Ecumenical To Reconvene On Sept. 29

VATICAN CITY (AP) — Pope Paul VI has formally ordered the Roman Catholic Ecumenical Council to reconvene Sept. 29, the Vatican announced today.

An announcement by the Vatican's special council press office disclosed the date and said the text of the order will be sent to Roman Catholic bishops around the 2,560 Expected

More than 2.500 are expected to come to Rome for the assembly, the biggest gathering of Roman Catholic prelates in history. The council was first called by Pope John XXIII to promote the cause of Christian unity.

The council convened last Oct. 11. Pope John recessed it on Dec. 8 until Sept. 8. but it was automatically suspended by Pope John's death. Question

Kennedy's Slap At De Gaulle

By JAMES MARLOW Associated Press News Analyst

WASHINGTON - President Kennedy waited six months until he got to Europe to do an extraordinary job on French President Charles de Gaulle for the damage he had caused the Western Alliance,

In a rough, deliberately planned major policy speech Tuesday at Frankfurt, Germany, Kennedy, with all Europe listening, ripped into de Gaulle for suggesting America might run out on its Allies in case of attack, Harshest Criticism Since War

This was probably the harshest criticism even though Kennedy did not mention de Gaulle by name-that any U. S. president has made on an Allied leader since the war.

This made the relationship between the two men frigid. It was already cold. De Gaulle pointedly had not asked Kennedy to stop off in France on his trip that takes in West Germany, Ireland, Britain and Italy. Of all the days in the year on which he

could have belittled the United States, de Gaulle picked the worst one, last Jan. 14, the day Kennedy delivered his State of the Union message to Congress

Made Words Look Ludicrous

That was an extremely sunny, optimistic Kennedy message which said: "How fares the Grand Alliance? Free Europe is entering into w phase of its long and brilliant history,

De Gaulle made the words look ludicrous before Kennedy got them out of his mouth. The Frenchman held a news conference just a few hours before Kennedy spoke. The timing was no accident, He holds few such conferences.

And, when he does, the questions have to be submitted beforehand. In summary, de Gaulle did these four things: 1. He rejected this country's proposal for

multinational nuclear force and proclaimed his determination to build a separate French nuclear force. Slammed Common Market Door This was exactly what Kennedy didn't

the world and would be encouragement to other countries to do the same. 2. He slammed Europe's Common Market door in Britain's face, treating his British ally

This was a slap in the face. It galled the United States, which resented the suggestion it was trying to run Europe. 4. He complained that while the United

States talked of a multi-national NATO nuclear force for Europe, that force would remain under U. S. control. He hit the mark there. Under law passed by Congress, this government must retain full control of nuclear weapons, deciding whee

ther or not to use them. On April 19 de Gaulle kicked the United States again by suggesting France could not be sure of the intentions of its Allies, much

less of its enemies. In short, from the American view, he had endangered the whole alliance.

Against this background it is understand-Johnson agreed with criticism United States would defend Europe from atsince the power requirements for tential savings to the livestock that some laws are lax, and point tack even if it meant attack on the United

Giving Comfort To Enemies He said Tuesday that "the United States will risk its cities to defend yours because

He went beyond the political and military and called again in most earnest terms for the kind of European economic unity de Gaulle has prevented.

Any former coziness in the Kennedy-de Gaulle relationship is gone.

Their study was supported by an MARC research grant.

Techniques used at Plymouth State Home and Training School for improving the physical condition of severely retarded children were demonstrated by George Andrews, physiotherapist and director of adjunctive therapies. Results of this program at Plymouth have received national attention. Plans Outlined

Skin diving or "free diving" utilizes the mask, fins, and snorkel and sometimes in Lake Superior, an exposure suit

The following are a few points to consider when chosing your gear. Most important of all, choose a mask that fits you. Without using the strap, place the mask over your eyes and nose and attempt to inhale. If it stays in place without sucking air, it fits. Make certain that it has a tempered GLASS lens, a metal band holding it in place, a wide adjustable strap with a strong anchor For best fit and comfort a flexible "skirt" is essential.

In selecting your fins rememnarrow hold on the top spot with ber again that the fit is most ima 6-5 decision over San Francisco. portant. Avoid choosing a fin with dropping the Giants 112 games overlarge flipper area, as it will place undue strain on the beginner's leg and back muscles. The purpose of a snorkel is to

If you are planning to dive in Lake Superior to any depth for any length of time, a water temperature of less than 68°F will require an exposure suit for full enjoyment. A weight helt will be needed to counteract the buoyancy of the suit.

The approximate cost to the beginning skin-diver would be \$4-5 for the mask, \$7-9 for the fins, \$1-3 for the snorkel and if a wet suit (foam neoprene) is needed the cost would range from a "doit-yourself" jacket (\$15) to a ready-made full suit (\$40-50)

Opportunities for the free diver range from rock hunting to spear- of the inning. fishing, to diving off some of the local shipwrecks found in shallow water. He Thought Car Thief Was Parking Attendant

CYNTHIANA, Ky. (AP)-Police returned Ernest Gillispie's automobile to him an hour after it had been stolen from a grocery store parking lot.

Asked why he didn't attempt the thief when the man got into his car, Gillispie shrugged and replied, "I thought he was a parking lot attendant.
