## PROVERBS XXX, 20

The cases of the People vs. David, Walter F. and R. J. Hammel were called in Justice Glaser's court Tuesday. All the defendants were present.

It appeared that the charge of embezzlement from Lawrence University had been settled by the repayment of the money taken, through a trustee who was under obligations to David Hammel, and that the officials of the institution will not witness against his son. The case was dismissed. The embezzlement charges against R. J. Hammel were also dropped.

On the charges of obtaining money under false pretences, the defendants waived hearing on the facts of the case, which are practically beyond dispute, and their counsel offered argument to show that receiving money while insolvent is not an offense against the laws. Written arguments will be filed Saturday before the justice, when a final conclusion will be reached as to binding them over.

It is probable that there has never been a lawsuit in Delta county creating such animosities, estrangements, suspicion and hostility among the public as the present one.

With the prospect of the dismissal of the cases against the Hammels today, the feeling among the creditors became higher than ever. The question of having the so-called financiers brought before a federal grand jury for conspiracy and misuse of the mails is now being gravely considered and most of the creditors have contributed to a prosecution fund. In a federal court, the Appleton "respectable citizens," who seem so much inclined to shield their fellow townsmen, would be compelled to testify. The next move in the Delta county courts is eagerly awaited.

The Supreme Test S. & A. drama at the Gem Saturday night.

## KICK FROM MANISTIQUE

The pants stealer, who was apprehended here last week, and who paid a fine and costs at Manistique, claimed on his return home to have been robbed by Gladstone's night watchman of \$30. He made an affidavit to that effect, which was forwarded by his lawyer to Chief Danielson. The latter, who turned it over to the mayor, points out that the man arrested was sober, that he counted his money when it was returned to him when he was turned over to the Manistique officers, and that he made no complaint at that time. His evidence is hardly to be much esteemed; it will however, be presented to the council at its face value Monday. The complainant's name is given as Mike Somoza.

## NEW STORE

Lewin & Jacobs, who have more than once branched out, are making a venture equal to their present business, at Crosby, Minn. Here they will open next week a store for men's clothing and furnishings. The stock has been shipped from Chicago. G. W. Falstrom left Thursday and M. Lewin will go in a few days to the new place of business.

Crosby, a growing town on the Cuyuna range, has now 1700 people. It is a model town, planned before it was built and provided with all modern conveniences. It has four mines within a mile to furnish employment for the increasing population. Here Messrs. Lewin & Jacobs expect to find a good market for the best grade of ready-made clothing and haberdashery. They have already supplied the demands of the men of Gladstone, who are most exacting in their desire for highest quality of merchandise. The increase, and especially the permanent construction, of the new town gives them hope that it will be a city whose inhabitants look to a comfortable and permanent residence there instead of a mere mining camp.

A former Gladstone man who has been for sometime settled at Crosby is E. G. Ingalls.

## CHAMP CHASES BULL MOOSE.

William J. McDonald of Houghton, Mich., Progressive candidate for congress at the last election and who claims he instead of H. Olin Young was elected, was Saturday ordered off the floor of the house of representatives by Speaker Clark.

McDonald said he wanted to meet the speaker before leaving. Speaker Clark declared, "He's got to leave the floor."

McDonald left.

The speaker said he would meet McDonald in the speaker's chamber this afternoon.

Members-elect are admitted to the floor. McDonald declared himself a member-elect. Later the doorkeeper discovered McDonald's real status, that of a candidate seeking to have himself declared a member elect.

## FRIDAY NIGHT DOINGS

The Luther League of Gladstone drive over this Friday night to Escanaba to visit the Lutheran young people of the lower bay town.

Following its regular meeting this Friday evening, the Eagles of Gladstone Aerie will hold a public card party, to which their friends have been invited.

A pair of basket ball games will be played this Friday evening at the theatre, by the girls' team and boys' team, respectively, of the Gladstone and Rapid River schools.

Arthur Erickson is the guest of his fellow clerks at a farewell party this evening. He leaves Saturday morning for Merrill to assume his new duties.

A meeting of the baseball directors is being held this Friday night at the office of G. R. Empson to discuss financial ways and means and how past and future teams are to be paid for.

At their meeting Tuesday the volunteer firemen passed a vote of appreciation thanking the ladies who so thoughtfully remembered them with hot refreshments on the night of the ninth. Their bounty enabled the boys to fight the cold as well as the fire with some degree of comfort, and will be remembered with gratitude as practical sympathy, and tasteful.

## ALMSHOUSE BONDS

Notices have been sent out, pursuant to the resolution of the board of supervisors, of the submission to the people of the proposition to bond the county for \$10,000 to build a new infirmary.

The old infirmary, or as it was commonly called, the poorhouse, was a wooden building of long use. Some five or six years ago, the county made a modern addition to it, which is all that could be asked, with comfortable rooms, sanitary conditions and modern appliances; but the old ramshackle building, no small fire risk, is still a part of it.

This has been severely criticized, rather condemned, by the state board of charities. To put up a decent building for the county's aged and unfortunate is the proposition thus put before the people.

In addition to its use as a home for old people, the infirmary is a refuge for those sufferers from accident or illness whose condition is too chronic or convalescent to be maintained at the hospital. In fact the discontinuance of the county hospital and treatment of the county's patients at the infirmary has been more than once suggested.

It is planned to put in a ward for the tubercular where they may enjoy fresh air, the principal curative agent.

While public relief of tuberculosis is not only desirable, but must soon be recognized by all as necessary, the magnitude of the problem must first be appreciated.

Houghton county built an infirmary, and a tuberculosis sanatorium as an addition thereto. A controversy raged over the admission of pay patients, which was at last authorized by the board of supervisors. It then became apparent that the county could not take care of its own cases; a building with a capacity of twenty had already twenty-five inmates.

There are in Delta county not less than fifty, more perhaps than a hundred persons afflicted with this disease and most of them doomed to a not far distant death. It is not impossible for any patient to recover who is not in the last stages; it is readily possible for him to be cured in this region and climate. But if the county board of Delta county is undertaking to lessen the grip of tuberculosis on this people it must make far greater efforts than are yet anticipated.

## SOME LODGE HAPPENINGS.

The Upper Peninsula Association of Odd Fellows was organized at Ishpeming last Friday, for the purpose of encouraging the lodges to perfect their ritualistic work. H. J. Neville, of Gladstone-Manistique, is vice-president.

A joint meeting of the Knights of Pythias and Modern Woodmen was held Thursday evening at their hall here. Those present enjoyed the gathering very much.

Invitations have been issued for another Masonic dancing party, to be held at the theater next Thursday evening, when it is expected to repeat last month's success.

The Elks of Escanaba held an elaborate banquet Thursday evening, with entertainment, initiation and other features. Among the members in attendance were Soren Johnson, Charles S. Slining and N. J. LaPine.

The dance given at Wasa Hall Wednesday evening by the S. H. & E. F. was well attended, having many Escanaba visitors.

## FOUR CANDIDATES

Next Wednesday primaries will be held throughout this county for a single office, that of road commissioner. A large vote is not to be expected, as the office is not of spectacular interest.

The commission is now composed of H. W. Reade, of Escanaba, who serves two years longer, Soren Johnson, of this city, who has four years more, and Eric Anderson, of Escanaba, whose term expires. He is a candidate for the nomination. Petitions have also been filed by James McPherson of Rapid River; William McNally of Garden, and George M. Mashek of Escanaba.

Mr. Anderson is personally quite popular in Escanaba, where he will poll a large share of the vote. He has served twelve years or more, in the days of the Gasman regime.

Mr. McPherson is well known in this end of the county. He is a man of much experience, as well as mechanical training, and has seen enough poor roads in Delta county to be interested in improving them for the benefit of the farmer and settler. The present tendency is toward building roads in the north end of the county, a region with which he is most familiar, and particularly with the needed trunk roads from Rapid River to Cook's Mills and Trenary.

Mr. McNally may be expected to rally the vote of northern Delta county, and especially of his township, Masonville. By reason of his residence and interests he appears to be the logical candidate for Gladstone voters to support.

Mr. McNally, who is highway commissioner of Garden township, is well spoken of as a man fitted for the official duties. His name is, however almost entirely unknown in this section.

Mr. Mashek, as a business man of Escanaba, and interested heavily in woods operations, will draw quite a support from those of kindred interests. His error, however, in taking the position he does in the endeavor to keep the Hammels from prison will hardly commend him to the voters of Gladstone. In addition to this prejudice, it is soberly felt that his election would give undue consideration to one industry and portion of Delta county, already well represented.

## MORE ROAD TROUBLE

The effects of its situation in the water and original faulty construction are becoming apparent upon the bay shore road. Along its border the protective piling has been badly heaved by ice, during the winter, and there is every indication that the foundation is insecure and subject to much washing out every summer. This road, on which so much has been spent, over \$50,000, was built wrong from the beginning; and it is probable that it will be a source of expense to the county until every shovelful of its original construction has been carried over Niagara Falls.

## ANNIVERSARY CELEBRATION

The Young People's Society of the Mission Church will celebrate its eighth anniversary next Sunday evening. An interesting program, in which all the members will take part, has been arranged for the occasion. A report of the work of the society during the past year will be read by its secretary.

On Monday night there will be a social to which the members of the church have been invited. The young people of the Mission church of Escanaba have also been invited to this social and are expected to attend.

Refreshments will be served.

## SOLDIERS TO THE FRONT

Lieut. Col. Johnson, commanding the second battalion of the 26th infantry, stationed at Fort Brady, received orders late Monday night to proceed as soon as possible with his entire command to Texas City, Texas.

The equipment was shipped Wednesday by special train, and the soldiers passed through here Thursday, en route to the south by way of Chicago and St. Louis. Fourteen cars were furnished them.

When the fact that the troops were to leave became known about the streets, the general opinion prevailed in the Soo that the soldiers would never return and that their removal was merely a polite form of abandonment of the post. This sentiment was also favored by the soldiers and officers.

## REPORT BALANCE

The firemen's tournament association, at the close of the tournament last August, would have published a report of its receipts and disbursements, but for the departure of its treasurer, R. J. Hammel, before the statement was satisfactorily adjusted. The necessary papers were procured this week from Receiver Bushong's collection of valuable documents, and it becomes evident that, instead of resulting in a deficit, as at first reported by Hammel, the committee should have had a few dollars left on hand, all obligations being satisfied except a prize of \$20 to the Wells fire department, the check for which was not presented before the bank failure. The report will be posted up for public inspection; it is now a question solely of ancient history, as the firemen are in no danger of getting the accounted surplus into their treasury. In fact, before the accounting was made, they turned over \$65 to fill a deficit which did not exist; and their only consolation is that they did not have more in bank to lose. It appears to be a case of "call it square and let it go at that."

On Saturday March 1, we will give as long as they last, a popular Napoleon game with each purchase of a bottle of our Favorite Toilet Cream for chapped skin or any Dike Remedy. The supply of games is limited, so we can only give one to each family.

### INTEMPERANCE.

Intemperance in speech is comparable with intemperance in any other form. A man may easily be transported to the vanishing point of sobriety by the passionate momentary impulse for which he is remorseful when it is too late. That experience has just befallen a clergyman of this city, who, in default of any clear and accurate apprehension of the facts, took it upon himself to denounce the conduct of a private social gathering. The clergyman has made an honorable and manly retraction of his remark, says the Philadelphia Ledger. It is a commentary upon the sensation-seeking nature of some people that the church was filled to overflowing to hear the apology—but, at any rate, the public recantation occurred as promised. The misfortune is that it was necessary. The clergyman in particular, from the sanctity and authority of his office, is bound to measure his words and consider their possible effect upon those whom he is addressing. If the pulpit gives him a unique opportunity, it gives him also a supreme responsibility. Mere uninformed invective from the pulpit against overelaboration in social entertainment is likely to have no further result than to create class hatred and to stir up blind discontent which may overstep the boundary of ironical commentary.

The complaint that colleges are moving too rapidly away from the old learning is one very frequently heard in our day. Many people have attributed this drift to the fact that undergraduates are permitted to map out their own courses of study, and to do this under the influence of a delusion that only the so termed "practical" subjects are apt to prove of any service to them in after life, says the Boston Herald. Hence the classes in accounting, or in industrial chemistry, or in political science are large enough to tax the capacity of college lecture rooms, while professors of Greek or Sanskrit discourse to half empty benches on the beauties of the "Odyssey" and the aphorisms of the "Rig Veda." But the experience of the university extension courses which have been offered in Boston during the last three or four years seems to prove that the superior magnetism of the so-called bread and butter studies is just as pronounced in the outer world as it is within the college gates.

The Empress Eugenie is living. She is in her eighty-eighth year. She lives in England, and is in fair health and strength, and has an ample income. She is older than the Emperor Franz Joseph of Austria-Hungary. The Princess Pauline Metternich, widow of the Austrian ambassador to the third empire, is living in her eighty-ninth year, and the dowager duchess of Mecklenburg Strelitz lives at ninety-one in the full enjoyment of her faculties.

The Austrian imperial princesses of a court than which none in Europe is haughtier or more tenacious of its dignities are setting a fine example to American heiresses in turning from their own rank to wed men they can love and trust, exclusive of titles. It is an example which many young women on this side would avoid much misery and trouble by heeding.

If Dr. Friedman of Berlin carries out his reported intention of turning over his phthisis cure to the German government the world will have an opportunity to judge it on its merits. So far the world has had a right to reserve its opinion, and to remark that there was nothing to distinguish his methods of exploitation from those of the charlatans.

The remnant of official serfdom has been abolished in Russia. But real serfdom in that country will end only with the abolition of autocracy. No people can really be free who accept for their government the irresponsible will of one man, no matter how good or wise he may happen to be.

After this country has built a dam to turn the Labrador current away the next thing should be to erect a big screen wall to shut off the cold waves that come down from Medicine Hat. With due industry we may thus enjoy mild winters without seeking the south.

An English visitor thinks American women get too plump. If they do, they are still, like Little Buttercup, "plump and pleasing persons."

In Los Angeles a woman one hundred and five years old is to be married. Surely that city's climate is wonderful, barring the frosts.

Landslides at Culebra are living up to the large type in the small hand-

## MADERO KIN FLEES

BROTHER OF SLAIN DEPOSED  
PRESIDENT OF MEXICO ARRIVES AT VERA CRUZ.

### TO SAIL ON CUBAN VESSEL

Disclosure That Bodies of Executive and Suarez Were Found in Back of Prison Made at Capital—Officials Cling to Escape Story.

Vera Cruz, Mexico, Feb. 25.—Ernesto Madero, who was finance minister in the cabinet of his nephew, President Francisco Madero, arrived here with his family on a special car. They will probably depart this afternoon on board the Cuban gunboat Cuba.

### Officials Cling to Escape Theory.

Mexico City, Feb. 25.—With straight faces and profuse protestations of good faith officials of the Diaz-Huerta government stuck to their stories that Francisco I. Madero and Pino Suarez were killed "while trying to escape."

It developed early in the day that the bodies of the two statesmen were found in the rear of the penitentiary instead of in front of it, as first reports had it.

This caused the ready-tongued officials no embarrassment whatever. They said that a second encounter with the party that was trying to rescue the prisoners had taken place close to the building, that the guards' automobiles ran along a side road and that Madero and Suarez jumped out and were running when they were caught between the fire of the guards and the attacking party, this accounting for wounds being inflicted on them from different directions.

Provisional President Huerta and the other authorities here are emphatic in their declarations that the death of the prisoners was due solely to unforeseen circumstances.

The diplomatic corps, in constant session at the American embassy since the double shooting, was as much upset as the populace. An indication of its attitude, however, was seen in the refusal to accept from Francisco de la Barra, minister of foreign affairs, an invitation to luncheon. President Huerta's chief adviser was informed that the assassination of the two former leaders must be explained before the representatives of foreign nations could eat with him.

### Street Outbreaks for Madero.

Outbreaks on the streets in behalf of Madero occurred, but they were mostly of small groups of people of the poorer class and were quickly suppressed. The administration continued its policy of ruling with an iron hand. Most of the inhabitants appear cowed by the recent cannonading.

### Heavy Patrols were sent out to guard the streets.

"Both the bodies of Senors Madero and Suarez," Senor de la Barra assured the American embassy, "will be buried with all the honors due to the high positions they held."

Provisional President Huerta says the killing of the two men was incidental to a fight between their guard and a party attempting to liberate them.

The minister of foreign relations, Francisco de Barra, adds that the prisoners attempted to escape.

### Investigation is Ordered.

An official investigation has been ordered to determine the responsibility and solemn promises have been made that the guilty will be punished.

The tragedy occurred at night during a transfer of the prisoners from the palace to the penitentiary. Madero and Suarez, who had been prisoners in the national palace since their arrest on Tuesday, were placed in an automobile, which was accompanied by another car, and escorted by 100 rurales under the orders of Commandant Francisco Cardenas and Col. Rafael Pimiento.

About fifty men, some afoot and some mounted, threw themselves upon the detachment guarding the cars, and the exchange of shots lasted twenty minutes, when the attacking party fled.

The bodies of Madero and Suarez were then found. The body of Madero shows only one wound. A bullet entered the back of the head and emerged at the forehead. The body of Suarez shows many wounds, entering from the front.

### Widow in Tears, Sister Storms.

Senora Madero, widow of the ex-president, was refused permission to see the body of her husband.

Senora Suarez also was denied admittance to the mortuary, where physicians, in accordance with the law, were performing an autopsy.

In contrast to the widow, whose grief was of a pitifully silent character, expressed in sobs, Mercedes Madero, sister of Madero, a beautiful young woman, educated in Paris, who has been a brilliant leader of society since the revolution of 1910, was dry eyed and tigerish in her emotions.

By the side of the two women whose husbands had been killed, the girl hurled accusations at the officers who barred the entrance.

"Cowards! Assassins!" she called them, her voice pitched high. The officers stared impassively. "You! The men who fired on a defenseless man! You and your superior officers are traitors!"

### Britain to Await Election.

London, Feb. 25.—The British government announced it will not recognize the new government of Mexico until it has been confirmed by a general election.

## FRANCISCO I. MADERO.

Ex-President Madero was shot and killed in Mexico City by his guards while being taken from the palace to the federal prison.

## RISE AND FALL OF FRANCISCO I. MADERO, JR.

March 3, 1910—Madero helped organize a national convention to nominate a candidate to oppose Porfirio Diaz.

June 3, 1910—Madero was thrown into prison by Diaz on charge of sedition.

Oct. 8, 1910—Madero released from prison and fled to San Antonio, Texas.

Nov. 19, 1910—Madero, accompanied by seven men, recrossed the Rio Grande into Mexico and began recruiting troops to his standard.

Feb. 6, 1911—Joined by Generals Orozco and Blanco and the bandit chief, "Pancho" Villa.

Feb. 9, 1911—Abraham Gonzales, governor of Chihuahua, joined Madero and gave financial aid.

Feb. 15, 1911—Madero fought Diaz troops near Chihuahua. Madero and his personal air, Cuellar, both seriously wounded near Casas Grandes.

May 5, 1911—Madero treated with Diaz at his request, but did not reach a compromise. Broke armistice.

May 8, 1911—Captured Juarez after three days' fight.

May 25, 1911—Porfirio Diaz resigned and De la Barra became provisional president of Mexico.

June 8, 1911—Entered Mexico City and received an unprecedented demonstration. Hailed as "savior of Mexico."

Aug. 31, 1911—Nominated for presidency by the progressive party.

Oct. 2, 1911—Elected president of the Republic of Mexico.

Feb. 9, 1913—Confronted with revolution led by Col. Felix Diaz and Gen. Bernardo Reyes. Personally led federal troops against revolutionists.

Feb. 18, 1913—Madero thrown into prison by General Huerta, his principal assistant against Diaz.

Feb. 20, 1913—General Huerta made provisional president.

Feb. 22, 1913—Madero shot and killed while on way to penitentiary and ex-Vice President Jose Pino Suarez was also killed.

## SCHOOL IS GIVEN STADIUM

Charles L. Taylor, Lehigh Alumnus, Donates \$300,000 for New "Gym" and Swimming Pool.

South Bethlehem, Pa., Feb. 24.—A new gymnasium, stadium, and swimming pool will be erected for the use of Lehigh university students through the generosity of Charles L. Taylor of Pittsburgh, an alumnus and member of the board of trustees. The new building will be placed on the present athletic grounds of the university at an estimated cost of \$200,000. The stadium will have a seating capacity of 11,000.

## PLEAD GUILTY AS A TRUST

Fifteen Produce Dealers in Portland Admit Sherman Law Violations and Accept Fines.

Portland, Ore., Feb. 24.—Fifteen wholesale produce dealers pleaded guilty to violating the Sherman anti-trust law in the superior court here, and promised to dissolve the Produce Merchants' association. They were fined an aggregate of \$8,450. The dealers acknowledged they made a contract with brokers by which the latter were to send out of town that produce which the association did not wish to buy.

## HAMILTON TO DYING KIN

Injured Aviator Receives Telegram That His Grandmother is Seriously Ill and Leaves Hospital.

Jacksonville, Fla., Feb. 24.—Desoto Sanitarium officials say that Aviator Hamilton, while brooding over a telegram stating that his grandmother was dying in Connecticut, left the hospital against the advice of physicians, and is thought headed for that point. They are reticent on the subject.

## Sailor's Cane in Court.

Boston, Feb. 22.—The United States of America appeared as complainant against "one walking stick" in a suit in the federal court here. The cane was seized by customs officers because of a picture concealed in the handle. As the seaman is now on the high seas bound for China, Uncle Sam may get the cane.

## OFFERED BIG BRIBE

SUPERINTENDENT OF HOSPITAL FOR INSANE TENDERED \$20,000 TO FREE THAW.

### SULZER'S NAME IS MENTIONED

Dr. Russell Declares He Refused to Consider Lawyer's Proposition For Release of the Slayer of Stanford White.

Albany, N. Y., Feb. 22.—Testifying before Governor Sulzer's committee of inquiry here, Dr. John W. Russell, superintendent of Matteawan State hospital, said he was offered \$20,000 by a lawyer a few weeks ago if he would agree to release Harry K. Thaw, convicted slayer of Stanford White, the New York architect.

Doctor Russell said he refused. He could not recall the lawyer's name, but said the offer was made in a New York hotel.

Superintendent Russell had previously testified that William F. Clark, secretary to the Sulzer inquiry committee, had told him that "Governor Sulzer would be pleased to have Thaw released."

Dr. James V. May, a member of the state hospital commission, testified that he had been approached in the same way.

### Sulzer Makes Denial.

Governor Sulzer declared that the use of his name was unauthorized. "If Mr. Clark or any other man made the statement that Thaw's release would be pleasing to me, it is absolutely untrue," said Governor Sulzer.

On February 15, Doctor Russell said, Doctor May called him on the telephone from Albany, saying he had seen the governor and that Mr. Sulzer would issue no order and "the case would have to take its regular course."

"I told Doctor May," continued the witness, "that if the governor wanted this thing done he would have to give me a written order."

### Doctor Sought Protection.

Doctor Russell explained that authority for the release of inmates was invested only in the courts and in himself as superintendent.

"If the governor has not the power to order Thaw's release, why did you insist on such an order?" asked the committee's counsel.

"My idea was to protect myself," replied the witness.

"What protection did you need?" Doctor Russell was asked.

"I needed protection from persecution."

## WHITE SLAVE LAW VALID

Act Prohibiting Shipment of Women and Girls in Interstate Commerce Declared Constitutional.

Washington, Feb. 25.—The white slave law prohibiting the shipment of women and girls in interstate commerce for purposes of prostitution was declared constitutional by the Supreme court of the United States.

The court held that the law giving congress power over commerce among the several states is without limitation and that congress has the power over such subjects in commerce as women intended for these purposes.

## EX-EMPRESS OF CHINA DEAD

Widow of Emperor Kwangsu Dies After a Short Illness—Cause of Death is Unknown.

Peking, China, Feb. 22.—Ye Ho Na La, empress dowager of China, died at 2:30 this morning. She was the widow of Emperor Kwangsu, who died November 13, 1908.

The empress had been ill only a few days. The actual cause of her death is unknown, but it is said the symptoms of her ailment resembled appendicitis. She was attended only by a Chinese doctor.

## TWO CHILDREN DIE IN FIRE

Their Mother Probably Fatally Burned in Blaze That Destroyed Home in Pennsylvania.

Pittsburgh, Pa., Feb. 24.—Two children were burned to death and their mother probably fatally burned as a result of a fire which destroyed the home of John Davis near Sturgeon. The dead are: John Davis, four years old, and Margaret Davis, sixteen months. Mrs. Davis will die, physicians claimed.

## DOCTOR GOES TO SEE MORGAN

Professor Bastianelli, Italian Specialist, to Attend American Financier in Egypt.

Rome, Feb. 22.—Prof. Giuseppe Bastianelli left here for Egypt to attend J. Pierpont Morgan. Latest reports from the financier are that his condition is greatly improved, but the specialist will keep him under observation until he sails from Alexandria March 10.

## MRS. SCOTT IS CARED FOR

British Government Will Give Explorer's Widow a Naval Captain's Salary for Life.

London, Feb. 24.—It is understood that under the government scheme Mrs. Robert F. Scott, widow of the antarctic explorer, will receive an annual pension equivalent to the salary of a naval captain in active service.

## DON EDUARDO SUAREZ.

Mexico's vice-president, who was slain in Mexico City while being transferred from the palace to the federal prison.

## SOLONS OF MANY STATES DENOUNCE MADERO DEATH

"Armed Intervention in Mexico" is Demanded by Resolution in Ohio Legislature.

Austin, Tex., Feb. 25.—A warm resolution by Dwight LeWelling of Dallas county was adopted by the lower house of the Texas legislature, denouncing the assassination of President Madero and Vice-President Suarez, and demanding of Senators Culberson and Sheppard that they call upon the government at Washington, in behalf of humanity, to intervene in Mexico, to restore order and establish civil government in said republic.

Oklahoma City, Okla., Feb. 25.—A resolution asking congress to take steps to bring about peace in Mexico, and to intervene if necessary, was introduced with strong support in the Oklahoma house of representatives. The resolution, which will be taken up today for action, denounces the assassination of Madero and Suarez as a "disgrace to civilization."

Columbus, O., Feb. 25.—"Armed Intervention in Mexico" is demanded by a resolution introduced in the lower house of the Ohio legislature here. The resolution declares that the Mexican authorities have shown themselves unable to restore peace to the country, and that under the Monroe doctrine it is the duty of the United States to intervene.

Topeka, Kan., Feb. 25.—The Kansas house of representatives urged intervention in Mexico by the United States, and in a set of resolutions demanded that "every Mexican be wiped off the map if necessary to protect the lives of Americans living in that country."

## SPECIAL SESSION APRIL 1

President-Elect Announces Date for Convening of Congress After Receiving Underwood's Letter.

Trenton, N. J., Feb. 25.—President-elect Wilson announced that the extra session of congress would be convened on Tuesday, April 1. The governor declared that he had arrived at this decision as a result of a letter received from Representative Underwood, Democratic house leader.

"I have waited," said Governor Wilson, "to learn just what state of preparedness congress was in for the business of the new session."

The flat statement is made by a person high in authority and close to President-elect Wilson that the position of secretary of state has been offered to William J. Bryan and that he has accepted. He declared that the only appointment definitely announced at this time was this one.

## CAPTAIN HERE FOR MEDAL

Commander of the Carpathia, Which Rescued Titanic Survivors, is in New York.

New York, Feb. 25.—Captain A. H. Rostron, commander of the steamship Carpathia when she rescued the survivors of the Titanic last April, arrived from England to receive the medal voted by congress. The award will be made in Washington.

## Marquis Found Dead in Bed.

London, Feb. 25.—Henry Ulick Brown, fifth Marquis of Sligo, was found dead in bed. He was 82 years of age.

Member of French Academy Dies. Paris, Feb. 25.—M. Paul Thureau-dang, a historian and member of the French academy, died at Cannes.

## TROOPS ARE READY

TAFT DIRECTS THREE BRIGADES TO BE READY FOR MEXICAN SERVICE.

### FIRM AGAINST INTERVENTION

President in New York Speech Points to Havoc That Would Result if Such Action Was Forced—Must Exercise Patience, He Says.

Washington, Feb. 24.—"The assassination of Madero and Suarez does not in itself warrant any further move on the part of the United States government. No special cabinet meeting will be held in Washington to discuss the situation."—President William H. Taft.

Washington, Feb. 24.—Before President Taft leaves office there will be 17,000 troops concentrated at and about Galveston, Tex., in addition to 1,000 marines on warships anchored off Mexican ports and 2,000 marines held in reserve on the ships of the Atlantic fleet at the naval station, Guantanamo, Cuba.

This force of 20,000 men will be ready for whatever action Woodrow Wilson and the new congress may desire to take in the event of further developments in Mexico. President-elect Wilson will consult with the Taft cabinet on Mexican affairs next week.

### Crisis Up to Wilson.

Two things made clear is that President Taft is about ready to turn the whole situation over to his successor in office. From the war department orders were issued for the Fifth brigade, second division, numbering 4,000 men, to entrain at once for Galveston.

This force is under direct command of Brig. Gen. Frederick F. Smith, whose division commander is Maj. Gen. William H. Carter, stationed at Chicago. Orders were also issued for the Fourth brigade of the second division, also numbering 4,000 men, including the Twenty-seventh Infantry, stationed at Fort Sheridan, Ill., to prepare to entrain at an instant's notice for Galveston.

### Taft Makes Statement.

The second event which showed the intentions of the president was a statement which he issued in New York. He said:

"The movement of troops is merely to bring a brigade to Galveston, to which place four transports had already been ordered as a mere precautionary measure because of unsettled conditions in Mexico. It is not prompted by any recent news from Mexico, and is only part of the reasonable precaution directed to be taken some time ago, in which the sending of battleships to the various ports in Mexico was the first step. The sending of four transports and two brigades to Galveston is the next and final step."

This statement is construed to mean that before the end of the Taft regime the First brigade of the first division, numbering 4,000 men, commanded by Brig. Gen. Marlon P. Maus, with headquarters at Albany, N. Y., which has been prepared for some time, will be sent to Galveston, as will the Fourth brigade under command of Brig. Gen. Ramsay D. Potts.

### Presents Sad Spectacle.

President Taft, speaking before the American Peace and Arbitration League in New York, showed clearly his position on Mexico was the same now as that maintained in messages to congress. He said:

"Mexico for two years has presented a very sad picture to every lover of his kind, to every supporter of popular government, to every man hopeful of establishing peace under a stable government. But we must not despair. We must not, in a case like Mexico—for it differs from the Central American republic—take such action as shall lead them to believe that we are moved by selfish purposes or aroused them to opposition to us.

### Firm Against Intervention.

"We must avoid in every way that which is called intervention, and use all the patience possible, with the prayers that some power may arise there to bring about peace throughout that great country. We have to take precautions, and these have been taken.

"But I have no sympathy—none at all—and the charge of cowardice does not frighten me—with that which prompts us, for purposes of exploitation and gain, to invade another country and involve ourselves in a war, the extent of which we could not realize, and the sacrifice of thousands of lives and millions of treasure—and then, when we had succeeded, what? No, we must exercise patience in a case like this."

## FAREWELL GIFTS TO TAFTS

Diamond Necklace Presented to Mistress of White House and President Gets Pearl Studs.

Washington, Feb. 22.—A magnificent set of pearl studs for President Taft and a diamond necklace of pure white stones for Mrs. Taft were presented to them at the White House as farewell gifts from a circle of close friends which the Tafts have made during their long residence in the national capital.

\$200,000 Plant Razed by Fire. Warren, O., Feb. 25.—Fire totally destroyed the plant of the Warren City Tank and Boiler company, one of the largest factories in this city. The loss is placed at \$200,000.

# STATE PRESS MEN END CONVENTION

OFFICERS ARE ELECTED AT FINAL SESSION IN CITY OF DETROIT.

## PORT HURON MAN HONORED

Louis A. Well is Elected President of the Michigan Association at Meeting—Other Officers Are Named.

Lansing.—At the meeting of the Michigan Press association in the city of Detroit, problems of the small newspaper and legislation to do away with dishonest advertising were discussed.

Printing costs, circulation building and efficient management were discussed in the Wayne hotel. The speakers were: A. D. Gallery of Caro, James P. Haskin of Howard City, Fred A. Rogers of Reading, E. J. McCall of Ithaca, Ed. O. Dewey of Owosso, Elmer Fieghner of Nashville.

W. P. Nesbitt, private secretary to Governor Ferris and historian of the association, made his report after the discussion.

A banquet was given the members by the Wayne hotel. H. M. Nimmo of the Detroit Saturday Night acted as toastmaster.

The members partook of a luncheon at the Hotel Griswold as guest of the Postal Hotel company.

Karl Murchey of the Detroit Times will give an illustrated lecture in the Griswold on dishonest advertising. After his lecture the bills before the legislature to correct advertising evils were discussed.

The state association closed its convention by selecting the following officers: President, Louis A. Well, Port Huron Times-Herald; vice-president, A. D. Gallery, Caro Advertiser; secretary, J. B. Haskins, Howard City Record; treasurer, J. N. McCall, Ithaca Journal.

After the business of the association had been disposed of, Karl E. Murchey talked on newspaper advertising.

### Want Passengers to Have Tickets.

Efforts of the passenger conductors running trains in Michigan to further the passage of the penalty cash fare bill before the railway committees of the house and senate, resulted in an attack on the ticket selling agencies of the railroads. Members of the committee asked both representative conductors and railway managers what assurances could be given if such a law is passed that the traveling public could secure tickets without trouble and danger of losing their trains.

The direct charge was made by Representative Weldenfeller of Van Buren that there would be no complaint over cash fares except for the discourtesy and disinclination of many ticket agents to aid passengers to secure their tickets.

J. H. P. Hughtart, general manager of the Grand Rapids & Indiana, stated that the railroads of the state would like to see the bill passed. Speaking of the trouble relative to tickets, he said the railroads were endeavoring to eliminate all friction of this kind. No action was taken on the bill, which provides for a ten-cent penalty being collected in case the passenger pays his fare aboard the train, but does not provide for a rebate.

The reciprocal demurrage bill was also to have been taken up, but owing to the inability of shippers interested to present its consideration was deferred until March 25.

The Kelley bill, which would cause the conviction for fraud of any miller whose sacks, boxes or barrels of cereals were found to contain less than was stamped on the outside, has run against a snag in the house committee on state affairs, which is decidedly out of sympathy with the stringency of the bill.

Under its provisions the finding of a sack or package that was underweight would constitute prima facie evidence that the packer was guilty and that individual would have no recourse no matter whether a retailer or other middleman had tampered with the contents.

Millers were in Lansing in force and protested strongly against the bill. It originally carried the qualification that if a miller "knowingly" packed short weight, he would be guilty, but the senate cut out the word "knowingly" at the request of the state dairy and food department, which argued that it could obtain no convictions under the old law, which contained the "knowingly" qualification.

### State Corporations.

The following companies filed articles of incorporation with the secretary of state. The list includes many Detroit companies: Picard & Picard, Detroit, \$40,000; stockholders, Edward S. Picard, John D. Mabley and William G. Emerick; Ann Arbor Piano company, Ann Arbor, \$10,000; Standard Holstein Breeders' association, Bruce Crossing, \$1,000; United Realty company, Detroit, \$1,000; stockholders, William A. Gleason, S. A. Merchant and Irwin D. Hackett; Art Marble company, Detroit, \$100,000.

### State Building May Be Insured.

The state of Michigan has \$16,000,000 in buildings and equipment that is unprotected by one penny of insurance, according to figures compiled by Auditor General Fuller, and this condition has impelled Senator Weadock to introduce a bill providing that the state shall create an insurance fund and carry its own insurance, after the manner of a number of the big corporations of the country.

The burning of the Traverse City hospital for the insane, Ionia state reformatory, school for the deaf at Flint and Jackson prison all within a year, have cost the state nearly \$500,000, and at each of these institutions that loss must be replaced in addition to unusually large appropriations for new buildings and increased facilities required, without consideration of the housing capacity of the destroyed buildings.

The Weadock plan contemplates the creation of a fund and the annual addition of sums sufficient to cover insurance costs in professional companies. Whenever such fund reaches more than \$100,000, the excess is to be invested in securities approved by the state authorities.

### Annual Meeting of Health Officers.

The annual meeting of the Michigan Health Officers' association will be held in Ann Arbor February 26 to 27. The program is as follows: Address of welcome, William Walz, mayor; "Sanitation in Its Relation to Public Health," L. L. Wright; discussion led by Dr. George Williams; "What Constitutes a Model Milk Ordinance," Dr. A. H. Rockwell; discussion led by Dr. W. A. Price; "An Enlarged Public Health Service," Dr. R. L. Dixon; discussion led by Dr. Bion Whelan; lecture, "Eugenics," Dr. V. C. Vaughan; "Municipal Control of the Venereal Diseases," Dr. A. F. Fischer; discussion led by Dr. Edward Goodwin; "The Public Health Nurse and her Work," Dr. G. L. Kiefer; discussion led by Dr. T. M. Koon; "Altruism in Public Health Work," Dr. W. H. Sawyer; discussion led by Dr. V. C. Vaughan; "Early Diagnosis of Tuberculosis," Dr. V. C. Vaughan, Jr.; discussion led by Dr. Ralph Apter; "Dovine Tuberculosis in Its Relation to Public Health," Dr. Ward Giltner; discussion led by Dr. F. G. Novy.

### State Progressive Convention.

The Michigan Progressive party convention at Battle Creek cheered every mention of Roosevelt's name and nominated this state ticket: H. R. Pattengill of Lansing and Dr. H. S. Chapman of Pontiac for regents of the University of Michigan, Horatio S. Earle of Detroit for state highway commissioner, A. C. Cook of Iron Mountain for long term justice of the supreme court, Willard Turner of Muskegon for short term, Garrett Masellink of Muskegon for superintendent of public instruction, Oscar Brayman of Grand Rapids and A. B. Cook of Owosso for member of the board of agriculture.

### Ask for Bond for Good Roads.

Resolutions to submit to the electorate a constitutional amendment to permit the state to bond up to from \$25,000,000 to \$50,000,000 for good road building will be introduced in house and senate shortly, according to the good roads proponents.

The joint house and senate committees on roads listened to a delegation from the state trunk highways association, recently organized at Saginaw, which argued for the Allswede bill providing a state trunk highway system, with amendments.

The amendments have been agreed to by Allswede and they provide an additional road from Detroit, through the Thumb district to Port Huron and another running from either Jackson or Niles to Grand Rapids, Big Rapids, Cadillac, and on to Traverse City, joining there the proposed Lake Michigan Shore line.

The good roads delegation was headed by W. F. Johnson of Roscommon, secretary of the organization. With him were H. A. Gustin of the Alpena chamber of commerce, T. F. Marston of Bay City, George Harting of Bay City, chairman of the Bay county board of supervisors, and others, appointed as a committee by the organization.

The road men are also committed to the "out of politics" plan, and while deploring that the state highway commissioners had been made an elective office, urge that every means be taken to place the construction work and the determination of distances and direction under the supervision of engineers.

W. F. Johnson presented an interesting brief on road building history and quoted MacCauley, the English historian, to show that 300 years ago England was suffering from poor roads under exactly the same system that now prevails in Michigan. He declared that the history of the world showed that unless a central authority took charge of roadbuilding, the individual communities were not able, except very slowly, to construct roads that formed continuous lines through any considerable stretch of territory.

### Governor Ferris Names Delegates.

The following Michigan people have been appointed by Governor Ferris to attend the fourth American peace conference in St. Louis May 1 to 3; Joseph B. Moore, associate judge, Lansing; Dr. James B. Angell, Ann Arbor; Dr. L. H. Jones, Ypsilanti; L. L. Barbour, Detroit; Rev. N. S. Bradley, Saginaw; Mrs. Florence Milner, Detroit university school; John C. Ketcham, Hastings; Superintendent E. C. Hartwell Petoskey; F. W. Arbury, Detroit.

# NOTES From MEADOWBROOK FARM

Study the soils carefully.

Chickens like oats in winter.

Keep a record of your cows.

Time to dust off the incubator.

Plan the garden and order seeds now.

Prune in winter for wood and in June for fruit.

Encourage the farmer to keep better poultry and more of it.

On cold evenings the hens must be sent to roost with full crops.

Winter comfort in the cow stable does not imply an air tight room.

Pollen is a most essential factor in the production of all fruits and grains.

Many a poor and unprofitable dairy herd can be traced to a nondescript sire.

The good dairy cow will pay more for farm crops than any market in this country.

Foliage and fruit diseases are usually controlled with little difficulty by spraying.

Keeping two cows to do the work of one constitutes the biggest leak in the dairy business.

Whatever your scheme of ventilation in the poultry house, let no drafts reach the roosts.

All laying and growing chickens must have some kind of meat food in order to do their best.

The dairyman who does not keep an individual record of his cows is not an up-to-date dairyman.

The young trees should be banked with earth, which will keep water from settling about them.

Eggs ought to weigh a pound and a half to the dozen or forty-five pounds net to the thirty dozen eggs.

A good plan is to make the hog lots long and narrow, and sow them to pasture, plowing up alternately.

For washing a separator nothing beats a brush and scalding water containing some washing powder.

It is important that sheep intended for slaughter should be kept off feed from twenty-four to thirty-six hours.

While considerable is known about the value and use of alfalfa for grazing, much remains to be determined.

An income of \$100 per cow per year is no longer an unusual occurrence but what other farm animal can equal it?

Regular, careful, quiet milking will permanently improve an animal as a milk producer and will increase her flow.

Young trees heeled in over winter should be in a location where water cannot collect and stand about the roots.

Experiments have proven the average milk cow requires about an ounce of salt per day. Heavy milkers should have more.

Silage is very nearly as cheap as pasture and in composition is practically the same, pound for pound, as timothy pasture.

Wrapping young trees with corn-stalks, building paper, etc., as a protection against rabbits is better than to apply a wash.

Of almost, if not quite, as much importance as their food is plenty of exercise. Exercise and sunshine are great sheep tonics.

Do not think because a sheep has a heavy coat of wool he will be able to endure cold rains and sleep without a warm shelter.

Quiet, gentle handling of the ewes during the winter makes it much easier work to care for the flock during the lambing period.

Collect the eggs regularly at least once, better twice, a day in moderate weather and more frequently in very warm and very cold weather.

In the case where cow-pea hay and silage are fed together, there is no question but that better results would ensue were alfalfa hay used instead of the cow-pea roughage for this purpose.

Make plans for a garden.

Market only the clean eggs.

There is money in small fruits.

It is not wise to wash market eggs.

Tramp the snow well about the trees.

A good place for wood ashes is around the pear trees.

Age affects the flavor and texture of meat to quite an extent.

This is the time of year the wind-break of evergreen is enjoyed.

When shipping eggs pack carefully in strong, clean cases and fillers.

A coat of whitewash in the poultry house adds both to beauty and profit.

There is a decided difference between a cow keeper and a dairyman.

The salvation of poor soils and the preserver of good soils—dairy farming.

Mulch the strawberries and fruit trees and shrubs if this has not been done.

Keeping rabbits from damaging fruit trees is sometimes a difficult task.

Just because the calf is large and thrifty is no sign it will be a wonderful cow.

Exercise is a better heating stimulant for the hens than heat-producing condiments.

A rigid system of selection of brood sows should be practiced by all swine breeders.

There is nothing the matter with the hen that shows a bright eye and a red comb.

A shed of crotches and poles, covered with straw, is cheap, warm and businesslike.

Warming the cream to about 56 degrees for winter churning will make less work of it.

No stock grower can afford to have his animals burn grain for fuel to keep themselves warm.

Establish, if possible, a brand of eggs which will in itself be a guarantee of good quality.

If the soil is still open, a better half day's work can't be done right now than to plow the garden.

Green food of some kind is necessary to make hens do their best in the line of egg production.

Let the dairy heifer have plenty of growth before breeding—two years old is better than 18 months.

Foul odors in the sheep barn will bring pneumonia. Keep your mind on having them well ventilated.

The care of animals previous to slaughter has considerable effect on the keeping qualities of the meat.

The dairy farm that is stocked to its full capacity without being overstocked is a pretty safe investment.

The pedigreed sire has been the power in building up size and draft form in our American stock or horses.

In pasturing alfalfa it must never be overstocked, as the animals will injure the crowns and the plants will die.

The cellar, even though it is thought to be well ventilated, is not a desirable place to keep the milk or cream.

Experiments show that chickens with strong vitality and plenty of masculine characteristics make the largest gains.

Heroic pruning measures are needed to bring many old trees into bearing; but it need not all be done the first year.

The man who dubbed the hog a "mortgage lifter" was posted; he knew something of the possibilities of the animal.

A score or more years ago eight-cent lambs and six-cent yearlings were not sought by the trade, as is frequently the case now.

Trees and small fruits generally like application of ashes and bone dust. By fertilizing liberally, good crops may be assured.

To lessen the chances for milk fever and other troubles after calving, feed the cow a laxative ration ten days before she is due.

One of the most important items in managing a fruit farm, and especially small fruits, is to prepare the soil in equal hills before planting.

For best results the alfalfa pasture must be mowed at least three times a year, because at certain times it begins new growth from the root.

Corn is no doubt the best feed there is for hogs, but its full value can only be realized when it is used in connection with other feeds.

# NEWS OF MICHIGAN

Jackson.—Convict S. H. Patterson, who on June 17, 1912, secreted himself in a box car and made his escape from Jackson prison, has been arrested at Minneapolis, Minn., according to a telegram received at the penitentiary. Patterson was sentenced to Jackson prison from Oakland county in 1911 to serve from three to ten years for securing goods under false pretenses.

Grass Lake.—Fifty years ago Amos Curtis and Lorinda Otis were married. They have lived continuously on the same farm where they celebrated the event, assisted by their entire family and friends of their earlier years. Four children were born to the couple, all of whom are living in Michigan. Nineteen grandchildren were present.

Lapeer.—The new Masonic temple, easily the most beautiful building in Lapeer, will be dedicated Wednesday, February 26, the officers of the grand lodge performing the ceremony. The afternoon will be given over to the dedication and reception which will be held in the newly finished lodge rooms.

Ionia.—Loading and unloading coal and riding forth between the city and the state asylum on an automobile truck was not a recreation for Frank Frankowitch, a trusty of the institution, who took French leave as the auto was crossing the Grand river. A reward of \$15 is offered by the institution for his capture.

Iron Mountain.—Alvin Olson, prodigious in size and apparently demoted, seized a locomotive here. After a struggle with officers, he was pulled away from the throttle just in time to avert a calamity. He boarded the engine on a side track, near a passenger train which stood on the main line.

Monroe.—At the Presbyterian church the local commandery Knights Templar, presented a past eminent commander's jewels to Fred H. Humphrey, C. B. Southworth and C. A. Ilgenritz. Vocal and instrumental music constituted part of the program and addresses were given by Rev. Mr. Brown of the Methodist church, Rev. Mr. Burns of the Presbyterian church and Rev. Mr. O'Meara of the Episcopal church.

Ionia.—One hundred delegates are attending the five-day sessions of the American Christian Missionary society here at the Church of Christ, Michigan, Indiana, Ohio, Missouri, Illinois and other states are represented. It is the first time the society ever met in Michigan and Sunday school methods of teaching are being discussed.

Battle Creek.—After coming from St. Johns to visit his son, Frank Post, of this city, Leonard Post, aged seventy years, dropped dead within two blocks of the residence. His body was taken to the home of strangers and identified by letters. He was a prominent resident of St. Johns. The body will be shipped to the old home for burial.

Grand Rapids.—At the annual meeting of the Fifth district Dental society here the following officers were elected: President, Dr. Charles H. Lefevre of Muskegon; vice-president, Dr. R. L. Heaston of Grand Rapids; secretary, Dr. Aren Vyn of Grand Haven; treasurer, Dr. Claude Hathaway of Ionia. The next annual meeting will be held in Muskegon. A banquet was given in honor of Dr. James H. Prothro of Chicago, who made an address.

Jackson.—William H. Harry and Fred Van Orman, proprietors of the Otsego hotels, were made the defendants in a warrant sworn out by W. T. Hulscher, state food inspector, who charges that oleomargarine is being used in the hotel without the display of a sign.

South Haven.—The Masonic lodge of this city contemplates the erection of a new temple to cost approximately \$30,000, and to be located upon one of several centrally located sites now being considered. The new building will be of brick, with handsome banquet halls, retiring rooms, reception and lodge rooms and second to none in a city of this size in the state.

Alpena.—A temporary filtration plant, in which hypo-chloride of lime is used, was put in operation at the municipal waterworks plant. This system was recommended by Secretary R. L. Dixon of the state board of health after investigating the high rate of typhoid fever in Alpena. There are 40 cases in the city at the present time.

Grand Rapids.—Braving death to surpass any circus dare-devil feat they had ever witnessed, Leo Hickey and Hazen Scovill, sixteen years old, procured horseshoes and did a slide-for-life act that paralyzed South end citizens. Placing the shoes over a derrick cable spanning Battjes Fuel company's gravel pit, they grasped the caulk and slid over the 100-foot abyss to the opposite side, 125 feet away. The police were notified and the act canceled. The "dare-devils" are now awaiting the decision of Juvenile Judge Higbee.

# CONSTIPATION

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

# Saskatchewan

**Your Opportunity is NOW**  
in the Province of Saskatchewan, Western Canada

Do you desire to get a Free Homestead of 160 ACRES of that well known Wheat Land but no less valuable?

**NEW DISTRICTS**  
have recently been opened up for settlement, and into these railroads are now being built. The day will soon come when there will be no land left.

**Free Homesteading**  
A Swift Current, Saskatchewan, farmer writes: "I came on my homestead, March 1908, with about \$100 worth of horses and machinery, and just \$50 in cash. Today I have 500 acres of wheat, 300 acres of oats, and 50 acres of hay." Not bad for six years, but only an instance of what may be done in Western Canada, in Manitoba, Saskatchewan or Alberta. Send at once for Literature, Maps, Railway Rates, etc., to

### Pettit's Eye Salve

QUICK RELIEF EYE TROUBLES  
If you would strike a man favorably never hit him in the vicinity of his pocketbook.

Only One "BROMO QUININE"  
That is LAXATIVE BROMO QUININE. Look for the signature of W. W. GIBBY. Cures a Cold in One Day, Cures Grip in Two Days. See.

No, indeed.  
"Ladies are beginning to smoke cigarettes, aren't they?"  
"No, indeed."  
"But I am sure I saw a woman smoking one yesterday!"  
"But you said ladies."

Had None to Spare.  
There was a miners' picnic at Butte one Sunday. One of the features was a tug-of-war between a team of Irish miners and a team of Slovaks.

The Slovaks were winning and the Irishmen dropped the rope and began to fight. It was a good fight. One brawny Irishman had an opponent down and was pounding him at his leisure, when a friend came along.  
"Gimme a belt at him," said the friend.  
"Gwan," replied the other; "go and get one for yourself."

In the Day of the Billionaire.  
A brilliant New York lawyer said at a dinner at the Lotus club apropos of certain trust magnates:

"Thanks to watered stock—and watered stock is criminal abroad—these men are indeed rich beyond the dreams of avarice.  
"If the watering of stock is allowed to keep on we'll hear our billionaires talking like this some day:  
"Hullo! There goes Jones in his 300 horsepower car. Do you know him?"  
"Do I know him! Do I know Jones! Why, man alive, Jones and I were struggling young millionaires together!"—New York Times.

# Ready Cooked Meals

are rapidly growing in popular favor.

# Post Toasties

served either with cream or good milk, or preserved fruit, make a most appetizing dish for breakfast, dinner, or supper.

These delicious toasted flaky bits of white corn have a delicate taste that is very pleasing at this time of year.

Post Toasties are economical, make less work for the busy housewife and please everyone at the table.

### "The Memory Lingers"

Sold by Grocers everywhere  
Postum Cereal Co., Ltd., Battle Creek, Mich.

**THE GLADSTONE DELTA**  
CHAS. E. MASON, Publisher.  
\$1.50 PER YEAR IN ADVANCE.

Entered at the postoffice, Gladstone, Michigan, as mail matter of the second class.

It appears that the intervention neither of Laft nor the upper peninsula editors was sufficient to save Madero.

Marinette is shortly to have a factory built by D. Clint Prescott, for the purpose of making hose reels and other patented devices.

And the garrison of Fort Brady are going "to fight your country's battles, lad, down in Mexico." Now suppose Canada takes advantage of our defenseless condition to annex Cloverland?

Those who have recommended sending the Colonel to Mexico to settle the question seem to have had some intimation of the efficient Mexican method of handling the ex-presidential problem.

Antrim county farmers are taking a leaf out of the upper peninsula development bureau's books. They recently met at Elk Rapids and voted to call their neck of woods "The Fruitland Peninsula."

The attention of those who have an ambition to doctor the state constitution is called to the fact that Louisiana and Mississippi only indulge in legislative sessions once in four years.—Muskegon Chronicle.

We have distinct personal recollections of insisting on a war with Spain once on a time, just as a lot of hot blooded American youths are clamoring for a war with Mexico now. And all we have to say is that if they pull off this war with Mexico there will be very few of those who went down to save Cuba who will be saving Mexico. One experience of that sort may be a good thing but one is quite enough.—H. A. Guck in Houghton Gazette.

The Chicago, Milwaukee & St. Paul passenger train due to leave Champion for Chicago at 7:15 p. m., was wrecked at 9:24 o'clock Sunday while entering the Republic yards. Six of the nine coaches were derailed and overturned, the tender and two sleeping cars left the tracks but still remained upright on the ties, while the engine and the rear sleeper clung to the rails. The passengers were severely shaken up and several received minor injuries. Conductor Al Bloomer, of Green Bay, was fatally hurt, heavy trunks falling on him when the baggage car overturned. Hon. M. H. Moriarty, of Crystal Falls was among the injured passengers. A broken rail is blamed.

**CAUSE OF WRECK**

Broken rails, as well as broken wheels, have been the source of many accidents this winter on upper peninsula railroads. In addition to the brittleness of ordinary Bessemer process rails, which is the cause of much discussion, track conditions are very poor in this region in winter. Severe frosts, acting on the ballast, heave it, so that wheels are continually hammering on the metals, creating an immense strain. This condition is a difficult one to overcome.

Says the Scientific American:

"That the risks of railroad travel in the United States are beyond all reason is admitted. In the year 1908, out of 1,500,000,000 carried in the United Kingdom, not one was killed. In the same year our Interstate Commerce commission reported that out of less than a billion passengers carried, the number of killed in train accidents was 165.

But we do not have to go outside of New York City for a standard of safe travel that exceeds the British record. The New York subway has carried during the eight years of its operation 1,664,516,822 passengers without a single fatality due to train accident. This record is due to excellent block signals and the automatic stop. Both of these should be made compulsory on steam roads."

**SUCKERS!**

A number of local fishermen have been arrested this winter on warrants charging them with illegal methods of spearing suckers. Monday Ed and Wm. Driscoll were arrested by game wardens and yesterday Dan Scott and Wm. Winkee were served with warrants, and the cases brought up for trial at Marinette today. A number of other local parties were arrested earlier in the winter. It seems like a parody on justice to arrest a person in this state for spearing suckers while under the cover of a blanket, while the state of Minnesota is appropriating large sums of money to employ men to rid the rivers of that state of the suckers. Minnesota does this for the reason that the suckers feed on the spawn of game fish.—Marinette Eagle-Star.

What a slobby, shapeless, sluggish thing a sucker is and what a sluggish, inactive, indifferent specimen of carelessness the average voter is, to submit to all this game warden poppycock for all these years and at the same time pride himself as being a free man. The average Wisconsin voter is just a finless sucker and the wonder is they

really seem to enjoy this fishy, slimy, senseless state of existence instead of rousing themselves to determined action and resentment. But what can one expect of a sucker?—Oconto Enterprise.

**ON THE VERMILLION RANGE**

The Gleason Exploration company, which operated drills on the Cascade range a few years ago, and which owns valuable mines at Iron River, Menominee range, has secured an option on promising mineral lands between the Chandler mine and Long Lake near Ely, Minn., and exploratory work is to be started at once.

The principal stockholders of the Gleason company are Michael Gleason of Gladstone, formerly of Republic, and his son, Matthew Gleason of San Diego, Cal., M. J. Murphy of Ely, and G. H. Good, of Winton.

The Gleason company did not find any high grade ore on the tract they explored near Palmer and gave up the option after conducting drilling operations there for less than a year. The company is now receiving a royalty from its properties in the Iron River district. The New York State Steel Co., of which Rudolf Erickson, former chief engineer of the Pittsburg & Lake Angeline Iron company, is superintendent, has control of the mines on the Gleason lands. Two properties have been opened up and they are now among the heaviest producers in the Iron River district, in spite of the fact that ground for the shaft was broken less than four years ago.

It is said that the Gleason company will likely strike ore in its new holdings on the Vermillion range. Test pits will be sunk to the formation, which is near surface, and drills will be put in operation. In places the ore outcrops on surface, and the samples analyzed have shown satisfactory results. It is thought that a property will be opened that will be a producer of high grade ore.—Mining Journal.

**FOR SALE CHEAP!**

Large, comfortable home, 10 rooms, electric lighted. Will sell at a sacrifice, at half the original cost. Must sell at once, on account of returning to Detroit to take up my work in that city. A bargain for anyone interested. Call on me or write me. J. H. VASHAW, East end Michigan Ave.

**Rising to the Burden.**

"An acre of ground that now supports two people will have to support a thousand in days to come."

"Well, it can probably do it," asserted Mr. Wombat. "I used to barely support myself. Now I support a wife, four children, a mother-in-law and two of my wife's brothers, and I don't seem to feel the strain very much more."—Kansas City Journal.

**Mortgage Sale**

Whereas, default has been made in the payment of the money secured by a Mortgage dated the third of November in the year one thousand Nine Hundred and Ten, executed by Augustine W. Kinne, who signs as August Kinne, a widower of the City of Gladstone, County of Delta, and State of Michigan, to John Molloy of the same place (Residence of the said Molloy being recited in said Mortgage as being the city of Escanaba said County and State) which said mortgage was recorded in the office of the Register of Deeds in and for said County of Delta, in liber 1, of mortgages on page 446, on the 4th day of November, 1910, at 11:20 o'clock a. m. And whereas, the amounts claimed to be due on said Mortgage at the date of this notice are the sum of Two Hundred and Fifty (\$250.00) dollars principal, and interest Nineteen dollars and forty-nine cents (\$19.49) Dollars and the further sum of Fifteen (\$15.00) Dollars as an attorney fee stipulated for in said Mortgage and the whole amount claimed to be unpaid on said Mortgage is the sum of two hundred and Eighty Four Dollars and Forty-nine cents (\$284.49) Dollars, and no suit or proceedings having been instituted at law to recover the debt now remaining secured by said Mortgage, or any part thereof, whereby the power of sale contained in said Mortgage has become operative.

Now, therefore notice is hereby given that by virtue of said power of sale and in pursuance of the Statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises therein described, at public auction to the highest bidder, at the front door of the Court House in the City of Escanaba in the said County of Delta, on the 12 day of March 1913, at 10:00 o'clock in the forenoon of that day; which said premises are described in said Mortgage as follows to wit: Lot number Nine (9) in Block number Seven (7), of the Original Plat of the City of Gladstone according to the recorded plat thereof, (but more properly described as Lot numbered Nine (9), in Block number Seven (7) of the original plat of the Village (now City) of Gladstone, Delta County, Michigan according to the recorded plat thereof on file or of record in the Office of the Register of Deeds in and for the said Delta County.

**CHLORIDE OF LIME**

Says an Alpena dispatch: Following a public meeting of the council and water board, addressed by Dr. Robert L. Dixon, of the state board of health, Sunday afternoon, work was begun Thursday morning on the installation of a simple chlorinating system at the waterworks.

Dr. Dixon's visit resulted from the high typhoid rate here. He says the chlorinating system will wipe out the disease. He gives as examples of its effectiveness various Michigan cities, among them South Haven, which installed the system a year ago, and has not had a case of typhoid in eight months.

**ELECTRIFIED WATER**

It has long been known that ozone is a powerful deodorizer and purifier of air or water. In Europe it has been very successfully applied to the sterilization of the drinking water supply and now the enterprising city of Baltimore has adopted it. Ozone is a form of oxygen, and when present in air or water quickly unites with any dangerous organic substance and reduces it to harmless water or ash.

The ozone generator consists of a boiler-plate shell and head 30 inches high and 33 inches in diameter. In this shell are a large number of aluminum tubes containing micanite tubes which serve as insulators for metallic tubes connected to one terminal of a transformer. The other terminal of the transformer, which gives from 10,000 to 15,000 volts, is connected to the ozone generator shell.

When the circuit is closed, a continuous violet discharge occurs between the inner and outer tubes, producing ozone in the air passing through. By means of the time-contact basin or mixing cell the water is made to move horizontally as well as vertically in contact with the ozone so as to give it a long time of action.

Ozone has been extensively used for the sterilization of water supplied in Europe for several years and with great success. Foremost among these installations may be mentioned the cities of St. Petersburg, Paris, Chemnitz, Nice, Madria, and Milan. Extensive plants are also in operation in other cities. St. Petersburg will increase the size of its plant at an expenditure of \$5,250,000. The advantages of this method are obvious, particularly in low cost of operation, simplicity and the total absence of poisonous residue or taste.

Any person who has a copy of Buckle's History of Civilization that does not belong to him will be rewarded suitably if he leaves it at the The Delta office. 47t

**MORE CANNING NEEDED**

The National Canners' Association will convene in Louisville, Ky., February 10 to 15. W. R. Roach of Hart, Mich., is president.

Some very important questions concerning the industry will be discussed. Canning fruits and vegetables is of constant, increasing importance. Too much fruit and too many vegetables are now wasted that must be conserved. These articles are needed for food, and as cold storage is too costly, except for first-class stock, the large amount now wasted must and can be saved by putting into cans.

There should be provisions made to save the waste products of this character, either by the home canning method or by co-operative canneries, established in every community.

The large commercial canneries usually manufacture a special high-grade product, most of which is not within the reach of the common consumer because of the price. If the large amount of fruits and vegetables of a second grade, made so by being over-ripe, or injured slightly, which now goes to waste upon most farms, could be conserved by canning it, it would help just that much in solving the problem of the nation's food supply.

In view of this threatened shortage of food, we hope to see the canners of the United States at this National Convention take some progressive action along this line.

Growing crops for the canning house is a very profitable practice, and more profitable when canning is done at home.—Grand Rapids Fruit Belt.

**RUNNING IT BLIND**

In Crystal Falls, which has adopted direct nominations for city offices, the candidates awoke to find that their petitions were filed a day too late, so as the matter stands today, there is not a single candidate for any of the city offices and the same is true of the ward offices.

The tickets will be printed blank with a space left so that a name may be written in on each office blank. There are six tickets printed, the Republican, Democratic, National Progressive, Socialist, Socialist Labor and Prohibition. Each elector enrolled may write in the name of an elector enrolled in that party as a candidate for each office. If a person gets but one vote he is nominated as a candidate for that office, always provided he is enrolled in the party in which he receives the nomination. Until after the primaries on March 5, there is no way to imagine what the ticket will look like.

# BOYISH BOASTINGS

Now they were fulfilled almost  
Literally by Earl Marble

GEORGE LORING BROWN

THE recent exhibition at the Art Institute in Chicago of the portraits of the late George Peter Alexander Healy, who, although a native of Boston, afterward became a resident of Chicago, and really quite "to the manner born," in spite of his birth and his subsequent residence abroad for so many years, created more than a ripple in the art world, and showed again what a strong and representative man of his era he was. It may be said truthfully of him that he was a most conspicuous figure in the latter part of the second era of the art of portraiture in America, as Gilbert Stuart was of the first era.

Aside from the strong merits of the portraits seen at the Art Institute, their exhibition recalls to the writer a story told him many years ago by a boyish boon companion of Mr. Healy, the late George Loring Brown, so famous for his studies of atmosphere and poetical distance in landscape and still marines as seen under the skies of sunny Italy. Mr. Healy, at the time of which I speak, was about twenty years of age, and Mr. Brown a year younger. Mr. Healy had been studying art in a somewhat desultory manner—about the only way in which art could be studied in the New England city at that early day, and was making preparations to go abroad to enter upon his studies in an earnest way. He had attracted the attention of Mrs. Harrison Gray Otis the year before, that lady then being the queen of society in Boston. He had gone to her with a letter of introduction, when she asked the shy boy what she could do for him, and his reply was, "Oh, sit for me, Madame! I so want to paint a beautiful woman!" She did so, and the portrait made quite a local reputation for the boy, upon which he made arrangements to go abroad.

Mr. Brown, the constant companion of Mr. Healy, was born in Boston, February 2, 1814, and began to draw when eight years old. His father used to encourage the boy to make caricatures of people whom he did not like, and got the boy into many a scrape. If he drew the caricatures, as he told me once, he had trouble with the people thus travestied, and, if he did not, his father made it very uncomfortable for him, sending him out on the Back Bay in winter to cut holes in the ice, and fish for eels and other inhabitants of mud and water, among other things. But the boy survived it all, and finally went to the Franklin school, where he won the silver medal, and at twelve years of age was apprenticed to the famous engraver, Peter Parley, where he learned the art of drawing thoroughly, which stood him in such stead in his later career.

While with Parley, who, it may be remembered, was the wood engraver who illustrated so many of the school books of a century ago, the boy experimented with colors, and when not at work at his engraving was experimenting constantly with colors, with the result that he attracted the attention of Isaac Rich, a wealthy merchant of that day, who one day asked him banteringly how much he wanted to go to Europe.

"One hundred dollars!" he replied enthusiastically, displaying a wonderful ignorance of the world.

But Mr. Rich advanced him the hundred dollars, and the boy began making preparations to go.

It was about this time that the two boys began to see the world opening its doors to them, and in honor of this event, young Brown invested a dollar or two in beer and something eatable "on the side"—the beer portion of the menu being considered as something almost criminal in Boston in those days—and the boys made a night of it in honor of their early departure for Europe, and the taking up of their life work in earnest. The beer had a good deal of "head" on it, and it gave a good deal of "head" to the boys, with the result that the two future great artists soon began to imagine themselves great already, and boasted of what they would do.

"I will paint pictures of Italian scenery," declared Brown, "and have my pictures in all the castles of Europe."

"And I," said Healy, "will paint the kings and other notables of Europe, and have them in the castles side by side with yours."

I did not know Mr. Healy personally, but was acquainted intimately with Mr. Brown for many years, and have heard him many times tell how he finally got away to Europe. He went down to the wharves, and inquired around until he found a vessel that was ready to sail for Europe. He did not stop to ask what part of Europe, thinking that once the other side of the water he would find everything easy. A married sister gave him a mattress, and he marched down State street to Long Wharf with the mattress on his back, having taken stateroom passage. He found, after the boat set sail, that her destination was Antwerp, almost as far from Italy as Boston itself. "When he landed there he had twenty-five dollars left. But he had made a friend of the captain of the vessel, who lent him fifteen more, and with this amount he managed to get to London, where he was befriended by Mr. Cheney, the American engraver, and he began at once his studies of Italian landscape, living almost on the verge of starvation for nearly a year, at the end of which time he sent a picture home to Mr. Rich, who sent him more money, and he continued his studies.

As an evidence of his conscientiousness in

VIEW IN VENICE, PAINTED FOR ALVIN ADAMS

study, it may be mentioned that he had secured a fine study of atmosphere by Claude Lorraine, but he never reached his ideal in his work over it, and finally, in a fit of desperation, he slashed his copy into four pieces with his razor, and threw the pieces in the bottom of his trunk, where they remained for two or three years, only to be resurrected finally at the urgent solicitation of Mr. Rich, who begged him to mount the pieces on a fresh piece of canvas, and who liked it so well that he paid him a handsome sum for it. This copy really started him on his journey toward artistic eminence in America. Meantime he continued his work, mostly in Rome, where Hawthorne met and was attracted to him, making mention of him in "The Marble Faun," and he was a noted and welcome figure in the American colony, the Brownings making much of him. He soon had pictures in several of the castles in Italy, and here and there one in other countries, there being a poetical dreaminess about his atmospheric effects that appealed to the cultured taste.

He came home in 1860, and took a studio for a time in New York, where he painted a view of Mount Washington, which he called "The Crown of New England," and which a number of New York gentlemen, among whom was Henry Ward Beecher, purchased and presented to the prince of Wales, afterward Edward VII, who was on a tour of this country at that time. The painting pleased the prince so greatly that he ordered a companion picture, "The Bay of New York," both of which he had sent home to him, and they were hung in Windsor castle, at that time being the only American pictures so honored.

So much for one of the boasters. Mr. Healy first went to London, but did not remain there long, the French capital appealing to him more strongly. The American minister, Hon. Lewis Cass, interested himself in the young artist, and induced the French king, Louis Philippe, to give him sittings, the portrait pleasing sioned him to visit Windsor castle, to copy some of the French monarch so much that he committed the paintings there, and later sent him home to America to paint some of the American statesmen for the Versailles gallery. But the revolution of 1848 put an end to this royal patronage. A famous painting of his later was "Franklin Urging the Claims of the American Colonies Before Louis XVI," which was shown at the Paris International Exhibition of 1855. He came home that year, and in Boston exhibited the great historical picture of "Webster's Reply to Hayne," which contains a hundred and thirty portraits, and which has hung in Faneuil hall ever since. This painting and other works attracted the attention of William B. Ogden, who has been called the "father of Chicago." He induced the artist to remove to Chicago, where he remained till 1867, when he returned to Rome, and afterward to Paris. He had portraits of M. Thiers, the princes of Roumania, Lord Lyons and Hon. E. B. Washburne in the Philadelphia Centennial Exhibition of 1876, and of General Grant in the Paris Salon of 1878. He painted portraits of a number of distinguished Americans, including Andrew Jackson, Henry Clay, John C. Calhoun, John Quincy Adams, Generals Sherman and Mc-

G.P.A. HEALY

Clellan, Admiral Porter, William H. Seward, President Pierce, Henry Wadsworth Longfellow, Stephen A. Douglas, Archbishop McClosky, not forgetting the famous one of President Lincoln.

So much for the other boaster. Many of these portraits were shown at the Chicago Art Institute exhibition, having been loaned by their owners, notably the Queen Elizabeth of Roumania, the Lincoln, the Grant, the Clay, the Calhoun, and others. While his vigorous handling and strong effects made him particularly successful with public men, he yet had equal success with the feminine character, as may be noted in the Queen of Roumania and other noted women; and one of the most remarkable pictures of the late exhibition is that of a "Girl With Pitcher," which was painted at one sitting, at the studio of Baron Gros, in Paris, in 1835, when he was but twenty-two years of age, the color being marvelous, something like an echo, it might be said, of Thomas Couture, then also a young man, but afterward a famous one.

The portrait of Franz Liszt, sitting at the piano, with a rapt musical expression, is the Liszt that the world knows—the musical and general world; the "Liszt Holding a Candle" betrays a rapt religious expression, quite another expression, such as this wonderful artist could discern and depict; the painting showed the great musical genius during his temporary religious madness, so to speak, when it will be remembered he renounced the world, and declared he would end his days in a monkish institution, which of course he did not do, but came forth again the musician par excellence.

The romance of the two artists is really quite a remarkable one, and the paintings they have produced illustrate most grandly the lives of two earnest boys who were inspired by the high motives that urged each to a most honorable career, and "made the dreams come true" that were born of the boyish boastings.

## NAPOLÉON AND LETTER "M"

Both Napoleon I and Napoleon III attached a most superstitious importance to the letter "M." Marbois was the first to call attention to the genius of the young Bonaparte at the military college. Marengo was Napoleon's first great victory. Melas was the name of the general whom he superseded in the command of the French army in Italy.

Mortier was one of his best generals. It was Moreau who betrayed him. Murat, King of Naples, was the first martyr to his cause. Marie Louise shared the culminating point of his success. Moscow was the scene of his greatest disaster, and it was Metternich who defeated him in the field of diplomacy.

No fewer than six of his field marshals and twenty-six of his best generals had names beginning with "M," and Maret, Duke of Bassano, was his most trusted confidant. His very first battle was that of Moultonne, and his last that of Mont Saint Jean, subsequently and more universally known as Waterloo.

Among his victories were those of Millesimo, Mondori, Montmirail, Montereau and Montmartre. His first chamberlain was M. de Montesquieu. His last residence in France was at Malmaison. He surrendered himself to Captain Maitland, of his British majesty's ship Bellerophon, and his attendants at St. Helena were Montholon and Marchand.

The superstition attached by Napoleon III to the same letter may be accounted for by the fact that his wife was a Countess of Montijo, that his most intimate friend was the Duke of Morny, and his most dreaded enemy Mazzini. The most

glorious feats of arms by the French army during his reign were the capture of the Malakoff and the grim Mamelon during the Crimean war. His most famous field marshals were MacMahon, Duke of Magenta, and the Duke of Malakoff.

The great victory of Solferino, in 1859, took place on the banks of the Mincio, and the cities of Mantua and Milan played an important role during the campaign. The Mexican war and the execution of the Emperor Maximilian caused his power to wane perceptibly; Malmesbury was the name of his most intimate friend in English political life. Sedan, which witnessed his fall, is on the banks of the Meuse. The surrender of Metz rendered his restoration to power impossible, and Moltke was the name of the man to whose genius he chiefly owed his defeat.

### Truthful Friends.

"That horrid old cat," said Maudie, "told Claude that I was forty!"  
"The mean thing!" agreed Mamie.  
"Ain't she the limit?"  
"She sure is—but she might have done worse."  
"How?"  
"Well, she might have thought up some lie about you."—Cleveland Plain Dealer.

### Not Up to Standard.

Rev. Mr. Thirdly—Now, re-regarding the milk you deliver at my house.  
Grocer—Yes, sir.  
Rev. Mr. Thirdly—I—er—merely wish to remind you of the fact that I use it for drinking not for christening!—Judge

## FARM OF FORTY ACRES

Equipment, Management and Income of Small Place.

Convenient Scheme for Dividing Land into Five-Acre Tracts—One of These Utilized for Home-Steak and Garden.

(By W. J. SPILLMAN, Chief of United States Bureau of Farm Management.)

Mr. H. H. Mowry of the office of farm management, has been making a special study of the equipment, management and income of a large number of small fruit and truck farms, many of them run by people who have recently come from the city.

This study has given us somewhat a new point of view. In general these small farmers are not successful. This fact has led us to study the question more closely, and as a result a scheme for the management of a forty-acre farm is outlined below, which seems to be practicable.

Figure 1 shows a convenient scheme for subdividing forty acres to fit it for the cropping system to be outlined below. It will be observed that the forty acres are divided into eight five-acre tracts. One of these is set aside for what may be called the "home-STEAD." These five acres are at the

center on one side, and it is supposed that a public road passes this side of the tract.

Of these five acres half an acre is utilized for the house and yard and the barn and barn lot. This space is ample for what we have in view. One-half acre is devoted to garden, one and one-half acres to orchard and the remaining two acres for a paddock into which to turn the stock for exercise.

By judicious management these two acres can also be made to furnish some pasture and some soiling crops. The other seven five-acre tracts are to be devoted to a seven-year rotation. When this rotation is in full swing the crops on the farm for a given year will be as follows: Field A, potatoes; field B, three acres of cabbage and two acres of onions; field C, corn; field D, cowpeas; field E, corn; field F, clover; field G, clover.

The next year each of these crops would move to another field as follows: The potatoes would go to field G, which was in clover the year before. The cabbage and onions next year would go to field B. The corn on field C would go the next year to field B. Cowpeas in field D would go the next year to field C. The corn in field E would go to D, while E would be sown in clover and F remain in clover.

The next year each crop would move to another field in the same manner, so that each year potatoes are sown after second year clover, cabbage and onions are planted after potatoes, etc.

The potatoes, cabbage and onions on this farm would form the market crops. The two fields of corn, the field of cowpeas and the first year's seeding of clover would furnish twenty acres of forage for the live stock, while the second year clover would furnish pasture for the live stock during the summer.

In each of the two corn fields some winter grain, such as wheat or rye, could be sown early in August at the time when the corn is laid by, that is, when cultivation of the corn ceases. This wheat would furnish fall and winter pasture for the live stock.

In the corn field which is to be followed by clover the wheat would be turned under very early in the spring in preparation for sowing the clover. In the corn field which is to be followed by cowpeas the wheat could remain until the second year clover field is ready to turn stock on, at which time it might be plowed up and sown to cowpeas. We thus have pasture during the whole year in sections where the seasons permit winter pasturing.

In states that are too far north for the cowpeas, soy beans may be substituted for them, and in regions too far north for soy beans, oats can be used on this field, the other crops in the rotation remaining the same. Commercial fertilizers would be required for the potatoes, cabbage and onions.

There is plenty of good literature published by the department of agriculture and by a good many of the state experiment stations relative to the cultivation and fertilization of potatoes, cabbage and onions, and the reader is referred to this literature for further information concerning the growing of these crops.

One fact to which I would call attention is that in the marketing of potatoes, cabbage and onions it is not necessary for the farmer to run to market every day for several weeks, as would be the case with most other kinds of truck crops, especially strawberries and tomatoes.

## KEEPING BROOD SOW HEALTHY

Preferable to Keep Animal as Near Grass or Vegetable Diet as Possible—Roots Urged.

(By R. G. WEATHERSTONE.)  
Grass and vegetable matter are the most natural foods for pigs, although they will eat and can digest a great variety of things. The nearer a sow can be kept to a grass or vegetable diet the healthier she will be, and this system is preferable to dry, rich foods consisting mainly of grain, barley or other meals.

Bran is most useful when grass is not available, but where it is not possible to give sows a grass run, lucerne, tares and other green forage crops can sometimes be substituted.

Roots, except that mangels must not be given at all freely as farrowing approaches or the pigs are almost certain to be born dead, are useful and where there is a large garden it will provide a great deal of vegetable stuff that can be advantageously employed for in-pig sows—stuff, too, that would be otherwise wasted. Large quantities of dry grain, and especially corn and barley, must be avoided as too heating; and hotel waste, butcher's offal, slaughter-house refuse—indeed animal matter in any form—are also bad, and may, it is said, be an exciting cause of cannibalism.

When at grass or getting green forage or garden stuff, a few old beans or some dry corn may be given once or twice a week.

The food for the in-pig sow for the last week or so of her time should be as nearly as possible that on which she will be fed for three or four weeks after she is farrowed. A well-known breeder says:

"We have ceased to give barley or other meal to our sucking sows until the pigs are at least a month old. Our newly farrowed sows are fed sharps, or what is locally termed thirds, middlings, etc., and a varying amount of bran, determined by the richness of the sharps, the number of the litter and the age of the sow, also condition." His recommendation for feeding the in-pig sow is: "Vegetable food, with a little dry grass, beans, peas or corn until within a week of farrowing."

## PROTECTS BUDS FROM FROST

Colorado Man Conceives Idea of Placing Electric Motor in Tree to Cause Vibration.

A recent invention relates to a new system of motor operated tree vibration for saving buds and blossoms from frost.

The new system aims to create in fruit trees a movement of the sap to the buds and blossoms that tends to vitalize them enough to resist the attacking blight of frost. This movement of the sap might be called a capillary action, and can be likened to the gentle exercising action of an electric vibrator instrument on the

Tree Vibratory in Place.

human system, which stimulates the flowing action of the blood through the veins, especially at the point where the vibrator is applied.

The system of imparting this vibratory action to buds and blossoms has been worked out and patented by Herman L. Darling of Delta, Colo. It comprises the installation in the tree of a small electric motor having a trembling rotary motion and connected by transmitting wires to an electric current.

During the months of April and May when the orchard is subjected to sudden frozes, by means of this system, a vibratory trembling motion is imparted to all limbs of the tree, transmitted to twigs and buds and this motion starts the sap to circulating, invigorates the buds and strengthens them against the killing effects of the frost.

### Unfavorable Soils.

Clay soils are unfavorable to vegetation because the soil is too close and adhesive to allow the free passage of air or water to the roots of the plants. It also obstructs the expansion of the fibers of the roots. Sandy soils are unfavorable because they consist of particles that have too little adhesion to each other. They do not retain sufficient moisture for the nourishment of the plants. They allow too much solar heat to pass to the roots. Chalk soils are unfavorable because they do not absorb the solar heat, and are, therefore, cold to the roots of the plants.

### Draft Horses Scarce.

A. B. Alford, a transfer man of Philadelphia, states that while statistics show a larger number of horses in the United States than ever before, it is harder to get hold of a good draft animal at a fair price than it was fifteen years ago when he could buy all he wanted for from \$100 to \$125 and today he cannot get horses of the same kind for \$200 or \$250.

## UPPER PENINSULA HAPPENINGS

**Crystal Falls.**—A fire that may last ten years has broken out in the Bristol mine. It is known as a "rockpile" fire and is not uncommon in iron mining regions, and is not unusually of much concern to mining companies. But the fumes may draw into the shaft by the "drown draft" if the fire burns long enough and if this results the mine, which yields heavily, would have to be closed. It is owned by the steel corporation. "Rockpile" fires are caused by the sulphur that is contained in the ore bearing rock. It is not unusual for such fires to burn ten years.

**Menominee.**—John Pierson, Jr., 19 years old, was killed at Palestine, Menominee county, when a limb of a tree fell on him, fracturing his skull.

**Iron Mountain.**—E. P. Jennings, a former well known resident of Iron Mountain, employed as mining engineer and chemist at the Hamilton mine, has been elected president of the Utah Metals company. Mr. Jennings located the ore body for Utah Consolidated which made it the cheapest copper produced in the country.

**Menominee.**—Oscar Misslitz, 76 years old, builder of the first hard road in Menominee county, is dead of heart trouble. He had lived in Menominee since 1856 and was overseer of highways in the early seventies.

**Calumet.**—Members of the First Presbyterian church of Calumet are making the preliminary arrangements for the entertainment on April 11, 12 and 13 of the annual meeting of the Lake Superior Presbytery and the annual meeting of the Women's Missionary society, which is always held in connection with the Presbytery meeting.

**Menominee.**—John W. Anderson is the first accident victim in Menominee county to receive settlement under the new workmen's compensation act. Anderson received \$175 for loss of tips of two fingers.

**Negaunee.**—The local council of the Sons of St. George received a telegram announcing the death of John H. Davey, 64 years old, formerly of this city, at the home of his son, Fred Davey, in Seattle, Wash.

**Republic.**—In a wreck on the Milwaukee road near here, Melcher E. Bloomer, conductor, of Green Bay, was killed, and John Gallagher, brakeman, and Curtis Schroeder, flagman, were slightly injured. Passengers escaped injury. The train ran off the track and over an embankment.

**Menominee.**—A party of ten young women students returning home from a social function at the Menominee County Agricultural school were overcome by a blizzard and spent the night at Menominee police station.

**Calumet.**—Arthur Pascoe, aged 24, was crushed and killed on the Mineral Range railroad. Exactly a year previous he met with an accident, barely escaping death.

**Menominee.**—During the severe blizzard fire broke out in the John W. Wells Lumber company's mill and the firemen were obliged to battle for three hours with the elements in extinguishing the blaze. The high wind forced sparks from the fire box, causing a blaze in the fireproof mill. The damage will amount to about \$2,000.

**Menominee.**—Members of the Menominee basketball team, which had started across the bay in the iceboat, were rescued after they had wandered during a raging blizzard for more than nine hours. Several of them were suffering from exposure, but none was in a serious condition. The iceboat was fifteen miles from Sturgeon Bay when the crew announced it would be impossible to make further headway against the storm and the passengers would have to alight. The basketball party proceeded in the supposed direction of Sturgeon Bay. For several hours the party walked before it became apparent they were traveling in a circle. When a rescue party, which had been formed when the team failed to arrive in Sturgeon Bay, found the players they were still several miles from the port. They walked to shelter.

### Wake Up, Nick.

Nicola Naumoff, the Russian, who has just reached the age of 21, having murdered an insured fiancée for a seductive countess in romantic Venice, has, in his confession, related how this notorious dame had a little way of extinguishing her cigarettes on his bare flesh—just to see him wince, as she loved him best when he suffered.

### Not Profanity.

The word "dam" is the name of a small coin used in India and of very small value, and is also the name given by tinkers to a small wad of paper put into a hole in tinware when mending it for the purpose of preventing the solder from running through. Both mean of little value, so the expression really means "I don't care the value of a dam."

## SOME ODD "LUCKY BONES"

Rheumatism, tradition says, can be cured by carrying in the pocket the bone of the haddock that lies under the marks of Christ's fingers—the two round black marks on each side of the body supposed to have been caused by our Lord's fingers when he lifted the fish out of the water in order to take the tribute money from its mouth. This bone has many other virtues, and always works good to its owner; but it must not be exhibited, and it should never be lent or touched, or ever seen by any after the possessor gets it. The Indians of Labrador believe that they can cure toothache by wearing a haddock's bone around the neck while Lord Bacon says that "wearing on the finger rings of seahorse teeth" will cure cramp.

It was at one time the custom of the inhabitants of Asiatic Turkey to collect crayfish at the time of the year when they were in the best condition, and place them in large pits in the ground. Here they were broken up and allowed to remain all winter. In the spring the owners would return, wash out the remnants of the crayfish in water, and sift out the stones with a special sieve. The stones afterward were sold in all apothecary shops throughout Russia, while great quantities were exported. They were supposed to furnish immunity against certain abdominal diseases.

Our forefathers thought that when the crab grew old two stones of a white color mixed with red were found in its head, and these were said to be of such virtue that given in drink they healed punctures of the heart. They also believed that if a water snake "be tied by the tail with a cord and hanging up, and a vessel full of water set under the said snake, after a certain time, he will void out of his mouth a stone, which stone being taken out of the vessel, he drinks up all the water. Let this stone be tied to the belly of them that have the dropsy and the water will be exhausted or drunk up, and it fully and wholly helps the party that hath the said dropsy."

The head of a perch contains a flat stone, according to many, known as the lucky stone. This stone is a charm to bring good luck if carried on the person. It is lucky to find one, but it is doubly lucky if you find one you have lost yourself. In Japan this fish, which is there called "tal," is not only prized as the most delicate of Japanese fish, but also held to be an emblem of good fortune. It is a ceremonial gift at weddings on this account, and is served up as the principal dish at every farewell meal.

"Carry a lucky bone, and nothing will harm you," is a common saying in New England. This is a bone from the head of a codfish. It is shell-like and narrow, with a length of three-quarters of an inch. The edge is notched, and the color is a pearly white. If two bones are carried, it is supposed to make one's luck doubly sure. They should be both from the same fish.

## GREATEST DAM IN GERMANY

The greatest dam ever constructed in Germany is at Mauer, near Hirschberg, in Silesia and was inaugurated recently by the kaiser. The foundation was laid eight years ago. The dam will prevent the disastrous flooding of the surrounding country.

## BURNING TWELVE CENTURIES

The ancient sacred fires have not all been extinguished. One still exists which was consecrated twelve centuries ago in commemoration of the voyage made by the Parsees when they emigrated from Persia to India. The fire is fed five times every twenty-four hours with sandalwood and other fragrant materials combined with dry fuel. This fire, in the village of Oodwada, near Bulsar, is visited by Parsees in large numbers during the months allotted to the presiding genius of fire.

## HORSE ROUTS COYOTES

But for his horse, J. H. Ellis of Kansas would have been eaten by coyotes. While driving a herd of cattle he sighted coyotes and gave chase. The horse stumbled, wrenching a leg. Ellis was thrown on his head and rendered unconscious. The coyotes then formed a circle around the helpless man, awaiting a chance to begin the feast. The horse, on three legs, hobbled round and round her master, holding the coyotes at bay until the situation was noticed by passers-by and the rider and steed rescued.

## Beard of Live Stinging Bees

Bees, before swarming, fill their honey sacks with honey so that they may not go hungry before having time to establish themselves in their new home. After having thus enjoyed a square meal, like human beings, they are good-natured. So in the picture the bees were taken when in the act of swarming. The queen was put into a small cage and suspended by a string from the man's chin. Bees always cluster with their queen, so they formed a good-sized beard. A sudden shake of the head and they were dropped in front of a hive and their queen allowed to go in with them, thus forming a new colony.

## WHAT YOUR NAILS REVEAL BOYS' REAL FOE DISCOVERED

It is always amusing to speculate on the character of one's neighbor. A very simple aid in so doing is to watch the nails. If a man or woman's nails are long and slender you may be quite certain the person is not so robust physically as the possessor of short, broad nails.

Whereas men and women with the long, or narrow type of nail are inveterate visionaries, those having short nails are almost always conspicuous by the strength of their logical powers. It is the latter who make the best and most reliable critics.

A further and almost certain characteristic of long-nailed people is their intense depreciation of themselves and their own efforts in any branch of work. The feeling almost amounts to pessimism with them. Such a point of view, however, seldom worries those possessing short nails—in fact, more often than not rather the reverse is the case; they are inclined to be over-estimates of themselves.

Among the queer trades of London, to be discovered in the new issue of Kelley's London directory, is one which has a deep personal interest for the youth of all nations. The birch rod maker has advertised his abode. In a large building in Red Lion square, Holborn, which has the appearance of a private dwelling rather than the fount of juvenile chastisement, orders are executed for hundreds of thousands of birch rods guaranteed to give entire satisfaction to the schoolmaster.

During the year birch rods are despatched to all corners of the earth, and their sterling qualities are felt in all countries. Though the industry thrives ominously, there is some consolation for the schoolboy in the fact that there is no sign of a birch rod "boom." The manufacturers have observed a conservative policy, and the old style of a thin handle and a set number of birch twigs bunched at the end has survived.

## Wierd Funeral of a Ruler

When Prince Luitpold, the late regent of Bavaria, was buried, persons who were in Munich had a chance to witness some quaint funeral customs. There was a two-hours' procession through the city, the route being marked by Venetian masts bearing black flags and even the advertisement pillars being covered with black paper. The most picturesque episode is here illustrated. It is the long line of gulegmanner or cowled men. This is an ancient order of churchmen who carried shields decorated with the Bavarian arms, each bearing the statement that Prince Luitpold was born at Wurzburg and died in Munich. For many centuries the gulegmanner have appeared in funeral processions of royal personages and carried the remains into the church.

The average man has a lot more to say about what he is going to do than about what he has done.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

### Its Kind.

"Is this a tentative arrangement?" "Nothin' like that. It's jest to try it out fer awhile."

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Peppets. Tiny sugar-coated granules. Adv.

### His Limit.

Bridegroom—My darling, I feel now I will be the better man.

Bride—But you can't be the best man.

## HANDS CRACKED AND BLED

St. Clair, Mo.—"My trouble began about fifteen years ago. It was what some claimed eczema. The form the disease worked under was a breaking out with watery blisters on my hands which would then dry and scale, and then would follow the trouble of cracking and bleeding, also itching and hurting. My hands were disfigured at the time, and sore. The trouble was very annoying, and disturbed my sleep. This last February it was ever so much worse than before. I did not do all my work on account of the condition of my hands. I could not put them in water without making them worse. I tried a lot of home remedies, also salves and liniments that claimed to be a cure for the trouble, but I did not obtain a cure.

"At last I saw the advertisement for Cuticura Soap and Ointment. I sent for a sample. I thought they would cure, so I sent for a fifty-cent box of Cuticura Soap and some Cuticura Soap. A doctor advised me to keep ahead with the Cuticura Soap and Ointment and they cured me completely. No trace of the trouble remains." (Signed) Mrs. Mary Taylor, Mar. 29, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

### Plants Need Nourishment.

A German investigator has discovered that plants resist cold best when they are given special nourishment to keep them warm. For instance, to feed a plant sugar stimulates its power of resisting low temperature, much as like food acts upon animals, though in less marked degree.

### Awful Blow.

"Yes," said Slithers, "Mickey was my dearest friend, and I shall never cease to mourn his death. It was a terrible blow from which I shall never recover."

"Why—I thought you married his widow?" said Jimson.

"Why—er—ahem!—why, yes, I did; but—"

Here Slithers subsided into a deep and uncomfortable silence.—Harper's Weekly.

### Dangerous Talk.

"Mother, I wish you wouldn't mention dishwashing when George is calling on me!"

"Why not, indeed?"

"I don't like it. It sounds common."

"Common, eh? We have to eat, don't we?"

"Of course."

"And George knows we eat and use dishes?"

"That's very true."

"And George also knows that dishes have to be washed, therefore somebody has to wash them?"

"But, mother—"

"What now?"

"If you keep on talking about it George may discover that you make father wash them, and he may think the same thing is coming to him if he should propose to me."—Detroit Free Press.

## GOOD NATURED AGAIN Good Humor Returns With Change to Proper Food.

"For many years I was a constant sufferer from indigestion and nervousness, amounting almost to prostration," writes a Montana man.

"My blood was impoverished, the vision was blurred and weak, with moving spots before my eyes. This was a steady daily condition. I grew ill-tempered, and eventually got so nervous I could not keep my books posted, nor handle accounts satisfactorily. I can't describe my sufferings.

"Nothing I ate agreed with me, till one day I happened to notice Grape-Nuts in a grocery store, and bought a package out of curiosity to know what it was.

"I liked the food from the very first, eating it with cream, and now I buy it by the case and use it daily. I soon found that Grape-Nuts food was supplying brain and nerve force as nothing in the drug line ever had done or could do.

"It wasn't long before I was restored to health, comfort and happiness.

"Through the use of Grape-Nuts food my digestion has been restored, my nerves are steady once more, my eyesight is good again, my mental faculties are clear and acute, and I have become so good-natured that my friends are truly astonished at the change. I feel younger and better than I have for 20 years. No amount of money would induce me to surrender what I have gained through the use of Grape-Nuts food." Name given by Postum Co., Battle Creek, Mich. "There's a reason." Read the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. Adv.

## HUSBAND TIRED OF SEEING HER SUFFER

Procured Lydia E. Pinkham's Vegetable Compound, which made His Wife a Well Woman.

Middletown, Pa.—"I had headache, backache and such awful bearing down pains that I could not be on my feet at times and I had organic inflammation so badly that I was not able to do my work. I could not get a good meal for my husband and one child. My neighbors said they thought my suffering was terrible.

"My husband got tired of seeing me suffer and one night went to the drug store and got me a bottle of Lydia E. Pinkham's Vegetable Compound and told me I must take it. I can't tell you all I suffered and I can't tell you all that your medicine has done for me. I was greatly benefited from the first and it has made me a well woman. I can do all my housework and even helped some of my friends as well. I think it is a wonderful help to all suffering women. I have got several to take it after seeing what it has done for me."—Mrs. EMMA ESPENSHADE, 219 East Main St., Middletown, Pa.

The Pinkham record is a proud and honorable one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Cough, Cold Sore Throat

Sloan's Liniment gives quick relief for cough, cold, hoarseness, sore throat, croup, asthma, hay fever and bronchitis.

### HERE'S PROOF.

Mr. ALBERT W. PRICE, of Fredonia, Kan., writes: "We use Sloan's Liniment in the family and find it an excellent relief for colds and hay fever attacks. It stops coughing and sneezing almost instantly."

## SLOAN'S LINIMENT

RELIEVED SORE THROAT. Mrs. L. BREWER, of Moline, Ill., writes: "I bought one bottle of your Liniment and it did me all the good in the world. My throat was very sore, and it cured me of my trouble."

GOOD FOR COLD AND CROUP. Mr. W. H. STRANGE, 3721 Elmwood Avenue, Chicago, Ill., writes: "A little boy next door had croup. I gave the mother Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning."

Price, 25c., 50c., \$1.00

Sloan's Treatise on the Horse Sufferer. Address Dr. Earl S. Sloan, Boston, Mass.

## Constipation Vanishes Forever

Prompt Relief—Permanent Cure

CARTER'S LITTLE LIVER PILLS never fail. Purely vegetable—act surely but gently on the liver.

Stop after dinner distress—cure indigestion, improve the complexion, brighten the eyes. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature

**FRIVOLITIES**

**CHILD'S 'PARTY FROCK'**

SIMPLE COSTUME, YET ONE THAT IS MOST EFFECTIVE.

White Accordion Plaited Chiffon. With Flowered Border, is the Best to Use—May Quite Easily Be Made at Home.

A simple design for a little girl's "party frock" is here sketched. It is of white accordion plaited chiffon with a blurred flower border done in pastel shades, and is worn over a slip of white China silk or messaline. Bordered and plain accordion plaited chiffons in all colors can be had by the yard, and they are soft and pretty for a little frock of this order.

There is really not much to be said in the way of description about this little frock, for you may see by the sketch just how easily it is made. It is long-waisted, cut with short kimono sleeves and a square neck. The brief skirt is attached to the waist with slight gathers, and has the flower border running around the hem. A soft sash of azure blue messaline is run

Simple Design for a Little Girl's Party Frock.

**PRETTY TAILOR MADE**

A tailor made suit of navy blue broadcloth with plain, gored skirt. The semi-fitted jacket has a collar of white broadcloth.

design running through the same border a strip of it may be cut out and stitched as a finish to the square neck, or, better still, set on with French knots.

**Waist Styles.**

Chiffon waists are still in strong demand, says the Dry Goods Economist, especially the models combined with handsome white laces. The touch of color corresponding to the tone of the suit is supplied by the chiffon, while the lace gives a dressy finish to a model which otherwise might be too dark in color or simple in design. Many beautiful prints were shown among the novelties, some of which are the chiffon, radium and crepe de chine showing oriental patterns and coloring. The color scheme of the waist is carried out in profusion on the sleeves, as well as the front and back sections.

**Early Victoria Sleeves.**

The Victorian influence is everywhere, and a pretty novelty is the early Victorian sleeve, open almost the whole length of the outside seam, to let in a wide, soft frill of lace or chiffon. The frill is continued round the wide cuffs, falling in billow folds over the wrists and hands.

**HAS NOT YET WON POSITION**

Flowing Collar, Extremely Popular in Paris, Fails to Make Much Headway in This Country.

The Richelieu, the Titian and the Van Dyke are the three flowing collars which expose the neck or turn away from the stock of wash tulle. The Richelieu is one of the Paris fantasies, but it has not proved popular in America, although it is exceedingly pretty. It is made of accordion pleated tulle, finished with a tiny edge of cluny and basted into a round neck. It goes around the shoulders in an even line, reaching nearly to the armholes. When it is worn without a high stock it is trying, but when it is merely an accessory to the stock it is very attractive.

The Van Dyke is another form of the same kind of collar cut in points. It will be worn in embroidered linen as well as in tulle and chiffon cloth. The linen ones are quite Quakerish in their effect and do not exactly fit in with the soft slickness of the clothes of the day, but possibly this style will have its followers by reason of this striking contrast.

As to the Roberpierre no one could add to its popularity by a word of praise or explanation. There have been few trifling fashions that have had its success. It came at a time when the entire world wanted a new collar and it was so cleverly adjusted to every need and turned out in such vast quantities all over the land that it was easy for every woman to adopt it in some make-up before it was a month old.

The news comes from Paris that smart women are discarding frills and jabots and all manner of accessories that stand out or bulge from a plain surface. The American women have been dropping the frills and cascades for a month or two, and it is probable that the early spring will see the plain, flat, sheer blouse the ruler of all others. This does not mean the return of the mannish shirt waists absolutely. One may get her effect from any combination of color or fabrics, such as putting satin against satin in two or three tones, but one will not pin on a cascade of lace or embroidery to cover up the front of the blouse.

**Spring Novelties in Shoes.**

The cost of leather has gone up to such an extent that the boot and shoe manufacturers, in preparing their footwear fashions for the spring, are pressing all kinds of materials into service to take the place of the glaces, patent leathers and suedes which have hitherto had first place on the list. So much is this the case that the majority of the new fashions are being developed in velvets, satins and silks, and even brocades, specially prepared to withstand the weather when worn in the street.

The present mode of the black velvet shoe has not been quite so successful as the manufacturers anticipated, but a new treatment has been experimented on with success in Paris, and when applied to the materials used for spring footwear the shoes in black will not have that gray, dusty look which has hitherto been a drawback.

**MORE ATLANTIC LINERS REQUIRED**

CONGESTION ON EXISTING STEAMSHIPS ON ACCOUNT OF CANADIAN IMMIGRATION.

It is reported that eight new Trans-Atlantic liners are under construction for the exclusive use of the Canadian Trade. These are being built by the White Star, Canadian Pacific and Cunard Companies.

The liners to be built for the White Star are to be of the same type as the Laurentic and Majestic, and will replace the Canada and Teutonic. The Cunard Line's new steamer, Ascania, has already completed successfully her maiden voyage from England to Montreal, and her sister ship will be launched early next year.

It is predicted that the Canadian Northern will not be slow in following the example of the other big concerns, as it is a matter of common belief that Canada, more than any other in the world, will be the country of the future, and the best field for investment by shipping interests.

An official of one of the companies already building steamers for this trade told the American yesterday that the ideal steamer for this service is the two-cabin boat, having accommodation for second-class and steerage passengers only.

"We do not expect that the \$5,000 cabin de luxe class will travel between Canada and England very extensively," he said, "but the business that is to be obtained there will be immensely lucrative, and for the next ten years the eyes of the shipping world will be riveted on Canada. The Panama Canal, undoubtedly will receive a lot of attention, but the business in that route will be nothing compared with the Canadian trade for the immediate future. Panama will develop and become bigger in the years to come, but at the present we are most concerned with the tremendous tide of immigration that is being diverted from the United States to the Dominion."

"The farm land of the vast North West is the attraction, and while this flood of immigration is at its height, the Canadian Government exercises a strict censorship over the class of immigrants admitted. In this way they are drawing their future citizens from the Northern countries and have shown an unwelcome face to the people of Southern Europe."—Advertisement.

**When the Sun Will Die.**

It may be said unqualifiedly that the sun, like every other thing connected with the present order, will finally cease to be what it is today. The time will most surely come when the sun will have ceased to throw off light and heat. Long before that happens, however, the earth and other planets will have become "dead worlds," like the moon—no life of any sort upon them. It has been calculated that the sun will cease to throw out its heat somewhere about seven million of years from now.

**CHICAGO FLEXIBLE SHAFT CO.**  
Wells and Ohio Sts. CHICAGO, ILL.  
Write for complete new catalogue showing world's largest and most modern line of horse clipping and sheep shearing machines, mailed free on request.

**Don't Let Catarrh Get the Best of You**

If you have catarrh and are neglecting it—you are doing a great wrong to yourself. In time it will undermine your whole constitution. You cannot begin too soon the work of shaking it off. Doesn't require any great effort. Begin today.

"I Feel Like a New Woman"  
Mrs. BENN BLAKE, of Port Dover, Ont., Box 30, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female troubles, bloating, constipation and nervousness. My life would be in bed, then able to be up again. Was under many different doctors' care, and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Advisor of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken the 'Golden Medical Discovery' and 'Pleasant Pellets' and have used five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

**Dr. Pierce's Golden Medical Discovery**

has a curative effect upon all mucous surfaces, and hence removes catarrh. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy while using the "Discovery" as a constitutional remedy.

Why the "Golden Medical Discovery" eradicates catarrhal affections, of the stomach, bowels, bladder and other pelvic organs, will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities endorsing its ingredients and explaining their curative properties. It is mailed free on request.

"The 'Discovery' has been put up and sold in its liquid form for over 40 years and has given great satisfaction. Now it can be obtained of medicine dealers in tablet form as well. A trial box sent prepaid for 50 one-cent stamps. Address Dr. Pierce's Invalids Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels. Assist nature a little, now and then, with a searching and cleansing, yet gentle cathartic, and thereby avoid many diseases.

## ABOUT PEOPLE

Fred Kelsey, Gladstone's flonist, this week is shipping a considerable quantity of ashes to Chicago. For many years he extracted the potash from them by leaching; but the greenhouse trade employs the dry ashes, which are only to be had in quantity around sawmills and refuse burners nowadays. Mr. Kelsey handles the output of the Coopers Co., and is building up quite a trade. It is his purpose next summer also to enlarge his greenhouse to a length of a hundred feet. At present he has to import quite a quantity of flowers.

Have you a prescription to be filled? You may entrust it to us with the assurance that it will be carefully and accurately compounded with the best drugs and chemicals.

**ERICKSON & VON TELL**  
Richard Archer, whom old residents of this city will remember, passed through here Monday on his way to Grand Rapids and Detroit, after a month's trip from the Pacific coast. Mr. Archer has been for some years a resident of Seattle, having gone in with the boom, and is well pleased with his surroundings. He was surprised to note the growth of Gladstone. "Were I established here now, as I was when I left, I would sooner stay here than go west," he said. He may return this way after a few days.

Daniel McGuinn, who had made his home here for many years, died suddenly at his home Friday evening, having been in apparent good health until a few minutes before. His age was fifty-three and he was a native of Scotland. He is survived by his widow, and her family of grown-up children. The funeral was held from the house Tuesday, Rev. F. N. Miner officiating.

Mrs. Hammel has sold another pair of old shoes and is going to offer the creditors that they roped in the proceeds as salvage for them. You can easily save more money than your share of the old shoes will be, by trading at the right store. That is

advt **STEWART'S PHARMACY.**  
John Mattson is the first beaver trapper in Delta county for many years. Early in January he took out a license to operate on a certain section in the north portion of the county, and took the lawful quota of four beaver from one colony. Two of the pelts he presented at the county clerk's office Monday.

M. Jacobs returned Saturday from Chicago, well pleased with the clothing business outlook. "Things never looked better in the clothing business," he said. "All the manufacturers are rushed with orders, and their output is sold for a long time in advance."

Henry Rosenblum returned last Thursday night from Mt. Clemens. He was delayed a day at the straits by the battle with the elements, which the Mackinac ferry put up unsuccessfully.

The Sheriff Pro. Tem. Strong western Drama at the Gem Saturday night. C. A. Clark and J. P. Bushong returned Sunday from attending the lumbermen's convention at Milwaukee. They spent a couple of days in Chicago as well before leaving for home.

Edward Skoog has accepted a position as caller at the depot and began duties Wednesday. His former position at Lindblad's grocery has been taken by Louis Hillewaert.

Sidney Katzenstein returned Monday from spending a couple of weeks at his home in Cleveland. He extolls the weather there as summery.

Roy Brown is quite ill at his home with a second attack of appendicitis, and it may be necessary for him to undergo an operation.

Roller skating Saturday afternoon and night.

Gust Delhin left Tuesday to spend the week in Manistique; and J. T. Burgess is now keeping bachelor's hall at home and in the store.

Albert Whybrew is among the young people who are this week ill with scarlet fever. There are now three cases in quarantine.

Mrs. E. M. Perkins was called to Waukegan, Ill., last Friday by the serious illness of her mother who died during the past week.

Frank C. Brown who has been ill with tonsillitis this week, was absent from the post office for a couple of days.

Sheriff T. J. Curran was in the city Wednesday greeting his friends and posting up notices for the coming election.

August Lillquist left Thursday morning for Mt. Clemens where he will remain for some weeks.

A daughter was born to Mr. and Mrs. William McDonald Thursday evening, Feb. 27.

The Supreme Test S. & A. Drama at the Gem Saturday evening

Prosecuting Attorney Strom spent Wednesday afternoon on business in the city.

M. W. Lancaster has been suffering from the effects of a severe cold this week.

The three-year-old daughter of E. A. Segerstein, who has been ill, is recovering.

## AN OLD TIMER

At the buffet of Fred Anderson you may meet many old timers—a hermit who has lingered in the wood for twenty years, a gentleman of France who sparkles as he leaves his glassy palace, or a northerner in dusky jacket, brown of face and bubbling o'er with welcome.

Bring with you old friends and make the acquaintance of my old-timers.

At the close of the Gem baby contest Thursday evening, number six, the baby of Michael Mueller, had received 40,473 votes or twice as many as the nearest competitor; and was awarded the first prize, an infant's bed. The daughter of Floyd Duchaine won second prize, a fur robe, with 24,949 votes, and the third, a toilet set, went to the daughter of Mr. and Mrs. James Montgomery, with 15,415 votes. Maclaurin & Needham will give additional presents to the other seven competitors.

Why pay 50 cents when you can get the same for 25 cents? Colgate's large Ribbon tooth paste, or any other kind, and a good 25 cent tooth brush free with it. All for 25 cents at

**STEWART'S PHARMACY**

Mrs. Bruce K. Leslie died Sunday at her home in Munising, from septicemia. Her funeral was held in that city Tuesday with a large attendance. Mrs. Leslie, nee Lottie Wiggins, was a Gladstone girl and well known here. Mr. Leslie and four young children survive her. Mrs. J. A. Stewart, who attended the funeral, returned Thursday with little Evelyn Leslie.

Clover Brand Stock Tonic and Poultry Preparations. Keep your stock healthy. Sold by

**ERICKSON & VON TELL**

Collector MacDonald has completed his collection of taxes, and will shortly forward his report to the county treasurer. Out of a roll of \$38,463 he has collected over thirty-one thousand. The percentage is, if anything above the average, and indicates that people have money for their taxes if they have limited other expenditures.

Mr. and Mrs. William Smith of Lady-smith and Mr. and Mrs. Edward Smith of Escanaba were in the city this week, to attend the funeral of the late Dan McGuinn.

Among others, two strong dramas, The Sheriff Pro. Tem and The Supreme Test, S. & A. will be shown at the Gem tonight.

The latest reports obtained by Health Officer Mitchell indicate that city water is still unsafe in its raw condition. The sample taken in mid-channel is considered suitable for use.

Al Smith suffered a fractured rib this week while working under the dock. A timber fell and broke the plank on which he was standing, giving him a bad fall.

The Sheriff Pro Tem. Strong western Drama at the Gem Saturday night.

Arthur Kalisch arrived Thursday from Chicago, and has taken a position as clerk in the Hub store.

Mr. and Mrs. G. R. Emson returned Saturday from their three weeks' trip to the sunny south.

Ole Peterson returned Saturday night from the Soo, the cement working crew having completed its work on the roundhouse and coal sheds there.

Werner Olson returned Tuesday evening from the Soo, where he was employed this winter on construction by the Soo Line.

M. Lewin spent Thursday on business at the Hub's Tremay branch.

George Hale, of the Soo, is visiting Gladstone friends.

Miss Maria Schaffer of Marquette has returned home after a month's visit here.

The funeral of Mrs. Margaret Peterson, who died at her home in the Buckeye was held Sunday from the Swedish mission church.

Roller skating Saturday afternoon and night.

Glenn W. Jackson returned Tuesday evening from a trip through Wisconsin, Illinois and lower Michigan on legal business.

**Montenegrin Simplicity.**

Nicholas I. of Montenegro is as simple in his habits as was King Alfred of oaten cake memory. In the royal household he is waited on at table by one of his daughters, while other members of the family stretch out and help themselves. The bread, it is said, is baked by the queen. He urges the habit of saving upon his people and is himself a depositor in a savings bank. The king once remonstrated with a hotel keeper who had bought himself a gold watch and pointed out that his own watch was of silver.

**A New Aid to Naval Gunnery.**

Vice Admiral Percy Scott, who won considerable fame during the siege of Ladysmith in the Boer war, has just had a baronetcy conferred on him by King George, and the belief is entertained that the honor is the result of his "fire director," which seems likely to revolutionize gunnery in the British navy. Recent tests, it is asserted, prove that guns on a battleship fitted with the appliance have been fired at an accuracy 300 to 400 per cent greater than those on another which had no director.

**The Melting Pot.**

Dr. George Ketschensteiner, the German vocational expert, is impressed by the success of the American public schools in the task of assimilating immigrants. "What the great cities have been doing in transforming immigrants from all parts of the world into thinking citizens," he declares, "seems to me from my personal observations in the country itself to be unexampled in the history of education of civilized nations."

## AND THINGS

Postoffice Inspector Schlabach was in Manistique recently for the purpose of investigating conditions relative to the establishment of free delivery in the city. He was favorably impressed with the conditions. The telephone and power companies gave him permission to place the letter boxes on their poles throughout the city. Some of the street signs will have to be replaced, and the inspector stated that the manner in which the houses were numbered was more satisfactory than conditions found in many cities applying for free delivery. He will recommend the appointment of three carriers, and if the department decides to institute the system it will become effective within a year.

At the meeting of the board of supervisors this month, application will be made to them to detach about seven square miles of Fairbanks township and attach it to Garden. This is the region immediately south of Garden village for four miles, comprising that portion of towns 39-18 and 38-18 now not in Garden township.

Use an Anasco Film, print on Cyko Paper and watch the fine results.

**ERICKSON & VON TELL**

The commencement of Saturday's storm caused all arrangements for the Alton grange meeting to be set aside, as roads were impassable. Later on another assembly will be called to consider the ferry question, probably a week from Saturday.

16 inch Maple and Birch mill wood \$2.00 a single cord, \$5.75 a full cord, Hemlock, \$1.15 single and \$2.75 full cord; delivered to any part of the city. Call up C. W. Davis, Phone 7.

Work is now being industriously carried on to open the Beaver county road to the new St. Nicholas colony. Biehler Bros., the contractors, are cutting through the swamp during the cold weather, and in the spring the right of way will be ditched and graded.

Hair cuts now cost thirty-five cents in Gladstone, beginning to-day, and bald heads may appreciate their exemption from the high cost of living. It was resolved upon Monday by the barbers of Escanaba, with whom those of Gladstone are united; and is in line with the action taken in the copper country and elsewhere. A shave and haircut will now just demolish half a dollar and leave nothing for the hair tonic.

The price of all post cards just cut in two. See for yourself at

**STEWART'S PHARMACY**

## IF YOU WOULD ENJOY

The pleasures of a perfect meal, you should see to it that Chase & Sanborn's coffee and tea, also Fernellel canned goods are being served.

## THE SOO GREENHOUSES

W. E. F. WEBER, Prop.  
SAULT STE. MARIE, MICH.  
LONG DISTANCE PHONE

In the presence of an assemblage of more than fifty persons, who gathered last evening at the Peter White Public Library to hear the sixth of a series of industrial discourses, George W. Ackermann, auditor of the Cleveland-Cliffs Iron company's lumbering department in this city, delivered an interesting lecture on the general subject of auditing. He discussed the methods pursued in accounting in many different kinds of business and touched also on accounting work in municipal offices, which especially interested his hearers. The lecture lasted almost two hours beginning at 8 o'clock and ending after 9:30.—Mining Journal.

Charged with sending a bottle of whiskey by parcel post to a friend at Belgrade, Minn., Stanley Wiles, a Minneapolis saloon keeper was bound over to the federal grand jury by United States Commissioner Abbot. The express companies have one line of business guaranteed to them yet.

A conflict between two prominent residents was narrowly avoided Sunday. One, being a philosopher and a Jeffersonian, was laying down the principal of rotation in office. "One term and one year is long enough for any man to serve" he proclaimed. Number two, who had been paying little attention, caught the words. "Taint so!" he shouted, wrathfully. "Those fellows ought to serve at least fifteen years apiece!"

During the past cold weather the city's consumption of water has been great, notwithstanding that little of the bay water has been used as a beverage. More coal was burned in January than last July, though water is generally used most in the summer months. This is partially due to the fact that little lawn sprinkling was needed last season; but there has been a great and undue waste of water, simply because householders find it easier to let the water run than to protect the pipes properly against freezing. Still, water meters are a long ways in the future here in Gladstone.

The postoffice at the village of Schaffer formally went out of existence Friday, and all mail matter for residents of that village will be addressed "Bark River R. F. D. No. 2." A new rural free delivery route has been opened out of Bark River covering a district in the direction of Schaffer and taking in that village.

Mayor Perry made an expedition Monday to the foot of the bluff, to investigate the proposed line for the hill road, which was advocated last summer. This location, a few rods south of the present road, he states to be banked up with about eleven feet of measured snowdrift. For this reason he is not inclined to urge its adoption as a road.

Ishpeming's ski tournament was postponed till Sunday because of the storm. About 4000 persons witnessed the event. Ragnar Omtvedt, the world's champion was the star with a jump of 142 feet, though he was passed by Barney Riley of Virginia. A somersault on skis was one of the most interesting features on the program. Among those who went up were H. E. Rawson and Ed Nylander of Gladstone. Escanaba folk were numerous.

**A Ring Island.**

Many coral reef islands in the Pacific are in the form of more or less perfect rings or ovals, inclosing lagoons. The ring island of Ninafou, halfway between Fiji and Samoa, is not a coral reef, but a volcanic ring inclosing a crater containing a lake two miles in diameter. Toward the sea the ring is bordered with walls of black lava, and on the inner side these break down in cliffs 200 to 300 feet in height. An eruption in 1886 formed a peninsula on the eastern side of the lake. While the ocean outside is trembling and thundering under a heavy wind the lake remains smooth or is simply wrinkled with ripples.

**He Promised.**

"I can't spare the money very well, but I'll gladly loan it to you if you promise not to keep it too long."

"I solemnly swear that I'll spend every penny of it before tomorrow morning!"—Fliegende Blatter.

A Harvard student, who for obvious reasons does not care to have his name appear, passed up this one: "A cousin of mine in the western part of the state came to Boston for a visit and dropped out to Cambridge to call on me. He asked if he could share my room with me that night, and I told him he could if he came in early enough. He started for a theater, and when midnight came without any trace of him I called in my regular roommate, who had sought quarters elsewhere to make room for my cousin. I decided that my relative was going to make a night of it in town.

"We had hardly got to sleep, however, when he came in, bringing a highly flavored breath. We said nothing, and he soon climbed into the bed with us. Everything was quiet for a few moments, when suddenly he sat up, put his mouth close to my ear and whispered: 'Jim, there are six feet in this bed!' 'Forget it,' I said. 'You're crazy.' With that he climbed out, groped his way around to the foot of the bed and began to paw our feet. 'You're right,' he said, after a minute. 'I've counted 'em, and there's only four.'—Boston Traveler.

## JAKE SAYS:

After this week I will be in sole charge of our Gladstone business; and will be glad to see my customers coming in so that I will not be lonely. I really want you to see these new Hirsh-Wickwire Models I am unpacking. Less than three weeks to Easter. Come in Early.
