

NOTES from MEADOWBROOK FARM

By William Pitt

Build a scratching shed.
Please your egg customers.
Give the chicks the sour milk.
Constant vigilance is the price of a clean swine herd.
Do not waste by feeding more than the animal can digest.
Milk that is kept clean and properly cooled needs no preservative.
Equal parts of corn and oats are hard to excel as a grain feed for sheep.
Paint all the wounds made in pruning with pure white lead and pure linseed oil.
It is cheaper to remove the cause of disease than to doctor the chickens afterward.
The young calf should have an abundance of good clean water before it at all times.
The moisture going in with the silage should be kept in. This keeps the silage from "dry-firing."
It pays to grade all small fruit. It demoralizes prices to have small, bad berries mixed in with large ones.
Spraying with whitewash once a month will go a long way toward keeping down vermin in the poultry house.
It never pays to market stock that is not fat. Plenty of good yellow corn will make any healthy bird fat in two weeks.
Experiments show that chickens with strong vitality and plenty of masculine characteristics make the largest gains.
If you have any chickens roosting in the orchard trees, you had better let them know what the hen house was built for.
Don't allow your horses to drink a large amount of water on coming into the stable very warm. Allow them to cool off a bit first.
The profit in pig feeding depends upon the cost of the feed given them. Therefore anything that cheapens the feed increases the profit.
Bitter rot and blotch are two of the most difficult diseases of the apple to control. Late spraying with Bordeaux mixture is most effective.
No matter how healthy and strong the chick may be when hatched, the strength will soon disappear when not given the proper feed and attention.
Humus is the name applied to the partially decomposed organic (animal and vegetable) matter of the soil. It is the principal source of nitrogen in the soil.
The farm mortgage that has outlived every other line of activity very frequently succumbs to the dairy cow and the milk check which she brings in every week.
The profit in a cow consists of the money the milk or butter will sell for over and above the cost for feed. This cost will not be materially different between the cows kept on the average farm.
The object of sanitation in the hog yards and houses is to secure the greatest degrees of bodily health and vigor, because the animal will develop better and be less susceptible to disease.
Many orchards are not fruitful for the reason that there is not enough nutritive properties in the soil to supply the requisite amount of nourishment to enable the trees to properly mature fruit.
A few dollars spent in improving fences, especially along the roadside, will be money well used, for it will not only help the appearance of the farm and make a more ready sale if such is desired, but it will also add to the self respect of the farmer and the farmer's boys, all of which has a real value.
A good way to handle manure for garden purposes is to spread it in broad, flat piles and allow it to rot, then apply 100 pounds of acid phosphate and 100 manure and mix this well when you put it in a pile. This will add to the manurial value of the pile and will prevent the loss of ammonia to a great extent.
The heavy feeding of corn to poultry, especially where there is an absence of good, hard, sharp grit, will bring on bad cases of indigestion, which in many cases resembles cholera. About 92 cases out of 100 reported cholera victims are cases of indigestion. The end is the same, but the latter disease is not contagious.
Because the hog has the ability to utilize grain foods so efficiently and economically is a poor excuse for feeding grain exclusively and neglecting to reduce the cost of pork growing by the use of supplemental forage and pasture crops.
Other things that go to make intensive cultivation a success are manure, and constructive work in your garden. Confine yourself to a small garden spot and work that hard rather than work over a large one and give it only half enough attention.

Find out the good cows.
Overcrowding is a mistake.
Mismanagement is expensive.
For heifers provide good pasture, shade and water.
If you hurry you still have time to put up a silo this season.
It is estimated that five chickens will yield a pound of feathers.
Old turkey hens and young toms make the best breeding combination.
Sheep ought to be kept because of the influence which they exert upon fertility.
Wasteful feeding does not necessarily mean too much, it may mean not enough.
In seeding sweet clover its lime and inoculation requirements should be carefully looked after.
When managed rightly, the dairy cow and the good profitable hen will always give a profit.
Mistakes in pig feeding are costly. In the short life of the pig there is little time to correct mistakes.
Eggs ought to weigh a pound and a half to the dozen or fifty-five pounds net to the thirty dozen eggs.
Sand is a bad thing in the gear boxes of automobiles but is very necessary in the gizzards of chickens.
It is necessary to feed the breeding ducks liberally, yet at the same time feed so as to keep them active and healthy.
Do not plant the same crop on the same land each year; rotate. Disease and insects will become troublesome if you don't.
Silo filling time has already come for some of the dairy farmers. It is best to be thoroughly prepared before the actual process begins.
Seed corn week will soon be here. See that the very best ears are saved for next year's crop depends upon your foresightedness just at this time.
Broom corn and sorghum should not be planted close together if planted so they mature pollen at the same time. They are closely related botanically and mix.
Select at least fifty ears of corn for each acre to be planted next year. This will allow more careful selection next spring. The poorer ears you can sell to your neighbors.
We would not feed shelled corn to heifer calves intended for dairy cows. The feed is too fattening. Whole oats are much better. Shelled corn will do for steer calves intended for beef purposes.
Remember that the fall is a splendid time to paint those buildings you didn't take care of last spring. Do not let them go through another winter without some improvement along this line.
Success in intensive cultivation can come only through a thorough knowledge gained by study and close application to the work. You must know how to rotate your crops, that is, how to follow one crop with another, what crops to plant for early growing and what to plant for late crops.
The best market you can find for the green corn, if you haven't plenty of silage, is cutting part of it and throwing it into the pastures for the cows or, better still, feeding it in the barn. They will return you a good price for everything you give them if they are good cows.
Dozens of dairy farmers are feeding and milking twenty cows twice per day each day of the year, when the chances are that twelve to fifteen of the number would pay a larger profit. The whole idea is to find out which are the good cows and then give them the attention they need.
How are you taking care of the manure that daily accumulates on the farm? This is a big item to dispose of any very important in connection with future soil fertility and big crops. We trust that you are not allowing it to go to waste.
McGrel live stock and poultry will be predominant on our American farms till more of our farmers keep their own sires, and thus know something about the blood origin of every living thing on the premises. It pays to keep the best and breed the best.

ZUYDER ZEE TO BE DRAINED BY DUTCH GOVERNMENT

Queen Wilhelmina has told the Dutch parliament that a bill is to be introduced for the drainage of the Zuyder Zee so as to form a new province. This body of water was formerly a lake surrounded by marshes, its present extent of some 2,000 square miles being chiefly the result of floods in the thirteenth century. It is from ten to nineteen feet deep.

WHY THE TURKS FAIL

THEY LACK THE INSPIRATION OF THE WOMEN.

Everything Done by Christian Europeans is for Sake of a Woman—Mohametan Has No Such Incentive.

The Turks, who are losing power each year, have given to the world no great scientist, explorer, painter, composer—indeed no great leaders in any branch of action or art—save only that of war.
Why is it? The Turks have been Europeans for centuries—their climatic conditions and their environment are western. How is it to be accounted for, then, that they have given no great man to the world—save only soldiers?
It was a question put to a Turkish gentleman, diplomat, soldier and scholar. And his answer came straight and pat, without any pause for consideration of limitation.
"Mohametans have not given a leader to the world of thought or deed," he said, according to a London correspondent of the Philadelphia Record, "for one reason, and one reason only. Why is it? Our brains weigh as much as yours, there is no difference in kind between us. What we lack is the inspiration of the woman."
The reply came swift and sure, certain and emphatic. It cracked like a whip.
"Everything that has been done by the Christian Europeans," he went on, "has been done for the sake of a woman. The exceptions are so few as not to be worth talking about. For the sake of wife, mistress or mother. The woman has been the cause of every effort—to shine in her eyes, to win her praise, that she should be proud of her man."
"That is denied to us Mohametans. Our women are not our helpmates, our equals or our comrades. They are our recreation, and, of course, they are honored as the mothers of our children. But they are not our inspiration."
"It is true that the majority of Turks are not now polygamists, but the aftermath of polygamy remains, and will remain for many years to come. The harem is gradually disappearing, but the tradition of the harem casts its gloom over our life. The woman of our country continues, as a rarely broken rule, to be the chattel of the harem, even though she inhabits it alone. She has not been given the place in our civilization or in our hearts that the 'one woman' holds in the life of the Christian peoples of Europe."
The views of this gentleman are not shared by Abdul Hamid, the prisoner ex-sultan of Turkey. In his memoirs he speaks of the status of the women of Europe and America and says:
"Any man who has any sense will deplore with me that women are given too much freedom; that they rule the salons and are seen to walk about in streets, while men are slowly drifting to be their servants. I understand this is the case in America. Why do Europeans criticise our women? Are Turkish women not prettier and more moral than others?"
"In our country the woman belongs to the household, and belongs to one man alone. In Europe she has much, too much, freedom to remain a woman at all. If only half I have read in books and newspapers about womanhood in the west is true—well, I pity the western men!"

Skeleton Halted Funeral.
A skeleton in a tomb halted the burial arrangements at a recent funeral at New Orleans, La. The funeral was that of a negress, Savanna Richardson. It was discovered that the tomb into which it had been planned to place the remains was occupied by a skeleton. A large funeral party had accompanied the body to the tomb. When the vault was opened and the skull of a skeleton revealed to their astonished gaze a near panic resulted. The clergymen who were present calmed the frightened members of the party, and the tomb was closed without further examination. The skeleton was that of a man. The hair appeared intact and the burial robe could be seen by the members of the party. The tomb in which the skeleton rested was one of a long row, about six feet from the ground. It is believed the body was originally buried in a valuable casket, which was stolen from the tomb. The woman's body was buried in another tomb.

Treasure Wilson Saved.
A fire broke out one day in Francis Wilson's dressing room at the theater where he was playing.
He had some of his books around him, and in an agony of despair asked himself:
"Which shall I save?" He glanced at his precious Chaucer, at some Shakespearean volumes, when—
"Come, Mr. Wilson," broke in at the door from a fireman, "you have not a moment to lose."
"Yes, yes. Coming," replied Wilson absently.
He was looking for a special illuminated volume very dear to him.
"Come, Wilson," cried the manager; "come, get out."
"All right, all right," said Wilson, and grabbing some clothes in one hand, he snatched with the other the nearest volume and ran to the street. Then he looked at the huge volume in his arms. It was the City Directory.—Washington Star.

PRESIDENTS' GRAVES

Where Remains of U. S. Chief Executives Repose.

Resting Places of Lincoln, Grant, McKinley, Cleveland, Garfield and Others—Death of John Quincy Adams.

Washington.—George Washington, our first president, breathed his last on December 14, 1799, at Mount Vernon, his magnificent country home in Virginia. He was buried in the old family vault of plain red brick, situated near a wooded ravine only a short distance from his stately residence. In 1813 his body was removed, and today, inside a heavy iron grating, visitors are daily permitted to gaze upon two marble sarcophagi, which contain all that is mortal of George Washington and his wife Martha, who passed away in 1801.
John Adams departed this life July 23, 1826, the date being the semicentennial anniversary of the declaration of independence, in which he had taken an active part. Adams died at his home in Quincy, Mass., and his mortal remains were laid to rest in a basement room beneath the Unitarian church in that city.
Thomas Jefferson's death occurred on July 4, 1826, the natal day of the republic and the same date as his predecessor, at Monticello, Albemarle county, Virginia, and his body was interred in his private graveyard.
James Madison died June 28, 1836, at Montpelier, Va., and was buried in the center of a level field on his estate.
James Monroe breathed his last on July 4, 1831, in New York, and sleeps in Hollywood cemetery, in Richmond, Va.
John Quincy Adams died from a paralytic shock in Washington, on February 23, 1848. His remains were conveyed to Quincy, Mass., and buried in the rooms under the Unitarian church.
Andrew Jackson died on June 8, 1845, at the Hermitage, his country seat, situated 12 miles east from Nashville, Tenn. In a corner of the flower garden, about 80 yards from the historic dwelling, under a massive canopy of Tennessee limestone rests the brave general with his beloved wife, who had gone before.
Martin Van Buren died July 24, 1862, at Kinderhook, N. Y., when seventy-nine years of age and was buried in a cemetery near that town.
William Henry Harrison died April 24, 1841, just one month after his inauguration as president, at Washington, and was first interred in the old Congressional cemetery, in the capital city. A few years later his body was removed to North Bend, O., where it now rests.
John Tyler died July 8, 1862, at Richmond, Va., and was laid to rest in beautiful Hollywood cemetery.
James K. Polk's death occurred on June 15, 1849, at Nashville, Tenn. He and remains of his wife were buried in the northeast corner of the capitol grounds.
Zachary Taylor, after serving only 16 months as chief executive of the nation, was taken away on July 9, 1850, at Washington, and his mortal remains now rest in the little cemetery at Frankfort, Ky.
Millard Fillmore passed away on March 8, 1874, at Buffalo, N. Y., and sleeps in Forest Lawn cemetery near that city.
The death of Franklin Pierce occurred October 8, 1869, at Concord, N. H., his native state, and his remains are interred in the old city cemetery there.
James Buchanan, the bachelor president, died on June 1, 1868, at his

REPRODUCE FIGHT FOR FILM

Noted Army Leaders and Indian Warriors Re-Enact Old Battle of Wounded Knee.

Valentine, Neb.—A part of the historical battle of Wounded Knee, which was fought December 28, 1890, was reproduced for motion pictures near the Pine Ridge agency at the instigation of Col. W. F. Cody.
The assistance of some of the same Indians who participated in the battle was secured and they played the same part that they took in the battle 23 years ago.
Two troops of soldiers from Fort Robinson took part.
The battle was reproduced with the same accuracy in every detail, and Gen. Nelson A. Miles, Brig. Gen. Charles A. King, and Maj. Jesse M.

Lee served in the same capacities as when the original battle was fought. The government was interested in the reproduction of the battle to the extent that copies of the films made will be filed among the historical archives of the war department.

"GOLD RUSH" GOOSE DIES

Web-Footed Animal Which Went West in '49 Was Pet for Fifty Years.

Marion, O.—Ohio's oldest goose which was taken from Marion by Wesley H. Gouldin to the California gold field in 1849, is dead.
When Wesley Gouldin and his family left Marion county for the Pacific coast, driving oxen, they took with them the best specimens of their barnyard fowls. The only bird which survived their journey was a white goose. So attached did the family become to it that it was always regarded as a household pet.
For 50 years the goose laid from three to ten eggs every spring. Of late years the supply dwindled until this spring only one small egg was produced. When the gaired feet of the aged bird failed longer to bear up its body the bird died.

LINDSEY DEFIES WOMAN FOES

In an Elaborately Prepared Pamphlet Denver Judge Throws Down Gauntlet to Them.

Denver, Colo.—By way of an elaborately prepared pamphlet entitled "Sex and Sin," Judge B. B. Lindsey has formally thrown down the gauntlet to the Woman's Protective league.

Saves Boy's Life With Bible.

West Orange, N. J.—Using the Bible as a missile, Mrs. John F. Kent knocked a bottle of carbolic acid from the hands of her son, Albert, twenty-nine, just as he was about to swallow the contents. Albert was saved by his mother's perfect throw.

Girls Dance on Sticky Flypaper.

Baltimore, Md.—Two girl freshies at the Goucher college were compelled by sophomores to do a "tanglefoot tango," dancing around in their bare feet on several yards of sticky flypaper.

Would Serve on Jury.

New York.—Morris Samuels, who lives at the Hotel Majestic, expressed sorrow when not allowed to serve on a jury, saying that the courtroom atmosphere was just fine for the nerves

Judge B. B. Lindsey.

and defied that organization to go ahead with the recall. The document concludes with a series of high commendations for Lindsey and his system of police officials.

Opium Culture In Persia.

OPIMUM SMOKERS IN A PERSIAN TEA HOUSE.

THE cold season in southern Persia is short, but occasionally so severe that snow falls plentifully round about Shiraz, the capital of Fars; but in most winters only heavy rains prevail. There is a considerable variation in the temperature on the coast and on the lofty plateau in the interior of the country.

The juice is sold in large copper vessels by the grower to the merchant, in whose hands it undergoes several processes in order to preserve it from fermentation and decay. On sunny, fine, hot days the Persian caravanseri where opium dealers have their offices present an interesting feature. The juice is brought out to be made into cakes for export.

For this purpose a peculiar knife is employed. It has a thick handle in which several thin, short blades, an inch in length, are set and with which several parallel cuts may be made with one stroke.

When the sun stands low on the western horizon, the men with the above-mentioned tools start their work, making one or two incisions in the fleshy green skin of the heads on the side towards the setting sun. During the cool night hours the brown, strong-smelling, viscous juice oozes out and collects in pearl-like drops on the surface of the seed vessel.

GATHERED IN THREE HOURS

THE FLOWER OF OBLIVION

On sunny, fine, hot days the Persian caravanseri where opium dealers have their offices present an interesting feature. The juice is brought out to be made into cakes for export. On large wooden boards, two and a half feet long and one and a half feet broad, the sticky mass is spread out with spade-like tools to permit the water it contains to evaporate.

SHAKESPEARE A POACHER

Charlecote Park, Warwickshire, England, is the place in which, according to tradition, William Shakespeare indulged in poaching. The great gates of the park are here pictured.

Electric production of ferro-silicon as well as potash will be carried out by a new method in Sweden employing current from hydro-electric plants. A lock which, when the key is turned, shuts off the gasoline and disconnects the battery and magneto is a new invention to foil automobile thieves.

SOME POSTSCRIPTS

The German army expects to spend nearly \$25,000,000 in the next five years for dirigible balloons and aeroplanes and the navy half as much. More than 2,000,000 American farmers are now using telephones in their homes, more than 100,000 having installed instruments within a year.

How the End Will Come.

The professor of natural phenomena had acquired a gasoline car. "The day is coming," he said to his class a few weeks later, "when the tire will sag and punctures pierce the inner tube and the casing blister—and then this old earth of ours will have a blowout that may shake the Dog Star from its kennel and hurl the Dipper to kingdom come!"

Excellent Precepts.

If you would relish your food, labor for it; if you would enjoy the raiment, pay for it before you wear it; if you would sleep soundly, take a clear conscience to bed with you.

Not Society's Fault.

Gibbs—How did that rich boor manage to get introduced into society? Hibbs—He wasn't introduced; he was injected.—Judge.

The KITCHEN CABINET

TO LOVE and bear, to hope till hope creates from its own wreck the thing it contemplates, neither to change nor falter nor repent, this is to be Good, Great, and Joyous, Beautiful and Free. This alone Life, Joy, Empire and Victory.

A DAY WITH LEFTOVERS.

To use mutton the day after—chop a small onion and fry in a tablespoonful of butter or other fat, then add a tablespoonful of flour and let it brown. Mix a tablespoonful of Worcestershire sauce, a tablespoonful of vinegar, pepper and salt and a tablespoonful of red currant jelly with a cup of water. Cook all together, and when hot add thin slices of cold cooked mutton, and simmer for fifteen minutes or until the meat is well heated through.

Fish and Egg Pie.—Flake a pound of cold cooked white fish, cover with chopped parsley (a tablespoonful), add a tablespoonful of anchovy essence, two tablespoonfuls of butter and a half cup of cream or milk. Cover with a pastry made with two cups of flour, a teaspoon of baking powder and a half teaspoonful of salt, with a half cup of rich cream. Bake until the crust is well done, remove from the oven, lift the cover and pour in three well beaten eggs. Replace the crust, put in the oven for a minute or two. Serve very hot.

A delicious sauce to serve with warmed-over meats is this: Chop one dozen olives fine. Brown a tablespoonful of butter, add a tablespoonful of flour and brown again. Stir in a cup of stock; continue to stir until smooth. Season with salt, pepper and Worcestershire sauce, then add the chopped olives, and cook slowly for five minutes.

THANKSGIVING TABLE.

Frozen cranberries make a delicious change from the ordinary way of serving the berries at this season. Pick over and wash a quart of berries. Dissolve two cupfuls of sugar in two cupfuls of water and heat slowly until boiling hot, then add the cranberries and cook until soft; cool and add one-half cup of lemon juice. Rub through a sieve, turn into a melon mold and bury in ice and salt for four hours.

SOME GOOD THINGS.

Stir up with a spoon a soft biscuit dough and fill greased muffin pans half full. Make a hollow in the center and fill with a little marmalade or jam. Bake in a quick oven and serve with cream or a liquid sauce, flavored with lemon juice or vinegar. This is a good emergency dessert to keep in mind when there seems nothing to have for dinner.

Not Team Mates.

"Why is it that Mrs. Whiffer and Mrs. Botts don't get along well together?" "Because they have different ideas of what constitutes the speed limit."

That's Different.

"She is very ethereal. She can't eat such things as corned beef." "Yes, I know her type. Can't eat corned beef, but I once saw her get away with 22 lettuce sandwiches."

Money, because of the material things it can buy, the political influence and the social prestige that its possession facilitates, becomes an efficient minister to selfishness, and therefore a great enemy of friendliness. The remedy is, to begin to use it as soon as one has even a little bit of it, in friendly ways. —Edward Bosworth.

THINGS WE LIKE TO KNOW.

To keep comforters and blankets clean, have a strip of white cloth about twelve inches wide to face the ends of the bedding used next to the face. Ice can be made to last almost twice as long by wrapping well in newspapers.

When a crack appears in a stove it may often prove a great menace to life, especially if it is a coal heater. Mix wood ashes with common salt, made into a paste with a little water, and plaster over the crack. It may be put on to a cold or a hot stove equal in weight.

When putting pockets on aprons, place a small piece of the goods at each corner and stitch down twice, then nothing short of a wrench will tear it down.

Those who use radiators will find that after food has come to a good boil on the stove it may be placed on the radiator, and if well covered, will continue cooking. This is especially good for long, slow cooking.

Open the gas oven for the steam to escape before heating it for baking. The moisture runs down into the hinges of the door otherwise, and will in time rust them.

One mother who has several children away from home writes with im- pression paper, thus making as many copies as she needs. Each gets his letter, with any personal additions with the work of but one.

Chili Con Carne.—Boil until tender two cups of the little brown beans. Grind a pound of round steak, put into a saucepan to cook with cold water to cover; add a tablespoonful of butter, as much red pepper as you can endure, and cook an hour and a half. When the beans are tender, add them and cook an hour longer.

Spaghetti.—Fry a clove of garlic in a tablespoonful of olive oil or butter, add two tomatoes, sliced; cook until the tomatoes are smooth and cooked to a pulp. Prepare the spaghetti by boiling in salted water until tender. Drain and add to the tomatoes, well seasoned with salt and red pepper.

Garlic is one of our most wholesome flavor vegetables, but is in disrepute because of the unwholesome manner in which it is used by some. There should be just a suggestion of the flavor, illusive and indefinable, to make a perfectly flavored dish. Garlic is said to help digestion, and preserves one from epidemics and pestilential diseases.

Call—I hope not, indeed! He isn't allowed to have fish.—London Punch.

WOMAN ESCAPES OPERATION

By Timely Use of Lydia E. Pinkham's Vegetable Compound.

Here is her own statement.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Cary, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

FREE TO ALL SUFFERERS. If you feel out of sorts, or suffer from any of the following troubles, write for my FREE BOOK, THE MOST INSTRUCTIVE MEDICAL BOOK EVER WRITTEN. IT TELLS ALL ABOUT THESE DISEASES, AND THE REMARKABLE CURES EFFECTED BY THE NEW FRENCH REMEDY, Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. It is the only remedy for your own ailments. Don't send a cent. Absolutely FREE. No following circulars. DR. J. C. LECHE, MED. CO., HAVERSHOCK RD., HAMPSHIRE, ENGLAND.

Redeeming Feature. "Have you heard about Vizzard's latest play?" "Yes. They say it's revolting." "It is. But give Vizzard credit for one thing." "What's that?" "He firmly refuses to say there's any moral purpose in it."

Important to Mothers Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fitch*. In Use For Over 30 Years. Children Cry for Fletcher's Castoria

Previous Engagement. Erb—"Got a job for you at last, Bill. Must see the boss at 9 tomorrow morning, sharp." Bill—"Can't go. I've promised to carry the flag in the unemployed procession!"—John Bull.

STOP THAT BACKACHE There's nothing more discouraging than a constant backache. You are lame when you awake. Pains pierce you when you bend or lift. It's hard to rest and next day it's the same old story.

A MICHIGAN CASE Peter Loncks, Leelanau St., Frankfort, Mich., says: "I had awful backaches brought on by hard work. I couldn't control the kidney secretions and in the morning I was so lame and stiff I could hardly get out of bed. I often got so dizzy and if I tried to stoop, I had sharp twinges. I often got so dizzy that I almost toppled over. After the doctors had failed, I tried Doan's Kidney Pills and six boxes cured me."

DOAN'S PILLS FOR COUGHS AND COLDS

MY FRIENDS SAID I Could Never Get Well Again. Thanks to Peruna I am Well.

Miss Clara Lohr, 21 North Gold St., Grand Rapids, Mich. "Doctors said I had consumption. Weighed only 90 pounds. Commenced taking Peruna. Now weigh 135 pounds. I am so thankful for what Peruna has done for me."

Those who object to liquid medicines can now procure Peruna Tablets.

Constipation Vanishes Forever

Prompt Relief—Permanent Cure CARTER'S LITTLE LIVER PILLS never fail. Purely vegetable—act surely but gently on the liver.

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature. 400,000 Settlers a Year

Immigration figures show that the population of Canada increased during 1913. By the addition of 40,000 new settlers from the United States and Europe.

Lord William Percy, an English nobleman, says: "The possibilities and opportunities offered by the Canadian West are so infinitely greater than those which exist in England."

W.L. DOUGLAS SHOES Men's \$2.00 to \$3.00 Women's \$1.50 to \$2.50

W.L. Douglas shoes are famous everywhere. Why not give them a trial? They will give you more money than you can make in any other business.

Pain in Back and Rheumatism are the daily torment of thousands. To effectually cure these troubles you must remove the cause.

One Man Has Discovered That Offering Floral Bouquets to the Living Is Not All Joy.

"There has been a good deal in the paragraph section of our exchanges for some weeks to the effect that you should give the bouquets now; not wait to lay them on the coffin lid."

Penalty of Having Too Much Rope. "I note that Mexico is again peeved at the United States," commented Basil Garrett.

Peculiar Belief. Two centuries have passed since the Scottish judge Lord Monboddo was born.

Pastor to Blame. The church choir had resigned, and the parson asked what was the cause of the trouble.

A Natural Inference. "Johnny, did the whale swallow Jonah?" "Yes, ma'am."

None Has. "There is one thing about a cold which science has never attempted to utilize."

Family Reason. "Why do you drink so hard all the time?" "My wife won't speak to me when I'm drinking."

Equivocal. "What did Della do about this oscillation proposal of Harry's?" "She was immediately up in arms about it."

SPEAKS FOR ITSELF Experience of a Southern Man.

"Please allow me to thank the originator of Postum, which in my case, speaks for itself," writes a Fla. man.

"I formerly drank so much coffee that my nervous system was almost a wreck. (Tea is just as injurious because it contains caffeine, the drug found in coffee.)"

"To my great surprise I saw quite a change in my nerves in about 10 days. That was a year ago and now my nerves are steady and I don't have those bilious sick headaches which I regularly had while drinking coffee."

GOOD ROADS

BUILDING ROADS IN FRANCE

National Thoroughfares, Maintained Entirely by Government, Are Constructed 42 Feet Wide.

France admittedly has the best roads system so far devised, and its national roads constitute about 6 1/2 per cent of the 385,000 miles in the whole country.

The national roads, maintained entirely by the government, are constructed 42 feet wide between ditches, and lead from the capital to the principal cities, ports and commercial centers.

With our enormous resources awaiting development by the extension of our road systems, there seems no reason why we should not proceed with the work of building national roads.

The idea of building up a political machine out of a road construction bureau does not deserve consideration.

M. Fornaud Bordas, a leading French engineer, writing for the third international road congress, now in session in London, says: "The national roads, which connect the capital to the frontiers and to the large towns, or else form a connecting link between the more densely populated centers, are of the greatest interest to the country as a whole, not only from an economic point of view but also from a strategic one."

This is the idea that the A. A. A. National Good Roads board have been and are endeavoring to impress upon the lawmakers of this country.

FEW VALUES IN GOOD ROADS Added Freedom and Pleasures Are Among Some of the Real Benefits of Lower Cost of Hauling.

Five miles to the picnic ground—does that mean for you an hour's hard work guiding your team over "chugs" and ruts and around and through mud-holes, with tired horses and soiled clothes when you get there, or does it mean a pleasant drive of thirty minutes or less with no exertion on your part and little on the part of your team?

In the winter when the plays and lectures come to your town, can you drive in and arrive as neat and calm as any townsman, or do you think of all the long stretches of bad roads between you and the town hall, and decide to stay at home rather than face them?

Good roads are needed not only because they save the farmer money and increase land values, but because in a very real sense they bring him nearer to all the rest of the world, and enable him and his family to share in pleasures and privileges often out of his reach when roads are bad, says the Progressive Farmer.

When you go to figure on the cost and the value of improved highways, do not forget that they have a real and a great value in the added enjoyment and the added freedom they bring; and that this is a benefit not less real than a reduction in the cost of the hauling you do.

Test With Pigs. In a feeding test with 80 pigs, lasting 160 days, on a ration of corn chop, buttermilk and barley, and sorghum forage, conducted at the Oklahoma station, the average daily gain was 51 pounds as compared with a gain of 1.22 pounds on corn chop and buttermilk.

A lot of hogs turned into a field of corn yielding at a rate of only 17 bushels per acre made a gain of 1.2 pounds per head. Estimating the value of the grain at seven cents per pound, the hogs returned a value of 83.15 cents per bushel.

RARE PRESENCE OF MIND

At Least It Is to Be Supposed Young Lady's Mother Regarded It as Such.

Speaking of rare presence of mind recently recalled to ex-President Taft the case of a handsome young woman of his acquaintance.

"You don't mean to tell me that he had the impudence to kiss you?" she cried. "And to think of the crowd at the station! Why, my dear, what did you do in such an embarrassing situation?"

"Why, mother, I just kissed him back, of course. I wanted to give all those people the impression that we were relatives."—The Sunday Magazine.

SCALP ITCHED AND BURNED

Greenwood, Ind.—"First my hair began to fall, then my scalp itched and burned when I became warm. I had pimples on my scalp; my hair was falling out gradually until I had scarcely any hair on my head. I couldn't keep the dandruff off at all. My hair was dry and lifeless and I lost rest at night from the terrible itching sensation. I would pull my hat off and scratch my head any place I happened to be."

"For several years I was bothered with pimples on my face. Some of them were hard red spots, some were full of matter, and many blackheads. I was always picking at them and caused them to be sore. They made my face look so badly I was ashamed to be seen."

"I tried massage creams for my face and all kinds of hair tonic and home-made remedies, but they only made things worse. Nothing did the work until I used Cuticura Soap and Ointment. I washed my face with the Cuticura Soap, then put plenty of Cuticura Ointment on. Three months' use of Cuticura Soap and Ointment has made my face as smooth and clean as can be." (Signed) C. M. Hamilton, Sept. 24, 1912.

Only William. At a singing contest at Frankfurt recently Kaiser Wilhelm, who attended, was served by several high-school boys as pages. According to Jugend, he was attracted by the bright face of one of them and asked his name.

"Korner, your majesty," said the boy. "And your first name is Theodore?" said the emperor, thinking of the patriot-poet Theodore Korner, whose centennial year this is.

"I'm sorry," replied the uncourtier-like youngster, "but it's only Wilhelm."

When Kaiser Wilhelm broke into a hearty laugh at the answer the page realized his missed opportunity.—New York Evening Post.

JUDGE CURED, HEART TROUBLE.

I took about 6 boxes of Dodds Kidney Pills for Heart Trouble from which I had suffered for 5 years. I had dizzy spells, my eyes puffed, my breath was short and I had chills and back-ache. I took the pills about a year ago and have had no return of the palpitations. Am now 63 years old, able to do lots of manual labor, am well and hearty and weigh about 200 pounds. I feel very grateful that I found Dodds Kidney Pills and may publish this letter if you wish. I am serving my third term as Probate Judge of Gray Co. Yours truly, PHILIP MILLER, Cimarron, Kan.

Correspond with Judge Miller about this wonderful remedy. Dodds Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

Chance for Grouch. Mrs. Brown—"Here's an account of a new cooking utensil that will boil and steam and poach eggs all at the same time." Brown (a grouch)—"And why doesn't it scramble and egnogg 'em, too?"

Looks That Way. "There is more equality in America than many think." "So?" "Yes, sir. Everybody can have his own automobile."

Coughs vanish in a night, Dean's Mentholated Cough Drops soothe the throat, effecting a speedy cure—3c at all Druggists.

The man who falls in love with a woman at sight by moonlight may fall in another direction by sunlight.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 3c a bottle. Adv.

What So Precious As a Healthy Baby?

Every Youngster Can Have Fine Digestion if Given a Good Baby Laxative.

In spite of the greatest personal care and the most intelligent attention to diet, babies and children will become constipated, and it is a fact that constipation and indigestion have wrecked many a young life.

But, as we cannot all have perfect working bowels, we must do the next best thing and acquire them, or train them to become healthy. This can be done by the use of a laxative-remedy very highly recommended by a great many mothers.

Its mildness makes it the ideal medicine for children, and it is also very pleasant to the taste. It is sure in its effect, and genuinely harmless. Very little of it is required and its frequent use does not cause it to lose its effect, as is the case with so many other remedies.

Thousands can testify to its merits in constipation, indigestion, biliousness, sick headaches, etc., among them reliable people like Mrs. James R. Rouse, of Marinette, Wis. Her little son Howard was fifteen months old

HOWARD ROUSE

last April, but he was sick with bowel trouble from birth and suffered intensely. Since Mrs. Rouse has been giving him Dr. Caldwell's Syrup Pepsin all trouble has disappeared and the boy is becoming robust.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 203 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

Rheumatism, Sprains Backache, Neuralgia. "Yes, daughter, that's good stuff. The pain in my back is all gone—I never saw anything work as quickly as Sloan's Liniment." SLOAN'S LINIMENT. At all Dealers—25c, 50c, and \$1.00.

For PINK EYE DISTEMPER CATARRHAL FEVER AND ALL NOSE AND THROAT DISEASES. Cures the sick and acts as a preventive for others.

King of Oil Heaters! This is the heater that has won the throne through the popular vote of the people.

The "Perfection" Smokeless Oil Heater is needed in every home, no matter what its heating facilities are. Approved by over half a million families in the United States last year.

PUTNAM FADELESS DYES Color more goods brighter and faster colors than any other dye.
