TOURNAMENT NOTES

The contract for the aeroplane flight has been signed and this feature will not be wanting.

The Iron River fire department will come here with a track team of twenty men and a band of twenty-five pieces.

The William Frankfort Hardware Co., of Milwaukee and the Beach Hill Distilling Co., of Cincinnati, have each donated ten dollars to the fund.

The cinder track for the tournament will extend from Delta avenue north on Central two hundred yards, and will be twenty four feet wide. It is proposed to surface the street, put on a layer of bark and then cover it with six inches of cinders. This will be rolled until it is hard and smooth.

The Wortham & Allen United Shows will be at Ishpeming next week. This is the carnival company that will show at Gladstone tournament week, and this affords an excellent opportunity to inspect their work. Some members of the committee will go there for this purpose, on the invitation of the manager.

An arrangement has been made securing the services of the Mohawk Band, of twenty four pieces, during the tournament. The Mohawk firemen pay part of the expense of the band which will accompany them here. The Norrie Band, of Ironwood, which made itself so popular here, could not be obtained on account of the expense involved.

Chief Julius Johnson, of the Ne-gaunee fire department, returned Wednesday morning from Gladstone, where he secured comfortable quarters for the members of the local fire department who are to attend the coming tournament in that city. He says that from observations made the firemen may rely on "the time of their lives" at Gladstone July 31 and August 1, 2 and 3—Ne-gaunee Herald.

C. P. Mason of the Gladstone Delta dropped into Calumet yesterday and gave the glad hand to the newspapermen and the firemen. Mr. Mason is not only booming Gladstone's coming tournament of the firemen but is also boosting the upper peninsula for all he's worth. He has been assured that a big bunch will go from Calumet and Laurium to the tourney.—Gazette.

ALL SAINTS FAIR

The fair begins next Tuesday evening June 25, when a chicken supper will be served.

It will continue every evening until Friday when it will finally close.

All kinds of attractions have been prepared and the ladies hope to have the school building well filled with patrons. Note that the building is the one so long known as the Hawarden Inn.

A rate of 35 cents, good on all cars, from Escanaba to Gladstone and return, has been made with the Traction Company. Many Escanaba people are arranging to take advantage of this, and they will be most welcome.

The ladies invite every one to come as often as they can. Everyone will be entertained.

"IN WYOMING" NOT A MELO-DRAMA

Love, pathos, treachery and retribution, with a final happy outcome, are the main elements of "In Wyoming," a breezy, idealic comedy drama of the Northwest, which will appear at the Gladstone Theatre on Saturday, June 22. The story is one of absorbing interest, interpreted by a large first class company, and mounted with realistic stage settings and elaborate costumes. The play is in four acts, and comprises a bright sunny summer on a ranch near Casper, Wyoming. The play is free from exaggerated and impossible nonsense, such as abounds only too often in western plays. There is so much good in "In Wyoming" that no one wonders at the extraordinary success which the piece has enjoyed. It is all clean and wholesome. Its atmosphere is refreshing and there is nothing suggestive in the story it unfolds.

LAST CALL

The enrollment in Gladstone was very heavy this spring, as a full vote was cast and the clerks were diligent. There is two days' opportunity left to enroll by affidavit with the city clerk in time to vote at the August primary.

NOT MUCH

Governor Osborn is not the sort of a man that will sidestep should the party call upon him to accept the nomination for vice president at Chicago.—Manistique Pioneer Tribune.

Trenary will send its quota to the tournament, says genial Joe Heldmann. It will be worth making the trip from farther than Alger county.

THE ROAD TO MUNISING

The cross country trip to Munising is ideal, or will be when the work of road repair has progressed a little. From the limits of Gladstone north to Masonville the township of Brampton has built a good road, and what is more important, has kept it in repair. In the stretch through the now deserted village of Masonville there are bad mudholes. For an auto they not only slacken the speed, but rack the machine; they are equally disagreeable to the driver of a carriage, and to the man with a wagon they mean a substantial reduction in the weight he can carry and consequent increase in the cost of hauling. Through Masonville township, which reaches to within a couple of miles of Trenary, there is much good dirt and gravel road which would be as good as could be expected if a few loads of gravel were put into the holes now existing and attention were had to those now forming.

The valley of the Rapid and that of the Whitefish along this road have a beautiful appearance with their living green during the summer months and rejoice the eye of the traveler. Here and there a farm shows fertile fields, and the growth of the country's settlement should be rapid during the next few years. The soil looks good, and there is no reason why it should not support a large population. Its hay, vegetables and other produce need no panegyrics.

On some of the grades, however, there is only the natural sand, and the passability of a road is determined by its weakest point. They are easy enough for a car of good power, but a barrier to a loaded wagon. Much of the level ground is swampy but there is a good turnpiked road through it.

As we approach the Alger county line it appears that the road has been well cared for from the north end, but it is the middle portion of the Masonville township road that is in worst condition. Alger county also allowed a good road to run down between Chatham and Winters but it now has a road crew working on it with dump cars every mile or two. The only place where MacLaurin & Needham's Cadillac failed to go through was where the crew had piled a quantity of dirt on the road and not finished spreading it. Within a month this should be a highway as good as the Chatham-Munising stretch. Alger county has bonded more heavily than any other county for good roads, an amendment to the state constitution two years ago being presented for this purpose.

All along the roads are the warning posters of the forest protective association, which is looking after the trees of the county. From the road its watch towers are visible on the heights.

A guide post at the fork between Chatham, Munising and Trenary would be a good thing for the tourist. The mile posts run southwest from Munising to this point eighteen miles. At the turn is milestone one from Chatham, continuing south the ten miles to Trenary.

At this turn the change begins from the level woods or gentle undulations of the previous journey to the refreshing wooded hills of Lake Superior. Lake and stream are passed until the cool breeze announces the nearness of Gitchee Gumee. Eight and a half miles from Munising begins the blue macadam road, which is the equal of any in the world, formed of the comparatively dustless trap rock, found in this region. It is to be wished that it had been used for the facing of Gladstone's principal thoroughfare, as once proposed. It is a scorcher's delight but there are several turns round the hills that should dictate caution.

Munising itself is beautifully located against a background of living green, embraced by great arms that reach out to meet the protecting bulk of Grand Island. The boulevard running up to its courthouse cannot be surpassed for arrangement. With some repairs to the Delta county road, Munising will be within three hours' drive of Gladstone, and it is well worth a visit of more than one day. It's a good time to get acquainted this summer.

PARK FIREPLACES FOR LOS ANGELES PICNICKERS.

Novel Plan to Prevent Brush Fires During the Summer.

In order to prevent brush and grass fires, which are prevalent in California during hot weather, very strict regulations are enforced in the Los Angeles parks against building campfires. But in order that picnickers in the larger parks may have hot coffee or warm food with their lunch the park commissioners have provided fireplaces, solidly built of rough stones or cobbles and cement. These are provided with a metal grill, on which coffee pots or any other utensils may be set or steaks can be broiled. The stoves are large enough to provide cooking space for a number at a time, and six foot chimneys carry the smoke away from their faces. The stoves serve another purpose in providing a ready method of clearing the parks of accumulated rubbish. Much of it is used by picnickers for their fires, and the park caretakers readily dispose of the fallen twigs and leaves and the Sunday's accumulation of newspapers by burning them, thus saving the expense of hauling them away.

Let gratitude for the past inspire us with trust for the future.—Fenelon.

SAGINAW HAS CURFEW LAW.

Children Must Be Off the Streets by 9 o'Clock.

Curfew is now rung in Saginaw, Mich., every night at 9 o'clock. Every person under the age of sixteen who is on the streets at that time, unless accompanied by a parent or guardian, is ordered home immediately by the police. There will be no more loitering around street corners or in hallways of the young element of the community.

The police are instructed to enforce the ordinance, and any young person coming within the age limit apprehended will be classed as a juvenile delinquent and, according to the state law, be subject to punishment as an incorrigible. Curfew will be sounded exactly at 9 o'clock every night by the fire bells of the city and the whistles of the waterworks station.

Collect Sixty Thousand Cans.

The cleanup movement in Vicksburg, Miss., was a great success. Sixty thousand tin cans were gathered up by boys of the city, and prizes were awarded. Dennis Hossley, Jr., son of Captain Dennis Hossley of the Warren County Light artillery, received a fine goat and a wagon as a first prize, having gathered 30,000 cans. The city is in a cleaner condition than it has been for many years.
