

County Bar Endorses Davidson For Judge; Hoehn Backed In Delta

The Marquette County Bar Association last night unanimously endorsed Bernard H. Davidson, 50, Negaunee, for appointment to the judgeship of the 25th judicial circuit.

Meeting at the Union National Bank lounge here, the association ordered a telegram sent to Gov. George Romney today advising him of its action.

Covers Two Counties

The circuit embraces Marquette and Delta Counties. The vacancy on the bench was caused by the death Jan. 28 of Circuit Judge Carroll C. Rushton of Marquette. Appointment of a new judge to serve until the next election will be made by Gov. Romney.

The Delta County Bar Association, meanwhile, endorsed Attorney Clair J. Hoehn of Gladstone for the circuit judgeship at a luncheon meeting yesterday.

Native Of Champion

Davidson was born in Champion Aug. 29, 1912, and reared in Palmer. He moved to Negaunee in 1940.

He received his bachelor of arts degree cum laude from the University of Michigan in 1934 and his bachelor of law degree from the same university in 1936.

Had Office In Negaunee

He was admitted to the Illinois bar in 1936 and was on the Chicago staff of the U. S. Senate Committee on Interstate and Foreign Commerce investigating railroads and railroad financing for two years before returning to Negaunee, where he has resided ever since.

Admitted to the Michigan bar in 1938, Davidson opened a law office in Negaunee that year. He became associated in the practice of law with Francis A. Bell, son of the

late Circuit Judge Frank A. Bell, and in 1947 the partnership of Bell and Davidson opened an office in Ishpeming. The present firm of Davidson, Clancey and Hansen in Ishpeming is the successor to the firm of Bell and Davidson.

Hoehn's Background

Hoehn, a partner in the firm of Strom, Hoehn and Shipman of Escanaba and Gladstone, was born Jan. 8, 1920, in Sharpville, Pa., and attended Columbus North High School and Ohio State University. He received his bachelor of arts degree from OSU with honors in speech and classical languages.

He served in the U. S. Army from 1942 to 1945, spending 18 months in North Africa, six months in Italy and a year in France and left the service with the rank of sergeant.

Hoehn received his bachelor of law degree from the University of Michigan in 1948 and opened an office in 1949 in Gladstone, where he has practiced ever since.

Obituary

PETER A. JOHNSON

Services for Peter A. Johnson, who died early yesterday morning in St. Luke's Hospital, were held this afternoon in the Swanson Funeral Home with the Rev. J. Otto Magnuson, pastor of the Messiah Lutheran Church, officiating.

Palbearers were Carl Mattson, John Baskels, Theodore Martinson, Howard Schrandt, George Halvorsen and Oliver Stillman. Burial was made in Park Cemetery.

LEO L. TUCKER

Services for Leo L. Tucker, who died yesterday morning in St.

Luke's Hospital, will be held at 3 tomorrow afternoon in the Swanson Funeral Home with the Very Rev. Msgr. Arnold L. Casanova, pastor of St. Christopher's Church, officiating.

Palbearers will be Ray DePetro, Floyd Beaudry, Stan Rajala, Robert Rose, Thomas Beaudry and Robert DeShambo. Burial will be made in Holy Cross Cemetery.

Friends may call at the funeral home after 4 this afternoon.

JOHN M. KOSKI

Services for John M. Koski, who died Sunday morning in St. Luke's Hospital, will be held at 1:30 tomorrow afternoon in the Swanson Funeral Home with the Rev. Thomas V. Asuma, pastor of St. Mark's Lutheran Church, officiating.

Palbearers will be George Andrew, and Carl Pellinen and Henry Ikkala, Jaimar Ryoti and August Hill. Burial will be made in Park Cemetery.

Friends may call at the funeral home this afternoon and evening.

City Paragraphs

The Marquette Citizens for Decent Literature will hold a meeting at 4 tomorrow afternoon in the Peter White Public Library. Teams and advisory committee members are especially urged to attend.

President Thomas Jefferson, Andrew Jackson and Martin Van Buren were widowers when they entered the White House.

Chudyk, City Native, Holds Role In Apollo Moon Project

A Marquette native, Alex Chudyk, knows what it's like to play an important part in the largest technical project America has ever undertaken.

Chudyk is operations manager of the Apollo man-to-the-moon project of the Minneapolis Honeywell Regulator Co.

Following graduation from Bishop Baraga Central Catholic High School in 1931, Chudyk received a degree in electrical engineering from Michigan College of Mining and Technology, Houghton, in 1938. He moved from Marquette in 1938.

Married To Marquette Woman

He married the former Alice Bertrand of Marquette and they live with their six children in Hopkins, Minn.

As operations manager and executive officer of the Apollo project director, Chudyk is responsible for detailed planning and scheduling on the man-to-the-moon project.

Chudyk's task is to insure the project's orderly growth by bringing the proper personnel, equipment and facilities together in time to meet tight deadlines.

Mapped To October 1964

The man-to-the-moon project has already sent employees of Honeywell's Aero division into two new plants and will eventually involve more than 900 employees working

with more than 10 million dollars in physical plant and equipment.

So far Chudyk has mapped the project's course "on a fairly firm basis" through October 1964. On a budgetary basis his plans are laid all the way to the projected moon landing sometime prior to 1970.

150 Design Teams

The Apollo project involves 150 design teams. Prime contractor is North American Aviation, with a

30 million dollar contract, and there are dozen of other subcontractors.

Honeywell's control and stabilization system for the three-man moon capsule must be capable of successful performance 995 times out of 1,000 on a 14-day, half-million-mile mission to the moon and back.

Apollo is the largest single research and development program America has ever undertaken — larger even than the Manhattan project of World War II that produced the atomic bomb.

As Chudyk understates it, "Bigness is my biggest problem."

A total of 46.4 million persons were injured in accidents in the United States during a recent year.

GOING OUT OF BUSINESS OR ARE WE?

We hope that after reading these facts, there will be no doubt in the minds of our citizens that a referendum at this time would be a **COSTLY MISTAKE**.

DECISION OF MAGNITUDE

In the article by the citizens committee of January 26th it was asked, "SHOULDN'T THE PEOPLE VOTE ON A PROGRAM OF SUCH MAGNITUDE?" While we agree that every citizen has the right to voice his or her opinion and take an active part in the community, a REFERENDUM AT THIS TIME WOULD NOT BE PRACTICABLE FOR THESE REASONS: It would delay the completion of our expansion program which would cost us approximately \$15,000.00 PER MONTH IN FUEL COSTS ALONE, because of the difference in costs of producing electricity, using fuel oil, rather than coal.

A delay, as a result of a referendum, would force the Light and Power Department to seek another temporary source of power, which would be **EXTREMELY EXPENSIVE**.

In our estimation, a referendum by the taxpayers would be a **SENSELESS WASTE OF OUR OWN MONEY** inasmuch as we have elected men to run our city government, to be responsible, and to make decisions, concerning the welfare of our city. These men have made decisions, big decisions, **WITH OUR WELFARE AND OUR CITY'S FUTURE IN MIND** and we must add, a **SUBSTANTIAL AMOUNT OF TAXPAYER'S MONEY WAS SPENT IN OBTAINING DATA UPON WHICH THEIR DECISIONS WERE BASED**.

Now, do we say to these men, "Sorry men, this decision is too big for you. We do not feel that you have the intelligence to make a decision of such magnitude, so we will have to do it?" Or, do we thank God that we have men who are devoted to their jobs, and are capable, intelligent, and have enough guts to make this decision, which **MUST BE MADE, IF OUR CITY IS TO CONTINUE TO GROW?** We choose the latter!! These men have shown both courage and loyalty, something that is always hoped for, but not always found in city governments. A few selfish individuals have attempted to wine and dine these men, in order to influence their decisions. Having failed, they then began to criticize these men and their decisions, and are now trying to make them appear incompetent.

A few months ago, the President of the United States, along with other elected officials, made a decision on a program of such MAGNITUDE that it affected every man, woman and child in the world. Why didn't we vote on this program? It would not have been practicable because of the inefficiency and most likely a very costly delay. A referendum on our light and power program would also be impracticable and **BECAUSE OF ITS SELFISH PURPOSE, WOULD BE, IN OUR ESTIMATION, UNDEMOCRATIC**. The citizens who do not pay property taxes would have nothing to gain by a referendum. Contrary to statements made by a few uninformed persons, **OUR LIGHT RATES ARE LOWER THAN ALL OTHER COMMUNITIES IN THIS AREA**.

MONEY MAKER

Contrary to the opinions of a few misguided individuals, our Light and Power Department has proven to be a money maker for the City of Marquette. Starting in 1890 with an investment of \$75,000.00, it has grown to be a utility of such size and value that it would cost us over \$10,000,000.00 to replace it.

In the past 15 years our Light and Power Department has contributed to the City of Marquette **OVER \$1,000,000.00 IN TAXES AND OVER \$1,200,000.00 IN PROFITS**. In addition to this, the Light and Power Department has paid **FROM ITS OWN REVENUE MORE THAN \$1,450,000.00 ON ITS EXPANSION PROGRAM**.

According to our consulting engineers' findings, with the completion of the proposed expansion program, our Light and Power Dept. will contribute, during the next 10 years, over \$2,000,000.00 in taxes, and over \$1,350,000.00 in profits. In addition to this, the Light and Power Dept. will pay for its own revenue over \$4,296,000.00 on its expansion program and during this 10-year period there **WILL BE NO INCREASE IN TAXES TO THE TAXPAYERS, AND NO INCREASE IN THE LIGHT RATES ARE ANTICIPATED, BECAUSE OF THIS PROGRAM**.

INVESTMENT TOO BIG?

It has been said that our city officials should not undertake a program that includes an investment so large. It has also been said that city governments should only undertake problems that can't be solved by other sources. For example, traffic, police protection, and health protection. These comments were made by a prominent citizen of our community. He also said that if we build a steam plant, our officials would spend too much time on this program and not enough time on other city problems. But he said that if we purchase power from the U. P. Power Company, our officials would be capable of managing our distribution system.

We assume he means that our city is capable of selling power but not producing it. We disagree!! We believe that our city's record of progress has proven him wrong. We believe that our expansion program, including the building of a steam electric generating plant at a cost of \$3,775,000.00 is a sound investment inasmuch as our revenue comes almost entirely from residential customers and these customers are what the U. P. Power Company is seeking **TO MAKE THEIR OWN INVESTMENT MORE SOUND**.

THE BIGGEST TAXPAYER

In an article in The Mining Journal, it was stated that the U. P. Power Generating Company is the biggest taxpayer in the City of Marquette. **THIS IS NOT TRUE, AND HERE IS THE PROOF:**

The assessed valuation of the U. P. Power Generating Company is \$1,661,650.00. In 1962 they paid to the City of Marquette and library \$34,313.07, school taxes \$41,028.46, county tax \$17,447.33, for a grand total of \$92,788.86.

The assessed valuation of the Marquette City Light and Power is \$2,796,592.00. In 1962 they paid a grand total of \$156,165.61, all of which was paid to the City of Marquette.

LOW LIGHT RATES

The average family uses about 500 kilowatts per month, so using this average, let's compare your light bill to those of their communities.

500 KILOWATTS PER MONTH		
City	Source of Power	Cost per Month
Marquette	Our Own	9.90
Ishpeming	U. P. Power Company	13.41
Negaunee	Purchased power from U.P. Power Co.	12.31
Escanaba	City owned plant, operated by U. P. Power Company	12.25
Munising	U. P. Power Company	13.41
Houghton	U. P. Power Company	13.41
Ontonagon	U. P. Power Company	13.41
Sault Ste. Marie	Edison Sault Electric Company	9.98
Iron Mountain	Wisconsin Michigan Power Company	10.85
Detroit	Detroit Edison Company	13.61
Ypsilanti	Detroit Edison Company	13.61

These are just a few examples. There are many more cities in Michigan where the light rates are higher than ours.

FEDERAL AID

There seems to be some doubt on the part of our citizens as to whether Federal Aid for our steam electric plant would be a loan or a grant. It would be a grant and **WOULD NOT HAVE TO BE PAID BACK**.

WHY A REFERENDUM IS SO IMPORTANT TO U. P. POWER CO.

In 1956 it was evident that the U.P. Power Company was interested in the profit earned by our utility. They showed this by the construction of their own generating plant in our city. There is no doubt that even at that time their intentions were to deprive us of this profit.

There have been statements made by people representing U. P. Power Co. that whether we want it or not, we will be buying power from them. We Americans, as veterans of two world wars, are definitely opposed to any person, organization, or country trying to take away our freedom of choice.

NIKITA KHRUSHCHEV TOLD US, "WE WILL BURY YOU." THE U. P. POWER CO. HAS TOLD US, "YOU WILL BE BUYING POWER FROM US."

Neither of them want to give us a freedom of choice. Both of them are trying to force their will upon us. The U. P. Power Co. is trying to force something upon us which we don't want. It is distorting the facts, and we believe it is deliberately trying to create confusion and doubt among our citizens, by claiming that the investment is too high for us to expand our facilities. The U. P. Power Co. presented reports to our city commission by an engineering firm they claimed to be unbiased. **THESE REPORTS WERE FOUND TO BE MISLEADING** for the purpose of persuading our city to buy power from them. It was also found that **THE ENGINEERING FIRM INVOLVED WAS NOT UNBIASED**, but rather the contrary, as is stated in the official proceedings of the city commission dated August 18, 1960. There is no doubt that putting our expansion program on a referendum would be a victory for the U. P. Power Co., and a **SERIOUS AND EXPENSIVE DELAY** for the citizens of Marquette.

LEN SAMPPALA

Len Samppala Candidate For City Position

Leonard Samppala, 912 W. College, a candidate for the office of city commissioner in the spring election, today offered a statement in regard to his candidacy.

There are six candidates for commissioner. A municipal primary election will be held on Monday, Feb. 18, and the four persons receiving the most votes in the balloting will be declared nominated and their names will appear on the April 1 spring election ballot. Two will be chosen in that election for two-year terms.

Samppala has been a resident of Marquette since 1956, when he was constructing the Sandy Knoll School. He is married to the former Hazel Lindholm of Carlshend, and they have two children.

Samppala received his primary education in Crystal Falls and then received a degree in civil engineering from Michigan State University. He is a registered professional engineer and a contractor, being head of the Samppala Construction Co.

Some of Samppala's experiences in his field include: Resident engineer for water works construction in Williamston and Battle Creek, and sewer project construction in Menominee.

Has Been Design Engineer
He also has worked as a design engineer in the plant engineering departments of Oldsmobile and Nash-Kelvinator, as well as being a stress engineer on aircraft assemblies at the Fisher Body Corp. plant in Lansing.

Following the war years, he became associated with Townsend and Bottum, Inc., of Ann Arbor, as assistant superintendent on power plant construction and as superintendent on power plant equipment installations.

Samppala was assigned to such

plants as the Ohio Edison Co. in Akron, Ohio; Toronto, Ohio, and New Castle, Pa.; Consumers' Power Co., Comstock, Erie and Kalamazoo, Mich., and Mistersky Power Plant of the Detroit Edison Co.

Worked For Gundlach

He resigned from Townsend & Bottum to accept a superintendency with the Herman Gundlach, Inc. construction firm in Hancock, and worked for Gundlach in White Pine, Houghton and Hancock.

In 1955 he formed a partnership in a construction company with Joseph LaBrecque, and the Sandy Knoll School project was handled by the company.

Sees Power Need

Samppala made the following statement:

"Marquette is a stable city and its growth has been steady. Likewise, the power demands here have increased. The municipal utility will be reaching its capacity in a few short years, and provisions must be made now for supplying that extra power for the increased growth of the city at that time.

"The petition which is being circulated at this time will have no particular benefit, except to delay the steam plant project for a period of six months to a year.

"Present plans are for the issuance of revenue bonds to finance the construction of new facilities, which bonds will be paid for out of revenues from the electric utility.

"These bonds do not need a vote of the people, while general obligation bonds do require a vote of the people."

FORUM Unit To Meet Here On Thursday

Members of the FORUM (Forum on Resources of Upper Michigan) will hold their annual meeting Thursday afternoon, beginning at 1:30, in the Hotel Northland here.

Officers will be elected for the coming year at the meeting. A review of the studies

State Supervisor Of Apprenticeship Takes New Post

DETROIT — Henry R. Przelomski, Michigan state supervisor for the U. S. Department of Labor's Bureau of Apprenticeship and Training here, has accepted a position in the bureau's national office in Washington as assistant chief of the division of program development.

A veteran of 18 years' service in the federal government, Przelomski started working for the U. S. Employment Service in November 1944.

William Price, Lansing, will be acting state supervisor until a permanent successor to Przelomski is named.

made to date will be presented. A projection of the studies to be made during the coming year also will take place.

The group is presently most concerned with the wilderness park bills in the state and with the construction of a shoreline drive from Sault Ste. Marie to Marquette.

Public Invited

Joseph Rahilly, Newberry, is president of the organization; Dr. Hereford Garland, Houghton, is vice president, and Ogden E. Johnson, Ishpeming, is treasurer, and the secretary is Robert H. DeRoche, Marquette.

The public is invited.

City Postal Employee Wins Award

Jean Whittler of Marquette, an employee of the post office, has won an award for her suggestion to the regional suggestions and awards officer of the Postal Department.

Postmaster John S. Courtney said she has received a cash award of \$25 and a certificate of award as official commendation and appreciation for contributing a beneficial suggestion to the Postal Department.

Regarding Stolen Money Orders
This suggestion related to the

method used of informing banks, hotels, and law enforcement officers of stolen money orders.

Relaying such information from the postal inspector in charge at Chicago, through the postmaster, by reproducing the notices locally and mailing them to the patrons has now been eliminated, and direct notification from the Chicago office to patrons throughout the region is now in practice.

Benefits to the Post Office Department include a savings of time at the local level in reproducing such notices for local patron information, and

a savings in time element in warning local patrons of stolen money orders, Courtney said.

An official letter of commendation and appreciation will be placed in her personnel folder, Courtney said.

President Plans News Conference

WASHINGTON (AP)—President Kennedy plans to hold a news conference at 4 p.m. EST Thursday. His last meeting with newsmen was Jan. 24.

Early Teutons slept in shallow chests lined with animal skins. The word "bed" comes from their vocabulary.

How food fads can fool you

We don't mean there's anything wrong with eating yogurt and wheat germ and so on. They are fine, healthful foods. But here's

the rub. Advocates of some food fads promise benefits that diet alone can't deliver. Occasionally, someone with a medical problem will try to solve it by living mostly on cabbage juice or some such thing. Special foods and diets, however, have limitation—can be harmful when improperly used. So if you think there's anything wrong with you, by all means see your physician.

One Person Injured, Seven Given Tickets In Crackups In City

One person was injured, seven motorists were given tickets and 12 automobiles were involved in six major-traffic mishaps which occurred in the city yesterday. There also were two other collisions investigated by state police from the Marquette post (see story on Page 9).

Chief of Police Donald C. Herzmanson cautioned drivers to be especially careful as motoring conditions often become worse with slightly rising temperatures. After several weeks of extremely cold weather, the city yesterday had somewhat moderate temperatures.

Reports on the city collisions follow:

1. The injury occurred in a three-car wreck at 3:35 yesterday afternoon on W. Washington St. about 100 feet west of Park Ave. Involved were vehicles operated by Gerald E. Anderson, 422 Washington St., Ishpeming; Charles A. Czykoski, 1832 Schaffer Ave., and Gordon W. Frederickson, Box 121, Champion.

City police said Frederickson, headed west on Washington St., stopped in the westbound lane to make a left turn. Czykoski, following him, also stopped.

Anderson, however, apparently was distracted and didn't see Czykoski stop, city police said, and his car smashed into the rear end of Czykoski's automobile, which in turn was forced into Frederickson's car.

James Wayne, 23, of 1007 N. Fourth St., a passenger in Czykoski's taxicab, suffered abrasions on his left leg and sought his own treatment.

Extensive damage occurred to the front end of Anderson's car, a 1956 four-door sedan, which had to be hauled from the scene by a wrecker. The rear and front ends of Czykoski's 1962 sedan and the rear end of Frederickson's car, a 1960 sedan, were damaged.

Anderson was issued a ticket by city police for failing to stop in an assured clear distance ahead.

2. At 2:25 yesterday afternoon a car being driven west on W. Michigan St. by Archie R. Johnson, 477 E. Arch St., struck an automobile operated by John S. Thomann, 516 Bluff St., who was traveling north on N. Sixth St.

The impact shoved Thomann's car into a snowbank on the northwest corner of the intersection.

The left front and side of Johnson's 1960 four-door sedan were damaged. Extensive damage occurred to the right front fender and right side of Thomann's car, a 1954 four-door sedan, which had to be towed from the scene by a wrecker.

Anderson was issued a ticket by city police for driving at an excessive rate of speed — too fast for conditions.

3. An automobile being driven west on W. Magnetic St. by Clayton E. Dahlke, 502 E. Hewitt Ave., was struck by a car operated by Richard E. Wertonen, 948 Baldwin Ave., Negaunee, who was headed north on N. Seventh St., at 1:30 yesterday afternoon.

Considerable damage occurred to the front end of Wertonen's car, a 1953 two-door sedan, which had to

be hauled from the scene by a wrecker. The left rear of Dahlke's 1961 station wagon was damaged.

Right-Of-Way Violation

City police ticketed Dahlke for a right-of-way violation.

4. At 12:30 yesterday afternoon a car being driven south on S. Third St. by Harry R. Cebalo, Grove St., was struck by an automobile operated by Otis R. Franklin, K. I. Sawyer Air Force Base, who was traveling east on Baraga Ave. and whose car slid through the intersection.

The right side of Cebalo's 1960 station wagon and the front end of Franklin's 1957 two-door sedan were damaged. Both were driven away under their own power.

Too Fast For Conditions

Franklin was ticketed by city police for speeding — driving too fast for conditions. Cebalo was ticketed for having an expired operator's license.

5. An automobile being driven north on S. Fifth St. by John B. Michelin, 434 Baraga Ave., was struck by a car operated by Charles G. Tapala, Box 62, Princeton, who was going west, out of the W. Washington St. alley, at 11:55 yesterday morning.

Apparently no damage occurred to Tapala's 1958 pickup truck but extensive damage resulted to the right rear door of Michelin's 1962 four-door sedan.

Right-Of-Way Violation

City police issued Tapala a ticket for a right-of-way violation.

6. At 3:55 yesterday afternoon a car being driven south on Presque Isle Ave. by Winogene Mills, Mounted Route, Sherman St., struck an automobile owned by the Marquette Public Service Garage, which was parked on the west side of Presque Isle, just north of W. Fair Ave.

Car Not Under Control

The front end of her 1951 four-door sedan and the left rear of the parked car, a 1957 two-door sedan, were damaged.

Mrs. Mills was ticketed for failing to have her car under control.

The coyote is much smaller than the true wolf and more closely resembles a jackal.

A favorite German fish dish is carp cooked in beer, according to the Encyclopedia Britannica.

EDWARD EKDAHL

Sgt. Ekdahl Recruiter For Air Force

M-Sgt. Edward A. Ekdahl, 1444 Lynn St., has been appointed U. S. Air Force recruiting officer for the Upper Peninsula, it was announced today.

Major Russell J. Gradel, commander of the USAF recruiting station, Milwaukee, said Ekdahl's office will be located at 107 S. Front St.

A native of Keweenaw Bay, Ekdahl is a graduate of Baraga High School, in the class of 1942, and served with the Air Force in World War II in Australia, the Philippines, Okinawa and Japan. He was in the service from 1943 to 1946.

After being discharged from the service in 1946, he served in an inactive reserve status until recalled to active duty during the Korean War, in August 1950.

Since his recall to active duty,

Large Crowd Attends First Cooking School Session Here; Event Repeated Wednesday

Wednesday will be the final day of the Journal-sponsored cooking school and Modern Living Festival to be held in Marquette, the show moving on the following day for a two-day stand in Ishpeming.

The Marquette National Guard Armory was jammed with an audience of women and a surprising number of men this afternoon as Susan Lowe, home economist in charge of the cooking school, was presented to the audience.

Warm In Praise

Interest in the cooking school was evidenced by the number of representatives of organizations involved. Rural Gravure of Madison, Wis., has an official here for the program, several Upper Peninsula newspaper people were on hand as observers, sales representatives of participating companies were on hand, and all were warm in their praise of the show, its worth, the manner in which Miss Lowe went through a series of recipes with a completely captivated audience.

The Modern Living Festival as-

pect was heightened by the cooperation of several business houses, so that the audience present received a good insight into the models and their performance, in all household appliances, TV, stereo, modern place settings, insurance needs.

Grand Prizes Tomorrow

Scores of free gifts were distributed to an appreciative audience. Tomorrow the grand prizes will

Ekdahl has served in Japan and in Canada. He previously was assigned as non-commissioned officer in charge of the supply division of the headquarters, Sault Ste. Marie Air Defense Sector, K. I. Sawyer Air Force Base.

Ekdahl is well known throughout the Upper Peninsula and is one of nine brothers who have served in the U. S. armed forces during and since World War II. Seven brothers, including Ekdahl, were in the armed forces simultaneously during the war.

A recent graduate of the Air Force recruiting school, Lackland AFB, Texas, Ekdahl will explain Air Force training, educational and travel opportunities to interested young men and women in the region.

Recruit Tours Throughout U. P.

While at the recruiting school, he observed officer, WAF (Women's Air Force) and airmen training programs in progress.

Ekdahl is available in his office each Wednesday in Marquette and will accept applications for enlistment and can discuss USAF opportunities with interested persons.

He is married to the former Naomi J. Draeger, L'Anse. They have two children, James, 14, and Joan, 10.

Two New Instructors In City Grade Schools

New elementary school teachers in the Marquette Public Schools are Mrs. Gary Smith (left) and Shirley Damacey. Mrs. Smith, a graduate of Northern Michigan College, is teaching third grade at Parkview School. She is a native of Calumet and has taught one year in Green Bay, Wis., and one year in Charlevoix. Miss Damacey, a native of Lansing and a graduate of Michigan State University in E. Lansing, is teaching third grade at Whitman School. She has previously taught four and a half years in Lansing and Escanaba.—(Joe Sullivan photo).

USO Opens On Limited Basis This Evening In Marquette

Servicemen will have a chance to preview Marquette County's USO (United Service Organization) Club when it opens on a limited basis this evening. Contractors have finished the painting and plumbing work. The club will be open on

the limited schedule until furniture, which has been ordered, arrives. Robley H. Morrison, Marquette, president of the USO Committee of Marquette County, said today. The temporary schedule, with the club open from 7 to 9 p. m. on Tuesdays and Thursdays and from 10 to 3 p. m. on Saturdays, will allow servicemen to drop in to get acquainted with the new facility. Morrison said. Get \$2,000 Check A check for \$2,000, financial con-

All Moose Members Are Urged To Attend

Activities Of Red Cross In Area Reported

At a recent meeting of the Marquette County Red Cross Chapter, an activity report was submitted by Mrs. Edith Savage, Marquette, executive secretary.

It stated that 63 contacts were made during December and that 47 cards were issued for first aid courses, 14 in water safety and 13 for home

nursing. Financial assistance was given to nine members of the armed services.

John Manthel, former Marquette native, who is now assistant regional manager for the American Red Cross, with offices in St. Louis, Mo., attended the meeting.

One of the topics discussed by Manthel was the blood bank program. This program operates throughout the continental United States. The center collects blood from voluntary donors through bloodmobile visits to various communities.

Blood and blood derivatives are supplied to hospitals, physicians, clinics and public health agencies by the Red Cross without charge for the product itself. These blood

centers collect over 2.5 million units annually.

Manthel expressed hope that the Marquette County chapter would sponsor a blood program which would cover the entire county. He also spoke of the central chapter plan which involves combining some of the rural chapters under one central head for better service.

Population trend during 1950-60 shows that the midwest is on the move from the farms into the cities. Michigan with its 83 counties shows that 18 counties lost 22 per cent of their population while in Wisconsin 34 counties out of 71 lost 48 per cent of their population.

May Combine Some In U. P. The cities of Detroit and Mil-

SUSAN LOWE Recommends New ULTRASONS NYLONS from GETZ'S

From Berkshire come the first stockings fashioned with sound waves!

New ULTRASONS shape themselves to fit your legs —every step you take!

HERE, at last, are stockings that never lose their fit! Berkshire's fabulous new Ultrasons won't bag, sag or wrinkle.

The secret is a new ultrasonic process—the greatest advance in stockings since nylon was invented!

More flexible, more comfortable Ultrasons are the first stockings actually treated with ultrasonic sound, so they'll flex with every movement of your legs. Walk, sit, stand, stoop. Ultrasons stay smooth from top to toe. The new ultrasonic process makes Ultrasons more porous than other

nylons. They keep your legs and feet cooler, drier in the hottest weather.

Guaranteed run barrier

Every pair of Ultrasons has Berkshire's famous NYLOC® Run-Barrier. Guaranteed to stop any runs starting at the top or toe from entering the sheer leg area—or you get a new pair free!

Ultrasons come with seams or seamless in four muted shades. All matte-finished—fashion's subtle new look for 1963.

Discover today how shapely your legs can look in Berkshire's new Ultrasons. Only \$1.65 a pair.

City School District Gets Federal Aid

U. S. Sen. Philip A. Hart informed The Mining Journal today that the U. S. Department of Health Education and Welfare has certified \$17,997 for immediate payment to the Marquette School district.

Trial Set In City Court; Ten Fined

Ten persons were ordered to pay a total of \$88 in fines and costs by Judge Edward H. Dembowski in municipal court yesterday for traffic violations.

Also in municipal court, trial was set for 9 Friday morning for Thomas J. Lakanen, 22, of 2127 Presque Isle Ave. Lakanen pleaded not guilty yesterday to a charge of drunk driving.

Lakanen was arrested by city police Sunday at the corner of Crescent and N. Front Sts. He was released after posted \$100 bond. Improper Use Of Plates

Ronald J. Brisson, 102 Furnace St., paid a fine of \$10 and \$4.30 costs for the improper use of registration plates. State police issued the ticket Oct. 14 on U. S. 41 in Chocolay Township.

A fine of \$10 and \$3.70 costs were paid by Richard P. Coopman, Belton, Mo., for failure to yield the right-of-way. City police ticketed him Jan. 21 following an accident at the corner of Hebard Ct. and W. College Ave.

Robert G. LeMaire, 2206 Long-year Ave., paid a fine of \$6.30 and \$3.70 costs for failure to have his motor vehicle under control and a fine of \$1.30 and \$3.70 costs for defective brakes. City police issued the tickets Jan. 18 following an accident on N. Third St.

Right-Of-Way Violations

For failure to yield the right-of-way at the intersection of W. Kaye Ave. and N. Eighth St., Milo N. Gosner, Seney, was fined \$6.30 and ordered to pay \$3.70 costs. City police issued the summons following an accident Jan. 15.

Daniel M. Pearce, 316 E. Ridge St., was ordered to pay a fine of \$6.30 and \$3.70 costs for failure to yield the right-of-way. City police issued the ticket Jan. 25 following an accident on N. Front St.

For failure to wear corrective glasses, as required by his operator's permit, Marvin G. Reeves, K. I. Sawyer Air Force Base, paid a fine of \$1.30 and \$3.70 costs. City police ticketed him Jan. 31 on W. Washington St.

Harvey H. Robinette, 419 1/2 Bluff St., was fined \$1.30 and ordered to pay \$3.70 costs for going the wrong way on a one-way street. City police issued the ticket Friday on W. Arch St.

Fined For Speeding

The following persons paid fines of \$1.30 and \$3.70 costs for speeding:

James E. Niemi, Ontario, Canada, ticketed by state police Jan. 27 for driving 65 miles per hour in a

Marquette Chamber of Commerce President Harlan Larson

and Executive Director Wyndal Hudson will attend the national chamber's Aircade for Citizenship Action in Battle Creek tomorrow.

Larson and Hudson said they also plan to "boost the Upper Peninsula" during an appointment with Gov. George Romney in Lansing Thursday morning.

The activities are part of the Marquette Chamber's program of participation in state and national affairs.

The U. S. Chamber of Commerce's aircade has been called one of the most effective means of encouraging citizenship participation in government.

One Of 15 Held

The Battle Creek conference is one of 15 held in cities across the nation each year. The one-day meetings are devoted to a discussion of major legislative issues, with a summary of issues before

the 88th Congress and instructions for more effective communication with state and national legislators.

Labb Plumely, Worcester, Mass., president of the U. S. Chamber of Commerce and chairman-president of the State Mutual Life Insurance Co. of America, will be present at the Battle Creek meeting.

82 Frozen Water Pipes In City Thawed Out In Week

Water department crews thawed out 82 frozen service lines during the past week. City Manager Thomas Moore stated in his weekly report today of municipal department activities.

Water pumped during the week totaled 14,080,000 gallons, considerably over the usual average of about 13,500,000 gallons, because meter dials are usually removed in cases where freeze-ups have occurred.

A crew also went out in the cold weather last week to repair a leak in the eight-inch main on E. Ridge St. Snow was shoveled from around hydrants and customers' meters were read.

Following are excerpts from the reports of other departments:

Public works — U. S. 41 and major streets were plowed and sanded. Snow removal, the cleaning of intersections and widening of streets was carried on and Christmas tree pick-up was continued. Yield signs were installed on W. Fair Ave. and parking meters and traffic signs were repaired.

Engineering — Plumbing fixtures and piping are being installed at the new city garage on Wright St. by James Dupras & Sons, Inc. Work on the city's annual report to the State Highway Department and on city maps and utility drawings was done.

Parks and recreation—The deer herd as Presque Isle Park was cared for, outdoor ice rinks were plowed and flooded, and repair work was done at the Palestra. All winter recreation activities are being conducted on a regular schedule. The second session of the women's charm class has been scheduled to begin Feb. 27.

Fire—One industrial, one house fire and one false alarm. Eight city buildings were inspected by the fire chief. Two theaters, two cleaning plants and one gas plant

were inspected with the state fire marshal. One gas leak was investigated.

Police—Arrests, six misdemeanors, 64 traffic and nine accidents. Investigations, one larceny, 17 accidents and 23 disturbances. Two hit-and-run accidents were reported and one was cleared. The dog warden picked up 12 dogs and disposed of 14.

Clerk — Issued one city license, 12 dog licenses and three reinstatements of registration. Letters were mailed to 40 election workers for the Feb. 18 primary election. Five absentee voter ballot applications were received for the primary.

Court — Handled 30 traffic violations, seven misdemeanors, three felonies, three civil cases, and one preliminary examination. The violations bureau handled 50 restricted parking and 99 meter violations.

Health — Eight minor treatments were conducted and an immunization clinic was attended by 46 persons. Six cases of communicable diseases were reported, including two cases of mumps and four of chicken pox. The sanitation investigated eight sanitary complaints and conducted seven investigations.

Assessor — Assessed valuations were entered in the tax and assessment roll. Personal property valuation were computed from returns submitted by taxpayers.

Finance — Quarterly reports for bond holders were made. Semi-monthly payroll work was begun and checks were processed for ap-

proved bills payable. Light and power — Line crews completed an extension to service new buildings on Brook St. A guy and service wires were repaired on Third and Magnetic Sts. Water received at the hydro-electric plants was more than last week but less than one year ago. Elevation at the Hoist Pond dropped one foot and was nine-tenths of a foot lower than last year and 10.2 feet from the top of the dam. The newly installed diesel engine and generator at the diesel plant was test run and final adjustments were made. The total system's kilowatt-hour-load was 4.5 per cent higher than during the same week last year.

Demo Quits As Campaign Manager

LANSING (AP)—Raymond Clevenger announced his resignation Monday as manager of the Democratic party's spring campaign.

Clevenger, commissioner of the Corporations and Securities Commission, said he wanted to devote

his energies to supporting Paul Adams' candidacy for the State Supreme Court.

The newly-elected Democratic State Chairman, Zoltan Fereny, said he accepted Clevenger's resignation with reluctance, because he was "doing an outstanding job."

Clevenger, a strong supporter of former State Chairman John Collins, acknowledged he was disappointed when Fereny won his surprise victory at the weekend convention in Grand Rapids.

But the commissioner told a newsmen he was not angry about the outcome. "I have no bitterness," he said. "It was a fair fight, and Zoltan ran a good campaign."

After Collins' loss, Clevenger said, "the picture did change." He and Fereny had mutual respect for one another, he said, "but I didn't happen to agree with him this time."

Clevenger said he had conferred with party officials, including Fereny, before deciding to step down as campaign manager.

The commissioner said he was one of many Democrats who "feel strongly that Paul Adams should be on the Supreme Court, and I want to be leading the support for Adams."

State Police Ticket Driver In Collision

Three automobiles were involved and a motorist was issued a ticket, but no one was injured, in a pair of traffic smashups reported today by state police from the Marquette post.

At 9 last night a car being driven east on County Road 436 by Carol Wallace, 20, Skandia, went out of control as she rounded a right curve, two miles west of County Road 541, in Forsyth Township.

Her car skidded across the highway into the ditch and rolled over, with extensive damage resulting to the front end, top and left side of the vehicle, a 1956 small, foreign model, which had to be re-

moved from the scene by a wrecker.

Speed Law Violation
State police issued Mrs. Wallace a ticket for violation of the basic speed law.

The other mishap took place at 10 yesterday morning on County Road FFB, a half mile south of U. S. 41, in Champion Township, and involved a 1958 truck operated by Felix Delongchamp, 47, Champion, and a car driven by Clayton Anderson, 40, Champion.

State police said Delongchamp had just backed out of his driveway and was about to go forward when Anderson came around a curve, while driving north on Road FFB, and his car hit the truck.

The left rear end of the truck and the front end of Anderson's 1960 station wagon were damaged. Both vehicles were driven from the scene under their own power.

With its 27,000 square miles of area, Lake Victoria, chief source of the River Nile, is second largest body of fresh water in the world.

Computing Course Set By Northern

Northern Michigan College has arranged to offer a new course, "Introduction to Computing 171-2," to Marquette area business and industrial persons.

Recognizing that this is one of the fastest growing fields today, Northern officials said they realize that in this age of automation, there is a necessity and a responsibility to train persons who are expecting to use modern computer equipment.

This course will introduce automation, computing techniques, and provide a description of basic techniques of programming for and characteristics of digital com-

puters, and will offer two semester hours undergraduate credit.

Cox To Be Teacher
The instructor will be Russell Cox of the International Business Machines. Cox is an executive of IBM at the SAGE Installation at K. I. Sawyer Air Force Base.

He graduated from Cleveland Public Schools, entered the U. S. Marine Corps, 1943, and after his tour of duty entered Ohio University, where he majored in electrical engineering.

He received his BSED in 1950, with majors in mathematics and science, and after graduation, joined the IBM in September 1950, and was a customer engineer until March 1953, when he was transferred to New York to teach the 705 computer on programming and maintenance. In 1959 he was promoted to his present position as sector manager at K. I. Sawyer.

The class "Introduction to Computing" will meet on Tuesdays, from 7 to 9 p. m. in Room K303, with the first class session scheduled for next Tuesday.

City Health Activities Summarized

Dr. M. Cooperstock, Marquette health director, reported on health department activities during the past six months at a meeting of the health council recently.

Dr. Cooperstock said that the functions of the department had been maintained successfully during the period with two doctors working part-time to fulfill the health director's duties.

On Experimental Basis
Working as assistant to Dr. Cooperstock is Dr. Raymond G. d'Adesky. Dr. Cooperstock indicated that the system would continue on an experimental basis.

Functions carried out by the two directors during the past six months include school, camp and sports physical examinations, a monthly immunization clinic, protection of city employees against an expected influenza epidemic, work in conjunction with the State Health Department and

keeping of statistical files.

Dr. Cooperstock said that the health directors will make a statement sometime in April announcing the department's capacities concerning physical examinations for children going to summer camps.

for singers and instrumentalists to add other strings to their bows.

Nero, like many others, is developing a sideline of ice-breaking talk.

"Every musician wants to communicate through his music," the Brooklyn-born pianist said. "But if I can make people understand my music better by talking, I must certainly do it. I will not sacrifice artistic integrity — I'll talk, smile, kid around, but the music will be there."

The 28-year-old keyboard artist is kept busy with guest appearances on most of the top television variety shows. One of his worst problems is persuading writers to give him some lines.

"Love To . . ."

"The writers think musicians can't talk. Last season, I was on a Bob Newhart show, and was hoping to have a chance to exchange some remarks with Bob. So they had Bob come out with his drums and ask if I'd play with him. 'Love to, Bob,' I was to say.

"Exactly a year later, I was doing a George Gobel show, and he came out with his guitar and asked if I'd play with him. 'Love to, George,' was my line. That's about how it goes."

Recommended
Recommended tonight: "Empire," NBC, 8:30-9:30 (EST)—Robert Vaughn plays a paraplegic in

a show filmed at a hospital; Garry Moore Show, CBS, 10-11—Jerry Van Dyke, Keely Smith and Dorothy Loudon are guest stars.

ALCOHOLIC CONTENT
The Volstead Act of 1919, passed over the veto of President Wilson, defined intoxicating liquors as beverages containing 1/2 of 1 per cent alcohol by volume.

Lake Superior, with an area of about 32,000 square miles, is the world's largest body of fresh water.

OASI Questions And Answers

Editor's Note: If you would like to know how the Social Security law affects you, write the Social Security Question Box, P. O. Box 219, Marquette, Michigan. Your answer will appear in future editions of the Question Box, or you will receive a direct reply from the Marquette Social Security Office if you so specify and furnish your name and address.

Q. "I hired a lady the first week of January this year to clean my house every Saturday. I pay her \$8.00 a Saturday for this work. Do I have to file a social security tax return showing the wages I pay to this lady who works only one day a week?"—Mrs. A. J.

Answer: Yes, Mrs. A. J. If a domestic worker is paid \$50 or more in cash wages during a calendar quarter, the wages must be reported under social security. The social security tax return for the first calendar quarter of this year (January, February, and March) is due by April 15th.

Q. "My farm profit amounted to only \$583.62 for the year 1962 and I had no other income. Am I required to send in an income tax return and pay for my social security?"—W.M.

Answer: Yes, Mr. W. M. Even if you do not owe any federal income tax, you must file an income tax return if you have at least \$400 net profit from a farm or other business. It is in this way that you receive credit for social security. As a self-employed farmer, you attach a separate report, called a Schedule F, to your tax return. On this schedule you figure your self-employment income and social security tax. This return is due by April 15, 1963.

For a single meal, a killer whale may swallow as many as 24 seals, whole and struggling.

Registrations Being Received For National Merit Scholar Exams, Set Here March 5, 9

All 1964 graduates of Bishop Baraga Central and Graveraet High Schools who wish to enter the 1963-64 National Merit Scholarship competition have been asked to register at their school office. Students who will graduate from high school in 1964 and enter college in the same calendar year are eligible for scholarship consideration in the 1963-64 merit program.

The National Merit Scholarship qualifying tests will be given at Baraga High School on Tuesday, March 5, and at Graveraet High School on Saturday, March 9.

Awards in the Merit Program are granted on the basis of intellectual merit, but student financial needs determine the amount of individual stipends.

Given Interpretive Folders

After the test, each participating student receives an interpretive folder prepared by Science Research Associates, the testing agency, that reports individual test results for comparison with scores of high school students across the country. Thus, Graveraet and Baraga officials said, students can learn more about their

educational strengths and weaknesses—whether or not they plan to attend college.

In addition to the awards made by the National Merit Scholarship Corp. about 150 business corporations, foundations, and individuals give scholarships through the merit program.

A considerable number of other scholarship agencies utilize the services of NMSC in awarding their scholarships.

Established in 1955 NMSC was established in 1955 through grants from the Ford Foundation and the Carnegie Corp. of New York. An additional Ford Foundation grant to extend the Merit Program through 1970 was announced in April 1962.

In the period 1956-62, nearly 6000 students have received Merit Scholarship awards and thousands of other high-scoring students have been assisted in obtaining financial aid from other sources.

Squires Here Rated Tops 7th Month

For the seventh consecutive month, the Father Mathias Jodocy Circle of the Columbian Squires has received a class A rating from the Columbian Squires' Supreme Council in New Haven, Conn.

The Father Jodocy Circle is the highest rated Columbian Squire group in the Upper Peninsula this year.

The class A award is issued for completion of a monthly program which includes spiritual, social, physical, civic and cultural activities.

Chocolay Unit Accepted By Regional MEA

Three new chapters and three new districts have affiliated with the Michigan Education Association.

Region 17 has two of the new chapters, Rock and Chocolay Township Education Association. Rock president is Roman Gill and Mrs. F. Kathryn Rogers, Marquette, is president of the Chocolay association.

The third chapter, Hancock, is located in Copper County. Region 18, William Givens, of Hancock, is president of the chapter.

421 In State

With the addition of three new chapters, the present number of chapters is 421.

One month, since September, is how the new districts have been added to the MEA, making a total of 183 districts.

South Haven Education Association, Region 9, has Dale M. Lewis, South Haven, for president.

3 Regions In U. P.

Ernest J. Behrens, Allen Park, is president of the Melvindale Education Association, located in Region 2.

The Warren Woods Education Association affiliated with the MEA with Norbert M. Samulski, Mt. Clemens, as president. It is located in Region 6.

The MEA has geographically divided the state into 18 regions. Regions 16, 17 and 18 comprise the Upper Peninsula.

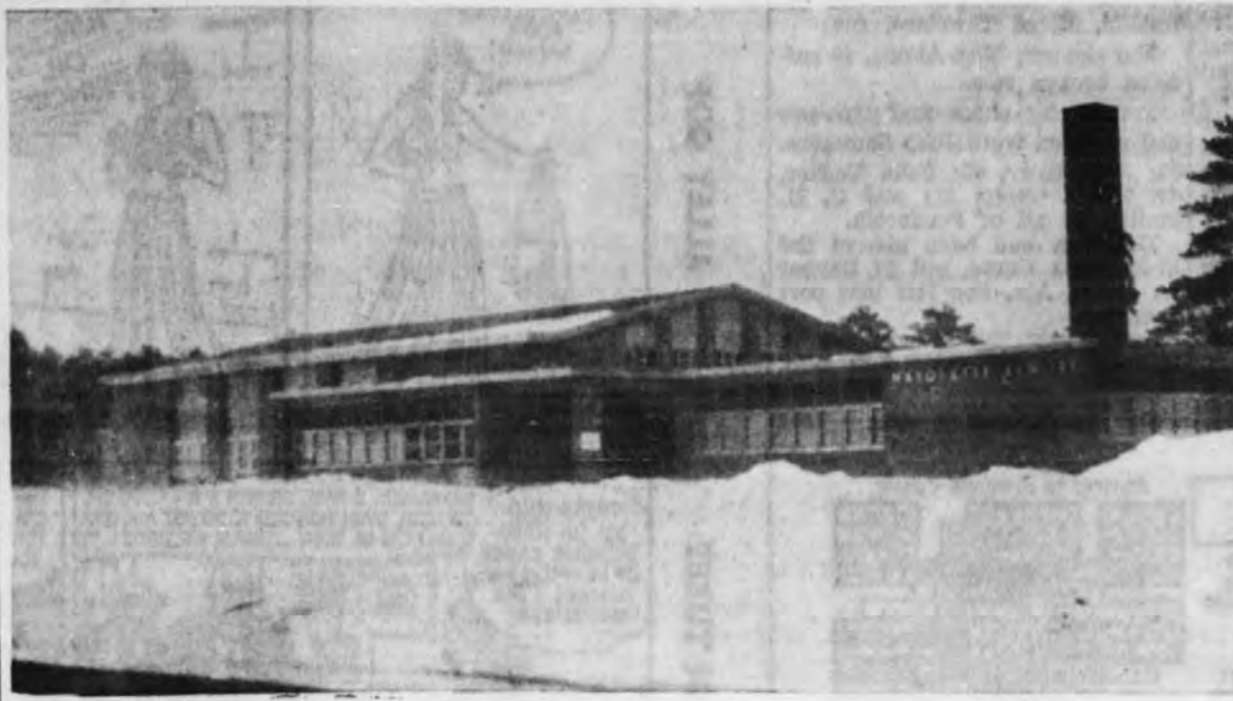

States Rights Pushed By Gov. Barnett

CAMBRIDGE, Mass. (AP) — Mississippi Gov. Ross Barnett sounded what he termed a clarion call for states rights Monday night before a polite, frequently applauding audience here.

Barnett was the chief speaker at the Harvard Law School Forum. About two dozen pickets protested his appearance as a police car drove him to the theater at Harvard.

Officials of the National Association for the Advancement of Col-

Site Of Journal Cooking School

The National Guard Armory in Marquette is the site of The Mining Journal's two-day cooking school and Modern Living Festival, being conducted today and tomorrow, with Home Economist Susan Lowe in charge. Doors open at 1:30 p.m. and program starts at 2 p.m. There is no admission charge. (Mining Journal photo).

ROMNEY SAYS: Many Demos Support New Constitution

LANSING (AP) — Gov. George Romney says he knows of several prominent Democrats who secretly support the proposed new constitution—but he's not telling anyone who they are.

"I think they'll name themselves as time goes on," the Governor told newsmen Monday. "All I will say is that I've had instances of them coming to me and telling me they're for it."

The Democratic Party, at its convention in Grand Rapids over the weekend, formally adopted a resolution opposing the proposed document and calling for its defeat by voters on April 1.

At the convention, former Gov. John Swainson offered to debate Romney at "any time, any place" on the constitution. Romney gave strong indication Monday he would not accept the challenge—but he didn't reject the idea flatly.

"I don't plan to engage in any discussion the purpose of which is to further the idea the proposed new constitution is a partisan issue," said Romney.

He said he had made no decision on the immediate question of a debate with Swainson — with whom he clashed in three television debates during the election campaign—but added:

"I haven't completely closed the door. But my statement that I don't want to further the constitution as a partisan issue applies to this particular situation. I'll let it stand for the time being."

ored People pleaded for an "orderly, integrated audience."

25 Negroes On Hand

An estimated 25 Negroes were in the audience of 1,500.

The Harvard campus became his forum when Cambridge city officials refused to let him speak at the Rindge Technical High School, which has a heavy Negro enrollment.

The audience, composed mainly of Harvard law students, was polite and applauded frequently during Barnett's 15-page speech.

Barnett sounded a "clarion call for the states to come to their own defense and obtain a restoration of constitutional government."

Meredith Not Named

He did not touch on the case of James H. Meredith, the 29-year-old Negro whose entrance into the University of Mississippi touched off riots on the university campus last September. Two men died and dozens were injured in the riots.

But Barnett held that education, voting rights and housing are in the field of local affairs.

City Paragraphs

Veterans of Foreign Wars Post 2439 will meet tomorrow at 8 p.m. in the Veterans Center. All members are urged to attend.

The Ladies' Auxiliary to the Brotherhood of Railroad Trainmen will meet tonight at 7:45 p.m. in the Odd Fellows Hall. The annual sauerkraut supper will be served at 6:30.

A recruiter from the U.S. Coast Guard station, Green Bay, will be in the Marquette Post Office building from 10:30 a.m. to 5 p.m., tomorrow, for recruiting purposes. Roger Roznoski, BMC, said there is no waiting list for recruits and young men interested in signing up in the service may choose the date they wish to enlist.

Two From Base Attend SAC Parley

Col. William B. Kyes, commander, 410th Bombardment Wing at K. I. Sawyer Air Force Base, and Lt. Col. Arthur J. Orillon, commander, 410th Airborne Missile Maintenance Squadron, attended a two-day conference at Strategic Air Command headquarters last week.

The meeting, first of its kind at Offutt AFB, Neb., brought the Air Force's top missile leaders and the men commanding SAC's operational

Problem Of U.P. Dairyman Shown In Cost Comparisons

Problem of the Upper Peninsula dairy farmer is shown in comparison of current milk prices and the costs of producing milk.

The current price of milk for manufacture in Wisconsin, whose milk industry is the largest in the nation and sets price bases for U. P. dairy industry, is between \$3 per hundredweight and \$3.15. This is also the Minnesota-Wisconsin Series pay price for manufactured milk.

Trying To Up Price

The National Farmers Organization, which is attempting to force up the price of milk and other farm products by contracting with handlers, is asking \$5.25 for all such Grade B milk. (Grade A is 70 cents a hundredweight higher.)

Intercontinental ballistic missile units together for a conference with Gen. Thomas S. Power, SAC commander in chief.

The 410th Bombardment Wing (formerly the 4042d Strategic Wing) is equipped with the GAM-77 "Hound Dog" missile, which is launched from the wing's B-52H "Stratofortresses."

Progress Reviewed

Power said the purpose of the conference was to review the progress of the Air Force missile program to date and to standardize materiel, operations, plans and personnel procedures of SAC's growing missile force.

He said the presence of the GAM-77 commanders at the conference indicated the great importance SAC attaches to the manned bomber — air-launched missile combination in its strategic concepts of a weapons mix of aircraft and ICBMs.

The "Hound Dog" is an air-to-ground missile, and extends the range of the B-52H some 500 miles.

71 cents, building and equipment, 37 cents and other costs 86 cents.

For less than 20 cows herd farmers, the cost for hundredweight was \$6.54 for average farmers and \$4.03 for efficient farmers. For farmers with 50 cows and more the average farmer's cost was \$4.96 and the efficient farmer's \$3.36.

New Techniques

Dairy farmers, says the Market News, have been influenced by new technologies like bulk milk handling, improved breeding and mechanization of feed and manure handling.

These changes have cut cost of producing milk but at the same time farmers have had to make large investments to increase herds and reorganize farmsteads to get the benefits of the new developments.

GREAT SALT LAKES

Although it has no connection with the ocean and is fed by freshwater streams, Great Salt Lake is about six times as salty as the ocean.

Elephants blaze and follow the best routes through mountains and forests.

Dear Abby...

BY ABIGAIL VAN BUREN

DEAR ABBY: My best friend had a few dates with a young man who recently came to work in our office. She flipped for him. He then stopped dating her and started to date me. I tried to fight it, but I couldn't help falling for him. Now he says he is in love with me and wants to marry me! I love him, too, Abby. We have been sneaking around like two thieves so my girl friend's feelings won't be hurt. He swears he never told her he loved her, and I believe him. I hate to lose this girl's friendship and don't know how to break the news to her. Can you help me?

does is watch TV and work crossword puzzles.

COLD WATER WIFE
DEAR WIFE: Say the magic words. "Either do it today or I'll hire someone to do it." This works.

HAPPY BUT SAD
DEAR HAPPY: Attempting to cover up an office romance is like trying to smudge dawn past a rooster. You and your young man should tell "Miss Also Ran" the facts as soon as possible. But be kind!

DEAR ABBY: When dining in a first-class restaurant, have you ever asked the waiter to wrap up the left-over steak for you to take home to the dog?

NEEDS DENTURES
DEAR NEEDS: Call your local bank and find out. It sounds like a legitimate reason for a loan. (Then the bite is on YOU every month.)

DEAR BOSTONIAN: Certainly. And it was delicious!

BOSTONIAN
DEAR BOSTONIAN: Certainly. And it was delicious!

DEAR ABBY: We have been married 27 years and have 4 grown children. Please tell me, how long does a wife have to wait to get hot water? He got me the bathroom set six years ago, brand new. Also the hot water tank. All he has to do is haul it upstairs and connect it up. He tells me to be patient. He isn't working. All he

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif. (McNaught Syndicate, Inc.)

6 Fishermen Survive Gulf Ship Ordeal

GULFPORT, Miss. (AP) — Six of nine fishermen who tied themselves together and leaped into a boiling sea when their trawler sank told Monday of the ordeal

which claimed the lives of three companions.

They were in the gulf of Mexico about 40 minutes before a Coast Guard cutter, hampered by 25-foot waves, could pull them to safety.

In all, eight men lashed together with a rope were hoisted from the gulf about 25 miles offshore Sunday by the Coast Guard cutter Nike.

Two of the eight were dead. The body of a ninth crewman, who had been knocked off the line during the rescue operation, was recovered several hours later.

The dead were Willard Hull, 44,

and Archie Wilson, 41, both of Pensacola, Fla., and Wesley Eli Haslett, 35, of Theodore, Ala.

The skipper, Max Alford, 43 suffered broken ribs.

Treated for shock and exposure and released were John Summers, 35; John Grey, 43; John Tucker, 49; David Grigg, 21; and C. G. Smith, 50, all of Pensacola.

The men had been aboard the 57-foot Sea Horse, out of Bayour La Batre, Ala. She left that port Saturday.

Smith said the trawler began shipping water about 6:30 p.m. that day.

TV Station Introducing 'Fairforce'

A new show entitled "Fairforce" is being introduced Thursday afternoon at 3:30 over WLUC-TV. It was announced today by Jack Dempsey, promotion manager at the local television station.

The half-hour show, to be coordinated by members of the Officers' Wives Club and the Non-Commissioned Officers' Wives Club at K. I. Sawyer Air Force Base, will feature Judy Winn, wife of Capt. Roger Winn, as regular hostess, and Tech-Sgt. Robert Shaw of the 56th USAF Hospital at Sawyer, who will do a series on exercises.

Guests Each Week Dempsey said that Mrs. Winn will have as her guests each week wives of Air Force personnel. Some of the show's guests will tell of interesting experiences they had while living in foreign countries where their husbands have been stationed...

The first show, Dempsey announced, will feature the showing of slides taken by a Sawyer woman when she was in Japan, and there will be recipes from England, including one for Yorkshire pudding.

Series Planned Sgt. Shaw, a physical education instructor, will offer weekly tips to women on how to stay trim and slim. After a few weeks of preliminary instruction, the sergeant will begin a regular exercise series which viewers will be able to follow weekly.

Those wishing copies of recipes, exercise and health tips will be able to obtain them by addressing requests to "Fairforce," in care of Channel Six.

Mrs. Walter Koepf Again President Of Trinity Women's Unit Mrs. Walter Koepf was re-elected president of the Women's Society of Trinity Lutheran Church at a recent meeting.

The society has scheduled a regular meeting for this Thursday at 2 p. m. in the church social rooms. Hostesses will be Mrs. William Pruess and Mrs. Ernest Bodeman.

Personals Mr. and Mrs. James C. Wagner and children, Norway St., are vacationing in Florida.

Officers Of MHS Named; Talk Heard

Richard P. Sonderegger was re-elected president of the Marquette County Historical Society at the organization's annual meeting Saturday afternoon in the auditorium of Peter White Public Library.

Fred Rydholm, who was the featured speaker at the meeting, was named vice president and other officers, re-elected to the posts they held last year, are Ernest H. Rankin, secretary-treasurer, and John E. Keast, corresponding secretary.

Directors are Richard F. O'Dell, Robert H. Clark, Munro L. Tibbitts, George D. Tramp, the Rev. Charles J. Carmody, John E. Backels, Mrs. Frank B. Spear, Miss Phyllis Rankin and Kenyon Boyer, managing director, all of Marquette; C. Robert Markert, Ishpeming, and Paul P. Belland and Robert K. Richards, Negaunee.

Tribute To Rushton During the business session, tribute was paid to the late Circuit Judge Carroll C. Rushton, whom Sonderegger said "was long a devoted friend of the society."

Reports given by Rankin and Boyer showed an increase in membership and in visitors to the society's museum. Nearly 3,000 tourists, local adults and children, student and Scout groups visited the museum during the year, they revealed.

The John M. Longyear Research Library of the society continues to be used by a number of students from junior high through college age, professors and others, it was reported, and the genealogical and newspaper files are constantly a source of information on many questions received both by personal calls and by mail.

Tells About Hurons In his talk following the business meeting, Rydholm traced the history of the Huron Mountain Yellow Dog plains area and its homesteaders. Long a student of the area, Rydholm has spent a number of years collecting material which goes back nearly 90 years to the early logging days here.

In years of tramping the territory from White Deer Lake to Lake Superior, Rydholm has been able to trace several homestead sites and has found dozens of ruined cabins the homesteaders built. Among those who settled

Looking over one of the polished stones which is in the special exhibit placed in the Historical Society's museum by C. Robert Markert is Mrs. Richard P. Sonderegger. The exhibit, open to the public for the first time Saturday, will remain in the museum for some time. (Photos by Sullivan).

in the area, he said, was "Peg-Leg" Marshall (who used a block of wood as one of his snowshoes), Jim Leatherby, Hasty Haveroy, Tom Gallagher, John and Barney Nelson, Hans Jensen, Chris Anderson and others.

Many Hardships "Many were the hardships they endured," the speaker said. "Most of them hauled in their supplies for the winter by wagon as far as possible, and then spent back-breaking weeks toting them home, either by shoulder pack or by the use of crude, hand-made wheelbarrows which they dragged along the narrow trails."

In telling his "grass roots" stories, the speaker mentioned one woman (whose homesteader husband brought her to the area as a bride) who knew heartbreaking loneliness in what was then wild territory. For eight years she never once made a trip "to town" and in all that time she never saw another woman.

For generous-sized hamburgers to be grilled over charcoal outdoors, shape only three patties out of each pound of chopped beef.

'Fun Night' Held At Whitman By MEA Unit

Photographed at the "fun night" which members of the local Michigan Education Association unit held Thursday at Whitman School are, from left: Ralph Laird, Catherine Hawes, Sarah Bottrell, Olive Fox, Lillie Olson, Amanda Larson and Dexa Weddle. The group played various games and later had a buffet-style lunch. Public school teachers are all MEA members. (Sullivan photos).

Rise And Fall Of 'Stitches' - A Dejected Dress Form

It was nothing to get excited about, thought "Stitches" when she was taken out of the storeroom last November. It had happened many times before to the dejected dress form.

Women would cluster around while a home economist from the Michigan State University Extension Center in Marquette, or one of the county extension offices, would drape materials over her and stick her with pins.

"Stitches" was moved slightly when she ended up under the bright lights at the WLUC-TV studios and she heard Ingrid Bartelli, MSU consumer information

agent, invite the audience to "Sew Along at Home." She still expected to be stored away and forgotten for another season, however.

Underestimated Publicity "Stitches" had underestimated the power of television and the influence of the press and radio that had been carrying a running account of her weekly appearances.

Starting out as a class on making skirts, viewers were invited to enroll and receive instruction kits as they were sewing at home. When the class had graduated from skirts to the construction of a matching blouse, at mid-winter, more than 750 had signed up and "Stitches" was on cloud nine.

Then someone had a brilliant idea that added spark to the sewing class but all but ruined "Stitches" TV career. Mrs. Alice Seppi, MSU Extension Center secretary, was the identical size of

Mr. and Mrs. Roland Bertrand announce the engagement of their daughter, Rochelle Joan, to LAC, USAF Hospital, K. I. Sawyer Air Force Base, to Staff Sgt. and Mrs. William N. Reed, Box 89, Gwinn.

U.S. Stamp Sales Climb In Schools

ISHPEMING — The January defense stamp report for Ishpeming public schools showed sales amounted to \$1,313.94, an increase of \$301.89 over the amount bought in the same month of 1962. The Phelps Intermediate School, with the largest enrollment of the five schools, averaged \$4.98 per pupil. Averages at other schools: Grammar, \$3.66; Central, \$3.62; Birchview, \$3.11, and Cleveland, \$2.01.

Over 34 per cent of the total enrollment of the five schools participated in the stamp program.

Tech Seeks ARA Grant To Develop Ripley Ski Hill

LANSING — The Michigan College of Mining and Technology at Houghton has filed application for an Area Redevelopment Administration grant of \$145,000 to aid in redevelopment of the Mont Ripley Ski Hill. The Economic Development Department said the grant would aid in financing a \$225,000 project proposed by Michigan Tech.

The application is unique as the first for a public commercial facility submitted by an educational institution.

Ghana has a population of 5 million and is about twice the size of Mississippi.

Label To Tell If Cuba Sells Ransom Drugs

NEW YORK — Footnote to history: Some of the drugs sent to Fidel Castro as ransom for Cuban prisoners carry a special marking. They were labeled this way as a means of learning whether Castro sells or barbers them abroad rather than using them in Cuba, a pharmaceutical manufacturer says.

Drugs accounted for about half of the \$53 million in goods which Castro made the price for releasing 1,113 Bay of Pigs prisoners at Christmas time.

Makers of the drugs, surgical instruments and baby foods contributed their products to make up the ransom figure. They were convinced Cuba was in desperate need of such items, with drugs in short supply there, and health problems becoming very serious.

But some items requested by Castro made them wonder whether the Cuban government really intended to use them all in Cuba, or exchange or sell them for other products of his economy—or his military establishment—needs, this informant said.

So, as a tracer, one pharmaceutical manufacturer put a special mark on the packages of drugs he supplied. The drugs were not altered in any way.

"We'll be able to tell if they show up in Russia or South America, or even eventually in the United States," said this source, who asked not to be identified.

Drugs are a big seller in black markets, he explained.

Compulsive Eater Dies

Charles Steinmetz (above) of Jacksonville, Fla., said two weeks ago when he weighed 670 pounds that he craved food like an alcoholic craved alcohol. "I haven't much time left," the 38-year-old former government clerk said. Steinmetz died in a hospital Sunday of lung congestion. He weighed 740 pounds—a gain of 70 pounds in two weeks.—(AP Wirephoto).

Negaunee

St. Paul's Altar Society will hold a regular meeting at 7:30 Wednesday night in St. Paul's School.

The Apostolic Lutheran Church will hold services at 7:30 Wednesday and Thursday nights. Speakers will be Arvi Isaacs, Minneapolis, and William Prussi, Negaunee.

The Mitchell Methodist WSSC study class on "The Dimensions of Prayer" will meet at 1:30 Wednesday afternoon for its second session in the church social rooms. New members will be welcomed.

A regular business meeting of the Lady Elks will be held at 8 Wednesday night in the Elks clubrooms. Hostesses will be Mrs. Elsie Tobin, chairman; Mrs. Emily Kurin, Mrs. Mae Conradson, Mrs. Jeanette Galetto and Mrs. Bertha

UAW To Aim For Slice Of Profits Pie

DETROIT — United Auto Workers President Walter P. Reuther Monday described profit sharing as "sharing the pie that's already been baked" and warned automakers to start getting "emotionally adjusted" to it.

"If you want to call it progress sharing, that's all right with us," Reuther told the Economic Club of Detroit.

"Progress sharing" was the phrase the then American Motors Corp. President George Romney coined to describe the current labor contract under which AMC agreed to share its profits with UAW workers.

By warning automakers to start getting "emotionally adjusted" to profit sharing, Reuther in effect was serving notice the profit-sharing plan would be a major talking point when auto industry contracts are up for renewal next year.

Reuther said the UAW would not press for the 35-hour work week to replace the present 40 hours, but would insist on "flexible full employment formula" to keep as many people working at full pay as possible.

This might mean a 35-hour week, but it could just as well mean a 40-hour week with no overtime, Reuther said.

"Overtime that is deliberately planned is morally indefensible, as long as there are people out of work," he said.

Getaway Car Driver Given Life Sentence

MOUNT CLEMENS — Kenneth D. Funke, 24, of St. Clair Shores, Monday was given a life sentence for second degree murder in the 1960 death of a Roseville woman during a motel hold-up.

Police said Funke admitted he drove the getaway car while two others, who later were convicted of first degree murder, went to rob the motel in Roseville.

Mrs. Alberdina Boll, 55, wife of the motel owner, was killed by a shotgun blast as she tried to flee the robbery. Her husband, Anton, 57, was pistol-whipped.

Trenary

The schedule at St. Rita's Church for this week follows: Thursday, Ladies' Guild meeting at 8 p. m. in the parish hall; Saturday, catechism at 2 p. m.; confessions at 3:30 and 7 p. m.

Mr. and Mrs. Frank Richmond and Mr. and Mrs. Edmond Outlette are spending a month's vacation in Phoenix, Ariz., and Los Angeles, Calif.

Mrs. John Knous Jr. has returned home after visiting relatives in Iron River.

The Valentine issue of the Trenary High School "Comet Caller" will be sold Wednesday by members of the typing class.

Free Police Whistles For Gals Who Work Late

BALTIMORE (AP) — Women who work evenings were offered free police whistles Monday by the American Legion.

Daniel Burkhardt, state adjutant of the Legion, said the whistles would be given to the first 100 women visiting the Legion office in Baltimore's War Memorial Building.

There have been several recent attacks on women walking at night.

All She Wanted Was Battery Charge

LAS VEGAS, Nev. (AP) — All Mary Nelson wanted was a car battery charge. The total charge: \$800.

A mechanic returned the auto to her home Monday and left the motor running.

Police said engine vibrations apparently caused the gearshift to slip into drive position. The car lurched driverless across the street and slammed into a house.

Paris Goes Underground To Solve Traffic Woes

PARIS — Subterranean streets and parking garages are the only solution to Paris' pressing traffic problem, says Pierre Taittinger, chairman of the Paris municipal council.

Other important problems of Paris are lodging and water supply, said the municipal council chief. Only 50,000 lodging units are being constructed each year, he said, but 75,000 additional units are needed annually.

Water problems are becoming serious and he advocates a project to take water from the Loire River region.

Tax-Cutting Plans Unlikely To Prod Economy This Year

By SAM DAWSON
AP Business News Analyst

NEW YORK — The winds of February are blowing some caution back into the business world. Belief in a continuing moderate advance still rules most thinking. But early hopes for a big boost to the economy from outside forces are subject to second thoughts.

The tax cutting plans, on detailed inspection, may add up to less relief this year than many first thought. Effect on American business of the turmoil in Europe has yet to be assessed. And the recovery from the lowpoint of the last recession is now nearing its second birthday. This leads some to question how many more months the cycle may have yet to run.

Healthy Economy

But these thoughts are only a tempering of earlier enthusiasm. This upsurge had started in October after the Cuban crisis and had all but reversed the earlier pessimism, which was obviously overdone.

The official figures still point to a healthy economy, on the whole. There is a feeling in the steel industry that customers will soon start building up inventories as a hedge against the off-chance of a steel strike this summer, should the union reopen the wage contract and the companies balk.

Second thoughts about the tax cuts come from the congressional opposition that threatens to hold

them up or water them down.

Also, it is now plain that corporate tax relief, except for the smallest firms, is to be put off for a year or more.

Will Pay As Much As Ever

And if the new rules on deductions and other items called loopholes go through, many taxpayers may find themselves paying about as much as ever. Counting in the rise in social security taxes and in various state and local levies, a lot of citizens may be out of pocket instead of ahead this year.

This could cut back much of the boost to business which was supposed to flow from a cut in individual income tax rates that would increase purchasing power. And some business observers even doubt that too significant an amount of any savings would go for new purchases. Much might be used to pay for old.

Many business executives also are far from convinced that a tax cut leading to a large federal deficit will generate future Treasury surpluses. They doubt if the spur to the economy would be that sharp, or if future government spending plans would be held down to guarantee a surplus.

Demo Tiff To Aid GOP, Romney Says

LANSING — Gov. George Romney said today he thought the power struggle between Democrats over the state party chairmanship at their weekend convention would help Republicans in the spring election.

Romney said there would be no open dispute over the GOP state chairmanship at the Republican state convention.

"We will sit down as a group and take a careful look at the requirements of the position and the capacities of the candidates and end up with a meeting of the minds," Romney said. "After I get the views of the various groups, I will express my own preference."

Romney said the Democratic convention "tends to confirm a point I've been making for some

Gogebic County Mural Returned To Ironwood

IRONWOOD — A 19 by 7 foot mural depicting the history of Gogebic County has "come home to roost"—or, more accurately, hang—in Ironwood's Carnegie Library.

The "narrative in oils" arrived by way of the Upper Peninsula State Fair at Escanaba where it had been on display since 1962. The fair exhibition building where it was hanging has been closed.

The mural was a followup to one completed under a Works Progress Administration project in the 1930's for which a canvas was painted to represent each of the 15 Upper Peninsula counties. The paintings were on exhibit at the fair for a number of years until one—for Gogebic County—disappeared.

Series Of Murals

The fair board then commissioned a series of 15 new murals, starting with Gogebic County.

An Ironwood telephone switchboard man and amateur artist, William Desotelle, who had begun painting in oils a few years previously, was offered the assignment. It took six months to complete it in his spare time.

When Desotelle had difficulty finding a location large enough to work on the canvas, he moved his family to a home with a large basement.

Creating the mural required 10 pounds of oils on the canvas worth \$100. Desotelle wore out 12 brushes, but his prized \$15 red sable brush survived the project.

Did Extensive Research

He visited all sections of the county doing research for the mural and made extensive use of pictures and newspaper clippings to locate subject matter.

Almost every phase of Gogebic County life is represented, including industry, natural resources, government, climate, youth, recreation facilities, agriculture and educational institutions.

Victor Lemmer, Ironwood historian and one-time member of the fair board, was instrumental in arranging for the mural's return to Ironwood.

Wood-Using Group Plans Feb. 14 Meet

GREEN BAY, Wis. — The Northern Hardwood and Pine Manufacturers Association, consisting of the major lumber manufacturers, flooring mills, veneer plants and other major wood-using industries in the lake states, will hold its 53rd annual convention at the Northland Hotel, Green Bay, Wis., Thursday, Feb. 14.

After reporting activities to members Association President Armin O. Knoke, of the Knokke Lumber Co. of Appleton, will open the regular business session at 9:30 a.m. Members will register opinions as to business conditions for the first six months of 1963. The effect President Kennedy's tax revision program might have on business in the lake states will be discussed.

Gilbert Zieman of the American Forest Products, Inc., will show results of a survey concerning the trend of recreational use of private forest lands and its effect on private industry. This program will show the increase in recreational activities since 1956. Members also will elect officers for 1963.

Glen M. Bronson, public relations consultant from Minneapolis, Minn., will be the main speaker. There will be meetings of the nominating committee, executive committee, board of trustees and board of directors Wednesday, Feb. 13, beginning at 11 a.m. These meetings will be followed by a social hour in the evening.

Approximately 100 prominent lumbermen, their wives and guests are expected to attend the annual affair.

Besides Knoke, association officers are Fred Roberts, Kimberly Clark Corp., Norway, vice president; Fred Menzner, Menzner Lumber & Supply Co., Marathon, Wis., treasurer; Miss Harriet Holmes, Green Bay, assistant treasurer, and William A. McGraw, Green Bay, secretary-manager.

Members expected to be represented at the meeting include Cleveland-Cliffs Iron Co., Ishpeming, and J. & F. Brisson, Chatham.

Mine Safety Code Advisory Board Creation Called For In Jacobetti House Measure

LANSING (AP)—A bill giving courts authority to erase criminal records of certain juvenile law-breakers who lead model lives after conviction was filed Monday for introduction in the House. Rep. Charles Townner, D-Mt. Clemens, sponsored the proposal under which courts would be given power to expunge the entire record of a convicted person, on motion by that person. The bill specifies such persons

Legion Chief At State Meet This Week

DETROIT — This city will be the site of a regional membership conference called by National Commander James E. Powers, Macon, Ga., of the American Legion Feb. 7.

Announcement of the meeting was made by State Legion Commander Joe Paul, who said that an attendance of 500 Legionnaires was expected from Michigan and surrounding states. Conference sessions are to be held in the ballroom of the Veterans' Memorial Building beginning at 7:30 p.m.

A breakfast and press conference for the national commander will be held at the Sheraton-Cadillac Hotel the following morning at 9 prior to Powers' departure for his eastern engagements.

The conference will make plans for a mammoth, nationwide celebration of the 44th anniversary of the Legion's founding on March 15-17. The veterans' organization was established at a caucus of World War I veterans in Paris, France, on those dates in 1919. Powers will take part in the conference.

Purpose of the birthday celebration, according to Paul, is to re-emphasize existing programs and to initiate new projects of community service in the field of rehabilitation, child welfare, Americanism and national security. These are the Legion's four basic programs.

The period just prior to the birthday also will feature a nationwide campaign to recruit new members in the Legion's 16,600 community posts.

2 Join U.P. Power Co.'s Sales Staff

HOUGHTON — Clarence O. Busser of DeKalb, Ill., and Gary Lyttinen, a native of Houghton County, have joined the sales staff of the Upper Peninsula Power Co. and will handle sales and service promotional activities and assist customers in the applications of electric service to fit their specific requirements.

Busser, as application engineer, will work throughout the company's territory and will devote special attention to matters pertaining to electric heating and customer relations. His past experience in this field of work includes approximately nine years with the Commonwealth Edison Co. of Chicago.

Lyttinen, as application engineer-rural, western division, will handle sales assignments particularly in the areas of Houghton, Keweenaw, Baraga and Ontonagon Counties. His several years' experience in electronic work along with the knowledge gained through technical schooling qualify him for his new position.

Busser was born in Dixon, Ill., where his parents still reside. Following graduation from high school there in 1954, he accepted employment with Commonwealth Edison in the Dixon office. In 1955 he was transferred to Freeport, where he remained until entering military service in 1957. After several months of special technical training at Keesler Air Force Base, Mississippi, he was assigned to the Calumet Air Force Station in Keweenaw County. During his two years of duty in the Copper Country, he and his wife lived in Lake Linden and made many friends in the area.

In 1959 he returned to Dixon to resume employment with Commonwealth Edison. Later he was transferred to Sterling and then to DeKalb as customer and sales representative. Mr. and Mrs. Busser reside at 526 Royce Road, Ripley. They have two sons, Michael, 3 years, and John, 2 months.

Lyttinen was born in Baltic and at an early age moved to Tapiola with his parents, Mr. and Mrs. Abe Lyttinen. He attended the John A. Doelle School at Tapiola and was graduated from its high school in 1955. After working on an ore carrier for the Cleveland-Cliffs Iron Co., he moved to Detroit in 1956 to accept employment with Western Electric Co. He continued in this work until 1960, when he joined the Detail Production Co. in Ferndale, Mich. While in Detroit he completed a special course in electronics at the Electronics Institute and he is now doing studies in business and accounting through the International Correspondence School.

Lyttinen is married to the former Judy Hall of Tapiola, where the couple now reside. They have one son, Glen, age 1 1/2 years.

would be those who are convicted or plead guilty to not more than one offense, "not of a heinous nature," before their 21st birthday.

The motion could not be filed until three years from the date of the guilty plea or conviction by the judge or jury.

Other bills ready for introduction in the House:

• A proposal to appropriate \$50,000 from the state's general fund to select a site, acquire land options and make site studies for a new state hospital for mentally retarded children in west central Michigan.

• A bill by Rep. Dominic Jacobetti, D-Negaunee, to create a mine safety code advisory board, require once-a-month inspection of mines by county inspectors and set penalties for violations. The three-member advisory board would be named by the commissioner of labor.

In the Senate, bills were introduced which would:

• Exempt from taxation by one-half of assessed value the homesteads of persons 65 years of age or over whose income is solely from social security or old age assistance "if the state equalized value of the homestead is \$7,500 or less," by Sen. Harry Litowich, R-Benton Harbor.

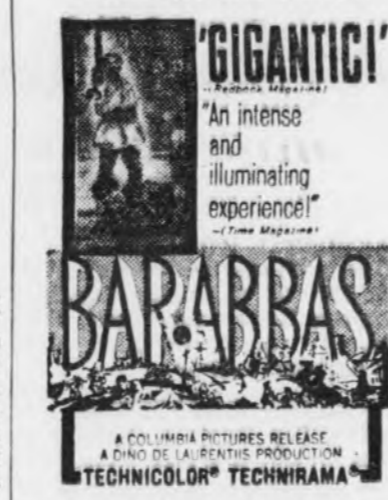

• Provide for termination of dormant oil and gas interests in land owned by persons other than owners of the surface, by Sen. Harold Hughes, R-Clare.

Patriotic Road Crew Heeds National Anthem

CINCINNATI (AP) — At a flag-raising ceremony during the opening of the new Pleasant Run Elementary School, the Star-Spangled Banner was played. Youngsters and Legionnaires from the Mount Healthy Post stood at attention. They weren't alone. A Hamilton County road crew, working nearby, lined up to a man at the curbing and stood at attention with bright yellow helmets held over their hearts.

Only 23 Days Left To Buy License Tags

NEGAUNEE — Automobile owners in the Negaunee area were advised today by Clarence J. Trotochaud, manager of the branch office of the secretary of state located here, that they should make arrangements to obtain 1963 vehicle tags within the next two weeks if they wish to avoid standing in line.

Trotochaud pointed out that sale of 1963 tags has not been too brisk and predicted that, unless it picks up considerably in the two-week period, there will be long waiting lines as the Feb. 28 deadline for use of current plates approaches.

Last year vehicle owners were given new license plates, but this year the state department has returned to the program of issuing

numeral tags which are attached to plates currently in use. Purpose of the change is to eliminate a major share of the expense involved in manufacture of license plates.

Fleet owners especially are urged to make plans to procure plates well in advance of the deadline, as issuing of this type of license ties up at least one member of the office staff for a considerable period of time and complicates matters when other vehicle owners are waiting to be served.

Owners of trucks, tractors and trailers are advised by the branch manager that, in event these vehicles were not weighed in the past year, this must be done before new plates can be issued.

It Didn't Turn Out To Be So Big After All

PHOENIX, Ariz. (AP) — It wasn't really a colossal deal.

The painter just left the word "by" out of a sign on a vacant lot which read: "For Sale City of Phoenix."

Millionaire's Wife, Pilot Die In Crash

OCALA, Fla. (AP)—The artist wife of millionaire sportsman Peter A. B. Widener died in a crash after their private plane made a low pass over the airport where Widener was waiting for her.

In addition to Patricia Widener, 35, the crash killed the Widener family pilot, Robert G. Staab, 40, Ocala.

The plane flew over the airport Sunday night, then disappeared during an apparent attempt to return to this central Florida town in the murky darkness.

The wreckage was found late Monday, nine miles south of the airport in scrub oak woods.

Lt. Col. Dick Lockman, head of the Civil Air Patrol at Orlando,

said Staab flew directly over the field at 400 feet on one occasion. Son, Daughter

"Mr. Widener saw the plane," Lockman said. "He (Staab) could have been setting up a landing pattern—going downwind and then coming back southeast."

Widener and the former Patricia Massey, married in 1950, had one son, Joseph, 2. Mrs. Widener's daughter by a previous marriage, Genevieve (Viv) Trevander, 11, lives in Palm Beach. Widener has two sons by a previous marriage.

Mrs. Widener was known for her art work and held several exhibitions. The Wideners maintained homes in Palm Beach and at Ocala, where Widener has a 1,000-acre thoroughbred farm.

Great Grandson

Widener, 55, is a great grandson of Peter A. B. Widener, Philadelphia traction magnate. His grandfather, the late Joseph E. Widener, built Hialeah Park race track at Miami in the 1930s. Widener is a director.

More than 700 trade fairs will be held in 61 countries in 1963.
