Some persons unknown, whom the reader will sufficiently characterize, have been desecrating the cemetery by using the gravestones as targets for rifle practice. It is probable that no other offense is as injurious to the sensibilities of those who have lots in Fernwood and have taken so much pains in making them attractive. President Henke of the cemetery board declares that every effort will be made to detect the criminals and to secure a jail sentence for them if they can be found

A DANGEROUS PASTIME

The common council should consider an ordinance prohibiting roller skating on pavements. It is to be hoped that a measure will be passed as there will be no doubt of the fact that it is badly needed Children, who rinks, have either been injured or had narrow escapes during the past several weeks and it is time that something was done to put an end to the dangerous pastime. - Menominee Herald-

ACCIDENTS DECREASING Says the Houghton Gazette, which has a correspondent on the industrial accident board. During the month of April fatalities among employes operating under the provisions of the workmen's compensation act were reduced ed 50 per cent. from the half-year average of 40 per month. There has been a steady decrease in fatalities among employes operating under the act since the first of the year. It is safe to regard this as a natural result of the practical workings of the compensation theory, which is that it costs | less to prevent an accident than to compensate for one. The average cost of a fatal accident in Michigan is around \$1,800, a sum sufficient to equip the The date for the high school com- modern machine with the most approvmencement exercises, has been set for ed of safety devices, or to pay the salary Thursday evening, June 19. Chance for a Trade

The county of Delta has purchased four substantial King road drags, and will exemplify their use in making smooth the way of the traveller. Their purpose is to iron, as it were, the wrinkles from a dirt road, and leave it crowned in the center. A flat road cannot escape being rutted. A road, draged when it is wet, will dry smooth and hard and hold its shape until it softens again, when the drag comes again into park. The game was fast and exciting play. The Delta has often advised what the road commission now suggests, that this city spend \$20 for a drag and put it at work on its soft, worn streets, during the rainy season. It have Company B come back in the would be more valuable than our sixth and score their only two. From \$3,000 steam roller, which has not been then on the game was again hardof \$300 service to the city. And by the fought, the All Saints' striving for a way, if the county needs a roller for its safer lead and Company B working for macadam, can't the city sell it a good at least a tie, but neither team was able roller at a bargain price and get a few

What Saved Him.

William was not kind to his small brother Henry; in fact, he looked upon to four hits and fanning eight, while him as a nuisance, a scourge sent from his teammates made but one error beheaven to try his spirit and spoil his hind him. Donovan was touched for fun. Especially that day was Henry but six hits, and he struck out five, but a thorn in the older boy's flesh. In five misplays were recorded behind him. the cheapest, when snow flies. his efforts to rid himself of his burden William resorted to all the meth-I carry the largest stock in ods the mind of youth suggested, but in vain. Henry continued to stick as

"William." finally said the boy's father, who had witnessed, unheard, struggle, "you should be ashamed of yourself to treat your little brother in that way! He ought to be sacred to

William made no reply, but shortly afterward, believing himself to be free of surveillance, he was heard to address Henry thus; "Always taggin' after me! If you weren't sacred I'd break your blamed face for you!"-New York Tribune.

His Head and the Psalm.

A now popular clergyman, telling of some of his earlier experiences, said: "In my third living there was a very rowded congregation the first morning I officiated. The parishioners were evietc.. Pansies, Asters, Pe-3 dently curious as to the build, color of tunias, Geraniums, Salvias } halr, etc., of their new vicar. As a matter of fact I was, though a young man, very bald. A little thought would have caused me to make my first appearance on any morning but the 8th, but it was the 8th, and in the Psalms, which were read and not sung, I had to say, 'My sins are more in number than the hairs of my head."

> A Tough Cure, Faith will do wonders. A woman in Devonshire, England, recently said to a

"I've got a cruel, bad cough, surely. I've heerd that bronchial troches are good things. Hav'ee got any?" The assistant pointed to a small box

on the table and said:

"Yes; there they are." "How much is it?" was the inquiry. The price was paid, and the old woman took her departure. At night the assistant missed a box of glycerin soap (three cakes).

A couple of days afterward the woman returned to the shop and said: "I want'ee to take back two of them things I had t'other day. I took one of 'em. It was mortal hard to chew and winter killed or otherwise destroyed awful to swallow, but it cured the cough.

Knew His Geography.

A prominent theatrical manager of New York city strolled into one of the leading hotels of the metropolis with Colonel William F. Cody and met Jim Thornton, the eccentric monologist.

The manager greeted Mr. Thornton

and, turning to Cody, said. "I would

like to have you meet my friend here. Mr. Thornton. "Mr Thornton, this is Colonel William F. Cody, better known as Buffale

Mr. Thornton, gripping the wild west showman's hand, said: "Glad to know you, Bill. What part of Buffalo are you from?"-National Monthly.

The proceedings is not entirely surprising, as the creek in its purpose to the boy scouts; and is the recount of votes cast in his dis- ing together with the representatives of legislature increased the salary of a of the game; and every team shall finish number of state officers but Fuller re- a game which it begins or forfeit its half favoritism in Fuller's work either for Each team playing shall receive half he uses friend and foe alike and that is the gate receipts and pay its own exwhat we like about him.-Diamond penses. A season from June 1 to October 1 was planned, and a schedule will be arranged. Each team will have two scorekeepers.

Gladstone will play at Rapid River tomorrow, May 18, and the Escanaba teams will battle for the mastery at that city.

The All'Saints' baseball team won the fifth straight victory of the season Saturday afternoon when they trimmed St. Patrick's Company B team, of Escanaba, a team superior in weight and age. by a score of 3 to 2, at the local baseball from start to finish with neither team having the advantage until the fifth when the All Saints' scored their three three runs on hits and errors, only to to score. Batteries for All Saints' were McCarthy and Murdock and for Company B, Donovan and McAuley.

Both Donovan and McCarthy pitched star ball, the latter holding Company B A return game is scheduled for next

Sunday at Escanaba. The All Saints' journeyed to Kipling Sunday afternoon and hung up another victory, defeating the furnace town boys by a score of 12 to 6. Boulet and Murdock did the heavy work for the All

RAINBOW TROUT SEASON

tafson performed for Kipling.

Saints' and Switzer, Burrows and Gus-

Few fishermen of this section are aware that the season for rainbow trout does not correspond with the brook trout season, the last session of the legislature making a distinction. The rainbow season is now from June 1, to September 30, while the season for brook trout is from May 1, to August

31. The bill making the change was introduced into the house by Represenative Bayliss and its passage in the senate was helped by Senator Wood. The immediate effect clause was attached to the bill in both houses. We consider the law a fool piece of

legislation as brook trout and rainbow trout are caught in the same streams and very few fishermen know the distinction between them. We can not for the life of us understand why anyone should want the rainbow season to open one month later than the brook and last one month longer. We wish someone would explain the reason for this piece of legislation.-Iron Ore.

MICHIGAN CROP REPORT

The last report on wheat before the fall of this year shows the condition of wheat is 83 in the State, 84 in the southern counties, 81 in the central counties, 85 in the northern counties and 87 in Cloverland. The condition on April 1st was 82 in the State, 83 in the southern counties, 79 in the central counties, 80 in the northern counties and 94 in Cloverland. The per cent of wheat that will be plowed up because is 4 in the State, southern and northern counties, 7 in the central and 1 in Clo-

The conditions of meadows and pasture in the state and Southern counties is 89, in the central counties 85, in the northern counties 88 and in Cloverland

The acreage of clover sown as compared with last year is 94 per cent in the State, 96 in the southern counties, 92 in the central counties, 95 in the northern counties and 93 in Cloverland. The acreage of clover that will be plowed up because winter killed or otherwise destroyed is 10 per cent in the State, 9 in the southern counties, 13 in the central counties, 8 in the northern counties and 3 in Cloverland

GLADSTONE, - - MICHIGAN

MARRIAGE LAWS AND DIVORCE. To what extent the divorce evil is encroaching on our national life is shown by the report of the Illinois commission appointed to secure evidence on that subject. The figures it submits are staggering. Within the last half century divorce has increased on an average of more than three and one-third times as fast as the population. In the past year it is estimated that 100,000 divorces were granted. it is within moderation to say that in the last 50 years 2,000,000 homes have been wrecked, and that nearly a million and a half of children under the age of ten were deprived of one or both parents. Compare the figures for 1900 in 20 European countries, in addition to Australia, Canada and New Zealand, with a total population of at that time of 76,000,000. The divorces granted in the 23 countries were 27,000. The divorces granted in this country were 56,000. The rate here was seven times that of Europe. The commission believes a remedy can be found only by a revision of our marriage laws. "We can never hope," says its report, "to eradicate the evil of the divorce court until we safeguard the morals and health of the community by just, sane adequate marriage laws.

Dr. William Brown of London tells us that "every dream is the fulfillment of some wish." Mebbe so-mebbe so. But a lot of them are due to indigestion, due to ill temper or gluttony. Others result from headaches, falling out of bed and liquid refreshments. Some are the result of long suppressed. ungratified desires, too. With these exceptions the doctor may be quite correct in his opinion. But no philosophy of dreams which fails to take into account the contributive influence of Welsh rarebit, mince pie and the hereinbefore mentioned liquids can be wholly correct. These things must not be ignored if we are ever to fully understand dreamology. That we shall fully comprehend it, is just as important as that we shall understandwell, what, for instance?

A New York hotel proprietor undertakes to protect his patrons from the extortions of tip-exacting employes by forbidding cloakroom boys and girls the right to receive fees, and giving a ten per cent reduction on all checks. to cover the tips to waiters. He declares that he has not increased his prices, and that there is no reason why the portion of the public which deals with his establishment should not be immune from exploitation by takers of tips. It will be interesting to note the report of this experiment which is made after a year's trial-if the experiment is bons fide.

In 1850 only three per cent. of the population of Switzerland were foreigners. Since that time the total has risen to 15 per cent. Now it is proposed to levy a special tax upon them. Perhaps it might induce some of them to procure the naturalization of their children. Perhaps it might drive some of them away. Since taxation began its recent upward movement in Germany there have been Germans who have removed to Switzerland for the purpose of escaping its pressure. If Switzerland tries to tax them too roundly some of them will move back.

Bulletin 120, bureau of entomology, United States department of agriculture, tells of an interesting trip of one of the department's scientists to India and the Orient in search of natural enemies of the citrus white fly. This insect causes widespread damage to the citrus fruit industry of the country. The trip resulted in the discovery in several places of insects which are destructive to the white fly, but further investigation will be necessary before their practical worth in destroying the orange and lemon enemy is demonstrated.

The three thousand girl stenographers in Canada who protested against being exhibited in moving pictures as gum-chewers will awake responsive sympathy. No self-respecting, self-supporting young woman wants to be held up to public ridicule as the victim of such a habit, and the fact that the remonstrance is coming three thousand strong ought to count.

An old lady recently died in Denver claiming to be over one hundred years of age. She never married and expressed herself as pleased that she had not. Just think how many more years she might have lived had she been happily married.

Walking the floor with the baby when it howls at night unsettles the mind, says a specialist. Any old person can also add that it unsettles the temper as well.

GLADSTONE DELTA PHTHISIS CURE

UNITED STATES EXPERTS CAN-NOT INDORSE FRIEDMANN'S VACCINE.

GIVES WARNING TO PATIENTS

Far "Do Not Justify Confidence in Remedy Which Has Been Inspired by Widespread Publicity." Washington, D. C., May 10.-Public

Physicians Declare Experiments So

health service observations of the condition of patients inoculated by Dr. F. F. Friedmann with his tuberculosis vaccine do not "Justify that confidence in the remedy which has been inspired by widespread publicity," in the opinion of the surgeons who have conducted the government's investigation. This first official conclusion from

the tests was announced here before the National Association for the Study 267,000,000, as against our population and Prevention of Tuberculosis by Dr. John F. Anderson, director of the government's hygienic laboratory, and Dr. A. M. Stimson, another public health surgeon, who were assigned to observe the progress of the Friedmann patients at Mount Sinai hospital in New

No Opinion to Give Now. "We believe that at the present time," says their report, "we are not in a position to express an opinion based on the conditions under observation. The disease for which the remedy is used is prolonged and is characterized by periods of advancement and retrogression. It is also one in which psychic influences are a powerful factor. Time is therefore necessary to evaluate propertly the effect of ence.

therapeutic measures. "We must not lose sight of the possible therapeutic value of this preparation, and on the other hand it is necessary to guard against too great an optimism in respect to its merits. Without presenting in detail the condition of patients under observation, we are in a position to state that the facts thus far observed do not justify that confidence in the remedy which has been inspired by widespread pub-

May Have Done Harm. done by this undue publicity in so far as it has lessened the confidence of tubercular persons in well-recognized methods of treatment or interrupted their use, and we are constrained to advise against any lessening of those well-known measures which not only had effected cures but which have reduced the incidence of the disease. We are aware that Dr. Friedmann does not wish to be judged scientifically on newspaper statements, and he would undoubtedly disclaim responsi-

bility for certain of those which have appeared. Nevertheless, it is on those that the public bases its opinion until replaced by reliable and unbiased scientific pronouncements supported by convincing data. "In our series of patients, Dr. Friedmann has almost exclusively made use of the intramuscular method alone in

pulmonary cases, and a very considerable proportion of them have either developed no considerable infiltrate at all or have suffered from abscess formations. It is evident, therefore, that a very considerable portion of these patients may expect their treatment at the hand of Dr. Friedmann to ex-

tend over a long period. Friedmann Kept Secret. "Concerning the cultures submitted

to us, we may state that a series of experiments is under way. The bacillus has been found to be an acid fast organism having properties quite different from those of any tubercle bacillus with which we are acquainted. It appears to be identical with an organism cultivated from a few loopfuls of the material used for injection. which Dr. Friedmann permitted us to place on culture media in his presence.

"We requested Dr. Friedmann to furnish us with a large amount of this material for examination, but this he has declined to do. We can state however, that living acid fast bacteria are being injected by the instramuscular and intravenous method, although we are ignorant of what medium they are suspended in or what additional subin the final mixture."

HONOR MEMORY OF SCHURZ

Civil War Veterans Dedicate Monument to Their Former Comrade in Arms.

New York, May 10.—Civil war veterans who fought with Carl Schurz took part in the dedication of a memorial monument to him at Morningside drive and One Hundred and Sixteenth street today. Many prominent persons were present and took part in the ceremonies. Joseph H. Choate presided and spoke, and speeches were made by Borough President McAneny, Count von Bernstoriff, the German ambassador, and Congressman Richard Bartholdt.

Indicts in New York Scandal. New York, May 13.—State Senator Stephen J. Stillwell, recently acquitted by the senate of bribery charges preferred by George A. Kendall, president of the New York Bank Note company, was indicted for bribery by the grand jury before which he appeared last Friday.

Milwaukee Milk Curb Valid. PROTEST FILED BY JAPAN

President Declares Through Bryan That He Is Ready to Co-operate With California in Systematic Effort to Correct Any Existing Evils.

Washington, May 12.-William Jennings Bryan, secretary of state, has sent to Governor Johnson of California a telegram expressing the wishes of President Wilson that action on the land alien law passed by the California legislature be deferred.

Secretary Bryan ends the telegram with an offer of co-operation on the part of the president to "discover any evils that may exist" in the proposed

Test of Statement. The statement in full is as follows:

"Hiram W. Johnson, Governor: "The president directs me to express his appreciation of your courtesy in delaying action on the land bill now before you until its provisions could be communicated to the Japanese government and considered by it.

"His excellency, Baron Chinda, has on behalf of his government, presented an earnest protest against the justice of the state supreme court. measure. As you have before you but two alternatives, viz: to approve or to veto, it will avail nothing to recall to MANSION BURNED, BOMBS your attention the amendment suggested to the legislature, and as the president has already laid before you movement started at Chicago confer- his views upon the subject it is unnecessary to reiterate them.

> Wilson Appeals for Delay. "He passes over questions affecting treaty rights for two reasons. First, because the bill passed by the legislature is avowedly intended to conform to treaty obligations, and, second, because any conflict complained of would be a matter for the courts, but rage. the president feels justified in expressing again his desire that action on the subject be deferred for this session, and he expresses the desire ture can be reconvened at any time if the welfare of the state requires it. He is fully alive to the importance of removing any root of discord which may create antagonism between American citizens and the subjects of Oriental nations residing here, but he is impelled by a sense of duty to express the hope that you will see fit to allow time for diplomatic action. nit Suffragette literature was left The nations affected by the proposed on the scene. law are friendly nations—nations that

REFORM PARTY

REPUBLICAN SENATORS IN SES-SION ISSUE PROCLAMATION ASKING FOR CONVENTION.

WOULD CHANGE THE RULES

Cutting Down Basis of Representation From Southern States, and Direct Election of Delegates to National Body Are Demanded.

Chicago, May 13.-Demand for a Republican national convention this fall was made by several senators of the United States upon the Republican national committee. A proclamation to this effect was the net result of the three days' conference held in the congress hotel. The plan of the senators, headed by Albert J. Cummins of Iowa, is to change the rules of the Republican organization machinery in such manner as to answer the charges of a "stolen convention"—the cry that went up in the Chicago national Republican meeting o fa year ago.

What Changes Are Desired. The changes desired by the senators are these:

Cutting down the basis of representation from the southern states to representation of the Republican vote and not on general population.

Delegate contests to be settled by the state and not arbitrarily by the

national committee. Direct elections of delegates to national conventions giving indorsement to primary elections in a national sense.

Text of Proclamation. The proclamation given out after

the conference adjourned follows: "At an informal conference of Republicans from eleven states, held in Chicago May 12, 1913, it was voted that it would be submitted to the national Republican committee as the opinion of those present that a national convention of the party should be held this year as as early a date as may be practicable. The purpose is to consider the expediency of changing the basis of representation in future conventions so that delegates shall proportionately represent Republican

voters and not general population. "This is to the end that the will of the members of the party may be more accurately determined. Also for the purpose of changing the rules relating to delegates and members of the national committee so that the primary election laws of the various states shall be recognized and have

full force. "Also for the purpose of making such other changes in the methods of conducting national conventions and campaigns as shall conduce to giving the utmost possible effect to the prin-

ciples and policies of the party. "It was further the opinion that such a convention might properly and usefully take any other action desirable to reunite the party and to give assurance that it stands for constructive and progressive activities in the affairs of government to the end that the common welfare may be ad-

vanced. "It was the unanimous belief of those present that the changes suggested should be made forthwith and that the national committee be strongly urged to take steps to such an

end.

Sherman to Name Committee. Lawrence Y. Sherman, senator from Illinois, who presided over the conference, was authorized to name a committee of three to present the proclamation to the executive committee of the party national organization in Washington on May 21. The official statement issued was prepared by a committee composed of Robert Luce, former lieutenant governor of Massachusetts; Senator William F. Borah of Idaho, Senator W. S. Kenyon of Iowa, W. F. James, state senator of Michigan; J. A. Troutman,

EX-SENATOR CULLOM IS ILL

state senator of Kansas.

Some Apprehension Felt Concerning Condition of Venerable Statesman Suffering From Cold.

Washington, May 12 .- Former Senator Shelby M. Cullom of Illinois is ill at his residence here and some apprehension is felt about his condition. He caught cold several days ago and has been confined to his bed. Last winter he had a similar attack but recovered and took up his duties as resident commissioner of the Lincoln memorial commission.

The former senator is in his eightyfourth year.

VINCENT ASTOR IS STRICKEN

Suffers From Severe Cold and Throat Trouble-Reception to Senators Abandoned.

Poughkeepsie, N. Y., May 12.-Vinvent Astor returned to Ferncliffe, his country home at Rhinebeck, in a state of collapse and was so ill that the reception which he planned for the members of the senate committee on military affairs at Ferncliffe was abandoned. Mr. Astor is suffering from a severe cold and his throat has caused him much distress.

Finds Pearl Valued at \$1,500. Maiden Rock, Wis., May 13.-Ten minutes after Mrs. Charles Hannan found a pearl, worth \$300 in a claim shell, her husband found the most beautiful pearl ever discovered in Lake Pepin. It was valued at \$1,500.

PROMINENT MEN

FIRST STATE CONFERENCE OF CORRECTIONS AND CHARI-TIES, MAY 26-29.

SESSIONS FOR ANN ARBOR

Men and Women of Prominence in Social Service Work Interested in Gathering-Program Is Not Yet Completed.

Lansing, May 13 .- If topics of interest and men and women of prominence in social service work count for anything, the first state conference of corrections and charities to be held in Ann Arbor May 26, 27, 28 and 29, should be a notable occasion and of great interest, for the program will contain such topics as "Vice as a Labor Proposition," "Public Relief ver sus Private Relief." "Housing Reforms in Small Cities and Towns," "The Moral Value of Play," and "A Suggestion for After Care of Patients Released From State Hospitals."

Such men and women as Alexander Johnson, national secretary of corrections and charities of Angola, Ind.; George A. Bellamy, head of Hiram House, Cleveland, O.; Miss Luella Burton, chief woman inspector of the department of labor for Michigan, Lansing; Dr. J. P. Gilmour, warden of the central prison, Toronto, Ont.; Mayor Brandt Whitlock, Toledo, O.; Timothy Shea, chief probation officer of Syracuse, N. Y., as well as a number of prominent Michigan men and women. The program is not completed as yet, and probably will not be before May

Good Showing by State Banks.

State Banking Commissioner Doyle, in a report issued, shows that the 450 state banks and trust companies in Michigan made a gain of \$6,585,520.20 in aggregate business since the last report, February 14.

Not only has the aggregate business increased, but loans are also looking up and a general indication that the banks are prospering is noted. A total increase of \$6,768,483.09 is shown in loans made since February 14, 1913, while a comparison with the report of the department for April 18, 1912. shows an increase in loans of \$27,-391,446.98.

The total increase in deposits since the February report amounts to \$4,-272,889.17, of which \$355,425.87 was in commercial deposits and \$3,917,463.30 in savings deposits. Capital stock increases amount to \$647,423 over the February report. As compared with the report of a year ago deposits have increased \$20,387,849.23-\$6,210,975.87 in commercial and \$13,156,8733.36 in savings.

Total reserve maintained in Michigan state banks and trust companies on April 4, 1912, was \$62,991,719.48, or 19.11 per cent.

The total cash reserve amounted to \$22,163,677.63 or 6.72 per cent.

These reserves are divided as fol-Savings legal reserve, \$35,939,141.43,

or 16.84 per cent. Savings cash reserve, \$12,210,905.99, or 5.72 per cent.

Commercial legal reserve, \$27,052, 578.05, or 23.25 per cent. Commercial cash reserve, \$9.952,

771.64, or 8.55 per cent. The total reserve carried by Michigan state banks is, therefore, \$11,032,-619.48 over the requirements of the

banking law.

Based on floating deposits of \$213,-335,475.92, the law requires mortgage and bond investments of at least \$106,-437,800.67. The above abstract shows that the mortgage and bond investments exceed the requirements of the law by \$32,145,791.72. The sav-President Harry B. Hutchins of the ings investments, together with the savings reserve, exceed the savings deposits by \$5,299,771,72.

Since the first of the year 13 new state banks have been organized with a total capital stock of \$290,000. They are:

The following banks and trust companies have increased their capital stock since the first of the year:

Merchants' Savings, Battle Cree\$ City Bank, Battle \$ 50,000 to \$ 125,000 100,000 to 150,000 25,000 to 50,000 City Creek Lapeer Savings bank... Highland Park State Royal Oak Savings..... Peninsular State, Detroit 30,000 50,000

back. Get rid of it. Attack the cause. Probably it's weak kidneys.

Heavy or confining work is hard on the kidneys, anyway, and once the kidneys become inflamed and congested, the trouble keeps getting worse.

The danger of running into gravel, dropsy or Bright's disease is serious. Use Doan's Kidney Pills, a fine remedy for backache or bad kidneys.

WHERE HER THOUGHTS WERE

Most Married Men Have Had a Similar Experience, If They Will Admit the Truth.

The husband was reading a newspaper account to his wife. Now and then he paused and asked a question. The nature of her replies made him doubt that she was listening closely. He accused her of having thoughts elsewhere, and she indignantly retorted that she had heard every word.

He continued reading for a few minutes and then glanced at her. From the far-away look in her eyes he knew her thoughts were not upon the item he was reading. So, turning the sheet as an excuse for a pause, he continued as follows, apparently reading:

"'Last night, about two o'clock in the afternoon, just a few minutes before breakfast, a hungry boy about sixty years old bought an orange for nine pins and threw it through a concrete wall twenty feet thick. With a cry of despair he jumped into a dry mill pond, broke his arm at the knee joint, and was drowned. It was only ten years later, on the same day and at the same hour, that a goat gave birth to six elephants. A high wind then came up and killed three dead horses and a wooden cigar Indian.' What do you think of that, dear?" he questioned, suddenly.

She gave a little start, smiled, and

"I think that's a splendid bargain, there is now a strong belief that both Henry. You had better get half a dozen, for your stock of shirts is low."

Militant Spirit.

We were lined up at the booking office window, taking our places. In front of me was a burly man. All went well until a woman broke the Baraga county, was convicted at Lanz line and planked her twopence in front of the burly man. The man ing his father, John Shelafoe, in a sa- swept it aside. "I've always taught my wife," he said, "to be polite to gentlemen." "I'm very glad I am not If you must use manure in the newly mind that whenever you change feed father interfered and the son shot him. your wife," said the woman. The man in front of me took his ticket and said, as he moved on, "I took that precaution some years ago."-London Chronicle.

> Neighborly. Not long since a man moved into a certain village. After a week or so a friend called on him and asked

how he liked his new home. "Pretty well," he said. Have you called on your neighbors

"No," he replied; "but I'm going to if any more of my wood is missing."

Considerate. "A cubist has asked me to suggest a name for his latest picture." "Are you going to do it?"

"No, I'd hate to hurt his feelings." Queer Trouble. "We are having a hard time with that smoke."

"A hard time? That's odd. It's

from soft coal."

CLEARED AWAY Proper Food Put the Troubles Away.

Our own troubles always seem more severe than any others. But when a man is unable to eat even a light breakfast, for years, without severe distress, he has trouble enough.

It is small wonder he likes to tell of food which cleared away the troubles. "I am glad of the opportunity to tell of the good Grape-Nuts has done for me." writes a N. H. man. "For many years I was unable to eat even a light breakfast without great suffer-

"After eating I would suddenly be seized with an attack of colic and vomiting. This would be followed by headache and misery that would sometimes last a week or more, leaving me so weak I could hardly sit up or walk. "Since I began to eat Grape-Nuts I have been free from the old troubles. I usually eat Grape-Nuts one or more times a day, taking it at the beginning of the meal. Now I can eat almost

anything I want without trouble. "When I began to use Grape-Nuts I was way under my usual weight, now I weigh 30 pounds more than I ever weighed in my life, and I am glad to speak of the food that has worked the change." Name given by Postum Co., Battle Creek, Mich. Read the little booklet, "The Road to Wellville," in pkgs. "There's a Reason."

Ever rend the above letter? A new one appears from time to time. They are genuine, true, and full of human interest

eighteen strong. They need money to carry on the work efficiently, the principal expenses involved being the salary for the leader. The boys are willing to do their part and the citizens ought to come across. We understand that the salary for a leader last year amounted many years and grew rich in members to \$25 per month. This is a fair price and subscriptions. Among its memand the results more than justify the bers was the veteran journalist Ernest outlay. If we are willing to listen to Blum, who, however, was rather clumthe band let's get busy and "pay the sy at his work. He used to relate the fiddler."-Iron River Reporter.

The case against the Hammels, former bankers of Gladstone, will be tried in them and took off my hat to him, the Dickinson county circuit. The Hammels were private bankers at Gladstone and the failure of their bank caught many citizens of Delta county. Dishonest banking practices were charged against the Hammels by the creditors with the result that they were arrested and in order to secure a fair and impartial jury a change of venue was asked with the result stated above.-Norway Current.

In Stephenson and Nadeau townships, near Daggett, more than 200 families have colonized on an area, of about 10,000 acres. These people are Finns, who have been at work in the copper country for some years. They have, by their industry and thrift, saved sufficient money with which to buy ciety and who had merely scratched lands and make permanent homes of his nose absently or because he wanted their own. Meantime another colony of Illinois families has purchase I land in Lake townships, near Stephenson, and will locate there this season.

P. H. Martin, the eloquent Green Bay lawyer, delivered a strong and impressive lecture Monday evening on socialism. He demonstrated with much clearness the necessity of developing sition have enlisted him, they are perthe moral forces of the rising generation, if we are to have good men and women and good government. He spoke Monthly. of Karl Marx and his propaganda, and explained the things which are inherently the individual's and not the state's.-Oconto Enterprise. It is to be | years ago the late Frederic Remington hoped that Mr. Martin may make it about as clear what is inherently the due of some of his clients.

CLADSTONE

A SIMPLE PROBLEM.

Section Boss Easily Got the Tool House In the Right Spot.

About ten years before the Eastern railroad was leased by the Boston and Maine that portion of the old road between Swampscott and Salem was in charge of Section Foreman Timothy Moynahan.

His strongest point was in doing just as he was told and doing that with energy and accuracy. So when he was notified from Beverly by Roadmaster Stevens that the section lengths were to be changed and that he was to move his tool house from the westerly end of Salem yard to halfway between mileposts 15 and 16 he started out with the determination to move the house halfway, no more, no less. To get this halfway point he sta-

tioned one of his men at milepost 15 and another at milepost 16, and at a signal they started to walk toward each other until they met, and to a point opposite their meeting place the shanty was moved. This method of getting the correct distance did not quite suit Moynahan, especially when he remembered that one of the walkers was taller than the other and the other tripped several times on the way

He carried this in his mind for nearly a year, when he met the engineers measuring through for signals and asked them to tell him as they measured if his house was just halfway or

When the measurement was taken, the house was found to be sixty feet nearer milepost 16 than 15, and Moynahan, on being told, remarked that he thought he could fix things just right. Later in the year the engineer met Moynahan in Salem and asked him if his tool house was now halfway between the mile posts.

"It is," he replied. "It's just half-

"Did you have much trouble moving "No trouble at all. I just let it stay as it was and moved the milepost."

Rough on Aunt Anna.

When Rev. Anna Howard Shaw's little grandniece of eight confessed to her mother that she could not be a suffragette because the other children made fun of her, her wee sister of six flercely exclaimed, "I wouldn't be a coward; they've been making fun of Aunt Anna for hundreds of years!"

None to Spare.

In the days when the Clyde was navigable to Glasgow for only very small vessels, a steamer stuck in the mud near Renfrew, and the skipper was not sparing in strong language. While waiting for the rising tide he

saw a little girl approaching the river with a bucket to fetch some water. This was too much for the poor captain, and leaning over the side and shaking his fist in rage at the little girl, he thus addressed her: "If you tak' ae drap o' water oot here till I get aficat, I'll warm yer ear for't."-Scottish American.

The Solemn Englishman.

An Englishman in New York got in a car and sat opposite to a lady who had a very peculiar looking child in her arms. An awfully funny looking kid it was, and the man could not keep his eyes away from it. He would look at it, look away and then look back again, absolutely fascinated by it, it was so

Finally the mother became very much annoyed over the man's rudeness and leaned over and said to him, "Rubber!" A look of relief came over the Englishman's face as he exclaimed: "Thank heaven, madam. I thought

it was real."-New York American.

Dumas and Coppee. The following interesting story is go-

ing the rounds of the European press: "Francois Coppee's one act play, 'The Passerby,' in which Mme. Bernhardt appeared, attracted much attention in France. The elder Dumas was so enthusiastic over Coppee's little play that he embraced the author in the foyer of the theater in the presence of a large gathering and exclaimed: "'Oh, you talented man; tell me

your name!'

"But Coppee was on guard. He knew Dumas; he knew that he was leading a luxurious life and that he borrowed money right and left to maintain such a mode of life. And Coppee was known as a rather stingy young man.

"In answer to the flattering question of Dumas. Coppee also embraced him and said!

"'Oh, divine Dumas. I shall never dare to mention my insignificant name in your presence!'

"Dumas was flattered. He shook Coppee's hand warmly and exclaimed: "I wish that every young French man were as modest as you are!'

country where the natives themselves Lieutenant Graetz left Berlin on Hour after hour went by and still bear pain with stoical indifference,

on the river bank, with the motor boat at my feet, supported by two howling native servants.

"'Where is Fiere?' I asked. "'The others are bringing him; he will die soon, too,' they replied.

"'And the buffalo?'

"'Dead,' was the laconic reply. "A thick flood of blood was continually flowing from my mouth and the right side of my face. The natives lifted me into the boat, and with every moment the blood flowed faster.

'Quick,' I managed to gasp, 'the medicine chest!'

"They brought it to me. There was only one thing to do and that quickly. Sew, sew, sew! Terrible necessity taught me how to ply the surgical needle. With a native holding my shaving-mirror before me and another

thrust the needle through the flesh. A jagged, irregular hole as large as my hand gaped in my right cheek; | now that it is canned in such satisfacmy under lip hung loosely quivering. tory ways, can be placed on the table Under the horrified gaze of the natives I jabbed the bent needle again and again into my flesh and cobbled the tattered ends together.

"The pain was excruciating. Heaven alone helped me to keep my this crushed mass a long splinter of loosely by the nerves and flesh of the gums. The whole outer flesh of the roots and bones lay white and shimmering through the hole in my cheek. My tongue, pierced by the point of the buffalo's horn, was half torn from its foundations. I spat continuously splinters of bone and teeth.

"At last the operation was finished to the best of my ability, and I bandaged by face as best I knew how. A strong stimulant gave me new life and helped me to face the other surgical operation for Fiere.

"In the meantime the tent had been erected and a bed prepared for my poor companion, from whom James. the cook, had already cut the clothes with a pair of scissors. He had recovered consciousness, and softly his pale lips formed the words. 'tres mauvais' (very bad). He had been pierced and tossed three times. The and lungs were untouched. In the left side, between heart and hip, was a great tear. This wound I immediately sewed together. James washed, bandaged and put Fiere to bed. He breathed regularly, and seemed to sleep.

"Night fell dark and dismal-a by way of the River Quaqua, Lacer- pened. There was no sign of life been impaled upon the sharp and night full of pain, during which my until the crumbs are a golden brown. mouth seemed full of red-hot stones. Toward morning a short, troubled shed to Fife. The motor-boat was fast was found, and the two men ran huge beast nosed under the lieutenof dawn I awoke to fresh tortures. lettuce. Everything was deadly still. I summoned the servants by clapping my hands and they opened the tent door. horns of the beast, in the vain hope Fiere's bed. The first light of day fell on a pale, shrunken face. It was death."

So, on the very threshhold of success one was taken and the other hours to Graetz, man and beast pitted left, a shattered wreck. Far from all aid and alone with his native servants, Lieutenant Graetz faced the situation as only a man of his callber could. One of the natives was dispatched at once to Kasama, in northeastern Rhodesia, to summon ding which is just now brought to help. This was the nearest point inhabited by white men.

Dr. G. F. Randall, the district surway deep into Graetz's right geon, and Mr. Cookson, the magischeek. He cried out with pain and trate of Kasama, marched day and then felt himself suddenly hurled up- night for two days to his relief. ward into the air and consciousness Hastily further operations were performed under the most difficult circumstances. And then, on an improvised stretcher, Graetz was carried to Kasama. One can imagine the painful journey, a journey rendered all the more pitiful because of the loss of his trusted assistant. The relief party buried poor Fiere at Charenama, but later his body will be brought to Kasama and re-interred and serve with a sauce made of a there by the white fathers of the Catholic mission,

To most men this disastrous setback would prove an insurmountable hindrance to the completion of the program; but with Lieutenant Graetz it was different. He has started again and will continue his fourney until it is completed or until death claims him. He intends to reach the mouth of the Congo by the end of the year. A man of superlative grit, who flinches from no dangers and who knows not what the words fear and

defeat mean! He is entitled to a place in history beside Livingstone, Stanley, Gordon and the others, yet probably he will be forgotten except by those who fully appreciate, all he has achieved for science. When we head at the end of the year that he has traversed the dark continent from east to west, we shall know that he has done what he said he would do, despite the difficulties in his path. Shall we all recognize what this means? Some may-those who, perchance, have done similar deeds, or those who know the African continent and all its lurking dangers. Do not forget that lonely, mangled form lying beneath the earth in far away Kasama. You, who have never heard of such a place—and by far the greater majority have not-may draw out your map of Africa and search it minutely for man who was striving with might and

main to finish the work he had set

A FEW FISH DISHES.

Fish is second to meat in food value, is less expensive in most places, and at almost any season, latitude or longitude. Where the fresh fish is obtainable, the dishes one may prepare are many more, of course. Fish caught and cooked the same day are not to be mentioned in the same class as canned fish. But for the less favored the canned variety is a great boon.

Salmon, With Peas .- Make a loaf of salmon, steam it in a long bread other and less thoughtful woman pan, turn out on a platter and garnish would throw away. One day a cupwith a sauce of green peas. If the ful of canned tomato soup, which had canned ones are used, thicken the been used for an invalid and the sauce with a few of the peas put amount left was not large enough for lower jaw was scraped loose. Teeth, through a sieve, to make a green

prepared thus: Flake a can of sal- (about two tablespoonfuls), add three mon (there should be three-fourths of or four tablespoonfuls of well washed a cup of the salmon), season with salt, rice; when nicely browned add a cayenne and two teaspoonfuls of lemon juice; add a cup of thick white Cover with water, season with salt sauce and shape in the form of cones. and pepper and simmer; do not stir Dip in egg and crumbs and fry in deep and crush the rice grains. Add more fat. Arrange around cream peas, gar- boiling water as needed. When the nish with parsley.

White sauce has been given so many not make it in the easiest and best way. Melt the butter (two tableblespoonfuls of flour, and when well ent from one made by heating the serving. milk and adding the flour mixed with a little cold milk and the butter just ily is fond of greens, a most interestbefore taking off.

Escalloped Fish.-Take any cold cooked fish, arrange in layers in a baking dish with white sauce, and finish the top with buttered crumbs. Bake

If one has a little salmon left, combine it with chopped cabbage, a pickle cut fine and a bit of salad dressing, and serve for a supper salad on pan with three quarters of a pint of

SOME PUDDINGS TO TRY.

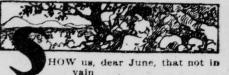

A most delicious and simple pudour minds as the fresh maple sugar is coming into the market, is prepared Spread it (after rolling out very thin) with butter and sprinkle with a generous amount of grated maple sugar, roll up and cut in small pieces like cinnamon rolls; bake in a hot oven and serve with hot maple sirup and a little whipped cream.

Graham Pudding .- Mix together two-thirds of a cup of molasses, onefourth of a cup of butter, one-half cup of sour milk, one well beaten egg, one-half teaspoon of soda and one and of milk that has been scalded with a half cupfuls of graham flour. Bake two tablespoonfuls of chopped onion. beaten egg added to a tablespoonful of cornstarch which has been cooked | Cook five minutes and serve. Garnish in a cup of boiling milk. Flavor with with whipped cream. vanilla.

biscuit dough and roll it out to a fourth of an inch in thickness. Spread spoonfuls of flour, a pint of cream, over it (leaving the edges uncovered) salt, cayenne and minced parsley. any kind of fruit, fresh, jelly or mar- Parboil a red pepper cut in strips, add malade. Roll up the dough closely it to the sauce with a teaspoonful into a roll, pinch the ends and steam each of onion juice, Worcestershire for an hour. Serve with any preferred pudding sauce.

Lemon Rice Pudding .- To one cupful of boiled rice add the rind of a lemon, two tablespoonfuls of butter, the yolks of three eggs and a pint of over the top of the pudding when done. Return to the oven to brown slightly.

Peach Shortcake .- Either fresh or canned peaches may be used for this recipe, of course the fresh fruit is always to be desired. Bake the cake i and arrange, after being well buttered, with the peaches, then heap on a sauce made as follows: Bake a banana, add it to the well beaten white of an egg and two tablespoonfuls of sugar; flavor with vanilla, beat well and serve as a sauce. One banana to one egg white is sufficient for four individual shortcakes.

Our lives need be Show us that we wait, through frost and rain, To bloom like thee. -Lucy Larcom.

BUSY HOUSEWIFE'S AIDS.

The woman who is constantly using her head in her kitchen management will make discoveries which will sid her in using bits of things that anthe family, was used in place of the tomato for a Spanish Rice Dish. Have Another form of the some dish is a frying pan with hot drippings clove of garlic and the cup of soup. rice is tender it is ready to serve.

A pretty way to serve eggs, and the times that it hardly seems necessary sauce may be made of left-over toto repeat, yet there are many who do mato soup: Cook a half dozen or less eggs, remove the shell, and cut a slice from the end, to make them spoonfuls for an ordinary sauce), and stand; cut in halves, remove the when it is bubbling hot add two ta- yolks, mash and season and refill the whites, heaping the mixture well on mixed, a cup of milk and a half tea- in mounds. When lettuce is plenty, if your faming dish of greens may be prepared from cooked lettuce. Season well with butter, or salt pork may be cooked with it to advantage.

When the first juicy, sweet mushrooms come in May, try them cooked this way: Peel and stalk the mushrooms, if necessary wash them and drain quickly. Put them in a saucemilk, then add a tablespoonful each of flour and butter cooked together. season with salt and pepper, and lemon juice. Serve hot on a dish garnished with toast points fried.

Orange Salad .- Shred sections of oranges, mix equal parts of cut-up celery and a few choice raisins seeded. Arrange on lettuce leaves and garnish with raisins. Serve with Mayonnaise dressing.

WHAT TO EAT.

Spinach as a vegetable or a salac or a soup is always good, and now it is quite plentiful.

Spinach Soup .- Cook two quarts of spinach in boiling water. Press through a sieve and add three cups a bit of bayleaf, salt and celery salt; strain and add to the spinach mixture.

Deviled Lobster .- Make a white Roly-Poly Pudding .- Make a rich sauce of four tablespoonfuls of butter. and when bubbling hot add four tablesauce, a pinch of mustard and a few drops of tabasco. Reheat, with a pint of lobster meat. Serve on rounds of buttered toast.

Crabs in Red Peppers .- Parboil eight red peppers. Make a white milk. Bake for twenty minutes. Beat sauce, using four tablespoonfuls each the whites of the eggs, add a cup of of flour and butter, a cup of cream and sugar and the juice of a lemon, spread a tablespoonful of onion, a dash of mustard, cayenne, nutmeg and salt. Mix the sauce with a pint of crab meat. Fill the pepper shells and cover with buttered crumbs. Bake until the crumbs are brown.

Great "Tope" at Sarnath

Five hundred years before the Christian era Buddha came from Gaya to Sarnath, four miles from the present Benares, to establish there his religion. The great "tope," a huge upright cylindrical mass of stone and brick work, bacilli of Asiatic cholera as well as which rises 110 feet above the surrounding ruins, stands in the middle of what pneumonia, and there is evidence that was called the deer park. The story is that Buddha, struck by the loveliness it has been preventive of some forms of the gazelles, took the form of one and became king of the herd. A certain rajah, hunting one day with a cheetah, saw this splendid creature and ordered the cheetah to be loosed upon him. Just as the leather hood was about to fall from the cheetah's eyes, the mind of the rajah became enlightened and, prostutional effects which diminish the retrating himslf in the dust, he cried out: "Oh, sublime master, truly thou art sisting power of the body to disease, a man-and what a man!-in the shape of a beast, whereas I, that wickedly sought to kill thee, I am a beast-and oh, how stupid a beast!-hidden under would afford not only no protection the shape of a man." In the tenth century Buddhism was crushed out by the but an opening for invasion. Brahmins, and a Sarnath the great monastery was destroyed by fanatic fury and its surprised monks were burned in a gigantic holocaust.

STRANGE DEEP SEA FISH

Some of the strangest of nature's grotesques are to be found among the fishes, as witness this photograph of a marine creature, which rather suggests a parrakeet. It is a denizen of the ocean depths.

TAKES BATH IN PORTER

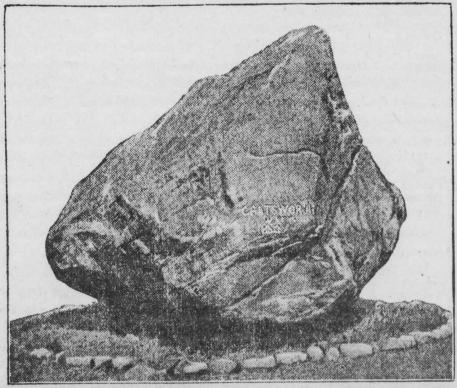

FIGHT WITH AN OCTOPUS

Attacked by an octopus a young man of Waimate Island, N. Z., had an exciting experience, a few days ago. He was gathering mussels in the sec close to the shore on one of the islands in the gulf when the young man with cries for help attracted the notice of his father. On arriving to see what was the matter, the father found that an octopus had one of its tenacles, as big as a man's wrist, wound round the boy's leg. The creature had so strong hold of the lad that it drew blood before they could be separated.

CLOSE CALL FROM DEATH

Falling 80 feet, a five-year-old child, Lily Keys, daughter of Band Corporal Keys of the Lancashire Fusiliers, had a remarkable escape from death at Swimming in porter at a Cork brew. Dover the other afternoon. While ery the other day a workman had a picking flowers near the edge of the narrow escape from drowning. A vat cliff facing the military hospital, she of porter, with a capacity of 560 bar- lost her balance and fell a distance of rels of 36 gallons, burst, the contents 80 feet. Drummer Jones of the Berkrushing like a flood through the brew- shire regiment witnessed the fall and ery yard and into the cellars. The found the child semi-conscious. At porter which reached the roadway the military hospital it was found that was diluted with water from a fire beyond cuts and bruises she was uninjured.

A Famous Rocking Stone

The shaky boulder, north of Larchmont, N. Y., weighs about 150 tons, but it so. It attaches itself for life to a man of ordinary strength can rock it three inches. On it are the words, one plant which it chooses for its "Chatsworth W. Bryson, C. E., 1853," inscribed when Chatsworth Heights was friend. Some botanists call it "life in surveyed and a street put through the woods.

WHERE IS GARDEN OF EDEN?

Forty miles west of old Bagdad, in the vast level valley of the historic Euphrates, near Hit, of the Hittites, lies the traditional Garden of Eden. Such is the interesting conclusion of Sir William Willcocks, the famous Egyptian engineer and Bible student, and many other authorities agree

"Out of Eden came a river which watered a garden, and from thence it was parted and became four rivers." And these four rivers, known in Bible days as the Pison, Gihon, Hiddekel and Euphrates-the ancient "River of Babylon"-have been identified by Sir William.

It was while studying, surveying and mapping Chaldea previous to starting work on the giant irrigation scheme planned for Mesopotamia, that Willcocks became convinced that the real Garden of Eden lay in the region described.

The Garden of Eden lies away over in Turkish Arabia, too far from the beaten tourist trail to draw many sightseers. Probably not a dozen white travelers see it in a whole year. To reach Chaldea the safest and surest route lies through the Suez, over Pharaoh's bones in the Red Sea. through the Straits of Bab-el-Mandeb, up the hot Persian Gulf, and thence 500 miles along the winding Tigris and Euphrates

SMOKING AND HEALTH

Those who smoke in moderation have a far better chance of resisting disease than those who do not smoke

Definite experiments have recently been made which show that tobacco smoke rapidly destroys in particular the comma bacillus of cholera.

A good many years ago, says the Lancet, it was reported by the senior medical officer of Greenwich workhouse that the tobacco-smoking inmates enjoyed comparative immunity

from epidemics. During a cholera epidemic at Hamburg it was reported that not a single workman engaged in the cigar factory in that city was attacked by the disease. Later it was stated that amongst a body of 5,000 cigarmakers only eight cases and four deaths from

cholera occurred. Tobacco smoke has destroyed the of nasal catarrh.

Excessive tobacco smoking, of course, may easily give rise to constiin which case it is probable the habit

A BAT HIBERNATING

This picture was taken in a cave in the Wyndcliff, near Chepstow, England. It shows a bat hibernating. If viewed upside down the bat looks like some uncanny animal walking.

NOW THE "ELECTRIC SLEEP"

Electric sleep, to be "turned on" or "turned off" at will, is the alluring promise held out to sufferers from sleeplessness by Dr. Nagelschmidt, a German physician.

So far electric sleep has been produced only in rabbits and dogs, but the experiments on animals have been so free from ill-effects that Dr. Nagelschmidt thinks human beings can be subjected to the same treatment with-

out danger. Dr. Nagelschmidt asserts that his new method also has the power to eliminate pain in any portion of the human body. A condition is produced in which pinpricks, or even the incisions of the surgeon's knife, are not felt so long as the patient remains in an "electrified" state.

THE CORPSE PLANT

The Indian pipe, or corpse plant, is a strangely interesting kind of parasite. It has a bunch of fibrous roots which attach themselves to the roots of other plants, or sometimes they grow in decayed vegetable matter. The plant is white, and has no leaves. but little bracts instead. The flowers have no odor and turn black as soon as they are plucked. Many botanists claim that the Indian pipe is an unpleasant plant, but we have not found

WINNING OF A MAN

What Happened When a Real Man Entered Upon Winona's Horizon.

BY HARMONY WELLER. Winona sighed deeply. She felt that her reasons for sighing were many

and good. In the first place Winona firmly believed that the numerous suitors for her hand were merely after her money. She had not stopped to realize that her eyes were gloriously blue and her hair a shining mass of copper, nor did she know that her character was lovable and her mentality above the average. All she reckoned on was the fact that her money was a snare for fortune hunters and she doubted her swains, one and all.

Secondly, she sighed because she had had a splendid art education, yet wealth and social obligation had kept her from manifesting her talent. Winona had taken a course in interior decorating and in her heart she felt that she would reach supreme heights of happiness if she were allowed to dab paints on the walls of adorable little bungalows.

Thirdly, she sighed—and perhaps she sighed deepest-over the fact that a real man, the kind that would take her heart and life by storm, had failed to appear on her horizon.

"Perhaps I am just naturally hard to please," she reasoned, "but I simply cannot love a man who idles about in a steam yacht or touring car all day and who haunts the cabaret restaurants by night."

A tear squeezed itself from beneath Winona's lashes; then a second and third. After that her head went forward and she wept out her unhappiness on the Irish lace that covered her sofa pillows.

Her father coming in found her curled up like a kitten and with tears streaming down her lovely cheeks. "Winny!" he cried, and took her

into his arms. "I am just terribly unhappy," she smiled at him through her tears, "I want a long brown painting apron and brushes and paints-and-and some-

thing to paint!" "Bless my soul, child-you can have an entire shop if you want it. As for something to paint. I can give you a contract that will tax even your clever

schemes for decorating." Winona smiled into her father's

"Tell me quickly!" she demanded. "I will be so happy you won't know me-if I can just be a working person for once.'

"I have seen an architect today about putting up a dozen bungalows on the West Park road. I want them to be little gems along the drive and the young chap I have chosen has ideas that I like. Now you and he can get together—that is if you can ended with a laugh. "I am not sure that I would let him know that you are my daughter," he added; "he might be inclined to give way to youthough Davenport doesn't seem like the man who would give in much to anybody."

Winona pouted, then hugged her father. Her cheeks were free of tears and her eyes sparkling.

"I love the idea! I shall go straight away and get a plain frock such as a working artist would have. You are a and upon opening the paper had dear!" she cried excitedly and hugged him again.

When Winona met John Davenport she was not sure that they would avoid the blows that her father had laughingly suggested. The young architect had looked at her in a more or less supercilious manner when he had learned that he, in a way, was to work with her.

"He is evidently one of those unillumined men who think that anything feminine belongs seated at the side of a sewing basket. I will show him!" she decided and Davenport fell to wondering why the girl's blue eyes

had narrowed in so peculiar a manner. That was but the first of his wondering. From the moment he and had not declared himself. Winona began to talk actual business he was kept in a state of continual surprise.

"She is a clever artist," he told himself often when some particular bit of them bowling down the hill. The designing was discussed. "And after all—the feminine mind should know line.'

Had Winona realized the praise that she would have been even happier in those days of work when the bungalows were progressing at a splendid rate. But she did not know it and he handed over the hat to him who her heart was beginning to feel that still sat on top of the hill. "I guess a real man had entered upon her you're an optimist, too. You didn't horizon.

Notwithstanding her first impression she knew now that John Davenport sionate reply. "I knew that 'mine proud of winning. The close compan- a fatalist." lonship and exchange of ideas gave her ample time to know him as she had known no other man. He would never idle away his days on yachts and motor and Winona smiled when she tried to picture him at a cabaret show or dancing the one-step.

"And I think he likes me," she told herself with a little happy sigh; "his eves tell me so.'

She was high on her ladder painting fleecy clouds on the ceiling when she heard his voice in the next room. He was speaking with some one whose voice was feminine and rich. Winona almost stopped breathing so suddenly had the seeming position

struck her. The architect was showing the bungalow to someone. "I like this the best of all, dear,"

the feminine voice went on. "The decorations appeal to me most. Could we take this one or has it been sold?"

"No-it is the last but one to go. I think we could be very happy here-it is just big enough for you and me, isn't it? I will make arrangements for the purchase this afternoon." He turned suddenly and sprang into the next room. A crash had sent the red

blood out of his cheeks. "Winona!" he cried and picked the girl up. She had toppled from her ladder and lay white and still in his arms. Fortunately she had fainted before falling and the limpness of her body had prevented serious injury.

"Oh-h," she sighed, and opened her eyes wonderingly. Davenport's arms tightened about

her and Winona felt him tremble. "Tell me, dear-are you hurt?" he questioned tenderly. He glanced quickly up at the other woman who stood beside him. "Mother," he said. I want you to know the girl I love-I have told you so much about her."

heart took up the beat where it had left off when she thought her architect had been speaking to his future wife. Later on, when they had decided upon an early wedding. Winona looked don Mail. up at Davenport with rather fright-

Winona drew a long breath and her

ened eyes. "But I have stacks and stacks of money," she said and waited fearfully

for his wrath. "So have I, sweetheart," he laughed, more than I can in any way take care of. So let's forget it and just

be happy.' We won't have much trouble doing that-will we?" Winona sighed hap-

"Is this the way you two build bungalows?" asked Winona's father, who stood in the doorway.

"Yes," and we are going to build one more," John Davenport said. (Copyright, 1913, by the McClure Newspaper Syndicate.)

MOST FICKLE OF ALL GEMS

Opals Readily Affected By Changes of Temperature, and This Has Brought Them III Favor.

The superstition which causes people to regard opals with awe as the cause of ill luck, and even death, is due to a peculiar observation made many years ago. Opals were considerably in use in Venice during the plague and it was noticed there in the hospitals that before death the stone would sometimes brighten upon the victim's finger. It never seemed to occur to the people that the illness could produce a glow of color. They took it for granted that the stone occasioned the illness.

As a matter of fact, opals are affected by heat, even by that of the hand, and the fever, being at its height just before death, caused the colors to shine with unwonted clear-

This confirmed the superstition, and to this day there are sane and ablewithout actually coming to blows," he bodied people who believe that a chip of this stone in the house can cause calamities.

Probably another reason for the distrust excited in opals is the fact that they change and lose their color. That is due to the softness and porousness of the material, and its capacity both for absorbing water and of parting with what it has, one of which tends to make it dull and the other chalky and opaque. They have been known to be carefully cut and laid away.

crumbled into dust within a few weeks. A species of opal known as the hydrophane, found in small quantities lately in Colorado, has wonderful powers of absorption. In its usual state it is of a yellowish, waxy tint. but when water is dropped upon it the tint passes slowly away, and from being translucent it becomes transparent. On exposure to the air the

HAVE LONG DURATION OF LIFE

Salt Water Denizens Attain Immense Age, If Scientific Investigations Are Correct.

Water, particularly salt water, seems to conduce to longevity. There are gigantic mussels and oysters whose age is assumed to be comparable only with that of the Cape Verde baobab tree and the big tree of California, which live for 5,000 years. Indeed, there appears no particular reason why mussels should ever die, though it is also true that, considering the sort of life a mussel leads, there seems no particular reason why it should ever have lived.

Sea anemones, again, delicate and sensitive though they look when we see them in the rock pools, may attain great age. Sir John Dalvell, a Scottish naturalist, captured in 1828 a sea anemone of the liver-colored sort so common around our shores Its age was then estimated at seven years. It flourished in Edinburgh until 1887, and was just attaining a vigorous and sober maturity when, from some unknown cause, it died .- Lon-

Tact; Son Gets Down to Tacks.

Henry, age five, had two younger brothers. Henry's father had just moved, and was busy laying the kitchen linoleum. In order to facilitate the work he gave Henry the task of furnishing his with tacks. The little fellow worked faithfully for half an hour. Suddenly, however, he turned to his father and said:

"Papa, you like me best, don't you?" "Oh, I like all my boys," said the

ERRORS OF BEGINNER

Element of Common Sense Often Is Woefully Lacking.

Having Blundered in Initial Move He Now Proceeds to Crowning Folly of Purchasing Cheap Stock-Way for Success.

Practically all beginners are honest in their belief in the business, but it seems at times that the simple element of common sense is woefully lacking in the majority of cases-perhaps because common sense is not so common after all, writes W. B. Thomas, in Utility Pigeons.

Having blundered in his initial move, he now proceeds to the crowning folly of which he can be guiltyhe buys cheap stock because it is cheap. He is either victimized by the proverbially conscienceless dealer, or he takes the stock of some fellow who has already demonstrated himself a failure: in either case he gets a sorry

Now suppose that instead of committing the usual folly, the beginner applies a little of that golden specific that I mentioned above,-common sense. Instead of an old shack, suppose he provides a good rat-proof house, built on plans approved by experienced breeders; then suppose he looks up some good, reliable breeder

Squabs One Week Old.

and invests in a few, well-mated working birds. Then, having posted himself as fully as possible by reading good pigeon literature, let him give his stock that careful attention indispensable to the well-being of all living things, and it will not take a very talented prophet to predict a result quite at variance with the one first outlined.

Squabs die in the nest or are found on the floor or do not fatten up properly, when the old birds are not fed properly. A young squab is not to be compared with a young chick. A very young chick can run about and help necessities of life; whereas the squab is utterly helpless at its birth, and is unable to walk and must be fed in the nest by the parent bird and with whatever the parent birds may feed it.

The watchful pigeon man is the one who gives his flocks the best of care. He keeps them in health by noting the first signs of ailment.

Hay Should Not Sunburn.

The feeding value, as well as the market value, and palatability of hay is lowered by being sunburned. The feeding value is probably hurt most by the loss of leaves. Sunburned clover and alfalfa lose a large part of the leaves in handling, and this is the best part of the crop.

When the sun is shining very brightly the alfalfa or grass should not be left in the swath long. A large part of the curing should be done in the windrow and the cock. Most of the hay is then shaded and so the damaging effect of intense sunshine is reduced to the exposed portion. And a stock cover will still further lessen the injury from the sun as well as

There is nothing the matter with the hen that shows a bright eye and a red comb. Exercise is a better laying stimu-

lant for the hens han heat-producing condiments. Establish, if possible, a brand of

eggs which will in itself be a guarantee of good quality. Green food of some kind is necessary to make hens do their best in

the line of egg production. Eggs ought to weigh a pound and a

net to the thirty dozen eggs. It is poor policy to change the quarters of hens or pullets while laying, for it usually checks or stops egg pro-

Experiments show that chickens with strong vitality and plenty of masculine characteristics make the

The best place for the incubator is the one where the temperature is most nearly uniform from day to day, fluid. Opening or other surgical operunder natural conditions.

Collect the eggs regularly at least once, better twice, a day in moderate ings usually do no harm, and most of weather and more frequently in very warm and very cold weather.

Where green cut bone is fed, about 4 ounces a week fed in small quantities at a time is a good average allowance per hen. It need not be fed ev-

If taken at a very early age chickens can be taught to come and go at certain times, to feed in a certain way and do other things that will save time and annoyance.

HABIT OF EXCHANGING EGGS

Exercise of Little Care in Gathering and Selecting Will Net Advance Over Common Price.

There is no satisfaction and but ery little money in exchanging eggs or groceries or grain. By being careful in gathering eggs, so that they won't become chilled in winter and so the hens won't sit on them over night and using a little care in sizing and selecting, quite an advance over the common prices may be obtained.

When possible, sell your eggs direct to the consumer. If not possible, get a market in your nearest city with some grocer who deals in strictly fancy groceries and provisions. Agree to furnish him only strictly fresh eggs, and then, for your own sake, live up to the agreement. Carefully clean all the eggs; don't send small, misshapen or large ones. Stamp each egg with a rubber stamp, using your initials or the name of your farm, and in a short time you will have created a demand for your eggs, and when you have created such a demand your eggs will bring the highest prices, considerably more than your storekeeper would pay.

Several neighbors should send their eggs together, paying a cent or two per dozen to one of their number for doing the business, and in this way all would gain a little.

SOWING SEEDS TOO DEEPLY

Smaller Vegetables and Flowers Can Hardly Be Covered Too Lightly With the Soil.

More seeds are probably killed by sowing or covering too deeply than oo lightly. It is no uncommon thing to find mall seeds covered with a quarter

or over half an inch of soil. Thousands so deeply sown perish, germs either never come to life at all or are quite unequal to coping with such a weight of covering earth.

Only the larger seeds of vegetables should be sown from a quarter to one inch in depth.

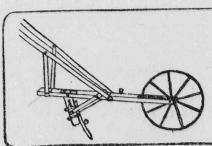

Peas, beans and such like seeds may go underground two or three inches but the smaller vegetables and flower seeds can hardly be covered too lightly, provided they are covered.

It should always be borne in mind that deep sowing ruins more seeds than any other fault or micrake.

GARDEN PLOW MADE AT HOME

Implement Is Inexpensive, Easy to Put Together and Will Give Most Excellent Results.

A garden plow is a very useful article, but many people do not have garden enough to make it worth while itself to food and water and the other buying one. I have a home-made plow that I find very useful. Any boy handy with tools can make one like it, writes Fred L. Doty of Mound Vailey, Kan., in the Farmers Mail and Breeze. A and B are pieces of 2 by 4. At one end of B a rectangular hole is mortised into which A fits and is bolted. The other end of B is mortised out to form the forks for the 12-inch wheel. The wheel is from an old baby carriage, with the rubber tire removed. This leaves a hollow shaped

Home-Made Garden Plow.

rim which rides over the ground better than a flat rim would. D is one of the tools which may be used for cultivation. A small cultivator shovel will answer the purpose. Other tools for garden working will suggest themselves to the ingenuity of the maker. The two iron strips bolted from A to B have several holes at the upper end to make them adjustable. The handle braces are also of iron strips. The handles are made of soft pine. This plow does fine work and one person can do as much with it as three persons can with ordinary hoes.

To Prevent Oat Smut.

The Minnesota method: First, thoroughly clean the seed by rinsing it through several waters, taking one pound (one pint) of formalin and pour into a barrel containing 40 to 45 gallons of water. Place the grain in a gunny sack and dip it into this barhalf to the dozen or fifty-five pounds rel until you are satisfied that every grain has been made wet. Then take the oats out and dry them. They may be kept for several days before they are sown.

Lease Swellings Alone.

The large swellings that occasionally appear in front of the knees of cattle, particularly old cows, is properly known as hygroma. It is usually filled with a watery or straw-colored ation is not advisable, except by a competent veterinarian. These swellthe cases are most wisely left alone.

Moving Brood Hen at Night. Move your setting hen at night, and chances are, if she is broody, she will keep the nest you put her on; whereas if changed during the day time she is very apt not to act.

Cutting Injured Trees. Trees injured by freezing very often need to be severely cut back.

What is Castoria.

ASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea-The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children-Experience against Experiment.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. Albert W. Kahl, of Buffalo, N. Y., says: "I have used Castoria in my practice for the past 26 years. I regard it as an excellent medicine

Dr. Gustave A. Eisengraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children." Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed

your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market." Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a

standard family remedy. It is the best thing for infants and children I have ever known and I recommend it." Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation?

What can a physician add? Leave it to the mothers." Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has

invariably produced beneficial results." Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in

round to an ironmonger." "An ironmonger?"

Young Smithson thought that his ears must be playing tricks with him. "Yes, an ironmonger," said Brown Then he wrote out the following prescription: "One box of tintacks. Dose: Two tablespoonfuls to be scattered about the room at bedtime.'

THE RIGHT SOAP FOR BABY'S SKIN

In the care of baby's skin and hair, Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance, but its gentle emollient properties are usually sufficient to allay minor irritations, remove redness, roughness and chafing, soothe sensitive conditions, and promote skin and hair health generally. Assisted by Cuticura Ointment, it is most valuable in the treatment of eczemas, rashes and other itching, burning infantile eruptions, Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."

Real Difference.

"I begin to perceive," said the tired business man, as the commedian executed a funny fall, "the difference between the classic drama and musical comedy."

"There are many differences." "Yes. But the chief one is that while the classic drama uses cymbals, musical comedy uses the bass drum."

The Test. "What's the best test of a man's calling?" "How he answers."

Cook With Oil Means Convenience, Economy, Ease

Perhaps it will surprise you, but it is a fact that Oil as a fuel in the cook-stove is not only much cleaner and safer than any other fuel-it is far cheaper, as well.

Over a half million New Perfection Oil Cook-Stoves are now in use in the middle west and every one is giving satisfaction.

Cook on the New Perfection and save half the cost of gasoline and one-third the cost of gas. Your task will be simplified and your dishes improved.

All the discomforts of the coal range and the dangers of gas and gasoline are now happily substituted by the efficiency and absolute safety of the

Cook-stove Ask your nearby dealer to demonstrate this wonderful stove. Have him show you its Cabinet Top (for keeping dishes hot), with drop shelf and towel racks that make the News Periection a coal range in appearance as well as in usefulness and in ance as well as in usefulness and imconvenience. See the new Oil Reservoir with Indicator. See the Odorless,
Smokeless Broiler—a marvel in itself.
See our Special Oven. Note the New
Perfection's wick blue flame. Consider this stove in point of looks, simplicity and general efficiency. Judge for
yourself what a saving of money, time
and patience a New Perfection will
mean to you.

Valuable Cook Book Send us 5 cents in stamps to cover cost of mailing and we will send you, free of charge, a dandy 72-page Cook Book that's worth its weight in gold.

STANDARD OIL COMPANY, CHICAGO, ILL.

As an aftermath of the feeling aroused between the Yeomen of the upper and lower peninsulas at the late state conclave, the upper peninsula men will ask to be set off into a separate jurisdiction, or else included with Northern Wisconsin, the natural association for upper peninsula men. At the meeting of the Gladstone homestead last night strong resolutions were adopted petitioning the supreme con clave, which meets next month, to set for the sake of harmony. Several of the homesteads of the peninsula have raised funds to send contesting delegates of their membership to Oklahoma City.

The Superior conference of the Swed ish Lutheran church, which is only three years old, was formerly a part of the Illinois conference. It is composed of 70 congregations, 12,284 members and 23 pastors. The church property is worth \$330,688.00. In order to support its schools, hospitals, missionaries and pastorates the sum of \$65,393.27 was raised last year. At the conference meeting this year at Iron Mountain the establishment of a denominational preparatory school was discussed again and a committee appointed to make recommendations. At one time Gladstone was under consideration as a location.

There has been no talk of paving the most used street in *town, and one that has seen the travel of thousands of feet daily. It is that short cut cross lots between the Green block and the schoolhouse, used by every self-respecting schoolchild. Who goes round the corner in this town? It would seem to need a sidewalk as bad as any other s and heap.

The Odd Fellows' excursion to Manistique will be held Wednesday, May 28, there being a typographical error in last week's announcement. The attendance will be large from Gladstone Rapid River and Escanaba. At the meeting Manistique lodge will exemplify the third degree on several candidates.

A good opportunity to add a few numbers to your library is now offered by Ken kson & Von Tell. They will se cut their stock of classics and other good books at half price to make room for later publications.

The Cloverland Milling Co. this week sold a carload of cement to A. W. Clark of Trenary, suggesting that business is good in that thriving city. A considerable quantity of the material is also called for by culvert work on the Brampton road, and later for bridges on the beaver.

Matinee at the Opera house Saturday and Sunday afternoon. Two acts of Vandeville and four reels of pictures, and 10 cents.

May the fifteenth was a dirty day to talk of talking of cleaning up the town but the health officer says it will do to make a beginning with anyway. Clean up your back yard or Louie'll get you.

The St. Paul cleared Monday, with a load of wheat, the Rhodes Friday, full load of flour. The Huron is due Sun day. The M. T. boats are carrying holds full of light merchandise.

An Irish Incident.

"Driver," said an English tourist who was being driven on a jaunting car through the Donegal highlands. "I notice that when you speak to your friends whom you meet on the road you invariably do so in Irish, but when you address your horse you do so in English. How is this?" To which came the retort: "Musha! Now, thin, isn't English good enough for him?"

Swallows' Nests.

Swallows and house martins build by sticking together pellets of prepared road mud. Most of the material is obtained from the drying puddles on the high roads. If not mixed with anything else the tendency of these pellets would be to crumble when dry. But the swallow tribe is supplied with a mucous secretion which enables it to gum the particles together.

Turner Admitted It.

One day George Jones, R. A., while discussing the merits of Turner's "Bay of Baiae" with a traveler who had recently seen the bay, was surprised to learn that at least half the scene was pure invention. Upon this Jones playfully wrote on the frame of the picture, "Splendide Mendax." When the inscription caught Turner's eye he merely laughed. He never removed it.

Having purchased completely equipped Garage at the corner of Central and strom were married Saturday evening Wisconsin Avenues, we find off Cloverland as a separate jurisdiction ourselves in possession of a number of stock tires, brand Mrs. Larson are residing at their home new and in their wrappers. M. Jacobs intends to play his part in leled line of staple and fancy animals way to to the west. a splendid strain of pedigreed poultry. Mr. Jacobs is working on a labor saving plan that will reduce the cost of both chickens and poultry. The only question is to determine the correct proportion of land required to secure a balanced ration. He will secure as many vacant lots as possible and plant them to potatoes. These will inevitably produce a crop of fat, succulent, prosperous juicy potato bugs. Mr. Jacobs will train his fowls to pick off these bugs and scratch away the weeds from the base of the potatoes, thus giving them food and excercise, and taking care of week for demonstration purposes. the potatoes without cost. As soon as he can get the plan on an empirical bas. Friday.

is, there will be "millions in it"-bugs,

Ruth, the fourteen year old daughter

of Eric Anderson, was accidentally shot while on a camping party at Maywood Sunday. The details cannot be learned from those who were present, all young, but it is thought that one of them picked up a rifle, believing it to be unloaded, presented it at the girl with a jok-Fred Anderson ing threat and pulled the trigger. A 22 ball entered the base of her throat, missing an artery slightly and probably flattened against the shoulder blade at ness. the rear. The girl was brought back to Gladstone by boat, bleeding considerably, and placed under the care of Dr. Kee. It is believed that danger of infection is past, and the wound is healing. For some time the left arm was paralyzed, and it is probable that a nerve was severed, but she is recovering the use of the hand slowly.

Dr. George Bjorkman and his two daughters, the Misses Marie and Elizabeth Bjorkman, and Peter W. Peterson leave for Quebec on Monday, May 26, and there will take ship Thursday for fair Sweden, where it is their purpose to visit the beloved scenes of Hemlandet. The doctor looks forward with anticipation to a family reunion and a revigorating acquaintance with the spots that his infancy knew. Mr. Peterson will also seek out his relatives at the ancestral fireside and tell tales of the great metropolis of Cloverland where he so radiantly supports the honors of a baseball throne. When autumn comes to bring the scarlet to the forest trees they will be again with us. Till then, farei well.

S. Goldstein, who started in business in Gladstone twenty-five years ago, has reached that period when his thoughts are bent on leisurely retirement, and after next week will take no more active participation in the work of the store. The business will be in charge of his son Sid and daughter Vetta, who have been for two years managing the store, and will be known under the firm name of Sid W. Goldstein & Co. The volume of trade has been steadily increasing and the new firm seems to have the prosperity ahead of it that industry and enterprise is entitled to receive.

Superintendent Habermann has received the rest of the equipment and May 10, 1913 will in a few days put up a denominator of the bonlevard lighting system at the Ninth street crossing. The fixture is adapted to carry four 100 watt tungsten lamps, though this number is not required. After viewing these, the business men of the city may conclude whether or not they wish such a system installed. It is a great attraction to the popularity of a street by night and coming into favor in the upper peninsu-

W. L. Marble this week purchased sixty acres of land just north of the city limits at the foot of 'the bluff' and plans to do a little development work himself as an honest farmer. The soil is generally exceedingly rich, as it is all along the foot of the hill. In addition to this there is no small amount of young timber. The plot was formerly owned by the Washburns and is located on the old furnace road.

Secretary Haberman this morning re letter from Madrid asking him to hasten to the rescue of a "criminal banker" who is in jail and has a beautiful daughter and \$2,500,000 as reward for any one who will get him out. Mr Haberman is gallant and adventurous, but he has seen bankers before, and only winked the other eye. Strange how that old swindle keeps up.

W. E. Gaufin declares that the difference between rainbow trout and brook trout, in any stream where both are found, is that brook trout are on the inside and rainbows on the outside. He believes that the planting of these voracious fish in the Escanaba river was a serious error on the part of sportsmen, as the rainbows, though larger, are an inferior fish.

Ole Peterson limps as the result of an encounter with an uncongenial quadruped Tuesday. He passed a horse on the bay shore road on his way to his new culvert; the horse kicked and upset Mr. Peterson and his bicycle. The bike went to the hospital; Mr. Peterson is out thanking his stars that it was not a mule he met.

The Epworth League banquets this Friday evening at Alice Memorial church. An extensive program of speaking and music has been arranged for the occasion, together with an excellent

George Flinn of Rapid River was in the development of agriculture in this the city Tuesday. Mr. Flinn, who was section, and has added to his unparal-recently bereaved of his wife, is on his

Hon. John S. Lindsay of Escanaba was in the city last Saturday to act as an appraiser of Cretens' fire loss.

W. C. Geise was in the city Sunday on his way to lower Michigan from Menominee, on a business trip.

Mrs. J. D. McDonald and children are expected this evening from Cheboygan, her mother being much improved in health.

Barbeau and Darrow have taken the agency for the Briggs "Detroiter" and Mr. Barbeau will receive a car next

Charles Gogarn was in Marquette last

Sam Menard of Gladstone spent Sunlay with his parents in Hermansville .--Herald-Leader. Ed Moore, who underwent an opera-

tion at the county hospital last month, is about the street again and will soon be restored to health. Frank Sheppard returned Sunday and

Mrs. Sheppard Monday from Minneapolis. Mrs. Sheppard's health is expected to improve from now on.

Chief of Police Rediker, of Manistique, was in the city Saturday on busi-James Gardner, of the Manistique ho-

tel, was in the city last Saturday in quest of assistants.

Mrs. C. A. Clark left Thursday for Stanley, Wis., to visit relatives. Miss Maud Hocks of Rapid River

spent Saturday in the city.

CLADSTONE CROCERY 'THE QUALITY STORE"

June 21, 1913 Order for Appearance

Twenty-Fifth Judicial Circuit in Chancery Suit pending in the Circuit Court for the County of Delta, in Chancery, at Escanaba in said County, upon the second day of May A. D.

STATE OF MICHIGAN

JENNIE LAMOUREUX,

STANISLAUS LAMOUREUX

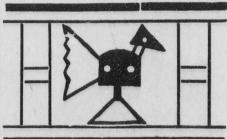

Defendant In this cause, it appearing that defendant, Stanislaus Lamoureux, is not a resident of this state, but is a resident of Frazer's Mill, near Vancouver, British America, Dominion of Canada

THEREFORE, on motion of John Power, olicitor for complainant, IT IS ORDERED hat defendant enter his appearance in said ause, on or before four (4) months from the date of this order, and that within twenty (20) days, the complainant cause this order to be published in the Gladstone Delta, a newspaper published and circulated in said county; said sublication to be continued once in each week for six (6) weeks in succession

RICHARD C. FLANNIGAN Circuit Judge

JOHN POWER Solicitor for Complainant

Still Crowing

I like a ruster 4 2 things "says Old Josh Billings and 1 iz his crow and the uther iz the spurs he haz 2 bak up his crow."

Our Old Crow is likable enough, but you ought to see the spurs we have to back it

up?
