WILL PLAY THE GAME. Football sentiment is increasing. Next week there will be a city team organized, under the auspices of the Military company. There are in the ity many who have some experience or adaptability for the game, and any such are heartily invited to be present at the armory Monday evening. Coaching is promised by those who have had experience in university tactics. Teams are being organized in many places over the peninsula: the Ishpeming guards and the Escanaba naval reserve are getting up elevens. The Gladstone team can arrange for a game in two weeks, if an organization can be put into fair shape in that time.

RESOLUTIONS

Adopted by Arbutus Camp No. 3020 Modern Woodmen of America in memory of Adam N. Sinclair who died Sept. 1st., 1908.

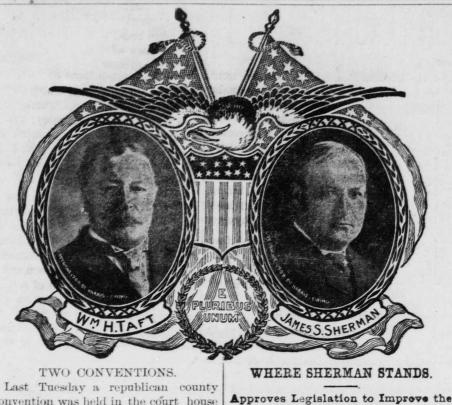

Whereas, in the providence of God He has taken from our midst our beloved neighbor, Adam N. Sinclair, Therefore be it Resolved, that by his death our camp has lost a true neighbor, the family a kind and loving husband and father; that we as a camp, extend our heartfelt sympathy to the griefstricken wife and children in their time of sorrow. By his loyalty and unselfish devotion he was loved and respected by all who knew him.

Be it further resolved that our charter be draped in mourning for a period of sixty days; that a copy of these resolutions be sent to the bereaved family, to the local paper, and a copy spread on the minutes of our camp.

N. K. NIELSON ALBERT SMITH JOHN HAMPEL Committee.

CARD OF THANKS,

For the sympathy and thoughtfulness of the many friends of Adam Sinclair, as they showed it so fully during the hours of parting and sorrow, we desire to express our deep feeling. We

declaration on that subject. That en-To the congressional convention: dorsement I make. Charles G. Beck, H. W. Coburn, Hugh B. Laing, A. H. Rolph, James Patton, J. B. Frechette, M. Perron, and Soren

A recount of the vote on sheriff was this week demanded by Adam J. Henry, who was defeated by a narrow margin. On Friday the canvassing board met to receive the ballot boxes from various parts of the county and take testimony. Both candidates are represented by legal talent; and it is expected that the session of the board will be long and protracted.

The Democratic convention Thursday named I. G. Champion and J. H. Le-Claire delegates to the state convention. The party will name its county ticket on the twenty-fourth.

Soren Johnson, Chas. D. Mason, Joseph Eaton, W. R. O'Connell, and M. W. Lancaster attended the republican conventions at Escanaba Tuesday as delegates from Gladstone.

The delegates from Menominee couny to the senatorial convention of this district are A. C. Stephenson, William Oberdorffer, Henry Schwellenbach, A. W. Blom, F. J. Trudell, H. T. Emerson, William Kuhnle, and Doctor Sawbridge.

There is trouble over the primary election in Chippewa county and the lack of election in some precincts. In one township it is said that the clerk had the supplies and ballots with him when he went on a spree, and they did not reappear until after election day.

The Schoolcraft county convention Tuesday turned down J. H. McCallum for renomination to the state legislature by a vote of ten to six. He will be in the position of being defeated in the representative contest by the vote of his own county, while others support him. The use of a voting machine in Spalding township, contrary to law as interpreted by the attorney-general, raises a juestion as to a nomination. If the precinct's vote be thrown out, Charles Line will be nominated for prosecutor; if not, Fred H. Haggerson will be the name on the ballot. Whichever way

president of the Avitation club of France, today beat his world's aeroplane record made yesterday. He circled the field at Issy eighteen times at an average height of thirteen feet and remained. in the air 31 minutes. M. Delagrange carried thirty litres of fuel essence in the machines' tank, but was forced to discontinue his flight before all of it was exhausted owing to in-terference of the lubricating oil with the parking apparatus of the motor. M. Delagrange is confident that he will be able to remain in the car an hour before the end of the week. The experts watch-ing the aeroplane duel between Dela-grange and Wilbur Wright, the Ameri-can aeroplanist, exhibit the liveliest interest in the maneuvers of the two machines. After M. Delagrange's flight, Louis Malecot with his combination balloon and aeroplane maneuvered for a few minutes over the fiel dof Issy at a height of 150 feet. In his flight Sunday Delagrange re mained in the air for 29 minutes 5445 seconds and circled the field fifteen and one-half times, covering a distance of 24,727 meters, or about fifteen and one-quarter miles. He thus beat the longquarter miles. He thus beat the long-est flight previously made, that by Hen-ry Farman in July, by 34 1-5 seconds, and exceeded the distance covered by Wilbur Wright Saturday by about one and three-quarter miles. The new rec-ords have been accepted officially.

200 inhabitants of the town are on constant guard to prevent the spread of the fires that are raging hereabouts. It is reported that the town of Mason, with reported that the town of Mason, with 600 inhabitants is in grave danger of being wiped out. The pumps at the Hines Lumber company mill are being kept in readiness to fight the fire. At Bayfield the Wachsmuth lumber

vards were destroyed and it was only the heroic efforts on the part of the fire department and the citizens that saved city after an all night fight against flames. The town board at Tony the flames. has prohibited the burning of stumps and rubbish by the farmers. Numerous fires are burning in the vicinity of Cable and unless rain sets in the village is in danger of destruction.

RACE WAR IS FEARED. Kansas City (Mo.) Negroes Buy Fire-

arms After Killing of White Man Last Saturday.

KANSAS CITY, Mo., Sept. S .- Since the killing of a white man by a negro here last Saturday there has been a growing alarm of a race war among the olored population and the police have learned that many of them are purchasing firearms. A pawn broker on East Eighteenth street reported that the ac groes had purchased all the shotguns. rifles and revolvers in his store besides large amount of ammunition. Robert Thomas, a negro, was arrested at a cir-cus yesterday for carrying a revolver, Robert Maupin, another negro, probably fatally wounded himself while cleaning a revolver which it is believed he ina revolver which it is believed he in-tended to carry for his own protection. stumps were fired a month ago, the Excited groups of colored men have been dispersed by the police but no vio-lence has occurred. DULUTH, Minn., Sept. 9.—It was flights at Fort Myer have been made.

Theodore Hutchinson and Wife of Sharon, Wis., Narrowly Escape Death in New York.

BUFFALO, N. Y., Sept. 8.-[Special.] -Dr. W. H. Baker and wife of Williamsville, N. Y., and Theodore Hutchinson and wife of Sharon, Wis., narrowly escaped with their lives last night when Dr. Baker's automobile turned turtle on the main road at Eggertsville. All four were caught under the machine, and while no one sustained injuries of a serious nature, the members of the party Suffered from shock and bruises. Dr. Baker was driving at a moderate

rate of speed east on the main road when he observed another machine standing some distance ahead. He turned to avoid hitting it and as he did so, a woman, who had been walking in the roadway, appeared directly in his path To avoid running down the woman, Dr Baker gave the wheel a sharp turn and Baker gave the wheel a sharp torn and the machine swerved close to the can tracks. One of the wheels dropped into a hole and the car toppled over.

Cosmopolitanism.

We are gradually growing cosmopoli-tan; dining al fresco, going after dinner to outdoor amusements, even appearing in hats at clubs and restaurants. Outdoor life is what London has always needed in the summer, and the influx of foreigners is showing us the way to play It was shown, also, he said, that there i the game .-- London Graphic.

Crank Is Arrested by Secret Service Men Who Are Making Searching

Investigation.

OYSTER BAY, N. Y., Sept. 8 .- A searching investigation is being made to determine the circumstances giving rise to the report that a shot was fired from ambush upon President Roosevelt last Saturday. Every foot of ground in the vicinity where the attempt is alleged to have been made is being gone over and the closest quest is being prosecuted to ascertain whether or not any person to whom suspicion might attach was seen in the vicinity of Oyster Bay about the

time the shot is said to have been fired. According to the story in circulation here, a shot was fired from a clump of bushes near the roadside while the President and a friend were returning from a horseback ride last Saturday. The report of the shot came from close at hand, it is said, and after the first shock of surprise which caused the President to urge his horse forward, Mr. Roosevel turned abruptly about and prepared to

dismount and rush on foot

thicket. He was dissuaded by his friend. however, and together they galloped away to Sagamore Hill. No information at all regarding the incident came from the President's home or the executive offices here but it appears from the story as later told, that Camille Weidenfeld, a New York bank-er, was driving with Mrs. Weidenfeld in the vicinity and was a witness to the occurrence. The Weidenfelds were in : public carriage and their driver, also is said to have heard the report of the shot and to have witnessed the excited actions of the President and his com-

panion, which immediately followed. After vainly trying to reach President Roosevelt late this afternoon, a crank, armed with a big revolver fully loaded, was arrested only a few yards from Sagamore Hill by secret service men and taken to the Mineola jail. The crank, who admitted he was once in an that he had to see the President. It was only by good luck that the crank did not shoot one of the secret service men, as he attempted to draw his re-

volver just as he was seized. The detectives say it is possible that the crank may have fired the shot last Saturday. man gave his name as The

EAST ST. LOUIS, Ill., Sept. 7 .-- After having terrorized the citizens of Edgemont for two days and nights, Chub Otin, a miner, was shot and killed today by Charles Berger, owner of an ice cream parlor. Otin began drinking heavily Saturday night and had since stalked the streets making threats of trouble. Entering Berger's ice cream parlor he attempted to slash Berger with a razor and was shot dead. Berger immediately surrendered to the police and was taken into custody. Otin came from Mystic, Ia., two years ago. It is said l wife and two children in Iowa. It is said he had a

RAILROAD GIVES POINT. Canadian Pacific Will Take Back Strik-

ing Mechanics on Scale of Reconciliation Board.

WINNIPEG, Manitoba, Sept. 7 .- The Canadian Pacific railway has decided to take the mechanics, who are on strike, back to work this week in their old positions on the wage scale agreed upon by the majority report of the board of conciliation held in Winnipeg, pending a further investigation by a second board on some points now in dispute. This indicates that the decision of the Canadian Pacific railway is an unexpected concession by the company as 100 British mechanics are expected to

arrive this week for distribution among the shops in the west.

WILL EXAMINE THAW.

Pittsburg Creditors to Meet Him Unless Authorities in New York Prevent His Departure.

PITTSBURG, Pa., Sept. 7 .- Unless prevented by the New York authorities Harry K. Thaw will come to Pittsburg Friday morning, September 11, to be examined by his creditors in his proceed-ings in bankruptcy. If Thaw should leave New York, there is some question as to whether or not he could be returned to that state where he is being held as an insane patient.

KILLED IN AUTOMOBILE

Paris Fletcher, St. Paul Attorney, Meets Death in Accident at Minneiska. Minn.

ST. PAUL, Minn., Sept. 7 .- A telephone message from Minneiska, Minn., sixteen miles from Winona, says that Paris Fletcher, a wealthy and prominent attorney of St. Paul, was killed today in an automobile accident. No further details were received. Mr. Fletcher was a member of the law firm of Clark and Fletcher.

The "Hochzeitbitter."

In northern Germany a familiar figure of the rural district is a quaint old gentleman, whose hat is very much decorated with flowers and parti-colored rib-bons, and who carries a staff, to the top of which is ticd a huge bunch of real or artificial flowers knotted to it by long to the district, his costume also is old-

fashioned and unusual in other ways. He is the "Hochzeitbitter," or person employed among the country folk to go from house to house and invite guests to attend a wedding. He delivers him-

FIRE IN STOCK YARDS.

Two Buildings Belonging to Chicago Armour Plant Furnish Spectacle During Night.

国动动

CHICAGO, Ill., Sept. 7.-With falling walls crashing, heavy iron girders twisting in the intense heat into serpentine shape and the glare of flames visible for miles, two of the largest buildings of the immense plant of Armour & Co. at the stockyards became a mass of fireswept ruins in less than an hour last night.

Even before all the companies sum-moned by the alarms arrived walls be-gan to fall and all of one of the build-ings had collapsed. The structures destroyed were the woolhouse and fertilizer plant. Other large buildings in proximity to the two were saved only through the hardest work by the fighters.

Injury to firemen attended the falling of the walls and the property damage is estimated at \$500,000.

SCALES HIGH MOUNTAIN

Annie S. Peck Succeeds in Second Attempt to Climb Mount Huascaran in Peru.

LIMA, Peru, Sept. 7 .- Miss Annie S. Peck of Providence, R. I., the mountain climber, has succeeded, on her second attempt within a month, in reaching the summit of Huascaran. She calculated that the height of the summit is 26,000 feet. A Swiss companion of Miss Peck had a foot and both hands frozen, which caused gangrene to set in, and an Indian guide was miraculously saved from death after falling a thouhand feet down a ravine. This last attempt of Miss Peck to scale the Hyascaran was begun on August 29. Two weeks previously she climbed the mountain to a height of 25, 000 feet, but was compelled to return to the lowlands on account of the illness of one of her guides.

An airgun of large size, working on the principle of the pneumatic hammer, has been devised for killing animals in a humane manner.

of time.

1

of the cases ended fatally. The statistics show that the average duration of time between the inoculation and the appearance of symptoms is eight days, though in one case symptom appeared in three days and in another not for sixteen days. When once symptoms appear the progress of the disease is rapid, and the inevitable death come quickly, thirty-six hours being the average time before death.

"Blanks" Worst Offenders.

Blank cartridges are responsible for 76.3 per cent. of all cases of tetanus, 5.3 per cent. more than in 1907, and 16.3 per cent. more than in 1906, showing apparently a relaxation of the way against this particular instrument of ourth of July slaughter. Giant crackers blank cartridges, cannon, gunshot, powder, etc., have in the last five years caused tetanus as shown in the following table:

В	lank	Glant	Can-	Fire-	Powe	ler,
eart	tridg	e.cracker	. non.	arms.	etc.	Total
1903	303	17	5	3	27	415
1904	74	18	5	1	7	105
1905	65	17	4	2	13	104
1906	54	17	1	7	10	80
1907	52	8	6	4	3	72
1908	58	5	4	3	6	76
T+ in	of	acnostal	intoro	et to	note	in the

table, which shows the total number of cases of tetanus, that in 1903 406 died out of a possible 415, while in 1908 only 55 died out of a possible 76. This is the record in which the American Medical association glories.

Where Tetanus Is Absent.

The causes of deaths not due to tetanus, as they have been recorded for the last four years are shown in the follow-

FOREST FIRES NEAR HOUGHTON.

Flames Sweep Through Portage Lake District-Much Damage Done. HOUGHTON, Mich., Sept. 5.-[Special.]-Forest fires raging in Hough-

lense pall of smoke, occasioning much larm. Investigation shows there are no fires within eight miles of town to the east, but south of here the woods are burning within three or four miles of habitation. Millions of feet of timber has been burned and many farms are in

danger of being wiped out. DEADWOOD, S. D., Sept. 5.—Fifty men spent yesterday and last night fight-ing a forest fire which threatened to sweep down the gulch into the town. The fire reached a point last night with-in half a mile of the city and threatens much damage unless it is soon checked.

OLD INDIAN CHIEF DIES.

David Krotch of Pottawatomie Tribe Was 90 Years of Age.

MENOMINEE, Mich., Sept. 2.-David Krotch, the last chief of the Pottawato-mie Indians, died at the Indian settle-ment of Hannahville in this county, 90 years of age. He had been closely identi-fied with the history of the Upper Peninsula and was the son of Na-Sah-waquat. He signed the treaty with the United States government ceding the lands of the tribe near the southern shores of Lake Michigan to the white settlers after the Black Hawk war in

Storm Sweeps Upper Peninsula.

HOUGHTON, Mich., Sept. 2 .- A terrific windstorm, having at times the pro-portions of a cyclone, swept over the entire Keweenaw peninsula and portions to the Bethlehem Steel company. It is of Lake Superior yesterday. Lake Susaid that the entire New York end of perior and Portage lake were lashed to fury and a number of vessels took shelter in Lily pond.

SNAKES' EGG HATCHING.

will be centered at the steel company's office, 100 Broadway. Mr. Schwab was at Bethlehem yesterday, and no one at his office or at the office of the steel company would talk about Mr. Schwab's plans. Mr. Schwab has a two years' lease on his office at 111 Broadway. It is known however, that Mr. Schwab is Tip on Reptile's Snout with Which It is known, however, that Mr. Schwab is negotiating for a suitable residence in Bethlehem and that he will take a lease on it for at least a year, his present plans being made for only that length of time. Breaks Its Way Out.

Because of the popular aversion to the serpent family there is a surprising amount of ignorance about even the simplest of snake habits. It is doubtful it many correct answers could be given to the question whether snakes lay eggs or bear their young alive. As a matter of fact, some species are viviparous and others oviparous. Most of the poisonous snakes, as well as many of our harmless varieties, belong to the former class. The European ring snake is closely alied to our common water snake and goes by the scientific name Tropidonotus natrix. Curiously enough, all other mem-bers of the genus Tropidonotus are viviparous, and this species alone lays eggs. Furthermore, according to Gadow's "Am-phibia and Reptiles," the new laid eggs usually show not the slightest visible sigh of an embryo, unless eviposition is de-layed, when the embryos are more or less developed. The eggs are laid in July or August in

a soft bed of loam or decaying vegeta-tion, or in a heap of manure. The older snakes sometimes lay as many as a doz en eggs or more, and they usually stick together so that the entire cluster can be picked up at once. Sometimes, however,

An alloy that gives off showers of sparks when struck with metal-igniting not only gas, but alcohol soaked wicks-was a recent accidental discovton county during the past few days ery of Auer von Welsbach. It consists sprang up afresh during the night and of iron with cerium, lanthanium or this morning Houghton and the entire Portage lake district was enveloped in a descent cas mentals and the spating descent gas mantels, and the sparking is found to reach a maximum with the percentage of iron at 30. A use for igniting explosives is suggested.

Acting on the instructions of the Russian war minister, a number of engineers and other experts are engaged near the town of Zlatoust in construct-

ing the necessary buildings and placing apparatus for a wireless telegraph system between St. Petersburg and Vladivostok. Communication will take place through Kassatooy, which is the highest summit of the Ural Mountains, near Zlatoust, where the state iron and steel works are situated. The engineers recommend the erection of a high tower

for the transfer of messages. The only serious difficulty hitherto encountered is that of obtaining sufficient electric power, seeing that the number of machines is inadequate.

on us, we may think, "What a wonderful sight the continents and oceans of the earth would present if we could view them from the moon !" But according to the conclusions of C. G. Abbot, the director of the Astrophysical Observatory of the Smithsonian Institution, a man on the moon would catch but fleeting glimpses of the outlines of our continents. "The true radiating surface of the earth, as a planet," says Mr. Abbot, "is chiefly the water vapor at an elevation of 4,000 meters (13,000 feet), or more, above the sea-level." In consequence, the man in the moon would see the features of the earth dimly outlined in the glare of light reflected from the atmosphere.

Mr. W. F. Denning, the English astronomer, who is particularly known for his studies of meteors, points out that the meteoric shower radiating from the constellation Aquarius during the first week in May seems to be composed of particles following the path of Halley's comet. If this is a fact, he thinks these meteors should become more numerous as the comet approaches perihelion, probably in May, 1910. The Leonid and Andromedid meteors, both of which follow the paths of comets, congregate more thickly near their perihelia. Mr. Denning also remarks precincts report, the vote of Berge is get ets, congregate more thickly near their that since the Aquarid meteors are vis-

CONTEST M'CURDY WILL Son and Three Grandsons Allege That

Michigan Man Was Mentally Incompetent.

CORUNNA, Mich., Sept. 5 .- The last will and testament of the late Hugh McCurdy, the "grand old man of Manry," is to be contested.

Objections to the probating of the instrument have been filed in the probate court by the son. Attorney John T. Mc-Curdy of this city and three grandsons, Edward Marshall of Detroit, Hugh Mc-Curdy Eaton of Akron, O., and Clifford H. McCurdy of San Francisco.

Under the provisions of the will the grandsons were to receive legacies of \$100 each and the son even less than that sum. The widow was bequeathed an annuity of \$800, while the residue to the estate was left in trust to the Masonic grand lodge of Michigan, the in-come to be used for the maintenance of Masonic home at Grand Rapids.

The contestants aver that they will show that the testator made about seven wills in the last ten years and several in the last two or three years and several he made two codicils to the will during the year preceding his death. They will contend this fact coupled with the small annuity left the widow tends to show that the testator's mind was not sound and that he was incompetent to make a

Cosmopolitan of Pittsburg Ordered to Suspend by Comptroller of

the Currency.

PITTSBURG, Pa., Sept. 5.-The Cosmopolitan National bank of this city. located at Liberty and Sixth avenues. suspended operations today. A notice posted on the doors reads:

Closed by the order of the Comptroller John B. Conningham, examiner, in charge While not a large institution, it is : fair sized one, and the suspension caused considerable excitement. A few mo ments after the notice was posted on the doors, a large crowd collected in front of the bank. John McClurg is president of the bank

and D. J. Richardson is cashier. Ac-cording to a report this morning. Mr Richardson, in a telephone conversation with one of the largest depositors said knew of no reason why the banl should be closed as the institution had from 40 to 45 per cent. reserves on hand The report of the condition of the bank made at the close of business July 15 1908, shows the resources and liabilities are \$1,912,520,38; capital stock paid in \$500,000; surplus fund \$100,000 and un divided profits \$55,582.53.

DEFEAT FOR DAHLMAN.

Returns Leave No Doubt About Democratic Gubernatorial Nomination in Nebraska.

LINCOLN, Neb., Sept. 5.-Incomplete eturns from fifty-one counties out of ninety, give A. C. Shallenberger of No Alma, 8027 votes on the Democratic nomination for governor; Mayor J. C. Dahlman of Omaha, 6971; George W ting close to that of Dahlman and he may be second man in the race. Shallen ible nearly every year, they must. like berger is maintaining a good lead and the Perseids, form a complete ellipse probably will have a plurality of 5000

RAWHIDE'S LOSS HEAVY

Entire Business Section of Mining Town Is in Ruins-Loss Is

\$1,000,000.

RAWHIDE, Nev., Sept. 5 .-- The fire which broke out in Rawhide yesterday left the entire business section of the town in ruins, either from the flames or from dynamite used to stop the progress of the fire. The loss is estimated at \$1, 000,000. At least 1500 are homeless, and there

At least 1500 are nonless, and there is a scarcity of provisions. Although all the main buildings of the place are destroyed, none of the mining properties surrounding the town were hurt, and the work in the mines will go n as usual. Relief trains from Reno and other Ne-

vada cities have been rushed to Rawhide. The first arrived last evening, and there was a great rush for food. Nearly every person in the place had been without food all day.

No lives were lost in the fire, although many persons were slightly injured. Dur-ing the progress of the flames everyone the own co-operated with the fire d partment. Ten persons were arrested, suspected of looting, but there was little partment. or no confusion after the fire had worked course.

Dynamite was used to blow up build-ings in the path of the fire, but a strong wind was blowing and the fire spread south and east to Balloon Hill avenue up Rawhide avenue, and to within fifty yards of the hospitals.

Ideal Weather at Sea Girt Make Riflemen Look for Good Work

on Range.

SEA GIRT, N. J., Sept. 5 .- Ideal conditions for shooting prevailed today, the second day of the big Sea Girt shooting tournament. One of the most im-portant events of the tournament, the interstate regimental team match for the interstate regimental team match for the costly trophy presented by United States Senator Briggs of New Jersey, was in-augurated today. It was open to teams of six men each from the army, navy, marine corps, military and naval acad-emies and national guard. In addition to the trophy the winning team will re-ceive \$50 and medals for the members.

SLAUGHTER OF THE BIRDS.

They Are Disappearing by Millions to Supply Millinery Trimmings.

It is said that Paris milliners alone consume every year about seventy thousand seagulls. One single dealer sold during the last twelve months 32,000 humming birds and 800,000 pairs of wings of every description.

A writer in The Gentlewoman calcu-lates that more than three hundred million of birds are sacrificed to the vanity given employment at different times to of women in the so-called civilized coun-tries and the result of the slaughter sued 17,675 publications.

Bryden's Gift to Be Like Chicago Monument.

The accompanying illustration shows the Burns monument at Chicago. The statue is the same as that which will surmount the Burns monument which James A. Bryden has commissioned for Milwaue, but the design of the pedestal is en-

tirely different. Lovers of art who have seen the drawings and model of the pedestal for the Milwaukee monument, the work of Julius E. Heimerl, pronounce the proportions perfect.

WANT MELODRAMA PRESERVE.

Reservation Planned in Wild West to Inspire Authors.

ST. LOUIS, Mo., Sept. 5.-Congress will be asked to set aside a reservation in the most picturesque part of the middle west for an inspiration for melodramatic authors, and for scenes for com-ing melodramas, if the plans of David E. Russell, manager of the Imperial theater here, do not miscarry. Russell, with several other managers, throughout the middle west, wants the melodrama preserved, with all of the reckless blood-

shed of the early frontier, for coming generations. A meeting of melodrama managers has been called to meet here soon. The managers incidentally will discuss the advisability of picking some town as a sort of "dog," to try the new pieces on, and elevate the thrillers to come, by having them true to nature, geographically and scenically.

-Since its establishment the depart ment of agriculture has cost the United States more than \$200,000,000. It has

if the process of laying is slow, they will be separated. The eggs are about an inch long and of a whitish yellow color. The shell is thin and flexible like parchment.

The young hatch in late summer or The young hatch in fate summer of autumn. Before hatching they develop a sharp calcareous growth on the tip of the snout known as the egg tooth, with which the shell is slit open. Unlike which the shell is slit open. Unlike hatching chicks, which are suddenly dispossessed by the breaking of their brit-tle shells, the young snakes make many incisions in the parchment envelopes and take many peeps at the outside world before venturing forth into the new environment. Shortly after hatching the egg tooth is lost.

At first the young live on insects and worms, but within a few weeks they are strong enough to attack and devour young frogs. Strangely enough, although the adults are strong swimmers, and spend much time in ponds and streams hunting the fish and frogs on which they subsist, the young are unable to swim, and they will soon drown if they fall into the water. The European ring snake, as well as the American water snake, makes an excellent pet; it is perfectly harmless, becomes very tame, and learns to know the difference between friends and strangers. Gadow tells of a pet ring snake that would eat from his hand, crawl up his coat sleeve and coil itself contentedly on his arm.—Scientific American.

CONFESSION OF A HUSBAND.

And How He Found His Niche in the World.

"Where youth is coupled with intellirence illusions pass rapidly away. Early in my married life it dawned on me that I was going to be at home for a long realized that my tenure in busitay. family, were insignificant in their im-portance when compared with this new relation I had established. I saw that it was the greatest contract I had ever signed. I was also becoming conscious of my relative insignificance in the general scheme of things. It happened less likely that I should be called away to dig the Panama canal, and more and more probable that I should continue in the daily performance in inconspicuous

"Out of all this there came to my wife and me the realization that the greatest chance within our reach lay right there in our two by four house. If the world was unappreciative of our un-paralleled talents, the world could go hang. We'd use them ourselves. "And so we set out to surmount all

"And so we set out to surmount and difficulties. We haven't done that yet, but we have made a start. I have culti-vated my wife's relatives until I have come to the conclusion that they are practically as desirable as my own. My wife has pursued the same attitude to-ward my relatives to the point where

them than I do myself. "We never quarrel in the sense that we harbor and nourish feelings of hate. Sometimes we talk loud, but we keep on talking until our voices run down and become so amiable that it is both safe and restful to break off. I can listen to the reading of choice poetry, and my wife can pretend that she enjoys the dog show. I can sit through the play 'Ham-let,' even keeping my seat while that lunatic Ophelia is on the stage. This is my great achievement, but it is more

than matched by my wife, who can sit with her back to the wall and appear to be calm while I read aloud Edgar Allan Poe's story of how the rats bothered that fellow in jail."—American Magazine.

A prominent scientist describes the electric fish of the Nile, of which the Egyptians made pictures thousands of years ago, and which still inhabits the waters of that river, as being provided with an electrical organ that incloses the whole body. It is situated in the skin, and when viewed with a micro-

scope is seen to be composed of about done here. 2,000,000 beautifully formed little disks. superposed upon connected rows of minute compartments in which are the terminals of nerves. The shock is produced by an intense current that traverses the entire organ from the head to the tail of the fish, returning through the surroundings. It stuns small fish

in the neighborhood. The authority quoted likens its action to that of a self-loading and self-discharging gun. The electromotive force of the organ in a fish only 8 inches long can, he asserts, attain the surprising maximum of 200 volts. A single glant nerve-cell at the head of the spinal column is the source of the impulses that discharge

the organ. She Worked the Snake Cure. Novel crimes are occasionally committed in Paris, as, for instance: An old gypsy woman called on a doctor living in the Place Pierriere and asked him to visit her daughter, who was

lying ill in a caravan on the fortifications near by. "I have tried the serpent cure," she said, "but there was no result. If you will allow me to pay your fee in advance I shall be sure you

will come."

The doctor consented, and the old woman handed him a \$100 note. As he was getting the change out of the safe she again mentioned the "serpent rure" and he asked her what it was. "This," she said, and, taking a box from under her rags, she turned half

out of the room. When he returned with a stick he found that the woman and the snakes had vanished, while all

she thinks more favorably of some of He still held the \$100 note in his hand, but this proved to be a forgery.

The Brainy Bunch.

Mr. Sinic-Do you see those three people walking together down there? Mrs. Getup-Yes; who are they? Mr. Sinic-One is a somnambulist, one is a kleptomaniac and one is a plagiarist.

Mrs. Getup-Law sakes! I never dreamed we were going to meet so many brainy people in a bunch .-- Kansas City Newsbook.

The average man isn't ashamed to do a lot of things that he would be ashamed to be caught doing.

San Juan, Porto Rico, Alarmed at Shock,

but No Damage Is Done.

SAN JUAN, Porto Rico, Sept. 5 .-An earthquake shock was felt here at 12:15 o'clock this afternoon. The people of the city were very much alarmed and many of them rushed from their houses into the streets. There was no repetition of the quake and calm was soon restored. No material damage was

Street Railway Accident at Oshkosh-Infant Is Disemboweled When Struck.

OSHKOSH, Wis., Sept. 5.-[Special.] William Neitzel, aged 2 years, was run over and instantly killed by a street car at 11:30 o'clock this morning. The accident happened on Ninth street, near the corner of Michigan street. The ca struck the child with force, breaking hi back and almost completely disember ing him.

Indian Chief Was Once Exploited by Populist as Example of Government "Persecution."

NORFOLK, Neb., Sept. 5 .- Standing Bear, a famous Ponca Indian chief, i dead at Niobara. He was once exploited dead at Niobara. He was once exploited in Boston and other eastern cities by Thomas Tibbles, former Populist vice presidential candidate, as a martyr to government "prosecution." Tibbles dressed Standing Bear in silk hat and corresponding attire.

Ripon Gets German Methodists.

NEW SHORT STORIE

When Grant Came Home. While Major General Oliver Otis Howard was stationed at the headgrand Indian gathering and dance will quarters of the department of Columbia at Vancouver barracks General Grant, with some of his family and friends, returning from his trip around the world in 1879, made the commandant and his wife a call. They gave him and his party an evening reception, General Howard says in his recently published autibiography, having invited public men from the territory of Washington and the state of Oregon to meet him.

During the reception that evening Governor Ferry of Washington territory in an informal address in behalf of the citizens welcomed the general and his friends to the Pacific coast. The general, standing with his hand

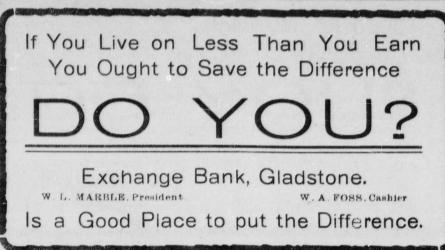

upon a chair, blushing like a young

FOR THE LADIES.

The Sorrowing Mother.

Last night I dreamed he came to me; I held him close and wept and said. "My little child, where have you been? I was afraid that you were dead." Then I awoke; it almost seemed As though my arms could feel him yet. I had been sobbing in my sleep; My tears had made the pillows wet.

I cannot think of him at all As the bright angel he must be, But only as my little child Who may be needing me.

Do not make him grow too wise, Angels-ye who know: I am dull and slow to learn, Toiling here below. Do not fill his heart too full With your heavenly joy. Lest the mother's place be lost With her little boy.

Last night the air was mild: The meeter of or me to do, Before my lessons here were done And I was ready, too.

Those may dare to doubt who have Their loved ones here below; For me, I do not now believe, I do not hope-I know.

-Katherine Pyle, in Harper's Bazar. -0-1-0-

The Marriage Vow.

Sitting the other afternoon in the calm serenity of the meeting house to witness a Quaker wedding, I was driven to compare the simplicity of the undertakings of the bride and bridegroom with the marriage vows imposed upon all Protestants, and particularly in re-gard to the woman's vows of obedience. Who was it, one wonders, who first inserted those little words, "and to obey," in the marriage vow of the Protestant bride? A celibate prelate, with-out doubt, for it is an old adage that bachelors' wives and old maids' children are obedient!

But to return to the Quaker wedding. The young couple simply rose in their places at a meeting for worship, and. taking each other by the hand, declared in a solemn and audible manner to the following effect: The bridegroom first: "Friends. I take this my friend, C. D., to be my wife, promising, through divine assistance, to be unto her a loving and faithful husband, until it shall please the Lord by death to separate us." And then the bride in like man-'Friends, I take this my friend to be my husband, promising, ner: R

In many districts of China water be comes very scarce during the summer months. Some of the fearful results of the drouth are described thus by Rev. John McGowan: "The great sun blazes down from an unclouded sky and drinks up the water that is clinging to the purely scientific basis the choice of a with the fervent heat and roots of the rice. The soil now cracks with the fervent heat and every blade of rice seems to be making an appeal to the heartbroken farmer for the water that alone will enable it to live. He is now at his with one to live. He is now at his wit's end to save his crop, for that, perhaps, is the only thing now that lies between him and poverty and despair. A failure of the crop means very likely that he will have to sell his daughter or a son, perhaps, or even bar-ter away his wife, if he would keep the homestead from slipping from his grasp. Some of the most pitcous scenes, in the many tragic ones that cast their shadow over the home in the experience of the Chinese husbandmen can be witnessed during the summer months when there has been a shortage in the fall of rain. The wells have become dry and the little ponds have been drained of every drop of water they contained. The rice in the field has lost the dark green color that with its rich sheen tells of health and vitality and is turning into a sickly yellow that means decay and death. Water must be got now, and at any price, for two or three days more of this will see the grain blasted in the fields. They accordingly dig the ponds So far we have complete deeper to catch the tiniest rills that may flow into them, and as the work in the by the man and the woman, but in the former service of solemnization the wife is admonished to "fear her husband." Still, she may use her discretion as to acting on this advice; she makes no yow of oblediance. Both husband and wife Often these most nather the sky. of obedience. The petition cited in strict legal phrases that the fowls construct legal phrases that the fowls con-stituted a serious nuisance by reason of their crowing and cackling between the hours of midnight and 6 a. m. Chief of Police Harry Gallagher has received a communication from a man in Bev-erly, Mass., who wishes to aid the anti-noise crusade. He told the chief that a sure way to stop the roosters from crow-ing is to place them on roosts too high to allow them to stand upright in their He says that roosters cannot coops. He says that roosters e crow when compelled to stand crouching position. The

Fred Holland, a deaf mute subject to epilepsy, who sells popcorn in Water-bury, Conn., for a living, has been mar-ried in Lynn by a magistrate to Agnes Sexton, a mute and an invalid who has spent much time near Revere beach in hopes of gaining strength. She was never fully same or capable of taking are of herself, it is said. Boston authorities had taken steps to have the marriage annulled. Holland says: "When I met her she told me in our sign language she would like a husband, and I told her I would like a wife, and we

vere engaged for a day, then married." Six thousand and two hundred dollars was paid for one \$5 and one \$10 gold piece at auction in Philadelphia, Pa. Both were coined privately, but were at the time of their issue legal money and contained the required weight of virgin gold. J. J. Conway & Co. of Colorado coined the \$5 that brought \$3200. - 1 bears the date 1861. The other coin than stamped by the Cincinnati Mining and Trading company of California in 1849. It was bid in for \$3000.

Because he was compelled to pay \$300 to compromise a breach of promise suit, William Hitesman, a wealthy and ec-centric bachelor of Hartford City. Ind., has gone insane. Hitesman lived with his brother, another bachelor, and his father, and when his father became ill it was necessary to employ a young woman servant to look after the housework. The young woman asserted that Hitesman made her a proposition of marriage, which she accepted, but Wiliam denied it, and finally paid \$300 ather than face a hearing in court. He prooded over the matter till his mind gave way, and application has been made for his admission to the Easthaven hospital. The compromise in the breach of promise case was effected in Squire

Fargo's court, and Fargo is now facing a charge of unprofessional conduct, pre-ferred by the Blackford County Bar association.

John Simcox, a farmer of Clinton, N. J., says he will never again believe what he reads in a magazine about chicken raising. He read in a magazine recently that if weasels were put in chicken yards, rats and other enemies of the oung chickens would immediately van-Thereupon Simcox produced several weasels and made them as comfortable as possible. He placed food for them in convenient places, as the magazine said if food was provided for them the weaswould not interfere with the chickens The barns were soon clear of rats and mice and everything went well until A Marriage Ceremony Consisting of yesterday, when Simcox went out to feed his poultry. Lying in his yard, dead,

twenty-two of his finest chickens were In the chicken house he found eleven white Leghorns lying dead on the floor. Simcox went to Montclair and bough three traps to catch the weasels.

Leppo, the wild man with the Metropolitan show in McDonald, Pa., became crazed the other evening when lightning struck the big tent and in his fury attacked John Dudley, a negro, and tore

J., died at Spring Lake, where Miss Olmstead has a summer cottage, and was taken to Morgistown in a sealed casket and buried in the dog cemetery on the Olmstend place. Miss Olmstend accompanied the remains to the grave and sprinkled a little dirt as the box was lowered into the hole. There are a number of graves in this cemetery, There are all of Miss Oimstead's lost pets. She was for many years at the head of the local S. P. C. A.

"I meet Yasuzo in Osako, and my father say I marry him. I do. We come to San Francisco. He hires me out to another man. He takes me to Tacoma. Chinese woman tells me that I don't be a slave in America. I run

away in the night and come to Seattle." That was the story told by Mutsu Ruzubara in Judge Arthur E. Griffin's department of the superior court in Seattle, Wash. 'The diminutive Japanese girl, who is not yet 20 years old, is seeking a divorce. Rev. Y. Yoshioka, the Japanese clergyman in charge of the Japanese girls' mission, was detained at the last minute and on consent of all parties a further bearing of the cause was continued.

The crew of the whaler Bowhead, owned by H. Liebes & Co. of San Francisco, mutinied at Fort Clarence, mear Nome, Alaska, and for an hour there was a fierce fight Alaska, and was a fierce fight Tames A. Tildon between Capt. James A. Tildon and his officers and the twenty-two members of the crew. The captain finalby won, and the crew is now in irons. The mutiny followed an attempt to de-stroy the vessel by fire. The crew had become sullen, and wanted to be put ashore to rush to the gold fields. Upon the refusal of Capt. Tildon to comply with their demands they set fire to the ship, and it was several hours before the officers and a few loyal sailors were able to put out the fire by hard work at the pumps.

A chance meeting in the opera house at Bartlesville, Ok., where both were de-tained by a rainstorm, soon will culmi-nate in the wedding of John Francis O'Donnell of Chicago, lecturer and actor, and Miss Anna E. Mallaun of Cincin-bati. Miss Mallaun took part last win-ter in an entertainment given under the direction of Father John of the Bartles-ville Bones. Catholic checks. direction of Father John of the Bartles-ville Roman, Catholic church. Mr. O'Donnell was also on the programme. "Oh. my, how shall I ever get to my hotel?" cried Miss Mallaun as she heard the rain falling.

O'Donnell's answer was to order a cab. They met formally a few days lat-er at the priest's home and were soon deeply in love. It was planned to have Father John perform the wedding ceremony in time for them to go on the lec-ture platform together September 1, but Father John is in Europe. They will be married at Conception Abbey, in Nodaway county, as a dispensation has been granted by the bishop of this diocese, this being necessary owing to the lack of time to publish the banns as required by the new rule of the church.

COLD WATER WEDDINGS.

Washing the Head.

Marriage among the Hopi, a tribe of the Pueblo Indians, is an institution re-garding which those most concerned have least to say. When the parents of a girl find it expedient for her to get married, they look up an available man and nego-tiate with his parents.

After the matter has been arranged the principals are notified, the girl goes to the home of the bridegroom's parents and grinds corn for them for three weeks, while the bridegroom makes a kind of sosh for the bride. Then one morning at sunrise they both bathe their heads in cold water, which completes the ceremony. These have been instances of the bridegreen refusing to go through the per-formance, says a writer in Outing. It has then proceeded without him and been accounted valid, and several weeks later he has yielded and had his head bathed. The Navajo ceremony is much more elaborate and impressive, but then the Navaje girls are much nicer. The regular tariff on a Navajo girl entering the port of matrimony for the first time is twelve borses. On the second occasion the tax is nine herses, while subsequent marriages are free. This is not purchase money, but is merely a tribute of respect to a mother-in-kaw and a token of appreciation of and rearing the lady, a recognition not unworthy of consideration by civilized bridegrooms. On the other hand, and deserving of great condemnation, is that law of many tribes, unwritten but of much sanctity, that a man and his mother-in-law shall never meet after the cere-BRODY.

ner when he returns from his toil. The bridegroom, in addition to the promise of faithfulness, gives a pledge to work for the support of his wife. In the Jewish marriage, therefore, the greater ob-ligation is required from the man.

The Greek church does not impose a marriage vow of obedience. The ceremony is very long and exceedingly ple-turesque, but the actual vows are short and simple. At the espousal, or first "office," those who are to be married stand before a table and place their right hands upon the Book of the Gospels. The priest says to the bridgeroom: "Wilt thou have N. to be thy lawful wife and promise her fidelity, love, help and kind treatment all thy life?" and the man answers: "I will have her and I prom-

"Wilt thou have M. to thy lawful husband, and promise him fidelity, love. help and kind treatment all thy life?" And she answers: "I will have him and promise equality between the vows undertaken in a wedding which I recently witnessed the elder sister of the bridegroom perthe elder sister of the bridegroom per-formed the duties. She exchanged the rings and the crowns or wreaths of the bridal pair, and stood to them as sponbridal pair, and stood to them as spon-sor. The dignity of the matrimonial coronation of the Greek church is equal be-tween the man and the woman. Both Good News for Wives.

who hails them thus: "Be thou mag-nified, O bridegroom," and "Thou, O bride, be magnified." At one portion of the service the bridal pair advance to her consent, even if the patient be a stand upon the sacred carpet, and, according to popular tradition, the one the operation performed. He quotes the who first gains the carpet will rule. The following case: bride, therefore, gets her chance.

The Roman Catholic church does not impose a marriage vow of obedience. The bridegroom says: "I take thee, N., to my wedded wife, to have and to hold. from this day forward for better, for worse, for richer, for poorer, in sickness and in health, till death do us part, if holy church will it permit, and thereto I plight thee my troth." The bride like-wise repeats: "I take thee, M., to my The bride likewedded husband, to have and to hold, from this day forward, for better, for worse, for richer, for poorer, in sickness and in health, till death us do part, if holy church will it permit, and thereto I plight thee my troth

In the Church of England marriage service the pledges exchanged by bride and bridegroom are identical with quoted above from the Roman Catholic Missal, with the exception that the worde "according to God's holy ordinance" are substituted for the Roman band is no legal substitute for the conformula "if holy church will it permit," and the notable addition of the words 'and to obey" in the pledge of bride. Is it possible that Henry VIII. The Independent Child. suggested the interpolation of the marriage vow of obedience on the part of the woman when convocation was re modelling the service boo kat the Reformation? Did the royal bluebeard though able to walk, will manifest a desire to see all the wives of the country marked degree of independence, se placed in subjection because Queen Katharine had proved refractory regard- little, usually going after what they ing the divorce? Or did the idea originate with Archbishop Cranner, who thought that his royal master's wives wree causing the country trouble? wation of their homes -0--

Prof. Alfred Clum in the Cleveland Medical Journal says it has now been definitely decided that it is illegal to operate on any patient without his or married woman whose husband wants

"A woman, the subject of epilepsy, consented to some minor operation on the pelvic organs, which took place in the hospital. She left the hospital, saying that she would consent to no further operation. She was induced to return, and a major operation was performed. * * There was some evidence that the anesthetic for the operation was ad-ministered to the patient when she was asleep. The surgeon testified that her husband had given his consent to the second operation. The court held that whether such consent was obtained or not was unimportant, because the wife's consent was necessary. A verdict was given for the plaintiff with exemplary damages-\$3000. On appeal the verdict was upheld, and the court regarded the operation as a mutilation which the surgeon had no right whatever to perform. This case is the precedent in the American courts that the consent of the hussent of his wife when she is the subject of operation."

"In each case the counselors to whom the applicant comes make careful examination as to the education, experience resources, and limitations of the person under consideration. Personal terviews, printed helps, tests of charac ter, memory, and temperament are given. and as careful an analysis of each case as is possible is made. On this the apflicant is devised as to what is best.

"In the choice of a vocation it must be realized that three broad factors have to be considered—a clear understanding of your aptitude, abilities, intervourself. was ests, ambitions, resources, your limita-tions and their causes; a knowledge of the requirements and conditions of suclady. cess, advantages, disadvantages, compensations, opportunities and prospects in different lines of endeavor, and true reaoning on these group of facts. We help

on all three counts. "It is unfortunate, but it is true, that in a very large part the young of what are called the working classes take up trades and callings through accident. A boy is through school and wishes to go to work. He hears of a place in a store or goes to the big stores and office buildings looking for a place. He may get a start that will lead him to success in ome line, or he may not. Or some friend r relative gets him a place in some of-

e. store, or factory. "Boylike, in most cases, he is looking for the largest immediate returns, with the not infrequent result that when he is man grown he is capable of earning much less than his brother who took up some other calling, or one to which he was adapted. The poor mechanic, the man with a trade but minus skill, is the natural result of this method of selecting a calling. It spoils good black smith material to make poor printers and puts men with good mechanical abil-ity into the mercantile lines.

One of the most important things in life is the selection of one's life work. What is intended is that help may be given to the end that a proper choice may be made."

Red Blood and Blue.

Three-year-old Allan had a very aris ocratic grandma, who prided herself on her own and her husband's blue-blooded ancestry. She told him heroic deeds of

with boys of low degree. One day Allan came screaming upstairs to his mamma and grandma, hold ing his hand up covered with blood. where he had cut his little finger. They were both greatly alarmed, as he was child who rarely cried or complained when hurt. Mama washed the blood off and, examining the cut, said:

"Why, dear, it's not so very bad. Does t hurt you so much?" 'I'm not cryin' 'cause its hurts." he

said, "but 'cause it's red blood, and grandma said I had blue."-Philadelphia and Ledger.

The heads of animals carved in stone which form the gargoyles along the cor-nice of the new elephant house at the Bronx park zoo in New York, are used by wild birds which build their nests in the park. One pair chose their nest site on the top of a rhinoceros head near the south end of the building. Another nest is under construction on the top of one of the carved elephants' heads. The sparrows are arranging the dried grass stems between the elephant's trunk and he forehead.

"Jack" Burgess of Riverhead, one of the best known hotel keepers on Long island, has on exhibition a 24-pound lob-

sted that was caught in a big ocean trap net off Montauk point. Old lobster fishermen say the monster is one of the largest ever seen here, and it must be 200 years old. It has huge claws, and measures more than twenty inches from nos to tail. Tuthill brought it to Riverhead and presented it to Burgess. It is still alive, but many of Burgess' friends expect soon to be invited to a lobster sup per. They may be disappointed, as it probably will be shipped to the New York Aquarium, Supt. Spencer of that them and warned him from ever playing with boys of low degree.

in waters similar to its native habitat.

Men in triumph and women in pity gazed at an object in the basement of the church over at Sayville on Long island, where the annual fair is being held. The men said: "Ain't it a corker?" and and the women gurgled, "Oh, the poor, dear, liftle thing, and it followed its mother. didn't it?" The object was a 100-pound turtle, just one-quarter the weight of the that fishermen here shelly creature appearances," asserted Capt. Hank Hor-ner, "I guess this is a baby of that big one we got. Boys, I'm sorry. Honest, I guess he was searching for his wayward guess he was searching for his wayward mother when he fell into the trap." The captain's pity did credit to his heart. Nevertheless, the pocketbook counts. Both turtles were carved in a Manhat-tan fish etall tan fish stall.

Rubber tires for trolley cars, muzzles for crowing roosters, and mufflers for automobile horns were discussed at the last meeting of the town council of Montclair, N. J., when a long petition was presented from Victor S. Mulford, Frederick S. Gage, Mrs. Catherine Tem-W. L. Oliphant, and sixteen other

Hanging by his toes from a trapezo bar, Philip Graesser of Pittsburg, was found unconscious in the gymnasium of his home. For some time he was be lieved to be dead, but was finally resus citated, and physicians say he will re cover.

Graesser, who is 19 years old, is be lieved to have hung from the trapeze for two or three hours. He was practicing on the bar and when he achieved the feat of hanging by his toes he became cious. The muscles of his feet be mained rigid and prevented his falling.

Equine fizz is a new refreshment con-cocted by John Farson, the Chicago banker, who will introduce it at the Oak Park horse show next month. The drink combines the colors of the Horse Show association-red, yellow and black-each color occupying a third of the glass. Mr Farson says that the new "fizz" will siz zle more than any like product on the market and will sparkle like a rainbow in the sunlight. It will be served at booths on the grounds during the fair. The Chicago Tribune says it is not related in any way to the old time drink called "a horse's neck."

Henry Benkenbush of Crookston Minn., has just been the hero in a thrill-ing rescue that had its climax in his marriage a few minutes later to the girl

he saved. Although Mary Rustad's life was not in danger, her future happiness was menaced by the determination of her parents to prevent her marriage to Henry. Henry and his fiancee laid their heads together-figuratively, of courseand plotted to elope.

According to plans and specifications. the wedding party was to meet in the business district and go in separate groups to the home of Miss Minnie Boe, deputy of the clerk of courts' office However, this became known to the wary parents and they arrived on the scene. Henry saw them from afar. By careful maneuvering he managed reach the side of his bride as she approached the home of the Polk county leputy, and rushed her back to town

where they appeared before Judge Mc Lean, and the knot was tied. The girl's parents, having been out-witted, then departed to their home and

forthwith forgave the bride. Rob Roy, an Irish setter, owned by Miss Maber Olmstead of Morristown, N.

Mules Come Up from the Mines.

With compressed air and electric motors the Reading Coal and Iron company is every month disposing of some of its vast army of mules, which up to this time have furnished the haulage power in the interior of its big collieries. Some of these nules worked underground for many years, and the dazzling sunlight temporarily blinds them when brought to the surface. The unprecedented steady work at the anthracite mines the last three years has been very hard on the mules, who have been accustomed to pe-riods of idleness during which they fattened up and get in good condition to stand a siege of heavy work. Electricity as the metive power in mines has now passed the experimental stage, according to officials of the big coal companies, and it will be but a short time until the long eared animals will be a rarity at the operations in this section. Many of the old miners, however, regard the exit of the mule with sadness. Ever since the opening of the first anthracite opera-tion the mule has furnished a picturesque accompaniment to the rugged ery, which the fussy little electric motors cannot supply. The stoical demeanor of the mule under all the dangers of the mine also supplied an element of courage which the miners will miss very much.— Shenandoah Cor. Philadelphia Record.

Harmful Vacations.

"Phese summer vacations do me a lot of good," said a physician. "Every one of them is worth \$5 in the doctor's pocket."

"How do you mean?"

"I mean that the average vacation harms instead of benefiting. Take the case of the average clerk. Pale and thin from an indeor, sedentary life, he rush-es for two boiling August weeks to the seashore. There, under the burning blazing sun, amid the soft purring of inunder the burning. numerable mosquitoes, he bathes, boats, fishes, walks and flirts all day, and all the evening he bowls and dances and firts again. In a word, he conducts himfirts again. self like a Hercules instead of like the pale, thin, puny clerk he is.

"What's the result? The clerk returns from his vacation run down instead of built up, and I begin prescribing tonics for him

have one in preparation .-- The Bohe mian.

DENVER, Colo., Sept. 8 .- Four men ost their lives and a score of persons were injured, several of them seriously in a fire that gutted the Belmont hotel, a three story building at 1723 Stout street, this morning. The dead:

MOORE, EDWARD, aged 55, real estate igent, Philadelphia, killed by jumping. KANE, JOHN D., Colorado Springs, suffoeated.

BODE, GEORGE, Middletown, N. Y., died at hospital of injuries sustained by iump

OTT. GEORGE, Dodge City, Kan., died at hospital of injuries sustained in jump-

List of the Injured.

The injured:

William E. Leads, brakeman, badly burned about face and breast, will die. Mrs. W. A. Lanham, badly burned about the face and entire body.

W. A. Lanham, hands and face burned. . Bawden, city clerk of Silverton, two scalp wounds, jumped from second story

O. E. Klinger, printer and formerly pro-prietor of the Silverton Standard, back wrenched in jumping from second story. Charles F. Stewart, candymaker, left wrist broken and bruises resulting from umping from third story window.

Melvin Parker, Hillsdale, Mich., serious burns on face, arms and legs. Mrs. Lydia Parker, badly burned and bruised.

Edward Kelsoe, hands and face burned.

Thomas Taylor, pipeman Engine No. 5, broken ankle. Jumps from Third Story.

Moore jumped from a third story win-low and his brains were dashed out when he struck the pavement. He came to Denver for his health about six nonths ago from Philadelphia where he had been engaged in the real estate business. Burtell was suffocated to death. He was a Pullman conductor.

Fireman Saves Ten Lives.

Patrick Treadwell, a fireman of Cripple Creek, Colo., who was stopping in Belmont when the fire started, is credited with having saved at least ten lives by inducing entrapped guests to jump from the upper story windows across a 5-foot alley to the roof of an adjoining building and catching them in his arms. More than a score of persons jumped from windows before the department arrived.

Work of Incendiaries.

In the opinion of officials of the fire lepartment the hotel was set on fire. A rigid investigation is in progress. With-

to the invasion of the east by William J. Bryan, members of the Democratic national committee held a counsel of war today and for several hours studied over the plans for the Democratic cause. While the national committeemen were n session, there were conferences of the advisory and finance committees and late today all three committees joined in a general conference in which Mr. Bryan took a leading part in the deliberations. While no definite announcement has

been made it is generally believed by stational committeemen that the effort to have Mr. Bryan take the stump during the entire month of October will prove auccessful.

CHICAGO, Ill., Sept. 8.-Preliminary

Hear of Taft's Plans.

With the announcement that Mr. Taft will make a speaking trip through the middle west and the east, the Demo-cratic leaders believe that the fight should be forced all along the line until election day and that to that end Mr. Bryan should continue his speaking trips until the campaign ends. National com-mitteemen from the far west are trying to prevail upon Chairman Mack to send the candidate to the Pacific coast states, but whether Mr. Pryan will make the long westward swing will depend in measure to plans made for Mr. l'aft's stumping tour.

Bryan Offers Advice.

Chairman Mack said that the confertoday would be confined princioally to an interchange of ideas of the various committeemen on the plans lrawn for the campaign and that Mr. Bryan would offer his advice and counsel before their adoption. The commit-tees will try to stimulate further public nterest in the Democratic precinct clubs as the most potent factors in bringing about the election of Mr. Bryan.

INDEPENDENTS NAME TICKET.

Minnesota Party Selects Candidates for Fall Election.

ST. PAUL, Minn., Sept. S .- At meeting of members of the Independence party of Minnesota last night, the following state ticket was selected which will be put before the voters at the election in November:

Governor-Wm, W. Allen, St. Paul; lieu-tenant governor, Roscoe B. Higbee, St. Paul; secretary of state, J. G. Waterson, mayor of Scanlon, Minn.; attorney general, Labor T. B. Power, St. Bueul; trecorner Ar John T. P. Powers, St. Paul; treasurer, An-drew Nordlow, Willmar; chairman state central committee, Roscoe B. Higbee; sec retary state central committee, Arnold Joerns, Duluth.

ANTWERP, Sept. 7.-The police here today arrested Count De Toulouz-Lau tree on the charge of cashing stolen coupons. The count protested against his arrest, claiming to be an American citizen and displayed naturalization papers issued in the state of Illinois. An investigation showed that he had recently been released from Siberia after having been extradited from Bremen and having also been expelled from Spain.

Has Long Record.

Nicholas E. Savine, also known as Count De Toulouz-Lautrec and Prince Savine, has a long record of adroit swindles in various parts of Europe and is also known in the United States. When arrested at Bremen three years ago and taken to St. Petersburg to stand trial on a charge of swindling. Savine told a romantic story of his adventures and alleged persecutions, and appealed to Emperor Nicholas, in return for the services of his ancestors and himself to Russia to free his name from the cloud hanging over it, and permit him to rejoin the army, of which he was once an officer, and served against the Japanese in Manchuria.

Naturalized in Chicago.

He asserted that he was naturalized an American citizen in Chicago, April 27, 1898, and in his petition to the Emperor then set forth that he was de scended from a long line of counts and princes who intermarried with the noble French family of Toulouz-Lautree.

Savins in his youth was an officer in the aristocratic chevalier guards and left the service owing to falling into the hands of usurers, but later was allowed to serve as a volunteer in the Turkish war of 1877. He recounted in detail a long series of trials on various charges. which, he declared, were the result malevolence of his enemies, as chief of whom he named ex-Minister of Justice Muravieff, now ambassador at Rome.

Escaped from Siberia.

The final result of these charges was

MYSTERIES OF SONG SLANG.

Onions Are Akin to Sentiment in the Music Hall World.

neaning of a "Spanish onion song?" This strange phrase-one of the many

to be found in the professionals' dictionary of slang-is used to denote the music hall ballad, and owes its origin

thetic reference to "dear old mother" or 'somebody's sweetheart far away." Now, pathos draw tears, and so do onions. The rest is obvious, says the

These ballads are also known by the name of "Give me your kind applause songs," a title which is also applied to ditties whose duty it is to draw attention to some misdeed on the part of the

Artists, too, always allude to the last ong they sing as their third song, though in many cases it may be their econd or their fourth.

"Breathers" are so called because the unfortunate artist who sings them has no chance to breathe unless, perhaps,

he surreptitiously drops a stray note here and there and thus draws a few molecules of air into his lungs. These songs-of which "The Irish Christening" is an example-always have at least five long verses, which are run one into the other and sung without a break of any kind.

A type of song which is designed with the express purpose of deceiving the audience is the "cod ballad." With great ingenuity the composer begins his verse in a highly sentimental tone, when, just as the audience is commencing to search for its pocket handkerchief, a sudden turn is given to the words and every one realizes that he has been tricked. The whole thing is, in fact, veriest parody. "Mingle your eyebrows with mine, love," is a case in point.

At the present moment the music hall world is searching high and low for concerted numbers, which form 9 per cent of the seaside. These are merely solos, rewritten to form trios, quartets or quintets for Pierrots and outdoor theatrical troupes. while "extra business' is added to suit requirements.

Motto songs, which are increasing in popularity every day, will also, it is expected, help to pass the hours for the loungers on "those yellow sands." These ditties always point an excellent moral. The "production number" is a term

which needs some explanation. It means that the song is elaborated or featured" with chorus girls and is produced" on a more elaborate scale than the ordinary number. It also requires special scenery, with effects.

Soubrette songs give the idea of songs always sung by soubrettes. They must, however, fulfill certain other requirements. The chorus, as in other ongs do not remain the same, the couplet in every case being differently

SUCCEEDS COL. VILAS. Magnus Swenson Is Appointed Member

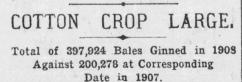

of State Capitol Building Commission.

MADISON, Wis., Sept. 8 .- [Special.] -Magnus Swenson was today appointed by Gov. Davidson a member of the capitol building commission to succeed the late Col. William F. Vilas. The term is at the pleasure of the governor. Mr. Swenson begins his duties today when he will meet with the commission to consider bids for the east wing of the new capitol. Although many names were suggested to the governor of men who would serve on the board, the many tal National bank of that city and ad-friends of Mr. Swenson urged that he dressed to Joseph M. Meyers at the was the best man to take the position Portland hotel in this city, containing was the best man to take the position which had been so ably filled by Col. Vilas.

That the package reached Portland from Salem on the Southern Pacific Magnus Swenson was born in Norway, April 12, 1854, and came to this county He entered the university in in 1868. 1875 and was graduated from the en-gineering course in 1880. The following three years he taught chemistry in the university and then engaged in the sugar industry as a chemical engineer. He is now recognized as one of the best chemical engineers in the country. Since 1890 he has been a manufacturer of special machinery for chemistry.

He invented the American cotton press and also a number of other contrivances used in the refining of sugar. He has been one of the directors of the Ameri-can Cotton company of New York.

A few years ago the governor appoint-ed Mr. Swenson a member of the board of university regents. At the present time he is president and general manager of the Southern Wisconsin Power com-

WASHINGTON, D. C., Sept. 8 .- A total of 397,924 bales of cotton ginned from the growth of 1908 to September 1, and 6613 active ginneries are announced in the census report on cotton ginning issued today. This is against 200,278 bales at the corresponding date in 1907; 4030 active ginneries; 407,551 bales and 6628 ginneries in 1906, and 476,655 bales

6628 ginneries in 1906, and 476,655 bales and 8629 ginneries in 1905. These fig-ures count round as half bales. The re-port includes 20,514 round bales for 1908; 11,503 for 1907; 21,855 for 1906 and 22,231 for 1905. The report also carbraces 1,324 sea island bales for 1908; 85 for 1907; 63 for 1906, and 1165 for 1905

A Rural Financier.

"Bill, you go out an' clear up 'bout ten acres o' new groun', whilst John gits 'bout twenty acres ready fer cotton, an' Dick lays off sixty fer corn, an' 200 fer watermelons; then, saddle the mule with the mortgages and lay in a year' provisions, an' I'll stay home an' figger jest how fer we'll be behind when the year's out."—Atlanta Constitution.

The Higher Criticism.

Critic-Now that your play is to be actually produced, you can surely give

Judge-You'd better be careful or 1 shall commit you for contempt of court The Lady-Don't be 'ard on me, yes worship. I'm a-doin' me best ter conCherry History.

It is still asserted in school books that cherries were introduced to England by the "fruiterer" or green grocer of Henry VIII.; also, that they were not common for a hundred years after that time. This is an error. Mr. Thomas Wright found the name in every one of the Anglo-Saxon vocabularies which he edited. So common were they and so highly esteemed that the time for gathering them became a recognized festival-"cherry fair" or "feast." And this grew into a proverbial expression for fleeting joys. Gower says the friars taught that "life is but a cheryefayre," and Hope "endureth but a throwe, right as it were a cheryefeste." There is more than one

record of the purchase of trees for the king's garden at Westminster centuries before Henry VIII. was born. But Pliny contradicted the fable, as if in prophetic mood. After telling that Lucullus first brought cherries to Rome (from Pontus, in 680 A. U. C.), he adds that in the course of 120 years they have spread widely, "even passing over sea to Britain."-Cornhill Magazine.

Fatalities.

"Yes," said the beauteous young thing, "when I asked papa if I might go mountain climbing he took my head off. But I had my own way, of course, and finally the crowd got start. ed, and you know they made me put on a lot of wraps and things that simply suffocated me. And about half. way up I slipped and fell over a cliff and broke my neck! Indeed, yes, And when they had lifted and pulled me back on the trail I absolutely died from pain. But before long I was able to go on to the top, but by the time we were almost there I collapsed and sat down, for I could never breathe again. But they made me pull myself together and in time we got to the summit, and there it was se cold I froze to death! Oo-ooh! And] was glad, I can tell you, when we came down at last, and as soon at they got me home I went to bed, dead from exhaustion."---Independent.

All Signs Fail.

"You seem to need rain very badly." "Yes," answered Farmer Corntosse in a tone of patient resignation. "We've done our best, but it doesn't do any good. We've given one Sunday school picnic after another, left the rockin chairs an' hammocks an' buggies out over night an' painted all the building fresh. But none of the things that used to bring rain seem to work any more !' -Washington Star.

OBEDIENT MOORISH CHILDREN. Show Great Respect for Parents-Their Training.

A French lady, Mlle. Mathilde Zeys, has recently visited Morocco, and at the present moment Parisians are deriving instruction and entértainment from her work, "Une Francaise au Maroc." Children in Morocco, she tells us, are brought up to show the greatest respect and def-erence to their parents. A Moorish child never enters his father's presence unless called. He kisses his father's hand and similarly greets any friends who may be SOME

Only on rare occasions does he take the child has but one dish, which is sent utside to him after the parents' meal. Although the discipline seems severe, Moorish parents love their children dearly, and it is a pretty sight to see a swarthy Arab with rugged features play-ing with his children in front of his house. The girls have a monotonous time, spent at their mother's side. At the age of 5 the father takes his little son to school. He carries with him

little son to school. He carries with him a present to the master, or "fokih," and me sweetmeats to cheer up the little ap for the first few days. At the end hap of the first week the parents give a par-ty to signalize the boy's entry to school, and all the small boy's friends, who have a half holiday for the occasion, are

invited. The learning from our standpoint is hardly worthy the name, and if a little Moor does not show aptitude for study the parents soon take him away from school and put him to a trade. Still every boy is supposed to read and write. Study, such as it is, is literary, rather than scientific. Moorish scientific ideas are not only antiquated, but often false. Religious scruples forbid deep study in schemietre and natural philosophy Medichemistry and natural philosophy. Medicine is only in a most rudimentary state. The study of anatomy is forbidden by re-

ligion and the Moorish surgeon is often the barber.—London Globe.

THREE CURES OF ECZEMA.

Woman Tells of Her Brother's Terrible Suffering-Two Babies Also Cured-Cuticura Invaluable.

"My brother had eczema three different summers. Each summer it came out between his shoulders and down his back, and he said his suffering was terrible. When it came on the third summer, he bought a box of Cuticura Ointment and gave it a faithful trial. Soon he began to feel better and he cured himself entirely of eczema with Cuticura. A lady in Indiana heard of how my daughter, Mrs. Miller, had cured her little son of terrible eczema by the Cuticura Remedies. This lady's little one had the eczema so badly that they thought they would lose it. She used Cuticura Remedies and they cured her child entirely, and the disease never came back. Mrs. Sarah E. Lusk, Coldwater, Mich., Aug. 15 and Sept. 2. 1%07."

Surprised the Parson.

In a logging camp a few years ago a man called Peter Grimes was accidentally killed and his widow was left in

rather poor circumstances. Joseph Breed, a particular friend of the unfortunate man, being somewhat of a carpenter, decided to make Grimes' coffin, and so cut down the funeral ex-penses. He told the widow of his inSTATES TO HELP NATIONAL BODY APPOINTMENT OF RESOURCE COM-

MITTEES BY GOVERNORS AIDS PRESIDENT'S PLANS.

HAVE RESPONDED.

And a Majority of the Governors Have Signified Their Willingness to Co-operate in Work.

REPORT READY BY JANUARY 1.

State co-operation with the national conservation commission seems to be an assured success, if the action of the governors thus far can be taken as an example of what is to follow. Both the commission and the white house are greatly encouraged at the responses of the governors who attended the white house conference. Several governors have already appointed state conserva-tion commissions. Many others have written the President declaring their in-tention to do so at an early date, while still others promise to recommend vigor-ously in their forthcoming messages to their respective Legislatures the appoint-ment of state commissions and active cooperation with the national body.

Governors Take Action.

Within less than thirty days after the appointment of the national conservation commission, four governors had advised the President of similar state action by themselves. Gov. Folk of Missouri, who announced at the white house conference his intention of naming a commission to deal with the natural ources of his state, has carried out his intention and Missouri's commission is xpected soon to be at work. Gov. Warner of Michigan has exlained to the President that Michigan

ilready has a forestry commission and a commission of inquiry into related phases of natural resources, which between them will be able to look after the natual resources of the Wolverine state.

West in the Lead.

Montana and Oregon were among the first of the states in the field with con-servation commissions. Under date of servation commissions. Under date of June 15, Gov. Edwin L. Norris of Montana wrote the President that he had appointed a commission "to suggest to our next legislative assembly proper ways and means to conserve and pro-tect the forests of Montana, and I anicipate that the commission so appointed by me will make valuable recommen-dations."

On June 19. Gov. George E. Chamberlain of Oregon notified the President that he had already appointed "a com-mittee on plans and programme for the movement of the conservation of re-sources, and that this commission is to the workman cut bars of steel into bits

Others Fall in Line.

Gov. J. Frank Hanly of Indiana writes that it is his purpose "in the near fu-ture to appoint a state commission." Gov. C . S. Deneen of Illinois says he will be pleased to appoint a commission for Illinois and will forward the names of the appointees. Gov. M. F. Ansel of South Carolina

Praises President.

together of the governors was one of the biggest things that has been done by any

President during my recollection, and is bound to result in great good to the na-

soon.

the reluctance of American manufacturers to sell at wholesale in small consign-ments, plus the limited consumption in Venice, and the American commercial idiasycrasy of requiring cash with order. If the retailer here could order the small quantity of American food stuffs which he sells directly from the producer e could save two or three profits and make prices on these goods which would tend to popularize them and to enlarge his orders in the future. "'But,' as one provision dealer said to

me, 'the American manufacturer wants to sell always by the ton. If I send him small order it is apt to be neglected, and as I must send a draft with it and lose interest on my money for the long time which elapses before the consignment can be put on sale I naturally turn to the wholesale dealers in Genoa or Milan and have to charge high prices in consequence.

HOW INVENTIONS WERE STOLEN. Precautions Taken Before Days of Pat-

ents to Preserve Trade Secrets. Before patents were granted for inventions, the inventor had but one way to secure a return from his invention.

That was to keep it secret. Secret inventions were the most val-uable possessions of many families and

that

a man named Bottger had discov ered the secret of making porcelain. He accordingly confined him in the castle of Albrechtsburg until the discovery had been perfected. The workmen were sworn to secrecy, and the drawbridge was kept up except to admit those spe-cially authorized. Thus was the manucially authorized. Thus was the manufacture of the famous Dresden ware begun. The secret was soon carried to Vienna, where a royal factory was established, and to France, where it was

the foundation of the manufacture of the famous Sevres pottery. The stealing of the secret of making "cast steel" is an interesting example. A watchmaker named Huntsman was dissatisfied with the watch springs the

market afforded, and in 1760 conceived that if he could cast the steel into an ingot, springs made from it would be more homogeneous. His conception was successfully carried out, and a large market was established for "Hunts-man's ingots." Large works with tall chimneys were soon built.

Every effort was made to keep the No one was admitted to the The process was divided, and secret. works. persons working on each part were kept in ignorance of other parts of the work. One bitter winter night a man, dressed as a farm laborer, came to the door apparently in an exhausted condition and asked admitcance. The foreman, de-ceived by his appearance into thinking asked the man was incapable of understand-ing what he would see, let him in. The man dropped down in sight of the furnaces and seemed to sleep. the workman cut bars of steel into bits be enlarged and will act in co-operation with the national commission." the crucibles in furnaces and urged the fires to the highest pitch. The workmen had to protect themselves from the heat by wet cloths. Finally the steel melted, he saw the crucibles were withdrawn and the steel was cast into molds-and the secret was a secret no longer.-

TIPPING IN BOHEMIA.

In the city of Prague a tip to the tramway conductor is considered de rigueur. The orthodox tip consists of but two heller, or two-tenths of a penny, yet as "strap hanging" is allowed for in considering the carrying capacity of the car the conductors should have got a goodly pocketful of the minimum coin by the day's end.

Tipping, is was escertained in another of Bohemia's larger towns, is so fully recognized that the head waiter at a cafe pays a rent for his post, supplies all the journals for the coffee room and looks after the other waiters, and then makes an income larger than that of a university professor—all out of his tips. After supper at one of the delightful open air cafes of the capital it was found that approximately one should give a half krone (fivepence) to the head waiter who took payment, twopence to the under waiter who brought the viands, a half penny to the boy who brought and -and even brought again as one glass was finished-the beer.-London Chron-

American Industries.

At any rate, when a man is shaking hands with you he can't be picking both your pockets.

The easiest man to fool is the fellow who knows it all.

Even a white lie has been known to blacken a reputation. Bad luck doesn't bother the man who makes the best of it.

Some men are so dull that you couldn't get a rise out of them with an alarm clock.

A woman can't be expected to know now to manage a husband until she has had at least three.

When a girl refuses a fellow and he threatens to blow his brains out, it mere-ly proves that he hasn't any. It's a toss-up between the quitter and the fellow who never knows when he is blocd tion, and I believe if the governors will heartily co-operate with you, and your successor along this line that there will be great strides toward the preservation of our resources."

Some men seem to think that

of our resources." Gov. E. F. Noel of Mississippi says world owes them a debt of gratitude for simply being alive. Most men would like to be rich enough to feel that they could afford to marry To the extent of the power given me by our constitution and laws, I shall give my hearty co-operation, and shall for love. There are people who always impress

PEOPLE OF THE DAY WOMAN AND FASHION

A Summer Model. Chamberlain of Oregon. Blue ring dotted shantung is used

George E. Chamberlain, who won the primary election for United States in this effective summer walking frock. There is a double overskirt, and senator from Oregon, is the present the waist is made with a deep shaped governor of the state. His victory is yoke of tucked net. Darker blue is notable because he is a Democrat. and the Republicans carried every other of-

fice on the ticket As a result the legislature, which

will be overwhelmingly Republican. will be morally obliged to elect a Democrat to the United States senate. The anomalous situation that will prevall in the legislature is due to the fact that practically all the members elect-

ed to that body pledged themselves to send to the United States senate the

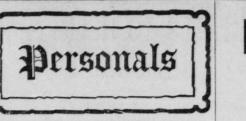

GEORGE E. CHAMBERLAIN

choice of the people as expressed by popular vote.

Candidates for the legislature aligned themselves either in the "statement No. 1" column or in the "statement No. 2" column. "Statement No. 1" is a pledge to support in the legislature the candidate having the indorsement of the people. Statement No. 2 merely recognizes the popular vote as a recommendation, which may be disregarded. Governor Chamberlain if elected by the legislature will succeed Charles W Fulton, Republican. His victory is in the nature of a personal triumph. Oregon is normally Republican, and in 1904 Roosevelt's plurality was 43,434. Chamberlain has twice been elected governor, his present term expiring in 1911.

Handicapped by Her Husband. Lady Mary Glyn, the wife of the bishop of Peterborough, was recently sitting in Peterborough infirmary by the bedside of a maidservant who pions, but English nainsook is the had been taken from the palace suffering from burns. At a neighboring bed an evangelist was speaking to another patient. Mistaking Lady Mary for the girl's mother, he approached her with a handful of tracts and the words:

Senator Fuller returned from Detroit Monday. He speaks highly of the state fair and says that it is worthy of attention from this peninsula. It is far sup, erior this year in every respect to all previous efforts.

A son was born Friday, September 4, to Mr. and Mrs. William C. Praiss. Rev. H. H. Harris went to Calumet

Monday to attend the state conference. Returning, he left Friday with Mrs. Harris for their new home at Evanston. George Springer leaves Saturday for Minneapolis to resume his studies at

the University of Minnesota. James Young met with a painful accident while working on the framework of the Buckeye mill Wednesday. He stepped off the timber and fell, breaking two ribs.

Henry Staples was in the city Friday m business. M. Lewin went down to Nadeau Wed-

nesday evening. Invitations have been issued for the

marriage this evening of August Gronlund and Sanna Ohman at Wasa Hall. R. B. Baird will spend next week at

the Chatham store, looking after the business there. Mrs. Thos. O'Connell left Thursday vening for Chicago. With Mrs. Power,

he will spend ten days in that city. Frank Bendure and family left this norning for Chicago, and thence proably to Indiana.

Claus Anderson and John Olson are expected home tomorrow morning after their summer's visit in Sweden.

J. H. Norton was removed this week to the Newberry hospital for treatment. M. Jacobs leaves for Chicago Sunday night, and will return later in the week. after arranging for a considerable purchase of men's clothing.

Dr. M. F. Stever and family, after a vear's residence in Gladstone, have returned to their old home in Thompsonville. Mich.

Mr. and Mrs. Jos. Cook, of Woodlawn, visited relatives here Sunday, Monday, and Tuesday.

Mr. and Mrs. Wm. Grills left Wednesday morning for an extended visit in ower Michigan. Barney Goldman returned Sunday

Register.

Marquette, Mich. August 14, 1908. NOTICE is hereby given that Gust Nelson, of Escanaba, Mich., who, on July 23, 1908, made Timber & Stone Sworn Statement, No. 0145, for nw1/4 of sw1/4. Section 24, Township 41 north, Range 25 west, Michigan Meridian, has filed notice of intention to make Final timber and stone Proof, to establish claim to the land above described, before Clerk of the Circuit Court, at Escanaba, Mich., on the 30th day of October, 1908.

Claimant names as witnesses John Moe, John J. Ackley and Louis Anderson, of Escanaba, Mich., and William Swainston, of Woodlawn, Mich. JAMES J DONOVAN,

First publication August 22, 1908. MORTGAGE SALE.

WHEREAS, default has been made in the payment of the money secured by a mortgage gear of the Greek and Roman types. dated the fifth day of March, A. D. 1903, executed by Solomon Lancour and Libbie Lancour his wife, of the township of Masonville, Delta county, Michigan, to Benjamin Meloche, of the city of Escanaba, in said county and state, which said mortgage was recorded in the office of the register of deeds, of the county of Delta, in Liber T of Mortgages, at page 161, on the 20th day of April, A. D. 1903, at 3 o'clock p. m.

And whereas, the said mortgage has been duly assigned by the said Benjamin Meloche and Alexina G. Meloche his wife, to Thomas Kennedy, of Escanaba, Delta county, Michigan, by assignment, bearing date the 10th day of August, A. D. 1905, and recorded in the office of the register of deeds, of said county of Delta, on the 13th day of August, A. D. 1906, at at 10:30 o'clock, a. m. in Liber V of Mortgages, on page 30, and the same is now owned by him. And whereas, the amount claimed to be due on said mortgage, at the date of this notice, is the sum of four hundred and eighty-four dollars and forty-nine cents, of principal and interest, and the further sum of one hundred and three dollars and fifteen cents, for principal and interest, for taxes paid upon the lands described in said mortgage, which said mortgagors had defaulted in the payment of and which, by the provisions of said mortgage, is made an additional lien upon the premises in said mortgage described; and also the further sum of twenty dollars, as an attorney fee, stipulated for in said mortgage; and the whole amount claimed to be unpaid on said mortgage is the sum of six hundred and seven dollars and sixty-four cents; and no suit or proceeding having been instituted at law, to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become opera

Now, therefore, notice is hereby given, that by virtue of the said power of sale and in pursuance of the statute, in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, to the highest bidder, at the canaba, in said county of Delta, on the seventeenth day of November next, at ten o'clock herself of the experience of the best of the forenoon of that day; which said premises are described, in said mortgage, as follows

The south half $(S_{2}^{1/2})$ of the north half $(N_{2}^{1/2})$ of section six (6), in township forty-two (42) north of range twenty-one (21), west of Michigan Meridian, in the township of Masonville, Delta County, Michigan, and containing one hundred and sixty acre

Colonel Stewart's Case.

The case of Colonel William F. Stewart, second ranking officer in the coast artillery corps, U. S. A., has attracted wide attention within and outside military circles. Official correspondence shows that last fall Colonel Stewart was removed from his command in Florida and sent to Fort Grant, Arizona, an abandoned military post. The

officer was assigned to this isolated point because he refused to apply for retirement, as instructed to do by the

war department. From hines and unofficial admissions by war officials it appears that the
