To The People Of Marquette:

An uninformed citizenry can very easily work against itself in a democracy.

I have served as an elected official of your City Commission since 1957, and am asking you NOT to sign a petition asking for a referendum against your Municipal Power Plant Expansion Program.

We have nothing to gain by it and much to lose. This utility belongs to you. It is helping to pay your tax bill, providing jobs, and giving good electric service at low rates.

I am not afraid of the outcome of a vote of the people, but the delay and inefficiency of such a move could cost us dearly by:

- 1. Increased interest rates on the bonds.
- 2. Possible jeopardy of nearly two million dollars in federal funds.
- 3. Possible power shortage before steam plant completion.

You can be sure I have your best interests at heart. I would be glad to explain the situation in detail to any person or group who would care to listen. My telephone number is CAnal 5-0167.

> Most sincerely, Signed,

Fred Rydholm

Desegregation came after U.S. Dist. Rudge Frank B. Ellis ruled that Tulane, as a private institution, was not required to accept two Negroes as students. One of the Negroes who filed the suit, Mrs. Pearlie Elloie of New Orleans, was accepted as a parttime student.

Tulane, segregated for its 129year history, previously rejected Negro applicants because it felt restrictions in donations prevented desegregation.

Why Every Citizen Should Sign The Referendum

Marquette City officials, in recent months, have been making an intensive study, with the help of experts, of the municipal electric power situation. They have naturally endeavored to provide proper facilities for expansion to meet the needs of the community on the most efficient basis for the next 10 to 20 years.

This has resulted in a very comprehensive program which will involve huge sums of money, necessitating the issuance and sale of revenue bonds.

Under the provisions of the City Charter, these bonds may be obligated for by the City Commission, without a vote of the people.

It does seem, however, that a project of this magnitude is the concern also of the power users and the taxpayers. It seems only fair and reasonable that they should be fully informed of the pro-

in which this program is to be effective. City officials have repeatedly stated they are prepared and willing to answer any questions with reference to the program. May we ask them, therefore, to either

gram which has been planned for the future power needs of this City, and the manner

confirm or deny the following fundamental facts concerning their proposed program. The initial move involves the sale of \$3,775,000 of revenue bonds, to be paid over a period of 25 years, with a resulting interest payment of \$2,100,000. This will bring the city's generating output up to approximately 30,000 K.W. at a total cost of

The above sum is required in addition to the cost of retiring \$1,550,000 still remaining from a previous revenue bond, including interest to maturity. These bonds were contracted for in 1956 for changes and additions at that time to the existing power plant.

It is further contemplated that within 10 years the municipal power plant will have to be further expanded to provide an additional 12,000 K.W. at ANOTHER cost of \$3,775,000 and a consequent interest of of \$2,100,000, or another figure of \$5,-875,000.

The whole program then sums up as follows: Retirement of present bond issue _____\$ 1,550,000 Retirement of bond issue now being advertised ______5,875,000 Cost of bonds and interest within next 10 years as contemplated, and as recommended by engineers _____ 5,875,000 Grand total of contemplated program _____\$13,300,000

What this means to taxpayers and power users is that to obtain generating power capacity only double of what we now have, it will require annual earnings from the plant of \$400,000 OVER AND ABOVE ALL CHARGES, INCLUDING TAXES AND DEPRECIATION, for the next 35 years.

Shouldn't the people vote on a program of such magnitude? Shouldn't they express their opinion whether they want a vote? All who favor the steam plant should sign the referendum so they can have an official means whereby they can express that opinion.

Soil Conservationist Honored

Harold "Hap" Heathman of Marquette was honored with an award at a recent meeting of directors of the Michigan Association of Soil Conservation Districts in East Lansing for his technical contributions to soil and water conservation projects in the Upper Peninsula. Mr. Heathman came to the Upper Peninsula in the early 1940s after working with the Soil Conservation Service in Indiana and Ohio.

He was the first district soil conservationist assigned to this area, and since then he has helped the 12 soil conservation districts which serve most of the Upper Peninsula. When he first came to the U. P., Mr. Heathman's services were mysterious to even some of the landowners whose properties were in need of them, but in his years among us he and his colleagues of the Soil Conservation Service have educated us to the need for preservation of our topsoil. Because of Heathman & Co. (including the Peninsula's progressive farmers and other landowners, the extension workers and other leaders in conservation) a ride through the Upper Peninsula today shows much less evidence of erosion than when Mr. Heathman arrived 20 years ago. The up-and-down-slope cultivation on our farmlands has been largely corrected and contour stripping is a commonplace on our farmlands, notable from any aerial view. Such practices and the continuing accent

on cover crops to protect the soil of farmlands from wind erosion are retaining and expanding this basic resource of the Upper Peninsula, and the public owes gratitude to the Soil Conservation Service for this accomplishment in adult education.

It's So Hard To Remember

By JOY STILLEY

NEW YORK (AP) - If anyone ever starts dent at the building when a water pipe burst a memory-training course in our neighborand spilled water over four floors and the hood I'll be the first one to join it-that is, if I can remember where and when the classes are held.

I'd like to be able to blame my sieve-like memory on what I gracefully refer to as my "mature" years. But the fact is, the only date I've ever been able to remember is my birthday and lately I've been trying to forget that.

Some people forget the tag line of a joke. I forget the whole joke. I not only can't remember things-I can't even remember what

SOUND AND FURY

Well, sir, the Federal Communications Commission has uncovered a problem of truly major significance. It's getting a lot of complaints from television viewers that the sound level of commercials is "irritatingly" louder than the sound heard during the rest of a program.

One complainant says that a commercial, which the FCC doesn't identify, was so loud woke not only his child but also a baby in he apartment next door.

So the FCC, by unanimous vote, is going to launch an investigation to find out whether the sound volume really zooms up during commercials, or whether—as some television Sam and Macmillan became a France has downturns no less than engineers say—only an "impression of loudwill be ness" is conveyed by fast-talking announcers.

New procedures in teaching elementary mathematics were discussed Wednesday at the January general meeting in Fisher School of teachers in Marquette's public elementary schools

Leading the discussion were Howard Hildebrand of the Northern Michigan College mathematics department and Miss Olive Fox, elementary supervisor here. Hildebrand, in answer to ques-

tions raised by the teachers, described an experimental program which he is carrying on with children at John D. Cooper May Begin Flight On April 2

WASHINGTON (AP)-Astronaut Leroy Gordon Cooper Jr. may begin his orbital flight-the longest and perhaps the last in Project Mercury-on April 2.

The Air Force Major may remain aloft for 18 orbits-about 27 hours-and come down in the Atlantic north of Puerto Rico. Or. if all goes well, he may achieve 22 orbits-about 34 hours-and descend into the Pacific near Midway Island.

Gemini Launches The National Aeronautics and Space Administration is not announcing launch dates this far in advance. An informed source said, however, that April 2 has been considered for planning purposes.

CHURCH IN THE HILLS

The little frame church in this snow-blanketed mountain village lifts its tall spire above its rugged environment like a sentinel guarding a sacred trust or a lighthouse on

Wherever man has pushed his habitations - in the bleak wastes of the polar regions, under the blazing tropical sun, or in the milder climates of the world — he has built his churches dedicated to the worship of God.

The fact that no community seems complete without its house of worship bears eloquent testimony to the universal recognition of man's need of religion.

The village church plays a vital part in the life of the community. The spiritual standards of the people are fashioned there; marriage vows are spoken at its altar, and the honored dead sleep in its sacred soil.

There it stands in every community - the little frame church - pointing the people to God, teaching them the way of life, giving them strength and faith for every need.

THE CHURCH FOR ALL • ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regu-

Stephenson '5' **Stops Miners** In Overtime

STEPHENSON - The Negaunee Miners missed an opportunity to move into a first place tie in the Great Lakes Conference race last o two before Nyquist scored on a night, as they dropped a 64-61 overtime decision to Stephenson's

pressing Eagles. The Eagles, enjoying their small court advantage for the last time (their new gym is nearly ready) trailed most of the way, and had a three-point deficit late in overtime, but came on to win, 64-61. Negaunee shot a very good 43 per cent from the field, had a 2-1 edge in rebounds, but got off only 41 shots as they repeatedly lost the ball without a field goal at-

They also lost four starters on fouls. Stephenson had foul troubles in the first half, but the Eagles didn't lose a starter on the whistle route, while the Miners lost Richie Kent, who had scored 15, Dave Luoma, who tallied 12, Jim Carlson, who scored 10, and Mike Lenten, all early in the final period. Stephenson hit on 22 of 54 shots,

with Craig Sundquist getting scorng honors with 27 points. Sundquist had been held to 12 points in the first three periods. Negaunee led 31-30 at the half,

43-38 after three periods. But the Miners had to come from behind to tie the score and force the overtime, as Gene Parlato and Dave Luoma scored. With nine seconds left, Stephenson missed a 14, and Wayne Lusardi ten for free throw which would have Coach Steve Ellis of Trenary. ended the game. Negaunee got the but, again, didn't get the shot away.

The Miners got the tip in overtime, and took the lead quickly. They held a 61-58 advantage at one point, but four straight free throws and a field goal ended that.

McClintock ended up with 25 points, Kaleva with 23, while six others chipped in. Delbert Johnson and Alvin Maki each had 13 for Amasa.

Maki scored three field goals in the weird opening minutes of the game. Republic got a 1-0 opening, then suddenly trailed 9-1. Then Kaleva got going, and it was 13-9, Republic, at the quarter.

Neither team really found the range in the second quarter. Republic ended up with a respectable 39 per cent, thanks to the one big period.

The Hawks, with their big height advantage, outrebounded the home team, nearly 2-to-1. Republic hosts Marquette Bar-

COOKS - Michigamme posted its ninth victory in 14 outings, edging Cooks, 52-49, in a rugged

A total of 42 fouls were called in the game. Free throws, which hurt the Eagles early in the game, helped in the final minutes, as Cooks battled to get the ball. Half of the Michigamme FTs came in the final

eight minutes. Coach Ron Collins' club entered the final period with a 40-34 lead, and they held a slim edge the rest

of the way. Cooks' Clippers led 16-11 at the uarter, 27-24 at the half.

Jalmer Lakonen led both teams with 16 points, Jim Lovelace had 13, Marshall Chantelois, 12, for Michigamme, while Phil Hartmann tallied 13 (seven FTs) and Dave Hill, 12 for Cooks.

INSTALLATION ...

The mid-winter meeting of the Northern Michigan Sportsmen's Association will be held at the Negaunee Rod and Gun Club on Sunday, Feb. 3.

In announcing details of the meeting, Earl H. Clark, Houghton, NMSA president, said registration will begin at 10 a.m. and the meeting will open at 10:30 a.m.

Purpose Of Meeting

"This meeting is primarily to complete the unfinished business of the annual fall meeting, to consider resolutions to be presented to the Legislature and to act on resolutions already presented to the Legislature," Clark said.

Discussion is scheduled on a revision of the NMSA organization plan to increase the number of members of the executive committee (now restricted to 10).

Officers Named

A report will be given by Kenneth S. Lowe, Marquette, a member of the Michigan Conservation Commission, on the proposed Pictured Rocks National Lakeshore in Alger County.

Officers of the NMSA, in addition to Clark, are Roland Visitainer, Quinnesec, District 2 vice president; Paul Moffatt, Ishpeming, District 3 vice president; Howard Brown, Newberry, District 4 vice president; George I Millenbach, Chassell, treasurer, and William A. Asselin, Norway, director at large. Brown also serves as NMSA secretary.

U.P. Bounty **Totals Dipped** During 1962

Bounty payments in the Upper Peninsula during 1962 declined from the 1961 totals, B. A. Stephansky, Marquette, regional field administration supervisor for the conservation department, said today. Bounties were paid on 6,146 animals in the Upper Peninsula in 1962, compared with 7,844 in the

previous year. The totals for all bountied species showed a decline. There were 3,303 coyotes bountied last year, compared with 3,354 in 1961; 616 bobcats last year, 753 in 1961, and 2,227 foxes last year, 2,737 in 1961

Hardy Anglers Land Big Ones

Marquette County fishermen who were hardy enough to brave the frigid weather that has swept the Upper Peninsula were rewarded with catches like these. In upper photo, William Smith Jr. of Trowbridge Park holds a 15-pound northern pike he took on hook-and-line (12-pound test leader) while fishing in the Dead River. Pike measured 37.5 inches in length. Lower photo shows 10-pound walleye caught in Johnson Lake near Gwinn by Mose St. Aubin on 3.5-inch minnow. Fish measured 28.5 inches in length and had girth of 11.25 inches. Pictured with St. Aubin is his son, Joseph .- (Upper picture, Mining Journal photo.)

Frigid Spell Hardship For Deer In U.P.

The worst cold wave in years has worked a hardship on the Upper Peninsula deer herd, but the situation is not yet critical, according to an appraisal by game division biologists.

"Deer require much more food inder these extremely cold conditions than they normally need," said William E. Laycock, Marquette, regional game supervisor, 'but fortunately our deer got a break from the delayed yarding season. If the deer had seen forced into the yards earlier by deep snows, this intense cold could have been real serious."

Average Depth 1.5 Feet Laycock said the average snow depth in the Upper Peninsula is only 1.5 feet. Deepest reading are in Gogebic and Houghton Counties. where snow depths are slightly over two feet. Depths in the Cusino and Melstrand areas of Alger County are close to two feet.

But, Laycock said, deer are no tightly confined except in the west end of the Upper Peninsula and in the northern part of the central portion. Deer are not yarded at all in the Iron-Dickinson-Menominee County district, where there is less than a foot of snow for the mo
