CONSTITUTIONAL ELECTION TUESDAY

Next Tuesday will be held, in every precinct in Michigan, the constitutional election. The candidates from this district are Frank D. Mead, of Delta County, William J. Oberdorfer, of Menominee, and Albert E. Sharpe, of Chippewa. The revision of the constitution is an important matter that should win the attention of every citizen. These candidates are all able and conservative men who will make no changes in the fundamental law merely for the sake of change. They will give their time and best attention to the duty of this great office should they be elected—as there is no doubt. Our own candidate, Mr. Mead, is so well known to all Delta county that he needs no eulogy at this time. But every voter is urged to go to the polls next Tuesday and deposit a republican ballot for members of the constitutional convention. It will occupy but a few moments of time; let none forget it.

COUNCIL PROCEEDINGS

Gladstone Mich., Sept. 2nd, 1907.
Regular meeting of the City Council. There being no quorum present, it was moved, supported and unanimously carried to adjourn to Monday evening Sept. 9th, 1907.

W. A. NARRACONG,
City Clerk.

Gladstone Mich., Sept. 9th, 1907.
City Council met pursuant to adjournment. Present, Mayor Miller, Ald. Champion, Clark, Eaton, Folsom Noblet and Young. Absent, Ald. Theriault and Green.

Minutes of meetings of Aug. 19th, 26th and 27th, 1907, was read and approved. The following was read:

Committee on Finance and Taxation made the following report:

To the City Council, City of Gladstone. Gentlemen:—

Your committee on finance and taxation would respectfully report, that they have had the matter of excess taxation in the case of Mrs. Julia A. Mason under consideration and find that through an error the assessed valuation of the land had been increased 100% for the years 1905 and 1906 namely from \$1200.00 in 1904 to \$2400.00 in the above mentioned years. As the error is so apparent we recommend that an order be drawn in favor of Mrs. Julia A. Mason for \$98.36, amount of taxes due on the original assessment \$1200.00, for the years 1905 and 1906.

News Items That Are of General Interest to Our Local Readers.

Work commenced Monday morning on Delta avenue. August Peterson, who took the sub-contract for removing the decayed blocks, commenced tearing them up at Fifteenth street. The paving will proceed from the railroad yard east. Crushed rock is expected Saturday. On Monday a gang will commence excavations for catch basins. The sewer work, of course, must be timed just before the paving arrives at that point of the street. D. A. Brotherton, who drafted the specifications, has been retained by the city as inspecting engineer.

The postmaster is earning his salary these days. One day this week nine hundred pounds of mail, mostly Marble catalogs, and fifteen hundred dollars in money orders were issued. Of these as usual when the day's business is big, most went to the old countries. The balance of the money order business is principally in the form of remittances to Chicago. The mail order houses of that city draw an average of \$75 every day from this city, through postoffice orders, and when the express orders and bank drafts are also counted up, it may be seen where a fair share of Gladstone pay rolls goes.

"Gwinn" the name of the new town being established by the Cleveland-Cliffs Iron company in the Swanzezy district, is a pleasing and euphonic name. It has associations, too, as it is part of the full name of the company's president, Mr. Mather, and was his mother's maiden name. As Mr. Mather is the father of the new town, it is fitting that its name should be associated thus intimately with him. The town of Gwinn is being given a fine start and Mr. Mather can doubtless be depended on to see that it is made a good town.

The brick vaults at the axe factory have been built as a safeguard against fire. Valuable papers, goods and patterns will be stored in them.

Com. Legg walked to the Lake Superior crossing Thursday to catch a train, but the superintendent of the road informed him a wreck had disarranged the schedule. So the commissioner walked to Wells with his trusty grip.

Mrs. Mary A. Forsyth, aged sixty-eight, died last Friday morning at the home of her son, Dr. R. S. Forsyth, from a heart weakness. She came during the summer from her old home at Lexington to Escanaba, but the change of climate did not improve her health. Her funeral was held at Lexington.

Eli Eaton injured his foot last Saturday through the slipping of a truck. He was out Tuesday, thankful he escaped as lightly as he did.

Fontana is hoisting the residence of M. Jacobs, who will install a concrete foundation.

The Methodist church has now assumed its new shape and it is possible to see that the building will resemble the drawings when all the antique touches are put in.

A member of a local club made a trip up the E. & L. S. recently to inspect the camp. The double effects of an afternoon spent with a baked goose and a loaf of bread astonished him. He will not camp this fall.

Lost, between Delta and Central avenues, Sunday, a pair of pince-nez. Reward for return to this office.— Since the insertion of this ad, the glasses have been found. Advertising in The Delta pays promptly.

A case in the supreme court has elicited a decision affecting the use of voting machines. County clerk Smith, on Wednesday received a telegram from the attorney general saying that the machines can not be used at next Tuesday's election. Whether the decision goes further has not yet transpired here.

Carl Sederberg moves his bakery shop to next to the Exchange Bank today. August Olson will occupy a part of the shop for a few days longer.

The ladies of the M. E. Church will serve supper at the residence of James Weddell on Friday evening September 20, from 5:30 to 8 o'clock. Everyone is cordially invited.

The meetings of the Lake Superior presbytery this week had fair attendance. About twenty delegates were present. For the illustrated lecture Wednesday were substituted talks on Scotland and Rome.

A farewell party was given at Fraternity Hall Monday night in honor of the Misses Kee. About fifty young people attended and made the hours pass swiftly.

P. J. Baker last week purchased the residence of W. B. Prentiss on Dakota Ave., and will occupy it shortly.

An unusually large criminal calendar is preparing for the term of court which convenes on October 21. Over twenty persons will be tried. The size of the list of civil cases is also unprecedented. The non-jury term of July is responsible for much of the congestion. Those drawn on the jury from Gladstone are: Fred Filkins, R. E. Baird, Fred Allen, R. E. Beach. From townships: Baldwin, John Caskenette; Brampton, Paul White; Escanaba, Owen Jones; Maple Ridge, Daniel Lane and Peter Britz.

Wednesday, next is Yom Kippur, the Jewish day of atonement and the business places of orthodox will be closed until the going down of the sun.

Wanted at the Marble Axe factory an office boy between 16 and 18 years old. 24tf

Sidney Raymond, brakeman, was injured Thursday at Rapid River, an engine getting off a sidetrack. Raymond was taken to the hospital with his head badly cut.

Information received the other day led to the supposition that a world's athletic record had been irretrievably smashed. It was claimed that a round house mechanic had jumped from the floor to a running board seven feet six inches above it. This looked promising, and investigations were in order. They reduced it to the claim that Joseph Jardine had made a jump sixteen years ago to a running board of a standard engine, above five feet eight from the floor, and stood after completing it. This is submitted.

The Munising State Bank has passed into hands of the Cleveland Cliffs Iron Company, and W. G. Mather is president of the bank. C. V. R. Townsend is also one of the directors.

YOUR NERVES.

The Most Untiring of All Are Those of the Heart.

The most easily tired nerves in the body are the nerves of smell. They can detect the faintest whiff of perfume. As you pass a rose in the garden the quantity of perfume that gets into your nostril must be many millions of billions of times smaller than the tiniest grain of sand. But rub the strongest perfume on your upper lip and in a few seconds you fail to notice it, the nerve of smell is so quickly fatigued.

The heat nerves and cold nerves, which are quite distinct from the nerves of ordinary sensation, also give over working very quickly. A bath that seems quite hot when you step into it very soon ceases to cause any particular feeling of heat.

Nerves of hearing and sight can go through an enormous amount of work. For sixteen hours a day they work hard and are still willing to do more.

The nerves of the heart are the most untiring of all. From the first dawn of life until the last gasp they work without stopping for one instant. And even after death if some salted water is pumped into the heart it commences to beat again, showing that the nerves are still willing. — Pearson's

ELECTION NOTICE.
