Volume XXIII.

CHAS. E. MASON, PUBLISHER.

To-morrow

-So why attend to it today?

-We look back, everything has

-been the same from day to day,

-nothing unusual has happened,

-same old sunrise, same old sunset,

-so why be alarmed or in a hurry?

-Another day will do, there's time

-to spare, "WAIT TILL TOMOR-

-ROW" to insure your property!

-That's logic isn't it? Well,

-there's this much about it: Mis-

fortune comes to us all, this you

-know, of course. The only way

-to always be safe is to be on our

-guard while we are safe. Are

-YOU on your guard? Is YOUR

-property protected in a big, safe

-company? If not, TOMORROW

-may be too late! We shall be

-honored if you will call and talk

-with us about it. Remember we

-are making Insurance our study

I shall skip from this village, by gosh!

The latest improvement in care of stock is recorded in the Mining Journal The first of the electric fans to be installed in the barn at Vandenboom's dairy were put in position. Their mission is not only to cool the atmosphere but to lessen the fly nuisance and allow the cows to exist more comfortably. The barn will be darkened during heated weather and the cattle kept therein while the sun is hottest. It is believed this attention paid the stock will result in increasing the production

Says Emory I. Busby, of the state board of barber inspection "The upper peninsula has a better class of barbers of the state. This is largely due to the fact that in most of the lower peninsula towns, particularly Detroit, the barbers Lime, Cement, Brick and Hair are indifferent and are not as steady a lot of workmen as we find up here."

Tar macadam pavement is not meeting with favor in Menominee and both all of the accessories residents and officials are inclined to believe that the experiment made with the that a meat market pavement on Main street is not, strictly speaking, a howling success. To begin with, according to one of the residents, the odor of tar prevades the neighborhood at all times and in all places. To many the odor has become so strong that it causes nausca. The only virtue about it is that moth balls are unnecessary in Main street residences. Among objections is the dirty appearance of the street. In hot weather, the surface is soft, and heavy teaming raises it in huge ridges that are anything but nice appearing. With the soft surface teaming has been made doubly difficult. The tar catches the tires of wagons, bicycles and automobiles like sticky paper and the only way to make any progress on the street is to take the brick pavement CALIFORNIA between the car tracks. The only good feature of the pavement is that it is noiseless, but even this favorable feature is done away with because of the fact that all heavy teaming is done on is fine and cheap and if you makes fully as much noise as on any of is the time to buy. the regularly brick paved streets.

The success of the tarred section of the Whitefish bay road has aroused favorable comment among owners of vehicles, and other thoroughfares may now receive doses of tar. Wherever the work is done those who are in charge of it should be similarly thorough. There have been many failures of road work of this kind, because the dust-laying agent was improperly applied .- Milwankee Wisconsin.

Crystal Falls farmers are not at all elated over the prospects of the hay crop. It is not as good as it ought to be considering the exceptionally fine spring and summer experienced. The crop is going to be light; almost as light as last year, when the harvest was the smallest in the history of farming in that locality. Many reasons are cited for this condition but the most of the well-posted farmers ascribe it to the open winter and no snow. The snow did not come down until the latter part of January and meanwhile the hard frosts froze the ground very deep with no blanket to THE YACHT CLUB.

HENRY ROSENBLUM

PROMINENT MASON FOR HALF A CENTURY

Hugh McCurdy, Who Died at Corunna, Mich., Thursday, Occupied Exalted Posi-

CORUNNA, Mich., July 18.-Hugh McCurdy, former head of the Knights Templars in the United States, who died Thursday, was one of the leading Ma-

sons of the country.
"Hugh McCurdy," says Free Masonry in Michigan, "was born in Hamilton, Lanarkshire, Scotland, December 22, Lanarkshire, Scotland, December 22, 1829. When only 8 years of age he emigrated with his parents to the United States and settled for the time at Birmingham, Mich., which the people of the east regarded as the very fronter of American civilization. His first stroke for fortune was in the humble capacity of cooper's apprentice. He had early learned the lesson of doing with his might whatever his hands found to do and his work as a cooper soon began to take on those peculiarities of excellence take on those peculiarities of excellence which have since peculiarly distinguished all his work. He became a student of the law and while yet a student kept his fortunes moving by divers means. One of his employments was as freight agent at Birmingham of the old Detroit & Pontiac railroad when strap rails were in vogue and railroad-

strap rails were in vogue and railroading was indeed a primitive science.

"In 1847 he was so far advanced in general requirements that he was chosen to teach the village school in Birmingham and during the following year he had a like employment in the neighboring village of Royal Oak.

"He became a regular student in the law offices of the law firm of Baldwin & Draper, of Pontiac. In 1854 he was admitted to the bar of Michigan."

Shortly after moving to Corunna, the

Shortly after moving to Corunna, the

office of prosecuting attorney became va-cant by resignation of the incumbent and Judge Green appointed young Mc-Curdy to fill the vacancy. In the fall of 1856 he was nominated by the Demoeratic convention for prosecuting attorney and was elected by a handsome majority. In 1860 he was elected judge of

jority. In 1860 he was elected judge of probate.

He was elected to the state senate in 1864 and immediately took rank as one of the most active and influential members of that body. Although the county of Shiawassee has been a strong Republican county since 1856, yet McCurdy was again elected prosecuting at torney in 1874. For many years he has been a member of the board of supervisors from a strong Republican ward, frequently elected without opposition. both parties nominating him. In 1865 Judge McCurdy established the First National bank, of Corunna, of which he was president from its organization down to 1873, when he sold out his interest and withdrew from the business. and withdrew from the business.

His Masonic life covers a period of over fifty years, having been initiated in Birmingham lodge, No. 44, on August 5,

Oklahoma Gypsum.

According to recently published statistics in Mining Science, Charles N. Gould, professor of geology at the state university, estimates the amount of gyp-sum in the three regions of Oklahoma

examined as follows:

Main line of gypsum hills, second line of gypsum hills, and the Greer county region, at 125,800,000,000 tons. There are at present eight gypsum mills in operation in western Oklahoma, whose output runs from 40 to 100 tons per day. Coal is the fuel used, the greater part coming 200 to 250 miles, the price at the mills ranging from \$4 to \$6.50 per ton. There are two problems to be solved in connection with the gypsum plaster industry in Oklahoma, namely, available gypsite deposits and cheaper fuel. The plaster men believe that the greater part of the gypsite has been located and that the supply will soon be exhausted, but Prof. Gould says there is geological reason for believing that there are vast undiscovered deposits of gypsite in each of half a dozen of western that he is greater than the greater that he is greater than the greater than the greater than the greater that he is greater than the greater tha counties, and that he is convinced, after ten years of careful study, that, at a conservative estimate, not 10 per cent. of the available gypsite deposits have yet come to light.

Mr. Asquith's Style.

One of the qualities which account for Mr. Asquith's success is the sense he always gives one of perfect mastery of ways gives one of perfect mastery of himself and perfect mastery of his subject. However big the task which confronts him, you see him always the same—calm, easy, without haste, without hesitation. Like all great masters of style whether with the configuration of sound on their delicate scally covering and searching for sound vibrations by protruding the wonderfully sensitive tongue, which is filled with thousands of microscopic nerves. Their sight is very keen in distinguishing moving objects.—St. Nicholas. style, whether with the pen, the pencil, or the tongue, he deceives you by that perfection of art which is the best concealment of art.—P. T. O.

STANDARD OIL ESCAPES FINE

COURT OF APPEALS REVVERSES DECISION RENDERED BY JUDGE LANDIS.

FINE EXCEEDS THE CAPITAL.

Parent Company of New Jersey, Not Under Indictment, Is Made to Suffer.

IS CALLED STRANGE DOCTRINE.

CHICAGO, Ill., July 22.-By unanimous opinion of the United States circuit court of appeals for the Seventh district, the famous case of the government against the Standard Oil company in which the latter was fined \$29,240,000 by Judge Landis in the district court must be retried.

The court of appeals differs with the trial court on three vital points, holding that Judge Landis excluded evidence for the Standard Oil company of Indiana, which should have been admitted to show proper intent in the rate the company paid on oil; that he erred in considering each car lot a separate offense; and that in imposing the maximum fine for a first offense he abused the discretion vested in his court.

Fine Exceeds Capital.

It is strange doctrine, says the opinion, where under a million dollar corporation such as the defendant—the Standard Oil company of Indiana—may be fined twenty-nine times the amount of its capital stock in order to punish a defendant not over under indistrent defendant not even under indictment. By this latter is meant the parent company, the Standard Oil company of New Jersey.

Expect Early Retrial.

News of the decision spread like a prairie fire through the federal building, reaching the office of United States District Attorney Sims with unwelcome speed. He held a hurried conference with his assistants who had aided him in the prosecution before the district court, after which he said:
"All I can say now is that what has

happened was not expected. However, we shall make the best of it. Undoubtedly there will be an early retrial of the

Defendant's Counsel Happy.

John S. Miller, Alfred D. Eddy, Moritz Rosenthal and Chauncey Martyn, who did the active work in defense of the oil corporation, gathered in a happy group in the courtroom after court adjourned. "We are free to confess that the decision is gratifying to us," said Mr. Miller, "although it is nothing more than we ex-This opinion, concurred in by Judges Baker and Seaman, was delivered here

today by Judge Grosscup who wrote the opinion. The concluding sentence of the opinion reads: "The judgment of the district court is reversed and the case remanded with instructions to grant a new trial and proceed further in accordance with this

opinion."

The trial of the Standard Oil company of Indiana for acceptance of rebates from the Chicago & Alton and other railroads was the most notable of the trust prosecutions inaugurated by the government, and the fine attending the verdict of guilty was the greatest ever imposed in the history of English

The opinion of Judge Land's was marked by bitter arraignment of the oil corporation and its officials, who were declared guilty of willful violation of the anti-trust laws and were asserted to be menaces to the prosperity of the coun-

The battle of the oil corporation against the enforcement of the gigantic fine was inaugurated at once, its attorneys in the trial, John S. Miller, Moritz Rosenthal and Virgil P. Kline, repre-senting it, while District Attorney Wilkerson made preparations for its en-

forcement. The principal points relied up by the defense were that the government failed to prove the publication of tariffs showing the lawful rate required by the interstate commerce act.

The alleged offenses of the Standard Oil company in the present case were committed before the enactment of the Hepburn bill, which according to the recent finding of the supreme court, did not repeal the Elkins law so far as previous violations were concerned.

REID IS BACKED BY BAR

Merrill Attorney Will Probably Succeed Judge Silverthorne in Sixteenth District.

MERRILL, Wis., July 22.—[Special.] -It is understod here that representatives of the bar of Lincoln, Marathon, Oneida and Vilas counties, the four counties which comprise the Sixteenth judicial circuit of Wisconsin, will go to Madison, as soon as Gov. Davidson has accepted the resignation of Judge Silverthorne, and ask that A. H. Reid of this

city, he appointed as his successor.

Milton C. Porter, who was in the field for a while, has withdrawn in favor of Reid, and it is practically assured that the latter will be the next judge, if Gov. Davidson accedes to the wishes of the people of this district.

Mr. Reid is a graduate of the University of Wisconsin and is one of the best known attorneys in the northern part of the state.

HANGS SELF IN JAIL. Hilbert (Wis.) Man Commits Suicide at Menasha.

NEENAH Wis, July 22.—[Special.]
—Using his belt to commit the deed,
Waldemar Zimmer, 65 years old, a resident of Hilbert, Wis., hanged himself in
the Menasha city jail last night. He
was a musician and well known in this
victnity. He applied for lodging at the vicinity. He applied for lodging at the jail last night. His wife refuses to provide for a burial.

How Snakes Hear.

Snakes have no external ears, but inside the head the ear bones are very crude. Snakes "hear," however, by feeling vibration of sound on their delicate working and sounding for sound

Church Within a Church. Covehithe, five miles south of Lowe-stoft, is noted for its "church within a

church," a further proof that the churches hereabout are out of all proportion to the needs of the present day population. The remains of the old church present a The remains of the old church present a noble pile of ivy covered ruins, celebrated for their picturesque beauty. Their magnitude indicates what a grand building it must have been and vouch for the former importance of this little wayside village. The present church, which is quite large enough for the very few inhabitants of the parish, is erected inside the nave of the old church, of which it does not occupy one-half.—London Globe.

DE FERENCZY IS DEAD

FAMOUS VIOLIN MAKER SUC-CUMBS TO LONG ILLNESS.

Came to America from Budapest to Make Instruments in Dry Air of Colorado.

NEW YORK, July 21 .- Baron Karoly Tomasowsky de Ferenczy, widely known in Europe and this country as a maker of violins and credited by experts with having rediscovered the Cremonese varnish, is dead at Far Rockaway from diabetes, from which he had long suffered. He was 48 years old, and is survived by a widow and one child, a daughter, Alvina.

To this daughter, a violinmaker of ability, he gave the secret of the Cre-

ability, he gave the secret of the Cremonese varnish on his death bed.

De Ferenczy, who came from a famous family of Budapest violin makers, came to this country several years ago at the solicitation of several wealthy violin enthusiasts of Denver, who believed that in the dry air of that section it would be possible to get excellent results in the making of instruments. The in the making of instruments. The project met with considerable success, some of the new instruments bringing high prices, but the altitude and rarified air that was such an aid to Ferenczy insofar as his art was concerned, was too much for his constitution and was too much for his constitution and after several months spent in an endeavor to become acclimated, he was forced to return to the coast.

Several months ago his condition became such that he had to go to St. Joseph's hospital, where he died.

LEPERS ARE THANKFUL

UNFORTUNATES GLAD TO SEE AMERICAN FLEET.

They Have Not Forgotten Their Patriotism and Are Glad They Are Under "Old Glory."

HONOLULU, July 21.-The battleship Minnesota will remain behind when the rest of the fleet sails for Australia awaiting the mail for the fleet which

will arrive on the Virginian. The crew of the Nebraska, officers and men, have passed the bacteriological examination and the whole 950 have been released from quarantine restrictions. The ship is also released. Nine suspects were transferred to the hospital ship Relief.

A letter received from Brother Dutton at the leper settlement, on the Island of Molokai, expresses the thanks of the unfortunate residents on the island for the opportunity given them to view the fleet as it passed on the way here. The missive is addressed to Admiral Sperry and Gov. Frear, and says that the in-herent patriotism in the inmates of the hospital has been brought to the sur-face and that they salute Uncle Sam

"Our people are becoming better acquainted with Uncle Sam," says the letter, "and better satisfied to be Americans."

WIPE OUT WINE ROOMS.

Minneapolis Civic Federation Takes First Step to Better Saloon Conditions.

MINNEAPOLIS, Minn., July 21 .-After several weeks of quiet preparation the Minneapolis Civic Federation has begun active operations and at the regular meeting yesterday it was announced that the first step toward wip-ing out the wine room evil was taken in the arrest of Thomas Lally, at one time president of the Liquor Dealers' association, and one of the best known sa-loonmen in the city. His place of business is on First avenue, between Third and Fourth streets.

DOWIE'S VOICE AGAIN.

Phonograph Repeats Address of the Zionist Leader to Crowd in Tabernacle.

WAUKEGAN, Ill., July 21.—[Special.]—At Zion City last night Dowie's woice was heard for the first time in pub-Its since his death, a phonograph repeating one of his addresses to a gathering in Shiloh tabernacle. Voliva raised \$2500 to pay on the tabernacle purchase. Sunday, by using Dowie's old barrel scheme. Overseers Lewis and Bryant have deserted the Dowie faction at Zion City, which is now but a mere handful.

NEW FREAK INSURANCE

New York Leaseholders Take Out "Black Hand" Policies as Bomb Protection.

NEW YORK, July 21.-A new form of freak insurance, recently issued by Lloyds of London, is "black hand" insurance, which has recently been taken out by leaseholders in New York diswhere outrages have been most frequent, for the reason that ordinary fire insurance is no protection against damage from explosions unless it is fol-lowed by an actual fire.

ALFRED G. IS LC ER.

Offers Horses for Sale in England, but "Gyps" Get Best of Him for \$15,000.

NEW YORK, July 21 .- The arrival of Alfred Gwynne Vanderbilt's horse yesterday on the Atlantic transport company liner Minnehaha developed the fact that the famous whip was made a victim of English "Gyps" during the sale of his coach horses at Tattersalls, London. His loss in the transaction was in the neighborhood of \$15,000.

A special from Wilkes-Barre, Pa., says: 'Assured by President Farrell of the New York league that they will receive their salaries in full, the J. and G. players, who yesterday refused to play at Binghamton because they had not been paid for some weeks, agreed to continue playing. Farrell also assured them that the franchise will be transferred to responsible participal to the property of the prope ble parties. It is expected it will go to Auburn, N. Y., and that J. Louis Bacon will be deposed as manager of the team. Jack Fifield, the pitcher, was appointed as an umpire by President Farrell."

MIGHEST DUTY OF THE COURT.

By William H. Taft. The highest function of the Supreme Court of the United States is the interpretation of the constitution of the United States, so as to guide the other branches of the government and the people of the United States in their construction of the fundamental conduct of the Union.

Take it all in all, in the discharge of this function it is the most novel, W. H. TAFT. as it is in many respects the most important, branch of the government. It is the background of the whole government. It is the balance wheel in its car of ultimate decision as to the respective jurisdiction of the various

departments of the national government, as to the boundaries between State and national control, and as to the guarantees of life, liberty and property of the individual.

The Supreme courts of the different States exercise a similar, but, of course, a less important, jurisdiction within their respective States. It is to be presumed that the Supreme Court, in the course of its hearings on general law, will lay down principles with sufficient clearness to enable the inferior courts to dispose of similar cases before them with reasonable accuracy.

LOVE SOLVES ALL PROBLEMS OF LIFE.

By Leo Tolstol.

long after Mr. Harris became a mem-

ber of the staff of the Constitution, Sam

series of negro dialect sketches, had re-

signed. The management asked Mr.

Harris to continue the column. Mr.

"The Uncle Remus" series met with

You live-that is, you are born, grow, mature, grow old-and then you die. Is it possible that the aim of your life can be in yourself? Certainly not. How then? man asks himself. What then am I? And the only answer is: I am something that loves; at first it seems something loving only itself, but one need only live a little and think a little to see that to love the self which passes through life and dies is impossible and purposeless. I feel that I ought to love, and I love myself. But loving myself, I cannot but feel that the object of my love is unworthy of it; yet not to love is impossible for me. In love is life. What is to happen? To love others one's neighbors, friends, and then those that love us? At first it seems that this will satisfy the demands of love;

secondly, they change, and above all, they die. What is one to love? The only answer is: Love all; love the source of love, love, love, love God. Love not for the sake of the loved one, nor for one's self, but for love's sake. It is only necessary to understand this, and at once all the evil of human life disappears.

but all these people are in the first place imperfect, and,

Let us devote our lives to strengthening love in ourselves, and let us allow the world to go as it will; that is, as ordained from above. Let us act so, and believe

ent day. Mr. Harris was known in of "Uncle Remus."

which occurred recently at his home in Harris consented with much concern,

and he became famous as a delineator instant success and opened the gate of

of negro character. He was born in recognition for their young author.

Eatonton, Ga., Dec. 9, 1848, and it They tickled the fancy and excited the

JOEL CHANDLER HARRIS.

"UNCLE REMUS" DEAD.

Joel Chandler Harris Passes Away

in Atlanta, Ga.

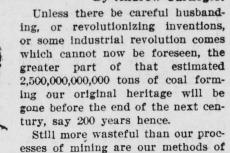

The death of Joel Chandler Harris,

the world of letters as "Uncle Remus,"

me we then shall receive the greatest blessedness for ourselves and do all the good to others it is possible for ns to accomplish. Only, love everyone; love not only those who are affectionate, but love all, especially those who hate—as Christ taught—and life becomes an increasing joy, and all the questions which men so vainly seek to solve by violence will not only solve themselves, but will cease to exist.

WE MUST SAVE OUR COAL.

By Andrew Carnegie.

esses of mining are our methods of consuming coal. Of all the coal burned in the power plants of the country, not more than from 5 to 10 per cent of the potential energy

is actually used; the remaining 90 to 95 per cent is absorbed in rendering the smaller fraction available in

actual work. There is at present no known remedy for this. These wastes are not increasing; fortunately, through the development of gas-producers, internal-combustion engines and steam turbines, they are decreasing; yet not so rapidly as to affect seriously the estimates of increase in coal consumption. We are not without hope, however, of discoveries that may yet enable man to convert potential into mechanical energy direct, avoiding the waste.

DON'T BE AFRAID OF SENTIMENT.

By President Wilson of Princeton. A great many men are ashamed in this some-

what artificial age to exhibit sentiment. They boast themselves practical, hard-headed men, who face the stern facts of life, and do not deceive themselves regarding their character. I know of men, for example, who attend church services with a sort of excuse to their friends for the habit, saying that they go because their father's pew is there; they are expected to be there; they always went with the old people. They have established the habit. Remove the cover

and you will catch the gleam of water, where the real springs of sentiment bubble in the life of that man. And it is from these springs that they draw their refreshment and retain their power and are kept active

upon the field of affairs. When the springs of sentiment dry up, then the world of affairs is closed and gone for-

WATCH THE LIPS.

eves and not their mouths."

a suburb of Atlanta, Ga., removed one but he insisted that his sketches be The inventor with whom he happened of the best known writers of the pres- furnished to the readers under the title to be talking made the comment that the professor probably meant tongues when speaking of mouths.

"No, I didn't mean tongues. I meant mouths," the professor rejoined. "I mean, if you want to be scientifically accurate, the action of the lip muscles. There's nearly always, in a moment of excitement, of exultation, depression or emergency, a telltale movement on their part which can't be guarded against Why can't it be guarded against? Because it is so largely unconscious. Most of us from our youth up have been trained to use our eyes and to use them in such a way as to conceal our emotions. It's different with the mouth. Perhaps we haven't advanced far enough to do two such important things at the same time. Anyway, the fact remains that we don't do it.

"If, for example, I have reason to as he wants. What I watch for is something significant in the region of his face below the nose. If there is no with the Minnesota building. change in the expression of his lips I am disposed after all to believe him. LOWERS HER RECORD. But if there is the least trembling or twitching, the least exhibition, let us Lusitania Is Now Only Thirty-two Mincall it, of nervousness-well, then, I have my doubts."

"I suppose," observed the inventor, 'that while that fact does not explain the wearing of the mustache it shows that the mustache has uses."

"It does," returned the professor, "but you must remember that the mustache, as a rule, doesn't obscure the lower lip. And the lower lip, if you'll take the trouble to notice, is, if anything, more distance, 24.32 knots an hour. follows suit, as it were."

"Well, well," said the inventor, fingering his mustache.-New York Press.

A Vacation. A certain scientist in the service of Uncle Sam at Washington is said to be a hard taskmaster to both his official and his domestic servants.

Being detailed once to accompany a scientific expedition on an extended cruise, the scientist is said to have unbent a trifle in communicating the news to his personal attendant. "Henry," said he, "how would you

like to go with me around the world?" "Do we go from east to west, sir?" sked the man. "Yes."

"And we lose a day going that way, lo we not, sir?" "We do."

"Then, sir, I should like very much to go. It would give me a day off."-

If only girls attend, it's not a party.

VAN RENSSELAER

YOUTH WHO THREATENED DISTIN-GUISHED MOTHER IS SENT TO HOSPITAL.

BLACKMAIL CHARGE IS MADE.

He Wants \$5000 and Says if He Blows Mother's Head Off He May Still Live to Get It.

PARENT IS CALLED A "PEACOCK."

NEW YORK, July 21.-Threatened by ner own son with death unless she immeliately sent him \$5000, Mrs. John King Van Rensselaer, once social arbiter of New York society and a member of one of its oldest and most exclusive families out now living in retirement at Newport, vesterday caused the arrest in this city f her son, John A. Van Rensselaer. After spending a night in the Tombs, Van Rensselaer was today taken before Magistrate Corrigan on the charge of threatening to do his mother bodily harm. A. Russell Peabody represented Van Rensselaer at the hearing. After discussing the case with the magistrate, Mr. Feabody said he did not believe there would be a question of bail, but one of nedical observation. He added that he was not appearing in the case as an atvan Rensselaer. Van Rensselaer was committed to the psycopathic ward at Belleview hospitals for observation.

Calls Mother "Peacock." In causing the arrest of her son, Mrs. Van Rensselaer placed in the hands of the police a letter from the young man, which is a bitter arraignment of his mother's mode of life and of the system

mother's mode of life and of the system of society which prevails in New York's "400." The letter reads:

I have just seen Lawrence Lee, and I am given to understand that you will pay \$30 per month for my board if I will go 300 miles from New York, and that I must have your written consent to leave the place that you may select.

Did it ever occur to you that I have an absolute remainder interest in Aunt Frances' estate's securities, and that by blowing your head off my wife would have an income sufficient to support her?

Speaks of Harry Thaw

Speaks of Harry Thaw. I will take that course if necessary and upon my head will rest the consequences. (Thaw is still alive, maybe I will be.)

In my case my wife, God bless her, will benefit by your demise, even if I don't.

I have seen many disagreements and much suffering in my life and I must say that most of it is due to you. A selfish peacock, whose name in these times amounts to nothing, and who is almost, if not entirely forgotten, in circles once tread. to nothing, and who is almost, if not entirely forgotten, in circles once tread.

I am now in no humor to be trifled with, and I wish to go on record that I will take action on sight, unless something is done at once. You gave Harold \$6000 and a trip to Europe. What have I had for being honest?

J. A. VAN RENSSELAER.

I want you to raise on that fancy name of yours \$5000 for me. If you are such a great lady, make good; if not, keep out of my sight. I can raise cash enough yet to go to you wherever you are, and I have a good name.

Prisoner Makes Statement.

Prisoner Makes Statement.

Admitting to Lieut. Manion that he had written the letter, Van Rensselaer, according to the police, made the following statement regarding the demand on

his mother:
"I gave her \$1000 when she was on professor, "how people can control their her uppers, and now I wanted \$5000 to go into the brokerage business. was in business before I had a good friend who used to loan me any amount I wanted up to a couple of hundred thousand. This friend's mother wanted thousand. to get into the Colonial Dames of America, of which my mother was a member, but my mother blackballed her. Then soon after that I went to this friend again for another loan, but he told me if my mother was too good to associate with his mother, he guessed his money was too good for me."

The Phonograph and the Parrot. The training of parrots has been greatly aided by the introduction of the phonograph, the instrument now being used to repeat a given phrase for hours each day to a roomful of the noisy croakers until they have mastered it. The value of the room of

rious kinds of birds require various methods of training; the bird experts develop specialties and win fame in their exclusive fields for their accomplishments. Finally, the whole immigration of 400,000 is disposed of and distributed throughout the country, and the cycle is begun for another year that will bring something to the utilitarian who raises practical fowls for the market, and more sportsman who seeks game to shoot .- Rochester Post-Express.

TO DELIVER MAIL ON ALL WARSHIPS

CONGRESSMAN STAFFORD'S SCHEME WILL SOON BE CARRIED OUT.

TO BETTER THE SEA SERVICE.

Heretofore Pouches Have Been Rifled or Delivered Into the Wrong Hands.

POSTMASTER ON EACH VESSEL.

WASHINGTON, D. C., July 22. [Special.]-Arrangements are now being perfected for the installation of a postoffice on every ship in the United States navy, authorization for this action having been made at the last session of able and well meaning people," continued the President, "who believe in have abling act. Enlisted men on each ship may be appointed as postmaster and assistant postmaster, the regular pay to be increased \$500 and \$300 a year, respectively. They will be required to give a bond of \$1000.

Work of Stafford.

One of the many things which Representative Stafford of Milwaukee accomplished during the session of Congress just closed was for a "sea postoffice" on every war vessel of the United States. This was a move made necessary because under former regulation no particular persons had direct authority to receive or distribute mail sent aboard ship. The system in the olden days re-sulted in a scramble for incoming mail when a vessel touched a port and some times in the confusion resulting the mail was either lost or fell into hands to whom it was not intended. In the matter of outgoing mail the custom has been to detail a couple of "jackies" to take the mail ashore and numerous complaints came to hand that such mail failed to reach its destination.

Losses Never Solved. Whether it was rifled by the American sailors or was lost or stolen at the port where it was mailed is an open question. However, to prevent further loss, Mr. Stafford incorporated a paragraph in the postoffice appropriation bill which provides for a "sea postmaster" aboard each war vessel of the United States.

GOMPERS OPENS BLAST

He Declares Republicans Refused to Hear Labor's Appeal for Anti-Injunction Plank.

WASHINGTON, D. C., July 22. President Gompers of the American Federation of Labor in a 6000-word editorial which will appear in the next issue of the American Federationist, the mouthpiece of the organization, sounds the first blast of the conflict which he intends to wage for the purpose of influencing organized labor to support the Democratic

presidential ticket.

Much of this first installment is his tory. Mr. Gompers reproduces the planks which he submitted to the Republican convention at Chicago and then quotes the planks which that convention adopted on the subjects involved. In co menting upon the results obtained Mr.

Gompers says:

At a glance the plank adopted will be seen to be a flimsy, tricky evasion of the issue. It is an indorsement of the very abuse against which labor justly protests, and would, if enacted by Congress, give statutory authority for the issuance of injunctions in labor disputes, an authority which does not now exist. It is a pro-injunction, not an anti-injunction declaration. Gompers says: The planks adopted at the Denver con-We believe that the whole mass of the workers of the country will respond in hearty sympathy with the Democratic party in the coming campaign as a result of its action in the labor planks of the platform. They will be of practical benefit to the workers

We have no hesitation in urging the work to support the party in this compaign which has shown its sympathy with our twongs and its desire to remedy them and to see that the rights of the people are restored.

MRS, STETSON TO WED.

Engagement to Portuguese Count.

PHILADELPHIA, Pa., July 22.-Mrs. Elizabeth Stetson, widow of the late John B. Stetson, millionaire hat manufacturer of this city, last night

It is whispered that the ceremony will probably follow immediately, perhaps within a few days, as Count Eulalia is said to have already secured a dispensa tion from the Roman Catholic authorities, Mrs. Stetson being an Episcopalian. What is even more to the point is the rumor that the Count of Santa Eulalia is shortly to be promoted to the post either of consul at New York or minister at Washington.

AMERICAN CATTLE DEMANDED. Belgian Butchers Declare Cutting of Imports Raises Meat Prices.

ANTWERP, July 22 .- One thousand butchers met in congress here yesterday to discuss the meat situation in Belgium and passed a resolution to the effect that restrictions on the importation of American cattle were responsible for the present high prices of meat. They demanded that these restrictions be abolished. No less than 80,000 head of attle are imported into Belgium every

The Boston Americans have recalled

WANTS A NAVY THAT CAN HIT

BUT IF WAR COMES, SHIPS SHOULD "USE HAMMER."

WE MUST PRESERVE PEACE.

Protection of Monroe Doctrine Necessary -President Talks This to Naval War College.

NEWPORT, R. I., July 2.—President Roosevelt, after an adventurous trip in the night in a fog from Oyster Bay, durwhich his yacht, the Mayflower, ran down and sank a lumber schooner, rescuing the crew of six men on board, arrived at 9:45 a. m. today, and later in the afternoon, at the naval war college, addressed a conference of nearly 100 naval officers representing all branches of the service, to consider plan for new American battleships.

President Roosevelt made a stirring

appeal for a hard hitting navy. "I want a first class fighting navy or no navy at all," said the President, "be cause a first class fighting navy is the most effective guarantee of peace this

nation can have.
"There are always a number of ami-

Peace Comes First.

"I hope this nation will never have to hit. We should do everything that hon-orably can be done to avoid trouble. But when we do go to war, that war is only excusable if the navy is prepared to hammer its opponent until he quits fighting. And you can't hammer your opponent if you wait for him to come to the coast and hammer you first. For the protection of our coasts we need fortiprotection of our coasts we need fortifications so that the navy may be left free to stretch out and destroy the enemy. That is its function."

President Roosevelt declared that even if the United States had no island possessions, the need for an aggressive naval policy would still be present. "The Monroe doctrine," he declared, "had al-most fallen into disgrace and contempt until the American nation began to build up its navy.'

Can Restrict Immigration.

Discussing the question of emigration, the President declared that the Amer ican people have a right to say who shall

come and dwell among them.
"It is our duty," he declared, "to exercise that right in a way calculated to provoke the least friction. If we choose to say who shall come, however, we must

be in trim to uphold that right in case anybody challenges it."

President Roosevelt declared that the cruise of the battleship fleet around South America was the most instruction. tive object lesson ever offered of the reality of the Monroe doctrine.

Sees End of Bureaus. NEW YORK, July 22 .- Henry Reuterdahl, the marine artist, who has been the foremost critic of the navy bureau system, says he is convinced beyond a doubt that President Roosevelt's visit to

naval war college today means the end of the entire bureau system. "The Newport conference means that the navy is passing through a transition

just as important as the transition from sail to steam," said Mr. Reuterdahl.

"For years the men in control of the policy of battleship construction have been officers schooled in the days of the sailing ship, who learned modern mano'warring in the old tin pot squadron, They have had little or no experience board the present type of modern

VETERAN EDITOR DIES.

Charles Holt Reported First Constitutional Convention and Legislature in Wisconsin.

Rapid River defeated the Soo Togs Saturday in a splendid pitchers battle but the Rapid River fielding was a stone wall. The Sunday's game had a large attendance from outside. Forest entered the box feeling out of condition, and in two and a half innings the Soo brought in three runs. After this Rapid

The Royal Neighbors on Wednesday evening entertained the Woodmen and a number of invited friends at the hall. Fred Baker, of Manistique, arrived Tuesday to spend a few days in Rapid River. He is in the insurance business.

A daughter was born last Friday to Mr. and Mrs. J. Chalkline, of Mason-

C. P. Carlson, of Jamestown, N. Y.

Fr. Dufort is attending the priests re-

Mr. and Mrs. Charles Wicklander left Thursday evening for Portland Ore. Lowell Boyer has taken charge

at the Madden store. Dan Perry, Capt. Jack, and H. B. Klingenberg of Gladstone came down Sunday from a fishing trip down the

The Congregational picnic was held at Garth Wednesday and a large number attended by stage. It was postponed Friday because of rain.

The school election last week was a surprise to many. For the first time in this town there was a contest; although it was unexpected, a vote of 127 was polled. The result was, Fred Darling 56, Andrew Barbeau 63. John Darrow 64, B. Buchman 66. Great excitement close. Mr. Buchman is considerably elated at this proof of his popularity.

Mrs. Julia O'Connell died Wednesday morning, aged 72, after a long illness. She was a native of Tralagh, Ireland, and had lived in Rapid River for the past nine years. She leaves two sons, Capt. Jack, of this town, and Tom, of Ballard, Wash.

Mrs. Madden and family arrived Wednesday to spend some time in Rapid

Manager Buchman has secured Menominee for this Friday, and a hot game is expected. A game has been arranged with Nahma for Sunday.

BOYS WANTED.

A few boys between the ages of 16 and 20 can find steady employment in the factory of the Marble Safety Axe

I desire to announce to the public and my former patrons that I have resumed the Gladstone Bakery, and solicit their custom.

FRED WOHL

The Question? Is, will you—not, can you? For every man or woman CAN if he or she WILL build np a cozy bank account from depositing small sums. Look about in your neighborhood and consider the men who have acquired property and are comfortably well off. Invariably their start was begun in a small way, perhaps their savings from wages. This time of plenty is your opportunity. You can start an account here with One Dollar or more, as you wish. Do it today.

3 PER CENT. ON SAVING DEPOSITS

Exchange Bank, Gladstone. W. L. MARBLE, President.

W. A. FOSS, Cashier

Appreciate

your patronage, and for that reason we try to serve you so that you will appreciate our methods. Nothing is neglected to please our patrons, to give them their money's worth, and whenever an opportunity presents, to look out for their interests.

Respectfully yours,

Weinig's

Woman and the Home.

A representative medical association, national in its scope, at a recently held convention received some startling proposals from a few physicians who have apparently worked themselves into a state of nysteria over the woman question as there was considerable talk in regard to the proper disposition to be made of superfluous women—this discourteous term being employed to designate those of the gentler sex who had failed to acquire husbands—but now the worry seems to be that the ranks of unmarried women are increasing too rapidly as a result of deliberate choice, and the present problem is how to induce the better class to become wives and mothers. The prepared to go to extreme lengths to get her back into the domestic traces. Quite naturally, but still to their credit be it said that some women physicians stoutly occasionally some newspaper tale or insisted upon the right of their sex to go in for professional or commercial life, or self-development along any desired line, in preference to wifehood, yet their elequence did not convince, and the convention broke up in a seriously troubled state of mind over the present and future dearth of mistresses and serving maids for the homes of the land.

ly come) continues to decline matrimony, and that if those who do marry have no orthodox schools, and these of course play some part in revolutionizing the production of the support herself. She will probably have much trouble to undo the work of her predecessors.

practice of medicine.

Now the wisest course is not to war with the inevitable, and those physicians who object to the voluntary single life, and outside the home work on the part of women, instead of undertaking anything so foolish as to plead for laws gage the energies of the protesting physicians. What does economic independence offer to the girl that is denied her in the married state? Does she shun matrimony because of phases she regards as wholly undesirable, or does she remain single merely as a lesser evil and not as a wholly preferable state? Until these questions are settled it is sheer waste of time to engage in academic discussion of ways and means to force women into the old social relations. Discussion and interrogation has developed the reason why girls of the tenements prefer the factory and the shop to domestic service, and just such intelligent investigation must be applied to the problem of why the majority of girls do not marry. With improved conditions it may be possible to lure all but a small percentage of them back to matrimony, but it will certainly be impossible to legislate them into it. The century is the Twentieth, and the country the United States, details the destroy come to be stated. tails the doctors seem to have overlooked.

A Club Creed. Mrs. Robert Burdette, first vice-president of the General Federation of Women's clubs, has formulated a club creed. So favorable was the impression it made when read before a Chicago club that Mrs. Burdette had to allow it to be printed upon slips of paper, to be distributed after her departure. The creed reeds: I believe in afternoon club life for

believe in evening club life for men and women together, when it does not rob the home of father and mother.

I believe that woman has no right to undertake any work whatsoever outside of the home, along the lines of philan-thropy, temperance or club life, that ot emanate from the home, and in its final and best results return to the home. Home must always be the center, but not the limit, of woman's life. I believe in equal rights in the family for father and mother, in intelligence, affection and filial respect. These the club should foster.

believe in nine-tenths of the club members doing the work and one-tenth the criticising instead of the reverse. believe in individual responsibility

for every interest of the club, mutual sympathy, and appreciation of results. I believe no woman has a right to accept a place on any committee unless she serve faithfully, promptly, intelligently, and is willing to stand by the results of her individual action.

I believe that women should have a the enlarged club life.

I believe in the value of a minute, and that thievery of time on the part of one late member from those in waiting i reprehensible.

I believe, out of consideration for oth ers, in removing the hat in all public assemblies. I believe in occupying the seat fur

thest from the aisle when there are others to come, and, for the same reason occupying front seats first. believe that club members should

restrain themselves from whispering or the rustling of skirts or papers, during

of each individual member of the club should be as sacredly guarded by all other members as are those of the fam-

ily, and that the use of dishonorable political methods in club life for women will be the death knell of pure, womanly

organization. I believe the golden rule for club women should be: Do right unto others, regardles of what others do unto

-0:0-Gentleness in Children.

That the sins of the fathers (and mothers) shall be visited upon the children is true of manners as well as morals, so absolutely are the lapses from politeness reflected in these small absorbers of the daily home influences. It is all very well to blame shortcomings shown by juveniles upon their luckless nursery governesses, but the real fault lies with mothers and fathers who leave their children almost totally to the discretion of these paid employes.

The average mother of the fashionable set consigns her infant first to the care of a wet nurse and later to a trained nurse, more frequently than not of foreign origin. In a luxuriously appointed suite of rooms or in an entire wing entitled the nursery, that child's life is watched over by attendants, who, though coming with the best of references, cannot take the mother's place, and should not be allowed to have full sway. as they undoubtedly do, the mother merely coming in as an occasional visitor to see how the small heir or heiress takes her bath, or to show her off to some interested guest. The first tooth, the first steps and the first articu-lated words are duly appreciated by class to become wives and mothers. The wise doctors could think of no better aid to the redomestication of the girl than to enact legislation to compel her to return to the ways of her grandmother, and as this preposterous suggestion was not comply derided in the convent. penly derided in the conven-would seem to indicate that the that the conduct be altered in that one medical profession generally disapproves respect, but rarely, if ever, does she of the typically modern woman, and is know her own child's worse feelings or best points, or his or her character is showing forth traits possessed by her or

ome actual experience with an unworthy hireling in the drugging or cruelty line will bring these effete rich parents to their senses, and the love that is natural, though trained to be a side issue because of society's pressing duties, will bring about a revolution in the household arrangements. The children will see their parents at more frequent inter-Perhaps physicians are to be excused for becoming excited over the defection of the female sex, which has heretofore given them the large majority of their control of the female sex, which has heretofore given them the large majority of their control of the female sex, which has heretofore given them the large majority of their control of the female sex and have luncheon with "mother" when she has no other engagements or does not expect given them the large majority of their patrons, for it is quite evident that if 50 per cent. (this being about the average made up by college graduates and the middle class from which they mostly come) continues to decline restriction. mind has expanded, what ideas of right or wrong have been instilled, how much children, or but one or two, the medical profession must suffer great loss of pattern tronage as compared with the profession must suffer great loss of patronage as compared with that enjoyed in less sophisticated times. It is also the free and independent women who largely support doctrines that make for physical well-being without the interviewed. In the first rush of reform the entire staff of domestics that have ruled in the children's quarter will be interviewed, and the nursery governess and trained nurse will be supplanted by physical well-being without the intervention of drugs or physicians trained in the to support herself. Sine will probably

It is a well known fact that nursery disputes are not looked upon by the average nursery attendants as more than Drake, Mrs. Adams is said to have takcasual happenings unless the youngsters resort to vicious scratchings, kicks and hair pullings. This at times will happen to the extent of blood bringing, even in thing so foolish as to plead for laws restraining the sex from exercising freedom of choice, should bend all their energies to aiding movements, like that instituted by the Teachers' college, for scientific training in the domestic arts and sciences—a development that is the only nope of satisfactorily solving the domestic service question. But more effective still would it be to make married life additionally attractive to women, and this is a task which may well engage the energies of the protesting physical stream of the small fry will have a grudge that will be settled in full at the next scrimmage by an extra finger bite or a shove that is purely the result of this treasured animosity. If the guardian of treasured animosity. If the guardian of the nursery were a person of intelligence and good breeding and doing her duty conscientiously, the very first evidences of a quarrel would bring instant investigation and the warfare would be nipped in the bud by setting forth plainly the right and the wrong sides and appealing to the fairness of the children. If that idea of fairness is found defective the task of properly developing it should be begun without delay, and followed up at all times, for without fairness in all games gentleness of ways can never be brought about. Children that fight unchecked or are improperly reprimanded in their own nursery from the time they can toddle will ever be ready for a fray wherever they may go whenever the butlying spirit rises uppermost.

Bad temper, selfishness, sulkiness, slyness and greediness all influence the expression of the child's face. The scowl, the shifty eye, the lowering brown or animal-like stupidity are all unpleasant to see in children, and these marks will ever be left unless proper measures are taken to put gentleness in their place.

First and foremost among the duties

of parents to offspring is that of cultivating gracious and kind ways, instilling the strictest regard for truth and sup-pressing every tendency to the "better-than-thou" attitude so prevalent among the children of the wealthy.—New York

Seasonable Recipes.

For Sandwiches-Remember that just little mustard and cress seed planted every week from now onward through the summer will provide you with material for dainty tea sandwiches for hot days. Mustard should be sown three

days after cress.

Mayonnaise Dressing—Place the yolk of one egg in a bowl that has been thoroughly cooled, and into this stir slowly pure olive oil, one drop at a time, until it becomes the consistency of butter. You should be in a cool place while doing this, or else it will curdle. Mix together two tablespoonfuls of vinegar, one tablespoonful of water, salt and a little English mustard. Stir this into the egg and oil mixture, and it is ready to serve. Lemon juice instead of vinegar

is an improvement. Potato Salad-Peel and boil six potatoes and set aside to cool. When cold cut into slices, mix with the potatoes two onions minced very small and a tablespoonful of minced parsley. Pour French dressing over the salad, tossing and stirring gently until the potatoes become coated with the dressing. Set in

dues and pledges, and a comprehension that, as no other phase of life can be carried on without money with the carried on without money with the carried on the carried on without money with the carried on the carried on without money with the carried on the carr and pepper to taste, into a pudding dish and melt over hot fire, stirring until thoroughly incorporated. Then set in hot oven until brown on top. Serve from dish it is cooked in. This is delicious, and makes a nice dish to serve for luncheon

Cucumber Salad-Cut a slice from a cucumber and scoop out the inside, cut bits of tomato in similar size and mix the with French dressing. Return shell, put each cucumber on a plate by on lettuce. Serve cream cheese

vith this. Apple Snow-A dainty luncheon dessert is made by peeling and grating two large sour apples. While grating sprinkle with one small cup of powdered sugar to club sessions.

I believe no woman should seek or use official position for self-aggrandizement, or club affiliations for stepping stones only, but that she should utilize her opportunities for the altruisms of life.

I believe the character and good name.

Keep them from turning dark. Turn into this the whites of two eggs (unbeaten), and beat all vigorously for 20 minutes. Take care to have this in a large bowl, as it beats up very stiff and light. Heap in a glass dish and pour around it a thin custard. Serve very cold. keep them from turning dark. Turn into

BEREFT.

The way is dark, O God!
Let Thy light shine
About my path, for Thou
Hast taken mine.
Give me with clearer eyes
Thy Grace to see;
And keep, until I come,
My own for me.

-Sue Fite Ramsey, in Everybody's.

NOTES OF INTEREST.

Six patients suffering from bites by as many different animals were treated at St. Mary's hospital in Philadelphia, Pa. The bites included one by a dog, a cat a rat, a kissing bug, a mule, and a par-

Alleging that she had been bewitched 19-year-old Mary Hillman of Pottstown Pa., has worked herself into a state hat is considered dangerous by her phy sicians. She will not take the medi-cines prescribed and has consulted a voodoo doctor in Reading. This doctor requires that she get some hairs from the head of the person who is supposed to be bewitching her. The person who is accused is a bald negro, and she can't get any hairs.

Warner, the 14-year-old son of Col. Robert C. Banes of Media, Pa., is confined to his home severely ill, the result of blood poisoning from the sting of a bee. He was stung on the arm by a bumblebee and in a short time all parts of his body became swellen and extreme. of his body became swollen and extremely sore. It is thought the insect had been culling honey from some poisonous

Frank Sterling's bantam hen in Pittsourg, Pa., fussed around so to rear a family he put six turtle eggs under her She swelled with pride as she felt some thing moving around under her later, the next instant was running through the yard with a baby turtle clinging to each leg.

L. R. Richards, supervisor of health of Elizabeth, N. J., says that he believes the mosquito question has never been so encouraging as at the present time, in so far as Elizabeth is concerned. He believes that no further appropriation will be needed until the fall, when, he says, \$1500 will go a long way toward effecting a permanent extermination of the pest.

Weakened by heavy rains, the walls of an old house in Main street in Richmond, Va., collapsed today. With half the house piled over and about him, Albert Pacini, a 6 weeks old baby, who went down with the building, bawled lustily from the cellar, in which he landed. He had fallen straight through two ed. He had fallen straight through two floors to the cellar.

Mrs. Lena Adams, a young wid-tw living on West Hill, Con-pecticut, had to have some one ecticut, had to have some one o help her look after her growing crops, to the haying and cut wood for next winter. Her farm hand, Charles Drake of New Hartford, faithful since she em-ployed him last May, had upset all her plans by tendering his resignation. Knowing that she couldn't get any man n advantage of her leap year privileges. The marriage took a big load off Mrs. Adams' mind, for good farm help and good husbands are very scarce.

While sinking a 3000 foot well for oil on a farm near Lenox, Wash, thirty miles south of Spokane, workmen, operating a heavy drill, encountered pebbles and wood at depths of 560 and 585 feet. The wood is in a fair state of preservation though it has the appearance of having been charred by fire. With it and the pebbles was a substance resembling beeswax.

Violently cursing, "D—n the storm."
"D—n the storm." a scared parrot was rescued from the flames of the New Carlisle, O., railroad office, which had been struck by lightning. The operator's room was full of blue flames from the telegraph switchboard when watch was telegraph switchboard when a watchman broke into the station, and the profane creams of the parrot rose above the fury of the storm. He had been the pet of an operator who was disposed vent his spleen thus when the vent his spleen thus when the wires worked badly because of bad weather onditions.

Because she wants to get the benefit of his life insurance policy, the wife of Jim Lynn, a Pueblo negro under a death sentence at Denver, for killing Sarah Price, a white girl, has asked Gov. Buchtel to commute his sentence to life implications. isonment. The woman writes that if her husband be hanged she cannot collect his life insurance, but if he be imprisoned for life she will keep up his policy and eventually benefit by it. Gov. Buchtel has refused the strange request.

Because Indiana cast a solid vote against Secretary Taft, an enlisted man in the United States navy, stationed at the Norfolk navy yard, will be paid a cigar by Secretary Taft. Several days ago, when down at Norfolk, Va., to witness the monitor Florida test, Secretary Taft made a wager with Seaman Burns of the Florida that he would get votes from every state in the union at the Chicago convention.

Harry Taylor, 13 years of age, of Fort Salonga, L. I., scratched a mosquito bite on his left cheek with his finger nails. He died of blood poisoning. With in an hour after he had scratched the bite the flesh began to swell. Physicians were called, but were unable to check the infection.

As two fashionably dressed women Mrs. John Collins and Mrs. James Harper, were saying goodbye on the gang-plank of the steamer Columbia at Burlington, N. J., and leaned toward each other for the last kiss, the baby daughter of one of the women slipped from her arms and dropped into the riv-A deck hand dropped from lank, swung by one arm from a beam of the wharf, and seized the dress of the baby as she rose to the surface.

Capt. Edward Rabey, commander of ne of the small steamers at the quaranne station on the Staten island ied in a Staten island sanitarium from ydrophobia. New York physicians are onvinced that his death was a direct esult of an attack made upon him by dog nearly five months ago. The wound made by the dog's teeth was slight, and Rabey had no thought that any serious esults might follow.

A small but furious riot occurred at Nanticoke, near Wilkes-Barre, Pa., when a number of men and boys who had paid to see a side show performance of a much advertised "lady dancer" discovered that the dancer was a man attired in pink fleshings stuffed with straw to imitate feminine curves. Indignant at the deception, they swarmed on the stage, stripped the man to the skin, and beat him, while the employes, after cutstage, stripped the man to the skin, and beat him, while the employes, after cutting the tent ropes and letting the canvas fall on the rioters, cracked the heads as they appeared under the canvas. There was a spirited fight for some time, in which employes, the dancer, and spectators were badly bruised.

Fritz Weber, a grocer in Bloomfield, N. J., sold eleven cents' worth of cheese a woman customer. A few hours lat-

er the woman returned to the store and asked Mr. Weber if he had lost a diamond ring. He replied that he had not, for he never owned one. The woman for he never owned one. The woman then produced a ring set with three glistening stones, which she said she had found imbedded in the cheese he had sold her. She was happy when told that the grocer did not own her find, which, she said, would enable her to take a needed vacation. It is believed the ring, which is valued at \$1000, got into the cheese at the factory. Weber could not be induced to give the name of his lucky woman customer.

of his lucky woman customer.

One of the cows in the herd of Gus Daniels at Waterbury, Conn., went sun mad, jumping fences in the blackberry belt, chasing the other cows and a timid bull and winding up in the pantry of the house, which she entered through the open door of a back kitchen. She lay exhausted for a time, and when her fury was over the cow devoured a batch of newly-baked bread and an angel cake which Mrs. Daniels had just made for raspberry supper of the Temperance

The Francis Buttrick estate has turned over to the city of Waltham, Mass., the sum of \$10,000 which is to be devoted to the "silent poor" of the city. By the provisions of the will of the late Francis Buttrick there was set apart the sum of \$10,000 to be used by the city to support the silent poor. The word "silent" has a significance and is not to be associated with what might be termed the poor of the city. It applies to the man or woman who in straitened circumstances suffers in silence. noney is now in the possession of the city treasurer, where it will remain awaiting action by the city. The "Si-lent Poor Fund" will become operative the first of next year.

A street car on the Tower Grove line n St. Louis was stopped for four minutes Thursday afternoon to give the conductor and the passengers a chance to

get over a sneezing fit.

The car was going south and was filled with shoppers. Conductor John Burns took a fare from a stout woman near he front. "Give me—a choo!" she said.
"What's that, a choo?" answered the

PHOSPHATES IN THE PACIFIC. The Richest Beds Ever Found Among the Islands Now Being Worked.

It was thought a few years ago that all the phosphate and guano beds of the Pacific islands after yielding millions of dollars worth of fertilizers were at length exhausted. This view has been

changed by new discoveries.

The largest phosphate industry that the Pacific ever saw is now in progress on two neighboring islands, the German island of Nauru, the most southern atoll of the Marshall group, and the British island of Banaba. Hundreds of islanders as well as Chinese and Japanese laborers are working in these phos phate diggings, and though the industry

rock and in facilities for shipping it. The beds in these two islands seem to be similar in the quality of the rock, and though their thickness has not yet been ascertained the quantity of phosphates is enormous. Numerous borings have been made all over Nauru, which com-prises about 5000 acres. These borings were not meant to ascertain the total phosphate content, but merely to determine if there was enough of the rock to pay for the erection of expensive

They were sunk, therefore, only depth of ten to fifteen feet. The Germans report that under the superficial earth the entire 5000 acres are covered with phosphate beds to a depth of at least ten or fifteen feet, and they do not know how much deeper the beds may go, for they have not explored lower levels.

They add that it will take some generations to remove the phosphates already revealed. The two companies, German and British, that secured concessions to mine the rock, have joined their interests and are working together. The outside public has nothing to with their enterprise except to buy the

When the German flag was raised over Nauru, twenty-two years ago, the 1500 natives had no relations with the whites except to sell their cocoanuts for brandy and wretched firearms supplied by two or three unscrupulous traders. The Germans stopped this trade, was long before the real wealth of the little island was discovered.

Now a great transformation has come. Large steel framed buildings in which the rock is prepared for commerce have been erected, an iron pier has been extnded out into the sea beyond the breakers, and lines of steel tracks lead down from the mines to the pier. But the rock is as yet taken out to the anchored steamships in small boats and the Germans have little hope of discarding this primitive method. They say the surf runs too high for ships to tie up at a landing wharf .- New York Sun.

The Reductio ad Infinitum.

The late John Lambert, the Philadelphia artist whose blindness, brought on by the dazzling sunshine of a Spanish summer, caused his death through grief, was a portrait painter of rare talent. "Lambert," said a member of Philadelphia club the other day, a realist. His portraits were true and unflattering. It annoyed him tremendously to be asked to make an ugly woman beautiful—it was the same thing, he used to say, as being asked

"A Spruce street matron sat to Lambert once. At the end of the third sit-ting she professed to be quite satisfied with the progress of the work. "'All but the mouth,' she said. 'Please make it small and curved. I know it is a straight, long mouth, really just as you have drawn it, but in the portrait I want you, if you will, to make it very tiny. Will you?" "'Certainly, madam,' said Lambert. 'I'll leave it out altogether if you wish.'"—Philadelphia Record.

German Population Statistics.

Official compilations quoted by Consul General Richard Guenther of Frankfort record the number of marriages which took place in Germany during the year 1906 at 498,990, of births 2.084,739 (including 62,262 children stillborn), of deaths 1,174,464. The birth rate averages about 34 per 1000 of the existing population. Of the deaths, 374,636 were nfants under one year. Germany's population increases at the rate of about Germany's 900,000 per year, the result of excess of births over deaths. The loss by emigration has been very slight in recent years.—New York Times.

THE OLD-TIME REFRIGERATORS. The Spring Houses of the Ozarks and Their Many Uses.

"You do not need to go far out of St. Louis to find the old-time spring house," said a gentleman connected with one cf the western railroads.

"The prime requisite of a farm in the early days was water, and nobody would buy a section of land anywhere in the Ozark region unless it was provided with a spring. The house was usually located as near the spring as convenience sug-gested, and then after the home was secured the next step was to build a spring house. The walls were made from two to four feet thick of any rough stone that happened to be handy. The door was of heavy oak boards and fastened with a stout padlock. Inside the house three sides were usually fitted out with shelves to hold the great crocks out with shelves to hold the great crocks of milk, jars of cream and butter, and usually the spring bowl was excavated so as to form a pool having a uniform depth of three to six inches. In this the choicest dairy products were placed in order that they might be coolest, while overhead stout nails or hooks were fastened to the rafters to support which at the temperature of forty-five degrees or thereabouts would keep fresh many days.

"Rats and mice were almost unknown

about the spring house, but small snakes and half-grown frogs were numerous, and when the country maid noticed an unusual commotion in the jar of milk she was handling she was not at all surprised or frightened either when a water snake slipped out of the jar and disappeared Nor was the family alarmed when the head of a frog appeared in the milk pitcher at breakfast. The pitcher was promptly emptied into the pigs' trough. and the frog, if not devoured by the pigs, made a bee line for the spring branch. Nobody was blamed, for everyone knew that the covers of the jars did not fit and that frogs and snakes were to be expected in a spring house.

"These old-fashioned refrigerators are

everywhere to be seen in the valleys of the Ozarks and fulfill the same purpose that they did when Missouri was a territory."—St. Louis Globe-Democrat.

in His Hatred.

THE MUSIC HATER. And the Great Things That He Misses

What a puzzle music must be to those unfortunate people, stricken with spiritual cecity, to whom the art is no more than so much sound and fury, signifying nothing. They know that to others it constitutes a whole world of experience, yet are themselves excluded from that world by an insuperable barrier. They must take it on faith, as the color-blind must take the rainbow and the sunset. If they are honest with themselves,

they will admit and lament this defect of sense, accepting the unavoidable, gazing wistfully at the walls that separate them from a realm of whose glories they know from trustworthy report, but into which they may not enter. Some-times they are not honest with themselves, averring the very existence of the realm to be a fable, and those who claim its franchise to be self-deluded, finding realities in what are but vain imaginings. They allow music to be sound more or less agreeable, but they stoutly deny, although in the face of an overwhelming mass of testimony, that

t has any spiritual meaning.

The province of music is the entire motional and spiritual life, and the ntellect, although a necessary philoophical concept, is no more to be caught by itself than those equally necessary abstractions, the perfect pendulum and the economic man. Science get Kepler's spiritual exaltation in contemplation of his laws of planetary mo-tion, and we may also recall what Abt Vogler thought about the whole matter:

The rest may reason and welcome, 'Tis we musicians know.

What are "the substantials of life?" an art, it is a potent influence upon of 45 degrees or thereabout would keep character, and it is of the very essence fresh many days.

as poetry is more than words printed in black ink upon white paper, the character of music as an art is beyond cavil, and any likening of its effect to that and any likening of its effect to that of food upon the palate is supremely ridiculous. There are many, indeed, who would go so far as to call it the highest of the arts, holding with Pater that every other art "constantly aspires toward the condition of music," which is "the true type or measure of perfected trough, and the frog, if not devoured by a trough, and the frog, if not devoured by the property of the

SIMPLIFIED MEN'S COSTUMES. When Use of Powder and of Snuff Boxes Died Out.

The French revolution had its effect upon the fashions of 1800, as well as upon matters of more weighty import, the tendency being greatly to simplify costume. Young men in England adopt-ed the short coat, light waistcoat and pantaloons inaugurated in Paris by a certain set who affected to despise the old court fashions.

The use of powder, made more expen-

sive by taxation, quite died out and short hair became universal. Trousers and Wellington boots, at first worn only by the military, were adopted by civilians about 1814, and the dandy of the early Victorian era wore his tightly strapped down. He also prided himself on his starched collar, which had gone out of favor under George IV..

who preferred a black silk neckerchief or stock. The snuff box vanished and the characteristic ornament of the age was the bunch of seals hanging from the watch chain. Various modifications took place from time to time during Queen Victoria's long reign, but the form of men's dress practically remained unaltered. The knickerbockers and tweed suit of the country gentleman are of compara-tively modern date, as well as the wideawake and cloth cap.-English Illustrated Magazine.

Pension Standard Employes. A New York dispatch says: The defense

now being put in by the Standard Oil company in the action brought by the government to dissolve the New Jersey charter of the concern has developed several interesting facts, among that a system of pensions is in force among the Standard's employes. William R. King, the general sales agent for the oil company in New York and the New England states, was called to the stand at the opening of yesterday' session. He gave testimony generally contradictory to the evidence produced by the government at Albany some time ago, which indicated that the Standard

employes had used unfair methods to kill off competing dealers in New Eng-land and this state.

The pension scheme was brought out at the close of the morning's testimony.

"Do your employes leave you often?" asked Attorney Rosenthal. sons while the "Few resign and few die," replied meals.—Tit-Bits.

Mr. King. "We have a pension system applicable to all of the 1638 employes

in my department.
"When a man is 60 and has been twenty years in our employ he may re-tire, and for ten years get half of his average salary for the past ten years. After that period he gets 25 per cent. of the average salary for the remainder of his life. If at 65 an employe wishes to retire he may do so, receiving 25 per cent. of his last ten years' average salary for life."

IMPRISONED EGYPTIAN WIVES. Incidents of Mohammedan Life on Country Estates.

Some of the old-fashioned Egyptian squires who have been settled on their estate for a generation or two and farm their own land are much looked up to by their poorer neighbors and exercise a good deal of influence. They have many of the characteristic qualities which be-

long to their condition.

I became acquainted with a patriarch of this kind who was an estimable old gentleman. He lived in a large, whitewashed, untidy old house, with big bare rooms on the ground floor and latticed apartments above in which his woman-kind lived. He told me, by the way, that his wife had never been downstairs-or set foot outside the house, had never, in fact, moved beyond the confines of her second-story prison for twenty-five

Merchants, tradesmen, officials like to invest their savings in real property. I met a young clerk in one of the public offices in Cairo who had been educated at an American mission school and spoke English well. He was three and twenty and, of course, married and a parent. He told me that he had saved enough out of his salary to have bought a small estate in the delta. His wife and children and his mother-in-law and an uncle lived there and managed the farm, and he went down there himself during the long summer vacation when most of the Cairo

offices go to sleep.

Everybody, indeed, in an Egyptian town seems to have an interest in the land. The Berberine servant who acts as chambermaid in your hotel is probably as chambermand in your noter is probably the tenant of a tiny patch of earth, with a date palm and a mud hut, on which he labors during the summer and autumn, leaving his family to look after it when he comes down to Cairo to gather the plastres of the stranger in the cool general. And the trader who has made season. And the trader who has made money will often own an estate worth thousands of pounds, left in charge of a nazar or bailiff, whose accounts he will check from time to time. Such a man, when he retires from business, may him-self set up as country gentleman, even as

prosperous shopkeepers do elsewhere.

A man can have a good house and exhibit the outward signs of wealth with the certainty that his superfluity will not be squeezed out of him by the tax collections as the squeezed from him as brides by tors or extorted from him as bribes by the retainers of the Pasha. It is no longer necessary to conceal all evidence of means, live in ostentatious penurousness and bury your money if you have any in a hole in the earth.—London

OLD TIME REFRIGERATORS

Spring Houses of the Ozarks and Their Many Uses.

"You do not need to go far out of St. Louis to find the old time spring house," said a gentleman connected with one of the western railroads.

'The prime requisite of a farm in the early days was water, and nobody would buy a section of land anywhere in the Ozark region unless it was provided with comes a spring. The house was usually located as near the spring as convenience sugnearest to being pure when it takes the mathematical form, but we cannot formathematical form, but we cannot formathematical form, but we cannot formathematical form but we cannot formathematical f ecured, the next step was to build a The walls were made spring house. The walls were made from 2 to 4 feet thick of any rough stone that happened to be handy. The door was of heavy oak boards and fastened with a stout padlock. Inside the house three sides were usually fitted out with shelves to hold the great crocks of milk, Science is certainly one of them, but there are at least three others—art, ethics and religion. And if we allow that the one is only here and there are at least three others—art, ethics and religion. And if we allow that the one is only here and there are at least three others—art, ethics and religion. And if we allow form a pool having a uniform depth of 3 to 6 inches. In this the choicest dairy touched with emotion, the other three are surely suffused with it through and through. And the relation of music to mails or hooks were fastened to the rafnails or hooks were fastened to the rafall three of them as surely needs no argument in its proof. For music is itself ton and yeal, which at the temperature

"Rats and mice were almost unknown But being as much more than sound about the spring house, but small snakes the pigs, made a bee line for the spring branch. Nobody was blamed, for every one knew that the covers of the jars did not fit and that frogs and snakes were to be expected in a spring house.
"These old fashioned refrigerators are

everywhere to be seen in the valleys of the Ozarks and fulfill the same purpose that they did when Missouri was a territory."-St. Louis Globe-Democrat.

A Double Shot.

"The best double shot I ever made with a shotgun," said James Gladstone of Fredericksburg, Tex., at the Metropolitan, "was while hunting wild turkey near Boerne, about forty miles from where I live. I had heard there were lots of wild turkeys in that vicinty, and so I started out one morning at daybreak to find some. I was creeping along in a dry ravine and heard a hen putting. I crouched down as near the ground as I could and crept up in the direction of could and crept up in the direction of the seemingly excited bird. For a long time I could not see her, though I could plainly hear her putting. Pretty soon I heard her fluttering, and saw her drop down from a small oak tree. As soon as she hit the ground I fired, and when I reached the place where she was I found a dead turkey and a dead fox. I was astonished, and could not believe my own eyes until I felt the carcass of the fox to see if it was still warm. My hunter instinct carries to my receiver. ter instinct came to my rescue, and I found the solution of the mystery in the explanation that the fox had climbed the tree in pursuit of the turkey hen, sprang upon her unawares, and when both fell to the ground in the scramble I got in my deadly marksmanship and made a record which I have not seen beaten.-Washington Post.

A Pulpit in a Railway Station.

Travelers who enter Shrewsbury by the Abbey Foregate station can scarcely fail to observe one of the most remark-able features to be seen at any railway station in the world. This is a pulpit. It stands prominently above the wagons and miscellaneous goods trucks of the station yard, an ancient stone structure, to which access is gained by an equally ancient flight of stone steps. This pulpit is the only remaining fragment of the domestic buildings of the once great and powerful Abbay of once great and powerful Abbey of Shrewsbury. In the olden days it stood in the monks' refectory and was used for preaching from and for reading the lesons while the monks ate their frugal

EXILE'S WORK IN SIBERIA.

Poor Food and Tents-Men Beaten and Flogged.

A letter dated "August, 1907, on the Amir high road," once more directs attention to the sufferings of the thousands of exiles banished to Siberia. At FORMER RESIDENT OF WAUKESHA, the outset the writer explains that he formed one of a party of 120 exiles, twenty-three of them being state or political offenders, detailed to work on the construction of the Kolessnaya (literally wheel road), and sent thither under Cossack escort from the penal settlement

at Irkutsk.
After lescribing the journey of the party to Pashkovo, a Cossack settlement

on the Amir, he says:
"One single day's rest was allowed us, but on the following day we were roused at 4 a. m. and driven to work. It was raining fast and for a whole verst our way lay across submerged land. Every day for a fortnight we had to cross this same flooded ground, stripped to the skin and carrying our shovels on our shoulders. This was our life of torment. Up every morning at 4, working until 5 or o in the evening, and returning then, utterly worn out, for roll call, prayers and

sleep.
"Sleep! In ragged and battered tents, open to the rain and dirty and damp within. No mattresses, only sacks to lie ou. sometimes stuffed with grass. We are already bitterly cold here in August, and in these came tents we must live unand in these same tents we must live until the end of November. * * The spot where we are working is between fourteen and sixteen versts from the mp. We have thus to walk some thirversts daily, besides performing our hard task. How hard that task is may be gathered when it is said that ten men are required each day to excavate a length of some 200 feet and a depth and width of 11/4 arshins (about a yard). One has to work knee deep in mire, and after about three weeks rheumatism sets in and the legs of the worker begin to

A HORSE'S TOE NAILS.

His Hoofs Play the Part and Grow Third of an Inch a Month.

Few persons realize that a horse's hoof is really the same thing as the toe nails of human beings or of animals having toes. The horn of a hoof grows just as

a toe nail does.

The hoof grows more rapidly in unshed horses than in those wearing shoes, and it grows faster in horses which are well groomed and well fed. But on an average the horn grows about a third of an

heh a month.

Hind hoofs grow faster than fore The toe of the hoof being the longest part, it takes longer for the horn to grow down there than at the heel. For instance, the toe will grow entirely down in from eleven to thirteen months, while the heel will grow down in from three to five months.

As the new horn grows out any cracks or defects in the old gradually work down to where they can be cut off, just as with human finger nails you can watch the progress of a bruise from the root to the tip.—New York Sun.

Too Many Dogs in Texas.

It is unmistakably a fact that there re still too many dogs in the south, both in town and country, even in the most prosperous sections.

They will kill sheep in the country and they annoy, if they do not bite, un-

offending persons in the city. They make night hideous with their bark and how! and they make nervous people afraid to go along some of the streets after dark where the unleashed brutes do their prowling.

There are good dogs, of course; but in the estimation of a great many persons other than the secretary of agriculture only a small percentage of them are alive.—San Antonio Express.

Uses of the Lantern.

There is abundant evidence that the optical lantern is now recognized as a necessary part of the equipment of any school in which the study of geography is taken seriously, and the time is approaching when the lantern will be con sidered even more necessary for class teaching than a blackboard, not only in geography, but in many other subjects.—School World.

Coquetry as a Tonic.

When a woman becomes wholly indifferent to her personal appearance, when she is no longer susceptible to some form of flattery, one may take it that she has entirely lost her reason. To practice coquetry one need not necessarily flirt; but coquet in some form one must, if one is to keep a rightly balanced mind.—London World.

The Scoffer at Sport.

The avowed objector to sport is not a tion System and Closes Out person who need be seriously considered, for he is either to be classed with those who are blind simply because they will not see, or included among those who are perverse enough to play the part of the fox which is unable to reach the grapes.—Field.

CHAFIN WILL LEAD PROHIBS IN RACE

WIS., IS CANDIDATE FOR PRESIDENT.

WATKINS HIS RUNNING MATE.

Ada (0.) Man Is Chosen as the Vice Presidential Nominee on Dry Ticket.

CONVENTION VOTED FOR THREE.

COLUMBUS, O., July 17.-Eugene A. Chafin of Chicago, formerly of Waukesha, Wis., was nominated for President of the United States by the Prohibition national convention. For vice president the convention named Aaron S. Watkins of Ada, O., a professor in the Ohio Northern university.

Both candidates are gubernatorial candidates of the Prohibition party in their respective states. Chafin was nominated on the third ballot over William P. Pal-more of St. Louis, receiving 636 votes on the final ballot, against 415 votes cast

for Palmore. After the presidential nomination was disposed of Palmore was made the unanimous choice of the convention for vice president. Mr. Palmore, however, declined to accept the nomination, saying in a brief speech from the platform that he felt he could not accept.

Three Entered Race.

Three candidates then were placed in Three candidates then were placed in nomination for second place on the ticket. They were James P. Demeree of Kentucky, Charles F. Holler of Indiana, and Prof. Watkins, the latter winning by a vote of 585 on the first ballot.

The choice of the convention for President interest the convention of President interest.

ident is an attorney with an office at 92 La Salle street, Chicago. He is mar-ried and lives at 326 Eastwood avenue. Mr. Chafin has been identified with the Prohibition party many years and is one f its most active workers. Eugene W. Chafin was one of the

most prominent Prohibitionists in Wisconsin for twenty years. He was born November 1, 1852 in the town of East Troy, about two miles from Mukwonago. With the other members of his family he lived on the charge of Physical Physica family, he lived on the shores of Phanom lake until he grew to manhood. graduated from the state university law school in 1875 and opened a law office n Waukesha. ARE HOMEWARD BOUND

Nineteen of the South Sea Islanders, Captured by Capt. Blackburn, Re-

turned by British Government. SAN FRANCISCO, Cal., July 17 .-Nineteen survivors of the several hundred South Sea islanders, kidnaped eighteen years ago from their native strand and sold into slavery among the coffee plantations of Guatemala, arrived yesterday on the steamship City of Para. They are free and homeward bound, and in addition are traveling as tourists with the British government paying expenses. The natives were kidnaped by Capt. Blackburn, who visited the islands in his steamer, the Monserrat, and enticing them aboard, sailed away. They were supposed to be contract laborers, bound to their Guatemalan employers for three Ignorant of the language, and years. in a land where the law is sometimes the dictators' will, it was easy to keep them on the plantations, where they slaved until their plight was made known to the British government. This, however, was not until eighteen years had assed and most of the natives had died. Those returning have little to show for their years of toil.

Capt. Blackburn was lost at sea in December, 1894, when the Monserrat went down with all hands. The islanders have been taken in charge by the British consul here who has arranged ransportation for them on the steamship City of Pueblo, which sails today for Vancouver. There are several babies in the party and all showed signs of illness resulting from their long sea voyage.

RYAN OUSTS BELMONT.

Wrests Control of Big New York Traction System and Closes Out

August Belmont and is now proceeding to eradicate any Belmont influence which may still hover around the management of the corporation. Edward P. Bryan, a Belmont follower, is no longer president of the Interborough Rapid Transit company, which, with the Metropolitan, makes up the big merger over which Mr. Shonts presides. Before sailing for Europe a few weeks ago Mr. Bryan received from President Shonts a check for \$35,000, a year's salary in advance, and was informed that after July 1 his services would not be needed. His position probably will be abandoned. Wall street says Ryan has been ably

is paid \$80,000 a year to run the Equitable Life Assurance society.

The Swashbuckler. The swashbuckling patriot is akin to the religious fanatic; the one can see only his country and the other only his sect And in both cases the intellectual outlook is generally so narrow that scarcely any-thing more is revealed to the patriotic or religious fanatic than a distorted view of material greatness or spiritual goodness.—Concord.

Princesses as Wage Earners. In these days of democracy and un-

surprising to learn that the Duke Frederick of Schleswig-Holstein, holding to the belief that every girl should be able to earn her own living in case of emergency, that caused his daughters to be gency, has caused ins daugnters to be trained in various occupations. Princess Victoria Adelaide, who married the Duke of Saxe-Coburg-Gotha, holds the diploma of the Royal School of Cookery in Berlin; Princess Alexandra Victoria is a skilled painter of miniatures; Princess Helena is a qualified hospital nurse, Princess Adelaide has a certificate for kindergarten teaching, and Princess kindergarten teaching, and Princess Caroline Matilda is an expert typist and writer of shorthand.—Tit-Bits.

TOLEDO, O., July 20 .- The Y. M. C. A. relay runners carrying the message from New York to Chicago, reached Toledo at 5:22 this morning from Fremont. Not a second was lost here, the local boys starting at once with the message for Adrian, Mich. A large crowd wel-comed the Bellevue runners and wit-nessed the start of the Toledo boys.

WAGE TELEPHONE WAR

Independents May Organize in Iowa with \$20,000,000 Capital to Fight Bell Interests.

WEBSTER CITY, Ia., July 20 .- The state of Iowa bids fair to become a battleground in a war between the Bell and the Allied Independent Telephone interests. Organization of one huge company composed of the many independent companies, all merged into a \$20,000,000 concern, is predicted and it is this company which is expected to wage a war with the big Bell concern.

BOY STEALS \$10,000.

Thirteen-Year-Old Takes Suitcase Containing That Amount in Chicago Federal Building.

CHICAGO, Ill., July 26 .- A suit case containing stocks, bonds and other securities valued at \$10,000, and belonging to John Hurford of Chattanooga, Tenn. was stolen by a 13-year-old boy, it was learned by the police today. The theft occurred in the federal building while Mr. Hurford was listening to the trial of a case in the United States court.

UNEARTH PLOT AGAINST GOULD FOR A DIVORCE

SEAMSTRESS DECLARES CONSPIR-ACY WAS FORMED TO MANU-FACTURE EVIDENCE.

OFFERED \$1000 FOR

FINANCIER DECLARED TO BE MEN. She Signed Agreement, but Later Became Alarmed and Notified the District Attorney.

THREE ARE TAKEN INTO CUSTODY.

NEW YORK, July 21 .- According to the statements made by a milliner's apprentice, Miss Mabel B. McCauslan, a remarkable plot was revealed to manufacture evidence against Frank J. Gould in the suit for divorce which his wife, Helen Kelley Gould, recently brought against him. Two arrests were made by the district attorney's office. Harry Mousley, a private detective, and Miss Julia Fleming are the persons arrested. The police also expressed a desire to question Mrs. Ben Teal, wife of a well known stage manager. The arrests were made last night under dramatic circumstances in an apartment house in Fifty-ninth street, near Seventh

avenue.

The first known of the plot was when Miss MacCauslan approached Mr. Gould's attorneys and told of the alleged plan to injure their client. The young woman was then taken to the district attorney's offers and made a full state. attorney's office and made a full state-ment of the part she said she had played in the alleged conspiracy. The substance of the girl's statement was that the matter was broached to her ten days ago, when, it is alleged, Miss Fleming, who promised \$1000 if she would make a statement compromising Mr. Gould. She

Signs but Withdraws. Miss MacCauslan said she consented to go into the scheme; a statement was drawn up, and she signed it and her signature was witnessel by a notary. Later Miss MacCauslan said she became alarmed, and decided to notify the authorities. Arrangements were then made to have the girl attend a conference be-tween the alleged conspirators and a detective from the district attorney's office accompanied her and there made the arrests. Mrs. Teal went to the district attorney's office today. Both her husband and her attorney said Mrs. Teal is the victim of unfortunate circumstances.
"There is nothing to it and we are sure it will come out all right," said

Teal Not Worried.

"Neither Mrs. Teal nor I know either of the Goulds, so you see friendship could not have been a motive, and it certainly was not money. We are both good friends of Besie De Voe. Miss MacGauslan came from St. Paul, Minn., Miss with a letter of reference to Mrs. Teal from Mrs. Teal's sister. My wife gave her work as a seamstress and later, only a week ago, the girl came to me and asked me to place her as a chorus girl.'

NEAR-PANIC IN SCHOOL.

Fire Breaks Out in Pittsburg Building While Vacation Classes Are in Session.

PITTSBURG, Pa., July 21.-Fire which started in the Holmes public school from burning waste paper in the basement caused a panic today among 150 children attending the vacation

term of school. The large building rapidly filled with smoke and the children, screaming and almost suffocated, rushed from the structure in great disorder. Many of them were thrown down and trampled upon. Adding much to the confusion was the action of parents of children living near by who, although choking with smoke, congregated in the main doorway and excitedly called the names of

Principal David R. Brown and several women teachers barely escaped being

Firemen were quickly summoned and the fire extinguished with a loss amounting to about \$100,000. With the exception of slight bruises and fright, none of the children were seriously hurt.

ROJESTVENSKY LIVES.

Russian Admiral Is Not Dead, as Was Reported in Germany Monday.

BERLIN, July 21 .- The announcement made yesterday from Bad Nauheim, Germany, that Vice Admiral Rojestvensky, who commanded the ill-fated Russian fleet that was annihilated by the Japanese in the battle of the Sea of Japan in May, 1905, had died there the night of July 19, from heart trouble is incorrect. A Russian named Rojestvensky did die at Bad Nauheim, but he was not the admiral.

WOMAN TO TAKE STUMP

Mrs. Rose Stokes Will Take Part in Husband's Campaign for Assembly.

NEW YORK, July 21.-James G. Phelps Stokes, the Millionaire Socialist, will run for the Assembly from the Eighth district, which takes in part of the lower east side. It is announced that Mrs. Stokes will take the stump for her husband in the coming fight.

Married and Single.

There is no denying that engaged lovers stand on one platform and mar-ried lovers on another. Previous to marriage so little is said about money There are discussions, there are wranglings, but they are done by proxy, by the lawyers. Once married, however the principals must talk of money mat-ters between themselves; its manage-ment, its disbursement.—The Lady.

Strange Drum Fish

A drum fish was captured off Sugar Loaf Wednesday by J. M. Berg and placed in the local aquarium. It meas-even his bills are unsettled.

ured 23 inches in length and weighed trifle more than 6 pounds. This is the largest specimen of this rare fish that has ever been brought in alive. It derives its name from the deep booming sound it emits when in captivity. The curator of the aquarium, J. Vlabinich, states that on several occasions he has been startled at night by the strange noise, which would stop on his attempting to see how it was done.—Aralon Cor. Los Angeles Examiner.

BUTLER KILLED PARIS BANKER

MURDER OF WEALTY AUGUST E. REMY CLEARED BY FOOT-MAN'S CONFESSION.

ROBBERY WAS THE MOTIVE.

Arrest of Servants Disclosed Sensational Condition of Affairs in Victim's Household.

TWO TOOK MONEY AND JEWELRY.

PARIS, July 21.—One of the murder mysteries of Paris was cleared up last night by the confession of Courtois, the footman arrested on the charge of being implicated in the murder of August E. Remy, a wealthy retired banker who was stabbed to death on June 6 in his home in this city. Jewelry belonging to the murdered banker was found in the footman's possession and when he was first arrested he denied having been in any way connected with the murder, asserting that he had found the jewelry, together with a sum of money, hidden in the cellar of the banker's home.

Renard Stabs Victim.

In his confession today, Courtois de scribed to the police how he and the butler Renard, who was arrested several weeks ago on a charge of complicity in represented herself as coming from Mrs.
Teal, tried to interest her in the scheme.
Miss MacCauslan asserted that she was promised \$1000 if she would make a while Courtois held him on the bed. Aftstatement compromising Mr. Gould. She had several interviews, she said, with Mrs. Fleming, Mrs. Teal and Detective Mousley, at which the details of what she was to testify to were discussed.

Signs but Withdraws.

White Courtois held limit on the bed. Artsenwards they washed the blood stains from their hands and clothing and took the money and jewelry from Mme. Remy's room. They then arranged the house to give the impression that the crime had been committed by burglars.

Butler Ruled Household. The arrest of Renard on June 26 revealed the existence of an astonishing state of affairs in the banker's house-hold prior to the assassination. It was very day before the murder was committed the banker had finally determined to discharge the butler. Mrs. Remy to discharge the butler. Mrs. Remy quarreled with her husband over this and left the house. That same night a

FOILS BANK ROBBERS

OHIO CASHIER BREAKS AWAY AND GIVES FIRE ALARM.

Official Convinced Bandits That Safe Had Time Lock-Citizens Prevent Use of Explosives.

ADA, O., July 21.—Six masked men rode into this place last night and attempted to rob the local bank. While

with them. They attempted to compel Meyers to open the safe.

The cashier convinced the men that the safe was equipped with a time clock and that it could not be opened. Thereupon two of the robbers took Meyers to a pearly woods and tied him up the a nearby woods and tied him up, the other four men remaining at the bank to

blow the safe.

Meyers, however, managed to escape from his captors and promptly turned in a fire alarm, arousing the citizens. The cracksmen jumped on their horses and galloped out of town. They were pursued for some distance, but finally escaped in the darkness. Blood hounds will be placed on their trail. The robbers did not succeed in opening the safe.

LONG RACE IS ENDED.

Message of New York Mayor Is Delivered in Chicago by Y. M. C. A. Runners.

CHICAGO, Ill., July 21.-The Y. M. C. A. relay race, which began in New York at 10 A. M., last Wednesday came to a brilliant close in the city hall here at 9:38 a. m. today.

The silver tube containing the message of Mayor McClellan of New York to Mayor Busse of Chicago, was carried over the final stretch by William H. Mc-Cabe of the Evanston Y. M. C. A. Mc-Cabe received the message at La Salle and Monroe streets, but had a hard time of it making his way along the two blocks to the city hall. He was compelled to stop several times by street cars and wagons. The eager faced youth was cheered as he dodged hither and thither in a desperate endeavor to

and thither in a desperate endeavor to avoid delay.

At the city hall McCabe came under the protecting shelter of a squad of policemen who kept the crowds at a respectful distance. Mayor Busse, however, was not present, and the duty of receiving the message devolved upon Vernon L. Bean, secretary of the civil service commission. service commission.

The distance of 1000 miles was covered in 119 hours and 22 minutes.

MINSTREL LOSES MIND.

"Billy" Williams Worries Over Financial Matters and Finally Disappears from Home.

DES MOINES, Ia., July 21.-"Billy" Williams, the former star minstrel, disappeared from his family last Saturday. Mrs. Williams and three small children Mrs. Williams and three small children are alone in their room at 418 West Fourth reet, this city. They lack the necessities of life and the youngest child is ill. Mrs. Williams says that troubles have completely wrecked her husband's mind. Williams has recently been engaged in religious work in this city. gaged in religious work in this city.

FOUR GIRLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

East 84th Street, New York, writes: "Lydia E. Pinkham's Vegeta-ble Compound over-came irregularities, periodic suffering, and nervous headaches, after everything else had failed to help me, and I feel it a duty to let others know of it." Katharine Craig, 2355 Lafayette St., Denver, Col., writes: "Thanks to Lydia E. Pinkham's Vegetable Compound I am well, after suffering

for months from nervous prostration."
Miss Marie Stoltzman, of Laurel, Ia., writes: "I was in a runlowncondition and suf-fered from suppression, fered from suppression, indigestion, and poor circulation. Lydia E. Pinkham's Vegetable Compound made me well and strong."

Miss Ellen M. Olson, of 417 N. East St., Kewanee, Ill., says: "Lydia E. Pinkham's Vega.

dia E. Pinkham's Vege-table Compound cured me of backache, side ache, and established my periods, after the best local doctors had failed to help me."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pink-ham's Vegetable Compound, made

from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, ornervous prostration. Why don't you try it?

Irs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

A TALKING LOVEBIRD.

A Marvel, Self-Taught, to Imitate Human Speech. A lovebird no larger than a canary has taught itself to speak as fluently and as distinctly as the best of talking parshown that Renard had become complete master of the establishment and that the Stourbridge, Worcestershire. The bird is of exquisite plumage, and belongs to Mr. J. Skidmore of Stamford House, Ambleside, a well known resident in the district. It was given to Mr. Skidmore and left the house. That same night a quarrel ensued between the banker and his butler which, according to the evidence secured by the police, eventuated in the death of Remy.

district. It was given to Mr. Skinmore about six months ago by his son-in-law, who had had it for eighteen months without its showing any powers of conversation. During the last few months of its life in Worcestershire, however, it has acquired a remarkable aptitude for repeating all that is said to it, though

repeating all that is said to it, though it has received no special training.

To a correspondent who "interviewed" it recently the bird suddenly remarked, "Kiss me quick," giving an anticipatory smack. It politely remarked, "How do you do?" and flatteringly added, "You're a little beauty, aren't you?" all in a soft tone that was quite distinct from the raucous accents of the average parrot. It melodiously whistled a couple of bars It melodiously whistled a couple of bars at the national anthem, and proceeded to give some very realistic imitations of the calls of the thrushes, sparrows and

"Hanschen," as the bird is named, tempted to rob the local bank. While three of the gang waited near the bank building, the other three went to the home of Cashier Meyers and, arousing him, compelled him to go to the bank with them. They attempted to compel of the stuffed parrot, though when in a conversational mood he frequently incompanion.-London Mail.

DROPPED COFFEE.

Doctor Gains 20 Pounds on Postum. A physician of Wash., D. C., says of his coffee experience:

"For years I suffered with periodical headaches which grew more frequent until they became almost constant. So severe were they that sometimes I was almost frantic. I was sallow, constipated, irritable, sleepless; my memory was poor, I trembled and my thoughts were often confused.

"My wife, in her wisdom, believed coffee was responsible for these ills and urged me to drop it. I tried many times to do so, but was its slave.

"Finally Wife bought a package of Postum and persuaded me to try it, but she made it same as ordinary coffee and I was disgusted with the taste. (I make this emphatic because I fear many others have had the same experience.) She was distressed at her failure and we carefully read the directions, made it right, boiled it full 15 minutes after boiling commenced, and with good cream and sugar, I liked it-it invigorated and seemed to nourish me.

have no headaches, am not sallow, sleeplessness and irritability are gone, my brain clear and my hand steady. I have gained 20 lbs. and feel I am a new man, "I do not hesitate to give Postum

"That was about a year ago. Now I

due credit. Of course dropping coffee was the main thing, but I had dropped it before, using chocolate, cocoa and other things to no purpose. "Postum not only seemed to act as

an invigorant, but as an article of nourishment, giving me the needed phosphates and albumens. This is no imaginary tale. It can be substantiated by my wife and her sister, who both changed to Postum and are hearty women of about 70.

and encouragement of others, and with a feeling of gratitude to the inventor of Postum." Name given by Postum Co., Battle

SHREWISH WIVES, **GOADS TO SUCCESS**

MANY GREAT MEN HAVE ENDURED ABUSE OF SCOLDS AND WON

FAME.

FAMOUS VICTIMS.

Job, Socrates and Wesley Among Illustrious Characters of History Tortured by Feminine Tongues.

WARRIOR'S

TERRIBLE

Dictionaries ascribe the attributes of scold," "shrew," "termagant" and vixen" to women. Men, however, comled dictionaries, and Justice is personed by a woman, not a man. Indeed, so erfectly is the quality of justice deeloped in woman that she is represented s being able to administer it even blindolded, says the New York Tribune.

Those who give women credit for being colds, shrews, termagants and viragoe nnot deny such women due praise fo e notable achievements of certain men rged up the path of glory and toward pinnacle of renown by the free exer-of their wives' talent for scolding. Under the influence of emphatic abridled feminine tongues some of the sest sages, greatest rulers, scientists,

artists and scholars that the world has er known have developed, and shall the auteous image refuse to give due credit the instrument which shaped it? Who may guess how much of the empering of that fine metal which went nto the make-up of George Washington was occasioned by the ability of Dame Mary and Lady Martha to speak their ainds, for the diatribes of the scold, the hrew and the termagant are like blows oon red hot metal, to temper it to great-endurance; to bring out in it new and onderful qualities, and often to endow with something of the qualities of a Damascus blade. It takes blows delivered with no uncertain and no gentle hand to produce such an instrument. Humanely speaking, only a woman sufficiently has

Ducking as a punishment for scolds was instituted by Noah, and not by his English or New England grandchildren. Chaucer tells us that Mrs. Noah was a veritable termagant. History does not re-late just how she was soused into submis-siveness before embarking upon the ark, out leaves to painful conjecture what Noah's life may have been while afloat But consider how useful Noah proved be to the human race.

ie courage of her convictions to deliver

How many who dwell upon the saintly proverbial patience of Job realize Mrs. Noah is to be thanked for it: Few give her credit for schooling Job to a spirit of subjection and dejection made every calamity appear as light in comparison with the railings of tempestuous wife, who when he was ereft of everything else on earth was pared to distract his mind from a sense his sufferings and enable him to bear hem with proper meekness.

Socrates in Job's Boat. Scolding has seemed to be a soil in which philosophy thrived, as witness socrates, than whom no living man was robably ever more cruelly berated.

Speaking of the wife of that great philof 48 married a widow with four

children. Southey says:
"By her outrageous jealousy and abominable temper she deserves to be classed inta triad with Xantippe and the wife of

The first husband of this vixen had quickly succumbed to her tyranny, but the good John Wesley patiently endured it for twenty years when, no longer havby youthful encumbrances to burden er, she abandoned her victim, taking with her his papers and journals, the latter of which he never recovered. Wesley ng youthful probably in heaven now. He had his ll on earth.

Il on earth.
Another of the world's most eminent eachers—Rev. George Whitefield—oubtless agreed with a declaration of e afflicted Scaliger, made centuries

"A wife is a hectic fever and not to be A whe is a freche feet and not to be cured but by death."

A chronicler, referring to Whitefield, says of his wife: "Her death in 1760 set his mind much at rest." Could he have enjoyed this mental rest if he had not experienced the opposite?

Scarcely a man capable of ever delivering a lecture but has his name imprinted upon the back of a book, and some have lectured so well that their names are greyen even upon the public wind. are graven even upon the public mind, and to them the public hand has raised up monuments in marble and in bronze in token of appreciation. But who ever saw a monument erected to that vast multitude of lecturers whose eloquence may have done more to shape the destimay have done more to shape the desti-nies of the world than all the thunders of the Roman Forum, the Athenaeum, The Hague and Carnegie hall rolled into

one colossal synchronism of sound—who ever witnessed the unveiling of a statue to the Curtain Lecturer. Lectures Not Sought.

And yet can any prejudiced man point out a class of lecturers whose words have produced more powerful effects, more visible results or more last-

ing impressions?
True, men do not hasten to engage front seats to hear these lecturers, but it cannot be said that they hear them without price. Sometimes it costs them a good deal, and many have been heard to remark that they "felt like thirty cents" after listening to one.

Most lecturers of public prominence are philosophers as well—or aim to be

are philosophers as well—or aim to be. Hegel gave the intellectual minds of Ger many a twist in eighteen volumes of philosophical lectures, in which the only thing clearly demonstrated to many peo ple was that he didn't know what he talking about. A curtain lecturer can prove that she thoroughin eighteen words that she thoroughly understands her thesis and, incidentally, her audience, and no counter philosophy has been known to sidetrack the current of her thoughts—and their expression—until she has completely clusipression—until she has completely eluci-dated her theme. Whether her eloquence be brief or far otherwise, her remarks are always to the point and are delivered like grapeshot, with a view to hitting not only the visible target, but as many invisible ones as might happen to be around and whose presence is merely expected.

suspected. A Fiendish Duchess.

A striking contrast exists between the A striking contrast exists between the present lovely and amiable Duchess of Marlborough and Sarah, wife of the great soldier-duke of that title, who, in spite of the wretched existence which she led him, loved his virago to the day when death released him from the torments which she inflicted. Her temper was such that to spite him she one day actually that to spite him she one day actually shaved off her beautiful hair, in which he took great pride, and placed it where he would see it. The tempest she had hoped

which he most prized. When this great soldier, whom no fortunes of war had ever daunted, succumbed to his wife's ceaseless persecution and lay palsied and dying, his duchess released some of temper upon the physician in attendance and was known to follow him to the door swearing with a fluency which horrified

Vanbrugh, architect of Blenheim castle. was wont to call its duchess "that wicked woman of Marlborough!" She kept him constantly seething in her wrangles, for besides £10.000 to spend upon Blenheim her good lord had bequeathed her an additional £12,000 a year "to keep herself clean with and go to law," of which lat-ter permission she was prompt to avail herself. Her loving husband had meant no aspersion upon her in the first clause of this bequest. In those days great ladies were fine clothes till they became much soiled and then cast them away. Compare what the old duke accomplished with the record of the present duke and you may learn the value of a shrewish

At one time England kindly permitted nen to sell their wives, for there were at that time courageous hearts to be found willing to attempt the taming of a shrew. Found Peace in War.

There was also in use a "scold's bridle," made of metal bands, which held the tongue so that it could not move. Strange to say, the name of a man with foolhardiness enough to apply this device has never been published, and its inventor thought best to conceal

his own identity.

The married man who said he "went to the Mexican war to have peace only imitated the eloquent French adve cate Pasquer, who exclaimed: "To have peace I am ever obliged to be at war!" It was his wont to drown his wife's angry voice with the thunder of his own The Earl of Shrewsbury, who was living apart from his wife, received in 1590 a letter from the bishop of Lichfield and Coventry wherein a fellow feeling creeps through these lines of admoni-

"But some will say, in your lordship's behalfe, that the countess is a sharpe and bitter shrewe, and therefore licke enough to shorten youre life if she should keepe yow. Indeede, my good lorde, I have heard some say so; but if shrewdnesse or sharpnesse may be a just cause of separation between a man and wife I thinck fewe men in Englande would keepe their wives longe; for it is a common jeste, yet trewe in some sense, that that there is but one shrewe in all the world, and everee man hath her; and everee man must be rid of his wife that would be rid of a shrewe."

Cures for Melancholy.

Notwithstanding the histories of men who have possessed shrewish wives, it be pointed out that "The Anatomy Ielancholy" was written by a bache-The man with a shrewish wife selof Melancholy" dom gets leisure enough to become mel-

Recent Legal Decisions.

The validity of a statute making it a loon to permit females under the age of 21 years to remain in or about the saloon is sustained in State vs. Baker (Ore.) 92 Pac. 1076, 13 L.R.A.(N.S.) 1040.

The right of the owners of a steam railroad to compensation for the crossing of its track at a public highway intersection by an electric interurban road built upon the highway with the consent of the board of commissioners of the county is denied in South East & St. L. R. Co. vs. Evansville & Mt. V. Electric R. Co. (Ind.) 82 N. E. 765, 13 L.R.A.(N. S.) 016

The right to an injunction to restrain a mill owner from discharging into a stream, oils, chemicals, and dyestuffs in such quantities as to pollute the water to such an extent that the cattle of a lower riparian proprietor refuse to drink it is sustained in MacNamara vs. Taft (Mass.) 83 N. E. 310, 13 L.R.A.(N.S.)

One burying a carcass on his own land is held, in Long vs. Louisville & N. R. Co. 32 Ky. L. Rep. 774, 107 S. W. 203, 13 L.R.A(N.S.) 1063, not to be liable for its pollution of a neighbor's spring, unless the circumstances were such that he should, as a person of reasonable pruders have anticipated that specifically and the should, as a person of reasonable pruders. to arouse was never manifested, and it would seem as though even her cruel heart might have been touched upon finding after his death her shorn tresses locked away in a cabinet among treasures to the circumstances were such that he should, as a person of reasonable prudence, have anticipated that such result would follow.

ITCHING HUMOR ON BOY.

His Hands Were a Solid Mass, and Disease Spread All Over Body-Cured in 4 Days by Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this ifching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Caticara Ointment and anginted him with it. I did this every evening, and in four nights he was entirely cured. Mrs. Frank Donabue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."

Flowers at Funerals.

A clergyman who conducted the services at a funeral on the east side last week caused a mild sensation and, for the time, made the mourners forget their loss by speaking of the "foodish display of flowers." He said that the effort to ape the rich people in this custom was as reprehensible as it would be to fol-low them in dress. "I have come to be with you when you take leave of the dead," he said, "but I speak to the living, and ask you to remember that there are places in the world where death notices state also that no flowers are wanted and ask that the money which would have been spent for them be sent to char-itable institutions." The sentiment evidently found favor in some minds, for an "extract from a sensible sermon made from memory" was sent to all the east side publications.—New York Tribune.

A Noisy Operation.

Mrs. Boorman Wells, the noted English suffraget, was describing at a din-ner in New York a very disorderly suf-

fraget meeting.
"The noise," she said, "can only be likened to the hubbub that I once heard coming from the nursery of a friend with whom I was taking tea. "Terrified by this infernal turmoil, my friend and I burst into the nursery, breathless. The children, in a close group by the window, the baby in the middle, looked up calmly. "'What on earth are you doing?" the

mother demanded.
"'We've found,' said the oldest boy,
'poor grandma's teeth, and we're filing them down and fitting them on the baby.

An Inglorious Wound.

On one of the volunteer ranges in the north is a well-known old Irish sergeant, who has charge. It may be mentioned that he went through three wars-the Crimean, the Indian Mutiny, and the Chinese-and during the whole of that time never received a single wound.
Old W—, as he is called, occasionally acts as marker at the targets, and his utter recklessness has become a prov-

ehind the mantelet without the slightest warning, and touch up a bullseye which did not quite satisfy him, or to note the exact position of a shot. At all remonstrances he would sniff

contemptuously.

"Me be shot? Me?" he would ask.

"Why, I've bin through three war r-s, and was niver shot-yet. Pah! Phwat's a bit o' led flying through the air?" and he would assume an air of disguest. It actually occurred, however, at last, and he was shot through the shoulder. For a moment, as frequently happens with rifle shots, such is their terrible force, he did not know he was struck; hen, when he observed the blood streaming down his sleeve, he commenced to walk down the range, right in the line of fire.

It was seen that something was wrong and they hurried to meet him. As he did so he tottered and had to be carried. "Shot!" he groaned, with a look of "Shot!" he groaned, with a look of shame. "Shot, and by a Saturday after-toon soldier!"—Tit-Bits.

WIDOWS under NEW LAW obtained PENSIONS by JOHN W. MORRIS.

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

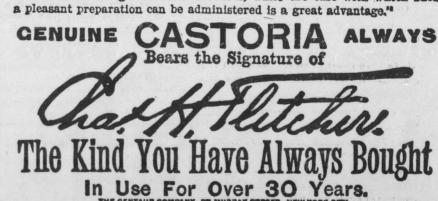

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments." Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such

JAMES J DONOVAN,

LEARNING TO SWIM.

Fat Man Who Was a Model of Patience and Perseverance.

Persistence in undertaking is a laudable virtue, but it can be a bit overdone sometimes, as in a case described by Y. L. Molloy in "Our Autumn Holiday on French Rivers." Mr. Molloy and his friends, longing for a good dive, went to a swimming school on an island in the Seine. They donned their rented costumes and were preparing for the plunge when a man with ropes. came along and insisted on tying them about their waists. It was according to police regulations, and, although they made an indignant protest, they were obliged to submit.

While we were dressing, says Mr. Molloy, we asked the two swimming

"Pardon," they replied, "we must attend to our monsieur." Then we saw that there had come

upon the platform a short and absurdly fat man dressed in bathing costume, swimming sandals and oiled cap. "Let's see him go in," said we.

'What a splash he'll make!" The swimming masters received the new arrival at the middle of the platform. There he balanced himself on feet high. The masters seized him by kept this up for a quarter of an hour, and the perspiration rolled off him in great drops.

"He'll be awfully hot to go into the water after that," said I. But he did not go into the water. The swimming lesson over, he moved to-

ward the dressing room, saying: "I have done better today." "Ah, yes," answered one of the masters. "Your progress is admirable." The fat man beamed with complai-

sance and went in to dress. I called the swimming masters aside "Does 'our monsieur' practice often like that? He must have great perse-

verance.' "Perseverance! He has worked like this for five years, and he has never been in the water!"

SIGN OF A BEATEN MAN.

Runner Who Looks Behind Almost Sure to Lose the Race.

"There are many more good distance son. runners now than in my days," said an old time champion after watching a three mile scratch race at the New York Athletic club games. "But the habits of the runners have not changed any, for I noticed one little trick in used to attach to it.

"To the casual onlooker there was Wanted, by the Marble Safety Axe last quarter of a mile. Right from the ing crack of the pistol they were running almost stride for stride with the low,

distance runner. "Neither had called into use the reserve power which must be utilized in the final sprint for victory when they turned into the stretch for the final lap. Then one of them slightly turned his head to see where the third man

"'That man is beaten,' was the thought which occurred to me at once, and it proved true, as always, for when the dash for the finish began he allowed his rival to get a lead of five yards before going after him in earnest pur-

"From that point to the finish there was no perceptible difference in the speed of the men, but the man who had turned his head to make sure that he would get second place, instead of bending every energy to win, of course landed where his thoughts placed him."-New York Sun.

The Gun Barrels Grew.

In the early days in the northwest, when the Hudson Bay company laid the foundations of great fortunes by trade son. with the savages and a gun paid for as many beaver skins as would reach to the muzzle of it, the skins packed flat and the gun held upright, it was alleged that the barrel of the weapon grew and grew with each successive year until the Indian, after he had bought it with the peltry, had to borrow a file and cut off a foot of useless metal.

Domestic Bliss.

Wife-I have about made up my mind, John, that when I married you I married a fool. Husband-That reminds me of a remark you made just before we were married. You remember that you said it would be hard to find two people more alike than you

His Glassy Eye. Doctor-I diagnose all sickness from the patient's eyes. Now, your right eye tells me that your kidneys are affected. Patient-Excuse me, doctor, but my right is a glass eye.-Moody's Magazine.

Simple.

Lawyer (at the theater on the first night)-I can't imagine how the piece can be drawn out into five acts. Author -Oh, that is very simple. In the first act, you see, the hero gets into a law-

Chance For Imagination. Newspaper men were to be excluded

from a famous trial. "That's good," one of them remarked. "I hate to be hampered by facts in writing up a case of this kind."-Exchange. The Wife Did It All.

Hewitt-Couldn't you get the person you called up by telephone? Jewitt-Oh, yes. Hewitt-But I didn't hear you say anything. Jewitt-It was my wife I called New York Press.
