IT'S UP TO US

Gladstone, Mich., April 17, 1913.
Editor Delta:—
I submit herewith a letter from H. W. Reade, Chairman of the Board of county road commissioners. It is very evident that the county road commissioners cannot consistently continue to spend a large percentage of the county road appropriations for good highways leading up to our city limits unless the people of Gladstone demonstrate their willingness and ability to make good their promise to construct a good road from the city limits to the business section of our city.

While it is quite generally understood that our city council have been seriously handicapped from the lack of available highway funds, I am positive that means to carry out our agreement with the county road commissioners can easily be obtained if we get busy and go after the proposition.

If everyone interested in advancing the welfare of the city will meet with the Commercial Association next

TUESDAY EVENING, APRIL 22

at 8 p. m., at the City Hall we will find a way to meet the emergency.

Gladstone Commercial Association,
W. L. MARBLE,
President.

Escanaba, Mich., April 16, 1913
Mr. W. L. Marble, President,
Gladstone Commercial Association:

DIRECTORY.

Dear Sir:
At a meeting of the County Road Commissioners held to-day, the question of building the highway to Maywood has been under discussion. The members of the board feel that as your association has petitioned the board to construct this highway, and has agreed to maintain ferry service from Maywood to Gladstone, that before any definite arrangements are made by this board to construct the highway, some definite agreement and a bond insuring the constant maintenance of this ferry should be furnished by your association. We do not wish your association to think for a moment that our board has not every confidence in any promise that your association may make, but on the other hand, feel that on account of the fact that the people of Gladstone in general have not carried out an agreement made with this board two years ago, that it is no more than a business proposition that we should have some assurance of good faith on your part. The agreement that we have in mind is that made by your people to the effect that if the county road commission constructed a macadam highway from Brampton leading to the city limits of Gladstone, the city of Gladstone would construct a suitable highway leading to meet this road. A considerable portion of this road was completed during the summer of 1911 and the balance was completed during the summer of 1912, but so far no work of any kind has been done by your city, and we are not advised that any definite plans have been made for carrying on the work this season.

Will you kindly present this communication to your association and advise us what we may expect both in regard to the ferry and the road to the city limits.

Yours very truly,
H. W. READE,
Chairman Board of County Road Commissioners.

PRIMARY SIMPLIFIED

The legislature has abolished party enrollment, and registration day will be on the date of the primaries, thus saving two days, trouble and expense each year. The law provides that the names of the candidates of all parties shall be placed upon one ballot. At the top of each ticket will be a circle, in which the voter should make a cross, signifying his party preference. He is then bound to vote that party's ticket, for if he goes outside that particular party the votes so cast are void. If the elector fails to make his cross in the circle, but votes in one party column only, his vote will be counted. If, however, he goes to splitting his ballot it will become void.

The idea is to give to each voter the fullest freedom of expressing himself without announcing to anybody what his party is but at the same time to confine each voter to a single party in the primary. In cases where there are no contests for nominations, the clerk of the city or county or secretary of state, as the case may be, shall so certify and declare there will be no primary for that office. This will save much expense.

LARGE FAMILIES

According to the official reports of births in Michigan in 1912, there were three instances in which the mother was the parent of 18 children; two in which the mother was the parent of 19 children; and one in which the mother was the parent of 20 children. This mother was of native birth 53 years of age, and 11 of the 20 children are still living.

Two mothers, 60 years old, had the sixth child born to them. The Department of Vital Statistics questioned this statement, but could not get any correction to same. One mother 56 years of age, gave birth to the third child; one mother aged 52, the fifth; and one mother aged 54, the tenth. In 337 instances the child born during the year was the twelfth to that mother.

COUNCIL MEETING

The city council as presently constituted met Monday evening, all being present.

Mayor Perry appointed the following committees:

- Ways and Means, Young, Tardiff and Micks.
- Finance and Taxation, Elquist, Murphy and Buck.
- Fire, Water and Lightning, Buck, Holm, Young.
- Streets and Bridges, Murphy, Young and Micks.
- Claims and Accounts, Micks, Smith and Buck.
- Public Property, Holm, Micks and Elquist.
- Bonds and Accounts, Smith, Murphy and Elquist.
- Rules, Ordinances and Printing, Tardiff, Smith and Murphy.

The bonds committee reported the applications of Louis Tardiff, Magnus Anderson, August Lillquist, Soren Johnson, Earl G. Fisher, Frank Louis, Fred Anderson, Eric Osterberg, August Johnson, Andrew Stevenson, Rupert C. Ostrander and Peter Dhooge. These together with the bonds furnished and the druggists' applications, were referred back to the committee, and recommendations will be made next Monday.

The road question was then discussed. The bay shore road has suffered damage from washing under culverts inside the city as well as outside, and repairs were ordered.

The furnace road, which is in worst condition, and overflowed, was discussed. The Cleveland Cliffs Iron Co. will furnish slag to repair it if the city will do the teaming.

The same old question was brought up that has been agitated at times for ten years and more. The city can show no title to the furnace road. Eight years ago Alderman Burrows made complaint in the council that a bridge had been built and work outlaid, while the city had nothing to show that a right of way exists. Three years ago when the flooring mill was built the same thing developed, and when the road was moved a verbal promise was made for a new right of way along the Soo track. There is now difference of recollection as to the line of the road. Mr. Bushong has offered the city a right of way and to clean the ditch on the east side of the road if the city will repair it on the west side. Some settlement should be made on a permanent basis as soon as possible. The highway is one of the most important in Michigan and a part of the projected state highway system. Another question which will be of interest will be that of a trolley right of way, in case one is projected to Rapid River. There seems to be no room for it on this side the Soo Line.

GLADSTONE GROCERY
"THE QUALITY STORE"

AROUND TOWN

The work of decorating the Swedish Lutheran church has been completed this week and contractor Frank Lundahl has returned to his home in Illinois. The congregation will have the pleasure of worshipping Sunday in one of the handsomest and most commodious little churches in the county. No feature has been neglected for beauty or convenience in the church itself or the parlors underneath. One item installed is a large chandelier, donated by the German Lutherans, whose congregation uses the church for monthly services.

The habit of using the alleys of the city for woodpiles and lumber yards is, like other offenses, frowned upon by Mayor Perry. "If I could find someone who wants it and will haul it away" he observes, "I'll see that he is made a present of it."

Owing to the occurrence of railroad pay night on the fifteenth, there was a slight attendance at the Commercial Association meeting Tuesday evening, and it was accordingly adjourned for a week.

The city had favored the people of the city with another open air concert along the street Thursday, which received considerable approval from the auditors who enjoyed the fine weather. Mayor Perry, who had made a personal contribution, will endeavor to have the band stand lighted for the boys and to secure them the city hall for their practice hours.

There are many fish shanties still on the upper bay, and it is said that the attentive fisherman has been quite successful this winter. Many of the local experts, however, have been too busy at other occupations to do much in this line of sport. Returns will be officially furnished by Commissary General Andrew Stevenson as soon as the ice begins to break above Escanaba.

A large irregular mudhole at the crossing of the pole yard spur on Railway avenue has been earning the blessing of all passersby, foot, horse, and automobiles. The street committee took cognizance of it Thursday and effected temporary repairs.

The water board met in delayed session Wednesday evening. The plant report shows a total of 1,367,940 gallons of water used in March, and a credit for the plant of \$1,260.02. The Soo line stated that it has abandoned the idea of a general electrification of its docks, but asks for price on a forty horsepower equipment for a freight conveyor in shed B.

The shipping season by water from Kipling will begin in a few days. The steamer Fisher is chartered to take out a load of pig iron as soon as practicable under weather conditions.

The ninety-fourth anniversary of the organization of the Independent Order of Odd Fellows occurs on Saturday, April 26, and on Sunday the members of Gladstone lodge will attend the M. E. church in a body, where an occasional service will be given.

A spot in the bay shore road, about half a mile this side of the extract works, is sinking fast this week and becoming dangerous. It has long been a source of trouble because of quicksand at this point.

Evidences of it.
"That man is a broker."
"I thought he had a stocky build."
— Baltimore American.

JUNIOR LEAGUE

The Kipling boys baseball team defeated the Buckeye team Sunday afternoon, 11 to 3, on the Buckeye grounds. Switzer and Gustafson constituted Kipling's battery and McKnight, V. Hoy and R. Hoy and Page did the heavy work for the Buckeye. Kipling will entertain the Buckeye boys on their grounds next Sunday afternoon, and on the following Sunday they will come here for a game with the Gladstone Athletic Club team.

The Gladstone Athletic club has organized its team and a practice game was held Sunday afternoon with a pickup team, whom they defeated, 15 to 6. Brassick and Artley were the batteries for the G. A. C., and Frazer, Careful, Leclair and Bellanger performed for the pickups. The game was fast and interesting up to the ninth inning when with the score tied, the G. A. C. tore loose and scored 9 runs. The following will probably be the line-up of the team for the summer: Artley and Tessier, catch and first base; Nohlet and Brassick, pitch and center field; Banno, shortstop; Louis, second base; DeGrave, right field; Leroux and Vandeweghe will try out for third base and Westrope and Bradley for left field. Ubold Nohlet is captain and Romeo Tessier assistant. A game will be played with the west end boys next Sunday and with Kipling the following Sunday.

GLADSTONE TO CHICAGO

The plan of the Soo Line to build a direct line to Chicago to cut off a considerable distance between Gladstone and Neenah is again before the public eye. Since the purchase of the Wisconsin Central it has been the logical step. Says the Iron Mountain Tribune:

P. C. Mahoney, now located in Green Bay states that it is the general impression in Green Bay that the Soo Line contemplates building there via the Wis. & Mich. It is claimed that the right of way from Peshtigo south along the shore has been purchased and that terminals at Green Bay are also in the grasp of the Soo now. The Soo then contemplates building from Green Bay to Neenah and there connect with its Wisconsin Central line, thus giving them a cut of about two hundred miles over the present route to Chicago from its Canadian line.

DEFECTIVE LIGHTING

Michigan is steadily becoming a state of spectacle wearers on account of the improper lighting of schoolhouses. Except those buildings which were erected according to the plans of an architect who thoroughly understands schoolhouse construction, there is scarcely a building in the state, rural, town or city, which does not violate the principles of correct lighting.

Experts on this question are a unit in declaring that light should come only from the left side or the ceiling. In most small buildings light is admitted from both sides making cross lights which are injurious. It is almost criminal to permit children to face the light. Teachers are compelled to in many cases to their detriment and at least one state makes it unlawful to require a teacher to do this. In some rooms children sit with their backs to the light, thus shading the work before them with their bodies making a half light which is decidedly injurious. Merely changing the seating will often correct evils.

Intelligent use of window shades will do much to correct construction defects. In nine cases out of ten the shades are improperly installed. They should be placed at the bottom of the window and drawn up instead of being pulled down. In this way the light is shut off from the nearby desks where it is too strong, but is admitted to the parts of the room where it is needed.—Luther L. Wright.

Cows of Jersey.
In the island of Jersey every girl who marries receives a cow as a part of her dowry.

FLOODS IN DELTA

The board of county road commissioners has been quite busy this week. While the uncertainties of pending legislation have been checking the making of plans for trunk roads, until it is known how much state aid may be had, there is much to be done in the line of repairs. Last year much culvert work was done under the supervision of the county engineer, and seems to have been a good deal like Delta avenue sewers. In most cases the corrugated culverts were insufficiently protected at the ends, and water ran through under them to wear a passage and weaken the road. In one place the water had drained through the hole made before it came within four inches of the bottom of the culvert.

Commissioners Reade and Johnson and Commissioner Elect Mashek viewed the Bark River road, which has been endangered by the rise of the Ford River, and then drove along the Bay Shore road Monday and observed the necessity for repairs.

On Tuesday Commissioners Johnson and Anderson drove up the Brampton road. It was unsafe, and the road commission called off the board meeting and took immediate steps to repair the road and guard it. The high water of the Days river had undermined a culvert.

The meeting of the board was held Wednesday afternoon to wind up affairs before the new organization is effected. Steps were taken to provide for urgently needed repairs on the different roads before they are washed out.

The wing dam of the Escanaba Traction company was washed out Wednesday morning, causing a temporary disablement of the power house and pulp mill, which were flooded by the rush of water. The power plant has an artificial canal instead of a penstock from the upper dam, and its banks are of sand. The force of the water undermined them and swept out a portion seventy feet wide. A similar accident happened shortly before the plant was put in commission. It will readily be repaired.

In other places in the county there are high waters, threatening washouts, and flooded roads. In fact there is one of them in the city of Gladstone.

16 inch Maple and Birch mill wood \$2.00 a single cord, \$5.75 a full cord. Hemlock, \$1.15 single and \$2.75 full cord; delivered to any part of the city. Call up C. W. Davis, Phone 7.

SEMI-OFFICIALLY

The board of supervisors on Friday re-elected R. E. MacLean as chairman by acclamation, and authorized the finance committee to sell the \$10,000 issue of infirmity bonds authorized by the voters, and the building committee to draw up plans and specifications for the addition and let the contract. A change in the wording of the road bonds to permit their payment in Chicago, as demanded by the purchasing brokers, was made. A special committee of four supervisors was appointed to make a thorough investigation of the finances of the Delta county hospital, in order that the board might act on its continuance or sale after this year. Superintendent Olmstead informed the board that the hospital is becoming more of an unfavorable proposition every year. A long-winded petition against a change of venue for the Hammels, drawn by the prosecuting attorney, was signed by most of the supervisors, on the ground of seeking to reduce the expense to the county.

The Delta county calendar for next Monday is well filled with jury cases, although it is unlikely that the Hammels will be tried in this county. There are thirteen other criminal cases, largely charges of violation of the liquor law, and eighteen non-jury cases, including two divorce suits. Of forty-two jury cases, many are just returned from the supreme court for a new trial. The case of Seger vs. the Northwestern Cooperage company is again on the docket.

It is stated that the immense havoc of the storms in the middle states last month is a stimulant for the pole business, and that all the cedar men are busy rushing out orders. In Michigan alone, out of the track of the main cyclone, a quarter of a million dollars loss to lines was suffered by the telephone company.

No orders have been received at Gladstone for special count of mail matter this week. This is possibly because as yet free delivery has not been established in this city. Postmaster Laing's petition is still under consideration by the department.

The board of county canvassers performed its duties Tuesday and Wednesday. It was necessary to send to Gladstone and call on the boards of election in two wards to finish up their returns so that they could be used.

An act has passed authorizing the board of health, which has sought the authority, to supervise and regulate municipal water systems and sewerage. Gladstone had better look out or Doc Abrams may get us.

An Odd Comparison.

The late Dr. John Gillespie, who on account of his special knowledge of agriculture was frequently called by his territorial title of "mousward," was held in great admiration by the Scotch farmers.

"Did ye ever hear the doctor preach?" asked one farmer of another at a highland show.

"No; niver. Did you?"
"Aye, man, an' as sure as he gaed into the pulpit an' pit his fingers on the Bible ye cud see he kent fine hoo tae haundie a beast!"—London Tatler

Personals

A beautiful home wedding took place at the home of Mr. and Mrs. Carl Fenska of Rhineland, Wis., Tuesday April eighth when their youngest daughter, Bertha, became the wife of Mr. S. Roy Latimer of Gladstone. A sister of the bride, Miss Edith Fenska acted as bridesmaid and Mr. John P. Latimer, brother of the groom attended as best man. The bride wore a handsome gown of white meteor over white messaline and carried white roses. The bridesmaid was daintily attired in marquisette over lavender messaline and carried a bouquet of pink and white carnations. Beside the best man Mrs. John Latimer and Mrs. George Schwab of Gladstone attended the ceremony. Mr. and Mrs. Latimer arrived in Gladstone Wednesday and after visiting friends here resumed their honeymoon trip to North Dakota. The date of their return is uncertain.

The Brotherhood of American Yeomen held a dance after Thursday evening's meeting, with an elaborate supper and did not adjourn till late. A feature of the meeting, besides work, was the presentation of the lodge's souvenirs to two married couples within its ranks, and of a farewell greeting to others. On May 1 the banner will be presented by a strong delegation from Delta home-stand of Escanaba.

J. H. McGillan of Green Bay will represent the county as associate to the prosecutor at the trial of the Hammel cases, which will be called next Monday.

J. A. Campbell was pleasantly surprised Wednesday evening by a party of friends, who called to congratulate him and Mrs. Campbell upon reaching happily the twelfth anniversary of their wedding. The hours of merriment flew by fast, and afforded much enjoyment to all who were present.

Ed Eaton returned from Chicago Thursday and will remain in the city for some time.

A daughter was born Tuesday to Mr. and Mrs. William C. Geise of Menominee. Her grandmother, Mrs. William Grills, returned Wednesday from that city.

Because of the absence of Attorney J. P. Frank, the Hammel dower hearing was again postponed Monday.

I. E. Shelley attended a meeting of the Lake Superior presbytery, held at Calumet last Saturday.

Mrs. John Neville, who fractured an arm this winter, is now almost recovered from the effects.

The promenade given at Wasa Hall Tuesday evening by the L. O. T. M. M. had an excellent attendance was financially successful.

Professor Moore, of the weather bureau, has lost his head, following the last spell of weather we had. Professor Rawson, in charge of the Gladstone station, is worrying less than other members of the service: what bothers him is getting a sheet iron flag that will not wrap around the guy wires on a windy day.

Dudley Jones, who has been ill for the past two months, is now able to be about.

W. J. Cramer and Charles J. Holm were in Escanaba Friday as witnesses to the naturalization petition of John Rogic.

Evan Olson came from Marquette Monday for a few days, returning Thursday.

Mrs. C. F. Brown left Thursday morning for Ontario, to spend two or three weeks visiting relatives.

Two dogs succumbed this week to Louis Danielson's unerring rifle; and there is promise of a greater slaughter if some of these canines about town do not mend their ways. Whether the marshal will equal last year's record is to be seen—he hopes not.

The firm of J. Louis & Son dissolves with the first of the month, the senior Mr. Louis retiring from business after many years labor; and the east end grocery will in future be conducted by Philip Louis alone.

Five applicants were examined for civil service positions last Saturday at the high school building. The results will be known later.

Mr. and Mrs. Joseph Lauzon leave to-day for Shelby, Ont., to make their home.

John Malloy was in Escanaba on business Friday.

Printing

Of all sorts, job and otherwise, will be done at this office, in the briefest possible time after the receipt of the order, that is consistent with the most careful workmanship—

THE GLADSTONE DELTA

Gladstone Aerie, F. O. E., will celebrate its sixth anniversary at the next meeting on Friday, April 25. The usual social features will be enhanced by a special feast. A calf will be barbecued for the occasion, and it is expected that according to the words of scripture, "there will the Eagles be gathered." The aerie, which is campaigning hard for new members, has secured about sixty already.

The basketball girls, who played a most successful series last winter, are giving a ball this Friday evening at the theatre. Invitations have been issued for the event.

The Delta county medical society meets this Friday afternoon in Gladstone.

John Neville was in Escanaba Friday on business.

Mrs. James Hannigan died Tuesday morning after a long and fluctuating illness. Her earlier partial recovery had excited hopes but to disappoint them. She was in her thirty-ninth year. Beside the bereaved husband, she is survived by her aged parents, two brothers and two sisters. On Thursday morning her funeral was held from All Saints' church, Rev. O. J. Bennett officiating, with an attendance of many mourners, especially from her former home in Rapid River. She was a member of the W. C. O. F. and the F. R. A., who were largely represented.

The office of sealer of weights and measures, newly established in Escanaba, will be filled by George English, it is said. The sealer has authority to test all weights and measures used by merchants and certify them.

EMPSON'S INSURANCE AGENCY

WATCHING THE BLAZE

Of your home is never a cheerful pastime; but when you have no insurance upon the savings of a lifetime, it is a tragedy. The man who makes it his business to lend out money will never take security upon an insured building. Why should you be more willing than he to endanger your investment?

Be prudent, and see that your dwelling and its furniture are covered by a policy in a solid, fireproof company. Inventory your belongings; you find how large is the cost of replacement.
