spread some paint, as can Jud. The as little time as conscientious and artistic coloring demands. It is unfortunlic inspected it, its beauty would burst in dazzling splendor upon the bewildered gaze of the admiring spectator.

As The Delta remarked last week advertising is "the goods." Newspaper and so forth. Otto, you didn't ought to pages of Aesop.

The upper peninsula boosters' club had a royally good time in Detroit and promised to do its best to bring the proximity commercially. Chicago and Milwaukee have a pretty strong hold upon the upper peninsula in matters of trade, and it will take some splendid advertising to divert it from these points. The average Detroit merchant thinks tomorrow will do just as well as today in the filling of orders while the Chicago wholesaler is alive to the importance of prompt deliveries. Some of those Detroit concerns are very oldfashioned in their business practices and modern business men do not like their system. - Iron Ore.

Joke from fanciful Kansas: A tailor in Ottawa advises his patrons to select customers wait until next summer-St. Louis Globe-Democrat.

Mr. Needham on his trip to Manistique Monday had a very interesting experience. Like all adventurous men, from the days of Drake and Hawkins down to our polical pirates, he and Archie Maclaurin thought they could save something by taking a short cut. They did so, and were over three hours "negotiating" as many miles through an old lumber road which brought them to the place where Lillquist and his crew were camped at Spring Lake. The horn was tooted and the hunting camp scared out of a year's growth. The auto was only brought out safely by making an amateur corduroy road.

There are about 50 more of those framed pictures left of 15 20 and 25c kind that I am closing out at 10c each. See them while in window at STEWARTS PHARMACY

Tuesday evening an ordinance limiting the number of saloons in Escanaba to fifty, was offered in the city council by Mayor Lindsay. The Press says: Ald. Priester, Jaegers and Wood immediately gave their support to the document and the ordinance was put to a vote at once without being referred to the ordinance committee. That fact probably defeated the ordinance as it is generally recognized that there are too many saloons in the city and all of the saloon keepers of the city who maintain first class places of business are in favor of such a measure. Several of the members of the council objected to such an important measure being railroaded through the council with the result that it failed to receive the

requisite number of votes. Speaking of the reverend notoriety seekers, the Houghton Gazette says "Yes, if the colonel didn't happen to be an Astor, didn't happen to be worth so many millions, his wedding to Miss Force would occasion no comment at all and none but a few intimate friends of the family would have remembered that he was married once before.

The Escanaba city council on Tuesday passed the annual city budget, providing for the expenditure of approximately \$82,000 in the coming year for the support of the city government and the public schools. In addition to providing for the regular funds the appropriation bill carries a provision to construct a trunk sewer line along the west border of the city to empty into the bay below | tional advantages. program has been prepared. Foresters are interested in a recent decision in the New York courts sustaining a claim for \$500 for a tree cut down by a construction company. This was upheld as a fair estimate of its "going value." It was not based on sentiment, although it had no relation to the value of the tree as lumber or firewood. The tree, alive, had been a thing of use and profit on the street. When it was cut down the loss had not been merely esthetic. It had been material. Foresters are encouraged to find that the courts take this view of the matter. Half Gladstone is tusy trying suits to match their hair. The local to make it pleasant to live in; and the paper advises him to let his bald-headed other half are throwing tin cans, manure and anything else they don't need themselves, in the alleys and upon private property.

# CITY COUNCIL

The council met Monday in regular session, with Aldermen Folsom and

The Mayor was authorized to buy the alley in block 51 for the city from C. W. Lightfoot.

The city engineer was instructed to furnish an estimate of the work necessay on the north hill (Brampton road.) It was resolved on motion of Alderman Clark, to borrow \$5000 for current expenses, one half to be paid April 15. 1912 and the other half May 15.

The report of the school board, that \$33,000 should be appropriated for next new school building in the Buckeye, and that \$14,000 should be raised by taxation cepted. This sum and \$12,650, for City purposes, a total of \$26,650, was ordered levied and raised by taxation.

A deed was ordered to be given F. W. Aslett for the alley in block 51, south of its center; this being given for a strip of land running east and west in this block, to be used for alley purposes.

The council adjourned.

Jos. Heldmann came down from Trenary Thursday and spent a little time and money with his friends on Delta

# ARE THEY AFRAID? It certainly looks like it. The county

board of road commissioners have never published their proceedings. Though the board has spent hundreds of thousands of the people's money, no one knows what was done with it. It is not to be wondered at that the board is looked upon with suspicion, especially in Gladstone. For the dictator of the ounty board is that same D. A. Brotherton who put in the Delta avenue sew-And now it is said that the wets have er. If the county's road work is conducted on the same broad-gauge plan it Oysters are preparing for their busy

# GLADSTONE DELTA FEW ACCIDENTS IN MICHIGAN MINES

Commission Is Investigating Lake Superior Industries.

DEATH RATE IS VERY LOW

for the Year Out of 20,000 Men Employed-Workers Have Ald Fund.

Lansing.-A special investigation made by an agent of the Michigan emcompensation commission, appointed by Governor Osborn, discloses a very low number of fatal accidents, considering the many thousand men em-Lake Superior district, and remarkably few injuries resulting in permanent disability, such as the loss of an arm, leg or eye. Most of the accidents reported consist of minor injuries, a lacerated hand, finger or skull, bruises and sprains, resulting in the loss of only a few days' time.

The investigation shows the fallacy of the idea of people unfamiliar with the mining industry of this region that men are maimed or killed by thewholesale in the copper country mines. The report of the mine inspector for the year ending September 30, 1910, shows that there were but 58 men killed during that year. the number of men employed being nearly 20,000, working approximately

300 days per year. injured by the breaking of the hangar. Most of the mines maintain an aid fund, from which an injured man may rules, and amounting to one dollar a day at most of the mines, and at others not less than five dollars per working week. When a man is killed varies at the different mines, from \$200 to \$600. These aid funds are maintained by the men at some of states favor uniform divorce laws may the mines and by the men and the company jointly at others. In these latter cases the company contributes an amount equal to that contributed As a matter of fact, flying is still by the men. The contributions of the \$1 per month. Haggerty Asks Injunction.

John S. Haggerty, through his attorney, Alexander Groesbeck, of Detroit, presented a bill of complaint before Judge Parkinson in circuit court asking for a temporary injunction restraining Clyde I. Webster from taking his seat on the board of control or interfering with Haggerty's work on the board until Webster can try his title to the office in the proper procedure.

While the injunction was not granted by Judge Parkinson, the court stated that he would consider the matter. The court believed it was without jurisdiction in the matter, as neither party resided in Jackson county. He stated that he believed that the suit should be started in Wayne county.

Groesbeck argued that as the board meets in Jackson the court would have jurisdiction. The fact that the court did not grant the injunction does not mean that he will not grant It, as he will give the question consideration before acting.

It was not necessary to have an injunction, as Webster did not show up to take part in the last board procedings. Mr. Haggerty was there, as were also Messrs. Adams and Wernicke. This meeting of the board was called before the appointment of Mr. Webster.

Mr. Groesbeck stated that the injunction matter will be gotten before the supreme court in some way within the next month or be disposed of before the next board meeting. It is probable that the attorney general will be asked to take some action in the matter.

F. of L. Attends Meet.

Two hundred delegates attended the state convention of the Michigan Federation of Labor which met in the auditorium. No time was lost in getting down to business and a report was read from the committee that investigated the feasibility of the employers' liability and workingman's compensation commission, which met here at the same time.

May Call Extra Session.

Information from a reliable source is that when the special committaxation matters recently named by Governor Osborn makes its report to the chief executive, their findings will be important enough to induce the governor to issue a call for a special session of the legislature. This will be the business of the session, as also to redistrict the state. In fact, it is known by close friends of the governor that he has already been apprised of the most of the commission's findings, and has expressed himself as desirous of calling a special session if the report in its entirety is as good as indicated

The commission has ascertained that the corporations of the state are not paying their just proportion of the taxes, if their valuation is determined by using the incomes they earn on their stocks and bonds. The commisployers' liability and workingmen's sion has statistics which prove that only a small percentage of the tangible and intangible assets of these corporations are placed on the tax rolls. when compared with the valuation ployed, in the copper mines of the placed on real estate for taxation pur-

It is known that the commission in its report will recommend to the legislature the abandonment of the present taxation system and the division of state and local taxes, leaving general property to bear the local tax and the corporations to pay the state tax, aided by an excise tax on liquor and an increased inheritance tax.

There is going to be a large space in the report given to the tax on liquor, according to information obtainable in Lansing, and several new features of liquor taxation will be advocated. The various representatives and senators are already figuring for a short winter session.

The state constitution says that members of the legislature can only draw their salary of five dollars per day for 20 days when convened in special session. The point arises, and is being much discussed in and about the state house, whether it will be possible for the legislature to accomplish much important legislation, especially a new taxation system, in so limited a time. Governor Osborn is aware of the fact that the members' pay would stop at the expiration of the 20 days, but he is also aware that there is nothing in the constitution that prevents the legislature remaining in session after the 20 days, and pay, has expired. The governor has remarked that because the salary of the legislators stopped that would be

State Has Only One Leper.

What is to become of Marrilius Jensen Michigan's only known leper? That is the question puzzling the

state board of health. Jensen, it will be remembered, is the man located nights or worked days becomes the accepted by both men and companies near Calumet and being cared for by property of a Tennesseean, by will. engaged in hazardous undertakings, the Calumet & Hecia Mining com-

The case of Jensen, who is only thirty-nine years of age, is a most interesting one, and while some parts of the story have been printed before, there are new phases constantly arising and more developments seem to come up at every visit of the state board of health. Dr. Robert L. Dixon, secretary of

the board, in company with Dr. A. S. Warthin of Ann Arbor, has just returned from a visit to the upper peninsula. The trip was made for two reasons, one to ascertain the condition of Jensen, and the other to learn if possible if there are any more lepers or indications of leprosy in that section. There have been frequent reports that there were other cases, but the two physicians made a careful examination, especially in the mining left Pontiac for the state fair districts where foreigners are located. and report there are no apparent indications of the disease in any section

The man Jensen has officially been declared a leper for the past two years. Eleven years ago he left Norway and came to this country. Five years ago the first blotches appeared on him and this a short time after his return from Alaska, where he spent a number of years in herding reindeer. When he was officially declared a leper two years ago it was given out that he undoubtedly contracted the

disease in Alaska. According to the story told by Jensen himself a few days ago to Dr. Dixon of the state board of health, Jensen's mother died of the disease a few years ago. Jensen says that when he left Norway she had no apparent indications of the disease, but that it developed later and she died. Jensen has a wife and four girls. He is well educated himself. His children are bright and there is absolutely no trace of the disease among any of the family. The father occupies a small house by himself situated on a small plot of ground furnished by the mining company, and the family occupies a house a short distance from the father's habitation. A horse, cow and chickens are among the various useful necessities furnished by the mining company for the comfort of the leper who was for a number of years a valued employe in

# TAFT VISITS DETROIT, OPENS STATE FAIR

THE PRESIDENT'S APPEARANCE AT STATE FAIR GROUNDS BROUGHT MANY THOUSANDS TO DETROIT.

SPECIAL TRAIN ARRIVES ON TIME AND HE HAS BUSY DAY.

After Breakfast the Presidential Party Made a Side Trip to Pontiac, Arriving at the Fair Grounds at Noon.

arrived in Detroit at 6:55 a. m. Monday. For nine and one-half hours he was as busy a man as during any of the days on his great 15,000-mile "swing around the circle." In that time Detroiters and the visitors had several excellent opportunities of seeing him-when he left the train and went to breakfast, when he rode out Woodward avenue on his way to Pontiac; when he returned and spoke at the state fair grounds; when he went from the fair grounds to the Wayne Gardens; when he visited the revenue men at Hotel Cadillac, and when he returned to his train.

After the special train of six cars had pulled into the station, the presidential party took until 7:15 o'clock to prepare for its entrance to the city. Meanwhile the Board of Commerce committee on arrangements. composed of Federick Holt, chairman; Milton A. McRae, president of the board; Fred M. Alger, Walter A. Russel, Mayor William B. Thompson, and Secretary Lucius E. Wilson, welcomed the party. Seven automobiles carried the guests and the committee to the Detroit club, passing up Third avenue to Fort street and east on Fort street to Cass avenue.

President Milton A. McRae had been selected by the Board of Commerce committee as the man who would ride with President Taft and act as official host and guide during the day. In the automobile with these two were Maj. A. W. Butt and Charles D. Hillis, the president's secretary; James Sloan, Jr., the one secret service man who will never be separated from Mr. Taft on the long journey, was on the front seat. In the second machine were Dr. Thomas L. Rhodes, the president's physician: R. L. Jarvis and Joseph Murphy, of the secret service, and Wendell W. Mischler, the president's stenogra-

All the members of the presidential party and 50 newspaper men from Detroit and other points in the state, were the guests of Milton A. McRae at breakfast at the Detroit

During and after breakfast, President Taft met the newspaper men informally and was interviewed by them or turned interviewer himself. At 6:45 o'clock the police cleared the street and the party boarded two D. U. R. cars for the trip to Pontiac.

Pontiac was reached at 10 o'clock. Automobiles were in waiting and the party were given a short ride about the city before the president gave his address. At 11 o'clock the cars grounds, which was reached 40 minutes later. A batallion of the First regiment, M. N. G., formed a double line from the Woodward avenue entrance of the fair grounds to the grove, and the president rode be tween these ranks to the band stand. where he delivered his address of the day and formally opened the fair. Five thousand people were able to obtain seats in the grove. The others dren.

had to stand. At the conclusion of the address the members of the reception committee of 100 of the Board of Commerce were introduced to the executive by Major A. W. Butt.

And then came the real parade of ids. the day, the opportunity for almost unlimited thousands at least to get a good look at Mr. Taft, for the entire Breakfast at Country club. Address party rode in automobiles from the fair grounds, down Woodward avenue to Jefferson and west to the Wayne Gardens. About 50 machines were in line. The president's car and those following were filled as on the morning ride to the Detroit club. R. & I.

Then came the committee of 100, newspaper men and others. As the president's car left the fair grounds, it was surrounded by Detroit police department automobiles and motorcycle policemen, the latter in their blue uniforms. On the downtown streets a largely increased traffic squad was required to keep the streets clear, orders having been issued that nobody was to be allowed to get off the curb on the pavement. At Grand Circus park the procession was met by a battalion of mounted police, who led the way to the Michigan Central for Joliet, Ill.

Chicago postoffice. The land to be on leaving Richmond, Va., for Chiand is bounded by West Van Buren, would try to find the man who claim-Jefferson, Des Plaines and West Con- ed to have been an eye-witness to gress (extended) streets.

At a meeting of the Calhoun Counlawyers were mad.

President William \ Howard Taft | Wayne Gardens, where luncheon was served. The president entered the dining hall after the committee and guests had been placed at their respective seats. President Milton A. McRae introduced the president to 1,400 guests, among whom the were the following specially invited notables: United States Sepators William Alden Smith and Charles E. Townsend; Congressman Frank E. Doremus, Detroit; W. W. Wedemeyer, Ann Arbor; Samuel W. Smith, Fontiac; J. M. C. Smith, Charlotte; Edward L. Hamilton, Niles; Edward S. Sweet, Grand Rapids; Henry Mc-Morran, Port Huron; James C. Mc-Laughlin, Muskegon, and George A. Loud. Au Sable

Of the Pontiac reception committee, Harry Coleman and Samuel W.

Smith R. E. Cabell, United States commissioner of internal revenue of Washington.

-Reciprocity advocates from Windsor: Dr. James Sampson, Charles Montreuil, C. R. Barker, Major J. W. Hanna, H. A. Conant and George Mair.

Another chance to see the president was given when he left the luncheon for a short ride through the heart of the city, arriving at the Hotel Cadillac about 3:40. Here the president delivered a ten-minute address to the convention of the National Association of Internal Revenue Officers. During the procession from the Wayne to the Cadillac hotel and to the Michigan Central depot the president had as an escort of honor nine companies of federal troops, now stationed at Fort Wayne, and the local Boy Scouts of America, led by the Twenty-sixth Infantry band, which, with Harold Jarvis, furnished the music during the luncheon. Four police autos preceded the president's car at the head of the band. The president's train left Micht-

One Cure for Sarcasm. Bunsen always was sarcastic. One evening last week when he got home his wife had a new hat to show him. It was some hat. Anybody could have seen that it was the final

phrase in female headgear. But Bunsen started to make remarks. He said it looked as if it had been trimmed by a cross-eyed milliner on an empty stomach. And he made a lot of other disparaging remarks.

Mrs. Bunsen was almost in tears. Bunsen had to go into the other room to have a quiet laugh at her expense. The next day he had forgotten all

about the hat. The day after that he was reminded of it. Mrs. Bunsen handed him a bill for retrimming that hat-\$18.34 it came to.

Bunsen paid it without a murmur and said the revised edition of the hat was just exactly right. He is not criticizing hats any more.

Qualified Prayer.

Marion's mother was ill, and the aunt who took her place at the head of the household plied the children with unaccustomed and sometimes disliked articles of diet. One day, after being compelled to eat onions, Marion refused to say grace.

"Then you must sit at the table until you are ready to say it!" was the aunt's stern judgment. An hour or so later, when the brilliant sunshine and impatient calls of her comrades together comprised an irrestible ap-

"Oh, Lord, make me thankful for having had to eat horrid old onions, if you can do it. But I know you can't."

A HIT What She Gained by Trying Again.

A failure at first makes us esteem final success.

A family in Minnesota that now enjoys Postum would never have known how good it is if the mother had been discouraged by the failure of her first attempt to prepare it. Her son tells the story:

"We had never used Postum till last spring when father brought home a package one evening just to try it. We had heard from our neighbors, and in fact every one who used it, how well they liked it.

"Well, the next morning Mother brewed it about five minutes, just as she had been in the habit of doing with coffee without paying special attention to the directions printed on the package. It looked weak and didn't have a very promising color, but nevertheless father raised his cup with an air of exceptancy. It certainly did give him a great surprise, but I'm afraid it wasn't a very pleasant one, for he put down his cup with a look of disgust.

Mother wasn't discouraged though, and next morning gave it another trial, letting it stand on the stove till boiling began and then letting it boil for fifteen or twenty minutes, and this time we were all so pleased with it that we have used it ever since.

"Father was a confirmed dyspeptic and a cup of coffee was to him like poison. So he never drinks it any more, but drinks Postum regularly. He isn't troubled with dyspepsia now and is actually growing fet, and I'm sure Postum is the cause of it. All the children are allowed to drink it and they are perfect pictures of health." Name given by Postum Co., Battle Creek,

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

# NEW NEWS of YESTERDAY

By E. J. EDWARDS

# First of Submarine Cables

Colonel Coit's Invention That Antedated That of Samuel Morse, but Was Dropped for Manufacture of Revolvers.

Not long ago I told the story of how General Zachary Taylor unconsciously made the revolver popular after its inventor, Samuel Colt, had failed to induce the army and the public to look kindly upon the new weapon. Colonel Colt always gave "Old Rough and Ready" full credit for making the revolver a commercial success, and to his intimate friends he sometimes declared that it was General Taylor, also, who perhaps kept him from being known to fame as the inventor of the transatlantic cable. One of the friends to whom he thus expressed himself was Marshall Jewell, who was a fellow townsman of Colt's, in Grant's cabinet as postmaster-general, before that minister to Russia and twice governor of Connecticut, and, like Colt, for many years one of the leading manufactur-

"When the country was going wild over the laying of the first Atlantic cable," said Governor Jewell, "and over the exchange of messages between Queen Victoria and President Buchanan. Colt told me that a number of years earlier—at about the time when Profesor Morse was perfecting his telegraph system-he conceived the idea that it would be possible to lay a telegraph line upon the bed of a river or along the coast that would be successful, and he furthermore was of the opinion that there was nothing in science which stood in the way of laying a telegraph line upon the ocean bed from continent to

"Now Sam Colt was a man who, when an idea occurred to him involving invention and experiment, never let it lapse unless he had tested it and found it wanting. So he had a good many talks with Professor Morse in the latter's little laboratory on the top floor of a building facing Washington Square, in New York, and he ity to secure an insulating medium.

Saginaw. - Joseph B. Jenpryeski, twenty-one years old, son of Mr. and Mrs. Julius Jenpryeski, was found dead about twenty feet from the Grand Trunk railroad tracks, which pass through his father's farm in Bridgeport township. It is thought he was struck by a train. The older Jenpryeski took his team of horses out of the barn to water them. They got out on the railroad right of way and it is thought that the son while trying to get the horses off the track was killed. When he did not return nothing was thought of the matter as it was sustomary for him to spend the night at his sister's home in Fosters, a few miles from there. When it was learned that he was not there a search was made and his body found.

Kalamazoo.-Grief over the death of his son, who was killed in the East avenue wreck a year ago, is believed to have been responsible for the death of Nerman A. Mosk of this city. Mosk failed the night the body of his son was picked up along the Michigan Central tracks, and since that time his health has been shattered. Friends and relatives were unable to comfort him and he gradually failed until he died.

Menominee.-While playing with a gun which he didn't know was loaded, Sherry Gorman, a boy of man, five years old, of Birch Creek, and killed him instantly. The boys in the litter. were alone on the farm, the parents being in attendance at the Menominee Gorman ran at once to the neighbors and told them of the trag-

Lansing.-Noral Zeigler, aged nineteen, was drowned when his canoe capsized on Grand river here. It is said that the young man jumped into the bow of the frail craft and the canoe turned turtle a few feet from the shore. The water at that point is several feet deep, and being unable to swim, he sank before help arrived. The body was recovered.

Ann Arbor.-The residence of Prof. Robert Bunker was entered by thieves who gained an entrance through a living room window. They ransacked the house from top to bottom, but so far as the Bunker family have been able to determine, they did not take anything. It was evidently money they were after, as there were many valuables left untouched.

Calumet.-Peter Sauer, Calumet's eccentric millionaire, died at Calumet. He was seventy-three years old and came here from Bavaria in 1885. His little saloon had been visited by people from all over the world and up to a few years ago he also drove a dray. Sauer's riches resulted from early investments in Calumet and Hecla stock.

Petoskey.--Kazmir Fryznski received \$2,000 for his arm, so a fury decided in the circuit court. He sued the W. W. Rice Leather company and the latter was assessed that amount and costs. The injury was money by raising and selling ducks caused when Fryznski was drawn into without water. a rofler at the Rice tannery.

Detroit.-An attempt to rescue a pet cat from a bucket of boiling catchsup resulted in the death of John Baralla, three and one-half-yearold son of Martelli Baralla. The accident happened while Mrs. Baralla was pouring a quantity of catchup from the stove into a bucket on the floor. A kitten with which the little boy was playing fell into the bucket and in trying to pull it out the child was scalded about the head and arms. Fatal convulsions developed.

Union City.-The agricultural department introduced in the city high school last year is proving so popular as to attract the attention of the state board of agriculture and the state agriculture college, and in connection with it there is talk of holding a week or two of regular school for grown-up farmers of this locality, with instructors from the college and regular classes in various agricultural subjects.

Saginaw.-William Grams, fifteen years old, has paid a fine of \$25 imposed on him by Probate Judge Riley L. Crane for shooting Albert McKenzie early last spring. The case was heard in the juvenile court at that time and the judge sentenced Grams to earn \$25 during school vacation and pay it to his chum for the doctor's bill. Grams, McKenzie and the former's brother had been hunting sparrows. He wanted the two boys to return home a certain street. but they refused. When a short distance away Grams fired at McKenzie, the bullet wounding the latter in the cheek. McKenzie recovered without serious results.

Manistee.-John Yanke, a farmer, aged seventy-two, was instantly killed, and his son, Herman, aged twenty, was seriously injured at Orchard Beach Junction while driving home from this city. In driving across the street car track the wagon slid on the rail, throwing both out. The elder Yanke's head struck on the rail, resulting in instant death. The team ran away, but was stopped when the wagon collided with a telephone pole. Yanke was a prominent and prosperous farmer, living near Onekama.

**EXCELLENT RATION FOR EGGS** 

Prof. Chambers Ascribes His Success to Intelligent Feeding, Good Care and Trap Nesting.

At a poultry institute, held by the Colorado agricultural college last summer, Prof. W. G. Chambers exhibited a Rhode Island Red hen that has laid 200 eggs in one year.

Prof. Chambers keeps from forty to fifty hens on a town lot and has to buy all his feed. He keeps an accurate account of all expenses, and

The average price in the open mar- the deal. ket for the year for eggs has been 25 hen for the year-two dollars a hen lambs. more than the cost of feed where all feed has to be purchased.

Prof. Chambers has made more than this amount because he has sold some an immense number were sold and of his eggs for hatching. He ascribes his success to intelligent feeding, highest prices on record. This togood care and trap-nesting. His hens are given dry feed entirely. He gives twelve years, shot Theodore Hacker- a light feed of whole wheat and corn perfectly cured roughage and a splenthree times a day, scattering the grain

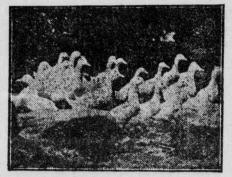

He keeps before his hens all the time in self-feeding hoppers a dry mash made of the following mixture:

Pounds
Bran
Alfalfa meal20
Corn meal10
Shorts10
Linseed meal10
Meat, bone and blood10
With this is mixed a little salt an
cayenne pepper.

# SOME TROUBLES WITH DUCKS

Usually Caused by Ignorance and Because Nature of the Bird Is Not Fully Understood.

When there is trouble in raising ducks it is usually because the nature of the duck is not understood. Ducks should not be allowed water to swim in until matured and then the market ducks do not need it, although it is an aid to fertility, vigor and condition. It is quite possible to make

Flock of White Pekins.

Do not try to raise chicks and duck-

lings together: the ducklings will soil the water till the chicks cannot and should not drink it, and will gobble up all the food. The duck should be fed soft food and not too much grain. It has no crop, the food passing directly into the gizzard, hence the importance of having water at hand when the ducks eat. Make sure that they have an abundance of green food and sand. When ducks are kept dry, bedded in a clean place, given plenty of It escaped me. I broke two vases water and the right kind of food, they grow like weeds, and rarely suffer from disease or lice, though lice will occasionally infest them.

Keep the chicks free from lice. They cannot grow well and fight lice at the

same time. Old geese lay a greater number and larger eggs and are more reliable than young geese.

Young geese do not lay as many fertile eggs or produce as many goslings in the first breeding season as they do in the second.

Fresh air and sunshine are the best disinfectants that the poultry raiser has at his disposal, and ought to be more often used in his work.

The Indian Runner ducks are not very good sitters, although they are often inclined to incubate. Their eggs are generally put into incubators or under hens for hatching. There is no doubt that if the guinea

hen is properly cared for at all times that it will prove almost as profitable as any of the ordinary breeds of chick-

Ducks are not very useful after the fourth or fifth year for breeding pur-Hens bred for laying, properly cared

for and properly fed ought to produce 125 to as high as 200 eggs per year per hen.

The ducklings should have a great deal of shade. Extreme hot weather will kill them

When chicks become very much crowded they are liable to sweat in the broder at night and take cold. become chilled, and this cause trouble.

Feeder Sheep and Lambs Are Now Cheap.

GOOD MONEY IN PROSPECT

A Seif-Evident Proposition.

Good growing stock of any kind that is selling below the cost of production is always a safe investment, if the purchaser is prepared to take good care of it.

He who buys and develops such stock is almost certain to make a good profit in doing so, because production will not long continue at a loss, while consumption of staples must go on steadily.

Not many others are buying such last year for feed, louse killer, straw stock, or else it would not be selling and all incidentals, the cost was one so cheaply, and it follows logically dollar per hen. He uses trap nests and consistently that when it has and keeps no hen that lays less than been grown and finished for market, 120 eggs in twelve months. The av- there will then be a comparative erage for his entire flock is a little scarcity of such finished stock and over twelve dozen eggs a hen per such good prices will be realized for it that a handsome profit will result from

This reasoning is self-evident, and cents a dozen. This makes at market applies with especial emphasis to the price an income of three dollars a present situation in feeder sheep and

Last year's conditions are now reversed. Then nearly everybody was crazy to feed sheep and lambs, and shipped to the country at about the gether with an enormous corn crop of high feeding value, a world of did winter feeding season were factors that combined to produce a heavy supply of fat sheep and lambs for market during the early part of this year, while retailers of meats held up prices to consumers, so that consumption was limited, with the natural and logical result of low prices and feeders' losses in most instances.

In consequence of last year's unprofitable experience and present scarcity of grass and hay, most farmers and many professional feeders of sheep and lambs are now avoiding the market, and very few are being shipped to the country, while prices are the lowest since 1904. In fact, feeder sheep and lambs are selling on the market today for less than the cost of production.

These facts mean that early next year there will be a scarcity of fat sheep and lambs at market, and comparatively high prices will prevail. Those who have the nerve to go contrary to the crowd and invest in good, thin but thrifty feeder sheep and lambs at the present low price, will have no cause to regret their enterprising independence when they come to market them in finished condition.

The concensus of opinion of the best minds in the trade is that since both prices for feeding stock and prospects for fat stock are much better than they were last year, therefore the opportunities for profit are correspondingly better. In fact, the whole situation is the reverse of last year.

Now is the time to buy, because range conditions are such that most of the sheep and lambs will come to market from the range regions ready for slaughter, while fewer of the feeder classes will be marketed during the remainder of this year, and the supply will not equal the probable Fall demand, so that prices are likely to be materially higher in October and No vember.

Diary of a Fly-Killer.

Monday-My attention was called last night to a statement that house flies are bearers of disease and should be destroyed as soon as possible. I began my crusade against them this morning. It was a little discouraging, because there was only one fly in the house and it was quite agile. and a photograph frame.

Tuesday-I nearly killed three flies this afternoon, but the lamp got in the way. It was a \$7 lamp.

Wednesday-I saw a fly on the outside of the fly screen and raised the screen so I could hit it. Seventeen flies flew in. I missed it. Thursday-There was a sluggish

looking fly on the window with closed wings. I stole toward it cautiously, but it flew up just as I let the blow fall. Then I knew it wasn't a fly. It was a wasp. My nose began to swell at once. Friday-My nose is a sight. Drat

# John Brougham's Reminiscences of the Way Fame and Fortune Missed Him and Fell to Others.

Fate and a Noted Irish Actor

"What queer pranks destiny plays us!" said John Brougham one autumn evening in 1877. We were sitting in the New York study of the Irish actor and playwright whose name was widely known in England and America in connection with matters theatrical

from 1840 until his death in 1880.

"I was thinking," Mr. Brougham continued, "how queerly the fates have allotted their gifts so far as I am concerned. There is the case of 'London Assurance,' for instance, which has been a favorite with English and American playgoers ever since its first production in Covent Garden in 1841 by Dion Boucicault. In the writing of that comedy I colaborated with Dion Boucicault, yet almost all of the money which came from its made his reputation as a playwright, while John Brougham remained insignificant all the time that it was being compared favorably with Sheridan's

'The Rivals.' "Ah, yes, there is such a thing as luck in the world of the drama as well as in the world of business, and a later experience, and an even more several workmen made a pathetic disstriking one than this with 'London covery, finding a beautiful young girl Assurance,' will serve to illustrate the lying in a newly dug grave. Happily point.

"Not long after my return to the curred to me that if just the right act. she got to the barracks her sweetability, a wonderful versatility, for decided to commit cuicide and bury any one to play Little Nell in one act herself alive. and the Marchioness in another; but I kept the idea in mind, and later was told that a young girl who had not been in New York many years from California, where she had appeared the neighborhood were the Delaon the stage as a mere child, would just fit the dual role both in physique | beaten by the Five Nations and forcand dramatic ability. It was pro-

H. LeClaire, 1023 than November 15. Interment will take place in W. C. Hodge's private

You have all heard of the man who wanted to go and see the mountain but Offers The Rollicking Musical Comedy could not go so called his people together and commanded them to bring the mountain to him. Well, there are a lot of farmers in the vicinity of Flat Rock who have large apple trees loaded with apples which they would like the people at the State Fair to see but they haven't the nerve to move them there so they are asking the people to come here and see them; but not so with them all for there is one farmer (John Barron) who will move one tree apples and all to the Fair as we stated in last weeks items.

We noticed in the Morning Press that large factory is being built at Marinette for the purpose of making a stockfood called the bastol out of sawdust, the press stating that it was something new and unexpected. Now we wish to say that we are doing even better than that right here in Flat Rock recently purchased the large sawdust Miss Marjorie Fraser left Thursday pile of Chipmunk Lumber Co. and now Margaret left for Toledo, O., Monday, morning for Saginaw, where she will has his factory running night and day where Miss Bushong will again resume spend a few days before going to is making a palatable breakfast food from the dustdust, called the Rub A Dub. The food is a very fine product, easily digested and it is said to be very fattening and a good seller. Mr. Beck- Saturday, Sept. 23 Spring Lake trip Wednesday, brown with shipped five carloads this morning to Pennsylvania and is now filling Kong, China.

It is said the Chinese take to this food like ducks to water and are doing away with their Chop Suey since the Rub A went on the market.

The Chipmunk Lumber Co's cow which they purchased of Paul Bunnion two years ago stole her nest away the other night and when they found her next morning they sent three men out to milk her; after getting thirty-two pails of milk and tiring the three men out, they sent her down to Jake Grossis creamery to have them [finish milking her; they had not received the returns from there at this writing. (Later) we received the returns from the Gross creamery this morning and after finishing milking the cow and churning they received 55 lbs of butter. You will remember that this is one of the celebrat-

ed Paul Bunnion cows. In last week's Items we stated that any and all people holding bills against us, who would put them in their pocket and come out and melt us any night between eleven and twelve oclock in the dark of the moon on the Flat Rock at 'Chandler's Falls we would settle the bill P. D. Q., well one man reported and they are looking for his body now, down in Big Bay De Noc. Who's next?

All the friends and neighbors of the Chipmunk Lumber Co. are requested not to throw any stones at Captain Deiter's chickens as it was learned yesterday that they had eaten 50 lbs of dynamite which the Company had stored in their warehouse. The company has employed three plain clothes men to watch them and see that they do not get over on the Canada side as it is feared that some one might touch off a cap over there and blow up President Taft's reciprocity bill, which is now pending there.

# ADVENTURES of WORLD'S DEAT DEAT DETECTIVES

# The French Antique Dealer.

An Episode in the Life of M. Robert, the celebrated Parisian detective.

COPYRIGHT 1911 BY W. G. CHAPMAN.

Paris. It is on the left police. side of the river Seine.. The artistically fashioned balconies of the houses of the ancient aristocracy of France rub elbows, so to speak, with

new hotels and antique shops. One of the best known of these shops was kept for many years by Leon Olbert, a whimsical fellow, whose knowledge of the value of works of art was only exceeded by his inexhaustible fund of

Many royalists reside in the Rue of Monsieur Olbert, for he possessed play." the rare things of the past-the things they loved to examine and talk about, even if impaired fortunes prohibited them from purchasing. Even the name of the street suggested the glories of mind. the past, for Madame was the title that was given at the court of the Bourbons to the daughters of the King and the King's brother's wife.

Monsieur Olbert was a royalist at antiquities and visited with great condescension by his royalist neighbors. Clocks of all sizes and conditions and ages were ticking out the moments that lead to eternity. And around them were mirrors that reflected the love and the hate and the fear and the ambition of men. Silver candlesticks and mahogany bureaus all were there, and Monsieur Olbert loved them every one.

was patrolling that section of the city | terious murder. noticed that the door of M. Olbert's shop was ajar. He entered and found all his heart and soul. He spread out significance, but Robert had been a dead. There was a look of peace on whole of Paris, but when it was hauled his face and he clasped a morning in it did not contain the particular fish his eyes. Vialard was taken into cusnewspaper between his icy fingers. The physician who examined the body said that he had probably died from | way robbers and some murderers, but heart disease

HE Rue Madame is one of | Robert jumped up with a cry of surthe quaint streets of old prise. He hurried to the prefect of

> "M. Olbert," he cried, "was murdered.' His superior looked at him wonder-

"How do you know this?" he asked. "Because he could not read or

write." The prefect was puzzled.

"Murdered because he could not read or write?" he murmured. "No! No!" cried the detective, with

impatient eagerness. "But the positive knowledge that he could not read Madame, and they haunted the shop proves that he is a victim of foul "How?"

"He was found dead with a newspaper in his hand."

A light broke in on the prefect's "I see," he said; "I see."

And indeed the two men visualized the scene. They could see the thieves killing the old man and then propping him up in the armchair, with heart, and he was in his element in the newspaper in his cold fingers to his little shop, filled with all sorts of give the appearance of a natural death.

A second careful medical examination proved that the old man had been strangled to death. Faint blue finger marks were to be seen under the chin and near the back of the ears. Also, it was demonstrated that valuable bits of stock had been stolen from the shop. Beside this, certain bank notes remained unaccounted for. Thus, what would have passed as a natural death One morning the gendarme who had now developed into a very mys-

M. Robert went at the problem with he was most anxious to secure. There tody and then Robert arranged his were all sorts of petty thieves, high- plan of campaign. First, he recovered not the particular person for whom M. was an easy task, they were returned

"Come down here at once. The vault in my bank has been broken open and robbed of valuable negotiable securi-

It was signed by his banker friend of the day before M. Robert responded at once, and after reaching the rural bank obtained a complete description of the stolen bonds. He expressed confidence in his ability to recover them within a reasonably short time. He returned to Paris and began the work of obtaining information concerning the securities. It was not a difficult task; indeed, M. Robert looked upon it as one of the routine features of his daily work. It did not present any intricate phases; it was simply a matter of tracing stolen property, a sort of property that could not be offered for sale without exciting suspicion. At the end of the third day Robert learned that a well-known thief, named Oscar Vialard, had been in the financial quarter of the city offering to dispose of some of the stolen securities. He started out immediately to apprehend the fellow. He knew the haunts of thieves well enough to know just where to look for such a person. The first two or three places he visited yielded no results, but finally, entering a cafe on the Boulevard St. Germain, he found the person in whom he was interested, seated at a table with some companions, just in the act of topping off an elaborate meal with a very greenlooking cream de menthe. The officer slipped in quietly. He noticed that Vialard had a letter in front of him. It was a mere scrap of paper. The officer touched the thief on the shoul-

"Come, my friend," he said, "I would

like to interview you at my office." To his surprise, the thief grabbed the small scrap of paper and, crushing it up into a little ball, put it in his mouth and tried to swallow it. The detective determined to recover that bit of paper at all hazards. He grappled with Vialard, threw him on his back and then forced his jaws open by brute force. The man struggled like a maniac, but finally yielded and gave up the crumpled piece of paper. It was an undated and unsigned letter written to a thief named Blum, who was then in jail. The epistle was commonplace and apparently had no mit any trifle to look like a trifle in the stolen securities; after that, which tive proceeded to see how much more he could develop from the circumstances that confronted him.

One morning he sent for an officer and had the prisoner Blum brought to his office. He told him to take a seat in an armchair next to the window, which overlooked a courtyard leading from one side of the police headquarters to the other. He had placed the fellow where the light fell squarely on his face. M. Robert pretended to be busily engaged at his work, but all the while he was intently watching Blum's countenance. At a given signal two uniformed men appeared in the courtyard with Valiard handcuffed between them. As Blum saw his pai under these significant circumstances he jumped from his chair and gave a

cry of distress. M. Robert noticed it and said to him in a tone of deep emphasis: "Well, my friend, you see that the

game is up." Blum looked at him with terror in his eyes. He moistened his dry lips with his tongue and echoed in a stammering voice:

"The game-the game is up?" "Yes," said the detective, blithely, 'and further concealment would be

"Has-has he-" "Yes," finished M. Robert, with a smile on his face, "your pal has confessed everything."

Blum turned to him eagerly. "It is not too late for me to tell the "No," was the calm response. "It is

never too late to be truthful." Then, in an endeavor to set himself straight and to prove that he was more sinned against than sinning, the thief poured out his amazing confession.

M. Robert sat there and listened with placid face and cool demeanor, but his heart beat a little quicker than usual and it was all that he could do to remain passive. And no wonder! For the thief before him was telling in murder of Olbert, the old shopkeeper on the Rue Madame.

Blum had fumped to the conclusion when they found that M. Olbert was

finally to the discovery and arrest of the assassin and his accomplice.

THE DETECTIVE THREW HIM ON HIS BACK AND FORCED HIS JAWS OPEN BY BRUTE STRENGTH

and he was M. Robert, the famous | marvelous secret detective system of Madame, and he entertained a fondness for the old dealer in antiques. He felt instinctively that it was the sort of a place that a professional crook would like to rob. It was "different," and the possibilities of a rich haul were alluring. He called at the shop after the death of M. Olbert and tried to ascertain if any of the stock were missing. But alas, no one could give the required information. The old dealer knew his business by heart, but he kept it locked up in his own breast. The only catalogue of the stock was in that quaint old head that would no longer nod.

In the emergency Robert disguised himself and mingled with the friends and neighbors of the dead man. For some days he worked without results. But one night a bit of information was dropped that illumined the situation like a flash of lightning. A group of men were seated about a table in the rear room of the shop, discussing the good qualities of the deceased.

"He could tell a piece of Chippen dale at sight," said Robert, by way of making conversation. "Yes," remarked another, "he was

he left a great fortune." "And the marvelous part of it all,"

Parisian detective. M. Robert was the French capital—a system that one of the many men who had often knows everybody and everybody's folly." been attracted to the shop on the Rue | business-for once failed to bring results. Months, and finally a year, went by. At the end of the second year the murder of the gentle old dealer in antiques was still unavenged. M. Robert had assumed all sorts of disguises. He had associated with all manner of criminals. He had been assisted by a corps of clever men, and still the problem remained unsolved. The long arm of coincidence is a

thing which occasionally appears in all of our lives. M. Robert was to see it in its most interesting phase. After the close of the second year since the Olbert murder the detective went to the country for the purpose of taking a brief vacation. On the return trip he met a delightful old gentleman, M. Dupret, a country banker. They made themselves known to one another and short, quick words, the story of the the long journey back to the city was shortened by an interchange of experiences. M. PREMIER ASSASSINATED AT OPERA HOUSE IN KIEV SUC-CUMBS TO WOUNDS.

DEATH IS PEACEFUL

Passing of Russia's "Iron Man" Causes Jews by Thousands to Fice Country - Hundreds of Assassin's Friends Taken Into Custody.

Kiev.-Premier Peter A. Stolypin is Lawyer, during a gala performance at the municipal theater.

With the passing of Russia's "iron man" the emperor faces a situation which all the bewildering underground resources of the czar are at work to combat.

Jews, fearing a massacre more vio-Lent than any yet recorded in Russia's black history, are fleeing from the country in hordes. Hundreds left the province of Kiev immediately upon hearing of the premier's death, and as the news reaches the outlying provinces thousands of the persecuted people are crossing the borders for safety. The utmost excitement prevails in the government centers, where diligent search is being made for others of the revolutionary band of which Borgroff is believed to be a member.

Every known acquaintance of Bogroff has been arrested. More than 200 of his friends, among them many prominent lawyers, are in prison. Bogroff, plunged into mental delirium by the news of his victim's death, is furmishing the police with every detail of the circumstances leading up to his JUDGE GROSSCUP TO QUIT crime. He is said to have revealed the names of other high officials Appellate Jurist Will Resign From marked for death and extra precautions are being taken to guard these persons from assassination. Bogroff had maintained an attitude of confidence up to the time of the premier's judge of the United States circuit first sinking spell, but when told that M. Stolypin could not live the prisoner became despondent and talked freely of his act.

Kiev is practically under martial law. Armed Cossacks are patrolling the streets and few of the residents wenture out of doors, fearing arrest as suspects. The streets about the sanitarium where the premier died have been closed to all traffic. The secret police are alert to detect the first indication of a revolutionary uprising consequential upon the death of the man whose summary methods caused him to be viciously hated and feared by the terrorists.

Almost until the last the premier was conscious, and for half an hour his wife alone was at his bedside.

greatly. He groaned incessantly and not through the courts of law, but threw himself about on the couch on which he lay. Finally the heart action became weaker, and as the body grew cold, the premier realized that death was overtaking him. At a lucid interwai a priest administered extreme unrtion. The Metropolitan Flavian blessed and consoled him in his last moments. Frequently he called: "Give me the letter. Take it away Give me a red pencil." His last words were: "Lift me. Light up."

Half an hour before his death Stolywin asked the doctors to turn him on his side. He died peacefully, sur grounded by several of his relatives and state officials.

# INDICT SHOE TRUST CHIEFS

Federal Grand Jury at Boston Returns True Bills Against United Machinery Company and Officers.

Boston.-Officers of the United Shoe Machinery company were indicted by the United States grand jury for conducting business in restraint of trade, in violation of the anti-trust law.

The penalty is a fine of \$5,000 or Imprisonment for one year, or both. The corporation itself also is indicted. The individuals indicted are President Sidney W. Winslow of Orleans. Directors Edward P. Hurd of Newton, William Barbour of New York, and

Pittsburg to Drop Its "H." Pittsburg, Pa.-Uncle Sam has decided that Pittsburg shall no longer be spelled with a final "h." Instructions to that effect were received from Washington by the local postoffice authorities.

# NINE KILLED BY AUTO

MACHINE THROWS TIRE IN RACE AT SYRACUSE, N. Y.

Fourteen Are Hurt-Car Piloted by Lee Oldfield Plunges Through Fence at Terrific Speed.

Syracuse, N. Y .- On a track which had been sprinkled for the benefit of President Taft, who had expressed a desire to make a circuit of the race course at the state fair grounds, a Knox car, driven by Lee Oldfield, slipped a tire during a race and dead from bullet wounds received at crashed through a fence surrounding the hands of Dimitri Bogroff, a Jewish the track. The machine, which was traveling at terrific speed, plunged into a throng of onlookers, killing nine persons and injuring fourteen. The president had left the grounds before the accident.

Oldfield, who was injured, is being guarded by an officer in a city hospital, and as soon as he recovers will be arrested.

Six of the nine victims were killed outright, and three others were so badly injured that they died on the way to the hospital.

The accident happened during the forty-seventh mile of the fifty-mile race. Oldfield was a lap behind Ralph De Palma and was running even with him. Oldfield had had a bad tire on his car for over twenty-seven miles, but it did not blow out until the race was within three miles of the finish.

At the time the tire exploded De Palma and Oldfield were neck and neck. They had just taken the turn at a terrific speed that had the spectators almost in a frenzy. Then came a crash that was heard all over the

Bench in October-Plans Active Public Life.

Chicago.-Peter Stenger Grosscup, court and a member of the United States circuit court of appeals for this district, will send his resignation from the bench to President Taft early in October.

This announcement, absolutely unexpected to members of the bench and bar and to the public generally, was made by the jurist.

In a statement dictated for the press he gave the following explanation of his decision to retire:

"I wish more freedom, not only as an individual, but as a citizen. The world politically is trying to catch up with the world's radically changed economic conditions. The 'formative' period is approaching. Next year's presidential election will. I believe, he the last one on the old lines. And the Toward the end Stolypin suffered scttlement for the future will come

through the courts of public opinion. "I wish no office-expect never again to hold office-but I wish greater freedom than the bench gives to do my part in this court of public opinion

"I expect, of course, to re-enter the practice of law-an idle life would be an unhappy one-but to practice law in a not too strenuous way."

# MADISON OF KANSAS IS DEAD

Insurgent Kansas Congressman is Stricken Suddenly in His Home.

Dodge City, Kan .-- Edmond H. Madison, representative from the Seventh Kansas district, and one of the most influential "insurgents" in congress, died at the breakfast table at home

Pontiac, Mich.-President Taft was shocked to learn of the death of Representative Madison. He was to have been a guest of the congressman during his visit in Kansas next week and in Syracuse last Saturday declared that Judge Madison was in a large degree responsible for the inauguration of the present tour across the continent.

# BANK ROBBED OF \$315,000

Five Cracksmen Blow Safe at New Westminster, B. C., Bind Chinese Caretaker and Escape.

New Westminster, B. C .- Five master cracksmen, in flight with \$315,000 in gold and bills stolen from the vault of the Bank of Montreal here, are being sought by the police, who have as their only clue the story of a frightened Chinese caretaker who was Catania, Sicily.—The rush of lava bound by the robbers as soon as he

Content with the bills of large denomination and the gold they could easily transport, they left on the watchman's bed \$20,000 in gold, while with small coins and bills scattered about When Chong Koh, the caretaker, entered the building, and was captured, bound and gagged, the robbers had completed their work. The Chinese worked himself free after the bandits had departed and notified the police

# GOING TO BE A STRIKE-OUT?

ALL SPAIN UNDER MARTIAL LAW; TROOPS SHOOT DOWN BILBOA RIOTERS.

# GENERAL STRIKE IS CALLED

Alfonso Signs Decree Suspending Constitutional Guarantees-Republican Plot Said to Have Condemned Weyler; Cities Seethe With Mobs.

Madrid.—King Alfonso has signed a decree suspending the constitutional guarantees, a general railroad strike has been called, the nation is practically under martial law and the fall of the Spanish throne is threat-

These drastic measures bring to a crisis the revolution agitation which has been fomenting for several months. In the labor strikes the government recognizes an attempt to overthrow King Alfonso and establish a republic and the measures of suppression will be sharp and swift.

Disorder is reported from every corner of Spain. The revolution is gaining headway at an alarming rate, despite the proclamation of bayonet rule. Great excitement prevails in government circles. The railroads of the country will be tied up as well as most of the manufactories in the industrial sections. Thousands of men will be idle.

Premier Canalajes announces that the outbreaks at Valencia and Barcelona were the first step in a well planned revolutionary plot, the details of which were subsequently learned by the police. The assassination of General Wevler, captain-general of Catalonia, was to have been accomplished at once and other officials were marked for death. Several of the conspirators have been arrested.

Valencia has been under martial law for two days and the city has been in a riotous tumult. The authorities gained the upper hand, but the strikers proceeded to the adjacent town of Cullera, where they murdered a judge and wounded several other officials who had been engaged in the trial of those who had been ar-

rested. The situation is acute at Bilboa. Saragossa, Cadiz, Huelva, Seville and Gijon, where riots have occurred. A mob stormed the jail at Bilboa in an attempt to free the prisoners and their purpose was frustrated only by a volley from the troops. Twenty-six were wounded.

The execution of Professor Ferrer in 1909 is being raised as an issue by the revolutionary leaders with tremendous effect.

# STRIKES IN SPAIN SPREAD

Alfonso's Throne is Threatened by Labor Upheavals - Martial Law Proclaimed in Many Cities.

Madrid.-Anarchy reigns throughout Spain as the result of general labor upheavals in most of the large cities and the end of the monarchy is freely predicted by leaders of the near-revo-

Martial law has been proclaimed in several cities, but there are not enough loyal troops to keep order and rioting is reported from all parts.

The revolutionary movement, which began with the general strike in Bilbao, is threatening the entire country. The railroad men are on the point of striking. The step taken by Premier Canalejas in declaring martial law in the centers of disturbance appears only to have aggravated the toilers.

There have been numerous clashes between troops and strikers and the encounters frequently have been marked by bloodshed, especially in

Aviator Killed by Fall. Clinton, Ia.-Louis Rosenbaum, aged twenty-seven, an aviator from Mineola, L. I., fell 150 feet to his death here before 2,500 spectators at the Clinton county fair.

PRESIDENT OVERRULES RECOM-MENDATIONS OF BOARD.

Taft's Decision Says the Broader Issues Raised May Require More Radical Action.

Beverly, Mass .- President Taft made public a memorandum which completely vindicates Dr. Harvey W. Wiley, chief of the bureau of chemistry, from the charges preferred against that official by a cabal in the department of agriculture and severely condemns persons responsible for the has been subjected.

Mr. Taft declares his purpose to overrule the recommendation of the personnel board of the department and Attorney General Wickersham that Doctor Wiley be dismissed and concludes with this significant reference to the house inquiry into the charges against the chief of the chemistry bureau:

"The broader issues raised by the investigation which have a much weightier relation than this one to the general efficiency of the department, may require much more radical action than the question I have considered and decided."

This is regarded as a forecast of summary measures when the prestdent returns to Washington in November.

In his opinion making it known that the "condign punishment" for Doctor Wiley, which Mr. Wickersham held to be necessary, will not be meted out, the president voices no word of criticism for the chemist, but many a word of praise. There is no indication in it that Mr. Taft feels that he "turns down" the attorney general by not accepting his recommendations. He explains that Mr. Wickersham's findings in the case were made with less complete data than that before him when he took

# JOHNSON RAILROADED, IS CRY

Confessed Slayer of Madison (Wis.) Girl Is Innocent in Opinion of Sheriff.

Madison, Wis .- That John A. Johnon was railroaded to the peniteniary for the murder of Annie Lemerger is the belief of thousands of Madison people, who are demanding hat the case be reopened. Sheriff Brown, who took Johnson to prison, tated that in his opinion the Lemberger case is not yet solved and that Johnson is not the murderer. He inimated that other arrests may be made.

The sheriff and the police are still making an investigation in the vicinity of the Lemberger home in the hope hat they will be able to find the nissing night gown.

It is reported that the Lemberger girl was insured for \$200 and that this amount was recently increased to

# WETS WIN MAINE ELECTION

Governor Plaisted and Council of State Officials Check Up Votes Cast in Recent Liquor Balloting.

Augusta, Me.-Governor Plaisted and the council of state officials which checked up on the votes cast in the recent election, said their recount showed a majority of 26 for repeal of the prohibition clause of the state constitution. Some doubt still remains as to the correctness of the returns and Governor Plaisted announced that city and town clerks would be given 20 days to check the results.

With the result standing so close, a correction in the vote in any of the several towns might be sufficient to turn the tide against repeal.

Fierce Battle in Mexico. Mexico City.-One hundred and seventy-eight were killed and 215 wounded in a battle on the banks of the after a 20 minutes' flight at Dewitt Girjalva river near the city of San Cristobal between a force of 3.000 Chiapas Indians and 1,500 Maderists.

Archbishop Against Johnson Fight. London.-The archbishop of Canterbury has interested himself in the Brownell schools, saved the lives of campaign to prevent the scheduled the 500 children under her care when I Johnson-Wells fight and has written both buildings were destroyed by the home office urging that action to suppress the contest be taken.

LARGEST LINER IN THE WORLD COLLIDES WITH BRITISH CRUISER HAWKE.

# RETURNS TO PORT SAFELY

Prominent Americans on Board-War Craft That Stove Hole in Steamer Also Is Damaged-No Lives Lost.

gers that has ever started across the Atlantic on the one craft, the White largest ship afloat, was rammed by the British cruiser Hawke.

The collision occurred off the north side of the Isle of Wight. A great hole was stove in the starboard quarter of the Olympic, but the 2,000 passengers escaped unharmed. Captain Smith immediately signaled for Portsmouth to send him tugs, then drove at full speed for the mud banks off Osborne bay.

Meantime he ordered the collision gates and doors closed, thus stopping the inrush of water. The craft immediately righted itself and the commander decided he could reach Southampton under the Olympic's own

The Hawke had been undergoing steam trials following extensive repairs at Portsmouth and was traveling at great speed when she overtook the Olympic. The cruiser was passing the liner to starboard when suddenly the former drew in and crashed into the steamer's quarter about twenty feet from the stern. It is thought the warship was drawn against the other vessel by the suctrouble to which the pure food expert | tion. After the impact the Hawke drew astern and her crew threw the collision mats over a badly damaged

> There was great excitement, but no panic, on board the liner, the passengers of which were reassured by the officers. The weather was somewhat thick and there was a squall at the time of the accident, but the haze was not sufficient to obscure either vessel from the other.

The Olympic sailed from Southampton, bound for New York by way of Cherbourg and Queenstown. The first cabin passengers numbered 724. Among them were between twenty and thirty American millionaires. All told there were nearly 3,000 people on board.

# SIX ARE FOUND MURDERED

Grewsome Discovery Made in Two Homes in Colorado Springs-No Clue to Assassin.

Colorado Springs, Colo.-The most atrocious crime in the annals of Colorado came to light here when the mangled bodies of three children, two women and a man were discovered in two adjoining houses in the northwest part of this city.

The head of every one of the victims had been cut and smashed with an ax until the brains oozed out and

the rooms were flooded with blood. The victims are: Mrs. Alice May Burnham, aged thir-

ty-four; her six-year-old daughter and two-year-old son. Mrs. Blanche Wayne, aged forty-five. Henry F. Wayne, aged fifty, and

A. J. Burnham, a cook at the Modern Woodmen sanitarium, and husband of one of the murdered women, was taken into custody by the sheriff while on his way to the scene of the crime. Medical Director J. A. Rutledge, of the sanitarium, is positive that Burnham has not been away from the sanitarium since last Sunday afternoon. All of the murdered

their one-year-old baby.

were last seen alive Sunday night. Every circumstance connected with the crime points to a cold-blooded, deliberate murder. Not content with smashing the skulls of his victims, the murderer used the blade of the ax and hacked them about the head and shoulders. Wayne's head was battered and cut to pieces.

# TRUST ASKED TO DISSOLVE

Government Will Allow Harvester Company to Reorganize in Compliance With Sherman Act.

Washington. - The International Harvester company will be allowed by the government to change its corporate form so as to comply with the Sherman anti-trust law as recently interpreted by the Supreme court of the United States.

A threatened dissolution suit is being delayed pending conferences by Attorney General Wickersham and counsel for the company on this readjustment.

The directors and financial heads of the Harvester corporation are now assembled in New York working out the details of the reorganization.

Detroit Car Men Strike. Detroit, Mich.—Business men held a meeting in an effort to end the street car strike, which is seriously interfering with business. Not a car is running and there are no indications of a break among the 1,300 conductors and motormen who are out on strike. The men ask an increase of two cents an hour, with better working conditions. Two arbitrators have been acting for the men and company, but the third arbitrator has not been selected. Governor Osborn was turned down by the company,

# SECOND BIBLE A NECESSITY

Experienced Minister Knew What He Was Talking About When He Advised Junior.

"Now that you are married," said the experienced minister to the young curate, "you will have to stop using the church Bible for home study. Oh, yes, I know how it is. You get attached to a certain Bible, and can study better with that right under your nose, and would willingly pack it back and forth for the inspiration it affords. I've been through it. Used to do that very thing myself, but after half a dozen veils and a pair of Southampton, England.—Carrying gloves and some little lacey things that the largest list of first-class passen- I shall not attempt to specify floated down from the pulpit on Sunday mornings in view of the astonished and Star's crack liner, the Olympic, the amused congregation, I accustomed myself to two Bibles. The women folk will put things into the Bible to press. It is a habit you can't break them off, and the first thing you know these feminine knick-knacks go sailing away to humiliate you."

That night the curate turned the pages of his Bible carefully. A veil and a scrap of lace fell out. He sighed. The next day he began to cultivate an affection for a second Bible.

He Knew Jim. Jim had made an unsuccessful attempt to conquer the world and came back to the Tennessee town dirty, worn out and hungry.

"Uncle John," he said melodramatically, "I came home to die." "No, dod gast you," said unsympathetic Uncle John, "you came home tu

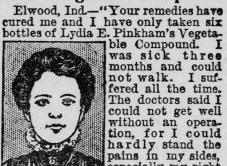

eat."-Success Magazine.

OVERDONE AND UNDERDONE

Essentials Should Not Be Omitted In Ad Writing but Superlatives Carefully Avoided.

An advertiser, in exploiting his ammunition of publicity, must occasionally see that the problem to be encountered is not dissimilar to that of new porch steps, tomor- an artistic chef, or head cook. He can, in other words, overdo his busirow it will be a new ness, or fall short of success in his

There are always things to be said a well curb. Why not that must or can be aptly presented; cut out bothersome and that, really, in almost all cases can be made profitably convincing. patching? Why not build To leave these out, for negative or inthose things once and for different considerations, is to destroy the pith and power of your advertise-

sun for years, if you make must not omit the essentials to its it carefully. Use clean, and toils to get a message to its descoarse sand, well graded tination should naturally desire to have it get there. But it does not get gravel or crushed stone and there if there are qualifications to its UNIVERSAL PORTLAND CE- statements, or inducements left out.

The "underdoing" that is justifiable The best dealers sell UNIVERSAL is that which presents the worth of and are proud of its record of suc- gold, and yet does not describe it as cessful work. Ask them for helpful book- anything more than silver. For to have the public find out, when you do it, that you are giving better than you promise, is to draw them to the store and attach them to you with hooks of steel.

This shunning of the "superlative" it is not possibly hardly to over-commend. Indeed, I advise ever, advertiser to read Emerson's very brief essay on "The Superlative" before he sits down to describe what he proposes to do in a business way.

The superlative is apt to overdo and undo what it attempts if the one who invokes it does not have a stable and sane mentality. It is apt to be pompous and declamatory rather than argumentative; to swagger and put on airs; and to say the thing it wishes to have believed instead of reporting colorless truth, and all this works for detriment.

But equability of utterance, it may be said, is hard to command. Still, it has the power to bring the exact truth on your side. It is likely, too, to be accompanied by brevity and an appealing manner. Its argument, or the substance of it, is: "I don't claim to have the best of everything going, to never make mistakes, or to be the only one in my field and territory.

and have it remembered.

Price has its place, but it never takes the place of qualit .

Better be "just out" than force "something just as good." The one in New York a railroader who was alloses a sale, but the other loses a cus-

When some business men cease to recard advertising as "tribute" and a too apt to use upon his boss." Then, worthless necessity, then will they put with a laugh Mr. Brown uttered this more thought into their ads, and so get more out of them.

Advertising is a persistent salesman. Kick him out at the front door, and he blows in at the back. The sales department of a company

is only as strong as its local dealers, To push a trade-mark on other than quality goods is business suicide.

Instead of consumers going to the markets advertising brings the markets to consumers. An advertiser whose advertisements

do not make good is not long an advertiser. Few people know just what they

want. The business of advertising is to help them make up their minds. Just as Good in Print.

Every good selling argument that manship can be utilized with equal nue." value in advertisement writing .- The Mahin Messenger.

Treat advertising fairly, and don't try to prove to yourself that the business it brings you should be credited to something else. There was a man up in Vermont who attained the great age of one hundred and ten. When asked by a reporter just what he attributed his longevity to, he replied, "I ain't exactly made up my mind yet. There's two or three patent medicine feliers dickerin' with

# ADVERTISING AND THE DULL SEASONS

By GEORGE S. BANTA.

The attitude of many merchants toward advertising is well illustrated by their disposition to spend money on publicity only when they are prospering. Just as soon as they foresee a probable business slump they not only scale down their advertising expenses but help along the depression by discontinuing all advertising.

It is easy to see that a man who handles his advertising on this plan does not have a very deep founded belief in its value? He has never considered the matter from the investment standpoint at all and it would be better for him and better for advertising if he would stop all further expenditures until he had looked more deeply into the subject.

If he will take up the study with an open mind he will see that there is no time when he can afford to be without advertising, or when he can safely withdraw from the field and leave it to his competitors. He knows that if he closes his doors for two weeks or a month, when he comes back he will have lost some of his business. He can't leave his advertisements out of the home paper for an equal period without suffering a similar loss. It takes more coal to get steam into a boiler than it does to run a locomotive many miles. The cumulative effect of live advertising is too valuable to neglect, even in dull

Nor is there any definite proportion between the volume of business and the quantity of advertising required. Many merchants talk of "exhausting their advertising appropriation" much as though it were a ten-quart pail. Personally, I cannot imagine finding a man who would not give 75 cents for \$1, without regard to the number of purchases of the same kind he might have made previously the same season. And similarly if the advertising is necessary and will benefit the business it should be indulged in. The only criterion we have to go by is results, and if the results justify an expenditure of \$1,000 it was good business to spend it. And likewise if the results do not justify an expenditure of \$10 it is a mistake to have spent that sum.

The man who looks at his advertising in this light will have an equilibrium that dull seasons will not dis-

Advertising is a handle that will fit all lines of legitimate business endeavor.

METHODS IN ENGLAND

London Expert Wishes for the Pleasant Relations That Exist in America.

J. W. Mudie, London advertising manager of the Dundes (Scotland) Courier, addressed the advertising staff of the New York Times recently on advertising in this country and his own. He declared that he would like to see the pleasant relationship that exists among agents and advertising men here in vogue kn Scotland and England.

The British agents seem to be jealous of one another, he said, and there is not the same harmony an here. In this country larger commissions are paid agents, but these are only on foreign business and not or. local. He declared the splitting of commissions to be a serious matter, or at least it is so looked upon in his part of Eng land.

One of the best and most successful schemes of getting advertising as practiced home he said is the main tenance of a service bureau, through which advertisement models are drawn up and submitted to prospects, improvements in their past advertising attempts pointed out, etc.

Interest among readers is also aroused by various means and at much expense. These are such as lectures, cinematograph shows, etc. Like American English publishers are trying to clean their papers of all advertisements of a doubtful charac ter, too, he said.

Credits Growth to Advertising.

Paul Schulze of Chicago, presiden of the National Association of Master Bakers, is a warm advocate of advertising. He says that several years ago, while riding on a "rubberneck wagon" in New York, he was impressed by the advertisements of a number of articles well known to most people of the United States. His wife, he said, also was impressed by the "ads" and said:

"Paul, that's what we must do-we must advertise, and some of these was ever developed in personal sales- days we shall be living on Fifth ave-

"And that suggestion," said Mr Schulze, "was the beginning of our first real growth. By following out that suggestion I have seen our little baking business grow out of one shop into larger shops again and again-always with a more liberal appropriation for advertising than in the years before, till we find ourselves spending for advertising in a single year more money than our total sales amounted to during our first year in business."

The Name and the Thing. When you speak of "Lubin" and 'Farini" in Paris or around the world as well, everybody who hears or reads their names is compelled to think of perfumes and colognes at once-That's advertising.

# **EMERGENCY REMEDY** FOR ALL SKIN AFFECTIONS

While Traveling, Motoring, Yachting or on the Vacation.

In any emergency, no matter who you are or where you are, you should have with you the indispensable standard remedy for all skin troubles, from the common pimple, cut, scald, boil or sore, to carbuncles, felons, eczema, milk-crust, shingles, barber's itch, psoriasis and every abrasion of the skin from any cause. Resinol Ointment can be instantly applied and its effect is instantaneous. It is put up in screw-top opal containers, selling at fifty cents or a dollar, according to size. Resinol Ointment has the approval and recommendation of thousands of our best physicians, and hundreds of thousands of families are never without it. Another indispensable necessity is Resinol Soap, one of the finest, most soothing and refreshing toilet soaps in the world. It is a preventive of most of the skin troubles, including blackheads, pimples, chapped hands. It is especially adapted to the tender skin of infants and children. Nothing is better for shampooing and cleaning the scalp and for the prevention of falling hair. The cintment and soap are for sale by all druggists. Sample sent free if you will mention the heading of this article when writing. Resinol Chemical Co., Baltimore, Md.

LOT WAS IMPROVED.

Fred-I love you a whole lot. Tess-Frank told me yesterday that he loved me a whole house and lot.

# PHYSICIAN SAID ECZEMA CAME FROM TEETHING

"When my little girl was about eight months old, she was taken with a very irritating breaking out, which came on her face, neck and back. When she first came down with it, it came in little watery-like festers under her eyes, and on her chin, then after a few days it would dry down in scaly, white scabs. In the daytime she was quite worrysome and would dig and scratch her face nearly all the time.

"I consulted our physician and found she was suffering from eczema, which he said came from her teething. I used the ointment he gave me and without any relief at all. Then I wrote for a book on Cuticura, and purchased some Cuticura Soap and Ointment at the drug store. I did as I found directions in the Cuticura Booklet, and when she was one year old, she was entirely cured. Now she is three years and four months, and she has never been troubled with eczema since she was cured by the Cuticura Soap and Cuticura Ointment. (Signed) Mrs. Freeman Craver, 311 Lewis St., Syracuse, N. Y., May 6, 1911. Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 2 K, Boston.

Order of Independents. Larry O'Neil had no love of discipline save as he administered it. When he decided to "jine the p'rade," he breathed defiance with every order issued by the military leader.

"Here, you! Look out for yer feet!" muttered the man next him. "Keep shtep, can't you?"

"Get along wid yer shteps-" said Larry, turning on him. "I've a shtep o' me own, an' I'll take it or lave the p'rade to get on Widout me."-Youth's Companion.

Too many officeholders who pretend to be working for their country are merely working it.

# Don't Expect Kindness. There are six sorts of people at whose hands you need not expect much kindness. The narrow minded think

of nobody but themselves, the lazy are too indifferent, the busy have not time to think, the rich disregard appeals for kindness, the poor have neither spirit nor ability, and the good natured fool is not capable of serving you.-Home Notes.

THE FAIR

Counsellor T. E. Strom, secretary of the Delta County Agricultural Society was in Gladstone Tuesday in the interest of the fair which is to be held next week in Escanaba. He secured exhibits from the axe factory and cooperage company as well as many of the merchants. The fair is held rather late in the season for horticultural exhibits for the garden season hereabouts regularly closes September 1. It is true that it has been so irregular this year that it is still partly open; yet many of the finest fruits and vegetables have passed away. Still Secretary Strom says that this year's fair will show as fine a lot of exhibits as any state fair that ever

THE OPEN SEASON
