Hill at West Glendale, Cal.

LOS ANGELES, Cal., May 22 .-Train No. 10, one of the Southern Pacific's coast line flyers, was wrecked at West Glendale, ten miles north of here, at 12:30 o'clock this morning. wreck was the deliberate work of train wreckers. One man was killed and twenty-two persons injured, three probably fatally.

At the Southern Pacific general office in this city notices were posted today offering \$10,000 for the arrest and conviction of the person or persons responsible for the wreek. The officials an nounced that they had no clue.

The man killed was T. J. McMahon of Santa Barbara, a member of the Electrical Wotkers' union. He is believed to have been stealing a ride on the baggage car, and had as his companion Frank Naylor, a 15-year-old boy from Santa L'arbara, who was fatally injured.

List of the Injured. Among the others who were injured

were the following: T. H. Young, Oakland, porter, cut about head, hip dislocated. Mrs. Snidler, Los Angeles, injured inter-nally, will probably die. Mrs. Rose Fetterman, Cleveland, O., arm Mrs. Rose Fetterman, Cleveland, C., arm broken, lacerations of scalp and head, in-ternal injuries; will probably die. Mrss kern Opdyke, Pittsburg, Pa., in-jured Internally, scalp cut. A. G. Young, Marshall, Mo., cut about head and face, arm broken. W. S. Stitt, Los Angeles, scalp cut, in-ternal injuries.

ernal injuries.
William McClare, Los Angeles, cheek badly cut, knee cap broken.
William Love, Pullman porter, face cut, injured internally; will probably die.
C. H. Robbins, Los Angeles, nead cut, in-1 internally. E. Jacobs, Los Angeles, shoulder brok-

en, arm cut. W. E. Miller, Xenia, O., cut about face, badly bruised.
P. H. Baker, Portland, Ore., cut about head and face, hip dislocated.
F. H. Shanley, din.ng car conductor, San Francisco, scalp wound and lacerations on

ace.

Ben Dixon, Oakland, dining car waiter, cut and bruised.

Ed Wilcox, Oakland, second cook, cut and bruised.

R. Redwood, Oakland, dining car waiter, cut and bruised. cut and bruised.

Wreck Work of Fiend.

In accomplishing the wreck of the train a devilish ingenuity had been exercised. At a point on a trestle over the Arroyo Seco, the fish plates and bolts of two connecting rails on the southbound track had been removed, and in the aper tures whence the bolts were taken strand: of heavy wire were fastened at the end of each rail. From the appearance of the track after the wreck it was evident that some person hidden on a hillside close to the trestle had pulled the wire as the train approached and spread the rails outward toward the edge of the trestle.

Cars in Deep Plunge.

The train three hours late, was traveling at a rate of between thirty-five and forty miles an hour. The engine wheels were first to leave the rails and the engine took to the ties, traveling nearly 100 yards before it was brought to a standstill. The tender, the diner, two Pullmans, the buffet, mail and baggage cars plunged over the edge of the trestle falling a distance of sixteen feet. The car, the express car and one the Pullmans were turned upside down CHICAGO, Ill., May 21.—Two new and the others landed on their sides. All were badly crushed and splintered.

Prominent Women Escape. Mrs. Frederick W. Schoff of Philadelhia, president of the Mothers' Congress which recently adjourned in this was a passenger with Mrs. Edwin C. Grice of Philadelphia, who also had been a delegate to the congress. Although badly shaken up, Mrs. Schoff and Mrs. Trice are reported uninjured.
Two Pullmans and the observation car

remained on the track.

As soon as possible the uninjured trainmen and passengers scrambled down the steep bank to the overturned cars. Through broken windows and doors forced with axes wielded from within and without, the frightened passengers emerged, while from the darkened interiors came the groans and cries

With the aid of lanterns the trainmen made an examination of the track in order to determine if possible the reason of the derailment. Under the first coach, which remained on the track, was found e loosened rails with the wires secure-fastened through the bolt holes and the ends uniting in a single strand that led into the brush on the hillside.

SMASH-UP NEAR CONEY ISLAND.

Fifty More or Less Seriously Injured in Collision.

NEW YORK, May 22.—Of the fifty persons injured in the traction smash-up persons injured in the traction smash-up near Coney Island last night, three are possibly fatally hurt. They are Harry Donne, G. W. McFadden, and Frank Putrieno. An "L" train, bound for New York, struck a trolley car. A flagman is blained for the collision, both motormen always that he had signalled to them. laiming that he had signalled to them the right of way. Firemen had to cu some of the passengers out of the wreck-

ACTOR OUTPUT OF 1905 LEADS THE WORLD.

Manufacture of Boots and Shoes a Big Item of This Country's Industries.

WASHINGTON, D. C., May 21,-The United States as a leader in the manufacture of shoes and the great increase in value in every kind of boots and shoes, are interesting points brought out in a report issued by the census bureau today relating to the manufacture of boots and shoes, leather and leather gloves and mittens for 1905.

It shows that there were 1316 estab-lishments engaged in the industry having \$122,526,093 capital, 149,924 wage earners, wages amounting to \$69,059,680, cost of materials amounting to \$197,363,495, and products valued at \$320,107,458.

Hides to the number of 17,581,613, costing \$89,126,593, represented by 669 establishments, represented 46.6 per cent. of the total cost of materials. The use of hemlock and oak bark extract for tanof helinock and oak bark extract for tan-ning has increased greatly. Sole leather formed more than one-half of the value of fall leather manufactured. At the census of 1905 there was an important concentration of the industry in the eastern states. Pennsylvania, Massachnsetts, Wisconsin, New York, and New Jersey, reported products valued at over \$20,000,000; their combined total of \$171,764,248 was 68 per cent. of the total for the United States.

Leather gloves and mittens were made in 339 establishments. Their total capital was \$10,705,599; they manufactured products valued at \$17,740,385. There were 3.370,146 dozen pairs of gloves mittens and gauntlets manufactured, val

pleaded not guilty to the ten indictments returned against him yesterday charging perjury and forgery. Bail was fixed at the order of the value of their products, \$10,000 on one of the indictments for perjury. It was furnished.

Mr. Hegeman's plea was made with the reservation that he may withdraw it and California decreased, respectively. 31.1 per cent., 8.4 per cent and 1.1 per Fulton county, N. Y., maintains cent. its pre-eminence, producing in 1905, in 145 establishments, 48.3 per cent. of the total value of products. Gloversville alone, with 86 establishments, produced 29.9 per cent. of the total value of products for the United States. The capital invested in this county is 52.8 per cent.

HONORS FOR BABCOCK

Citizens of Washington Present Wisconsin Man With Loving Cup and Wife With Card Case.

WASHINGTON, D. C., May 21.— [Special.]—Joseph W. Babcock of Necedah, Wis., retiring chairman of the House committee on the District of Columbia committee on the District of Columbia committee. lumbia, was last night the recipient of a special tribute of respect from citizens of Washington at his home, 1 B street northwest. Bankers, presidents of citizens' association and representative busi ness men and officials of the municipal government united to do honor to the man they all declared has been the leader in legislation effecting the interests of th district for the last twelve years. The occasion was the presentation of a silve loving cup to Mr. Babcock from citizens of Washington, a silver purse and card case to Mrs. Babcock and a huge bound quet of roses, numbering fifty-seven, the years of Mr. Babcock's life. Incidental to the presentation of these gifts were expressions of respect to the recipients, regret that the mutations of political life in the district comhave removed him from the district com-mittee, and many congratulations upon good things done for local betterment in his official capacity.

STOCKS BREAK BADLY.

Smash in Prices Unexplained by Any Immediate News Developments in New York Exchange.

NEW YORK, May 21.-There was bad break in prices of stocks today which was unexplained by any immediate news developments. Sentiment in speculative circles was very much depressed and brokers were throwing over stocks without finding any sufficient demand to absorb them. Activity by an organized bear party in the speculation was suspected owing to the sudden and unaccountable nature of the large sell-The tactics of the bears, however, were successful in inducing much liqui dation. Rumors were in constant circu lation of intended borrowing on a large scale by corporations, many of these ru-mors being denied as fast as they got

MAUSER HAS NEW GUN.

This Rifle Reloads Automatically from Cartridge Chamber After Firing-German Army to Adopt It.

BERLIN, May 21.—Herr Mauser, the inventor of the rifle which bears his name, has invented an improved mechanism by which the weapon is automatical ly reloaded from a cartridge chamber after firing. He believes the improvement is so great that it must be adopted by all modern armies. Germany will probably be the first to adopt it.

PANHANDLEHASWRECK

Work Train Crashes Into Freight, Killing One, Fatally Injuring Seven and Bruising Nineteen Others.

PITTSBURG, Pa., May 21.—One man was killed, seven fatally injured, and nineteen others received minor hurts and bruises today in a wreck on the Pan-handle railroad at Holliday's Cove, W. Va., near Stevensville, O. A freight train had stopped on a curve and a work train, backing, ran into the rear of it, crushing the caboose and cars where the la borers were gathered.

FATAL GERMS LIVE 21 YEARS.

Remarkable Case of Trichinosis Is Discovered in Roumania.

A remarkable case of trichinosis is reported from Roumania. Dr. Babes of Bucharest recently made an autopsy of a man who, twenty-one years before, after having eaten fresh pork, had suf-

fered from a sickness diagnosed as typhoid fever.

After his illness the man remained weak, and often complained of muscular pains, mostly in the legs. The patient died after an attack of asystolia. Animals which were fed with a part of the muscles died of trichinosis eight or ten days later. The trichinae were, therefore, alive, and Dr. Babes is convinced that the infection was twenty-one years old and that the original sickness was really trichinosis.

WORN TO A SKELETON.

Girl's Rash Spread and Grew Worse Under Specialist's Care-Perfect Cure by Cuticura Remedies.

"When my daughter was a baby she had a breaking out behind the ears. The doctor said that she would outgrow it, and it did get somewhat better until she was about fifteen years old, and after that she could get nothing that would drive it away. She was always applying something in the way of salves. It troubled her behind the knees, opposite the elbows, back of the neck and ears, under the chin, and then it got on the face. That was about three years ago. She took treatment with a specialist and seemed to get worse all the time. We were then advised to try the Cuticura Remedies, and now I don't see any breaking out. M. Curley, 11-19 Sixteenth street, Bay City, Mich., May 20, 1906.'

Why Roumanian Jews Are Freckled. This from a London News correspond-

This from a London News correspondent in Roumania:

But the most striking thing to an English eye about the Roumanian Jew is that he (or she) is usualy fair, with red hair and freckled skin. This last peculiarity has an explanation which is generally accepted as historical in Roumania. It is told that a party of Jews, immediately after the Crucifixion and Resurrection, were discussing those events over a basin of soup in which floated a boiled cock. One of the party expressed the feelings of the rest by declaring that they might as well ask him to believe that the boiled cock could rise out of the soup and fly. On the instant the cock did so, crowing loudly and flapping its wings so as to spatter the faces of all present with som. The Lews have its wings so as to spatter the faces of all present with soup. The Jews have been freckled ever since.

FLAG DAY--1907.

An Appeal to Patriotic Americans.

To the Governor of Each State To the Mayor of Each American City

To the American Press

To the Officers and Members of All American Patriotic Societies To all School Officers and School Teachers

To all Fellow Citizens

HE American Flag association, agreeable to its custom for the past ten years, respectfully reminds you that Friday, June 14, 1907, will be the 130th anniversary of the adoption of the Stars and Stripes as the flag of the United States. The increased public recognition of Flag day as a national anniversary would seem to make unnecessary any reminder, to secure your co-operation in securing the widest possible observance this years.

The governors of not a few of the states, have by their proclamations called public attention to the day and have ordered the flag to be displayed on all state buildings, and have invited their fellow citizens to celebrate the

Mayors of cities, in the years past, for recognition of this anniversary have ordered flags to be displayed upon the municipal buildings of their respective cities, and by formal proclamation or otherwise, have invited their fellow citizens to do the same upon their private buildings.

Editors of newspapers have by editorial comment and the publication of historical articles upon the subject of the flag, called attention to the day and called upon the public to display the national colors on June 14th.

School officers and teachers have arranged for patriotic exercises appropriate to the day.

American patriotic societies, through their officers and members, have stirred up popular enthusiasm by public appeals through local mediums and by observances of the anniversary.

The American people have, from year to year, more and more with growing enthusiasm celebrated the day.

All American citizens are again earnestly invited to join in the public recognition of the birthday of the emblem of our nationality. In many of the states, pursuant to law, the public schools and also voluntarily in private schools, exercises will be conducted in celebration of Flag day. Le' us extend this practice. Teach the story of the flag, what it represents, and have

the young people pledge their fealty and loyalty to it. On the 14th day June, 1777, Congress enacted: "That the flag of the thirteen United States be thirteen stripes, alternate red and white; that the Union be thirteen stars, white, in a blue field, representing a new constellation." The number of the stripes having been increased by the admission of new states, the possibilities of the nation's future development dawned upon our fathers, and the original thirteen stripes were unchangeably restored by act of Congress on April 4, 1818, when it was enacted: "That from and after the fourth day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the Union be twenty stars, white in a blue field, and that on the admission of a new state into the Union, one star be added to the Union of the flag; and such addition take effect on the fourth day of July next succeeding such admission." Since 1818, twenty stars or sovering states have been added to the Union, making forty-five in all.

Since the struggle of 1861-1865, the flag has become the symbol of a mighty nation. It has been carried to the utmost parts of the earth, carrying liberty wherever it has been thrown to the breeze. Americans cannot fail of a feeling of pride and satisfaction, nor restrain the swelling of patriotism in the breast, when we contrast the meaning, in far distant lands, of ours and other flags displayed together.

The Stars and Stripes within the recent past have come to possess new beauty for friendly eyes and new terror for the foes of liberty.

We respectfully appeal to the governors of all the states of our land, and to the mayor of each American city, to herald the coming of the day in 1907, by proclamation; we call upon every public officer, every teacher of the youth of our land, the editors of all newspapers, the daily instructors of the youth of our land, to call public attention, to arouse enthusiasm, and to provide for public exercises and general celebration of the day.

We earnestly exhort our citizens to join in making Flag day an event, and its celebration in 1907, a great event. Let us, from one end of our land to the other, fling the Stars and Stripes to the breeze on June 14, 1907. May it greet the rising and salute the setting sun, and float all day long from every church edifice, school and building, public and private and however humble, throughout the entire land. RALPH E. PRIME, President.

THEODORE FITCH, Secretary. New York City, May 1, 1907.

THE AMERICAN FLAG ASS'N.

Salute to the Flag for Schools. At a given hour in the morning the pupils are assembled and in their places in the school. A signal is given by the principal of the school. Every pupil rises in his place. The flag is brought forward to the principal or teacher. While it is being brought forward from the door to the stand of the principal or teacher, every pupil gives the flag the military

salute, which is as follows: The right hand uplifted, palm upward, to a line with the forehead, close to it. While thus standing with the palm upward and in the attitude of salute, all the pupils repeat together slowly and distinctly the following pledge:

"I pledge allegiance to my Flag and to the Republic for which it stands, One nation indivisible, with liberty

and justice for all." At the words, as pronounced in this pledge, "To my Flag" each one extends the right hand gracefully, palm upward, toward the flag until the end of the pledge affirmation. Then all hands drop to the side. The pupils, still standing, all sing together in

unison the song "America"-"My Country 'Tis of Thee."

In the primary departments, where the children are very small, they are taught to repeat this, instead of the pledge as given for the older children: "I give my head and my heart to God and my Country.

One Country, one Language, one Flag."

In some schools the salute is given in silence, as an act of reverence, unaccompanied by any pledge. At a signal, as the Flag reaches its station, the right hand is raised palm downward to a horizontal position against the forehead, and held there until the flag is dipped and returned to a vertical position. Then, at a second signal, the hand is dropped to the side and the pupil takes his seat.

The silent salute conforms very closely to the military and naval sa-

lute to the flag. Principals may adopt the "silent salute" for a daily exercise and the "pledge salute" for special occasions.

PEARL KING OF TAHITI

Made Fortune Buying Gems from Natives to Sell in Europe.

E. Levy, the pearl king of Tahiti, is about to retire from business in the islands. During his sojourn there he has amassed a large fortune by picking up pearls among many islands that comprise the Tuamotu group.

When Levy went out to Papeete, some twenty years ago, says the San Francisco Call, he bought a little sloop which he named the Diamond. In this small craft he sailed among the islands and bought from the natives the pearls found by them in the great pearl oysters which are so common in that region. After he had gathered a large assortment of the beautiful gems he went to Paris, where he found a ready market for them. He soon afterward returned Tiara. Levy then began business on a large scale and acted as a trader be

tween island points.

Everything Levy touched in the islands seemed to tavor him. His pearl industry grew rapidly, necessitating a trip each year to the gem markets of Europe. Among the pearls taken abroad by him are said to have been some that now adorn the crowned heads of Europe. Levy is a rare judge of jewels and has made a special study of the pear shaped pearl.

On his last visit to Paris Levy took

with him one of these rare gems valued at \$5000. It is said to be the most beautiful pearl of its size ever seen in Eu-Its great beauty is in its peculiar pearlike shape and in its marvelous color, being tinged with the faintest shading of a golden hue. One of the greatest gem experts in France told Levy at the time that if he could find a

mate to this wonderful pearl he would

pay him \$50,000 for it.

Levy at once hastened back to Papette and it is reported that he found the gem he was looking for. He has sold his schooner Tiara and in a few weeks will leave for Europe, where he will reside permanently. His eldest son will repermanently. His eldest son will remain in Tahiti to look after his business

The Land Wealth of New York City.

Few people realize the tremendous land wealth of New York city today. The total land valuations of the city by its recent census reached the enormous figure of \$5,800,000,000; this is an increase of \$400,000,000 in 1907, over 1906, and 1906, in turn, showed an increase of \$480,000,000 over 1905. Within a decade the increase has been considerably cade, the increase has been considerably over 100 per cent. New York real estate is today valued at more than one-twentieth of the entire wealth of the United States. It is greater than the entire wealth of many states and even of many foreign countries. It is 25 per of many foreign countries. It is 25 pe cent. more than the entire wealth of Holland, Spain, Sweden and Norway 50 per cent. more than Switzerland, Denmark or Portugal; it is one-third that of Italy; one-fourth that of Austria-Hun-gary; one-fifth that of Russia; onegary; one-fifth venth that of Germany; one-eighth that of France: one-tenth that of Great Brit-ain and Ireland. It is indeed an im-perial city in an empire state.—Francis H. Sisson in Moody's Magazine.

Crime and Its Punishment. He (after the refusal)—Had I been rich, perhaps your answer would have been quite different.

-Perhaps. He-But poverty is no crime. She-Oh. yes, it is-and the punion ment is hard labor.-Illustrated Bits.

DREADED COLIMA, MEXICO'S NIGHTMARE FOR HALF A CENTURY.

Mexico, following the recent violent earthquake, is waiting in a frenzy of terror to see what the volcano of Colima will do. Like a grim outpost of the infernal regions it has terrorized southern Mexico for half a century. It seems always on the verge of a terrible outbreak, like that of Mount Pelee.

Residents of the earthquake wrecked cities of Chilpancingo, Chilapa and Tixtla are cursing this fire-topped monster to the west. Belief is general here that water finding its way through fissures from the nearby ocean stirs up the volcano. People are asking if the awful force created from a sudden inrush of water into the heated crater found its vent in the destroying earth shocks at this point.

The peak of Colima is 13,000 feet high. For fifty years it has vomited smoke, flame and ashes. Ashes fall 150 miles away. In the immediate danger zone are prosperous sugar and coffee plantations. There are also several

thriving cities. The people are panicstricken, believing worse is to come, Homes are being abandoned. Hilltops are turned into refugee camps. The people are praying.

The present volcano is really the secondary crater of old Colima, which is seven miles away and towers 14,300 feet high. The new volcano first became active in 1851. The next serious outbreak was in 1903. All the time, however, small disturbances are going on. They occur at intervals varying from a few hours to several days. The city of Colima and surrounding country has been frequently visited by earthquakes, but periods of unusual activity by the volcano and the earthquake shocks have never before occurred at the same time.

WORLD'S MOST WONDERFUL LOCOMOTIVE.

The picture shows the most powerful locomotive in the world, recently completed for a French railway. It is 48 feet in length and weighs nearly 50 tons. There are two separate systems of cylinders, front and rear, each controlling three pairs of driving whels. The machine strongly resembles two locomotives placed back to back. It will be noticed that there is no tender, water and fuel being carried in specially designated compartments built around the engine.

Women as Observers.

Somebody has just made the discovery that women are becoming more observ-ant, and in that is seen the sign that she is becoming more nearly capable of looking after her own interests and better able to take an active interest in public affairs. This is very much in the nature of the discovery that the Dutch had captured Holland. If the fact that a woman observant is proof that she is entitled to public consideration, then the world is to blame for not having long ago given her great public consideration, for the fact that women are, as a rule, keen observers has been conceded by the world since the days of Hypatia. Woman has who, through the accident of sex, is been recognized as a teacher of ability for centuries. The ability to teach is born of the ability to learn, and how can observant is not news. That woman is becoming more observant is interesting, however, as it is indicative of heating. vance towards that great end for which we all are struggling. More observing she may be growing, just as she is becoming more and more everything else that makes for the good of the world, the happiness of humanity and the glory of her sex.-Woman's National Daily.

aches, dyspepsias and superfluous flesh; but they won't do the very simple and only necessary things to do in order to

They simply will no gtive up their favorite dishes, however rich and indigestible; they will not exercise and take fresh air enough, and they won't insist

on getting enough sleep.
"I have patients who ring me up for medicine after every elaborate luncheon or dinner party. If I told them rich sauces, terrapin, croquettes, hot breads and such things would put them in their graves in a year, still they wouldn't practice enough self-denial to forego those things. Yet they might nearly be in their graves as so pitiably dependent on restoratives.

"There are just a few things women need to do to keep well. If they would eat only plain, wholesome food, let stimulants alone, exercise every day, breathe plenty of fresh air, bathe often, sleep eight hours every night and keep their minds healthy, they could get along without me or my medicines."

wail goes up! Women write to the magazine oracles to ask how to have something new and sure to please their Writers in the household magazines rack their brains to produce suggestions for original luncheons and suppers and evening entertainments. troubled housewife reads up on seventeen sorts of engagement dinners or a dozen ways to run a valentine party or thirty different modes of individualizing a tea, and feels more bewildered the more she reads. And meanwhile the experienced guest, the social favorite, the one who is invited out every day in the as few frills and complications as pos-

The three prime materials of hospitality are shelter, food, and welcome. To fruits, mayonnaise, and greens are all really, because if they are welcome, entirely comfortable, and well fed, they are so easily amused as to require almost no trouble. By simply putting the tily prepared sandwiches are a necessary right people together, either at conversa-tion or at cards, they make their own entertainment. Few hostesses do this. They invite a lot of people because these people have at different times invited The result is a small social choas which they have to amuse every minute, and which they feel bound to over-This is not hospitality, but pre-

A thoroughly comfortable set of rooms, not over nor under heated, a well cooked spatula until soft enough to spreadinner of four courses (or two, for that ly without crumbling the bread. matter) instead of ten, the right people round the table, and a game, a little music, or cozy conversation afterwards, is the ideal of the diner-out. Any hostess who provides these simple materials may be sure of having her invitations derived. There have here tees without flow. sired. There have been teas without flowers or rolled sandwiches or frappe which the two slices together. have nevertheless been true successes. When the hostess is genuinely glad to see her guests, and evidently enjoys having them, details fade away and are forgotten, and the guest is glad to be there, few drops of Worcestershire sauce, and too. And as a hostess goes on entertaining in this true way, she learns, naturally and inevitably, how to add special touches and improve on herself until she becomes a genuine expert, and people say, "Whenever I go to Mrs. X's, I al-ways have such a good time!"—Harper's

Life's Harmony.

Life's ecstasy comes in the very joy of life itself, it comes in merely being glad of life, "because it gives us a chance to love, and to serve and to look up at the stars," "to listen with soul, not ear,"—
"in a word, to let the spiritual unconscious and unbidden grow up through the

Adapt yourself to conditions as they exist, and with mind in poise and soul attuned, listen to "stars and birds, to babes and sages with open heart;" each morning give a cup of cold water to some thirsty one, each evening lead some wanderer out of the darkness and the storm. Start him along life's pathway

The good old minister, who would raise his eyes, and with all the power of throat and lungs shout, as if the answer to his petition depended upon his voice penetrating to a God upon His throne.

by the confidence, the faith and trust in his strength of some one dear to him. God did not fashion man in His like-ness. He did not breathe into him the breath of life. He did not create a delicately attuned instrument, of susceptibility, without tuning its strings in harmony with Himself. The Master Artist gives the key note and the soul responds as the strains of the harp to

harmonic chord.

The little one who came in from the garden, flushed and happy, one bright morning, and in response to her mother's inquiry as to her whereabouts, said, "Mamma, I'se been helping God train up the morning glories," expressed a great truth. They keep the morning glories blossoming fresh every day, and with their baby fingers train the tendrils of our hearts up to meet the fullness of light and life. The little ones are object lessons in sunshine, in gladness, in joy.—"Ideals and Privileges of Women," by Susanna Cocroft.

Human, Even Before She Is Woman,

The tendencies of our generation con designated as a woman, has before her the identical problem that her co-partner, man, must face, writes Catherine Mac-Vicar, in the Toronto World.

the clutch for the highest and best possible human expression.

Maeterlinek spoke to no particular sex when he said: "Just as it is written in the tongue, the stomach and mouth of the bee that it must make honey, so it is written in our eyes, our ears, our nerves, our marrow, in every lobe of our head, woman has imbibed from the modern Won't Give Them Up.

"The trouble with most women who wish to be well," said a woman physician, "is that they are willing to buy cian, and drink gallons of medical structure of the complete life.

"To be the best possible human being

To be the best possible human being may involve the part of worthy wife and mother, and then again it may not. On the other hand, motherhood and wifehood may have been well fulfilled, and yet the highest meaning of life may have been lost outright.

The question of expression, of the best possible use of life, is for the individual. In this problem as to what shall be done with our energy, with our powers, humanity makes the first demand.

Sex-expression, in its mental and spiritual aspects, as well as physical, may properly be the secondary consideration. Women patronize the problem play cause they are at present living out difficult problems. They are thinking hard, and struggling for the light. It is a transition period, and there is many a

slippery place to pass.

The Scandinavian types that Isben portrays are readily comprehended by the women of this continent. Little Nora of "The Doil's House" had absorbed the ideals to which the American woman is accustomed, before she awakened to action. She came to know that her first duty was to her own personality.
In "Rosmersholm" Rebecca West has

The Essentials of Hospitality.

"I don't know how to entertain." From how many harassed feminine hearts that wail goes up." Mother and the Child

as Exemplified by Mrs. Grover Cleveland. Mrs, Grover Cleveland I regard as one of the happiest mothers I ever met. I saw her first in the bridal days when she became the young mistress of the white house. I met her again after the honor of maternity had been be stowed upon her.

And last February, when she came west with her husband to a celebration of Washington's birthday, I met her in the prime of physical and mental life gracious in her motherhood, rounded by years of growth, a charming, sweet ex ample of the American woman of the

Mrs. Cleveland does not grant public interviews. She never has sought public notoriety and never will. Her life has been centered in her husband, her home and her children. She believes that all that is best for the highest development of womanhood is to be found in the home, the love and rearing of children, the strengthening of the ties that bind offspring and parents into one holy

But she has strong views on the relaon of the mother and the child which I am privileged to give. They must prove helpful to other mothers. Mrs. Cleveland is a typical American woman. Her per-sonal views on the mother, child and home have come out of a broad experience. Twice mistress of the white house, her life has been close to the national heart of the American mother.

Mrs. Cleveland feels that the first control of the child by the mother begins in winning its confidence through firmness and the inspiration of love. There is such a thing as loving a child to its own harm. The love which helps the child in its moral and physical growth, also firmly controls its wayward moods and guides it into the paths

"Love-confidence." said Mrs. Cleveland, to a friend, "is the first grip to secure on the child. The child must have confidence in the parent, and the initial inspiration for that confidence must arise from love.

Love is not a blind impulse. It seems to me that it is more mental than physical, and that it has much of its origin in respect. Children are acute in observa-tion. They observe more than they are given credit for. All the mother does about them is duly registered in the growing mind, and, unquestionably, is inwardly commented upon.

"The mother's varying physical and mental changes, her attitude toward all the duties of the home, do not escape the notice of the child, and, as the mother is powerful in self-control, in striving to be an ideal to the child, so the child notes and grows into its own character. "I imply through this that the moth-'s influence upon the undeveloped power of the child is extraordinary, and that much of its future weal or woe must be traceable to her own conduct while its life is developing. The greater the evenness of the

life the stronger will be the impulses for good upon the child. more the mother strives to be all that she asks the child to be, the greater the love-confidence that will be provoked. "After the confidence of a child is se

cured, obedience must follow. The true kind of obedience is not easily secured if confidence is not first inspired, but once confidence is secured, obedience be-

comes a natural sequence.

"Child obedience is not such a difficult thing to secure as it might seem, when the mother exemplifies obedience herself. There is everything in setting the child

is not enough. The child-mind asks for reasons. It wishes to know why it must do this and that, and it is entitled to know why it must do this and that, and it is entitled to know. If it does not gain this information from the mother in the home, it certainly will gain it in a distorted way from the companions it meets outside of the home. I think it preferable for the child's own education, moral and physical, that the why and wherefore of parental orders should be given to it within the home circle.

"As a child grows and broadens in

thought it will seek some place in which to impart its perplexities. If it has had from the mother the inspiration of confidence and obedience it will come to her with all of its trials, and she will have over it the master hand until it

can act for itself. Centering the thoughts of the child in the mother and the home makes for the happiest mother and home-life. It is when the child seeks comfort in outside sources that the home and the mother influence is weakened, and, almost invariably, to the injury of all concerned.

"Child life, to reach its highest attain-ment, needs to have the closest intimacy possible between the mother and itself, and to feel that the home is always its first and last refuge."—Alice M. Hayes in The Mother's Magazine.

Soap and Water as a Face Cleaner.

Soap when used intelligently is a good tonic for the face and will clear the complexion. As there are few faces that can stand the bath of soap and water, good judgment must govern the using. In the first place the soap must be chemically pure and the water soft. Once or twice a week you can indulge in the water bath; proceed as follows: Provide your-self with a face brush, the bristles soft; hot water, the kind of soap to your liking, but insist on its being the purest of the kind; scrub, but not as vigorously as if you were scrubbing the floor, rinse in hot water until every particle of soap is removed, and the face has not that drawn feeling. Then the cold water, this s applied at least five times, into the last cold water put a drop or two of benzoin. In ordinary cases this should be taken only once a week.

only once a week.
Why soap and water injures the skin is when used like nine out of every ten people use them because the usual method of procedure is this: A wash cloth is wrung out of warm, hot or cold water (whichever is at hand), then soap is rubbed on it (it does not make any difference what kind, just so it is soap). With this indifferent soap and cloth they attack the face and wherever it strikes the soap remains and clogs the pores and the result is pimples and blackheads The usual points of attack are the chin, the middle of the forehead and on either side of the nose. If the blackheads do not appear there is a dryness of the skin, causing lines which soon deepen into So consequently to avoid all these conditions I advise the cleansing cream at night, and the alternate use of

hot and cold water in the morning. When there is a tendency to eczema, water and soap should be avoided and with a gouty condition they should be given a wide berth. On the other hand many cases of pimples and blackheads, also acne, would be greatly helped by a

weekly bath of soap and water. The best course to pursue to avoid these enemies of the complexion is first to take care of the diet, to keep the di-gestion as nearly perfect as possible, never omitting the daily warm cleansing bath, the nightly cleansing of the face with pure cream, the weekly steaming and massage. Faithfully complying with the laws of hygiene a clear soft complexion will be your reward.—Eleanor Morrisin Philadelphia Evening Bulletin.

THE SELF-MADE MAN.

The self-made man is full of words

The self-made man is full of words
That tell his fellows how
He managed to ascend and wear
The laurel on his brow
With many gestures doth he show
The easy road to wealth,
While praising honest methods and
Discountenancing stealth.
How good he looks, and noble, too!
A pattern of a man!
O youthful toiler, go and do
Just like him if you can.
And should you manage to evade
Your country's laws, as he
Has done in matters of finance,
You're pretty apt to be
A millionaire and so disposed
To lecture some yourself
About the most productive ways
Of going after pelf.

PROMINENT PEOPLE.

COMMANDER ROBERT E. PEARY U. S. N., who last year penetrated 'farthest north' 'and who is now plan ning another voyage to the Arctic region for next year, was born at Crosson, Pa., May 6, 1856. He was graduated from Bowdoin college in 1877 and in 1881 was engaged in engineering work in con nection with the surveys for the Nicara-guan canal. His first trip to the far north was made in 1886, in which year he made a reconnaissance of the Green-land inland ice-cap, east of Disco bay. In the summer of 1891 he headed anoth-er Greenland expedition sent out under the auspices of the Academy of Natural Sciences of Philadelphia. On this expe-dition by discovered and pend Melyslic dition he discovered and named Melville land and Heilprin land, lying beyond Greenland, and also determined the in sularity of Greenland, for which he re ceived honors from the American graphical society and the Royal Geographical society and the Royal Geo-graphical society. Commander Peary made his third Arctic voyage in 1893-5. In 1895 he made his fourth polar expe-dition and in 1896 and 1897 he made summer voyages to the Arctic region, on the last trip bringing to the United States the Cape York meteorites. In 1898-1902 he made a trip in search of the pole under the auspices of the Peary club of New York and attained the highest north in the western hemis

FRANK FRANTZ, governor of Oklahoma territory and who is expected to be a candidate for the Republican nomithe path of its duty.

"Firmness with a child has its truest value when it goes hand-in-hand with instruction. To tell a child that it must do so and so just because another wills it is not enough. The child-mind asks for reasons. It wishes to be state, was born in Woodford county, Illinois, May 7, 1872. He was educated at Eureka college and in 1890 removed at Eureka college and in 1890 removed cut out. The plants appear to be remarkably free from the attacks of insect posts. It is unfortunate that shrubs deserving popularity as much as the American war as a private and was prenation for first governor of the new state, was born in Woodford county, American war as a private and was pro-moted to the rank of captain by Col Roosevelt for gallantry in battle. Returning to Oklahoma after the war Capt. Frantz was appointed postmaster at Enid. He resigned this place in 1904 to accept the appointment of United States agent for the Osage Indians. At the age of 33 he was appointed by President Roosevelt as governor of Oklahoma and took office January 13, 1906. At that time he was by far the younger of the six governors who had served the people of Oklahoma.

> SPEAKER CANNON, who was born in North Carolina, May 7, 1836, is 71 years old. The speaker is at his home in Danville, Ill., and plans to pass the greater part of the summer there in with perhaps an occasional visit to Washington to attend to business in nnection with the house of represenatives office building, now nearing com

In connection with Mr. Cannon's birth day it is interesting to note that if he lives to the end of his present term will ave served thirty-four years and thereby establish a new record for the long-est service in Congress. The longest service was that of the late John H. government, more than 12,000 individ- until long after Thanksgiving. uals, only thirty-four have served twenty years or more.

FRANK G. CARPENTER, one of he best known American travelers journalists of today, was born in Mansfield, O., May S. 1855, and received his education at Wooster university. He began newspaper work as a legislative correspondent at Columbus in 1879. Two years later he toured Europe and visited Egypt and upon returning to America put in a year or two as a correspondent in Washington. Then he was off again on his travels, his tour this time taking him around the world. Mr. Carpenter has visited every country of the civilized world and has pursued his investigations in many-out-of-the-way places. In 1898 he toured 25,000 miles in South America and the following year found him traveling in the Philippines, Java, Australia and New Zealand. The results of Mr. Carpenter's studies in foreign countries are embodied in a series of interesting works on travel and geography.

JAMES MATTHEW BARRIE, whos stories and plays are popular throughout the English-speaking world, was born in Kirriemuir, N. B., May 9, 1860. His education was received at Dumfries academy and at Edinburgh university He spent several years in newspape work in London and then came the publication of his first novel, "Better Dead." The young novelist leaped almost immediately into fame. The publication of the public was charmed with his combination of pathos, simplicity and quaint humor. Other works came from his pen and added fame. Among them were "When a Man's Single." "My Lady Nicotine." "A Widow in Thrums," and the best-known of all, "The Little Minister." His dramatic works, all of which have met with as much success in America as in England, include "The Professor's Love Story," "Quality Street," "The Admirable Crichton," "Peter Pan" and "Alice Sit-by-the-Fire."

JAMES BRYCE, the British Ambassador to the United States, was born in Belfast, May 10, 1838. His early eduwas secured in Glasgow, but he cation was secured in Glasgow, but he studied later at Trinity college in his nahar to have to."—London Tatler.

tive land, and graduated with honors at TAKING DOWN THE PARLOR STOVE Oxford in 1862. In 1879 he first entered politics as a Liberal and went to the House of Commons in the following In 1885 he was secretary of state for foreign affairs and in that year he was made chancellor of the Duchy of Lancaster, with a seat in the cabinet. He held that post until 1892. Three years later he was a member of the board of trade, but became unpopular as a result of his opposition to government concessions for lighting and railways. He is the author of many important works and holds degrees from a number works and holds degrees from a number of universities, among them the University of Michigan. He possesses a peculiar talent for the philosophy of history, and one of his best known works is his "American Commonwealth." It has frequently been said that no living foreigner knows the American people and American institutions so well as does

The Flower Garden.

Elephant's Ear (Caladium Esculentum). The elephant's ear is a tender her-

baceous perennial with very large, bright green leaves, a native of the Sandwich Islands. It is very effective as an ornamental bedding plant, particularly useful for planting around the corners of buildings and for a screen for some objectionable object. It is also effective in borders or beds and out on the lawn. The size of its foliage and stems is remarkable. The height depends much on the fertility of the soil and the amount of moisture at the plant's disposal during the growing period.

Often these plants grow to a height of ten feet and the leaves are often three to four feet long while in poor soil they may not be more than four feet high with much smaller leaves. For sub-tropical gardening the tubers should be planted out early in June into thoroughly drained, warm, light and rich soil.

A plentiful supply of water should be applied especially in hot weather and an occasional application of liquid manure would add much to the vigorousness of the plants. In dry, hot localities a mulch of well rotted manure is of great benefit. When cold weather begins or soon after the early frosts all of the leaves should be cut down to within three or four inches of the ground and a few days after this the tubers should be taken up and exposed to air for few hours until they become dry. They can be stored away in the greenhouse or any other place where they will be protected from frost and at the same time in not too dry an atmosphere. elephant's ear is easily propagated by the division of tubers which is usually done at the time of planting.

Deutzias. For showy blossoms in early summer few shrubs excel the Deutzias. The flower clusters, which are usually white, are displayed so prominently and with such profuse prodigality springing from the young wood of the previous year's growth, that they are especially desirable for the embellishment of home grounds. The flowers do not last long when cut but their showy effect, with their gracefully arching sprays is well worth enjoying, Most of the species re-spond readily to cultivation in any fairly good soil when it is well drained. Many of the best kinds are hardy even in the spond readily to cultivation in any fairly good soil when it is well drained. Many of the best kinds are hardy even in the ture of five or six dollars.

New England states.

Deutzias should be pruned any time after the leaves have fallen in the late fall or during the winter. The young wood of the previous year's growth must Deutzia gracilis, a native of Japan, is a low, neat growing shrub seldom over two feet and a half high with branche slightly arching from which panicles white blossoms are abundantly produced. It comes into bloom the first week in June. It is well adapted for planting in the foreground of tall shrubs of simi lar habit, and for massing and group-ing at the foundations of buildings where tall shrubs cannot be used. This is one of the easiest shrubs to force into bloom in a green house when carefully potted in the fall.

Deutzia parviflora is a native of north ern China and the Amoor country. It is perhaps one of the hardiest species and comes into bloom a week or so after gracilis. The corymbs, or convex flat-tish clusters of handsome white flowers are produced in great profusion, frequent ly extending for several feet above stems. The plant grows from five to seven feet. The upright stout branches are covered with a brownish yellow bark which is quite noticeable in winter.

Hardy Chrysanthemums.

Chrysanthemums of the "pompon" type, of which each plant produces from forty to one hundred blooms, an inch or thirty-three years and was a member ly hardy to be left out all winter in when he died. Of the congressmen who have served since the foundation of the congressmen who left out all winter in the congressment with the congress central and southern latitudes. The blooms often remain in good condition

These plants are the most capable of resisting frost of any garden herbs. Their peculiar merit is in blooming long after shillings extra spent on a fancy waist. successive frosts have denuded the landsuccessive frosts have denuded the land-scape. Their vivid colors are so unlike suit for months, the increased cost of the anything else at that season that they are indispensable in the carefully made

garden. The flowers are not ruined until their petals have been wet and frozen stiff. The plants are necessarily used for mass effects as great size is not to be expected Masses of red and masses of brown side by side make a striking combination. Crimson and pink varieties should be kept by themselves because their colors are variable and they make a violent contrast with the yellow.

The culture of hardy chrysanthemums is simple. They need little care and can be planted in any situation, so that the soil is rich. They are best propa gated from cuttings which should be made at any time from October to May The cuttings may be obtained from any florist. They should be inserted singly in pots or sandy soil and as soon as they are rooted they should be put in separate pots or set outdoors in their permanent location.

WANT RAILWAY INTO TIBET Pekin Authorities Provide for Conference to Raise Funds.

The authorities in Peking have ordered the viceroy of the province of Szechuan to confer with the Chinese resident in Tibet in regard to the question of raising funds for the construction of a railway from Szechuan into Tibet. It has been decided to open certain towns in Tibet to foreign trade.

A Question of Position.

A rather poor family unexpectedly came into possession of a fortune. They purchased a large farm with hens, cows, and pigs. One day the little daughter of the family was showing a visitor about the place. "Do your hens lay many eggs?" he in

quired interestedly.
"Oh, they can," was the haughty re-

Its legs were once some stronger.
I'm hurling choice words in the air,
I can't stand this much longer.

We're taking down the parlor stove, I thought that I could do it. Next time I'll hire a man to come, Wife stands and says "I knew it." -Montgomery Advertiser.

Economies in Dress.

One woman, whose shirtwaists wear through in the back between the shoulwhile the fronts are still good, finds it economy to put new backs in. In the same way, sleeves that go through are renewed, and thus the usefulness of embroidered and lace-trimmed fronts prolonged by many months.

Colored linens from last summer present a sorry appearance. They are not worn so much as faded and washed out. There are two methods of rejuvenating these. One is to have them redipped by a good dyer, and the other is to have them thoroughly bleached a smart oyster white by the same personage. Either process costs little, and the result is a perfectly fresh gown.

Needlewomen who embroider scalloped edges on collars, etc., complain that, despite all their care, repeated launderings fray the edge beyond the scallop-ing. An expert embroiderer prevents this by working a buttonhole stitch in each purl or twist of the scallop, thus forming a double edge. The extra time it takes is well spent, considering the extra firm edge given the work.

Remnants of good lace may be picked up for a few cents wherewith to renew the trimming on white petticoats. If plain hems are frayed, turn them back and stitch down. All an old skirt needs sometimes is a tidy edge. Lose no time, either about putting all skirts on well fitting waistbands, in place of bulky gathers and strings.

Not every women understands the immense value of sending her street suit to the tailor to be sponged and pressed. The cost is trifling, but the improvement so effectual that with fresh collar facings of linen, suede or taffeta, it might easily pass this spring for a new suit.

In the same way shoes that have seen their best days, particularly russets, may by the expenditure of a small sum for resoling and fresh ties, be made to serve another season for general utility wear.

Apropos of shoes, one girl washes her creased and soiled shoe-ties of wide ribbon, ironing them while damp—a very little economy, to be sure, but saving the frequent expenditure of a quarter, and having her shoe bows always fresh.

New Fashion in Ties.

This season promises to be a notable

one in the matter of ties and, possibly, collars, says the London Mail.

During the past year or two jackets and coats have opened lower in the front, and hitherto this has been made the opportunity for displaying a fancy waistcoat. Now the tendency is to pay nore attention to the tie, so that during the coming season the most noticeable feature will not be the vest but the neck-wear. For some years past ties have been extremely simple, a plain sailor-knot or a simple bow, but this fashion now promises to be abolished in favor of the large and handsome cravat.

Many influences have been at work in bringing about this change. The deep double collar has been declining in favor for some time past, and the military and wing styles have been finding an ever-increasing number of patrons, and there is no doubt these latter styles greatly facilitate the wearing of more dressy ties.

Cravats are now being made in full and puffy styles that almost fill the opening at the top of the vest. They made mostly from silks, satins, and pop-lins. Gold pins—often of the safety-pin pattern—are worn with these, so that the new style will be welcomed by the jeweler as well as the hosier and outfitter.

The new fashion will tend to increase

the expense of the man about town, for it will not be merely the difference between 1s. 6d or 2s. and 5s. or 7s. 6d of a single tie, but this will have to be reshillings extra spent on a fancy waistscarf will only satisfy the same need for weeks and maybe days.

From the standpoint of comfort the style has much to commend it, for it lends itself admirably to the soft-fronted shirt, which it effectually hides, without being in any way stiff or uncomfortable in itself.

WISDOM OF AN EMPIRICIST. Women don't make fools of men-

they merely assist nature.

HAS SECRET OF GOLD

WOMAN CLAIMS TO HAVE CHART POINTING WAY TO \$4,000,000.

Money Belonged to Oom Paul Kruger and Was Hidden by Friend in the Transvaal.

NEW YORK, May 20. - The woman who can keep a secret has been found. The secret is one of millions-\$4,000,000, to be precise. It concerns the present whereabouts of Kruger's gold.

She is Mme. Marie von Veltheim, wife or maybe the widow-of Ludwig von Weltheim, the man who buried crafty old Oom Paul's millions when he fled from the Transvaal just before Lord Roberts occupied Pretoria.

Mme. von Veltheim had a duplicate chart on which were marked the spots where the gold was buried. It was not sunk at sea in the wreck of the Zulu-land, as some would have it. Nor was it taken to Europe, as others insisted. Neither was it let down beneath the wa-tors of the ters of the ocean in iron chests.

It was carefully buried in the dead of night in the mountains of the vaal, just before Kruger escaped to Eu It was not put in one spot-Kru ger didn't want to leave all his eggs in one basket. The gold was as carefully divided into four parts. On all there was about \$5,000,000, so each part was from \$1,000,000 to \$1,500,000. Of this one part has been found by John Kemp.

The woman, if she finds her husband

is dead, will begin a search for the treasure spot. She does not know whether he is still living in the Transvaal or has died since leaving her.

NOT JOYFUL OVER ESCAPE OF CZAR.

Socialists and Revolutionists Stay Away from Parliament-Stolypin Announces Plot.

ST. PETERSBURG, May 20.—Before today's session of the lower house of Parliament from which all radicals were conspicuously absent, Premier Stolypin made a formal announcement of the discovery of a plot to kill the Emperor, Grand Duke Nicholas and himself.

A resolution expressing the great joy of the house at his majesty's escape from the danger and the deepest indignation that the criminal conspiracy so fortunately frustrated was unanimously

The Social Democrats, Social Revolutionists, part of the Group of Toil, and others were absent from the house when the resolution was presented and adopt-

Foreign Reports Exaggerated.

In the course of his remarks the pre-mier said that the accounts of the plot as published in certain foreign newspapers were extremely exaggerated. The persons arrested in connection with the conspiracy would be prosecuted without delay. Some of the conspirators had tried to enter the imperial palace, where his majesty was residing, but the attempts had failed.

During a debate on an interpellation of the Social Democrats later in the day Count Bobrinsky, president of the Con-stitutional Conservative party, left the house with the members of the party in retaliation for the absence of the Radicals at the time of the adoption of the resolution of sympathy with the Emperor at his escape from assassination.

Socialists Deny Connection.

Later in the day Deputy Shirsky, in behalf of the central committee of the Social Democrats, announced that his party had no connection with the plot and insinuated that if it really existed it was due to police provocation.

SCHMITZ'S NEW PLEA.

San Francisco Mayor Says Spreckles and Others Hope to Make Millions Out of the Graft Inquiry.

SAN FRANCISCO, Cal., May 20 .-District Attorney Langdon has been served by Mayor Schmitz's attorneys with notices of a motion for substitution of trial judge on the ground that Judge Frank H. Dunne is disqualified by bias and prejudice.

Accompanying and supporting this motion in a lengthy affidavit by Schmitz in which charges of an extremely sensa-tional nature are made against Rudolph Spreckles, his associates in the bribery graft prosecution, and Judge Dunne him-

Among Schmitz's allegations are the

following:

That Mr. Spreckels and the associates who are with him, the financial guaranteers of the bribery graft investigation and prosecution, long since exhausted the original fund of \$100,000 pledged by Spreckels and have expended nearly \$1,000,000 in a municipal purification campaign.

That the expenditure of this money is by way of an investment from which actual monied returns are expected.

way of an investment from which actual monied returns are expected.

That Spreckels and his prosecuting associates desire and purpose to overthrow the present municipal administration in order that they themselves may assume the reins of government and secure for themselves street railway and water franchises which will not them millions of dollars of the public money.

public money.

That Judge Dunne is aware of this intent and purpose and is therewith in accord.

That the conviction of Schmitz is desired

That the conviction of Schmitz is desired as a means to these ends.

That it is the wish of Judge Dunne that a biased and prejudiced jury be selected to secure such conviction.

That for these and various other reasons the same as set forth recently by Abraham Ruef, in his application for a substitute for trial judge it is impossible for Schmitz to have a fair and impartial trial at Judge Dunne's hands.

Mayor Schmitz appeared for trial to day in Judge Dunne's court on five grand jury charges of extortion from local keepers of French restaurants. By re-quest of the prosecution the hearing was delayed one day in order that counter affidavits may be prepared against Schmitz's motion for a change of

TO JAIL AS "SHYLOCK.

Patrick J. Hughes, Who Charged Printer Extortionate Interest on Loan, Loses in Appeal.

KANSAS CITY, Mo., May, 20 .- Patrick J. Hughes, a money lender, who formerly had branch offices in a dozen of the principal cities of the country, must pay a fine of \$100 and serve thirty days in the county jail, for exacting usurious interest from J. H. Williamson, a printer. Hughes was convicted in January, 1906, of collecting 7½ per cent, a month for saveral months or a cent. a month for several months on a loan of \$10. He appealed and the court of appeals, all the judges concurring, today decided against him on every point. Hughes' appeal was made on technical grounds.

TEMPERANCE FIGHT STIRS CHURCHMEN

Dr. Henry E. Dosker Turns Troublesome Liquor Report Back to Overture Committee.

COLUMBUS, O., May 20.-The temperance question continues to be the thief topic of discussion today among the 1000 commissioners of the Presbyterian general assembly and the outcome of the fight is still a matter of speculation.

A sensation was created as the commissioners were gathering for the session today by the authoritative announcement that Dr. Henry E. Dosker, chairman of the standing committee on temperance, will return the overture on temperance, referred to his committee Saturday by the committee on bills and overtures. Endorse Anti-Saloon League.

The overture in question condemns the organization of the church federation of emperance and recommends that the hurch give hearty support to the antisaloon league. Dr. Dosker announced that it is the business of the overture committee to handle this temperance Dr. Dosker announced verture and he turned the overture back to this committee. The action of Pr. Dosker is being criticised by many of the commissioners and the feeling on the emperance question seems to be becoming rather bitter among some of the commissioners. The whole question is scheduled to come up Friday.

Committees Give Reports.

The Assembly when called to order today began considering the reports of special and standing committees and The most important report was that of the committee on administrative agencies, to which was referred at the last assembly the overtures of 114 synods and presbyteries asking that consideration be given to the advisability of

onsolidating the church boards.
On this topic the committee simply re ports progress, asks to be continued, and advises against commencing by consolidating any two or more of the boards, thinking if action is taken it should be aken in regard to all boards at once. That a mistake was made in giving the negro unrestricted citizenship was the ntimation made in an address today friend of the negro, Dr. Wilson of Pittsburg, in connection with the presenation of the board of missions for freed-The sentiment was received with nen. applause from the assembly-not enthusiastic, but pronounced and coming in a scattered way from all parts of the

Off to Denver Assembly. PITTSBURG, Pa., May 20.—Three Pullman cars loaded with commissioners to the United Presbyterian general as-sembly which meets at Denver, Colo., this week, left here tooay. The special feature of the assembly will be the election of a successor to Dr. Alex Gilchrist, corresponding secretary of the board of home missions who died last January. Among the names suggested for the place are Rev. George E. Hawes, Braddock, Pa., formerly of Oregon; Dr. John A. Henderson of Allegheny, Pa.; Rev. A. Henderson of Allegheny, Pa.; Rev. R. A. Hutchinson, Altoona, Pa.; Rev. R. L. Lanning, Washington, and Rev. J. D. Rankin, D. D., of Denver. The choice of moderators, it is said, will likely be between Rev. Dr. H. H. Ball of San Francisco and Rev. Dr. Anderson of New York

Growth of Baptist Missions.

WASHINGTON, D. C., May 20.-In his annual address before the American Baptist Home Mission society, Dr. H. L. Morehouse, who has held the office of corresponding secretary for twenty-eight years, reviewed the progress of the organization for the seventy-five years of its existence, showing that in that time the home missionary force had increased from 50 to 1526 and that the receipts had grown from \$6000 to \$800,000 year. He placed the total receipts society for seven y-five years at \$16,000,000, of which over \$12,000,000 had been

contributed in the last twenty-five years. Death of Old Pastor. ROCHESTER, N. Y., May 20.—Rev. Dr. James Patterson Sankey, aged 68, died today. Dr. Sankey was the oldest pastor in point of service in Rochester. having been connected with the United Presbyterian church for forty-one years. He retired from active ministry June

ROCK ISLAND IS FINED.

Road Pays \$20,000 as Result of Giving Rebates to Woolson Spice Company of Toledo, O.

NEW YORK, May 20.—The Chicago, Rock Island & Pacific Railroad company, through its attorney, B. A. Jackson, today in the United States court, pleaded guilty to two of twelve counts of an indictment charging that the railway had granted rebates on shipments of coffee made by the Woolson Spice company of Toledo, O. A fine of \$10,000 on each of the two counts was imposed, and was paid. The other ten counts were not

ODESSA CHIEF SLAIN.

Superintendent of Police and Two Detectives Killed by Explosion of Infernal Machine.

ODESSA, May 20.—The superintendent of police of Odessa and the two chief detectives of this city were killed and seven other persons were seriously injured by the explosion of an infernal machine in the central police bureau this morning.

MADRID, May 20.—Owing to the many duties requiring her attention Queen Victoria has given up the idea of nursing the Prince of the Asturias, and a narse has been obtained for him from the province of Santander. ODESSA, May 20 .- The superintend-

MEMBERS FINED SUMS RANGING Lawyers Clash Today in Arguments Over FROM \$500 TO \$5000.

Judge Landis Declares Penalty Is Inadequate to Fit Crime-Poverty Plea Lightens Sentence.

CHICAGO, Ill., May 20.-Judge Landis today fined F. A. Holbrook, the American Seating company, and the A. H. Andrews company \$5000 each, and nine other furniture companies amounts ranging from \$500 to \$2000 for violation of the anti-trust laws in forming a conspiracy in gestraint of trade. The defendants pleaded guilty. They are:

Superior Manufacturing company, Muske-gon, Mich. Owensboro Seating and Cabinet company, Owensboro Seating and Cabinet company, Southern Seating and Cabinet company, Jackson, Tenn. Cincinnati Seating company, Cincinnati. Fridman Seating company, New Rich-

mond, O. H. C. Voght Sons & Co., Parker City, Minneapolis Office and School Furniture

company, Minneapolis.
Illinois Refrigerator company, Morrison, Ill.
Peabondy School Furniture company,
North Manchester, Ind.
Haney School Furniture company, Grand
Rapids, Mich.
Hudson School Furniture company, Logan, W. Va.

Judge Landis preceded the delivery of sentence by a scathing denunciation of the methods adopted by the church and school furniture trust, declaring that the punishment fixed by law is inadequate to fit the crime. The comparative pov-erty of the smaller firms furnished the court's reason for not fining them the

Holbrook acted as a sort of clearing house for the combine, which called it self the Prudential club, Judge Landis said. Holbrook apportioned the con-tracts, and by means of dummy bids members of the combine avoided competition.
"When I reflect upon the methods resorted to I wonder why men engage in such a business to get money. It was done 'to get business.' Most any man, I would think, would prefer to work in a ditch at \$1.50 a day. That is unquestionably a more dignified method.

"As for the small concern, it becomes my duty to avoid closing up such concerns, and it seems that severe punishment would force some of them into bankruptcy. To keep them in independent operation is the only hope the consumers have against the big concerns. If we were to put them out of business the Andrews and American Seating companies would have no difficulty in taking full control.'

UNCLE SAM AFTER FERTILIZER COMBINE

Numerous Violations of Sherman Anti-Trust Law Alleged-Old Cases to be Renewed.

WASHINGTON, D. C., May 20 .--The government has decided to renew the cases against the so-called fertilizer trust in the court at Richmond, Va. About a year ago the government secured the indictment and arrest of a large number of persons residing in different parts of the country on a charge of violating the Sherman anti-trust law and sought to secure the removal to Nashville.

Lose in Supreme Court.

Here suit was begun of such defendants as resided outside of the state of Tennessee. The Virginia defendants, however, contended that before they could be removed from the state they should be given a preliminary hearing to determine the sufficiency of the evidence upon which their removal was asked. The court sustained the government on this point but on an appeal being taken the United States supreme court, about two months ago found against the government but without prejudice to its case, and ordered that defendants be dis-

charged.

The department of justice has now de cided to try the individual defendants in the states in which they reside and will almost immediately proceed to secure the indictment and rearrest of the Vir ginia parties to the alleged combination. Other indictments and arrests will, it is said, be made in Tennessee, and other states. It is said there are thirty-one fertilizer companies in the alleged combi-nation and that originally twenty-four individuals were indicted and arrested.

DECISION ON TARIFF.

National Association of Manufacturers in Session at Philadelphia May Favor Revision.

NEW YORK, May 20.—Whether or not they favor a revision of the tariff, to what extent, and in what manner, is ex-pected to be announced by the National Association of Manufacturers, which convened at the Waldorf-Astoria hotel today. The question will come up in a re-port of the tariff committee of the association which has taken a poll of the 3000 members on the questions of revision. The convention will continue Tues day and Wednesday. The speakers will include Charles A. Prouty of the interstate commerce commission, who will discuss railway legislation, Oscar Strauss, secretary of commerce and labor, and Dr. Charles P. Neill, United States commissioner of labor.

PHILADELPHIA, Pa., May 20.— The American Foundrymen's association. the Foundry Supply association and the Foundry Foremen's association began a five days' convention in this city.

CAN'T FINISH CRUISER,

Union Iron Works at San Francisco Gives Up Job on California Because of Labor Troubles.

WASHINGTON, D. C., May 20 .- The navy department here today received for-mal notice from the Union Iron Works at San Francisco of their inability, owing to labor troubles, to successfully execute the contract they had entered into for the building of the armored cruiser California. The government is notified that it must complete the ship under the conditions laid down by the contract.

SEAT TRUST PUNISHED FIRST REAL FIGHT ON IN EDDY SUIT

"Next Friends" Plea of "Scientist."

the celebrated suit in equity to secure an accounting of the property of Mrs. Mary Baker G. Eddy has been a matter of record for almost three months, the first legal battle of counsel engaged in it took place in this city today, when arguments were heard on the motion of the trustees of Mrs. Mary G. Baker Eddy's estate that they be substituted for the "next friends" plaintiffs in the original suit. The hearing today was in the Merrimac county courthouse, where Judge Robert M. Chamberlin of Berlin is hold ing a term of superior court.

On March 1, 1907, there was filed in the court a bill in equity proceeding signed by George W. Glover of Lead City, S. D., the only son of Mrs. Mary Baker Glover Eddy; his daughter, Mary Baker Glover, and George W. Baker of Bangor, Me., the only surviving nephew of Mrs.

An Accounting Asked.

These three, as "next friends," in legal parlance of Mrs. Eddy, complained against Calvin A. Frye, Irving C. Tomlinson, Herman S. Deering, and Lewis C. Strang of Concord; Altred Farlow, Ira O. Knapp, William B. Johnson, and Joseph Armstrong of Boston, Mass.; Stephen A. Chase of Fall River, Mass., and Edward A. Kimball of Chicago, alleging, that Mrs. Eddy is, and has been for some time, incompetent to do business or to understand business transacness or to understand business transactions for her by others; and that the defendants have possessed themselves of her person and property and that there is reason to fear that they have wrongfully converted her property to their own

On these grounds the plaintiffs ask for an accounting on the part of the defend-ants and the creation of a receivership for Mr. Eddy's estate. On March 11, Ebenezer J. Foster

Eddy of Waterbury, Vt., an adopted son of Mrs. Eddy and Fred Walter Baker of Epsom, N. H., her nephew joined as plaintiffs.

Mrs. Eddy Turns Over Wealth. On April 2, announcement was made that on five days after the institution of proceedings, Mrs. Eddy had conveyed all her property to a board of trustees, Henry M. Baker of Bow, N. H., Archibald McLellan of Boston, Mass., and Josiah E. Fernald of Concord, N. H. These trustees asked of the court the right to intervene and be substituted as plain-tiffs in place of Glover and the other "next friends," in the suit of Eddy vs.

Bad Faith Is Charged. Counsel for the "next friends" countered this step on April 6, by asking that the trustees be joined as defendants in the original suit instead of as plaintiffs.

To this on April 18, the trustees made answer and prayed for a speedy hearing on their motion. On the same date the original defendants filed their answer to the original bill, entering a general denial of its allegations and charging a lack of good faith in the institution of the proceedings.

Meanwhile voluminous affidavits have

been filed on both sides, including a let-ter by Mrs. Eddy herself to the presiding judge, expressing her disbelief in the good faith of the original proceed-

Long Fight Ahead.

Judge Chamberlin has granted already nade by counsel plaintiffs, asking for fifteen days after his decision on today's proceedings to file supplemental bills and pleadings, and it is known that whichever way his decision is made, the matter will be taken up to the supreme court upon appeal. The latter court does not sit between June

and September, so any final decision of the case seems months away.

Allan Hollis of counsel for the trustees, opened the hearing today, and for the original plaintiffs, the "next friends," DeWitt C. Howe of Martin and Howe, of this city, made the opening. The closing arguments will be made by William E. Chandler for the "next friends" and Frank B. Streeter for the trustees. and Frank B. Streeter for the trustees.

5000 MEN ON STRIKE

Italian Trackmen on New Haven Road Walk Out-Struggle May Extend to New York.

NEW HAVEN, Conn., May 20.-Near ly 5000 Italian trackmen employed by the New York, New Haven & Hartford Railroad Co. on all divisions of the road went on strike today, as the result of the road's refusing their demand for a 10 per cent. increase over their present fair and just and uniform. That it was wages of \$1.50 a day. It is said the strike will extend from New York to rates uniform, if in the judgment of the

PROVIDENCE, R. I., May 20.—A request for an advance of 10 per cent. in wages, to take effect next Monday, will be served at once upon all mill owners in Rhode Island, who have not already signified their intention of following the lead of Fall River and New Bedford in advancing the wages of the textile opera

BUFFALO, N. Y., May 20.—Three hundred freight handlers on the docks quit work today, demanding an increase of wages from 17½ to 20 cents an hour. The freight house of the New York Central was the principal one affected.

RIOT CALLS NECESSARY.

Evansville (Ind.) Car Strike Becoming Serious-Police Have Hard Work -Troops May Be Called.

EVANSVILLE, Ind., May 20 .- The first disturbance today between the street car railway strike and non-union em-ployes of the company occurred at Main

and Louisiana streets.

A crowd surrounded a car manned by strike breakers and began jeering. A riot call brought police officers on bi-cycles who dispersed the crowd. The situation last night appeared serious. Troops may be asked for. The car company operated but few of

the city cars. Every car was stoned and egged. In many instances the conductors and motormen were injured. WAITS LONG FOR TRUNK.

Kansas Woman Sues Railroad, After Three Years Elapse, for Loss of Wearing Apparel.

ATCHISON, Kan., May 20.—Nearly three years ago Mrs. G. H. T. Johnston of Atchison checked her trunk from Hot of Atchison checked her trunk from Hot Springs to Atchison, and it hasn't reached here yet. After waiting a reasonable length of time she asked payment for the trunk from the Missouri Pacific, furnishing an inventory of the wearing apparel and other articles in the trunk to the value of \$1100. The company didn't pay, and suit was eventually brought. The case was settled by the payment of half the amount sued for.

MAYOR SCHMITZ LOSES

DENIED MOTION FOR CHANGE OF TRIAL JUDGE.

CONCORD, N. H., May 20 .- Although | Courtroom Jammed When Executive of San Francisco Appears to Face Charges of Grafting.

SAN FRANCISCO, Cal. May 21 .--

The largest crowd that has thus far een attracted by any of the proceedings in the investigation and prosecution was in attendance in the superior court today when Mayor Schmitz made his appearance on the charge of extorting money from local French restaurants with the connivance of Abraham Ruef. Scores of people stood on the benches in order to catch a glimpse of the defendant. Assistant District Attorney Heney end affidavits sworn to by himself and rend affidavits sworn to by himself and Judge Dunne denying categorically the allegation made in the affidavits filed last Saturday by the defense in support of the motion for a substitution of trial judge. Mr. Heney in reading his own affidavit threw intense feeling into his voice and gestures. He denied with the greatest emphasis that he or those who are associated with him in the prosecuare associated with him in the prosecuion have any ulterior motives-that they desire any political preferment or mu-nicipal office or that they believe any purpose whatever beyond the purification the municipality and the punishment of those whom they may accuse of cor-

At the conclusion of the reading of the affidavits Judge Dunne denied the mo-tion for the change of trial judge.

TRUST AND ROADS IN PLOT, IS CHARGE

National Petroleum Association Accuses Standard Oil Company and Carriers.

WASHINGTON, D. C., May 21.-A eries of hearings was begun before the interstate commerce commission today involving the freight rates on petroleum and its products, particularly in the territory of the Central Freight association. The allegation is made by the complainants that they are discriminated against in rates given them by the carriers in favor of the Standard Oil company. It s further charged that whenever railroads come into competition with water carriers they give reduced rates, but if their competitor is a pipe line owned and controlled by the Standard Oil company the rates are increased to a point where they become unjust and discriminatory.

Case Against Milwaukee Road

The complainant in each case heard today was the National Petroleum association of Cleveland. The cases which came on for hearing today were against the Chicago, Milwaukee and St. Paul railway company and others, alleging unreasonable rates on petroleum from Chi-cago, Peoria and Milwaukee to St. Paul. Minneapolis and Duluth. The rate fixed by the railroads of 20 cents 100 pounds was declared to be unreasonable and discriminatory. In another case against the same defendants the present rate on petroleum of 27 cents a hundred pounds from the same points to Omaha, Sioux City and Sioux Falis also was attacked. In the third case, against the Ann Arbor railroad and about fifty other carrier ines in the Central Freight association territory, the allegation made was that the rates on petroleum were unjust and discriminatory; that they were arbitrary; that they were unfair and not uniform: and that they gave an undue

dvantage to the Standard Oil company. Chamberlain Charges Plot.

When the cases were called today, Chairman Knapp and Commissioners Clements, Prouty, Cockrill and Lane were on the bench. In the absence of President Wall and Traffic Manager Boltz, of the National Petroleum asso-ciation, it was decided to take up the Ann Arbor railroad case first. C. D. Ann Arbor railroad case first. C. D. Chamberlain, secretary and general counsel of the association, explained the monopolization of the Ohio and Pennsyl vania oil business by the Standard Oil company and declared that the rates quoted his association by the carriers showed collusion between them and the Standard Oil company and a determin-

ation to destroy competition. Rail Counsel Astonished. W. J. Calhoun of counsel for the defendant lines expressed astonishment at some of the statements made by Mr. Chamberlain and asserted that he was prepared to show that the rates were

commission, they were not so already. ONE KILLED IN WRECK

Special Train on New York Central Wrecked This Morning-Baggage Man Cut in Two.

LITTLE FALLS, N. Y., May 21.-In the wreck of the Buffalo-Cleveland spe-cial west-bound from New York City on the New York Central railway today one man was killed and two were critically injured. Baggageman Finley was in the buffet car and was thrown out and cut in two by the wheels. Fireman Maher was pinned down in the cab of his engine while hot coals from the boiler bis clothing on fire. He was badly burned and is in - critical condition, as is Engineer Hyde, who was scalded by es-caping steam. None of the passengers was seriously injured.

SEIZE ARMS IN CHINA.

Imperial Customs Authorities Make Haul of 8000 Rifles, With Bayonets and Much Ammunition.

TIEN TSIN, China, May 21.—Eight thousand rifles, 300,000 rounds of ammunition and 8000 bayonets intended for revolutionary purposes have been seized here by the imperial customs authorities. The shipment was imported by ropean firm in conjunction with Chinese merchants. The seizure has caused a sensation in the native portion of the

LIFE CHIEF INDICTED.

John R. Hageman, President of Metropolitan, Charged With Perjury and Forgery by Grand Jury.

NEW YORK, May 21 .- Ten indictments, charging perjury and the others forgery, were returned today by the jury against John R. Hageman, presi-

dent of the Metropolitan Life Insurance company of this city.

Mr. Hageman will appear in court tomorrow. The true bills grew out of the investigation of the company's annual

0 0 0 Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cult of most obstinate and fatal diseases, if we would properly investigate them; and in the conviction, he points with pride by the almost marvelous cures effected by his "Golden Medical Diseases". covery," which has proven itself to be the most efficient stomach tonic. Ifver invigoror, heart tonic and regulator, and blood cleanser known to medical science. Dyspep-sia, or Indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same. 0 0

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription as is amply attested by thousands of unfolicited testimonials con-tributed by cateful patterns who have been cured by it of catarrhal pelvic drains, painful periods irregularities, prolapsus and other displacements caused by weakness, ulcer-ation of uterus and kindred affections, often after many other adve other advertised medicines, and

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists, and pharmacists with the with Dr. Fierce, and they are carried off with the skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wranger. each bottle-wrapper.

CAN'T STAND MOTORING.

English veterinary surgeons have dis covered a new disease in dogs-motor heart. It appears that dogs are very fond of riding in motor cars, but that their hearts can't stand it. So their owners must either curb this appetite or expect early bereavement.

Smoked in Church.

Although the recent universal habit of smoking is of comparatively recent date, the use of tobacco was carried to a great excess when it was first intro-Our ancestors smoked even in

All such offenders were solemnly ex-communicated by Urban VIII. in 1624, and again seems to have extended to Rome itself. There was William Breedon. too, Vicar of Thornton, "a profound divine, and absolutely the most polite person for nativities in that age," of whom the astrologer Lilly says that "when he had no tobacco he would cut the bell ropes and smoke them."-Lon-don Chronicle.

The inducements to adopt Nature's perfect Laxative, Garfield Tea, are many! It is made wholly of simple Herbs and is guaranteed under the Pure Food and Drugs Law; it overcomes constipation, regulates the Liver and Kidneys, purifies the blood and brings Good Health.

PARIS BURNS UP FORESTS.

Thousands of Acres Cut Yearly for Heat ing Rooms Alone.

Despite all modern improvements Paris still heats its offices and its houses to a large extent with wood. Its bakers and for fuel. It burns up whole forests of timber every year, and extensive forests in several regions of France are reserved supplying it with fuel.

Coal is scarce in France and dear and not of very good quality, Besides, the Parisians are conservative in home matters. The cheery appearance of the glowing log on the hearth appeals to them and most likely generations will pass before they give up burning wood

Although the consumption has declined materially in the last quarter of a century the official figures show that 280,000 cubic meters of hard wood, or nearly 9,000,000 cubic feet a year was the average burning for the first four years of the present century, for heating

purposes alone.

To furnish this supply about 50,000 hectares, or nearly 125,000 acres, of woodland was cleared in the four years. The rate of consumption was even greater in the past. It is not expected that it will diminish. The trees cut range in age from 24 to 36 years; the average is about 30 years. From this an estimate case he made of the enormous treater. about 30 years. From this an estimate may be made of the enormous tracts of land given up to forestation in France for this purpose.

Some of the logs are cut near Paris. A good deal comes from woods in the de-partments of l'Oise and l'Aisne to the north and some from Loiret to the south. The Landes on the southern part of the coast of the Bay of Biscay furnish the pine, which is chiefly in demand among pine, which is chieny in demand distribution the bakers on account of its quick, hot the bakers on account of supply for But the great source of supply for domestic and heating purposes is the forests, or rather, the woods, of the Morvan, which cover parts of the departments of Zonne and Nievre.-New York Sun.

FIT THE GROCER.

Wife Made the Suggestion. A grocer has excellent opportunity to know the effects of special foods on his customers. A Cleveland grocer has a long list of customers that have been helped in health by leaving off coffee

and using Postum Food Coffee. He says, regarding his own experience: "Two years ago I had been drinking coffee and must say that I was almost wrecked in my nerves.

"Particularly in the morning I was so irritable and upset that I could hardly wait until the coffee was served, and then I had no appetite for breakfast and did not feel like attending to my store duties.

"One day my wife suggested that inasmuch as I was selling so much Postum there must be some merit in it and suggested that we try it. I took home a package and she prepared it according to directions. The result was a very happy one. My nervousness gradually disappeared and to-day I am all right. I would advise everyone affected in any way with nervousness or stomach troubles, to leave off coffee and use Postum Food Coffee." "There's e Reason." Read, "The Road to Wellville," in pkgs.

SOME THOUGHTS ON THE DIVORCE EVIL.

JULIET V. STRAUSS.

I am opposed to divorce. Extreme cruelty is about the only reasonable plea, in my mind, for putting asunder a couple whom God has joined together. I know there are plenty of people who will claim that God has little enough to do with much of our marrying these days, but, though there is a great deal of light-mindedness among our young people on the subject of marriage, I still think that the union of any couple in marriage, particularly if there is a child, or children, has much of God in it, and if the parties concerned do notknow it, so much the worse for them, for they will suffer accordingly.

Ignorance is our worst enemy, and it is ignorance that prompts people to regard divorce lightly and marriage as a thing easily set aside. I wish the divorcee could realize that, instead of being honorable in the sight of the world by her "legal" separation from the man she has married and easily tired of, she is a creature standing barely within the law. We are far

down in the scale of humanity when we are just grazing the law. Laws are not made for noble and courageous and upright people; not for people who know how to make blessings of their burdens and make torches of their faith to carry them over the rough places; the law is not for the proud man made in God's image, who knows better than to complain; not for the gifted woman who understands the value of patience and her duty to the human race. The law is not for the man whose word is as good as his bond or the woman who, as most of her sisters do not, understands the nature of an oath. The law is for people who easily "rue bargain," who whine under duty and squirm about for release from their share of the heat and burden of the day.

We are in a sorry plight when the law must settle our difficulties-we admit our failures as men and women when we cannot order our own lives to some working out of sweetness and light. We have no right to make laws to legalize immorality. We have no right in the light of human reason or plain logic to license any evil.

Many people ask if one does not think it better to part than to live unhappily together. No. I think it better to stop living unhappily. It takes two to make unhappiness. Let our men and women be men and women in the best sense. Let them stop playing at life and get down to plain living and working in which alone the human being finds his highest development. Let women stop being lazy and men stop being false not only to the wives they have married, but to themselves and the whole human race! Let us earn to have pride in morality and stop running after false gods of fashion. Home and its sanctity, the family with its holy ties of love and common sympathies, these are the priceless treasures which to-day many women spurn for fine costumes and the dissipation that seems to be a mania with the fashionable woman .-- Chicago Journal.

Marvelous, Quaint and Curious.

************** SOURCE WAY

Graves of the Stone Period.

Stone Chambers, which once formed places of interment, are frequently discovered within large barrows of earth raised by the hands of man. They are to be referred to the period of the Danish Invasion, which is generally termed among antiquaries the "Stone Period," because the use of metals was then in a great measure unknown; and Britain, there are many more of them most all provided with long entrances, was much annoyed. which lead from the exterior of the

GRAVE OF THE STONE AGE.

mound of earth to the east or south side of the chambers. The entrances, like the chambers, are formed of large stone, smooth on the side which is turned inwards, on which very large roof-stones are placed. The chambers. and even the entrances, which are from sixteen to twenty feet in length, are filled with trodden earth and pebbles, the object of which, doubtless, was to protect the repose of the dead in their graves, and the contents which are found in them consist of unburnt human skeletons (which were occasionally placed on a pavement of flat or round stones), together with implements and weapons, and tools of flint or bone, ornaments, pieces of amber, and urns of clay. In some cases smaller chambers have been discovered, annexed to one side of the passage which leads to the larger chamber, and one of these smaller chambers we have engraved as a specimen of the sort of tombs we are now describing.

The sketch represents a chamber which was discovered in a barrow, situated near Paradis, in the parish of the Vale, in the island of Guernsey. On digging into the mound, a large flat stone was soon discovered; this formed the top, or cap-stone, of the tomb, and on removing it, the upper part of two human skulls were exposed to view. One was facing the north, the other the south, but both disposed in a line from east to west. The chamber was filled up with earth mixed with limpetshells, and as it was gradually removed, while the examination was proceeding downwards into the interior, the bones of the extremities became exposed to view.

Wasted Rehearsals.

Amiable American ministers to foreign countries cannot always resist the coaxing or coercion of worthy but uncultivated countrywomen who desire a presentation at court. One woman, who, after much pleading and pressure, had received a promise that she and her daughter should be presented at the next levee of a certain minor European sovereign, came, the day before the ed man who, when he bought anything event, to the minister's wife. She at a store, asked the clerk, "What is seemed in much perturbation, yet reluctihe damage?"

came to the point.

"It's the kissing hands," she con fessed. "Jenny and me ain't sure we've got it right. We've practiced a lot-Jenny kissing mine and me kissing Jenny's-but Jenny gets laughing, so we don't know any better in the end than we did in the beginning. Would you mind telling me which side up is right-palm-side or knuckle-side? And do you catch hold anywhere, or does the queen hold it steady without?"

The wife of the minister was able to assure the perplexed matron that "knuckle-side" was correct, and that lightly sustaining finger-tips were permitted to be placed beneath the fingertips of royalty; moreover, that she while a few are to be found in Great need concern herself about none of these little niceties, since only the subin Denmark. These tombs, which are ject of a sovereign was expected to kiss powerful and the rich. They are al- of being relieved, however, the woman

> "A person might as well be hung for a sheep as a lamb," she declared, "and if I'm going to courtesy, I'd rather kiss, too. Besides, there's all that practice wasted, and Jenny'll never get done laughing at me, kissing her hand for nothing all those times. All is, if she giggles, I believe I'll up and box her ears!"

Water Drops as Torture.

A drop of water, even three or four drops, falling on the head seems a thing unworthy of attention; nevertheless in China a slow and continuous dropping of water on the head has been found to be a method of torture under which the most hardened criminal abjectly howls for mercy.

When a professor in the Sorbonne, the famous university of Paris, stated this to his class the other day one of the students laughed incredulously and said it would take a good deal of that sort of thing to affect him.

The professor assured him that even one quart of water dropped slowly onto his hand would be beyond his endurance. He agreed to experiment.

A quart measure filled with water was brought in, a microscopic hole was bored in the bottom and the performance began, the professor counting.

During the first hundred drops the student made airy remarks. With the second hundred he began to look less cheerful, then gradually all his talk died away and his face took on a haggard, tortured expression. With the third hundred the hand began to swell and look red. The pain increased to torture. Finally the skin broke. At the four hundred and twentieth

drop the skeptic acknowledged his doubts vanished and begged for mercy. He could bear no more.

Moths and Butterflies.

Some moths look very much like butterflies, but there are two ways in which you can always tell the one from the other. Each has little slender feelers growing from the head, but the butterfly's feelers, or antennae, as they are called, have knobs on the ends. The antennae of the moth sometimes have tiny feathers on them and sometimes little spires, but they are never knobbed. Then, too, in alighting the butterfly always holds her wings erect, while the moth's droop or are nearly flat.

A Martyr.

The Friend-If your married life is so unhappy, why don't you get a divorce from your husband? Unhappy Wife-Because he would then marry some other woman and make her unhappy.—Chicago News.

What has become of the old-fashion-

The Squash.

I think you will enjoy the following from our English cousins. We have laughed ourselves weak over it, says a writer in the Boston Transcript. A bar-rel was sent to London at Christmas containing apples, a Hubbard squash, some cranberries and sweet potatoes.

This is from the reply:

"The apples were fine, but the potatoes, alas, had gone quite bad and yellow. The cranberries are very handsome, but seem somewhat acid to our taste. The squash was a novelty, and I dare say we didn't known exactly how to deal with it. We put it on the table r dessert, but James found it extreme-difficult to cut. Later I stewed it with lemon and sugar, and we all de-clared it delicious!"

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hail's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it falls to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The Origin of Livery.

The wearing of livery by male servants is a survival of the times when great lords kept huge bands of men servants, called retainers, who were bound to fight in all the quarrels of their masters, as well as perform service of one sort or another, and on special occasions of show, dressed in the livery of their lord, became in reality a miniature army.

Tired Nervous Women Make Unhappy Homes

MRS. NELLIE MAKHAM

A nervous irritable woman, often on the verge of hysterics, is a source of misery to everyone who comes under her influence, and unhappy and miserable herself.

Such women not only drive husbands from home but are wholly unfit

to govern children. The ills of women act like a fire brand upon the nerves, consequently seven-tenths of the nervous prostration, nervous despondency, the

"blues", sleeplessness, and nervous irritability of women arise from some

organic derangement. Do you experience fits of depression with restlessness alternating with extreme irritability? Do you suffer from pains in the abdominal region, backache, bearing-down pains, nervous dyspepsia, sleeplessness, and almost continually cross and snappy? If so, your nerves are in a shattered condition and you are threatened with

nervous prostration. Proof is monumental that nothing in the world is better for nervous troubles of women than Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Thousands and thousands of women can testify to this fact.

Mrs. Nellie Makham, of 151 Morgan St., Buffalo, N. Y., writes:-

Dear Mrs. Pinkham:-"I was a wreck from nervous prostration. | always helpful.

MRS.GEO, A. JAMES

I suffered so I did not care what became of me, and my family despaired of my recovery. Physicians failed to help me. I was urged to try Lydia E. Pinkham's Vegetable Compound and I want to tell you that it has entirely cured me. I think it is the finest medicine on earth and I am recommending it to all my friends and

Mrs. Geo. A. James, a life long resident of Fredonia, N. Y., writes:

Dear Mrs. Pinkham:—
"I was in a terribly run down condition and had nervous prostration caused by female trouble, in fact I had not been well since my children were born. This condition worked on my nerves and I was irritable and miserable. I had tried many remedies without getting much help but Lydia E. Pinkham's Vegetable Compound brought me back to health and strength. It has also carried me safely through the Change of Life. I cannot too strongly recommend your medicine." Dear Mrs. Pinkham:-

recommend your medicine." Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to communicate promptly with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.
