BASEBALL NEWS.

Gladstone cinched the cellar championship Sunday and Monday at Rapid River. Sunday's game was quick and snappy. Only one score was made during the game, deciding it in favor of Rapid River. The game, however, was accompanied by the usual umpire baiting which makes this league an unsatisfactory proposition. On Monday Loell essayed to pitch, with fair success until the fifth inning, when Rapid River ran in five scores with the aid of a couple of passed balls. Brazil was put in and ffrom then on Gladstone fought a losing game, putting in two runs to Rapid's three. In the ninth inning the game was suspended for several minutes by a fist fight between a Gladstone and a Rapid River player. Hamilton umpired the game well; Villemeur of Escanaba, who commenced it, was forced out in the second by the Rapid River clamor, having called a foul a fair when Frendenberg was coming home on it. Altogether, Monday's game was a fine exhibition of how not to play ball.

Whistler and His Model. James MacNeill Whistler once owed a female model \$5 for sittings. She was a Philistine of the Philistines, who knew nothing of her patron's fame and was in no way impressed with his work. One day she told another artist that she had been sitting to a little Frenchman called Whistler, who jumped about his studio and was always complaining that people were swindling him and that he was making very little money. The artist suggested that if she could get any piece of painting out of Whistler's studio he would give her \$50 for it. Although skeptical, the model decided to tell her "little Frenchman" of this too generous offer and selected one of the biggest and finest works in the studio. "What did he say?' asked the artist

order and excitement and looking almost as if she had come second best out of a scrimmage. "He said: 'Fifty dollars! Good heavens! Fifty dollars!' And he got so mad-well, that's how I came in here

who had made the offer when the

model appeared in a state of great dis-

Didn't Want Ducks.

A woman who had always lived in the city moved into the country, and as a sort of recreation she decided to start a poultry farm, which she did with a barnyard hen and thirteen eggs from the village store. Not having even the most elementary

knowledge of poultry, she inquired of a neighbor how long eggs generally took to hatch. She received the reply: "Three weeks for chickens and four

for ducks." The neighbor met her some time aft-

erward, and on being asked how the poultry farming was going on, she replied, with a lowered countenance: "Oh, I've finished with it. At the end of three weeks there were no

chickens, so I took the hen off, as I didn't want ducks."

Hobson's Choice.

A well known southern judge revives a story about a white man who during reconstruction times was arraigned before a colored justice of the peace for killing a man and stealing his mule. It was in Arkansas, near the Texas border, and there was some rivalry between the states, but the colored justice tried always to preserve an impartial frame of mind.

"We've got two kinds ob law in dis yer co't," he said, "Texas law an' Arkansas law. Which will you hab?" The prisoner thought a minute and then guessed that he would take the Arkansas law

"Den I discharge you fo' stealin' de mule an' hang you fo' killin' de man." "Hold on a minute, judge," said the prisoner. "Better make that Texas

"All right. Under de law of Texas I fin' you fo' killin' de man an' hang you fo' stealin' de mule."

Shut Him Off.

One day Mark Twain was being shaved by a very talkative barber and was forced to listen to many of the barber's anecdotes. Stopping to strop his razor and prepared with brush in hand to commence again, the barber said, "Shall I go over it again?" "No, thanks." drawled Mark. "It's hardly necessary. I think I can re-

His First Train Ride.

member every word."

During the early hours of Sunday morning a long and lank native boarded Frisco train No. 104 for his first ride on the cars, his destination being Kansas City. He was decidedly nervous, but was determined not to show it and attempted to cultivate an air of familiarity with his surroundings. He sought a position in the middle of the chair car, placed his grip on the floor and, standing stiffly, braced himself against the side of one of the plush chairs.

NO EXCUSE FOR INSURGENTS. We believe in parties. We believe they are essential to the best interests of the republic. Practically every in-"Won't you have a seat, sir?" asked telligent American believes that some kind of a tariff law is for the best interests of this country. The republican party thinks it should be so made as to give protection to American industries and American wages, while the democratic party still clings to the free- held several official positions. I was trade theory and that the tariff should Highway Commissioner four years and be levied for revenue only. A party measure should be supported by the members of the party unless there are position of Undersheriff since January grave moral lessons to the contrary. 1st, 1909. My experience as Under-So long as men stand firmly by the Sheriff has made my qualifications unprinciple of protection to American questioned for the office of sheriff. I labor, they need have no political ask the support of the People of Delta bitterness between them on account of difference about the schedules.— Chanute (Ka.) "Times"

FOR REPRESENTATIVE. The Honorable Charles D. Mason has consented to make the campaign for nomination to represent the Delta coun-

ty district in the Michigan legislature. It is not necessary to introduce Mr. Mason to the electors of Delta county, for it is not probable that there is one of them unacquainted with him.

There is no man better acquainted with Delta county, her needs, and her official business. The Hon. C. D. Mason is no apprentice unused to public assemblies, no theorist seeking to force a pet doctrine on the statute books; he has been alderman and twice mayor of his home town; after years of prominence in the county board, he was this year elected to its chairmanship, the highest official position in the county. As a man of affairs, he is one of the ablest in the county; to his executive ability, his success as an officer of naval reserves, and a grand lodge officer of the Knights of Pythias will bear their

testimony. Hon. Chas. D. Mason is a stalwart Republican, a man whose presence at Lansing will guarantee Delta county Sunday August 7. Morning service an attentive and capable guardian of has been greeted by those of influence Evening service at 7:30. Theme: A and political sagacity in this county promises well for his success at the

THE FACTS.

It will be recalled that it has been freely charged that in the Payne law there was no revision downward, but that as a matter of fact the duties were increased. The Record-Herald points out the manifest error in this contention. It declares that "the percentage of merchandise entering free of duty under the operation of the Payne law is larger than under the Dingley or Wilson law," while the average ad valorem rate of duty is lower than under either the McKinley, Wilson or

Dingely tariffs. In view of these facts, we submit that it is about time for republican papers to call a halt in the progamme of abuse and misrepresentation of the Payne tariff law. If the law shall be found to be defective, it will be in the fact that the duties have been made too low for Monday, August 15.-Romeo and ample protection of our industries. Republicans who have been relying upon muckraking magazines and the preju-Tuesday, August 23.—"Tilly Oldiced insurgent press for information concerning the Payne law would do well hereafter to hesitate before accepting any of their conclusions, which are partly venom and partly guesswork.— Manchester (Iowa) Press.

TURNS IN FALSE ALARM AND SHOOTS RESPONDING FIREMEN.

Insane Murderer Then Slays Wife and Babe-Dismissal From Fire Department Service Inspires Tragedy.

San Diego, Cal.-Bert S. Durham, a discharged member of the local fire department, ended a man hunt Monday by fatally shooting himself through the head after killing three jersons, including his wife and child, mortally wounding a fourth and severely injuring a fifth.

Durham, in a desire for revenge, turned in a false alarm and when his former fellow workmen responded he fired a volley of shots at them, killing one and probably fatally injuring two others.

Durham then ran to his home and with a piece of steel wrapped in a handkerchief beat his wife and baby about their heads as they lay asleep, killing both.

Durham, who had been hunted relentlessly for hours, dodged his pursuers, leaving them without a clue, boarded a car in the residence section and rode quickly to the plaza in the center of the business district, where he put a bullet into his brain. He recovered consciousness later, but the coroner says he will die. Durham's victims were:

Donald F. Grant, engineer engine company No. 3, San Diego fire depart-

Mrs Bert S Durham and child. Peter Sampsell, captain hose company, dying,

Guy Elliott, driver hose company, may recover.

At the first shot Grant fell from his seat to the ground dead, with a bullet in his head. At the second shot CRIPPEN WILL NOT FIGHT Elliott pitched to the ground with a bullet through the stomach. Durham then leveled his revolver at Captain HINT SUICIDE IN RAWN CASE ROYAL COUPLE FLEE SPAIN Sampsell and fired twice, both bullets piercing Sampsell's lungs.

Two more shots, fired at other members of the crew, went wild, after which Durham drew another revolver and with it covered his retreat as he started to run from Assistant Chief Snedecor, who had driven up in answer to the alarm. As he disappeared in the darkness Durham shouted back to the assistant chief: "Tell my wife I am going to kill myself."

as "an open suicide verdict." on the charge of slaying "an unknown primaries by a majority estimated at three hours' session and after much lively debate in the jury ro

Although none of the jurors would talk about their action, it was said that three held out for a verdict of suicide and the others for one of accidental shooting, and that the open verdict returned was a compromise, to break the deadlock.

That the insurance companies will contest the payment of policies is said to be assured, and it is declared that relatives of the slain railroad president will bring court proceedings to collect the insurance.

No representative of the Rawn family was present when the jury's findings were made public.

The general consensus of opinion among those present at the close of the inquest was that the jury had taken the only course open to it.

DIE IN TEXAS RACE RIOT

Eighteen Blacks and Three Whites Are Killed in Pitched Battle Near Slocum.

Palestine, Tex.-Following a pitched battle between the negro farmers of this section in which at least 300 blacks took part and three companies of state militia from Houston and Galveston and a detachment of state rangers fought for hours and, it is said, that 18 negroes have been killed and the bodies of three white men are dying in an improvised morgue in the little town awaiting the arrival of undertakers from Hous-

Beginning Friday afternoon the race riot between the negroes and whites waged continuously until Sunday night.

The rioting began near the village of Slocum. Several reasons are assigned as the cause of the racial feeling. First, the refusal of a negro to pay an obligation for which a white

farmer stood sponsor. Later came reports of secret meetings among the negroes and an alleged confession of a negro that the daughters, aged two and four years. ever, when a negro was discovered advancing on Spurger from the rear. a posse when he refused to surrender.

Thus two years past has been linked with has arisen a new and ingenious that of the duke, and to forget his sorbranch of scientific endeavor, the ex- row in not winning her it was said pert culture of insect parasites. Al- he went to Africa to hunt tigers. And ready a number of the most important now he is coming to Washington to pests have been reduced to innocu- see the girl he lost won by another ousness by the insects of prey which man. have been set upon the trail; and while many others must still be com- early days of the next social season bated imperfectly by artificial methods, relentless science is scouring the world for the tiny many-legged hounds which shall eventually hunt them down.

Theoretically every insect has its own specific enemy or enemies. These may prey upon it directly as certain beetles prey upon the larvae of the foliage-destroying moths; or they may feed upon its eggs, as is the case with many ladybirds, or they may deposit their own eggs either within the body or the egg of the victim, thereby destroying the immediate or prospective generation. Always these enemies tend to keep the insect pests within normal limitations. Doubtless in many cases the parasite would wholly destroy a species were it not for the existence of hyper-parasites which prey upon it and keep it from overexpansion. In a state of nature this balance between the various species is automatically preserved until man with his ignorance of their nature enters and disturbs the whole status.

Insect immigration has been the curse of American agriculture. Of our 72 importantly destructive speciesthose whose destructive powers amount up to millions of dollars annually-35 have come to us from other countries. The coddling moth, the curse of apple and pear orchards, is of European origin. The dreaded cotton boll-weevil hails from Mexico. The San Jose scale comes from the immemorial east. The gypsy moth and the brown-tail moth, twin plagues of New England trees, were brought

in by accident from the old world. As soon as an imported insect shows signs of becoming formidable, experts trace it from country to country until they find a region where it has been known for a long time, but has never reached the proportions of a pest. In such a place they are pretty sure to find a parasite which is keeping the depredator down. If they can acclimatize that parasite and establish it side by side with the importation, the problem is solved. Such was the method in the case of the white or fluted scale invasion of California. The scale was imported by a collector of plants at San Jose, probably from Australia. In a few years it had spread enormously, and was simply wiping out the orange crop wherever it gained a foothold. Working in conjunction with the progressive state authorities of California the United States bureau of entomology sent an emissary to Australia, where the scale was discovered in what was then supposed to be its original environment. With the Australian scale, and preying upon its eggs, was found a small red-and-black ladybird, the ise, she never repeats stories about Novius cardinalis. One hundred of her woman friends. these were brought back to Californit, bred and distributed. To the terstarts them .- Boston Evening Tranrifled and skeptical orange growers script.

lous. Within two years from the time when the first ladybird began to breakfast on scale eggs, the victory was completely won. It was more than a victory; it was a slaughter. Since then the white scale, while it is not wholly eliminated and never will be. has ceased to be an element of peril' to the citrus orchards of California.

Occasionally at practically no cost, science wins a victory. The experts by turning their glass upon the clover seed midge found that it produced two generations coincident with the clover crop. Generation number one was never very damaging. But genfailures due to the effect of harmful eration number two often destroyed and destructive insects is a well- the whole second crop. This being asknown one. For many years the grow- certained, the farmers were instructed ers of wheat, cotton, fruit and other to cut the first crop ten days earlier. produce have been harassed and even Thus the adult midges were laid away defled by these parasites that eke with the crop before any but the out their existence by destroying mil- most forehanded had laid their eggs. lions and even billions of dollars' By this procedure the second growth

From an economic viewpoint much The destruction and blighting of the of the most important work of paramean a saving of \$8,000,000 yearly in the value of cattle which come to the Chicako stockyards alone. Somewhere perhaps, a form or insect is missing its opportunities, which might be employed in ridding American grain fields of the chinch bug, thereby saving a loss of as high as \$60,000,000 in bad years. There is a crying need of successful parasitic checks upon the Mediterranean flour moth, the army worm, the striped cucumber beetles, the house-breaking moth, which corrupts our stored clothing, and the peach tree borer, to name only a few familiar species with expensive appetites. But the greatest potential discovery is that of the parasitic benefactor which should perform upon the American house fly or the mosquito the miracle of exorcism which St. Patrick wrought on the snakes of Erin. In round numbers \$300,000,000 would not be an overestimate of the consequent saving in human life and earning power, plus the increased value of

MISS ELKINS TO WED AMERICAN.

HAS NO REAL PLACE PLAY ON APE'S FEAR HONOR IN BUSINESS

SINCERITY NOT WANTED IN THE HOW SHREWD KEEPERS MANAGE WORLD'S AFFAIRS.

Truthful in All Things Announces That He Quickly Discovered the Fact.

"I will be sincere," I said to myself. "No matter what it costs me, I will say exactly what I think at all times and all places. I will have nothing to do with shams and pretenses and conventions." So I went out and

"To the first man I met I stated my position and my intention of speaking my mind. The man grasped me by he hand as though I was his long-lost

"You are the man for me!" he delared. "I'm sick of the conventional humbug of the world. We will be friends, you and I, and we will always say exactly what we mean to each hook. other, and tell each other our real

'We will," said I, "and as a start, should like to say that the color of that tie you have on does not suit you at all. A man with your complexion should never wear a red tie." But my new-found friend was a Socialist, and he felt as though he was saying his creed every time he caught sight of his red tie in a shop window, so, after a slight argument, he remembered a previous engagement and vanished.

I was somewhat puzzled, but went on my way, and presently met a nice, pretty girl, and to her I unfolded my philosophy. "I'm awfully glad you've told me,"

she said. "I get so tired of all the silly things people say to one, and I have so often longed for a friend who would tell me what he really thought of me. You will, won't you?"

"I will," I promised. "I'll begin now. You say you get tired of people who say silly things to you, but really you like them."

But it happened that she was a girl who prided herself on being sincere, who explained to herself many times daily that she only did conventional things because "one had to," and so she was not at all pleased. She told me in tones of perfect politeness that was quite mistaken, and went off to talk to another man who told her what a relief it was to meet some one who was not afraid of calling a snade a snade

But at last I found an old lady, a beautiful old lady, who was not in the least ashamed of being old and looking old. To her I made, as in duty bound, my declaration of absolute and uncompromising truthfulness, but instead of composing odes in my honor she sat up and shook her finger at

"Now, now!" she said. "That won't do with me, young man. All the men who want to pay the most outrageous more I protested my complete sincereity, the less she would believe me.

So what was I to do? To try to be sincere with myself was about the only thing left. After a few more experiences of the same sort, which invariably brought the same results, decided that real sincerity didn't occupy a very permanent place in this world's affairs.

Trade Follows the Doctor. At nine o'clock the stranger in the neighborhood saw a grocery wagon standing in front of the doctor's house down the street. At ten o'clock another wagon stood there, and at 11

o'clock still another. "The doctor's family must be big eaters if it takes so many grocers to supply their wants," she said to the

janitor. "Oh, they are not all delivering stuff at the doctor's house," said he. "They are only stopping there as an adver- those matters to me in the future." tisement."

"Every grocer, butcher, baker and dairyman in the peighborhood hitches his wagon in front of the doctor's house and carries the things from make folks think they have the doctor's trade.

"Many people who have just moved into a neighborhood never make up their minds who to deal with until they find out where the doctor trades. He is supposed to buy only the best saged their engagement. The en- foods and the newcomers feel safe in trading where he does."

> Only Cause for Smoking Out. A New York youngster who lives in a neighborhood where disease makes frequent fumigations necessary returned from his first visit to the country with the astonishing information that Farmer Jones' coons and woodchucks had been laid up with scarlet fever. The summer teacher abhors nature faking, so she admonished him not to tell fibs.

"But that ain't no lie," said he. "Didn't I see the tree they lived in wid me own eyes, an' didn't I hear Mr. Jones tell how he had had to smoke 'em out?"

Real Reason.

"That man never gets any sleep." "Stays up all night bumming around, "Naw, the poor cuss has a baby in

the house."-St. Louis Star. Smart-Set Language.

"What a beautiful costume, dear!" "Do you like it?" "Oh, my dear, I love it. It's just too hideously fashionable for words!"-London Opinion.

UNRULY ANIMAL

Man Who Set Out to Be Absolutely Cowardice and Curlosity, Its Two Weak Points, Are Utilized When Force and Persuasion Alike Have No Effect.

> The superintendent of a western zoological institution has taught his employes to manage animals by indirect methods, akin to those by which nervous children are controlled by wise parents. A rhinoceros had an abscess in its face. The question was; Did it come from a bad tooth, or did it only need lancing? The superintendent simply said to the keeper: "Give him a new birch broom." The see his teeth are all right," said the superintendent, and the next day the abscess was lanced with a sharp bill

> The diagnosis was as ingenious as his method of managing Billy, a refractory chimpanzee. The big ape needed exercise. This he obtained by being allowed the run of the large monkey house, instead of remaining in a side room, before the visitors came. As he knew he would be caught and put back into his own compartment at this hour, the ape used to climb to the top of the other monkeys' cages and refuse to come down.

As he could not be tempted with food, the superintendent appealed to his mind by working on what he had noted to be his weak points, curiosity and cowardice.

The superintendent went to the keeper and, touching him gently on the shoulder, directed his attention in a mysterious manner to the dark passage underneath the gas pipe that traverses the house, pretending to point out some horrible unknown creature, using an energetic manner, but saying nothing except words to this effect: "Look out! There he is! There he is!" At the same time the two men would peer into the dark

place under the gas pipe. The monkey, on such occasions, would come down to see what the subject of fear and interest was, and just then the superintendent and the keeper in unison would shout: "He's coming out! He's coming out!" and would rush away in the direction of Billy's cage. The monkey would dash for the same place of safety, which happened to be the door of his own house, and sometimes enter it before

Young Men Must Fully Realize Its Importance.

MODERN COMMERCIAL ETHICS

Many Fail Because They Are Lacking in the High Standard of Business Morality Now Required.

Whether a man's business shall be success or a failure depends not only upon ability and capital, but also My rest was broken and my nervous upon his idea of business morality system shattered. Had Doan's Kidand the amount of preparation he has ney Pills not come to my attention, 1 had in his line of business. No amount of capital and ability will rhinoceros at once ate it, grinding up, make a successful business without the bits with great gusto. "Ah! You the other two and in a business school there is no thing upon which greater box. Foster-Milburn Co., Buffalo, stress should be laid than that of busi- N. Y. ness honor. It is safe to say that nine out of

the ten young men who fail in business do so because they are wanting in a high standard of business morality. This want may show itself in a lack of conscientiousness in being on time; it may show in a lack of persistence in doing work well; it may come as downright dishonesty, as the result of extravagant habits; it may come in the willingness to take advantage of others; or it may manifest itself in a hundred other ways. But sooner or later the lack of business morality will make itself felt and the young man will find himself out of a job.

The young man knows that he is able and bright and can do good work, but does not realize that business honor is indispensable to his success. It will do more to advance him toward true success than any amount of ability or knowledge.

Another cause of business failure is the lack of thorough preparation in one's business or profession. Many young men and women, impatient to be freed from the restrains of school life, make the great mistake of quitting school before they are thoroughly prepared to take up the life they have mapped out for themselves. They go out to work for a few dollars a week when, by taking time for more preparation, they might not only earn more money from the start, but in the long run be advanced much more

To make a complete success in any for a business career requires but a general office discipline. One can acwriting, learn to compose a good busiclasses of business paper, learn to run the typewriter, write shorthand and about 18 months old. receive much useful training in the usages of the English language as applied to modern business.

Nearly all the larger business places now are asking for young men who salves and medicines without effect are prepared and able to do work that until we used Cuticura Remedies. Mrs. promises rapid promotion. The best H. Kiernan, 663 Quincy St., Brooklyn, business colleges cannot supply enough N. Y., Sept. 27, 1909." graduates to fill the places that are open, and are continually besieged by those desiring men and women to do office work.

Delicate Electrical Construction. Mention recently was made of a

combined stethoscope and telephone relay, by which the heart beats of a patient in London could be heard in the Isle of Wight. In a paper read before the British Institute of Electrical Engineering, S. G. Browne, the inventor, described the construction of this relay. It comprises a gap of 0.000,000.5 certimeter between platinum electrodes. The current of a dry cell will flow across this microscopic break, but any slight variations in this distace will vary greatly the current passing across the gap. The principal difficulty encountered was the question of preserving a gap of such microscopie proportions. It was evidently impossible to maintain the gap mechanically, but a system has been devised whereby the gap is auto matically maintained by the current tself. Despite the delicacy of the adjustment, the relay may be turned upside down without affecting the gap. With this relay the fluctuations in feeble currents may be magnified twentyfold.

Long Bridge Spans. The long span of concrete bridge over the Wissahickon at Philadelphia is not long to hold the distinction of the largest structure of the kind. Its span is 233 feet, and the Rocky river bridge of 280 clear span is now under construction at Cleveland.

A bridge having a central span of 281 has been designed for Spokane to carry Monroe street across the Spokane river. A span of 285 feet has been adopted to carry the New York barge canal over a gorge in the vicinity of Medina, N. Y. A bridge recently placed under contract by the civic authorities of Rome will cross the Tiber with a span of 328 feet. The cost of this bridge has been estimated at \$250,000. A bridge comparable with it in every respect is now more than half finished at Auckland, New Zealand. It has a total length of 910 feet and its main feature is a span of 320 feet, which will carry a forty foot roadway at an elevation of 147 feet above the ground below.-Chicago Tribune.

Fred Wohl spent the week in Marquette, where he has been doing carpentry work for the Cleveland-Cliffs Co.

Miss Lora Bell Dickey, of Baltimore is visiting at the home of A. McIntyre.

a fishing trip Thursday to Days River. Miss Olive Calder returned Sunday merning from Minneapolis.

A. E. Neff and M. J. Gleason enjoyed

Miss Bessie Kanney left Monday on a vacation trip to the Soo. Mr. and Mrs. G. Bilger returned Tues-

day by boat to Chicago. A son was porn Thursday to Mr. and Mrs. Oscar Berg.

DIDN'T WORRY HIM.

An Emergency Message That Failed of Its Purpose.

At the last session of congress there was a very close division on an important measure that was pending. A western member was fighting the bill with all of the vigor at his command, and his success depended absolutely on his presence at his post. A clever member of the opposition devised a scheme whereby the troublesome man could be lured away. Accordingly on the morning of the day the vote was to be taken a telegram was sent to the hotel of the fighting member. It read: "Come home at once. Your wife is dangerously ill." The congressman glanced at it, read it carefully two or three times and then started toward the capitol. The perpetrator of the scheme asked the congressman what the telegram contained. He showed is

"What!" gasped the inquirer, "and in the face of that are you going to the

capitol?" "I am," was the cool response.

"But don't you feel worried about your wife?" "Not in the least," was the reply.

"Why?" asked the other. "Because," replied the fighting member, "I have no wife."

The Family Tree Grew Backward. A Kansas City man married, and his mother-in-law came to live with him. About a year later a friend met him and asked:

"Has there been any increase in your family since we last met?" "Well, yes. There's one more of us." "Well! Glad to hear it. Boy or

"Neither. It's my wife's mother's mother, who has come to live with

The first man was silent a moment; then he said, "It looks to me, old man, as if your posterity had got headed in the wrong direction." - Kansas City

Merciful. Mrs. A .- I do love lobsters, but I

never have them at home because it seems so inhuman to kill them by putting them in a kettle of boiling water. Mrs. B.-Gracious! I never kill Miss Inez Jackson arrived Friday to them that way-it would be too horrible. I always put them on in cold water and let them come to a boil.-Boston Transcript.

> No Satisfying Her. "Women are hard to understand." "Think so?" "Yes; I told her she carried her age

well, and she was offended." "You don't say!" "Yes, and then I told her she didn't carry it well, and she wouldn't speak."

-Philadelphia Record.

The -

Things He Didn't Understand. At the table on an incoming liner on a recent trip one of the first cabin passengers found in an oyster one of the tiny seed pearls which look almost ex-

actly like bird shot. Apparently the formation of pearls was a mystery to him, for he examined the thing curiously, picked it up gingerly and laid it on the tablecloth for further investiga-

Now, it is a habit of cooks at sea to carry fishhooks in their pockets, and on this trip, by a curious coincidence, part of a small hook got caught in a piece of beefsteak that was served to this particular passenger. As soon as his knife encountered the hard object he started, picked it out carefully and laid it beside his other find on the

Then he beckoned to the waiter and confidently whispered in his ear. "I don't want to be impertinent," he said, "but would you mind telling me where you shoot your oysters and why you month in the interests of Simonds Saw catch your steaks with a hook and

> A Home Song. I turned an ancient poet's book And found upon the page, 'Stone walls do not a prison make Nor iron bars a cage."

Yes, that is true, and something more-You'll find where'er you roam. That marble floors and gilded walls Can never make a home. But every house where love abides

And friendship is a guest Is surely home, and home, sweet home, For there the heart can rest. -Henry van Dyke.

He Was Not Surprised. "What kind of ducks are these?" asked the visitor in the ornithological de partment at the museum.

"Labrador." said the attendant. "We paid \$1,000 for those two specimens." "Gosh," exclaimed the visitor, turning to his wife, "he says they paid \$1,000 for 'em! I've bought finer ducks for half a dollar many a time. What have you got 'em in that glass case for?" he inquired, addressing the guide tents.

again. "Because they are about the most the beauteous one. "I'll have to have notable exhibit we have. Those birds another." were shot in 1856. Labrador ducks are now extinct."

"He says," exclaimed the visitor, turning to his wife once more, "they put 'em in that glass case because they haven't a pleasant odor. And I don't placing it before the girl, soothingly wonder at it. They were shot in 1856." said:

The Only Thing to Do. The old veteran had paused in his reminiscences and was mopping his

brow, while his audience waited impa-

tiently, thinking he had left off. "I recollect," he continued dreamily, "that at the battle of Alma I had a very excitin' time. Bullets were peltin' upon us like rain, men fell right yards of our position. I was mad with excitement and wasn't thinkin' of anything except just fightin' for all I was worth. All of a sudden I turn-

ed and found that my regiment had changed its position, and I was cut off -left to the mercy of the enemy, sir!" The veteran paused. He always not know. does at the most exciting part. He finds it amusing.

"Well, what did you do?" asked an impatient listener. "Do?" said the old fellow sternly. Well, I reckon I did a mile in three minutes!"-St. Paul Dispatch.

The Way He Scored. Sir Charles Todd was for many years at the head of the Adelaide observatory and was the chief of the South Australian weather bureau. Once when visiting one of the smaller towns of the colony he called on a man who had gained a local reputation as a weather prophet. Without disclosing

his identity Sir Charles said to him: "I dabble a little in weather predicting myself. Would you mind telling me how you arrive at your conclu-

"Oh, that's easy enough," was the reply. "There's an old cove in Adelaide called Todd who puts in the papers what he thinks the weather's going to be, and I always put just the opposite to what he says, and that's the ent of \$1,000,000." way I score."

Some Puns. The best pun in the English lan-

guage is Tom Hood's: He went and told the sexton, And the sexton tolled the bell.

The worst pun is that of the man who fell into a ditch and rose with the remark. "How very ditchtressing!" Dr. Johnson said that the pun was the lowest order of wit, but to this Goldsmith replied, "The pun, in other words, is the foundation of wit, eh?" Every Latin master likes to tell his boys two puns. The first is a punning derivation of restaurant: "Res, a thing; taurus, a bull; a bully thing." The other is a derivation of virgin: "Vir, a

man; gin, a trap; a man trap." Among newspaper humorists the pun is dying out. In the old days, the good old days, the Burlington Hawkeye man and the Norristown Herald man and the Arkansaw Traveler man would pun at each other like this:

We don't care a straw what Shakespeare said—a rose by any other name would not smell as wheat.-Arkansaw Traveler.

We have made an oat of the above.

Burlington Hawkeve. Such puns are barely tolerable. They amaize us, they arouse our righteous corn, and they turn the public taste a-rye.-Norristown Herald.

SAVED THE STEW.

Quick Wit When to Falter Meant a Financial Crisis.

The late Little Tim Sullivan, one time pride of the Bowery and potent factor in New York politics, was always resourceful even in his youth. When a lad on festive occasions Little Tim knew what o'clock it was. He and Colonel Mike Padden, secretary of state in the Sullivan cabinet, were at an east side ball with two of the rosy cheeked lasses of that neighborhood of peachy young women.

Little Tim and Colonel Mike had between them exactly \$1-no more, no less. Supper time came. Before taking the girls into the supper room Little Tim and Colonel Mike secretly scanned the bill of fare and found that four oyster stews at 25 cents each would just fit their pile. Little Tim blandly and innocently impressed this conclusion upon the young girls. Anything Little Tim said was accepted as the top notch of hospitality. The four stews were before the little party. One of the girls liked catchup.

'I'VE SPOILED MY STEW.' administering a dose of the condiment the stopper shot into the stew and with it spurted half the bottle's con-

"There! I've spoiled my stew," piped

Little Tim, alert to the size of the joint wad of a dollar, reached for the girl's ruined stew, plumped it before Colonel Mike, grabbed Colonel Mike's untasted and unadorned stew and,

"No. no. girlie. Colonel Mike never eats an oyster stew without sousing it with catchup. He likes 'em that waydon't von. Mike?"

Mike said he did and took his medicine like a man.

A Woman Finds a Way.

Two burglars were on their trial and had engaged a smart lawyer for their and left, cannon roared like thunder defense, who, on cross examining one itself, and, worst of all, the enemy of the witnesses, said: "You say that had managed to get within a hundred on the night in question the moon was so bright that you could see the burglars in the room. Was your husband awake at the time?"

> "Was his face turned toward you or not?"

Witness-I don't know.

The witness answered that she did

"What! You don't know? Now, come, tell me, was his face turned toward you or the wall?" "I don't know."

"Ah, ha! I thought so," turning to the jury. "She could not see. She who identifies the prisoners could not see which way her husband's face was turned. Explain that if you can." "Well, sir, my husband is so bald that in a dim light I can't tell his face from the back of his head."

How He Lost a Million. Coionel Ochiltree used to tell a story

of how he once lost \$1,000,000. "It was at a banquet," he would say, 'and Senator Hearst of California sat beside me. Hearst told how years before he and his party had once been helped across the Platte by a brave red haired boy. The boy to do this deed had risked his life. Senator Hearst as he talked on got enthusiastic in his

gratitude to the lad. "'Why,' he said, 'if I could only find that boy tonight I'd make him a pres-

"I could restrain myself no longer at this point. I burst into tears. 'Senator,' I said, 'I am that red haired boy. Behold the boy in me!"

"But Hearst said, 'Ochiltree, you lie?' "And thus I lost a million."

A One Sided Duel.

An anecdote of General Israel Putnam describes him as having declared his detestation of dueling as a mere excuse for turning assassination into a game of chance and yet having been forced by public opinion to accept the challenge of a brother office. They met the next morning, but before the challenger could fairly get into position "Old Put" began blazing away at him, reloading as fast as possible after each fire. His victim protested vigorously. "Great heaven, sir," he ejaculated,

'is this the conduct of an officer and a gentleman? What are you trying to

"What am I trying to do?" roared Putnam as he rammed another charge into the muzzle of his pistol. "I'm trying to kill you, sir. You came here bent on murdering me, and do you suppose I am going to stand tamely and submit to it? No, sir! If you don't beat a retreat in less time than it takes old Heath to hang a Tory there'll be nothing left of you to carry off." The officer saw "Old Put" meant it

and took to his heels.

We Feel Proud!

"When Old Man Noah had nailed the last tin square on the roof of the ark, he climbed down, lit a fresh stogie and stood, teetering on his toes and sizing up the job. At last he observed, "That's just about the niftiest little ark that ever happened, if I do say it myself. There isn't a knotty piece of wood anywhere in its build."

There's a similar pride comes over any one engaged in making or selling Hirsch-Wickwire Clothing, for there isn't a poor bit of cloth or a weak stitch in the whole output of the factory. We don't have to try to cover up any weak spots in this line, because there are none. So you will have to excuse our feeling good over it.

IN A SPIRIT OF MISCHIEF

By SHIELA ESTHER DUNN Copyright, 1910, by American Press

Association.

"My child, what's the matter between you and George?" "Oh, annty, I'm vexing him!"

"Don't do it." A young girl sat at the feet of a woman of ninety. The tender curves in the face of the one contrasted strongly with the wrinkles of the other, who was her great-great-grandaunt. The

one was of the early twentieth century, the other of the early nineteenth. 'When I was your age," the old woman continued after a pause, "General Jackson was president. He was a great fighting man, and since he not only fought the enemies of his country, but his own enemies, his example affected every one. He fought a duel with and killed a young married man who said something disagreeable about his wife. I always thought she was no saint, but the romance of it fired a

some girl on whom to practice Jackson's knight errantry. "I was accepting the attention of a young Virginian, Fitz Hugh Fairfax. He was a remarkably handsome man and full of real chivalry, not the spurious kind affected by many others. He was devoted to me, and I loved him

young friend of mine, Albert Steven-

son, and he was constantly looking for

"But our southern girls had the same romantic ideas as the young man. We thought it a fine thing to firt with two or three men and at last give ourselves to some suitor who was ready to play Don Quixote in our defense I was at the time playing a game with both Albert Stevenson and Fitz Hugh Fairfax. I had one other string to my bow, but I have forgotten his name, And yet at one time I thought I should marry him. Oh, dear, bow one's memory fails after so many years!

"One day I was walking in the garden with Fairfax. We sat down on a bench under a tree. Stevenson called, and they told him I was in the garden. I saw him leave the house and come toward us. Fairfax was turned away from him. I am sure Fairfax was about to propose to me. He was bending over me with his face near to mine. Suddenly I jumpėd up, assuming an offended appearance. At the same time Stevenson joined us.

"He asked Fitz Hugh what it all meant. Very red in the face, he told Stevenson to ask me. Stevenson turned to me, and I, acting under the guidance of the spirit of deviltry that was in me, said never a word, but walked to the house.

"I was no sooner on the gallery than it occurred to me that some real troureturning to the young men. I told riedly walking around it. them that there was nothing of mo ment between Mr. Fairfax and me and they were to consider the matter Fairfax gave me that cold, contemptuous look, which I can see at this very moment, my blood ran cold. I knew he had loved me, that I loved him and

that I had lost him. "Neither of the young men spoke. As I had nothing more to say and influenced by the look Fitz Hugh had given me, I went away, leaving them together. I made a second mistake in doing this, but I couldn't remain where Fitz Hugh was after that look. I wished to go to my room and weep. There was more to weep for than the loss of his respect, and no man can really love a woman without that. It did not occur to me that after I had exonerated him there would be any trouble be-

tween him and Stevenson. "I lay awake that night till dawn and then fell asleep. I awoke late in the morning and went downstairs into the

dining room. "'La's a massy, Missy Imogen, said our table servant, 'have yo' heerd de

news? "'No,' I said. 'What is it?' "'Mars' Stevenson and Mars' Fitz Hugh fought a duel dis mawnin' befo' sunup, an Mars' Fitz Hugh killed

Mars' Stevenson.' "I sank on the floor in a swoon. "It was a long time before I recovered from an attack of brain fever. I re-

covered from the fever, but that's all I have recovered from to this day. "Fitz Hugh never came to see me or,

as far as I could learn, asked for me. I knew that in my heedless act and its result I had fixed a great gulf between him and me. He went back to Virginia. He never married, nor did 1. But we never met again.

"A friend of both parties told me what had happened after I left the two young men. Stevenson assumed that I had exonerated Fitz Hugh because I was magnanimous and did not wish to make trouble. He posed as my defender and sent a challenge to the man who had insulted me. Insulted me! In another moment he would have asked me to be his wife. They fought with pistols, and at the first shot Fitz Hugh had fired in the air. Stevenson then made some irri tating remark, whereupon Fitz Hugh on the second shot had sought to wing his opponent. By this shot he unintentionally killed his antagonist.

"By that one act I lost the only man I ever loved, made him a murderer with a sting upon his conscience, caused the premature death of one who loved me and have lived for threequarters of a century under a blight.

"No, no, dear, don't ver your lover. Many a pair of young lovers have been separated and their lives turned awry by a spirit of mischief on the part of the girl. But mine is the worst of all." either."

TEA FURTINE GUARD.

The Festivities Were Conducted on Strict Military Lines.

While looking for pirates along the Chinese coast, Admiral John Moresby encountered some strange adventures "Two Admirals."

and accepted as a matter of course. Then, in an access of politeness, the attendant proceeded with the tea to the guard, stiffly drawn up in the courtyard, the men with rifles shouldered. of the store, and Mrs. R. W. Eaton.

"Any time you say, Mr. President," replied the obliging Mr. Hitchcock.

LOEB MAY GO BACK TO ALBANY AS GOVERNOR

William Loeb Jr. runs for governor of New York and is elected he will return to the quarters at Albany where he once was a stenographer. but which he left as private secretary to the chief executive. Loeb started his

public career as a stenographer in the general assembly of New York, became private secretary to several public officials, reporter of the New York constitutional convention and in 1894 district attorney. Next we find him a stenographer in the office of Governor Roosevelt. He attracted the attention of the future president and was made private secretary. He held this position until Roosevelt's term of governor expired and then became the colonel's secretary while Roosevelt was vice-president. When Roosevelt was made president upon the death of McKinley, Loeb followed him to the White House and after Mr. Cortelyou was appointed postmaster general Loeb became private secretary. In his term of office at the White House the title was changed from private secretary to that of secretary to the president.

There have been many secretaries. to presidents or private secretaries as you may wish to call them, but there as quick to apply the full penalty of have been few who had anything on Mr. Loeb.

It is doubtful if any other secretary had such tasks to perform as were those set by Roosevelt for his aid.

Loeb was an ideal buffer for a president. He had a knack of handling big matters quickly and expeditiously If mistakes were made he could shoul der the blame in a flash and often did He knew the men the president wanted to see and the ones he didn't and it was seldom that the wrong per son got past him.

Advertising Talks

By GEORGE S. BANTA

How to Spend for Advertising

The lack of system which characterizes the expenditures for advertising of the average business man is appalling. If you ask him how much he spent in 1908 for giving his business publicity he will generally not be able to guess closer than one of his customers. And even if he did know to the dollar, the chances are ten to one he would have gained his knowledge by backward calculation. On other words, instead of saying, "My appropriation was such and such," he will tell you he has carefully ascertained the amount from his ledger.

Now when a merchant takes out insurance he carries enough to cover his stock. He knows when he has enough. He ought to cover his year's business with advertising as he covers his stock with insurance. As he starts the year he should estimate the net profit on his year's business and then take a liberal portion on this amount as his appropriation for advertising. With an eve on his past business by seasons he should then apportion the amounts to be expended during the different months. He should also roughly determine the amounts to be used in the various methods he expects to employ. This is the logical starting point.

Just how many dollars to spend in advertising must be answered largely by the taste of the merchant and the nature and conditions of the business. Let it be sufficient to carry weight, but not beyond what the profits and investment justify.

PRICES NOT ENOUGH | WHEN ADVERTISING COUNTS

EXCELLENT HOUSE FOR HENS

Arkansas Woman Gives Instructions for Constructing Building for 75 to 90 Fowls.

An excellent house for poultry is described and illustrated by Mrs. W. T. Walters of Siloam Springs, Ark., in Farmers' Mail and Breeze, as fol-

One end of the henhouse is to the south, the door opening on the east. The upper part of south end and all of the east side is of wire protected by a curtain, and the upper half of the door is also wire screening. Here in Arkansas this is necessary to insure good ventilation and avoid dampness. In case of rain or snow we lower the curtain. In Kansas and Nebraska it will be necessary to line north end and west side of house with tar or felt paper. The house is 12 by 18 feet and will accommodate from 75 to 90 fowls. If roosts and nests are made movable the cleaning will be an easy matter. The roosts in our house are 14 feet long and 11/2 inches square and rest on trestles. The nests are light,

Sketch of the House.

loose boxes. Everything can be carried out into the sunshine, and if need be left out for days.

We filled up the dirt floor with fine coal ashes, then mixed sand and lime well together, wet it well and tamped It down until it was five or six inches thick. This makes a floor that is always dry. If dry earth is sprinkled under the roots the floor can be cleaned more easily.

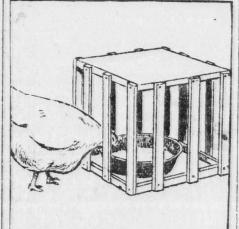

Finish by giving the building a good coat of paint outside and whitewash inside and the house will be neat comfortable and cleanly. Use coal oil and carbolic acid on roosts, trestles and nests and also on the floor to keep down the mites.

FEED FOR HENS AND CHICKS

Should Not Be Compelled to Hustle for All of Their Living-Home-

The fowls should not be compelled to get all of their living, even if they have a large run, but should have at least their morning meal. Where confined in yards they must, of course, be well fed and cared for if satisfactory results are expected. A feed of green stuff every day will be much relished and helpful.

An excellent method of protecting the feed and water is shown in the

Home-Made Feed Protector.

illustration. It is easy of construction exchange.

The writer has frequently noticed a village physician, a very busy man, who on his return from visiting his patients, past midday, will go at once to covers 15 acres of floor space, reprehis henyard, b ackof the barn, take a look at the biddies, and then gather them an armful of green stuff from three thousand persons. Six years the adjoining garden and give it to ago when her husband died the store them before going to his own dinner.

No doubt he was himself a good liver, and in thus caring for his hens expected they, in return, would liberally contribute to his own wants, which, of course, they did.

At this time of year there will be numerous broods of chickens, and from the first, as these are prime conditions for success.

Start Moderately.

It is best to begin keeping poultry n a small way and to keep the best of stock. As you learn, the flock may be enlarged with your experience. All town and patronize the home printer. ways remember that a large flock re quires a large sheltering place and arge feeding grounds. Where many owls are kept on one farm there should be more than one poultry house and they should be widely separated. The more houses you have and the more widely separated they are the less trouble you will have with dis-'ad." won't do it all-you've got to know about it and didn't allow them ease, hence the mare profit in the

PATRONIZE HOME MERCHANTS

Community of Fellow Assistance Necessary to Best Interests of Town or City.

There is a disposition of the American to disregard many of the usual things that make for good fellowship. There are a great many men and women who profess and doubtless feel warmly for the success and welfare of his congenial neighbor, but who commonly overlook frequent opportunities to do the neighbor a good turn in a business way.

One citizen whose friend is in a different business profession or trade will carelessly let pass occasions, when a kind word of recommendation would get him a job, or make him a client or secure him a trade, or win him a customer.

In fact, distant competitors of this neighbor or friend will get a boost and the neighbor be forgotten. Many a doctor has lost a prescription fee, and a lawyer a client, and a mechanic a contract, and a clerk a position, and many merchants paying customers, because their social neighbors or friends forgot to speak a business recommendation.

The writer, says the Houston Labor Journal, has heard it said that social friendships are more expensive than profitable. If true it is a moral and

economical wrong. This quality of neglect has made a hard-hearted struggle for existence and breds callousness in the conflict of human affairs. The same principle of mistaken selfishness and neighborly indifference has been feeding the growth of that unpatriotic spirit, which patronizes the mail order system. The system which if further encouraged by practise and by legislation, will lead to the closing up of

many local stores. To send off for your most valuable artices of merchandise to "big mail order factories," perhaps whose business is financed by a group of capitalists who are silently building up a great syndicate or trust to destroy the local merchants, the local middle men. is to create in the end in this country a condition where there will be no competition in prices. At the same time your are creating a situation that will force the local merchants to abandon trade and compete with you. In the end your own condition is forced into more limited opportuni-

If you desire to prosper and have friends—patronize home institutions give the neighbor who keeps the store a chance to live and prosper. A country cannot be lifted upward in civilized advantages, unless there be a community of fellow assistance, and the interest of all classes, is furthered in helping each other and not in dragging each other down.

Keep your money circulating at

To Clean Muddy Garments.

It is always better to let mud dry before attempting to remove it from cloth garments. In nine cases out of ten a good brushing will be all that is necessary for renovation the next day. If the stain still remain it is because grease of some kind was mixed with the mud, and the following mixture may be applied: Aqua ammonia two ounces, rain water one quart, saltpeter one teaspoonful, shaved white soap one ounce. Mix well and let stand over night Shake well before using. Pour a little of this on the spot, rubbing well with a piece of flannel or a sponge. If the spot does not disappear with the first application, repeat. When the cloth, is clean wash off with clear water. This mixture will not injure the material, and is most excellent.

Woman Manages Great Store.

Mrs. Charles Netcher of Chicago is acting manager and owner with her children of one of the largest department stores in the world. The store sents an investment of more than \$15,000,000 and employs upwards of occupied an old building. Mrs. Netcher has replaced it with a fireproof structure more than five times as large as the old one. Besides managing her store Mrs. Netcher is bringing up three sons and a daughter.

Practise What You Preach.

Mr. Business Man: You don't want the people of your community to patronize mail order houses; of course you don't. You breach the sound doctrine of "patronize home industry," "keep home dollars at home." etc. Good; amen! But do you practise it? Do you send your printing to -If you do, do you get any returns through the channels of trade? Of course you do-NOT. Hold up your

Even in Those Days. George Washington was tossing the silver dollar across the Rappahannock

river. "I forgot to tip the waiter at the last inn we stopped at," he explained. "You know how they talk about you:

when you overlook such things." For even in those days of liberty the waiter was known as a despot.

NEW NEWS OF YESTERDAY by E.J. Edwards

Brought Bankers

In Which He Routed Financiers Who Were Selfish and Grasping.

About a year before William Windom, who had been United States senator from Minnesota and secretary of the treasury in President Garfield's cabinet, returned to public life at the head of the treasury department in President Harrison's first cabinet in 1889, I met him in the office of a common friend. By chance the conversation turned upon some of the incidents associated with Mr. Windom's brief service in General Garfield's cabinet.

"Senator," I said, "I have always been anxious to know how it happened that you hit upon the precise plan by which you confounded and put to rout many of the great banks and bankers of the United States in the late spring of 1881?"

The senator laughed heartily, "Why," he said, "that plan was due entirely to one of those curious chances, these accidental discoveries, out of which sometimes great triumphs

"You may remember that the congress which sat in the last months of President Hays's administration passed an act authorizing the secretary of the treasury to refund a very large issue of bonds which bore five per cent, interest with a new issue bearing only three and a half per cent. It was legislation that caused the bankers of the country to be very much put out. They wanted the refunding bonds to bear at least four per cent. interest and, if possible, four and a half George C. Meade, I came to know full per cent., and because they did not well that at times-in fact, a great get what they wanted they began to deal of the time-he displayed a most surrender circulation in very large peppery disposition to all with whom amounts, so large, in fact, that there he came in contact, so that many of was danger of a great stringency in the generals of the Army of the Pothe money market. As I now recall it, tomas did not personally like their they surrendered about thirty millions superior," once said to me the late of circulation in the course of four or Gen. George H. WILL FIGHT EXPRESS

OVER A HUNDRED ORGANIZA TIONS PETITION INTERSTATE COMMISSION.

ALL SECTIONS TAKE PART

Petition Explains Why Rates Are Alleged to Be Extortionate and Demands Some Relief. Claim That Competition Is Eliminated.

Chicago.-What are declared to e unreasonable and extortionate rates and practices of the express companies are now under fire in every section of the United States.

On top of several investigations and orders reducing interstate rates lower than they could have obtained made in recent months by the railhad they not frightened President road commissions of over a dozen individual states a petition has been filed with the interstate commerce commission asking that body to make a general investigation covering the rates, rules, regulations, classifications and practices of all express companies engaged in interstate com-

The petition, which also pleads py chance thought of mine. And as a fer reasonable rates in the future, finishing touch to the complete rout of is in behalf of the 124 commercial organizations, representing practically every state in the union.

The complainants include the Chicago Association of Commerce and boards of trade and commercial clubs of New York, Boston, San Francisco, Los Angeles, New Orleans, Cleveland, Philadelphia, Baltimore, Indianapolis, Buffalo, Detroit, Milwaukee, Kansas City, St. Louis, Spokane, and scores of smaller cities, who have combined against the express companies under the auspices of the Merchants' association of New York.

Among the specific causes for complaint named in the petition are: That competition between the express companies has been eliminated by exclusive contracts with the rail-

could to help them, and then, after roads. That the rates are from two and one-half to four times the amount of the first class freight rates charged

by the railroads. That contracts giving the railroads approximately 50 per cent of the gross earnings afford the rail-"I replied that no one could be on roads an extensive rate above the better terms with him than myself. first class freight charge.

That the division between the express companies and the railroads upon a percentage basis of the gross receipts results in an excessive overpayment to the railroads for the headquarters, and request him for me transportation of small parcels, beto give them such assistance as lies cause it increases the charge for terminal service not performed by the railroad.

It is also charged that under the graduate scale the roads receive for moving 100 pounds in-small parcels as high as thirty-seven and one-half for their reception. Then I entered times the amount received by them for moving 100 pounds of first class afraid that I might, in a very irritable freight.

Also that, notwithstanding the large proportion paid to the railroads, the net returns of the express companies have been out of all proportion to the service performed and the capital invested by them-"a dis-Sharpe, bring your friends to me in proportion so enormous as to seem about 15 minutes, I will receive them incredible but for indisputable evi-

> The inventory of assets filed with the interstate commerce commission by the express companies represent in most part the accumulation from the extortionate charges extracted from the public.

LIGHTNING KILLS

Two Meet Death and Much Property Destroyed During Storm in Vicinity of Algoma.

Algoma. - This section has been visfted by the most disastrous thunder Two barns and a stable on Albert Burchman's farm near Forestville were struck by lightning and burned with the season's crops and several head of cattle, entailing a loss approximated at \$5. 000. Later a second storm swept

the countryside. Lightning struck the residence of Leonard Blatzke, seven miles west of here, killing his 10 year old son, Tom, and severely shocking Mrs. Blatzke, who was in the kitchen when the bolt entered the chimney, demolishing the structure. Tom Blatzke sat on the porch watching the storm. He was leaning against the wall and the current entered the back of his head.

About the same time, while walking in the field back of his barn. Richard Zillmer, son of Herman Zillmer, was instantly killed by light-The Zillmer and Blatzke boys were accompanied by friends who stood near, but escaped uninjured.

Negro Arrested on Suspicion. Monroe.-It is thought here that the police now have in custody the slayer of Sheriff Dull, who died in Toledo, the victim of a negro's bul-William Harris, the negro ar-

rested by the farmers' posse, is the

man against whom suspicion rests

most strong. He has been identified by Conductor Edward Grau of the Pere Marquette railroad and three of Grau's train crew as the man whom Sheriff dull was seeking for alleged assaults on Grau's train when the officer received the fatal shot.

Aviator Falls 650 Feet.

Brussels.-Falling from a height of 650 feet, Nicholas Kinet, a Belgian aviator, was instantly killed. Only three weeks ago Kinet's cousin, Daniel, one of the most widely known of the foreign aeronauts, was killed in a similar manner at Ghent. A rear wire of Kinet's biplane snapped, and, becoming entangled in the motor, stopped it with a suddenness that turned the aeroplane on its side. The machine crashed to the ground and Kinet was crushed under it.

Despair and Despondency

No one but a woman can tell the story of the suffering, the
despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued. Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG,

SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It allays inflammation, heals ulceration and soothes pain.

It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good."

It is non-secret, non-alcoholic and has a record of forty years of cures. Ask Your Neighbors. They probably know of some of its many cures. If you want a book that tells all about woman's diseases, and how to cure

them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R.V. Pierce, Buffelo, N.Y.

THEY ARE ONE AND A HALF.

Benham-The paper says that in Norway married people can travel for fare and a half.

Mrs. Benham-Married people aren't

one, even in Norway, are they? Wife and Counrty. Paul D. Cravath, the noted New York lawyer, said at a luncheon at the awyers' club: "Vacation time is here, and already that dreadful song about the wife gone to the country

is being resurrected. But a variant to the song was furnished by a conversation I overheard the other night. "'Hello, Smith,' said one man to another. 'I'm glad to see you back at the club again, old fellow. Wife off to the country, eh?'

"'No,' growled Smith. 'She's got back."

Mathematical Request. Little Mary, seven years old, was saying her prayers. "And God," she petitioned at the close, "make seven

times six forty-eight." "Why, Mary, why did you say that?" asked her mother.

"'Cause that's the way I wrote it in 'zamination in school today, and I want it to be right."-Lippincott's.

Not His Fault. "Oratory is a gift, not an acquirement," said the proud politician, as he sat down after an hour's harangue. "I understand," said the matter-offact chairman. "We're not blamin' you. You done the best you could."

Sometimes a girl pretends to whistle for the purpose of calling a young man's attention to the lovely pucker she can get on her lips.

Know How To Keep Cool?

When Summer's sun and daily toil heat the blood to an uncomfortable degree, there is nothing so comforting and cooling as a glass of

Iced Postum

served with sugar and a little lemon.

Surprising, too, how the food elements relieve fatigue and sustain one.

The flavour is delicious-and Postum is really a food drink.

THE WHITE SATIN RIBBON.

Token That Figured In the Wooing of a Volunteer Nurse.

By AGNES G. BROGAN. [Copyright, 1910, by American Press Association.

As the train sped on in the darkness the girl leaned back and closed her eyes wearily. She was sorry now that she had decided to come, for she had grown so tired of these thoughtless, pleasure loving people-tired of their idle amusements. But anything had seemed preferable at the time to the desolate loneliness of the place she had

A trainman walking through the car called the name of a town in a singsong voice. The girl sat up suddenly and consulted her watch. They were

"COME HERE!" SAID THE DOCTOR. due to arrive at 8:15 o'clock, and it was now just 8:10. The train slowed down, and she left the car.

"If you are expecting friends to meet you," said the station agent genially, "you might sit down and rest a bit. All trains are delayed tonight." "The Marshall carriage was to call

for me," the girl explained. "May I use the telephone?" "Never heard of them in Minning-

ton," said the station agent, "but there's a family called Marshall in the town above." The girl looked up in consternation.

"So this is Minnington," she said slowly. "I should have gone on to the next town. Is there another train out tonight?" The man shook his head.

The girl sighed resignedly. "Then I

shall have to spend the night here." The station agent regarded her curiously. It was seldom that he had seen so lovely a face. The gray gown that she wore was exceedingly plain, and her features were almost hidden by a heavy veil, which lent to her an air of

The door was thrust open suddenly, and a man entered, stamping the snow from his heavy topboots. He wore a fur overcoat, and the frost was glistening upon his short white beard and bushy eyebrows. He looked about sharply and then advanced toward her. "Glad that you are here," he said shortly. "Get ready at once, please. There is no time to lose."

"Good evening, doc," called out the station agent.

The girl hesitated. "You were expecting some one?" she asked.

"Certainly," the man replied in his curt way. "I am Dr. Green and wired to the city for a nurse on a hurry up case. She was to arrive upon the 8 o'clock train." He looked at her questioningly.

"The nurse must have disappointed you," the girl responded, "for I was the only person who left the train at Minnington."

"It's more than a disappointment;" the doctor said gruffly. "This is a question of life and death. A boy over there on the hillside needs skilled care tonight. I don't know of a woman that I could call upon in this town, if there was time to waste in searching for

The light of a sudden resolution shone in the girl's eyes. "I will go with you," she said. "Although not a trained nurse, I have been constantly caring for a patient for over six months. I have had experience, you shall see.

Together we may save the boy's life." The doctor gave her one long searching look, then brought the cloak that she had discarded and held it out for her. "Come on," he said. When he had wrapped the fur robes about her and the cutter went flying down the hill the girl spoke.

"Will you tell me about our patient?" she asked.

"Not much to tell," the doctor answered. "He was following a nasty trail near the mines this afternoon-he works over there-and thought to save time by jumping a trench instead of going around it. That's youth. Well. he broke his arm and cut his head, which will give us the most trouble tonight, for he has been unconscious ever since. We carried him to the nearest cottage, where an old woman

lives with her rheumatic husband, and

they are both about as much bein in a case of this kind as-as two children. Your job will not be an easy one, Miss--Miss"--

"Gray," said the girl promptly-"Eleanor Gray. It was too bad they could not have taken him to the hos-

"Hospital!" the old doctor burst out flercely. "We haven't such a thing in Minnington. When the men are sick we let them get along as well as they can in their miserable homes. When they are cut and injured we care for them in the surgery as best we may. Old Herriott, the millionaire mine owner, has always been too busy adding to his own dollars to think much of the comfort of the men who work for him."

"Pardon me," said the girl, "Are you

the regular mine physician?" "Yes," answered the old doctor. "I haven't grown rich over it," he chuckled, "but there are other things in this world besides money. Why, I know every man, woman and child in the place. 'My people,' I call 'em. I had a wife and a daughter who might have been about your age had she lived, but now there's only 'my people' left. Nothing could part me from them. Whoa, Rube," called suddenly, and the girl saw a light streaming from the window of a little cottage almost buried in the snow of the hillside.

A man's tall figure lay motionless on a bed at the farther end of the room as they entered. His brilliant black eyes shone unseeing from beneath a bandage which was wound around his head.

"Come here," said the doctor, "as quickly as you can."

"I don't care whether you are a trained nurse or not," said the doctor on leaving: "you are a good one."

When she resumed her duties in the morning she wore a bandeau of soft white ribbon about her dark hair in lieu of the nurse's cap. "You are so much better," she said to her patient in true professional style.

"Did the doctor send for you last night?" he asked curiously.

"He brought me himself from the station," she answered."

"And I shall call you"-"Miss Gray." said the girl-"Eleanor

Gray." He was a very tractable patient, but never had there been so model a nurse. She anticipated his every want, read to him when that was allowable and wrote a laboriously dictated letter or two which evidently referred to his work to some "Jack" at the mines.

"You are getting better fast, Dick,"

was the doctor's greeting each day. As she removed the bandage from his closely cropped head one morning she said, "You are pronounced convalescent and will require the services of a nurse no longer, so I am leaving to-

"Today!" cried the man. "But I can't let you go, Eleanor." Unconsciously he spoke her name. She was The man sighed. "I suppose you must return to your people," he was beginning.

"I have no people," the girl interposed. "My mother died when I was a child, my father not long ago."

"Eleanor," said the man, speaking rapidly, "this is not the time or the place, I know, but soon I will follow you wherever you may be to ask you to be my wife. If it is to be yes, Eleanor, won't you tell a poor invalid to help him on to recovery? If it must be no," he laughed shortly, "you might as well finish me now."

He was holding the girl's two hands in his strong one as she bent over him with tear dimmed eyes and smil-

"Richard," she said softly, "would you marry an unknown girl who is quite alone in the world?"

"I would marry you," he answered finally, "and my greatest happiness would be in the fact that you were dependent upon me for everything."

"For everything," she repeated slowly. She walked to the doorway, then looked back at him. "It is to be yes, Richard," she said, half laughing, half crying. "Remember that it is to be yes."

When he had fallen asleep upon his couch during the afternoon the girl entered the room softly. She was wearing her long cloak, and the heavy veil again almost concealed her face. She placed a little note upon his pillow, laid beside it the soft white bandeau that she had worn in her hair, then passed quickly into the kitchen, where the old woman sat dozing before the fire.

"Goodby, Hannah," she said and left something shining in the roughened

The doctor was just starting upon his round of afternoon calls when she entered. "I am leaving by the next train and wish to ask a favor," she said. "It was you who brought me from the

station. Now, will you take me back?" "We shall miss you," he said. "Is the boy reconciled to the loss of his nurse?"

She was silent until the horse had started upon his way. "I want to tell you," she said, "that Richard has asked me to be his wife. I did not know that the world could hold so much happiness, but when I have gone you will learn that I have been an impostor, deceiving you all, and his pride will not let him marry me. Then you must go to him"-she laughed unsteadily-"and plead my cause as eloquently as you can. But send him to

me. Promise me you will do that." "I don't know what all this nonsense about being an impostor means," the doctor answered "but if some fool notion is going to prevent that young idiot from marrying you, why, we will certainly send him to you if we have to chloroform him in order to do

The girl laughed, but tears were

glinting on her lashes. "It was not ; a fabrication that I told you in the station." she said. "My own father was the patient that I had been nursing for six months before his death. He would have no other aid. and. though you found a nurse that night mine has been the greater benefit, for

you have taught me to find myself "We shall miss you," the deeper repeated, and no more was a unit they stood in the doorway station. As the great trail bling toward them she thru envelope into his hand. "Growing, my doctor," she said softly.

He waited until he could see her He waited until he could see her The safeguards of thy righteous law smiling face no more, then climbed And, cast in some diviner mold. wearily back into the sleigh. When he Let the new cycle shame the old! opened the envelope two checks fell upon the lap robe, and the sum of money they represented seemed enormous. Presently he found a note:

Dear Doctor-The larger check is to be used for the erection of a new hospital, which will be planned and built exactly according to your directions. I will be pleased to forward more money as you may need it, and my business manager will call upon you tomorrow, so there need be no delay in carrying out your You are both urged and some wishes. manded to purchase with the second check all electrical appliances, etc., which would be helpful to you in your own private office. Hoping that you will keep me informed of the needs of "your people." always your friend, ELEANOR GRAY HERRIOTT.

The doctor stared blankly before him. "Old Herriott's daughter." he muttered - "the great mine owner's daughter." A sudden moisture appeared upon his spectacles, so he took them off and drew a gloved hand across his eyes, then gathered up the reins and clucked to the horse.

"How do, doc?" called the station agent. The doctor looked back, and his face was shining like that of a

"We are going to have a new hospital. Joe," he cried. "What do you think of that-a new hospital?" The cutter went flying down the hill behind old Rube, then toiled slowly up again until it stopped at the white cottage

Richard's face was very pale as the doctor entered, and his dark eyes shone out weirdly. The doctor seated himself for a long argument. "Well, she has gone," he began. "Old Herriott's daughter, boy-who would have guessed at that?"

"I know," said Richard impatiently. "I know. How soon can you fix me

up to follow her?" "Eh?" said the doctor, his eyes opening wide. Evidently urging and pleading were unnecessary here. "In two or three days if you obey orders," he answered. And so it happened that just three days afterward Richard waited in the reception room of Eleanor's home and frowned at the very evident display of wealth about him, wondering if the girl whom he had loved for her simplicity could be quite the same in such surroundings. A rustle of silken skirts caused him to turn abruptly. A tall, imposing young woman entered the room.

"Have you a message for Miss Her riott?' she asked. "I am her secretary." Richard hesitated a moment, then thrust his hand into a coat pocket and drew forth a crumpled white satin ribbon, the one that the little nurse had worn in her hair. He smiled. "Will you take this to her. She will understand."

The secretary betrayed no surprise at this strange manner of announcement, and once more he was alone. Slowly the moments passed until at length the heavy curtains at the lower end of the long room were parted, and Eleanor stood there, diffident, wide eyed as a child fearing punishment. He saw that she was wearing the fa-

ELEANOR STOOD THERE, DIFFIDENT. miliar gray gown. The man held out his arms and called her name. She came to him swiftly, silently.

"Richard," she asked, "can you forgive the deception? At first it was only a whim, and then-then I longed to be loved for myself alone." The man smiled down at her tender-

ly. "And you would marry plain Dick, the miner?" he said. "There has been a little misunderstanding there, too. Eleanor. I am a civil engineer. W. have carried out a pretty big contract | A star to light our path of tears, back there in the hills, but now a much greater opportunity offers. It Above thy cold and rocky breast may mean a long and venturesome journey, and I shall need my little nurse all the way. Will you go with me, dear?"

The girl raised a radiant, smiling face. "To the end of the world," she

OH, make thou us through centuries long In peace secure, in justice strong! Around our gift of freedom draw -John Greenleaf Whittier.

SONG OF MARION'S MEN. UR band is few, but true and tried, The British soldier trembles When Marion's name is told.

Our fortress is the good green Our tent the cypress tree. We know the forest round us-As seamen know the sea. We know its walls of thorny vines, Its glades of reedy grass Its safe and silent islands Within the dark morass

Well knows the fair and friendly moon The band that Marion leads, The glitter of their rifles, The scampering of their steeds I'is life to guide the flery barb

Across the moonlight plain. I'is life to feel the night wind That lifts his tossing mane moment in the British camp-A moment-and away Back to the pathless forest Before the peep of day.

Grave men there are by broad Santee, Grave men with hoary hairs. Their hearts are all with Marion; For Marion are their prayers. And lovely ladies greet our band With kindliest welcoming, With smiles like those of summer And tears like those of spring. For them we wear these trusty arms And lay them down no more Till we have driven the Briton

THE IDLE LIFE I LEAD.

THE idle life I lead Is like a pleasant sleep Wherein I rest and heed The dreams that by me sweep.

Forever from our shore.
-William Cullen Bryant.

A ND still of all my dreams In turn so swiftly past, Each in its fancy seems A nobler than the last.

A ND every eve I say, Noting my step in bliss, That I have known no day In all my life like this. -Robert Bridges.

HAIL, COLUMBIA! AIL, Columbia, happy land! Hail, ye heroes, heaven born band, Who fought and bled in freedom's cause. Who fought and bled in freedom's

cause And when the storm of war was gone Enjoyed the peace your valor won! Let independence be your boast. Ever mindful what it cost. Let its altar reach the skies.

CHORUS. Firm, united let us be, Rallying round our liberty.
As a band of brothers joined, Peace and safety we shall find.

mmortal patriots, rise once more! Defend your rights; defend your shore. et no rude foe with impious hand, Let no rude foe with impious hand. vade the shrine where sacred lie Of toil and blood the well earned prize. Vhile offering peace, sincere and just, on heaven we place a manly trust. hat truth and justice may prevail And every scheme of bondage fail.

Sound, sound the trump of fame! Let Washington's great name Ring through the world with loud applause, Ring through the world with loud ap-

plause! Let every clime to freedom dear listen with a joyful ear. With equal skill, with steady power, He governs in the fearful hour The happier time of honest peace.

Behold the chief who now commands. Once more to serve his country stands! The rock on which the storm was beat. The rock on which the storm was beat, But armed in virtue, firm and true, His hopes are fixed on heaven and you. When hope was sinking in dismay. When gloom obscured Columbia's day, His steady mind, from changes free, Resolved on death or liberty.

—Joseph Hopkinson.

EVENING SONG.

OOK off, dear love, across the sallow And mark you meeting of the sun and How long they kiss in sight of all the

Ah, longer, longer we! NOW in the sea's red vintage melts the As Egypt's pearl dissolved in rosy wine, And Cleopatra night drinks all. 'Tis done.

Love, lay thine hand in mine.

COME forth, sweet stars, and comfort heaven's heart. Glimmer, ye waves, round else unlighted O night, divorce our sun and sky apart, Never our lips, our hands!

> NEW ENGLAND. LIME of the brave, the high heart's

-Sidney Lanier.

Laved by the wild and stormy Thy children in this faroff land

Devote today their hearts to thee Our thoughts, despite of space and time. Today are in our native clime, Where passed our sinless years and where Our infant heads first bowed in prayer.

Stern land, we love thy woods and rocks. Thy rushing streams, thy winter glooms And memory, like a pilgrim gray, Kneels at thy temples and thy tombs. The thoughts of these, where'er we dwell, Come o'er us like a holy spell, A rainbow on the sky of years.

The tempest sweeps, the night wind wails,

But virtue, peace and love like birds Are nestled mid thy hills and vales, And glory o'er each plain and glen Walks with thy free and iron men And lights her sacred beacon still On Bennington and Bunker hill. -George Denison Prentice.

MUSIC

My display room in the Theatre Block, just opened, will display a choice of instruments. I sell Schultz and Moline Pianos and Organs for cash and on time at advantageous rates, and can price you them from \$95.00 to \$750.00. Your old instruments taken in part payment. I have also a line of Talking Machines.

E. A. SEGERSTEIN GLADSTONE, MICHIGAN

Open Every Evening Box 586

Days by Appointment Theatre Block

IN L. O. RAPID RIVER.

Rapid River defeated Gladstone the last two games of the schedule: Sunday's game was one of the closest ever seen on a diamond; but Monday's after the fourth inning was too one-sided to be interesting. The result is that Gladstone holds third place regardless of the result of the remaining games of the schedule. Escanaba's percentage is .647 and Rapid River's .572. The question is, therefore, how many games can Escanaba win out of eight? Two straight will put Rapid River at the head of the league.

Lewis C. Wolfe does not believe the old adage about "forty acres and a mule" He favors intensive cultivation and enthuses over the homecroft movement. Mr. Wolfe has an acre patch, not far from the river, and a short portion of his time every day, after his labors as a watchman, is spent on this. He believes that for a man to spread his efforts over a half section is unprofitable; and Mr. Wolfe's little plot yields him rich returns from a slight expenditure of time and money. "Back to the land."

Rev. Thomas Ainslie is a believer in the back-to-nature movement. A natural-born sportsman and lover of the woods, his greatest pleasure is to take a twenty-mile jaunt into the country. Last week Mr. Ainslie made an expedition every day, carring with him his rifle for a panther heard recently not far from town. He was grieved to see the ravages which fire has made in the late dry spell.

Messrs. Hagel, Grunstrom, Nelson and Devet, piloted by Burrell Cleveland and attended by Leslie Caswell, went up Tuesday to Trenary to fish down the Rapid River, by way of an outing.

"Connie" Gaffney has opened a successful shoe shining department in Shippy's parlor, and the dividends are so high that he has rejected all McFarland's endeavors to buy into the firm.

J. McCann, of Munising, has purchased the Princess Theatre of Jesse Thompson, and is now conducting it, latest style simultaneously with his other invest-

Constable Thompson may pursue with a leaden heel-but he collects with an iron hand.

Mrs. and Mrs. Charles Kirch drove to

Gladstone Thursday afternoon.

TEACHER'S EXAMINATION. The regular teacher's examination for Delta county will be held at the court house, city of Escanaba, commencing Thursday, August 11, 1910, at 8:30 a m. The examination is open to all applicants for First, Second and Third grade certificates. A number of the questions on reading and physiology office, in the City of Escanaba in said county, on will be based on the reading circle work or before the third day of December, A. D. for 1909 and 1910.

P. R. LEGG. County Commissioner of Schools.

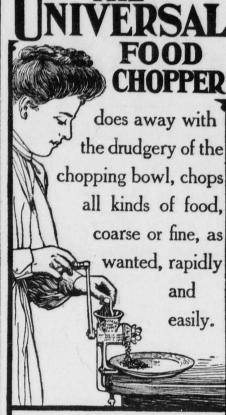

NO WAR.

The Houghton Gazette, whose head is always level when the gubernational July 23, 1910. contest is not in question, speaking of the yellow reports regarding Japan's desire for the Phillipines, says:

It seems to us that if Japan wants all of these possessions we could arrange the matter satisfactorily without a war. The people of this country have never been able to figure out what good these islands have done us. They have cost millions and millions and they might be of some commercial to himself or some other suitable person, value to this country we propose to turn them loose and let them run inde pendent just as we did in the case of appointed for hearing said petition; Cuba and just as we expect to do in the case of Porto Rico sometime. If Japan really wants those Phillipine islands to said day of hearing, in The Gladstone Delta, let her pay us what we paid Spain for a newspaper printed and circulated in said them and take the outfit without a county. fight.

We are quite convinced that public sentiment in this country would not back a war with Japan no matter how cleverly the yellow newspapers arranged the matter of working that sentiment to the boiling point, no matter if they arranged for the destruction of several of our warships, in Japanese waters.

People in this country have commenced to see that this war business does no body any good. It costs the government a barrel of money and the people pay therefor years and years thereafter. Moreover the boys who sacrificed their lives or their healths because of the last war are not justified in their action, to themselves or their families. If they insist on getting up a war with Japan let the fellows who do all the loud talking do the fighting. It will cure them of the war habit.
