"Barkeep United States Farmers' Bulletin, No. be present when the corn and potatoes he will pronounce his long expected handled to the satisfaction of the public heap too smart," he muttered as he passed out of the door,"

INCOME TAX PLAN

STATEMENT BY TREASURY COV-ERS ALL DETAILS OF LAW PASSED BY CONGRESS.

SHOWS LIST OF EXEMPTIONS

System of Collection at Source Explained for Those Who Are Liable -Penalty for Persons Making False Representation.

Washington, Oct. 27.—The treasury department made public its regulations for the collection of incomes at the source, which begins on next Saturday.

Tax to Be Deducted at Source. Under the income tax law, enacted October 3, 1913, a tax of one per cent., designated in the law as the normal tax, shall be deducted at "the source," beginning November 1, 1913, from all income accruing and payable

(A). Every citizen of the United States, whether residing at home or abroad, and to-

(B). Every person residing in the United States, though not a citizen thereof, which may be derived from interest on bonds and mortgages, or deeds of trust, or other similar obligations, including equipment trust agreements, and receiver's certificates of corporations, joint stock companies or associations, and insurance companies, although such interest does not amount to \$3,000; excepting only the interest upon the obligations of the United States or its possessions, or a state or any political subdivision thereof.

The term "debtor" as hereinbefore used shall be construed to cover all corporations, joint stock companies, or associations and insurance companies.

Tax Withheld by Debtor.

For the purpose of collecting this terest, originating, or payable, in the United States the source shall be the debtor (or its paying agent in the United States), which shall deduct the tax when same is to be withheld, and no other bank, trust company, banking firm, or individual taking coupons for collection, or otherwise, shall withhold the tax thereon; provided that all such coupons, or orders for registered interest, are accompanied by certificates of ownership signed by the owners of the bonds from which the coupons were detached.

These certificates shall be in the forms hereinafter prescribed and a separate certificate shall be made out the interest upon all foreign bonds, month. by each owner of bonds for the cou- even though the coupons may be, at In Mexico City the most noticeable pons of interest orders for each septence of bonds or obligations of the option of the holder, payable in feature was the great apathy bride being among those mystified, feature was the great apathy bride being among those mystified, feature was the great apathy bride being among those mystified, feature was the great apathy bride being among those mystified, feature was the great apathy bride being among those mystified, feature was the great apathy bride being among those mystified, feature was the great apathy bride being among those of the proposition of the bonds arate issue of bonds or obligations of the United States as well as in some precincts where 1,005 votes were regiseach debtor.

Wihheld by Collecting Agency.

If, however, the coupons are not accompanied by certificates as prescribed heretofore, the first bank, trust company, banking firm, or individual or collecting agency receiving the coupons for collection or otherwise, shall deduct and withhold the tax and shall attach to such coupons its own certificate giving the name and address of the owner of or the person presenting such coupons if the owner is not known, with a description of the coupons; also setting forth the fact that they are withholding the tax upon them; whereupon the debtor shall not again withhold the tax on said coupons, but in lieu therof shall deliver to the government the certificate of such bank, trust company, etc., which is withholding such tax money.

Designating Fiscal Agents.

The debtor may appoint paying or fiscal agents to act for it in matters pertaining to the collection of this tax, upon filing with the collector of Internal revenue for its district a proper notice of the appointment of wuch agent or agents.

If the owners of the bonds are individuals who are citizens or residents of the United States, the certificates shall accompany the coupons, or with respect to the interest on registered bonds shall be filed with payer of said interest, and such certificates shall describe the bonds and show the amount of coupons attached, or the amount of interest due such owners on registered bonds and the full name and address of the owners and shall also state whether they claim, or do not then claim, exemption from taxation at the source provided for by paragraph C of section Z of the federal income tax law (\$3,000 and, under certain conditions \$4,000) as to the income represented by such coupons or interest.

Not Taxed at Source.

If the owners of the bonds are corporations, joint stock companies, associations or insurance companies organized in the United States, no matter how created or organized, or organizations, associations, fraternities, etc., which are either taxable or exempt from taxation as provided in paragraph G, subdivision A, of the act, the debtor is not required to withhold or deduct the tax upon income derived from interest on such bonds. provided coupons or orders for interest from such bonds shall be accompanied by a certificate of the owners thereof, certifying to such ownership, which certificates shall be filed with the debtor when such coupons or interest orders are presented for pay-

ELECTION IS A FARCE

FRIENDS FEAR FELIX DIAZ WILL BE SHOT UNDER "LEY FUGA" AND HUERTA WILL RULE.

ONLY A FEW BALLOTS CAST

In Many Places Polls Are Not Even Opened-Apathy at the Capital of Mexico With No Riots-To Choose Officials Later.

Mexico City, Oct. 27.-There was a great deal of excitement here, occasioned by the report that Felix Diaz had been seized by soldiers and was being brought to this city. It was said that Diaz was still nominally a free agent, but his friends expressed the fear that if the report of his seizure were true that it was merely a pretext to invoke the ley fuga should he make a single incautious step.

The rupture between General Felix Diaz and President Huerta is complete. Diaz resigned as brigadier general of the army.

Elections Are a Farce.

The Mexican elections have been an been cast and in some precincts there was not a single vote cast.

The expectation is that in the abthe month succeeding that in which sence of enough votes to make an election, General Huerta will remain ir the presidential chair "ad interim," or until he deems it proper to call for

As a whole there was little disturbance reported throughout the country after the opening of the polls.

Diaz Leads in Early Returns. Of the candidates on the four tickets in the field Diaz was reported to be

leading in the early returns. Along the northern border there was scarcely any voting, while at Piedras Negras, a constitutional stronghold, the polls were not opened and the soldiers and citizens were kept within

Near the army headquarters in Piedras Negras the following poster was displayed:

Apathy in Mexico City. "Victoriano Huerta. Willie Grape

The authorities made no effort to remove the placard.

At Nuevo Leon there was practicalcast, Diaz receiving the majority. There was no voting for state officials The provisions for collection of the at Chihuahua, it is reported, because tax on foreign obligations set forth in disorders there have caused the mili-

tween the United States and Mexico emphasized a gravity of affairs more ominous than at any time since President Wilson's administration began Absolute silence was the order in of. No Trace of Firemen Buried at Mil ficial quarters.

The release of the Ward liner Morro Castle after peremptory demands by the United States terminated a delicate situation. Orders were in preparation to the commanders of the American warships lying off Vera Cruz to insist on her release.

Huerta Threatens the U. S.

Mexico City, Oct. 25.-General Huerta has boldly thrown down the gauntlet to the United States, or to any other foreign power which interferes in Mexico and threatens "the setting aside of the Monroe doctrine" in the most bellicose statement which has come from the national palace. The statement was issued after General Huerta and Sir Lionel Garden, the new British ambassador, had conferred until 2 a. m.

U. S. Warship May Go South. Norfolk, Va., Oct. 25.—It is reported here that, the entire Atlantic fleet | rush of rescuers. may be ordered south, in view of the Mexican situation. A number of ships will leave Hampton roads today, and several officers, uncertain of the fleet's ultimate destination, telegraphed to their wives not to take passage to Europe, as planned.

Wife of Ex-Vice-President Succumbs to Pneumonia After an IIIness of a Few Days.

Indianapolis, Oct. 25.-Mrs. Charles W. Fairbanks, wife of former Vice-President Fairbanks, died at the Fairbanks mansion, Thirtieth and Meridian streets, after having been ill with pneumonia since last Wednesday. While Mrs. Fairbanks' illness was recognized as serious from the first, her condition did not become critical until Thursday. Dr. Albert C. Kimberlin, the family physician, gave very little hope of her recovery.

The five children were summoned to the bedside of their mother and all were present when the end came except Frederick Fairbanks of Los Angeles Cal., who is now en ruote to Indianapolis.

Mrs. Fairbanks was sixty years old, Mrs. Fairbanks' mother sur-Cole. three years old.

Alexander Nicolalevitch Kokovsoff, absolute farce. Hardly any votes have in Rome. He is suffering from an attack of erysipelas.

MISS KATHERINE ELKINS WEDS HER OLD ADMIRER

Late Senator's Daughter Married to "Billy" Hitt-Was Reported Engaged to Duke of Abruzzi.

Elkins, W. Va., Oct. 28.-Miss Katherine Elkins was married to "Billy" Hitt of Washington, who has wooed her steadily and cheerfully for seven years, never losing faith even when the king of Italy announced that she was to marry his cousin, the duke of the Abruzzi, and become her royal highness and possess the toy kingdom of Albania for a golf links or any other purpose that might suit her

fancy. "Billy" Hitt has worn a fixed smile during all these seven years, being sure that even if the wonderful Miss Elkins did marry the duke-which she seemed almost certain to do-she would be happy. And what "Billy" Hitt mostly wanted was that she should be happy. He had the friend-

liest feeling for his royal rival. Monday morning Miss Elkins and Billy" Hitt called up their favorite friends and relatives by telephone and invited them all to "be sure and come for luncheon-very important." And when the mystified guests were

all assembled, even the mother of the the Presbyterian church, stood up at one end of the music room and performed the ceremony with dispatch.

"I will," said "Billy" Hitt, and added in an undertone, "Of course I will FIVE LOSE LIVES IN FIRE fred Tyler down with a pitchfork, ren--who wouldn't?" And he looked at his watch. There were twenty-two minutes for luncheon, then a dash for waiting automobiles, a whirl to the railroad station-and Mr. and Mrs. "Billy" Hitt stepped into their private car, the Graceland, and started for 'the East."

HITS AT FINANCIERS MICHIGAN NEWS

PRESIDENT WILSON ARRAIGNS MONEY PRESSURE PUT ON U. S. POLICY IN MEXICO.

SAYS "MORALITY" IS OUR AIM

Nation's Chief Executive Asserts in Speech at Mobile, Ala., That Rule of Foreign Interests in This Hemisphere Must Cease.

Mobile, Ala., Oct. 28.—President Wilson announced to the world here that the governing motive of the United States in its relationships with the countries of this hemisphere would be morality, and not expediency."

"I want to take this occasion to say that the United States will never again seek another foot of territory on this continent by conquest," he declared in a stirring address on Latin American relations before the Southern Commercial congress.

Though Mr. Wilson did not mention Mexico as the afflicted country, he devoted his entire speech to a description of the degrading influence which foreign concessionaires had had upon the internal affairs of some of the Latin American countries.

With the Mexican situation uppermost in the president's mind at this time his address was interpreted as an arraignment of those financial influences which it has been charged have secured in some cases recognition for the Huerta government.

"Come because I want to speak to our present and prospective relations with our neighbors to the south, the Latin American states," said President Wilson in opening his address.

Canal Opens World to South. "The opening of the Isthmus of Panama will open the world to the south," he said, "and the Latin American states which have been off the main lines will now be on the main

"You hear of concessions to foreign capital in Latin America," continued the president. "That concessions are not granted in the United States, that when capital comes it comes invited but is not privileged. The Latin American states have had harder bargains driven with them than any other people in the world."

He said that the United States is trying to deal with them in terms of equality and honor and that the state department is now trying to deal with them in a new spirit. The development of constitutional liberty in the

world was his dearest aim. "America is a synonym for individual liberty," he declared. "Do not think that the questions of the day are years old, is in the county jail mere questions of expediency. We will awaiting examination October 30, never condone inequality because it is on a charge of assault with intent to convenient to do so.'

Twenty Injured Leaping From Bullding in Gotham-Explosion of Gas Oven in Factory Is Followed by Flames.

New York, Oct. 25 .- Five persons were burned to death and three others were fatally injured in a fire here, which destroyed a six-story loft building in Canal street. Three of the dead are women. Twenty persons were injured when they were forced to jump from fire escapes to avoid being burned to death. The fire resulted from the explosion of a gas oven on the third floor occupied by the Royal Manufacturing company.

Forty men and women narrowly eson the roof. These operatives found the fire escapes blocked with scores to reach the sidewalk because the Explosions in the vulcanizing rooms drop ladders at the lower ends of the escapes had rusted in their holders and could not be moved. The persons on the top floor then went to the roof, but they were unable to reach adjoining building because of an eight-foot iron picket fence enclosing the roof of the burning building.

TROOPS GO TO COAL MINES

Battle Between Strikers and Guards In Colorado Causes Drastic Action -Martial Law Is Declared.

Denver, Colo., Oct. 27.—Governor Ammons ordered troops into the southern coal fields on the report of a general battle between strikers and mine guards, and the troops will disarm the strikers and guards alike to prevent a civil war.

The guards arrived in the district at midnight and martial law was declared throughout the district, while Adjutant General Chase, in charge of the troops, will assume charge of the district.

The immediate cause of calling out the troops was the serious situation n the district in the morning, with guards and deputy sheriffs surrounded by armed strikers, at Berwind, Tobasco and other camps following the killing of two strikers by the guards

Will Not Swap African Territory. London, Oct. 25 .- England and Gernany will not swap their territory in Africa. It was officially denied that Great Britain contemplates ceding Zanzibar to Germany in return for African possession of the kaiser.

TERSELY TOLD

Owosso.-A committee representing the Ann Arbor railway engineers and firemen went to Toledo to confer with officials of the company relative to an increase in wages.

Morrice.—George Moody, a farmer, seventy years old, was beheaded west of Bancroft when he was struck by an east-bound flyer. Moody had been to Lansing.

Mt. Pleasant.-Peter Chestro, living five miles north of here was thrown from a horse and fatally ipjured. The horse was a colt and Chestro was breaking him to the sad-

Hastings.-The board of supervisors elected the following officers: Superintendent of poor, Andrew J. Woodmansee; city examiner, Webster Hastings, Coates Grove; courthouse janitor, Charles Andrews.

Newaygo.-Lawrence Durand, seven years old, is in a critical condition as the result of being shot through the face with a 22-caliber gun, accidentally discharged by a playmate. The children purchased the cartridges from a local dealer.

Cadillac.-John Kryger and Charles Cable, were arrested in Missaukee county by Deputy Game Warden Kidder with 80 partridges in their possession. The birds were confiscated and sent to Mercy hospital in this city. The men were fined \$35.20.

Ann Arbor.-The jury in the damage suit started by Arthur Green of Tecumseh against the Detroit, Jackson & Chicago for injuries alleged to have been received in the wreck near Lima Central April 15, 1912, returned a verdict for \$3,250 after being out less than three-fourths of an hour. Green had sued for \$30,000.

Lansing.-Paroled by the governor of Michigan, and immediately placed in the custody of an officer to be returned to Ohio to serve time in the state penitentiary, was the experience of Henry Brennan, alias Henry McCarthy. In 1893 Brennan escaped from the Ohio prison. His minimum sentence expired this week, and he

was eligible to parole. Pontiac.—The movement for a city beautiful opened when H. F. Hemenway, staff lecturer for the National Society for Broader Education, spoke at the Methodist Episcopal church. The work will be taken up by the Commericial association at the completion of the course of lectures which will last all week. A branch of the league will be formed here to be known as "The City Beautiful League

of Pontiac. Corunna.-William Wall, thirty-one do great bodily harm. While working in a potato patch near Shaftsburg, it is alleged he knocked Arthur and Aldered Ownie Coruoran, a cripple, unconscious with a blow from the fork, and knocked Mrs. Anna Tyler down

with his fist. Ann Arbor.-The preliminary program of the seventh annual convention of the Michigan State Association for the Prevention and Relief of Tuberculosis, which will meet in Kalamazoo November 6 and 7, were issued. Among the speakers will be Governor Ferris, Dr. O. W. McMichael, Chicago; Mrs. Josephine Goos, Grand. Rapids; Dr. V. C. Vaughan, Ann Arbor, and Dr. A. S. Warthin, Ann Ar-

Petoskey.-William Ransom, former chief of police of Harbor Springs, and a deputy sheriff of Emmet county, was brought here by Under Sheriff Doherty, who arrested Ransom at Howard City on a charge of wife desertion. Ransom resigned as chief at the Harbor and disappeared October 15. Arraigned in police court, he waived examination and is out on bond to appear at the next term of

circuit court.

Hastings. - Hearing his shepherd dog barking in the woods for several hours, Lucas Case, prominent Jornstown farmer, investigated and was horrified to find the dead body of his thirteen-year-old son lying with blood pouring from a wound in his right side. Near him lay a shotgun which had evidently been discharged while falling from the boy's hands. Case summoned neighbors who carried the body home. Shortly after the boy ett Macey, Frank Duffy, James P. shot which was probably the fatal discharge.

Port Huron.-Capt. J. N. Garlock, who dropped dead in the arms of his son, aboard of the barge Mary N. Bourke, at Sarnia, had sailed the lakes all of his life and had owned several barges, among them the Unadila. At the time of his death he commanded the Bourke, which is being used to carry coal for the Imperial Oil company. Captain Garlock was seventy years old and leaves a son and daughter. The cause of his death was heart disease. His home was in Marine City. The body was taken there on the tug Chase S. Osborn.

Pontiac.-Warrants have been issued for Albert Keyser and Tom Reed, serving 45 days for the larceny of beer cases from local saloons. charging them with stealing auto tires from Grand Trunk railway cars. The tires were valued at \$225, and the men will be arrested when their sentences

expire. Port Huron.-Seven-year-old Esther Goodman was seriously burned when she placed a can of gasoline on a hot stove in the absence of her mother. But for the timely arrival of neighbors Esther probably would have been burned to death.

Complain Against Railroads.

The Michigan Bean Jobbers' association, of which Fred Welch, of Owosso, is president, has made formal complaint against three railroads operating in this state, before the inerstate commerce commission. The railroads are the Grand Trunk, the Michigan Central and the Pere Marquette, and the purpose of the association is to compel the roads to make transit arrangements which will be satisfactory to these shippers, and to many others.

The transit agreement formerly in effect provided that the miller, the lumberman, the bean fobber and certain other classes of manufacturers could receive a car of the raw material used in their plants, work it up and ship it out under the same billing and for one through freight rate, to its ultimate destination. A time allowance of 60 or 90 days was given for working up the raw material. The bean jobber who bought beans in Mt. Pleasant could ship a carload to Owosso, clean the beans and then ship on to Boston or New York or some other final distributing point on a through freight rate. This rate was much cheaper than if the car had been billed from Mt. Pleasant to Owosso and then reshipped to final destination on a separate bill-

For this accommodation by the railroads, two conditions were exacted: The through rate on the car or cars must never be less than the rate from the intermediate point to the final destination; and the load must not be changed in nature—the manufactured articles shipped on from the transit point must have been evolved exclusively from the raw material of the shipment. The saving in freight charges was enormous.

The railroads, however, became suspicious and started a quiet investigation, and discovered, it is alleged, many violations of the transit agreement.

When the railroads had their case complete they went before the interstate commerce commission, and demanded that something be done for their protection. And the commission, after studying the situation, put rule 76 into effect. In a short time shippers were objecting to its injustice. The rule requires daily reports by each shipper to the road with which he does business, providing he convention here elected Jesse B. Davis desires to work under the transit agreement. He must report each carload of beans or wheat or iron school at Grand Rapids, and was for. or lumber received, and estimate the amount of shrinkage it would undergo before he shipped it out again. CAUSE OF FOUNDER WORK IN THE POULTRY YARD

Not the Result of Eating More Food Than Good for Him.

Animal Driven Hard for Long Way and Allowed to Stand Long Enough to Chill Will Show All the Characteristic Symptoms.

Most of us are apt to think that founder is always caused by the horse eating more than is good for him. I thought the same thing until a few weeks ago.

I know now that an animal harddriven for a long way, and allowed to stand in the open air long enough to chill has all the characteristic symptoms of a typical case of foun-There are few crops grown in the

Laminitis is the name given the disease in the books, and the soreness and lameness comes from the violent inflammation that is set up in the sensitive folds of tissue that are interiaced with nonsensitive layers of the hoof says a writer in the Farm Progress. These two kinds of layers are sandwiched between each other, and when the disturbance caused by overeating in a heated condition, with sugar beets when good old all or from a chill when the blood is hot, sets up, it is communicated to the

very sensitive tissue of the foot. The slight swelling that takes place causes the circulation of the blood through this tissue to result in considerable fever. The lamilar tissue becomes very hot and painful.

Driving a horse very swiftly over a hard road, and allowing him to chill very quickly, is fairly certain to create some such disturbance, and when this is marked, it is a good plan to start treating the horse at once.

As soon as the horse shows signs of founder, get him into a stable and Color of the egg shell has nothing place the afflicted feet in a tub of water that is just about as hot as the animal can bear. This tends to reduce the inflammation that is already present, and will prevent any increase in the lambeness.

Keep up this treatment for an hour and a half or two hours, then remove the tub and rub the feet as dry as you can. Put the horse in a warm, deeply bedded stall, and drench with a mixture of about a pint of raw linseed oil, about 30 grains of calomel and an ounce of pulverized ginger.

Follow the hot water foot bath treatment for three or four days in corn and kafir can be added to the order to make certain that the swellration, but it is a bad practice to feed ing does not come back. If the animal does not respond to the treatment get a veterinary to look him over at once.

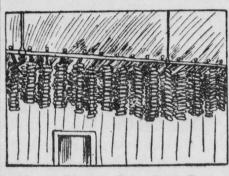

If the hot water treatment is used quickly enough and strong enough it will prevent many of the worst symptoms.

The sensitive tissue of the interior of the hoof is quite closely connected as to nature with the membrane of the intestinal tract. The sympathy between the two sets of nervous centers is very close and any disturbance in the intestinal membrane is apt to be reflected in the lamilar tissue of the foot.

GOOD PLACE FOR SEED EARS

Room and Not Touch Each Other -Great Many Methods.

(By R. G. WEATHERSTONE.) The seed corn ears should be stored at once in a dry, well-ventilated place, Do not allow one ear to touch another. If there is not sufficient air circulation the vitality of the corn is almost certain to be injured, either by molding, are a great many methods of storing the seed corn, but in all cases the place of storing must be dry. Seed corn should never be put into boxes, barrels an empty room upstairs in the house and close while the corn is still moist.

Handy Way to Save Seed Ears.

The amount of freezing seed corn will stand depends entirely upon its dryness. If thoroughly dry and surrounded by dry atmosphere it will stand very cold weather. If you have ever found yourself

compelled to plant corn that was not fit for seed, do not be caught that way again. It is too discouraging to begin the season with poor prospects of a good crop. Get your seed at ripening time when the best quality is most plentiful. Get an abundance, enough for planting again what the highwater may destroy and a supply for some farmer who may move into your community or for a neighbor who could not select his seed corn at the proper time. Save seed only from the most profitable individuals with the same care you use in propagating help to maintain the ewes in good conyour animals.

Raise Broilers. Begin early to work up a trade in broilers. The market never will be overstocked.

Growing Cockerels Should Be Separated From Pullets-Whitewash and Have Cleaning Up.

(By L. M. BENNINGTON.)

Each duck house should have a double run so that while the one ist occupied, the other can be sown to rye. This will not only give the ducks plenty of green food, but this growing of a crop will disinfect the soil.

The growing cockerels should be separated from the pullets, and the former given a greater allowance of food, as they will need it more than pullets.

Whitewash the interior of the house, and have a general cleaning up. Examine the roofs and the walls of the buildings so that they will be in good condition when winter sets in.

Take advantage of every fine day in making needed repairs and improve-

Indian Runner Duck.

ments, for just as sure as you allow these matters to wait, something will

come up that will delay your work. Prime capons sell in the Boston and New York markets from 24 to 28 cents a pound, considerably over the

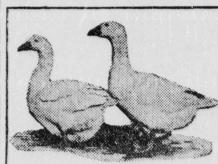

price paid for roasting stock. Nearly all good eaters in England and on the Continent relish ducks' eggs even more than hens' eggs.

Properly fed on sweet, clean grain, green stuff with pure water, the duck produces eggs that are delicious. The Indian Runner duck lays better eggs than the Pekin, although the lat-

Have you noticed the remarkable decrease in the price of meats, groceries, clothing, glassware, etc., which is taking place as a result of the new Underwood-Wiison tariff?

The fixing of responsibility under our present system of city government re minds me of the old saying "you might as well hunt for a needle in a haystack." The boards do the work, but have no authority. The council has authority to order, but no authority to carry out. If there is a dead stop somewhere and you complain, the council throws the blame on the board, and the board shoots it back to the council. Under the commission form of government, the city's work is placed in the hands of a small body of men with legislative powers and authority. They in turn appoint subordinate heads for the different departments, holding them directly responsible for details. Thus authority and responsibility are placed where they are easily located.-Glen Finlass in Mining Journal.

HOW ABOUT IT?

Last year, when the open seasons for partridge and for deer were identical, dogs were permitted in the woods when they were in personal charge of hunters as it was not desired to prevent hunting of birds with dogs, but this year it will not be legal to hunt partridge during the deer season from Nov. 10 to the 30, and thus there will be no excuse for having dogs in the woods. Strict orders have been given by State Game Wardens Oates toprevent their use.—Exchange.

A search of the session laws of 1913 shows the partridge season very plainly to be "October first to November 30, both inclusive." Page 291 of the official volume. It is also provided no person | can be procured better } shall take, kill or capture more than two deer, without saying anything { than in my sample room. about their sex or horns.

LOST TOWN OF

AST REMINDERS OF SITE OF LOST TOWN

ELOW the bluffs which skirt the shore of Fort Sheridan military reservation the waves of Lake Michigan wash over the site of a lost town. When the winds of a few more storms shall have blown to the beach two apple trees which have but a frail footing at the

embankment's edge the last reminders of a once thriving and populous place will have been swept away.

Almost seventy years ago the hamlet of St. John was founded by a man named Hetlinger and a few of his followers. The site chosen was a commanding one on the bluff overlooking the lake and

one-half mile east of the point where the northwestern depot at the Village of Highwood now stands. The great clay bank with the stretch of sand beach which shelves away to the water's edge at its foot looks as if it were strong enough and far enough removed from the breakers to be safe against the angriest northeaster that ever blew. The men who built their houses upon the plain surmounting the embankment thought their foundations were as sure as though founded on the traditional rock. They did take the precaution, however, to lim't their building operations on the east by a line drawn fifty yards from the edge of the bluff. That line has long since been buried in the sand under the waves, and with it are the houses and the shops of the early settlers.

In the year 1845 the Village of St. John was the rival of Waukegan, which was then called Little Fort. Both were prosperous and both were grow-Highwood tradition hath it that people passing through the two places from Chicago declared that St. John showed the ear marks of success and that it was destined to be a big city. Other people beside the Chicagoans thought so, too, and they flocked to the place and built substantial houses

and shops. The two apple trees which alone remain of all that pertained to the Village of St. John grew in the yard of Sebastian Richards, whose house was farther removed from the lake than any other in the village. The apple trees were back of the residence. Not long ago the foundation of bricks, which was all that was left of Richard's dwelling, slid down the bluff into the lake during the height of a winter storm. The roots of one of the apple trees are even now extending into the air through the side of the embankment. One good strong push would send it hurtling to the beach 100 feet

Among the names of the builders of St. John in addition to those of Hettinger and Sebastian Richards, the only ones that the oldest Highwood inhabitants can remember, are Frank Mitch, Peter Baker and George Shepard. Mitch was a shoemaker and it is said that he is still following the trade in a town in the far north. As far as is known he is the only survivor of the men who founded the Village of St. John. In the year 1847 there were several stores, a blacksmith shop, a tavern and a postoffice in the Village of St. John, which then held a population of about 200 people. In that day there was a stage coach line between Chicago and Milwaukee. The tavern at St. John was a relay station for the stage. Henry Mowers, who remembers the village in its latter days, says that the tavern was noted for its table, and its liquor, and that people frequently took the stage journey from Chicago for the sole purpose of getting a good dinner and a good glass.

It was a man who intended becoming a resident of St. John that afterward founded the Village of Half Day. He had looked over the lakeside village, and then had declared that he would establish one that would last longer and had more people in it. The automobilists who every Sunday pass through Half Day on their runs to Waukegan and return may look on the half-dozen houses there assembled, and know that the man who turned his back on St. John has kept his word.

When the Chicago and Milwaukes railroad was built the surveyed line ran one-balf mile west of the Village of St. John. An adequate idea of the importance of a place of which now barely a vestige remains may be had when it is known that the railroad authorities built a spur line running to the south edge of the town. Some of the practical residents of the place had discovered that an excellent quality of brick could be made from the clay which was found in a pit a short distance south of the blacksmith shop. As a matter of fact, the presence of this brickyard was one of the chief reasons that the branch line of the railroad was built. When Uncle Sam accepted from the Commercial Club of Chicago the land to the north of the city as a military reservation the soldiers drew hundreds of cartloads of both good brick and broken brick from the site of the old brickyard and used the material for temporary road-making and for the filling in of swamp spots. The forethought of the St. John people in leaving behind them specimens of their handiwork saved the United States government a great many dollars.

It is possible to trace today with no difficulty at all the embankment upon which the branch line of the railroad ran to the brickyard and to the now lost Village of St. John. In size and outline it looks like a military redoubt, and it would perfectly answer the purpose of one. The embankment was leveled at its western end when stores were erected in the Village of Highwood. It starts now from a point almost directly back of the little Methodist church, and runs eastward, broken only by roads which have been dug through it.

It was less than ten years after the founding of St. John that the people awakened to a possible danger to their homes by the encroachment of the waves of the lake. It is true that they

SHOWING HOW MICHIGAN IS WEARING AWAY THE BLUFFS

ST. JOHN, ILL

BY EDWARD B. CLARK @ BY WESTERN NEWSPAPER LIMION

saw year by year that the face of the bluff was being gradually worn away, but the erosion was so slow that they gave little heed. One night in the winter of 1852 a storm whipped up out of the northeast. It was fortyeight hours before it had fully spent its force. Before its assaults, the bluff gave way, tons upon tons of the hard clay breaking off in great pieces and falling to the beach. When the wind ceased blowing the barn of the dwelling nearest to the lake stood at the edge of the embankment. The villagers started to move the structure inland, but another storm. coming up suddenly, forced them to stop the work, and

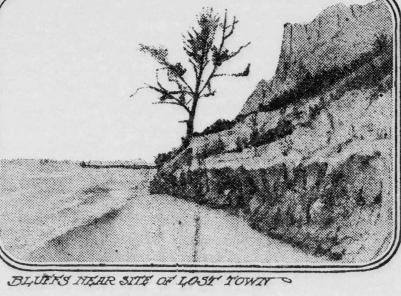

before it could be resumed the barn, in the shape of disjointed joists and broken planks, was being tossed about by the waves.

WHERE WAVES WASH SITE OF ST. JOHNS, ILL.

It was about this time that the people of St. John received a visitor who was much more unwelcome than the storm. This visitor was a lawyer armed with a lot of formidable-looking papers. He went to the tavern and asked that the elders of the village be sent for. They came. The lawyer told them that their title to the land which they occupied was extremely faulty and that they must either pay again for the ground on which their homes stood, or get out. The villagers made up their minds to fight the matter out, but preliminary court proceedings showed them that the lawyer had fully as good a case as he claimed. They became disheartened, and when another terrific storm arose, and the blacksmith's shop and George Shepard's house went into the lake they lost all courage. They told the lawyer that the lake seemed to have a better claim to the land than either they or he had, and, that it apparently was bent on enforcing title rights. One by one the people of St. John moved away, leaving their dwelling and stores to the will of the wind and waves. Settlements sprang up to the south and the west of the deserted village, and the people, during the height of winter storms, used to go to a place near the bluff and watch for some deserted dwelling standing perilously near the edge of the embankment to fall with one final crash onto the water-swept sand below.

Henry Mowers, an old time hunter was a veteran of the residents near the site of the lost village. Not long after the disappearance in the lake of the last building of the Village of St. John, Mowers took a spade and walked up the lake shore until he came to the point where a large part of the site of St. John had disappeared beneath the waves. Mowers' trip was taken up at sunrise, a time when he was not likely to be interrupted in his work. He began a series of mysterious diggings just at the base of the mud cliff. He worked for two hours and then quit. He returned to his task every morning for a week, making several new excavations a foot or two in depth each time. One morning the spade struck something hard, and in a minute Mowers had unearthed an ingot of pure copper weighing eighteen pounds. This was worth having, but it was not what Mowers was after. He kept on digging for a month, and at the end of that time had secured gold and silver French and Spanish pieces in value to the amount of \$24. In addition he found some United States copper cents and half-cents of an early date and one bronze Roman coin of the period of Nero.

Mowers kept at his work for weeks, but after unearthing the Roman piece he found nothing for a long time. He was about to giveup the work for good. He shouldered his spade and started homeward. On the sand, glistening in the sun at the water's edge, just as he turned to go for supposedly the last time, he found two United States silver dollars minted on one side

only. Here was a puzzle which even his shrewdness could not solve. The coins were silver and house. of full weight, and in that day silver was of sufficient intrinsic value to make it useless for anyone to make counterfeits out of the pure metal. Mowers searched for another week, but found no more coins. He then showed the result of his labor to neighbors and to some people in the city of Chicago. He said nothing about where he had discovered the treasure. Shortly afterward, however, a man offered him \$100 for the secret, and though Mowers told him that the place was probably worked out the man offered the money, said he would take the chance, and the offer was accepted. The purchaser never found anything and gave up the labor in

It was not long before the story of the place where the coins had been picked up became generally known and the people flocked to the bluff and to the heach marking the site of the lost town. They dug, searched and prospected with all the ardor of Klondikers, but the sole result was a gold piece of the value of \$2.50, which a boy picked up from the wake of a retreating wave. The collection of coin which Henry Mowers found is now in the possession of a man who once ran a Chicago dime museum. No one has ever been able to account for the presence of the money in the place. The theory that it was left behind by a departing resident of St. John is said to be hardly tenable, because the people of that place were not rich enough to make them careless of valuables.

There is one metal which the prospector may find in abundance if he will go to St. John before the two ols apple trees tumble down the bluff. The trunks and branches of both of them are full of lead. The trees stood just at the end of the old gixth infantry rifle butt. For three years before the building of the present post the troops that first came to Fort Sheridan pumped lead at target practice into the butt and incidentally into the apple trees at the side. Despite the attacks of the weather and this leaden onslaught the two trees bore a burden of fruit for years as sound and as sweet as that which bent their branches at the time when the town of St. John was something more substantial than a memory.

IDEAS FOR HALLOWE'EN.

The last of October is the season when we revel in the beautiful autumn fruits and vegetables. Pumpkins and gourds lend themselves so well to decoration, the rich red of the apple, the blue and purple of the grape and the brown of the chestnut gives a richness of color not found any other

The chestnut is the nut par excellence for this season, and its delicacy of flavor makes it always a delight.

time of year.

Chestnut Entree.—Mash a pound of roasted chestnuts to a paste, season well, add two well beaten eggs and a teaspoon of chopped parsley. Pour into buttered timbale cups and set in a pan of hot water. Bake twenty-five minutes and serve with a cream of rich tomato sauce.

Delicious soups may be made of chestnuts. Cook a quart of the meats in boiling water until the skins will come off. Remove them and drop again into boiling water, add a small onion and a stalk of celery, a blade of mace and a bay leaf. When the nuts are tender, mash through a sieve, return to the fire with two quarts of white stock, a teaspoonful of salt, a few dashes of paprika and a pint of hot milk. When the milk boils, remove from the stove and add two beaten yolks and a half cup of cream. Serve in bouillon cups.

For an evening entertainment, nuts, apples, popcorn and sweet cider are the refreshments most appropriate. If one wants something more substantial, hot coffee and doughnuts are great fa-

Chestnut Bavarian Cream.-Soften half a package of gelatine in a half cup of cold water. Press a cup of preserved chestnuts through a sieve. To this puree and the gelatine add a cheese and baked, make a good accomfourth of a cup of sugar and two tablespoonfuls of vanilla. Set the dish in ice water and stir constantly until season with red pepper and salt and the mixture begins to thicken, then fold put it in the oven. in a cup of whipped cream and one! cup of thin cream. Contine to fold the two mixtures together until the mass will hold its shape, then put into small molds, decorated with glace or the molds in hot water when ready to earth. serve, and they will unmold smoothly.

Before you touch the colored cherries, Or start to open up the berries, This may ward off many worries: Read the label.

SOMETHING GOOD TO EAT.

Here is a prize recipe for pound cake which somebody will like to try: Cream two-thirds of a cup of butter to a cream, add a cup of sugar, the well beaten yolks of four eggs; add a little of a cup and a half of flour sifted with a teaspoonful of baking powder, and then add a teaspoon of milk. Add the rest of the flour and the beaten whites. Bake in a paper lined tin

forty minutes. Raisin and Celery Salad .- Cut in small pieces two cups of celery, two oranges broken in bits and two-thirds plumped over steam. Add a cup of grated apple to a cup of mayonnaise and cover the mixture with this. This

is an especially delicious combination. Cassolet .- This is a famous French dish, and is both historical and appetizing. Soak over night a quart of lima beans; in the morning bring to the boiling point, then drain. Add salt, and let them cook until nearly soft. Place in a casserole two cups of cold cooked chicken or duck, add the beans, drained, an onion, sliced, half a cup of strained tomato, a quart of hot broth and a teaspoonful of kitchen bouquet. Bake one hour, uncover, sprinkle with a little chopped parlsey, brown and serve.

A new way to serve apple dumplings is to set muffln rings into an agate pan, fill the rings with sliced apple packed well, then drop a rich biscuit dough on each, spreading out well to cover the top.

Green Corn and Green Pepper.-Cut the corn from four ears, put it into a frying pan with a tablespoonful of hot fat; add a chopped or shredded green

SHORT-NOTICE DISHES.

The forehanded, careful housekeeper has something on hand which may be put together in a hurry when unexpected company drops in. A plain cake or small drop cakes will make delicious puddings when steamed, and a good sauce is made for them. The sauce for a pudding must be well flavored and smooth.

For such a pudding as the above. take a tablespoonful or two of flour, a cup of sugar, mix well and pour on boiling water to make a smooth paste. Cook until smooth, add two tablespoonfuls of vinegar, a grating of nutmeg and a tablespoonful of butter. Do not omit the butter or the sauce will be flat. This is a delicious sauce to serve with a cottage pudding or any sponge cake.

A white sauce is a dish one may prepare in a hurry, and different materials, such as hard cooked eggs, cold potatoes or any vegetable may be added. Crackers served with canned apricots poured over them and heated

makes a very nice emergency dessert. An omelet is always good, and as we should be always well supplied with eggs, it makes a good emergency dish. A can or two of prepared soup should be on your emergency shelf, and a nice hot soup can be quickly pre-

If you have a cup of cold cooked rice, put it with a little butter and a shredded onion into a frying pan; brown the rice and onion, add three well beaten eggs and a half cup of milk, season well and serve as a hot dish

A can of salmon or tongue, or if you live on a farm you will no doubt have different kinds of meat which may be quickly prepared. Sausages slightly cooked and put down in jars

covered with hot fat will keep well. Crackers sprinkled with grated paniment to a simple salad. Butter the crackers, spread with the cheese,

Bacon is another good meat which keeps, and is so good in a number of dishes.

A VARIETY OF ENTREES.

Entrees, or dishes which come be tween, include fritters, souffles, patties, rissoles, croquettes and timbales. At this season, when chestnuts are in the market the following is a dish worth trying:

Lamb Cutlets With Chestnuts .- Take a pound of chestnuts and make an incision in each: put them into a sauce pan with cold water to cover. bring to the boiling point and boil five minutes. Drain and peel off the shells and inner skin. Put them into a sauce pan with three tablespoonfuls of butter, a few dashes of salt, and sugar, and cook until tender, then put through a sieve. Return the puree to the stew pan, add stock, water or milk, season well. Trim the cutlets of a cup of raisins, seeded and evenly, brush with beaten egg and dip in fine bread crumbs. Press them well in and shake off all loose ones. Melt two tablespoonfuls of fat in a frying pan, and when smoking hot lay in the cutlets, being careful that they all lie in the same direction as when cooked the first side is usually the best looking. Fry on both sides and drain well on brown paper before eresh boiling water, a teaspoonful of serving. They will require ten to twelve minutes to cook. Arrange the cutlets in a crown, all bones to the center, with the chestnut puree in the center. Pour a good brown sauce over and serve.

Potato Border .- Take a pint of potatoes, cooked and mashed, two tablespoonfuls of butter, the yolk of an egg and a little milk. Season with salt. and work all together, using care not to get it too soft. Flour a board and turn the potato out on it, roll into a straight, even roll. Make a round piece for the center, lay on the roll. flute with a knife or fork and fill the center with any desired mixture as creamed chicken, peas or celery.

ize warfare on land and

This is the confidently calm, wholly matter-offact prediction made by Ulivi, the Italian engineer and chemist. In a word, he flatly declares that he has perfected an apparatus by means of

which he can project wireless waves at an enemy's ships and blow them off the face of the waters!

These are not the idle mouthings of an irresponsible dreamer. Were they uttered by any one less important perhaps little heed would be given to them by officialdom abroad. Not so with the talented Italian. All Europe is watching his every move, and even mow the government of France is considering whether of not it is advisable to pay the vast sum the wireless expert demands for a monopoly of his invention.

Imagine what it means to be able to blow up a battleship or a cruiser without the firing of a single shot! Warfare will be revolutionized indeed! A steel-sided leviathan of the deep can do no harm far out at sea if the enemy the coast and threaten to lay low some great port-behold!

station, the instant crackle of the remaining intact. wireless as it zips through the blue ether and instantly the great thing of steel parts amidships with the roar of like the German Zeppelins. a thousand guns and sinks to the ocean's floor, a broken, distorted mass.

No dream, this. stage. For weeks past a mysterious enemies!' yacht, fitted with powerful wireless apparatus, has been hovering off the Norman coast of France. Aboard has been a notable party and-Ulivi. Now the secret is out. They have been blowing up submarine mines by wireless as a preliminary to more drastic

experiments. The yacht is the rakish Lady Henrietta, flying the British flag, but under French ownership. Within her sharp lines is hidden the revolutionizing secret which not only France but the government of the United States and all the powers of Europe have been seeking ever since wireless waves have been a fact and wireless poder a possibility. And this secret is the new invention-as yet in its infancy-for exploding at any desired distance from 600 to 6,000 yards by wireless infra-red solar spectrum waves all explosive substances in con-

tact with metal. Briefly this means that Ulivi says he can detonate the guncotton or the azine by means of wireless, and the French Government is seeing if it can the scene.

be done. The infra-red rays of the solar spectrum are those mysterious beams beyond the edge of the red, invisible to the human eye but nevertheless there. For convenience Ulivi calls them "F-rays." They are akin to mock."—Ainslie's Magazine. X-rays in that they can penetrate metal, but instead of making objects visible they develop force beyond the barriers which can deflect the most powerful projectile, but are as glass to the potent force of the little known rays beyond the red, whatever un-

thinkable color they may be. How they work or in what manner Ulivi has controlled them nobody but he knows. But that they have worked he himself frankly states and the official commission which went to sea with him solemnly gives assent. Ulivi in the middle of the day?" asked the did not go about his work under any magistrate. cloak of secrecy of mystery. With

I have not the slightest doubt that ment," said General de Castelnau at this time Signor Ulivi has been able seriously, "and everything we have to construct antennae and specially desaid must be kept a profound state signed receiving instruments and relays by which he can explode at a considerable distance an especially prepared charge of guncotton or other explosive. In fact, I have seen

This working apparatus is the Shoemaker torpedo. It is a full-sized torfra-red rays which find the exact dis- pedo wirelessly controlled. This formidable weapon can be started, stopped, steered and exploded by an operator at a distance, but it requires the Ulivi "F-ray" is then shot out special receiving apparatus in the torfrom its station affoat or ashore and a pedo itself. It can perform what is expected of it, but it is not practical for the very good reason that the operator cannot see far enough to exercise his judgment in the control of the instrument. Take a motor boat 2.000 yards away-you can't tell exactly how she is heading. How much harder then to judge the steering of a distant torpedo! The French navy has already had trials with wireless torpedoes, and what Ulivi has accomplished is probably an extension of these experiments.

Now, what mysterious power is it that he has? Or, better, what is Ulivi trying to obtain?

Briefly this: Some means of pro-"it will render a ship freighted with jecting energy through space that will detonate some explosive at a given place, subject to the control of the operator.

As I have said, this is no new idea. Frank R. Stockton has it in his story. "The Great War Syndicate," and H. G. Wells used it in "The War of the Worlds." The same scheme has al-If the Italian, Ulivi, has devised ready been proposed at the bureau of something by which he can explode a Ordnance of the navy, too. One in-

"I-I don't think there is anything worst about me. Now tell me what your faults are.'

"Well, I think I, too, am perfect." "Harold! Do you really mean that?" "Certainly."

"I'm so glad we have had this understanding and that now there is no danger of our making any mistake."

Prodigal Parent.

Col. Roosevelt, one evening in Marquette, told a group of newspaper correspondents a number of stories. "If more of us were materially, but

not mentally, like the Arkansas backwoodsmen, it would be well for the nation," said the colonel. "Once, while traversing Arkansas, I

dismounted at a log cabin and asked if I could have dinner. Yes, they said, I could, and while I waited on the bench before the door I noticed a baby playing with a loaded revolver. 'Goodness me!' I said. 'you shouldn't let that young infant play with a loaded revolver. What a terrible risk!'

"Risk?' said the backwoodsman. 'Aw, I dunno. I got 'bout fo'teen mo' chillun round the place somewhere."

Sensational. "He has written a new play."

"Original?" "Yes. The heroine is a married

woman.' "Oh, I know. And falls in love with

"No. There's the original part of

What Doctor Can Beat This? In less than three months a physician of Portland, Me., has treated professionally five patients representing five successive generations of the same family, beginning with a centenarian and following in the direct line of descent down to her great-greatgrandson. He first attended the old lady, who was ninety-nine years old. for senile gangrene resulting in her death. During her illness he was called on to prescribe for her daughter, aged seventy-five. Next this daughter's son, a florist, aged fifty, fell ill and required attention. Following him, a son, a clerk of twentyseven, found himself in need of medical aid. And lastly to the clerk's wife was born a male child, whom the doctor was called upon to assist into the world, as he had been summoned to ease the great-grandmother's exit from it barely three months be-

Stopping the Wind.

In the village church during the morning service the organist was annoyed because the organ-blower kept working the lever noisily after he had finished playing. A famous preacher had come down from London to preach. The organist scribbled a note to the blower, and sent it round by a choir boy, who, misunderstanding his instructions, put it into the hands of the preacher. The note was as follows: "Perhaps you will kindly stop when I tell you to. The people have come here to hear my music, not your noise.'

Made the Parson Happy. It was Dr. Cosmo Gordon Lang, archbishop of York, who, when he was bishop of Stephney, remarked, apropos of the children of the East end: "They are doing a great deal to rebuke the tendency of the clergy to become middle-aged in spirit-dull, morose and superior." And he told one of his favorite stories of an East end cleric who was feeling lifeless and disconsolate on setting out on his daily round of visits, when a little street urchin looked up at him with a cheerful eye and knowing smile, and said: 'Ullo, young man!' That greeting quite reassured the parson for the

ECZEMA ON BACK AND CHEST

rest of the day," Dr. Lang declares.

Pierson, N. Dakota.-"The eczema started on my scalp. It finally went on to the back of my neck, then on to my back, arms and chest. It broke out in pimples first and then seemed to run together in some places, making a sore about the size of a dime. At times the itching and burning were so intense that it seemed unbearable. The more I scratched it the worse it became, and there would be a slight discharge from it, especially on my scalp, so as to make my hair matted and sticky close to the scalp. The hair was dry, lifeless and thin. My hair was falling so terribly that I had begun to despair of ever finding relief. My clothing irritated the eruption on my back. The affected parts were almost a solid scab.

"I had been bothered with eczema for about a year and a half. Then I began using the Cuticura Soap and Ointment. I used them daily for two months and I was cured." (Signed) Miss Mildred Dennis, Apr. 30, 1913.

NOW, WHO HAS DIRTY HANDS?

Yours Are Only Relatively Cleaner Than Those of Your Neighbor, If You Reflect.

"This is a lavatory episode and not so much of an episode at that, except that it made me think a couple of thoughts which I had hitherto overlooked," said the man with the package that was patently a pound of candy. "Maybe you'll call it an epigram. I don't know. But I heard it in one of those places where the long rows of white bowls and hot and cold spigots and paper towels and tipsy bottles of liquid substitute for soap

"There were two boys there, office boy type. One was washing his hands. Also a man, office man type, who joshed the boy who was washing. Told him he needed a bath by the looks of as much of him as was visible—and such as that. The boy hotly denied that he was filthier than the average. Finally the merry kidder went out. The accused boy turned to his companion and exclaimed, partly in indignation and mostly in amusement, at the absurdity of the

"'He thinks everybody's hands is as clean as his is.'

"Now that struck me as right il luminating. I have long wondered how boys can live with dirty hands and uncombed hair. I have a young son of my own and I know that no amount of moral sausion will make 'em wash and comb regularly. But don't you see, a boy's hands are not dirty unless they are dirty for a boy's hands. It's that same old stuff over again about everything being rela-

"That boy who seemed to think cleanliness was an immutable condition, something that just happened and couldn't be avoided or attained, was my boy's benefactor, though he didn't know it. I realize now that a boy's hands are clean when they BOELL, 2650 S. Chadwick St., Phila., Pa. don't look it to the parental eye. I'll not bawl out my dear boy for coming to the dinner table with grimy flugers any more. I know now that it will all come right in time. When he gets to be as old as I am his hands will be as clean as mine 'is.'

"One more precious thought: Did you ever sit in a car alongside a delivery boy or a molder or a laborer and shudder in ill-concealed horror at sight of his dirty hands or face? You are in the habit of supposing that your own hands and face are clean, I suppose? Well, they are not, except relatively. Your hands may be clean compared to the boy's, but they are disgustingly dirty compared to comparatively clean hands, such as a surgeon has when he's all ready to go ahead with the slashing. Think it over and don't let yourself get puffed up with false pride."

How It Feels to Freeze. Freezing to death is preceded by a drowsiness which makes the end painless, the body actually feeling warm and going comfortably to sleep. Experiments have been made with animals to show just how freezing to death proceeds. In one of these experiments, in which the animal was placed in a temperature of from 125 to 150 degrees below zero, the breathing and heart beats were at first quickened, the organic heat of the body actually rising above the normal, which is 98.6 degrees Fahrenheit. This showed a sudden and intense effort on the part of the functions to preserve the body's temperature. Then violent heart action gave out suddenly, and death came when the temdegrees Fahrenheit .- Popular Mechanics.

Not Like Her Visitors. The perfect baby bad reached the

age when he could coo, an accomplishment in which he indulged hemself most of the time when not otherwise engaged. "He is the most welcome visitor I ever had," said the mother, proudly. "He just lies and talks to me by the hour." "Isn't that nice," replied the caller. "So unlike most visitors—they just talk and lie to you by the hour."

On the Links.

Golfer-I'm sorry to trouble you, madam, but you are directly on the line of our drive. Will you kindly move one way or the other?

Woman (comfortably seated on the ground)—Certainly not. I heard you shout very rudely, but I've no intention of moving. I should have thought that a gentleman, when he saw me here, would play the other way.-London Punch.

A Century Hence. "And will you be mine, Helene?" "Yes. Horace!"

In a transport of joy he seizes the hand of the young girl and shakes it. To be sure hand-shaking has been declared unsanitary by the best medical authority, but what has such a tumultuous love as theirs to do with considerations?—Puck.

First Stone Arch Bridge. Said to be the first stone arch bridge erected in this country, the "Choate Bridge, Built by Town and County, 1764," as the inscription states, still stands, a monument to the builder, Col. John Choate, at Ipswich, Mass. It s seemingly as strong as ever.

Nature of the Beast. "I thought surely you'd sell that lot of sausages," said the grocer. "You praised it highly enough."

LAURIE'S SCAPEGRACE

By IZOLA FORRESTER.

tain road on her black mare, saw the trees and carried the news back to the village.

"Anybody come on the night train, Walt?" she asked the express agent at the little wooden depot.

Walt recalled two, but they were village people. He listened to her news with a shrewd smile.

"Guess they must have run up in a machine. Which one would ye rather it was. Laurie?"

Laurie flushed, and tossed her head in much the same way as the mare did when she was restive. As though she cared which one came up to the Lodge! She knew what Walt meant. For two summers, and in the long hunting season, both of the Gregory reason for coming up to the Lodge. It was not the deer that led them, nor the partridge and quail. It was Laurie his crushing grip.

Carrolton. When she reached her own home a horse stood at the gate, unhitched. It raised his head, whinnering to Vermont Belle. Very deliberately Laurie slipped down to the stable door. Standing within was Emmons Gregory talking to her young brother.

"It's so mighty good to see you again, Laurie," he said, taking both her hands in his. She drew them back.

"I saw the smoke above the trees

and knew someone was there." "And you wished it was not me." Under the bantering tone there was an underlying touch of bitterness. "I didn't wish at all. I only won-

dered who was there." "Malcolm is with me and a few of the men servants. We expect more the end of the week. Will you ride with me along the river road after lunch?" It was on the tip of her tongue to say no, but Hardy forestalled her. He was only eighteen but he stood two inches above Gregory's head.

"Mother wants you, Laurie," he said with a side glance at his sister's face. "I'm sorry, Mr. Gregory, but I

"You mean you wont." His tone was almost rough. "Shall I send Malcolmn down?"

"You can both keep away," Hardy spoke up suddenly, his face darkening with quick, boyish anger. "What's it to Laurie whether you come or go?" "When you get past the cub age. you will understand that the issue lies with her, not you, lad," smiled back Emmons, with aggravating courtesy. He raised his cap to Laurie, and went out to his mount Laurie stood watching him ride up the road.

Something in her quiet face, and the expression of her dark eyes checked (Copyright, 1913, by the McClure Newspaper Syndicate.) Hardy's hilarity.

better keep out of it, dear. I can managed them both." "You'll have your hands full, then,"

grumbled Hardy.

She smiled then at his emphasis, but during the next few days his money, and few restrictions. Their out on his belly, his nose on his paws, real interest. He caught her two hands close in "I thought it was you, Laurie. Do

you mean you've told him-" Laurie nodded. "Do you know what you've done

dear heart? I'm the scapegrace. Dad always said I was, and yet he was good to me. I've run wild with his money and my life, and now I lose it all and you too."

"Not me, Emmons." Her face was uplifted to his, but he made no attempt to kiss her. "I told Malcolm I had made my choice. He went straight to mother then. And she knows-I think she knew before I did myself."

"But I may be cut off from every share in the old estate." "I'm not marrying the estate," laugh-

ed Laurie softly. Half an hour later they stole into the shadowy living room where Mrs. Carrollton sat alone before the open fire. She listened to Emmons in silence while Laurie knelt beside her, her face on her shoulder.

"It doesn't seem fair to ask Laurie, to be my wife, though, on account of father's clause in the will and I know it was put in to keep me straight."

"I happen to know what it says, Emmons boy," smiled back Mrs. Carrollton, affectionately. "Your father read it to me. Both of you boys are dear to me, so it made no difference which one Laurie chose. The clause merely states that in the event of either one marrying Laurie an extra fifty thousand is added to his share, and the homestead at Mount Ranzer.' Slowly a dawning smile overspread Emmons' boyish face. He slipped one

arm around Laurie and drew her up to him. "Poor old Malcolm," he said, with deep feeling.

Condemnation Proceedings In Probate Court for the County of Delta. STATE OF MICHIGAN ;

COUNTY OF DELTA At a session of the Probate Court for the County of Delta, held at the Probate office in

the city of Escanaba on the ninth day of Octo Present Honorable Judd Yelland, Judge of

In the matter of the petition of the Board of

County Road Commissioners of the County of Delta for the appointment of three commissioners to determine the necessity of a proposed county road through certain lands in said County of Delta, and for the taking of private property for the use and benefit of the public for the purpose thereof, and to apprais the damages to be paid as compensation for the taking of said private property.

Whereas, petition has this day been made in writing to this court by the Board of County Road Commissioners of the County of Delta and State of Michigan for the appointment of three commissioners to determine the necessity for a proposed public county road as a part of the road system of said county, through certain lands in said county, set forth in said petition, and for the taking of private property for the use and benefit of the public, for the purpose thereof, and the jus compensation to be made, therefore; and

Whereas, the said proposed county road is in said petition in part described as follows: The the prospective customer surface estate of that piece or parcel of land surface estate of that piece or parcel of land situate in the township of Baldwin, County of could not be better, then city, who have been visiting relatives Delta and State of Michigan, described as follows: Commencing at the Southwest corner of Section thirty-one (S. W. Cor. of S. 31). Township forty-two North (T. 42 N.) of Range twenty-two West (R. 22 W.), thence running East along the South line of said section, 2068.6 feet, thence North at right angles to last men tioned line 33 feet, thence West parallel to and 33 feet from the above described South line of said section 31, 2068.6 feet to the west line of section, thence south along the said line 33 feet to the point of beginning, said land being a strip 33 feet wide along the South line o the Southwest quarter of the Southwest quarter (S. W. 1/4 of S. W. 1/4), and the west one half of the Southeast one-quarter (W 1/2 of S. E. 1/4 of S. W. 1/4) of the Southwest quarter of Section thirty-one (S. 31), township forty-two North (T. 42 N.), Range twenty-two West (R. 22 W.) and containing 1.75 acres, as shown by the map marked Exhibit "A" and hereto annexed and made a part hereof; and

Whereas, said petition alleges that said certain parcel of land above described is necessary to be taken for the purpose of said public highway, and that the said parcel of land is the property of George Neurohr, and that the said petitioner has been unable to agree with the said owner for the purchase price thereof, and that the said parcel of land so required, owned and desired is a part of a public highway described as follows: Whereas, said petition alleges that said

patible highway described as follows:

A road or right of way 66 feet in width, starting at the intersection of the line between township 41 North, Range twenty two West (R. 22 W.) and township forty-two North (T. 42 N.) Range twenty-two west (R. 22 W.) with the highway named the Lathrop Road (a county road formerly known and described as the Marquette Road); and thence running west along the line between townships forty-one North (T. 41 N.) Range twenty-two west (R. 22 W.) and forty-two north (T. 42 N.) range twenty-two west (R. 22 W.); forty-one [41 N.], range Range twenty-three West [R. 23 W.] and forty-two North [42 N.] Range twenty-three [R. 23 W.], 6.47 miles to the West line of the two last mentioned townships; and

It appearing to this court, after due examintion of such petition that the said petition in all the proceedings heretofore taken in the premises are in accordance with the statute in such cases made and provided.

Thereupon it is ordered, that Monday, the third day of November A. D. 1913 at two o'clock in the afternoon of said day at the office of the Judge of Probate, in the city of Escanaba, in said County be and the same are hereby appointed as the time and place of hearing of such petition before this court and It is further ordered, that the said County be a court and the same are hereby appointed as the time and place of hearing of such petition before this court and

It is further ordered that the said George Neurohr, whose land is to be traversed by such public and county highway, who has not re-leased the right of way thereof and all damages on account thereof, appear at the time and place designated, if he so desires and show cause, if any there be, why the said petition should not be granted.

should not be granted. should not be granted.

It is further ordered, that a copy hereof be published once in each week for three successive weeks in the Gladstone Delta, a newspaper published and circulating in said county, and that a notice hereof be served on the said George Neurohr, together with a copy hereof and of the petition herein referred to at least ten days before the said 3rd day of November.

JUDD YELLAND T. E. STROM Judge of Probate

Attorney for Petitioner.

Sept. 20, 1913 Nov. 1, 19: Order for Appearance STATE OF MICHIGAN. THE CIRCUIT COURT FOR THE COUNTY

OF DELTA IN CHANCERY. LILY EVELAND. Complainan

JOHN EVELAND,

Suit pending in Circuit Court for the County of Delta in Chancery, at the City of Escanaba, n said County, on the 18th day of September

A. D. 1913.

In this cause it appearing from affidavit on file that the Defendant, John Eveland, is not a resident of this State, but is a resident of Rice Lake, Wisconsin.

On motion of Rushton and Riley, solicitors for the Complainant, it is ordered that the said non-resident defendant, John Eveland, cause his appearance to be entered in this cause four months from the date of this order, and in case of his appearance he cause his answer to the Complainant's Bill of Complaint and a copy thereof to be served on said Solicitors for the Complainant within twenty days after service on said non-resident defendant, a copy of said Bill and Notice of this order and that in default thereof, said Bill be taken as confessed by the said non-resident defendant.

And it is further ordered that within twenty days the Complainant cause a notice of this order to be published in the Gladstone Delta, a newspaper printed, published and circulated in said County, and that such publication be

in said County, and that such publication be continued therein at least once in each week for six weeks in succession, or she cause a copy of this order to be personally served on said non-resident Defendant at least twenty days before the time above described for his appearance.

slight increase over last year. There is tittle trouble from truancy this year. The high school has now 126 pupils.

FIGHTING CONSUMPTION

An organization to aid in the fight against tuberculosis is being formed in Detroit, with the avowed purpose of establishing a colony for white plague sufferers in the upper peninsula. A 65 acre tract of land on the shore of Trout Lake, half a mile from the village of the same name is the site proposed for sanitarium and cottages to be erected as auxiliary hospitals. To supplement the beds in the Colonial Sanitarium, as it is proposed to call the Trout Lake institution, the organizers hope that fraternal societies, churches, manufacturing concerns, private individuals or any others will build cottages on the property. These cottages, which can be erected at a cost of about \$250 each, will be used for the care of such persons as are able C. E. Hawkins received a letter today to care for themselves. Sixty acres of Detroit News is one the principal pro-

> RIGHT AND WRONG. What may be right for me today may be wrong for me tomorrow. Some new impression, knowledge, power, may entirely vary my duty. No other is the judge.-Channing.

Were You Ever Guessed About Like This?

SCENE-Monday morning in Tailor-to-Trade House. Number of cutters present 110. Orders received 800. Each cutter must cut about eight suits.

CUTTER NO. 1-"I wonder whether the dealer who sent in this order used a loose or tight line in measuring."

CUTTER NO. 10-"I wonder if this one measured from top or bottom of collar."

CUTTER NO. 99-"I wonder if this measure was taken over or under coat or vest or pants." CUTTER NO. 50-"I wonder if

this dealer was sober when he took

the measurements " CUTTER NO. 67-'I wonder if this fellow ever measured anybody

CUTTER NO. 81-"I wonder if there is anybody alive who can read

this man's figures." CUTTER NO. 2, etc.-"I wonder whether this measure was taken by

a plumber."
