

Rebels Arm Civilians To Fight Reds In Iraq

BEIRUT, Lebanon (AP)—Iraq's new regime is reported arming civilians to help wage all-out war against deposed Communist supporters of slain Premier Abdel Karim Kassem.

A traveler reaching Tehran, Iran, Monday said Iraq's new military rulers are arming civilians in Baghdad, Basra and other key cities to fight communist agitators.

The traveler said police and troops in Basra opened fire on 3,000 Communist demonstrators carrying portraits of Kassem. He said at least 250 were killed. Fiercest Since 1959

It appeared to be the fiercest offensive in the Middle East since the 1959 blood bath in Mosul. Then the Communists, in alliance with Kassem's troops, crushed a revolt by slaughtering hundreds of Socialists and nationalists.

Kassem was overthrown Friday and shot Saturday. The revolt leader, Col. Abdul Karim Mustafa, has sent police and troops of the revived National Guard to every province with orders to round up Reds and shoot them down if they resist.

Recognize Regime Despite the new rulers' anti-Communist campaign, the Soviet government joined Washington and London in recognizing the revolutionary regime.

Brass, Copper Firms Indicted

HARTFORD, Conn. (AP)—Eight brass and copper firms and five officers in the companies were found guilty Monday of conspiracy to fix prices in the industry.

U.S. District Judge M. Joseph Blumenthal ordered the guilty findings following a switch in plea from innocent to no contest by 13 of the 18 defendants in the case. Blumenthal scheduled sentencing for March 4. Conviction carries a maximum penalty of a \$50,000 fine and one year in prison.

Stand Firm Three other companies and two officials are standing firm on their pleas of innocent. They are: Anaconda American Brass Co., Scoville Mfg. Co. and Chase Brass & Copper Co., all of Waterbury; and Justice Lockwood, vice president in charge of sales for Anaconda and Maurice Liston Jr., sales manager of Scoville. No trial date has been set. The firms that will be sentenced March 4 are:

No Contest Phelps Dodge Copper Products, Revere Copper and Brass Inc., and Cerro Corp., all of New York City; Bridgeport Brass Co., of Hecla, Inc., of Chicago; Mueller Brass Co. of Port Huron, Mich.; Triangle Conduit and Cable Co. of New Brunswick, N.J.; and Progress Mfg. Co. of Philadelphia.

Parliament Expected To Support Mac

LONDON (AP)—Prime Minister Harold Macmillan appeared certain to win parliamentary endorsement today of his program to counter the effects of the French veto barring Britain from the Common Market.

The House of Commons, winding up a two-day debate on the country's economic future, was scheduled to vote late in the day on a Labor party motion of no confidence. With the Conservatives holding a 100-vote margin over the combined Labor-Liberal opposition, there was virtually no chance that Macmillan's government would fall on the issue.

Wide Areas Of Dixie Get Snows, Cold

(By the Associated Press) A fresh blast of wintry weather—with snow, sleet, strong winds and freezing temperatures—hit wide areas in the South from Texas to northern Georgia today.

The icy air from the northern Midwest, driven by strong northerly winds, dropped temperatures sharply in the Southern sections. The cold air headed into northern Florida. Readings from 15 to 20 degrees below normal were indicated.

Cold Wave Warnings Cold wave warnings were posted for parts of Louisiana, Tennessee, Mississippi, Alabama, Arkansas, Texas and Oklahoma.

Court Refuses To Drop Suit

LAPEER (AP)—Circuit Court Judge Timothy C. Quinn refused Monday to dismiss a suit brought by Mr. and Mrs. Edgar R. Thom of Metamora Township, Lapeer County, against a Sault Ste. Marie real estate firm for an accounting in the sale of an island in the St. Marys River.

The judge also denied a defense motion that the case be transferred to another county for trial and ordered that depositions of witnesses be taken in the case Feb. 28.

Defendants The defendants are Anthony E. Audry, Thel Bailey, Ann M. Young and the Audry Realty Co. Mr. and Mrs. Thom accused the defendants of collusion in selling them Harbor Island as a hunting preserve. They said they agreed to pay \$110,000 for the property but later found out that the defendants had concealed the actual price at which they acquired the island.

Dems Want Witness To Hear Romney

LANSING (AP)—Four members of the all-Democratic state administrative board have agreed to take witness along when Gov. George Romney calls any one of them in for a private conversation.

Their reason, according to a Democratic party spokesman, is that "the Governor can't be relied upon to give a complete accounting of what goes on."

The latest blow occurred last week when Dr. Lynn Bartlett, superintendent of public instruction, and Romney gave different versions of a conversation they held in the sanctity of Romney's office.

Witness Plan Bartlett was among the four who agreed to the "witness plan" at a meeting Monday night, and he was the first to comment on it afterwards, calling the idea "very unusual."

Others involved in the agreement were Secretary of State James Hare, Auditor General Billie Farnum, and State Treasurer Sanford Brown.

Warren To Speak At Georgia Tech

ATLANTA, Ga. (AP)—Tight security measures and signs calling for his impeachment greeted Earl Warren, chief justice of the United States, Monday night. City and state leaders urged Georgians to treat the Supreme Court official with dignity and respect.

Warren is to speak today before an audience of students and faculty at Georgia Tech, commemorating the 75th anniversary of the school.

Ike Didn't Pay Heed To Golf Critics

NEW YORK (AP)—Former President Dwight D. Eisenhower says he paid not the slightest attention to criticism of the time he spent playing golf or going fishing or daubing with paints.

Appearing Monday night with historian Bruce Catton in an NBC television program recorded at Eisenhower's Gettysburg, Pa., home on the subject of President Lincoln, Eisenhower said: "I think the worst possible president would be one who always just stayed at his desk."

Catton remarked that during the Civil War, Lincoln was criticized for allegedly spending too much time telling funny stories and going to the theater.

Eisenhower, agreed with Catton that Lincoln needed relaxation of some sort.

First Thing "The first thing that any man learns when he has to carry heavy responsibilities a long time, he has to learn those points and that type of decision that demand his earning attention and sometimes preparation," Eisenhower commented.

"And the others he has to learn to avoid. He is no executive until he can delegate those to people and stand behind them."

Referring to criticism of his own leisure pursuits, Eisenhower said: "I paid not the slightest attention to it. As a matter of fact, I stopped reading that kind of thing. It didn't bother me for this simple reason: to be in condition—to do the things I needed to do—I just couldn't sit at the desk all the time."

Terrific Decision Eisenhower said Gen. Robert E. Lee, commander of the Confederate Army, "had a terrible decision to make early in the war."

"Mr. Lincoln is supposed to have offered the command of the Union forces to him. Certainly there was some mention made about that," Eisenhower said. "But, Eisenhower said, Lee 'felt that his loyalty was to his state,' Virginia.

Asked if Lee had the quality of aggressiveness that Lincoln looked for in his generals, Eisenhower replied: "Oh, all the time. As a matter of fact, the history of the war shows that he'd get so excited in a critical point of a battle that his own men would have to hold him back from getting into the thick of it."

JFK To Honor Lincoln With Civil Rights Fete

WASHINGTON (AP)—Abraham Lincoln, the first Republican president in the White House, will be honored today by the present Democratic occupants with a birthday party keyed to civil rights.

In advance of the party, President Kennedy will receive a special 250-page historians' report on the progress made in civil rights in the 100 years since Lincoln's Emancipation Proclamation.

The President and his wife invited some 800 top officials and civil rights leaders from across the country to a buffet reception at the White House tonight, but banned press coverage of the event.

SEN. KENNETH KEATING

SEN. MIKE MANSFIELD

GOV. NELSON ROCKEFELLER

SEN. HUBERT HUMPHREY

Dems Rip GOP Cuban Charges

WASHINGTON (AP)—The Kennedy administration, under heavy fire from its political opponents, is striking back at Republican critics of its Cuban policies.

In the face of a fresh assault by GOP congressional leaders on "the inept conduct of our foreign affairs by the Kennedy administration," Sens. Mike Mansfield, D-Mont., and Hubert H. Humphrey, D-Minn., have teamed to condemn what they called partisan and irresponsible charges.

Mansfield, the Democratic leader, pointed his guns at New York Gov. Nelson A. Rockefeller and Sens. Kenneth B. Keating, R-N.Y., and Hugh Scott, R-Pa. He told the Senate Monday that "irresponsible public utterances are playing dangerously with the fires of public emotion."

"Frank, candid" Humphrey called on Republicans to make certain that "a rash of charges that cannot be substantiated by facts do not find their way into this chamber" or into the newspapers.

"The people are worried, concerned and indeed confused because of so many conflicting reports," he said. He added that President Kennedy, the Defense Department and the Central Intelligence Agency "have been frank and candid" in disclosing Soviet military strength in Cuba.

Mansfield said Rockefeller was well informed on Latin American affairs but, "I must confess that I looked in vain for a contribution worthy of him" in the governor's comments on Cuba.

Denies Deal Rockefeller has said the administration's disclosures about Cuba left many unanswered questions. He said that while Soviet soldiers and equipment there may not pose a military threat to the United States, they constitute a propaganda, subversive and possible military threat to other hemisphere nations.

Mansfield flatly denied—as Scott had suggested—that there was any deal between Soviet Premier Khrushchev and Kennedy for the removal of American mis-

siles in Europe in exchange for the withdrawal of Soviet missiles in Cuba.

Aimed At Keating In a barb patently aimed at Keating, one of the most vocal critics of the administration, Mansfield told his colleagues he would be the last to suggest that members of Congress know less about matters pertaining to Cuba than the President, the Secretary of State and the Secretary of Defense.

"But I would suggest most respectfully," he said, "that the responsible course which helps rather than hurts the nation would be for these well-informed members to take their inside, unimpeachable information on Cuba to the appropriate departments at the same time that they take it to the press galleries."

Boy Scouts To Help Get Books Back

HEWLETT, N.Y. (AP)—The trouble with since people who borrow books from the public library is, they're not trustworthy. They forget to return them.

The Hewlett-Woodmere public library checked recently and found that 200 delinquent borrowers were holding about 300 books.

In casting about to find some way of getting the books back, the library hit on an eager group that is trustworthy. Also loyal, helpful, friendly, courteous, cheerful and thrifty—the Boy Scouts.

Word \$1,000 Next Saturday, each member of Woodmere Scout Troop 21, armed with a warrant signed by librarian Elizabeth Thomson, will go to the homes of delinquent borrowers and ask for the books.

The library will bill delinquent borrowers for fines later. Mrs. Thomson said the missing books are worth about \$1,000.

She Gets 2 Years For Embezzlement

GRAND RAPIDS (AP)—Thelma Irene Schlienz, 46, of Belding, was sentenced to two years in prison for embezzlement.

Mrs. Schlienz, who pleaded guilty, was accused in a shortage of \$36,242 at the Belding Savings and Loan Association where she had been employed more than eight years as a bookkeeper.

JFK Issues Call For Safeguarded N-Test Ban Pact

NBC Bureau Ordered Out Of Moscow

MOSCOW (AP)—The Soviet government ordered the National Broadcasting Co. today to close its Moscow bureau because of a program about Premier Khrushchev.

The Foreign Ministry's press department called in NBC correspondent Russell Jones and told him to leave the country.

Press director Leonid Zamyatin told Jones that an NBC program Feb. 3 titled "The Rise of Mr. Khrushchev" and another late in January were anti-Soviet.

Anti-Soviet Broadcasts Tass, the Soviet news agency, said: "This step was taken in connection with a recent series of malicious anti-Soviet broadcasts by the National Broadcasting Co. which grossly distorted Soviet reality and had the obvious purpose of arousing in the U.S. population hostility toward the Soviet Union."

NBC has been represented in Moscow by Frank Bourgholtzer since June 1961.

Publishers Doubt Early Settlement

NEW YORK (AP)—Publishers of New York's nine closed newspapers say a contract settlement with 3,000 striking printers "will be extremely difficult if not impossible" to achieve through normal collective bargaining, and "a long test of economic strength appears inevitable."

The Publishers Association of New York City issued the statement Monday night.

The statement also said: "67 Days Ago The publishers hope some way may be found to explore with officials of all unions representing our employees and others to consider our common problem. We all have a deep interest in finding a procedure which will permit resumption of publication of our newspapers and a return to work by all our employees."

Mayor Robert F. Wagner led the more than two-week mediation effort to get the nine major dailies back on the streets. They disappeared 67 days ago.

600 Cubans Expected To Leave For U.S.

HAVANA (AP)—About 600 Cubans are expected to get permission to leave the country aboard the American freighter Santo Cerro, which is unloading medical supplies here, diplomatic sources said today.

Fire Destroys Estate Of William Clay Ford

EAST HAMPTON, N.Y. (AP)—Fire destroyed the palatial summer estate of William Clay Ford Monday. He is a vice president of Ford Motor Co.

Officials estimated the damage around \$150,000 but were not able to find a cause for the four-hour blaze.

'Schnozz' Celebrates His 70th Birthday

MIAMI BEACH, Fla. (AP)—Jimmy (the Schnozz) Durante admitted today he had a birthday—his 70th—"but I don't want everybody to know about it."

The veteran entertainer, interviewed at a hotel where he is appearing, described it this way: "Thank God I had another birthday. Da party? Sure. It was after da show an' they asked me if I didn't want to come in and have some tea. It was a big surprise to me. We had a wonderful time."

"Mrs. Morris Lansburgh (whose husband owns the hotel) gave it. He's in Las Vegas. A few of my friends was there—George Raft, Eleanor Holm, Rocky Marciano, Little Jack Carter, Gene Bayless, Peter Lawford and a lot of others. Nightly Show

I wanted to go four rounds with Rocky, but he wouldn't take me on. Everybody had a lot of fun." Durante does an hour and 15-minute show and keeps going night after night.

Beautyicians Get Tips On Beauty

DETROIT (AP)—Mrs. George Romney, who is a beauty in her own right, offered some homely advice at a meeting of beauticians here.

The wife of Michigan's Governor told the Michigan National Hairdressers and Cosmetologists Association Monday:

"Never serve your husband his meals in curlers or with face cream on your face, for he is the one who cares most about you and you owe it to him to look your very best."

Paraphrasing English poet John Keats, Mrs. Romney declared: "A woman of beauty is a joy forever."

34 Marines Embark On 50-Mile Hike

CAMP LEJEUNE, N.C. (AP)—Brig. Gen. R. M. Tompkins calmly lit a cigarette, took a firm grip on his walking stick and determinedly led 33 other Marine officers away on a 50-mile hike today.

It wasn't exactly the day for long-distance walking, assuming there was any interest in hiking at all. It had rained most of the night, a drizzle was falling as the men shovled off, and rain was forecast during the day.

Everything went off with neat military precision. Maj. George Fox, the official starter, assembled the first group two minutes early. Then as the seconds ran out, he tolled them off, "four, three, two, one, zero!"

"Blast off!" cried an irreverent voice from the rear and the general and five assorted captains and lieutenants, who made up the first group, blasted off for their hike.

The early morning spectacle attracted a covey of watchers headed by Maj. Gen. Frederick L. Wieseman, commanding general of the 2nd Marine Division. Moments before takeoff, he gravely shook hands with Gen. Tompkins, who looked as fit and ready as any man of 51 can.

Curiously, only two wives and one offspring showed up for this great occasion. Carma Hume, the wife of Lt. David Hume of London, Ohio, was there with their 20-month-old son, David Scott Hume. So was Jane Williams, wife of Lt. Ben Williams of Oklahoma City, Okla.

The two wives and David plan to drive along in a station wagon and watch their husbands suffer through their long ordeal. Mrs. Hume even had a motion picture camera to record the event.

But mainly, everything was fairly grim, for this is the day that Marines learn whether they are as physically fit as Boy Scouts, female reporters or Atty. Gen. Robert F. Kennedy.

Kennedy To Meet With Press Thursday

WASHINGTON (AP)—President Kennedy plans to hold a news conference at 4 p.m. EST Thursday. He met with newsmen last Thursday.

Briton Says Allies May Cut Demands

GENEVA (AP)—President Kennedy called today for the conclusion of a safeguarded nuclear test ban agreement that would promote confidence and trust among the nations.

In a message to the disarmament conference, the President also urged the delegates to adopt measures to reduce the risk of war by accident, miscalculation or failure of communication.

His message was read to the conference by the chief American disarmament negotiator, William C. Foster.

British Statement Kennedy said agreement on a test ban treaty "does not lie within any easy reach" but declared that "prospects seem somewhat more encouraging."

Shortly before the conference opened after a long recess Britain's chief negotiator said the Western powers may be willing to scale down still further the number of on-site inspections needed to control a nuclear test ban.

Milestone Hit In Electronic Journalism

NEW YORK (AP)—Automatic tabulation and transmission of the nation's major financial markets was started Monday by The Associated Press. The operation marked a milestone in electronic journalism.

Through the use of an International Business Machines computer, newspapers throughout the country received faster and more accurate tabulations of the closing prices on the New York Stock Exchange and the American Stock Exchange.

10,000 Words A Minute Trading activities were tabulated at a speed of up to 10,000 words a minute and transmission began almost simultaneously with the close of the market tickers. The operation required 10 minutes, compared with 25 minutes when the tables were tabulated and transmitted manually.

The newspapers received the tables by Teletype or Teletypewriter and those using Data Speed equipment got the complete tables at 1,650 words per minute.

Judge Orders Briefs In Suit By Six Airmen

DETROIT (AP)—U.S. District Judge Thaddeus M. Machrowicz ordered briefs from both sides Monday in a suit by six Selfridge Air Force Base enlisted men relating to questions asked them about a \$7.5 million fire at the base.

The six, who claim their constitutional rights were violated by a base board of inquiry's questions, obtained a temporary restraining order last Monday against the board's use of their answers to the questions.

The six plaintiffs said they were questioned without prior benefit of counsel. The air base says the questioning was only part of an investigation of the fire and that there are no charges against the men.

Unemployment Checks Stolen From MESC

WEST BRANCH (AP)—The Michigan Employment Security Commission (MESC) alerted merchants and banks Monday to be on the lookout for 874 blank unemployment benefit checks stolen from the safe of the MESC branch here over the weekend.

MESC spokesmen said he checks run numerically between 39-138627 and 39-139500.

# City To Stand Firm On Use Of Property Near Presque Isle

There'll be no more changes made in property on or in the vicinity of Presque Isle Park for commercial developments or other non-conforming purposes.

This point was made clear by the Marquette City Commission at its regular meeting in the city hall last night, following the receipt of a letter from two residents of the area.

The letter was submitted and the discussion took place as a result of comments made at a special meeting of the commission last week, at which developers of the proposed Superiorland-Frontierland project asked to acquire additional land in that area.

"This just about clears the air," Mayor James R. Smith asserted following the discussion. "There will be no changes made in the area. We want the island (Presque Isle Park) to remain that way."

The Paulis said a municipal boat marina would be entirely in keeping with the spirit and purpose of Presque Isle as a public park and would serve all the citizens of Marquette who might desire to make use of the facilities.

A boat marina in this location would be entirely in keeping with the restrictions of adjacent property, namely the residential area along Lake Shore Blvd., they added.

The Paulis quoted in part from the abstract to their property as follows: "... provided that this land is sold upon the express condition that the same shall never be occupied for other than residential or resort use, and not for any other commercial use or uses."

Mayor Smith said there would not be any negotiations made without giving everyone concerned a chance to speak.

"We drew a line," Commissioner Elmer K. Carlson commented. "As far as the city commission is concerned, we drew a line, and we would have to take other action to change this. We have taken a stand."

Going even further was Commissioner Joseph Fine, who said: "We have acted. Our job is done. We don't even have to discuss this matter. The next step in this development project is up to the developers; let them act."

Carlson added: "We have approved of the harbor committee going ahead with its plans for a marina, and we can't change that."

That's when Mayor Smith declared that the commission "has acted" and that there would be no further changes in the Presque Isle park area setup.

City Attorney Wald A. McCrea said that all but a small sliver of property involved in the discussion has to remain for park or related purposes, and, furthermore, that it is classified as greenbelt, and would have to be rezoned for any Frontierland use.

City Clerk Everett H. Kent said that even the land leased to the Frontierland developers is in the greenbelt area, and would have to be rezoned.

McCrea noted that the marina is consistent with the purpose of the deed for the property.

The Paulis, in their letter, added: "From this, it appears clear that the location of the proposed Frontierland east of Lake Shore Blvd. would not be in harmony with the intent of the original owners."

They said the location of any part of the commercial development on that property, east of Lake Shore Blvd., would be in direct conflict with the marina and the abstract.

"Use of this land east of Lake Shore Blvd. for the proposed Frontierland," they stated, "would serve to detract from Presque Isle Park and the residential area, and also would be an undesirable infringement upon the right of access to the residences of Lake Shore Blvd."

"Therefore, we are unalterably opposed to any change in plans to locate and construct a boat marina east of Lake Shore Blvd. We suggest that other land in the general area be explored for the proposed Frontierland project.

"In addition, location of the proposed project east of Lake Shore Blvd. would represent to use one more project and commercial venture in the general area which we feel infringes on the rights of those living along the lake.

"Already in existence is a power company, which detracts from one of the most beautiful park areas in the nation. Its coal pile along the drive to Presque Isle is unsightly, and this plant frequently emits smoke and fly ash all over the countryside.

"Already an oil company, with its huge transport trucks pound over the road to Presque Isle, and cause a serious traffic hazard to park-goers and residents of Lake Shore Blvd. These trucks are a hazard, particularly to the children who may be bicycling, hitchhiking or playing along the road.

"From one cars parked in the vicinity, a cloud of fine dust from pelletized ore liberally sprinkles window sills, floors and swimming pools with a dirty, black, sand-like deposit.

"In view of this, we wish to express our great appreciation for the opportunity to speak of this current issue before any final decision is made concerning the boat marina."

## Frazier Elected President Of National Concrete Group

Lincoln B. Frazier, president of Campbell Supply Co., Marquette, has been elected president of the National Concrete Masonry Association in Dallas, Texas.

Frazier accepted the gavel of office in ceremonies at the association's recent annual convention and exposition in Dallas, Texas.

Headquartered in Washington, D. C., the National Concrete Masonry Association is comprised of leading concrete block manufacturers throughout the United States, Canada and the world.

The organization's primary functions are to extend the uses of concrete and masonry through development of new and improved products and manufacturing methods as well as to offer technical guidance and education in the proper utilization of these products.

Since beginning his career in the concrete masonry industry 20 years ago, Frazier has distinguished himself in various positions of leadership in the National Concrete and Masonry Association. He served on the association's board of directors for two years, was a member of the executive and management information committees in 1962, chairman of the Concrete Industries Exposition Committee for the exposition recently held in Dallas, and during 1961-62, was NCMA representative on the board of directors of the National Concrete Products Association of Canada.

Prominent in both local and national business and public service organizations, Frazier is currently president of the board of trustees of St. Luke's Hospital here and a director of the Union National Bank of Marquette.

He has served as a director of the American Social Health Association, New York City; vice president of the Michigan State Chamber of Commerce, Lansing, and presidential advisor for Northern Michigan College of Education.

The "of Education" designation was dropped in 1955 when the official name became Northern Michigan College.

In preparing for university status, Northern has strengthened its administrative organization to include a vice president for academic affairs and a vice president for public services, dean of arts and science, dean of education, dean of admissions and graduate studies and dean of students.

Guests at tomorrow night's program will include Marquette Police Chief Donald Hermanson and a representative of the Michigan State Police.

## Activities Of Sea Ship 303, Pere Marquette Scout Area Reported By Chinnery, Smith

Activities of the Pere Marquette District and Sea Scout Ship 303 were described by two speakers at yesterday afternoon's luncheon meeting of the Kiwanis Club in the Clifton Hotel.

Discussing the Pere Marquette (Marquette and Alger Counties) programs of the Boy Scouts of America was R. Ralph Smith, Marquette, executive for the Hiawathaland (Upper Peninsula) Council.

28 In Program  
Speaking on the Ship 303 activities was Don Chinnery, skipper of the ship, which has been sponsored by the Kiwanis Club for

13 years. Kiwanis members of the Sea Scout Ship committee are Charles York, George Burkham, John Vargo and Adorno (Babe) Salani.

There were 28 persons in the Sea Scout program last year, 20 boys, seven leaders and the skipper.

Their activities included three parties, judging signalling work at the Klondike Scout Derby, erecting posters for the United Community Chest drive, assisting in the Air Force search for a missing plane, participating in the Bayjammer Scout event at Menominee, going to the Great Lakes (Ill.) Naval Training Center and to Chicago, a one-week trip to Isle Royale and conducting the Lake Superior Rendezvous here.

Honored At Bayjammer  
At the Bayjammer, a Ship 303 boy was chosen king for the second straight year, Chinnery reported, calling this a "rare honor."

The ship has four boats, a 25-foot surf boat, two sail boats and an outboard motor boat. Last year a marine radio phone was installed on the surf boat, at a cost of \$300.

In the past year the ship's members took in \$2,500 through various projects and spent \$3,100. 1963 Programs Planned  
This year, among other pro-

grams, the unit plans to go to Great Lakes, the Bayjammer in Menominee and Isle Royale and to conduct another Lake Superior Rendezvous.

Smith spoke about the "Business of Scouting" giving figures from 1942 and 1952 reports as compared to 1962 record. The 20-year record of gain in the Pere Marquette District from 420 members to the 1962 record of 1,692 boys registered in Marquette and Alger Counties is a gain of 17 per cent more of available boys being served, Smith said.

To make this gain possible there are 29 more Scouting units in the area.

Rank advancements earned and awarded increased from the 289 in 1942 to 913 in 1962. Registered adult Scouters in 1942 were 154, as compared to the present 479. Hiawathaland Council figures for the 10 year period (1952 to 1962) also were given.

The Kiwanis program was in observance of National Scout Week, Feb. 7 to 13, and was arranged by the clubs' boys' and girls' work committee.

Committee members are Richard R. Bur, chairman, and Richard Angell, Norman Potochnik, Walter J. Norris, Frank Rogers and John Vargo.

## Defant Speaks On Problems Of Juveniles

Probate Judge Michael F. Defant of Marquette will discuss "Juvenile Problems and Detention Facilities" in an address before the Marquette Exchange Club tomorrow night.

He was invited to speak to Exchange Club members as a special feature of the current observance of National Crime Prevention Week. This is the 16th consecutive year in which Exchange Clubs throughout the nation have sponsored the week-long campaign.

Judge Defant has been Marquette County judge of probate since 1959. He has been a practicing attorney since receiving his bachelor of laws degree from the University of Detroit in 1932.

The judge served as public administrator of Marquette County, 1933-35; deputy commissioner of the State Department of Labor and Industry, 1936-38; a member of the Michigan Conservation Commission, 1941-43, and city attorney for Negaunee, 1933-34 and 1940-48.

Guests at tomorrow night's program will include Marquette Police Chief Donald Hermanson and a representative of the Michigan State Police.

New Name Would Be NMC's 5th  
Northern Michigan University would be the fifth name-change at Northern since 1899.

Northern originally was established as the Northern State Normal School. In 1928, after four-year programs leading to the bachelor of arts and bachelor of science degrees had been adopted, the name was changed to Northern State Teachers College.

In 1941, Northern became Northern Michigan College of Education. The "of Education" designation was dropped in 1955 when the official name became Northern Michigan College.

In preparing for university status, Northern has strengthened its administrative organization to include a vice president for academic affairs and a vice president for public services, dean of arts and science, dean of education, dean of admissions and graduate studies and dean of students.

Guests at tomorrow night's program will include Marquette Police Chief Donald Hermanson and a representative of the Michigan State Police.

## Legion Post Backing Second Mardi Gras, Slated Feb. 23; Parade, Reception Scheduled

Richard Jopling Post of the American Legion, originator of Marquette's first Mardi Gras, has given full support to the Marquette Mardi Gras committee and its staging of Marquette's second annual Mardi Gras celebration.

In keeping with the tradition of the final "pre-lenten" social activities, a spokesman for the Marquette Mardi Gras committee announced today that the second annual Mardi Gras celebration will be held on Saturday, Feb. 23rd.

This year's celebration, which has been designed to follow the lines of a social-civic event, will begin with a royal luncheon for King Rex, his queen and attendants, after which they will proceed to Northern Michigan College, where they will meet with the college's all-events queen and candidates, tour the ice statues and return to the NMC Student Center lounge for a radio, press and television interview.

After leaving the college campus, the "royal party" will proceed to a social hour and then on to Cliffs Ridge ski hill where it will again meet with Northern's all-events queen and party, and officially begin a torch-light parade sponsored by Cliffs Ridge.

To climax the evening, King Rex and his party will then proceed to the Northwoods Restaurant, for a reception and dinner, and then on to the Marquette National Guard Armory for the Royal Coronation Ball. The only

change from last year's ball, will be the denial of intoxicating beverages inside of the armory.

King Rex will be chosen from K. I. Sawyer Air Force Base and his queen is being chosen by the Marquette Mardi Gras committee. Their names will be announced in a few days.

The Mardi Gras committee also announced that any profits from this year's celebration will be divided with 50 per cent going to the National Foundation, and the balance distributed accordingly.

## Veterinarians Of U.P. Hold Meeting Here

Twenty-two veterinarians attended the quarterly meeting of the Upper Peninsula Veterinary Medical Association held at the Northland Hotel this week.

Dr. Leonard Vader, Escanaba, is president of the U.P. Association and Dr. David Engstrom, Marquette, is secretary.

Main speaker was Dr. Charles Reed, East Lansing, assistant to the dean of the veterinary school at Michigan State University.

Other speakers were Dr. Thomas Millerick, Saginaw, president of the Michigan association, and Dr. Jack Quinn, Lansing, State Veterinarian with the Department of Agriculture.

## City Police Ticket Driver In Accident

Two automobiles were damaged and a motorist was ticketed, but no one was hurt in a traffic collision here last evening.

City police said a car being driven south on Division St. by Florence N. Brisson, 102 Furnace St., was struck by a vehicle operated by Raymond P. Hutter, 1432 Presque Isle Ave.

Officers said the mishap occurred at 6:30 p.m. in the 700 block, while she was attempting to make a left turn into a private driveway and he was attempting to pass her car. She had the directional signals on, police added.

Improper Overtaking  
The left front fender and bumper of the Brisson car, a 1948 four-door sedan, and the right front fender of Hutter's automobile, a 1962 four-door sedan, were damaged. Both cars were driven from the scene under their own power.

City police ticketed Hutter for improper overtaking and passing.

Frank P. Sciotto, city sanitarian, displays some of the live ammunition recovered by one of the city garbage collectors in a refuse container in Marquette. Sciotto warned that disposal of ammunition in garbage containers is illegal.—(Mining Journal photo).

## Garbage Can No Arsenal, Sciotto Warns

Garbage cans are not arsenals and live ammunition should not be discarded in them, City Sanitarian Frank P. Sciotto warned homeowners today.

Sciotto said that during recent weeks live ammunition, ranging in caliber from .32 to .35 millimeter U. S. Marine Corps rifle shells have been discovered from refuse containers in the city.

"Such situations are not exactly the safest for the garbage collectors," Sciotto said, "although we don't know whether the employee would be in jeopardy in handling this type of material."

"However, it is only common sense to be careful with any type of explosive, and the utmost precaution must be exercised in either the storage or disposal of such materials."

Big danger, of course, could be in the explosions which result in the burning of garbage at the city dump, it was pointed out.

Sciotto noted that only those materials commonly classified as garbage or refuse may be stored in a garbage container (in accordance with Section 2.1-A, of the city code).

**Ammo 'Not Garbage'**  
"Live ammunition in no way should be construed as being garbage or refuse material," Sciotto said.  
He added that the health, safety and welfare of the citizens of the community are primarily the responsibilities of everyone and that "each person should understand that all appropriate measures of safety should be taken."

## U.P. Power Co. Bid To City Withdrawn

As was announced in an advertisement in The Mining Journal last week, the Upper Peninsula Power Co. has withdrawn its offer of purchase power to the City of Marquette.

John H. Warden, Houghton, president of the power firm, said that at the time his company made the proposal last Oct. 4 to the city to furnish the power requirements for the city, the proposal was "made in good faith with a firm belief that such purchase would make a substantial saving to the city in the cost of its power supply."

He added that the company is still of this opinion, but that in

## Guilty Pleas Made By Five At Opening Of Circuit Court

Pleas of guilty were accepted from five defendants in criminal arraignments held before Judge Phillip J. Glennie, Alpena, in the opening session of Marquette County Circuit Court here yesterday.

Judge Glennie also postponed three criminal arraignments to allow defendants time to consult with attorneys.

Judge Glennie is presiding during the regular term of circuit court because of the death Jan. 28 of Judge Carroll C. Rushton. He is judge of the 26th judicial circuit, which includes Alpena, Montmorency and Presque Isle Counties.

Guilty pleas were accepted from: Wade Atkins, 22, formerly of K. I. Sawyer Air Force Base, charged with writing no-account checks.

Ronald B. Walker, 18, Detroit, formerly of 108 Gries Hall, charged with felonious driving.

Roger K. Hoskins, 26, Ishpeming, charged with larceny from a dwelling.

Raymond Naylor, 59, Ishpeming, charged with drunk and disorderly—third offense.

Mrs. Martha Schupp, 24, Trowbridge Park, charged with writing no-account checks.

**Sentencing Next Monday**  
Sentencing for Atkins, Hoskins and Naylor was scheduled for next Monday at 9:30 a. m. Walker will be sentenced by Judge Glennie Feb. 21.

At the request of Mrs. Schupp's attorney, John J. Walsh Jr., Marquette, Judge Glennie said that her sentencing would be held at the earliest convenient time.

Atkins was arrested in April in Escanaba for writing no-account checks. He was released on \$500 after being returned to Marquette.

**Warrant Was Issued**  
When Atkins failed to appear for arraignment during the May term of circuit court, a bench warrant was issued for his arrest.

Atkins was apprehended by sheriff's officers in Houston, Tex., Jan. 24, where he was being held on a Federal Bureau of Investigation warrant for unlawful flight to avoid prosecution.

He is represented by John E. McDonald, Marquette attorney, and is being held in the Marquette County Jail.

Walker entered a plea of not guilty to the arrested driving charge during the September term of circuit court, but changed his plea to guilty yesterday. His attorney is McDonald.

Walker was released on \$1,000

bond after his arraignment in Marquette Municipal Court. He was arrested by city police following a traffic mishap which occurred Nov. 28 near the southwest corner of N. Seventh St. and Lee Hall Drive.

Walker failed to negotiate the left curve onto N. Seventh St. and his automobile struck three women pedestrians who were walking in an area off the street.

Hoskins pleaded guilty to a charge of larceny of \$100 from the residence of Clarence Hill in Ishpeming, where he also lives. He was released on bond at his arraignment in Ishpeming Municipal Court Dec. 12.

**Being Held in Jail**  
Naylor, held in the county jail in default of bond, was arrested by Ishpeming police for being drunk

and disorderly at the Mather Inn on Dec. 28. He was previously arrested on the same charge Sept. 27 and 28.

Mrs. Schupp, represented by Attorney John Walsh, was arrested Jan. 29 by sheriff's officers and charged with cashing a no-account check for \$15 at the Red Owl Store in Marquette. She was released on her own recognizance at her arraignment in municipal court here.

**Arraignments Delayed**  
Arraignments were postponed for the following defendants:

Darrow D. Wright, 23, Flint, formerly of 3190 Lake Shore Blvd., Marquette, charged with forgery;

Joe Solorio, 21, Sawyer Base, charged with indecent liberties;

Agnes St. George, 54, charged

with being drunk and disorderly—third offense.

Wright appeared with his attorney, George T. Kendrick, Marquette, who said that he had been retained earlier yesterday morning and asked for time to consult with his client before an arraignment.

Wright was arrested Dec. 24 by city police for forging a check, made out to himself, with the name Elizabeth G. Perrault, of Mohawk, Mich., as the payer. He is free on \$100 bond.

**Solorio is being held in the county jail in default of bond. He was arrested Jan. 26 by state police in Forsyth Township, for taking indecent liberties with a nine-year-old girl. Judge Glennie appointed Rob-**

ert M. Bordeau, Marquette, as his attorney.

**Previous Charges Noted**  
Mrs. St. George is being held in the county jail in default of \$100 bond. Kevin Sheard, Marquette, was appointed as her attorney. City police arrested Mrs. St. George Jan. 28 on Rock St. for being drunk and disorderly. She was previously arrested Nov. 21 and Dec. 19 on the same charge.

### ORIGINATED CUSTOM

The custom of wearing bridal veils originated with the ancient Greeks who thought the veil would be a protection for the bride against evil spirits flying about during the marriage ceremony.

# To The Interested Citizens of Marquette

Many of you have expressed a desire to vote on the city power bond issue. You signed a petition asking for this right.

It is regrettable that two things occurred: one, that many, after signing, bowed to pressure and coercion and asked that your names be removed from these petitions, and, two, that so many citizens of Marquette forfeited their right of citizenship by remaining indifferent to the issue and disinterested in the future well-being of our community.

It is regrettable, too, that the efforts of a group of citizens, seeking only to preserve for the citizens their right of expression, should find their efforts met with such an emotional opposition from a closed-minded public body put into office to represent all the people. Undue pressures have no place in democratic procedures.

What is important is that we ACT NOW to re-dedicate the thinking of our citizens toward a constructive attitude regarding their own responsibilities; that we seek to correct impressions that official Marquette is opposed to business that we bring together all the people in a common effort to develop to the full the great potentials that lie within our community.

We repeat our original stand: wouldn't it have been better had the two plans—the U. P. Power proposal and the city's program—been made known to the people? Wouldn't it have been better had there been opportunity for public discussions of these plans?

The Citizens Committee for Power Information has been concerned only with the principle of hearing BOTH sides—it is a matter of regret this has been denied the people. We must continue to contend that the people are being rushed into a multi-million dollar decision without knowing what the alternatives are.

We therefore withdraw, with dignity, from our efforts. The petitions for a referendum are being recalled and their circulation cancelled. We find here a tragic parallel to the fact that citizens' rights are being recalled and cancelled through their own indifference and their apparent disinterest in the vital issues.

We feel, regardless of the outcome, a costly community mistake has been made.

the crossover between the opposite lanes of traffic.

### Speed Law Violation

Officers said the Heim car had almost gone completely onto the crossover when it was struck by the automobile operated by Voelz, who had just passed another car and came up behind Heim.

Extensive damage occurred to the right front of Voelz' car, a 1957 coach, and to the left rear of Heim's automobile, a 1962 station wagon. Both cars had to be removed from the scene by wreckers.

State police issued Voelz a summons for violation of the basic speed law.

"This discord and emotionalism which have occurred as a result of the attempt to give the people a chance to vote on the bond issue are certainly not to the best interest of the company, the city or anyone else concerned, and, based upon this feeling, the company wishes to withdraw its proposal of Oct. 4."

Warden added that at any time in the future that the city wishes to purchase energy from the company it is sure that it can arrive at a mutually satisfactory arrangement.

Mayor James R. Smith, at last night's city commission meeting, asked City Clerk Everett H. Kent to write to the company and acknowledge the receipt of the letter and to thank the company for it.

## Two Autos Wrecked In Area Crackup

Two automobiles were wrecked in a smashup which occurred yesterday afternoon in Marquette and which was investigated by state police.

No one was injured, but a motorist was given a ticket, in the wreck, which took place at 5:45 p.m., on U.S. 41, west of County Road H.H.

State police said an automobile being driven west on U.S. 41 by William Voelz, 41, of 410 Euclid St., Ishpeming, smashed into the rear end of a vehicle operated by Norbert Heim, 54, Green Bay, as Heim was making a left turn on

# Soil District Heads Update Plans Here, Set Demonstration

Marquette County Soil Conservation District directors met yesterday in the county courthouse here to update the district's program.

The revised program will make it possible for the district to sign an agreement with the U.S. secretary of agriculture to make the broadened features of the federal department available to the district.

The initial Marquette County Soil Conservation District (MCSCD) program was drafted in February 1956, but directors stated that the limited objectives are no longer adequate.

New responsibilities in farm forest development, development of recreational facilities on private lands, rural and community development programs and the enhancement of fish and wildlife resources prompted the modernization of the initial program.

# Complexity Of Yule Tree Raising Cited

Your 1962 Christmas tree has probably long since been discarded. But it passed through a lot of well-planned steps from field to living room.

Raising and selling trees has become far more complex in the last 20 years," Roy E. Skog, Marquette, Michigan State University extension forester for Upper Michigan, reports.

"Improved quality is a main reason for this trend." Better trees are available every year, and this is no mere accident.

Plans were made yesterday for a timber handling and management demonstration which will be sponsored by the district. The demonstration will be held on Saturday, March 23, at the Gannon Lumber Mill and at the Cliffs Dow Chemical Co. plant in Marquette.

Lawrence C. Ewing, Chocoley Township soil district chairman, said that the demonstration will feature several types of timber handling equipment and a tour of the operations at Cliffs Dow. About 250 persons are expected to attend.

Arvid A. Bergdahl, Skandia Township, soil district treasurer, reported that the Union National Bank of Marquette will purchase a tree planter and donate it to the district.

It is expected that the planter will stimulate an increase in tree planting throughout the district, he added.

Thaddeus Pivowar, Marquette, U.S. Soil Conservation Service conservationist, reported that a soil and water conservation plan has been completed on the land of Roy Fletcher Jr. and Henry J. Bothwell in Powell Township.

Directors unanimously approved applications for assistance from Norbert Kamann, Wells Township; Edward L. Pearce, Chocoley Township; Lynn Keast, Sands Township, and the Ishpeming Beagle Club, Ely Township.

# Harden Assails Limitations On Admissions To Colleges

Dr. Edgar L. Harden, president of Northern Michigan College, said today the "right to try should be given full consideration in any attempt to determine who should go to college in this country."

Speaking at a meeting of the Association of State Colleges and Universities in Chicago, Dr. Harden deplored "the ruthless approach to college admissions based upon an IBM score, rank in class, or some other arbitrary device to sort and grade students."

He said he agreed with Dr. Virgil Hancher, president of the State University of Iowa, that "proof of ability is in the trial of it."

**In Democratic Tradition**

The right to try, Harden said, "is the basis of our democratic tradition. Lotus D. Coffman, one of our greatest university presidents, emphasized this point when he said 'the democratic method of guidance recognizes the right to try, knowing full well that industry sometimes succeeds even when high intelligence is lacking.'

"If college education is to be only for the select, then it becomes alien to the spirit which gave birth to public education and the state universities. Let the state universities set themselves up as class institutions, and the support which they have received hitherto will quickly vanish; and out of the soil which gave them birth, other institutions will rise to take their place."

Discussing admission standards, Dr. Harden said "some of us take great pride in the fact that our institutions admit only the 'upper third' of the high school graduating class.

"Yet every study reveals that differences among schools vary as much as differences among individuals. The upper third from one

high school class might be poorer than the lower third from another high school class, yet we take great pride in our selectivity."

**'Inclusive Not Selective'**

Harden said he was "firmly convinced that in the long run, American higher education will become more inclusive rather than more selective. Studies show that 69 per cent of the children below the age of 18 are expected to go to college, according to their parents."

The question of who goes to college will not be decided by educators alone, he said.

"In the final analysis, the decision will be made by society," he added. "And in the United States, the decision will be to educate the many rather than the few. Thus, in planning for the future, we must develop ways and means of maintaining both quality and quantity in our education programs."

# Five More Worker Training Programs In Peninsula Announced

Approval of seven new programs in Michigan to train 191 unemployed or underemployed workers under the provisions of the U. S. Manpower Development and Training Act of 1962, including five in Upper Michigan, were announced today.

Secretary of Labor W. Willard Wirtz said the programs are located in the following labor market areas of the state: Two in Delta and Schoolcraft Counties, one in the Ishpeming-Marquette area, two others in the Upper Peninsula, and one each in Metropolitan Detroit and Calhoun.

In support of the new training projects, the U. S. Department of Labor has allocated \$126,067 in subsistence payments for the workers involved, and the U. S. Department of Health, Education and Welfare has approved training costs of \$98,908. The total cost for these seven programs will be \$224,975.

In the projects in the Upper Peninsula at large, 25 lumber graders and 20 cooks (entry) will be trained. Twenty-four machine tool operators (entry) and 20 welders, combination (entry) will be trained in the two Delta and Schoolcraft Counties labor market areas.

**Bulldozer Operators**  
In the Metropolitan Detroit project, 30 station house attendants (police cadet) will be trained.

**The Ishpeming - Marquette program provides for the training of 36 bulldozer operators (entry).**  
In the Calhoun labor market area, 36 nurses aides — orderlies will be trained.

**Total Of 30 Programs**  
These seven training projects make a total of 30 programs that have been approved in Michigan since the enactment of the new

manpower legislation on March 15, 1962.  
About 843 Michigan workers are now either in training or have completed assigned courses, and total expenditures thus far approved for their programs stand at \$1,336,849.

## Request Made For Water, Sewer Mains

Eight residents of the McClellan and Grant St. areas last night petitioned the Marquette City Commission for the installation of water and sewer mains in Grant St.

The petition was ordered referred to City Manager Thomas Moore for a study and report back to the commission.

Mayor James R. Smith also asked Moore to remind residents of the city's deadline for receipt of requests for public improvement projects for the coming construction season.

Several years ago the commission designated the last Monday of March as the deadline for the filing of such petitions.

The commission was notified that, on request of Chief of Police Donald C. Hermanson, a "yield right-of-way" sign has been installed on Pine St., at E. Ridge St., thereby giving Ridge St. traffic the right-of-way at that junction.

Commissioner Joseph Fine observed that one major accident occurred at that corner last week and that in the past a number have, due, in part, to the absence of a traffic control sign.

The commission, at its meeting last night, also ordered payment of bills totaling \$117,611.28, including \$41,435.83, which was for the net city payroll, and \$3,114.95, which was the net Peter White Public Library payroll.

**Bills Proposed To Regulate Stamp Firms**  
LANSING (AP)—Proposals aimed at stiffening state control over the operations of trading stamp companies are in the works in both houses of the legislature.

A bill that would require trading stamp firms to be licensed by the state, and to post surety bonds for the protection of consumers and retailers, was filed Monday for introduction in the House.

The bill, sponsored by Rep. Lucille McCullough, D - Dearborn, with bi-partisan support, followed the introduction earlier of an almost identical bill in the Senate by Sen. Charles Blundy, D-Detroit.

Both pieces of proposed legislation are based on the findings of Atty. Gen. Frank Kelley's investigation of the collapse last year of the Merchants Green Stamp Co., of Detroit.

**'Reasonable Regulation'**  
Mrs. McCullough said the House bill is designed to provide "reasonable regulation of trading stamp companies . . . with the best interests of the consumers, retail-

## Formal Opening Of New A. & P. Supermarket Being Held Today

Formal opening of the new Great Atlantic & Pacific Tea Co. supermarket at the corner of S. Third and W. Spring Sts. is being held today. Shown cutting the ribbon this morning at the store is the first customer to appear. From left are Bonnie Lass (Mrs. John Tolonen); Harold Malr, manager of the A. & P. Store, Mrs. Susan Haslit, 407 W. Michigan St., the first customer at the store, who was presented with some roses; Joseph Sauter, Milwaukee, supervisor of A. & P. stores for this region, and A. E. Richards, Milwaukee, general superintendent for the A. & P. stores. The store measures 130 feet deep by 100 feet in width and was constructed by the Menze Construction Co. Inc., of Marquette, for the F. & R. Corp. of Marquette. The store is leased to the A. & P. It has 13,000 square feet of main floor space and 6,000 square feet of basement space. The adjacent parking lot holds over 110 cars. F. & R. Corp. is owned by Maxwell K. Reynolds Jr. and Lincoln B. Frazier of Marquette.—(Mining Journal photo).

ers and companies themselves in mind."  
The proposed legislation would empower the Michigan corporation and securities commissioner to issue and revoke licenses annually. All companies would be required to post performance bonds conditioned on redemption of stamps collected and presented for redemption.

The bond would be used to satisfy claims in cases of default by a company.  
When the Merchants Green Stamp Co. went bankrupt it left several thousand persons in the Detroit area, Southeastern Michigan and Northern Ohio holding worthless stamps. Hearings are still being held in the case.

**Speed Limit**  
In another bill introduced in the House Monday, Rep. Adam Sumneracki, D-Detroit, proposed that a 45-mile-per-hour minimum speed limit be imposed on all state freeways. A similar bill was introduced earlier in the Senate.

A Senate bill introduced Monday night called for a supplemental appropriation of \$1,200 for a salary increase for the chairman of the state public service commission for March, April, May and June of this year. The measure, sponsored chiefly by Sen. Stanley Thayer, R - Ann Arbor, also would increase the chairman's annual pay from \$13,500 to \$17,000.

**Other Bills**  
Other Senate bills would: —increase the number of circuit court judges in Washtenaw County from one to two (Thayer). —Open up a quail hunting season during the last five days of the annual pheasant season in the counties of St. Joseph, Branch, Hillsdale, Lenawee, Monroe, Wayne, Washtenaw, Jackson, Calhoun, Kalamazoo, Eaton, Ingham, Livingston, Oakland and Macomb.

Hunters would require the written consent of the property owners and be limited to four quail per day and 12 in any one season (Robert).  
Colorado is the only state of the Union bounded by four straight lines.

## Three Jailed, Six Fined By Justice

Three persons were ordered to spend terms in the Marquette County Jail and six others were ordered to pay fines and costs totaling \$80.50 by Justice George J. Fezzy in Marquette Township Court.

Otto E. Borchert, 21, of Route 1, Box 741, Marquette, was committed to the county jail for 10 days for simple larceny.  
**Took Electric Pump**  
State police arrested Borchert Jan. 27 for taking an electric water pump from the residence of Eldon Rivord, in Chocoley Township on Jan. 22.

Raymond Baker, Hotel Bar, Negaunee, was ordered to spend five days in the county jail for being disorderly. Sheriff's officers made the arrest at Bell Memorial Hospital in Ishpeming.  
Robert Edwin Berry, Route 1, Marquette, received a two-day jail sentence for improper lane usage. Alternative sentence was to pay a fine of \$5.70 and costs of \$4.30. He was ticketed by state police on U. S. 41 in Marquette Township.

**Ticketed After Crash**  
A fine of \$25 and \$5.50 costs were paid by Howard R. Gibson, 20, K. I. Sawyer Air Force Base. State police arrested Gibson on U. S. 41 in Chocoley Township, following an accident in which Gibson's automobile went out of control while he was negotiating a slight curve to the left.

For disregarding a stop sign, Walter F. Williams, K. I. Sawyer Air Base, paid a fine of \$5.70 and \$4.30 costs. State police issued the summons at the intersection of Erickson and Warner Sts. in Marquette Township.  
**Stop Sign Violation**  
A fine of \$5.70 and costs of \$4.30 were paid by Jack D. Wicklund, Crystal Falls, for a stop sign violation. He was summoned by state police on U. S. 41 in Chocoley Township.

Julia Ann Tibbitts, 424 E. Arch St., Marquette, was fined \$3.70 and ordered to pay costs of \$4.30 for improper passing on a curve. State police issued the summons on

## Average Pay For Michigan Teachers Up

LANSING (AP) — The average Michigan teacher made \$6,091 in salary during the 1961-62 fiscal year — an increase of \$192 over the previous year—according to an annual report from the State Department of Public Instruction.

Average salaries ranged, however, from \$7,451 for Detroit's 10,017 public school teachers to \$4,056 for 1,209 teachers in 919 primary districts.

The report also showed that the amount of total school spending devoted to teacher salaries rose slightly from 61 per cent in 1960-61 to 61.7 in 1961-62.  
Dr. Lynn Bartlett, state superintendent of public instruction, said the report indicates Michigan is "moving slowly but surely up the salary scale...to put the teaching profession in a realistic, competitive position."

He noted, however, that among Michigan's 66,000 public school teachers, some 24,000 averaged about \$4,600 in salary and a few primary district teachers earned only about \$3,000.

Following Detroit were districts in the 100,000 to 500,000 population range—Flint, Grand Rapids, Lansing and Dearborn—which paid average salaries of \$6,886.  
**\$6,479 Average**  
Ten cities in the 50,000 to 100,000 population range paid an average of \$6,479. They were Ann Arbor, Bay City, Jackson, Kalamazoo, Pontiac, Royal Oak, Saginaw, Lincoln Park, Livonia and Roseville.

Also above the statewide average, at \$6,715, were 18 cities in the 25,000 to 50,000 population range: Allen Park, Battle Creek, Birmingham, East Detroit, East Lansing, Ferndale, Garden City, Hamtramck, Hazel Park, Highland Park, Inkster, Midland, Muskegon, Oak Park, Port Huron, Southfield, Wyandotte and Grosse Pointe.

Some 54 others under 25,000 population paid average salaries to teachers of \$6,214.

## First Trial Of Term To Open Tomorrow

Juries selected for the February term of Marquette County Circuit Court have been ordered to appear tomorrow morning to be drawn for the first jury trial of the term.

Three other jury trials in civil cases will be held during this term of circuit court before Judge Philip J. Glennie of Alpena.

The first trial, which begins at 9:30 tomorrow morning is an auto negligence case involving Alfred J. Maki, Marquette, vs. Bernard J. Crowley, Marquette.

Maki is represented by the law firm of Cloon and Cloon, Ironwood, and the defendant is represented by Baldwin and Kendrick, Marquette.

**Second Auto Case**  
A second auto negligence case, John Huhtala, etc., vs. Leonard A. Durand Jr., Marquette, will follow. The plaintiff is represented by R. S. Kolvunen and the firm of Humphrey and Humphrey, Ironwood, represents the defendant.

Third jury trial will be Peter Caton, represented by the firm of DeFant and Bridges, Negaunee, vs. Louis and Donald Heberd, represented by the Ishpeming law firm of Davidson, Clancey and Hansen. The case involves an auto negligence charge.

The final jury trial is a general civil action, involving the Peynter Equipment Co., represented by attorneys Walsh and Munro, Ontonagon, vs. Alfred J. Saari, represented by the firm of Quinnell and Quinnell, Marquette.

## Tribute Paid To Rushton By Marquette County Bar

A tribute to the late Circuit Court Judge Carroll C. Rushton of Marquette, written by three members of the Marquette County Bar Association, was adopted in circuit court yesterday.

The resolution was written by John D. Voelker, Ishpeming, former Marquette County prosecuting attorney and State Supreme Court justice; George C. Quinnell, Marquette, and Marquette City Attorney Waldo A. McCrea. McCrea read the citation in court.

It follows:  
Carroll Rushton's life is an inspiring story of handicaps overcome and of goals achieved. He died on Jan. 28, 1963, less than a week after his 64th birthday, following a long and harrowing illness which if courage alone could have cured would have spared him to us still today.

**Served In Army**  
As a gangling boy in his teens he misrepresented his age so that he might enlist in the Army, and he served with valor in France and Germany during World War I, many of his comrades falling all about him.

**Serving also in the Army of Occupation and discharged from the Army at an age when most young men are finishing college, he nevertheless completed his preliminary schooling and, largely by his own efforts, went on to college. Later he taught school and coached with high distinction, at the same time studying law, a profession which he always loved and respected.**

Admitted to the bar in 1936 he was thereafter appointed assistant prosecuting attorney, resigning that office when, after a strenuous campaign of public instruction, said the report indicates Michigan is "moving slowly but surely up the salary scale...to put the teaching profession in a realistic, competitive position."

There were in fact many Carroll Rushtons, but to all his roles in life he brought a quiet distinction, a sensitivity and tact, a warmth and gentleness, and withal a gusto for living, so that in his death all of us who knew him are bereaved. He has lost our judge, our friend, our warm and understanding comrade. Not soon again will such another pass this way.

Therefore be it resolved: That this citation in memory of our friend and judge, Carroll C. Rushton, be spread at large upon the records of this court and that certified copies thereof be mailed to the members of his family.

paigned, he was elected probate judge, in which office he served honorably and well for 18 years.

Several times he won citations for his perception and humanity in handling his many duties, especially in the juvenile division of his court.

**Circuit Judge In 1959**  
In 1959, again after a strenuous campaign, he was elected circuit judge, a goal to which he had aspired all his adult life. During his service on the bench he continued the fine tradition of dignity and wisdom and industry with which our circuit has long been blessed.

He was also well on his way to the presidency of the Michigan State Bar when his judgeship obliged him to discontinue all outside activities.

**Loved Outdoors**  
But Mr. Rushton was far more than a fine lawyer and judge; he was also a well-rounded human being. While the law was perhaps his first love, he loved also the outdoors, in all its manifestations.

As a life-long fly fisherman he was a consummate artist, a zealous gatherer of wild mushrooms, and a perceptive student of all wild life. He loved also good music and amateur cookery, and he was perhaps his happiest when he could entertain a group of friends and himself prepare for them a steak or cook his fish and mushrooms over an open fireplace.

There were in fact many Carroll Rushtons, but to all his roles in life he brought a quiet distinction, a sensitivity and tact, a warmth and gentleness, and withal a gusto for living, so that in his death all of us who knew him are bereaved. He has lost our judge, our friend, our warm and understanding comrade. Not soon again will such another pass this way.

Therefore be it resolved: That this citation in memory of our friend and judge, Carroll C. Rushton, be spread at large upon the records of this court and that certified copies thereof be mailed to the members of his family.

## A sure cure for insomnia

You've heard the joke, "The best cure for insomnia is a good night's sleep." Not funny to someone suffering "white nights," but true, nonetheless. Too-frequent use of sleeping pills can be bad. Even if they do not cause true addiction they may have a strong psychological effect. Users sometimes come to depend on them. So sleeping pills—any kind—should be taken only when a physician prescribes, and only in the amount directed.

## Lincoln's Immortal Words

This year marks the centenary of the crucial year of the Civil War—1863—the year which saw the long-awaited Emancipation Proclamation and the decisive battles of Gettysburg, Vicksburg and Missionary Ridge.

Lincoln's Birthday will be somewhat overshadowed by observances of these and other events that took place 100 years ago. One of the greatest of these—in human, not military, terms—was Lincoln's address at the battlefield at Gettysburg on Nov. 19, 1863. It may not be amiss to anticipate this observance and to recall some of Lincoln's immortal words as we note the 154th anniversary of his birth.

The address, a masterpiece of the English language, contains a mere 260 words, yet 10 times that number could not have expressed more, could not have more eloquently summed up the immense human struggle the nation was engaged in.

Indeed, Sen. Edward Everett, one of the outstanding orators of the day, who preceded Lincoln on the platform and spoke for two hours, later wrote to Lincoln: "I should be glad if I could flatter myself that I came as near the central idea of the occasion in two hours as you did in two minutes."

Every schoolboy knows the opening words: "Four score and seven years ago..." But it is the closing words that speak directly to each new generation of Americans:

"... we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of

freedom—and that government of the people, by the people, for the people, shall not perish from the earth."

Too often, too many of us tend to think that government exists solely for the people, forgetting that unless it is representative of all citizens and regulated by the people in their capacity as voters, it becomes a tyranny for the benefit of the few.

But the 100 years that have passed since this darkest-brightest year in the history of the Union are good proof that the high resolve announced by Lincoln at Gettysburg has been kept by the majority of his heirs.

The nation passed through a great crisis a few months ago. It will not be the last, as far as any man can peer into the future. Let us, on this day set aside in the name of Lincoln, rededicate ourselves to that great "unfinished work," which is the cause of human freedom.

## Men In White Call On Joy

By JOY STILLEY

NEW YORK (AP)—Well, they have come and gone—those men dressed in white. But they didn't take me away. I wish they had. They were the painters.

With hard work, patience and persistence I was able to get the place in order just about the time it needs painting again. Anyhow, it is nice and clean. I can't say the same for me. I am sort of rainbow-striped, with shadings of sandalwood in my hair.

In normal times I am able to walk through a doorway without touching either side. But smear the facings with a little paint and I can't manage to get past without the door and me leaving lasting impressions on each other. Snuggles

I've been informed that it's fast-drying paint, but apparently they forgot to notify the walls of this fact. They smudge me and I smudge them whenever we chance to meet.

I've decided the best thing to do is just sit motionless in a chair until the stuff dries. On second thought, after looking at the mess around here, I may just sit motionless in a chair forever.

Somewhere in all that debris are dishes, and while I may be able to latch on to a couple of restaurant meals on this deal, the time will eventually come when I'll have to find them and start using them again. Handcap

Even so, I'll be operating under a handicap. The can opener may not come into view for weeks.

I thought I had emptied the cabinets in a scientific sort of way—putting the contents of each one in a separate box. But they must have played fruitbasket turnover while my back was turned. The measuring cups are now in with the shoe polish and the pancake mix is chumming it up with the detergent.

I tried to fix a hamburger, but I couldn't find the salt. We have a whole carton of it, dozens of shakers full, garlic salt, onion salt, seasoning salt, and even a 10-pound bag of it we got when we visited a salt factory. But not a grain in sight.

Worst Yet To Come I thought the hard part was getting ready for the painters. Now it looks as though the worst is yet to come.

Anybody got a nice, uncluttered apartment I can move into?

## Historical Irony: Actor Named Booth Saved Lincoln's Son's Life

By DON OAKLEY

History books record that an actor named Booth shot to death a man named Lincoln.

Few history books, however, mention the fact that an actor named Booth once saved the life of a man named Lincoln.

Outstanding Performer The first instance, of course, was John Wilkes Booth's assassination of President Abraham Lincoln in Ford's Theater in Washington, D.C., on April 4, 1865.

In 1865, Edwin Booth at 31 was the outstanding Shakespearean performer of his day. President Lincoln himself once watched him play Shylock at Ford's Theater, remarking that he would rather have read the play at home but went only to see the great actor.

The name Booth, in fact, had dominated the American stage for decades. It began with Junius Brutus Booth, who came from England, and who had three actor sons: Junius Brutus Jr., Edwin and John Wilkes.

Favorite Of The South John, the youngest, was the favorite of the South, to which he was fanatically devoted—even more than to his dream of eclipsing his brother's fame.

In November 1864, the three brothers had appeared together for the first time and only time in Shakespeare's Julius Caesar at the Winter Garden in New York. Immediately after this, Edwin Booth had opened in Hamlet, and in March 1865 was completing a record run of 100 performances. The city of New York was preparing to present him with a gold medal.

Nation Stunned Anew It was about this time that business took Booth to Philadelphia. At the railroad station platform in Jersey City, a jostling crowd was buying tickets from the conductor. Booth saw a young man, pushed by the crowd, lose his balance and slip from the platform just as the train began to move. Booth dropped his luggage, grabbed the man by his coat collar and pulled him back from probable death.

The grateful young man was Robert Todd Lincoln, the President's eldest son. He was 22, recently graduated from Harvard and soon to take up duties as a captain on Gen. Grant's staff. Grant, learning of the episode last night, offered to do Booth any favor he could.

On April 14, 1865, the fourth anniversary of the fall of Fort Sumter, the nation was stunned anew by the murder of the President. Embittering the common grief was a hatred of the assassin that engulfed the entire Booth family.

Sister Arrested In Boston, the theater in which Edwin Booth was appearing was forced to close. Booth had to undergo a baggage search before he was allowed to leave the city.

In Philadelphia, a U. S. marshal placed a sister, Asia Booth Clarke, under house arrest and her husband was jailed.

Narrowly Escaped Lynching In Cincinnati, Junius Booth narrowly escaped from a lynch mob, was arrested and taken to Washington where he was imprisoned for a time.

In New York, the mother of the Booths prayed that her son, John Wilkes, would not live to be hanged.

Lincoln's death brought out the best and worst in human nature. Stories of his funeral ran side by side with lurid "exposes" on the Booths. Old family scandals were dug up and new ones invented.

A Sea Of Madness Edwin Booth swore he would never appear on the stage again. In the following months, he clung to the memory of his encounter with Robert Lincoln, as one rock in a sea of madness.

The assassination reacted against the whole acting profession, which was still considered something less than respectable. Preachers lamented the fact that Lincoln should meet his Maker in, of all places, a theater—one of those

temples of folly, lewdness and infamy.

Standing Ovation Stagehands and member of the cast at Ford's Theater were suspected of complicity in the crime and were either arrested or required to report daily to the police.

Financial need forced Edwin Booth to forget his vow. In 1866 he returned to the stage as Hamlet in New York. On the night of the play, the theater was jammed by would-be ticket buyers. Extra police stood guard apprehensively.

But when the curtain rose, Booth received a standing ovation. The public trial of the Booth family was over; the verdict was acquittal. A year later, Booth received his postponed gold medal from the city.

Final, Tragic Coincidence Booth wrote to Grant, who had become secretary of war, reminding him of his promise of a favor and requesting that his mother be permitted to claim the remains of her son. Grant did not reply. Not until 1869 was John Wilkes Booth allowed to be buried

## The National Whirligig News Behind The News

By RAY TUCKER

WASHINGTON — Both serious and nonsensical students of government and politics — and the capital campus is cluttered with them since so many Harvard faculty men have responded to the "Ken-

edy brothers' shift" — are discussing the contrast in the only two presidents New England has contributed since Franklin Pierce of pre-Civil War days — Calvin Coolidge and John F. Kennedy.

The thrifty Calvin, who held up the Hoover inaugural parade while Secret Service men searched the White House for a missing pair of galoshes, so the story goes, detected deficits more than he did Democrats. His annual budget tallied about half the current interest on the public debt.

He encouraged, with press conference blessings, the artificial boom in stocks that led to the 1929 crash in Wall St. When his peans to "Coolidge prosperity" did not sustain the market, his cabinet members sang the same Pollyanna tune.

Wide Private Sector Coolidge neglected completely the so-called public or welfare sector of society. Such problems as more schools, hospitals, health, highways to development of natural resources were matters of strictly local and private concern, in his opinion.

To him, "the business of the government was business." No previous President, not even William McKinley, was such an idol to the United States Chamber of Commerce or the National Association of Manufacturers. They did "not choose to run" in 1928, leaving an unhappy legacy to the cabinet member who he called "the wonder boy."

Although not violently pro-anti-labor, for the unions were then too weak to present the problems which they do today, he did enunciate a policy which may require reassertion and implementation by Congress at the current

in the family plot in Baltimore. Edwin Booth died in 1893. As a final, tragic coincidence, on the day of his funeral in New York, three floors of the old Ford Theater in Washington, converted into government offices, collapsed, killing 22 persons.

## Vigorous Weekend On New Frontier

WASHINGTON (AP)—It was a vigorous weekend on the New Frontier. President Kennedy took his wife on three short hikes and Atty. Gen. Robert F. Kennedy walked 50 miles in 17 hours—all in the cause of physical fitness.

Ethel Kennedy, the attorney general's wife, added to the aura of vitality by declaring she'd welcome twins to the busy routine of her family of seven.

But Ethel, who is expecting her eighth child in June, added there is no medical evidence to indicate twins are in the offing.

The one discordant note was of Sen. Edward M. Kennedy, D-Mass. Joan wrote in Look magazine that the President, because of persistent back trouble, can barely pick up his 2-year-old son, Jr.

Reporting that young John now weighs about 35 pounds, the White House said "the President's back is improving but his son is getting heavier."

If President Kennedy's back is slowing him down, this wasn't evident Sunday during his three walks with the first lady.

Kennedy set such a brisk pace that it almost seemed he was training for a 50-mile hike of his own.

Fifty miles became a magic number on the New Frontier after Kennedy learned about a 1906 executive order in which President Theodore Roosevelt proclaimed this distance an appropriate fitness tests for Marine officers.

At the President's suggestion, 20 Marines will take the Roosevelt test at Camp Lejeune Tuesday. On Friday, volunteers from the White House staff and press corps will embark on a similar expedition.

Robert Kennedy jumped the gun on these endeavors Saturday by walking 50 miles from Washington toward Thurmont, Md. The 37-year-old attorney general was accompanied by four aides who faltered before the finish line.

The attorney general reached his destination at 11 p.m., attended a 9 a.m. Roman Catholic Mass the next morning, and then went ice skating.

President Kennedy and the First Lady started their walking binge in New York, where they spent a weekend of theater-going, fancy eating and partying.

After attending a 12:30 p. m. Mass in uptown Manhattan, the Kennedys and her sister, Lee Radziwill, hiked three blocks down Park Avenue to a fashionable French restaurant, Voisin. Lee had to trot at one point to keep up.

The President had a training-table portion of steak at the restaurant and Mrs. Kennedy dined on eggs benedict. Then the threesome set out again, this time walking five blocks up Park Avenue.

Returning to Washington just before dusk, the presidential limousine pulled to the curb about a quarter-mile from the White House and the Kennedys emerged for their third walk. The route lay across the park south of the executive mansion, with the grass soggy enough to present a problem for Mrs. Kennedy in her high-heeled shoes. Kennedy took her arm to help her.

Through all this walking, with temperatures in the high 30s, Kennedy was bareheaded and wore no topcoat. He carried a hat which he waved at startled pedestrians and motorists who were trying him, gave a honk or a holler.

## New Mental Health Program

By PETER EDSON

WASHINGTON (NEA)—President Kennedy's new program to attack the problems of mental health and mental retardation probably will be severely criticized by the thoughtless.

Sample: The New Frontier is driving everybody crazy and now the Administration wants millions of dollars to care for them. The states are handling this now. Keep big government out.

But the economic cost and waste of mental illness and the humanitarian aspect of the President's special message to Congress requesting that something more be done about them are so great they deserve the fullest sympathetic attention.

What's more, Congress in the past has been so lavish in its support of medical research that this new one is apt to pass, for this is a No. 1 neglected health problem, right along with heart disease, arthritis and cancer.

Two Years Of Research Behind the President's message are two years of research.

In 1961 a joint commission on mental illness and health reported on the inadequacy of existing institutions to handle the problem. It found that a fifth of the 279 state institutions are fire hazards. Three-fourths of them were opened over 40 years ago.

The 10-year goal of the President's program is to cut in half the number of mental patients—now nearly 600,000 occupying a half of all available hospital beds.

Since 11 states now are reported to be releasing two out of three schizophrenics—the largest classification of the mentally ill—in six to nine months treatment, this goal would seem to be attainable. Average confinement is now 11 years.

Last October the President's panel on mental retardation reported some five million mildly mentally retarded children and adults in America. Another 400,000 are so retarded they require constant care. Half are kept in public institutions.

Over 126,000 mentally retarded children will be born this year. At least half of these cases could be prevented by improved prenatal and post partum hygiene and education for mothers.

The cost of mental illness and retardation to the nation is now put at \$1.8 billion. It is both too much and not enough.

Cost Difficult To Estimate The cost of the President's new five-year program to treat and cure mental illnesses is almost impossible to estimate from his message or from supplementary data furnished by Department of Health, Education and Welfare. It is conceded, however, that the cost could run to hundreds of millions of dollars more each year until the number of mental patients can be reduced.

Figures may be clarified when the Administration sends to Congress draft legislation on four new bills to carry out the President's program. About \$98 million is included in the President's budget message for the fiscal year beginning next July 1 on mental health programs already authorized.

For first-year operations of the new programs, \$31.3 million will be requested. Of this \$6 million would be for incentive grants to the states to construct three—later to be increased to 10—mental retardation centers. The appropriation request would be increased to \$30 million for the third year.

Other Cost Details For planning comprehensive action to combat mental retardation, grants of \$10.5 million would be asked the first year. This would include a \$10 million increase as first step to doubling within seven years the \$50 million now authorized for child health and crippled children's services.

For expansion of vocational rehabilitation services for the mentally ill and retarded, \$5.8 million would be asked on top of existing grants of \$88 million to the states for all vocational training.

These three programs are only starters. For the next fiscal year, beginning July 1, 1964, requests would be made for the construction of several hundred community health centers to treat mental illness. Some would be additional wings on existing institutions, others would cost up to \$2 million apiece.

## Views Of Others

ZOOT-SUITED IVAN

As a Harvard man, President Kennedy now has grounds to feel he's getting through to the Russkies. A Russian newspaper has officially decreed the Ivy League look for male attire for everything from troika rides to vodka parties.

However, our President may be shocked to see the illustrations of what Russians conceive to be casual wear among New England's cloistered intellectuals. Included are snake-eye kicker shoes, derby hats, no-cuff pants bottoms and a walking stick.

That wasn't a Harvard University year-book that the Soviet spy took home. It was a 1922 Sears Roebuck mail order catalog. —Detroit News.

MEREDITH AT MISSISSIPPI

If Mr. Meredith is forced to quit, Mississippi's segregationists will have bought a little time, perhaps. But there will be other such applicants, and the sooner Ol' Miss and Mississippi reconcile themselves to the new order, the sooner they will be admitted to the respect of their fellow Americans. The capacity of Mississippians, not the capacity of Mr. Meredith, has thus far been found wanting in this case. —Portland Oregonian.

ACTION AND REACTION

Burglars are reported to be using walkie-talkies to maintain communications with look-outs while cracking safes, and so forth. We suppose burglars reason that if the cops can use them so can the robbers. Action and reaction. —St. Louis Post-Dispatch.

SCIENCE AND RELIGION

There can be no conflict between science and religion. Science is a reliable method of finding truth. Religion is the search for a satisfying way of life. Science is growing, yet a world that has science needs, as never before, the inspiration that religion offers. —Arthur H. Compton.

"Strange Interlude," Eugene O'Neill's drama in which spoken words and unspoken thoughts are woven into an intense romance, and which, on the stage, proved one of the most revolutionary plays in the history of modern drama, will be shown again today and tomorrow in the Delft Theatre.

This town has rather more than the usual dramatic talent, one suspects, and takes more than ordinary pleasure in things theatrical, so the Grayeater lyceum course number this week will be one of more than ordinary appeal. Morsels Wonderful To Use In All Kinds Of Recipes; Here Are Some To Try Out

Yes ma'am. The kids love 'em. And so do the grown-ups. Besides, they'll all love you for using them. What are we talking about? Nothing other than semi-sweet chocolate or butterscotch morsels.

During the recent Susan Lowe Cooking School there were demonstrations of the latest variations in using morsels in baking. Some of the most tempting recipes suggested at the school follow:

- QUICK 'N CREAMY SEMI-SWEET CHOCOLATE FUDGE**  
2 cups sugar  
1 1-3 cups evaporated milk  
1 12-ounce jumbo package (2 cups) semi-sweet chocolate morsels
- Combine sugar and evaporated milk in a 2 1/2 or 3-quart saucepan. Place over moderate heat and bring to a full rolling boil, stirring constantly (about 4 minutes). Boil 5 minutes, stirring constantly. Remove from heat; add chocolate morsels and stir until smooth. Turn into a buttered 8-inch square pan; chill, then cut into squares. Yields about 2 pounds.
- PEEKABOO BON BONS**  
1 cup soft butter  
1 cup sifted confectioners' sugar  
2 cups flour  
2 teaspoons vanilla  
3/4 teaspoon salt
- For the cookie mixture combine and beat till creamy the butter and sugar. Add gradually the flour, vanilla and salt blending well after each addition. Chill until firm enough to handle. Shape into balls, using a well-rounded teaspoon of dough for each. Chill until filling is prepared.
- CHOCOLATE FILLING**  
1 6-oz. package (1 cup) semi-sweet chocolate morsels  
1 teaspoon butter  
1 cup finely chopped walnuts  
1-3 cup sweetened condensed milk  
1 teaspoon water  
1/2 teaspoon vanilla
- Melt the morsels and butter over hot (not boiling) water. Remove from water and stir to blend the walnuts, condensed milk, water and vanilla. Shape into balls, using a level teaspoon of filling for each.
- Preheat the oven to 350 degrees. To combine, flatten ball of cookie mixture and place ball of filling in the center. Bring cookie mixture up around filling, leaving a little of the filling showing. Roll quickly into ball again. If desired you can roll in finely chopped walnuts.
- Continue like this with remaining cookie mixture and filling. Place on ungreased cookie sheet. Bake at 350 degrees for 12 to 14 minutes. Yield: approximately 5 dozen.
- "FEATHERED" FRENCH CHOCOLATE CAKE**  
4 eggs, separated  
1/4 cup water  
1 teaspoon vanilla  
1 teaspoon orange flavoring  
1 cup sifted all-purpose flour  
1 teaspoon baking powder  
1 1/4 cup sugar, divided  
1/2 teaspoon salt  
1/2 teaspoon cream of tartar
- Combine egg yolks, water and flavorings. Sift together flour, baking powder and 3/4 cup of the sugar. Add to egg mixture and mix well. Beat egg whites with remaining 1/4 cup sugar and cream of tartar until stiff peaks form. Fold into chocolate mixture. Bake in a greased 13 x 10 x 1-inch pan for 25 to 30 minutes. Cool. Cut in 2 x 1 1/4-inch bars. If desired, sift confectioners' sugar over top. Makes about 5 dozen.
- EASY CHOCOLATE SQUARES**  
1 6-oz. package (1 cup) semi-sweet chocolate morsels  
2 cups finely crushed graham cracker crumbs  
1 1/4-cup can (1 1/4 cups) sweet-
- baking powder and 3/4 cup of the sugar. Add to egg mixture and mix well. Beat egg whites with remaining 1/4 cup sugar and cream of tartar until stiff peaks form. Fold into chocolate mixture. Bake in a greased 13 x 10 x 1-inch pan for 25 to 30 minutes. Cool. Cut in 2 x 1 1/4-inch bars. If desired, sift confectioners' sugar over top. Makes about 5 dozen.
- FRENCH BUTTER FROSTING**  
1 cup butter  
1 12-ounce jumbo package (2 cups) semi-sweet chocolate morsels, divided  
1 1/2 teaspoons vanilla  
1 1/2 teaspoons brandy flavoring  
4 cups sifted confectioners' sugar
- 1/2 cup evaporated milk  
Cream butter. Melt 1 1/2 cups of the semi-sweet chocolate morsels over hot (not boiling) water. Remove from heat; cool slightly. Add to creamed butter; stir in flavorings. Gradually add sugar, stir in evaporated milk. Beat until of spreading consistency. Use remaining 1/2 cup morsels for feather garnish. Yield: one cake.
- FRUIT CHOCOLATE CHEWS**  
1 1/4 cups sifted flour  
3/4 teaspoon soda  
1 1/2-cup package dates, chopped (1 1/4 cups)  
3/4 cup brown sugar, packed  
1/2 cup water  
1/2 cup butter  
1 tablespoon grated orange rind  
1 6-ounce package (1 cup) semi-sweet chocolate morsels  
2 eggs  
1 cup orange juice  
1 cup chopped walnuts
- Preheat oven to 350°F. Sift flour with soda and salt; set aside. Combine dates, brown sugar, water and butter in large saucepan. Cook over low heat, stirring constantly, until dates soften (approximately 10 minutes). Remove from heat. Stir in semi-sweet chocolate morsels; beat in eggs and orange rind. Add dry ingredients alternately with orange juice. Blend thoroughly after each addition. Stir in walnuts. Spread in well-greased 15 x 10 x 1-inch pan. Bake in a moderate oven, 350°F., for 25 to 30 minutes. Cool. Cut in 2 x 1 1/4-inch bars. If desired, sift confectioners' sugar over top. Makes about 5 dozen.
- CRISPY FUDGE BARS**  
1 6-oz. package (1 cup) semi-sweet chocolate morsels  
1 1/2 cups flour  
1 teaspoon baking powder  
1/2 teaspoon salt  
1/2 cup butter or margarine  
1 teaspoon vanilla  
3/4 cup brown sugar  
3/4 cup finely chopped walnuts  
3/4 cup coarsely chopped walnuts
- Melt the morsels over hot (not boiling) water. Start heating oven to 350 degrees. Sift flour, baking powder and salt together. Stir butters, vanilla and salt. Add dates and brown sugar. Mix in dry ingredients.
- Add melted morsels and finely chopped nuts. Press evenly into ungreased 13 x 10 x 1-inch pan. Sprinkle coarsely chopped nuts over the top and press in gently. Bake in moderate oven (350 degrees) for 18 to 20 minutes. Cool. Cut in 1 1/2-inch squares. Makes approximately 40.

Hot Sandwich Scores Hit At Sunday Supper

Preparing supper on Sunday evening sometimes can be a bigger task than dinner unless you are ready to come up with a filling hot sandwich.

Quick to dispel the feeling of a makeshift meal is this Sunday Supper Sandwich which calls for leftover pork or beef roast. All you need do, actually, is toast a few slices of bread and make this cheese sauce, spiked with zesty-fresh seasoned green olives.

A dish of fruit, some cookies and glasses of milk are all the go-togethers need to complete a satisfying, wholesome supper.

Sunday Supper Sandwiches

- Sauce:** Melt 1/2 cup butter in fry pan. Stir in 1/4 cup flour, 1 teaspoon salt, 1/4 teaspoon pepper, 2 tablespoons tomato paste and 1 tablespoon horse-radish. Gradually add 1 1/2 cups homogenized milk. Cook over moderate heat, stirring constantly, until thickened. Add 1 cup grated natural cheddar cheese and 1/2 cup sliced Spanish green olives and cook until cheese is melted.
- To make sandwiches, spread 6 slices of toast with prepared mustard and arrange in a flat baking dish. Cover with slices of cooked pork or beef. Pour sauce over sandwiches. Broil under moderate heat until lightly browned and bubbly. Serve hot.

Niemi-Kassmann

(Photo by Maki Studio)

NEGAUNEE — Nuptial vows were spoken Saturday afternoon, Feb. 2, at K. I. Sawyer Air Force Base Chapel by Mae Judith Niemi, daughter of Mr. and Mrs. Ernest Niemi, and Airman 1-c Robert Francis Kassmann of K. I. Sawyer Air Force Base. Airman Kassmann's parents are Mrs. Daniel Keough and Aloysius Kassmann of Buffalo, N. Y.

Officiating at the four o'clock ceremony was Lt. Col. Boleslaus Karpowicz, Catholic chaplain at Sawyer. The bride's father gave her in marriage.

Mrs. Theodore J. Valeski of Gwin was her sister's only attendant and Airman 1-c Eugene Furey of K. I. Sawyer Air Force Base was best man. Seating the guests were Airman 1-c Thomas Hand and Airman 1-c Phillip Lawrence, both of Sawyer.

**Cousin Soloist**  
Soloist for the service was Vernon Larson, the bride's cousin, who sang "On This Day, Oh Beautiful Mother."

The bride's wedding gown of white lace over taffeta was fashioned with fitted bodice featuring a mandarin collar and long tapered sleeves and the full skirt was ballerina-length. Her fingertip veil was secured to a band of net trimmed with pearls and she carried a crescent-shaped bouquet of red roses and white carnations.

Mrs. Valeski wore a red chiffon dress over taffeta with draped neckline and full skirt and a headpiece to match. She carried white feathered carnations.

Mrs. Niemi attended her daughter's wedding wearing a navy blue dress with pink accessories and a corsage of pink roses and white carnations. Mrs. Keough wore a dress of Copenhagen blue with cocoa accessories and her flowers were also pink roses and white carnations. Mrs. John Larson Sr., the bride's maternal grandmother, wore a green dress with matching accessories and a corsage of white and pink carnations.

**Reception For 200**  
A reception for 200 guests was held in the Richmond Township Community Building following the ceremony. The rehearsal dinner was served Friday evening at the home of Mr. and Mrs. Valeski in Gwin.

The bride is a graduate of Negaunee High School and has been employed here by Bannan Cleaners. The groom graduated from Hutchinson Central High School in Buffalo before entering the U. S. Air Force.

Following a wedding trip to Niagara Falls and Buffalo, Airman and Mrs. Kassmann will reside in New Swanzy.

Out of town guests were Eugene Kassmann, Mr. and Mrs. Daniel Keough and Shirley DeGeorge, all of Buffalo.

Bishop Noa Says Unity Progressing

NORTH LAKE — The Most Rev. Thomas L. Noa, bishop of the Catholic Diocese of Marquette, told a crowd of 125 persons Sunday evening in a slide-illustrated lecture at St. Pius X parish hall that the Ecumenical Council called by Pope John XXIII has "created an atmosphere of friendly relations and understanding among Christians the world over."

Bishop Noa, who was among 2,800 dignitaries of the Roman Catholic Church attending the preliminary sessions of the council, which opened Oct. 11 and was recessed Dec. 8, said that the concave, greatest religious gathering of the century, has pointed up "our mutual desire to learn about and to better understand one another's beliefs."

**Introductory Given**  
In an introductory to the bishop's lecture, the Very Rev. Msgr. Edmund C. Soika, assistant chancellor of the diocese and pastor of St. Pius X Church, explained the general nature and purpose of an Ecumenical Council and recounted that the present one, the twenty-first in the history of Christendom, had attracted the attention of Christians throughout the world.

Bishop Noa described the workings of the council, which met daily from 9 a. m. to 12:30 p. m. in St. Peter's Basilica. Each session, he said, was prefaced by the celebration of Mass. The daily enthronement of the Book of Gospels was an indication, he said, of the council's "great respect and reverence for the Word of God."

The bishop told his audience that records of attendance and voting were recorded by electronic machines and that each of the prelates at the session had complete freedom to express his views. Non-Catholic observers who did not understand Latin, the language of the council, were provided with translations of all data discussed each day and there were continuing translations of matters on each day's agenda for their benefit.

**'Just A Beginning'**  
Bishop Noa noted that the two-month session was "just a beginning," and that during the recess until deliberations are resumed Sept. 8, there is an intense study going on of material to be gone over at the council's reopening.

The bishop mentioned discussions of proposed changes in the liturgy of the Mass which would allow greater use of native languages rather than Latin, and said that there was much time devoted to talks about the sources of revelation.

Following the bishop's lecture, which was arranged by the Holy Name Society, there was a reception, also in the parish hall, at which members of the parish Altar Society served.

Announcement Made Of Lynch-Healey Nuptials Dec. 29

# McLouth Steel Giving Up Interest In Bunker Hill; Same Threat At Mather

ISHPEMING — The Mining Journal learned today from the Cleveland-Cliffs Iron Co. that the McLouth Steel Co. has served notice that it is giving up its 50 per cent interest in the Bunker Hill Mine at the end of 1963. The mine will be closed at that time unless steps can be taken to upgrade the product and find new customers.

The company stated that much the same danger exists at the Mather Mine. Bethlehem Steel Co. has advised Cliffs that it is giving serious consideration to withdrawing from the Mather Mine.

AFL-CIO, H. C. Swanson, Ishpeming, manager of Michigan mines for Cliffs, emphasized the gravity of the situation and said that the solution must be found within the next few months.

Underground mines have long been the mainstay of Michigan's iron ore production. At the close of World War II, Cleveland-Cliffs alone operated nine of these mines in Michigan. Today it operates only three and at a rate considerably below their designed capacity.

By upgrading and improving its underground ores. An ore improvement plant was constructed at Eagle Mills and began processing ores from the Mather and Bunker Hill mines in 1957. Last year, 1,185,945 tons moved through this plant, which employed 70 men.

In 1953, plans were completed to mine the Bunker Hill, Maas and Athens properties through the Bunker Hill Shaft. Peak production from these properties was 1,207,096 tons in 1953. In 1962, production was down to 734,467 tons with 278 men employed.

The Mather Mine is owned jointly by Cleveland-Cliffs and Bethlehem Steel, as equal partners in the Negaunee Mine Co. The first production from the property came from the "A" Shaft at Ishpeming in September 1943. In 1947 development of a second shaft at Negaunee was started. This "B" Shaft first produced ore in 1950. The Mather Mine has been regarded as one of the most modern underground iron mines in the world and is one of the largest.

In 1953, as the market for direct shipping ores began to fall off, Cleveland-Cliffs took steps to meet the competition. The Mather Mine has been regarded as one of the most modern underground iron mines in the world and is one of the largest. Each shaft had a designed capacity of one and one half million tons annually. The Mather has never operated at full capacity.

Both the Mather and Bunker Hill mines have additional reserves which would permit their continued operation if the ore could be sold.

## Eight Pay Fines, Costs In Negaunee

NEGAUNEE — Six drivers ticketed by city police and two by state police for violations of the state motor vehicle code entered guilty pleas when they were arraigned before Judge William Haupt in Negaunee Municipal Court.

State police ticketed Waino Franti of Covington for traveling too fast for conditions and Edsel Hietila of Painesdale for parking on the main traveled portion of the highway. Franti paid a fine and costs amounting to \$8.70, while Hietila was ordered to pay a \$3 fine and \$2 costs.

## \$647 Netted At Two Alger MOD Dances

MUNISING — Hub Pereaault, chairman of the Alger County March of Dimes, announced today that two events held over the weekend netted a total of \$647.55.

A dance and 50 per cent of the receipts at Bailey's Bar in Grand Marais Friday night amounted to \$97.55, while proceeds from the "Night of Bands" at the Forest Inn, Munising, totaled \$550. The dance here was attended by a crowd of 280 persons.

Football autographed by members of the Green Bay Packers were raffled off at both affairs and were won by Mike Bouth, Munising, and Carol Purpie, Grand Marais.

## Good Neighbors Plan Public Card Party Feb. 21st

ISHPEMING — A public card party will be given by the Good Neighbor Club at 8:15 Thursday night, Feb. 21, in Vasa Hall. Persons making up tables are asked to call HU 6-6563 or HU 6-9236. Lunch will be served.

Since the club was organized in 1915, it has endeavored to help needy families and less fortunate people, as well as remembering shut-ins.

To raise funds, card parties and rummage sales are held. Donations also have been received from persons interested in the work.

NEGAUNEE — Mrs. Joseph Gambotto, 75, of 206 E. Clark St., suffered multiple fractures of her right leg and arm when she was struck by a car driven by Russell A. Jennings, 59, Lakeview Location, at 8 Saturday night.

Mrs. Gambotto was crossing the intersection of Teal Lake Ave. and Case St. when she was struck by the Jennings car which was traveling north on Teal Lake Ave.

## Trebilcock Director Of 'Volunteers'

ISHPEMING — William Trebilcock, proprietor of the Ishpeming Greenhouse, is one of 22 new members named to a continuing board of directors of Romney Volunteers, a state-wide volunteer organization backing Gov. Romney's programs.

Mainly independents and Democrats supporting Romney, the Volunteers built a membership of more than 60,000 during last year's election campaign, according to John T. Dempsey, Detroit, chairman.

At a meeting with the Governor, local leaders voted unanimously not to disband, but to stay active through the spring election to work for adoption of the new state constitution.

According to Dempsey, expansion of the board will serve two purposes: (1) New members will reflect geographical sentiment and advice to state headquarters in Detroit, and (2) each will serve as official liaison to and from counties and districts in his or her area.

Close local contact can thus be maintained and better service to all units is envisioned.

Besides Trebilcock, the list of new members of the board of directors includes two others from the Upper Peninsula: Mrs. David Foster, Sault Ste. Marie housewife, and William L. Johnson, Ironwood radio station owner.

"The Volunteers have launched a campaign geared at explaining how Michigan will gain efficient, economic, equal and excellent government through the proposed constitution," Dempsey said. "They've come out with 'Yes' buttons, calendars and pens now available from local units as well as state headquarters at 1407 Industrial Building in Detroit. They're also sponsoring a state-wide essay contest with prize trips to Lansing to receive a plaque from Gov. Romney."

## 16 Fined, One Jailed In Ishpeming

ISHPEMING — Sixteen persons paid fines and costs amounting to \$78.10 in Ishpeming Municipal Court while one man was sentenced to serve 60 days in the county jail on a charge of being drunk and disorderly.

Sent to jail was Ennio Rankinen, Ishpeming, who previously had been assessed costs of \$5.10 on a similar charge. Another arrest for being drunk and disorderly prompted Judge Fred Berg to impose the jail sentence.

A champion man, Ralph Warner, paid costs of \$7.30 for fishing without a license. He was apprehended by Conservation Officer Earl Anderson.

In one traffic case, Louis Tasson, Ishpeming, entered a plea of innocent. Judge Berg found him guilty, ordering payment of a \$5 fine and \$7.30 costs on a charge of failure to yield the right-of-way, but granted him time to appeal the conviction.

Others fined were: John H. Karvonen, 332 E. Division St., \$3.70 costs; Yvonne O. Deloma, 749 Maurice St., \$3 fine and \$3.70 costs; George Olmstead, Route 1, Champion, \$3.70 costs; Homer Sexton, Manistowish, Wis., \$3.70 costs; Patrick F. Carrow, Cheboygan, \$3 fine and \$3.70 costs, all for failure to yield the right-of-way.

Richard W. Nicholas, 414 Marquette St., improper use of registration plates; Oliver J. Chantelois, Box 21, Michigamme, no valid plates on vehicle; Robert B. St. Amour, 519 D St., no valid license plates, and John A. Marra, Ishpeming, defaced license, each \$3.70 costs.

Jackie M. Kangas, 213 W. Ely St., costs of \$3.70, and Susan Jo Luoma, 771 White Ave., \$3.70 costs, both for traveling too fast for conditions.

Richard K. Ninnis, 436 Greenwood St., \$3 fine and \$3.70 costs, failure to have car under control.

## Death Takes John Kompisi In Negaunee

NEGAUNEE — John Kompisi, 76, of 518 County Road, died suddenly at 1:30 this morning. He was stricken in his home and was pronounced dead on arrival at Bell Memorial Hospital.

Mr. Kompisi was born May 1, 1886, in Jalas Jarvi, Finland, and had been a resident of Negaunee for more than 50 years. He formerly owned and operated the Kompisi Bakery here.

Survivors are his wife, Mary; two daughters, Mrs. Thomas (Ingrid) Anderson of Negaunee and Mrs. Waino (Gladys Mae) Karhi Jr. of Ishpeming; a son, Leslie of

## Negaunee Compiles Excellent Utilities Collection Record

NEGAUNEE — An outstanding record in collection of utilities accounts was compiled by the City of Negaunee for the fiscal year ending Dec. 31, Manager Leonard Harris revealed Monday.

Surveys made by utility billing clerk Evelyn Conradson show that a 100 per cent collection record was maintained for the water utility, while electric utility losses amounted only to \$124.

"This collection record is amazing in view of the fact that we have 2,100 light and 1,800 water accounts," Harris said. "Our electric utility had account total of \$124 represents a loss of .04 of one per cent on a total billing of approximately \$250,000.

"Responsible for the delinquent account total were 11 transient families, and these accounts will be turned over to a service bureau for an attempted collection. We will correct this situation in the future by re-fitting a meter de-

posit of \$15 for transients." Harris noted that the present delinquent total is a drop in the bucket compared with a delinquency in excess of \$20,000 which existed several years ago in the electric utility. He also pointed out that increased emphasis on collections has resulted in reducing considerably the personal property tax delinquency during the past year.

There are known to be about 40,000 kinds of fish.

# Alfred Johnson, Ishpeming Barber 71 Years, Dies At 94

ISHPEMING — One of Ishpeming's oldest residents, Alfred Johnson, 94, who was a barber for 71 years and operated his own shop for 87 years, died Saturday night in the Marinette, Wis., General Hospital, where he had been a patient for three days.

Living in Ishpeming for 76 years, Mr. Johnson was a popular figure, as his accounts of the "old days" were related to the thousands of customers and friends who passed through the door of his shop over the years.

He was a member of the Evangelical Mission Church since 1899

and also was a member of the Vaasa Lodge.

Survivors include a nephew, Theodore Loggren of Seattle, Wash., and a niece, Miss Greta Loggren of Manila, The Philippines.

The body is in the Bjork & Zhukkie Funeral Home, where friends may call after noon Wednesday.

Services will be held in the funeral home Thursday at 2 p.m. with the Rev. Robert Larson officiating. Burial will be made in Ishpeming Cemetery.

### L'Anse Golf Club Cannot Get ARA Aid

L'ANSE — Methods of qualifying for Area Redevelopment Administration assistance on the golf course project here were explained by Thomas Angeli, Iron River, ARA field representative, when he met with the Baraga County Planning Commission.

Angeli told the commission that the only way the project could qualify for federal aid is if it were converted from the present private stock corporation into a public facility.

"A golf course by itself is no good," he said. "It would have to be part of a master recreation plan for the area. In order to qualify for ARA money, the project must provide jobs. With the golf course, you would have to base your application on the premise that the course would indirectly create jobs in other tourist related fields, such as motels, restaurants, service stations, and so forth."

The L'Anse Golf Club, a private corporation, has sold 100 shares of stock at \$100 each, for a total of \$10,000. The property has been purchased and preliminary clearing and brushing work has been done last fall.

Angeli told the commission that average golf course costs run about \$10,000 per hole, and added that he doubted seriously if enough money to complete the course could be raised on a private subscription basis. In order to qualify for ARA loans or grants, he said, the property would have to be turned over to some local unit of government—either the county or the township—and the title would have to be set up so the land would remain in public hands.

The application would have to be made through the county planning commission with a local contribution of 25 per cent of the total cost, which must be in cash. The \$10,000 already contributed by members would be credited toward this 25 per cent local money.

County Board Chairman Raymond J. Tembruell again proposed establishment of a county recreation authority, which would manage all phases of public recreation in the county and would have authority similar to that of the county hospital board.

Angeli agreed that such a group could be very effective, adding that it is very important to consider all phases of recreation on a year-round basis when planning additional development.

### Baraga County Board Plans To Cut Tax Rate As Result Of Property Valuation Hike

L'ANSE — As a result of the recent \$5,000,000 hike in state equalized valuation for Baraga County, members of the Baraga County Board of Supervisors have announced their intention to cut millage rates in order to avoid a tax increase.

"There is no justification for trying to collect more than our budgets call for," Board Chairman Raymond J. Tembruell, L'Anse said. "I feel that the county millage can be cut from eight and one-half mills to seven or perhaps to six and one-half. The townships and the schools will undoubtedly go along with a similar millage reduction."

"That way, we can get away from collecting more taxes than we took in last year and avoid raising everyone's taxes."

The \$5,000,000 increase fell mostly in L'Anse Township, where State Tax Commission officials stated they found three and one-half million dollars of additional valuation, mostly attributable to the Celotex Corp. holdings here and the Upper Peninsula Power Co. station. Increases of \$600,000 were added in Arvon Township, \$500,000 in Baraga Township and \$200,000 each in Covington and Spurr Townships.

If the present millage rates remained in effect, taxes in each of the five townships would be raised substantially, with increases of \$25 per \$1,000 in Arvon, \$20 per \$1,000

in L'Anse, and \$10.50 per \$1,000 in Baraga.

Long-Range View By Tembruell  
Tembruell warned: "Suppose Celotex should sell out and get out? Then the valuation would drop, but the entire burden of supporting the schools, county and townships would fall right back on the people, and then the taxes would really climb!"

If the figures provided by the State Tax Commission were placed on the rolls and all other valuations left the same, the taxes of two major industries, Celotex Corp. and Pettibone Michigan Corp., would soar to twice their present rate.

Nobody worked any harder than I did to get Celotex on the rolls at an equitable figure, but, by the same token, I'm going to fight just as hard to keep from crucifying them with taxes," Tembruell declared.

He reported the situation to officials of the Michigan Economic Development Commission in January, seeking their help in "working on ways and means of keeping industry here once we get it." He also stated that a plywood firm had expressed great interest in locating in L'Anse late last year, but had decided against it because of what they termed unfavorable power rates, tax rates and labor costs.

Sunday Closing  
In other business the board turned thumbs down on a proposal to require all county business establishments to close on Sundays. During the last sessions of the Legislature, a law was enacted which is to become effective March 27, requiring that all business establishments remain closed on Sunday, unless there is a county board resolution to the contrary. Prosecuting Attorney F. Hubert Mather was asked to draw up a resolution to the effect that Baraga County should not be affected by the provisions of the statute.

The board voted to contribute \$400 to the Baraga County Dairy Day committee, to pay the remaining expenses from the August, 1962, celebration. Such a contribution has been ruled legal by the state attorney general, since the Dairy Day program is sponsored by a state-supported agency and the event is county-wide in scope.

Robert P. Brown, Baraga Township supervisor, reported that the Baraga Township Board had contributed \$700 to the event this year. The majority of Baraga County farmers are residents of Baraga Township.

Dr. Eric A. Bourdo, Baraga County chairman of Michigan Week, named a three-man commit-

### Miss Quinn 'Homemaker' Title Winner

NEGAUNEE — Miss Anne E. Quinn, daughter of Mr. and Mrs. Clayton Quinn, Teal Lake Location, Negaunee, is the winner of the 1963 Betty Crocker search for the American "Homemaker of Tomorrow" at St. Paul's High School, it was announced Monday. She thus becomes eligible for one of 102 scholarships with a total value of \$110,000.

Having scored first in her school in the knowledge and aptitude test on homemaking given to senior girls in December, Miss Quinn's paper has been entered in competition with those from other high schools in Michigan for state honors. The state "Homemaker of Tomorrow" will be named in the spring.

### 5 To Attend Co-Op Meet From Trenary

TRENARY — A delegation of five persons from Trenary will attend the district meeting of Central Cooperatives, Inc., to be held in Gladstone Wednesday night. They are William Hytinen, manager of the local Co-Op; Toivo Niemi, Edgar Williams, John Savola and Arthur Saari.

Meetings are held annually, in each of the big regional cooperatives' 11 administrative districts in Michigan, Minnesota, Wisconsin and the Dakotas," Hytinen said. "Nominees are selected for the board of directors of CCI from among candidates of local cooperatives such as ours, reports are given by the regional management and board on the past year's business operations of both the family of retail co-ops and the regional which they own and operate, and plans are discussed for future cooperative developments."

"This year's agenda has many important points, including suggestions from the CCI that smaller local cooperatives consolidate into multi-store trade area associations, and plans for closer working relations between CCI and Midland Cooperatives, Inc., of Minneapolis."

"Redemption of older issues of CCI common stock held by the local co-ops will also be attended to at the district meetings. CCI pays its patronage refunds to local co-ops in the form of common stock, and the older share issues are redeemed for cash."

Record attendance is expected at this year's district meeting, according to Hytinen.

### Pictured Rocks Park Seen As Precedent Setter; Sandberg Speaks On Managing Forests

EAST LANSING — Privately-owned property and business should both play an important part in the proposed Sleeping Bear Dunes National Park in northwestern Lower Michigan.

William Welsh, administrative assistant to Sen. Phillip A. Hart, made this assertion at a session of the 48th annual Farmers' Week on the Michigan State University campus. Welsh delivered a speech prepared by Hart, who could not attend because of commitments in the Senate.

Principles Listed  
Several principles should help guide the Dunes project, Welsh reported.

First, the park area must be large enough to avoid overcrowding and eventual deterioration. Developments on the park fringe would likely make later expansion difficult or impossible.

Second, the park would fill a great need by guarding some of the state's natural heritage, but that's not all. Services to new tourists attracted by such an area would provide a needed economic boost to the area.

Welsh stated that the proposed Pictured Rocks National Park in the northern Upper Peninsula might set a precedent for other areas. He stressed two aspects of the proposal.

1. It would protect the Lake Superior shore line against spoilage and conflicting uses.

2. It would provide a fine example of "multiple use" woodland management. Recreation access would be combined with systematic tree management and harvest.

Comments By Sandberg  
Also on the day-long rural recreation program, Celotex forester Lynn Sandberg of L'Anse stressed the crucial role of multiple use management in overall Upper Peninsula development.

Sandberg, a native of L'Anse, is a leader in the U.P. Committee on Area Problems.

"About 30 per cent of the U.P.'s vast wooded area is under large-scale private ownership," Sandberg stated. "Until recently, such areas were managed almost entirely

ly for lumber. But recent developments show that timber business and recreation need not conflict."

The U.P.'s population held constant for decades while surrounding areas grew, according to Sandberg. But a multi-million dollar recreation industry is changing that. Superhighways and the Mackinac Bridge place one-fourth of America's people within a one-day drive of the area.

\$1,000 For Pond  
Clifford Humphrys, MSU professor of resource development, stressed that water plays a key role in most kinds of recreation.

"In Michigan, there are 5,300 man-made bodies of water to go along with Mother Nature's 11,000," Humphrys stated.

Farm ponds make up about 4,000 of these. The typical pond covers about 0.8 acres and requires a \$1,000 investment. Uncle Sam often pays part of the initial cost under current, cost-sharing arrangements.

Adds To Farm Value  
"A pond may add \$2,000 to a farm's value," Humphrys stated. "Our recent inventory shows that many ponds provide livestock and irrigation water. However, a majority of the owners emphasized use for recreation and beauty."

In a recent study, Humphrys also found a growing number of full-fledged artificial lakes. He estimated that at least 40 to 50 new ones are now planned or under construction. Such lakes are developed primarily for recreation and residential use.

"In addition, ponds and lakes designed primarily for game and waterfowl improvement cover some 100,000 Michigan acres," the MSU professor added. "Most areas of this kind are designed mainly for waterfowl."

Northern Faces Perils Of Road In Next 3 Tilts With UM-D, Knights, Tech

The Northern Michigan College basketball team will face the hazards of travel again soon. On five of six sorties away from home this season, the Wildcats have met defeat. Coach Stan Albeck's squad, unbeatable at home, has posted a 12-5 record after a blazing start of five consecutive wins. Now, heading into the final stretch of the 1962-63 campaign, Northern will face three of its strongest opponents in six days in enemy territory.

Waiting for the Wildcats are the University of Minnesota-Duluth, St. Norbert, and Michigan Tech. All three bowed to the Wildcats earlier this season in games at Marquette. Tech, Too, Wins At Home Fresh from weekend victories over Calvin, 112-94, and Aquinas, 97-77, the Cats kick-off their road trip Feb. 14 when they invade Minnesota for the rematch with the UMD Bulldogs before journeying to Wisconsin to meet St. Norbert Feb. 16. PGA Ponders Phoenix Play

PHOENIX, Ariz. (AP)—Depending on the weather, front-running Arnold Palmer could win his third straight Phoenix Open Golf Tournament with or without using his clubs. Rain has forced cancellation of the \$35,000 event's final 18 holes for two days in a row. Decide Today Tournament sponsors and the Professional Golfers' Association were to decide this morning whether the Arizona Country Club's desert course was in condition to play and, if not, what to do about the final round. The weatherman was cooperative, predicting the rain would let up today. Consider Tour Delay While waiting to check the course, PGA officials considered the possibility of keeping the tournament in Phoenix until conditions permit playing of the final round. The PGA has a contract to play in Tucson beginning with a program tournament Wednesday. However, PGA traveling secretary Joe Black said Tucson may be asked if they would agree to mark time until the Phoenix tournament is completed. Palmer took the lead in the Phoenix tourney at 13-under-par 203, when he fired an eagle 4 on the 18th hole Saturday. This left his two chief rivals, Gary Player and Jack Nicklaus, a stroke back at 204. They birdied No. 18 Saturday.

Johnny Coulon, 74, Ready To Walk 50 Miles; Former Bantam Champ In Top Shape

CHICAGO (AP)—Johnny Coulon, world bantamweight boxing champion from 1908 to 1914, reached his 74th birthday today and challenged the Washington walking society to a 50-mile hike. The frisky, effervescent little man is a classic example of what a physical fitness program followed through life can mean to a senior citizen. "I see where (Attorney General) Bobby Kennedy walked 50 miles in 17 hours," said Coulon, a rabid Democrat. "He's half my age and apparently in wonderful shape. But I would like for him to call me up and say: 'John, how would you like to walk 50 miles with me?' Bet I could do it in less than 17 hours." Coulon, known as the Chicago Spider in his fighting days, and his tiny, sparkling Irish wife, Marie, have operated a tidy gym on Chicago's South Side for 40 years. Johnny is the instructor, Marie is the matchmaker. She has made well over 25,000 matches, amateur and professional.

Poll Leaders Keep Top AP Hoop Spots

(By the Associated Press) Signs of a slipping crown have appeared in the reigning quartet of Michigan High School Basketball teams. While Benton Harbor, River Rouge and Ontonagon continue strongly to pace their classes, Champion's margin of leadership in Class D was reduced in The Associated Press prep poll results today. The four have led since the first week of balloting. In the sixth week of balloting, The AP's panel of Michigan sports writers and sportscares kept Champion (14-0) on top in Class D, but only by a point over Gallien (12-0).

Howe Ties For NHL Score Lead MONTREAL (AP)—Veteran Gordie Howe of the Detroit Red Wings has zoomed to the top of the scoring race in the National Hockey League. Howe, playing his 17th NHL season, scored five points last week on two goals and three assists and jumped from fifth to first. League statistics released today show Howe and Boston's Johnny Bucyk, the previous week's leader, each have 56 points. Officially, however, Howe is ranked first because he has scored 27 goals to 22 for Bucyk. Jean Beliveau of Montreal is third with 55 points while Frank Mahovlich of Toronto, Stan Mikita of Chicago and Murray Oliver of Boston are tied for fourth at 54. "I don't think much of a crash physical fitness program," said Coulon. "It is something that should be practiced through life. Today, almost everybody else is catching a cab to go two or three miles, I walk. And not to save money. During a day in the gym, I bounce around 10 to 12 miles giving instructions. "We are having a little birthday party in the gym today. I'll get a cake. We can't get 74 candles on it because the fire commissioner said it would be too much of a hazard. "Anyway, I have my own way of blowing out the candles we do have. I stand on my hands and blow them out upside-down. Try it sometime. It's good for the neck muscles." Toronto-born Johnny—who helped teach such fighters as Tony Zale, Barney Ross and King Levinsky—always has worn the stamp of ruggedness despite his size. He stands 4-foot-11 1/2 inches and weighs 108 pounds, the same as in his fighting days.

Badgers Hand Illini First Big 10 Loss

(By the Associated Press) Before the start of the college basketball season, Coach Harry Combes of Illinois optimistically declared: "We're shooting for the Big Ten title, and nothing less than a 14-0 mark will please me." After Monday night, Combes is destined to spend the next five weeks displeased, even if the Illini, fourth-ranked nationally, manage to wrap up the school's first conference title in 11 years. Wisconsin's underrated Badgers came to that by handing the Illini their first league defeat, 84-77 at Madison, Wis. The upset left Illinois with a 14-3 record overall, 6-1 within the Big Ten. Only two other members of the Top Ten were in action Monday night, Mississippi State's Maroons, No. 6, turned back Kentucky 56-32 on their home floor and took a commanding edge in the Southeastern Conference race. Seventh-ranked Colorado bolstered its Big Eight lead with a 71-60 victory over Oklahoma at Boulder. Wisconsin, now 3-4 in the Big Ten, utilized a zone defense in the first half and a stall in the second half to thwart Illinois.

Minnesota's hopes of catching Illinois were jolted by Indiana, 89-77, at Bloomington. The Gophers suffered their third league defeat against five victories. Oklahoma State moved into sole possession of second place in the Big Eight, a game behind Colorado, with a 54-33 verdict at Kansas. U-D Wins DETROIT (AP)—Junior Dick Dziki's foul shooting accuracy sparked Detroit to a 61-58 basketball victory over Iona College of New Rochelle, N.Y., Monday night. Both Prove Cold Both teams shot poorly from the field, Detroit hitting 32 per cent and Iona 30. With 13:40 remaining, the Gales, paced by sophomore Warren Isaacs, pulled ahead of the Titans for the first time 42-41 but Dziki hit a set shot to give Detroit a lead it never relinquished. 9 Straight FT's Dziki's nine straight foul shots in the next 12 minutes gave Detroit a nine-point lead at one stretch. But Isaacs, who led all scorers with 22 points, rallied the visitors back with five points in the last 2 1/2 minutes. John Holland put Iona within a field goal 60-58 at 29 seconds to go. But Al Cech, fouled on the next play, hit one of two free throws to assure Detroit's 11th victory against 10 defeats. It was Iona's fifth loss against nine victories. Dziki led Detroit scoring with 19 points. He and Isaacs shared rebounding honors with 18 apiece.

Lary's First Mound Test Looks Good LAKELAND, Fla. (AP)—Frank Lary, quiet and determined as ever, noded "yes" to the most important question of the Tigers' spring training. Can he make a comeback and resume his status as one of the American League's top pitchers? Heads For Mound Lary's first act after reporting on the field Monday was to head for the pitchers' mound. He threw for some 20 minutes to Gus Triandos. There wasn't a twinge of the shoulder pain that turned a 23-game winner into a two-game winner last season. "I can't feel a thing," said Lary later. "There's no pain in it." "Cost Pennant" "He thinks he is going to be all right," said Scheffing, who considered the injury to Lary the blow that cost the Tigers the 1962 pennant. "Frank hasn't signed his contract yet and that's why I think he's going to be all right. Otherwise, he'd want to sign his contract right away so he'd make sure he'd get some pay." Not Pushing "He was throwing naturally and he didn't do that most of last year," said Pitching Coach Tom Ferrick. "It was his normal delivery. He wasn't pushing the ball." Triandos, a veteran catcher acquired from Baltimore, and Bob Humphreys, a rookie pitcher, joined Lary as new arrivals at the early camp. "Lary is going to be his own boss here," said Scheffing. "He can pace himself just as he wants and when he's ready he'll tell me." April 9 Target Date The big objective in Scheffing's mind is to have Lary ready for the opening of the season April 9. That way Lary can make one start before the first Yankee series. Triandos' appearance also pleased Scheffing. The Tigers hope Triandos can regain his old-time power, forget his .159 average last year and become No. 1 catcher. "Gus looks great and I feel he can help us," Scheffing said.

Hermansville's Hill Hasn't Had Losing Year

Under Coach Don Hill, Hermansville High School hasn't had a losing basketball season in 10 years. Including the present campaign, which finds the Redskins winners of 13 of their 15 starts and ready to grab another championship in the Big Eight Conference. Hill, a Northern Michigan College graduate, went to the tiny Menominee County school (enrollment less than 80) as assistant coach to Bruno Maule in 1952-53. Maule stayed just that one season; but Hill's been there since. It took him a year to get going as varsity coach (his quintet compiled a 9-8 record in 1953-54), but since then not one of his teams have lost more than five games in regular-season competition. Including the 13-2 mark the Big Eight leaders have compiled this winter, Hermansville has a 10-year record of 156 victories and 42 defeats under Hill.

Included are two Upper Peninsula Class E championships, captured in 1957 and 1960. The Redskins were in the runner-up circle another time, losing to Trout Creek in the "E" finals in 1956. None Unbeaten None of Hill's teams ever has quite gone through a season undefeated; two (1956-57 and 1960-61) dropped only one game. For a long time, many thought Hermansville would compile an all-winning record this winter, but the Redskins lost to Felch and Carny late in January by a total of three points. However, they're still considered one of the top Class D outfits and given an excellent chance to make a better-than-average showing in the March tournaments. Hitting nearly 77 points a game (1,151 in 15 games), they're the top scoring outfit in the Peninsula, too. Not Tall At All Not a tall team (none of the regulars or first-line reserves is over 5-foot-11), Hermansville's success this year generally is credited to development by Hill of a 5-9 sophomore, Ron Povolo, to go with his four senior regulars. As a freshman, Povolo laced 277 points; in 15 games this winter he's already reached 270. Veterans on the team, Joe Arnold, Floyd Schoen, Robert Callaro and Robert Smith, all are capable of hitting over 20 points a game—and frequently do. Hermansville goes against Channing Friday night. The "Skins can grab another championship by winning that one, regardless of what Alpha does in its three remaining games. Hill's quintets are in a familiar spot atop the conference; they finished there in a tie with Powers last year after winning it outright the year before. Basketball Tonight Neg. St. Paul At Champion

NEW YORK (AP)—Jack Molinas, a tall, handsome ex-basketball star who once reportedly boasted he'd never be implicated, faces a jail term of 10 to 15 years today for masterminding a \$70,000 fix of college basketball games. In my opinion, you are a completely immoral person. You are the prime mover of the conspiracy and you were the person most responsible. You callously used your prestige as a former basketball star to corrupt college basketball players and to defraud the public, said Judge Joseph A. Molinas, 30, in passing sentence Monday. The sentencing of the 6-foot-6 former Columbia University star and Fort Wayne professional player, along with two confessed bribers, was hailed by Walter Byers, executive director of the National Collegiate Athletic Association. "We are indebted to the energies and efficiency of the law enforcement agencies of New York and appreciate the attitude of the court itself," Byers said. Sentenced with Molinas, who was convicted Jan. 8 on five counts of bribery, were Joseph Hacken, 42, of New York, and Philip LaCort, 39, of Boston. Hacken, described as Molinas' chief lieutenant in the plot to fix 43 games between 1957 and 1961, was sentenced to 7 1/2 to eight years. LaCort, who pleaded guilty to fronting for a Boston gambling group, received 2 1/2 to five years. Aaron Wagman, 29, of New York, who had pleaded guilty to bribing nine players and making \$7 bribe payoffs, received a suspended sentence of three to five years because he spent 23 months in jail as a material witness in testifying against Molinas. He also faces a five-to-10 year term on a Florida conviction for football fixing. Five other former players, Lou Brown, Charles Tucker, Jerry Vo-

gel, Dan Quindazzi, and Dave Budin, received suspended sentences after cooperating with Dist. Atty. Frank Hogan in his investigation. Brown, who has moved from his Jersey City home to Greenville, N.C., formerly played at the University of North Carolina; Tucker, of Yonkers, N.Y., at Kalamazoo, Mich., College; Vogel and Quindazzi, both of Yonkers, N.Y., at the University of Alabama, and Budin at Brooklyn College.

Munising Rider Tops Regional Jr. Jump Meet At Crystella

CRYSTELLA FALLS — Stephen Taff of Munising took longest-jump and most-graceful-rider honors in the Regional Junior Ski Jumping tournament held at Crystella Ski Hill. Entries from nine junior clubs in Wisconsin and Upper Michigan took part in the Central U.S. Ski Association event. Seven Ishpeming jumpers, and three from Munising, were among those earning places. They were, William Polkinghorne, Ray Haglund, Peter Wirtila, Tom Peterson, Rodney Koivula, Robert Jaedecke, Norman DeVold and Robert Polkinghorne. Among the entries received by the Iron County Kiwanis club, sponsor of the event, was that of 14-year-old Peggy Radcliffe, of Munising. Principal judge was Walter Biehl, of Iron Mountain, three-time selection for U. S. Olympic teams and coach of the U. S. FIS jumping team last winter. Dr. Paul Jacobs, of Iron River, former regional Class B champion and Robert Loo, of Crystal Falls, a former rider, were co-chairmen of the event for the Kiwanis club. Thirty riders from the regional tournament here will participate in the 21-state Central Association junior tournament in two weeks at Eau Claire, Wis. From there, 12 will be selected to represent the Central Association in the national tournament. All participants in the tournament were entertained at a dinner Sunday evening, when awards were presented.

Two squeakers and two romps were the order of the night in the Marquette Municipal "B" league. Mel's Sinclairs topped Remillard's 45-33, in the independent basketball opener Monday, after a four-point span had separated the clubs most of the way. Gary Gobert scored 19 for Mel's, while Tom Bullock had 18 in defeat. Shoreland rolled over Larry's Shells, 68-32, as Jim Welsh scored 24. John Dahlke had 17 for Shells. Olympic Lanes trailed by ten, went ahead by three, but couldn't hold the lead as National Guard won, 41-38. Mike Black had 12 for the Guardsmen, Dale Anderson, 26 for Olympics. # Dear Abby...

BY ABIGAIL VAN BUREN

DEAR ABBY: I am 20 and have been engaged to a boy my age for the past year. He plays in four bowling leagues and besides that he bowls jackpots after league twice a week. He never takes me anywhere except to the bowling alley and sometimes I have sat through 20 games a night. We set our wedding date for April, but the more I think of it the more I think he should settle down before we get married. All he wants to talk about is bowling. I wonder if you think he would be a good guy to marry?

**SICK OF BOWLING**  
DEAR SICK: Marriage has enough problems without adding a 16-pound bowling ball to it. Your young man is much too bowling happy for marriage at the moment. Marry him only if you plan to start out with plenty of strikes against you.

DEAR ABBY: Suddenly one of my closest girl friends started acting very cool and distant to me. Twice I asked her what the trouble was. After two frigid "nothings" I realized it was ME she was mad at. Her coolness continued so I finally apologized for anything I might have done wrong. I honestly haven't the faintest idea how I offended her. She continues to treat me like a stranger and I can't understand it as she has always been a very thoughtful and understanding person. What can I do to patch things up?

**MISERABLE**  
DEAR MISERABLE: Nothing! You have overestimated

the girl. No truly "thoughtful and understanding" person would suddenly give a friend the cold shoulder without telling her why and giving her a chance to defend herself.

DEAR ABBY: When a girl asks a boy to a party, is she supposed to pick up the boy, or should he pick her up? Or should they just meet there? Many girls would like to know.

**CONFUSED**  
DEAR CONFUSED: When a girl invites a boy to a party, she is merely asking HIM to be her escort. The boy always calls for the girl.

**CONFIDENTIAL TO "THINK YOU'RE A PHONY"**

### Stroessner Assured Of Five-Year Term

ASUNCION, Paraguay, (AP) — Gen. Alfredo Stroessner was assured of a new five-year term as president. The 50-year-old artilleryman piled up leads as high as 8-1 in unofficial returns from Sunday's election in which women, voting for the first time in Paraguay, easily outnumbered men.
