#### BASEBALL NEWS.

The baseball directors have appointed Dr. James Mitchell manager of the Gladstone team, and plan to play a series of games through September, in extension of the season schedule. The resignation of John Loell from the team was received Thursday, and Edward Frendenberg has been appointed to succeed him as captain.

The Milwaukee West Park nine, after being defeated by Escanaba, canceled its games with Gladstone and Rapid River, returning home Monday

The Tigers had good success last Sunday, going over to Wells and beating the nine of that place by a score of 10 to 8.

The Tigers are scheduled to play the Tip Tops this afternoon, and Kiping tomorrow, on the grounds here. George Bilger, Gladstone's third baseman played with Negaunee Wednesday at that city.

#### Gems In Verse

IN MEMORIAM. His Majesty King Edward VII. Born 1841; died May 6, 1910. midnight came the majesty of Kings of the earth abide this

king's decree-Sudden, and kindlier so, to seal And set the spirit free

And now the peace he held most near his That peace to which his country's steps So well for us he played his royal part,

Broods o'er him lying dead. Thus passes Britain's crown from king to Yet leaves secure a nation's deathless Dearer than empire-yea, a precious thing,

All earthly crowns above.

-Owen Seaman in Punch.

THOU art not old, but ever new, O flag of freedom's cause! Fresh with the dew of patriot zeal, Age has for thee no laws. Our glory, young and beautiful, Flash forth thy golden stars And let the sunlight of the free Gleam all thy beauteous bars!

FLAG of a people young with life And free and strong and brave, Again shall conquering hosts march forth When thy folds o'er them wave. Again shall ring the battle cry. And then, our strength in peace, O'er bivouac fires and battling hosts Thy vigils shall not cease.

OUR flag, our glory, emblem fair Of the firm founded state; A nation eager for the fray 'Gainst tyranny and hate, A nation young as thou art young And ever fresh and keen, Hail to thy glory and thy youth, Thy field of starry sheen!

THY valiant colors blending sweet With the bright hopes we hold Of all the nation's strength may win in great deeds manifold. Hail to the flag that evermore Our glory still shall be, Fresh as the breath of dawn blown wind

SOMETHING IN A FLAG. THERE is something in a flag and a little burnished eagle That is more than emblematic—it

And symbol of the free!

is glorious; it is regal.
You may never live to feel it, you may never be in danger, You may never visit foreign lands and play the role of stranger, may never in the army check the march of an invader, You may never on the ocean cheer the swarthy cannonader.
But if these should happen to

when age is on you passing And your great big booby boy comes to ask your final blessing You will tell him: "Son of mine, be your station proud or frugal, When your country calls her children and you hear the blare of bugle

Don't you stop to think of Kansas or the quota of your county. Don't go to asking questions, don't you stop for pay or bounty, But you volunteer at once and you where orders take you. And obey them to the letter if they make you or they break you. Hunt that flag and then stay with it, you wealthy or plebeian. Let the woman sing the dirges, scrape the

lint and chant the paean.

Though the magazines and journals team with anti-war persuasion

And the stay at homes and cowards gladly take the like occasion.

Don't you ever dream of asking, is the war a right or wrong one?
You are in it, and your duty is to make the fight a strong one, And you stay till it is over, be the war a short or long one. Make amends when war is over. Then the

power with you is lying. Then, if wrong, do ample justice, but that flag-you keep it flying! If the flag goes down to ruin time will then without a warning Turn the dial back to midnight, and the world must wait till morning. -Eugene F. Ware (Ironquill).

PERSONALITY. How strange it is that they who know Each other's hours and haunts and

Who share in trust and friendliness The varied sequence of their days,

MAY never, whatsoe'er befall, Though with their utmost love they Read verily what lies behind

The curtain of a smile or sigh!

#### MARK TWAIN.

O long, old man!" It's hard to see you go. Dear gray old comrade with the boyish heart. The smile of summer and the hair of snow. The magic tongue that made the laughter start.

"So long!" You would not have us say "Farewell" As smilingly you cross the great divide, And we, despite the tolling of the bell, Smile back at you and brush a tear

"So long, old man!"-a quaint, familiar phrase, But somehow fitting to a friend like you Who cast enchantment o'er our childhood days.

A magic growing stronger as we grew; Who gave us Tom and Huckleberry Finn As boon companions of the pleasant And told us tales of many sorts to win The tribute of our laughter and our

"So long, old man!" You've vanished from our sight, And we shall miss that drawl, that lazy And we shall miss the eyes so full of Yet you will be here with us all the For Huck and Tom and Jim will still remain,
And Colonel Sellers with his golden

With them we shall not talk of you in "So long, old man!" Sweet rest and

#### Labor's Estimate of the worth of Hon. H. Olin Young, as

expressed in their journals.

The laboring man will be called upon Sept. 6 to make his choice for congressman from this district. A safe guide to follow is the expression of the leading labor journals on the worth of congressmen.

Here is what the Labor World, the eading labor journal of the United States, has to say of H. O. Young in its issue of May 19, 1910.

"The masses, and particularly the manual labor portions of them through-

country, have in H Olin Young themember of congress from the Twelfth district of Michigan, one of the ablest and the truest friends in Congress.

gress. Representive Young is one of the people in every respect, and the fact that he has continuously been returned to represent the district above named for many years is proof absolute as to the confidence those whom he represents have in him. When a man is returned time and time again without any intermissions to Congress, depend upon it there is something good and useful about him. This is true of Congressman Young of Ishpeming, Mich.

Congressman Young is a Republican of course and a true and stanch one. He is an advocate of the true and sound Rooseveltian policies and also an outand-out supporter of the Taft administration. He is a most able advocate and defender of just and reasonable labor measures and claims. He believes in trade union principles, and therefore organized labor should at all not the privacy of individuals, which times be ready to lend him every encouragement and support. His mind is broad and liberal and no truer man, nor one more faithful to the trust reposed in him and to the interests of the people in general event went to Congress."

And this from the Labor Leader, of Baltimore, Md., another prominent labor journal.

"Congressman Young represents the twelfth district of Michigan, where there is no doubt that his return is assured owing to the popularity he enjoys among his constituents. Congressman Young is a born orator. Not ingly well informed, and while his represents.

Congressman Young believes in the welfare of the workingman and the efficacy of organization when rightly guided, and at all times he appreciates the rapid advances labor has attained. Mr. Young is a most energetic worker in the interests of his constituents, and has secured many benefits for his

This gentleman understands the wage-earner, because he started in the mine himself as a weigher of ore."

#### DEGENERATE JOURNALISM.

Judge William F. Conolly in an address to the Catholic educational convention at Detroit said of the journal

He is the maker of public opinion; he is its guide when made; from day to day he pours into a million ears his views of life and policy. There is a peculiar reverence and credulity among the bulk of men for the utterance of the press. I marvel greatly sometimes to hear men assert the existence of certain facts because a newspaper has so stated sheriff, was in the city Friday afterthe facts. The printing press gives to noon in the interests of his candidacy.

the utterances of the journalist a weight and authority which he, speaking as a person, could never hope to re-

Yet what are the standards of modern journalism? Has not the commercial spirit largely neutralized, if not destroyed, its power for good? How often do we hear it cynically said that this or that newspaper is managed from its business office, or to state it with brutal frankness, to make money. What is the inevitable result? The old fashioned ideas of personal journalism are vanishing. Few journalists of the type of Greeley or Watterson survive. We have a new journalism which respects violates every rule of decent conduct and propriety, which plunders a man's private effects like a thief in the night, and blazons forth his stolen correspondence in the name of reform; a new journalism which would assassinate a reputation to sell a penny paper; a journalism without respect for law, human or divine. The liberty of the press has degenerated into license. The press itself has become a commercial institution. The modern newspaper which stands for high ideals of conduct carries heavy a handicap. Nor this condition entirely the fault of the journalist: be sure he has put away his ideal of molding public opinion to only is he eloquent, but is logical and just and true conclusions, and has deperceptive in mind. His knowledge of generated into a mere merchant of men and things generally is extensive. news and advertising space. But like On industrial questions he is exceed- the lawyer who sold his ideal from behoof of necessity or greed of gold, so sympathies lean towards those who the journalist has sold his ideal because earn their bread by the sweat of their the low moral tone of the community brow, he does not overlook at any time has permitted, yea, demanded, this the rights and interests of all classes he kind of journalism, and so, because the business office rules, the journalist panders to the passions of the mob.

#### FEARLESS FIGHTER.

However any one may disagree with him, as in his seventy-fifth year he dauntlessly stands up, facing his foes, daring them to come on, and, liking the fight, Joseph G. Cannon is a spectacle that warms the heart-cockles of every real American man.—Chicago Inter-

#### BRYAN LOSES OPTION FIGHT

NEBRASKA DEMOCRATS REFUSE TO ADOPT LEADER'S PLANK.

Vain, Despite Great Speech on the Convention Floor.

Grand Island, Neb .- Nebraska Democrats Tuesday night delivered a blow to William J. Bryan when by a decisive vote they registered their unbelief in his county local option plan.

Mr. Bryan had labored hard in the committee in an effort to have his ideas written into the platform, and after being defeated in the committee, he appealed to the convention and in this appeal made the speech of his life to a convention already instructed against him.

He pleaded to his old friends, begged them not to repudiate him unless they found him untrue to Democratic principles; he threatened statewide prohibition if county option was defeated; he denounced those Democrats whom he charged with being and he cajoled the uninstructed delegates to vote for him and his plans. to the most bitter words directed at him that he has ever heard.

report on the county option plank. a speech and reception at Ellworth. This minority report, signed only by New York makes it unlawful to Bryan himself, was short and to the grassy slope leading to one of the catch more than ten pounds of trout | point, saying simply: "We favor county option as the best method of deal ing with the liquor question."

be called the greatest effort of his able pain.

The sentiment towards Bryan was shown when, for more than an hour, the convention called upon different leaders to address it, but not a single one was made for Mr. Bryan. When the final vote was taken, Bryan's lank was turned down 645 to 195 NEGRO IS BURNED AT STAKE and a direct anti-county option plank inserted

#### GEN. WOOD PRAISES HEROES

GRAND TRUNK PASSENGER SERV-ICE ABANDONED AT SOUTH BEND, IND.

ORDER TROOPS TO BE READY

One Man Shot and Three Detectives Arrested-Attempt to Derail Train is Frustrated by Alertness of En-

South Bend, Ind.-Governor Marshall Sunday night ordered Capt. Charles B. Calvert, Company F, Third infantry, of this city, to hold his troops in readiness to assemble at a moment's notice. There was spasmodic rioting in the Grand Trunk yards all day by mobs of strikers and their sympathizers.

Grand Trunk officials announced that no attempt will be made to move any passenger trains through South Bend, orders having been issued to cancel all passenger service to or from the city. Advices from all along the Grand Trunk system is to the effect that strikers are quiet at all points except at South Bend.

Strikers, or their sympathizers, attempted to derail east-bound passenger train No. 8 at Olivers, the first station at which Grand Trunk trains stop when entering South Bend. The engineer saw the thrown switch just in time to bring his train to a stop and prevent heavy loss of life.

J. Freel of South Bend was seriously wounded by John Peck, a detective listed men. of Battle Creek, Mich., who with Eldridge Graham and William McReynolds, also of Battle Creek, are under arrest. Freel was shot in the back and is at Epworth hospital. A mob burned two cabooses and attempted to destroy several freight cars but the arrival of police and fire department

foiled the plan. A freight train of 50 cars was stalled for seven hours by some one cutting the air hose and taking the couplings, and it tied up five passenger trains. The police are authority for the statement that the stalling of the freight may not have been the work of strikers but of men in the employ of the company, the police believing that the move was brought about as a part of a plan to get state troops in the field and thus break the backbone of the strike by turning public sympathy away from the

A crowd of 1,500 to 2,000 men and boys, sympathizers, made an effort Monday night to burn a refrigerator car that had been switched on a crossing west of Oliver's Station. The quenching the flames after the car had and may be suppressed." blazed for 20 minutes or more.

It was evident that the trouble brewing early in the evening for the mob began to congregate at the junction of the Lake Shore & Michigan Trunk. As the crowd increased in size it moved west from Oliver's Station and when a freight train of seven cars and a caboose appeared on the scene an hour later it was greeted with a shower of stones, spikes and coupling pins.

As soon as the train was stopped at the west end of the yards the engine crew was attacked by several foreigners, but the arrival of Assistant Chief of Police Chappel and a squad of policemen routed the rioters for the time being. Mayor Charles L. Goetz of South Bend and Sheriff Millard F.

Kerr of St. Joseph county instructed D. Crombie, Montreal, first assistant to Grand Trunk chief of transportation, who has been in this city, that fill local police protection would be unless every Pinkerton detective was removed from the city. The private

detectives were withdrawn. Anticipating the possibility of trouble in the yards, Governor Marshall took time by the forelock and ordered the four companies of the First battalion, Third infantry, Indiana National Guard, located at South Bend, Plymouth, Warsaw and Elkhart under command to Maj. George W. Freyermuth of South Bend to hold themselves in readiness to move on to South Bend at 30 minutes' notice.

The governor ordered Gen. Will J. McKee, commander of the state militia, who is in the city, to remain in South Bend and keep in close touch with the strike situation. The battalion for the most part consists of experienced men, the officers with very few exceptions having been in the service for from five to ten years.

Mayor Goetz issued a proclamation arging all inhabitants to refrain from gathering in crowds on the streets and to assist in preverving order.

Freed to Help Harvest Crop. Georgetown, Ky .- A novel method to save the wheat crop of Scott county was resorted to when a number of farmers appeared before the county judge and paid the fines of ten pristo harvest the crop.

May Restrict Emigration. Pittsburg, Pa.—As a protest against working conditions in mines and mills of western Pennsylvania, it is intimated at the office of the Austrian cident was caused by the failure of consulate here that the imperial government may restrict emigration to this region.

COMMENDS OFFICERS WHO AVERTED SECOND EXPLOSION.

Lieut. Hawes Fights Fire With Bare Hands and Stops Further Disaster.

Washington.-Stories of valor and sacrifice in time of suffering and confusion were detailed to General Wood, chief of staff of the army, and other officials of the war department upon the return to Washington of officers who witnessed the explosion of the big gun in the first minute of battle practise at Fortress Monroe which resulted in eleven deaths.

These personal reports were augmented by further telegraphic reports from Lieut. Col. C. P. Townsley of the coast artillery corps, commandant of the fort.

Lieutenant Hawes is praised by the commandant for having extinguished with his bare hands burning material that threatened to ignite the second charge, which was on its way to the emplacement.

Conspicuous in the group of those whose heroic conduct attracted attention was Lieutenant Van Deusen, who suffered a broken leg from the body of one of his men being hurled against him. His body also was burned by gas. He was the timekeeper during the target practise.

Following the receipt of the reports General Wood sent a telegram to Fortress Monroe expressing his sympathy for the bereaved and suffering, and his appreciation of the "excellent conduct" of the officers and en-

The war department has begun a rigid investigation to determine the cause and fix the responsibility for the explosion of the gun.

#### RAWN WAS WORTH MILLION

Will of Slain Railroad Chief Filed for Probate-Widow Gets All-Home Under Guard.

Chicago.-To Mrs. Florence Willis Rawn, widow of the late I. G. Rawn. president of the Monon railroad, who was found dead last Wednesday in his summer home in Winnetka, is given all the property left by the late railroad chief, according to the terms of his will, filed with the assistant clerk of the probate court Monday. Mrs. Rawn is named executrix under the will. The estate is supposed to be valued at over \$1,000,000.

A guard has been placed in the Rawn home by Samuel H. Greeley, president of the village board of Winnetka, because he has learned that "material evidence as to facts concerning the city fire department succeeded in death of the railroad official have been in his honor, he spoke of "the ashes"

They or any two of them were out of proportion with his years.

Justice Fuller never pretended to voice the opinions of any one but himself and had no liking for the limelight. His position in Washington made it possible for him to fix his social status where he willed. He had no liking whatever for anything smacking of ostentatious display. On and off the bench he was the personification of judicial dignity. He possessed a sense of humor which he employed quietly and with effect. The subjects of his conversation were full of substance, scholarly and profound and rich in wisdom.

It was Justice Fuller who practically settled the fate of the Roosevelt propaganda for phonetic spelling. At the time when congress was daily receiving messages from the White House spelled in the new form of orthography and when the house of representatives was trying to nerve itself to the point of putting a quietus on this new system Justice Fuller quietly squelched its use in the Supreme president, to survey and by proper

#### PROBE BAD LANDS TITLES.

A report recently made to congress by a commission appointed to examine land titles in the District of Columbia now the judgment that Mr. Fuller disclosed that many lots of land occupled by modern business houses and residences in the national capital are still owned by the government, notwithstanding the present tenants believe they have a clear title to the property. For example, the Washington Gaslight company occupies a whole square on Twenty-eighth street, which is claimed by the government. A paving company occupies a large tract of land near Rock creek to which the government lays claim. A triangular piece of land, now occupied by many residences, is according to the report, the property of the government.

This question of land titles in the national capital is not a new one. Two years ago congress created a commission to study it. The commission consisted of the attorney general, the secretary of war, Senator Scott of West Virginia; Representative Bartholdt of, Missouri, and one of the district commissioners. The report reveals a horrible land tangle, which the courts will probably never be able to straighten out. The tangle is the outcome of the wild speculation in real estate that took place for a good many years aft-

Private lands were acquired in required, under the direction of the

## Advertising Talks

BY GEORGE S. BANTA

Modern Methods in Advertising

The man who says he knows all about advertising isn't worth listening to. And the man who is cock sure about even one phase of it is to be looked upon with suspicion. The man with experience will tell you, "It's funny, but you never can tell what will work." However, some advance toward a scientific basis for advertising has been realized. The future's work is to minimize the lost motion which practically every advertising campaign entails. Anyone can gain publicity for his business, but the science of it comes in doing the work at the least cost.

There is no disputing the proposition that the best way yet found to advertise is to hitch your signature to the news that the American people read with so much avidity. The careful advertiser also has a mailing list with which to reach his customers. This doesn't pay, you say. How do you know? Just send a mail order house a 15-cent order and you will get their circulars and catalogues the rest of your life. If a mailing list does not pay what fools these mail order people must be.

There are other methods of advertising, but they are often best adapted to a special field or special business.

Next to knowing what to do, it is well to know where to find out what to do. The man in your town who is giving the science of publicity more attention than you are is your newspaper man. If he is anything more than a 2 by 4 solicitor to fill space he can give you some good suggestions on the best methods for you to use. Ask him about it.

be long before you are the leading actually offered. merchant of your town.

#### Right Sort of Advertising.

"We have never lost a customer through dissatisfaction with our goods or prices," is the way a local clothing merchant advertised the quality and prices of his goods not long of the metropolis. They may be

This man has the right conception fair prices for them, assures everybody of complete satisfaction and spreads the news broadcast. His advertising says to a man: "Your friends and neighbors, the men you meet every day, are wearing clothes they bought from me. They have been coming to me for years for their clothone of them because I always give them a square deal."

This is the sort of advertising that reaches right down into a man's pocketbook and sells the goods.

This sort of advertising will sell your merchandise. Advertise your goods day in and day out, constantly playing up quality, service and fair prices, and back your advertising with your reputation, and you will win and keep the confidence of your customers.

#### Newspaper Advertising the Best.

by the great business enterprises in able. this country and Europe to be the best kind of advertising," remarked A. H. Defoold, of Wheeling, W. Va., to the Washington Post. "Nearly all the eminently successful business concerns owe a large measure of their success to the newspapers. This is due to the fact that they get more direct results than by any other method of advertising. It is also more satisfactory be- pen. cause advertisers are able to trace results from their advertisements in the newspapers where they cannot if they advertise only in other ways. It is impossible to estimate the amount of money spent in this country in gender suspicion. newspaper advertising. I know of one concern that spends half a million dol- that means what he says." lars a year, and doubtless there are others which spend larger sums."

Not an Expense.

Advertising is not an expense—it is an investment, and a permanent asset. It is an investment which will

#### Newspaper Man Who Solicits Advertis- Advertiser Who Resorts to Falsehood in His Announcements Will Not Reap Permanent Benefit.

John Wanamaker, the merchant the so-called "Willies" like the sleepy- prince of Philadelphia and New York, headed tired merchant who says it is has made the charge that the departtoo dull to advertise. Some mer- ment store advertising in the great chants actually sit around their stores, cities has fallen to a plane which borlook tired and do nothing, but bewail ders on an attempt to obtain money the hard times, and the newspaper by false pretenses. vest in advertising, not just a few dol- and only a percentage of those who ment, and see the results. It will not purchase when they see the goods

> But it is noticable that most of these superlative city advertisers have established "mail order" departments and are bending every effort to extend their business in this direction. The inference is that the great black faced type in the metropolitan Sunday newscalled to the store as a horse is led to the trough but they can't be made the bargains, any more than the horse can be made to drink foul water.

But the out-of-town resident who orders by mail doesn't see the stuff until it arrives. He may send it back, to be sure, but express charges both ways are a safeguard to the advertiser against this and the buyer makes ing; I have never lost the custom of to buy from his home merchant in the best of a bad bargain. He resolves the future—and a month or two later sends another order on the strength of another glittering advertisement.

The farmer has stopped buying gold bricks; eventually he and the resident of the smaller cities will refuse to send "mail orders" and will aid in getting better markets at home by giving their patronage exclusively to their home merchants. There is no profit for them in spending money on misleading advertisements which would only anger prospective customers. Deceptive advertising will die "Newspaper advertising is conceded out only when it ceases to be profit-

To be a thing as sacred and august some white altar where the angels We need the faith to go a path untrod, The power to be alone and vote with God. -Edwin Markham.

JULY 4.

SPREAD your bunting; hang your wreaths; Let your banners be unfurled; Shout until the welkin seethes All about the deafened world; Get your old time speeches out; Cheer until you split the skies, But be careful while you spout Of your eyes.

DRAG the ancient cannon forth; Load it to the muzzle's brim; Let the east, south, west and north Echo with its blim-blam-blim! Let the crackers hiss and spit, Rocket sticks come down kerplunk, But be careful how you sit On the punk.

LET the roman candles flare All the darkened heavens through; Let the mortars fill the air Full of stars, red, white and blue; Let the fluent red lights flow, Dimming both the moon and sun, But be careful how you blow Down your gun.

ROAR, rejoice and speechify; O Go through all the bag of tricks With which now we glorify Heroes of old seventy-six; no matter what your glee Mid the roar of bursting bombs, Careful, oh, most careful be Of your thumbs!

LIBERTY a blessing is Worthy to be glorified, Worthy of the fiery whiz Of a nation full of pride, But it seems a bauble vain, Empty, useless thing of chance, When there follows in its train An ambulance!

-John Kendrick Bangs.

THE LEVELER. THE king he reigns on a throne of Fenced round by his "right divine: The baron he sits in his castle old, Drinking his ripe red wine. But below, below in his ragged coat

And the spinner is bound to his weary And the debtor lies down with an aching So the world goes.

> So the stream flows, Yet there is a fellow, whom no-body knows, Who maketh all free On land and sea And forceth the rich like the poor to flee.

The lady lies down in her warm white And dreams of the pearled pride,

The milkmaid sings to the wild eyed dawn Sad songs on the cold hillside, And the bishop smiles as on high he sits On the scholar who writes and starves by And the girl who her nightly needle plies Looks out for the summer of life and dies.
So the world goes,

So the stream flows, Yet there is a fellow, whom no Who maketh all free And forceth the rich like the poor

-Barry Cornwall.

THE FOGY ON THE FOURTH. AM going far away Today. Where I won't hear any noise Of boys Celebrating in a vein Insane

An event that I have heard Occurred Some few paltry years ago Why the dickens they invest Their nest Of minutely hoarded cash In trash Which can only end in smoke

Is a joke That I really fail to see. Ah, me, There were times in days gone by When 1
Used to play the very same Fool game!
But—see there! Why, that is great!

And wait—
There's another rocket—shoo! Now, who Calls me a traitor, eh? For, say, I'm a stanch old patriot yet,

You bet!
—La Touche Hancock.

THE RAINY DAY.

THE day is cold and dark and dreary.
It rains, and the wind is never weary. The vine still clings to the moldering wall, But at every gust the dead leaves fall, And the day is dark and dreary.

MY life is cold and dark and dreary. It rains, and the wind is never weary.

My thoughts still cling to the moldering But the hopes of youth fall thick in the And the days are dark and dreary.

BE still, sad heart, and cease repining. Behind the clouds is the sun still

Thy fate is the common fate of all— Into each life some rain must fall, Some days must be dark and dreary.

MOTHER'S VOICE. THERE was a place in childhood that I

remember well. And there a voice of sweetest tone bright fairy tales did tell.

### We Feel Proud!

"When Old Man Noah had nailed the last tin square on the roof of the ark, he climbed down, lit a fresh stogie and stood, teetering on his toes and sizing up the job. At last he observed, "That's just about the niftiest little ark that ever happened, if I do say it myself. There isn't a knotty piece of wood anywhere in its build."

There's a similar pride comes over any one engaged in making or selling Hirsch-Wickwire Clothing, for there isn't a poor bit of cloth or a weak stitch in the whole output of the factory. We don't have to try to cover up any weak spots in this line, because there are none. So you will have to excuse our feeling good over it.

#### AROUND ABOUT.

President A. E. Neff, of the wa ter board, is elaborating plans for a change even greater than that made last year on the lighting system. He states that the water receipts of the city do not meet cost of operation of the plan and system, with its interest burden, by a thousand dollars a year, without considering extensions and depreciation. It has become evident that it is impracticable to install electric pumps in the present station. Mr. Neff, therefore, plans to abandon it entirely, and establish on the bluff a reservoir for a million gallons of water, about three hundred feet in length and thirty in width. He would dam the South Gladstone creek and put an electric pump be low, thus following on a large scale the plan of the cemetery waterworks. He plans to connect this system to the small ends of the present mains in the Fourth ward, and estimates the cost at but \$12,000. The plan will be officially brought up in a few days.

It should be rembered that one-half of the total imports into the United States from foreign countries come in without the payment of any duty whatever. It should not be forgotten that a Tariff which is high enough to keep out the foreign manufacturers and thus give to the American full possession of the home market without foreign competition, could do no harm if it were made higher. A dike which keeps the water out and prevents the overflow of adjacent lands, can do no injury if it is two feet high. But, if it s one inch too low, the ajacent lands will be as completely overflowed as if there were no dike there.

Detroit has been trying vigorously patronage of the upper peninsula, even going to the extravagance of Bradbury's stationery store. sending out to the upper peninsula papers great quantities of advertising with a request to publish free. However, to judge from the editorial colwill get nothing more from this part of the state, if the Elks of northern Michigan have anything to say about

#### Big Job Is Coming

Profits in Muskrat Skins

When the Concrete Building Must pick and sledge process business is Come Down.

WILL NOT BE EASY TASK

Experts Differ as to Means Necessary to Demolish the Great Masses of Molded Stone and Twisted Steel.

There's going to be a big time in the building business one of these days when the men in it begin to tear down the steel and concrete structures they are putting up everywhere just now. How will they tear to pieces the masses of artificial stone and twisted

Experts differ as to what violence will be needed to level to earth the huge, hard, unyielding structures which stand as solidly as a steel skeleton with flesh of granite. Some say nothing short of dynamite will do the job. Others say that men with picks and shovels will suffice.

will be trouble, for blasting of that or, at any rate, remodeled.

MANY WAYS TRIED FOR CATCH-

ING THE WATER PRODUCTS.

None More Successful Than the Old-

Fashioned Floating Barrell Which

Is Easily Made.

Though there may be considerable

diversity of opinion as to the value of

the muskrat as a food, there is no

question as to the value of its skin as

a fur. In the last 150 years the yearly

trade in skins has increased from 75,-

000 to nearly 6,000,000. The prices for

the raw skins range from 35 cents to

\$1 each, London quotations, the prices

being fixed by the London market. Al-

in a century and a half there is ap-

They are greatly in demand and their

relative cheapness is due to their

numbers for the manufacture of so-

called "beaver" hats, but the demand

for them fell off when silk replaced

fur in hat making. Some time later

the muskrat skins again became pop-

ular for use in the manufacture of

imitation sealskins. Their wearing

qualities are quite inferior to the

genuine seal, but when properly dyed

and made up it requires an expert to

distinguish them from the genuine

Modern furriers also have found

been in use for many years.

sealskin.

parently no reduction in the supply.

slow and painful at best.

Concrete is the hardest stuff man ever used as a building material. When enough of the stuff has been poured together over the steel framework to make a ten-story building, a unit is the result. It is not a thing to be knocked to pieces brick by brick or stone by stone. Beside it granite is easily torn apart.

Concrete is hard enough for all practical purposes a week after it has been poured into place, but in this climate it keeps growing harder and harder for a year or so. By the end of twelve months a whole building of it is as if it had been hewn out of a single block of granite.

If cast and trimmed in proper shape it can be used instead of an emery

Real estate men are pretty general ly agreed that the life of an office building in a large city is not more than twenty years. Improvements and inventions crowd each other so closely that what is perfect today will in a short time be old-fashioned. In a score If dynamite has to be used there of years the structure must be rebuilt

years or less ago are torn down with ease by a few workmen using pick and crowbar and rope. The steel and terra cotta combination of a few years later offers more but not much greater difficulty.

But getting concrete and steel apart is a very different matter. The slender bands of steel are wound in and out through the stony mass, crossing and recrossing and lapping over each other, tangled up as thoroughly as

hair in a rat. Certain it is that when concrete has bound its fetters more and more securely on the cities the cities will find it more and more difficult to break those fetters or change them for new ones.

How Perfume is Extracted.

There is a method employed in France whereby the perfume of flowers is extracted without crushing or killing the blossoms. It consists in immersing the flowers in water, which as it becomes charged with the odor. is gradually withdrawn, while fresh water takes its place. Afterward the perfume is isolated from the water with the aid of ether. It is said that by this method some flowers whose perfume had never before been extracted have been successfully treated. The process has been notably efficient in the case of the lily of the

#### SOME LONG BRIDGE SPANS

The Longest One Now Being Built Is Across the Tiber at Rome.

The long span of concrete bridge over the Wissahickon at Philadelphia is not long to hold the distinction of the largest structure of the kind. Its span is 233 feet and the Rocky river bridge of 280 clear span is now under construction at Cleveland. A bridge having a central span of 281 has been designed for Spokane to carry Monroe street across the Spokane river. A span of 285 feet has been adopted to carry the New York barge canal over a gorge in the vicinity of Medina, N. Y. The 710 foot span of the proposed Henry Hudson memorial make over some of the most useful bridge at New York City is not likely to be built soon, but it will not cease though a quarter of a billion muskrats greatly to his profit. A camera almost large enough to about 8 by 12 inches square is sawed serve as a living room owes its creain the side. A strong cleat is nailed tion to the enterprise of the general across each end, the cleats projecting passenger agent of a western railroad. six or eight inches beyond the barrel, It is indeed a giant among cameras, and upon the cleats are nailed two and requires a corps of ablebodied

men to operate it. A massive framework is substituted for a tripod when it is set up, and the negative which it takes measures eight feet by four and

one-half feet. The camera had its origin in the following circumstance: It was desired to make a picture of the company's "Limited Flyer" for exhibition purposes, and also to take some of the picturesque scenes along the road on a large scale, and there was no suitable camera for the purpose to be

found anywhere. Enlisting an expert to aid him in the project, the railroad man bent his energies to the task of reproducing every detail of the most aproved type of camera on a scale so entirely beyond the ordinary that the optical company which received the contract for the lenses had to set up special machinery for their production.

The best lumber was secured for the walls of the huge box that forms the dark chamber of the camera, and first class carpenters, rubber workers, bellows to be used in securing a focus.

The cloth for the bellows was separt of the work every possible proof strength which should be a guarantee of maintained shape and adjustment, such as metal corner braces and connecting rods, says the Chicago Tribune. Waterproof and lightproof

The two lenses with which this mammoth camera is provided have a focus, one of five and one-half feet and the other of ten feet. There is a upon it represents one foot to which

#### GIRLS PENNED IN CAR BATTLE WITH SHARK

AND THIRSTY 72 HOURS.

Ride From Buffalo to Hoboken Where Searching Railroad Officials Find Them Unconscious-Victims of Boys' Prank.

New York -Two small girls who tor car by boys whose sense of humor Buffalo.

some time before thye could speak. They had been seventy-two hours without food or drink or sufficient air. That they were alive at all was a thing to wonder at.

Mary Moni is 10 and Nelsie De Forto is 8. Both girls live at 21 Indiana street, Buffalo. The two girls used every day to run around the Lackawanna freight yards in Buffalo.

around the freight yard. One morning a couple of these boys shouted out to down from Port Townsend. the girls: "Hey! There's bananas in that ear. Want some bananas? Back was seen to be full of splinters and in that car you'll find some. G'wan blue paint as the result of the strug-

girls clambered into it and began po- around the head. king over the floor. They heard the heavy door bang to and found themselves in blackness. They rushed for could hear the boys outside laughing in derision.

The boys made no attempt to open the car door and the girls got frightened. They screamed a little and kicked with their bare feet. Pretty soon they heard the voices of the boys and knew them to be trying to open the door. The door never budged. A little longer the two girls kicked and beat upon the door. Then Mary Moni heard Nelsie fall upon the floor of the car and begin to sob.

They heard an engine puffing louder every second. Bang: Mary was bumped to the floor. There was an interval of several minutes. Then the engine chugged, the car gave a jerk. and in the darkness they knew themselves to be moving. They were moving rapidly now. Mary coaxed Nelsie up into a corner. They sat there and obbed as the train sped.

After a long time thye felt hollow and hungry. Mary and Nelsie explored the floor of the car. They found nothing at all. The two girls found they were to be without food or water. Besides, it was so hot and stifling they found it a labor to breathe, and moving about was exhausting. They lay perfectly still, therefore, and in time the first faint ness of hunger left them.

But it was intolerably h their thirst grew. It was night now. The beam of light was gone. Yet neither girl slept. The roar of the train was loud and steady. Great tears rolled down their cheeks.

During the first night Mary made a useful discovery, the only relief they hit upon the whole journey. She imparted it at once to Nelsie. You take your thumb and catch the tears on it. Then you sip the tears. They are salt and inadequate, but they cool the mouth. In experimenting with this discovery they passed the rest of the night.

At length the beam of light appared, red and pleasurable. All that day the two lay on the floor of the car, jolted each minute and turning from side to side. Then night came on. It is possible the girls slept fitfully, though they could not recollect having done so. The second morning found them a little weaker. They no longer spoke to each other in one syllable words. Nelsie tried to repeat a prayer. She repeated "Ave Maria" to herself several times.

Then came night and as the beam of light faded Mary's consciousness faded, too, and Nelsie, who could cry no more, lapsed into quietness.

But when the two girls didn't come home the first night their parents had gone anxiously to the police. Some were found who had seen the children in the freight yard. F. H. C. Schoeffe, chief special agent of the Lackawanna, thereupon telegraphed Chief Beatty of the Lackawanna special police in Hoboken to peer instantly into every empty that reached Hoboken. For two days not an empty car reached Hoboken without being examined in a hurry.

On the third when a string of twenty-five empty cars came rolling in Yardmaster Dutton, who happened to be moving about the yard, pounced on refrigerator car No. 6986 and pried open the door. He jumped inside. There in the corner he found the two barefooted girls black with dirt. Nelsie was unconscious.

It took the doctor two hours to bring both girls to.

Dog Bites Off Boy's Tongue.

Philadelphia, Pa.—Feeding his pet dog in a novel way, allowing the animal to take bits of food from his mouth, Francis Zoraskie, six years old, of 438 Wharton street, lost the tip of his tongue. The dog clipped off a bite in taking the food. The boy was taken to Mt. Sinai hospital, but is not seriously hurt.

Pussy's Rival,

Figg-It's singular how those old writers live on and on. I can understand it in Plutarch's case.

Fogg-Why Plutarch, especially? Figgs-His lives outnumber those of

TWO TOTS PRISONERS, HUNGRY FISHERMEN HAVE DESPERATE FIGHT WITH MAN-EATER.

> Find Human Bones and Part of a Kodak in Stomach of Huge Fish After They Succeed in Getting It Ashore.

Seattle.-After a terrible struggle were penned in a pitch dark refrigera- lasting seven hours, a gigantic shark, 36 feet long and estimated to weigh was abnormal were found lying in the more than fifteen tons, was captured car when it reached Hoboken from by the combined crews of the fishing boats Goodpartner and Pioneer II. be-They were not able to walk. It was tween Port Angeles and Port Crescent

> The monster is believed to be the largest fish ever caught in these wa-

The Goodpartner and the Pioneer II., much battered and battlestrained, with half of the crews nursing more or less serious wounds, towed the mammoth carcass into Elliott bay. In spite of the 30-horsepower engine with Boys of their age and older hung which each is equipped it took the two boats 15 hours to get the big carcass

When pulled to the surface the tail gle to demolish the Goodpartner. The It was an empty refrigerator car to shark is 18 feet in circumference at which the boys pointed. The two its middle and about twelve feet

The huge triangular mouth on the under side is five feet across. The flukes of the powerful tail are six feet the door and pounded on it. They apart. The body is gray and covered with tiny spikes which make it feel like a file

One result of the shark's capture is that the crew of the Goodpartner will never do any more Sunday fishing. Captain Dragich and five men were hard at work early on Sunday morn-

ing pulliing up their big salmon net, They had not pulled very much of it into the boat when the leviathan made its presence known by thumping the bottom of the Goodpartner with its tail. A minute later it appeared alongside and hit the Goodpartner amidships.

Luckily the shark had entangled its front fins and its head in the stout meshes of the net. Before it could tear itself free three thicknesses of the net were wound around it.

Then the struggle began. The six men on the Goodpartner worked desperately to keep the head of the big fish near the boat and the death-dealing tail away. Again and again it would rear its hig hulk out of the water and smash in the sides of the

Olaf Larsen, the youngest member of the crew, had his arm broken. Captain Dragich was cut in the head and chest by flying glass.

The Pioneer II. came to the assistance of the desperate fishermen on the Goodpartner after about an hour of the conflict. They towed the fish and the boat to a sandy beach.

Tackle was fastened to a tree on the shore and the Pioneer's winch managed to pull the fighting fish into the shoal water. As the tide ebbed the shark was left high and dry and its struggles diminished.

At 1:00 p. m. Capt. George Saeher of the Pioneer II, got close enough to the fish to chop a hole in its throat with an ax. A couple of barrels of blood flowed out and the long struggle

was over. Besides the personal injuries suffered by the various members of the crew, a big net valued at \$1,000 was destroyed.

When first examined the fish was believed to be a whale or basking shark, but when the belly was cut into after 15 minutes' work with an ax, bones were found which indicate that it is a man eater. The bones, from their size and weight, are believed to be human, although the largest fragment is only four inches long.

making it difficult to decide. Another unusual find in the stomach, which might be taken as an indication that the bones are really human, is a piece of aluminum, now in the possession of Captain Dragich. None of the fishermen could explain of what the thin curved plate of aluminum had originally been a part. As soon as they came ashore, however, it was identified as part of a folding kodak.

The leather which covered the aluminum frame and the wooden parts of the kodak had been eaten away by the powerful juices in the shark's stomach. When the deposit of grease was scraped from the plate the words 'No. 3 Folding Pocket Kodak, Model A, Patented" were plain.

It is believed that perhaps the owner of the kodak can be traced through the maker of the camera, as there are other factory marks on it which may allow of its being identified.

Not Her Suit.

Enraged at the tailor who had promised to send her suit time and again without any intention of fulfilling that promise, the young woman set out to call for that suit herself. When she was half way up the street she met a young man with a box under his arm who looked very much like the apprentice she had seen at her tailor's shop. To save herself a possible unnecessary trip downtown she approached this man with a polite "Good morning," and said:

"You come from ---?"

"What?" said the man.

She continued her trip downtown .-New York Sun.

A WARNING.

Man at Telephone-Let me have the gas office, please.

Operator-Certainly. But you know we don't allow any swearing over our

#### EPIDEMIC OF ITCH IN WELSH

"In Dowlais, South Wales, about fifteen years ago, families were stricken wholesale by a disease known as the itch. Believe me, it is the most terrible disease of its kind that I know of, as it itches all through your body and makes your life an inferno. Sleep is out of the question and you feel as if a million mosquitoes were attacking you at the same time. I knew a dozen families that were so

affected. "The doctors did their best, but their remedies were of no avail whatever. Then the families tried a druggist who was noted far and wide for his remarkable cures. People came to him from all parts of the country for treatment, but his medicine made matters still worse, as a last resort they were advised by a friend to use the Cuticura Remedies. I am glad to tell you that after a few days' treatment with Cuticura Soap, Ointment and Resolvent, the effect was wonderful and the result was a perfect cure in all cases.

"I may add that my three brothers. three sisters, myself and all our families have been users of the Cuticura Remedies for fifteen years. Thomas Hugh, 1650 West Huron St., Chicago, III. June 29, 1909."

An Easy Fit.

A number of years ago there lived in northern New Hampshire a notorious woman-hater. It was before the day of ready-made clothing, and wanting a new suit, he was obliged to take the material to the village tailoress. She took his measurements, and when she cut the coat, made a liberal allowance on each seam.

The man's dislike of women in general prevented his having a fitting. He took the finished garment without trying it on. It was much too large, and his disgust was apparent in the answer he made to the friendly loafer on his first visit to the post office. when he wore the despised article.

"Got a new coat, Obed?" said the "No, I hain't!" said Obed. "I've got seven yards of cloth wrapped round

A Knowing Girl.

me."-Youth's Companion.

When young Lord Stanleigh came to visit an American family, the mistress told the servants that in addressing him they should always say "Your Grace." When the young gentleman one morning met one of the pretty house servants in the hallway and told her that she was so attractive looking he thought he would kiss her, she demurely replied, clasping her hands on her bosom and looking up into his face with a beatific expression. "O Lord, for this blessing we are about to receive, we thank thee."-Lippincott's.

Comparing Notes.

Mrs. Newly-My little Robbie is remarkably strong; he is only four years old, but he can raise his high chair with one hand!

Mr. Spoodler-Oh, that's nothing; in the apartment house where I try to do my sleeping there's a baby that's only four months old, and that child can raise the roof with no hand at all.

Caught Too Quick. "I pleads guilty ter stealin' dem melons, jedge," said the prisoner, "but wants de mercy er de court."

"On what grounds?" asked the judge. "On dese grounds," replied the prisoner: "I stole de melons, but de sheriff didn't give me a chance to eat

'em!"-Atlanta Constitution.

Pretended to Be Cheered by the Assurances of His Cabinet Members, But Knew That He Had Been Beaten.

"Whenever I think of the way in which Cleveland heard the news of his defeat in 1888 by General Harrison, I always have to smile." said to me, one day, the late Daniel Lamont, who was private secretary to President Cleveland during his first term, and, later on, his secretary of war.

"The night of the election," contipued Mr. Lamont, "the governor"he always called Mr. Cleveland "governor"-"two or three members of the cabinet, one or two close friends from private life and myself gathered in the White House to receive the returns. Our telegraph instruments were in connection with the important news centers, and we were in close communication with the Democratic national committee.

"We had been in the president's room about half an hour, I should say, when there came a dispatch from New York city stating that one of the city's relable newspapers had issued an extra claiming the election of General Harrison.

"'That's absurd,' exclaimed some one. 'It's too early to know even how New York city has gone. And everybody seemed satisfied.

"But less than an hour later we received a confidential message from some one on the Democratic national committee, saying that it looked as in-law of William Bryant, a year or though Harrison had carried New so before his death in 1904. York state by a strong plurality. The governor looked at me rather queerly, we exchanged glances, and I am sure he made his headquarters while in that he knew at that moment that he New York city in the office of the old had been defeated.

"But you should have seen Vilas, continued in 1857. Here Thackeray our secretary of the interior from would come almost every day, draw Wisconsin. He wasn't a bit discon- sketches with his pen upon any edicerted by the news from New York.

APOLOGY NEEDS

Small Town Often Belittled, But It Is There Only Where Fullest Meaning of Life May Be Found.

There have been too many apologies offered for the small town-the community which is not so large but that all of its people know each other. Such places have been belittled and ridiculed, but certainly, always by those who cannot appreciate the truest, sweetest and fullest meaning of

The small community may be a little world unto itself. Its horizon may end off where the cotton fields begin on the south, with the fair grounds on the west, the schoolhouse on the north and the railroad on the east, but surely its affairs are as important and as vitally interesting as those of a great city, where humanity consists of meaningless atoms and where the sweet responsive chords of hearts beating in unison never vibrate.

There may never be the whir of happening events in the small community, but the least incidents that may occur to any of its mysterious human lives is not unworthy of notice. None of its characters are too lowly to fill some niche. Its fellow-beings hold that tolerance toward each other which exists among members of one family, and there is a dormant patriotism in hearts of its truest citizenship which only needs some outside interference to warm into being.

The zest departs from so many pleasures, when a man ceases to identify himself with some certain community, and it is only of the smaller places that he can really feel himself a part. Those of a small place share their pleasure and their sorrow together. Family names have a significance. Houses are homes. The very trees and fences have about them an atmosphere of reminiscence.

The big places may have larger stores, wider streets, busier crowds, but humanity is the same the world over, and humanity is at its best where acquaintance and kinship is possible. And when the brief span of years has passed, says the Yazoo City (Miss.) Sentinel, we would prefer to have the slow, sombre procession wind down some quiet village street, and to have the grasses above the grave blown by the breezes that are fresh from the open fields.

Trade at Home.

calf (Ill.) Journal prints the follow ing editorial appeal. It would be a good item for other papers to copy:

"Just about now the mail order houses of our large cities, with an eye for the spring trade of the smaller cities or towns and of the farmer, are sending out bulky and illusive catalogues by the thousand. Experience proves that, taking all things into account, to buy of such houses costs more and brings less satisfaction than to buy of the home merchants. Money sent out of town to these houses for what can be bought equally as well at home is just so much check to the growth and prosperity of the home town, and of the farmers and others who find in the town a ready market for their eggs, butter and all other produce.

Use of Sawdust.

Every now and then the daily papers bring in an item about some one who is trying to utilize the sawdust which accumulates all too rapidly at some sawmills and woodworking establishments.

Meanwhile some of our electric furnace pioneers have quietly gone ahead and have already been using sawdust for years as one of the ingredients for making that exceedingly hard grinding material carborundum.

To produce this a heavy current is passed through a core of coke surrounded by a mixture of carbon, sand, salt and sawdust. Which again goes to show that marvelous results can be obtained from the most commonplace ingredients when the magic of the electric current is available.-Popular Mechanics.

She Knew.

The library and household effects of A man who had once entertained in a lavish way were sold at public auction, and among the persons who went to the sale were many who had enjoyed the fallen family's hospitality. When a set of after-dinner cups was

put up one woman said: "There are only five of those, not six." The auctioneer consulted his catalogue, and replied: "Thank you; you are right," and proceeded with the sale.

Then the woman whispered to the one sent to her: "I knew I was right. because my husband dropped one of that set the last time we dined there." -New York Tribune.

An Outdoor Necessity.

"An inventor! What has he ever invented?"

"Don't be too fast. The man has got a mighty good thing. It's a portable kiosk with four wheels and a heavy wire-glass roof." "What's it for?"

"Why, it's for the use of innocent bystanders who prefer to take no chances when the aeroplanes begin to tumble."

Do You Feel This Way? Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor apctite, and lay awake at nights unable to sleep? Are your herves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a

lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice. Don't be wheedled by a penny-grabbing dealer into taking inferior substi-

tutes for Dr. Pierce's medicines, recommended to be "just as good." Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habitforming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

## Yoke of Bondage Curtis Wore

sumed \$60,000 Debts of Putnam's Magazine and Worked Years to Pay Them.

One day in the spring of 1890 I was hailed by the late Parke Godwin, who, in his time, was famous as an editor and author, and son-in-law of William Cullen Bryant.

"Yesterday I met George William Curtis," he said. "He was walking up Broadway. His step was vigorous and elastic. His whole manner was suggestive of buoyant health and perfect inward satisfaction. He piqued my curiosity and I stopped him. 'You seem to be in such superfine spirits this morning that I am deeply inter-

ested,' I said, laughingly. 'Why shouldn't I be in good spirits?' replied Mr. Curtis. 'The yoke of bondage is off my neck at last. After more than thirty years. I am an absolutely free and independent man once more. I am happy, Mr. Godwin.' And as he stood there, his face shining with his inward joy, I recalled the whole story of that yoke of bondage.

"It was in 1857 that the old Putnam's Magazine (of which I was an editor), unable to weather the financial disturbances of that period, went under. Mr. Curtis had shared the publishing responsibility of the magazine with a man of the name of Miller, under the firm name of Miller & Curtis, and this firm was so heavily involved that after it had been discharged from bankruptcy there still remained about sixty thousand dollars of its debts uncancelled.

"'If I live,' said Mr. Curtis, when he heard of that, 'and have my strength and my earning power, I will pay every dollar of those obligations myself.

"His friends remonstrated, telling him that the courts had absolved him from any such obligation. His reply was perfectly characteristic. 'But there remains the highest possible obligation upon me,' he said; 'it is an obligation of personal honor, and I shall never feel easy for a moment until I know that every person to whom I am morally indebted has received payment in full, with interest to date of pay-

"So, on his own initiative, Mr. Curtis gave notes for the amount owing by his old firm, and then began lecturing. Up and down through the country he went year after year, delivering his lectures, and every cent of money that he made in that way went to take up, one after another, the notes that he had given. Every cent, I say, went for this purpose, for he

lived on what he made as an editor. "Finally, there came the day when he wanted to pay a certain note, but he could not locate its holder, and, Higbee's store yesterday and asked greatly worried, he hunted up his old him as follows: partner and told him the circum-

stances. 'Why,' said Mr. Miller, 'I wouldn't bother about that; let it go.' "'No, I will not let it go,' declared Dealer.

engaged by the New York Association for Improving the Condition of the Poor to go among the poor of Syracuse and teach them the art of cooking nourishing foods at cheap cost. She did much of this work in the Rochester Italian housekeeping center, and proved so successful she has been engaged for a much more extensive task. It seems that the New York association has learned that excellent results are obtained by sending trained women among the poor to teach them economy in cooking and other details of housekeeping. This instruction not only enables them to save money and to have more healthful foods, but it educates them and pounds of puffs attached to her back gives them enlightenment on many hair walked up to the floorwalker in things essential to health. Winifred Gibbs of New York is another woman engaged in this work. In these days of high prices these trained women enable the poor to cut their meat bills for the proverbial rainy day.

## ALL A MISTAKE.

By Which a Man Escapes One Bondage to Fall Into Another.

By EDWARD C. HANCOCK. [Copyright, 1910, by American Press Asso-

ciation. I I reached my destination at 11 o'clock at night, was driven to the L. hotel, ters and that she was welcome to them was shown to my room and went to if she would withdraw her charge bed. The next morning I did not return to the room after breakfast, but did so at noon. An important matter of business absorbed my attention, and I was unmindful of everything else. My key did not work in the lock; but, turning the knob, the door opened. I concluded that either I or the maid who had put the room in order had left it unlocked.

Still thinking on other matters, I saw on the mantel a package done up in paper. It was about three inches long by two broad and an inch thick. At another time I would have examined it; but, with my mind full of business. I concluded it to be one of a number of small parcels I had taken out of my suit case when making my toilet in the morning, so I put it in my coat

Going to the stand to wash my hands, I discovered lying on it a ring set with two large diamonds.

I dropped my business matter and fixed my attention on the ring. Then I looked about the room. There was a trunk in it that was not mine. A wardrobe stood open, and I could see within articles of woman's apparel. I had got into the wrong room.

Had the ring not thus been exposed I would have simply retired. As it was, if I should be seen leaving the room and a thief should appropriate the jewelry I would be suspected of having stolen it. I concluded to take it to the office.

As I was leaving to do so I met a lady about to enter. She looked at me, flushed and asked:

"What were you doing in my room?" Before I had time to reply she called a porter who was passing and said:

"Hold that man till I go into my room and see if anything is missing." She ran into the room while the porter kept me under observation.

"It's gone," I heard her say, and, coming out, she told the porter that she had left a diamond ring on the washstand and I had taken it.

"Pardon me." I said. "I got into the wrong room. I found your ring on the

"THAT'S A LIKELY STORY," SAID THE POR-

washstand and was taking it to the office. Here it is.' "That's a likely story," said the

We three went to the office, where my explanation was listened to with evident distrust. But the young lady. having secured her ring, was not minded to press the matter, and it was dropped, but not for long. In half an hour, while I was sitting near the hotel entrance, a policeman entered, the clerk pointed to me, and I was taken into custody.

I was led to the police station to answer to a charge of robbery and, fortunately having evidences of property with me, was enabled to give bail for my appearance the next day. Returning to the hotel, I asked the clerk why the matter was to be pushed. He replied that the lady had missed something else-she would not say whatand it had made her very angry. I tried to think of something I had misappropriated besides the ring, but could remember nothing. Later, upon putting my hand in my pocket for my handkerchief, I took out the little package I had found on the mantel 1 went to my room-my own room this time-uncovered the package and displayed a bundle of letters.

Having convinced myself from the address on one of them that they were not mine, I wrapped them up again and put them back in my pocket.

I made up my mind that there was a story in these letters which was running counter to the story of my having inadvertently come into possession of them. I was to be tried for stealing the ring and perhaps would not be able to prove my innocense. In- only called once, but often, and finally deed, appearances were much against | persuaded her to do penance for misme. Might not these letters be used to induce the lady to withdraw her charge? I had no sooner thought of caped imprisonment for robbery, as-

an acquaintance and put them in his ALICE safe. I did not wish them to be re-

covered by search. As soon as I had done this I wrote my accuser a note telling her that I had inadvertently appropriated some letters belonging to her and that she might have them by withdrawing her charge against the. She had become so sure that I was a professional thiel that she wrote back stating that she would withdraw the charge and give me \$500 for the letters. I wrote her that I did not ask money for the let against me. To this she acceded, and instead of sending some one to me with an order for them she appointed a done by a woman, so I left the letters where I had put them.

We met as agreed. The lady was not over twenty-four years old and was quite comely. She was evidently of the upper class and had wounded my amour propre by not recognizing taking me for a thief. She opened the negotiations.

"Are you a tool of George Norton?"

she asked abruptly. "I haven't the pleasure of the gen tleman's acquaintance."

"You must have seen his name on the letters. They were addressed to

him.' "I looked at one address, which convinced me that the letters did not be-

long to me." "Do you mean to tell me that you haven't read them?"

"I do." "Then how did you know I would value them so far as to offer so much for them?"

"I didn't until you made your offer."

"Other people's letters don't interest

"I should have read them had I been "Then your standard of honor is dif-

ferent from mine." "I have made a mistake."

"Several. Which one do you mean?" "I have been engaged to George Norton. I was warned against him, but would not listen. I stole my letters, which he would not return. supposed he had employed you to get them back for him."

"Does he employ gentlemen for such purposes?"

For the first time she looked asham ed. She dropped her eyes and fidgeted with the ring I was to be tried for

"I didn't observe you closely when you came out of my room. I see now 1 was very much mistaken. I ask your pardon."

"Now that you have begun where you should have begun before, at the beginning, we can get on rapidly. Per mit me to apologize for having mis taken your room for mine. I was absorbed in a matter of business. I put your package of letters in my pocket without being conscious of what I was

"I see. I have acted very hastily." I arose and touched a button. Ther I wrote on the back of an old envelope an order for the letters. When an at tendant came I told him to send for them. In fifteen minutes he returned and handed me the package. I handed them to the lady.

"But I have done nothing toward withdrawing the charge," she said. "You will. I have no fear of that."

"Because I know you for a lady, and a lady once convinced that I am & gentleman, not a thief"-

"Please don't." -"would never think of charging me with being one.'

"What shall I do to stop the thing?" I advised her of the necessary steps after which we went on with our chat "It seems to me," she said, "that am the real thief in this matter."

"Why so?" "I stole the letters from George Nor

"That was not stealing. They be longed to you. You only took you

This had the effect to comfort he somewhat, though she still seemed much mortified at her treatment of me I was not disposed to permit her to escape too readily from this mortifica

"I don't quite understand,"I remark ed, "why you thought it necessary to offer so high a price for your letters." "I supposed," she replied shame

facedly, "that you were an agent o George Norton. I wished to induce you to give me the letters instead o: giving them to him." "In other words, I was considered

not only a blackmailer, but a subjec for bribery to turn against my em ployer." She hung her head. Indeed, she

seemed so pained at the position in which she had placed herself that hastened to apply a balm to the "It was all a mistake," I said, rising

for which you are sorry, as I am a having unwittingly trespassed where had right to trespass. But I trust that it is a mistake that may give me & valued acquaintance."

I asked her where she lived, and when she replied that it was in a city not far from the one in which I resided I asked permission to call upon her when I went there. This she readily accorded, and I took it upon myself to go without waiting for anything except herself to call me there. I not

Two years ago he was aroused to action by the refusal of the saloonkeepers to close their places during the hours of mass. He devoted himself to the work of arousing public cently erected, is a neat structure, 28 sentiment in his home city for a better observance of law, and with the unsectarian assistance of the clergy and the better citizens, has made order where there was none, in spite of apathy, official opposition, libel suits, and countless modes of harassment. He believes that the work has been of the greatest benefit to all the residents of the city in giving them a place to live in free from reproach and fit to raise their families in.

THOUGHTS ON ADVERTISING.

As an agency for the education of the masses, the importance of advertising will never be fully comprehended. It has multiplied human wants; broken up customs; established fashions; induced people to build better homes, to wear better clothes, to eat purer food; it has educated people to buy things in an entirely different way, at an entirely different place and-what not?

The advertisement exerts as great a force commercially as the news and editorial columns do politically. The larger part of the advertising in ularity will be a strong drawing card our modern magazine is "educational." To look through their advertising section is to grow ambitious to hold a better position; to become desirous of owning an automobile, fine home, and the like: to become prejudiced against impure foods-in short, every human desire and want is appealed to and we are led to buy better things of all kinds. The educational side of advertising offers as great an opportunity to the retailer as to the general advertiser.

ADVERTISING IS A CREATIVE

# SATURDAY BANNER DAY

OUR=

Double Trading Stamps

ALL DAY

In All Departments of the Store

This is the last week of our Great July Clearing Sale--- and as a final climax we are going to make Saturday the banner day of the sale.

Cost, former selling prices and real worth are minor considerations. the imperative demand being immediate and absolute clearance of thousands of dollars worth of summer merchandise.

Every one who takes advantage of the phenomenal values we are offering for the final day will be rewarded by unprecedented savings and on top of all will receive Double Trading Stamps on every ten cents they spend.

The reductions are of such marked character that the provision for strictly economical purchases will be the greatest of the year.
